Table of Contents

Glossary	2
Sessional Dates 2019-2020	5
Degrees and Programs: Duration in Years	6
Elective Courses Available To Level I Students	7
Availability of Upper-Level Courses	9
Admission Requirements	13
Application Procedures	24
General Academic Regulations	28
Senate Policy Statements	39
Financial Information	40
Faculties, Programs and Schools	45
Arts & Science Program	45
DeGroote School of Business	47
Faculty of Engineering	60
Faculty of Health Sciences	111
Faculty of Humanities	153
Faculty of Science	197
Faculty of Social Sciences	304
Certificate and Diploma Programs	365
Interdisciplinary Minors and Thematic Areas	375
Course Listings	384
Student Financial Aid & Scholarships	632
Regulations for Aid and Awards	632
Bursaries	634
McMaster Summer Work Programs	676
Academic Grants	678
Entrance Awards	683
Graduating Student Awards	688
In-Course Academic Grants	694
In-Course Awards	700
In Course Awards-Second Degree Eligible	728
Awards for Physician Assistant Education Program	732
Awards for the Michael G. DeGroote School of Medicine	732
Travel and Exchange Awards	733

This calendar covers the period from September 2019 to August 2020.

University Policies

Acceptance of the University's policies (University Policies, Procedures & Guidelines), and changes that may be approved from time to time by the Board of Governors and the Senate, is a condition of being accepted in any capacity in any University-controlled laboratory or program. This includes but is not limited to the McMaster University Intellectual Property Policy <http://ip.mcmaster.ca/>.

Release from Liability

McMaster University reserves the right to change or revise information contained in this Calendar, including the alteration of fee structures, schedules and/or courses. The University reserves the right to limit enrolment in, or admission to, any course or program at any level.

The University will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this Calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the University or by others, civil unrest or disobedience, or any other cause of any kind beyond the reasonable control of the University.

Glossary

Academic Probation

Academic Probation may be assigned to students whose Grade Point Average (GPA) is at least 3.0 but less than 3.5, will allow a student to continue at the University for one reviewing period.

Academic Standing

Academic standing is the statement of the academic performance of a student at the end of Winter or Spring/Summer terms. *Good Standing, May Continue in Program - Academic Probation, May Continue in Program - Program Probation, May Not Continue in Program, May Not Continue in Faculty, May Not Continue at University, Required to Withdraw from University*, are examples of academic standings. See *Academic Standing Review* and *Academic Standings* in the General Academic Regulations for more information.

Advanced Standing/Credit

Advanced Standing/Credit may be granted to an applicant who has completed work at another university or college or who has completed a Certificate/Diploma program at McMaster University, subject to the applicant having met the minimum requirements prescribed by the University.

Antirequisite

An antirequisite is a course which cannot be taken for credit before, after, or at the same time as the course with which it is listed.

Bursaries

Bursaries are granted based upon demonstrated financial need, a minimum expectation of academic accomplishment and, in some cases, other forms of earned merit. They may vary in monetary value, based upon the level of financial need demonstrated.

Continuing Student

A continuing student is a university graduate who is not proceeding to an advanced degree, but wishes to take one or more undergraduate courses after graduation.

Co-requisite

A co-requisite is a course which must be taken together with another course in the same term.

Course Numbers

Course numbers (e.g. 1A03) can be interpreted as follows: the initial digit indicates the Level of the course; the letter(s) in the middle identifies the specific courses within the Level; and the final digit(s) defines the number of units of credit associated with the course.

Credentials

A credential is a body of academic work or collection of course work that stands on its own and for which a parchment is issued. McMaster credentials include certificates, diplomas and degrees. A single course is permitted to be counted toward a maximum of two credentials.

Cross-listed Course

A cross-listed course is a course which is listed under two or more subjects.

Cumulative Grade Point Average (Cumulative GPA)

The Cumulative GPA is the weighted average based on the Graded Units taken throughout the undergraduate career. The Repeating Courses regulation, effective September 1, 2018, will affect the calculation of subsequent Cumulative GPA.

Deferred (DEF)

Notation

Courses with the notation DEF have been approved for a deferred examination.

Degree

A degree is conferred when a student completes a program of study (e.g. Bachelor of Arts, Bachelor of Science Kinesiology, Master of Science, Doctor of Philosophy).

Department

A department is a subdivision of a Faculty, responsible for a particular subject or group of subjects (e.g. Department of Chemistry, Department of Health, Aging and Society).

Elective Courses

Elective courses are those courses taken by a student which are not specifically designated in a student's program, but which form part of the total number of units required to complete the program.

Extra

Notation

Courses designated as "Extra" at the time of registration by the Faculty Office are not included as units toward completion of a student's program. The grades obtained in such courses will not be included in the computation of the Cumulative GPA. However, they will be included in the computation of the Fall-Winter Average and the Spring-Summer Average.

Faculty

A Faculty is a major administrative and teaching unit of the University responsible for programs and courses relating to common fields of study or academic disciplines (e.g. Faculty of Humanities, Faculty of Engineering).

Full Load

A full load is the number of units specified in the Calendar for an individual level of a program in a given year. If the Calendar does not specify the program requirements by individual levels, divide the total units for all levels by the number of levels, discarding the remainder.

Full-time Student

A full-time student, for academic purposes, is an undergraduate student who is registered in at least 9 units in a term, including Extra Courses. Full-time status for students in the Faculty of Science and Engineering Co-op programs is granted to those students registered in at least 9 units in a term.

Fall-Winter Average

The Fall-Winter Average is a weighted average based on the grades attained in the Fall and Winter Terms. Overload courses and Extra courses are included in the Fall-Winter Average.

Grade Point Average (GPA)

The Grade Point Average is the weighted average based on the grades obtained in all courses taken. Failed courses are included in the GPA calculation.

Graded Units

Graded units refer to the number of units taken at McMaster for which a letter or Numeric Grade is earned. Graded units do not include courses assessed with a Non-Numeric Grade.

Honour Lists

Students are reviewed for Deans' Honour Lists (DHL) and Provost's Honour List (PHL) each time a minimum of 30 units (may not exceed 6 units assessed with a non-numeric grade) have been completed. Subsequent assessments are based on all units completed since the previous review. Students will be named to the Deans' Honour List when a minimum average of 9.5 is achieved. Students will be named to the Provost's Honour List when an average of 12.0 is achieved.

Letter of Permission (LOP)

A Letter of Permission is a formal document which allows a McMaster student to take one or more courses at another university for credit towards a McMaster degree.

Level

Level is used to describe a student's progression through a program.

Loans

Loans are monetary advances granted to students currently registered, based upon a demonstrated means and promise of repayment.

Mature Student

A mature student has not attended secondary school or college on a full-time basis for at least two years; and has not previously attended university.

Minors

Students enrolled in a four- or five-level program (with the exception of the Medical Radiation Sciences programs) are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of their degree program. At least 18 units must be completed at McMaster. Students who wish to receive a Minor must consult the appropriate department section of the calendar. McMaster also offers Interdisciplinary Minors and Thematic Areas. To apply for a Minor, students must complete the Minor/Certificate Application in addition to their online Graduation Information Centre (GIC) application. The student's Faculty will verify that the requirements have been met and, if successful, the transcript will indicate that a Minor has been obtained. Minors cannot be revoked once approved.

Multi-Term Fall/Winter Courses

Codes for multi-term Fall/Winter courses have an A/B suffix. Part A must always be taken in the Fall Term immediately preceding Part B. Neither Part A nor B of a multi-term course has academic credit independent of both parts being successfully completed. Students who drop or withdraw from Part A must also withdraw from B. Upon completion of the Fall Term, a grade of MT indicating multi-term will be assigned to Part A and the final grade will be assigned to Part B.

Multi-Session Course

A multi-session course is one taught over the Spring and Summer sessions of the Spring/Summer Term. Students enroll in both the 'A' and the 'B' parts of the same course. Part 'A' is taken in the Spring session. Part 'B' is taken in the Summer session. Academic Load and Billing units are assigned to both parts. Units for GPA calculation are assigned to part 'B' of the course only.

OSAP Eligible Course Load

OSAP Eligible Course Load or equivalent refers to the 60% minimum course load per term (40% minimum course load per term for students with permanent disabilities) required to be eligible for full-time OSAP government student aid funding.

Part-time Student

A part-time student, for academic purposes, is an undergraduate student who is registered in fewer than 9 units in a term, including Extra Courses.

Pass/Fail Courses

Courses evaluated on a Pass/Fail basis are not included in the calculation of averages. The earned units are counted towards degree requirements.

Post-Degree Student

A post-degree student is a university graduate or a person with professional qualifications who is not proceeding to an advanced degree, but wishes to take one or more graduate courses.

Prerequisite

A prerequisite is a requirement to be fulfilled before registration in a course is permitted. This is usually the successful completion of another course.

Program

A program is a specific combination of courses that fulfils the requirements for a degree.

Readmission

See *Readmission* in the Admission Requirements section of this calendar.

Reinstatement

See *Reinstatement* in the General Academic Regulations section of this calendar.

Required Courses

Required courses are those courses which are specifically designated for inclusion in a program.

Requisite

A requisite is an academic requirement that must be met to register in a course. A course requisite may comprise Prerequisites, Corequisites and/or Antirequisites.

Review

A academic review is an assessment of a student's performance to determine eligibility to continue in a program or to graduate.

Reviewing Period

The reviewing period is the time between two reviews for a student. Reviews will take place in May and August, provided the student has attempted 18 units of work since the last review or is a potential graduand.

Session

A period of study within a Term. Each term may have multiple sessions. For example, the Summer session runs from June to August within the Spring/Summer term.

Spring-Summer Average

The Spring-Summer Average is a weighted average based on the grades attained in the Spring and Summer Term. Overload courses and Extra courses are included in the Spring-Summer Average.

Term

A period within the Academic Year. The Academic Year will have three Terms that may have multiple Sessions within them. For example: Fall Term (September-December), Winter Term (January-April), and Spring/Summer Term (May-August).

Term Grade Point Average (Term GPA)

The Term GPA is a weighted average based on the Graded Units taken in the term.

Transcripts

A transcript summarizes a student's academic career at McMaster University and is available by electronic request through Mosaic. Transcript requests will not be processed for students with outstanding financial accounts at the University or those under investigation for an academic integrity violation.

Tuition

Tuition is fees paid in consideration for enrolment in a program of study and selected courses.

Undergraduate Student

An undergraduate student is a one who is enrolled in a program of study leading to a bachelor's degree or to the degree Doctor of Medicine.

Units

Units define the number of credits associated with a course. A unit is roughly equivalent to one lecture-hour per week for one term or two hours of laboratories or seminars per week for one term. Three-unit courses are usually one term in length. Six-unit courses are usually two terms in length.

Unused

Notation

Courses designated as "Unused" cannot be used to fulfil the requirements for the student's current degree program. The grades obtained in such courses will be included in the computation of all averages.

Weighted Average

Weighted average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totaling these results, and then dividing this result by the total number of course units.

With Distinction

Notation

Graduation *With Distinction* standing is awarded when a minimum Cumulative GPA of 9.5 is achieved in a degree program. In this case, the Latin phrase *summa cum laude* ("with highest honour") will appear on the graduate's diploma.

Withdrawal With Academic Penalty

Withdrawal With Academic Penalty is the formal process of discontinuing studies in a particular course or program **after** the last day to withdraw without failure by default in the term.

Withdrawal Without Academic Penalty

Withdrawal Without Academic Penalty is the formal process of discontinuing studies in a particular course or program **before** the last day to withdraw without failure by default in the term.

Withdrawn (W)

Notation

After the last day for enrolment and course changes, students may withdraw from courses until the last day to withdraw without failure by default. Withdrawn courses will be shown on the student's transcript with a grade of W. After the last day to withdraw without failure by default, the student will remain enrolled, whether or not they fulfil any further academic obligations, and a final grade will be assigned.

Sessional Dates 2019-2020

The academic year is divided into terms, as shown below. Most undergraduate students register for the **Fall** and **Winter** terms, which run from September to December and January to April respectively. The **Spring/Summer** term starts at the beginning of May and ends in early August.

2019 Fall Term (62 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Tuesday, September 3
Last day for enrolment and course changes (drop/add)	Wednesday, September 11
Mid-term recess	Monday, October 14 to Sunday, October 20
Last day for withdrawing from courses without failure by default	Friday, November 8
Test and Examination Restriction	Thursday, November 28 to Thursday, December 5
Classes end	Wednesday, December 4
Final Examinations	Friday, December 6 to Thursday, December 19
Deferred examinations	Tuesday, February 18 to Friday, February 21

2020 Winter Term (62 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Monday, January 6*
Last day for enrolment and course changes (drop/add)	Tuesday, January 14
Mid-term recess	Monday, February 17 to Sunday, February 23
Last day for withdrawing from courses without failure by default	Friday, March 13
Test and Examination Restriction	Thursday, April 2 to Saturday, April 11
Classes End	Tuesday, April 7
Good Friday: No classes or examinations	Friday, April 10
Final Examinations	Monday, April 13 to Tuesday, April 28
Deferred examinations	Monday June 22 to Thursday June 25

*The University re-opens on Wednesday, January 2, 2020 after the December holidays; classes begin January 6.

2019-2020 Multi-Term Courses (124 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Tuesday, September 3
Last day for enrolment and course changes (drop/add)	Wednesday, September 11
Mid-term recesses	Monday, October 14 to Sunday, October 20; and Monday, February 17 to Sunday, February 23
Last day for cancelling courses without failure by default	Friday, March 13
Test and Examination Restriction	Thursday, April 2 to Saturday, April 11
Good Friday: No classes or examinations	Friday, April 10
Classes end	Tuesday, April 7
Mid-Term Tests Level (I)	Friday, December 6 to Thursday, December 19
Final Examinations	Monday, April 13 to Tuesday, April 28
Deferred examinations	Monday June 22 to Thursday June 25

2020 Spring/Summer Term

	Spring Session (34 days)	Summer Session (33 days)	Full-Term Courses (67 days)
Classes begin	Monday, May 4	Monday, June 22	Monday, May 4
Last day for enrolment and course changes (drop/add)	Monday, May 11	Tuesday, June 29	Monday, May 11
Victoria Day: No classes	Monday, May 18	-	Monday, May 18
Canada Day: No classes	-	Wednesday, July 1	Wednesday, July 1
Last day for withdrawing from courses without failure by default	Wednesday, June 3	Wednesday, July 22	Wednesday, July 22
Civic Holiday: No classes	-	Monday, August 3	Monday, August 3
Classes end	Friday, June 19	Friday, August 7	Friday, August 7
Final Examinations	<i>As arranged by instructor in class time</i>		
Deferred Examinations	Tuesday October 13 to Friday, October 16, 2020		

Degrees and Programs: Duration in Years

McMaster University offers the following undergraduate degrees:

FACULTY AND DEGREE	DURATION IN YEARS
Arts & Science Program	
B.Arts Sc.	3
B.Arts Sc. (Honours)	4

DeGroot School of Business

B.Com.	4
B.Com. (Honours)	4

Faculty of Engineering

B.A.Sc.	4
B.Eng.	4
B.Eng. BME	5
B.Eng. Mgt.	5
B.Eng. Society	5
B.Eng. Biosciences	5
B.Tech.	2 or 4

Faculty of Health Sciences

B.H.Sc. (Midwifery)	4*
B.H.Sc. (Physician Assistant)	2
B.H.Sc. (Honours)	4
B.H.Sc. (Honours) (HESE Specialization)	5
B.Sc.N.	4
B.Sc.N. (Post Diploma RN Stream)	2*
B.Sc.N. (Basic-Accelerated)	2*
M.D. (Doctor of Medicine)	3*

Faculty of Humanities

B.A.	3
B.A. (Honours)	4
B.F.A. (Honours)	4
B.Mus. (Honours)	4
B.A./B.S.W.	4

Faculty of Science

B.A.Sc. (Honours)	4
B.M.R.Sc.	4*

B.Sc.	3
B.Sc. (Honours)	4
B.Sc. (Honours)	5**
B.Sc.Kin. (Honours)	4

Faculty of Social Sciences

B.A.	3
B.A. (Honours)	4
B.A./B.S.W.	4
B.S.W.	2‡

* In these programs, an academic year extends beyond the regular Fall and Winter terms.

** These are Co-op programs.

‡ Follows completion of prior undergraduate degree.

Second Undergraduate Degree

Provision exists for a university graduate to take a second bachelor's degree. This program is normally shortened (except for the B.H.Sc. Midwifery program). An application for admission is necessary for entry to a second degree program, and it should be submitted by the application deadlines. (See *Application Procedures* and *General Academic Regulations* sections of this Calendar.)

Combined Programs

There is the opportunity to combine two subjects of study within one Faculty, or between two Faculties. Further information can be obtained by referring to the Faculty sections of this Calendar, or contacting the appropriate Office of the Associate Dean.

Elective Courses Available To Level I Students

The following is a list of courses available as electives to Level I students, provided that requisites have been satisfied, and subject to enrolment limitations.

COURSES AVAILABLE

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- ART 1T13 - Making Art and Understanding Technology & Images §
- ART 1UI3 - Making Art and Understanding Images §
- ARTHIST 1A03 - World Art and Cultural Heritage I
- ARTHIST 1AA3 - World Art and Cultural Heritage II
- ASTRON 1F03 - Introduction to Astronomy and Astrophysics §
- BIOLOGY 1A03 - Cellular and Molecular Biology §
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity §
- BIOLOGY 1P03 - Introductory Biology §
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose §
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CHEM 1A03 - Introductory Chemistry I §
- CHEM 1AA3 - Introductory Chemistry II §
- CHEM 1R03 - General Chemistry §
- CHINESE 1Z06 A/B - Mandarin Chinese for Beginners
- CLASSICS 1A03 - Introduction to Classical Archaeology
- CLASSICS 1B03 - An Introduction to Ancient Myth and Literature
- CLASSICS 1M03 - History of Greece and Rome
- CMST 1A03 - Introduction to Communication
- COMMERCE 1AA3 - Introductory Financial Accounting §
- COMMERCE 1BA3 - Organizational Behaviour §
- COMMERCE 1B03 - Business Environment & Organization §
- COMPSCI 1JC3 - Introduction to Computational Thinking §
- COMPSCI 1MD3 - Introduction to Programming §
- COMPSCI 1TA3 - Elementary Computing and Computer Use §
- COMPSCI 1XA3 - Computer Science Practice and Experience: Basic Concepts §
- EARTHSC 1G03 - Earth and the Environment §
- ECON 1B03 - Introductory Microeconomics ∞
- ECON 1BB3 - Introductory Macroeconomics
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- ENGLISH 1F03 - The Written World
- ENGLISH 1G03 - Making and Unmaking Literary Traditions
- ENGLISH 1H03 - Words in Place
- ENVIRSC 1C03 - Climate, Water And Environment §
- FRENCH 1A06 A/B - Introduction to French Studies: Advanced Level
- FRENCH 1Z06 A/B - Beginner's Intensive French I
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- GERMAN 1B03 - Intermediate German I
- GERMAN 1BB3 - Intermediate German II
- GERMAN 1Z06 A/B S - Beginner's Intensive German
- GLOBALZN 1A03 - Global Citizenship
- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- HTHSCI 1DT3 - Discover Immunology Today §
- HTHSCI 1K03 - Health Sciences in the Media §
- HTHSCI 1PA3 - Current Research in Biochemistry and Biomedical Sciences §
- HISTORY 1CC3 - The Rise of Empires, 500-1950
- HISTORY 1DD3 - The Making of the Modern World, 1750-1945
- HISTORY 1EE3 - The Historical Roots of Contemporary Issues
- HISTORY 1FF3 - Exploring History in a Small Group Setting
- HISTORY 1M03 - History of Greece and Rome
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- ITALIAN 1A03 - Intermediate Italian I
- ITALIAN 1AA3 - Intermediate Italian II
- ITALIAN 1Z06 A/B S - Beginner's Intensive Italian
- JAPANESE 1Z06 A/B S - Beginner's Intensive Japanese
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- LATIN 1Z03 - Beginner's Intensive Latin I
- LATIN 1ZZ3 - Beginner's Intensive Latin II
- LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
- LINGUIST 1AA3 - Introduction to Linguistics: Words, Sentences and Meaning
- LINGUIST 1Z03 - Structure of Modern English I
- LINGUIST 1ZZ3 - Structure of Modern English II
- MATH 1A03 - Calculus For Science I §
- MATH 1AA3 - Calculus For Science II §
- MATH 1B03 - Linear Algebra I §
- MATH 1C03 - Introduction to Mathematical Reasoning §
- MATH 1F03 - Introduction to Calculus and Analytic Geometry §
- MATH 1K03 - Advanced Functions & Introductory Calculus for Humanities and the Social Sciences §
- MATH 1LS3 - Calculus for the Life Sciences I §
- MATH 1LT3 - Calculus for the Life Sciences II §
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences §
- MATH 1MP3 - Introduction to Mathematical Scientific Computation §
- MATLS 1M03 - Structure and Properties of Materials §
- MMEDIA 1A03 - Multimedia and Digital Society §
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- PEACEST 1A03 - Introduction to Peace Studies
- PHILOS 1A03 - Philosophical Texts
- PHILOS 1B03 - Philosophy, Law and Society
- PHILOS 1E03 - Philosophical Questions
- PHILOS 1F03 - Meaning in Life
- PHYSICS 1A03 - Introductory Physics §
- PHYSICS 1AA3 - Introduction To Modern Physics §
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences §
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences §
- POLISH 1Z03 - Beginner's Polish I
- POLISH 1ZZ3 - Beginner's Polish II
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1J03 - Great Books in Asian Religions

- RUSSIAN 1Z03 - Intensive Beginner's Russian I
- RUSSIAN 1ZZ3 - Intensive Beginner's Russian II
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences ** §
- SOCPSY 1Z03 - An Introduction to Social Psychology ◊
- SOCSCI 1SS3 - Inquiry in the Social Sciences ◊ §
- SOCSCI 1T03 - Life, the University, and a Bit of Everything ◊ §
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SPANISH 1A03 - Intermediate Spanish I
- SPANISH 1AA3 - Intermediate Spanish II
- SPANISH 1Z06 A/B - Beginner's Intensive Spanish
- STATS 1L03 - Probability and Linear Algebra §
- THTRFLM 1T03 - Introduction to Theatre, Cinema and Society
- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

Notes

§ Not acceptable for the six-unit complementary studies elective required in Engineering I or the three-unit complementary studies elective required in Integrated Biomedical Engineering and Health Sciences I.

** SCIENCE 1A03 is only available to students enrolled in a Level I program in the Faculty of Science.

◊ SOCSCI 1T03 and SOCSCI 1SS3 are only available to students registered in the Social Sciences I program.

∞ Engineering I students interested in entering the Engineering and Management program must take ECON 1B03 as one of their complementary studies electives.

Availability of Upper-Level Courses

The following are lists of upper-level courses available to students subject to enrolment limitations and the prerequisites as specified for each list. (Engineering students should refer to the website at <http://www.eng.mcmaster.ca/documents/electives.pdf>).

UPPER-LEVEL COURSES AVAILABLE TO ALL STUDENTS

- ANTHROP 2EE3 - Sport and/as Religion
- CLASSICS 2MT3 - Ancient Roots of Medical Terminology
- HEBREW 2A03 - Introduction to Biblical Hebrew I
- LINGUIST 2SL3 - Introduction to American Sign Language
- MATH 2UU3 - Numbers for Life
- PHYSICS 2NM3 - Media Numeracy: Telling Stories With Numbers
- POLSCI 2C03 - Force and Fear, Crime and Punishment
- POLSCI 2D03 - Canadian Democracy
- POLSCI 2F03 - Politics, Power and Influence in Canada
- POLSCI 2H03 - Globalization and the State
- POLSCI 2I03 - Global Politics
- POLSCI 2J03 - Global Political Economy
- POLSCI 2M03 - Governance, Representation, and Participation in Democracies
- POLSCI 2O06 A/B - Political Theory
- POLSCI 2U03 - Public Policy and Administration
- POLSCI 2XX3 - Politics of the Developing World
- RELIGST 2AP3 - Apocalypse, Then and Now
- RELIGST 2B03 - Women in the Biblical Tradition
- RELIGST 2BB3 - Images of the Divine Feminine
- RELIGST 2BN3 - Sex and the City in Buddhism: The Urban Life of Buddhist Nuns in North India
- RELIGST 2BT3 - The Buddhist Tradition in India
- RELIGST 2CA3 - Christianity and Art
- RELIGST 2CE3 - The Sermon on the Mount in Christian Ethics
- RELIGST 2DD3 - The Five Books of Moses
- RELIGST 2DS3 - Divine Shakespeare
- RELIGST 2EE3 - Prophets of the Bible
- RELIGST 2ER3 - Religion, The Body, and the Machine
- RELIGST 2F03 - Storytelling in East Asian Religions
- RELIGST 2GG3 - Who was Jesus?
- RELIGST 2GR3 - Evil
- RELIGST 2H03
- RELIGST 2HH3 - The Birth of Christianity
- RELIGST 2HR3 - Humour and Religion
- RELIGST 2I03 - Storytelling in Indian Religion
- RELIGST 2J03 - Introduction to Judaism
- RELIGST 2K03 - Introduction to Buddhism
- RELIGST 2KK3 - A Church Divided: From the Middle Ages to Modernity
- RELIGST 2LL3 - God and Philosophy
- RELIGST 2M03 - Death and Dying: Comparative Views
- RELIGST 2N03 - Death and Dying: The Western Experience
- RELIGST 2NT3 - The New Testament
- RELIGST 2Q03 - Introduction to Islam
- RELIGST 2Q03 - Cults, Conspiracies and Close Encounters
- RELIGST 2RB3 - Ethnicity, Race, and the Bible
- RELIGST 2RD3 - Religion and Diversity
- RELIGST 2RN3 - Religion in the News
- RELIGST 2SP3 - Sport and/as Religion

- RELIGST 2TA3 - Islam in North America
- RELIGST 2TT3 - Religion and Popular Culture in Contemporary Japan
- RELIGST 2VV3 - The Bible as Literature
- RELIGST 2VR3 - Violence and Religion
- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- RELIGST 2YY3 - The Bible and Film
- RELIGST 3RH3 - Religion in Hamilton and its Environs
- RELIGST 3Y03 - Love

Admission Requirements

1. Admission from Secondary Schools

All Level 1 programs have enrollment limits and admission is by selection.

A. Ontario

GENERAL REQUIREMENTS (FOR ALL LEVEL I PROGRAMS)

To be considered for admission, you must satisfy the general requirements of the university and the specific subject requirements for the program to which you applied plus any specified supplementary application/on-line assessment/audition/portfolio required by some programs at the university.

If you are an applicant from an Ontario secondary school you must meet the following minimum requirements:

1. An Ontario Secondary School Diploma (OSSD) with acceptable standing; AND
2. An overall average in completed Grade 12 U and/or M courses which meets or exceeds the minimum set by the specific program to which you applied; AND
3. Satisfactory completion of six Grade 12 U and/or M courses including the subject requirements for your chosen program.

Note: Music External (Conservatory) 4M is acceptable as a credit and the mark obtained can be included in the calculation of your admission average. Alternatively, you may submit certificates from a recognized conservatory of music in Grade 8 practical and Grade 2 theory to your secondary school for one Grade 12M credit.

ADMISSION AVERAGE RANGE

The Admission Average Range used to determine eligibility for consideration is calculated using the best six Grade 12 U and/or M grades, including those for all of the required subjects. **McMaster calculates averages to two decimal points and we do not round up averages.** **Please Note:** Grade 12 Co-op courses are not eligible to be used as one or more of the required prerequisite courses used to calculate admissibility and/or the admission average. See *Early Conditional Admission* and *Final Admission* below for specific details. Estimated admission average ranges for our Level I Programs can be found at: <http://future.mcmaster.ca> and click on *Admission Requirements*.

EARLY CONDITIONAL ADMISSION

Early conditional admission may be granted annually to qualified applicants with strong academic standing. Early conditional admission is based on:

1. six appropriate midterm/interim Grade 12 U and/or M grades, OR
2. at least three final Grade 12 U and/or M grades PLUS enrollment in the appropriate additional three Grade 12 U and/or M courses.
3. In some cases, Grade 11 marks may be considered in extending early conditional offers of admission.

If you do not receive an offer of admission in March, you will automatically be reassessed for admission until May 15 after additional Grade 12 U and/or M grades are received from your secondary school. Due to enrollment limits, McMaster may not be able to consider additional grade data for admission purposes received after May 15.

The University reserves the right to withdraw a conditional offer of admission due to any of the following:

1. You do not meet the minimum final average prescribed for your chosen program; OR
2. You do not receive an OSSD; OR
3. You do not complete six Grade 12 U and/or M courses including all required subjects; OR

4. You do not successfully accept your offer of admission at the Ontario Universities' Application Centre (OUAC) by the response deadline indicated on your offer letter; OR
5. You do not meet any other condition stipulated on your conditional offer of admission; OR
6. You attend a post-secondary institution prior to beginning your studies at McMaster; OR
7. Your offer of admission to the university was secured through fraudulent means. **Please note the University's statements regarding application fraud at the end of the Admission section of this calendar.**

MINIMUM FINAL AVERAGE

If you are a secondary school applicant who receives a conditional offer of admission, you will be required to achieve an overall average calculated to two decimal points (on six (6) final grades including all required courses for your desired program) as indicated on your offer of conditional admission.

If your final average falls below this level (or its equivalent), your offer of admission will be rescinded/revoked and your registration will be cancelled.

The required minimum final average will vary from year to year and by program. This average will be stated clearly on the offer of conditional admission.

SUPPLEMENTARY APPLICATION FORMS AND EXTENUATING CIRCUMSTANCES SITUATIONS

Certain Level I programs including Arts & Science, Bachelor of Health Sciences (Honours), Integrated Business and Humanities (IBH), Integrated Biomedical Engineering & Health Sciences (iBioMed) (regular and co-op), Engineering 1 (regular and co-op), Honours Integrated Science, and Nursing have **mandatory online supplementary application forms or online assessments** which must be completed by specific deadline dates. Applicants to Nursing must complete a **mandatory on-line assessment (CASPer™)** on the dates specified each year. See *Application and Documentation Deadlines*, for specific deadline dates. Applicants to Engineering 1 (regular and co-op) and Integrated Biomedical Engineering and Health Sciences (regular and co-op) must complete a **mandatory on-line assessment (2016 © Kira Talent)** by February 1 each year. See *Application and Documentation Deadlines*, for specific deadline dates. Applicants to Integrated Business and Humanities must complete a **mandatory on-line assessment (2016 © Kira Talent)** and submit a **personal resume** by February 1 each year. Applicants to Business 1 may elect to complete an optional supplemental form prior to February 1 to let the program know more about themselves. The form is available for on-line submission: <https://ug.degroote.mcmaster.ca/apply/optional-supplemental-application/>.

McMaster does not normally use **optional** supplementary application forms. Applicants will be notified if the program they applied to decides to use an optional supplementary application form.

Applicants with special circumstances whose average falls slightly below the required admission average range may forward a letter to the Office of the Registrar, **Admissions** explaining the nature of their extenuating circumstances. In some cases, the university may request letters of recommendation, personal history or other additional information to aid in the admission process.

OFFERS OF ADMISSION FOR SECONDARY SCHOOL GRADUATES

Applicants may be eligible for final admission if they have fulfilled the requirements for their OSSD and have final grades in six Grade 12 U and/or M courses. If you fulfill the requirements for your chosen program by the end of February, you may be granted an offer of final admission.

The University reserves the right to withdraw an offer of final admission due to any of the following:

1. You do not successfully accept your offer of admission at the Ontario Universities' Application Centre (OUAC) by the response deadline indicated on your offer letter; OR
2. You attend a post-secondary institution prior to beginning your studies at McMaster.

3. Your offer of admission to the university was secured through fraudulent means. **Please note the University's statements regarding application fraud at the end of the Admission section of this calendar.**

DEFERRAL OF ADMISSION

McMaster does not normally grant a deferral of an offer of admission unless special extenuating circumstances exist. Each case is evaluated on its own merits. All requests for deferral of both admission and scholarship should be made in writing to:

Office of the Registrar, Admissions

McMaster University
Gilmour Hall 109, 1280 Main St. W.
Hamilton, Ontario L8S 4L8

by September 1 of the application year, outlining the reasons for the request. If a deferral is granted, it is conditional upon the student not attending a secondary or post-secondary institution during the deferral period.

SUBJECT REQUIREMENTS FOR SPECIFIC LEVEL 1 PROGRAMS

McMaster University offers the following Level 1 programs:

Arts & Science I, Automation Engineering Technology 1 (B.Tech.), Automotive and Vehicle Engineering Technology I (B.Tech.), Biotechnology I (B.Tech.), Business I, Chemical & Physical Sciences Gateway, Computer Science I (regular and co-op), Economics I (Effective September 2019), Engineering I (regular and co-op), Environmental and Earth Sciences Gateway, Honours Health and Society I (Effective September 2019), Health Sciences I, Humanities I, Honours Integrated Science (Level I), Honours Kinesiology (Level I), Integrated Biomedical Engineering & Health Sciences I (regular and co-op), Integrated Business & Humanities I, Life Sciences Gateway, Mathematics and Statistics Gateway, Medical Radiation Sciences (Level I), Midwifery I, Music I, Nursing I, Social Sciences I, and Studio Art I.

ARTS & SCIENCE I

You are required to complete a **mandatory Supplementary Application Form** which must be submitted electronically via the web at <https://artsci.mcmaster.ca/prospective-students/supplementary-application/>. The information provided enters into the selection process. A minimum overall average of 88% or higher is required for application consideration.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U or Calculus and Vectors U (Calculus and Vectors U is strongly recommended)
3. Completion of four additional U or M courses, to total six courses, of which two must be at the U level

AUTOMATION ENGINEERING TECHNOLOGY I CO-OP (B.TECH.), AUTOMOTIVE AND VEHICLE ENGINEERING TECHNOLOGY I CO-OP (B.TECH.), BIOTECHNOLOGY I CO-OP (B.TECH.)

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Chemistry U
4. Physics U
5. Completion of two additional U or M courses to total six courses

Note: Applicants are also expected to have completed Advanced Functions U.

BUSINESS I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Two of Advanced Functions U, Calculus and Vectors U, and Mathematics of Data Management U
3. Completion of three additional U or M courses to total six courses

Note: Applicants without Calculus and Vectors 4U will be required to take an equivalent Calculus course in Level 1. Applicants without Data Management U will be required to take an equivalent Stats course in Level 1. Applicants to Business 1 may elect to complete an optional supplemental form prior to February 1 to let the

program know more about themselves. The form is available for on-line submission: [https://ug.degroote.mcmaster.ca/apply/optional-supplemental-application/COMPUTER SCIENCE I, COMPUTER SCIENCE I CO-OP](https://ug.degroote.mcmaster.ca/apply/optional-supplemental-application/COMPUTER%20SCIENCE%20I,%20COMPUTER%20SCIENCE%20I%20CO-OP)

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Two of: Biology U, Chemistry U, Physics U, Earth and Space U, Computer and Information Science M (or Computer Science U), or Computer Engineering M (or Computer Engineering Technology M)

4. Completion of two additional U or M courses to total six courses

Note: Applicants are also expected to have completed Advanced Functions U.

ECONOMICS I (Effective September 2019)

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Two of Advanced Functions U, Calculus and Vectors U, and Mathematics of Data Management U
3. Completion of three additional U or M courses to total six courses

Note: Applicants without Calculus and Vectors 4U will be required to take an equivalent Calculus course in Level 1. Applicants without Data Management U will be required to take an equivalent Stats course in Level 1.

ENGINEERING I, ENGINEERING I CO-OP

Admission to Engineering 1 (regular and co-op) is by selection. A minimum average range in the high 80s is required for application consideration. Applicants must complete a **mandatory on-line assessment (2016 © Kira Talent)** by the February 1 deadline as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Chemistry U
4. Physics U
5. Completion of two additional U or M courses to total six courses

Note: Applicants are also expected to have completed Advanced Functions U.

ENVIRONMENTAL AND EARTH SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U or Calculus and Vectors U
3. One of Biology U, Chemistry U
4. One of Advanced Functions U, Biology U, Calculus and Vectors U, Chemistry U, Physics U
5. Completion of two additional U or M courses to total six courses

HONOURS HEALTH AND SOCIETY I (Effective September 2019)

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Completion of five additional U or M courses to total six courses

HONOURS HEALTH SCIENCES I

The selection method is by consideration of academic and a **mandatory on-line Supplementary Application Form (due mid-February)** submitted electronically via the web; details at <https://bhsc.mcmaster.ca/>. A minimum overall average of 90% or higher is required for application consideration. The Supplementary Application must be completed and submitted on-line by the specified deadline date. A review of the mandatory Supplementary Application is a very important component of the admission process. Applicants who do not complete the Supplementary Application will not be considered for admission.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U, Calculus and Vectors U, or Mathematics of Data Management U
3. Biology U
4. Chemistry U

- One U or M non-math/non-science course (**Note:** courses in technological education, science or mathematics are not acceptable)
- Completion of one additional U or M course in any subject area to total six courses

HUMANITIES I

The following are the minimum Grade 12 U and M requirements:

- English U
- Completion of additional U or M courses to total six courses

The Faculty of Humanities strongly recommends that you select at least one Grade 12 U or M course from Humanities subjects (Art, Drama, English, French, Français, other languages, History and Music). **Note:** In addition to Requirement 1 above, Biology U is strongly recommended for students planning to enter a Cognitive Science of Language program.

HONOURS INTEGRATED SCIENCE (LEVEL I)

Candidates are required to complete a mandatory **Supplementary Application Form** which must be submitted electronically via the web at <http://www.science.mcmaster.ca/isci/prospective-students>. The information provided in the supplementary application enters into the selection process. Only applicants with high academic standing will be selected. Successful candidates must present a minimum average in the high 80's.

The following are the minimum Grade 12 U and M requirements:

- English U
- Advanced Functions U
- Calculus and Vectors U
- Two of Biology U, Chemistry U, Physics U
- Completion of one additional U or M course to total six courses

HONOURS KINESIOLOGY (LEVEL I)

The following are the minimum Grade 12 U and M requirements:

- English U
- One of Advanced Functions U or Calculus and Vectors U
- Biology U
- Completion of three additional Grade 12 U or M courses to total six courses. Grade 12 U courses strongly recommended include Calculus and Vectors U and Introductory Kinesiology U. Applicants without Calculus and Vectors MCV4U will be required to take an equivalent Calculus course in Level I.

HONOURS KINESIOLOGY (LEVEL I) (Effective September 2020)

The following are the minimum Grade 12 U and M requirements:

- English U
- Calculus and Vectors U
- Biology U
- Completion of three additional Grade 12 U or M courses to total six courses. Introductory Kinesiology U is strongly recommended.

INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I / INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I CO-OP

Admission to Integrated Biomedical Engineering and Health Sciences 1 (regular and co-op) is by selection. A minimum overall average of 90% or higher is required for application consideration. Applicants must complete a **mandatory on-line assessment (2016 © Kira Talent)** by February 1 as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates. The following are the minimum Grade 12 U and M requirements:

- English U
- Calculus and Vectors U
- Biology U
- Chemistry U
- Physics U
- Completion of one additional U or M course to total six courses

INTEGRATED BUSINESS AND HUMANITIES I

Admission to Integrated Business and Humanities 1 is by selection. A minimum overall average of 88% or higher is required for application consideration. Applicants

must complete a **mandatory on-line assessment (2016 © Kira Talent)** by February 1 each year. The following are the Minimum Grade 12 U and M requirements:

- English U
- Calculus and Vectors U
- Data Management U
- Completion of three additional U and M courses to total six courses.

Note: Applicants are also expected to have completed Advanced Functions U.

LIFE SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

- English U
- Advanced Functions U or Calculus and Vectors U
- Biology U
- One of Advanced Functions U, Calculus and Vectors U, Chemistry U or Physics U
- Completion of two additional U or M courses to total six courses

MATHEMATICS AND STATISTICS GATEWAY

The following are the minimum Grade 12 U and M requirements:

- English U
- Advanced Functions U
- Calculus and Vectors U
- Completion of three additional U or M courses to total six courses

MEDICAL RADIATION SCIENCES (LEVEL I)

Students considering the Medical Radiation Sciences I program should refer to the *Regulations for License to Practice and Functional Demands* in the Medical Radiation Sciences program in the *Faculty of Science* section of this calendar.

The following are the minimum Grade 12 U and M requirements:

- English U
- Advanced Functions U
- Calculus and Vectors U
- Biology U
- Chemistry U
- Completion of one additional U or M course to total six courses

NOTE: *Effective September 2018, admission to Level II of the Medical Radiation Sciences - Radiation Therapy Specialization will be suspended. Reinstatement of the program will be reviewed on an annual basis. A decision regarding future continuation will be made no later than September 2020.*

MIDWIFERY I

Places in the Midwifery program are very limited and the admission process is highly competitive. Admission to the Midwifery Education Program is by selection. **Application to the Midwifery program must be completed by February**

1. In recent years an average range in the mid to high 80's has been required to move forward to the admissions interview stage. Interviews are by-invitation only.

The following are the minimum Grade 12 U and M requirements:

- English U
- Biology U
- Chemistry U
- Completion of additional U or M courses to total six courses
- To be eligible to apply students must obtain a minimum grade of 75% in each of the three required courses listed in points 1, 2, and 3 above AND an overall average, including the required courses, that is acceptable to the Program.
- Current (Ontario) secondary students may apply if one or more of the three (3) mandatory prerequisite courses are in progress at the time of application; however, the grade 11 prerequisite(s) in the same subjects must be completed at the time of application so that a preliminary assessment of the subject area(s) can be made. Admission is based on in-progress secondary school subjects for current secondary students only if the grade 11 prerequisite in that subject area has been completed with a minimum grade of at least 75%.

MUSIC I

The academic requirements are the same as for Humanities I. In addition, applicants to Music I or to the B.A. in Music must successfully complete a **music audition/examination** consisting of:

1. Demonstration of technique (a level equivalent to at least honours standing in Grade 8 of the Royal Conservatory of Music)
2. Performance (approximately 20 minutes' duration) of two or three varied pieces of your choice (approximately Grade 8 honours level), including at least one from the 20th century
3. Ear test appropriate to the Grade 8 performance level
4. Written examination on rudiments of theory (Grade 2 level)
5. Interview

For comprehensive details, visit <https://sota.humanities.mcmaster.ca/undergraduate-programs/music/>

Auditions take place between February and April. You must make arrangements with the School of the Arts for your audition at sota@mcmaster.ca.

NURSING I

NURSING CONSORTIUM (CONESTOGA)

NURSING CONSORTIUM (MOHAWK)

Students interested in a McMaster (B.Sc.N.) Nursing degree have **three location options: McMaster University, Mohawk College or Conestoga College**. Each of the three sites offers the four-year program which uses the problem-based learning and small group tutorial educational model. For more information about the Mohawk and Conestoga College sites refer to the B.Sc.N. (A) Stream the School of Nursing, *Faculty of Health Sciences* portion of the Calendar. For full application instructions see http://fhs.mcmaster.ca/nursing/education_undergrad_bscn.html as well as the *Application Procedures* section of this Calendar.

Admission to Nursing 1 at all sites is by selection. A minimum overall average of 85% or higher is normally required for application consideration. Additionally, applicants to Nursing must complete a **mandatory on-line assessment (CASPer™)** on the dates in February as specified each year.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U, Calculus and Vectors U, Mathematics of Data Management U
3. Biology U
4. Chemistry U
5. Completion of two additional U or M courses to total six courses

The selection method is by academic qualifications (minimum overall average range of 85% or higher is required for consideration) and a **mandatory, online, 90-minute computer-based assessment of personal characteristics called CASPer™**. Applicants who do not complete the CASPer™ test will not be considered for admission.

Health requirements for admission to Nursing 1: During the registration process, you must file with the University information pertaining to your state of health and immunization. Detailed instructions will be provided after acceptance into the program.

Students considering the Nursing 1 program should refer to the document *Requisite Skills and Abilities for nursing practice in Ontario* at the College of Nurses of Ontario www.cno.org.

CHEMICAL & PHYSICAL SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Chemistry U
5. Physics U
6. Completion of one additional U or M courses to total six courses

SOCIAL SCIENCES I

The following are the minimum Grade 12 U and M requirements:

1. English U

2. Completion of additional U or M courses to total six courses
Advanced Functions U or Calculus and Vectors U is strongly recommended for students planning to enter programs in Economics or Psychology, Neuroscience and Behaviour. Biology U is recommended for students planning to enter a program in Psychology, Neuroscience and Behaviour.

STUDIO ART I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Completion of additional U or M courses to total six courses
McMaster offers Studio Art as a direct-entry level I program leading to a Bachelor of Fine Arts (BFA) degree. Admission to this program is by selection and requires a **mandatory portfolio interview** with the School of the Arts http://sota.mcmaster.ca/undergraduate/studio_art.html.

You must make arrangements for your portfolio interview with the School of the Arts at sota@mcmaster.ca.

B. Other Canadian Provinces and Territories

SUBJECT REQUIREMENTS FOR LEVEL I PROGRAMS

In addition to the minimum requirements below, satisfactory completion of the specified subject requirements for the program to which you applied is also required. Please refer to our website <http://future.mcmaster.ca> for more details. Averages used to determine eligibility for admission and residence are calculated to two decimal points based on the minimum provincial requirements, including the prerequisite courses for the program to which you have applied.

EARLY CONDITIONAL ADMISSION

Applications are reviewed for conditional admission as soon as all required documents, with sufficient course and grade data, are received by the Office of the Registrar, Admissions. All Canadian applicants should ensure that their **schools** (vs. the Provincial Ministry for those provinces where transcripts are issued by the Ministry), **forward interim/midyear school grade reports showing marks for all courses taken during the Grade 11 and 12 years as well as all course registrations for the current academic year**, as soon as they are available.

The terms and conditions of the offer of admission are stated clearly on the offer letter. The Provincial Ministry final transcript confirming final grades and graduation status will be required at the end of the school year. **Students from all other provinces where transcripts are issued by their high schools should have their schools forward the appropriate interim mid-year transcripts and final transcripts confirming graduation.**

Applicants are required to meet the following minimum requirements including the specified subject requirements (not listed below) for their chosen program. For a complete listing of our specific course requirements by province and Level I program you may refer to our web site: <http://future.mcmaster.ca/admissions/admission-requirements/>.

ALBERTA, NORTHWEST TERRITORIES AND NUNAVUT

Grade 12 high school diploma with five acceptable academic courses numbered 30 or 31, including English Language Arts 30-1.

BRITISH COLUMBIA AND YUKON

Grade 12 high school diploma with four acceptable Grade 12 academic courses (or equivalent), including English 12 or English 12 First Peoples. The Provincial Exam in English 12 or English 12 First Peoples is required and the blended mark with the reported high school grade will be used to calculate averages. In addition, students must achieve a passing grade in English 12/English 12 First Peoples in the Provincial Examination. In addition, students must achieve a passing grade in English 12/English 12 First Peoples in the Provincial Examination.

MANITOBA

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 40A or 40S, including one of English 40S or Anglais 40S.

NEW BRUNSWICK

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 120, 121, or 122, including English 121 or 122.

NEWFOUNDLAND AND LABRADOR

Grade 12 high school diploma with eleven acceptable Grade 12 academic credits at the 3000 level, including English 3201.

NOVA SCOTIA

Grade 12 high school diploma with five acceptable Grade 12 academic courses (university preparatory Academic or Advanced), including English 12.

PRINCE EDWARD ISLAND

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 611 or 621, including English 621.

QUÉBEC

Grade 12 Diploma with six acceptable Grade 12 academic courses in the 600 series including English

OR

Year I CEGEP with twelve appropriate academic courses, including two English/Anglais 603 or two English 604 courses. Students completing Year II or III CEGEP who will or have achieved the DEC may be considered for advanced credit in their chosen program. The *côte de rendement* (R Score) is used for admission consideration.

SASKATCHEWAN

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 30, including both English A30 and B30.

C. International Baccalaureate Diploma

Applicants who have completed or will be completing the International Baccalaureate Diploma will be considered for admission to Level I, provided the completed diploma program includes the subject requirements of the program desired. Advanced credit of up to 18 units of study will be considered for Higher Level (HL) courses based on the achievement of final IB Diploma grades of 5 or greater. For more information please refer to <http://future.mcmaster.ca/admission/admission-requirements/>.

D. Advanced Placement (A.P.) Courses/Examinations

Applicants who have completed AP courses will be considered for admission to a Level I program. Applicants who have completed A.P. exams through the College Board in acceptable courses and achieve a minimum grade of 4 will be considered for up to 18 units of advanced credit. For all students who have completed AP examinations through the College Board, an official copy of the final *Advanced Placement Examination Results Report* from the College Board is required as part of the admission and advanced credit evaluation process. For more information please refer to <https://future.mcmaster.ca/admission/requirements/>.

E. Other International Secondary School Qualifications

See the admission requirements for applicants from the more common international educational systems below. For all other education systems from around the world, please visit our website for the specific minimum requirements for your country's educational system. Required subjects would be the same as required for Ontario and other Canadian students: <https://future.mcmaster.ca/admission/requirements/>.

Applicants must arrange for official high school transcripts to be sent to McMaster University directly from their high school well in advance of the session to which they are applying. The equivalent of first-class standing will be required for admission consideration. Documents in a language other than English should be accompanied by notarized English translations. You will be considered for admission on an individual basis and you will not be allowed to attend the University until we have received official evidence that all conditions attached to your Offer of Admission have been fulfilled.

McMaster University may require students presenting documents that will form the basis of their admission to the university, from schools outside of North America, to have those documents authenticated via WES Canada <http://www.wes.org/ca/index.asp>.

Students will be supplied with specific information in their official Offer of Admission letter.

AMERICAN HIGH SCHOOL CURRICULUM

Applicants from the continental United States of America or international schools offering the American high school curriculum must satisfactorily complete a secondary school diploma with a minimum overall average of at least 80% in the Grade 12 academic program of an accredited American high school/International American Curriculum high school and must present all prerequisite courses for their chosen program. Admission is competitive and many programs will require grades/averages well above the minimum 80% for admission consideration. For complete requirements for American Curriculum applicants, please visit our website: <https://future.mcmaster.ca/admission/requirements/>.

McMaster programs that have specific math and/or science prerequisites require Advanced Placement subjects only for those requirements. Non A.P. courses will not be deemed sufficient to meet the program prerequisites in the math and science subjects for students coming from American style curriculum schools. If applicants believe that their schools' locally developed curriculum in math and science subjects is equivalent to all of the topics covered in A.P. level courses, then the applicant must provide the Office of the Registrar, Admissions with a detailed and comprehensive syllabus supplied by their school for each course that they are seeking equivalency to A.P. level courses.

American Curriculum applicants must also present results from the Critical Reading and Mathematics components of SAT I with a minimum combined score of 1200 (minimum 580 Critical Reading, 520 Mathematics) OR a minimum combined score for the Redesigned SAT result of at least 1200 as a combined score with a minimum of 600 in each section OR from ACT with a minimum composite score of 27.

GENERAL CERTIFICATE OF EDUCATION (G.C.E.)

Applicants from the General Certificate of Education system require a minimum of five G.C.E. subjects at least two of which must be at the Advanced A2 Level with the balance of the subjects at the IGCSE/GSCE (Ordinary Level). Advanced Level subjects must be appropriate to your chosen program.

Note: Many programs may require a minimum of three Advanced A2 Level courses. For program specific requirements please refer to <https://future.mcmaster.ca/admission/requirements/>.

OTHER COUNTRIES OR EDUCATIONAL SYSTEMS

For admission requirements from other education systems, please visit <https://future.mcmaster.ca/admission/requirements/> to view our country-specific Admissions Requirements.

F. Home Schooled Applicants

Home schooled applicants who in addition to their home schooling experience have completed six Grade 12 U and M courses at an Ontario Ministry of Education inspected and approved school, or equivalent courses from another recognized academic jurisdiction may be considered for their program of choice providing they present the appropriate prerequisite courses on official transcripts from accredited schools and meet the required admission average. McMaster University is the sole arbiter of what is considered as equivalent level education and equivalent courses. All other home schooled applicants may apply for admission consideration to Humanities I or Social Sciences I by presenting the following:

1. List of home school credentials including but not limited to structured curriculum completed through ACE (Accelerated Christian Education Program) or other such programs.
2. Portfolio of written work; normally, evidence of appropriate intellectual maturity is expected.
3. Results of standardized tests such as SAT, ACT. Applicants must also present results from the Critical Reading and Mathematics components of SAT I with a minimum combined score of 1200 (minimum 580 Critical Reading, 520 Mathematics) OR a minimum combined score for the Redesigned SAT result of at least 1200 as a combined score with a

minimum of 600 in each section OR from ACT with a minimum composite score of 27.

Interested applicants should contact the Office of the Registrar for further information regarding admission criteria.

G. Prior-Year Secondary School Graduates

Applicants who have previously completed a secondary school diploma and have not attended a post-secondary institution since graduation, may be considered for admission by presenting satisfactory standing in six required Grade 12 U and M courses (or equivalent) as identified in the *Subject Requirements For Specific Level I Programs* section in this calendar.

If you have attended a post-secondary institution after high school graduation, you would not be considered as an applicant from secondary school. See *Admission/Transfer From Post-Secondary Institutions* section in this calendar.

2. Admission/Transfer from Post-Secondary Institutions

A. From Universities

Most McMaster programs have enrollment limits and admission is by selection. Possession of the minimum admission requirements does not guarantee admission. Admission will be considered on a case by case basis and is not guaranteed. When you transfer to McMaster University, you will normally receive credit for courses in which you have obtained at least a C- standing (as per the McMaster grading scale). Assessment of courses for transfer credit is subject to the guidelines of the individual Faculties.

As a transfer student, you must also satisfy the Residence Requirements set out in the General Academic Regulations section of this Calendar. **The University will not accord to you privileges which would not be granted by your own university.** Grades obtained in courses taken at another university will not be included in McMaster's Grade Point Average, and, therefore, cannot be used to raise your standing.

If you have been required to withdraw from another university and have fulfilled your period of suspension, you may apply for admission. However, you must present a letter of explanation and clarification concerning your past academic performance. You may also be asked to provide academic documentation for proof of further academic achievement which is both current and relevant.

B. From Colleges of Applied Arts and Technology

Most McMaster programs have enrollment limits and admission is by selection. Possession of the minimum admission requirements does not guarantee admission. Admission will be considered on a case by case basis and is not guaranteed. See the minimum admission requirements for Level I programs as listed below. You are considered for admission on an individual basis.

For information regarding the amount of available transfer credits when transferring from a College of Applied Arts and Technology, refer to the heading *Transfer Credits* in this section.

ARTS & SCIENCE

1. Completion of a two or three-year diploma.
2. Successful completion of Grade 12 English U and one of Advanced Functions or Calculus and Vectors U.
3. Admission is by selection upon review of the mandatory supplementary application and college and high school transcripts to determine eligibility.

Note: Exceptional grades are normally required for admission consideration.

BACHELOR OF TECHNOLOGY

Automotive and Vehicle Engineering Technology I Co-op

Biotechnology I Co-op

Process Automation Engineering Technology I Co-op

1. Completion of a two or three-year diploma program in a related discipline.

2. A minimum cumulative GPA between 75% and 80%.
3. Direct entry into Level III may be possible for graduates of specific three-year Advanced Diploma programs. All related diploma programs are considered on a case-by-case basis.
4. Completion of Grade 12 Calculus and Vectors U, Chemistry U and Physics U.

B. TECH. (DEGREE COMPLETION PROGRAM)

1. Applicants to the Bachelor of Technology Degree Completion Programs must demonstrate successful completion of a related, advanced three-year diploma from an Ontario College of Applied Arts and Technology, or equivalent, with a minimum of 75% cumulative average.
2. Applicants with 70% or greater in related, advanced diploma post-secondary academic programs may be admitted to the Certificate programs. Minimum requirements do not guarantee admission.
3. Applicants who graduated more than 10 years ago from related advanced diploma post-secondary academic programs will be considered on a case by case basis for admission.
4. All applicants to the B.Tech. Degree Completion Programs are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

BUSINESS

1. Completion of a minimum of a two or three-year diploma
2. A cumulative GPA of at least 80% or better.
3. Successful completion of two of the following Ontario (or equivalent) Math courses: Grade 12 Advanced Functions U Grade 12 Calculus & Vectors U or Grade 12 Math of Data Management U.

Note: Admissible applicants with completed two year or three-year diploma programs with cumulative admission averages exceeding 80% may be considered for 12-30 units of transfer credit.

CHEMICAL AND PHYSICAL SCIENCES

1. Completion of a minimum of a two or three-year diploma program.
2. A minimum cumulative GPA of 80%.
3. Completion of Grade 12 Advanced Functions U, Calculus and Vectors U, Chemistry U and Physics U.
4. Admission is by selection upon review of high school and college transcripts to determine eligibility.
5. Application will be reviewed for transfer credits.

COMPUTER SCIENCE (REGULAR AND CO-OP)

1. Completion of a minimum of a two-year Engineering Technician or three-year Technologist diploma program.
2. A minimum cumulative GPA of 90%.
3. Successful completion of Grade 12 Calculus and Vectors U and two of Grade 12 Earth & Space Science U, Computer Engineering Technology M, Computer & Information Science U or M, Biology U, Chemistry U or Physics U.

ECONOMICS

1. Completion of a minimum of a two or three-year diploma
2. A minimum cumulative GPA of 80%.
3. Successful completion of two of Grade 12 Advanced Functions U, Grade 12 Calculus & Vectors U or Grade 12 Math of Data Management U.
4. Application will be reviewed for transfer credit.

ENGINEERING (REGULAR AND CO-OP)

1. Completion of a three-year Engineering Technology diploma program.
2. A cumulative GPA of at least 85% or better.
3. Successful completion of Grade 12 Calculus and Vectors U, Chemistry U and Physics U.

- Successful applicants may be eligible for up to 18 units of transfer credits. Technician programs are not recognized as eligible for admission consideration to Engineering I.

ENVIRONMENTAL AND EARTH SCIENCES

- Completion of a minimum of a two-year diploma.
- A minimum cumulative GPA of at least 80%.
- Completion of Grade 12 Advanced Functions U or Calculus and Vectors U; and Biology U or Chemistry U; and one of Advanced Functions U, Calculus and Vectors U, Biology U, Chemistry U or Physics U.
- Admission is by selection upon review of high school and college transcripts to determine eligibility.

BACHELOR OF HEALTH SCIENCES (HONOURS)

Admission is not assessed based on CAAT achievement. It is based on high school admission criteria only.

HEALTH AND SOCIETY

- Completion of a two or three-year diploma program.
- A minimum cumulative GPA of 80%.
- Application will be reviewed for transfer credit.

HUMANITIES

- Completion of a Certificate program or at least one year of work in a diploma program.
- A minimum cumulative GPA of 80%.
- Transfer credit will be reviewed on a case-by-case basis.

OR

- Completion of a two or three-year diploma program.
- A minimum cumulative GPA of 75%.
- Application will be reviewed for transfer credit.

HONOURS INTEGRATED SCIENCES

Admission is not assessed based on CAAT achievement. It is based on high school admission criteria only.

HONOURS KINESIOLOGY

- Completion of a minimum of a two or three-year diploma program.
- A minimum cumulative GPA of 88%.
- Successful completion of Grade 12 courses in Advanced Functions U or Calculus and Vectors U; and Biology U.
- Admission is by selection upon review of high school and college transcripts to determine eligibility.

Note: All students accepted into this program will be required to complete the Level I required Kinesiology courses.

INTEGRATED BIOMEDICAL ENGINEERING AND

HEALTH SCIENCES (REGULAR AND CO-OP)

Admission is not assessed based on CAAT achievement. It is based on high school admission criteria only.

INTEGRATED BUSINESS AND HUMANITIES

Admission is not assessed based on CAAT achievement. It is based on high school admission criteria only.

LIFE SCIENCES

- Completion of a minimum of a two or three-year diploma program.
- A minimum cumulative GPA of 88%.
- Completion of Grade 12 Advanced Functions U or Calculus and Vectors U; and Biology U; and one of Advanced Functions U, Calculus and Vectors U, Chemistry U or Physics U.
- Admission is by selection upon review of high school and college transcripts to determine eligibility.

MATHEMATICS AND STATISTICS

- Completion of a minimum of a two or three-year diploma program.
- A minimum cumulative GPA of 80%.
- Completion of Grade 12 Advanced Functions U and Calculus and Vectors U.
- Admission is by selection upon review of high school and college transcripts to determine eligibility.

MEDICAL RADIATION SCIENCES

Admission is not assessed based on CAAT achievement. It is based on high school or prior university degree study admission criteria only. Students with the appropriate admission criteria who have also completed a two or three-year college diploma program with a minimum Grade Point Average of at least 88% may be considered for up to 6 units of unspecified credits for the college work.

Note: *Effective September 2018, admission to Level II of the Medical Radiation Sciences - Radiation Therapy Specialization will be suspended. Reinstatement of the program will be reviewed on an annual basis. A decision regarding future continuation will be made no later than September 2020.*

MIDWIFERY

For admission requirements see *Midwifery Program (B.H.Sc.)* in the *Faculty of Health Sciences* section.

MUSIC

- Completion of a three-year diploma program in Applied Music from Mohawk College.
- A minimum cumulative GPA of 75%. (Audition will be waived and, depending on grades achieved, applicants may receive up to 63 units of advanced credit.) **OR**
- Completion of one year of a diploma program with a cumulative average of 80% or completion of a one-year Certificate in a relevant discipline and successful Music audition **OR**
- Completion of a two-year diploma or two years of a three-year diploma program with a minimum cumulative average of 75% and successful Music audition.
- Transfer credits will be reviewed on a case-by-case basis.

NURSING

- Completion of an approved Ontario one-year certificate in Pre-Health sciences as full-time studies. See approved Pre-Health college programs at: <https://future.mcmaster.ca/admission/requirements/>.
- Applicants who have completed previous university degree studies will NOT be considered based on a previous or subsequent Pre-Health certificate from college.
- A minimum cumulative GPA equivalent to the required high school admission average of 85%.
- Completion of at least two semesters in length and includes at least one full (two semesters) or two half courses in each of Biology, Chemistry, English and Mathematics.
- The selection method is by academic qualifications (minimum overall average range of 85% or higher is required for consideration) and a mandatory, online, 90-minute computer-based assessment of personal characteristics called CASPer™. Applicants who do not complete the CASPer™ test will not be considered for admission.
- Transfer credit will not be granted for any pre-health science courses.

SOCIAL SCIENCES

- Completion of a Certificate program or at least one year of work in a diploma program.
- A minimum cumulative GPA of 80%.
- Transfer credit will be reviewed on a case-by-case basis.

OR

- Completion of a two or three-year diploma program.
- A minimum cumulative GPA of 75%.
- Application will be reviewed for transfer credit.

STUDIO ART (B.F.A.)

- Completion of a Certificate program or at least one year of work in a diploma program.
- A minimum cumulative GPA of 80%.
- Transfer credit will be reviewed on a case-by-case basis.

OR

- Completion of a two or three-year diploma program.

2. A minimum cumulative GPA of 75%.
3. Application will be reviewed for transfer credit.
4. Submission of a mandatory Portfolio is required. Selection for the program will be based on a combination of the Portfolio interview quality of college and high school grades and relevance of previous college work to the program. Please review portfolio requirements on the School of the Arts website: http://sota.mcmaster.ca/undergraduate/studio_art.html

C. University Graduates Applying for a Second Bachelor's Degree

All programs have enrollment limits and admission is by selection. If you have a first non-Honours degree, you may apply to take an Honours second degree in the same subject area or a second degree in another discipline. Please note the following exceptions: B.Arts Sc.(Arts & Science), B.Com. (Bachelor of Commerce), B.Com. (Honours), B.H.Sc. (Bachelor of Health Sciences (Honours)), B.Sc. (Honours) in Integrated Science (ISCI), Honours B.Sc. Kinesiology, Integrated Biomedical Engineering and Health Sciences, Integrated Business and Humanities cannot be done as second degree programs. Honours Music is only available as a second degree to students whose first degree is not a BA in Music. The requirements are set out in the *General Academic Regulations* section of this Calendar.

If you wish to enter a Second Bachelor's Degree in a subject area from the Faculty of Science, please note that admission to all limited enrollment programs, with the exception of Medical Radiation Sciences I, may not be possible. Second Degree applicants to all Science programs, except Medical Radiation Sciences I, are not eligible to apply to or be admitted to any of the other first year Science programs. Second Degree applicants must have already completed all first year requirements for the second year program they wish to apply to, with the exception of Medical Radiation Sciences I. See *Limited enrollment Programs* in the *Faculty of Science* section of this Calendar for a list of programs. Please contact the Office of the Associate Dean of Science (Academic) for further information (see the *Application Procedures* section).

If you are a McMaster graduate or potential graduate, you may be able to use the *McMaster University Returning Student Application* (see the *Application Procedures* section).

D. Continuing Students

At McMaster, a *Continuing Student* is defined as a graduate from an undergraduate program, who wishes to take more undergraduate courses, either out of general interest or to upgrade or obtain courses required for future applications to graduate studies or other professional programs. To be eligible to take courses as a Continuing Student you will be expected to have an undergraduate university degree and at least a C average, with no failures, in your final year's work (or the equivalent, in the case of a degree taken through part-time studies), and academic records which are satisfactory to the Department and the Office of the Associate Dean of the appropriate Faculty. *Please Note: not all courses are available to Continuing students and course prerequisites for selected courses must be met. Also note that admission as a Continuing student does not guarantee registration in courses of interest to the student.

MCMaster GRADUATES

If you are a graduate of a McMaster undergraduate degree program and wish to become a Continuing Student, you do not need to apply for admission. Graduates who have not attended courses for more than two years will need to contact the Office of the Registrar prior to attempting to enrol for courses.

GRADUATES FROM OTHER UNIVERSITIES

As a Continuing Student with a non-McMaster degree, you must apply formally for admission in the first instance. In subsequent sessions, you will only be required to enrol.

Acceptance as a Continuing Student carries no implications with respect to acceptance in the School of Graduate Studies. If you plan to proceed to a graduate degree you should apply directly to the specific department of your program of interest.

E. From Six Nations Polytechnic

McMaster University, along with four other universities, partnered with Six Nations Polytechnic to offer university courses in the community of Six Nations. The courses offered are eligible for transfer credit at any of the universities within the consortium. For more information please contact the Indigenous Student Services at 905-525-9140, ext. 27459 or indigservices@mcmaster.ca.

F. From Post-Secondary Institutions with Religious Affiliation

Undergraduate general academic studies taken at colleges with religious affiliation that are member institutions of specific accredited associations will be considered for admission and transfer credit on a case by case basis. Applicants from a non-accredited postsecondary institution with religious affiliation will be considered for admission based on completion of a Grade 12 high school diploma.

3. Other Categories of Admission

A. Part-time Admission

Students interested in beginning studies on a part-time basis should review the requirements and information found in the following sections of this Calendar:

- Admission Requirements
- Application Procedures
- General Academic Regulations
- Sessional Dates
- Program descriptions found in the specific Faculty sections

Applicants who wish to pursue undergraduate studies on a part time basis at McMaster must meet one of the admissions criteria outlined in the sections above. If applicants do not meet any of these criteria, they may qualify for *Mature Student Admission* as outlined under the heading *Mature Student Admission* below.

Detailed information can be found on our website: <http://future.mcmaster.ca/admission/process/105pt>.

B. Mature Students (Admission)

If you do not qualify for admission consideration under one of the above categories, McMaster will assess your eligibility as a mature student. You may be considered for limited admission, provided both of the following conditions are satisfied:

1. You have not attended secondary school or college on a full-time basis for at least two years.
2. You have never attended university.

Applicants admitted as mature students will not be granted transfer credit. Programs in the Faculties of Humanities and Social Sciences have no specific course requirements for mature student admission. The following Level I programs have specific course requirements that mature applicants must present from secondary school, as outlined:

- **Business I:** requires one Grade 12 U Mathematics course (or equivalent).
- **Chemical and Physical Sciences Gateway:** requires satisfactory standing in four Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Environmental and Earth Sciences Gateway:** requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Life Sciences Gateway:** requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Mathematics and Statistics Gateway:** requires satisfactory standing in two Grade 12 U mathematics courses -- Advanced Functions U and

Calculus and Vectors U as specified under the heading *Subject Requirements For Specific Level I Programs*.

• **Midwifery I: does not offer mature admission directly to the program.**

However, students interested in Midwifery may be admitted as a mature student to another program in order to complete a minimum of six university courses (18 units) in their program of admission before applying to the Midwifery Education Program.

• **Nursing I does not offer mature admission directly to the program.**

However, students interested in Nursing may be admitted as a mature student to another program in order to complete university prerequisite courses for later consideration for admission to Nursing I. Possession of the minimum admission requirements does not guarantee an offer of admission. Contact the School of Nursing for more details.

The following programs do not admit under the category of Mature Students:

Arts & Science I, Automotive and Vehicle Technology I (B.Tech.), Biotechnology I (B.Tech.), Computer Science I, Engineering I, Health Sciences I, Honours Integrated Science (Level I), Honours Kinesiology (Level I), Integrated Biomedical Engineering and Health Sciences I, Integrated Business and Humanities I, Medical Radiation Sciences (Level I), Midwifery I, Nursing I, and Process Automation Technology I (B.Tech.).

If admitted to a program as a mature student, you may register to take up to 18 units of course work (normally Level I courses) during the Fall/Winter session with no more than nine units in each term (three courses). Within the first 18 units, mature students will be limited to taking three units in each term of the Spring/Summer session.

Upon completion of 18 units, your performance will be reviewed according to the general academic regulations of the university. (See Level I *Registration and Academic Standing Requirements under General Academic Regulations*).

C. Visiting Students (Letter of Permission - For Credit at Another University)

If you are a student currently attending another university, you may apply to take McMaster courses for credit at your own/home institution. Please note, not all courses are available for credit outside McMaster and all are subject to enrollment limits, so it is important that all applicants adhere to McMaster application deadlines.

You must initially apply through the Ontario Universities' Application Centre (OUAC) and **send your Letter of Permission and an official transcript from your home institution directly to the Office of the Registrar, Admissions**. Upon receipt, your transcript will be reviewed to ensure you have met the prerequisites for courses you plan to take at McMaster. **Approval of your application as a Visiting Student does not guarantee your enrollment in a course.**

Subsequent requests to take courses on a Letter of Permission do not require another application; however you must send an updated Letter of Permission and a current official transcript from your home institution to the Office of the Associate Dean of the Faculty offering the course at McMaster. If you are attempting to register in courses offered by more than one Faculty, you must obtain approval from each Office of the Associate Dean.

D. Graduates of McMaster Certificate/Diploma Programs

If you have completed certificate or diploma programs from McMaster, you may be granted advanced credit up to maximum specified by Undergraduate Council upon successful completion of the certificate/diploma program. Faculties will take into account the subject matter of both the certificate and degree programs. The credit will normally be applied against your elective courses. For more information concerning the amount of advanced credit granted, please refer to the *Certificate and Diploma Programs* section of this Calendar.

E. Post-Degree Students

If you are a university graduate or a person with professional qualifications who wishes to take one or more graduate courses but not proceed to an advanced degree, you may apply to McMaster as a post-degree student. To enroll as a post-degree student, you must apply to the appropriate departments and have your admission and registration approved by the School of Graduate Studies for each session in which you wish to take courses. You will register and pay fees as a graduate student.

Acceptance as a post-degree student carries no implications with respect to admission to advanced degrees, and even if such admission is granted subsequently, credit toward the advanced degree will not normally be granted for the work previously taken.

F. Listeners

If you are uncertain about degree courses, you may register as a listener in a degree course, but not for credit. You attend all classes, but do not complete any of the essays, tests and other formal requirements. You do not receive a grade for courses that you attend. Some students have eased their way into degree study with this option, subsequently applying for admission and enrolling in further courses for credit. Please note not all courses are available to Listeners. Please see <http://www.mcmaster.ca/bms/student/index.htm> for any applicable fees. For more information please contact the Office of the Registrar.

Written permission to attend must be obtained from the instructor delivering the course. An I.D. card cannot be issued until permission has been obtained.

G. Enrichment Program for Secondary School Students

If you are an outstanding Grade 12 student and wish to enroll in a university-level course while completing Grade 12 U and M courses in your final year of study, you may apply for the Enrichment Program. For more information contact the Office of the Registrar at (905) 525-4600.

H. Former McMaster Degree Students (Returning Students)

READMISSION

If you are a former McMaster student who voluntarily withdrew from an undergraduate program **more than five years ago** (and have not attended another university or completed a college diploma elsewhere) and you wish to return to your studies, then you must apply for Readmission. Students from the School of Nursing must apply for Readmission regardless of time elapsed following voluntary withdrawal.

If you were enrolled (have a record of course enrolment) within the last five years and you left the university in good academic standing (and have not attended another university or completed a college diploma elsewhere), then it is not necessary for you to apply for Readmission. Normally, you will be permitted to enrol in your previous program or another program for which you qualify. You must contact the Office of the Registrar directly in order to have your status reactivated prior to enrollment: (905) 525-4600.

REINSTATEMENT

See the *General Academic Regulations* section in this Calendar.

SECOND MCMASTER DEGREE

See *University Graduates Applying for a Second Bachelor's Degree* in this section of the Calendar.

CONTINUING STUDIES

See Continuing Students in this section of the Calendar.

4. Transfer Credits

A. General Policy on the Transfer of University Course Credits

To facilitate program completion by undergraduate students seeking to transfer course credit from an accredited university to McMaster, the University has implemented the following principles:

1. Acceptance of transfer credits from accredited universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Insofar as possible, acceptance of transfer credit shall allow for the maximum recognition of previous learning experience in university-level courses;
2. Subject to degree, grade and program requirements, any course offered for credit by an accredited university shall be accepted for credit by McMaster when there is an essential equivalency in course content. However, no course for which a grade of less than C- (60%) has been achieved will be considered.
3. Evaluation of all possible transfer credits available at the time of admission must be completed within one year of the date of admission to the University.

B. From Colleges of Applied Arts and Technology

Normally, if you are a well-qualified graduate of a three-year program and the college work is appropriate to your chosen university program, you could receive up to 30 units of transfer credit. If you have completed a two-year program and performed well, transfer credit will be reviewed on a case-by-case basis.

Credit beyond this may be given on an individual basis where the college and university programs are in similar areas, and where your academic record warrants special consideration.

In the granting of credit, attention will be given to:

1. your performance in the college program;
2. the duration of the college program;
3. the program taken at the college and the program to which entry is sought;
4. your secondary school record.

Each case will be considered individually on its own merits for the program desired.

C. Advanced Credit

Subject to the discretion of the Faculty, advanced credit may be granted if you have completed the International Baccalaureate (I.B.) Diploma, the Advanced Placement (A.P.) Program and the College Board examinations or the General Certificate of Education (G.C.E.) and you have met the minimum requirements prescribed. Advanced credit may shorten your degree program at McMaster.

D. Credit in Courses by Special Assessment (Challenge Examinations)

Students who have acquired knowledge at a different type of institution or in a manner that makes assessment of their qualifications difficult are permitted to seek degree credit through special assessment (Challenge for Credit).

Challenge for credit is not intended to give credit for skills or knowledge gained through high school, college or previous university instruction. The special assessment may include one or more of the following: written examinations, papers, essays, submissions of a substantial body of work, or portfolios, or laboratory tests. Credit can be granted only for those courses listed in the current McMaster calendar. Not all courses in all disciplines are available for challenge. Faculties and departments are free to determine which, if any, of their courses are open for special assessment. Challenges are assessed on a pass/fail basis. The passing grade for a challenge appears on the transcript as COM (Complete) and is not

used in computing averages or evaluating honours or scholarship standing, but is counted as a course attempt. Unsuccessful attempts will be noted on the transcript as a grade of F. Special Assessment is not available for a course taken previously and a course may be attempted only once by special assessment. Once you have registered for a course by such means (known as challenge exams) the registration may not be cancelled and you may not withdraw from the course.

Waivers of prerequisites only (ie. no degree credit) will be at the discretion of the department.

5. English Language Proficiency

If you have been asked to meet our English Language Proficiency requirement, you must demonstrate English language proficiency by achieving the minimum requirements as specified by McMaster. The university reserves the right to require applicants with an English Language Proficiency score disparate from their English prerequisite subject grade to present further evidence of achievement. You may review acceptable tests of English Language Proficiency and minimum score requirements on our web site <http://future.mcmaster.ca/admission/admission-requirements/language/>. It is your responsibility to make all arrangements regarding the writing of the English Language Proficiency tests and to have the official score report forwarded to the Office of the Registrar, Admissions directly from the testing center in a timely manner.

At the discretion of the university, you may be exempted from this requirement if you meet one of the following requirements:

- i. Attended immediately prior to application to McMaster, in full-time academic studies (non-ESL), an accredited Secondary School (High School) or Post-Secondary College in an English-speaking country for at least four years, **OR**
- ii. Attended immediately prior to application to McMaster, in full-time academic studies (non-ESL), an accredited English medium Secondary School (High School) or Post-Secondary College for at least four years,* **OR**
- iii. Attended immediately prior to application to McMaster, in full-time academic studies (non-ESL), an accredited English medium University for at least one year, **OR**
- iv. Resided in an English speaking country for at least four years immediately prior to application to McMaster.

*Please note that the Undergraduate MD program requires a minimum of three years of study at an English-medium university. More information about the admission requirements for Medicine at McMaster can be found at: <http://www.fhs.mcmaster.ca/mdprog>.

Statements for Application Fraud

If McMaster concludes based on reasonable grounds that the applicant has falsified any information presented to the University as part of his or her application, without limiting any other rights of McMaster available at law, McMaster reserves the right to revoke the offer and, subject to applicable law and University Policy, to terminate a student's registration.

Without limiting McMaster's General Statement on Collection of Personal Information and Protection of Privacy, please take note that McMaster University collects and retains personal information of applicants for admissions to McMaster University under the authority of The McMaster University Act, 1976. This information may be used for the administration of admissions and registration and, subject to McMaster University policies (as may be amended or revoked from time to time), McMaster may disclose any evidence of misrepresentation, fraud or falsification of admissions documentation to other educational institutions, to government agencies, to law-enforcement agencies and to other relevant third parties. The information you provide on any application for admissions will be protected and used in compliance with *Ontario's Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have any questions about the collection and use of this

information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

McMaster English Language Development Diploma (MELD)

Department of Linguistics and Languages (Faculty of Humanities)

Phone: (+1) 905.525.9140 Ext. 23718

Email: meld@mcmaster.ca

Web: <http://meld.mcmaster.ca>

Students who meet the academic admission requirements for their choice of Level 1 program, but do not meet McMaster's English Language Proficiency requirement may be admitted to the MELD bridging program which has been developed for international students, providing them with a supportive environment in which they can succeed. The diploma is a two-term, full-time intensive bridging program in English language development, acculturation and engagement.

Students accepted into MELD are given a conditional offer of admission to their program of choice, pending successful completion of the MELD diploma. Once the diploma in MELD has been successfully completed, the student may register in the program to which he/she was given conditional admission and will have completed 6 units of degree credit courses in Linguistics that may be applied as electives to that program. In exceptional circumstances, MELD will consider transfers from other McMaster programs.

Please visit meld.mcmaster.ca for more information or email meld@mcmaster.ca.

Fall Term

(September - December)

- MELD 1A03 - Academic Writing and Integrity
- MELD 1B03 - English Phonetics and Pronunciation
- MELD 1C03 - Academic Reading and Listening Skills
- MELD 1D03 - Social Perspectives on Language
- MELD 1L00 - Linguistics Lab 1
- MELD 1M00 - Mentorship Lab 1
- LINGUIST 1Z33 - Structure of Modern English II (degree credit course)

Winter Term

(January - April)

- MELD 1AA3 - Advanced Academic Writing
- MELD 1BB3 - Advanced Speaking and Presentation Skills
- MELD 1CC3 - Advanced Academic Reading Skills
- MELD 1DD3 - Advanced Academic Listening Skills
- MELD 1LLO - Linguistics Lab 2
- MELD 1MM0 - Mentorship Lab 2
- LINGUIST 1Z33 - Structure of Modern English II (degree credit course)

McMaster English Readiness for Graduate Excellence Certificate

<https://meld.humanities.mcmaster.ca/merge/>

MERGE (the McMaster English Readiness for Graduate Excellence Certificate) is an intensive 10-week summer Academic English preparatory program, intended for graduate and professional students. Admission requirements include successful completion of an undergraduate degree and English language proficiency minimum requirements of TOEFL iBT 90 or IELTS 6.5 (with minimum category requirements).

Target English proficiency upon program completion will be an IELTS score of 7-7.5 or Common European Framework Reference for Languages (CEFR) level C2.1, in keeping with graduate English proficiency admission requirements. Students in MERGE will complete a program that includes intensive practice of academic English (listening, reading, writing, speaking), with an emphasis on professional development. The MERGE certificate does not require current or conditional admission to a McMaster University graduate program and program

completion does not guarantee admission to a graduate program of study in and of itself. As a stand-alone program, the MERGE certificate coursework cannot be utilized for advanced standing or credit towards degree studies.

CERTIFICATE REQUIREMENTS

- MERGE 100 - Advanced Reading and Writing for Graduate Studies (6 units)
- MERGE 200 - Advanced Listening and Speaking for Graduate Studies (3 units)
- MERGE 300 - Presentation Skills & Lecture Series (3 units)
- MERGE 400 - Professional Development (3 units)

Application Procedures

HOW TO APPLY

1. Determine the appropriate application form and/or procedures. (See *Categories of Admission* below.)
2. Determine application deadline. (See *Application and Documentation Deadlines* in this section.)
3. Refer to the Admission Requirements and specific Faculty sections of this Calendar for further information.
4. Complete and submit your application as directed.
5. Submit all required documentation to McMaster. (See *Documents* in this section.)
6. Once your application has been received, McMaster's Office of the Registrar, Admissions will provide you with an acknowledgment of receipt of your application plus further instructions/details about tracking your application.

1. Categories of Admission

A. Current Ontario High School Students

You should complete the 101 application if you meet ALL of the following requirements:

- You are taking courses during the day at an Ontario secondary school (this includes students returning for second semester and graduated students returning to upgrade one or more courses)
- You have not, at some point, been out of secondary school for more than seven consecutive months
- You will have received or expect to receive your Ontario Secondary School diploma (OSSD) with six 4U/M courses at the end of the current year
- You have not attended a postsecondary (college/university/career college) institution
- You are applying to the first year of an undergraduate degree program or diploma program at an Ontario university
- You are under 21 years of age.

Use the Undergraduate 101 on-line application at www.ouac.on.ca/101/. Please consult with your secondary school guidance office regarding this application process.

B. All Other Canadian High School Students

If you are currently attending secondary school outside of Ontario or have recently completed a secondary school diploma in any Canadian province or territory

- Use the OUAC 105D on-line application at www.ouac.on.ca/105/.

C. High School Students with International Qualifications

If you are currently attending or have recently completed a secondary school program outside of Canada, and you are not a Canadian citizen nor Permanent Resident of Canada

- Use the OUAC 105F on-line application at www.ouac.on.ca/105/.

D. University/College Transfer/Continuing Students

If you are currently registered in or have completed an undergraduate degree program at another university and wish to attend McMaster OR

If you are currently registered in or have attended or completed a college diploma program and wish to attend McMaster

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

Applicants residing in Canada (Canadian citizens, permanent residents or

applicants studying in Canada on a student permit or other visa) should use the 105D form. Applicants currently residing outside of Canada who are not Canadian citizens nor Permanent Residents should use the 105F form.

E. Nursing Consortium Programs

If you are interested in applying to McMaster's Nursing (B.Sc.N.) program at the Mohawk College or Conestoga College sites

- Apply on-line through the Ontario College Application Services (OCAS) at www.ocas.on.ca/.

F. Previous McMaster Degree Students (Returning Students)

1. **Readmission:** If you are a former McMaster student with a record of course enrolment, who was in good standing and who voluntarily withdrew from an undergraduate program more than five years ago (providing you have not attended another university nor received a college diploma since last registered at McMaster). If you are a former Nursing student, you must apply for readmission regardless of the amount of time that has elapsed. Apply on-line at: future.mcmaster.ca/admission/process/returning/
2. **McMaster Second Degree:** If you are a McMaster graduate or potential graduate at the end of your current academic term and wish to pursue a second undergraduate degree (providing you have not attended another university nor received a college diploma since last registered at McMaster).
 - Use the McMaster Returning Student Application to apply on-line at future.mcmaster.ca/admission/process/returning/
3. **Reinstatement:** If you are a former McMaster student who was required to withdraw from studies at McMaster.
 - Obtain the *Reinstatement Request Form* from the Office of the Registrar, Gilmour Hall, Room 108, McMaster University, Hamilton, Ontario, L8S 4L8.
4. **Continuing Student:** If you are a McMaster graduate from an undergraduate program and wish to become a Continuing Student.
 - You do not need to apply for admission.

G. Visiting Students (Letter of Permission - For Credit at Another University)

If you are currently enrolled at another university and wish to attend McMaster to take courses on a Letter of Permission for credit at that university

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/

H. Part-Time Degree Studies at McMaster Only

If you wish to begin undergraduate studies on a part-time basis (enrolled in less than 18 units of study)

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

I. Post-Degree Studies

If you wish to register as a post-degree student (taking graduate courses but not proceeding to an advanced degree)

- Contact the Graduate Studies Office, Gilmour Hall, Room 212, McMaster University, Hamilton, Ontario, L8S 4L8 for information on how to apply to the appropriate academic department(s).

J. Medical Program

See the heading *Admission Policy for the Medical Program* in the *Faculty of Health Sciences* section of this Calendar.

2. Documents

A. Required Documents

A complete application includes: an application form, relevant transcripts and all other documentation stipulated in the *Admission Requirements* and specific Faculty sections of this Calendar, in letters from the appropriate Faculty and/or in letters from Office of the Registrar, Admissions.

You must provide McMaster with transcripts of marks and/or certificates from all secondary and post-secondary institutions you have attended. When you are requested to provide an **official** transcript, then an official transcript is a signed and sealed record of all academic achievement **issued and sent by an academic institution directly to McMaster University, Office of the Registrar, Admissions**. If you are currently attending secondary school, please see your guidance counselor to request that your current Grade Report showing all courses you will be completing in Grade 12 be sent by your school to McMaster. If you have previously attended secondary school in another province, you may need to submit a request for a transcript containing your secondary school marks from the Ministry or Department of Education in that province if it is not normally provided by your high school..

Where documentation from a school outside of Canada is in a language other than English, you must provide official transcripts in the original language as well as official, notarized English translations.

For specific document submission requirements and processes/procedures, please review: <https://future.mcmaster.ca/admission/documents/>.

If McMaster concludes based on reasonable grounds that the applicant has falsified any information presented to the University as part of his or her application, without limiting any other rights of McMaster available at law, McMaster reserves the right to revoke the offer and, subject to applicable law and University Policy, to terminate a student's enrolment.

Without limiting McMaster's General Statement on Collection of Personal Information and Protection of Privacy, please take note that McMaster University collects and retains personal information of applicants for admissions to McMaster University under the authority of *The McMaster University Act, 1976*. This information may be used for the administration of admissions and registration and, subject to McMaster University policies (as may be amended or revoked from time to time), McMaster may disclose any evidence of misrepresentation, fraud or falsification of admissions documentation to other educational institutions, to government agencies, to law-enforcement agencies and to other relevant third parties. The information you provide on any application for admissions will be protected and used in compliance with Ontario's *Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have any questions about the collection and use of this information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

B. Retention of Documents

All documentation submitted in support of your application for admission **becomes the property of the University and is not returnable**.

If you are not accepted, or you fail to enroll following acceptance, your documentation will be destroyed at the end of the admissions cycle. If you reapply, you must submit any new academic information in addition to the documentation submitted previously.

3. Application and Documentation Deadlines

McMaster University reserves the right, at its sole discretion, not to accept, process or adjudicate applications or amendments to applications to any program at any time. Meeting minimum application requirements does not guarantee admission to any program at McMaster University. **Application fees are non-refundable so we strongly advise you to review our admission requirements carefully before applying**, to determine your academic eligibility for consideration for admission. Please see the *Admission Requirements* section of this calendar for general information. University transfer applicants should review programs by Degree and Minors requirements before applying.

McMaster University has a number of highly competitive by-selection programs that require a mandatory supplementary application/assessment, and all of these programs have early application and supplementary submission deadlines, as specified in the chart below. Failure to apply on time or to submit the required supplementary application/assessment by the specified dates will automatically disqualify consideration for these specified programs. You are advised to submit your application and/or amendments well in advance of the deadlines listed below.

Fall and Winter Terms

The dates and deadlines listed below are for applications submitted for the 2019-2020 academic year. Please refer to <http://future.mcmaster.ca> for the date and deadline information for new applications.

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Arts & Science	February 1	February 1
Actuarial & Financial Mathematics (Above Level 1) Regular and Co-op Programs	April 1	April 30 For information see: https://www.math.mcmaster.ca/index.php/undergraduate-studies/undergraduate-programs/41-undergraduate-studies/1758-afm-supplementary-application.html
Bachelor of Technology Degree Completion (Above Level 1)	April 1 (May intake) July 15 (September intake) November 1 (January intake)	Must be completed by the application deadline. View more information about the mandatory supplementary application for the Bachelor of Technology degree.
Biomedical Discovery & Commercialization (Level III entry)	February 1	February 1
Engineering 1 (Regular and Co-op)	January 16	Kira© Assessment Assessment dates available February 1 to February 14 after payment via: http://www.eng.mcmaster.ca/future/apply.html
Health Sciences I (Honours)	January 16	Early February Details at bhsc.mcmaster.ca
Health Sciences (Honours) (Above Level I)	April 1	Early April Details at bhsc.mcmaster.ca

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Health Sciences (Above Level II) Biomedical Discovery & Commercialization	February 1	February 1 Details at: https://bdcprogram-mcmaster.ca/
Honours Biology and Pharmacology Co-op (Above Level 1)	February 1	February 1 Mandatory Letter of Intent specifying reasons for applying and applicant suitability for the program. Email biophrm@mcmaster.ca by February 1.
Honours Integrated Science I	February 1	February 1
Integrated Biomedical Engineering & Health Sciences 1 (Regular and Co-op)	January 16	February 1 Online Kira© Assessment
Integrated Business & Humanities	February 1	February 1 Online Kira© Assessment
Justice, Political Philosophy & Law	April 1	April 1 For more information see: https://www.humanities.mcmaster.ca/programs/undergraduate-programs/justice-political-philosophy-law/
Midwifery (including submission of all transcripts)	February 1	N/A
Physician Assistant (including submission of all official transcripts) Note: This program is not open to International Applicants. This program is open to Canadian citizens and present Permanent Residents of Canada only.	February 1	February 1
Social Work	December 1	March 1
Nursing I: Secondary School Applicants	February 1	Mandatory Supplementary application information is available on the CASPer™ website.

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Nursing 1 (university transfer applicants from programs other than Nursing and applicants from college pre-health programs (including submission of all official transcripts))	February 1	Mandatory Supplementary application information is available on the CASPer™ website.
Transfer from another Nursing program to the McMaster site.		Students from other university Nursing programs should contact the McMaster Nursing program office at 9055259140, ext. 22232, for information about transfer options and application procedures. McMaster will not typically accept transfer applications from students already in a Nursing program elsewhere.
Nursing Basic-Accelerated Stream (above level I) (including submission of all official transcripts)	February 1	Mandatory Supplementary application information is available on the CASPer™ website.

Application Deadlines for All Other McMaster Programs for Fall and Winter Terms
***February 1** - Applications received on or before February 1 with all supporting official documentation received no later than February 15 from applicants with no postsecondary experience will be reviewed for admission pending space availability in the program. All applications received after February 1 will be considered only if there is space available in the program.

April 1 - The final date to apply for admission and submit all required documentation for admission consideration is April 1. This final deadline applies to all international and domestic applicants.

	APPLICATION DEADLINE	SUPPORTING DOCUMENTATION DEADLINE
Ontario High School Applicants (Recommended)	January 16	April 1
Early Deadline* (see above)	February 1	February 15
Final Deadline Domestic Applicants	April 1	April 1
Final Deadline International Applicants	April 1	April 1
B.Tech. Degree Completion Program Only - January Entry	November 15	November 15

Spring/Summer Term

	DOMESTIC DEADLINE	INTERNATIONAL DEADLINE
May Entry (Term 1 or 3)	April 1	April 1
Supporting Documentation for May Entry	April 1	April 1
June Entry (Term 2)	May 15	May 15
Supporting Documentation for June Entry	May 15	May 15

Associate Registrar, Undergraduate Admissions may, at his/her discretion, supply reasons.

Former McMaster Students: Re-admission / Re-instatement Deadlines for Fall and Winter Terms

	DOMESTIC DEADLINE	INTERNATIONAL DEADLINE
Re-instatement Deadline	June 30	June 30
Re-admission Deadline	July 15	July 15
Nursing Deadline	February 1	February 1

Academic Counselling for Admitted Students

If you are offered admission to a program at McMaster, you will be asked to confirm that you have accepted the offer of admission and will attend the University. Your admission will include information regarding acceptance procedures for the offer of admission, specified deadline for your acceptance and registration procedures. Offer of admission acceptance deadlines specified in your Offer of Admission letter are strictly enforced. Please ensure that you accept your offer of admission as directed well before the specified deadline date.

If you are admitted to Level I, your Faculty may also arrange a visit to the University so you may meet with a Faculty advisor to set up your program. Although attendance at the summer counselling and registration sessions is not compulsory, you are strongly advised to participate. If you cannot attend one of these sessions, counselling will be provided in September.

If you are offered admission above Level I, you may arrange for academic counselling with the Office of the Associate Dean of the Faculty offering the program, or the Office of the Director of the program.

4. Review of Admission and Re-Admission Decisions

No appeal procedure shall be available for decisions on admission or re-admission to the University. Such decisions may be reviewed within the following framework:

- a. An applicant to the University who believes that the admission or re-admission decision, or, in the case of a transfer student the decision to grant credits, is incorrect, or based on incorrect or incomplete information, may, **within one week of receiving the decision**, request a review of that decision by writing to the Senior Associate Registrar, Undergraduate Admissions, stating why she/he thinks the decision should be reviewed.
- b. The Senior Associate Registrar, Undergraduate Admissions, shall determine whether the information on which the decision was based was incomplete or incorrect and, if so, shall refer the request for review to the appropriate Faculty Committee. That Committee shall make a final decision and report it to the Senior Associate Registrar, Undergraduate Admissions, who shall then convey the decision in writing to the student. The Senior

General Academic Regulations

This section outlines the general undergraduate academic regulations of the University. Students must read and comply with both these regulations and those set out by their Faculty elsewhere in this Undergraduate Calendar, as applicable. In the event of a conflict between the Faculty/Program Regulations and these General Academic Regulations, the program regulations take precedence.

Since the Academic Regulations are continually reviewed, the University reserves the right to change the regulations in this section of the Calendar. The University also reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing.

Faculties are authorized to use discretion in special situations by taking into account past practice, the spirit of the regulations, and extraordinary circumstances. Students who believe their situations warrant special consideration should consult the appropriate Faculty/Program Office.

Academic Commitments

Students should expect to have academic commitments (e.g., classes, labs, tests, examinations, etc.) Monday through Saturday, normally 8:30 a.m. to 10:00 p.m., but not on Sunday or statutory holidays, as outlined in the Sessional Dates. Students are responsible for meeting all course requirements, including final examinations, as scheduled. Students who require accommodations to meet religious, Indigenous or spiritual observances must make their requests within 10 working days from the beginning of the start of term to their Faculty/Program Office.

Sessional Dates

Please visit the Sessional Dates page for important dates for this academic year.

Student Responsibilities

Academic

McMaster University provides many resources to help students achieve their academic goals, including the Undergraduate Calendar, program advisement reports and academic advisors. The University endeavours to enable students to enrol in required courses so that their program admission requirements and course requisites can be met in a timely manner. The University reserves the right to change a student's enrolment in classes should the need occur (e.g. low enrolment, urgent timetable changes, etc.).

Students must assume certain responsibilities. They include:

- meeting admission requirements and application deadlines for their intended program(s) of study
- selecting and completing courses in an order that meets requisite and program requirements
- becoming familiar with and respecting University Sessional Dates, the General Academic Regulations, their Faculty/Program-specific regulations, and the Regulations for Aid and Awards as found in the appropriate sections of this Calendar.

Students who do not follow these guidelines may experience academic consequences such as cancellation of course enrolment, completion of courses that are not counted toward their degree, or delayed graduation.

In addition to the responsibilities listed above, students are expected to:

- know and follow the Senate policies
- keep their student account in good standing, paying all charges on time

- be aware that changes to course load and program may affect eligibility for government and University aid and awards (e.g. OSAP, work programs, bursaries, scholarships, etc.)
- consult with Student Accessibility Services in a timely manner to make disability related accommodation requests

Communication

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information
- use the university provided e-mail address or maintain a valid forwarding e-mail address
- regularly check the official University communications channels, including the Mosaic Student Centre. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca account
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca account

Academic Obligations

Due dates and evaluations are described in course outlines except where other University policies apply, e.g., SAS accommodations, deferred exams, etc. When students are aware of their progress early in a course they can make informed decisions. Restrictions are placed on academic obligations to enable students to plan their work schedules.

1. Student learning in undergraduate courses should be assessed on more than one occasion. To that end, no single academic obligation (e.g., essay, test, examination, etc.) should have a value of more than 75% of the final grade without approval from the Department Chair or Associate Dean's Office. Clinical, placement, thesis and capstone courses are exempt.
2. For students requiring relief from an academic obligation, it is at the discretion of the instructor to determine the nature of the relief. In cases such as this, students can be offered the choice of another assessment or the option of writing a final examination which may be worth more than 75% of the course grade.

Early Feedback

1. All students must receive feedback regarding their progress prior to the final date by which a student may cancel the course without failure by default.
2. For Level I and Level II courses, this feedback must equal a minimum of 20% of the final grade.
3. For Level III courses and above, this feedback must equal a minimum of 10% of the final grade.
4. For courses where it is difficult to achieve a numeric grade due to the design of the course (e.g., supervised study, thesis, capstone, inquiry, independent research/study, experiential courses, etc.), clear and early feedback must be provided.
5. When academic obligations are completed by the due dates in the course outline, early feedback will be received by the final date by which a student can withdrawal from a course without failure by default. Students who use the MSAF process and other petitionable accommodations may not receive feedback by the early feedback deadline.

Restrictions:

1. Due dates for all term work must be on or before the final day of classes for courses with a final examination. For courses with no final examination, academic assessments can be due on or before the final date of examinations.
2. Tests, quizzes, exams and take home exams worth more than 10% cannot be assigned or due during the last five days of classes plus the days(s) between the end of classes and the beginning of examinations. Assignments worth more than 10% that are assigned at the beginning of the course and noted on the course outline, can be due during this time period, provided students are given sufficient additional detail to enable them to work on the assignment in advance of the due date.
3. Academic obligations cannot be due during the December holiday break or the fall and winter mid-term recesses, with the exception of deferred exams scheduled by the Office of the Registrar.

Residence Requirements

Most students complete all undergraduate work at McMaster University. However, students who complete work at other universities must meet the minimum requirements set out below.

To obtain any four- or five-level, first undergraduate degree:

- at least two levels (approximately 60 units of work) beyond Level I, including the final level, must be completed at McMaster University.

To obtain a three-level, first undergraduate degree:

- the final level and at least one other level (a minimum of approximately 60 units of work) must be completed at McMaster University,

or,

- the final level (approximately 30 units of work) including at least 18 units of program-specific requirements must be completed at McMaster University.

Courses taken at another university on a *Letter of Permission* will not count toward the residence requirements.

All course work for a second bachelor's degree must be completed at McMaster University.

McMaster University Statement on the Collection of Personal Information and the Protection of Privacy

McMaster University collects and retains personal information of students, alumni and other parties, including but not limited to faculty, staff, visiting academics and private citizens using services provided by McMaster University, under the authority of the *McMaster University Act, 1976*. This information is used for the academic, administrative, employment-related, safety and security, financial and statistical purposes of the University, including for the administration of admissions, registration, awards and scholarships, convocation, alumni relations and other fundamental activities related to being a member of the University community, a user of services provided by McMaster or an attendee of, or applicant to, a public post-secondary institution in the Province of Ontario. The information will be used, among other things, to admit, register and graduate students, record academic achievement, issue library cards and, where applicable, local transit passes, to provide access to information systems and to operate academic, financial, athletic, recreational, residence, alumni and other University programs. Additionally, this information may be shared with other institutions of higher education in order to administer collaborative programs. Information on admissions, registration and academic achievement may also be disclosed and used for statistical and research purposes by the University, other post-secondary educational institutions and the federal and provincial governments. The names of alumni, their Faculty and program, award information, degree(s) awarded and date of graduation is considered public information and may be published by McMaster University. In

addition, student photographs posted by the University in the form of individual pictures or class pictures may be publicly displayed. Aside from the foregoing, the information you provide and any other information placed in a student record, or in a personnel record, will be protected and used in compliance with Ontario's *Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have any questions about the collection and use of this information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

McMaster University may also collect personal information from other relevant sources including, without limitation, the Ontario Universities' Application Centre, secondary schools, colleges, universities and other institutions previously attended, including third-party services and test score providers where the items collected form a part of the application or admission process to a university program.

Furthermore, McMaster is required to disclose personal information such as Ontario Education Numbers, student characteristics and educational outcomes to the Ministry of Advanced Education and Skills Development (the "MAESD"; formerly known as the Ministry of Training, Colleges, and Universities). The Ministry collects this data for purposes such as planning, allocating and administering public funding to colleges, universities and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the Ministry for purposes that relate to post-secondary education and training. Any information collected by McMaster for the purposes of self-identification as a member of a specific group (i.e. First Generation, First Nations, etc.) may be subject to disclosure to the MAESD by McMaster and collected by the MAESD pursuant to its statutory authority. Further information on how the MAESD uses personal information is available on the ministry's website (<https://www.ontario.ca/page/ministry-advanced-education-and-skills-development>).

In addition to collecting personal information for the purposes noted above, McMaster University collects specific and limited personal information on behalf of the McMaster Student Union, the McMaster Association of Part-time Students and/or the McMaster Graduate Students Association. These constituent student groups use personal information for the purpose of membership, administration, elections, annual general meetings, health plans and other related matters only. Please contact the relevant Student Union or Association office if you have questions about this collection, use and disclosure of your personal information and their respective privacy policies.

September 2015

Notification of Disclosure of Personal Information to Statistics Canada

Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education. In order to carry out such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada student identification information (student's name, student ID number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education and labour force activity.

The *Federal Statistics Act* provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used only for statistical purposes, and the confidentiality provisions of the Statistics Act prevent the information being released in any way that would identify a student. Students who do not wish to have their information used are able to ask Statistics Canada to remove their identification and contact information from the national database. For further information, please see Statistics Canada's web site at: <http://www.statcan.ca> or write to the Postsecondary Section, Centre for Education Statistics, 17th Floor, R.H. Coats Building, Tunney's Pasture, Ottawa, K1A 0T6.

Record Retention

When individuals apply for admission to and enrolment in programs at McMaster they accept the University's right to collect pertinent personal information. This information is needed to assess qualifications for entry, establish records of performance in programs and courses, provide the basis for University aid and awards and governmental student aid programs, and to assist the University in the academic and financial administration of its affairs. All documentation submitted to the University in support of applications for admission, residence accommodation, University aid and awards, appeals and/or petitions becomes the property of the University.

All application documents are normally destroyed at the end of each admission cycle for applicants who are not accepted, or who do not enrol following acceptance. For applicants who become McMaster students, their application documents are normally destroyed five years after the last term of their enrolment at the University (regardless of whether or not they graduate).

Supporting documentation relevant to government student aid programs (e.g., OSAP) is kept per the retention policies of the Federal and/or Provincial governments. Supporting documentation, by aid year, relevant to the administration of online aid applications, as well as University aid and awards, will normally be destroyed after seven years.

All information needed to produce official transcripts is maintained permanently.

Second Bachelor's Degree Programs

For admission to a second undergraduate degree program a student must hold a first undergraduate degree. A second degree is not available in all degrees and/or subject areas. See *University Graduates Applying for a Second Bachelor's Degree*.

1. All work for the second degree must be completed at McMaster University.
2. Second degree programs may not be available where there is substantial overlap in the requirements of the first degree. See individual Faculty/Program regulations or consult Faculty/Program Offices for exclusions or further information.
3. Extra courses taken while enrolled in a first degree program, or courses completed as a Continuing Student, may, with the approval of the Faculty, be applied to the second degree program.
4. Students must meet the same regulations for continuation and graduation as are applied to students enrolled in a first degree program.
5. Credit from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree students must complete all program requirements, i.e. approximately 90 units for a three-level degree and approximately 120 units for a four-level degree.

Requirements for Second Bachelor's Degree Programs

- Honours Degree following a Three-Level Degree in the Same Subject: For consideration into an Honours B.A. or B.Sc. degree program following a three-level degree in the same subject, a Cumulative GPA of at least 5.0 in the first degree program is required. For consideration into all other eligible degree programs, a Cumulative GPA of at least 6.0 in the first degree program is required. If admitted, at least 30 units beyond the first degree, including all program requirements, must be completed.
- B.A. or B.Sc. in Another Subject: For consideration, students must meet the admission requirements for the program. If admitted, at least 30 units beyond the first degree, including all program requirements, must be completed. Students are not eligible for a second B.A. or B.Sc. degree in a program in which they have been awarded a minor, however, they may apply for an honours second degree in that subject.
- Honours B.A., Honours B.A.Sc., Honours B.Sc. or Honours B.H.Sc. in Another Subject: For consideration, students must meet the admission requirements for the program and have a Cumulative GPA of at least 5.0. If

admitted, at least 60 units beyond the first degree, including all program requirements, must be completed.

- B.M.R.Sc.: For consideration, students must meet the admissions requirements for the program. If admitted, students will be required to complete a minimum of 24 units during Level I of the program. Some of these units may be extra to the degree requirements.
- B. Eng., B.Tech., and B.A.Sc.: For consideration, students must meet the admission requirements for the program. If admitted, students must complete at least 60 units beyond the first degree including all program requirements.

McMaster Students Studying at Another University: Letter of Permission (LOP) and Exchange (Study Abroad)

1. McMaster students who wish to complete courses at another university for transfer credit towards their McMaster degree must be in good academic standing.
2. Grades obtained in courses at another university will not be included in the calculation of McMaster averages, which may affect consideration for in-course academic awards.
3. Courses taken at another university cannot be used to satisfy McMaster's Residence Requirements.
4. Students may take up to six units at another university toward a minor.

Letter of Permission (LOP):

1. Students must obtain necessary approval in advance from their Faculty/Program Office.
2. Upon completion of course work, if a grade of 60% or better is obtained, the transcript designation reads T indicating *transfer credit*. If less than a 60% grade is attained, the transcript designation reads NC indicating *no credit*. If the student withdraws from the course, the transcript designation reads W indicating *withdrawn*.
3. Students who do not use their Letter of Permission or drop the course must supply the Faculty/Program Office with a certified letter from the host university, otherwise a grade of NC will be placed on the transcript.

Exchange (Study Abroad):

1. Students must obtain necessary approvals in advance from both their Faculty/Program Office and International Student Services.
2. Upon completion of course work, if a passing grade (as determined by the host university) is obtained, the transcript designation reads T indicating *transfer credit*. If less than a passing grade is attained, the transcript designation reads NC indicating *no credit*. If the student withdraws from the course(s), the transcript designation reads W indicating *withdrawn*.
3. Students who return from exchange prior to completion of course work must supply the Faculty/Program Office with a proof of withdrawal from the host university, otherwise grades of NC will be placed on the transcript.

Credit in Courses by Special Assessment (Challenge Examinations)

Students who have acquired knowledge at a different type of institution or in a manner that makes assessment of their qualifications difficult are permitted to seek degree credit through special assessment (*Challenge for Credit*).

Challenge for credit is not intended to give credit for skills or knowledge gained through high school, college or previous university instruction. The special assessment may include one or more of the following: written examinations, papers, essays, submissions of a substantial body of work, or portfolios, or laboratory

tests. Credit can be granted only for those courses listed in the current McMaster calendar. Not all courses in all disciplines are available for challenge. Faculties and departments are free to determine which, if any, of their courses are open for special assessment. Challenges are assessed on a pass/fail basis. The passing grade for a challenge appears on the transcript as COM (*Complete*) and is not used in computing averages or evaluating honours or scholarship standing, but is counted as a course attempt. Unsuccessful attempts will be noted on the transcript as a grade of F. Special Assessment is not available for a course taken previously and a course may be attempted only once by special assessment. Once you have registered for a course by such means (known as *challenge exams*) the registration may not be cancelled and you may not withdraw from the course. Waivers of prerequisites only (i.e. no degree credit) will be at the discretion of the department.

Voluntary Withdrawal from the University

Students who wish to permanently or temporarily withdraw from the University must consult their Faculty/Program Office. Students in receipt of government student aid (e.g., OSAP) and/or University aid or awards should contact the Office of the Registrar, Student Financial Aid & Scholarships.

Petitions for Special Consideration

The University wishes to assist students with legitimate difficulties. It also has the responsibility to ensure that degree, program and course requirements are met in a manner that is equitable to all students. Students may submit, in a prompt and timely manner, a Petition for Special Consideration to the Faculty/Program Office in those instances where a student acknowledges that the rules and regulations of the University have been applied fairly, but is requesting that an exception to the regulations be made because of special circumstances. Petitions should be submitted in a prompt and timely manner for the relevant term, but no later than July 31 immediately following the Fall/Winter Term or November 15 immediately following the Spring/Summer Term.

Two forms are available from your Faculty/Program Office:

Petition for Special Consideration (Form A):

The *Petition for Special Consideration (Form A)* is submitted for a variety of issues, including, when a student wishes to have a leave of absence or seeks to depart from University requirements based on compelling medical or personal reasons; or a student believes that an adverse ruling or decision about their academic performance, such as failing a course, or being required to withdraw from a program for failure to meet program requirements, should be waived because of compelling medical or personal circumstances.

Petition for Special Consideration: Request for Deferred Examination (Form B):

The *Petition for Special Consideration: Request for Deferred Examination (Form B)* is used when a student misses an examination because of compelling medical or personal reasons.

1. Once a student has completed an examination, no special consideration will be granted.
2. A student who misses an examination because of compelling medical or personal reasons may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) to the Faculty/Program Office, normally within five working days of the missed examination.
3. If the reason is medical, the approved McMaster University Medical Form must be used. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed exam and the doctor

must verify the duration of the illness. Relief will not be available for minor illnesses. If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within five working days.

4. In deciding whether or not to grant a petition, the adequacy of the supporting documentation, including the timing in relation to the due date of the missed work and the degree of the student's incapacitation, will be taken into account.
5. It is the student's responsibility to check Mosaic Student Center > Deferred Exam Approvals or with the Faculty/Program Office for a decision on the request for a deferred examination. If the deferred examination is granted, the student will be informed officially by means of the notation DEF which will appear against the relevant course on the student's academic record and via Mosaic > Student Center > View My Grades.
6. Deferred examinations are written during the next official University deferred examination period. Default of the deferred examination will result in a fail for that examination.
7. Students who have been granted more than one deferred examination may be required by their Faculty/Program Office to reduce their course load during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the request for deferred examinations.
8. At the discretion of the Faculty/Program Office, students who have been granted one or more deferred examinations, may not be allowed to enrol in a subsequent term until all deferred examinations have been completed and the Academic Standing calculated. Students will be notified of this decision by their Faculty/Program Office.
9. Students who will be living more than 160 kilometres from Hamilton during the deferred examination period and wish to write their approved deferred examination at an institution other than McMaster must submit a Request to Write Deferred Examination Off-campus Form at least 15 working days prior to the deferred examination period. Students are responsible for making arrangements for a presider to conduct the deferred examination at an outside institution and for paying any fees such as invigilation and return courier.
10. The authority to grant any petitions lies with the Faculty/Program Office and is discretionary. It is imperative that students make every effort to meet the originally-scheduled course requirements and it is a student's responsibility to write examinations as scheduled.

Decisions made on Petitions for Special Consideration are final. In accordance with the *Student Appeal Procedures*, decisions made on Petitions for Special Consideration cannot be appealed to the Senate Board for Student Appeals. However, should students believe a decision violates their human rights, they may wish to consult McMaster's *Policy on Discrimination and Harassment: Prevention & Response* and visit one of the four intake offices (Equity and Inclusion Office, Student Support & Case Management, Employee/Labour Relations, Professionalism Office in Faculty of Health Sciences) to initiate a complaint.

Requests for Relief for Missed Academic Term Work (MSAF)

The University recognizes that students periodically require relief from academic work for medical or other personal situations. This academic regulation aims to manage these requests by taking into account the needs and obligations of students, instructors and administrators. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in his/her course. Any concerns regarding the granting of relief should be directed to the respective Faculty/Program Office. Requests for relief should be made with a commitment to academic integrity in mind. Requests that deviate from this commitment will

be handled under the Academic Integrity Policy and Code of Student Rights and Responsibilities, where appropriate.

- Relief for missed academic work worth less than 25% of the final grade resulting from medical or personal situations lasting up to three calendar days:
 - Use the McMaster Student Absence Form (MSAF) on-line self-reporting tool. No further documentation is required.
 - Students may submit requests for relief using the MSAF once per term.
 - An automated email will be sent to the course instructor, who will determine the appropriate relief. Students must immediately follow up with their instructors. Failure to do so may negate the opportunity for relief.
 - The MSAF cannot be used to meet a religious obligation or to celebrate an important religious holiday.
 - The MSAF cannot be used for academic work that has already been completed/ attempted.
 - An MSAF applies only to work that is due within the period for which the MSAF applies, i.e. the 3-day period that is specified in the MSAF; however, all work due in that period can be covered by one MSAF.
 - The MSAF cannot be used to apply for relief for any final examination or its equivalent. See *Petitions for Special Consideration*.
- For medical or personal situations lasting more than three calendar days, and/or for missed academic work worth 25% or more of the final grade, and/or for any request for relief in a term where the MSAF has been used previously in that term:
 - Students must report to their Faculty/Program Office to discuss their situation and will be required to provide appropriate supporting documentation (see *Documentation Requirements* below).
 - If warranted, the Faculty/Program Office will approve the absence, and the instructor will determine appropriate relief.

Documentation Requirements

If the reason for a request for relief is medical, the approved McMaster University Medical Form covering the relevant dates must be submitted. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed work and the doctor must verify the duration of the illness.

If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within three working days. In some circumstances, students may be advised to submit a Petition for Special Consideration (Form A) seeking relief for missed academic work. In deciding whether or not to grant a petition, adequacy of the supporting documentation, including the timing in relation to the due date of the missed work and the degree of the student's incapacitation, may be taken into account. Failure to do so may negate the opportunity for relief.

If the petition is approved, the Faculty/Program Office will notify the instructor(s) recommending relief. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in their course.

Examinations

(See also *Office of the Registrar (Examinations)*)

Examinations conducted by the Office of the Registrar will appear in the Mosaic Student Center and may be scheduled in the morning, afternoon, or evening, Monday through Saturday. Other instructor-scheduled tests and examinations may be held throughout each term in compliance with Academic Obligations: Restrictions. Full details regarding examination procedures conducted by the Office of the Registrar are found in the Undergraduate Examinations Policy.

McMaster student photo identification cards are required at all examinations. Examinations are not rescheduled for purposes of travel. Students must be available for the entire examination period as listed in the Sessional Dates section.

The Office of the Registrar will reschedule final examinations within the examination period for the reasons listed below. Application to reschedule examinations must be made at least 10 working days before the scheduled examination period. Failure to meet the stated deadline may result in the denial of the application.

- Conflict with religious obligations
- More than one examination scheduled at the same time
- Three examinations in one calendar day (midnight to midnight).
- Three consecutive examinations over two days (e.g., December 14th at 4:00 pm and 7:30 pm and December 15th at 9:00 am).

Students who miss a final examination for medical or personal reasons may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) to their Faculty/Program Office, normally within five working days of the missed examination.

Students who begin a final examination, but are unable to complete it for medical reasons, may submit a Petition for Special Consideration (Form A) to their Faculty/Program Office, normally within five working days of the examination.

Students with disabilities are required to inform Student Accessibility Services of accommodation needs for examinations on or before the last date for withdrawal from a course without failure by default. This allows sufficient time to verify and arrange appropriate accommodation.

Request to Write Deferred Examinations at an Off-Campus Location

Students living more than 160 kilometers from Hamilton during the deferred examination period and wishing to write their approved deferred examination at an institution other than McMaster must submit a Request to Write Deferred Examination Off-campus Form at least 15 working days prior to the deferred examination period.

If the deferred examination is written at an off-campus location, any fees incurred are the responsibility of the student. This includes the fee to courier the written examinations back to the Office of the Registrar, Scheduling and Examinations (GH 114).

For information regarding application for Deferred Examination, see *Petition for Special Consideration: Request for Deferred Examination (Form B)*.

Academic Evaluations

Numeric Grading System

The results of all courses attempted will appear on the transcript. The method for determining final grades will be given in the course outline. Unless otherwise specified in the course outline, course results determined on a percentage scale will be converted to an official letter grade, as indicated in the following equivalent percentage scale.

Grade	Equivalent Grade Point	Equivalent Percentages
A+	12	90-100
A	11	85-89
A-	10	80-84
B+	9	77-79
B	8	73-76
B-	7	70-72
C+	6	67-69
C	5	63-66

Grade	Equivalent Grade Point	Equivalent Percentages
C-	4	60-62
D+	3	57-59
D	2	53-56
D-	1	50-52
F	0	0-49 - Failure

Non-Numeric Grades and Notations:

Non-Numeric Grades	Notations
AUD: Audit	DEF
CAN: Cancelled	EXTRA
COM: Complete	REPEAT
CR: Credit	UPGRADE
F: Fail	
INC: Incomplete	
IP: In Progress	
MT: Multi-Term	
NC: No Credit	
NMR: No Mark Received	
P: Pass	
T: Transfer Credit	
W: Withdrawn	
XCH: Exchange	

WITHDRAWN

After the last day for enrolment and course changes, students may withdraw from courses until the last day to withdraw without failure by default. Withdrawn courses will be shown on the student's transcript with a grade of W. After the last day to withdraw without failure by default, the student will remain enrolled, whether or not they fulfil any further academic obligations, and a final grade will be assigned.

DEF

Courses with the notation DEF have been approved for a deferred examination.

EXTRA

Courses designated as "Extra" at the time of registration by the Faculty Office are not included as units toward completion of a student's program. The grades obtained in such courses will not be included in the computation of the Cumulative GPA. However, they will be included in the computation of the Fall-Winter Average and the Spring-Summer Average.

UNUSED

Courses designated as "Unused" cannot be used to fulfil the requirements for the student's current degree program. The grades obtained in such courses will be included in the computation of all averages.

GRADED UNITS

Graded units refer to the number of units taken at McMaster for which a letter or Numeric Grade is earned. Graded units do not include courses assessed with a Non-Numeric Grade.

PASS/FAIL COURSES

Courses evaluated on a Pass/Fail basis are not included in the calculation of averages. The earned units are counted towards degree requirements.

MULTI-TERM FALL/WINTER COURSES

Codes for multi-term Fall/Winter courses have an A/B suffix. Part A must always be taken in the Fall Term immediately preceding Part B. Neither Part A nor B of a multi-term course has academic credit independent of both parts being successfully completed. Students who drop or withdraw from Part A must also withdraw from B. Upon completion of the Fall Term, a grade of MT indicating multi-term will be assigned to Part A and the final grade will be assigned to Part B.

CUMULATIVE GRADE POINT AVERAGE (CUMULATIVE GPA)

The Cumulative GPA is the weighted average based on the Graded Units taken throughout the undergraduate career. The Repeating Courses regulation, effective September 1, 2018, will affect the calculation of subsequent Cumulative GPA.

FALL-WINTER AVERAGE

The Fall-Winter Average is a weighted average based on the grades attained in the Fall and Winter Terms. Overload courses and Extra courses are included in the Fall-Winter Average.

SPRING-SUMMER AVERAGE

The Spring-Summer Average is a weighted average based on the grades attained in the Spring and Summer Term. Overload courses and Extra courses are included in the Spring-Summer Average.

TERM GRADE POINT AVERAGE (TERM GPA)

The Term GPA is a weighted average based on the Graded Units taken in the term.

WEIGHTED AVERAGE

Weighted average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totaling these results, and then dividing this result by the total number of course units.

Example of a weighted average calculation, using the grade points and units for courses attempted:

Grade	Grade Points		Units		Total Points
A-	10	x	6	=	60
C+	6	x	3	=	18
B	8	x	6	=	48
B+	9	x	3	=	27
F	0	x	6	=	0
			Total		153
			To calculate average: $153 \div 24 = 6.4$		

HONOUR LISTS

Students are reviewed for Deans' Honour Lists (DHL) and Provost's Honour List (PHL) each time a minimum of 30 units (may not exceed 6 units assessed with a non-numeric grade) have been completed. Subsequent assessments are based on all units completed since the previous review. Students will be named to the Deans' Honour List when a minimum average of 9.5 is achieved. Students will be named to the Provost's Honour List when an average of 12.0 is achieved.

WITH DISTINCTION

Graduation *With Distinction* standing is awarded when a minimum Cumulative GPA of 9.5 is achieved in a degree program. In this case, the Latin phrase *summa cum laude* ("with highest honour") will appear on the graduate's diploma.

TRANSCRIPTS

A transcript summarizes a student's academic career at McMaster University and is available by electronic request through Mosaic. Transcript requests will not be processed for students with outstanding financial accounts at the University or those under investigation for an academic integrity violation.

CREDENTIALS

A credential is a body of academic work or collection of course work that stands on its own and for which a parchment is issued. McMaster credentials include certificates, diplomas and degrees. A single course is permitted to be counted toward a maximum of two credentials.

MINORS

Students enrolled in a four- or five-level program (with the exception of the Medical Radiation Sciences programs) are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of their degree program. At least 18 units must be completed at McMaster. Students who wish to receive a Minor must consult the appropriate department section of the calendar. McMaster also offers Interdisciplinary Minors and Thematic Areas. To apply for a Minor, students must complete the Minor/Certificate Application in addition to their online Graduation Information Centre (GIC) application. The student's Faculty will verify that the requirements have been met and, if successful, the transcript will indicate that a Minor has been obtained. Minors cannot be revoked once approved.

OVERLOAD WORK

Students wishing to take more units than prescribed for their Level/program in the Fall-Winter Term or more than 12 units in the Spring-Summer Term (no more than 6 units in either session of that term) must seek permission from their Faculty/Program Office. Normally, a Fall-Winter Average of at least 7.0 in the immediately preceding review period will be required if an overload is to be permitted. Additional academic fees will be assessed for overload work.

OSAP ELIGIBLE COURSE LOAD

OSAP Eligible Course Load or equivalent refers to the 60% minimum course load per term (40% minimum course load per term for students with permanent disabilities) required to be eligible for full-time OSAP government student aid funding.

REPEATING COURSES

Effective September 1, 2018, students may repeat a course twice (i.e. attempt a course three times). Cross-listed courses count as attempts. Grades from every attempt will appear on the academic transcript. The Cumulative GPA will include only the grade earned on the most recent attempt. Units earned will be counted once toward the student's program requirements, regardless of the number of times the course is repeated. Prior to September 1, 2018 the grades from all attempts are included in the GPA calculation.

AUDITING COURSES

Students currently enrolled in a degree program wishing to audit a course must obtain approval from the course instructor and their Faculty/Program Office. Additionally:

- course requisites must be met
- academic obligations (assignments, test, examinations, etc.) are not completed
- a grade of AUD (audit) will be assigned
- units will not be earned nor applied toward the student's program requirements
- tuition fees apply
- students will not be permitted to enrol for credit in the course after the Last Day for enrolment and course changes
- students enrolled in a course for credit will not be permitted to change the course to 'audit' after the Last Day for enrolment and course changes

Non-McMaster students wishing to audit a course must enrol as a Listener.

PERSONAL INTEREST COURSE (PIC)

McMaster University encourages interdisciplinary study and believes undergraduate studies provides an excellent opportunity to explore topics which are new and unfamiliar. Students, however, may be reluctant to take a course if they are unsure of their academic performance for fear of compromising their Cumulative GPA. The Personal Interest Course (PIC) option is designed to encourage students to explore interests outside of their program without affecting their Cumulative GPA.

1. A student can declare a PIC to signify they want an elective course to be assessed on a *Credit or No Credit (CR/NC)* grading scale.
2. To receive the grade of CR, the student must earn a final mark of at least 50%. Units earned from a successfully completed PIC will be counted in the units required for a student's degree as applicable.
3. Courses with a final grade of NC do not count as degree credits or as failures, nor are they included in the GPA calculation or averages. Please note, government student aid (e.g., OSAP) will consider a NC grade as a failure.
4. The PIC option is not available for any course that is considered a program requirement (which includes courses listed as possible required courses), independent study, thesis, field study or placement course, or on a list of required courses. Students are responsible for ensuring the course is an elective course for their program. Engineering students should note the PIC option is available only for complementary studies electives.
5. Students may declare a maximum of 3 units of PIC per term to a maximum of 12 units per four- or five-level degree or a maximum of 9 units per three-level degree. A maximum of 6 units of PIC may be used to satisfy requirements toward a Minor.
6. The PIC option is available to undergraduate students registered in a program above Level I, with a Cumulative GPA of at least 3.5, who are enrolled in a Program/Faculty which is participating in the PIC option. Exchange students should seek advice from the International Study Office and Faculty/Program Office.

The PIC option is not available to students who

- are enrolled in the School of Medicine, or
 - are enrolled in a Program/Faculty which is not participating in the PIC option (see Faculty Academic Regulations), or
 - have graduated and are in a second degree or a non-degree program, e.g., continuing, etc.
7. If a percentage grade in a course is required for future applications to graduate or professional school, the PIC option should not be selected for that course. Students may not subsequently request to have a PIC grade recalculated to a numeric grade. Students must carefully review any government (e.g., OSAP) and University aid and award eligibility rules which may be affected by the use of the PIC option.
 8. If the student changes their program of study and a course taken as a PIC becomes a required course, the new Faculty/Program Office may accept the course grade of CR or NC or have the grade converted back into a numeric grade. If a grade is converted back into a numeric grade, there will be no retroactive reconsideration of aid and award.
 9. Students cannot use the PIC option for courses in which they have been found guilty of academic dishonesty. In these cases, the grade will be converted into a numeric grade.

Deadlines:

1. Students must declare a course as a PIC on Mosaic by the last day for enrollment and course changes date. The student progresses in the course as per normal, and has the option to withdraw from the course as per the normal procedures and deadlines.
2. If the student would rather keep the numeric grade, they must indicate the course is no longer a PIC on Mosaic by the final date in which a student can withdrawal from a course without failure by default and the numeric grade will appear on their transcript.

ACADEMIC STANDING REVIEW:

Each year in May and August (and after deferred examinations) academic standing is reviewed and determined for students who have:

- attempted at least 18 units of work since the last review, or
- may be eligible to graduate.

In the academic standing review, three determinations are made:

- whether a student may graduate

- whether a student may continue at the University
- whether a student may continue in a program.

ACADEMIC STANDINGS:

Good Standing

A student who satisfies the minimum requirements to continue in their program without restriction.

May Continue in Program - Academic Probation

Academic probation is assigned when a student:

- achieves a Cumulative GPA between 3.0 and 3.4. If at any future academic standing review their Cumulative GPA falls below 3.5, the academic standing assigned will be *May Not Continue at the University*.
- returns to studies after being Reinstated. If at any future academic standing review their Cumulative GPA falls below 3.5, the academic standing assigned will be *Required to Withdraw from the University*.

May Continue in Program - Program Probation

Program Probation is assigned when a student's Cumulative GPA falls below the minimum requirements to remain in their program. Failure to achieve *Good Standing* at the next academic standing review will result in their removal from the program. See Faculty specific *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

May Not Continue in Program

This standing is assigned to:

- students who fail to achieve the minimum Cumulative GPA to remain in the program, or
- students previously on Program Probation who fail to achieve *Good Standing*.

To continue at the University, the student must apply to transfer to another program.

May Not Continue in Faculty

May Not Continue in Faculty is assigned when:

- a student enrolled in a program in the Faculty of Engineering or Business has achieved a Cumulative GPA between 3.0 and the minimum requirements to remain in their Faculty, or
- a student enrolled in a program in the Faculty of Business in Level II or above receives a grade of F in more than 6 units.

To continue at the University, the student must apply to transfer to another program or continue as a transition student for one reviewing period.

May Not Continue at University

May Not Continue at University is assigned when:

- a student achieves a Cumulative GPA below 3.0, or
- a student previously on Academic Probation fails to achieve *Good Standing*.

The student cannot enroll in courses at the University unless granted Reinstatement.

Required to Withdraw from University

A student who at any time received a standing of Academic Probation and at a future academic standing review achieves a Cumulative GPA below 3.5 will be required to withdraw from the University. The student will be unable to apply for Reinstatement for at least 12 months.

REINSTATEMENT

Students must contact the Office of the Registrar to apply for reinstatement within the application deadlines. Reinstatement is not guaranteed.

If reinstatement is granted, the student is placed on academic probation and their Cumulative GPA is re-set to 0.0 on zero units. At the discretion of the Faculty, the student may retain credit for courses successfully completed. If at any academic standing review after reinstatement the student's Cumulative GPA falls below 3.5, the student will be required to withdraw from the University.

The student must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation With Distinction or other recognition based on the Cumulative GPA.

Level I Registration and Academic Standing Requirements

When you are admitted to McMaster University for a first degree, you will enrol in one of the following Level I programs: Automation Engineering Technology I Co-op (B.Tech.), Automotive and Vehicle Engineering Technology I Co-op, Arts & Science I, Biotechnology I Co-op, Business I, Chemical and Physical Sciences Gateway, Computer Science I, Economics I (effective 2019-2020), Engineering I, Environmental and Earth Sciences Gateway, Health Sciences I, Honours Health and Society I (effective 2019-2020), Humanities 1, Honours Integrated Science (Level I), Honours Kinesiology (Level II), Integrated Biomedical Engineering and Health Sciences (IBEHS) I, Integrated Business & Humanities I, Life Sciences Gateway, Mathematics and Statistics Gateway, Medical Radiation Sciences (Level I), Midwifery I, Music 1, Nursing I, Process Automation Technology I, Social Sciences I, and Studio Art 1. If you enter the University without Advanced Standing being granted, you must normally attempt a full load of Level I work before proceeding to the work of higher levels.

If you are studying part-time, the Office of the Associate Dean has the discretion to permit you to take some of the work in the higher levels prior to having attempted the full load of Level I. Decisions will be made on an individual basis, according to the special circumstances that apply in the particular case.

At any review during Level I before you complete the Level I work, as in the case of a part-time student, you must attain a GPA of at least 3.5 to continue at the University in good standing. If you attain a GPA of 3.0 to 3.4 you may remain at the University for one reviewing period, but will be placed on academic probation. You may be on academic probation only once during your University career. If your GPA is less than 3.0 you may not continue at the University.

At the review when you complete the Level I work, if you attain a GPA of at least 3.0 and have not previously been on academic probation, but fail to meet the admission requirements of any program, you may continue at the University for one additional reviewing period on academic probation. You will be enrolled in your original Faculty, and will be classified as a Level I transition student if your work may only qualify you to be considered for admission to a program in another Faculty. If, at the end of the next reviewing period, you again do not qualify for admission to a program, you may not continue at the University. If your GPA is less than 3.0 you may not continue at the University.

Students in Arts & Science I should refer to the Arts & Science Program regulations listed below.

Health Sciences I, Nursing I and Midwifery I students should refer to the program regulations listed in the Faculty of Health Sciences section in this Calendar.

Minimum Requirements for Entering and Continuing in a Program Beyond Level I

Admission to the programs beyond Level I is based on performance in Level I. You must meet both the minimum requirements to continue at the University, as described above, and program-specific requirements of each Faculty, as described in this Calendar.

Arts & Science Program

B.ARTS SC. (HONOURS) AND B.ARTS SC. PROGRAMS

You must have a Grade Point Average (GPA) of at least 6.0 to continue in the program. If your GPA is from 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once.

If your GPA is 3.5 to 5.4, you must transfer to another program for which you qualify, or enrol in the Arts & Science Program as a transition student for one reviewing

period. During that period you cannot take Arts & Science Program courses. At the end of that period, you may apply for readmission to the Arts & Science Program. If your GPA is 3.0 to 3.4, you will be placed on academic probation. You may continue in the program for one reviewing period as a transition student but cannot take Arts & Science Program courses. The purpose of this period is to prepare yourself for a program outside the Arts & Science Program. You may be on academic probation only once.

If your GPA is less than 3.0 you may not continue at the University.

School of Business

BUSINESS I

For specific admission requirements to Commerce II see Program Notes under the heading Programs in the *DeGroote School of Business* section of this Calendar. If you are not admitted to Commerce II at the end of Business I, you have the following options available to you.

If your cumulative Grade Point Average is 3.5 or greater, you are still in good standing at the University. You may continue at the University in a program outside the School of Business or as a *transition* student in Business. To continue in a program outside the School of Business you must apply for admission to that program through the Office of the Associate Dean appropriate for that program. You should consult that office for more details.

If you are not admitted to another Faculty you may enrol in the School of Business as a transition student for one reviewing period. During that period you cannot take upper-level Commerce courses. The purpose of your registration as a transition student is to make yourself eligible for admission to a degree program. If you have a cumulative Grade Point Average of 3.0 to 3.4, you will be on academic probation and may continue at the University for one reviewing period as a transition student in the School of Business but will not be permitted to take any upper-level Commerce courses. The purpose of the probation period is to make yourself eligible for a degree program.

If you have a cumulative Grade Point Average of less than 3.0 at the end of Business I, you may not continue at the University either on a full-time or part-time basis.

COMMERCE II

Upon satisfactory completion of Commerce II, qualified students may continue in one of the following programs:

HONOURS B.COM. PROGRAM:

You must have a cumulative Grade Point Average of at least 5.0 to continue in the Honours B.Com. Program in Level III or IV or to continue in the Honours B.Com. Program. Once admitted to Honours B.Com., if your cumulative GPA is 4.5 to 4.9, you may continue in the Honours B.Com. Program, but will be placed on program probation. You may be on program probation for only one reviewing period. If your GPA is a 3.5 to 4.4, you may transfer to the B.Com Program. If your GPA is less than 3.5, you may not continue at the University. Regardless of your cumulative GPA, if you receive more than six units of failure (in required or elective course work) after entry to Level II Commerce, you will not be permitted to continue in a program in the School of Business.

B.COM. PROGRAM:

You must have a cumulative Grade Point Average of at least 4.0 to continue in the B.Com. Program. If your GPA is 3.5 to 3.9, you are permitted to continue in the B.Com. Program on program probation for one reviewing period. If your GPA is less than 3.5, you may not continue at the University. Regardless of your GPA, if you receive more than six units of failure (in required or elective course work) after entry to Level II Commerce, you will not be permitted to continue in a program in the School of Business.

INTEGRATED BUSINESS & HUMANITIES:

To be admitted to Level II of the Integrated Business & Humanities (IBH) program, students must have completed at least 24 units of the required Level I courses with a minimum Cumulative Grade Point Average (GPA) of 5.0. In Level II and above, you must maintain a cumulative GPA of at least 5.0 to continue in the IBH program. If your cumulative GPA is 4.5 to 4.9, you may continue in the Integrated

Business & Humanities program, but will be placed on program probation. You may be on program probation for only one reviewing period. If your cumulative GPA is a 3.5 to 4.4, you must transfer to another program for which you qualify, or enrol in the IBH program as a transition student for one reviewing period. During that period you cannot take IBH program courses. The purpose of this period is to prepare yourself for a program outside the IBH program. If your GPA is 3.0 to 3.4, you will be placed on academic probation. You may continue in the program for one reviewing period as a transition student but cannot take IBH program courses. The purpose of this period is to prepare yourself for a program outside the IBH program. You may be on academic probation only once.

If your GPA is less than 3.0 you may not continue at the University.

Regardless of your cumulative GPA, if you receive more than six units of failure (in required or elective course work) after entry to Level II, you will not be permitted to continue in the Integrated Business & Humanities program.

Faculty of Engineering

B.ENG., B.A.SC. PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. Admission to Level II Honours Business Informatics requires completion of the minimum requirements for these individual programs as stated within the Faculty of Engineering section in this Calendar. In Level II and above, you must maintain a GPA of at least 4.0 to continue in an Engineering program or in the Honours Computer Science or Honours Business Informatics programs. If you have a GPA of 3.0 to 3.9, you may not continue in the Faculty. If your GPA is less than 3.0, you may not continue at the University.

B.TECH. PROGRAMS

For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Engineering section in this Calendar.

Faculty of Health Sciences

For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Health Sciences section in this Calendar.

Faculties of Humanities and Social Sciences

HONOURS B.A. PROGRAMS; B.MUS. (HONOURS)

PROGRAM; BFA (HONOURS) PROGRAM

You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A. program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

HONOURS B.S.W., B.A./B.S.W. AND B.S.W. PROGRAMS

You must have a Grade Point Average (GPA) of at least 6.0 to continue in an Honours B.S.W., B.A./B.S.W. or B.S.W. program. If your GPA is 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 5.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. PROGRAMS

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

Faculty of Science

HONOURS B.SC. PROGRAMS

(Requirements are effective for students who enter Level II of an Honours B.Sc. program as of the 2016-2017 Fall Term.)

Students must have a Grade Point Average (GPA) of at least 5.0 to continue in and graduate from an Honours B.Sc. program. Students with a GPA between 4.5 to 4.9, may remain in the Honours B.Sc. program, but will be placed on program probation. Students may be on program probation for only one reviewing period. Students with a GPA between 3.0 to 4.4, must transfer to another program for which they qualify. Students with a GPA below 3.0 may not continue at the University.

HONOURS B.SC. KINESIOLOGY PROGRAM

Students must complete Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03) with a Grade Point Average (GPA) of at least 6.0 to continue onto Level II Honours Kinesiology.

If, upon completion of Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03), students achieve a GPA between 5.5 and 5.9, they may enrol in Level II Honours Kinesiology but will be placed on program probation for one reviewing period. Students may be on program probation only once.

If, upon completion of Level I Honours Kinesiology, students who achieve a GPA between 3.5 and 5.4 and/or fail to successfully complete each of KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03, may enrol in Level II Kinesiology General and take Level II required Kinesiology courses (for which all prerequisites have been met). At the next review, such students must achieve a GPA of at least 6.0 including, successful completion of KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03, to transfer to the Honours Kinesiology program. Such students must attend a mandatory preregistration counselling session with an Academic Advisor. Students who fail to meet the minimum requirements for transfer to Honours Kinesiology, must transfer to a non-Kinesiology program for which they qualify.

Students with a GPA between 3.0 to 3.4, must transfer to another program to which they qualify. Students with a GPA below 3.0 may not continue at the University.

EFFECTIVE SEPTEMBER 2019:

Students must complete Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03) with a Grade Point Average (GPA) of at least 6.0 to continue onto Level II Honours Kinesiology.

If, upon completion of Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03), students achieve a GPA between 5.5 and 5.9, they may enrol in Level II Honours Kinesiology but will be placed on program probation for one reviewing period. Students may be on program probation only once.

If, upon completion of Level I Honours Kinesiology, students who achieve a GPA between 3.5 and 5.4 and/or fail to successfully complete each of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03, may enrol in Level II Kinesiology General and take Level II required Kinesiology courses (for which all prerequisites have been met). At the next review, such students must achieve a GPA of at least 6.0 including, successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03, to transfer to the Honours Kinesiology program. Such students must attend a mandatory preregistration counselling session with an Academic Advisor. Students who fail to meet the minimum requirements for transfer to Honours Kinesiology, must transfer to a non-Kinesiology program for which they qualify.

Students with a GPA between 3.0 to 3.4, must transfer to another program to which they qualify. Students with a GPA below 3.0 may not continue at the University.

B.SC. PROGRAMS

Students must have a Grade Point Average (GPA) of at least 3.5 to continue in a three-level B.Sc. program. Students with a GPA between 3.0 to 3.4, may continue on academic probation for one reviewing period. Students may be on academic probation only once. Students with a GPA below 3.0 may not continue at the University.

HONOURS B.A.SC. PROGRAMS

Students must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A.Sc. program. Students with a GPA between 4.5 to 4.9, may remain in the Honours B.A.Sc. program, but will be placed on program probation. Students

may be on program probation for only one reviewing period. Students with a GPA between 3.0 to 4.4, must transfer to another program for which they qualify. Students with a GPA below 3.0 may not continue at the University. Graduation from an Honours B.A.Sc. program requires a Grade Point Average of at least 5.0.

M.R.SC. PROGRAM

Students must complete all the course requirements prescribed for Level I Medical Radiation Sciences by the end of Winter Term of Level I, with a Grade Point Average (GPA) of at least 5.0 or permission of the Committee of Instruction (Chair Medical Radiation Sciences (Mohawk), Coordinator Medical Radiation Sciences (McMaster), Coordinator Radiation Therapy Specialization, Coordinator Radiography Specialization, Coordinator Ultrasonography Specialization). For additional program-specific regulations, see the School of Interdisciplinary Science (SIS) in the Faculty of Science section of this Calendar. Effective September 2018, admission to Level II of the Medical Radiation Sciences - Radiation Therapy Specialization was suspended. Reinstatement of the program will be reviewed on an annual basis. A decision regarding future continuation will be made no later than September 2020.

Graduation

The following minimum Cumulative GPA are required to graduate:

- B.A. - 3.5
- B.A. (Honours) - 5.0
- B.S.W. (Honours), B.A. /B.S.W. and B.S.W. - 6.0
- B.Arts Sc. and B.Arts Sc. (Honours) - 5.0
- B.A.Sc. (Faculty of Engineering) - 4.0
- B.A.Sc. (Honours) (Faculty of Science) - 5.0
- B.Com. - 4.0
- B.Com. (Honours) - 5.0
- B.Eng., B.Eng.BME., B.Eng.Biosciences, B.Eng.Mgt., B.Eng.Society - 4.0
- B.F.A. (Honours) - 5.0
- B.H.Sc. - 3.5
- B.H.Sc. (Honours) - 5.0
- B.H.Sc. (Midwifery) - 6.0
- B.H.Sc. (Honours) (HESE Specialization) - 4.0
- B.M.R.Sc.*- 4.5
- B.Mus. (Honours) - 5.0
- B.Sc. - 3.5
- B.Sc. (Honours) - 5.0
- B.Sc.Kin. (Honours) - 5.0
- B.Sc.N. - 5.0
- B.Tech - 3.5

* *All requirements must be completed within five years from the time of registration in Level II.*

Students who intend to graduate must complete the online Graduation Information Centre form by the appropriate deadline in their final term of study. Students wishing to graduate with a Minor must complete the application in the Minor/Certificate Application Centre.

Degrees will be conferred at the Convocation immediately following the completion of the degree. Students unable to attend the convocation ceremony who wish to attend a later ceremony should consult the *Policy on Deferral of Attendance at Convocation* and must contact the Office of the Registrar within the prescribed deadlines.

Parchments, Diplomas and Certificates

Diplomas will not be released to students with an outstanding financial account with the University. Diplomas are held for a period of 12 months following the Convocation date before being destroyed. Students requesting diplomas after this period are required to pay a replacement fee.

Graduates may request a duplicate or replacement degree parchment, diploma or certificate (fees apply). A duplicate copy will be issued when requested by a graduate or when the original document has been lost or destroyed.

The words *duplicate copy* or *reissued* will be affixed to all degree parchments, diplomas or certificates requested in this manner and will bear the signatures of the current Chancellor, President and Vice-Chancellor, and Registrar.

Damaged parchments must be returned to the Office of the Registrar before the new parchment, diploma or certificate is issued.

Senate Policy Statements

The University has defined its expectations of students in both the academic and nonacademic life of the University community, and has developed procedures to ensure that all members of the community receive equitable treatment. Policies that govern academic and student life at McMaster can be found on the university website at the following address: <http://www.mcmaster.ca/policy>

Following are some of the policies most relevant to undergraduate students, available at the website above:

- Academic Accommodation of Students with Disabilities
- Academic Accommodation for Religious, Indigenous and Spiritual Observances (RISO)
- Academic Integrity Policy
- Alcohol Policy
- Anti-Discrimination Policy
- First Year Student Guiding Principles
- Petitions for Special Consideration
- Research Integrity Policy
- Residence Admissions Policies and Procedures
- Residence Code of Conduct
- Sexual Harassment Policy
- Student Appeal Procedures
- Student Code of Conduct
- Student Rights and Responsibilities
- Undergraduate and Graduate Awards Policy
- Undergraduate Course Management Policies
- Course Outlines
- Early Feedback
- Assessment Ban
- Turnitin.com
- Welcome Week Regulations

As policies are reviewed and revised on a regular basis, students are advised to check the Policies, Procedures and Guidelines section of the University website for the most up-to-date information. Complete versions of the policies may also be obtained from the **University Secretariat, Room 210, Gilmour Hall**.

Academic Integrity and Academic Dishonesty

The Academic Integrity Policy explains the expectations the University has of its scholars. Some departments and instructors have also developed more specific rules and regulations designed to maintain scholarly integrity. It is the responsibility of each instructor to make students aware of these expectations.

The main purpose of a university is to encourage and facilitate the pursuit of knowledge and scholarship. The attainment of this purpose requires the individual integrity of all members of the University community, including all graduate and undergraduate students.

The University states unequivocally that it demands scholarly integrity from all its members. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University; furthermore, it is unfair and discouraging to those students who pursue their studies honestly.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. In an academic setting, this may include any number of forms such as:

- copying or the use of unauthorized aids in tests, examinations and laboratory reports,
- plagiarism, i.e., the submission of work that is not one's own or for which previous credit has been obtained, unless the previously submitted work was presented as such to the instructor of the second course and was deemed acceptable for credit by the instructor of that course,
- aiding and abetting another student's dishonesty,

- giving false information for the purposes of gaining admission or credit,
- giving false information for the purposes of obtaining deferred examinations or extension of deadlines, and
- forging or falsifying McMaster University documents.

For a complete definition and examples, please refer to the *Academic Integrity Policy*, Appendix 3. Students are encouraged to view: www.mcmaster.ca/academicintegrity for further information on academic integrity and how to avoid academic dishonesty. Allegations of academic dishonesty will be handled according to the procedures described in the *Academic Integrity Policy*. Penalties may be imposed on students who have been found guilty of academic dishonesty. Examples of penalties include a mark of zero on an assignment, zero for the course with a transcript notation, and suspension or expulsion from the University, etc.

Research Integrity and Research Misconduct

The Research Integrity Policy explains the expectations the University has of its institutional personnel to maintain research integrity.

One of the main purposes of a university is to encourage and facilitate the pursuit of research (e.g., an undertaking intended to extend knowledge through a disciplined inquiry or systematic investigation). The University states unequivocally that it demands research integrity from all of its members. Research misconduct, in whatever form, is ultimately destructive to the values of the University; furthermore, it is unfair and discouraging to those who conduct their research with integrity. This Policy applies to all faculty, postdoctoral fellows, graduate students and undergraduate students taking part in research, directly or indirectly, and other research support staff (for complete definition of Institutional Personnel please see page 4 of the Research Integrity Policy).

All institutional personnel who are involved in research have a responsibility to report what they, in good faith, believe to be research misconduct. The Office of Academic Integrity is the appropriate office to receive concerns and questions regarding an allegation of research misconduct. Responsible allegations, or information related to responsible allegations, should be sent directly to the Office of Academic Integrity in writing.

For the complete definitions and examples, please refer to the Research Integrity Policy: www.mcmaster.ca/academicintegrity

Financial Information

Upon receiving official acceptance from the Registrar's Office and upon submission of registration, you are responsible for the payment of all fees as defined in this Calendar. Payment of academic fees does not imply your acceptance to the University. Academic requirements have to be fulfilled before your enrollment is completed.

If you are a new student, you may not forward academic fees to Financial Services until you have both: accepted your Offer of Admission before the stated deadline and enrolled in courses.

You should not send residence fees unless you have received notification of acceptance.

You are responsible for the full fees for each academic term. No fee credits can be transferred from one academic session to another.

It is the policy of the University not to accept enrolment until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

The following fees and regulations were the most recent available at the time of publication. All fees are subject to approval by the Board of Governors. For the most current fee information, please visit <http://www.mcmaster.ca/bms/student/>. The University reserves the right to amend the fees and regulations at any time.

For information on student awards and financial aid, please refer to Undergraduate Academic Awards and Student Financial Aid sections of this Calendar.

Undergraduate Fees

If you are a full-time student, fees cover your portion of the tuition cost, enrolment, library, campus health services, student organizations, and athletics, and are payable by all students.

No caution deposits are required, but students will be assessed for any unwaranted loss or breakage.

The University reserves the right to assess other supplementary fees or charges in some courses or programs to recover - in part or in full - the cost of providing course materials, accommodation and transportation for field trips, and the costs of breakages.

Fees charged by the University are approved annually by the Board of Governors for the academic year beginning September 1.

Fees shown below are for 2018-2019. The fee schedules for 2019-2020 will be available on the Student Accounts & Cashiers website at <http://www.mcmaster.ca/bms/student/> in the spring of 2019.

Tuition fees include a base per unit fee plus mandatory non-tuition related supplementary fees.

Base Per Unit Tuition Per Faculty

Below is a breakdown of Canadian, International (new admissions for 2012-2013 onward) and Visa Undergraduate (returning visa students.) Fees shown below are for 2019-2020. The fee schedules for 2019-2020 will be available on the Student Accounts & Cashiers website at <http://www.mcmaster.ca/bms/student/> in the spring of 2019.

Supplementary Fees

Fees shown below are for 2018-2019. The fee schedules for 2019-2020 will be available on the Student Accounts & Cashiers website at <http://www.mcmaster.ca/bms/student/> in the spring of 2019.

STUDENTS TAKING 1 TO 17 UNITS PAY (PER UNIT):

Athletics and Recreation Activity Fee	\$5.40
Administrative Services Fee	\$1.25

McMaster Association of Part-Time Students Fees:

Organization Fee	\$7.12
Total Charge per unit	\$13.77

Nursing Students Add:

Learning Resource Fee	\$9.26
Communicable Disease Screening	\$29.03
Respiratory Mask Fitting Fee	\$23.75

STUDENTS TAKING 18 UNITS OR MORE PAY:

Students registered in 18 or more units at ANY time during the session (including cancelled courses) will be responsible for the following fees.

Student Service Fee	\$422.96
SOLAR Car	\$1.11
Ontario Public Interest Research Group (OPIRG)	\$5.50
Engineers Without Borders	\$0.41

Note: If you do not wish to support the work of McMaster OPIRG you can claim a full refund by bringing your student card to the OPIRG Office within three weeks after the completion of the drop and add period.

McMaster Student Union Fees:

Student Organization Fee	\$130.26
Health Plan Premium*	\$106.00
Dental Plan Premium*	\$124.00
H.S.R. Bus Pass	\$197.79
WUSC Student Refugee Fee	\$1.60
Ancillary Fee for CFMU-FM	\$13.41
Incite Publication	\$1.04
McMaster Marching Band	\$0.97

***Note:** Students who can prove comparable coverage may opt out of the McMaster Students Union Health Plan and Dental Plan Premiums. For deadline dates and detailed information, students should consult the MSU Insurance Plans web site at <http://www.msumcmaster.ca/services-directory/36-health-and-dental-insurance>.

PLUS:

- McMaster Student Union's University Student Centre Building fee (\$0.65 per unit), to a maximum of \$19.50
- Administrative Services Fee (\$1.25 per unit), to a maximum of \$37.50
- Athletics and Recreation Building Fee (\$4.89 per unit), to a maximum of \$146.70

AND FACULTY SPECIFIC SOCIETY/SUPPORT FEES AS FOLLOWS:

Arts & Science	\$28.11
Bachelor of Health Sciences (Honours)	\$30.00
Commerce	\$213.30
Engineering	\$193.74
Humanities	\$60.00
Medical Radiation Science Collaborative Fee	\$152.70
Nursing	\$203.39
Science	\$51.65
Social Sciences	\$65.76

Canadian Citizens, Landed Immigrant Students and Visa Students

The fee schedules for 2019-2020 will be available on the Student Accounts & Cashiers website at <http://www.mcmaster.ca/bms/student/>.

Student Health Services Fees

The McMaster Students Union Health Plan Premium fee of \$106.00 includes reimbursement of expenses resulting from an accident incurred during the academic year, where such expenses are not recoverable under the Ontario Health Insurance Plan. The McMaster Students Union Dental Plan Premium fee of \$124.00 provides a dental plan for all full-time undergraduates students enrolled in 18 units or more. For details concerning coverage, contact the McMaster Students Union Office at ext. 22003 or visit their website at <http://www.msumcmaster.ca>.

Note: Students who can prove comparable coverage may opt out of the McMaster Students Union Health Plan and Dental Plan Premiums. For deadline dates and detailed information, students should consult the MSU Insurance Plans web site at <http://www.msumcmaster.ca/services-directory/36-health-and-dental-insurance>.

Co-op Fees

Co-op students attending the full academic term (September-April) should add a \$1,300.00 Co-op Fee to the regular 30 unit Science fee. Co-op students attending one academic term should pay half the 30 unit Science fee plus a \$650.00 Co-op Fee. Faculty of Engineering Admin Co-op Fee is \$100.00 and B-Tech Co-op Fee (per work term) is \$600.00.

Listeners

You may register as a Listener in some degree courses. The cost is equivalent to a regular course but the student simply audits the course and does not receive a grade. Listener status is not available in limited enrolment classes. For any degree course, written permission to attend must be obtained from the course instructor before registration is finalized by the Office of the Registrar. Listeners withdrawing from a course may do so without penalty up to five working days before the first session. After that and before the second class, an administrative fee of \$60.00 applies. There is no refund after the second class. This category excludes currently registered students, who may audit a course. See *Admission Requirements* section in this Calendar for details.

Persons Aged 65+

Subject to meeting admission and prerequisite requirements, if you will be aged 65 or over during the academic session for which you are enrolling, you may enrol without payment of tuition and supplementary fees.

Residence and Meal Plan Fees

Regular Session

If you live on campus, your residence fees cover the period, from Labour Day weekend to 5 p.m. on the day following your final April examination, and excludes the December holiday break.

The fees below are those for 2018-2019.

Add to the fees below the Residence Life Activity fee of 40.00 per student. For more information, visit <http://www.mcmaster.ca/residence-life.html>.

RESIDENCES

Traditional Residences	
Lofted Quad	\$5,800.00
Lofted Triple/Single-User Washroom	\$6,100.00
Triple Room	\$6,300.00
Quad Room	\$6,500.00
Double Room	\$6,650.00
Double/Single User Washroom	\$6,975.00
Double Washroom	\$7,300.00
Single Room	\$7,600.00
Single/Single User Washroom	\$7,650.00
Single Washroom	\$7,950.00
Apartment	
2 person (Double Room)	\$7,900.00
4/6 person (Single Room)	\$8,325.00
Suite	

4 person (Single Room)	\$8,825.00
------------------------	------------

MEAL PLANS

The Residence Meal Plan is an integral component of living in any of the McMaster University residences and all students living in residence must purchase a mandatory meal plan.

If you are living in a traditional residence, you must purchase a meal plan from Group A. Students living in Bates and the Mary E. Keyes Residence must purchase a meal plan from *either* Group A *or* Group B.

The fees below are those for 2018-2019.

GROUP A FULL MEAL PLAN (AVAILABLE TO ALL RESIDENCE STUDENTS)	
Mandatory Meal Plan 1	\$4,135.00
Optional Meal Plan 2	\$4,335.00
Optional Meal Plan 3	\$4,535.00
Optional Meal Plan 4	\$4,735.00

GROUP B REDUCED MEAL PLAN (AVAILABLE TO BATES AND MARY E. KEYES RESIDENCE STUDENTS ONLY)	
Mandatory Meal Plan 1	\$2,975.00
Optional Meal Plan 2	\$3,175.00
Optional Meal Plan 3	\$3,375.00
Optional Meal Plan 4	\$3,575.00

For more information on meal plans visit our web page at <http://hospitality.mcmaster.ca/> or contact Mac Express, Commons Building, Room 128, telephone (905) 525 9140, ext. 27448, email express@mcmaster.ca.

For information regarding applying to residence visit the Housing web page at <http://housing.mcmaster.ca/> or contact Residence Admissions, Commons Building, Room 101, telephone (905) 525 9140, ext. 24342, email resnote@mcmaster.ca.

Summer Residence

McMaster University offers residence accommodation for summer students and casual guests from early May to late August each year.

For further information, contact Conference Services, McKay Residence, Room 124, telephone (905) 525-9140, ext. 24781.

Payment of Fees

Payment deadline dates:

Tuition fees are due in full on the following dates:

- Fall term - September 1 (September 22 for OSAP students)
- Winter term - January 1 (January 22 for OSAP students)
- Spring/Summer terms - May 1 (May 22 for OSAP students)

For 2019-2020 dates, please visit Student Accounts web site at www.mcmaster.ca/bms/student/SAC_dates_deadlines_.html.

Residence/M meal plan fees are due in full on the following dates:

- September 1 (September 22 for OSAP students)

Our web site at <http://www.mcmaster.ca/bms/student> contains valuable information about your fees and important deadline dates.

Students who do not pay in full by the deadline dates provided in their account on MOSAIC will find balances subject to interest charges, late fees and in time,

suspended privileges. Interest is charged at an annual rate of 14.4% (1.2% per month) subject to change. A full month's interest is calculated on any unpaid balance on the second-to-last working day of each month. Past-due balances are subject to collections activity.

In addition, if you refuse to pay fees, or any part of the fees, you may be refused admission to the University or you may be requested to withdraw with all privileges suspended. Fees to the date of withdrawal will be assessed. If you wish to re-register within the same academic session, you will also be assessed a \$100.00 reinstatement fee.

It is the policy of the University not to accept enrolment until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

You will not be eligible for any grades, examination results, transcripts, diplomas or the payment of awards of any kind, until fees and any other accounts owed to the University are paid in full.

Note: Graduates who have outstanding accounts with the University will be permitted to attend convocation, but will not receive their diplomas until their accounts have been cleared in full.

Refunds

If you are forced, by illness or other personal reasons, to withdraw from courses, you will be charged a partial fee for courses that are cancelled. The charge is determined by the date on which the course is cancelled. It is important that you review the 2019-2020 cancellation schedule. It will be available on the internet at http://www.mcmaster.ca/bms/student/pdf/fees_cancellation.pdf in the spring of 2019.

Miscellaneous Fees

The following fees were in effect for the 2018-2019 academic year, and are over and above assessed academic fees, supplementary fees, and residence fees and meal plan fees.

Academic User Fees

Applications for re-admission	\$75.00
Applications to Part-Time Studies	\$75.00
Certification of Enrolment Fee	No fee
Challenge of Credit	Equal to tuition
Diploma Delivery Fee (not charged for pick-up at University)	\$25.00
Examination Reread (Refunded if grade increases by 3 points)	\$50.00
Graduation Fee (Service) for those attending	\$45.00
Letter of Permission	No fee
Notarizing Fee (plus \$0.50 per page over 10 pages)	No fee
Replacement of Diploma	\$50.00
Verification of Student I.D. Card at Exams	\$30.00
Replacement of Student I.D. Card	\$30.00
Rush Transcript Fee (24 hour rush service)	\$15.00
External Exam Administration Fee	\$110.00

On Demand Transcript Request (immediate production of official transcripts)	\$20.00
Transcript per copy (students who are not covered under Service Fee agreements)	\$10.00
Supplementary Application Processing Fee	\$90.00

Students writing deferred examinations at another centre are responsible for payment of fees, which may be assessed by the other examination centre.

Financial/Administrative User Fees

Certificate Replacement Fee	
Income Tax Receipt/Education Credit Certificate	No fee
Certification of Fee Payment	No fee
Interest Charge on Upaid Accounts - per month	1.20%
Meal Plan Withdrawal Fee	\$50.00
Meal Card Misuse Fine	\$25.00
Returned Cheque Charge (NSF, Stopped Payment)	
First Occurrence	\$55.00
Each Subsequent Occurrence (Additional)	\$15.00
Option to use Credit Card to pay Student Account	1.75%
Late Payment Fee - per term	\$75.00
Personal Cheque Handling Fee	\$15.00
Reinstatement Fee	\$100.00
Library Charges	
Overdue Recalled Books (per day)	\$5.00
Overdue Reserve Material (per hour)	\$5.00
Overdue multimedia equipment or room key (per hour). Daily maximum of \$250	\$20.00
Classroom audiovisual rental for data projectors and camcorders (per hour). Daily Maximum of \$65	\$25.00
Replacement Cost (up to); list of item costs will be posted for users	\$2,500.00
Non-refundable Administration fee for Replacement Cost	\$25.00

INSURANCE OF PERSONAL PROPERTY ON UNIVERSITY PREMISES

The University cannot assume any responsibility for the personal property of any employees, faculty members, or students, nor does the University carry any insurance that would cover their personal property. In most cases, personal fire insurance policies provide an automatic 10% extension covering property away from home. You should inspect your insurance policies to be certain that this is the case.

DEATH AND DISMEMBERMENT INSURANCE

The University considers that the purchase of insurance coverage for death and dismemberment is the individual responsibility of its students. There are various insurance plans available, and although the University does not specifically endorse any one of these plans, it has no objection to explanatory brochures and literature being posted on bulletin boards or distributed in appropriate places. If you are involved in laboratory or field work, you are particularly encouraged to investigate such coverage.

Expenses

COSTS OTHER THAN FEES FOR STUDENTS IN CLINICAL COURSES

You must buy uniforms, shoes and uniform accessories, for clinical practice. If you are a Nursing student, your uniform and accessories are ordered under the direction of the School of Nursing. The approximate cost is \$200.00. Level I Nursing students are also required to purchase a stethoscope at approximately \$100.00 and a basic blood pressure cuff at approximately \$40.00.

REGISTRATION EXAMINATIONS

Graduates of the B.Sc.N. program can expect to pay fees (currently, approximately \$600.00) to write the comprehensive registration examinations administered by the College of Nurses of Ontario.

Elizabeth Marquis (*Arts & Science; MacPherson Institute*)

P.K. Rangachari (*Medicine*)

Mat Savelli (*Health, Aging and Society*)

Vanessa Watts (*Indigenous Studies*)

Jean Wilson (*Arts & Science; Linguistics and Languages*)

The Arts & Science Program provides students with a broad-based, liberal education. By means of electives, the Program also allows for substantial specialization in a particular discipline or area. The interdisciplinary Program has been designed for students who wish to further their intellectual growth through the study of significant achievements in both the arts and the sciences and through practice in methods of inquiry.

The integrated curriculum consists of courses offered by the Council of Instructors of the Arts & Science Program, together with other courses offered by departments across the University. The curriculum is designed to meet three major objectives:

1. to enable substantial work in both the arts and the sciences;
2. to develop skills in writing, speaking, and critical thinking;
3. to foster the art of scholarly inquiry into issues of public concern.

Meeting the last of these objectives is the particular aim of inquiry courses, which begin in Level I and continue in Upper Levels. To investigate with skill and insight a complex public issue, such as world population growth in relation to food supply, requires an understanding of the methods and findings of many disciplines; it calls on a liberal education. Moreover, acquiring skill in such investigations requires practice in formulating questions, searching out evidence, and bringing the insights of academic disciplines to bear on the interpretation of evidence.

The Program offers preparation for advanced study in many professional schools, including those of architecture, business, dentistry, health administration, jour-

nalism, law, medicine, and teaching; and for research in many disciplines and interdisciplinary areas.

Students in this program who wish to prepare for graduate study in an academic discipline should consult with the appropriate department concerning requirements. In general, preparation for graduate study may be accomplished by combining the core Honours Arts & Science curriculum with a concentration of electives in the intended area of graduate study. Combined Honours Programs, which are available in many subjects, combine the core curriculum of the Arts & Science Program with a prescribed set of courses in a subject and can be expected to satisfy course requirements for admission to graduate study in the particular subject.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

The Arts & Science Program is governed by the General Academic Regulations of the University, (See the General Academic Regulations section in this Calendar) and the regulations described below.

The Program begins in Level I and leads to the degree, Bachelor of Arts & Science (Honours) on completion of Level IV. The four-level program provides an opportunity for specialization through electives and through an individual study or thesis course. Students who decide to conclude their studies in the program on completion of Level III may qualify to graduate with the degree, Bachelor of Arts & Science (B.Arts Sc.). Students must have a GPA of at least 6.0 to continue in the program. In the case of some Combined Honours programs, the average must include specified courses.

Registration in Level I of the Arts & Science Program is limited to approximately 70 students.

INQUIRY SEMINAR REQUIREMENTS

Inquiry courses comprise ARTSSCI 1C03 and a set of Upper-Level Inquiry seminars on a variety of topics. ARTSSCI 1C03 must be completed in Level I. Nine units of Upper-Level Inquiry are required and are taken in Level III or IV.

COMBINED HONOURS PROGRAMS

Students in the Arts & Science Program may undertake Combined Honours Programs in many disciplines within the Faculties of Business, Engineering, Humanities, Science, and Social Sciences. See *Arts & Science and Another Subject* for a list of combined programs that are already established. Students should consult the Director of the Arts & Science Program for consideration of other possible

combinations. On-line application for Admission to Level II (April) is required for all Combined Honours Programs.

INDIVIDUAL STUDY/THESIS

Students in the B.Arts Sc. (Honours) Program are required to complete an individual study or thesis (ARTSSCI 4A06 A/B or 4C06 A/B). Students in many Combined Honours Programs are also required to complete an individual study or thesis, often through a course in the discipline of their Combined Honours Program (offered by the relevant department). Students should consult the Combined Honours Program description for specific requirements (<http://artsci.mcmaster.ca>).

For further information, please see *Academic Standing and Program Requirements* in the *General Academic Regulations* section in this Calendar.

INTERNATIONAL/CANADIAN EXCHANGE PROGRAMS

One calendar year before study abroad: Interested students should consult the Director, Arts & Science Program.

Calendar year of planned travel: No later than the end of December, students must propose a program of study for approval by the Director. Credit will be confirmed only after transcripts are received and academic achievements are reviewed on the student's return.

To be eligible for study abroad students must have completed 60 units with a GPA of at least 7.0. The B.Arts Sc. (three-year) degree is not granted on the basis of international study; the 30 final units of work must be done at McMaster.

Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services. Inquiries can be directed to the office at: **International Student Services / MacAbroad**

Gilmour Hall, Room 110

COMBINED HONOURS PROGRAM IN ARTS & SCIENCE AND ANOTHER SUBJECT

Established Combined Honours Programs are listed below. Students are encouraged to consult the Director of the Arts & Science Program by September of Level II for consideration of other possible combinations. Application for Admission to Level II (early-April) is required for all Combined Honours Programs. Combined Honours Program descriptions are available on the web (<http://artsci.mcmaster.ca>) or from the Arts & Science Program Office.

COMBINED HONOURS PROGRAMS, ARTS & SCIENCE AND:

<ul style="list-style-type: none"> · Anthropology · Art History · Biochemistry · Biology · Molecular Biology and Genetics · Business · Chemical Biology · Chemistry · Classics · Communication Studies · Computer Science · Economics · English and Cultural Studies · Environmental Sciences · French · Geography · Human Geography 	<ul style="list-style-type: none"> · Health and Society · History · Indigenous Studies · Linguistics · Mathematics · Multimedia · Music · Peace Studies · Philosophy · Physics · Political Science · Psychology, Neuroscience & Behaviour · Psychology, Neuroscience & Behaviour (Music Cognition Specialization) · Society, Culture, and Religion · Sociology · Theatre & Film Studies
---	---

HONOURS ARTS & SCIENCE (B.ARTS SC.)

NOTES

1. Nine units from the following list are required: ARTSSCI 3A06 A/B, 3B03, 3BB3, 3L03/3S03. Students who choose to take ARTSSCI 3L03 or 3S03 may only use one of those courses towards satisfying 3 units of the requirement. Students are encouraged, however, to take additional units from this list as an elective.
2. Nine units of Upper-Level Inquiry beyond Level I are required. Additional units of Upper-Level Inquiry may be included as an elective with the permission of the Director. Upper-Level Inquiry courses are: ARTSSCI 3CL3, 3CU3, 3EH3, 3GJ3, 3TR3, 4CA3, 4CB3, 4CD3, 4CF3, 4CI3, 4CP3, 4CT3, 4EP3, 4HS3, 4VC3.
3. Students who are planning to combine Arts & Science with Physics are strongly advised to take PHYSICS 1C03 and 1CC3 in Level I, in lieu of ARTSSCI 2D06 A/B in Level II.
4. Six units of individual study or thesis are required. Special permission may be granted to take 9 units (ARTSSCI 4A09 A/B, 4C09 A/B). Electives will be adjusted accordingly.

COURSE LIST 1

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

REQUIREMENTS

120 units total (Levels I-IV), of which 48 units may be Level I

24 units

- ARTSSCI 1A06 A/B - Practices of Knowledge
- ARTSSCI 1B03 - Writing
- ARTSSCI 1BB3 - Argumentation
- ARTSSCI 1C03 - Inquiry: Global Challenges
- ARTSSCI 1CC3 - Contemporary Indigenous Studies
- ARTSSCI 1D06 A/B - Calculus

6 units

- Level I Electives

6 units

- from *Course List 1* (requirement must be completed by the end of Level II)

18 units

- ARTSSCI 2A06 A/B - Social and Political Thought
- ARTSSCI 2D06 A/B - Physics
- ARTSSCI 2E03 - Economics: Principles and Policy
- ARTSSCI 2R03 - Applied Statistical Inference

9 units

from

- ARTSSCI 3A06 A/B - Literature
- ARTSSCI 3B03 - Technology and Society I
- ARTSSCI 3BB3 - Technology and Society II
- ARTSSCI 3L03 - The Indian Religious Tradition OR
- ARTSSCI 3S03 - The East Asian Religious Tradition

9 units

- Upper-Level Inquiry (See *Note 2*)

6 units

from

- ARTSSCI 4A06 A/B - Individual Study
- ARTSSCI 4C06 A/B - Thesis

(See *Note 4*)

42 units

- Electives

Faculty of Business Degree Programs

HONOURS BACHELOR OF COMMERCE PROGRAM

The Honours Bachelor of Commerce (B.Com. (Honours)) requires the completion of 120 units, including specific courses from each level of the program.

The Honours Bachelor of Commerce allows substantial concentration in business subjects beyond the essential core of studies. Students must apply and qualify for the Honours Bachelor of Commerce program. Please see the admission requirements below to qualify for the Honours Bachelor of Commerce program listed for each year of entry.

BACHELOR OF COMMERCE PROGRAM

The Bachelor of Commerce program also requires the successful completion of 120 units, including specific courses from each level of the program. The Bachelor of Commerce program provides students with the same core business courses as the Honours Bachelor of Commerce, but focuses elective work on courses outside of the business discipline and Faculty.

INTEGRATED BUSINESS AND HUMANITIES PROGRAM

The Integrated Business & Humanities program also leads to an Honours Bachelor of Commerce degree. Students will be exposed to a variety of learning opportunities via coursework and co-curricular activities, with an emphasis on responsible leadership and management tactics for the changing global economy. The program also focuses on community engagement and sustainable business practices. The Integrated Business & Humanities program is a limited enrolment program and students begin the program in their first year of studies.

ENGINEERING AND MANAGEMENT PROGRAMS

In addition, the School of Business and the Faculty of Engineering offer nine five-level joint programs for the Bachelor of Engineering and Management (B.Eng. Mgt.) degree.

Change of Program

Business students may be permitted to transfer between programs, or students in other Faculties may apply to transfer to a program in the Faculty of Business, provided they have obtained a GPA of at least 5.0 and have completed the necessary admission requirements as described on the Faculty undergraduate website. However, the Integrated Business & Humanities program does not accept transfer students into the program. The Faculty of Business will include the grades of all courses attempted (including failures) in the calculation of the GPA.

Commerce Internship Program

This program is designed to provide students with an opportunity to engage in a career-oriented work experience with one host employer, following their third year of study, for a period of 12 - 16 months.

Students compete for opportunities with participating companies through an application and interview process with employers directly. Applications to participate in the internship program will be accepted in the Fall semester (deadlines will be communicated in the Undergraduate Faculty of Business Bulletin and on the website of DeGroot Career and Professional Development services). As a prerequisite to participating in the internship program, students must register in and pass COMMERCE 2IN0 (formerly 3IN0), a comprehensive, non-credit, ten-hour

career development course. Only students in good standing with a minimum cumulative GPA of 7.0 at the time of application, who have completed Level II and have "passed" COMMERCE 2INO (formerly 3INO) and completed the mandatory workshops, will be eligible to participate in the Commerce Internship Program. Should a student's academic standing fall below a cumulative GPA of 7.0, or is no longer in good standing during the recruitment cycle, the student may be removed from CIP. Due to legal considerations, only students who are able to work full time in Canada will be eligible to participate. Upon completion of the internship, students must return to campus full-time to complete their degree program.

After securing an internship, students must successfully complete a minimum twelve months of work experience, obtain satisfactory employer evaluation(s) and submit a detailed work term report prior to their return to campus. All internship students will be enrolled in COMMERCE 4IA0 (Internship Program: 12 Months) and/or COMMERCE 4IB0 (Internship Program: 16 months). Upon successful completion of the internship requirements, a notation including the name of the employer and dates of employment will be added to the student transcript. Commerce 4IA0 and Commerce 4IB0 will be evaluated as a pass/fail.

For more information, please contact Student Experience - Career & Professional Development in DSB-112 or at cip@mcmaster.ca.

Exchange Programs

There are a number of official exchange programs offered to undergraduate students registered in the School of Business. The countries involved include Australia, China, Denmark, France, Germany, Japan, the Netherlands, New Zealand, Norway, India, Ireland, Mexico, Singapore, and the United Kingdom. Official exchange programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign student fees by paying fees to McMaster. All students must be in good standing with a cumulative Grade Point Average of at least 7.0 to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for Level III of their program. Students are only permitted to take one exchange opportunity, regardless of whether it is a one or two term exchange. Information is available from the Student Experience - Academic Office, DeGroote School of Business, Room 112.

Additional information may be found under *International Study* in the *General Academic Regulations* section of this Calendar. Information concerning student exchanges can also be found in the *Academic Facilities, Student Services and Organizations* section of this Calendar under the heading International Student Services.

Inquiries can be directed to the office at:

International Student Services / MacAbroad

Gilmour Hall, Room 110

Telephone: (905) 525-9140, extension 24748

<http://iss.mcmaster.ca>

International/Cross-Cultural/Language Menu for Students in the Honours Bachelor of Commerce and Bachelor of Commerce Programs

In its programs, the School of Business is stressing the importance of breadth of knowledge. Students in the Honours Bachelor of Commerce program and the Bachelor of Commerce program are required to take courses in a variety of business disciplines, thus giving them a sound understanding of business functions and their relationships. They also obtain exposure to international and cross-cultural issues. This will provide them with the knowledge needed for the world of global organizations. Prior to graduation, students are required to successfully complete **two courses** from an International/Cross-Cultural/Language menu. **Note:** Students who participate in an official McMaster University exchange are required to successfully complete one course from an International/Cross-Cultural/Language menu prior to graduation. Students must satisfy the normal prerequisites for the courses listed on the menu. Students follow the menu requirements of the Calendar

in force when they enter Business I, however, when a later Calendar expands the menu options, students may choose from those additional courses as well.

The menu for 2019-20 is as follows:

- All Anthropology courses except ANTHROP 1AA3 or 1AB3 if completed as part of the Business I requirements, **if entry to Business I was prior to September 2014.**
- All courses in the Faculty of Humanities open to Commerce students, with the exception of all Multimedia courses, PHILOS 2N03 and English courses other than those listed below.
- All Indigenous Studies courses
- All Political Science courses, except POLSCI 1G06 A/B, 3F03, 3FF3, 3S03, 4O06 A/B
- All Religious Studies courses except RELIGST 1B06 A/B if completed as part of the Business I requirements, **if entry to Business I was prior to September 2014.**
- CSCT 1CS3
- ECON 2F03
- ECON 3H03 - International Monetary Economics
- ECON 3HH3 - International Trade
- ECON 3I03
- ECON 3LL3
- ECON 3T03 - Economic Development
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- ENGLISH 2C03 - Contemporary Canadian Fiction
- ENGLISH 2F03
- ENGLISH 2J03
- ENGLISH 3D03 - Science Fiction
- ENGLISH 3EE3 - African American Literature
- ENGLISH 3Y03 - Children's Literature
- GEOG 1HA3 - Society, Culture and Environment (if not completed as part of the Business I requirements, if entry to Business I was prior to September 2014)
- GEOG 1HB3 - Population, Cities and Development (if not completed as part of the Business I requirements, if entry to Business I was prior to September 2014)
- GEOG 3RJ3
- GEOG 3RW3 - Regional Geography of a Selected World Region
- GEOG 3UR3 - Urban Social Geography
- KINESIOL 3SS3
- SOCIOL 2E06 A/B
- SOCIOL 3Z03 - Ethnic Relations
- All courses included under the Peace Studies Minor (See *Minor in Peace Studies* in the Faculty of Humanities section of this Calendar)

FULL-TIME/PART-TIME STUDIES

Students may complete program work on a full-time or part-time basis. Progression to the next level is at the end of the successful completion of the 24 units of course work that pertain to the lower level. It should be noted that not all courses are offered in the evenings or in the Spring/Summer term.

CONTINUING STUDENTS

Graduates of a DeGroote undergraduate Business program, or one of the Engineering and Management programs may take, as part-time students, Commerce courses (to a maximum of 18 units), subject to space availability.

Other than those graduates specified above, undergraduate courses in the Faculty of Business are not open to Continuing Students.

SECOND UNDERGRADUATE DEGREE

A student with an undergraduate degree will not be admitted or readmitted to any DeGroote undergraduate program. Such a student may wish to apply for admission to the M.B.A. program.

CREDIT TOWARDS PROFESSIONAL DESIGNATIONS

Educational requirements toward professional designations can be met in varying degrees within the Honours and non-Honours Bachelor of Commerce programs, as well as the Engineering and Management programs. The professional accounting designation Chartered Professional Accountant (C.P.A.) is awarded by the Chartered Professional Accountants of Ontario. The designation C.H.R.P. is awarded by the Human Resources Professionals Association. Further opportunities for meeting educational requirements for professional designations are available to students in all Business and Engineering and Management programs. Additional course work may be taken while in the program provided the student is satisfying all course requirements for their degree. Further units of credit may also be taken after graduation (See *Continuing Students* above.). Information concerning credit towards these professional designations can be obtained from the Student Experience - Academic Office in the School of Business (DSB 112).

Minor

A Minor is an option available to a student enrolled in a four- or five-level program. A Minor consists of at least 18 units of Level II, III or IV courses beyond the designated Level I course(s) that meet the requirements set out in the program description of that Minor. A student is responsible for ensuring that the courses taken fulfill these requirements. Those who have completed the necessary courses may apply for recognition of that Minor when they graduate. If recognition is granted for a Minor, a notation to that effect will be recorded on the student's transcript. For further information, please refer to *Minors* in the *General Academic Regulations* section of this Calendar.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

A student enrolled in a DeGroote undergraduate program, in addition to meeting the General Academic Regulations of the University, shall be subject to the following School of Business Regulations.

QUALIFYING FOR THE HONOURS BACHELOR OF COMMERCE PROGRAM (FOR STUDENTS ENTERING BUSINESS I IN SEPTEMBER 2016 OR LATER)

To be considered for entry to the Honours Commerce program, students must have successfully completed Business I (as described in the *Program Notes* for

Students who Enter Business I in 2016 or Later) with a cumulative Grade Point Average of at least 5.0.

QUALIFYING FOR THE HONOURS BACHELOR OF COMMERCE PROGRAM (FOR STUDENTS ENTERING BUSINESS I IN SEPTEMBER 2013, 2014, OR 2015)

To be considered for entry to Level III of the Honours Bachelor of Commerce program, students must have successfully completed Business I and have successfully completed at least 24 units of course work for Level II Commerce (as described in this section of the Calendar) with a cumulative Grade Point Average (GPA) of at least 5.0 and no more than six units of failures (in required and/or elective course work) after entry to Level II Commerce.

If a student did not qualify for the Honours Program upon entry to Level III, there is one final opportunity for consideration. To be considered for Level IV of the Honours Commerce Program, students must have successfully completed at least 24 units of course work for Level III Commerce (As described in this section of the calendar) with a GPA of at least a 5.0 and no more than six units of failure (in required and/or elective course work) after entry to Level II Commerce.

WORKLOAD

A full-time student must complete minimum 9-unit load in each Fall and Winter term. Advance credit and credit earned during the Spring/Summer term may not be used to reduce this load requirement. Such reductions will be applied as late as possible in a student's program.

Students who wish to take more courses than recommended for a single Level of their program may do so only if their Fall-Winter Average in the immediately preceding review period is at least 7.0. Students registered in the final Level of their program are permitted to overload by up to six additional units during the Fall and Winter terms, with **no more than three units of overload per term**, in order to become eligible to graduate.

DEFERRED EXAMINATIONS

See the heading *Deferred Examinations* under *Examinations* in the *General Academic Regulations* section of the Calendar for application procedures. Students who are in a precarious position with respect to achieving the minimum GPA or otherwise meeting the Commerce program requirements for continuation in the program will not necessarily be permitted to undertake further work before clearing deferred examinations.

REPEATED COURSES

Business I students may not repeat a passed course in order to qualify for entry into Commerce II. Continuing students who have graduated in the last five years from a DeGroote undergraduate Business program may apply to repeat courses, subject to space availability.

LEVEL I COURSES

Students are not permitted to take more than 48 units of Level I courses in their program.

LEVEL OF REGISTRATION

A student enrolled in a program in the Faculty of Business is required to register in the lowest level for which more than six units of work is incomplete. Work of the next higher level may be undertaken only when necessary to fill a program load. Courses must be taken in the sequence specified by the School of Business.

READMISSION

A student in Level II, III or IV of an undergraduate Business program, who becomes ineligible to continue in the School of Business, may apply for readmission to their respective program in a subsequent calendar year up to a maximum of five years following the year in which the student becomes ineligible to continue. **Readmission is not guaranteed.**

Application for readmission must be made in writing to the Undergraduate Recruitment, Admissions, and Student Affairs Committee by June 30 for entry in September. This application should explain why the applicant would expect to succeed in the program if readmitted. Forms for this purpose may be obtained from the Student Experience - Academic Office in the DeGroote School of Business, Room 112.

A student who is readmitted after having become ineligible to continue in an undergraduate Business program must repeat all the courses of the level at which he/she became ineligible to continue unless specific course exemptions or credits are granted. The earliest possible term for readmission is the term starting in September of the year following the year in which the student became ineligible to continue.

Former undergraduate Business program students who have not been registered in an undergraduate Business program within the past five years, including those who were in good standing at the time of their most recent registration, must apply for readmission through the Office of the Registrar.

REINSTATEMENT

BUSINESS I

A student who May Not Continue at the University may apply for reinstatement. There are two categories of students who may apply for reinstatement to Business I:

1. Applicants who have been registered in Business I within the past five years, have exceptional or extraordinary circumstances that affected their performance*, and have not been registered in another McMaster program or at another University during that time, or
2. Applicants from other Faculties.

INTEGRATED BUSINESS & HUMANITIES I

An IBH student who May Not Continue at the University may apply for reinstatement. Applicants must have been registered in IBH I within the past five years, have exceptional or extraordinary circumstances that affected their performance*, and have not been registered in another McMaster program or at another University during that time.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the \$100 fee must be submitted to the Office of the Registrar by June 30 for entry in September.

*The application must clearly demonstrate extraordinary circumstances which caused inadequate performance and indicate whether the circumstances surrounding their academic situation have been resolved. The application should also include relevant supporting documentation. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation. Such exceptional cases will be considered on their merit. **Reinstatement is not guaranteed.**

Upon reinstatement, the Grade Point Average for a student is reset to 0.0 on zero units. If at any review after reinstatement the student's cumulative Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

FORMER STUDENTS FROM THE FACULTY OF BUSINESS

A student who was previously registered in a DeGroote undergraduate Business program, was in good standing and did not attend in the preceding year, but did attend another post-secondary institution must write to the Student Experience - Academic Office to seek readmission. The letter should describe the student's activities (academic and otherwise) since he/she was last registered.

If five years have passed since the student was last registered at McMaster, he/she should consult the heading *Readmission* in the *Admission Requirements* section of this Calendar.

INQUIRIES REGARDING ACADEMIC REGULATIONS

A student seeking relief from the School of Business academic regulations must apply in writing to the Undergraduate Recruitment, Admissions, and Student Affairs Committee with appropriate documentation attached. Guidelines for such requests may be obtained from the Student Experience - Academic Office, in the DeGroote School of Business, Room 112.

For the **Honours Arts & Science and Business program (B.Arts.Sc.)**, see *Arts & Science Program*.

For the **Certificate in Business Technology Management (BTM)**, see *Certificates and Diplomas: Concurrent Certificates*.

A. Programs for Students who Enter Business I in September 2016 or Later

PROGRAM NOTES

1. Students have only one opportunity to be reviewed for entry to a Commerce program. Other options may be pursued through the Student Experience - Academic Office (DSB-112).
2. To be considered for entry into the Honours Commerce Program, a Business I student must have met all of the following:
 - achieved a GPA of at least 5.0 on a minimum of 24 units of course work for Business I (on first attempts only) and these must include all required courses of the Business I program;
 - successfully completed, on first attempts only, all Business I required courses (See *Business I Requirements*). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;
 - successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
3. Refer to Workload under the Academic Regulations section in the School of Business for information on full-time and part-time Business I course loads.
4. Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 (or 1LS3) and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.
5. Transfer students may be admitted from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
6. Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
7. Students who have been granted Faculty permission to take COMMERCE 4EL3 in Level III Commerce will have this course applied against the program requirements for Level IV Commerce as three of the six required units of Level III or IV Commerce courses. See the *DeGroote School of Business (Faculty of Business)* program requirements section of this calendar.

BUSINESS I

Level I: 30 units

Students admitted to Business I must complete 30 units as follows:

1 course

- COMMERCE 1DE0 - Business I Orientation

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1E03 - Business Environment and Organization

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

(See Program Note 4 regarding the Math Minor)

0-3 units

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (for those students without Grade 12 Calculus and Vectors U or equivalent)

0-3 units

- STATS 1L03 - Probability and Linear Algebra (for those students without Grade 12 Mathematics of Data Management U or equivalent)

9-12 units

- Electives to total 30 units. See also the *International/Cross-Cultural/Language Menu*

HONOURS COMMERCE

Requirements for continuation in the Honours B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level II: 30 units

24 units

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2OC3 - Operations Management
- COMMERCE 2QA3 - Applied Statistics for Business
- COMMERCE 3FA3 - Managerial Finance

6 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

Level III: 30 units

9 units

- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

12 units

- Level III or IV Commerce courses

9 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

Level IV: 30 units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

15 units

from

- Level III or IV Commerce courses
- Electives from non-Commerce courses

9 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

COMMERCE (B.COM.)

Requirements for continuation in the B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their degree audits or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level III: 30 units

9 units

- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

3 units

from

- Level III or IV Commerce courses

18 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

Level IV: 30 units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

9 units

from

- Level III or IV Commerce courses
- Electives from non-Commerce courses

15 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

B. Programs for Students who Entered Business I in September 2015

PROGRAM NOTES

1. Students have only one opportunity to be reviewed for entry to Commerce II. Other options may be pursued through the Student Experience - Academic Office (DSB-112).
2. To be considered for entry into Commerce II a Business I student must have met all of the following:
 - achieved a GPA of at least 5.0 on a minimum of 24 units of course work for Business I (on first attempts only) and these must include all required courses of the Business I program;
 - successfully completed, on first attempts only, all Business I required courses (See *Business I Requirements*). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;
 - successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
3. Refer to Workload under the Academic Regulations section in the School of Business for information on full-time and part-time Business I course loads.
4. Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 (or 1LS3) and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.
5. Transfer students may be admitted to Commerce II from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.

6. Admission to either of the Commerce programs beyond Commerce Level II is not possible.
7. Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
8. Students who have been granted Faculty permission to take COMMERCE 4EL3 in Level III Commerce will have this course applied against the program requirements for Level IV Commerce as three of the six required units of Level III or IV Commerce courses. See the *DeGroot School of Business (Faculty of Business)* program requirements section of this calendar.

BUSINESS I

Level I: 30 units

Students admitted to Business I must complete 30 units as follows:

1 course

- COMMERCE 1DE0 - Business I Orientation

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1E03 - Business Environment and Organization

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

(See Program Note 4 regarding the Math Minor)

0-3 units

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (for those students without Grade 12 Calculus and Vectors U or equivalent)

0-3 units

- STATS 1L03 - Probability and Linear Algebra (for those students without Grade 12 Mathematics of Data Management U or equivalent)

9-12 units

- Electives to total 30 units. See also the *International/Cross-Cultural/Language Menu*

COMMERCE II

REQUIREMENTS

Level II: 30 units

21 units

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2OC3 - Operations Management
- COMMERCE 2QA3 - Applied Statistics for Business

3 units

- ECON 2X03

6 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

HONOURS COMMERCE (B.COM.)

Requirements for continuation in the Honours B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level III: 30 units

12 units

- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

9 units

- Level III or IV Commerce courses

9 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

Level IV: 30 units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

C. Programs for Students who Entered Business I in September 2014

PROGRAM NOTES

- Students in Business I are not eligible to take upper Level Commerce course work. COMMERCE 1AA3 and 1BA3 are not open to Business I students who entered prior to September 2014.
- Students have only one opportunity to be reviewed for entry to Commerce II. Other options may be pursued through the Student Experience - Academic Office (DSB-112).
- To be considered for entry into Commerce II a Business I student must have met all of the following:
 - achieved a Grade Point Average (GPA) of at least 5.0 on a minimum of 24 units of course work for Business I (on first attempts only) and these must include all required courses of the Business I program;
 - successfully completed, on first attempts only, all Business I required courses (See *Business I Requirements*). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;
 - successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
- Refer to Workload under the Academic Regulations section in the School of Business for information on full-time and part-time Business I course loads.
- Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 (or 1LS3) and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.
- Transfer students may be admitted to Commerce II from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
- Admission to either of the Commerce programs beyond Commerce Level II is not possible.
- Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
- Students who have been granted Faculty permission to take COMMERCE 4EL3 in Level III Commerce will have this course applied against the program requirements for Level IV Commerce as three of the six required units of Level III or IV Commerce courses. See the *DeGroot School of Business (Faculty of Business)* program requirements section of this calendar.

BUSINESS I

Level I: 30 units

Students admitted to Business I must complete 30 units as follows:

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1E03 - Business Environment and Organization

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

(See Program Note 5 above.)

0-3 units

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (for those students without Grade 12 Calculus and Vectors U or equivalent)

0-3 units

- STATS 1L03 - Probability and Linear Algebra (for those students without Grade 12 Mathematics of Data Management U or equivalent)

9-12 units

- Electives to total 30 units. See also the *International/Cross-Cultural/Language Menu*.

COMMERCE II

REQUIREMENTS

Level II: 30 units

21 units

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2OC3 - Operations Management
- COMMERCE 2QA3 - Applied Statistics for Business

3 units

- ECON 2X03

6 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

HONOURS COMMERCE (B.COM.)

Requirements for continuation in the Honours B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level III: 30 units

12 units

- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

9 units

- Level III or IV Commerce courses

9 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*)

Level IV:

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

15 units

from

- Level III or IV Commerce courses
- Electives from non-Commerce courses

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

9 units

from

- Level III or IV Commerce courses
- Electives from non-Commerce courses

15 units

- Electives from non-Commerce courses (See also the *International/Cross-Cultural/Language Menu*).

D. Programs for Students who Entered Business I Prior to September 2014

PROGRAM NOTES

- Students in Business I are not eligible to take upper Level Commerce course work. COMMERCE 1AA3 and 1BA3 are not open to Business I students who entered prior to September 2014.
- Students have only one opportunity to be reviewed for entry to Commerce II. Other options may be pursued through the Student Experience - Academic Office (DSB-112).
- To be considered for entry into Commerce II a Business I student must have met all of the following:
 - achieved a Grade Point Average (GPA) of at least 5.0 on a minimum of 24 units of course work for Business I (on first attempts only) and these must include all required courses of the Business I program;
 - successfully completed, on first attempts only, all Business I required courses (See Business I Requirements). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;
 - successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
- Refer to Workload under the Academic Regulations section in the School of Business for information on full-time and part-time Business I course loads.
- Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 (or 1LS3) and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics.

Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.

- Transfer students may be admitted to Commerce II from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
- Admission to either of the Commerce programs beyond Commerce Level II is not possible.
- Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
- Students who have been granted Faculty permission to take COMMERCE 4EL3 in Level III Commerce will have this course applied against the program requirements for Level IV Commerce as three of the six required units of Level III or IV Commerce courses. See the *DeGroot School of Business (Faculty of Business)* program requirements section of this calendar.

BUSINESS I

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

Level I: 30 units

Students admitted to Business I must complete 30 units as follows:

1 course

- COMMERCE 1PA0

3 units

- COMMERCE 1E03 - Business Environment and Organization

3-6 units

- From *Course List 1* below

3 units

- COMPSCI 1BA3

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

(See Program Note 5 above.)

0-3 units

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (for those students without Grade 12 Calculus and Vectors U or equivalent)

0-3 units

- STATS 1L03 - Probability and Linear Algebra (for those students without Grade 12 Mathematics of Data Management U or equivalent)

3-12 units

- Electives to total 30 units. See also the *International/Cross-Cultural/Language Menu*.

COURSE LIST 1

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- POLSCI 1G06 A/B

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour (or 1A03)
- RELIGST 1B03 - What on Earth is Religion?
- SOCIOL 1A06 A/B

COMMERCE II

REQUIREMENTS

Level II: 30 units

24 units

- COMMERCE 1AA3 - Introductory Financial Accounting (or 2AA3)
- COMMERCE 1BA3 - Organizational Behaviour (or 2BA3)
- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations (or 3BC3)
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2QA3 - Applied Statistics for Business

3 units

3 units

- Electives from non-Commerce courses
- See also the *International/Cross-Cultural/Language Menu*.

HONOURS COMMERCE

Requirements for continuation in the Honours B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level III: 30 units

15 units

- COMMERCE 20C3 - Operations Management (or 30C3)
- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

6 units

- Level III or IV Commerce courses

9 units

- Electives from non-Commerce courses
- See also the *International/Cross-Cultural/Language Menu*.

Level IV: 30 units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

15 units

from

- Levels III or IV Commerce courses
- Electives from non-Commerce courses

9 units

- Electives from non-Commerce courses
- See also the *International/Cross-Cultural/Language Menu*.

COMMERCE (B.COM.)

Requirements for continuation in the B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their enrolment reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-112) to discuss their program requirements.

REQUIREMENTS

Level III: 30 units

15 units

- COMMERCE 20C3 - Operations Management (or 30C3)
- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3QA3 - Management Science for Business
- COMMERCE 3S03 - Management Skills Development

15 units

- Electives from non-Commerce courses
- See also the *International/Cross-Cultural/Language Menu*.

Level IV: 30 units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

6 units

from

- Level III or IV Commerce courses
- Electives from non-Commerce courses

18 units

- Electives from non-Commerce courses
- See also the *International/Cross-Cultural/Language Menu*.

E. Programs for Students who Entered the Integrated Business & Humanities Program (IBH Program) in 2019 or Later

PROGRAM NOTES

1. Students cannot take elective work until Level III of the program.
2. Students have only one opportunity to be reviewed for entry to Level II. Other options may be pursued through the Student Experience - Academic Office (DSB-112.)
3. To be considered for entry into Level II of the IBH Program, students must have met all of the following:
 - achieved a cumulative GPA of at least 5.0 on a minimum of 24 units of the required course work for Level I (on first attempts only.)
 - cannot have failed more than one required course. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program.
4. Students are responsible for ensuring that their course selection is meeting the requirements of their degree.

Level I: 30 Units

24 units

- IBH 1AA3 - Financial Accounting
- IBH 1AB3 - Perspectives on Canadian Business
- IBH 1AC3 - Introduction to Language and Society
- IBH 1AD3 - IBH in the Community
- IBH 1BA3 - Leadership Coaching 1
- IBH 1BB3 - Insight and Inquiry: Questions to Change the World
- IBH 1BC3 - Fundamentals of Ethics
- IBH 1BD3 - Introduction to Peace Studies for IBH

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

Level II: 30 Units

30 units

- IBH 2AA3 - Introduction to Marketing
- IBH 2AB3 - Information Systems in Management
- IBH 2AC3 - Talent Management
- IBH 2AD3 - Statistical Data Analysis
- IBH 2AE3 - Critical Thinking

- IBH 2AF3 - Global Business Experience
- IBH 2BA3 - Managerial Accounting
- IBH 2BB3 - Introduction to Finance
- IBH 2BD3 - Moral Issues
- IBH 2BF3 - History of Capitalism

Level III: 30 Units

27 units

- IBH 3AA3 - Relationship Management
- IBH 3AB3 - Applied Marketing Management
- IBH 3AC3 - Corporate Finance
- IBH 3AD3 - Cross-Cultural Communication
- IBH 3BA3 - Understanding Entrepreneurship and Social Entrepreneurship From a Historical and Theoretical Lens
- IBH 3BB3 - Organizational Strategy
- IBH 3BC3 - Poverty, Privilege and Protest in Canadian History
- IBH 3BD3 - Interpersonal Communication
- IBH 3BE3 - Operations Management

3 units

- Open electives

Level IV: 30 Units

12 units

- IBH 4AA6 - Leadership
- IBH 4AB6 - Social Entrepreneurship

18 units

- Open electives

F. Programs for Students who Entered the Integrated Business & Humanities Program (IBH Program) Prior to 2019

PROGRAM NOTES

1. Students cannot take elective work until Level III of the program.
2. Students have only one opportunity to be reviewed for entry to Level II. Other options may be pursued through the Student Experience - Academic Office (DSB-112.)
3. To be considered for entry into Level II of the IBH Program, students must have met all of the following:
 - achieved a cumulative GPA of at least 5.0 on a minimum of 24 units of the required course work for Level I (on first attempts only.)
 - cannot have failed more than one required course. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program.
4. Students are responsible for ensuring that their course selection is meeting the requirements of their degree.

Level I: 30 units

Students admitted to the Integrated Business & Humanities Program must complete 30 units as follows:

24 units

- IBH 1AA3 - Financial Accounting
- IBH 1AB3 - Perspectives on Canadian Business
- IBH 1AC3 - Introduction to Language and Society
- IBH 1AD3 - IBH in the Community
- IBH 1BA3 - Leadership Coaching 1
- IBH 1BB3 - Insight and Inquiry: Questions to Change the World
- IBH 1BC3 - Fundamentals of Ethics
- IBH 1BD3 - Introduction to Peace Studies for IBH

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

Level II: 30 units

30 units

- IBH 2AA3 - Introduction to Marketing
- IBH 2AB3 - Information Systems in Management
- IBH 2AC3 - Talent Management
- IBH 2AD3 - Statistical Data Analysis
- IBH 2AE3 - Critical Thinking
- IBH 2BA3 - Managerial Accounting
- IBH 2BB3 - Introduction to Finance
- IBH 2BC3 - Operations Management
- IBH 2BD3 - Moral Issues
- IBH 2BE3 - Canadian Business History: the Canadian Experience in International Perspective

Level III: 30 Units

24 units

- IBH 3AA3 - Relationship Management
- IBH 3AB3 - Applied Marketing Management
- IBH 3AC3 - Corporate Finance
- IBH 3AD3 - Cross-Cultural Communication
- IBH 3BA3 - Understanding Entrepreneurship and Social Entrepreneurship From a Historical and Theoretical Lens
- IBH 3BB3 - Organizational Strategy
- IBH 3BC3 - Poverty, Privilege and Protest in Canadian History
- IBH 3BD3 - Interpersonal Communication

6 units

- Open electives

Level IV: 30 units

12 units

- IBH 4AA6 - Leadership
- IBH 4AB6 - Social Entrepreneurship

18 units

- Open electives

MINOR IN ACCOUNTING AND FINANCIAL MANAGEMENT SERVICES

The School of Business will admit a maximum of 30 students to the Minor in Accounting and Financial Management Services each year. Admission decisions are made on behalf of the Undergraduate Recruitment, Admissions, and Student Affairs Committee of the DeGroote School of Business.

NOTES

1. Application for admission (forms available from the Student Experience - Academic Office) must be submitted to the Student Experience - Academic Office by **April 30**.
2. Students seeking the Minor must have completed ECON 1B03 and 1BB3 with an average of at least 7.0.
3. The Minor is not open to students registered in any Commerce or Engineering and Management program.

REQUIREMENTS

30 units total

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

12 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 3AB3 - Intermediate Financial Accounting I
- COMMERCE 3AC3 - Intermediate Financial Accounting II

12 units

from

- COMMERCE 4AA3 - Managerial Accounting II
- COMMERCE 4AC3 - Advanced Financial Accounting
- COMMERCE 4AD3 - Introduction to Auditing
- COMMERCE 4AF3 - Accounting Theory

- COMMERCE 4AX3
- COMMERCE 4SB3 - Introduction to Canadian Taxation
- COMMERCE 4SC3 - Advanced Canadian Taxation

MINOR IN BUSINESS

NOTES

1. The Minor is not open to students registered in any Commerce or Engineering and Management program.
2. Enrolment in each of the Commerce courses comprising the Business Minor, (excluding students registered in Engineering and Management, Commerce and Labour Studies students enrolled in COMMERCE 1BA3 and 2BC3 and students admitted to the Minor in Finance, the Minor in Accounting and Financial Management Services, or the Minor in Information Systems) is limited to 40 students who are registered in a four- or five-level McMaster degree program. Places in these courses will be allocated on a first-come, first-served basis.
3. For purposes of the Business Minor, ECON 2I03 will be accepted as a substitute for COMMERCE 2FA3. All courses listed as anti-requisite for COMMERCE 2QA3 in the *Course Listings* section of the Undergraduate Calendar will be accepted as a substitute for COMMERCE 2QA3.
4. For those taking COMMERCE 2FA3 and/or 3FA3, it is strongly recommended that MATH 1M03 be completed.

REQUIREMENTS

24 units total

6 units

from

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- ECON 1B03 - Introductory Microeconomics

18 units

from

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2OC3 - Operations Management
- COMMERCE 2QA3 - Applied Statistics for Business
- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management

(See Note 3 above)

MINOR IN FINANCE

The School of Business will admit a maximum of 30 students to the Minor in Finance each year. Admission decisions are made on behalf of the Undergraduate Recruitment, Admissions, and Student Affairs Committee of the DeGroote School of Business.

NOTES

1. Application for admission (forms available from the Student Experience - Academic Office) must be submitted to the Student Experience - Academic Office by **April 30**.
2. Students seeking the Minor must have completed ECON 1B03 and 1BB3 with an average of at least 7.0.
3. The Minor is not open to students registered in any Commerce or Engineering and Management program.
4. Students seeking to obtain the Minor must complete both ECON 2B03 and 2H03 before undertaking any Level III or Level IV Finance courses.

5. For the purposes of this Minor, all courses listed as anti-requisite for COMMERCE 2QA3 in the Course Listings section of the Undergraduate Calendar will be accepted as a substitute for ECON 2B03.
6. For those taking COMMERCE 2FA3 and/or 3FA3, it is strongly recommended that MATH 1M03 be completed.

REQUIREMENTS

30 units total

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

6 units

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I

(See Notes 4 and 5 above)

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 2FA3 - Introduction to Finance (or ECON 2I03)
- COMMERCE 3FA3 - Managerial Finance

9 units

- Levels III, IV Finance courses open to Commerce students

MINOR IN INFORMATION SYSTEMS

The School of Business will admit a maximum of 30 students to the Minor in Information Systems each year. Admission decisions are made on behalf of the Undergraduate Recruitment, Admissions, and Student Affairs Committee of the DeGroote School of Business.

NOTES

1. Application for admission (forms available from the Student Experience - Academic Office) must be submitted to the Student Experience - Academic Office by **April 30**.
2. Students seeking the Minor must have completed, with a minimum grade of B-, one of COMPSCI 1BA3, COMPSCI 1MA3, COMPSCI 1JC3, COMPSCI 1TA3, ECON 1B03 or ECON 1BB3.
3. The Minor is not open to students registered in Commerce or Engineering and Management.

REQUIREMENTS

24 - 25 units total

3-4 units

- COMPSCI 1JC3 - Introduction to Computational Thinking
- COMPSCI 1MA3
- COMPSCI 1TA3 - Elementary Computing and Computer Use
- ENGINEER 1D04 - Engineering Computation

3 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

3 units

- COMMERCE 2KA3 - Information Systems in Business

6 units

- COMMERCE 3KA3 - System Analysis and Design
- COMMERCE 3KD3 - Database Design Management and Applications

9 units

- COMMERCE 4KF3 - Project Management
- COMMERCE 4KH3 - Strategies for Electronic and Mobile Business
- COMMERCE 4KI3 - Business Process Management
- COMMERCE 4KX3

MINOR IN INNOVATION

The minor in innovation is a partnership between the Faculty of Engineering and the DeGroote School of Business and is intended for students from all Faculties who wish to learn more about innovation and develop a level of innovation literacy,

as well as those who are themselves innovators and wish to develop skills to create their own enterprise. To meet these varied needs, the minor includes a wide range of courses in innovation and may be taken as a course only option, or may include a practicum.

REQUIREMENTS

24 units total

6 units

- INNOVATE 1X03 - The World of Entrepreneurship
- INNOVATE 2X03 - Lean Startup

6-9 units

from

- INNOVATE 2Z03 - Sprint Methodologies
- INNOVATE 3X03 - Persuasion, Pitching Skills and Marketing
- INNOVATE 3Z03 - From Founder to CEO

9-12 units

from

- COMMERCE 3MA3 - Marketing Research
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3MD3 - Introduction to Contemporary Applied Marketing
- COMMERCE 3S03 - Management Skills Development
- COMMERCE 4AK3 - Accounting Information for Decision Making
- COMMERCE 4BB3 - Recruitment and Selection
- COMMERCE 4BK3 - The Management of Technology
- COMMERCE 4BN3 - Leadership Development
- COMMERCE 4F03 - Small Business and Entrepreneurial Finance
- COMMERCE 4FV3 - Venture Capital
- COMMERCE 4FW3 - Finance for Entrepreneurs
- COMMERCE 4KF3 - Project Management
- COMMERCE 4KH3 - Strategies for Electronic and Mobile Business
- COMMERCE 4KI3 - Business Process Management
- COMMERCE 4MC3 - New Product Marketing
- COMMERCE 4ME3 - Sales Management
- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business
- COMMERCE 4SD3 - Commercial Law
- COMMERCE 4SE3 - Entrepreneurship
- COMPSCI 4EN3 A/B - Software Entrepreneurship
- ENGMGT 4A03 - Innovation Driven Project Development and Management
- HISTORY 2EE3 - Science and Technology in World History
- HISTORY 3UA3 - The History of the Future
- HTHSCI 4ID3 - Innovation By Design
- INNOVATE 1Z03 - Artificial Intelligence - Innovative Technologies
- INNOVATE 3EX3 - Experiential Learning in Innovation
- INNOVATE 3ZZ3 - Imagining and Navigating the Future
- INNOVATE 4EX6 A/B - Founders Startup
- SUSTAIN 3S03 - Implementing Sustainable Change

Communication Studies, English and Cultural Studies, French, History, Justice, Political Philosophy and Law, Linguistics, Multimedia, Philosophy, or Theatre & Film Studies.

3. Students seeking the Specialized Minor in Commerce for Humanities must have completed ECON 1B03 with a grade of at least B-, and one of MATH 1M03 or ECON 1BB3.
4. Students must have a Grade Point Average of at least 6.0 to be considered for entry into the Minor.
5. Students planning to apply to the accelerated MBA program at McMaster are strongly encouraged to consult with MBA Admissions at the Ron Joyce Centre regarding admission requirements. In addition to meeting all other admission criteria students must complete, with a minimum grade of B-, the following courses:
 - all three of ECON 1B03, 1BB3, and MATH 1M03;
 - all level 2 Commerce courses listed below;
 - COMMERCE 3FA3, and 3MC3

REQUIREMENTS

33 units total

6 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour

18 units

from

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2QA3 - Applied Statistics for Business
- COMMERCE 2OC3 - Operations Management
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3S03 - Management Skills Development

3 units

from

- HUMAN 3LM3 - Foundations of Leadership
- or
- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab

6 units

- Level III or IV Commerce courses

SPECIALIZED MINOR IN COMMERCE FOR STUDENTS COMPLETING A SINGLE HONOURS B.A. IN HUMANITIES

The Specialized Minor in Commerce for Humanities students is administered by the DeGroote School of Business. A maximum of 30 students will be admitted each year to this Specialized Minor.

NOTES

1. For admission, Humanities students (Level 1) must complete an application for admission to the Minor by using the Service Request function in the Student Centre in Mosaic during the Program/Plan Selection process in April.
2. Students must also be admitted to a Single Honours B.A. in one of the following programs: Art History, Classics, Cognitive Science of Language,

FACULTY OF ENGINEERING

John Hodgins Engineering Building, Room H301, ext. 24646

<http://www.eng.mcmaster.ca/>

DEAN OF ENGINEERING

I. K. Puri/B.Sc. (*Delhi*), M.S., Ph.D. (*California-San Diego*)

ASSOCIATE DEAN OF ENGINEERING (ACADEMIC)

K. Coley/B.Sc., Ph.D., D.I.C., MIM, P.Eng.

ASSOCIATE DEAN OF ENGINEERING (RESEARCH)

J. Preston/B.Eng. (*McMaster*), M.Sc., Ph.D. (*Toronto*), P.Eng.

DIRECTOR, W. BOOTH SCHOOL OF ENGINEERING PRACTICE AND TECHNOLOGY

M. Elbestawi/B.Sc., M.Eng., Ph.D., FCAE, P.Eng.

DIRECTOR, ENGINEERING I

C. McDonald/Ph.D., P.Eng.

DIRECTOR, ENGINEERING & MANAGEMENT PROGRAM

V. Baba/B.Eng., M.B.A., Ph.D. (*British Columbia*)

DIRECTOR, ENGINEERING & SOCIETY PROGRAM

C. Churchill/B.Eng., M.Eng.

ASSISTANT DEAN (STUDIES)

M. White/B.Sc. (Hon.)

ACADEMIC ADVISORS

H. Abram/B.A. Hon.

B. Conry/B.A.

D. Hayward/B.A.

J. Hamilton/B.A. Hon.

S. Williams/B.A.

Engineering is a profession concerned with the creation of new and improved systems, processes and products to serve human needs. The central focus of engineering is design, an art entailing the exercise of ingenuity, imagination, knowledge, skill, discipline and judgment based on experience. The practice of professional engineering requires a mastery of engineering methodology together with a sensitivity to the physical properties of materials, to the logic of mathematics, to the constraints of human, physical and financial resources, to the minimization of risk, and to the protection of the public and the environment.

BACHELOR OF APPLIED SCIENCE PROGRAMS

The Faculty of Engineering offers a four-year Computer Science programs leading to the Bachelor of Applied Science (B.A.Sc.) degree:

- Honours Computer Science

Admission procedures and criteria can be obtained from the Office of the Associate Dean, Academic.

BACHELOR OF TECHNOLOGY PROGRAMS

McMaster University's Faculty of Engineering and Mohawk College's School of Engineering Technology have partnered since 1997 to deliver the unique Bachelor of Technology program in response to the needs of today's innovation-based organizations. The Bachelor of Technology programs operate within the Faculty of Engineering's W. Booth School of Engineering Practice and Technology. This type of program is targeted to individuals whose technological interests are applications-oriented.

The programs being offered are of two kinds:

1. **A four-year degree program** (leading to both a Bachelor of Technology degree from McMaster and both an Advanced Diploma in Technology and a Business Management Certificate from Mohawk College) with entry directly from high school and
2. **A degree completion program** (leading to both a Bachelor of Technology degree from McMaster and a Business Management Certificate from

Mohawk College) for graduates of the Mohawk College Advanced Diploma in Technology (or graduates of similar programs at other Colleges).

A major thrust of all of the programs is the inclusion of a significant component of management education in order to ensure that graduates are able to perform supervisory and management responsibilities as they advance in their technical careers. The management component is designed to form a cohesive segment which complements the technical program content.

For information concerning the Bachelor of Technology programs, please see the *Programs for the Bachelor of Technology (B.Tech.) Degree* in this section of this Calendar.

BACHELOR OF ENGINEERING PROGRAMS

A five-year program leading to a Bachelor of Engineering in Biomedical Engineering (B.Eng.BME) is offered in Integrated Biomedical Engineering and Health Sciences (IBEHS) Program.

Four-year programs are offered leading to the Bachelor of Engineering degree (B.Eng.) in the following fields of specialization:

- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Engineering Physics
- Materials Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Software Engineering

Five-year programs, leading to the Bachelor of Engineering and Society degree (B.Eng.Soc), are offered in:

- Chemical Engineering and Society
- Civil Engineering and Society
- Computer Engineering and Society
- Engineering Physics and Society
- Electrical Engineering and Society
- Materials Engineering and Society
- Mechanical Engineering and Society
- Mechatronics Engineering and Society
- Software Engineering and Society

In addition, and in conjunction with the School of Business, five-year programs leading to the Bachelor of Engineering and Management degree (B.Eng.Mgt) are offered in:

- Chemical Engineering and Management
- Civil Engineering and Management
- Computer Engineering and Management
- Electrical Engineering and Management
- Engineering Physics and Management
- Materials Engineering and Management
- Mechanical Engineering and Management
- Mechatronics Engineering and Management
- Software Engineering and Management

A five-year program leading to the Bachelor of Engineering and Biosciences (B.Eng.BioSci) is offered in:

- Chemical Engineering and Bioengineering

In addition, and in conjunction with Faculty of Health Sciences, five-year programs leading to the Bachelor of Engineering and Biomedical (B.Eng. BME) are offered in:

- Chemical and Biomedical Engineering
- Civil and Biomedical Engineering
- Engineering Physics and Biomedical Engineering
- Electrical and Biomedical Engineering
- Materials and Biomedical Engineering
- Mechanical and Biomedical Engineering

- Mechatronics and Biomedical Engineering
- Software and Biomedical Engineering

All programs have limitations on enrolment. Students are admitted to the program following successful completion of Engineering I. Admission procedures and criteria can be obtained from the Office of the Associate Dean, Academic. The B.Eng., B.Eng.Biosciences, B.Eng.Mgt., B.Eng.Society and B.Eng.BME programs are honours degree programs. McMaster baccalaureate degree programs in Engineering are accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers. The B.Eng.BME programs will be applying for accreditation with the first graduating class.

At McMaster, Engineering students take a common Level I program comprised of Mathematics, Materials, Physics, Chemistry, Engineering Graphics, Introduction to Professional Engineering and Design, Computation and complementary studies electives. Integrated Biomedical Engineering & Health Sciences I students take a separate common Level I program comprised of Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Introduction to Professional Engineering and Design, Computation

and complementary studies electives. The specialized programs are entered at Level II. Students interested in the Engineering and Management programs must take ECON 1B03 as one of their complementary studies electives in Level I. Students interested in one of the Engineering and Society programs are advised to choose the six units complementary studies in Level I to be consistent with their chosen focus of the program. Students interested in one of the Engineering and Biomedical Engineering programs must take IBEHS approved technical electives. Programs offered by the Faculty of Engineering include five types of elective courses, which are governed by regulations, as follows:

Complementary Studies Electives are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences.

In addition to ENGINEER 4A03, or equivalent, and ENGINEER 4B03, complementary studies electives are required in all Engineering programs; except IBEHS does not require ENGINEER 4B03.

The Associate Dean, Academic must authorize each student's complementary studies elective courses. An approved list is published each spring and is available from the Office of the Associate Dean, Academic. Engineering I students should refer to the Degrees and Programs section of this Calendar to determine which Level I Complementary Studies electives are possible (<http://www.eng.mcmaster.ca/documents/electives.pdf>).

Technical Electives are Engineering or Applied Science courses in subjects relevant to the particular program. A list is available in each Engineering Department office.

Commerce Electives are required in Level V of Engineering and Management programs.

Engineering and Society Focus Electives are courses offered by various departments throughout the University. These courses are selected in consultation with the Director of the Engineering and Society program, such that they form a proper sequence of the focus electives.

IBEHS Technical Electives are approved courses offered by the Integrated Biomedical Engineering & Health Sciences (IBEHS) program or various departments throughout the University in subjects relevant to the particular program. A list is available on ibiomed.mcmaster.ca.

ENGINEERING CO-OP PROGRAM

Undergraduate students in the Faculty of Engineering or registered in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program can enroll in a Co-op version of each program. Students enrolled in the former will be required to complete 12 months of industrial/practical experience prior to graduation. The 12 months experience may be acquired through a combination of three four-month experience terms, or a combination of a four month and eight month experience terms, or an experience term of 12 or 16 months duration. Students may enter

the Co-op version of their program at any time up to the beginning of Term 2 of their next-to-last level of undergraduate studies.

As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EEO.

ENGINEERING CO-OP FEES

An Engineering Co-op fee will be charged for students registered in an Engineering Co-op Program and the Integrated Biomedical Engineering & Health Sciences (IBEHS) co-op program.

EXCHANGE PROGRAMS

Formal exchange programs with a number of universities in other countries are available for B.Eng. students wishing to attend a foreign university and receive credit at McMaster. For further information please see International Study in the General Academic Regulations section in this Calendar. Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services.

Minor

In partnership with the DeGroote School of Business, the Faculty of Engineering offers a Minor in Innovation.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to make every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority will be given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the University provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in the Faculty of Engineering programs or Integrated Biomedical Engineering & Health Sciences (IBEHS) program, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations.

ENGINEERING I

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the students Cumulative Grade Point Average.

A student in Engineering I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in Engineering.

COMPUTER SCIENCE I

To be eligible for Level II Computer Science a student requires an overall Grade Point Average (GPA) of 4.0 and must also have passed all non-elective Computer Science I courses. See the program listings under Programs for the B.A.Sc. Degree for specific information on admission requirements for each program.

A student in Computer Science I whose Grade Point Average (GPA) is less than 4.0 may no longer continue in the Faculty.

INTEGRATED BIOMEDICAL ENGINEERING & HEALTH SCIENCES I

Admission to Level II Engineering and Biomedical Engineering programs requires completion of all 34 units of required IBEHS I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the students Cumulative Grade Point Average. A student in IBEHS I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in IBEHS.

BACHELOR OF TECHNOLOGY I

To be eligible for any Level II Bachelor of Technology program, a student requires an overall Grade Point Average (GPA) of 3.5 or above and must have 24 units of Bachelor of Technology I courses. See the program listings under Programs for the Four-Year Bachelor of Technology degree for specific information on admission requirements for each program.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the Calendar for the program. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the Engineering program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete. Work of a higher level may be undertaken only with the permission of the Associate Dean of Engineering.

REINSTATEMENT TO FACULTY OF ENGINEERING, OR INTEGRATED BIOMEDICAL ENGINEERING & HEALTH SCIENCES

A student who is ineligible to continue in the Faculty of Engineering or Integrated Biomedical Engineering & Health Sciences or who May not continue at the university may normally not apply for reinstatement for one full academic year. Exceptions may be made when there are extenuating circumstances which are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar or the Office of the Associate Dean of Engineering. The completed form and the \$100 fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. **Reinstatement is not guaranteed.**

A student who is reinstated after being ineligible to continue at a given level must repeat all the courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on academic probation, and calculation of their Cumulative Grade Point Average (GPA) will begin anew. If at any review after reinstatement the student's Cumulative Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

PROGRAM CHANGES

All program changes must be made through the Office of the Associate Dean, Academic.

Level I Programs**COMPUTER SCIENCE I/COMPUTER SCIENCE I CO-OP (B.A.SC.)**

30 units total

CHEMICAL ENGINEERING, CHEMICAL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Students may choose to follow a stream of recommended technical elective courses.
 - Process Systems Engineering (PSE) Stream:**
Required Courses: CHEMENG 4H03, 4E03, 4G03, 4L02 (PSE laboratories completed). Other courses may be substituted with permission of the Department Chair.
 - Polymer Materials and Manufacturing (PMM) Stream:**
Required Courses: CHEMENG 3Q03, 4B03, 4H03, 4L02 (PMM laboratories completed), CHEMENG 4X03. Other courses may be substituted with permission of the Department Chair.

- Water-Energy Technologies (WET) Stream:**
Required Courses: CHEMENG 4A03, 4M03, 4L02 (WET laboratories completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4-month work term.

REQUIREMENTS

Level II: 37 units

19 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2G03 - Problem Solving and Technical Communication
- CHEMENG 2O04 - Fluid Mechanics

3 units

- CHEM 1AA3 - Introductory Chemistry II

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

3 units

- MATLS 3J03 - Statistical Methods for Materials Engineers

6 units

- approved complementary studies electives

Level III: 37 units

29 units

- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D03 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Synthesis and Simulation
- CHEMENG 3I03 - Data Acquisition and Analysis
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3L02 - Intermediate Laboratory Skills
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations
- CHEMENG 3P04 - Process Control

9 units total from the following two subsections

3-6 units from

- CHEM 2E03 - Introductory Organic Chemistry

or both

- CHEM 20A3 - Organic Chemistry I and
- CHEM 20B3 - Organic Chemistry II

3-6 units from

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMENG 3Q03 - Introduction to Polymer Science

Level IV: 37-40 units

10 units

- CHEMENG 4L02 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- CHEMENG 4W04 - Chemical Plant Design and Capstone Project

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

15-16 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering

- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4E03 - Digital Computer Process Control
- CHEMENG 4G03 - Optimization in Chemical Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B - Engineering Practicum
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Y04 A/B - Senior Independent Project
- CHEMENG 4Z03 - Interfacial Engineering
- ENGINEER 4EX3 A/B - Experiential Engineering Design

Note: Only two courses from List B (Chem Eng Sci/Math courses) can be taken over the course of the program

3 units

- complementary studies electives

6-8 units

- Level III or IV technical electives from approved List A (Interdisciplinary engineering courses) or permission of the Department of Chemical Engineering

CHEMICAL AND BIOMEDICAL ENGINEERING, CHEMICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. Students may choose to follow a stream of recommended technical elective courses.
 - **Process Systems Engineering (PSE) Stream:**
Required Courses: CHEMENG 4H03, 4E03, 4G03, 4L02 (PSE laboratories completed). Other courses may be substituted with permission of the Department Chair.
 - **Polymer Materials and Manufacturing (PMM) Stream:**
Required Courses: CHEMENG 3Q03, 4B03, 4H03, 4L02 (PMM laboratories completed), 4X03. Other courses may be substituted with permission of the Department Chair.
 - **Water-Energy Technologies (WET) Stream:**
Required Courses: CHEMENG 4A03, 4M03, 4L02 (WET laboratories completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.
2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4-month work term.

REQUIREMENTS

Level II: 37 Units

15 units

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II

22 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2O04 - Fluid Mechanics
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

Level III: 38 Units

16 units

- CHEM 2E03 - Introductory Organic Chemistry
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

22 units

- CHEMENG 2G03 - Problem Solving and Technical Communication
- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D03 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Synthesis and Simulation
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations

Level IV: 38-39 Units

17 units

- IBEHS 4B03 - Biomechanics I
- IBEHS 4C03 - Engineering Biostatistics
- IBEHS 4D03 - Medical Imaging I
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

9 units

- CHEMENG 3I03 - Data Acquisition and Analysis

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Students may choose to follow a stream of recommended technical elective courses.

- **Process Systems Engineering (PSE) Stream:**

Required Courses: CHEMENG 4H03, 4E03, 4G03, 4L02 (PSE laboratories completed). Other courses may be substituted with permission of the Department Chair.

- **Polymer Materials and Manufacturing (PMM) Stream:**
Required Courses: CHEMENG 3Q03, 4B03, 4H03, 4L02 (PMM laboratories completed), 4X03. Other courses may be substituted with permission of the Department Chair.

- **Water-Energy Technologies (WET) Stream:**

Required Courses: CHEMENG 4A03, 4M03, 4L02 (WET laboratories completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2EC0 will be added to the academic record for each 4 month work term.
- Level V Chemical Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

REQUIREMENTS

Level II: 34 Units

19 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2G03 - Problem Solving and Technical Communication
- CHEMENG 2004 - Fluid Mechanics

3 units

- CHEM 1AA3 - Introductory Chemistry II

3 units

- COMMERCE 1AA3 - Introductory Financial Accounting

3 units

- ECON 1BB3 - Introductory Macroeconomics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

Level III: 39 Units

24 units

- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D03 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Synthesis and Simulation
- CHEMENG 3I03 - Data Acquisition and Analysis
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3L02 - Intermediate Laboratory Skills
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations

3 units

- approved complementary studies electives

12 units

- COMMERCE 1BA3 - Organizational Behaviour (or 2BA3)
- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2MA3 - Introduction to Marketing

Level IV: 34-37 Units

4 units

- CHEMENG 3P04 - Process Control

3 units

- MATLS 3J03 - Statistical Methods for Materials Engineers

6 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering

- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B - Engineering Practicum
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Z03 - Interfacial Engineering
- ENGINEER 4EX3 A/B - Experiential Engineering Design

Note: Only one course from List B (Chem Eng Sci/Math courses) can be taken over the course of the program.

9 units

- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 4QA3 - Operations Modelling and Analysis

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

3-6 units

- CHEM 2E03 - Introductory Organic Chemistry

or both

- CHEM 20A3 - Organic Chemistry I and
- CHEM 20B3 - Organic Chemistry II

3 units from

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMENG 3Q03 - Introduction to Polymer Science

3 units

- ENGNMGT 4A03 - Innovation Driven Project Development and Management

Level V: 37-40 Units

10 units

- CHEMENG 4L02 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- CHEMENG 4W04 - Chemical Plant Design and Capstone Project

6 units

- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 4PA3 - Business Policy: Strategic Management

6-7 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Students may choose to follow a stream of recommended technical elective courses.
 - **Process Systems Engineering (PSE) Stream:**
Required Courses: CHEMENG 4H03, 4E03, 4G03, 4L02 (PSE laboratories completed). Other courses may be substituted with permission of the Department Chair.
 - **Polymer Materials and Manufacturing (PMM) Stream:**
Required Courses: CHEMENG 3Q03, 4B03, 4H03, 4L02 (PMM laboratories completed), 4X03. Other courses may be substituted with permission of the Department Chair.
 - **Water-Energy Technologies (WET) Stream:**
Required Courses: CHEMENG 4A03, 4M03, 4L02 (WET laboratories completed), and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.
2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.
3. A minimum of 18 units of focus elective courses is required for the program. This does not include the six units of complementary studies elective in Level I.

REQUIREMENTS

Level II: 37-40 Units

19 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers

- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2G03 - Problem Solving and Technical Communication
- CHEMENG 2004 - Fluid Mechanics

3 units

- CHEM 1AA3 - Introductory Chemistry II

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

3-6 units

- Engineering and Society focus electives

Level III: 33-39 Units

24 units

- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D03 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Synthesis and Simulation
- CHEMENG 3I03 - Data Acquisition and Analysis
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3L02 - Intermediate Laboratory Skills
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations

3-6 units

- CHEM 2E03 - Introductory Organic Chemistry

or both

- CHEM 20A3 - Organic Chemistry I and
- CHEM 20B3 - Organic Chemistry II

3 units

- ENGSOCTY 3Y03 - Technology and Society

3-6 units

- Engineering and Society focus electives

Level IV: 34 Units

4 units

- CHEMENG 3P04 - Process Control

3 units

- MATLS 3J03 - Statistical Methods for Materials Engineers

9 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B - Engineering Practicum
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Z03 - Interfacial Engineering
- ENGINEER 4EX3 A/B - Experiential Engineering Design

Note: Only one course from List B (Chem Eng Sci/Math courses) can be taken over the course of the program

6 units from

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMENG 3Q03 - Introduction to Polymer Science

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II

- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

6 units

- Engineering and Society focus electives

Level V: 34-37 Units

10 units

- CHEMENG 4L02 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- CHEMENG 4W04 - Chemical Plant Design and Capstone Project

6-7 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4E03 - Digital Computer Process Control
- CHEMENG 4G03 - Optimization in Chemical Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B - Engineering Practicum
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Y04 A/B - Senior Independent Project
- CHEMENG 4Z03 - Interfacial Engineering
- ENGINEER 4EX3 A/B - Experiential Engineering Design

Note: Only one course from List B (Chem Eng Sci/Math courses) can be taken over the course of the program

6-8 units

- Level III or IV technical electives from approved List A (Interdisciplinary engineering courses) or permission of the Department of Chemical Engineering

3 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III

3 units from

- ENGSOCTY 4Y03 - Society Capstone Design
- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences

6 units

- Engineering and Society focus electives

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department.

Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Students entering Level II will register in the Civil Engineering program following the requirements outlined below. Students entering Levels III and IV should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program for which they are registered in and to consult with the Department of Civil Engineering for further information.
- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EEO. ENGINEER 2ECO will be added to the academic record for each 4 month work term.
- Before the end of Level III, students must complete a Civil Engineering electives form, and ensure that it has been reviewed by the Department before completing Level IV Registration.
- To meet the capstone project requirement, all students in their final level must take CIVENG 4X06 A/B.

REQUIREMENTS

Level II: 38 Units

32 units

- CIVENG 2A03 - Surveying and Measurement
- CIVENG 2B04 - Principles of Environmental Engineering
- CIVENG 2C04 - Structural Mechanics
- CIVENG 2E03 - Computer Applications in Civil Engineering
- CIVENG 2I03 - Communications in Civil Engineering
- CIVENG 2J04 - Principles of Geological and Geo-Environmental Engineering

- CIVENG 2004 - Fluid Mechanics
- CIVENG 2Q03 - Engineering Mechanics: Dynamics
- CIVENG 2P04 - Statics and Mechanics of Materials

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

Level III: 40 Units

33 units

- CIVENG 3A03 - Geotechnical Engineering I
- CIVENG 3B03 - Geotechnical Engineering II
- CIVENG 3C03 - Engineering Systems
- CIVENG 3G04 - Structural Analysis
- CIVENG 3J04 - Reinforced Concrete Design
- CIVENG 3K03 - Introduction to Transportation Engineering
- CIVENG 3L03 - Water Quality
- CIVENG 3M03 - Municipal Hydraulics
- CIVENG 3P04 - Civil Engineering Materials and Design
- CIVENG 3RR3 - Engineering Economics and Project Management

4 units

- STATS 3J04 - Probability and Statistics for Civil Engineering

3 units

- approved complementary studies electives

Level IV: 39 Units

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

4 units

- CIVENG 4N04 - Steel Structures

3 units

- approved complementary studies electives

6 units

- CIVENG 4X06 A/B - Design and Synthesis Project in Civil Engineering

20 units

- from approved list of Level IV Civil Engineering technical electives.

3 units

- ENGPYS 3ES3 - Introduction to Energy Systems

CIVIL AND BIOMEDICAL ENGINEERING, CIVIL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
- Students entering Level II will register in the Civil Engineering program following the requirements outlined below. Students entering Levels III, IV and V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program for which they are registered in and to consult with the Department of Civil Engineering for further information.
- Before the end of Level IV, students must complete a Civil Engineering electives form, and ensure that it has been reviewed by the Department before completing Level V Registration.

REQUIREMENTS**Level II: 40 Units****12 units**

Hassan Ashtiani/B.Sc., M.Sc. (*Tehran*), Ph.D. (*Waterloo*)

Asgar Bokhari/M.S.E.E. (*Oklahoma*), M.Sc., Ph.D. (*McMaster*)

Fei Chiang/B.Sc. (*Toronto*), M.Math. (*Waterloo*), Ph.D. (*Toronto*), L.E.L.

Peter Robinson/B.Sc., M.Sc., Ph.D. (*Vienna*)

Reza Samavi/B.Sc. (*Amirkabir*), M.Eng., Ph.D. (*Toronto*), P.Eng.

NOTES

1. All programs in the Department of Computing and Software have limited enrolment.
2. For the purpose of admission to Level II B.A.Sc. programs, the three courses MATH 1A03, MATH 1AA3 and MATH 1B03 together are considered equivalent to MATH 1ZA3, MATH 1ZB3 and MATH 1ZC3.

For the Arts & Science and Computer Science (B.Arts.Sc.) program, see *Arts & Science Program*

For the Honours Economics and Computer Science (B.A.) program, see *Faculty of Social Sciences, Department of Economics*

For the Honours Mathematics and Computer Science (B.Sc.) program, see *Faculty of Science, Department of Mathematics and Statistics*

HONOURS BUSINESS INFORMATICS, HONOURS BUSINESS INFORMATICS CO-OP (B.A.SC.)

ADMISSION TO LEVEL II COMPUTER SCIENCE PROGRAMS

Admission to Level II Honours Computer Science requires completion of all non-elective Computer Science I courses with a minimum Grade Point Average (GPA) of 4.0.

NOTES

1. This program has limited enrolment.
2. For the purpose of admission to Level II B.A.Sc. programs, the three courses MATH 1A03, MATH 1AA3 and MATH 1B03 together are considered equivalent to MATH 1ZA3, MATH 1ZB3, and MATH 1ZC3.

REQUIREMENTS

Business Informatics is the study of the design and application of information systems for use in business. It lies within the intersection of Computer Science and Business. Admission to Level II Honours Business Informatics was last offered in September 2016.

Level IV: 30 Units

6 units

- COMPSCI 4C03 - Computer Networks and Security
- COMPSCI 4TB3 - Syntax-Based Tools and Compilers

3 units

- COMMERCE 2BC3 - Human Resource Management and Labour Relations

6 units

from

- COMMERCE 4KF3 - Project Management
- COMMERCE 4KH3 - Strategies for Electronic and Mobile Business
- COMMERCE 4F03 - Small Business and Entrepreneurial Finance
- COMMERCE 4OB3 - Analysis of Production/Operations Problems
- COMMERCE 4OD3 - Purchasing and Supply Management
- COMMERCE 4OI3 - Supply Chain Management

12 units

- Levels III, IV Computer Science

3 units

- Electives

HONOURS COMPUTER SCIENCE AS A SECOND DEGREE (B.A.SC.)

ADMISSION

Completion of a Bachelor's degree from a recognized university in a discipline other than Computer Science with a Grade Point Average of least 7.0 ; and completion of MATH 1ZA3, MATH 1ZB3 and a grade of at least C+ in COMPSCI 1MD3 or equivalent. As Second Degree candidates, applicants must first apply for admission to the University through the Enrolment Services (Admissions) indicating they wish to apply for the Honours Computer Science B.A.Sc. as a Second Degree program. For the purpose of admission to this program, the two

courses MATH 1A03 and MATH 1AA3 together are considered as equivalent to MATH 1ZA3 and MATH 1ZB3.

NOTE

If a student in the program has previously taken a required course (or its equivalent), it is not a requirement to repeat the course. However, if the credit from that course has been used toward completion of a previous degree, the student will be required to take another course with the required number of units. Admission to this program is at Level III.

Level III: 30 Units

27 units

- COMPSCI 2C03 - Data Structures and Algorithms
- COMPSCI 2DM3 - Discrete Mathematics with Applications I
- COMPSCI 2FA3 - Discrete Mathematics with Applications II
- COMPSCI 2GA3 - Computer Architecture
- COMPSCI 2ME3 - Introduction to Software Development
- COMPSCI 2S03 - Principles of Programming
- COMPSCI 2XA3 - Computer Science Practice and Experience: Software Development Skills
- COMPSCI 2XB3 - Computer Science Practice and Experience: Binding Theory to Practice
- COMPSCI 3I03 - Communication Skills

3 units

- Levels III, IV Computer Science

Level IV: 30 Units

27 units

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3DB3 - Data Bases
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3SD3 - Concurrent Systems
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems
- COMPSCI 4C03 - Computer Networks and Security
- COMPSCI 4TB3 - Syntax-Based Tools and Compilers
- COMPSCI 4ZP6 A/B - Capstone Project

3 units

- Levels III, IV Computer Science

HONOURS COMPUTER SCIENCE, HONOURS COMPUTER SCIENCE CO-OP (B.A.SC.)

ADMISSION TO LEVEL II COMPUTER SCIENCE PROGRAMS

Admission to Level II Honours Computer Science requires completion of all non-elective Computer Science I courses with a minimum Grade Point Average (GPA) of 4.0.

NOTES

1. This program has limited enrolment.
2. For the purpose of admission to Level II B.A.Sc. programs, the three courses MATH 1A03, MATH 1AA3 and MATH 1B03 together are considered equivalent to MATH 1ZA3, MATH 1ZB3, and MATH 1ZC3.

REQUIREMENTS

Level II: 30 Units

24 units

- COMPSCI 2C03 - Data Structures and Algorithms
- COMPSCI 2DM3 - Discrete Mathematics with Applications I
- COMPSCI 2FA3 - Discrete Mathematics with Applications II
- COMPSCI 2GA3 - Computer Architecture
- COMPSCI 2ME3 - Introduction to Software Development
- COMPSCI 2S03 - Principles of Programming
- COMPSCI 2XA3 - Computer Science Practice and Experience: Software Development Skills

- COMPSCI 2XB3 - Computer Science Practice and Experience: Binding Theory to Practice

6 units

- Electives

Level III: 30 Units

18 units

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3DB3 - Data Bases
- COMPSCI 3I03 - Communication Skills
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3SD3 - Concurrent Systems
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems

MECHATRONICS ENGINEERING, MECHATRONICS ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTE

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EEO. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 37 Units

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

3 units

- ENGINEER 2B03 - Engineering Economics

6 units

- SFWRENG 2MD3 - Data Structures, Algorithms, and Language Concepts for Mechatronics

- SFWRENG 2MP3 - Programming for Mechatronics

8 units

- ENGPYHS 2A04 - Electricity and Magnetism

- ENGPYHS 2E04 - Analog and Digital Circuits

7 units

- MECHENG 2BA3 - Mechanical Engineering Measurements

- MECHENG 2QA4 - Engineering Mechanics: Kinetics and Dynamics

7 units

- ENGINEER 2MM3 - Electrical Circuits and Power

- ENGINEER 2P04 - Engineering Mechanics

Level III: 40 Units

16 units

- SFWRENG 3I03 - Communication Skills

- SFWRENG 3K04 - Software Development

- SFWRENG 3MX3 - Signals and Systems

- SFWRENG 3SH3 - Operating Systems

MECHATRONICS AND BIOMEDICAL ENGINEERING, MECHATRONICS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EEO. IBEHS 2ECO will be added to the academic record for each 4 month work term.

MECHATRONICS ENGINEERING AND MANAGEMENT, MECHATRONICS ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0.
- Level V Mechatronics Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

Level V: 36 Units (effective 2021 - 2022)

6 units

- MECHTRON 4TB6 A/B - Mechatronics Capstone Design Project

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering
- 3 units
- MECHENG 4K03 - Robotics
- 6 units
- COMMERCE 4PA3 - Business Policy: Strategic Management
 - COMMERCE 4QA3 - Operations Modelling and Analysis
- 3 units
- approved complementary studies electives
- 6 units
- approved technical electives from List B (Contact the Department of Computing and Software.)
- 3 units from
- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences
 - ENGNMGT 5B03 - Engineering and Management Projects
 - ENGNMGT 5EP3 - New Enterprise Capstone Project
- 6 units
- Commerce electives selected from Level III or IV Commerce
- or
- ENGNMGT 5EL3 - Leading Innovation
 - ENGNMGT 5E03 - Entrepreneurial Processes and Skills

SOFTWARE ENGINEERING AND MANAGEMENT, SOFTWARE ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Level V Software Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.
2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 34 Units

3 units

- COMMERCE 2MA3 - Introduction to Marketing

2 units

- ENGNMGT 2AA2 - Communication Skills

3 units

- MATH 2Z03 - Engineering Mathematics III

26 units

- SFWRENG 2AA4 - Software Design I - Introduction to Software Development
- SFWRENG 2C03 - Data Structures and Algorithms
- SFWRENG 2DA4 - Digital Systems and Interfacing
- SFWRENG 2DM3 - Discrete Mathematics with Applications I

- SFWRENG 2FA3 - Discrete Mathematics and Applications II
- SFWRENG 2S03 - Principles of Programming
- SFWRENG 2XA3 - Software Engineering Practice and Experience: Software Development Skills
- SFWRENG 2XB3 - Software Engineering Practice and Experience: Binding Theory to Practice

Level III: 39 units

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 2FA3 - Introduction to Finance

3 units

- ECON 1BB3 - Introductory Macroeconomics

27 units

- SFWRENG 2GA3 - Computer Architecture
- SFWRENG 3A04 - Software Design III - Large System Design
- SFWRENG 3BB4 - Software Design II - Concurrent System Design
- SFWRENG 3DB3 - Databases
- SFWRENG 3DX4 - Dynamic Systems and Control
- SFWRENG 3MX3 - Signals and Systems
- SFWRENG 3RA3 - Software Requirements and Security Considerations
- SFWRENG 3XA3 - Software Engineering Practice and Experience: Software Project Management

Level IV: 34 Units

12 units

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management

10 units

- SFWRENG 3S03 - Software Testing
- SFWRENG 4AA4 - Real-Time Systems and Control Applications
- SFWRENG 4HC3 - Human Computer Interfaces

3 units

- ENGNMGT 4A03 - Innovation Driven Project Development and Management

3 units

- approved technical electives from List E (Contact the Department of Computing and Software)

3 units

- approved complementary studies electives

3 units

- Commerce electives selected from Level III or IV Commerce

Level V: 36 Units

6 units

- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4QA3 - Operations Modelling and Analysis

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

3 units

- STATS 3Y03 - Probability and Statistics for Engineering

3 units

- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences or
- ENGNMGT 5B03 - Engineering and Management Projects

12 units

- SFWRENG 4C03 - Computer Networks and Security
- SFWRENG 4G06 A/B - Software Design IV - Capstone Design Project

- SFWRENG 4X03 - Scientific Computation
- 3 units
- approved technical electives from List E (Contact the Department of Computing and Software)
- 3 units
- Commerce electives selected from Level III or IV Commerce
- 3 units
- approved technical electives from List C (contact the Department of Computing and Software)

MECHATRONICS ENGINEERING AND SOCIETY, MECHATRONICS ENGINEERING AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 37 Units

6 units

- SFWRENG 2MD3 - Data Structures, Algorithms, and Language Concepts for Mechatronics
- SFWRENG 2MP3 - Programming for Mechatronics

8 units

- ENGPHYS 2A04 - Electricity and Magnetism
- ENGPHYS 2E04 - Analog and Digital Circuits

7 units

- MECHENG 2BA3 - Mechanical Engineering Measurements
- MECHENG 2QA4 - Engineering Mechanics: Kinetics and Dynamics

7 units

- ENGINEER 2MM3 - Electrical Circuits and Power
- ENGINEER 2P04 - Engineering Mechanics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2Z3 - Engineering Mathematics IV

3 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I

Level III: 35 units

4 units

- MECHTRON 3DX4 - Dynamic Models and Control of Physical Systems

10 units

- SFWRENG 3K04 - Software Development
- SFWRENG 3MX3 - Signals and Systems
- SFWRENG 3SH3 - Operating Systems

3 units

- ENGPHYS 2NE3 - Thermal Systems Design

3 units

- MECHENG 2DA3 - Mechanical Engineering Design Elements
- 3 units

- STATS 3Y03 - Probability and Statistics for Engineering

6 units

- ENGSOCTY 2Y03 - Case Studies in History and Technology
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

6 units

- Engineering and Society focus electives

Level IV: 36-39 Units

12 units

- MECHTRON 3TA4 - Embedded Systems Design I
- MECHTRON 3TB4 - Embedded Systems Design II
- MECHTRON 4AA4 - Real-Time Systems and Control Applications

6 units

- MECHENG 4H03 - Mechatronics
- MECHENG 4K03 - Robotics

6 units

- ENGINEER 2B03 - Engineering Economics
- ENGINEER 3N03 - Electronics and Instrumentation

6 units

- ENGSOCTY 3Y03 - Technology and Society
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

6-9 units

- Engineering and Society focus electives

Level IV: 36-39 Units (EFFECTIVE 2020-2021)

12 units

- MECHTRON 3TA4 - Embedded Systems Design I
- MECHTRON 3TB4 - Embedded Systems Design II
- MECHTRON 4AA4 - Real-Time Systems and Control Applications

3 units

- SFWRENG 4X03 - Scientific Computation

6 units

- MECHENG 4H03 - Mechatronics
- MECHENG 4K03 - Robotics

6 units

- ENGINEER 2B03 - Engineering Economics
- ENGINEER 3N03 - Electronics and Instrumentation

6 units

- ENGSOCTY 3Y03 - Technology and Society
- ENGSOCTY 3X03 - Inquiry in an Engineering Context II

3-6 units

- Engineering and Society focus electives

Level V: 30-33 Units

6 units

- MECHTRON 4TB6 A/B - Mechatronics Capstone Design Project

6 units

- approved technical electives from List A (Contact the Department of Computing and Software.)

6 units

- approved technical electives from List B (Contact the Department of Computing and Software.)

3 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III

3 units

- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences or

- ENGSOCTY 4Y03 - Society Capstone Design

6-9 units

- Engineering and Society focus electives

Level V: 30-33 Units (EFFECTIVE 2021-2022)

6 units

- MECHTRON 4TB6 A/B - Mechatronics Capstone Design Project

3 units

- approved technical electives from List A (Contact the Department of Computing and Software.)

6 units

- approved technical electives from List B (Contact the Department of Computing and Software.)

3 units

COMPUTER ENGINEERING, COMPUTER ENGINEERING CO-OP (B.ENG.)**ADMISSION TO LEVEL II ENGINEERING PROGRAMS**

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTE

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 39 Units

16 units

- COMPENG 2DI4 - Logic Design
- COMPENG 2DX4 - Microprocessor Systems Project
- COMPENG 2SH4 - Principles of Programming
- COMPENG 2SI4 - Data Structures, Algorithms and Discrete Mathematics

17 units

- ELECENG 2CI5 - Introduction to Electrical Engineering
- ELECENG 2CJ4 - Circuits and Systems
- ELECENG 2EI5 - Electronic Devices and Circuits I
- ELECENG 2FL3 - Applied Electromagnetics

3 units

- MATH 2Z03 - Engineering Mathematics III

3 units

- STATS 3Y03 - Probability and Statistics for Engineering

Level III: 40 Units

12 units

- COMPENG 3DQ5 - Digital Systems Design
- COMPENG 3DR4 - Computer Organization
- COMPENG 3SK3 - Computer-Aided Engineering

18 units

- ELECENG 3CL4 - Introduction to Control Systems
- ELECENG 3EJ4 - Electronic Devices and Circuits II
- ELECENG 3TP3 - Signal & Systems
- ELECENG 3TQ3 - Advanced Probability and Random Processes
- ELECENG 3TR4 - Communication Systems

4 units

- SFWRENG 3K04 - Software Development

3 units

- ENGINEER 2B03 - Engineering Economics

3 units

- approved complementary studies electives

Level III: 40 Units (Effective 2020-2021)

12 units

- COMPENG 3DQ5 - Digital Systems Design
- COMPENG 3DY4 - Computer Systems Integration Project
- COMPENG 3SK3 - Computer-Aided Engineering

18 units

- ELECENG 3TR4 - Communication Systems

4 units

- SFWRENG 3K04 - Software Development

3 units

- ENGINEER 2B03 - Engineering Economics

3 units

- approved complementary studies electives

Level IV: 37-39 Units

16 units

- COMPENG 4DK4 - Computer Communication Networks
- COMPENG 4DM4 - Computer Architecture
- COMPENG 4DN4 - Advanced Internet Communications
- COMPENG 4DS4 - Embedded Systems

6 units

- ELECENG 40I6 A/B - Engineering Design

3 units

- approved complementary studies electives

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

3 units

- SFWRENG 3SH3 - Operating Systems

3-4 units

- technical electives from an approved list of Computer Engineering or Electrical Engineering Level III or IV

3-4 units

- approved Level III or IV technical electives of the Faculty of Engineering (excluding ELECENG and COMPENG)

ELECTRICAL AND BIOMEDICAL ENGINEERING, ELECTRICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.)

Admission to level II Electrical and Biomedical Engineering and Electrical and Biomedical Engineering Co-op was last offered in September 2017.

REQUIREMENTS

Level IV: 37-40 Units

4 units

- COMPENG 4TL4 - Digital Signal Processing

15 units

- ELECENG 3TR4 - Communication Systems
- ELECENG 4BC3 - Modelling of Biological Systems
- ELECENG 4BD4 - Biomedical Instrumentation
- ELECENG 4BF4 - Advanced Medical Imaging

6 units

- ELECENG 4BI6 A/B - Biomedical Design Project

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

3 units

- approved complementary studies electives

6-9 units

- technical electives from an approved list of Level III or IV courses

ELECTRICAL ENGINEERING, ELECTRICAL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

ELECTRICAL AND BIOMEDICAL ENGINEERING, ELECTRICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2EC0 will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 36 Units

12 units

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II

6 units

- Complementary Studies

COMPUTER ENGINEERING AND MANAGEMENT, COMPUTER ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more

applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2E00 will be added to the academic record for each 4 month work term.
2. Level V Computer Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

REQUIREMENTS**Level II: 34 Units****3 units**

- COMMERCE 1AA3 - Introductory Financial Accounting (or 2AA3)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Approved electives for a total of 39-42 units:
 - Students must take 6 units of Approved complementary studies electives (in addition to the 6 units taken in Engineering 1)
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics
 - Students must take at least 17 units of Approved technical electives from the Engineering Physics course offerings
 - Remaining units: Students may take any approved Engineering or Science technical elective (including Engineering Physics)
- Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Science or Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives. Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for an interdisciplinary program of study or a specialty in nano- and micro-devices engineering, nuclear engineering and energy systems, photonics engineering, or biomedical engineering. Students are responsible for ensuring that they fulfill the prerequisites for each course.
 - Interdisciplinary Engineering:** ENGPYS 3D03, 3E03, 3ES3, 3F03, 3G04 A/B, 3O04, 3PN4, 4MD3, 4P03, and 4S03.
 - Nano- and Micro-Devices Engineering:** ENGPYS 3E03, 3F03, 3PN4, 4MD3, 4S03, 4U02 (nano- and micro-devices section), 4X03, and 4Z03.
 - Nuclear Engineering and Energy Systems:** ENGPYS 3D03, 3ES3, 3O04, 4D03, 4NE3, 4P03, 4PP3, and 4U02 (nuclear section).
 - Photonics Engineering:** ENGPYS 3E03, 3G04 A/B, 3PN4, 4I03, 4S03, and 4U02 (photonics section), 4X03 and 4Z03.
 - Biomedical Engineering:** ENGPYS 3E03, 3G04 A/B, 4I03, and 4U02 (biomedical section).
 - Smart Systems Engineering:** ENGPYS 3G04 A/B, 3PN4, 4MD3, SFWRENG 2MP3, 2MD3, MECHENG 4R03, ELECENG 4CL4, and 6-8 units from ELECENG 3FK4, 3TR4, MECHENG 4E03, 4H03
- Students in a Co-op program must complete ENGINEER 1EE0 in addition to the academic requirements specified in this calendar. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 34-35 Units

22 units

- ENGPYS 2A04 - Electricity and Magnetism
- ENGPYS 2CM4 - Computational Multiphysics
- ENGPYS 2E04 - Analog and Digital Circuits
- ENGPYS 2NE3 - Thermal Systems Design
- ENGPYS 2P04 - Applied Mechanics
- ENGPYS 2QM3 - Introduction to Quantum Mechanics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6-7 units

- approved electives (see Note 1)

Level III: 36-37 Units

24 units

- ENGPYS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYS 3EC3 - Professional Communication and Project Management
- ENGPYS 3L04 - Engineering Metrology: Fundamentals and Applications
- ENGPYS 3NM4 - Numerical Methods for Engineering
- ENGPYS 3SM3 - Statistical Mechanics
- ENGPYS 3W04 - Signals and Systems for Engineering

3 units

- ENGINEER 2B03 - Engineering Economics

9-10 units

- approved electives (see Note 1)

Level IV: 37-38 Units

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

10 units

- ENGPYS 4A06 A/B - Design and Synthesis Project
- ENGPYS 4U02 - Modern and Applied Physics Laboratory

Note: Students must take ENGPYS 4U02 twice (totalling four (4) units), in order to fulfill degree requirements. Students must select two unique topics; the same topic cannot be repeated.

24-25 units

- approved electives (see Note 1)

ENGINEERING PHYSICS AND BIOMEDICAL ENGINEERING, ENGINEERING PHYSICS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- Approved technical electives for a total of 21-24 units:
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics

- Students must take at least 6 units of Approved technical electives from the Engineering Physics course offerings
 - Remaining units: Students may take any approved Engineering or Science technical elective (including Engineering Physics)
2. Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Science or Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives.
 3. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS**Level II: 40 Units****12 units**

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II

28 units

- ENGPYS 2A04 - Electricity and Magnetism
- ENGPYS 2CM4 - Computational Multiphysics
- ENGPYS 2E04 - Analog and Digital Circuits
- ENGPYS 2NE3 - Thermal Systems Design
- ENGPYS 2P04 - Applied Mechanics
- ENGPYS 2QM3 - Introduction to Quantum Mechanics
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

Level III: 36-37 Units**16 units**

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

17 units

- ENGPYS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYS 3L04 - Engineering Metrology: Fundamentals and Applications
- ENGPYS 3NM4 - Numerical Methods for Engineering
- ENGPYS 3SM3 - Statistical Mechanics

3-4 units

- approved technical elective (see Note 1)

Level IV: 35-38 Units**20 units**

- CHEM 2E03 - Introductory Organic Chemistry
- IBEHS 4A03 - Biomedical Control Systems
- IBEHS 4B03 - Biomechanics I
- IBEHS 4D03 - Medical Imaging I
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

3 units

- ENGPYS 3EC3 - Professional Communication and Project Management

6-7 units

- approved technical electives (see Note 1)

6-8 units

- approved IBEHS technical electives

Level V: 37-39 Units**9 units**

- IBEHS 5A03 - Modelling of Biological Systems
- IBEHS 5B06 A/B - Biomedical Capstone Design Project

7 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering
- ENGPYS 4U02 A/B
- Students must take ENGPYS 4U02 twice (totalling four (4) units), in order to fulfill degree requirements. Students must select two unique topics, one topic must be the biomedical section; the same topic cannot be repeated.

3-4 units

- approved IBEHS Technical Elective

12-13 units

- approved technical electives (see Note 1)

6 units

- Complementary Studies

ENGINEERING PHYSICS AND MANAGEMENT, ENGINEERING PHYSICS AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Approved technical electives for a total of 33-36 units:
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics
 - Students must take at least 17 units of Approved technical electives from the Engineering Physics course offerings
 - Remaining units: Students may take any approved Engineering or Science technical elective (including Engineering Physics)
2. Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Science or Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives. Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for an interdisciplinary program of study or a specialty in nano- and micro-devices engineering, nuclear engineering and energy systems, photonics engineering, or biomedical engineering. Students are responsible for ensuring that they fulfill the prerequisites for each course.
 - **Interdisciplinary Engineering:** ENGPYS 3D03, 3E03, 3O04, 3ES3, 3F03, 3G04 A/B, 3PN4, 4MD3, 4P03 and 4S03.
 - **Nano- and Micro-Devices Engineering:** ENGPYS 3E03, 3F03, 3PN4, 4MD3, 4S03, 4X03, 4U02 (nano- and micro-devices section), 4Z03.

- Nuclear Engineering and Energy Systems: ENGPYS 3D03, 3ES3, 3O04, 4D03, 4NE3, 4P03, 4PP3, and 4U02 (nuclear section).
 - Photonics Engineering: ENGPYS 3E03, 3G04 A/B, 3PN4, 4I03, 4S03, 4U02 (photonics section), 4X03 and 4Z03.
 - Biomedical Engineering: ENGPYS 3E03, 3G04 A/B, 4I03, and 4U02 (biomedical section).
 - Smart Systems Engineering: ENGPYS 3G04 A/B, 3PN4, 4MD3, SFWRNG 2MP3, 2MD3, MECHENG 4R03, ELECENG 4CL4, and 6-8 units from ELECENG 3FK4, 3TR4, MECHENG 4E03, 4H03
3. Students in a Co-op program must complete ENGINEER 1EE0 in addition to the academic requirements specified in this calendar. ENGINEER 2ECO will be added to the academic record for each 4 month work term.
4. Level V Engineering Physics and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

REQUIREMENTS

Level II: 36 Units

6 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 2MA3 - Introduction to Marketing

2 units

- ENGNMGT 2AA2 - Communication Skills

22 units

- ENGPYS 2A04 - Electricity and Magnetism
- ENGPYS 2CM4 - Computational Multiphysics
- ENGPYS 2E04 - Analog and Digital Circuits
- ENGPYS 2NE3 - Thermal Systems Design
- ENGPYS 2P04 - Applied Mechanics
- ENGPYS 2QM3 - Introduction to Quantum Mechanics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2Z3 - Engineering Mathematics IV

Level III: 36-37 Units

9 units

- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2FA3 - Introduction to Finance

3 units

- ECON 1BB3 - Introductory Macroeconomics

21 units

- ENGPYS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYS 3L04 - Engineering Metrology: Fundamentals and Applications
- ENGPYS 3NM4 - Numerical Methods for Engineering
- ENGPYS 3SM3 - Statistical Mechanics
- ENGPYS 3W04 - Signals and Systems for Engineering

3-4 units

- approved technical electives (see Note 1)

Level IV: 36-37 Units

12 units

- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 3FA3 - Managerial Finance
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 4QA3 - Operations Modelling and Analysis

3 units

- ENGNMGT 4A03 - Innovation Driven Project Development and Management

6 units

- ENGPYS 3EC3 - Professional Communication and Project Management
- ENGINEER 4A03 - Sustainability and Ethics in Engineering

15-16 units

- approved technical electives (see Note 1)

Level V: 37-38 Units

3 units

- COMMERCE 4PA3 - Business Policy: Strategic Management

3 units

from

- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences
- ENGNMGT 5B03 - Engineering and Management Projects
- ENGNMGT 5EP3 - New Enterprise Capstone Project (for Entrepreneurship Stream)

10 units

- ENGPYS 4A06 A/B - Design and Synthesis Project
- ENGPYS 4U02 - Modern and Applied Physics Laboratory

Note: Students must take ENGPYS 4U02 twice (totalling four (4) units), in order to fulfill degree requirements. Students must select two unique topics; the same topic cannot be repeated.

6 units

- Commerce electives selected from Level III or IV Commerce,

or

- ENGNMGT 5E03 - Entrepreneurial Processes and Skills
- ENGNMGT 5EL3 - Leading Innovation

15-16 units

- approved technical electives (see Note 1)

ENGINEERING PHYSICS AND SOCIETY, ENGINEERING PHYSICS AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Approved technical electives for a total of 33-36 units:
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics
 - Students must take at least 17 units of Approved technical electives from the Engineering Physics course offerings
 - Remaining units: Students may take any approved Engineering or Science technical elective (including Engineering Physics)
2. Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Science or Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives.

Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for an interdisciplinary program of study or a specialty in nano- and micro-devices engineering, nuclear engineering and energy systems, photonics engineering, or biomedical engineering. Students are responsible for ensuring that they fulfill the prerequisites for each course.

- **Interdisciplinary Engineering:** ENGPYHS 3D03, 3E03, 3ES3, 3F03, 3G04 A/B, 3O04, 3PN4, 4MD3, 4P03, and 4S03.
 - **Nano- and Micro-Devices Engineering:** ENGPYHS 3E03, 3F03, 3PN4, 4MD3, 4S03, and 4U02 (nano- and micro-devices section) 4X03, 4Z03.
 - **Nuclear Engineering and Energy Systems:** ENGPYHS 3D03, 3ES3, 3O04, 4D03, 4NE3, 4P03, 4PP3, and 4U02 (nuclear section).
 - **Photonics Engineering:** ENGPYHS 3E03, 3G04 A/B, 3PN4, 4I03, 4S03, 4U02 (photonics section) 4X03, and 4Z03.
 - **Biomedical Engineering:** ENGPYHS 3E03, 3G04 A/B, 4I03, and 4U02 (biomedical section).
 - **Smart Systems Engineering:** ENGPYHS 3G04 A/B, 3PN4, 4MD3, SFWRENG 2MP3, 2MD3, MECHENG 4R03, ELECENG 4CL4, and 6-8 units from ELECENG 3FK4, 3TR4, MECHENG 4E03, 4H03
3. Students in a Co-op program must complete ENGINEER 1EE0 in addition to the academic requirements specified in this calendar. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 37 Units

22 units

- ENGPYHS 2A04 - Electricity and Magnetism
- ENGPYHS 2CM4 - Computational Multiphysics
- ENGPYHS 2E04 - Analog and Digital Circuits
- ENGPYHS 2NE3 - Thermal Systems Design
- ENGPYHS 2P04 - Applied Mechanics
- ENGPYHS 2QM3 - Introduction to Quantum Mechanics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

3 units

- Engineering and Society focus electives

Level III: 33-34 Units

21 units

- ENGPYHS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYHS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYHS 3L04 - Engineering Metrology: Fundamentals and Applications
- ENGPYHS 3NM4 - Numerical Methods for Engineering
- ENGPYHS 3SM3 - Statistical Mechanics
- ENGPYHS 3W04 - Signals and Systems for Engineering

3 units

- ENGSOCTY 3Y03 - Technology and Society

6 units

- Engineering and Society focus electives

3-4 units

- approved technical electives (see *Note 1*)

Level IV: 33-34 Units

6 units

- ENGPYHS 3EC3 - Professional Communication and Project Management

- ENGINEER 2B03 - Engineering Economics

12-13 units

- approved technical electives (see *Note 1*)

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

9 units

- Engineering and Society focus electives

Level V: 34-35 Units

10 units

- ENGPYHS 4A06 A/B - Design and Synthesis Project
- ENGPYHS 4U02 - Modern and Applied Physics Laboratory

Note: Students must take ENGPYHS 4U02 twice (totalling four (4) units), in order to fulfill degree requirements. Students must select two unique topics; the same topic cannot be repeated.

Society:

3 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III

3 units

- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences
- ENGSOCTY 4Y03 - Society Capstone Design

18-19 units

- approved technical electives (see *Note 1*)

Integrated Biomedical Engineering and Health Sciences Program (IBEHS)

Michael G. DeGroot Centre for Learning, Room 3513, ext. 28347

<http://ibiomed.mcmaster.ca/>

Faculty as of January 15, 2019

CO-DIRECTORS

Hubert de Bruin/B.Eng., M.Eng., Ph.D. (*McMaster*), P.Eng.

Michelle L. MacDonald/B.Sc., Ph.D. (*McMaster*)

PROGRAM MANAGER

Alexa Béhar-Bannelier/B.Com. (Honours) (*McMaster*)

The Integrated Biomedical Engineering and Health Sciences (IBEHS) Programs are offered jointly by the Faculty of Engineering and the Faculty of Health Sciences. These programs lead to the B.Eng./BME or a B.H.Sc. (Honours) degree.

At McMaster, IBEHS students take a common Level I program comprising Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Graphics Design, Introduction to Professional Engineering and Design, Computation and complementary studies electives. The specialized programs are entered at Level II. Courses offered by the IBEHS program include two types of elective courses, which are governed by regulations, as follows:

- **Complementary Studies Electives** are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences. In addition to ENGINEER 4A03, or equivalent, complementary studies electives are required in the IBEHS program.
- **IBEHS Technical Electives** are approved courses offered by the Integrated Biomedical Engineering & Health Sciences program or various departments throughout the University in subjects relevant to the particular program. A list is available on the program website.

IBEHS I:

- Integrated Biomedical Engineering and Health Sciences (IBEHS) I/
Integrated Biomedical Engineering and Health Sciences (IBEHS) I Co-op

LEVEL II PROGRAM(S) LEADING TO THE B.ENG.BME DEGREE INCLUDE:

- Chemical and Biomedical Engineering, Chemical and Biomedical Engineering Co-Op (B.Eng.BME)
- Civil and Biomedical Engineering, Civil and Biomedical Engineering Co-Op (B.Eng.BME)
- Electrical and Biomedical Engineering, Electrical and Biomedical Engineering Co-Op (B.Eng.BME)
- Engineering Physics and Biomedical Engineering, Engineering Physics and Biomedical Engineering Co-Op (B.Eng.BME)
- Materials and Biomedical Engineering, Materials and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechanical and Biomedical Engineering, Mechanical and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechatronics and Biomedical Engineering, Mechatronics and Biomedical Engineering Co-Op (B.Eng.BME)
- Software and Biomedical Engineering, Software and Biomedical Engineering Co-Op (B.Eng.BME)

LEVEL II PROGRAM(S) LEADING TO THE B.H.SC.**(HONOURS) DEGREE INCLUDE:**

- Health, Engineering Science and Entrepreneurship (HESE) Specialization; Health, Engineering Science and Entrepreneurship (HESE) Specialization Co-Op (B.H.Sc.(Honours))

Mukesh Jain/(Mechanical Engineering) B.E.(IIS), M.A.Sc. (Windsor), Ph.D. (Washington)

Ishwar K. Puri/B.Sc. (Delhi), M.S., PhD. (California-San Diego)

MATERIALS ENGINEERING, MATERIALS ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department.

Thereafter, they will be considered for admission to one of these two programs.

NOTES

- The Department of Materials Science and Engineering offers a common core with four streams of study in Levels III and IV. Students may complete the required units as listed in the calendar in Levels III and IV by choosing a course selection according to the following elective streams:
 - Biomaterials
 - Data Analytics & Computational Materials
 - Materials for Manufacturing & Infrastructure
 - Smart Materials & Devices
 A list of approved technical electives for each stream is available on the Department of Materials Science and Engineering website.
- Note that a course in a stream may not be taught when the enrollment is (expected to be) too low.
- Students entering Level II should register in the Materials Science and Engineering program and follow the requirements outlined below. Students entering Levels III, IV or V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program in which they are registered and to consult with the Department of Materials Science and Engineering for further information.
- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EEO. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 37 Units

4 units

MATERIALS AND BIOMEDICAL ENGINEERING, MATERIALS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EEO. IBEHS 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 39 Units

12 units

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II

MATERIALS ENGINEERING AND MANAGEMENT, MATERIALS ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. The Department of Materials Science and Engineering offers a common core with four streams of study in Levels III and IV. Students may complete the required units as listed in the calendar in Levels III and IV by choosing a course selection according to the following elective streams:
 - Biomaterials
 - Data Analytics & Computational Materials
 - Materials for Manufacturing & Infrastructure
 - Smart Materials & Devices

A list of approved technical electives for each stream is available on the Department of Materials Science and Engineering website.
2. Note that a course in a stream may not be taught when the enrollment is (expected to be) too low.
3. Students entering Level II should register in the Materials Science and Engineering program and follow the requirements outlined below. Students entering Levels III, IV or V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program in which they are registered and to consult with the Department of Materials Science and Engineering for further information.
4. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0.

5. Level V Materials Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

REQUIREMENTS**Level II: 31 Units****4 units**

- CHEMENG 2004 - Fluid Mechanics

3 units

- COMMERCE 2MA3 - Introduction to Marketing

3 units

- ECON 1BB3 - Introductory Macroeconomics

2 units

- ENGNMGT 2AA2 - Communication Skills

MECHANICAL ENGINEERING, MECHANICAL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Level IV Mechanical Engineering students must choose one of the following option areas and complete sufficient units of the listed required courses and technical electives.
- PROGRAM OPTION COMPULSORY COURSES:
 - General:** five of any approved technical electives
 - Mechanics and Design:** two approved technical electives; plus three of CHEMENG 4T03, ENGINEER 4T04, MATLS 4T03, MECHENG 4B03, 4BB3, 4CC3, 4E03, 4H03, 4I03, 4K03, 4L03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - Manufacturing:** two approved technical electives; plus three of CHEMENG 4X03, ENGINEER 4J03, 4T04, MATLS 4T03, MECHENG 4B03, 4C03, 4D03, 4E03, 4H03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - Thermofluids and Energy Systems:** two approved technical electives; plus MECHENG 4S03; plus two of CHEMENG 4X03, ENGPYHS 3D03, 4D03, 4NE3, 4P03, MECHENG 4I03, 4J03, 4N03, 4O04, 4T03, 4U03, 4W03, 4X04, 4Y03
 - Approved Technical Electives:** any of the required program option courses listed above, plus CIVENG 3K03, COMMERCE 4QA3, ENGINEER 3N03, 4EX3
- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS**Level II: 40 Units****3 units**

- ENGINEER 2B03 - Engineering Economics

12 units

- MECHENG 4M06 A/B - Project
- MECHENG 4P03 A/B - Composite Laboratory
- MECHENG 4V03 - Thermo-Fluids Systems Design and Analysis

15-16 units

- Program option courses or approved technical electives.

(See *Note 1* above.)

MECHANICAL AND BIOMEDICAL ENGINEERING, MECHANICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.

MECHANICAL ENGINEERING AND MANAGEMENT, MECHANICAL ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Level IV and Level V Mechanical Engineering and Management students must choose one of the following option areas and complete sufficient units of the listed required courses and technical electives.
- PROGRAM OPTION COMPULSORY COURSES:
 - **General:** four of any approved technical electives
 - **Mechanics and Design:** one approved technical elective plus three of CHEMENG 4T03, ENGINEER 4T04, MATLS 4T03, MECHENG 4B03, 4BB3, 4CC3, 4E03, 4H03, 4I03, 4K03, 4L03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Manufacturing:** one approved technical elective plus three of CHEMENG 4X03, ENGINEER 4J03, 4T04, MATLS 4T03, MECHENG 4B03, 4C03, 4D03, 4E03, 4H03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Thermofluids and Energy Systems:** one approved technical elective; plus MECHENG 4S03; plus two of CHEMENG 4X03, ENGPYS 3D03, 4D03, 4NE3, 4P03, MECHENG 4I03, 4J03, 4N03, 4O04, 4T03, 4U03, 4W03, 4X04, 4Y03
 - **Approved Technical Electives:** any of the required program option courses listed above, plus CIVENG 3K03, ENGINEER 3N03, 4EX3
- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2EC0 will be added to the academic record for each 4 month work term.
- Level V Mechanical Engineering and Management students interested in completing the Entrepreneurship Stream must apply to the Engineering and Management Program Office.

REQUIREMENTS

Level II: 37 Units

9 units

- (See *Note 1* above.)
- Level V: 36-37 Units
- 6 units
- COMMERCE 4PA3 - Business Policy: Strategic Management
 - COMMERCE 4QA3 - Operations Modelling and Analysis
- 6 units
- Commerce electives selected from Level III or IV Commerce or
 - ENGNMGT 5E03 - Entrepreneurial Processes and Skills
 - ENGNMGT 5EL3 - Leading Innovation (for Entrepreneurship Stream)
- 3 units from
- ENGNMGT 5B03 - Engineering and Management Projects
 - ENGNMGT 5EP3 - New Enterprise Capstone Project (for Entrepreneurship Stream)

- ENGINEER 4I03 - Addressing Social Problems Through Business, Engineering and the Social Sciences or

3 units

- ENGINEER 4A03 - Sustainability and Ethics in Engineering

3 units

- approved complementary studies electives

9 units

- MECHENG 4M06 A/B - Project
- MECHENG 4P03 A/B - Composite Laboratory

6-7 units

- Program Option Courses or approved technical electives.

(See *Note 1* above.)

MECHANICAL ENGINEERING AND SOCIETY, MECHANICAL ENGINEERING AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Level IV and Level V Mechanical Engineering and Society students must choose one of the following option areas and complete sufficient units of the listed required courses and technical electives.
2. PROGRAM OPTION COMPULSORY COURSES:
 - **General:** five of any approved technical electives
 - **Mechanics and Design:** two approved technical electives; plus three of CHEMENG 4T03, ENGINEER 4T04, MATLS 4T03, MECHENG 4B03, 4BB3, 4CC3, 4E03, 4H03, 4I03, 4K03, 4L03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Manufacturing:** two approved technical electives; plus three of CHEMENG 4X03, ENGINEER 4J03, 4T04, MATLS 4T03, MECHENG 4B03, 4C03, 4D03, 4E03, 4H03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Thermofluids and Energy Systems:** two approved technical electives; plus MECHENG 4S03; plus two of CHEMENG 4X03, ENGPYHS 3D03, 4D03, 4NE3, 4P03, MECHENG 4I03, 4J03, 4N03, 4O04, 4T03, 4U03, 4W03, 4X04, 4Y03
 - **Approved Technical Electives:** any of the required program option courses listed above, plus CIVENG 3K03, COMMERCE 4QA3, ENGINEER 3N03, 4EX3
3. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.
4. A minimum of 18 units of focus elective courses is required for the program. (This does not include the six units of complementary studies elective in Level I.)

REQUIREMENTS

Level II: 37 Units

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

22 units

- MECHENG 2A03 - Design Communication
- MECHENG 2C04 - Mechanical Engineering Design I
- MECHENG 2D03 - Mechanical Engineering Design Elements
- MECHENG 2P04 - Statics and Mechanics of Materials
- MECHENG 2Q04 - Engineering Mechanics: Kinetics and Dynamics
- MECHENG 2W04 - Thermodynamics

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

3 units

- Engineering and Society focus electives

Level III: 38 Units

6 units

- ENGINEER 2B03 - Engineering Economics
- ENGINEER 2MM3 - Electrical Circuits and Power

3 units

- MATH 3I03 - Partial Differential Equations for Engineering

20 units

- MECHENG 2B03 - Mechanical Engineering Measurements
- MECHENG 3A03 - Engineering Mechanics
- MECHENG 3C03 - Manufacturing Engineering
- MECHENG 3F04 - Modelling and Numerical Solutions
- MECHENG 3O04 - Fluid Mechanics
- MECHENG 3R03 - Heat Transfer

3 units

- ENGSOCTY 3Y03 - Technology and Society

6 units

- Engineering and Society focus electives

Level IV: 38 Units

3 units

- MATLS 3M03 - Mechanical Behaviour of Materials

3 units

- STATS 3Y03 - Probability and Statistics for Engineering

17 units

- MECHENG 3E05 - Mechanical Engineering Design II
- MECHENG 3M03 A/B - Composite Laboratory
- MECHENG 4Q03 - Mechanical Vibrations
- MECHENG 4R03 - Control Systems
- MECHENG 4V03 - Thermo-Fluids Systems Design and Analysis

3 units

- Program option courses or approved technical electives

(See Note 1 above.)

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

6 units

- Engineering and Society focus electives

Level V: 30-37 Units

9 units

- MECHENG 4M06 A/B - Project
- MECHENG 4P03 A/B - Composite Laboratory

12-13 units

- Program option courses or approved technical electives

(See Note 1 above.)

3 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III

3 units from

- ENGINEER 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences

- ENGSOCTY 4Y03 - Society Capstone Design

3-9 units

- Engineering and Society focus electives

"PROGRAM ADMINISTRATOR (DEGREE COMPLETION PROGRAMS)

The Bachelor of Technology (B.Tech.) programs, within the Faculty of Engineering's W. Booth School of Engineering Practice and Technology, provide a degree-level technological education that is distinct from that offered in Bachelor of Engineering programs. These programs are more oriented to applications in specific technologies, with less emphasis on broader mathematical and scientific foundations than a corresponding engineering program. Graduates will have considerably more breadth and depth in their area of technology than graduates of college technology diploma programs. For degree completion programs, a second objective is to provide a path for college diploma graduates to gain an education leading to a university degree. The programs are being offered in two specific configurations:

- **Four-year programs** with direct entry from secondary school leading to a Bachelor of Technology Degree from McMaster and both an Advanced Diploma in Technology and a Business Management Certificate from Mohawk College. The Four-Year Degree Programs are:
 - Automation Engineering Technology Co-op
 - Automotive and Vehicle Engineering Technology Co-op
 - Biotechnology Co-op

- Degree-completion programs for graduates of an Advanced Diploma in a Technology program leading to a Bachelor of Technology degree from McMaster and a Business Management Certificate from Mohawk College. The Degree Completion Programs are:
 - Civil Engineering Infrastructure Technology Co-op
 - Manufacturing Engineering Technology Co-op
 - Power and Energy Engineering Technology Co-op
 - Software Engineering Technology Co-op

Breadth of Learning

B.Tech. graduates will be functioning in an evolving world in which they will play an important role as "evolvers" or change agents. This means that their education cannot just be narrowly focused on technical and management topics but must also enable them to develop important complementary skills, including written and oral communication skills; as well as understanding the relationship between technology and society. The Four-year B.Tech. program has three courses which are designed to develop those unique skills and broaden understanding of the complexities of technological-societal interrelationships.

MANAGEMENT STUDIES

The Degree Completion Program includes a seven-course management studies component, and the Four-Year program has a 13 course management studies component with courses such as: financial systems, entrepreneurial thinking & innovation, project management and strategic management. This convergence of engineering technology and management education enables graduates to 'hit the ground running' and make significant contributions within the ever-changing business and technical environments.

CO-OPERATIVE EDUCATION

The successful completion of Co-op work terms is a mandatory component of all B.Tech. degree programs; co-op work terms provide explicit experiential learning which is related to the technologically-oriented careers for which students are being prepared. Testing and enhancing their skills through a co-operative education experience is important in enabling graduates to function effectively in an industrial environment. All Co-op work terms must be completed prior to the start of the final academic term. The co-op component is managed by Engineering Co-op and Career Services.

Four-Year B.Tech. Programs

ACADEMIC REGULATIONS FOR FOUR-YEAR B.TECH. PROGRAMS

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a Four-Year program for the B.Tech. degree, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations.

Minimum Requirements to Continue in a Program Beyond Level I

In Level II and above, the student must maintain a Grade Point Average (GPA) of at least 3.5 to continue in the B.Tech. program.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the requirements for the program as outlined in this Calendar. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work are incomplete. Work of a higher level may be undertaken only with the permission of the B.Tech. Academic Advisor, Office of the Associate Dean (Academic).

MINIMUM WORK LOAD

The minimum workload for students registered in Level I of the Bachelor of Technology program is 30 units. The workload for students registered above Level I will range from 30 to 36 units per year and is specified within each academic program.

REINSTATEMENT

A student who is ineligible to continue in a Bachelor of Technology program (*May not continue at university*) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e.

what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required. **Reinstatement is not guaranteed.** A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average will begin anew. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

TRANSFERS FROM ENGINEERING

Students in good standing in Engineering I can apply to transfer directly to Level I B.Tech. Programs. (Automation Engineering Technology I, Automotive and Vehicle Engineering Technology I, Biotechnology I). Advanced credit will be given for Engineering I courses completed with minimum grade of C- which are equivalent to courses in the Bachelor of Technology program. Students who anticipate making such a transfer should consult with the B.Tech. Academic Advisor, Office of Associate Dean (Academic) at the earliest possible opportunity. Applications for transfer must be submitted to the Academic Advisor (Four-Year Bachelor of Technology Programs) no later than June 15.

REQUIREMENTS FOR ADVANCED MOHAWK DIPLOMA

Students registered in the Four-Year Bachelor of Technology Program may elect to leave the Program upon the successful completion of Level III and 8 months of co-op. Students will be awarded a Mohawk College Advanced Diploma.

STRUCTURE OF THE FOUR-YEAR B.TECH PROGRAM

	Fall (September - December)	Winter (January - April)	Summer (May-August)
Year 1	IA (15 units from Academic Level I)	IB (15 units from Academic Level I)	
Year 2	IIA (18 units from Academic Level II)	IIB (18 units from Academic Level II)	Co-op Work Term 1 ENGTECH 2EE0
Year 3	IIIA (18 units from Academic Level III)	Co-op Work Term 2 ENGTECH 3EE0	Co-op Work Term 3 ENGTECH 4EE0
Year 4	IIIB (18 units from Academic Level III)	IVA (16 units from Academic Level IV)	
Year 5	IVB (18 units from Academic Level IV)		

*Co-op work-term possibilities for the summers in Years 1 and 4 should be discussed with Engineering Co-Op and Career Services.

Programs for the Four-Year B.Tech. Degree

AUTOMATION ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

30 units total

ADMISSION TO LEVEL II

Admission to Level II of the Automation Engineering Technology Program requires completion of Automation Engineering Technology I, including ENGTECH 1AC3 and ENGTECH 1PR3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS

Level II: 36 Units

21 units

- PROCTECH 2CA3 - CAD for Design
- PROCTECH 2CE3 - Chemical Engineering I: Mass Balance
- PROCTECH 2EC3 - Chemical Engineering II
- PROCTECH 2EE3 - Electricity and Electronics II
- PROCTECH 2IC3 - Instrumentation and Control
- PROCTECH 2I03 - Industrial Organic Chemistry
- PROCTECH 2PL3 - Introduction to PLC Programming

6 units

- ENGTECH 2MA3 - Mathematics III
- ENGTECH 2MT3 - Mathematics IV

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2MP3 - Management Principles
- GENTECH 2PW3 - Professional Workplace Practices

1 course

- ENGTECH 2EE0 - Four Month Co-op Experience I

Level III: 36 Units

21 units

- PROCTECH 3CE3 - Chemical Engineering III: Unit and Process Design
- PROCTECH 3CT3 - Control Theory I
- PROCTECH 3MC3 - Motion Control and Robotics
- PROCTECH 3PL3 - Advanced PLC Programming and Control
- PROCTECH 4SS3 - System Specification and Design
- SMRTTECH 3CC3 - Cloud Computing and Internet of Things
- SMRTTECH 3DE3 - Digital Electronics

3 units

- ENGTECH 3ES3 - Engineering Statistics

12 units

- GENTECH 3ET3 - Entrepreneurial Thinking and Innovation
- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

Level IV: 34 units

7 units

- PROCTECH 4IT3 - Internet Technologies and Databases
- PROCTECH 4TR1 - Capstone Design Project I
- PROCTECH 4TR3 - Capstone Design Project II

9 units

- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

3 units from

- GENTECH 4MB3 - Fundamentals of Marketing
- GENTECH 4ST3 - Contemporary Issues in Management

3 units from

- PROCTECH 4MH3 - Machine Health and Remote Monitoring
- SMRTTECH 4HM3 - Human Monitoring and Smart Health Systems

INDUSTRIAL AUTOMATION SYSTEMS STREAM (SEE NOTE 1 ABOVE)

12 Units

- PROCTECH 4AS3 - Advanced System Components and Integration
- PROCTECH 4CT3 - Advanced Control Theory II
- PROCTECH 4IC3 - Industrial Networks and Controllers
- PROCTECH 4MS3 - Manufacturing Technologies

SMART SYSTEMS STREAM (SEE NOTE 1 ABOVE)

12 Units

- SMRTTECH 4AI3 - Artificial Intelligence and Machine Learning
- SMRTTECH 4ES3 - Embedded Systems
- SMRTTECH 4ID3 - IoT Devices and Networks
- SMRTTECH 4SC3 - Smart Cities and Communities

AUTOMOTIVE AND VEHICLE ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION TO LEVEL II

Admission to Level II of the Automotive and Vehicle Engineering Technology Program requires completion of Automotive and Vehicle Engineering Technology I, including ENGTECH 1ME3 and ENGTECH 1PR3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS

Level II: 36 Units

15 units

- AUTOTECH 2AC3 - Advanced CAD
- AUTOTECH 2AE3 - Design of Machine Elements
- AUTOTECH 2CD3 - Computer Aided Design
- AUTOTECH 2MT3 - Structure and Properties of Materials
- AUTOTECH 2TS3 - Thermodynamics and Heat Transfer

12 units

- ENGTECH 2ES3 - Engineering Statistics
- ENGTECH 2MA3 - Mathematics III
- ENGTECH 2MS3 - Modelling and Numerical Solutions
- ENGTECH 2MT3 - Mathematics IV

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2MP3 - Management Principles
- GENTECH 2PW3 - Professional Workplace Practices

1 course

- ENGTECH 2EE0 - Four Month Co-op Experience I

Level III: 36 Units

21 units

- AUTOTECH 3AE3 - Automotive Engineering Technology
- AUTOTECH 3AV3 - Electric and Hybrid Vehicles
- AUTOTECH 3CT3 - Control Theory
- AUTOTECH 3MP3 - Manufacturing Processes and Systems
- AUTOTECH 3MV3 - Mechatronics
- AUTOTECH 3TS3 - Fluid Mechanics
- AUTOTECH 3VD3 - Mechanical Vibrations

3 units

- ENGTECH 3FE3 - Finite Element Analysis

12 units

- GENTECH 3ET3 - Entrepreneurial Thinking and Innovation
- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

Level IV: 34 units

16 units

- AUTOTECH 4CI3 - Robotics and Computer Integrated Manufacturing
- AUTOTECH 4DV3 - Vehicle Dynamics
- AUTOTECH 4EC3 - Electrical and Electronics Control Systems
- AUTOTECH 4MS3 - Kinematic and Dynamic Modelling and Simulation
- AUTOTECH 4TR1 - Capstone Design I
- AUTOTECH 4TR3 - Capstone Design II

9 units

- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

3 units from

- GENTECH 4MB3 - Fundamentals of Marketing
- GENTECH 4TS3 - Technology and Society

6 units from

- AUTOTECH 4AE3 - Internal Combustion Engines
- AUTOTECH 4AT3 - Conceptual Design of Electric and Hybrid Vehicles
- MANTECH 4MM3 - Design and Manufacturing of Machine Elements
- PROCTECH 4MH3 - Machine Health and Remote Monitoring
- SFWRTECH 4AI3 - Artificial Intelligence

BIOTECHNOLOGY CO-OP (B.TECH.)

ADMISSION TO LEVEL II

Admission to Level II of the Biotechnology Program requires completion of Biotechnology I, including ENGTECH 1AC3 and ENGTECH 1BI3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS

Level II: 36 Units

24 units

- BIOTECH 2B03 - Biotechnology Concepts
- BIOTECH 2BC3 - Biochemistry
- BIOTECH 2CB3 - Cell Biology
- BIOTECH 2EC3 - Chemical Engineering Concepts
- BIOTECH 2GT3 - Genetics
- BIOTECH 2MB3 - Microbiology
- BIOTECH 2M03 - Molecular Biology
- BIOTECH 2OC3 - Organic Chemistry

3 units

- ENGTECH 2MA3 - Mathematics III

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2MP3 - Management Principles
- GENTECH 2PW3 - Professional Workplace Practices

1 course

- ENGTECH 2EE0 - Four Month Co-op Experience I

Level III: 36 Units

18 units

- BIOTECH 3BC3 - Bioprocess Control and Dynamics
- BIOTECH 3B03 - Industrial Biotechnology
- BIOTECH 3BP3 - Bioreactor Processes and Design
- BIOTECH 3FM3 - Food Microbiology
- BIOTECH 3IV3 - Immunology and Virology
- BIOTECH 3PM3 - Pharmacology

3 units

- ENGTECH 3ES3 - Engineering Statistics

3 units from

- BIOTECH 3CM3 - Computational Modeling of Biological Systems
- SFWRTECH 4AI3 - Artificial Intelligence
- SFWRTECH 4DA3 - Data Analytics and Big Data

12 units

- GENTECH 3ET3 - Entrepreneurial Thinking and Innovation
- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

Level IV: 34 units

22 units

- BIOTECH 4BI3 - Bioinformatics
- BIOTECH 4BL3 - Biomaterials and Biocompatibility
- BIOTECH 4BM3 - Biopharmaceuticals
- BIOTECH 4BS3 - Biotechnology Regulations
- BIOTECH 4GP3 - Genomics and Proteomics
- BIOTECH 4TB3 - Advanced Biotechnology
- BIOTECH 4TR1 - Capstone Project I
- BIOTECH 4TR3 - Capstone Project II

9 units

- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

3 units from

- GENTECH 4MB3 - Fundamentals of Marketing
- GENTECH 4TS3 - Technology and Society

Degree Completion B.Tech. Programs

ACADEMIC REGULATIONS FOR DEGREE COMPLETION B.TECH. PROGRAMS

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a degree-completion program for the B.Tech. degree, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations.

ADVANCED STANDING

The Bachelor of Technology degree is a 4-year degree program. A minimum of 72 units of work must be completed at McMaster University in order to obtain a Bachelor of Technology degree.

SEQUENCE OF COURSES

Students in the degree completion program may register in any courses in the program for which they have achieved the specified prerequisite requirements.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete.

WORK LOAD

Courses in the degree completion program are only offered on evenings (Monday through Friday) and on Saturdays. Students may elect to register in the program full-time or part-time. Students in these programs are considered to be full-time if registered for 9 units or more in an academic term. Students working full-time should not attempt more than two or three courses per academic term. The minimum number of units that may be taken in one academic term is three units (one course).

REINSTATEMENT

A student who is ineligible to continue in a Bachelor of Technology program (*May not continue at university*) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required. **Reinstatement is not guaranteed.**

A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average will begin anew. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

ADMISSION TO DEGREE COMPLETION PROGRAMS

The minimum academic requirement for admission to a Bachelor of Technology degree completion program is successful completion of an advanced technology diploma from an Ontario college with a Grade Point Average of 75%.

The degree completion programs will accept students with diplomas in a related technology program. Applicants with educational background equivalent to those completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTE

Co-op Education: Students in the degree completion Bachelor of Technology programs who initially registered in a program in September 2006 or later will be required to complete eight months of co-op experience prior to the start of their final academic term. The eight months of co-op experience may be acquired through a combination of two four-month experience terms. These co-op work terms will be waived for diploma graduates whose programs are operated on a co-op basis (which would be the case for Mohawk College diploma graduates) and for diploma graduates who have achieved significant work experience in a related field through the completion of a Prior Learning Assessment conducted by the Engineering Co-op & Career Services Office.

As well as completing the academic requirements as specified in this Calendar, students in co-op must also complete the following courses prior to graduation:

- ENGTECH 1ETO - Introduction to the Technology Co-op Program
- ENGTECH 2ETO - Four Month Co-op Experience I
- ENGTECH 3ETO - Four Month Co-op Experience II

ENGTECH 1ETO must be completed at least one academic term prior to the term in which the first co-op placement is taken.

B.Tech. Degree Completion Programs

CIVIL ENGINEERING INFRASTRUCTURE TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

Admission requires satisfactory completion of an advanced technology diploma in one of Architectural Engineering Technology, Civil Engineering Technology or Construction Engineering Technology. Applicants with educational backgrounds equivalent to those completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. WHMIS 1A00 must be completed in the first term of the program.
2. Students may complete Level III or Level IV courses in any order, provided they meet the specific course prerequisites.

INFRASTRUCTURE ELECTIVES COURSE LIST A

- CIVTECH 3PM3 - Highway Design, Construction, and Maintenance
- CIVTECH 3TP3 - Transportation Planning and Modelling
- CIVTECH 4LU3 - Advanced Land Use Planning
- CIVTECH 4WT3 - Municipal and Environmental Engineering
- ENGTECH 4FA3 - Finite Element Analysis

INFRASTRUCTURE ELECTIVES COURSE LIST B

- CIVTECH 4BC3 - Building Science
- CIVTECH 4BD3 - Bridge Design, Maintenance and Repair
- CIVTECH 4UM3 - Asset Management
- SFWRTECH 4AI3 - Artificial Intelligence

REQUIREMENTS

Level III: 36 Units

24 units

- CIVTECH 3GE3 - Geotechnical Materials and Analysis
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3ML3 - Strength of Materials
- ENGTECH 3SD3 - Statics and Dynamics
- ENGTECH 3SP3 - Structure and Properties of Materials
- ENGTECH 3ST3 - Probability and Statistics
- ENGTECH 4MA3 - Advanced Mathematics
- ENGTECH 4TF3 - Mechanics of Fluids

12 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles
- GENTECH 4SE3 - Technology Ethics and Sustainability

1 course

- WHMIS 1A00 - Introduction to Health and Safety (See *Note 2* above.)

Level IV: 36 Units

18 units

- CIVTECH 3GT3 - Geotechnical Design
- CIVTECH 3SA3 - Structural Analysis
- CIVTECH 4MH3 - Hydraulic Engineering
- CIVTECH 4RC3 - Reinforced Concrete and Masonry Design

- CIVTECH 4SD3 - Structural Steel Design
- ENGTECH 4ED3 - Senior Engineering Design Project

3 units

- GENTECH 4PM3 - Project Management

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 3EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 3TC3 - Technical Communications
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management

6 units

- from *Infrastructure Electives Course List A*

3 units

- from *Infrastructure Electives Course List B* or an approved ENRTECH, MANTECH, or SFWRTECH course

MANUFACTURING ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

Manufacturing Engineering Technology is open to graduates of an advanced technology diploma in one of Mechanical Engineering, Chemical Engineering Technology, Electro-Mechanical Engineering Technology and Manufacturing Engineering Technology. Applicants with educational backgrounds equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTE

WHMIS 1A00 must be taken in the first term of the program.

REQUIREMENTS

Level III: 36 Units

15 units

- ENGTECH 3CT3 - System Analysis and Controls
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3ML3 - Strength of Materials
- ENGTECH 3SP3 - Structure and Properties of Materials
- MANTECH 3LS3 - Quality Control and Assurance Methods

3 units

- ENGTECH 4MA3 - Advanced Mathematics

9 units

- ENGTECH 3SD3 - Statics and Dynamics
- ENGTECH 3TD3
- MANTECH 3MF3 - Micro Manufacturing and Fabrication

9 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety
(See *Note above.*)

Level IV: 36 Units

24 units

- ENGTECH 4FA3 - Finite Element Analysis
- ENGTECH 4TF3 - Mechanics of Fluids
- MANTECH 4DA3 - Design and Advanced Manufacturing

- MANTECH 4FM3 - CIM and Flexible Manufacturing
- MANTECH 4MM3 - Design and Manufacturing of Machine Elements
- MANTECH 4PM3 - Production Management
- MANTECH 4RM3 - Robot Mechanics and Mechatronics
- SFWRTECH 4AI3 - Artificial Intelligence

6 units

- GENTECH 4PM3 - Project Management
- GENTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 3EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 3TC3 - Technical Communications
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management

- ENRTECH 4RT3 - Renewable Power Generation from Wind, Solar and Hydro
- ENGTECH 4EP3 - Senior Engineering Project

6 units

from

- ENRTECH 4EM3 - Transmission Lines and Electromagnetics
- ENRTECH 4PQ3 - Power Quality
- ENRTECH 4RE3 - Fuel Cell, Geothermal and Biomass Power Generation
- SFWRTECH 4AI3 - Artificial Intelligence

6 units

- GENTECH 4PM3 - Project Management
- GENTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 3EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 3TC3 - Technical Communications
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management

POWER AND ENERGY ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

The degree completion programs in Power and Energy Engineering Technology will accept graduates in one of Mechanical Engineering Technology, Electrical Engineering Technology, Electronics Engineering Technology, or Electro-Mechanical Engineering Technology. Graduates from Ontario university engineering programs who seek to develop careers in the power and energy technology sectors will also be accepted. Applicants with educational backgrounds at least equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. WHMIS 1A00 be completed in the first term of the program.

REQUIREMENTS

Level III: 36 Units

27 units

- ENRTECH 3EP3 - Power Systems and Electrical Machines
- ENRTECH 3IE3 - Industrial Electronics
- ENRTECH 3IN3 - Industrial Networks and Communication Systems
- ENRTECH 3MI3 - Measurements and Instrumentation
- ENRTECH 3PD3 - Power Distribution I
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3TD3 - Thermodynamics
- ENGTECH 4MA3 - Advanced Mathematics
- ENGTECH 4TF3 - Mechanics of Fluids

9 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety

(See Note 3 above.)

Level IV: 36 Units

18 units

- ENRTECH 4CT3 - Control Theories
- ENRTECH 4PD3 - Power System Analysis and Control
- ENRTECH 4PM3 - Power Protection and Maintenance I
- ENRTECH 4PP3 - Power Protection and Maintenance II

SOFTWARE ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

Admission requires satisfactory completion of an advanced technology diploma in one of Computer Engineering Technology, Computer Systems Technology, Software or Networking, or Computer Programmer/Analyst. Applicants with educational backgrounds equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. Software Engineering diploma graduates must complete SFWRTECH 3IT3.
2. Network Engineering Security Analyst diploma graduates must complete SFWRTECH 3PR3.
3. WHMIS 1A00 must be completed in the first term of the program.

REQUIREMENTS

Level III: 36 Units

3 units

from

- SFWRTECH 3IT3 - Fundamentals of Networking
- SFWRTECH 3PR3 - Procedural and Object Oriented Programming Concepts

(See Notes 1 and 2 above.)

15 units

- SFWRTECH 3CS3 - Computer Security
- SFWRTECH 3OS3 - Operating Systems
- SFWRTECH 3RQ3 - Software Requirements and Specification
- SFWRTECH 4DS3 - Data Structures and Algorithms
- SFWRTECH 4NI3 - Advanced Networking Infrastructure

9 units

- ENGTECH 3DM3 - Discrete Mathematics
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3ST3 - Probability and Statistics

9 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety

(See Note 3 above.)

Level IV: 36 Units

18 units

- SFWRTECH 4CC3 - Parallel Programming
- SFWRTECH 4DA3 - Data Analytics and Big Data
- SFWRTECH 4DM3 - Data Mining
- SFWRTECH 4ES3 - Real-Time Systems
- SFWRTECH 4SD3 - Software Design
- ENGTECH 4FD3 - Senior Engineering Project

6 units

from

- SFWRTECH 4AI3 - Artificial Intelligence
- SFWRTECH 4CG3 - Computer Graphics
- SFWRTECH 4NN3 - Neural Networks and Deep Learning
- SFWRTECH 4SA3 - Software Architecture
- SFWRTECH 4VE3 - Visual Effects and Technology for Animated Production
- SFWRTECH 4WP3 - Advanced Web Programming

6 units

- GENTECH 4PM3 - Project Management
- GENTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 3EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 3TC3 - Technical Communications
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management

FACULTY OF HEALTH SCIENCES

<http://www.fhs.mcmaster.ca/>

DEAN AND VICE-PRESIDENT

P. O'Byrne/M.B., F.R.C.P.I., F.R.C.P.C., F.R.C.P.E., F.R.C.P. (Glasg), F.A.P.C., F.C.C.P., F.E.R.S., F.R.S.C.

VICE DEAN, RESEARCH

J.L. Bramson/B.Sc., Ph.D. (*McGill*), Canada Research Chair in Translational Cancer Immunology

VICE DEAN, CLINICAL SERVICES

W. Orovan/B.Sc., M.B.A., M.D., F.R.C.S.(C), F.A.C.S.

ASSOCIATE VICE-PRESIDENT ACADEMIC

S.D. Denburg/B.A., M.A., Ph.D.

VICE DEAN, HEALTH PROFESSIONAL EDUCATION

A.J. Neville/B.Med. Biol. (Path), M.B.Ch.B., M.Ed., F.R.C.P. (Lond), F.R.C.P.C.

VICE DEAN, UNDERGRADUATE HEALTH SCIENCES EDUCATION

Appointment Pending

ASSOCIATE DEAN (NURSING)

S. Carroll/B.Sc., Ph.D. (*McMaster*), R.N.

VICE DEAN, FACULTY OF HEALTH SCIENCES & ASSOCIATE DEAN OF GRADUATE STUDIES (HEALTH SCIENCES)

C.P.M. Hayward/M.D., Ph.D., F.R.C.P.C.

VICE DEAN (REHABILITATION SCIENCE)

D. Brooks/B.Sc.PT, M.Sc., Ph.D.

OVERVIEW

The concept of Health Sciences Education is based on the view that health is a broad subject encompassing both the problems of ill health and the impact of biology, environment and lifestyle on health. Each health sciences program has specific educational requirements, but by learning together in shared facilities there exists an opportunity to establish effective interprofessional working relationships. The programs in the Faculty attempt to meet these goals through a variety of learning approaches. Emphasis is placed on problem-based, small group learning experiences and inquiry. Other approaches to learning, including interdisciplinary educational experiences, are used where appropriate.

In July 1974, the School of Nursing and the School of Medicine were brought together to form the Faculty of Health Sciences. In 1989, the School of Occupational Therapy and Physiotherapy (School of Rehabilitation Science) was added and in 1993 the Midwifery Education Program was established. A further innovation was the implementation of the Bachelor of Health Sciences Program in 2000, followed by the establishment of the Bachelor of Health Sciences (Physician Assistant) in 2008. In 2014, the Faculty implemented a new Biomedical Discovery and Commercialization Program, which has an optional fifth year Master degree component beyond the Bachelor's degree. In 2017, the Faculty implemented a new Integrated Biomedical Engineering and Health Sciences Program (IBEHS) jointly offered by the Faculty of Engineering and the Faculty of Health Sciences. These programs lead to a B.Eng.BME, or a B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) degree. The Faculty offers the following undergraduate degree programs: Doctor of Medicine (MD), Bachelor of Science

in Nursing (B.Sc.N.), Bachelor of Health Sciences (Honours) (B.H.Sc. Honours), Bachelor of Health Sciences in Midwifery (B.H.Sc.), Bachelor of Health Sciences in Physician Assistant (B.H.Sc.), Bachelor of Health Sciences (Honours) in Biomedical Discovery and Commercialization (B.H.Sc. Honours) and most recently the Honours Biology and Pharmacology Co-Op Program (B.H.Sc.).

In addition to its undergraduate programs, the Faculty of Health Sciences also has responsibility for Residency Programs in Postgraduate Medical Education. The Clinician Investigator Program (CIP) allows Residents in the Royal College of Physician and Surgeons of Canada (RCPSC) specialty or subspecialty program to do research as a key component of their medical career. The CI Program at McMaster University is one of the largest Clinical Investigator Training Programs in Canada. The University offers nine distinct research-oriented graduate programs in Health Sciences. Both Masters and Ph.D. programs are offered in: Biochemistry, Biomedical Sciences, Biomedical Engineering, Chemical Biology, Health Research Methodology, Medical Sciences, Neurosciences, Nursing and Rehabilitation Sciences. Masters degrees are offered in: Biomedical Discovery & Commercialization, Child Life and Pediatric Psychosocial Care, eHealth, Global Health, Health Science Education, Occupational Therapy, Physiotherapy, Public Health and Speech-Language Pathology. A Ph.D. is also available in Health Policy.

The Faculty of Health Sciences developed the MD/PhD Program to bridge the gap between medical sciences and clinical application and train the future leaders of healthcare. The program is uniquely structured to allow optimal integration of medical education and research training that starts on the first day and extends throughout this 7 year program.

The Faculty of Health Sciences collaborates with the Division of Health Sciences at Mohawk College in educational programs for other health professions based at the College. Research programs encompassing the broad spectrum of health have been established, including basic and applied research and various aspects of health-care delivery. The graduate programs in medical sciences are related to the various areas of health research.

The Health Sciences Centre at McMaster provides educational and research facilities for medicine, nursing and other health professions. It includes a teaching hospital (the McMaster Site of Hamilton Health Sciences) with extensive ambulatory clinics for primary and specialized aspects of patient care. The building has been designed to bring into close proximity the programs for the various health professions and to integrate the facilities for education, research and patient care in the Faculty of Health Sciences.

In addition to the Health Sciences Centre, education, research and clinical programs are based at other Hamilton Health Sciences sites (Chedoke, General, Juravinski), St. Joseph's Centre for Mountain Health Services, St. Joseph's Hospital, St. Peter's Hospital, Juravinski Cancer Centre and the Health Sciences Education Centre, Mohawk College. Extensive use is made of a variety of community agencies. In accordance with the plan to coordinate the development of specialized health services among the Hamilton and District hospitals, the Postgraduate Education programs in medicine have been developed on a regional basis.

Undergraduate Health Sciences Education Programs

ADMISSION AND REGISTRATION

Application to any program in the Faculty of Health Sciences implies acceptance on the part of the applicant of the admission policies and procedures, and the methods by which applicants are chosen for the Health Sciences programs.

Registration in any program in the Faculty of Health Sciences implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated.

The following describes the regulations governing admission and registration in the Health Sciences programs, and should be considered in conjunction with specific admission requirements described on the following pages for: the Bachelor of Health Sciences (Honours) program (B.H.Sc. Honours), Bachelor of Health Sciences in Biomedical Discovery and Commercialization (Honours) program (B.H.Sc. Honours), Bachelor of Health Sciences in Health, Engineering Sciences

and Entrepreneurship Specialization (Honours) in the Integrated Biomedical Engineering and Health Sciences program (B.H.Sc. Honours), Honours Biology and Pharmacology Co-Op Program (B.H.Sc.), School of Medicine (MD), Bachelor of Health Sciences, Midwifery program (B.H.Sc.), Bachelor of Science, Nursing (B.Sc.N.) and the Physician Assistant Education program (B.H.Sc.). The following application deadlines are strictly enforced. Deadline dates re for consideration of admission to a program in the following September.

PROGRAM	DEADLINE
Bachelor of Health Sciences (Honours)	
(B.H.Sc. Honours) Level I	Mid-February (Supplementary Application deadline)- Details at bhsc.mcmaster.ca
(B.H.Sc. Honours) Level II transfer	Early May (Supplementary Application deadline)- Details at bhsc.mcmaster.ca
Bachelor of Health Sciences in Biomedical Discovery and Commercialization (B.H.Sc. (Honours))	
Current McMaster students	February 1
External students	February 1
Integrated Biomedical Engineering and Health Sciences (IBEHS) (B.Eng.BME or B.H.Sc.(Honours))	
IBEHS Level I	January 16
IBEHS Level II specialization transfer	Details online at ibiomed.mcmaster.ca
Honours Biology and Pharmacology Co-Op Program (B.H.Sc.)	
Current McMaster Students	January 24
External Students	January 24
Medicine (MD)	
Registration with OMSAS	September 15
Final application deadline	October 1
Midwifery (B.H.Sc.)	February 1
Nursing (B.Sc.N.)	
Applicants directly from Ontario Secondary Schools	January 15
Applicants to Accelerated	February 1
Applicants with Other Qualifications	February 1
Physician Assistant (B.H.Sc.)	February 1

The University reserves the right to change the admission requirements at any time without notice.

As places in the degree programs of the Faculty of Health Sciences are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission. The University, therefore, reserves the right to grant admission to a limited number of students, and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.

An evaluation of Unsatisfactory in the School of Medicine signifies that the student has failed to meet these objectives and the University may require the student to withdraw from the School at any time.

The University reserves the right to require the withdrawal of a student should his or her conduct so warrant.

FALSIFICATION OF ADMISSION INFORMATION

An applicant supplying documentation or evidence which, at the time, or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the program having submitted false evidence will be withdrawn.

HEALTH SCREENING RECORD FOR ADMISSION

Before registering in a clinically based program, students must submit a McMaster Faculty of Health Sciences Health Screening Record. This form details a student's immunization history and tuberculosis (TB) screening. It must be completed by a health care professional and submitted before the submission deadline. More detailed information will be provided upon acceptance into the program or visit <https://fhs.mcmaster.ca/healthscreening/index.html>.

POLICE RECORDS CHECK

Incoming students must provide an original Police Records Check, including Vulnerable Sector Screening (VSS). International or Visa students are required to provide an original Police Certificate from each country or territory they have resided for more than six months consecutively for the past five years. More detailed information will be provided upon acceptance into the program or visit https://fhs.mcmaster.ca/pcbe/police_records_check.html.

CLINICAL COURSE REQUIREMENTS

Where the performance of the student in clinical practice may jeopardize or endanger the welfare of the patient or the patient's family, the student may be removed from clinical experience any time during the academic year, until continuation in the course is reviewed.

INFORMATION AND ACADEMIC COUNSELING

In certain programs, a faculty member is selected for each student in the September of entry to a degree program and provides each student with advice on evaluations, electives and other educational needs throughout the program. Changes in advisors may be entertained as each student becomes acquainted with Faculty well enough to choose his or her own advisor. The academic advisory role for B.Sc.N. students is fulfilled by the Coordinator of Studies (Nursing). Students are also encouraged to consult individual faculty members regarding career planning.

TRANSPORTATION

Students are responsible for expenses involved in transporting themselves to community agencies, making home visits, or in connection with clinical study.

LICENSE TO PRACTICE

All graduates who wish to engage in clinical practice in any of medicine, midwifery, nursing, occupational therapy and physiotherapy are subject to any qualifying examinations and other requirements by the licensing bodies for each of these professions. In addition students should be aware that a license may be denied if they have been convicted of a criminal offence for which a pardon has not been granted. A student in such a position should consult the respective licensing body about such a situation.

Occupational Therapy Examination and Practice Preparation Project (OTepp)

The OTepp Certificate Program, in partnership with the Canadian Association of Occupational Therapists (CAOT), aims to assist re-entry and internationally educated occupational therapists meet their learning needs in order to successfully transition into Canadian practice.

For students who are unable to join the online class in real time, the sessions are recorded and archived, and can be viewed at the student's convenience. This is an intense study experience where students are expected to complete readings in preparation for two 3 hour classes each week. Students who successfully complete the first four academic courses may engage in an eight-week practicum, supervised by a registered occupational therapist. Students who complete

the entire program are awarded an undergraduate certificate from McMaster University. More information is available at <http://www.otepp.ca/>.

Bachelor of Health Sciences (Honours) Program

Michael G. DeGroot Centre for Learning and Discovery, Room 3300, ext. 22815
bhsc.mcmaster.ca

ASSISTANT DEAN, BACHELOR OF HEALTH SCIENCES (HONOURS)

S.A. Ritz, B.Sc. (Hons), M.Ed., Ph.D.

PROGRAM MANAGER

T. M. Basilio

Program Overview

This program, first offered in September 2000, is an innovative interdisciplinary program in which students take responsibility for their learning and in which there is recognition that both the knowledge and skill sets developed by students are integral parts of preparing for either further study or entry into the workforce. The principles of independent learning and an emphasis on both content and process are central to the provision of education within the Faculty of Health Sciences, and are reflected in this program. In addition, this program reflects the established tradition within the Faculty of understanding health from biological, behavioural and population-based perspectives. The program will draw on individuals from within the Faculty of Health Sciences and the larger university community to provide students with exposure to basic and applied researchers as well as health care practitioners, enabling students to learn about and experience the study of health from these various perspectives. The program will utilize both a small group, inquiry-based format as well as traditional lecture, lab, and tutorial based teaching formats to provide students with a solid knowledge base in health-related sciences as well as the skills necessary to critically evaluate and synthesize health-related information.

The program is designed to emphasize flexibility, recognizing that students may use this program to prepare for a variety of post-graduate options including graduate work in medical sciences, professional schools and entry into the workforce. Beyond the first year, students may select to focus on one perspective of health and develop relative expertise in this area, while other students may find that their needs are better met by pursuing a broader-based program of study through their senior years.

The program begins in Level I and leads to the degree Bachelor of Health Sciences (Honours) upon successful completion of Level IV. The four-level program offers the opportunity for specialization and focus areas through electives and through individual study or thesis courses.

SPECIALIZATIONS AND FOCUS AREAS

The B.H.Sc. (Honours) Program offers a number of options to allow students to pursue a focused area of study on a particular topic. At the present time, we are offering a specialization for entry in Level II in Child Health. Two concurrent certificate programs are available in Biomedical Sciences and Immunology, Microbiology & Virology. As well, the Global Health curriculum is part of the Interdisciplinary Minor in Globalization Studies. Specialization and focus area offerings are reviewed regularly to ensure the student and program needs continue to be met, and may be revised or phased out.

CONCURRENT CERTIFICATE IN BIOMEDICAL SCIENCES

Beginning in 2019-2020, the Biomedical Sciences Specialization structure will be replaced with a Concurrent Certificate in Biomedical Sciences, which will provide students with the option of concentrating their studies in biomedical science and research, building on the existing principles of excellence in the B.H.Sc. (Honours) program by addressing fundamental concepts and opportunities to develop knowledge and skills appropriate for biomedical research. This course of study will emphasize content in the biomedical sciences, along with the development of essential skills in problem-solving, critical thinking, scientific reasoning and logic,

experimental design, and working independently and in teams. These transferable skills and principles in biomedical sciences will prepare students for a future in graduate-level research, industry, or professional school. Undergraduate degree students in any program may declare the Biomedical Sciences Certificate at the time of graduation provided that they have completed the course requirements. Course requirements and details are available in the *Certificate and Diploma Programs* section of the Calendar.

CONCURRENT CERTIFICATE IN IMMUNOLOGY, MICROBIOLOGY, & VIROLOGY

Beginning in 2019-2020, students in any program may complete a Concurrent Certificate in Immunology, Microbiology, & Virology (IMV), which will provide students with the option of concentrating their studies in these fields. Building on existing strengths of the B.H.Sc. (Honours) Program and expertise in the Faculties of Health Sciences, Science, and Engineering, this course of study will give students a solid grounding in the function of the mammalian immune system, the classification and life cycle of various microbes, and the mechanisms of host defense. Undergraduate degree students in any program may declare the IMV Certificate at the time of graduation provided that they have completed the course requirements. Course requirements and details are available in the *Certificate and Diploma Programs* section of the Calendar.

GLOBAL HEALTH

Understanding the complex web of relationships and interactions in global health requires an interdisciplinary academic experience. The curriculum in global health in the Bachelor of Health Sciences (Honours) Program provides students with an environment that incorporates insight from the traditional academic fields of anthropology, philosophy, ethics and law, while drawing heavily on the expertise present within the Faculty of Health Sciences in the domains of biostatistics & epidemiology, health economics & policy, molecular medicine & pathology, and health research methodology while simultaneously exploring personal developmental and an academic skill set necessary for the role as contributors to global health issues. Students interested in focusing their studies around Global Health topics can pursue global health curriculum as part of the Interdisciplinary Minor in Globalization Studies, choosing courses from the theme list in Globalization & Health.

CHILD HEALTH SPECIALIZATION

The Child Health Specialization offers students a unique opportunity to apply the Inquiry problem-based learning model within the dynamic context of child health, development and community involvement.

The Child Health Specialization curriculum based on three thematic pillars - education, research, and experiential/community learning - cuts across academic disciplines related to child health such as paediatrics, psychiatry, psychology, social work, developmental rehabilitation, education, etc.

The Child Health Specialization utilizes existing expertise within the McMaster University and Hamilton communities; by doing so it allows for the integration of theory and knowledge with experiential learning and research skill development within the challenging context of child health. World-renowned teachers/facilitators, researchers and clinicians from across disciplines serve as supervisors/mentors for students with an interest in child health.

Upon acceptance into the B.H.Sc. (Honours) program and the completion of Level I, students will apply to this specialization in March.

PROGRAM GOALS

The overall goal of the program is to educate students in such a way that upon graduation students have a firm foundation in the health sciences, and the skills necessary to learn and adapt in subsequent educational or occupational environments.

KNOWLEDGE

To acquire a broad knowledge base that reflects the Faculty's commitment to studying health from biological, behavioural and population-based perspectives. This should include an understanding of the structure, function and behaviour of the human body, the environmental determinants of health and the ways that these factors interact to result in disease or illness.

SKILLS

To acquire and apply the following skills as a student and member of society:

1. Self-directed learning skills: The ability to identify gaps in one's own knowledge that prevent solving a problem, to formulate a plan that uses appropriate educational resources, and to obtain and synthesize the information needed to solve that problem.
2. Critical thinking skills: The ability to evaluate the merit of information obtained in various ways and to present information in a way that shows evidence of a critical, reflective approach to information and problems.
3. Synthesizing skills: The ability to understand that most problems can be analyzed from a number of perspectives, to identify these perspectives and to formulate solutions that are comprehensive and adequate reflections of various levels of analysis.
4. Communication skills: The ability to communicate an issue in oral and written form, both effectively and concisely.

PERSONAL QUALITIES

Individuals who successfully complete this program should be prepared to accept responsibility for a life-long process of learning and personal and professional growth. They should respect the various approaches to the study of health, and the beliefs associated with these studies, and should be open to new ways of learning and understanding. They should understand that health is a multi-faceted discipline requiring collaboration and be capable of working collegially with others, while being prepared to contribute to the well-being of those around them.

Admission Procedures and Requirements

Please note that the admission policy may be reviewed annually and the admission requirements may be changed in future years. As places in this program are limited, the admission process is competitive. Possession of the minimum requirements does not guarantee admission to the program.

Application to the B.H.Sc. (Honours) Program of the Faculty of Health Sciences implies acceptance of the admission policies, procedures and methods by which applicants are chosen.

ADMISSION PROCEDURESApplicants From Ontario Secondary Schools

Applicants currently completing Grade 12 U or M courses apply through the:

Ontario Universities' Application Centre (OUAC)

170 Research Lane
Guelph, ON, N1G 5E2

www.ouac.on.ca

Applicants to BHSc (Honours) Level 1 must apply to OUAC by the specified deadline date. Secondary schools will forward mid-term and final transcripts directly to OUAC in support of applications.

Applicants are required to complete a mandatory Supplementary Application Form online by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Applicants With Qualifications Equivalent to Ontario Secondary School

Applicants from other provinces should contact the Ontario Universities' Application Centre (OUAC) for an application package for admission consideration. Please refer to the OUAC address above. Applicants must also have their official transcripts forwarded to:

Office of the Registrar, Admissions

McMaster University Gilmour Hall Room 108
1280 Main Street West
Hamilton, Ontario, L8S 4L8

Applicants are also required to complete a mandatory Supplementary Application Form online by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Applicants from other countries should contact the Office of International Affairs at www.mcmaster.ca/oia or (905) 525-9140, ext 24211 for details.

Transfer Applicants

Transfer applicants from McMaster University are required to complete a Program Application for Current Level I Students on-line via MOSAIC during March to April and a mandatory Supplementary Application online by the specified deadline date. Level 2 transfer applicants must apply for BHSc (Honours) in MOSAIC, **not** a sub-plan (for example; specialization). Applicants who apply for a sub-plan will not be reviewed for BHSc (Honours) and will be considered ineligible for this program. Applicants who receive and accept the admission offer to B.H.Sc. (Honours) and express their interest in the Child Health Specialization may be considered if they are eligible and if space permits. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Applicants from other post-secondary institutions are required to apply through the *Ontario Universities' Application Centre (OUAC)* (please refer to the OUAC address above) by April 1st and complete a mandatory Supplementary Application by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Second Degree Applicants

Applicants who have completed a University undergraduate degree or have completed more than one year or the equivalent of University undergraduate studies are ineligible to apply to the B.H.Sc. (Honours) Program. This restriction does not apply for those applying through the Facilitated Indigenous Admission Process.

Concurrent Certificate in Biomedical Sciences

Students in any Undergraduate degree program who are interested in this certificate may declare it at the time of graduation provided they have completed the course requirements, as outlined in the Certificate and Diploma Programs section of the Calendar.

Concurrent Certificate in Immunology, Microbiology, & Virology

Students in any Undergraduate degree program who are interested in this certificate may declare it at the time of graduation provided they have completed the course requirements as outlined in the Certificate and Diploma Programs section of the Calendar.

Global Health

The Global Health Specialization has been restructured in collaboration with the Interdisciplinary Minor in Globalization Studies to create a theme in Globalization & Health. Students interested in pursuing a focus in global health can pursue the Interdisciplinary Minor in Globalization Studies with a focus on globalization and health.

Child Health Specialization

Students registered in Health Sciences I who are interested in this specialization will apply during March to April via MOSAIC by completing the Program Application for Current Level I Students. Applicants may be asked to submit a statement of interest and may be interviewed. Enrolment is limited to approximately 30 students entering in Level II.

ADMISSION REQUIREMENTSApplicants From Ontario Secondary Schools

The selection method for Ontario Secondary School applicants is by academic qualifications and a mandatory Supplementary Application. The majority of Level I offers of admission are made in early May. A minimum of 90% is required for consideration. In early May, the following grade information will be used: Semester schools: all final Grade 12 U and/or M courses from first semester or prior years, and second-semester mid-term grades for Grade 12 U and/or M courses. Non-semester schools: second term grades for full-year Grade 12 U and/or M courses. Offers based on interim and/or mid-term grades will be conditional upon maintaining satisfactory performance on final grades. Supplementary Applications are to be submitted electronically via the web at: bhsc.mcmaster.ca. A review of the mandatory Supplementary Application is a very important component of the admission selection process. Applicants who do not complete the Supplementary Application are not considered for admission.

Requirements

The following are the minimum Grade 12 U and/or M requirements under the Ontario Secondary School curriculum:

1. English U;
2. Biology U;
3. Chemistry U;
4. one of Advanced Functions U, Calculus and Vectors U or Mathematics of Data Management U. For those applicants who present with more than one of these Mathematics courses, the highest grade on the transcript at the time of review will be used to calculate the admission average;
5. One U or M non-math/non-science (**note: courses in technological education, science or mathematics are not acceptable**);
6. One additional U or M course in any other subject area to total six courses.

Applicants With Qualifications Equivalent to Ontario Secondary School

Applicants from other provinces and countries must achieve the equivalent to the qualifications listed in the Grade 12 U or M course requirements in their secondary school graduation year.

Transfer Applicants

Transfer applicants will be admitted to the B.H.Sc. (Honours) Program from other programs at McMaster and from other post-secondary institutions. The process will be competitive and will be based on the student's academic qualifications and a Supplementary Application. Enrolment is limited. Students interested in being considered for admission to Level II of the B.H.Sc. (Honours) Program must have completed the equivalent of six units of university Level I Biology and six units of university Level I Chemistry. A Grade Point Average of at least 10.0 (minimum overall average of A-) will be required for admission consideration. Transfer applicants who receive an admission offer to BHSc (Honours) and express an interest in the BHSc Child Health Specialization may be considered on a case by case basis if space permits. However, there is no guarantee that space will be available in the specialization. In this case, Level 2 transfer students are admitted to the BHSc (Honours), core program.

Bursaries

B.H.Sc. (Honours) students are eligible to apply for one of the following bursaries provided they are Canadian citizens and demonstrate financial need. Applications are available in Mosaic each Fall. The following bursaries have been generously donated to assist Bachelor of Health Sciences (Honours) students in financial need:

- Ruth Murray Memorial B.H.Sc. Bursary
- Loucks Family and Friends B.H.Sc. Bursary
- Ron and Gina Fraser Health Sciences Bursary

For further information about bursaries, please refer to the Financial Aid & Scholarships website.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the *General Academic Regulations* section of this Calendar, the following Program regulations apply.

Minor

This information is directed to B.H.Sc. students who are interested in completing a minor in another subject area. A minor is not available in the B.H.Sc. (Honours) Program.

A Minor is an option available to a student enrolled in a four- or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the *General Academic Regulations* section in this Calendar.

CONTINUATION IN THE PROGRAM

Students who have a minimum GPA of 6.0 may continue in the program. If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once.

Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to the B.H.Sc. General Program and, with permission, take B.H.Sc. required courses (for which all course prerequisites have been met). Students in this situation must attend a mandatory preregistration academic advising session in the BHSc Program office. Students who, at next review, achieve a GPA of at least 5.5 may transfer to the B.H.Sc. (Honours) program. Students who fail to meet the minimum requirements for transfer to B.H.Sc. (Honours) by the end of 90 units, must transfer to a non-BHSc program for which he/she qualifies or graduate with a B.H.Sc. three-year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

CONCURRENT CERTIFICATES

Concurrent certificates are an option available to any student in an undergraduate degree program, and may be completed as part of a student's elective credit. Some concurrent certificates will require a student be admitted to this option, while others may involve completion of the course requirements and declaring the certificate at the time of graduation. Students should refer to the course requirements and details available in the Certificate and Diploma Programs section of the Calendar. Two concurrent certificate programs are administered by the B.H.Sc. (Honours) Program: Biomedical Sciences and Immunology, Microbiology, & Virology.

LETTERS OF PERMISSION

Students enrolled in the B.H.Sc. (Honours) Program may apply to take courses at another university on a Letter of Permission via MOSAIC. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the Assistant Dean (MDCL-3300). If a grade of C- or better is attained, the transcript designation reads *T* indicating *transfer credit*, or *NC* indicating *not complete* if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission.

Students must be in good standing to be eligible to take courses on a Letter of Permission.

LEVEL OF REGISTRATION

A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the B.H.Sc. (Honours) Program Office.

REINSTATEMENT TO THE B.H. SC. (HONOURS) PROGRAM

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry and November 30 for January entry. The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation. **Reinstatement is not guaranteed.** If students are reinstated to the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may, at the discretion of the Faculty, retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

REGISTRATION AND COURSE CHANGES

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that you review your advisement report in MOSAIC each time you drop or add courses and seek academic counselling from the B.H.Sc. (Honours) Program Office if you have any questions. Dates for final registration and course changes appear in the Sessional Dates section of this Calendar and are enforced.

ACADEMIC COUNSELLING

Academic counselling is available throughout the year from the B.H.Sc. (Honours) Program Office. It is recommended that students make an appointment with an advisor from the program office if they have any questions.

GRADUATION

A GPA of 5.0 is required for graduation.

Students who successfully complete Level III of the program may request permission from the B.H.Sc. (Honours) Program Office to graduate with a three-level B.H.Sc. degree. Please refer to the General Academic Regulations section in this Calendar for additional information related to graduation.

BACHELOR OF HEALTH SCIENCES (HONOURS) (B.H.SC.)**NOTE**

Degree requirements listed below apply to Level I students entering the Program starting in September 2019.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Level I: 30 Units

6 units

- HTHSCI 1I06 A/B - Cellular and Molecular Biology

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

6 units

- HTHSCI 1E06 A/B - Inquiry I: Introduction

2 units

- HTHSCI 1G02 - Interdisciplinary Problem-Solving in Health

1 unit

- HTHSCI 1X01 A/B - Praxis Pathways 1

9 units

- Electives

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level II: 30 Units

3 units

- HTHSCI 2E03 - Inquiry II: Biochemistry *

3 units

- HTHSCI 2F03 - Human Physiology and Anatomy I

3 units

- HTHSCI 2FF3 - Human Physiology and Anatomy II

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Cell Biology

3 units

- HTHSCI 2X03 A/B - Praxis Pathways 2

9 units

- Electives

NOTE

* HTHSCI 2D06 A/B replaces HTHSCI 2E03 for Level 2 transfer students

Level III: 30 Units

3 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences

3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3 units

- HTHSCI 3GG3 - Health Systems and Health Policy

3-6 units

- HTHSCI 3H03 A/B - Inquiry Project

- HTHSCI 3H06 A/B S - Inquiry Project

1 course

- HTHSCI 3X00 A/B - Praxis Pathways 3

15-18 units

- Electives

Level IV: 30 Units

6-15 units

from

- HTHSCI 4A09 A/B S - Thesis

- HTHSCI 4B06 A/B S - Senior Projects

- HTHSCI 4A12 A/B S - Thesis

- HTHSCI 4A15 A/B S - Thesis

- HTHSCI 4D06 A/B - Senior Project in Engaging the City

- HTHSCI 4D09 A/B - Thesis in Engaging the City

- HTHSCI 4D12 A/B - Thesis in Engaging the City

3 units

- HTHSCI 4XP3 A/B - Praxis Pathways 4

12-21 units

- Electives

BACHELOR OF HEALTH SCIENCES (HONOURS) - BIOMEDICAL SCIENCES SPECIALIZATION (B.H.SC.)**NOTES**

1. Entry to this program begins in Level II with the final in-take occurring in September 2019. Students wishing to apply must successfully complete Health Sciences I.

- Degree requirements listed below apply only to Level II students entering the Biomedical Sciences Specialization in September 2019.
- While registration in HTHSCI 4X03 A/B S will occur in Level IV, students will begin studies in Level I.
- Biomedical Sciences Course List: Levels III and IV Biochemistry, HTHSCI 3BA3, 3FC3, 3I03, 3K03, 3SB3, 3U03, 3X03, 4BB3, 4G03, 4I13, 4J03, 4JJ3, 4K03, 4KK3, 4NU3, 4O03, MOLBIOL 4H03.
- The Biomedical Sciences Specialization will be replaced with a Concurrent Certificate in Biomedical Sciences (BMS) beginning September 2019.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Level II: 30 Units

6 units

from

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II

3 units

- HTHSCI 2E03 - Inquiry II: Biochemistry

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Cell Biology

3 units

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry

9 units

- Electives

NOTE

*HTHSCI 2D06 A/B required for Level II transfer students

Level III: 30 Units

3 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences

3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3-6 units

- HTHSCI 3BM3 - Inquiry Project in Biomedical Sciences
- HTHSCI 3BM6 A/B S - Research Project in Biomedical Sciences

3 units

- HTHSCI 3V03 - Research and Experimental Design

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

9 units

from

- the *Biomedical Sciences Course List* (See *Program Note 3* above.)

3-6 units

- Electives

Level IV: 30 Units

3 units

- HTHSCI 4AL3 - Model Systems

3 units

- HTHSCI 4X03 A/B S - Collaboration and Peer Tutoring

6-9 units

- from *The Biomedical Sciences Course List* (See *Program Note 3* above.)

9-12 units

from

- HTHSCI 4R09 A/B - Thesis in Biomedical Sciences
- HTHSCI 4R12 A/B S - Thesis in Biomedical Sciences

3-9 units

- Electives

BACHELOR OF HEALTH SCIENCES (HONOURS) - CHILD HEALTH SPECIALIZATION (B.H.SC.)

NOTES

- Entry to this program begins in Level II. Students wishing to apply must successfully complete Health Sciences I.
- While registration in HTHSCI 4X03 A/B S will occur in Level IV, students will begin studies in Level I.
- Degree requirements listed below apply to Level II students entering the Child Health Specialization starting in September 2019.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Level II: 30 Units

3 units

- HTHSCI 2E03 - Inquiry II: Biochemistry *

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Cell Biology

3 units

- HTHSCI 2J03 - Health, Attitude and Behaviour

6 units

- HTHSCI 2CH6 A/B - CHS Inquiry Fundamentals

3 units

- HTHSCI 2CH3 A/B - CHS Learning Modules

6 units

- Electives

NOTE

*HTHSCI 2D06 A/B replaces HTHSCI 2E03 for Level II transfer students

Level III: 30 Units

3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3 units

- HTHSCI 3GG3 - Health Systems and Health Policy

9 units

- HTHSCI 3CH9 A/B - CHS Inquiry Intermediate

6 units

- HTHSCI 3CH6 A/B S - CHS Research Practicum

9 units

- Electives

Level IV: 30 Units

6 units

- HTHSCI 4CH6 A/B - CHS Inquiry Advanced

6-15 units

from

- HTHSCI 4C06 A/B - Senior Project in Child Health
- HTHSCI 4C09 A/B - Thesis in Child Health
- HTHSCI 4C12 A/B - Thesis in Child Health
- HTHSCI 4C15 A/B - Thesis in Child Health
- HTHSCI 4D06 A/B - Senior Project in Engaging the City
- HTHSCI 4D09 A/B - Thesis in Engaging the City
- HTHSCI 4D12 A/B - Thesis in Engaging the City

3 units

- HTHSCI 4X03 A/B S - Collaboration and Peer Tutoring

6-15 units

- Electives

BACHELOR OF HEALTH SCIENCES (HONOURS) - GLOBAL HEALTH SPECIALIZATION (B.H.SC.)

NOTES

1. Degree requirements listed below apply only to Level III students who entered the Global Health Specialization in September 2018. Students not in this cohort who are interested in global health should consider the Globalization and Health Theme of the Interdisciplinary Minor in Globalization Studies.
2. While registration in HTHSCI 4X03 A/B S will occur in Level IV, students will begin studies in Level I.
3. **Global Health Course List:**
 - HTHSCI 3AH3 - Indigenous Health
 - HTHSCI 3L03 - Introduction to Bioethics
 - HTHSCI 4D03 - Special Topics in Health Sciences (on a global health topic)
 - HTHSCI 4LD3 - Global Health Governance, Law and Politics
 - HTHSCI 4MS3 - Toxic Tales: The Social Lives of Molecules
 - HTHSCI 4PA3 - Global Health Innovation
 - HTHSCI 4TE3 - The Teaching Hospital
 - HTHSCI 4Y03 - Science, Culture and Identity
 - HTHSCI 4YY3 - Health Forum Practicum
 - HTHSCI 4ZZ3 - Global Health Advocacy
 - Courses from the Interdisciplinary Minor in Globalization Studies

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses
Levels III and IV: 60 Units

12 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- HTHSCI 3GG3 - Health Systems and Health Policy
- HTHSCI 4X03 A/B S - Collaboration and Peer Tutoring

3 units

- HTHSCI 2DS3 - Global Health and the Complexities of Disease

21 units

from

- Global Health Course List (See *Program Note 3* above.)

6-15 units

from

- HTHSCI 4G06 A/B S - Senior Project in Global Health

Ph.D. (Victoria)

PROGRAM MANAGER

Nancy McKenzie/B.Sc., Ph.D. (McMaster)

Program Overview

The Biomedical Discovery and Commercialization (BDC) program is a multidisciplinary training program, concentrated in the biomedical sciences that will produce graduates with the combined strengths of discovery research skills and business acumen. An important goal of the BDC program is the exposure of students to business curriculum in the DeGroote School of Business to complement a strong foundation in the biomedical sciences obtained in the Faculty of Health Sciences. Further, the program seeks to make strong connections with the health research business community in order to provide internships and community mentors for its trainees. With this unique combination of skills and knowledge, BDC graduates will be well positioned for employment in the biotechnology, pharmaceutical and other biomedical science sectors of the economy. Likewise they will be equipped to pursue further training in, for example, graduate studies in research, Master of Business Administration, Law or Medicine. The format of the BDC program is a '4+1' Bachelor plus Master program. It is a four-year undergraduate Bachelor's degree that begins in Level III, followed by a fifth year Master's degree. Thus candidates who successfully graduate from the four-year undergraduate BDC program may choose to apply for admission to the one-year non-thesis, course-based Master's program. Upon successful completion of each of the degree requirements, candidates will have graduated with an Honours Bachelor of Health Sciences degree in BDC and subsequently a Master of Biomedical Discovery and Commercialization.

Admission Procedures and Requirements

Please note that the admission policy may be reviewed annually and the admission requirements may be changed in future years. As places in this program are limited, the admission process is competitive. Possession of the minimum requirements does not guarantee admission to the program.

ADMISSION REQUIREMENTS

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an on-line application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program with a Grade Point Average of at least 8.0 on the McMaster 12-point scale (equivalent to a grade of B). Refer to the "Apply" tab on the BDC website (bdcprogram-mcmaster.ca/apply) for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of both CHEM 20A3 and 20B3 (or equivalent) is strongly recommended prior to entry into the program. CHEM 20A3 must be completed by the end of Level III and CHEM 20B3 must be completed by the end of Level IV. The program will be open to applicants who have completed equivalent Level II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment

periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

MINOR

This information is directed to BDC students who are interested in completing a minor in another subject area. A minor is not available in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program.

A Minor is an option available to a student enrolled in a four or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

CONTINUATION IN THE PROGRAM

Students who have a minimum GPA of 6.0 may continue in the program.

If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once.

Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to a non-BDC program for which he/she qualifies or graduate with a B.H.Sc. three year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

LETTERS OF PERMISSION

Students enrolled in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program may apply to take courses at another university on a Letter of Permission (LOP) by submitting an LOP request in MOSAIC. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the BDC Program Office (HSC-4H30). If a grade of C- or better is attained, the transcript designation reads *T* indicating *Transfer Credit*, or *NC* indicating *Not Complete* if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

LEVEL OF REGISTRATION

A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the BDC Program Office.

REINSTATEMENT TO THE HONOURS BACHELOR OF HEALTH SCIENCES IN BIOMEDICAL DISCOVERY AND COMMERCIALIZATION PROGRAM

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry and November 30 for January entry.

The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an

illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation. Reinstatement is not guaranteed. If students are reinstated to the University, their Grade Point Average will be reset to 0.0 on zero units, although students may, at the discretion of the Faculty, retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

REGISTRATION AND COURSE CHANGES

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that you review your advisement report in MOSAIC on the working day following each time you drop or add courses and seek academic counselling from the Program Office if you have any questions. Dates for final registration and course changes appear in the *Sessional Dates* section of this Calendar and are enforced.

ACADEMIC COUNSELLING

Academic counselling is available throughout the year from the Program Office. It is recommended that students make an appointment with the Program Office if they have any questions.

GRADUATION

A GPA of 5.0 is required for graduation. Students who successfully complete Level III of the program may request permission from the BDC Program Office to graduate with a three-level B.H.Sc. degree. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

BACHELOR OF HEALTH SCIENCES (HONOURS) - BIOMEDICAL DISCOVERY AND COMMERCIALIZATION (B.H.SC.)

PROGRAM NOTES

1. Students interested in pursuing a minor in Business should take COMMERCE 1AA3 and COMMERCE 2AB3 in place of COMMERCE 4AK3. For more information on completing a minor in Business, please refer to the *DeGroote School of Business (Faculty of Business)* section of the undergraduate calendar.
2. Students who have already completed COMMERCE 1AA3 will be required to complete COMMERCE 2AB3 instead of COMMERCE 4AK3.
3. Students interested in pursuing a minor in Business should take COMMERCE 2MA3 and COMMERCE 3MC3 in place of COMMERCE 3MD3. For more information on completing a minor in Business, please refer to the *DeGroote School of Business (Faculty of Business)* section of the undergraduate calendar.
4. Students who have already completed COMMERCE 2MA3 will be required to complete COMMERCE 3MC3 instead of COMMERCE 3MD3.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Level III: 30 units

18 units

- BIOMEDDC 3A03 - Road to Biomedical Discovery
- BIOMEDDC 3B06 A/B - Drug Discovery and Development
- BIOMEDDC 3C09 A/B - Research Skills Laboratory and Inquiry

6 units

- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 4AK3 - Accounting Information for Decision Making

(see Program Notes 1 and 2 above)

0-6 units

- **BIOCHEM 3G03 - Proteins and Nucleic Acids** (if BIOCHEM 2B03 and 2BB3 were not completed prior to entry into the program)
- **CHEM 20A3 - Organic Chemistry I** (if not completed prior to entry into the program)

0-6 units

- Elective(s)

Level IV: 30 units**18 units**

- **BIOMEDDC 4A15 A/B - Senior Research Thesis**
- **BIOMEDDC 4B03 - Road to Biomedical Commercialization**

6 units

- **COMMERCE 3MD3 - Introduction to Contemporary Applied Marketing** (see *Program Notes 3* and *4* above)
- **COMMERCE 4FW3 - Finance for Entrepreneurs**

0-3 units

- **CHEM 20B3 - Organic Chemistry II** (if not completed prior to entry into the program)

3-6 units

- Elective(s)

Honours Biology & Pharmacology Co-op Program (B.H.Sc.)

PROGRAM OVERVIEW

The Honours Biology & Pharmacology Coop Program is the longest-standing undergraduate co-operative education program at McMaster University, offered jointly between the Faculties of Health Sciences and Science. Highlights of the program include:

- limited enrolment program guarantees class sizes of less than 20 students
- Biology and Health Sciences offerings with specialized Pharmacology courses that explore human pharmacodynamics, pharmacokinetics and pharmacogenetics: what drugs do to the body and what the body does to drugs.
- a dedicated laboratory course
- a full-time research thesis
- three semesters of paid coop work terms in industry, academia or government, in Hamilton, surrounding area or world-wide.

The program equips students with a wide spectrum of skills and experiences and provides excellent preparedness for graduate and professional schools such as medicine, pharmacy, veterinary or employment in industry or government.

ADMISSION REQUIREMENTS

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an on-line application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program with a Grade Point Average of at least 5.0 on the McMaster 12-point scale (Note: normally, a Grade Point Average of at least 8.0 is required). Refer to the "Apply" tab on the Honours Biology and Pharmacology Co-op program website (<https://healthsci.mcmaster.ca/biopharm/education/prospective-students/apply>) for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of courses from the fol-

lowing areas of study are strongly recommended: human or animal physiology, genetics, organic chemistry, cell biology, microbiology and biotechnology, ecology, bio-analytical chemistry, physical chemistry.

The program will be open to applicants who have completed equivalent Level I and/or II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

Minor

This information is directed to Honours Biology and Pharmacology Co-op students who are interested in completing a minor in another subject area.

A Minor is an option available to a student enrolled in a four or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

A minor is not available in Biology and Pharmacology.

Continuation in the Program

Students who have a minimum Grade Point Average (GPA) of 6.0 may continue in the program.

If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once.

Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to a program for which he/she qualifies or graduate with a B.H.Sc. three year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

Letters of Permission

Students enrolled in the Honours Biology and Pharmacology Co-op program may apply to take courses at another university on a Letter of Permission (LOP) by submitting an LOP request in MOSAIC. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the Honours Biology and Pharmacology Co-op Program Office (HSC-2E21A). If a grade of C- or better is attained, the transcript designation reads *T* indicating *Transfer Credit*, or *NC* indicating *Not Complete* if less than a C- grade is attained. Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

Reinstatement to the Honours Biology and Pharmacology Co-op Program

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry.

The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation. Reinstatement is not guaranteed. If students are reinstated to the University, their Grade Point Average will be reset to 0.0 on zero units. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Registration and Course Changes

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that students review their advisement report in MOSAIC on the working day following each time courses are dropped or added and seek academic counselling from the Program Office if they have questions. Dates for final registration and course changes appear in the Sessional Dates section of this Calendar and are enforced.

ACADEMIC COUNSELLING

Academic counselling is available throughout the year from the Director of the Honours Biology and Pharmacology (Co-op) Program. It is recommended that students make an appointment with the Director if they have any questions.

GRADUATION

A GPA of 5.0 is required for graduation. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

HONOURS BIOLOGY AND PHARMACOLOGY CO-OP (B.H.SC.)

ADMISSION

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an online application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program with a Grade Point Average of at least 5.0 on the McMaster 12-point scale (Note: normally, a Grade Point Average of at least 8.0 is required). Refer to the "Apply" tab on the Honours Biology and Pharmacology Co-op program website for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of courses from the following areas of study are

strongly recommended: human or animal physiology, genetics, organic chemistry, cell biology, microbiology and biotechnology, ecology, bio-analytical chemistry, physical chemistry.

The program will be open to applicants who have completed equivalent Level I and/or II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Director of the Honours Biology and Pharmacology Co-op Program.

PROGRAM NOTES

1. This is a five-level (year) co-op program, three terms of which must be spent in work related to biology or pharmacology placements under the auspices of the Science Career & Cooperative Education office in the Faculty of Science.
2. A senior thesis, PHARMAC 4F09, will be completed in the Fall term of Level V. Work terms must be completed in the Spring/Summer term of Level III, Fall term of Level IV and Spring/Summer term of Level V. See Co-op program chart below.
3. PHARMAC 3A06 A/B, 3B06 A/B, 4A03, 4AA3, 4C03, 4D03 and 4E03 will use a self-directed problem-based learning approach.
4. Students must be registered full-time and take a full academic workload as prescribed by Level and Term.
5. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
6. Students should seek academic advising for this program from the Director of the Honours Biology and Pharmacology Co-op Program.
7. If BIOCHEM 2B03 and 2BB3 have not been completed at the time of admission, BIOCHEM 3G03 must be completed in Level III. Students with credit in BIOCHEM 2B03 and 2BB3 are not required to complete further Biochemistry courses.

COURSE LIST

- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- All Levels III and IV Biology and Molecular Biology courses
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 4I13 - Bio-Inorganic Chemistry
- CHEM 4O13 - Natural Products
- CHEMBIO 3O13 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics
- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4I13 - Bio-Inorganic Chemistry
- CHEMBIO 4O13 - Natural Products
- CHEMBIO 4O13 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 4EA3
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 4EA3 - Environmental Assessment
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 2K03 - Cell Biology
- HTHSCI 3BA3 - Symptomatology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 3U03 - Medical Genetics
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4J03 - Immunological Principles In Practice

- LIFESCI 3AA3 - Human Pathophysiology
- STATS 2D03 - Introduction to Probability

REQUIREMENTS

129 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of any Level II program including courses as outlined in Admission statement

(See *Admission* above.)

LEVEL III

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 27 units:

0-3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3-6 units

from

- *Course List*

6 units

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis

12 units

- PHARMAC 3A06 A/B - Introduction to Pharmacology
- PHARMAC 3B06 A/B - Methods in Pharmacology

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WW0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and completion of senior thesis (Spring/Summer Term)

Fall Term:

Work Term

1 course

- SCIENCE 4WW0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

- PHARMAC 4A03 - Receptor-Drug Interactions
- PHARMAC 4C03 - Principles of Toxicology

0-3 units

- STATS 2B03 - Statistical Methods for Science

6 units

from

- *Course List*

0-3 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 5WW0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term: 12 units:

12 units

- PHARMAC 4T12 - Senior Thesis

(See *Program Note 2* above.)

Winter Term: 15 units:

6 units

from

- HTHSCI 4TE3 - The Teaching Hospital
- PHARMAC 4AA3 - Advanced Topics in Pharmacology
- PHARMAC 4D03 - Drug Design
- PHARMAC 4E03 - Social Pharmacology

3 units

from

- *Course List*

6 units

- Electives

Integrated Biomedical Engineering and Health Sciences Program (IBEHS)

Michael G. DeGroot Centre for Learning, Room 3513, ext. 28347

<http://ibiomed.mcmaster.ca/>

Faculty as of January 15, 2019

CO-DIRECTORS

Hubert de Bruin/B.Eng., M.Eng., Ph.D. (*McMaster*), P.Eng.

Michelle L. MacDonald/B.Sc., Ph.D. (*McMaster*)

PROGRAM MANAGER

Alexa Béhar-Bannelier/B.Com. (Honours) (*McMaster*)

The Integrated Biomedical Engineering and Health Sciences (IBEHS) Programs are offered jointly by the Faculty of Engineering and the Faculty of Health Sciences. These programs lead to the B.Eng.BME or a B.H.Sc. (Honours) degree.

At McMaster, IBEHS students take a common Level I program comprising Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Graphics Design, Introduction to Professional Engineering and Design, Computation and complementary studies electives. The specialized programs are entered at Level II. Courses offered by the IBEHS program include two types of elective courses, which are governed by regulations, as follows:

- **Complementary Studies Electives** are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences. In addition to ENGINEER 4A03, or equivalent, complementary studies electives are required in the IBEHS program.
- **IBEHS Technical Electives** are approved courses offered by the Integrated Biomedical Engineering & Health Sciences program or various departments throughout the University in subjects relevant to the particular program. A list is available on the program website.

IBEHS I:

- Integrated Biomedical Engineering and Health Sciences (IBEHS) I/
Integrated Biomedical Engineering and Health Sciences (IBEHS) I Co-op

LEVEL II PROGRAM(S) LEADING TO THE B.ENG.BME DEGREE INCLUDE:

- Chemical and Biomedical Engineering, Chemical and Biomedical Engineering Co-Op (B.Eng.BME)
- Civil and Biomedical Engineering, Civil and Biomedical Engineering Co-Op (B.Eng.BME)

- Electrical and Biomedical Engineering, Electrical and Biomedical Engineering Co-Op (B.Eng.BME)
- Engineering Physics and Biomedical Engineering, Engineering Physics and Biomedical Engineering Co-Op (B.Eng.BME)
- Materials and Biomedical Engineering, Materials and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechanical and Biomedical Engineering, Mechanical and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechatronics and Biomedical Engineering, Mechatronics and Biomedical Engineering Co-Op (B.Eng.BME)
- Software and Biomedical Engineering, Software and Biomedical Engineering Co-Op (B.Eng.BME)

LEVEL II PROGRAM(S) LEADING TO THE B.H.SC.

(HONOURS) DEGREE INCLUDE:

- Health, Engineering Science and Entrepreneurship (HESE) Specialization;
- Health, Engineering Science and Entrepreneurship (HESE) Specialization Co-Op (B.H.Sc.(Honours))

HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) SPECIALIZATION; HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) SPECIALIZATION CO-OP (B.H.SC.(HONOURS))

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTE

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EEO. IBEHS 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

Level II: 30 Units

21 units

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- IBEHS 2E06 A/B - Health, Engineering Science and Entrepreneurship I

1 course

- IBEHS 2R00 A/B - Current Research Initiatives I

3 units

- electives

Level III: 31 Units

16 units

- CHEM 2E03 - Introductory Organic Chemistry
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

9 units

- HTHSCI 2K03 - Cell Biology
- IBEHS 3E06 A/B - Health, Engineering Science and Entrepreneurship II

1 course

- IBEHS 3R00 A/B - Current Research Initiatives II

6 units

- electives

Level IV: 32 Units

17 units

- IBEHS 4A03 - Biomedical Control Systems
- IBEHS 4B03 - Biomechanics I
- IBEHS 4D03 - Medical Imaging I
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

9 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences
- IBEHS 4E06 A/B - Health, Engineering Science and Entrepreneurship III

1 course

- IBEHS 4R00 A/B - Current Research Initiatives III

6 units

- electives

Level V: 36 Units

3 units

- IBEHS 5A03 - Modelling of Biological Systems

21 units

- IBEHS 5E15 A/B - Health, Engineering Science and Entrepreneurship (Capstone)
- IBEHS 5R06 A/B - Current Research Initiatives IV

12 units

- electives

INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I/INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I CO-OP

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EEO. IBEHS 2ECO will be added to the academic record for each 4 month work term.
2. Admission to Level II Engineering and Biomedical Engineering programs requires completion of all 34 units of required IBEHS I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the students Cumulative Grade Point Average. A student in IBEHS I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in IBEHS.

REQUIREMENTS

37 units total

Level I: 37 Units

10 units

- IBEHS 1P10 A/B - Health Solutions Design Projects I
3 units
 - CHEM 1E03 - General Chemistry for Engineering I
6 units
 - HTHSCI 1I06 A/B - Cellular and Molecular Biology
9 units
 - MATH 1ZA3 - Engineering Mathematics I
 - MATH 1ZB3 - Engineering Mathematics II-A
 - MATH 1ZC3 - Engineering Mathematics II-B
6 units
 - PHYSICS 1D03 - Introductory Mechanics
 - PHYSICS 1E03 - Waves, Electricity and Magnetic Fields
3 units
 - Complementary Studies
- (See *Elective Courses Available To Level I Students*)
- 2 courses
- BIOSAFE 1BS0 - Biosafety Training
 - WHMIS 1A00 - Introduction to Health and Safety

REGIONAL PROGRAM ADMINISTRATOR - WATERLOO REGIONAL CAMPUS

T. Everding

The School of Medicine, established in 1965 and renamed the Michael G. DeGroot School of Medicine in 2004, offers major programs in undergraduate, postgraduate and graduate medical education. The clinical programs use not only the teaching hospital and ambulatory care and research facilities at the McMaster University Medical Centre division of Hamilton Health Sciences, but also the clinical teaching units at several of the major Hamilton hospitals and community health-care centres.

The Undergraduate Medical Program for the MD degree was initiated in 1969, graduating its first students in May 1972. Currently, 203 students will be admitted to the program.

WATERLOO REGIONAL AND NIAGARA REGIONAL CAMPUSES

For the incoming classes, 28 of the 203 positions are designated to the Waterloo Regional Campus and 28 positions are designated to the Niagara Regional Campus. All applicants invited to the McMaster Multiple-Mini Interview (MMI) will be asked to rank their site choice (Hamilton, Waterloo Region or Niagara Region) as 1, 2, 3 or no preference. Offers of admission to the medical school will be made from the master rank list irrespective of geographical preference. Subsequent to filling the 203 positions, registrants to the class will be offered a position based on their preference and geographical background.

The offer of admission is binding to a specific site.

Students accepted into the Waterloo Regional Campus and the Niagara Regional Campus will spend the first Medical Foundation in Hamilton. The costs associated

with transportation and/or accommodation will be covered by the student. Each Regional Campus is approximately a one-hour drive from Hamilton.

The academic program operates on an 11 months-a-year basis in first and second year, and 8 months in third year and students qualify for the MD degree at the end of the third academic year. The curriculum has been designed to involve medical students in a broad range of human health problems throughout their education and to prepare them for effective working relationships with patients, colleagues and society.

Postgraduate training programs currently include: Anesthesia, Community Medicine, Critical Care, Emergency Medicine, Family Medicine, Internal Medicine (and subspecialties), Laboratory Medicine (and subspecialties), Obstetrics and Gynecology, Pediatrics (and subspecialties), Psychiatry, Radiology, and Surgery programs. More details on these postgraduate programs are available from the Postgraduate Medical Education Office.

Undergraduate Medical (M.D.) Program

The three-year program in Medicine uses a problem-based approach to learning that should apply throughout the physician's career. The components have been organized in sequential blocks with early exposure to patients and case management.

UNDERGRADUATE MD PROGRAM GOALS

The Undergraduate MD Program at McMaster University fosters a cooperative, supportive and respectful environment. The curriculum evolves continuously, responsive to the changing needs of Ontario society, nurturing the development of the following competencies at the time of graduation:

1. **Medical Expert:** Students will be able to apply scientific principles from human biology, behaviour and population health to the solution of health problems; they will have the ability to seek out new information and evaluate this information critically.
2. **Communicator/Collaborator:** Students will demonstrate effective communication skills, sensitive to the needs of patients and cognizant of the roles of other members of the health care team in delivering patient care.
3. **Advocate/Resource Manager:** Graduating students will be knowledgeable about the determinants of health and be proactive advocates for their individual patients and for healthy public policy within the context of the health care system.
4. **Scholar/Learner:** Students will be self-directed lifelong learners, whose exposure at McMaster to role models in research and clinical care will encourage them to apply innovative approaches to solving health care problems.
5. **Self-Reflective Practitioner:** Graduating students will be expected to have developed an awareness of the influence of their attitudes, values and assumptions, how these affect their practice of medicine and the impact of the practice of medicine on themselves as individuals.

THE COMPASS CURRICULUM

The COMPASS curriculum focuses on the mastery of fundamental concepts in medicine. It continues the McMaster tradition of problem-based learning but incorporates research findings from cognitive psychology. The curriculum is structured on the integration of critical concepts and each step of the curriculum is based on the growth of important concepts learned previously. Tutorial problems are selected to illustrate these concepts in a clinical setting and when students are exploring tutorial problems, which remain the focus of learning, they will be directed towards asking questions of "what", "why" and "how" as much as "what is the diagnosis?".

The Pre-Clerkship curriculum is divided into five foundations: four Medical Foundations that provide an introduction to all major organ systems and an Integration Foundation that focuses on purposeful and structurally-supported consolidation of important concepts to improve readiness for Clerkship, as shown in the curriculum outline. A novel feature of the curriculum is a horizontal Professional Competencies curriculum which runs throughout the three years of the program. The Clerkship program consists of rotations in medicine, medical subspecialties, orthopedic surgery, surgery, family medicine, anesthesia, psychiatry, pediatrics, obstetrics and gynecology and emergency medicine. There is also elective time. The program concludes with a short unit dedicated to review and consolidation of concepts.

LEARNING METHODS

To achieve the objectives of the Undergraduate Medical Program, students are introduced to patients within the first Foundation of the curriculum. In this way, students understand the relevance of what they are learning, maintain a high degree of motivation and begin to understand the importance of responsible professional attitudes.

In the Pre-Clerkship Foundations, the students are presented with a series of tutorial problems, requiring for their solution the understanding of underlying biological, population and behavioural principles, the appropriate collection of data and the critical appraisal of evidence. The faculty function as learning resources or guides. Learning by a process of inquiry is stressed.

The central focus of the pre-clerkship program is the tutorial. The class is divided into small groups of approximately 6-8 students, each with a tutor. In the tutorial session students develop a series of learning objectives from each tutorial case and negotiate how they will approach their learning tasks. They then acquire the knowledge and skills to meet the objectives of the Foundation in which they are working. They also learn to work as a team, helping and learning from peers. The study habits and sense of responsibility to self and others provide a basis for lifelong working and learning habits. Attendance is mandatory.

In the Professional Competencies curriculum, students work in groups of 8 to 10, with two facilitators, one an MD, the other a non-MD, clinician from an allied health care field. Learning formats include Large Group Sessions, small group tutorials, work with Standardized patients, role-plays, written projects and reflections which are collected as the student's Reflective Physician Portfolio.

Students admitted to the Undergraduate Medical Program have the responsibility and privilege of taking an active role in the planning and evaluation of the education program. Through representation on most policy-making and implementing committees, students can influence decisions in such areas as education, philosophy, faculty recruitment and curriculum design. It is expected that all students will participate in the continuing reappraisal and improvement of the program. Such participation is a hallmark of the Program.

STUDENT ASSESSMENT METHODS

The assessment format has been designed to complement learning in the Undergraduate Medical Program. Assessment methods have been developed to measure how well the student achieves the stated educational objectives in the various components of the program. Continual assessment of the student occurs within the tutorial setting with input from their peers, faculty preceptors and the tutor. Several short assessment exercises are required during each Foundation and at regular intervals during the Professional Competencies component of the program. At the completion of the Foundation or the Professional Competencies assessment period, the tutor or facilitator is responsible for the final summary statement of student learning progress. The tutor prepares a summary of the student's performance in the tutorials and all associated activities during that Foundation. The summary is provided to the student and to the student advisor electronically while the original is kept in the student's electronic file.

In addition to the tutorial-based assessment, the accumulation of medical knowledge is assessed at regular intervals by means of the Personal Progress Index. This is in a multiple-choice format. Results are given to the students for self-assessment and, in summary form, to the student advisor. The Personal Progress Index is in addition to, and does not replace, tutorial- and performance-based evaluation. The Program monitors student progress, and responds to students showing persistently low progress.

The acquisition of clinical and professional skills is assessed by clinical skills preceptors in each Foundation and in Clerkship. Also, students participate in an Objective Structured Clinical Evaluation (OSCE) on an annual basis.

The Student Assessment Committee has the responsibility of working with the Medical Program to assist with the development and implementation of valid and reliable assessment methods to provide timely and helpful information to assist students and faculty in assessing progress and performance. Continuation in the Program is subject to satisfactory performance.

CURRICULUM PLAN - COMPASS CURRICULUM

LAPTOP REQUIREMENT

The MD Program delivers lectures and course materials online, and communications with students and faculty between the three campuses through the use of email as well as various software programs, including web conferencing capabilities.

TRANSPORTATION COSTS

Students are expected to travel outside their home campus area for mandatory teaching sessions, clinical placements and clerkship rotations. Students are responsible for their own transportation and associated costs in order to complete program requirements. It is anticipated that further rotations will be developed in rural, under-serviced and remote areas. In certain cases, there will be some external funding available.

For students who are accepted into the Waterloo Regional Campus and the Niagara Regional Campus, the first Medical Foundation will be spent in Hamilton and students will be expected to cover the cost of commuting and/or accommodations. Each Regional Campus is approximately a one-hour drive from Hamilton.

The elective experience can be spent in various activities utilizing local, regional or distant resources. Students are expected to cover all transportation and associated costs for electives. Funding may be available for elective travel expenses through a number of funding programs.

MEDICAL FOUNDATION 1:

This 11-week Foundation begins with an in-depth introduction to:

- i. areas of personal and professional development that will be required to study medicine;
- ii. the pedagogies and assessments that are employed in the Program;
- iii. the healthcare systems in which students will be learning and working; and
- iv. the policies and practices of the MD Program.

Students' knowledge- and skill-development then focuses on the respiratory and cardiovascular systems' contributions to concepts of oxygenation and homeostasis. All students study in Hamilton for this Foundation.

MEDICAL FOUNDATION 2:

This 8-week Foundation focuses on the renal and hematologic systems' contribution to concepts of oxygenation and homeostasis. Students' knowledge- and skill-development also addresses the immunologic, host defense, and neoplastic aspects of hematology. Students study in their assigned campus for this Foundation and subsequent Foundations.

MEDICAL FOUNDATION 3:

This 12-week Foundation focuses on concepts of nutrition, energy, homeostasis, and reproduction through knowledge- and skill-development that centers on the digestive, endocrine, and reproductive systems. Following this Foundation, students have a one-week break from study.

MEDICAL FOUNDATION 4:

This 12-week Foundation focuses on concepts of locomotion and of neurosensory and behavioural responses to the environment through knowledge- and skill-development that centers on the musculoskeletal system, the neurological system, and psychiatric (brain & behaviour) medicine.

INTEGRATION FOUNDATION:

This 12-week Foundation focuses on review of key concepts from the four Medical Foundations in the context of

- i. complex, multi-system diseases;
- ii. chronic illness; and,
- iii. concepts centering on immunology, host defense, and neoplasia.

The Integration Foundation allows students to consolidate medical concepts and skills, clinical skills, and professional competencies, offering an opportunity to enhance clinical transfer and support students' transition to and readiness for Clerkship.

PROFESSIONAL COMPETENCIES

The Professional Competencies curriculum is longitudinal. There are seven learning domains of this component of the curriculum: effective communication; health equity and determinants of health; interprofessional education; medical decision-making; moral reasoning and ethical judgment; professionalism and self-awareness; and social, cultural, and humanistic dimensions of health.

During the Pre-Clerkship, students are assigned to a small group of 8-11 students at the beginning of MF1 and they remain with this group until the end of MF5. Each group is co-facilitated by a physician and an allied health professional who bring a complementary skill and model inter-professional relationships.

During the Clerkship, the curricular content relating to the Professional Competencies domains becomes integrated into the core teaching in each clerkship rotation and is developed by the clerkships in their own formats.

THE CLERKSHIP

Clerkship is the prime opportunity for students to participate in the direct care of patients while continuing to learn about the management of health and illness. The Clerkship curriculum is firmly linked to the Pre-clerkship concept-based curriculum and includes continuation of the Professional Competencies curriculum. The student moves from "virtual" tutorial cases to experiencing the care of real patients and populations. Students integrate good habits of learning and assessment into

the hospital and clinic environment. The core Clerkship program consists of rotations in Internal Medicine, Medical Subspecialties, Orthopedic Surgery, Surgery, Family Medicine, Anesthesia, Psychiatry, Pediatrics, Obstetrics and Gynecology, and Emergency Medicine. Clerkship Electives allow students to hone their skills in a variety of clinical areas as well as the opportunity for dedicated research time. The Clerkship rotations take place in hospitals and clinics in the Hamilton, Niagara, Brant, Haldimand-Norfolk, Waterloo, and Halton regions. In the winter of their third year of medical school, students have a three-week break aligning with the national residency interview period.

ELECTIVES

Elective studies form an integral part of the Curriculum Plan. They may be considered the epitome of self-directed learning, since students must define goals for electives which are appropriate for their own learning objectives. These objectives represent specific areas of educational need or interest. The responsibility for planning electives rests with each student in collaboration with the student advisor. The two types of electives in the Undergraduate Medical Program are:

1. **Block Electives:** These are blocks of curriculum time dedicated to full-time elective activities. Their satisfactory completion is a mandatory component of the Undergraduate Medical Program. Block Electives occur after Medical Foundation 4 and during the Clerkship, for a total of 24 weeks. Students must organize clinical electives in the MD Program to experience a minimum of three different disciplines, each with a minimum duration of two weeks, to achieve diversification.
2. **Horizontal Electives:** These are undertaken concurrently with other parts of the curriculum. Horizontal electives are entirely optional, not being required for completion of the program, but are used to explore or review a specific area of knowledge or practice in more detail. Horizontal electives must be a minimum of two half days or one full day.

It is particularly important that the student's advisor be involved in all decisions concerning the selection and carrying out of horizontal electives.

CONCEPT INTEGRATION AND REVIEW (CIR)

Concept Integration and Review (CIR) is the final 6-week block of the program, after Clerkship and before graduation. The aims of the block are to help students review and synthesize important concepts that are essential for transition to residency and to help prepare students for the MCCQE Part 1 exam through concept review and exposure to sample questions. Dedicated self-study time throughout the 6-week block is provided and students are expected to review area content prior to attending scheduled sessions. Large group sessions focus on highlighting key concepts and exam writing skills are provided by content experts.

ENRICHMENT PROGRAM

The purpose of the Enrichment Program is to stimulate an interest in research and scholarly activity among medical students and to attract some to careers in academic medicine and medical research. There are arrangements in place for a small number of students from each class to devote longer periods of time to the pursuit of special academic experiences. These experiences will not normally begin until the pre-clerkship is completed. Applications will not be considered for the post-clerkship period.

MD/PH.D. PROGRAM

The McMaster MD/PhD Program has been training future clinician-scientists since 2007. The rapid pace of healthcare-related research and discovery requires exceptional people who are trained to bridge the gap between basic sciences and clinical application. The McMaster MD/PhD program combines the strength of a unique, patient-oriented medical education with a strong, internationally renowned healthcare research environment.

At present time, students enrolled in the MD/PhD program may carry out the PhD component of their studies in one of the following graduate programs affiliated with the Faculty of Health Sciences at McMaster University: Medical Sciences, Biochemistry, Health Research Methodology, Neurosciences, Biomedical Engineering, Chemical Biology and Health Policy.

Minimum criteria for admission is a 4-year Honours BSc or BHSc with a Grade Point Average (GPA) of 3.8 or greater on a 4 point scale in the final two years of Bachelor's degree study (with an overall 4-year GPA of at least 3.00/4.00), and a score of 127 or higher on the Critical Analysis and Reasoning (CARS) section of the MCAT 2015 or a Verbal Reasoning (VR) score of 10 or greater on the pre-2015 MCAT. The MCAT must be written within five years of the application year. Please note that McMaster will use the most recent MCAT score for those who write the MCAT more than once.

As some PhD programs may have additional requirements specific to their program, applicants should review the relevant sections of the McMaster School of Graduate Studies Calendar.

Eligible students will have a proven record of research involvement at the undergraduate or graduate level. Existing in-program Master's students or students in their first year of PhD training in an eligible Health Sciences Affiliated Graduate program at McMaster University are also welcome to apply to the MD/PhD Program with the written consent of his or her research supervisor. Students from other Universities may apply if they will finish their degree requirement before enrolling in the McMaster MD/PhD program. Existing McMaster MD students with a strong research background are also welcome to apply in their first year of medical school.

To apply to the MD/PhD Program, applicants must submit a separate application in addition to the OMSAS application. To gain admission, applicants must be accepted to both the MD Program at the Michael G. DeGroot School of Medicine and one of the PhD programs listed above. Application to the MD component is through OMSAS and must be submitted by the deadline they set. The PhD component of the application is due on November 1st of the application year. Further information and the PhD application can be found at: <http://fhs.mcmaster.ca/mdphd/>

REGULATIONS FOR LICENCE TO PRACTISE

A degree in medicine does not in itself confer the right to practise medicine in any part of Canada. To acquire this right, university graduates in medicine must hold a certificate of the College of Physicians and Surgeons of the province in which they elect to engage in practice. Students in Ontario medical schools will be required to register with the College of Physicians and Surgeons of Ontario (CPSO). Students intending to practise outside Ontario are urged to consult the licensing body of that province regarding registration.

Licensing requirements vary somewhat among the provinces. The current Ontario requirements for issuance of a Certificate of Registration Authorizing Independent Practice are:

1. Certification by the Royal College of Physicians and Surgeons of Canada or the College of Family Physicians of Canada;
2. Parts I and II of the Medical Council of Canada Qualifying Examination;
3. Canadian Citizenship or Landed Immigrant Status.
4. In general, students are expected to obtain a certificate from either the College of Family Physicians of Canada or from the Royal College of Physicians and Surgeons of Canada in order to be licensed in the province of Ontario.

CANADIAN RESIDENT MATCHING SERVICE (CARMS)

The Matching Service is a clearing-house designed to help final year medical students obtain the post-MD program of their choice, and to help program directors obtain the students of their choice. It provides an orderly method for students to decide where to train and for program directors to decide which applicants they wish to enroll. For both students and directors, it removes the factors that generate unfair pressures and premature decisions. In the winter of their third year of medical school, students have a three-week break aligning with the national residency interview period.

BASIC LIFE SUPPORT TRAINING

All students are required to provide evidence of a current Basic Life Support (BLS) for Health Care Providers (C) certificate (i.e. Red Cross CPR/AED Level HCP; St. John Ambulance Level C HCP; Heart and Stroke BLS for Healthcare Provider C) prior to registration in the medical program. Information is sent to successful

applicants prior to registration. The cost of this course is the responsibility of the student. Courses are readily available in most communities.

IMMUNIZATION

The Ontario Public Hospitals Act requires that all persons working in a hospital setting meet certain criteria regarding surveillance for infectious diseases. In order for the requirement of the legislation to be met, students are required to complete the immunization screening process prior to registration in the medical program and annual recertification before starting each academic year. Failure to do so will result in suspension of clinical work. Information will be sent to successful applicants prior to registration.

POLICE RECORDS CHECK

Through the course of their medical school program, all medical students will serve vulnerable populations. In an effort to protect these vulnerable people against potential risk of harm, the Ontario Faculties of Medicine and many clinical agencies require that all medical students provide confirmation of the absence of a criminal conviction or outstanding criminal charges. **An offer of admission is contingent upon provision of a Police Records Check, at the applicant's expense, by early August of the year of admission and at the beginning of each academic year they are registered in.**

The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:

- All records of Criminal Code (Canada) convictions
- All pardoned sexual offences
- All records of convictions under the Controlled Drugs and Substances Act
- All records of convictions under the Narcotic Control Act
- All records of convictions under the Food and Drug Act
- Any undertakings to enter into a Surety to Keep the Peace
- Any Restraining Orders issued under the Criminal Code (Canada) or the Family Act
- All outstanding warrants and charges

The Michael G. DeGroot School of Medicine will review the files of any applicants who have presented a Not Clear Police Records Check to determine what action, if any, will be taken.

ADMISSION POLICY FOR THE MEDICAL PROGRAM

The official admission policy and deadlines for the Undergraduate Medical Program shall be as published in the Ontario Medical School Information Booklet. This booklet is available through:

Ontario Medical School Application Service (OMSAS)

170 Research Lane

Guelph, Ontario, N1G 5E2

(519) 823-1063

<http://www.ouac.on.ca/omsas>

omsas@ouac.on.ca

Please note that the admission policy is reviewed annually, and the admission requirements from the previous year may not apply. Because of the nature of the selection procedures, deadlines are strictly enforced. All relevant documentation must be provided by the specified deadlines. Applicants must follow the instructions precisely. All applicants should be aware that the Admissions Office is committed to the protection of personal information. Use of personal information is strictly limited to the appropriate handling of applications, record-keeping for those admitted to the program, and research intended to further the efficacy of Medical Education Program procedures. **The University reserves the right to change the admission requirements at any time without notice.**

ADMISSION AND REGISTRATION

Registration in the Undergraduate Medical Program implies acceptance by the student of the objectives of the program, and the methods which evaluate progress toward the achievement of those objectives. The following describes the regula-

tions governing admission and registration in the Undergraduate Medical Program. The final application deadline is October 1st. **The deadline is strictly enforced.**

ADMISSION POLICY AND PROCEDURE

The intention of the McMaster Undergraduate Medical Program is to prepare students to become physicians who have the capacity and flexibility to select any area in the broad field of medicine. The applicant is selected with this goal in mind. Faculty, medical students and members of the community are involved in the admissions process.

Application to the medical program implies acceptance by the applicant of the admission policies and procedures, and the methods by which candidates are chosen for the program. Applicants who will not be ready or able to begin studies as expected may withdraw their applications without prejudice. Application fees cannot be refunded.

Several hundred applicants will be invited for interviews in Hamilton in March or April. From this group a class of 203 is selected.

All applicants are notified in writing, by McMaster University, of the results of their application. These letters will be sent electronically to applicants on the second Tuesday in May.

FALSIFICATION OF ADMISSION INFORMATION

Applicants should understand that where it is discovered that any application information is false or misleading, or has been concealed or withheld, the application will be deemed to be invalid. This will result in its immediate rejection. If the applicant has already been admitted and registered as a student, withdrawal from the University may be required. The MD Admissions Committee will normally not allow the applicant to reapply to the Medical Program for seven (7) years.

ESSENTIAL SKILLS AND ABILITIES REQUIRED FOR ENTRY TO A MEDICAL DEGREE PROGRAM

The Ontario Faculties of Medicine are responsible to society to provide a program of study that graduates Doctors of Medicine with the knowledge, skills, professional behaviours and attitudes necessary for postgraduate medical training and independent medical practice in Canada. Graduates must be able to diagnose and manage health problems and provide comprehensive, compassionate care to their patients. For this reason, students in the MD program must possess the cognitive, communication, sensory, motor, and social skills necessary to interview, examine, and counsel patients, and competently complete certain technical procedures in a reasonable time while ensuring patient safety.

In addition to obtaining an MD degree, and completing an accredited residency training program, an individual must pass the licensure examinations of the Medical Council of Canada (MCC) in order to practice medicine in Canada. Therefore, MD programs have embedded expectations of both knowledge- and skills-based competencies. Prospective candidates should be aware that, cognitive abilities, physical examination proficiencies, management skills, communication ability, and professional behaviours are all evaluated in timed simulations of patient encounters. All students must therefore have the required skills and abilities described in the Section on Technical Standards. These are standards that are necessary for success in the MD Program, and to be sufficiently competent to participate in supervised residency training. All individuals are expected to review this document to assess their ability to meet these standards. The document can be found at <https://mdprogram.mcmaster.ca/md-program-admissions/who-should-apply>.

ACADEMIC ELIGIBILITY REQUIREMENTS

Applicants must report on the Post-Secondary Education Form of the OMSAS application all grades received in the degree credit courses in which they have ever registered. Failure to report courses, programs or grades on the Post-Secondary Education Form will result in the disqualification of the application. All grades are converted by the applicant on the Post-Secondary Education Form to a 4.0 scale according to the OMSAS Undergraduate Grading System Conversion Table. (The Conversion Table is provided with the OMSAS Application.)

All applicants must fulfill the requirements described below:

- a. By May of the year of entry, applicants must have completed a minimum of three years of undergraduate work. To satisfy the minimum requirements,

academic credentials obtained from a Canadian University must be from an institution with academic standards and performance consistent with those of member institutions of the Council of Ontario Universities (COU). The applicant must be able to demonstrate a high level of academic achievement consistently throughout their undergraduate career.

- b. A minimum of 15 full-courses, or 30 half-courses (three years) of Undergraduate university work from a recognized university is required. There is no requirement that applicants carry a full course load. Marks from supplementary and summer courses will be included in the grade point average calculation. If requested, applicants must provide evidence that this requirement has been met by May 30th of the year of entry. Courses graded only by the assignment of Pass or Credit are counted for credit, but will not be included in the GPA calculation. In this case, a minimum of five half-year or five full year courses with letter or numerical grades is required.
- c. An applicant who has completed a diploma at a CEGEP must have completed by May of the year of entry, at least two additional full academic years of degree credit work at an accredited university.
- d. Applicants who have completed the requirements for a baccalaureate degree in less than three years by the October 1st deadline, are also eligible.
- e. By October 1st, applicants must have achieved an overall simple average of at least a 3.0 on the OMSAS 4.0 scale. While an overall simple average of at least 3.0 on the OMSAS 4.0 scale meets the minimal criterion for consideration for admission, prospective applicants should be aware that given the rapidly rising level of competition for a limited number of positions, a significantly higher GPA would provide them with a more reasonable chance of admission. Due to changes from year to year in the level of competitiveness, an exact figure in this regard cannot be provided.
- f. Medical College Admissions Test (MCAT) - The MCAT is required for application and must be written within five years of the application year. The score from the Verbal Reasoning section for those who write the MCAT prior to February 2015 or the Critical Analysis and Reasoning section for those who write the MCAT after February 2015 will be used in both formulae (offer of interview and offer of admission). A minimum score of 6 on the Verbal Reasoning component or a minimum score of 123 on the Critical Analysis and Reasoning component is required. All other MCAT component scores **will not be considered** in the selection process. For those applicants who write the MCAT more than once, the score from the most recent MCAT will be used.
- g. Computer-based Assessment for Sampling Personal characteristics (CASPer): All applicants to the Michael G. DeGroote School of Medicine, McMaster University will be required to complete a 90 minute computer-based test, called CASPer, as part of the selection process. CASPer is a web-based assessment of interpersonal skills and decision-making, to be completed at a computer. Applicants must register for CASPer, which is offered in the Fall of each application year, at www.takecasper.com.

No other aspects of the application will be considered if these requirements are not met.

INDIGENOUS APPLICANTS

In accordance with the Self-Identification policy of the Faculty of Health Sciences, Indigenous (First Nations, Inuit and Métis) applicants who wish to apply to a program that has a facilitated Indigenous admissions stream must complete the supplementary Self-identification Application. Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>.

One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant applied to multiple programs. Applicants identify the program(s) they applied to on the Self-identification Application. The

applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they applied to in addition to completing any other application required for that program(s). If you applied to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by whatever the earliest deadline date is for the programs for which you have applied to.

Indigenous applicants are required to complete the Undergraduate MD Program application package as provided by the Ontario Medical School Application Service (OMSAS).

Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates and have three or more years of undergraduate degree-level courses by May of the year of entry with an overall GPA of at least 3.0 as calculated on the OMSAS 4.0 scale and a minimum score of 6 on the Verbal Reasoning or a minimum score of 123 on the Critical Analysis and Reasoning component of the MCAT written within five years of the application year (*see notation below) and CASPer.

* In order to reduce barriers for Indigenous applicants, provision of MCAT verbal reasoning or critical analysis and reasoning score may be deferred beyond October 1st. Those Indigenous applicants wishing to delay taking the MCAT until after invitations to interview are sent out are free to do so, but should be aware that they **MUST** forward a minimum MCAT verbal reasoning score of 6 or a minimum critical analysis and reasoning score of 123 to the Admissions Office by the offer date (the second Tuesday in May), in order to maintain eligibility. Indigenous applicants wishing to explore this option should book their MCAT in the Fall to be certain of a spot. A cancellation fee would be applied by MCAT if the applicant is not successful in obtaining an interview and subsequently cancels their MCAT test.

GEOGRAPHICAL CONSIDERATION

The geographical status of the applicant is determined from the Autobiographic Sketch. Applicants may be asked to provide evidence of geographical status. In selecting applicants for interview, the bona fide place of residence will be based upon: 1) the province of Ontario; or 2) the rest of Canada and other countries. To qualify for Ontario status, an applicant must be a Canadian citizen or permanent resident of Canada by October 1st, and have resided for at least three years in the province of Ontario since the age of 14 by the date of possible entry into the program.

TRANSCRIPT REQUIREMENTS AND TRANSCRIPT REQUEST FORMS (TRF)

All transcripts from Ontario universities must be ordered by OMSAS via the Transcript Request Form (TRF). It is required that applicants will request all other transcript materials prior to September 15th, to allow adequate time for processing requests and for receipt at OMSAS by the prescribed deadline. If an applicant is registered at a post-secondary institution at the time of the application deadline and that registration is not reported on the transcript, the applicant must arrange to have the Registrar of the institution send a **Statement of Registration** to OMSAS by October 1st. This statement must indicate the in-progress course name(s) and number(s). Evidence to show that applicants requested transcripts and Registrar statements in a timely fashion may be requested by McMaster University. Applicants should retain all receipts and correspondence related to their transcript request.

It is **entirely the applicant's responsibility** to ensure that all of the above are received at OMSAS by October 1st. **Failure by the applicant to meet these requirements will result in the disqualification of the application.**

All transcripts must be submitted directly to OMSAS by the post-secondary institutions attended. McMaster requires that applicants provide transcripts of all courses/programs attended at any post-secondary institution. This includes community colleges, CEGEPs, junior colleges, pre-university programs, etc.

Failure by the applicant to comply with the instructions or to meet the deadlines will result in disqualification of the application.

GRADUATE STUDENTS

Those applicants with a completed and conferred Master's or Ph.D. at the time of application will receive a small amount of extra weighting in the formula used to

determine the likelihood of invitation to an interview. Individual grades for course work taken as part of a graduate degree will not be included in the calculation of the grade point average.

Graduate students enrolled in a graduate program at the time of application must arrange for their Supervisor, a member of their Supervisory Committee, or the Chair of the Department to provide a letter indicating they are aware the applicant is intending to apply to medical school. Applicants should arrange for this letter to be received at OMSAS by October 1st. If the applicant's graduate degree supervisor is acting as one of their references, a second letter is not required.

CREDENTIALING OF NON-CANADIAN GRADES

Applicants, Canadian or non-Canadian, who have not met the minimum course number criterion utilizing their Canadian data and require inclusion of their international education data to meet the minimum course number criterion are required to have their foreign transcript assessed by World Education Services (WES). Credentialing assessment means converting foreign academic credentials into their Ontario educational equivalents. A course-by-course evaluation along with the calculation of an overall GPA is required. Applicants must have their transcripts sent directly from their university to WES and OMSAS and be able to prove (with dated letter and dated post office receipt) that an attempt was made to have the transcript issued by their university and sent to OMSAS by October 1st. Those requiring WES assessment must also ensure that transcripts are received by WES in time for their assessment to reach OMSAS by October 1st. A WES Assessment is not required for foreign exchanges.

ENGLISH LANGUAGE PROFICIENCY

Applicants whose first language is not English must satisfy by October 1st, at least one of the following conditions:

1. Provide evidence of a combined score on the TOEFL iBT test with an overall score of at least 86 with minimum scores of 20 in each of the four components, or the equivalent on other recognized tests has been achieved (McMaster University code for TOEFL test score submissions is #0936); or
2. Have attended an educational institution, where instruction was in English, for at least three years; or
3. Have resided for at least four years in an English-speaking country.

INTERVIEWS

Several hundred applicants will be invited to Hamilton for an interview. Because the interviews involve many other people, applicants must attend on the date and time specified. Attendance at an in-person interview is mandatory in order to be considered for admission. Applicants are responsible for their own travel expenses. The interview process entitled the Multiple Mini Interview (MMI), is primarily composed of a series of ten-minute encounters over a two-hour period. Due to the nature of the MMI, videoconference or telephone interviews are not possible.

SELECTION

All the information resulting from the process described above, as well as the Confidential Assessments from referees, may be reviewed and used in the final selection. Applicants will be notified in writing by McMaster University of the results of their application. These letters are sent electronically to applicants on the second Tuesday in May. Anyone accepting an offer of admission must provide, within two weeks of acceptance, a deposit in the amount of \$1,000 (Canadian), non-refundable, which will subsequently be applied towards tuition. The MD Program begins in late August with a mandatory Orientation Week. Students accepting their offer of admission must be available to begin the program at the start of Orientation Week and must attend all day-time program-related sessions.

APPLICATION FOR DEFERRED REGISTRATION

Deferred registration may be granted **only** under **exceptional** circumstances. The request for deferral must normally be submitted within two weeks of the offer of admission and will be considered by the UGME Deferral Board. Deferral for parental/family, illness or other personal/compassionate reasons may be considered if received after this deadline where circumstances did not allow the applicant to meet the deadline.

INTERNATIONAL APPLICANTS

Interested International applicants may apply through the regular process. International (Visa) students should be aware that admission to the Undergraduate MD Program does not confer eligibility to apply subsequently through the Canadian Residency Matching Service (CaRMS) for a residency training position in Canada. Applicants should check the CaRMS web site (<http://www.carms.ca/>) for further information.

ADVANCED STANDING/TRANSFER

The structure of the McMaster Program requires that all students begin in Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

UNSUCCESSFUL APPLICANTS

Application files, including transcripts, from one year are not held over to another year. If an unsuccessful applicant wishes to reapply, a new application package, including supporting documentation must be submitted, using the OMSAS Application and the OMSAS Information Booklet, for the new admission selection cycle.

RETENTION OF DOCUMENTS

All documentation submitted in support of an application for admission becomes the property of the University and is not returnable. If an applicant is not accepted, or fails to enroll following acceptance, the identifiable documentation will be destroyed at the end of the admissions cycle in keeping with university policy.

FINANCIAL INFORMATION

Financial difficulties are among the most frequent problems experienced by students in undergraduate medical schools. At McMaster, these are intensified by the lack of opportunity for summer employment.

In this situation, it is incumbent on students admitted to the MD Program to clarify immediately their personal financial situation and to secure or identify sufficient support to meet their financial obligations over the subsequent three years. The Undergraduate MD Program cannot assume this responsibility.

In 2018-2019, the academic fees (tuition and student supplementary fees) for a student in the McMaster Undergraduate Medical Program were:

CANADIAN CITIZENS AND LANDED IMMIGRANTS

Year I	\$28,893.73
Year II	\$28,893.73
Year III	\$28,893.73

INTERNATIONAL (VISA) STUDENTS

Each Year	\$95,971.55
-----------	-------------

In addition, the cost of books and diagnostic equipment for a Year I student was approximately \$3,000. It is strongly recommended that students purchase the full complement of medical equipment necessary for clinical skills. Equipment lists and special prices will be offered to medical students within the first few months of medical school. Students are also responsible for their transportation costs related to their training.

Financial assistance is available to Ontario residents from the federal and provincial governments through the Ontario Student Assistance Program (OSAP). To be eligible a student must be a Canadian Citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario. Students who are legal residents of other provinces need to check with their respective provincial financial aid programs about eligibility for support prior to acceptance. In addition, the following sources of funding are available to undergraduate medical students:

BURSARIES

There is a bursary program which has been developed by the Faculty of Health Sciences and the central University campus. Bursaries are awarded to students who are Canadian citizens and demonstrate financial need. All bursaries are dis-

tributed during the late fall of each year. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of medical education.

ELECTIVE TRAVEL AWARDS

The Undergraduate Medical Program has in the past indicated its preparedness to recognize students who distinguish themselves and the University by virtue of their scholarship and their contribution to the university community. At the same time, the School has indicated that the terms of reference for such awards should neither compromise the spirit of cooperative scholarship which characterizes its MD Program nor replace its priority of concern for financial assistance awards. A growing number of estates and agencies have donated funds to the University and the Undergraduate Medical Program for purposes of recognizing scholastic merit among medical students. In order to meet the requirements of these awards within the spirit of cooperative scholarship, these funds are available to support individual students in their pursuit of specific elective projects or activities. Both bursaries and elective travel awards can be accessed through MOSAIC during the annual UGME Bursary Program in September/October.

NOTE

The School of Nursing has a large number of part-time faculty appointed from community health-care agencies. A complete list is available from the office of the Vice-Dean (Health Sciences) and Executive Director, School of Nursing.

The B.Sc.N. Program

In 1942, McMaster University began its first program in Nursing, a cooperative effort between the University and the Hamilton General Hospital. Since the establishment of McMaster University's School of Nursing in 1946, students have received a Bachelor of Science in Nursing (B.Sc.N.) degree upon graduation. The program has functioned completely under the supervision of the University, while enjoying the full cooperation of community hospitals and agencies in the operation of its professional practice courses. In July 1974, the Schools of Nursing and Medicine became the Faculty of Health Sciences.

The B.Sc.N. Program promotes the development of nursing as a caring, client-centered, scientific and humanistic profession. With an emphasis on person-based learning within a problem-based approach, and group and self-directed learning, the program provides a general baccalaureate education in nursing for the preparation of professional nurses who will practise in a variety of health-care settings. Central to our mission is the preparation of nurses who will work to advance the health and well-being of individuals, families, communities and society. In fulfilling its mission, the B.Sc.N. Program promotes skills in its graduates to prepare them for life-long, self-directed learning, critical thinking, evidence informed decision making, advocacy and collective action.

Provincial legislation on entry to practice requires all new graduating nurses to have a baccalaureate degree in nursing. In response, McMaster University, Mohawk College and Conestoga College have formed an educational consortium to offer the McMaster Nursing degree through the McMaster Mohawk Conestoga B.Sc.N. Program. Currently the Basic (A) and Accelerated (F) Streams are offered at the McMaster site. Students wishing to register in the B.Sc.N. Program at McMaster should pay particular attention to the information which immediately follows this introduction. The Basic (A) and Post

Diploma R.P.N. (E) Streams are offered at the Mohawk and Conestoga sites. Students who wish to register in the B.Sc.N. Program at either Mohawk or Conestoga College should refer to the Collaborative

B.Sc.N. (A) and (E) Stream references throughout the School of Nursing section of the Calendar. Students are also advised to contact the Office of the Registrar at either Mohawk or Conestoga College for additional information. **Please note that any information that is site specific is noted in the appropriate section of the Calendar; otherwise, information can be assumed to apply to students at**

all sites and in all streams of the B.Sc.N. Program. In 2014 the B.Sc.N. Program and the Schools of Nursing at McMaster, Mohawk and Conestoga all received seven-year accreditation from the Canadian Association of Schools of Nursing, the highest level of accreditation possible.

In 2009, the B.Sc.N. Curriculum was renewed and is now called the Kaleidoscope Curriculum. All streams share a common curriculum in their final year of the program. Students will be expected to meet the program goals that were in place the year in which they entered. All students from all years have seen a change in emphasis in small group, tutorial classes with a renewed focus on the McMaster model of nursing and nursing education which has been in place since 1989. Consistent with the philosophy, the person is re-emphasized as the central focus for learning, and person-based learning within a problem-based approach has been adopted. In addition, students are exposed to different ways of knowing including empirical, ethical, personal, aesthetic and emancipatory.

Three types of courses are taken within the curriculum: (1) required nursing (NURSING) courses (professional practice and classroom); (2) required health sciences (HTHSCI) courses (e.g. anatomy, physiology, biochemistry); and (3) elective courses (non-professional, liberal arts or sciences). Additionally, the Basic (A) Stream includes required non-health science courses (e.g. psychology). As students move through the program the focus of learning progresses in the following ways. In Levels I and II students are provided with a strong basis in the health and social sciences and are able to choose a variety of electives. They learn about themselves and their clients as individuals. The focus is on health, health assessment and the promotion of health. In Levels II and III students begin to consider the family and the community as client. Students begin to deal with more acute and complex situations. In Levels III and IV, there is a strong focus on nursing and the integration and appraisal of knowledge based on the different ways of knowing into client care in both the classroom and professional practice setting. Students also begin to consider health care from the national and global perspective. Students initially learn about the roles of nursing in health care and, through inter-professional education opportunities, they gain greater understanding of the interprofessional health care team.

Themes are a logical grouping of prominent or frequently recurring concepts that provide direction to sequence and unify concepts throughout the curriculum. The themes that guide the renewed curriculum include:

1. **Personhood and Caring:** This theme focuses on the humanistic aspect of nursing beginning with a focus on the nurse and client as person and the professional, therapeutic relationship between nurse and client.
2. **Context, Health and Healing:** This theme focuses on the internal and external influences on health and the nurse's ability to provide safe and competent care as part of the health care team within a health care system and broader community.
3. **Learning and Knowing:** This theme focuses on critical inquiry, discovery and appropriate use of technology within nursing to facilitate life long learning and reflective practice.

Evaluation by self, peers and faculty is part of an on-going assessment process of the achievement of clinical, course, and program outcomes.

GOALS FOR STUDENTS

Graduates of the B.Sc.N. Program will be prepared to engage in competent professional practice in a variety of health care contexts and with diverse clients across the lifespan (individual, family, group, communities, populations) who have stable and unstable outcomes and multi-factorial influences (internal and external) on their health status. Graduates will:

1. Provide competent care with a holistic awareness of the impact of the internal and external context on health and healing.
2. Integrate an understanding of the client's unique perspective on his/her health, and how this perspective influences participation in one's health care
3. Identify the need for appropriate change in health care, create a climate for adopting change and contribute to effecting and evaluating change.

4. Build relationships in a team environment and be actively engaged in team decision making around client care.
5. Contribute to the body of nursing knowledge through demonstrating an inquiring approach to practice.
6. Provide technologically appropriate care in a variety of contexts.
7. Contribute to the future of the nursing profession through a commitment to lifelong learning and professional growth and integrate critical inquiry into professional practice.
8. Assume leadership roles in partnership with clients and the health care team.
9. Assume advocacy roles in partnership with clients and the health care team and challenge inequities that impact on the health of clients.
10. Practice within the professional standards, guidelines, legislation and values of the nursing profession.
11. Establish therapeutic partnerships with clients to enhance health and healing and communicate effectively in a variety of media.

REGISTRATION TO PRACTISE NURSING IN ONTARIO

On receiving the B.Sc.N. degree after successful completion of the program, graduates are eligible to write the National Council Licensure Exam (NCLEX) which is administered by the College of Nurses of Ontario (CNO) which is one requirement of registration to practice nursing in Ontario. To facilitate this process, the School of Nursing provides information to the CNO confirming each student's expected program completion term and verification of program completion. Students will be contacted in their final year of the program to consent to the release of this information to the CNO. If you have any questions related to the Regulated Health Professions Act, please contact the College of Nurses of Ontario directly.

Admission Policy, Procedure, and Requirements

ADMISSION POLICY

Enrolment in all B.Sc.N. programs is limited. Possession of the minimum admission requirements does not guarantee an offer of admission.

Application to the B.Sc.N. Program in the Faculty of Health Sciences implies acceptance of admission policies, procedures and the methods by which applicants are chosen for the program. The selection method for all applicants is by academic qualifications and assessment of personal and professional characteristics.

There are three streams of study leading to the completion of the B.Sc.N. degree.

- **Basic (A) Stream** requires four years of full-time study, and is available to those applying directly from an Ontario secondary school with Grade 12 U or M courses; to those who have qualifications equivalent to Grade 12 U or M courses; and to applicants with other qualifications who meet the admission requirements. **Note:** Any differences in the application process or course of studies are noted in the appropriate section below.
- **Post Diploma R.P.N. (E) Stream** is available to diploma prepared Registered Practical Nurses only. Graduates of an approved Diploma Practical Nurse Program who are admitted are granted 30 units of advanced credit. This program requires three years of full-time study. **Note:** The Post Diploma R.P.N. (E) Stream is offered only at Mohawk and Conestoga Colleges.
- **Accelerated (F) Stream** is open to applicants who have completed another university degree or have completed a minimum of 54 units (2 years) of university degree credits. Applicants with a nursing background will not be considered for this Stream. This program is available on a full-time basis and requires five consecutive terms of study. **Note:** The Accelerated (F) Stream is offered only at McMaster University.

The requirements and application deadlines vary depending on the applicant's background. An applicant supplying documentation or evidence which, at the time or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the program having submitted false documentation will be withdrawn.

The School of Nursing is committed to equality of opportunity. Disability is not grounds for exclusion from the School. Every attempt will be made to remove barriers and create accommodation provided any accommodation maintains the same academic and professional practice standards for all students and does not require significant program change. Applicants should consult Student Accessibility Services at (905) 525-9140, ext. 28652 or TTY (905) 528-4307.

The College of Nurses of Ontario (CNO) has released a statement about Requisite Skills and Abilities for Nursing Practice in Ontario. This statement can be found at <https://www.cno.org/globalassets/docs/reg/41078-skillabilities-4pager-final.pdf>. The CNO states that "Individuals considering a career as a nurse in Ontario should review this document and assess their ability to meet the criteria. The requisite skills and abilities serve as a benchmark, outlining the requirements to meet the minimum standard necessary to ensure public safety." (CNO, pg 3)

Admission Procedure

MCMASTER SITE B.SC.N. PROGRAM BASIC (A) AND ACCELERATED (F) STREAMS

Applicants From Ontario Secondary Schools to the Basic (A) Stream

Applicants currently completing Grade 12 U or M courses apply through the Ontario Universities' Application Centre (OUAC). <http://www.ouac.on.ca/> Application forms are available in secondary school guidance offices or on-line at <http://www.ouac.on.ca/101>. Applications for all studies beginning in September must be received by OUAC no later than **January 15**. Note that this is a limited enrolment program. Applicants With Qualifications Equivalent to Ontario Secondary School to the Basic (A) Stream

Applicants apply online to the Ontario Universities' Application Centre (OUAC) at <http://www.ouac.on.ca/>. Applicants must also have official transcripts forwarded from their secondary school to the Office of the Registrar by **January 15** (recommended).

Applicants With Other Qualifications to (A) Stream and Accelerated (F) Streams Applicants apply online to the Ontario Universities' Application Centre (OUAC) at <http://www.ouac.on.ca/mcmaster.ca/nursing> by February 1. Applications for all studies beginning in September must be received by **February 1**.

- **Ontario Universities' Application Centre (OUAC)**
170 Research Lane
Guelph, ON, N1G 5E2
<http://www.ouac.on.ca/>
- **Admissions Coordinator (Nursing)**
McMaster University, HSC-2J34L
1280 Main Street West
Hamilton, ON, L8S 4L8

Any applicant to the Accelerated (F) Stream who is a current or returning McMaster student should contact the Admissions Coordinator (Nursing) for specific directions. Facilitated Indigenous Admissions to Basic (A) Stream and Accelerated (F) Stream

In accordance with the Self-Identification policy of the Faculty of Health Sciences, Indigenous (First Nations, Inuit and Métis) applicants who wish to apply to a program that has a facilitated Indigenous admissions stream must complete the supplementary Self-identification Application. Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>.

One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant applied to multiple programs. Applicants identify the program(s) they applied to on the Self-identification Application. The applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they applied to in addition to completing any other application required for that program(s). If you applied to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by whatever the earliest deadline date is for the programs for which you have applied to.

Mohawk and Conestoga Site B.Sc.N. Program Basic (A) and Post-Diploma (E) Streams

Applicants must apply through the Ontario College Application Services (OCAS). Applicants should also forward all official academic documentation, including all university transcripts if applicable, to the College they wish to attend.

Ontario College Application Services (OCAS)

370 Speedvale Ave. West

P.O. Box 810

Guelph, ON N1H 6M4

Admission Requirements

NON ACADEMIC REQUIREMENTS FOR ALL STREAMS

The B.Sc.N. Program is committed to ensuring that Standards of Practice in Nursing are adhered to by requiring students to maintain their certification in CPR, seek a police records check and comply with surveillance for infectious diseases. Failure to comply with these requirements may result in an offer of admission being withdrawn or the student not being allowed to enroll in/complete required course(s).

Immunization

The Ontario Public Hospitals Act requires all students working in a hospital setting to meet certain criteria related to surveillance for infectious diseases. Detailed medical information, including a record of completion of required immunizations, will be required upon acceptance and annually thereafter. Failure to produce this information will result in a student being precluded from commencing professional practice course(s) or a suspension from professional practice course(s) until such time that they are able to produce the information, which may result in the student having to take the course(s) in a different term. Clarification on specific medical information that is required will be sent to successful applicants prior to commencing their studies.

Police Records Check

During the B.Sc.N. Program, all nursing students will work with vulnerable populations. As a result, in order to protect these vulnerable people from potential harm, the Council of Ontario University Programs in Nursing recommends and many professional practice agencies require that all nursing students provide confirmation of the absence of a criminal conviction or outstanding criminal charges. All students are required to have a satisfactory Police Record Check completed prior to commencing their studies and **annually** thereafter. The Police Records Check must include Vulnerable Sector Screening (VSS). Expenses for the Police Records Check are the responsibility of the student. Students may be required to produce their Police Records Check at some professional practice placements. Registered students who have been convicted of an offense under the Criminal Code (Canada) for which they have not been pardoned may be denied the opportunity to enter professional practice placement.

CPR Certification

Students are required to provide evidence of a valid certificate in cardiopulmonary resuscitation (CPR) at the Basic Cardiac Life Support for Health Care Provider level with training in AED prior to commencing their studies. Please note that for health care providers, certification is valid for one year from the date of the course. As a result, annual re-certification is mandatory. The cost of a course is the responsibility of the student. Courses are readily available in most communities. Certification obtained through an online provider will not be accepted. CPR certification must be completed in Canada.

CASPer™ ASSESSMENT REQUIREMENT FOR ALL STREAMS

All applicants to the B.Sc.N. Program are required to complete a mandatory, online 90-minute computer-based assessment called CASPer™, as a component of the selection process.

B.SC.N. BASIC (A) STREAM - MCMASTER SITE ADMISSION REQUIREMENTS

Applicants Directly From Ontario Secondary Schools

To be considered to this category, applicants must not have attended any post secondary educational program prior to application.

The selection method for Ontario secondary school applicants is by academic qualifications and an assessment of personal characteristics. Early conditional offers of admission are made in mid to late April based on the following:

- six appropriate midterm/interim Grade 12 U or M course grades (see list of required courses below), or
- at least three final Grade 12 U or M course grades plus enrolment in the appropriate three additional Grade 12 U or M courses (see list of required courses below) and,
- CASPer™ assessment.

Offers based on interim grades will be conditional upon maintaining satisfactory performance on final grades.

Required Courses:

The following are the minimum Grade 12 U and M requirements under the Ontario Secondary School curriculum:

- English U;
- Biology U;
- Chemistry U;
- One of Advanced Functions U, Calculus and Vectors U or Mathematics of Data Management U;
- Two additional Grade 12 U or M courses to total six courses.

Applicants with Qualifications Equivalent to Ontario Secondary School

To be considered, applicants from other provinces and countries must achieve the equivalent to the qualifications listed above in their secondary school graduation year.

Applicants with a University Degree or with University Degree Credits

To be considered applicants must:

- achieve a Grade Point Average (GPA) of at least B- in all university degree credit courses taken. Possession of this GPA does not guarantee an offer of admission due to limited number of available spots and high number of applications. A minimum of 12 units with final grades or equivalent are required. (These courses may be taken as a full-time or part-time student. University correspondence degree courses are acceptable.);
- apply online to OUAC at <http://www.ouac.on.ca/> using Form 105D by February 1 (current McMaster students are not required to apply through OUAC and should contact the Admissions Coordinator-Nursing);
- submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1. Applicants who are in the final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript;
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Applicants from a Pre-Health Sciences Program

Applicants who have successfully completed a pre-health sciences program at an Ontario College of Applied Arts and Technology (CAAT) will be considered for admission to Level I of the B.Sc.N. Program Basic (A) Stream. Applicants who are currently registered in a pre-health sciences program may be given a conditional offer of admission based upon interim grades. The offer of admission will be withdrawn if the applicant does not complete the full program or does not meet the required admission Grade Point Average (GPA).

To be considered applicants must:

- complete at least two semesters, including at least one full (two semesters) or two half courses in each of Biology, Chemistry, Mathematics and English. Applications will not be considered from applicants who possess one credit only in the required subjects. Please contact the Admissions Coordinator for the list of approved programs;
- achieve a GPA in the pre-health sciences program that meets the minimum cut-off average of Ontario secondary school applicants to the program of 85%;
- apply online to OUAC at <http://www.ouac.on.ca/> using Form 105D no later than February 1;

- submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1;
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Note: For admission consideration, completion of the full Pre-Health Science Certificate must be done within one year of the anticipated start date to the undergraduate Nursing 1 program. Transfer credit will not be granted for any pre-health sciences courses.

Applicants from Other Degree Nursing Programs

Applicants who are enrolled in a Nursing degree program at a university or in a college/university consortium may apply to transfer to the Mohawk and/or Conestoga sites to earn a McMaster B.Sc.N. degree. All potential applicants should contact the appropriate site to determine if there is space for transfer applicants. For the Mohawk College site, contact the Associate Dean, B.Sc.N. Program; for the Conestoga College site, contact the Chair, Nursing Programs.

B.SC.N. BASIC (A) STREAM - MOHAWK AND CONESTOGA SITES ADMISSION REQUIREMENTS

Admission requirements for students applying to the Mohawk and Conestoga sites of the B.Sc.N. program Basic (A) Stream are equivalent to those for students applying to the B.Sc.N. Program Basic (A) Stream at the McMaster site (See *B.Sc.N. Basic (A) Stream - McMaster Site Admission Requirements*).

Applicants with Qualifications Equivalent to Ontario Secondary School

Applicants from other provinces and countries must achieve the equivalent to the qualifications listed above in their secondary school graduation year.

Applicants with a University Degree or with University Degree Credits

To be considered applicants must:

- achieve a Grade Point Average (GPA) of at least B- (70%) in all university degree credit courses taken. A minimum of 12 units or equivalent are required. (These courses may be taken as a full-time or part-time student. University correspondence degree courses are acceptable.) All university transcripts must be submitted to the College. Failure to do so will result in withdrawal of the offer of admission.
- apply to Ontario College Application Services (OCAS) along with the required fees by February 1. All applications must be **received** by OCAS on or before this date to be given equal consideration by the colleges. Please note that February 1 is **not** a deadline for submitting applications as OCAS will continue to process applications received after this date. You are encouraged, however, to submit your application **as early as possible**, especially in the case of oversubscribed programs where there are often enough qualified applications received by the equal consideration date (February 1) to fill the program.
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Applicants from a Pre-Health Sciences Program

Applicants who have successfully completed a pre-health sciences program at an Ontario College of Applied Arts and Technology (CAAT) will be considered for admission to Level I of the B.Sc.N. Program Basic (A) Stream. Applicants who are currently registered in a pre-health sciences program may be given a conditional offer of admission based upon interim grades. The offer of admission will be withdrawn if the applicant does not complete the full program or does not meet the required admission Grade Point Average (GPA).

To be considered applicants must:

- complete at least two semesters, including at least one full (two semesters) or two half courses in each of Biology, Chemistry, Mathematics and English. Applications will not be considered from applicants who possess one credit only in the required subjects;
- achieve at least a 75% GPA in the pre-health sciences program. Please note: a 75% is required in each of Biology, Chemistry, Mathematics and English. No exemption will be granted in the program for pre-health

sciences courses. Students who have taken these required courses more than once will be considered on an individual basis;

- apply to Ontario College Application Services (OCAS) along with the required fees by February 1. All applications must be **received** by OCAS on or before this date to be given equal consideration by the colleges. Please note that February 1 is not a deadline for submitting applications as OCAS will continue to process applications received after this date. You are encouraged, however, to submit your application **as early as possible**, especially in the case of oversubscribed programs where there are often enough applications from qualified applicants received by the equal consideration date (February 1) to fill the program.
- All applications to the Nursing Program will be required to complete the mandatory online 90-minute computer-based assessment called CASPer™, as a component of the selection process.

Note: For admission consideration, completion of the Pre-Health Science Certificate must be done within one year of the anticipated start date to the undergraduate Basic Nursing 1 program. Transfer credit will not be granted for any pre-health sciences courses.

Applicants from Other Degree Nursing Programs

Applicants who are enrolled in a Nursing degree program at another university or in another college/university consortium may apply to transfer to the Mohawk and/or Conestoga sites to earn a B.Sc.N. degree. Transfer credits/course exemptions will be considered on a case-by-case basis upon acceptance; students must request transfer credit/course exemptions within one year of commencing their studies. All potential applicants should contact the appropriate site to determine if there is space for transfer applicants. For the Mohawk College site, contact the Associate Dean, B. Sc.N. Program; for the Conestoga College site, contact the Chair, Nursing Programs.

Applicants must be currently enrolled in or have completed Level I of a B.Sc.N. Program with an overall GPA of at least B (75%) and at least a B- average in nursing and science courses.

Applications for transfer into the B.Sc.N. Program to commence studies in September must be received by the Ontario Colleges Application Service (OCAS) in Guelph no later than May 15.

Applicants must submit the following to the Registrar's Office at the appropriate College by May 15:

- official transcripts of all university work taken.
- an official letter from the Dean/Director of the program in which the applicant is currently enrolled stating that the applicant is in good standing in that program.
- course descriptions and outlines for all nursing and science courses for assessment of advanced credit.

B.SC.N. POST DIPLOMA R.P.N. (E) STREAM - MOHAWK AND CONESTOGA SITES ADMISSION REQUIREMENTS

To be considered applicants must:

- possess a current CNO annual registration payment card or have written the Practical Nurses Registration Examinations by May 31 of the year of application;
- have a diploma in practical nursing (two year program) from an Ontario College of Applied Arts and Technology or equivalent with a minimum overall average of 75% or higher. Applicants who have satisfactorily completed a diploma practical nurse program but who have not achieved the required Grade Point Average (GPA) may become academically eligible by completing at least twelve units (two full courses or four half courses) of university degree credit in any subject area with a GPA of at least B (75%). This minimum GPA does not guarantee admission;
- apply to the Ontario College Application Services (OCAS) by February 1. All applications must be received by OCAS on or before February 1 to be given equal consideration by the college;

- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Note: Potential applicants who possess a certificate in practical nursing should seek upgrading to diploma practical nurse at a College of Applied Arts and Technology.

INDIGENOUS SECTION OF THE POST DIPLOMA

R.P.N. (E) STREAM - MOHAWK SITE

Mohawk College has targeted 5% of its enrolment to seats in Health Science, Human Services and Applied Arts postsecondary programs to qualified Indigenous students in oversubscribed programs. Barriers such as highly competitive grade-point averages or overall ranking was removed, while still ensuring all participating students met the minimum program admission requirements. By eliminating the competitive barriers with an oversubscribed program, an additional pathway for Indigenous students has been created in postsecondary education. Preference is given to Indigenous students in the Indigenous Section of the Post Diploma RPN (E) Stream, but if not completely filled, qualified non-Indigenous applicants are offered admission to this site to facilitate integration of cultural learning and experiences for both Indigenous and non-Indigenous students. This mixture of Indigenous and non-Indigenous students ensures a full cohort to achieve financial sustainability and supports the partnership's goals of integrating learning opportunities for both groups of students, enriching the learning outcomes for all students and strengthening partnerships with our Indigenous Communities.

Applicants should contact the Associate Dean Nursing, Mohawk College for further information. Applicants should apply to Ontario College Application Services (OCAS) along with the required fees by February 1. All applications must be **received** by OCAS on or before this date to be given equal consideration by the colleges. Please note that February 1 is **not** a deadline for submitting applications as OCAS will continue to process applications received after this date. You are encouraged, however, to submit your application **as early as possible**, especially in the case of oversubscribed programs where there are often enough applications from qualified applicants received by the equal consideration date (February 1) to fill the program.

B.SC.N. ACCELERATED (F) STREAM - MCMASTER

SITE ADMISSION REQUIREMENTS

The Accelerated (F) Stream is available to those students applying from a university science program of studies. Students may complete the program of studies in five academic terms.

Note: Admission to the Accelerated (F) Stream is not open to students currently enrolled/registered in the Basic (A) Stream or any other nursing program. Applicants with two undergraduate degrees will not be considered for the Accelerated (F) Stream. Please see the policy under the *General Academic Regulations* section of the Undergraduate Calendar.

To be considered applicants must:

- achieve a cumulative average of at least B in all university degree credit courses taken. If applicants have not taken university science courses, then they must have obtained a B in Chemistry 12U and Biology 12U in OSS curriculum.
- complete a minimum of 54 units (2 full years) of university credit which include a grade of at least C- (60%) on each of the following required courses:
 - six units of Psychology, 3 of which must be at the introductory level, the other 3 units must be from the approved list
 - six units of Human Physiology or six units of Human Anatomy and Physiology
 - three units of Biochemistry
 - three units of Nutrition
 - three units of Statistics

Note: Six units are equivalent to one full credit or two half credits; three units are equivalent to one half credit.

Note: When choosing Biochemistry courses to meet the requirements, students are advised to select relevant courses that would facilitate success in a **nursing** program.

Students must have completed or be currently registered in the required courses at the time of application. Official transcripts **must** be submitted by February 1 otherwise the application will not be considered. Normally, the required Human Anatomy and Physiology, Biochemistry and Nutrition courses must be completed within the last four years. If you have taken these courses more than four years ago, we encourage you to contact the Admission Coordinator-Nursing at (905) 525-9140 ext. 22232.

- apply online at <http://www.ouac.on.ca/> using Form 105D to OUAC no later than February 1; Current McMaster students are not required to apply through OUAC;
- submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1. Applicants who are in their final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript.
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Note: A \$500 non-refundable tuition deposit will be required to secure your spot in the program.

OFFERS OF ADMISSION

Deadlines for acceptance of an offer are strictly enforced. Failure to meet the conditions and/or submit required documentation by the specified deadline outlined in the admission package will result in cancellation of the offer of admission. Applicants should ensure that they accept their offer of admission as directed well before the specified deadline.

UNSUCCESSFUL APPLICANTS

Applications are not held over from one year to another. An unsuccessful applicant may reapply to the B.Sc.N. Program by submitting a new application, including supporting documentation.

APPLICATION FOR DEFERRED REGISTRATION

Deferred registration is granted only under exceptional circumstances to those candidates who have been admitted and have accepted the offer. Registration may be deferred for one year only. The request for deferral, outlining the reasons for the request, must be postmarked no later than July 31 of the year for which deferral is requested.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

In addition to meeting the General Academic Regulations of the University, students enrolled in the B.Sc.N. Program shall be subject to the following program regulations. Additionally, Mohawk and Conestoga B.Sc.N. students are also subject to the regulations of their respective sites.

Registration in the B.Sc.N. Program implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated. Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

CONTINUATION IN THE B.SC.N. PROGRAM

A student's academic performance is reviewed at the end of each term. In order to continue in the B.Sc.N. Program a student must achieve the following academic requirements:

1. **Minimum Grade Point Average:** A student must achieve a cumulative Grade Point Average (GPA) of at least 5.0 to be eligible to continue in the program.
2. **Passing Grades in Required Health Science and Graded Nursing Courses:** A student must achieve a grade of at least C- in the required Health Science (HTHSCI) and graded Nursing (NURSING) courses. A student is permitted to repeat a total of only two required HTHSCI or graded NURSING course in which they failed to achieve the minimum passing grade requirement; if a student fails to meet the minimum passing grade requirement after repeating a course, the student may not continue in the program. If a student fails to meet the minimum passing grade requirement on more than two HTHSCI and/or graded NURSING course, the student may not continue in the program.
3. **Passing Grades in Professional Practice Nursing Courses:** A student must achieve a Pass (i.e. P/C-/60%) designation in all professional practice Nursing (NURSING) courses (see *Professional Practice Regulations* for a complete list of NURSING courses designated as professional practice courses). A student is permitted to repeat only one professional practice NURSING course in which they failed to achieve a Pass designation; if a student fails to achieve the Pass designation requirement after repeating the course, the student may not continue in the program. If a student fails

to achieve a Pass designation on more than one professional practice NURSING course, the student may not continue in the program.

4. **Course Completion:** For required Nursing (NURSING) and Health Science (HTHSCI) courses, students must enroll in and successfully complete all the course work of one level before proceeding to the course work specified for the next level. For each of the streams (A, E and F), courses must be taken in the sequence specified by the program requirements.

The following courses must be completed before the start of Level III course work of the Basic (A) Stream:

- PSYCH 1X03 (McMaster and Mohawk) or PSYCH 1N03 (Conestoga): Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 (McMaster and Mohawk) or PSYCH 1NN3 (Conestoga): Foundations of Psychology, Neuroscience & Behaviour

The following course must be complete before the start of Level IV course work of the Post Diploma R.P.N. (E) Stream:

- HTHSCI 2S03 - Introduction to Statistics for Nursing

5. **Continuous Enrolment:** Students must enrol in at least one required Nursing (NURSING) or Health Science (HTHSCI) course in each academic year in order to continue in the program, unless they have been granted a Leave of Absence (see Leave of Absence regulations). Students have a maximum of seven years from the time of initial enrolment in the program to complete the program requirements for graduation.

ACADEMIC STANDING AND PROGRAM PROBATION

A student's academic performance is reviewed at the end of each term. To continue in the B.Sc.N. Program in good academic standing a student must obtain a cumulative GPA of at least 5.0. A student whose cumulative GPA is at least 4.5 may continue in the program and will be placed on program probation for the duration of one academic year. A student may be placed on program probation only once during the program.

REMOVAL FROM PROGRAM

A student whose cumulative GPA is less than 5.0, and who has not been granted program probation, may not continue in the program. A student who fails to raise their cumulative GPA to 5.0 at the completion of the program probation may not continue in the program. After repeating a required Health Science (HTHSCI) or Nursing (NURSING) course, a student who fails to meet the minimum passing grade requirement or Pass designation may not continue in the program. A student may normally repeat a level of work only once. A student who fails to meet the minimum passing grade requirement on three or more required HTHSCI or graded NURSING courses, or who fails to meet a pass designation on two or more professional practice NURSING courses, may not continue in the program. A student who does not maintain continuous enrollment in the program without having been granted a Leave of Absence and/or who fails to complete the program requirements for graduation within the maximum allowable time may not continue in the program.

RE-ENTRY TO THE PROGRAM

A student who is ineligible to continue in the B.Sc.N. Program (but who may continue at the university) due to failure to meet the academic regulations may apply for re-entry to the program after one full academic year. Students may only apply to re-enter the stream from which they were removed.

Students seeking re-entry must submit a 'Re-entry Application' to Academic Advising Services. Students are considered for re-entry for September entry only and must apply by February 1.

Students will be required to outline the reasons for previous unsatisfactory academic performance, reasons for requesting re-entry at this time, reasons why the student would expect to succeed in the B.Sc.N. Program if re-entry is granted (including documentation of what has been done to correct the previous problems/barriers), and an outline of their activities since last registered in the program including an outline of all academic work. Re-entry is not automatic or guaranteed. Decisions are normally communicated between May and June for September entry.

A student who is granted re-entry to the B.Sc.N Program will be required to complete a reintegration plan that will facilitate returning to the program prior to enrolment in courses. Additionally, the student may be required to repeat any or all of their previously completed courses in the program, which will be explicitly outlined in the terms and conditions of their re-entry.

Students who are granted re-entry to the B.Sc.N. Program will be placed on program probation for a period of one academic year, and calculation of their cumulative GPA will begin anew. If at any review after re-entry the student's cumulative GPA falls below 5.0, the student will be removed from the program. Students who are approved for re-entry to the program may not apply for subsequent re-entry if removed again.

REINSTATEMENT TO THE PROGRAM AND UNIVERSITY

A student who is ineligible to continue at the university may apply for reinstatement to the university and the B.Sc.N. Program after one full academic year. Students may only apply to be reinstated into the stream from which they were removed. Students seeking reinstatement must contact the Office of the Registrar at McMaster University to submit a Reinstatement Request Form and the required fee. Students are considered for reinstatement for September entry only and must apply by February 1. Students will be required to outline the reasons for previous unsatisfactory academic performance, reasons for requesting reinstatement at this time, reasons why the student would expect to succeed in the B.Sc.N. Program if reinstatement is granted (including documentation of what has been done to correct the previous problems/barriers), and an outline of their activities since last registered in the program including an outline of all academic work. Reinstatement is not automatic or guaranteed. Decisions are normally communicated between May and June for September entry. A student who is granted reinstatement to the B.Sc.N Program will be required to complete a reintegration plan that will facilitate returning to the B.Sc.N. Program prior to enrollment of courses. Additionally, the student may be required to repeat any or all of their previously completed courses in the program, which will be explicitly outlined in the terms and conditions of their reinstatement.

Students who are granted reinstatement to the B.Sc.N. Program will be placed on program probation for a period of one academic year, and calculation of their Grade Point Average (GPA) will begin anew. If at any review after reinstatement the student's GPA falls below 5.0, the student will be removed from the program. Students who are approved for reinstatement to the program may not apply for subsequent re-entry or reinstatement if removed again.

VOLUNTARY WITHDRAWAL FROM THE PROGRAM

Students must follow the withdrawal procedures for McMaster University in addition to their respective college sites (if applicable).

READMISSION AFTER VOLUNTARY WITHDRAWAL

Former Nursing students who voluntarily withdrew from the B.Sc.N. Program must apply for readmission by February 1. Students previously admitted through McMaster University must apply for readmission through the Office of the Registrar; students previously admitted through Mohawk and Conestoga College must contact the Admission Office at the respective colleges for further information. Readmission requests are carefully reviewed by the Admissions Committee and the evidence considered will include the student's academic performance in the program, a letter outlining the decision to return and activities since last registered in the program. Readmission is not automatic or guaranteed. Decisions are normally communicated between May and June for September entry.

LEAVE OF ABSENCE

Students wishing to suspend their studies in the B.Sc.N. Program due to extenuating medical or personal reasons must apply for a Leave of Absence (LOA). Request for an LOA must be made to the Academic Advising Services by submitting a Request for Leave of Absence petition. Approval is not guaranteed.

Only one LOA will be considered for the duration of the program. An LOA can be requested for a maximum of 12 months. Students requesting additional LOAs or an extended LOA should refer to the School of Nursing Academic Regulations pertaining to continuous enrolment; additional or extended LOAs will only be

considered in highly extenuating circumstances. Return to the program is not guaranteed for students who suspend their studies without an approved LOA. If an LOA is granted, the student will be notified of the terms and conditions of their LOA by the Academic Advising Services. Notification of return to the program must be made to the Academic Advising Services by submitting a Return from a Leave of Absence form by the date specified in the terms and conditions of the LOA. A reintegration plan to facilitate returning to the program will be made in consultation with faculty and must be completed prior to returning to professional practice Nursing (NURSING) courses (see *Reintegration to Professional Practice policy*).

TRANSFER BETWEEN SITES

Students attend the institution to which they are admitted for the entire program. Transfer from Mohawk College or Conestoga to McMaster University site is not an option. Similarly, transfer from McMaster University to Mohawk College or Conestoga Colleges is not an option. Transfers may be permitted between the College sites, based on availability of space in the B.Sc.N. Program at the desired site. Students are considered for transferring to their requested site for September entry only. To request transfer between College sites, the student must submit a Request for Transfer Between Sites petition to the Academic Advising Services by February 1, and apply to the desired site via OCAS by February 1.

Final decisions are at the discretion of the Mohawk College and Conestoga College Admissions Offices and the School of Nursing.

TRANSFER BETWEEN STREAMS

A transfer between streams of the B.Sc.N. Program is not permitted.

DROPPING/WITHDRAWING FROM COURSES

Students who drop or cancel/withdraw from required Nursing (NURSING) or Health Science (HTHSCI) courses are strongly encouraged to contact Academic Advising Services in the B.Sc.N. Program Office. The School of Nursing reserves the right to limit the number of times a student may register for and then drop or cancel/withdraw from a course, due to resource limitations.

TRANSFER CREDITS/COURSE EXEMPTIONS

Students who have completed courses at the university level prior to commencing studies in the B.Sc.N. Program may be eligible to receive transfer credits/course exemption for requirements of their degree program. Only courses completed at a university are eligible for consideration. Courses completed at a college are not eligible for review. Courses completed through Advanced Placement (AP)/International Baccalaureate (IB) will only be considered for transfer credits for Level I electives.

No course for which a grade of less than C- (60%) has been achieved will be considered for transfer credit/course exemption towards elective course requirements. No course for which a grade of less than B- (70%) has been achieved will be considered for transfer credit/course exemption towards mandatory HTHSCI or NURSING courses. Students who have completed AP exams through the College Board in acceptable courses and achieved a minimum grade of 4 will be considered for up to 18 units of transfer credit toward Level I electives. Students who have completed Higher Level (HL) courses and achieved final International Baccalaureate (IB) Diploma or Certificate grade of 5 or greater will be considered for up to 18 units of transfer credit toward Level I electives.

The following courses are not eligible for transfer credit/course exemption due to the professional, integrated nature of the B.Sc.N Program:

- Basic (A) Stream: NURSING 1F03, 1G03, 1I02, 1J02, 2L03, 2MM3, 2NN3, 2P03, 3QQ3, 3SS3, 3TT3, 3X04, 3Y04, 4J07, 4K10, 4P04, 4Q03
- Post Diploma RPN (E) Stream: NURSING 2A04, 2AA3, 3A04, 3QQ3, 3RS3, 3RT3, 3RY4, 4J07, 4K10, 4P04, 4Q03
- Accelerated (F) Stream: NURSING 2I04, 2J04, 2V04, 3QQ3, 3V03, 3ZA3, 3ZB3, 4J07, 4K10, 4P04, 4Q03

The following courses will only be considered eligible for review for transfer credit/course exemption if completed in an accepted Health Professional Program:

- Basic (A) Stream: HTHSCI 2LA2 A/B
- Post Diploma RPN (E) Stream: HTHSCI 3C04, 3PA2 A/B

- Accelerated (F) Stream: HTHSCI 2PF3 A/B, 3C04, 3PF1

Mandatory HTHSCI and NURSING courses completed in one stream of the B.Sc.N. Program will not be considered for transfer credit/course exemption in another stream of the B.Sc.N. Program. Courses from another institution/program used to request transfer credit/course exemption for any eligible, mandatory HTHSCI or NURSING course in the B.Sc.N. Program must have been completed no more than 4 years prior to admission to the B.Sc.N. Program. Additionally, courses from another institution/program used to request transfer credit/course exemption for HTHSCI 2S03 must have been completed no more than 2 years prior to admission to the B.Sc.N. Program. Students who are interested in requesting transfer credit/course exemption for electives should refer to the guidelines regarding electives found in the Requirements for their stream. Students must submit a *Transfer Credit/Course Exemption* request form to Academic Advising Services within one year of program start-date to have their previous course work considered for the entirety of their program.

Please see the McMaster University General Policy for Transfer Credits for additional information.

LETTER OF PERMISSION

All students in good academic standing who wish to attend another university to take courses for credit toward a McMaster degree must first request a Letter of Permission (LOP) through the Student Centre in Mosaic. The School of Nursing requires that students must achieve a minimum grade of C- (60%) in courses used for elective requirements, and B- (70%) in courses used for mandatory HTHSCI and NURSING course requirements to receive the transcript designation of 'T' indicating successful completion. Courses taken at another university cannot be used to satisfy McMaster University's minimum residence requirements, and will not be included in the calculation of the Grade Point Average. Any courses taken on LOP to satisfy mandatory HTHSCI or NURSING courses will be subject to the Academic Regulations of the B.Sc.N. Program: failure to successfully complete a mandatory HTHSCI or NURSING course taken on LOP may result in a change of academic standing or impact a student's ability to progress in the B.Sc.N. program. The following courses are not eligible to be taken on LOP due to the professional, integrated nature of the B.Sc.N. Program:

- Basic (A) Stream: NURSING 1F03, 1G03, 1I02, 1J02, 2L03, 2MM3, 2NN3, 2P03, 3QQ3, 3SS3, 3TT3, 3X04, 3Y04, 4J07, 4K10, 4P04, 4Q03
- Post Diploma RPN (E) Stream: NURSING 2A04, 2AA3, 2T04, 3A04, 3QQ3, 3SS3, 3TT3, 3Y04, 4J07, 4K10, 4P04, 4Q03
- Accelerated (F) Stream: NURSING 2I04, 2J04, 2U04, 2V04, 3QQ3, 3V03, 3ZA3, 3ZB3, 4J07, 4K10, 4P04, 4Q03

The following courses will only be considered for completion on LOP if completed in an accepted Health Professional Program:

- Basic (A) Stream: NURSING 2LA2 A/B, HTHSCI 2LA2 A/B
- Post Diploma RPN (E) Stream: NURSING 3PA2 A/B, HTHSCI 3C04, 3PA2 A/B
- Accelerated (F) Stream: NURSING 2PF3 A/B, 3PF1, HTHSCI 2PF3 A/B, 3C04, 3PF1

Students who are interested in taking a course on LOP to satisfy elective requirements should refer to the guidelines regarding electives found in the Requirements for their stream. If approved, students should pay close attention to the Letter of Permission Approval email sent by Academic Advising Services outlining conditions of approval, process to follow when the course(s) are completed, and process to follow if student decides not to complete the course(s).

PROFESSIONAL PRACTICE REGULATIONS

Professional Practice Courses

The following courses are designated professional practice Nursing (NURSING) courses:

- Basic (A) Stream: NURSING 1I02, 1J02, 1K02 A/B, 2K02 A/B, 2L03, 2P03, 3QQ3, 3X04, 3Y04, 4J07, 4K10
- Post Diploma R.P.N. (E) Stream: NURSING 3QQ3, 3Y04, 4J07, 4K10

- Accelerated (F) Stream: NURSING 2J04, 2U03, 2U04, 3QQ3, 3ZA3, 3ZB3, 4J07, 4K10

Removal from Courses

The B.Sc.N. Program reserves the right to remove a student from a professional practice course or laboratory setting at any point during the term if the student exhibits unsafe professional practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal will result in the student receiving a grade of F in the course and may result in dismissal from the program. The professional practice activities associated with any professional practice course must be successfully achieved for attainment of a passing grade in the course.

Clearance to Participate

If the School of Nursing has substantiated concerns that a student's participation in a professional practice course may pose a risk to the health and safety of the student, their peers, instructors, clients/patients, or staff members of the professional practice setting the student may be required to produce documentation from a health care practitioner (typically the student's attending physician) indicating that the student is medically able to perform the full duties required in the professional practice placement. Students may be precluded from participating in the professional practice course until such time that they are able to produce the documentation, which may result in the student having to take the course in a different term if, as a result, the student is absent from the professional practice setting for a significant portion of the course.

Reintegration to Professional Practice

Any student who has either (a) failed a professional practice course, and/or (b) has experienced a gap between professional practice courses as a result of a leave of absence from the program, repeating mandatory NURSING/HTHSCI course(s), or following a reduced course load, is required to complete a reintegration plan in consultation with a faculty member designated by the School of Nursing. The purpose of the reintegration plan is to refamiliarize the student with nursing and health sciences concepts and refresh their professional practice skills to ensure the student's return to a professional practice setting is safe and successful for all stakeholders. The reintegration plan must be completed to the satisfaction of the faculty member over the term (approximately four months) immediately prior to returning to the student commencing professional practice course(s). In some instances, a reintegration plan may be planned over the course of more than a single term at the discretion of the School of Nursing and/or designated faculty.

EXAMINATIONS

A Mohawk College or Conestoga College and a McMaster student photo identification card is required at all examinations.

NON-ACADEMIC REGULATIONS

A student must comply annually before the start of classes with all non-academic requirements as outlined by the program. Failure to do so will result in removal from class and/or professional practice courses.

NON-ACADEMIC REQUIREMENTS

The B.Sc.N. Program is committed to ensuring that Standards of Practice in Nursing are adhered to by requiring students to maintain their certification in CPR, seek a police records check, and comply with surveillance for infectious diseases. Failure to comply with these requirements may result in a student not being allowed to enroll in/complete required course(s).

IMMUNIZATION

The Ontario Public Hospitals Act requires all students working in a hospital setting to meet certain criteria related to surveillance for infectious diseases. Detailed medical information, including a record of completion of required immunizations, will be required upon acceptance and annually thereafter. Failure to produce this information will result in a student being precluded from commencing professional practice course(s) or a suspension from professional practice course(s) until such time that they are able to produce the information, which may result in the student having to take the course(s) in a different term. Information on

specific medical information that is required will be sent to students prior to commencing their studies in the program and each year thereafter prior to the start of the academic year.

POLICE RECORDS CHECK

During the course of the B.Sc.N Program, all nursing students will work with vulnerable populations. As a result, in order to protect these vulnerable people from potential harm, the Council of Ontario University Programs in Nursing recommends and many professional practice agencies require that all nursing students provide confirmation of the absence of a criminal conviction or outstanding criminal charges. All students are required to have a satisfactory Police Record Check completed **annually**. The Police Record Check must include Vulnerable Sector Screening (VCC). Expenses for the Police Record Check are the responsibility of the student. Students may be required to produce documentation of their Police Record Check at some professional practice placements. Registered students who have been convicted of an offense under the Criminal Code (Canada) for which they have not been pardoned may be denied the opportunity to enter professional practice placement.

CPR CERTIFICATION

Students are required to provide evidence of a valid certificate in cardiopulmonary resuscitation (CPR) at the Basic Cardiac Life Support for Health Care Provider level with training in AED. Please note that for health care providers, certification is valid for one year from the date of the course. As a result, annual recertification is mandatory. The cost of a course is the responsibility of the student. Courses are readily available in most communities. Certification obtained through an online provider will not be accepted.

TRAVEL WITHIN THE PROGRAM

Students are responsible for arranging their own travel to and from learning settings external to their site and for covering any costs incurred. All students who enrol in the B.Sc.N. Program are expected to travel to any learning setting in Hamilton and the surrounding area, including but not limited to Halton, Peel, Brant, Haldimand-Norfolk, Niagara and Wellington regions (McMaster and Mohawk sites); and Kitchener-Waterloo and surrounding area, including but not limited to Wellington, Brant and Halton regions (Conestoga site).

ACCESS TO CLINICAL COURSES

Students in any stream who register for a clinical NURSING course in Level III or above must also submit a placement request to the Placement Coordinator. Students who fail to meet the published deadline but who register for the course at least two months prior to the date is to commence will be assigned a placement setting without consideration of their preferences. Students who do not register two months in advance and who fail to meet the submission deadline will normally be required to defer their placement until the next term in which the course is offered.

The final assignment of learning settings for any course is constrained by the availability of the requested setting and faculty resources. Students may therefore be required to complete the practicum component of a course in a learning setting that is not of their choosing.

GLOBAL HEALTH PROFESSIONAL PRACTICE

Level IV students in Basic (A) Stream and Post Diploma R.P.N. (E) Stream have the option to complete global health professional practice placements in international or outpost settings for NURSING 4J07. Prerequisites include, but are not limited to, (1) attaining a GPA of 8.0 in all mandatory NURSING/HTHSCI courses Level II and Fall Term of Level III (Basic A Stream) or Winter Term of Level II and Fall Term of Level III (Post Diploma E Stream); (2) a pass in all professional practice NURSING courses; (3) a minimum grade of C- in either HTHSCI 4H03, or NURSING 4H03, or COLLAB 4H03.

SPECIALIZED/ATYPICAL PROFESSIONAL PRACTICE PLACEMENTS

Specialized/atypical placements in NURSING 4J07 and/or NURSING 4K10 are only available to students who have met the following criteria:

1. a cumulative GPA of 8.0 in all mandatory NURSING/HTHSCI courses completed prior to entry to Level IV course work

2. a pass in all professional practice courses on the first attempt.

Additional criteria (e.g. reference from a professional practice preceptor) may also be required and considered by the School of Nursing in allocating specialized/atypical placements. Achieving the above noted criteria is not a guarantee that a student will receive a specialized/atypical placement as placements are limited.

DOCUMENTATION FOR LICENSURE OUTSIDE OF CANADA

Documentation for Licensure for outside of Canada is done by the B.Sc.N. Program Office. A fee of \$250, for each request, is charged for providing the documentation and sending, by courier, to the agency requesting such documentation. Forms requesting this documentation are available on the School of Nursing website <http://nursing.mcmaster.ca/currentstudents/graduation-designations>.

Curriculum

ACCELERATED (F) STREAM (B.SC.N)

MCMASTER SITE

The curriculum focuses on nursing context over five academic terms of full-time study. Students apply their previously acquired knowledge to develop their understanding of nursing practice. Students admitted to this stream will enter Level III of the B.Sc.N. Curriculum. Students are required to meet the residency requirement of the university as outlined in the General Academic Regulations section of this calendar.

REQUIREMENTS (EFFECTIVE AS OF 2016-2017)

Advanced Credit: 54 units; Units Taken at McMaster: 72

Level III: 45 Units

(Units graded: 32; Units Pass/Fail: 13)

Fall Term: 14 units

6 units

- HTHSCI 2H03 - Introductory Pharmacology
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health

8 units

- NURSING 2I04 - Introduction to Professional Nursing and Health for Accelerated Stream
- NURSING 2U04 - Introduction to Nursing Practice I for Accelerated Stream

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Winter Term: 15 units

7 units

- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making

8 units

- NURSING 2J04 - Professional Nursing Practice II for Accelerated Stream
- NURSING 2V04 - Nursing Concepts in Health & Illness for Accelerated Stream

Fall-Winter Terms: 3 units

3 units

- HTHSCI 2PF3 A/B - Introduction to Integrated Pathophysiology for Accelerated Stream (or NURSING 2PF3 A/B)

Spring/Summer Term: 13 units

13 units

- HTHSCI 3PF1 - Integrated Pathophysiology for Accelerated Stream (or NURSING 3PF1)
- NURSING 3Q03 - Professional Community Nursing Practice
- NURSING 3V03 - Nursing Concepts in Health & Illness for Accelerated Stream II
- NURSING 3ZA3 - Professional Nursing Practice III for Accelerated Stream

- NURSING 3ZB3 - Professional Nursing Practice IV for Accelerated Stream

Level IV: 27 Units

(Units Graded: 10; Units Pass/Fail: 17)

Fall Term: 14 units

3 units

- HTHSCI 4NR3 - Nursing Research

11 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4P04 - Advanced Nursing Concepts I

Winter Term: 13 units

13 units

- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4Q03 - Advanced Nursing Concepts II

Total Units: 126

NOTE:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2I06, 2V06, 3V04, 4K07, and 4Q04. Instead students will be required to take NURSING 2I04, 2V04 and 2PF3 A/B ; NURSING 3V03 and 3PF1 ; NURSING 4K10; and NURSING 4Q03, respectively.

REQUIREMENTS FOR STUDENTS WHO ENTERED FROM 2011 TO 2015

Advanced Credit: 54 units; Units Taken at McMaster: 72

Level III: 45 Units

(Units graded: 32; Units Pass/Fail: 13)

Fall Term: 14 units

6 units

- HTHSCI 2H03 - Introductory Pharmacology
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health

8 units

- NURSING 2I05 - Introduction to Professional Nursing
- NURSING 2U03 - Introduction to Client Health Assessment and Clinical Reasoning

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Winter Term: 15 units

7 units

- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making

8 units

- NURSING 2J04 - Professional Nursing Practice II for Accelerated Stream
- NURSING 2V04 - Nursing Concepts in Health & Illness for Accelerated Stream

Fall-Winter Terms: 3 units

3 units

- NURSING 2PF3 A/B

Spring/Summer Term: 13 units

13 units

- NURSING 3PF1
- NURSING 3Q03 - Professional Community Nursing Practice
- NURSING 3V03 - Nursing Concepts in Health & Illness for Accelerated Stream II
- NURSING 3ZA3 - Professional Nursing Practice III for Accelerated Stream
- NURSING 3ZB3 - Professional Nursing Practice IV for Accelerated Stream

Level IV: 27 Units

(Units Graded: 10; Units Pass/Fail: 17)

Fall Term: 14 units

3 units

- HTHSCI 4NR3 - Nursing Research

11 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4P04 - Advanced Nursing Concepts I

Winter Term: 13 units

13 units

- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4Q03 - Advanced Nursing Concepts II

Total Units: 126

NOTE:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2I06, 2V06, and 3V04. Instead students will be required to take NURSING 2I04, 2V04 and 2PF3 A/B ; and 3V03 and 3PF1 .

BASIC (A) STREAM (B.SC.N.)

MCMASTER SITE

CONESTOGA SITE

MOHAWK SITE

The Faculty has planned the curriculum so that the study of nursing, the physiological, psychological and social sciences, and the humanities are interrelated and span the entire program. In Level I, the amount of nursing experience is relatively small; the major proportion of study is in the behavioural and natural sciences. The nursing component increases progressively through Levels II, III, and IV, as the study of natural sciences is completed. Because of timetable constraints, courses must be taken in the level indicated in the curriculum.

REQUIREMENTS (EFFECTIVE AS OF 2018-2019)

Electives

Eighteen units of electives are to be selected from disciplines of the student's choice, of which a minimum of six units are to be chosen from courses designated as Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective courses (i.e. those courses that are not required for any of the program streams). For some courses, the amount of duplication of required content will preclude their being used for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Post Diploma R.P.N. (E) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Basic (A) Stream.

Note

HTHSCI 4NR3 may be completed in either Level III or IV.

Requirements

Level I: 30 Units

(Units graded: 28; Units Pass/Fail: 2)

9 units

- HTHSCI 1H06 A/B - Human Anatomy and Physiology I
- HTHSCI 1LL3 - Human Biochemistry I

12 units

- NURSING 1F03 - Introduction to Nursing and Health I for Basic Stream
- NURSING 1G03 - Introduction to Nursing and Health II for Basic Stream
- NURSING 1I02 - Introduction to Nursing Practice for Basic Stream
- NURSING 1J02 - Professional Nursing Practice I for Basic Stream
- NURSING 1K02 A/B - Community Engagement and Citizenship for Basic Stream

6 units

McMaster and Mohawk Site:

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

Conestoga Site:

- PSYCH 1N03 - Introduction to Psychology, Neuroscience & Behaviour

- PSYCH 1NN3 - Foundations of Psychology, Neuroscience & Behaviour

3 units

- Electives

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level II: 29 Units

(Units graded: 23; Units Pass/Fail: 6)

14 units

- HTHSCI 2H03 - Introductory Pharmacology
- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 2LA2 A/B - Introduction to Integrated Pathophysiology for Nursing for Basic Stream
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2S03 - Introduction to Statistics for Nursing

12 units

- NURSING 2L03 - Professional Nursing Practice II for Basic Stream
- NURSING 2MM3 - Nursing Concepts in Health and Illness I for Basic Stream
- NURSING 2NN3 - Nursing Concepts in Health and Illness II for Basic Stream
- NURSING 2P03 - Professional Nursing Practice III for Basic Stream

3 units

- Electives

Level III: 31 Units

(Units graded: 20; Units Pass/Fail: 11)

5 units

- HTHSCI 3BB3 - Human Biochemistry II: Nutrition and Metabolism
- HTHSCI 3PA2 A/B - Integrated Pathophysiology for Nursing

0-3 units

- HTHSCI 4NR3 - Nursing Research (See *Note* above.)

17 units

- NURSING 3Q03 - Professional Community Nursing Practice
- NURSING 3SS3 - Nursing Concepts in Health and Illness III for Basic Stream
- NURSING 3TT3 - Nursing Concepts in Health and Illness IV for Basic Stream
- NURSING 3X04 - Professional Nursing Practice IV
- NURSING 3Y04 - Professional Nursing Practice V

6-9 units

- Electives

Level IV: 30 Units

(Units graded: 13; Units Pass/Fail: 17)

0-3 units

- HTHSCI 4NR3 - Nursing Research (See *Note* above.)

24 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4P04 - Advanced Nursing Concepts I
- NURSING 4Q03 - Advanced Nursing Concepts II

3-6 units

- Electives

Total Units: 120

REQUIREMENTS FOR STUDENTS WHO ENTERED FROM 2009 TO 2017

Electives

Eighteen units of electives are to be selected from disciplines of the student's choice, of which a minimum of six units are to be chosen from courses designated as Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective courses (i.e. those courses that are not required for any of the program streams). For some courses, the amount of duplication of

required content will preclude their being used for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Post Diploma R.P.N. (E) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Basic (A) Stream.

Note

HTHSCI 4NR3 may be completed in either Level III or IV.

Requirements

Level I: 30 Units

(Units graded: 28; Units Pass/Fail: 2)

9 units

- HTHSCI 1LL3 - Human Biochemistry I
- HTHSCI 1H06 A/B - Human Anatomy and Physiology I

- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4P04 - Advanced Nursing Concepts I
- NURSING 4Q03 - Advanced Nursing Concepts II

3-6 units

- Electives

Total Units: 122

Note:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2M04, 2N04, 3SS4, 3TT4, 4K07, and 4Q04. Instead students will be required to take NURSING 2MM3, NURSING 2NN3 and NURSING 2LA2 A/B; NURSING 3SS3, NURSING 3TT3, and NURSING 3PA2 A/B; NURSING 4K10; and NURSING 4Q03, respectively.

POST DIPLOMA R.P.N. (E) STREAM (B.Sc.N.)

Conestoga Site

Mohawk Site

Please note that the last intake for this stream at McMaster was Fall 2010. Any applicants interested in this stream should see information for Post Diploma R.P.N. (E) Stream (Mohawk and Conestoga) below.

The program of study for the Post Diploma Registered Practical Nurses (E) Stream prepares students for practice as Registered Nurses. It builds on the knowledge and skills acquired in the diploma practical nurse program. (E) Stream students receive 30 units of advanced credit and enter at Level II. The two Level II nursing courses are designed to assist in the transition of students to baccalaureate studies. Students are integrated with both Basic and Post-Diploma students for most courses. The curriculum is planned for three academic years of full-time study.

ELECTIVES

Fifteen units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

NOTE

1. NURSING 3A04 and NURSING 3RY4 cannot be taken concurrently; these courses must be completed in separate terms.

REQUIREMENTS

Advanced Credit: 30 units

Level II: 32 Units

(Units graded: 29; Units Pass/Fail: 3)

22 units

- HTHSCI 1CC6 - Integrated Biological Bases of Nursing Practice I
- HTHSCI 2C06 - Integrated Biological Bases of Nursing Practice II
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2S03 - Introduction to Statistics for Nursing
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making (See Note 1 above.)

10 units

- NURSING 2A04 - Introduction to Professional RN Practice I for Post Diploma RPN Stream
- NURSING 2AA3 - Professional RN Practice II for Post Diploma RPN Stream
- NURSING 3QQ3 - Professional Community Nursing Practice (See Note 1 above.)

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level III: 28 Units

(Units graded: 24; Units Pass/Fail: 4)

5 units

- HTHSCI 3PA2 A/B - Integrated Pathophysiology for Nursing
- HTHSCI 4NR3 - Nursing Research

14 units

- NURSING 3A04 - Clinical Reasoning in RN Practice for Post Diploma RPN Stream (See Note 1 above.)
- NURSING 3RS3 - Nursing Concepts in Health and Illness III for Post Diploma RPN Stream
- NURSING 3RT3 - Nursing Concepts in Health and Illness IV for Post Diploma RPN Stream
- NURSING 3RY4 - Professional Nursing Practice V for Post Diploma RPN Stream (See Note 1 above.)

9 units

- Electives

Level IV: 30 Units

(Units graded: 13; Units Pass/Fail: 17)

24 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4P04 - Advanced Nursing Concepts I
- NURSING 4Q03 - Advanced Nursing Concepts II

6 units

- Electives

Total Units: 120

REQUIREMENTS (EFFECTIVE 2018-2019)

Electives

Fifteen units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

Notes

1. HTHSCI 2S03 and NURSING 3QQ3 cannot be taken concurrently; these courses must be completed in separate terms.
2. NURSING 3A04 and NURSING 3Y04 cannot be taken concurrently; these courses must be completed in separate terms.

3. NURSING 3SS3, NURSING 3TT3 and NURSING 3Y04 have had a code change only to NURSING 3RS3, NURSING 3RT3 and NURSING 3RY4 for the Post Diploma R.P.N. (E) Stream.

Requirements

Advanced Credit: 30 units

Level II: 32 Units

(Units graded: 29; Units Pass/Fail: 3)

22 units

- HTHSCI 1CC6 - Integrated Biological Bases of Nursing Practice I
- HTHSCI 2C06 - Integrated Biological Bases of Nursing Practice II
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2S03 - Introduction to Statistics for Nursing (See *Note 1* above.)
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making

10 units

- NURSING 2A04 - Introduction to Professional RN Practice I for Post Diploma RPN Stream
- NURSING 2AA3 - Professional RN Practice II for Post Diploma RPN Stream
- NURSING 3Q03 - Professional Community Nursing Practice (See *Note 1* above.)

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level III: 28 Units

(Units graded: 24; Units Pass/Fail: 4)

5 units

- HTHSCI 3PA2 A/B - Integrated Pathophysiology for Nursing
- HTHSCI 4NR3 - Nursing Research

14 units

- NURSING 3A04 - Clinical Reasoning in RN Practice for Post Diploma RPN Stream (See *Note 2* above.)

REQUIREMENTS (EFFECTIVE 2016-2017 OR 2017-2018)

Electives

Twenty one units of electives are to be selected from disciplines of the student's choice of which a minimum of nine units are to be chosen from courses designated Level II or above. A maximum of nine units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the Program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the

Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

Note

NURSING 3Y04 and NURSING 3Q03 cannot be taken concurrently and must be completed in separate terms.

Requirements

Advanced Credit: 30 units

Level II: 32 Units

(Units graded: 32)

18 units

- HTHSCI 1CC6 - Integrated Biological Bases of Nursing Practice I
- HTHSCI 2C06 - Integrated Biological Bases of Nursing Practice II
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2S03 - Introduction to Statistics for Nursing

11 units

- NURSING 2A04 - Introduction to Professional RN Practice I for Post Diploma RPN Stream
- NURSING 2AA3 - Professional RN Practice II for Post Diploma RPN Stream
- NURSING 2T04

3 units

INDIGENOUS SECTION POST DIPLOMA R.P.N. (E) PROGRAM STREAM**Mohawk Site**

Twenty one units of electives are to be selected from disciplines of the student's choice of which a minimum of 9 units are to be chosen from courses designated Level II or above. Health Science (HTHSCI) and Nursing (NURSING) courses that are required courses in any of the B.Sc.N. Program streams may not be used by

students to satisfy their elective requirements. A maximum of nine units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those courses that are not required for any of the Program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. program.

REQUIREMENTS (EFFECTIVE 2018-2019)Electives

Fifteen units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. Health Science (HTHSCI) and Nursing (NURSING) courses that are required courses in any of the B.Sc.N. Program streams may not be used by students to satisfy their elective requirements. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those courses that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

NOTES

1. HTHSCI 2S03 and NURSING 3Q03 cannot be taken concurrently; these courses must be completed in separate terms.
2. NURSING 3A04 and NURSING 3Y04 cannot be taken concurrently; these courses must be completed in separate terms.

PROGRAM OVERVIEW

Midwives are primary health care providers who provide care and advice to women during pregnancy, labour and the postpartum period; conduct deliveries and provide care for newborn babies. Midwives have well-developed interpersonal skills and are competent in areas of health education, counselling and interprofessional collaboration. Midwives' expertise in the care of normal pregnancy and childbirth arises from their understanding of childbearing as a social, cultural and biological process and from their ability to competently exercise clinical skills and decision-making. Midwifery is potentially one of the most important components of women's health care in Ontario. Midwifery education provides the base for sound professional practice. The educational program is an integral part of the evolution of the profession of midwifery in Ontario and is a leader in midwifery education in Canada. The program helps create future leaders and teachers. It assures practice and teaching as a continuum so that learning environments become available across Ontario.

The Midwifery Education Program at McMaster University is a collaborative venture shared by McMaster, Ryerson and Laurentian Universities, and leads to a Bachelor of Health Sciences (B.H.Sc.) in Midwifery.

ADMISSION PROCEDURES AND REQUIREMENTS

Enrolment in the Midwifery Education Program is limited. Admission into the Midwifery Education Program is by selection and reserved for candidates who meet all requirements and who satisfy the academic regulations of the university. Possession of the minimum requirements does not guarantee an offer of admission. It is recommended that applicants have completed at least one year of university prior to applying. All certified transcripts from secondary and post secondary education previously attended must be forwarded to the Office of the Registrar. The application deadline is February 1 each year for the following September intake. Applications received after February 1 will not be considered. Please note that all

required courses must be completed, with final grades available on any and all official transcripts at the time of application (excluding current Secondary School students.) All official transcripts must be submitted by the February 1 deadline. *All documents submitted with the application become property of the university.* All applicants must have completed the following course requirements in order to be considered for admission:

A full course credit in:

1. Biology
2. Chemistry
3. English

A minimum grade of 75% in each course is required.

It is recognized that applicants apply to the program with varying educational backgrounds. Applicants can fulfill the courses required from the following educational backgrounds:

Applicants Directly from Ontario Secondary Schools

The following are the minimum grade 12 U and M requirements under the Ontario Secondary School Curriculum for applicants directly from an Ontario Secondary School:

1. English 12 U
2. Biology 12 U
3. Chemistry 12 U

Completion of additional 12 U or M courses to total six credits.

Students must obtain a minimum grade of 75% in each of the **three (3)** required courses listed in points 1, 2 and 3 above AND a minimum overall average of 75% on grade 12 U or M courses including the required courses.

Current Ontario Secondary School Students may apply if one or more of the three (3) required courses are in progress at the time of application; however, the grade 11 prerequisite(s) must be completed at the time of application so that a preliminary assessment of the subject area(s) can be made. Admission is based on in progress secondary school grades for current secondary students **only** if the grade 11 prerequisite in that subject area is at least 75%.

Applicants with Prior College Diploma Studies

No Admissions will be based on College standing. For applicants with prior college/diploma studies who completed their college education within the last two years of applying to Midwifery, admission will be based on secondary school eligibility. If college education was completed more than 2 years ago at the time of applying to Midwifery, please refer to the Mature Applicants section for eligibility and admission requirements.

Applicants from Ontario Secondary Schools (within one year of obtaining OSSD)

The following are the minimum grade 12 U and M requirements under the Ontario Secondary School Curriculum for applicants from an Ontario Secondary School who have obtained their OSSD in the previous calendar year and have never attended University:

1. English 12 U
2. Biology 12 U
3. Chemistry 12 U

Completion of additional grade 12 U or M courses to total six credits.

Applicants must have obtained a minimum grade of 75% in each of the **three (3)** required courses listed in points 1, 2 and 3 above AND a minimum overall average of 75% on grade 12 U or M courses including the required courses. All required courses must be completed at the time of application.

Applicants with Qualifications Equivalent to Ontario Secondary School

Applicants from out-of-province, with qualifications equivalent to Ontario Secondary School (i.e. Advanced Placement Students, American Style Curriculum Students, International Baccalaureate Students, General Certificate of Education Students, etc.) should refer to the Future McMaster website for general requirement and required course information.

International Students

Applicants must be Canadian Citizens or have Permanent Resident status prior to applying to the Midwifery program.

Mature Applicants

A mature student is someone who has been out of full time secondary school or college for the past two years, and who has never attended university (<http://future.mcmaster.ca/admission/admissionrequirements/mature-applicants/>.) Midwifery does not offer mature admission directly to the program. However, students interested in Midwifery may be admitted as mature students to another program in order to complete university pre-requisite courses for later consideration for admission to Midwifery. Enrolment in this program is limited. Possession of the minimum admission requirements does not guarantee admission.

In order to apply for admission to the Midwifery Education program, mature applicants must have successfully completed a minimum of 18 units of university level course work with a minimum cumulative average of 75% prior to acceptance. Applicants must have grade 12 U courses from high school or full university courses in the three (3) required subject areas of Biology, Chemistry, and English with a minimum grade of 75% in each. A full university course is equivalent to 6 units or 1.0 credit, depending on the university.

Prior Midwifery Education or Experience

For applicants with prior Midwifery Education or Experience, Ryerson University, through the division of Continuing Education, offers the International Midwifery Pre-Registration Program. The purpose of this program is to provide internationally educated midwives with assessment and education which will prepare them to register as midwives in Ontario. (Refer to the *Midwifery Education Program website* for more information.)

Indigenous Applicants

In accordance with the Self-Identification policy of the Faculty of Health Sciences, Indigenous (First Nations, Inuit and Métis) applicants who wish to apply to a program that has a facilitated Indigenous admissions stream must complete the supplementary Self-identification Application. Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>.

One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant applied to multiple programs. Applicants identify the program(s) they applied to on the Self-identification Application. The applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they applied to in addition to completing any other application required for that program(s). If you applied to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by whatever the earliest deadline date is for the programs for which you have applied to.

Indigenous applicants will also be required to apply to the Midwifery Program by February 1 of the year in which they are applying. All appropriate transcripts from secondary and post-secondary education must be submitted to the Office of the Registrar by February 1.

Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates.

Transfer Credit

Students with previous university education may be eligible for transfer credits for non-clinical courses in Levels I and II. Transfer credits will be determined on an individual basis, after the admitted students have accepted their Offer of Admission.

Selection Procedure

The Midwifery Education Program has a limited number of placements and the admission process is very competitive. The admission requirements stated are minimum requirements. Preference will be given to applicants with the best qualifications. The actual standing required for admission in recent years has been an average in the mid to high 80s. The program has a two-step selection procedure:

1. Assessment of academic eligibility. Applicants must be successful at step one to be considered for step two.
2. Admission interview - selected applicants will be invited to Hamilton for an interview. The interview process will consist of ten, ten-minute interviews. The interviews typically take place on a Saturday at the end of April, but this is subject to change. Candidates must attend on the date and at the time specified.

Offers of admission will be made following the interview process.

Offers based on interim grades will be conditional upon maintaining satisfactory performance on final grades, and are based on the results from step 2.

Application for Deferred Registration

Applications are not held over from one year to another; if an applicant is selected for admission, they cannot defer this to a future year and will be asked to reapply.

Unsuccessful Applicants

If an unsuccessful applicant, or an applicant who refuses their offer of admission, wishes to reapply to the Midwifery Education Program, a new application, including transcripts and supplementary materials must be submitted.

Application Deadline

Submission of completed application forms to the Ontario Universities' Application Centre must be received by the University no later than February 1 of the year in which registration is expected. All certified transcripts from secondary and post-secondary education previously attended must be forwarded to the Office of the Registrar and received by February 1. Applications received after February 1 will not be considered.

Immunization

The *Ontario Public Hospitals Act* requires that all persons working in a hospital setting meet certain criteria regarding surveillance for infectious diseases. In order for the requirement of the legislation to be met, students are required to complete the immunization screening process by July 15th in the year of admission and each subsequent academic year. Failure to do so will result in suspension of clinical work. Information will be sent to successful applicants prior to registration.

Police Records Check

An offer of admission is contingent upon provision of a Police Records Check, by July 31st of the year of admission. All registered students are required to have a satisfactory Police Records Check completed by July 31st annually. Expenses for the Police Records Check are the responsibility of the student.

The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:

- All records of Criminal Code (Canada) convictions
- All pardoned sexual offences
- All record of convictions under the Narcotic Control Act
- All records of convictions under the Food and Drug Act
- Any undertakings to enter into a Surety to Keep the Peace

- Any Restraining Orders issued under the Criminal Code (Canada) or the Family Act
- All outstanding warrants and charges

Financial Information

In 2018-2019 the tuition fees for a student in Level I of the Midwifery Education Program were \$9,179.11 for an eight month academic term. Supplementary fees are estimated at \$500.00 per year.

Additional costs include books, supplies, and other learning resources estimated at \$1,200.00 - \$1,700.00.

Students must have access to a vehicle for all placement courses.

Students should expect to relocate for clinical placements.

Students should expect to cover their own travel and accommodation costs during the program. The program strongly suggests that students join both the College of Midwives Subscriber Status and the Association of Ontario Midwives as a student member.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. All students are encouraged to register as soon as Mosaic is available to them.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

In addition to meeting the General Academic Regulations of the University, students enrolled in the Midwifery Education Program will be subject to the following program regulations.

The Midwifery Education Program reserves the right, at any point during the term, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Midwifery Act of Ontario. Such removal will result in the student receiving a grade of F and may result in dismissal from the program.

CONTINUATION IN THE PROGRAM

All courses (clinical and non-clinical) with the subject abbreviation MIDWIF and HTHSCI (as outlined in the Curriculum Plan) are required for the degree. Students are reviewed at the end of each term. Students must achieve a Grade Point Average (GPA) of at least 6.0 in all graded courses and achieve a Pass/Satisfactory performance in all clinical courses at each review to continue in Good Standing in the program.

GOOD STANDING

A student is considered to be in Good Standing when all of the following criteria are met. The student must:

1. achieve a Grade Point Average (GPA) of at least 6.0;
2. achieve a minimum grade of C- in HTH SCI 1D06; and a minimum grade of B- in MIDWIF 1D03, 2G06, 3F03 and 3J06;
3. achieve a minimum grade of C- in HTH SCI 1C06, 1J03, 2M03 and MIDWIF 1F03 (or HTH SCI 3C04), 2F03, with the exception that a grade of D is acceptable in one of those courses;
4. achieve a Pass/Satisfactory performance in all clinical courses MIDWIF 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15 and 4B15;
5. receive a passing grade (minimum D-) in graded courses other than those stated in 2. and 3. above.

PROBATION

A student will be placed on probation if any of the following criteria is met. The student:

1. obtains a GPA less than 6.0;
2. obtains a grade of less than C- in HTHSCI 1D06 or a grade of less than B- in MIDWIF 1D03, 2G06, 3F03 and 3J06;
3. obtains a grade of less than C- in **more than one** of HTHSCI 1C06, 1J03, 2M03 and MIDWIF 1F03 (or HTHSCI 3C04), 2F03;
4. receives an F or a Fail/Unsatisfactory in any clinical course MIDWIF 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15 and 4B15;
5. fails any one course.

If a student receives a CA of less than 6.0 (5.5 to 5.9), he/she may remain in the program, but will be placed on program probation for one reviewing period. A student may be on program probation only once. A student on probation at the completion of Level II, Fall term, must undertake remedial course work and remove the probationary status before proceeding to MIDWIF 2H15. If a student receives a CA of 3.5 - 5.4, he/she may transfer to another program for which he/she qualifies. A student must obtain a minimum pass grade (D-) except in courses with a higher minimum grade requirement (see items 2. and 3. under *Good Standing* above) when a course is repeated and receive an overall CA of 6.0 at the completion of a probation period. Planned course work for any student on probation must be approved by the Academic Review Committee.

GRADUATION REQUIREMENTS

Students who have successfully completed Level III of the program may request permission from the B.H.Sc. (Midwifery) Program Office to graduate with a three-level B.H.Sc. degree. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

REQUIRED TO WITHDRAW

A student will be required to **withdraw** from the program if any of the following criteria is met. The student:

1. obtains a Grade Point Average (GPA) of less than 6.0 at the end of a probation period;
2. fails two of the following courses MIDWIF 1D03; 1F03; 2F03, 2G06; 3J06; 3F03; HTHSCI 1C06; 1D06; 1J03; 2M03;
3. fails any two clinical courses MIDWIF 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15; 4B15;
4. fails the second attempt at a course or receives a grade in the second attempt below C- for any of HTHSCI 1C06, 1D06, 1J03, 2M03, MIDWIF 1F03 (or HTHSCI 3C04), 2F03 or below B- in MIDWIF 1D03; 2G06; 3F03; 3J06;
5. fails to complete program requirements for graduation within the maximum allowable time (five years)(not inclusive of approved leaves of absence);

DEANS' HONOUR LIST, GRADUATION WITH DISTINCTION, PROVOST'S HONOUR ROLL

Students will be evaluated for standing on the Deans' Honour List, Graduation with Distinction and the Provost's Honour Roll only upon completion of the program. Students will be named to the Deans' Honour List and will Graduate with Distinction if they receive no failing, provisional or unsatisfactory grades in any courses throughout the program and achieve a GPA of 9.5, on graded courses taken throughout the program.

For the Provost's Honour Roll, students will be assessed if they have a GPA of 12.0 and have not received a failing, provisional or unsatisfactory grade in any course throughout the program.

GRADUATION REQUIREMENTS

A student is **eligible** for graduation when all of the following criteria are met. The student must:

1. complete all required courses, including electives, with a GPA of at least 6.0 including a minimum grade of C- in HTHSCI 1D06 and a minimum grade of B- in MIDWIF 1D03, 2G06; 3F03; and 3J06;
2. complete HTHSCI 1C06, 1J03, 2M03, MIDWIF 1F03 (or HTHSCI 3C04), 2F03 with a minimum grade of C- with the exception of a D in one of those courses;
3. complete all clinical courses with a Pass/Satisfactory grade;
4. complete all courses for the degree within five years (not inclusive of approved leaves of absence).

The practice of midwifery is regulated by the College of Midwives under the *Midwifery Act*, 1991 and the *Regulated Health Professions Act*, 1991.

The Midwifery Education Program monitors and documents students' clinical experience in order that students meet minimum practice requirements to be eligible for registration to practice. Graduation from the Midwifery Education Program does not guarantee registration with the College of Midwives of Ontario. All applicants to the College must meet additional registration requirements. New graduates are required to work in an established practice for their first year of registration. Regulatory requirements are subject to change from time to time.

MIDWIFERY PROGRAM (B.H.SC.)

The four year program which spans nine terms, includes courses from basic sciences, social sciences, health sciences, women's studies and electives, in addition to clinical courses. A variety of course formats include classroom, distance learning through web conferencing and print-based self-study courses. Teaching methods include lecture format, small group tutorials, self-directed activities and practical learning experiences in both laboratory and clinical practice settings.

INTENSIVES

An Intensives course is 5-7 days in duration and consists of workshop-style presentations focussing on clinical skills. Attendance (100%) is mandatory.

Clinical Courses

Clinical courses consist of a practical and theoretical component and concurrent problem-based weekly tutorials. Students are assigned to a midwifery practice as well as to interprofessional placements including nursing, neonatal intensive care nursery, and obstetrical practices. Throughout the program, students will be placed in more than one midwifery practice within the McMaster Midwifery Program catchment area and will gain clinical experience in a hospital setting and with an obstetrician. **Students should expect to relocate for clinical placements.**

Travel and living expenses are the responsibility of the student.

The Midwifery Education Program reserves the right, at any point during the term, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Midwifery Act of Ontario. Such removal will result in the student receiving a grade of F and may result in dismissal from the program.

REQUIREMENTS

135 units total (Levels I to IV)

NOTE

An asterisk (*) following a course code indicates that transfer credit may be available.

Level I: 30 Units

6 units

- HTHSCI 1D06 A/B - Anatomy and Physiology *

6 units

- HTHSCI 1C06 A/B - Working Across Difference in Midwifery

3 units

from

- INDIGST 3H03 - Indigenous Medicine I - Philosophy
 - INDIGST 3HH3 - Indigenous Medicine II - Practical
- 3 units
from
- MIDWIF 1F03 - Introduction to Research Methods and Critical Appraisal * (Term 2)
- 6 units
- MIDWIF 1D03 - Midwifery The Profession I (Term 1)
 - MIDWIF 1G03 - Midwifery The Profession II (Term 2)
- 3 units
- HTHSCI 1J03 - Life Sciences for Clinical Practice * (Term 1)
- 3 units
from
- One elective from the Faculties of Health Sciences, Humanities, or Social Sciences
- Level II: 30 Units
- 3 units
- HTHSCI 2M03 - Reproductive Physiology (Term 1)
- 15 units
- MIDWIF 2H15 - Normal Childbearing (Term 2)
- 3 units
- MIDWIF 2F03 - Pharmacotherapy (Term 1)
- 6 units
- MIDWIF 2G06 - Clinical Skills for Midwifery Practice (Term 1)
- 3 units
from
- One elective from the Faculties of Health Sciences, Humanities, or Social Sciences
- Level III: 45 Units
- 3 units
- MIDWIF 3I03 - Advanced Clinical Skills I (Term 1)
- 6 units
- MIDWIF 3J06 - Preparation for Primary Maternity Care (Term 1 or Term 2)
- 6 units
- MIDWIF 3K06 - Interprofessional Practice II (Term 1 or Term 2)
- 9 units
- MIDWIF 3A09 - Interprofessional Practice I (Term 1 or Term 2)
- 3 units
- MIDWIF 3F03 - Midwifery Issues (Term 1 or Term 2)
- 3 units
- MIDWIF 3L03 - Advanced Clinical Skills II (Term 2)
- 15 units
- MIDWIF 3H15 - Complications and Consultation (Spring/Summer) (Term 3)
- Level IV: 30 Units
- 15 units
- MIDWIF 4A15 - Maternal and Newborn Pathology (Term 1)
- 15 units
- MIDWIF 4B15 - Midwifery Clerkship (Term 2)

B.H.Sc. Physician Assistant Program

Health Sciences Centre (HSC), Room 4H31A
paprogram@mcmaster.ca

PROGRAM OVERVIEW

McMaster was among one of the first institutions in Canada to launch a Physician Assistant Education Program in 2008. The PA Education program will lead to the

Bachelor of Health Sciences (Physician Assistant) degree. The program is taught using inquiry and problem-based learning, which enhance each student's ability to think critically, solve problems, demonstrate initiative and independence in practice, and promote lifelong learning.

MISSION STATEMENT

The mission of the McMaster University Physician Assistant Education Program is to educate energetic, innovative, committed and caring individuals to become role models in a new health care delivery model practicing medicine under the supervision of a physician to expand health care access for the people of Ontario.

CURRICULUM PLAN

The twenty-four month program begins in September. The first year focuses on the study of the clinical sciences underpinning health care delivery. In the second year, students enter into clinical placements.

YEAR I: CLINICAL SCIENCES

The clinical sciences curriculum is modeled on the McMaster Medical School COMPASS Curriculum and is designed to meet the competencies outlined in the Canadian Association of Physician Assistants Occupation Competency Profile and the Canadian Medical Association accreditation requirements. The curriculum is delivered in small group problem-based learning modules with a focus on the physician assistant's role in health care and the promotion of inter-professional education and training.

The clinical sciences curriculum consists of three Medical Foundations each composed of four components:

1. Clinical Sciences
2. Interviewing, Examination and Reasoning (IER)
3. Professional Competencies
4. Longitudinal Clinical Experience Program (LP)

Medical Foundation 1 (MF1)

- Clinical Science: Oxygen Transport: cardiovascular, respiratory and hematologic physiology and disease.
- IER: Basic communication skills, history taking and physical examination.
- ProComp: Professionalism, the role of the PA, principles and structure of the health care system, chronic disease, determinants of health
- LP

Medical Foundation 2 (MF2)

- Clinical Science: Homeostasis: energy balance, GI, endocrine, nutrition, fluid and electrolyte balance (including renal, acid base, BP) and reproduction, and pregnancy
- IER: Continued development of communication skills, history taking and physical examination with additional focus on GI, endocrine and obstetric and gynecologic systems.
- ProComp: Medical ethics and medical decision making.
- LP

Medical Foundation 3 (MF3)

- Clinical Science: Infection, neoplasia, neurologic, psychiatric and musculoskeletal physiology and disease
- IER: Continued development of communication skills (negotiation and conflict resolution), history taking and physical examination with additional focus on the neurologic, psychiatric and musculoskeletal systems.
- ProComp: Standards of care, laws and codes relevant to medical practice, institutional policies, mental health and society, breaking bad news, end of life decision-making, resource allocation
- LP

YEAR II: CLERKSHIP

In the second year of the program students will undertake 48 weeks of supervised clinical placements. Core experiences will take place in family medicine, medicine, surgery, emergency medicine, pediatrics, geriatrics, and psychiatry. Placements

will take place in Hamilton, in the distributed MacCARE campuses, and in the broader Ontario community. Elective placements will round out the balance of the clinical year and will allow students to pursue additional career interests.

CERTIFICATION

Graduates will qualify to take the Physician Assistant Certification Council of Canada National examination.

ADMISSION REQUIREMENTS

Applicants must achieve a minimum GPA average of 3.0 by February, and complete a minimum of 2 years undergraduate coursework by June - this criteria must be met to start the program in September of the same year. To satisfy the minimum requirements, academic credentials obtained from a Canadian University must be from an institution that is a full member of the Association of Universities and Colleges of Canada (AUCC) or the Council of Ontario Universities (COU). A minimum of 10 full-courses or 20 half courses (two years) is required. Courses that employ small group, self-directed or inquiry learning are excellent preparation for the PA Education program. There is no requirement for applicants to have carried a full course load. Applicants are expected to have achieved an overall simple average of at least 3.0 on the OMSAS 4.0 scale for consideration, but higher grades may be required to be competitive with other applicants.

Upon acceptance, successful applicants will be required to provide detailed medical information, including a record of completion of required immunizations, evidence of Basic Cardiac Life Support certification (Adult and Child CPR) and a satisfactory Police Records Check (at the applicant's expense) upon entering the program and annually thereafter.

ADMISSION PROCEDURES

Application (including the appropriate fee) is to be made through the:

Ontario Universities' Application Centre (OUAC)

170 Research Lane

Guelph, ON, N1G 5E2

<http://www.ouac.on.ca>

This form is required by **February 1st** for admission into the September class of the same year. Access to the supplementary application will be sent by email in mid-February. Please refer to the program's web site for full application details and information regarding the supplementary application form. Upon receipt of the application, supplementary application and certified transcripts, selected applicants will be invited to an interview.

THE ADMISSIONS COMMITTEE WILL CONSIDER:

- University transcripts and GPA
- Supplementary application
- Interview

APPLICATION FOR DEFERRED REGISTRATION

Deferred registrations will not normally be granted in the PA Education Program. Deferred registration may be granted only under exceptional circumstances. Request for deferral must be submitted within two weeks of the offer of admission.

ADVANCED STANDING/TRANSFER

The structure of the PA Education program requires that all students complete the entire program starting with Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

FULL-TIME STATUS

The structure of the program requires that all students be registered in the program on a full-time basis and attendance in all components of the program is mandatory.

FINANCIAL INFORMATION

In 2019-20 the tuition fee for a student in Year I of the PA Education Program is expected to be approximately \$12,000 for a 12 month academic term, plus supplementary fees estimated at \$1,300.00 per year. Additional costs include books, diagnostic equipment and other learning resources estimated at \$2,500.00. Students are also responsible for their transportation costs related to clinical study.

There is a bursary program which has been developed by the University. Bursaries may be awarded to students who are Canadian citizens based on demonstrated financial need. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of education. For further information, please contact the Education program web site or the Student Financial Aid and Scholarships Office at McMaster University.

E. Williams/B.A., B.Ed., M.Ed.

AT MCMASTER, HUMANITIES MEANS LEADERSHIP.

LOOK AT ANY LIST OF THE ATTRIBUTES OF EFFECTIVE LEADERSHIP, AND WHAT DO YOU FIND?

- Strong personal and ethical values;
- The ability to influence others by making reasoned, well thought out arguments;
- Emotional intelligence, achieved both by knowing oneself, and by being able to see the world from the perspective of others;
- Social intelligence, the ability to collaborate, to engage others in conversation, to be sensitive to social situations and to work with those culturally different from ourselves;
- Communication, the ability to effectively convey complex ideas in clear and inspiring ways;
- Creativity, an openness to new ideas and a willingness to question everything, not for the sake of asking questions, but to make this a better world.

These are the skills that build leaders in our communities, in our neighbourhoods, in our classrooms, in our social agencies, in our arts organizations, and in businesses, from corporations to start-ups. Employers in all sectors are finding that these soft skills are hard.

That's where Humanities comes in. In our disciplines, we focus on values, on developing persuasive and rational arguments, on communicating complex and challenging ideas, on collaboration, on creativity, and on critical and constructive thinking. Our students go on to successful leadership roles as lawyers, doctors, teachers, professors, policy analysts, journalists, museum curators, artists, musicians, translators, speech language pathologists, and business executives, to name just a few.

How you get there is up to you. We offer a broad range of programs, many of which can be taken in combination. They include: Studio Art, Music, Theatre and Film, Art History, Classics, History, Communication Studies, Multimedia, English and Cultural Studies, French, Cognitive Science of Language, Linguistics, Peace Studies, Philosophy, and Justice, Political Philosophy and Law. You can combine most programs with those in Social Sciences, Mathematics with English, French, History or Philosophy, or Biology and Philosophy. We offer courses in a variety of languages and in women's studies, many of which can lead to a Minor. Students may also take a Specialized Minor in Commerce, an Interdisciplinary Minor in African and African Diaspora Studies, Archaeology, Community Engagement, Social Justice and Inclusive Communities, or Sustainability.

We look forward to having you in our classrooms, our workshops, our performance spaces and our laboratories. We will work with you and help you work with others to build the skills you need to be the agents of change that our world so desperately needs.

TYPES OF DEGREE PROGRAMS

Upon successful completion of Humanities I, a student may be admitted to a program of study leading toward a Bachelor of Arts degree. Completion of Music I may lead to a Bachelor of Music (Honours) or Bachelor of Arts degree. Completion of Studio Art I leads to a Bachelor of Fine Arts (Honours) degree. Three types of programs lead toward a Bachelor's degree in the Faculty of Humanities.

SINGLE HONOURS PROGRAM

Honours Bachelor of Arts programs consist of a total of 120 units of work typically completed over four years of full-time study. Honours programs provide a concentration in the work of a single discipline (e.g. History). The Honours Bachelor of Music (B. Mus. Honours) consists of 123 units total, with three years of full-time Music study beyond Music 1. The Honours Bachelor of Fine Arts (B.F.A. Honours) is completed in 120 total units, or three years of full-time Art study beyond Studio Art I.

COMBINED HONOURS PROGRAM

Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programs, a student may combine work in any two disciplines within the Humanities for completion of a Combined Honours Bachelor of Arts degree (e.g. English and Peace Studies). These combinations are available within the Faculty, in combination with programs in the Faculty of Social Sciences (e.g. History and Political Science), and with select offerings in the Arts and Science Program, or select combinations with Math or Biology. Students will complete 120 units, including approximately 36 units of work beyond Level I in each component of the program (normally 12 units per level in each subject). The Honours B.A. in Justice, Political Philosophy and Law is not available in combination with another subject.

B.A. PROGRAM

Bachelor of Arts programs consist of a total of 90 units, typically completed over three years of full-time study, and concentrated in the work of a single discipline. The content and the requirements of Single Honours, Combined Honours and other B.A. programs are found after the Academic Regulations below.

There are a number of Humanities courses without prerequisites which may be taken as electives. Individual course descriptions are listed by department in the Course Listings section of this Calendar.

Not only are students from other Faculties able to take individual courses which have no prerequisites, but they are also able to transfer into any of the degree programs offered by the Faculty of Humanities. For the majority of programs in the Faculty, admission may be gained after the successful completion of any Level I program at the university, providing this includes the necessary program requisites as outlined in the admission statement for each Humanities program as described under Programs for the B.A., B.A. (Honours) and B.Mus. (Honours) Degrees.

Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities

The Specialized Minor in Commerce for Humanities students is administered by the DeGroote School of Business. A maximum of 30 students will be admitted each year to this Specialized Minor.

NOTES

1. For admission, Humanities students (Level 1) must complete an application for admission to the Minor by using the Service Request function in the Student Centre in Mosaic during the Program/Plan Selection process in April.
2. Students must also be admitted to a Single Honours B.A. in one of the following programs: Art History, Classics, Cognitive Science of Language, Communication Studies, English and Cultural Studies, French, History,

Justice, Political Philosophy and Law, Linguistics, Multimedia, Philosophy, or Theatre & Film Studies.

3. Students seeking the Specialized Minor in Commerce for Humanities must have completed ECON 1B03 with a grade of at least B-, and one of MATH 1M03 or ECON 1BB3.
4. Students must have a Grade Point Average of at least 6.0 to be considered for entry into the Minor.
5. Students planning to apply to the accelerated MBA program at McMaster are strongly encouraged to consult with MBA Admissions at the Ron Joyce Centre regarding admission requirements. In addition to meeting all other admission criteria students must complete, with a minimum grade of B-, the following courses:
 - all three of ECON 1B03, 1BB3, and MATH 1M03;
 - all level 2 Commerce courses listed below;
 - COMMERCE 3FA3, and 3MC3

REQUIREMENTS

33 units total

6 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour

18 units

from

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2KA3 - Information Systems in Business
- COMMERCE 2MA3 - Introduction to Marketing
- COMMERCE 2QA3 - Applied Statistics for Business
- COMMERCE 2OC3 - Operations Management
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3S03 - Management Skills Development

3 units

from

- HUMAN 3LM3 - Foundations of Leadership

or

- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab

6 units

- Level III or IV Commerce courses

Minor

A Minor is an option available to a student enrolled in a four-level honours program. Normally, you must complete a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the minor. At least 18 units must be completed at McMaster. Students are responsible for ensuring that they take courses that meet these requirements (**using elective units only.**) When enrolling in cross-listed courses to be applied towards a Minor, students must ensure that they enrol in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of a Minor when they graduate. If recognition for a Minor is granted, it will be recorded on the student's transcript. Minors cannot be revoked once approved. **Students may return for a second degree in the subject in which they have obtained a Minor**, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

Concurrent Certificates

Concurrent certificates are an option available to any student in an undergraduate degree program, and may be completed as part of a student's elective credit. Some concurrent certificates will require a student be admitted to this option, while others may involve completion of course credit and declaring certificate comple-

tion at the time of graduation. Students should consult the relevant certificate's guidelines for admission and completion, and/or the department offering the concurrent certificate for additional information. Concurrent certificate programs offered by the Faculty of Humanities include:

- **Concurrent Certificate in Essential French** (*offered by the Department of French*)
- **Concurrent Certificate in Professional French** (*offered by the Department of French*)
- **Concurrent Certificate in International Engagement** (*offered by the Faculty of Humanities*)
- **Concurrent Certificate in Leadership & Cross-Cultural Literacy** (*offered by the Faculty of Humanities*)
- **Concurrent Certificate in the Language of Medicine and Health** (*offered by the Department of Classics*)
- **Concurrent Ethics and Policy for Technological Innovation Certificate (EPTIC)** (*offered by the Department of Philosophy*)

Second Language Proficiency

Students embarking on Humanities programs should be aware that most graduate schools require, for admission, proficiency in at least one, and frequently two, languages other than English. In this Faculty, proficiency in at least one language other than English is regarded as an essential tool for students interested in Linguistics. Generally, proficiency in more than one language is a hallmark of most highly-qualified Humanities' graduates seeking the widest range of post-graduation academic and employment opportunities.

Part-Time Study

Students wishing to enter any program offered by the Faculty of Humanities and pursue a program on a part-time basis should consult the appropriate Departmental Counsellor(s) before making their plans.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in Humanities programs, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations and Policies.

APPLICATION FOR LEVEL II PROGRAMS/PLANS

For students applying for Honours Justice, Political Philosophy, and Law, the mandatory supplementary application is due prior to the end of Program/Plan Selection in April: <http://philos.humanities.mcmaster.ca/jppl-program>.

Step 1: Attend the Humanities Majors Fair (in early March)

The Faculty hosts a Majors Fair for Level I students to provide information regarding program and plan options for Level II, the range and nature of subjects studied in particular discipline areas, as well as possible career and postgraduate options.

Step 2: Selecting a Level II Program (prior to the end of Program/Plan Selection in April)

Student seeking admission to a Level II program/plan for the following Fall and Winter terms must complete an application by using their MacID to log-on to Mosaic.

- Click the "Student Center" tab.
- Click the "My Academics" link.
- Click "Program/Plan Application" link.

Please note the following IMPORTANT information:

- Students must rank order their program choices **carefully**, especially if they want to be considered for admission to a limited enrolment program such as Multimedia or Justice, Political Philosophy & Law.
- Students who are admitted to their FIRST choice program, will NOT be evaluated for any other program selections.
- Students who are NOT admitted to their first choice, will be evaluated for their second choice, third choice, and so on.
- Students may apply to a maximum of **four programs**.
- For students applying for Honours Justice, Political Philosophy, and Law, the mandatory supplementary application is due prior to the end of Program/Plan Selection in April: <http://philos.humanities.mcmaster.ca/jppl-program>

Step 3: View your Program (Late May)

In late May, students must check the Student Centre in Mosaic to see their program for the Fall and Winter terms.

MINIMUM REQUIREMENTS FOR ENTERING AND CONTINUING IN A PROGRAM BEYOND LEVEL I

Honours B.A. Programs, BFA (Honours) Program, and B.Mus. (Honours) Program: You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. Programs

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

DEFERRED EXAMINATIONS AND DEFERRED TERM WORK

Students who have been granted more than one deferred examination or term-work privilege may be required by their Faculty/Program office to **reduce their course load** during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the application for deferred examinations.

TRANSFER TO THE FACULTY OF HUMANITIES

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Humanities provided that they have obtained a Grade Point Average of at least 3.5 and have completed the necessary requirements for admission to a program.

REINSTATEMENT TO THE FACULTY OF HUMANITIES

A student who may not continue at the University may apply for reinstatement; however, **reinstatement is not automatic or guaranteed**. Application for rein-

statement must be made to the Office of the Registrar using the *Reinstatement Request Form* by the deadline for the session. See the Sessional Dates section of this Calendar.

The form should explain the reasons for the student's inadequate performance, and should include relevant documentary evidence, for example a letter from a physician outlining any medical condition that might have affected the student's academic performance or final grades. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation. If students are reinstated at the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may (at Faculty discretion) retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation with Distinction or other recognition based on the Grade Point Average.

If, at any review after reinstatement, the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

COURSE SELECTION AND COURSE CHANGES

Students are responsible for ensuring that their course selection meets the requirements of the degree program in which they are enrolled, that prerequisites have been met, and that, where necessary, permission to take courses has been obtained. They should review their personal advisement report each time they cancel or add courses, and contact an Academic Advisor if they have questions, **particularly if the advisement report shows unused courses**. Students should also be aware that changes to their course load may affect their fees and their eligibility for scholarships and financial aid such as OSAP.

OVERLOAD

Fall/Winter Session: Normally students may not enrol in more than 30 units during the Fall/Winter Session (33 units for students in Music I.) **A student with outstanding deferred examinations or incomplete term-work will not be permitted to overload in the following term.** Students may take an overload up to six units under the following circumstances:

1. if a student has a Sessional Average of at least 7.0 in the immediately preceding review period; or
2. if the student is enrolled in the final Level of his/her program.

Spring/Summer Session: Students wishing to enrol in more than 12 units during the Spring/Summer Session or more than six units in either term of that Session, may do so only with the permission of the Assistant Dean of Humanities.

LETTER OF PERMISSION

Students in good academic standing, who wish to attend another university to take courses for credit toward a McMaster degree, must first request a Letter of Permission in the Student Centre in Mosaic. A Letter of Permission is automatically cancelled if a student is placed on academic probation, program probation, or required to withdraw from the University. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the University's minimum residence requirement, will not be included in the calculation of the averages at McMaster, and therefore cannot be used to raise standing. The transcript designation will read T, indicating transfer credit has been granted, when a C- or better is attained. It is the student's responsibility to ensure that an official transcript from the host university is sent to the Academic Advising Office to receive credit for work taken.

SUMMER IMMERSION PROGRAMS IN FRENCH

- Students must obtain approval from the Academic Advising Office prior to participating in any language immersion program. Failure to obtain prior approval may result in transfer credit not being accepted.
- The government-sponsored Explore summer language program offers university students the opportunity to take French courses at a large

number of accredited institutions. Students wishing to attend another university in order to participate in a language immersion program must: (a) petition the Academic Advising Office, (b) submit detailed course descriptions for assessment, and (c) obtain a Letter of Permission.

Students enrolled in a program in French may take a maximum of six units of credit in this manner as elective work only. Students not enrolled in a program in French may take up to 12 units of credit.

HUMANITIES STUDY ABROAD

Humanities Study Abroad During Level III of Honours Programs

There are two ways to undertake international studies during Level III of an Honours program: (i) a Formal Exchange Program or (ii) Independent Study Abroad through a Letter of Permission.

(I) Formal Exchange Program During Level III of Honours Programs

Formal Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. See the General Academic Regulations section of this Calendar and the sections on Eligibility and Application below.

- Eligibility for the McMaster Exchange Program
- Students enrolled in any Honours or Combined Honours program in the Faculty of Humanities may apply to replace all or part of the work of their third year with an acceptable program of study taken at a university approved by the Faculty of Humanities.
- To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. Individual programs may have additional requirements. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students taking part in this program do not have the option of graduating with a three-year B.A. degree on the basis of work completed in this program, but must return to McMaster University to complete their final 30 units of work.
- Students may receive up to 30 units of credit for a full year of study at another institution. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Academic Advising Office has received transcripts and reviewed students' academic achievements following their return and after they have officially enrolled for Level IV.
- Application for the McMaster Exchange Program
- Students interested in applying for this program should consult the Academic Advising Office approximately one year before they anticipate studying abroad (i.e. during the Fall term of the year in which they enter Level II.) Applications are submitted through International Student Services and are normally due in January of Level II.

(II) Independent Study Abroad

Qualified students may undertake studies at a university abroad through a Letter of Permission. Students enrol at and pay tuition fees to the other institution. See the *General Academic Regulations* section of this Calendar and the sections on Eligibility and Application below.

- Eligibility for Study Abroad through Letter of Permission
- Students in good standing in the Faculty of Humanities may apply for a Letter of Permission to take coursework abroad towards their degree. The coursework must be approved in advance by the faculty office. Students must apply directly to, and be accepted by, the other school.
- The awarding of transfer credit for work completed elsewhere may be confirmed only after the Academic Advising Office has received transcripts and reviewed students' academic achievements following their return.
- Application for Study Abroad through a Letter of Permission
- Students should consult with an academic advisor on the coursework to be taken abroad prior to applying. A Letter of Permission must be given by McMaster to be permitted to take coursework elsewhere for transfer

credit. Students apply directly to the other school to be accepted, and must be aware of the other school's dates and deadlines.

Level I Programs

HUMANITIES ACADEMIC ADVISING OFFICE

Chester New Hall, Room 107

ASSISTANT DEAN (STUDIES)

J. Osterman/B.A., B.Admin., M.Ed.

HUMANITIES 1

Students admitted to Humanities 1 must complete 30 units as follows:

PROGRAM NOTES

1. A full-course load for Humanities 1 is 30 units. (The final digit in course numbers indicates the unit weight of a course. A six-unit A/B course is taught from September to April and a three-unit course is normally a half-year course which may be taught either from September to December or January to April).
2. Admission to a Level II program normally requires completion of three to six units of the relevant subject in Level I. In order to be considered for admission to a Level II program, students should consult the admission statements for Level II programs when selecting their Level I courses.
3. Humanities 1 students are permitted to take up to 12 units of work in any single subject.
4. Students with a Grade 12 U course in Greek or Latin will register for six units of Level II Greek or Latin in lieu of the corresponding 1Z03 and 1ZZ3 courses.
5. Humanities 1 students may take no more than 12 units of introductory language courses.
6. Students uncertain as to whether language course prerequisites best reflect their linguistic ability are encouraged to consult the appropriate department for placement tests.
7. Students wishing to take Music courses other than MUSIC 1A03 or MUSIC 1AA3 must make arrangements with the School of the Arts for qualifying tests.

COURSE LIST 1

- ARTHIST 1A03 - World Art and Cultural Heritage I
- ARTHIST 1AA3 - World Art and Cultural Heritage II
- CLASSICS 1A03 - Introduction to Classical Archaeology
- CLASSICS 1B03 - An Introduction to Ancient Myth and Literature
- CLASSICS 1M03 - History of Greece and Rome
- CMST 1A03 - Introduction to Communication
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- FRENCH 1A06 A/B - Introduction to French Studies: Advanced Level
- FRENCH 1Z06 A/B - Beginner's Intensive French I
- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- HISTORY 1CC3 - The Rise of Empires, 500-1950
- HISTORY 1DD3 - The Making of the Modern World, 1750-1945
- HISTORY 1EE3 - The Historical Roots of Contemporary Issues
- HISTORY 1FF3 - Exploring History in a Small Group Setting
- HISTORY 1M03 - History of Greece and Rome
- LATIN 1Z03 - Beginner's Intensive Latin I
- LATIN 1ZZ3 - Beginner's Intensive Latin II

- LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
- LINGUIST 1AA3 - Introduction to Linguistics: Words, Sentences and Meaning
- MMEDIA 1A03 - Multimedia and Digital Society
- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II
- PEACEST 1A03 - Introduction to Peace Studies
- PHILOS 1A03 - Philosophical Texts
- PHILOS 1B03 - Philosophy, Law and Society
- PHILOS 1E03 - Philosophical Questions
- PHILOS 1F03 - Meaning in Life
- THTRFLM 1T03 - Introduction to Theatre, Cinema and Society

COURSE LIST 2

(Humanities courses available to Level I students. These courses do not provide entry into a Level II program)

- ART 1T13 - Making Art and Understanding Technology & Images
- ART 1U13 - Making Art and Understanding Images
- CHINESE 1Z06 A/B - Mandarin Chinese for Beginners
- GERMAN 1B03 - Intermediate German I
- GERMAN 1BB3 - Intermediate German II
- GERMAN 1Z06 A/B S - Beginner's Intensive German
- HUMAN 1QU3 - Insight and Inquiry: Questions to Change the World
- ITALIAN 1A03 - Intermediate Italian I
- ITALIAN 1AA3 - Intermediate Italian II
- ITALIAN 1Z06 A/B S - Beginner's Intensive Italian
- JAPANESE 1Z06 A/B S - Beginner's Intensive Japanese
- LINGUIST 1Z03 - Structure of Modern English I
- LINGUIST 1ZZ3 - Structure of Modern English II
- MUSIC 1EE6 A/B - Solo Performance *
- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band *
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir *
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble *
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band *
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble *
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra *
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir *
- POLISH 1Z03 - Beginner's Polish I
- POLISH 1ZZ3 - Beginner's Polish II
- RUSSIAN 1Z03 - Intensive Beginner's Russian I
- RUSSIAN 1ZZ3 - Intensive Beginner's Russian II
- SPANISH 1A03 - Intermediate Spanish I
- SPANISH 1AA3 - Intermediate Spanish II
- SPANISH 1Z06 A/B - Beginner's Intensive Spanish
- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

* See Program Note 6 above regarding Level I MUSIC courses.

REQUIREMENTS

12 units

from

- *Course List 1* (When selecting courses, please consult the admission statements for Level II programs.)

3 units

- HUMAN 1VV3 - Voice and Vision: Words to Change the World

15 units

- Electives, which may include courses from *Course Lists 1 and 2*

STUDIO ART 1

PROGRAM NOTE

The Honours Studio Art program is a limited enrolment program for which entrance requires the permission of the School of the Arts and a successful portfolio interview. The portfolio should contain a variety of works in different media that represent the applicant's creative abilities and interests. Aptitude in art, academic ability and demonstrated commitment to the discipline are considered in the selection process. In exceptional circumstances, where distance does not allow for an interview, portfolios may be submitted in the form of electronic digital images or photographs. Portfolio interviews occur between January and April each year for entrance in September of the same calendar year. Only those students who call the Office of the School of the Arts (905-525-9140, ext. 27671) before March 1st to book appointments for portfolio interviews will be guaranteed consideration for entrance into the Level I Art program. (Late applicants will only be interviewed if space availability permits).

REQUIREMENTS

Students admitted to Studio Art 1 must complete 30 units as follows:

12 units

- ART 1DM3 - Dimensional Material Investigations and Concepts
- ART 1MI3 - Material Investigations and Concepts
- ART 1OS3 - Observational Studies
- ART 1SI3 - Studio Investigations

1 course

- WHMIS 1A00 - Introduction to Health and Safety

6 units

- ARTHIST 1A03 - World Art and Cultural Heritage I
- ARTHIST 1AA3 - World Art and Cultural Heritage II

12 units

- Electives

MUSIC 1

NOTES

Completion of a Music degree requires considerable daytime attendance.

PROGRAM NOTES

1. Students interested in entering Honours Music (Music Cognition) must have completed Grade 12 Biology, or enroll in BIOLOGY 1P03 in the first term of Level I concurrently with PSYCH 1X03.
2. Applicants to Music 1 must book an audition with the School of the Arts to take place usually in February and March.

COURSE LIST 1

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble

- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Women's Choir

REQUIREMENTS

Students admitted to Music 1 must complete 33 units of work as follows:

21 units

- MUSIC 1CA3 - Theory and Analysis I
- MUSIC 1CB3 - Theory and Analysis II
- MUSIC 1DA3 - Practical Musicianship I
- MUSIC 1DB3 - Practical Musicianship II
- MUSIC 1E06 A/B - Solo Performance
- MUSIC 1MH3 - Music History I: Music and Culture

3 units

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir

9 units

Electives, excluding *Course List 1 (Students intending to enter the Honours Music (Music Cognition) program must take PSYCH 1X03 and PSYCH 1XX3.)*

The School of the Arts offers programs in:

- Studio Art
- Art History
- Music
- Theatre & Film Studies

In addition, Minors are available in: Art History, Music and Theatre & Film Studies.

ARTS & SCIENCE COMBINATIONS WITH SCHOOL OF THE ARTS PROGRAMS:

- Honours Arts & Science and Art History (B.Arts.Sc.; See *Arts & Science Program*)
- Honours Arts & Science and Music (B.Arts.Sc.; See *Arts & Science Program*)
- Honours Arts & Science and Theatre & Film Studies (B.Arts.Sc.; See *Arts & Science Program*)

COMBINED HONOURS IN ART HISTORY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in one of ARTHIST 1A03 or ARTHIST 1AA3. Students must complete both ARTHIST 1A03 and 1AA3 by the end of Level II.

NOTES

1. Before choosing Level II and III courses, students should become familiar with the prerequisites for Level III and IV courses.
2. Students intending to pursue graduate work in Art History should note that most universities offering such programs require undergraduate work in at least one foreign language for admission. Students are encouraged to include the study of foreign languages as early as possible in their program.
3. Students interested in enrolling in 3AB3 Applied Art History: Experiential Learning with Placement as an Intern must finalize planning of their internship with the program Counsellor no later than January 30 in order to begin the course in May, by April 30 in order to begin in September, or September 30 in order to begin in January of the same year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

15 units

- Level II Art History

0-3 units

If not completed in Level I

- ARTHIST 1A03 - World Art and Cultural Heritage I or
- ARTHIST 1AA3 - World Art and Cultural Heritage II

15 units

- Level III Art History

3 units

- Level IV Art History

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18-21 units

- Electives to total 120 units

COMBINED HONOURS IN MUSIC AND ANOTHER SUBJECT (B.A.)**NOTES**

Completion of a Music degree requires considerable daytime attendance.

ADMISSION

Completion of Music I and a Grade Point Average of at least 5.0.

PROGRAM NOTE

Students in the Combined Honours B.A. in Music and Another Subject program can only use a total of 12 units from Course List 3 as credit toward their degrees.

COURSE LIST 1

All Level III and IV Music courses, including

HEALTHSCI 3MU3 - Music, Health, & the Community

The following exceptions may not be used toward this course list:

- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 3GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 3GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 3GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 3GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 3GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 3Z03
- MUSIC 4GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 4GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 4GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 4GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 4GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 4GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 4GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 4GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MMEDIA 3C03 - Interactive and Spatial Audio

COURSE LIST 2

- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2II3 - Popular Music in North America and the United Kingdom: Post-World War II
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 2MU3 - Introduction to Music Therapy Research
- MUSIC 2T03
- MUSIC 2TT3 - Broadway and the Popular Song
- MUSIC 2U03 - Jazz
- MUSIC 2Z03
- MUSIC 3Z03
- MMEDIA 2G03 - Introduction to Digital Audio
- MMEDIA 3C03 - Interactive and Spatial Audio

COURSE LIST 3

- MUSIC 1G03

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble

- Electives, including no more than 6 units from *Course List 3*, to total 120 units

COMBINED HONOURS IN THEATRE & FILM STUDIES AND ANOTHER SUBJECT (B.A.)

PROGRAMS IN THEATRE & FILM STUDIES

Theatre & Film Studies is a liberal arts program that integrates critical analysis with experiential learning. We study performance in a range of media, cultures, and historical periods. Students learn to critically engage with the processes of conception, design, production, and reception of theatre, film, performance art, video art, and with the performativity of our everyday lives. Our experiential learning courses use current devised theatre practices to engage students with performance through studio work and public productions. All our courses encourage students to adopt inventive and critical perspectives on creative processes and foster collaborative understandings of artistic creation.

NOTE

Students registered in Honours Theatre & Film Studies are encouraged to complete elective courses in related art forms.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in THTRFLM 1T03.

COURSE LIST 1

- THTRFLM 3AA3 - Modernist Drama and Theatre in Europe
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre
- THTRFLM 3FF3 - Early Cinema History
- THTRFLM 3L03 - Cinema History from WWII
- THTRFLM 3M03
- THTRFLM 3P03 - Women and Visual Culture
- THTRFLM 3U03 - Pleasure and Critique in Dramatic Performance

COURSE LIST 2

- THTRFLM 3N03 - Artists' Alternative Film and Video
- THTRFLM 3OP6 A/B - Organizing the Performance Space
- THTRFLM 3PC3 - Performance and Community Engagement
- THTRFLM 3PR3 - Text-based Devising: Research and Development
- THTRFLM 3PS3 - Devising New Plays: Research and Development
- THTRFLM 3S03
- THTRFLM 3S06 - Major Production Workshop
- THTRFLM 3SD3 - Scripting the Devised Performance
- THTRFLM 3VS3 - Visual Storytelling
- THTRFLM 3WW3 - Acting and the Voice: Devising from Classical Texts
- THTRFLM 3XX3 - Acting and the Body: Devising Physical Theatre

COURSE LIST 3

- ARTHIST 2A03 - Visual Literacy
- ARTHIST 2R03 - The History of Fashion and Identity
- ARTHIST 2T03 - Art, Theatre and Music in the Enlightenment
- ARTHIST 3Q03 - Colours of the World
- CLASSICS 2E03 - The Ancient World in Film
- CLASSICS 2Y3 - Greek Tragedy
- CMST 2G03 - Performance and Performativity
- ENGLISH 2CR3 - Shakespeare: Comedies, Problem Plays, and Romances
- ENGLISH 2HT3 - Shakespeare: Histories and Tragedies
- ENGLISH 3CC3 - Reading Film
- GERMAN 2N03 - The Holocaust in Film and Fiction (Taught in English)
- GERMAN 2P03 - Modern Germany Through Film: Symphonies of Magic & Horror (Taught in English)
- GERMAN 2S03
- INDIGST 3EE3 - Indigenous Representations in Film
- INDIGST 3G03 - Indigenous Creative Arts and Drama: Selected Topics
- ITALIAN 3X03 - Italy Today Through Film (Taught in English)
- MMEDIA 2G03 - Introduction to Digital Audio
- MMEDIA 3C03 - Interactive and Spatial Audio
- MUSIC 2F03 - Music for Film and Television

36 units

- courses specified for the other subject

(Combinations with Social Sciences may require more than 36 units.)

18 units

- electives to total 120 units

HONOURS ART HISTORY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in one of ARTHIST 1A03 or ARTHIST 1AA3. Students must complete both ARTHIST 1A03 or ARTHIST 1AA3 by the end of Level II.

NOTES

1. Before choosing Level II and III courses, students should become familiar with the prerequisites for Level III and IV courses.
2. Students intending to pursue graduate work in Art History should note that most universities offering such programs require undergraduate work in at least one foreign language for admission. Students are encouraged to include the study of foreign languages as early as possible in their program.
3. Students interested in enrolling in 3AB3 Applied Art History: Experiential Learning with Placement as an Intern must finalize planning of their internship with the program Counsellor no later than January 30 in order to begin the course in May, by April 30 in order to begin in September, or September 30 in order to begin in January of the same year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

18 units

- Level II Art History

0-3 units

If not completed in Level I

- ARTHIST 1A03 - World Art and Cultural Heritage I or
- ARTHIST 1AA3 - World Art and Cultural Heritage II

21 units

- Level III Art History

6 units

- Level IV Art History

42-45 units

- Electives

HONOURS ART HISTORY WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroot School of Business.

HONOURS THEATRE & FILM STUDIES (B.A.)

PROGRAMS IN THEATRE & FILM STUDIES

Theatre & Film Studies is a liberal arts program that integrates critical analysis with experiential learning. We study performance in a range of media, cultures, and historical periods. Students learn to critically engage with the processes of conception, design, production, and reception of theatre, film, performance art, video art, and with the performativity of our everyday lives. Our experiential learning courses use current devised theatre practices to engage students with performance through studio work and public productions. All our courses encourage students to adopt inventive and critical perspectives on creative processes and foster collaborative understandings of artistic creation.

NOTE

Students registered in Honours Theatre & Film Studies are encouraged to complete elective courses in related art forms.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in THTRFLM 1T03.

COURSE LIST 1

- THTRFLM 3AA3 - Modernist Drama and Theatre in Europe
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre
- THTRFLM 3FF3 - Early Cinema History
- THTRFLM 3L03 - Cinema History from WWII
- THTRFLM 3M03
- THTRFLM 3P03 - Women and Visual Culture

- THTRFLM 3U03 - Pleasure and Critique in Dramatic Performance

COURSE LIST 2

- THTRFLM 3N03 - Artists' Alternative Film and Video
- THTRFLM 30P6 A/B - Organizing the Performance Space
- THTRFLM 3PC3 - Performance and Community Engagement
- THTRFLM 3PR3 - Text-based Devising: Research and Development

3 units

from

- *Course List 5*

30 units

- Electives, excluding *Course List 5*

HONOURS MUSIC (B.MUS.) (MUSIC COGNITION)

NOTES

Completion of a Music degree requires considerable daytime attendance.

ADMISSION

Enrolment in this program is limited. Admission requires, as a minimum, completion of Music I, a Grade Point Average of at least 5.0, and an average of at least 5.0 in PSYCH 1X03 (or 1F03) and PSYCH 1XX3 (or 1FF3).

PROGRAM NOTES

1. Students interested in this program must have completed Grade 12 Biology U, or enroll in BIOLOGY 1P03 in the first term of Level I, concurrently with PSYCH 1X03.
2. More advanced training in statistics is recommended for students in this program (especially if students plan to conduct independent research in the future), but is not required. Students wanting more advanced statistics training should take PNB 2XE3 and PNB 3XE3. For permission to take these courses, please see the Academic Advisor in the Department of Psychology, Neuroscience & Behaviour.
3. The courses appearing in Course List 1 are specifically intended to prepare students to attend a Faculty of Education and for a career in school and

music teaching. Students interested in Music Education are advised to consult the Music Counsellor during Level I for advice on fulfilling the entrance requirements of Faculties of Education.

4. Students who intend to pursue graduate studies in music history or theory or who wish to use the music degree as preparation for post-graduate studies in other professions should select a significant number of the courses in Course List 2.
5. Students in the Honours B.Mus. (Music Cognition) program can only use a total of 12 units from *Course List 5* as credit toward their degrees.
6. Although it is listed as an option, students are encouraged to complete MUSICCOG 4D06 A/B - Thesis in Music Cognition.
7. PSYCH 2E03 is recommended as preparation for MUSICCOG 4MP3.

COURSE LIST 1

- HTHSCI 3MU3 - Music, Health, & the Community
- MUSIC 2CG3 - Classical Guitar Methods
- MUSIC 3AA3 - Elementary Music Education
- MUSIC 3CG3
- MUSIC 3J03 - Orchestration and Arranging
- MUSIC 3K03 - Brass Methods
- MUSIC 3L03 - Woodwind Methods
- MUSIC 3M03 A/B - String Methods
- MUSIC 3N03 - Vocal Methods
- MUSIC 3O03 - Conducting
- MUSIC 3P03 - Percussion Methods
- MUSIC 3V03 - Foundations of Music Education
- MUSIC 4K03 - Brass Methods
- MUSIC 4L03 - Woodwind Methods
- MUSIC 4M03 A/B - String Methods
- MUSIC 4N03 - Choral Methods
- MUSIC 4OC3 - Advanced Conducting: Choral
- MUSIC 4OI3 - Advanced Conducting: Instrumental
- MUSIC 4P03
- MUSIC 4Q03
- MUSIC 4V03 - Current Issues in Music Education

COURSE LIST 2

- MUSIC 3CM3 - Modal Counterpoint
- MUSIC 3CT3 - Tonal Counterpoint
- MUSIC 3H03 - Analysis
- MUSIC 3JJ3 - Topics in Music History: Music Before c. 1750
- MUSIC 3KK3 - Topics in Music History: Music from c. 1750-c. 1900
- MUSIC 3Y03
- MUSIC 3YY3
- MUSIC 4C03 - Advanced Studies in Harmony and Counterpoint
- MUSIC 4H03 - Advanced Studies in Analysis

MUSIC 4R03

- MUSIC 4Y03 - Topics in Music History: Advanced Musicology Seminar

COURSE LIST 3

- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2D03 A/B
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2II3 - Popular Music in North America and the United Kingdom: Post-World War II
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 2MU3 - Introduction to Music Therapy Research
- MUSIC 2T03
- MUSIC 2TT3 - Broadway and the Popular Song
- MUSIC 2U03 - Jazz
- MUSIC 2Z03
- MUSIC 3MT3

- MUSIC 3Z03
- MUSIC 4S03
- MUSIC 4U03
- MUSIC 4Z03 - Composition
- MUSIC 4ZZ3 - Advanced Composition
- MMEDIA 2G03 - Introduction to Digital Audio
- MMEDIA 3C03 - Interactive and Spatial Audio

COURSE LIST 4

- MUSIC 3SS3 - Special Studies in Chamber Music or Accompanying I
- MUSIC 4E03 - Solo Performance
- MUSIC 4E06 A/B - Solo Performance
- MUSIC 4SS3 - Special Studies in Chamber Music or Accompanying II

COURSE LIST 5

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 3GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 3GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 3GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 3GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 3GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 4GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 4GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 4GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 4GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 4GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 4GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble

- MUSIC 4GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 4GW3 A/B - Ensemble Performance: McMaster Women's Choir

COURSE LIST 6

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2N03
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3BB3
- PSYCH 3BN3 - Cognitive Neuroscience I
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3GG3 - Essentials of Developmental Psychology
- PSYCH 3H03 - The Arts and The Brain
- PSYCH 3II3
- PSYCH 3NL3 - Cognitive Neuroscience of Language
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO 2018-2019

123 units total (Levels I to IV), of which 51 units may be Level I

33 units

- Music I

18 units

- MUSIC 2B03 - Music History: Music in Western Culture from c. 1750 to the Present
- MUSIC 2BB3
- MUSIC 2CC3 A/B
- MUSIC 2E06 A/B - Solo Performance
- MUSIC 2H03

9 units

from

- MUSICCOG 2MP3 - Introduction to Music Cognition (or MUSICCOG 2A03 or 2MA3)
- MUSICCOG 3MP3
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music (or one of MUSICCOG 3A03, 3MA3, or 4LA3)

3 units

Minor(s):

MINOR IN ART HISTORY

REQUIREMENTS

- 24 units of Art History

MINOR IN MUSIC

REQUIREMENTS

24 units of Music or Music Cognition subject to the prerequisites and qualifying tests specified in this Calendar. No more than nine units of the minor may be from Level I and no more than twelve units of the minor may be from

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 3GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 3GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 3GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 3GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 3GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 4GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 4GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 4GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 4GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 4GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 4GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble

- MUSIC 4GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 4GW3 A/B - Ensemble Performance: McMaster Women's Choir

MINOR IN THEATRE & FILM STUDIES

REQUIREMENTS

- 24 units in Theatre & Film, including up to 9 units from *Course List 3*

Diploma(s)

DIPLOMA IN MUSIC PERFORMANCE

The Diploma is intended to recognize a concentration and achievement in the area of music performance. Students should contact the Academic Counsellor for Music in the School of the Arts for direction on completing the requirements.

NOTES

1. Lesson fees: Lesson fees are charged over and above tuition for MUSIC 2EE6 A/B, MUSIC 3EE6 A/B, MUSIC 3SS3, MUSIC 4EE9 A/B, and MUSIC 4SS3.
2. MUSIC 4E09 A/B and MUSIC 4EE9 A/B must be taken over and above the total number of units required for a McMaster degree. Because these courses may not be used for credit towards any McMaster degree, students pursuing the Diploma must plan their work to accommodate nine extra units.
3. Registration in MUSIC 4E09 A/B and MUSIC 4EE9 A/B requires permission of the School of the Arts. An overall Grade Point Average of at least 8.0 will be required for admission to these courses.

ADMISSION

Students should meet with the Academic Counsellor for Music in the School of the Arts as early as possible in their degree program, but no later than the April before MUSIC 4E09 A/B or MUSIC 4EE9 A/B has begun. However, the application for MUSIC 4E09 A/B or MUSIC 4EE9 A/B will be considered the formal application to be admitted to the diploma program, even though some of the requirements will have been completed in earlier years.

REQUIREMENTS

The Diploma will require completion of **24 units** as follows:

12 units

- MUSIC 2E06 A/B - Solo Performance or
- MUSIC 2EE6 A/B - Solo Performance
- MUSIC 3E06 A/B - Solo Performance or
- MUSIC 3EE6 A/B - Solo Performance

3 units

from

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: McMaster University Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Chamber Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Women's Choir
- MUSIC 3SS3 - Special Studies in Chamber Music or Accompanying I
- MUSIC 4SS3 - Special Studies in Chamber Music or Accompanying II

9 units

- MUSIC 4E09 A/B - Solo Performance, Diploma or
- MUSIC 4EE9 A/B - Solo Performance, Diploma

NOTE

The Diploma will be awarded at the fall convocation of the Centre for Continuing Education following the completion of all requirements.

Department of Classics

<http://classics.humanities.mcmaster.ca/>

Faculty as of January 15, 2019

CHAIR

Claude Eilers (Acting)

PROFESSORS

Michele G. George/B.A. (Toronto), M.A., Ph.D. (McMaster)

ASSOCIATE PROFESSORS

Martin Beckmann/B.A. (Wilfrid Laurier), M.A. Ph.D. (McMaster)

Sean Corner/B.A., M.A. (Oxford), Ph.D. (Princeton)

Claude Eilers/B.A. (Saskatchewan), M.A. (McMaster), D.Phil. (Oxford)

Kathryn Mattison/B.A., Ph.D. (Toronto)

Spencer Pope/B.A. (Middlebury College), Ph.D. (Brown)

ASSISTANT PROFESSOR

Mariapia Pietropaolo/B.A., M.A., Ph.D. (Toronto)

NOTES

1. Students in a Classics program may choose courses from the following subfields: Ancient History and Society, Ancient Philosophy, Classical Archaeology and Art History, Classical Literature in Translation, Greek Language and Literature, Latin Language and Literature.
2. With the approval of the Department of Classics and the Office of the Dean of the Faculty of Humanities, students who have completed 60 units of work of any Honours program in Classics may replace all or part of their Level III work by courses of study at a university or equivalent institution abroad. Consult the Department for further details.
3. Students may receive up to six units of credit for archaeological field work at an approved Classical site. Consult the Department for further details.
4. Students are encouraged to include at least six units of Greek or Latin in their program. GREEK 1Z03, 1ZZ3 and LATIN 1Z03, 1ZZ3, if not completed in the Level I program, may be taken to fulfill the degree requirements. Students intending to do graduate work in the field of Classics should note that most universities offering such programs require several years of undergraduate work in both Greek and Latin for admission. These students are strongly encouraged to include Greek and Latin courses as early as possible in their program.
5. Students intending to do graduate work in the field of Classics may wish to include an independent study course (CLASSICS 4T03 A/B S) in the final level of their program.

For the Honours Arts & Science and Classics program (B.Arts.Sc.), see *Arts & Science Program*.

INTERDISCIPLINARY MINOR IN ARCHAEOLOGY

See the *Interdisciplinary Minors and Thematic Areas* section of this Calendar.

COMBINED HONOURS IN CLASSICS AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Classics, Greek or Latin courses. (Students with Grade 12 Greek U may substitute three units of Level II Greek; students with Grade 12 Latin U may substitute three units of Level II Latin.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

12 units

- Level II Classics, Greek, Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy

9 units

- Level III Classics, Greek, Latin (may include Level II Greek or Latin)
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

6 units

- Level IV Classics, Level III or IV Greek, Level III or IV Latin
- PHILOS 4K03 - Seminar in Ancient Philosophy

9 units

- Levels II, III, IV Classics, Greek or Latin
- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle
- PHILOS 4K03 - Seminar in Ancient Philosophy

36 units

- Courses specified for the other subject (Combinations with Social Sciences may require more than 36 units.)

18 units

- Electives to total 120 units

HONOURS CLASSICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Classics, Greek or Latin. (Students with Grade 12 Greek U may substitute three units of Level II Greek; students with Grade 12 Latin U may substitute three units of Level II Latin.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the Level I program completed prior to admission into the program

15 units

- Level II Classics, Greek, Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy

12 units

- Level III Classics, Greek, Latin (may include Level II Greek or Latin)
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

6 units

- Level IV Classics, Level III or IV Greek, Level III or Level IV Latin
- PHILOS 4K03 - Seminar in Ancient Philosophy

15 units

- Levels II, III, IV Classics, Greek or Latin
- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle
- PHILOS 4K03 - Seminar in Ancient Philosophy

42 units

- Electives

HONOURS CLASSICS WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

CLASSICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average (GPA) of at least 3.5 and a grade of at least C- in three units of Level I Classics, Greek or Latin courses. (Students with Grade 12 Greek U may substitute three units of Level II Greek; students with Grade 12 Latin U may substitute three units of Level II Latin.)

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

9 units

- Level II Classics, Greek, Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy

9 units

- Level III Classics, Greek, Latin (may include Level II Greek or Latin)
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

6 units

- Levels II and III Classics, Greek or Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

36 units

- Electives

Minor(s):

MINOR IN CLASSICS

REQUIREMENTS

- 24 units of Classics, Greek or Latin, of which no more than six units may be from Level I.

MINOR IN GREEK

REQUIREMENTS

- 24 units of Greek, of which no more than six units may be from Level I.

MINOR IN LATIN

REQUIREMENTS

- 24 units of Latin, of which no more than six units may be from Level I.

For the Honours Arts & Science and Multimedia program (B.Arts.Sc.), see *Arts & Science Program*.

COMBINED HONOURS IN COMMUNICATION STUDIES AND ANOTHER SUBJECT (B.A.)

Communication Studies is an academic discipline that encompasses many fields of inquiry. Graduates of this program will have an advanced knowledge of the nature, function and evolution of communication and will develop both practical and theoretical skills necessary to pursue careers in the field of communications.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in CMST 1A03.

NOTES

1. Because MMEDIA 1A03 is required for admission into the Honours Multimedia program, students registered in the Combined Honours Communication Studies and Multimedia program will substitute three units elective for MMEDIA 1A03.
2. Students are required to take CMST 2RA3, 2TM6 and MMEDIA 1A03 by the end of Level II.
3. Students are required to take CMST 3HC3 (or CMST 2CC3) by the end of Level III.
4. Students wishing to take more than the required three units of Level IV Communication Studies courses must first obtain permission from the undergraduate advisor for the Communication Studies program.
5. Students transferring into the program at Level IV should not expect to complete all of the degree requirements in one year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

12 units

(must be completed by the end of Level II) (See *Note 2* above)

- CMST 2RA3 - Application in Communication Theory and Methods
- CMST 2TM6 - Foundations in Communication Theory and Methods
- MMEDIA 1A03 - Multimedia and Digital Society

3 units

(must be completed by the end of Level III) (See *Note 3* above)

- CMST 3HC3 - History of Communication

15 units

from the following courses (of which 9 units must be from Level III):

- Level II and III Communication Studies

or any of the following:

- ARTHIST 2A03 - Visual Literacy
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 3P03 - Pragmatics
- MMEDIA 3BB3 - New Media Art Practices
- MMEDIA 3MU3 - Musics, Technologies and Audio Cultures
- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2I13 - Popular Music in North America and the United Kingdom: Post-World War II
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 3E03 - Philosophy of Language
- PHILOS 3M03
- RUSSIAN 2H03 - Soviet Propaganda in Films and Other Mass Media (Taught in English)
- THTRFLM 3M03
- THTRFLM 3N03 - Artists' Alternative Film and Video
- WOMENST 3BB3 - Women and Visual Culture

3 units

from

- Levels II or III Communication Studies
- MMEDIA 3A03
- MMEDIA 3B03 - Digital Cultures
- MMEDIA 3BB3 - New Media Art Practices
- MMEDIA 3K03 - Game Studies
- MMEDIA 3MU3 - Musics, Technologies and Audio Cultures

3 units

- Level IV Communication Studies

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 units

- electives to total 120 units

COMBINED HONOURS IN MULTIMEDIA AND ANOTHER SUBJECT (B.A.)

Offered as a Single or Combined Honours program, Multimedia unites new media with traditional arts and humanities subjects. Through experiential learning, students in this program will engage with the creative, theoretical and critical aspects of digital media and develop both the practical and theoretical skills necessary to pursue careers in Multimedia.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement in MMEDIA 1A03 but requires, as a minimum, completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in MMEDIA 1A03. (See Notes below)

NOTES

1. Applicants must have completed any Level I program including the course MMEDIA 1A03 by April of the year in which application is made. Decisions regarding admission into the Multimedia program are made in May when final grades for the previous Fall and Winter terms are known.
2. Application for this program must be made during the program/plan selection process at the end of the Winter term. Please see Application to Level II Programs under Academic Regulations in this section of the Calendar for information with regard to the application procedure. Serious applicants are advised to rank the Multimedia program as their first program of choice for Level II.

3. Students entering Multimedia should be aware that, due to course sequencing and prerequisites, it takes a minimum of **THREE** years beyond Level I to complete program requirements.

Students must register for the following required Multimedia courses in the following sequence:

Level II:

The following courses must be completed in the same academic year:

- MMEDIA 2A06 - Design & Code
- MMEDIA 2B06 - Time-Based Media I
- MMEDIA 2G03 - Introduction to Digital Audio

Level III:

- MMEDIA 3X03 A/B - Presentation and Critique
- 9 additional units of Level III Multimedia

Level IV:

- MMEDIA 4ST6 A/B - Senior Thesis Research and Production

COURSE LIST 1

- ART 3IP3 - Media Installation and Performance
- ART 3PB3 - Photography Beyond the Frame
- MMEDIA 3C03 - Interactive and Spatial Audio
- MMEDIA 3EE3 - Graphic Design
- MMEDIA 3H03 - Time-Based Media II
- MMEDIA 3I03 - Narrative Strategies
- MMEDIA 3L03 - Game Design
- MMEDIA 3P03
- MMEDIA 3PC3 - Photographic Collage and Composite Images
- MMEDIA 3Q03 - Emerging Media
- MMEDIA 3S03 - Sound and Image
- MMEDIA 4F03 - Topics in Multimedia Production

COURSE LIST 2

- CMST 3B03 A/B S - Practical Aspects of Media Production
- CMST 3Z03 - Mobile Practices, Technologies and Art
- MMEDIA 3A03
- MMEDIA 3B03 - Digital Cultures
- MMEDIA 3BB3 - New Media Art Practices
- MMEDIA 3K03 - Game Studies
- MMEDIA 3MU3 - Musics, Technologies and Audio Cultures

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

24 units

- MMEDIA 2A06 - Design & Code
- MMEDIA 2B06 - Time-Based Media I
- MMEDIA 2G03 - Introduction to Digital Audio
- MMEDIA 3X03 A/B - Presentation and Critique
- MMEDIA 4ST6 A/B - Senior Thesis Research and Production

3 units

from

- MMEDIA 3B03 - Digital Cultures
- MMEDIA 3BB3 - New Media Art Practices

12 units

from

- *Course Lists 1 and 2*

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

15 units

- electives, excluding Multimedia *Course List 1*, to total 120 units

HONOURS COMMUNICATION STUDIES (B.A.)

Communication Studies is an academic discipline that encompasses many fields of inquiry. Graduates of this program will have an advanced knowledge of the nature, function and evolution of communication, and will develop both practical and theoretical skills necessary to pursue careers in the field of communications.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in CMST 1A03.

NOTES

1. Students are required to take CMST 2RA3, 2TM6 and MMEDIA 1A03 by the end of Level II.
2. Students are required to take CMST 3HC3 (or CMST 2CC3) by the end of Level III.
3. Students wishing to take more than the required six units of Level IV Communication Studies courses must first obtain permission from the undergraduate advisor for the Communication Studies program.
4. Students transferring into the program at Level IV should not expect to complete all of the degree requirements in one year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

12 units

(must be completed by the end of Level II) (*See Note 1 above*)

- CMST 2RA3 - Application in Communication Theory and Methods
- CMST 2TM6 - Foundations in Communication Theory and Methods
- MMEDIA 1A03 - Multimedia and Digital Society

3 units

(must be completed by the end of Level III) (*See Note 2 above*)

- CMST 3HC3 - History of Communication

30 units

from the following courses, of which 12 units must be Level III

- Level II and III Communication Studies

or any of the following:

- ARTHIST 2A03 - Visual Literacy
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 3P03 - Pragmatics
- MMEDIA 3BB3 - New Media Art Practices
- MMEDIA 3MU3 - Musics, Technologies and Audio Cultures
- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2I13 - Popular Music in North America and the United Kingdom: Post-World War II
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 3E03 - Philosophy of Language
- PHILOS 3M03
- RUSSIAN 2H03 - Soviet Propaganda in Films and Other Mass Media (Taught in English)
- THTRFLM 3M03
- THTRFLM 3N03 - Artists' Alternative Film and Video
- WOMENST 3BB3 - Women and Visual Culture

3 units

from

- CMST 3Z03 - Mobile Practices, Technologies and Art
- MMEDIA 3A03
- MMEDIA 3B03 - Digital Cultures
- MMEDIA 3BB3 - New Media Art Practices
- MMEDIA 3K03 - Game Studies
- MMEDIA 3MU3 - Musics, Technologies and Audio Cultures

6 units

- Level IV Communication Studies

36 units

- electives

HONOURS COMMUNICATION STUDIES WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

HONOURS MULTIMEDIA (B.A.)

Offered as a Single or Combined Honours program, Multimedia unites new media with traditional arts and humanities subjects. Through experiential learning, students in this program will engage with the creative, theoretical and critical aspects of digital media and develop both the practical and theoretical skills necessary to pursue careers in Multimedia.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement in MMEDIA 1A03 but requires, as a minimum, completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in MMEDIA 1A03. (See *Notes* below.)

COMBINED HONOURS IN ENGLISH AND CULTURAL STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I English.

NOTES

1. When registering, students should distribute their required English courses (See Requirements below) as follows:

- Level II: 12 units of Level II English
- Level III: 12 units of Levels II and/or III English
- Level IV: 6 units of Levels II and/or III English; 6 units of Level IV English seminars

(No student may take more than six units of Level IV seminars.)

2. Students who are interested in taking ENGLISH 4X03 should contact the faculty member chairing the ENGLISH 4X03 committee early in the first term of Level IV.
3. With permission of the Department, students may enrol in ENGLISH 4Y06 A/B, 4Y03 and/or 4YY3 in Level IV. Invitations to apply for ENGLISH 4Y06 A/B, 4Y03 and 4YY3 will be circulated to students in the second term of Level III. Students may complete a maximum of 6 units of practicum coursework toward their degree requirements.
4. Most graduate programs in English require proficiency in a second language. Students who plan to pursue graduate studies in English are strongly encouraged to include in their program a second language beyond the introductory level.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

6 units

- ENGLISH 2RW6 A/B - Reading and Writing Criticism

6 units

from

- ENGLISH 2M06 A/B - Concepts of Culture
- ENGLISH 2P03 - Modernity, Postmodernity, Visuality
- ENGLISH 3A03 - Critical Race Studies
- ENGLISH 3AA3 - Theories of Gender and Sexuality
- ENGLISH 3GG3 - Theories of Decolonization and Resistance
- ENGLISH 3QQ3 - Contemporary Critical Theory
- ENGLISH 3R06 A/B
- ENGLISH 3V03 - Global Anglophone Literature and Film
- WOMENST 2AA3 - Introduction to Feminist Thought

9 units

from

- ENGLISH 2CR3 - Shakespeare: Comedies, Problem Plays, and Romances
- ENGLISH 2HT3 - Shakespeare: Histories and Tragedies
- ENGLISH 3C06 A/B
- ENGLISH 3EC3 - Eighteenth-Century Literature and Culture: Enlightenment and its Shadows
- ENGLISH 3G06 A/B
- ENGLISH 3L03 - Old English Literature in Translation
- ENGLISH 3M06 A/B
- ENGLISH 3NN3 - Medieval Literature and Culture: An Overview
- ENGLISH 3Q03 - The History of Critical Theory
- ENGLISH 3RL6 A/B
- ENGLISH 3SS3 - Topics in Medieval Literature and Culture
- ENGLISH 3TT3 - The Age of Elizabeth I
- ENGLISH 3UU3 - Renaissance and Revolution: Studies in 17th-Century Literature
- ENGLISH 3VC3 - 'We Other Victorians': Victorian Literature and Culture and Its Afterlives
- ENGLISH 3WE3 - British Romantic Literature and Culture: Revolution, War, Empire

9 units

from

- courses listed above and
- ENGLISH 2AA3 - American Literature Before 1900
- ENGLISH 2BB3 - Topics in 20th and 21st-century American Literature and Culture
- ENGLISH 2BL3 - Twentieth- and Twenty-First Century British Literature and Film
- ENGLISH 2C03 - Contemporary Canadian Fiction
- ENGLISH 2D03 - Creative Writing Inquiry
- ENGLISH 2G06 A/B - Canadian Literature
- ENGLISH 2H06 A/B
- ENGLISH 2I06 A/B
- ENGLISH 2KA3 - Indigenous Futurisms and Wonderworks
- ENGLISH 2KK3 - Studies in Women Writers
- ENGLISH 2NH3 - Narratives of Health
- ENGLISH 2PC3 - Popular Culture
- ENGLISH 2S03 - Spectacular Bodies
- ENGLISH 2Z03 - Nature, Literature, Culture: Introduction to the Environmental Humanities
- ENGLISH 3CC3 - Reading Film
- ENGLISH 3CL3 - Topics in Twentieth- and Twenty-First-Century British Literature and Cultural Studies

HONOURS ENGLISH AND CULTURAL STUDIES AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I English; and successful completion of one of MATH 1A03, 1LS3 or 1X03 and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (*see Note 6 below*).

NOTES

1. When registering, students should distribute their required English courses (*See Requirements below*) as follows:
 - Level II: 12 units of Level II English
 - Level III: 12 units of Levels II and/or III English
 - Level IV: 6 units of Levels II and/or III English; 6 units of Level IV English seminars
 (No student may take more than six units of Level IV seminars.)
2. MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
3. Students who are interested in taking ENGLISH 4X03 should contact the faculty member chairing the ENGLISH 4X03 committee early in the first term of Level IV.
4. With permission of the Department, students may enrol in ENGLISH 4Y06 A/B, 4Y03 and/or 4YY3 in Level IV. Invitations to apply for ENGLISH 4Y06 A/B, 4Y03 and 4YY3 will be circulated to students in the second term of Level III. Students may complete a maximum of 6 units of practicum coursework toward their degree requirements.
5. Most graduate programs in English require proficiency in a second language. Students who plan to pursue graduate studies in English are strongly encouraged to include in their program a second language beyond the introductory level.
6. While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- ENGLISH 2NH3 - Narratives of Health
- ENGLISH 2PC3 - Popular Culture
- ENGLISH 2S03 - Spectacular Bodies
- ENGLISH 2Z03 - Nature, Literature, Culture: Introduction to the Environmental Humanities
- ENGLISH 3CC3 - Reading Film
- ENGLISH 3CL3 - Topics in Twentieth- and Twenty-First-Century British Literature and Cultural Studies
- ENGLISH 3CW3 - Creating Writing in/for/with Communities
- ENGLISH 3D03 - Science Fiction
- ENGLISH 3EE3 - African American Literature
- ENGLISH 3F03 - The Fairy Tale
- ENGLISH 3GF3 - Studies in Popular Genres
- ENGLISH 3H03 - Jane Austen
- ENGLISH 3PT3 - Perspective and Time in Fiction
- ENGLISH 3RR3 - African Literature and Film
- ENGLISH 3RW3 - Experiential Practicum: Reading and Writing in the Community
- ENGLISH 3S03
- ENGLISH 3W03 - Contemporary Native Literature in Canada
- ENGLISH 3WP3 - The Writer's Process: Short Stories from Beginning to End
- ENGLISH 3X03 - Contemporary Native Literature in the United States
- ENGLISH 3Y03 - Children's Literature
- ENGLISH 4X03 - Honours Essay

- ENGLISH 4Y06 A/B - Research Practicum
- ENGLISH 4Y03 - Experiential Practicum I
- ENGLISH 4YY3 - Experiential Practicum II
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre

6 units

- Level IV English seminars (*excluding ENGLISH 4Y03, 4YY3, 4Y06 A/B*)

3 units

- MATH 1B03 - Linear Algebra I, if not completed in Level I

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II-IV Mathematics or Statistics which must include at least 6 units at Levels III and/or IV

18-21 units

- electives to total 120 units

HONOURS ENGLISH AND CULTURAL STUDIES WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

ENGLISH AND CULTURAL STUDIES (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of C- in three units of Level I English.

NOTE

When registering, students should distribute their required English courses (See *Requirements* below) as follows:

Level II:

- ENGLISH 2RW6 A/B - Reading and Writing Criticism
- 6 units of Level II English

Level III:

- 18 units of Levels II and/or III English

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

6 units

- ENGLISH 2RW6 A/B - Reading and Writing Criticism

6 units

from

- ENGLISH 2M06 A/B - Concepts of Culture
- ENGLISH 2P03 - Modernity, Postmodernity, Visuality
- ENGLISH 3A03 - Critical Race Studies

- ENGLISH 3AA3 - Theories of Gender and Sexuality
- ENGLISH 3GG3 - Theories of Decolonization and Resistance
- ENGLISH 3QQ3 - Contemporary Critical Theory
- ENGLISH 3R06 A/B
- ENGLISH 3V03 - Global Anglophone Literature and Film
- WOMENST 2AA3 - Introduction to Feminist Thought

9 units

from

- ENGLISH 2CR3 - Shakespeare: Comedies, Problem Plays, and Romances
- ENGLISH 2HT3 - Shakespeare: Histories and Tragedies
- ENGLISH 3C06 A/B
- ENGLISH 3EC3 - Eighteenth-Century Literature and Culture: Enlightenment and its Shadows
- ENGLISH 3G06 A/B
- ENGLISH 3L03 - Old English Literature in Translation
- ENGLISH 3M06 A/B
- ENGLISH 3NN3 - Medieval Literature and Culture: An Overview
- ENGLISH 3Q03 - The History of Critical Theory
- ENGLISH 3RL6 A/B
- ENGLISH 3SS3 - Topics in Medieval Literature and Culture
- ENGLISH 3TT3 - The Age of Elizabeth I
- ENGLISH 3UU3 - Renaissance and Revolution: Studies in 17th-Century Literature
- ENGLISH 3VC3 - 'We Other Victorians': Victorian Literature and Culture and Its Afterlives
- ENGLISH 3WE3 - British Romantic Literature and Culture: Revolution, War, Empire

9 units

from

- courses listed above and
- ENGLISH 2AA3 - American Literature Before 1900
- ENGLISH 2BB3 - Topics in 20th and 21st-century American Literature and Culture
- ENGLISH 2BL3 - Twentieth- and Twenty-First Century British Literature and Film
- ENGLISH 2C03 - Contemporary Canadian Fiction
- ENGLISH 2D03 - Creative Writing Inquiry
- ENGLISH 2G06 A/B - Canadian Literature
- ENGLISH 2H06 A/B

ENGLISH 2I06 A/B

- ENGLISH 2KA3 - Indigenous Futurisms and Wonderworks
- ENGLISH 2KK3 - Studies in Women Writers
- ENGLISH 2NH3 - Narratives of Health
- ENGLISH 2PC3 - Popular Culture
- ENGLISH 2S03 - Spectacular Bodies
- ENGLISH 2Z03 - Nature, Literature, Culture: Introduction to the Environmental Humanities
- ENGLISH 3CC3 - Reading Film
- ENGLISH 3CL3 - Topics in Twentieth- and Twenty-First-Century British Literature and Cultural Studies
- ENGLISH 3CW3 - Creating Writing in/for/with Communities
- ENGLISH 3D03 - Science Fiction
- ENGLISH 3EE3 - African American Literature
- ENGLISH 3F03 - The Fairy Tale
- ENGLISH 3GF3 - Studies in Popular Genres
- ENGLISH 3H03 - Jane Austen
- ENGLISH 3PT3 - Perspective and Time in Fiction
- ENGLISH 3RR3 - African Literature and Film

- ENGLISH 3RW3 - Experiential Practicum: Reading and Writing in the Community
- ENGLISH 3S03
- ENGLISH 3W03 - Contemporary Native Literature in Canada
- ENGLISH 3WP3 - The Writer's Process: Short Stories from Beginning to End
- ENGLISH 3X03 - Contemporary Native Literature in the United States
- ENGLISH 3Y03 - Children's Literature
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre

30 units

- electives

Minor(s):

MINOR IN ENGLISH AND CULTURAL STUDIES

REQUIREMENTS

- Six units of Level I English and 18 units of Levels II and III English.

Department of French

<http://french.humanities.mcmaster.ca/>

Faculty as of January 15, 2019

CHAIR

John C. Stout (Acting)

PROFESSORS

Suzanne Crosta/B.A., M.A. (McMaster), Ph.D. (Toronto)

William F. Hanley/B.A. (Toronto), M. ès L. (Paris-Sorbonne), D.Phil. (Oxford)

ASSOCIATE PROFESSORS

Eugène Nshimiyimana/B.A. (Rwanda), M.A., Ph.D. (Western Ontario)

Joëlle Papillon/B.A., M. ès A. (Montréal), Ph.D. (Toronto)

Nicholas Serruys/B.A. (Western Ontario), B.Ed. (Queen's), M.A. (Western Ontario), Ph.D. (Toronto)

John C. Stout/B.A. (British Columbia), Ph.D. (Princeton)

ASSISTANT PROFESSORS

Elzbieta Grodek/B.A., M.A. (Krakow), Ph.D. (Toronto)

The Department of French has an overall theme of francophonie (the French-speaking world) and Diversity. This theme is reflected in the three areas of study in the following table which serves to give an overview of courses available in each area of concentration. Students are not expected to specialize officially in any one area.

Area	Courses
Linguistics, Translation, Literary Theory, and Pedagogy	FRENCH 2G03, 2L03, 3CC3, 3GG3, 3LT3, 3P03, 4CC3, 4P06 A/B
Francophone Literatures and Cultures of Quebec and Canada, of Africa, Asia and the Caribbean	FRENCH 2AC3, 2E03, 3AA3, 3AC3, 3FF3, 3HH3, 4LL3, 4U03
Franco-European Literatures and Cultures	FRENCH 2F03, 2JJ3, 3EE3, 3KK3, 3Q03, 3SS3, 3W03, 4F03, 4I03, 4MM3, 4Y03

For the Honours Arts & Science and French program (B.Arts.Sc.), see *Arts & Science Program*

COMBINED HONOURS IN FRENCH AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B.

NOTE

Upon completion of 60 units of work (including 12 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, up to 15 units of Level III French may be replaced by courses of study at a French-language university.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the Level I program completed prior to admission into the program

12 units

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice: Written
- FRENCH 4A03 - French Language Practice

9 units

- Level II French, excluding FRENCH 2I03 - Professional French I

9 units

- Level III French, excluding FRENCH 3I13 - Professional French II

6 units

- Level IV French

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 units

- Electives to total 120 units

HONOURS FRENCH (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B.

NOTES

1. Upon completion of 60 units of work (including 18 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, Level III of Honours French may be replaced by courses of study at a French-language university.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the Level I program completed prior to admission into the program

12 units

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice: Written
- FRENCH 4A03 - French Language Practice

15 units

- Level II French, excluding FRENCH 2I03 - Professional French I

18 units

- Level III French, excluding FRENCH 3I13 - Professional French II

9 units

- Level IV French

36 units

- Electives

HONOURS FRENCH AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B; and successful completion of one of MATH 1A03, 1LS3 or 1X03 and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (*see Note 3 below*).

NOTES

- Upon completion of 60 units of work (including 12 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, up to 15 units of Level III French may be replaced by courses of study at a French-language university.
- MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
- While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the French Level I program completed prior to admission into the program

12 units

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice: Written
- FRENCH 4A03 - French Language Practice

9 units

- Level II French, excluding FRENCH 2I03 - Professional French I

9 units

- Level III French, excluding FRENCH 3I13 - Professional French II

6 units

- Level IV French

3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II-IV Mathematics or Statistics which must include at least 6 units at Levels III or IV

18-21 units

- Electives to total 120 units

HONOURS FRENCH WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

Sarah Symons/*(Physics and Astronomy)* B.Sc., Ph.D. (*Leicester*)

For students who entered a History program as of 2019-2020, the Department has defined two course lists that define areas of study. Course Lists A and B apply to Level II-III courses.

Historical experiences are vast and varied across time periods, nations and identity groups. The Department of History recommends that students take courses that reflect the diverse experiences of different peoples in various time periods and geographical locations. As part of the Truth and Reconciliation process in Canada, the department also strongly recommends that students take courses that focus in whole or in part on the experiences of Indigenous peoples.

Students should consult the Program Notes for their specific program to determine the requirements regarding these course lists:

COURSE LIST A: CANADA

- HISTORY 2SH3 - Canadian Sport History
- HISTORY 2T03 - Survey of Canadian History, Beginnings to 1885
- HISTORY 2TT3 - Survey of Canadian History, 1885 to the Present
- HISTORY 2V03 - Re-Making History
- HISTORY 3CG3 - Canadians in a Global Age, 1914 to the Present
- HISTORY 3CW3 - Canada in a World of Empires, 1492-1919
- HISTORY 3HQ3 - History of Quebec
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920

COURSE LIST B: CARIBBEAN, LATIN AMERICA, ASIA, AFRICA, MIDDLE EAST, BRAZIL, EUR-ASIA

- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2CS3 - Caribbean Slavery in the Atlantic World
- HISTORY 2EN3 - Caribbean History
- HISTORY 2G03 - Modern Latin America Since 1820
- HISTORY 2HH3 - Mediterranean Encounters 1500-1800
- HISTORY 2IC3 - Islamic Civilization: The Formative Period, 500-1258
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- HISTORY 2MC3 - Modern China
- HISTORY 2Q03 - Imperial Russia
- HISTORY 2QQ3 - The Soviet Union

- HISTORY 3EC3 - Chinese Intellectual Traditions
- HISTORY 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- HISTORY 3KK3 - The Vietnam War
- HISTORY 3RU3 - Early Modern Russia

For students in program prior to 2019-2020, the Department has defined six course lists that define areas of study. Course Lists 1 to 4 apply to Level II courses, and Course Lists 5 and 6 apply to Level III courses. Students should consult the Program Notes for their specific program to determine the requirements regarding these course lists:

COURSE LIST 1: EUROPE (INCLUDING BRITAIN)

- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3 - History of Greece to the Peloponnesian War
- CLASSICS 2LB3 - History of Greece from the Peloponnesian War
- CLASSICS 2LC3 - History of Rome to the Dictatorship of Caesar
- CLASSICS 2LD3 - History of Rome from the Dictatorship of Caesar
- CLASSICS 2LW3 - Ancient Law
- HISTORY 2CC3 - The Medieval World 400-1050
- HISTORY 2DD3 - The Medieval World 1050-1400
- HISTORY 2DF3 - Art and Revolutions in France, 1789-1914
- HISTORY 2EE3 - Science and Technology in World History
- HISTORY 2F03
- HISTORY 2HH3 - Mediterranean Encounters 1500-1800
- HISTORY 2H03 - Tudor and Stuart Britain, 1485-1714
- HISTORY 2II3 - Modern Germany
- HISTORY 2KK3 - History of Capitalism
- HISTORY 2MM3 - Britain in the Modern Era, 1800-2000
- HISTORY 2NN3 - History of Comedy
- HISTORY 2Q03 - Imperial Russia
- HISTORY 2QQ3 - The Soviet Union

COURSE LIST 2: ASIA, AFRICA, MIDDLE EAST

- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2BI3
- HISTORY 2HH3 - Mediterranean Encounters 1500-1800
- HISTORY 2IC3 - Islamic Civilization: The Formative Period, 500-1258
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- HISTORY 2MC3 - Modern China

COURSE LIST 3: THE AMERICAS

- HISTORY 2CS3 - Caribbean Slavery in the Atlantic World
- HISTORY 2EN3 - Caribbean History
- HISTORY 2G03 - Modern Latin America Since 1820
- HISTORY 2R03 - U.S. History to the Civil War
- HISTORY 2RR3 - U.S. History Since the Civil War
- HISTORY 2SH3 - Canadian Sport History
- HISTORY 2T03 - Survey of Canadian History, Beginnings to 1885
- HISTORY 2TT3 - Survey of Canadian History, 1885 to the Present
- HISTORY 2UV3 - American Foreign Relations since 1898
- HISTORY 2V03 - Re-Making History

COURSE LIST 4: GLOBAL HISTORY

- HISTORY 2EE3 - Science and Technology in World History
- HISTORY 2KK3 - History of Capitalism
- HISTORY 2NS3
- HISTORY 2S03 - War in the West, 1850-1945
- HISTORY 2U03
- HISTORY 2UU3
- HISTORY 2X03
- HISTORY 2Y03 - The Second World War: A Global History

**COURSE LIST 5: ADVANCED COURSES IN EUROPE
(INCLUDING BRITAIN AND THE AMERICAS)**

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3MA3
- CLASSICS 3X03 - Roman Religion
- HISTORY 3CG3 - Canadians in a Global Age, 1914 to the Present
- HISTORY 3CH3 - Catastrophic History: Natural & Technological Disasters
- HISTORY 3CW3 - Canada in a World of Empires, 1492-1919
- HISTORY 3D03
- HISTORY 3DF3 - Art and Politics in Second Empire France
- HISTORY 3FF3 - Nazi Germany
- HISTORY 3G03
- HISTORY 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- HISTORY 3H03 - Italian Renaissance, 1300-1600
- HISTORY 3HH3
- HISTORY 3HP3
- HISTORY 3HQ3 - History of Quebec
- HISTORY 3I03 - The International Relations of the European Powers, 1870-1945
- HISTORY 3J03 - The United States in the 1960s
- HISTORY 3JJ3 - Crime, Criminal Justice and Punishment in Modern History
- HISTORY 3MB3
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3NN3
- HISTORY 3OQ3
- HISTORY 3RC3
- HISTORY 3RU3 - Early Modern Russia
- HISTORY 3VV3
- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920
- HISTORY 3Y03
- HISTORY 3YY3 - Britain and the First World War

**COURSE LIST 6: ADVANCED COURSES IN ASIA, AFRICA,
MIDDLE EAST AND GLOBAL HISTORY**

- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road in the First Millennium
- HISTORY 3B03
- HISTORY 3BB3
- HISTORY 3CP3 - The Citizen-Patient: A Modern History of Public Health, 1700-Present
- HISTORY 3DD3 - Jews and Jesus
- HISTORY 3EC3 - Chinese Intellectual Traditions
- HISTORY 3ES3
- HISTORY 3IG3
- HISTORY 3KK3 - The Vietnam War
- HISTORY 3L03
- HISTORY 3S03 - History of Exercise and Sports Medicine
- HISTORY 3SE3
- HISTORY 3UA3 - The History of the Future
- HISTORY 3XX3 - Human Rights in History
- HISTORY 3ZZ3 - Judaism in the Modern World

For the Honours Arts & Science and History program (B.Arts.Sc), see *Arts & Science Program*

COMBINED HONOURS IN HISTORY AND ANOTHER SUBJECT (B.A.)
REQUIREMENTS FOR STUDENTS WHO ENTERED
THE PROGRAM PRIOR TO 2019-2020
Admission

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II and HISTORY 3HI3 in Level III as part of their degree requirements. The requirement to take HISTORY 2HI3 will be waived for students who completed HISTORY 1FF3 in Level 1.
2. Students must complete HISTORY 2HI3 and HISTORY 3HI3 before enrolling in a Level IV History seminar.
3. When registering, it is recommended that students distribute their required History courses (See Requirements below) as follows:
 - Level II: HISTORY 2HI3; 9 units from Course Lists 1 to 4
 - Level III: three units from Course Lists 1 to 4; HISTORY 3HI3; 6 units from Course Lists 5 and 6
 - Level IV: three units from Course Lists 5 and 6; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
4. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian History survey course.
5. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- 3 units of Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

from

- *Course List 1 or Course List 2*

3 units

from

- *Course List 3 or Course List 4*

6 units

from

- *Course Lists 1 to 4*

3 units

- HISTORY 3HI3 - Advanced Historical Inquiry

3 units

from

- *Course List 5*

3 units

from

- *Course List 6*

3 units

from

- *Course List 5 or Course List 6*

6 units

- Level IV History

36 units

- Courses specified by the other subject. (Combinations with Social Sciences may require more than 36 units.)

21 units

- Electives to total 120 units

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM STARTING IN 2019-2020

Admissions

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II (or 3 units of Level II History if HISTORY 1FF3 was completed in level 1).
2. Students must complete HISTORY 2HI3 before enrolling in a Level IV History seminar.
3. When registering, it is recommended that students distribute their required History courses (see Requirements below) as follows:
 - Level II: HISTORY 2HI3; 9 units from Level II or III History
 - Level III: 12 units Levels II or III History
 - Level IV: 3 units Level II or III History; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
4. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian History survey course.
5. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- 3 units of Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

from

- *Course List A*

3 units

from

- *Course List B*

18 units

from

- Level II or III History

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road in the First Millennium
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3 - History of Greece to the Peloponnesian War
- CLASSICS 2LB3 - History of Greece from the Peloponnesian War
- CLASSICS 2LC3 - History of Rome to the Dictatorship of Caesar
- CLASSICS 2LD3 - History of Rome from the Dictatorship of Caesar
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion

6 units

- Level IV History

36 units

- Courses specified by the other subject. (Combinations with Social Sciences may require more than 36 units.)

21 units

Electives to total 120 units

HONOURS HISTORY (B.A.)

REQUIREMENTS FOR STUDENTS WHO ENTERED

THE PROGRAM PRIOR TO 2019-2020

Admission

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II and HISTORY 3HI3 in Level III as part of their degree requirements. **The requirement to take HISTORY 2HI3 will be waived for students who completed HISTORY 1FF3 in Level 1.**
2. Students must complete HISTORY 2HI3 and HISTORY 3HI3 before enrolling in a Level IV History seminar.
3. When registering, it is recommended that students distribute their required History courses (See *Requirements* below) as follows:
 - Level II: HISTORY 2HI3; 15 units from Course Lists 1 to 4
 - Level III: HISTORY 3HI3; 15 units from Course Lists 5 and 6
 - Level IV: three units from Course Lists 5 and 6; 9 units Level IV History. (No Honours student may take more than 9 units of Level IV seminars.)
4. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian History survey course.
5. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

- *Course List 1*

3 units

- *Course List 2*

3 units

- *Course List 3*

3 units

- *Course List 4*

3 units

- *Course Lists 1 to 4*

3 units

- HISTORY 3HI3 - Advanced Historical Inquiry

3 units

from

- *Course List 5*

3 units

from

- *Course List 6*

12 units

from

- *Course List 5 and Course List 6* combined

9 units

- Level IV History

42 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM STARTING IN 2019-2020

Admission

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II as part of their degree requirements (or 3 units of Level II History if HISTORY 1FF3 was completed in level 1).
2. Students must complete HISTORY 2HI3 before enrolling in a Level IV History seminar.
 - When registering, it is recommended that students distribute their required History courses (see Requirements below) as follows:
 - Level II: HISTORY 2HI3; 15 units of Levels II or III History
 - Level III: 3 units of Level IV seminar; 15 units from Levels II or III History
 - Level IV: 6 units of Levels II or III History; 9 units Level IV History. (No Honours student may take more than 12 units of Level IV seminars.)
3. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian History survey course.
4. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

- Course List A

3 units

- Course List B

30 units

from

- Level II or III History

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road in the First Millennium
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3 - History of Greece to the Peloponnesian War
- CLASSICS 2LB3 - History of Greece from the Peloponnesian War
- CLASSICS 2LC3 - History of Rome to the Dictatorship of Caesar
- CLASSICS 2LD3 - History of Rome from the Dictatorship of Caesar
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion

12 units

- Level IV History

39 units

- Electives

HONOURS HISTORY AND MATHEMATICS (B.A.)

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO 2019-2020

Admission

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+.

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II and HISTORY 3HI3 in Level III as part of their degree requirements. **The requirement to take HISTORY 2HI3 will be waived for students who completed HISTORY 1FF3 in Level 1.**
2. Students must complete HISTORY 2HI3 and HISTORY 3HI3 before enrolling in a Level IV History seminar.
3. When registering, it is recommended that students distribute their required History courses (See Requirements below) as follows:
 - Level II: HISTORY 2HI3; 9 units from Course Lists 1 to 4
 - Level III: three units from Course Lists 1 to 4; HISTORY 3HI3; 6 units from Course Lists 5 and 6
 - Level IV: three units from Course Lists 5 and 6; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
4. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian history survey course.
5. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.
6. MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- 3 units of Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

from

- Course List 1 or Course List 2

3 units

from

- Course List 3 or Course List 4

6 units

from

- Course Lists 1 to 4

3 units

- HISTORY 3HI3 - Advanced Historical Inquiry

3 units

from

- Course List 5

3 units

from

- Course List 6

3 units

from

- Course List 5 or Course List 6

6 units

- Level IV History

3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II-IV Mathematics or Statistics, which must include at least 6 units at Levels III and/or IV

18-21 units

- Electives to total 120 units

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM STARTING IN 2019-2020

Admission

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (see Note 7 below).

Notes

1. All students registered in an Honours History program must take HISTORY 2HI3 in Level II as part of their degree requirements (or 3 units of Level II History if HISTORY 1FF3 was completed in level 1).
2. Students must complete HISTORY 2HI3 before enrolling in a Level IV History seminar.
3. When registering, it is recommended that students distribute their required History courses (See Requirements below) as follows:
 - Level II: HISTORY 2HI3; 9 units of Levels II or III History
 - Level III: 12 units of Levels II or III History
 - Level IV: 3 units of Levels II or III History; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
4. Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian history survey course.
5. Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.
6. MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
7. While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- HISTORY 2HI3 - Historical Inquiry or
- 3 units of Level II History (if HISTORY 1FF3 was completed in Level 1)

3 units

from

- *Course List A*

3 units

- *Course List B*

18 units

from

- Level II or III History

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road in the First Millennium
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3 - History of Greece to the Peloponnesian War
- CLASSICS 2LB3 - History of Greece from the Peloponnesian War
- CLASSICS 2LC3 - History of Rome to the Dictatorship of Caesar
- CLASSICS 2LD3 - History of Rome from the Dictatorship of Caesar
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion

6 units

- Level IV History

3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II-IV Mathematics or Statistics, which must include at least 6 units at Levels III and/or IV

18-21 units

- Electives to total 120 units

HONOURS HISTORY WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroot School of Business.

HISTORY (B.A.)**REQUIREMENTS FOR STUDENTS WHO ENTERED****THE PROGRAM PRIOR TO 2019-2020**Admission

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in three units of Level I History.

Note

In selecting courses, students must ensure that they take a minimum of three units in each of four fields of History. All Level II and III History courses from the above list may be used towards this requirement.

Requirements

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the level I program completed prior to admission into the program

3 units

from

- *Course List 1 or Course List 2*

3 units

from

- *Course List 3 or Course List 4*

Minor(s):**MINOR IN HISTORY****REQUIREMENTS**

24 units of History of which no more than six units may be from Level I. Consult the Course Listings section for course prerequisites and limited enrolment courses.

Department of Linguistics and Languages

<http://linguistics.humanities.mcmaster.ca/>

Faculty as of January 15, 2019

CHAIR

Magda Stroinska

PROFESSORS

John J. Colarusso/B.A. (Cornell), M.A. (Northwestern), Ph.D. (Harvard)

John F. Connolly/A.B. (College of the Holy Cross), M.A. (Saskatchewan), Ph.D. (University of London)

Magda Stroinska/M.A. (Warsaw), Ph.D. (Edinburgh)

ASSOCIATE PROFESSORS

Iris Bruce/M.A., Ph.D. (Toronto)

Ivona Kucerova/M.A. (Charles University, Prague), Ph.D. (MIT)

Victor Kuperman/ B.A., M.A. (Jerusalem), Ph.D. (Nijmegen)

Anna L. Moro/B.A., M.A., Ph.D. (Toronto)

Elisabet Service/B.A., M.A., Ph.D. (Helsinki)

Jean Wilson/B.A. (McMaster), B.Ed., M.A., Ph.D. (Toronto)

ASSISTANT PROFESSORS

Catherine Anderson/B.A. (McMaster), Ph.D. (Northwestern)

Daniel Pape/M.A. (Technical University of Berlin), Ph.D. (Humboldt University of Berlin)

Nikolai Penner/M.A., Ph.D. (Waterloo)

Wendy M. D'Angelo/B.A. (McMaster), M.A., Ph.D. (Toronto)

The Department of Linguistics and Languages offers B.A. Honours programs in:

- Cognitive Science of Language
- Linguistics

In addition, Minors are available, using electives only, in: German, Italian and Linguistics. **For information on the Minor in Japanese Studies, see the Department of Religious Studies.**

Language courses in American Sign Language, Chinese, Japanese, Polish, Russian and Spanish are also offered by the Department.

For the Honours Arts & Science and Linguistics program (B.Arts.Sc.), see *Arts & Science Program*

COMBINED HONOURS IN COGNITIVE SCIENCE OF LANGUAGE AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03, 1AA3 and PSYCH 1F03 or 1X03.

NOTES

1. Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics. Students who are registered in the Combined Honours Cognitive Science of Language and Communication Studies program will substitute 3 units of elective work for LINGUIST 2D03 in view of their completion of CMST 2TM6 (formerly CMST 2A03 and 2B03) Such students should consult with the Undergraduate Advisor for Linguistics to ensure access to Level IV courses.
2. Students should be aware that, PSYCH 1XX3 (or 1FF3) requires either Grade 12 Biology U or BIOLOGY 1P03 as a prerequisite. Please note, however, that students can complete BIOLOGY 1P03, and PSYCH 1XX3 (or 1FF3), 2H03 in their second year of studies.
3. At some time during the program, students must meet a laboratory requirement by completing one course from Course List 1 below.
4. Students are not permitted to combine this program with the Combined Honours in Linguistics or Combined Honours in Psychology programs.
5. Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply to register in the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.

COURSE LIST 1

- LINGUIST 3N03
- LINGUIST 3PL3
- LINGUIST 3PS3
- LINGUIST 4D03 - Computers and Linguistic Analysis
- LINGUIST 4EL3 - Laboratory in Experimental Linguistics
- LINGUIST 4NN3 - Cognitive Neurolinguistics Laboratory
- LINGUIST 4PL3 - Programming for Linguists
- LINGUIST 4II3 A/B S - Independent Study
- LINGUIST 4Y06 A/B - Honours Thesis
- LINGUIST 4Z03

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

30 units

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2DD3 - Statistics for Language Research
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3B03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3I03
- LINGUIST 3II3 - Semantics
- LINGUIST 3M03 - Morphology
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- LINGUIST 4F03

3 units

from

- Level IV Linguistics, excluding
- LINGUIST 4SL3 - SLP Practicum
- LINGUIST 4TE3 - TESL Practicum

6 units

from

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
or
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
and
- PSYCH 2H03 - Human Learning and Cognition

3 units

from

- Course List 1

36 units

- Courses specified for the other subject.

(See Note 4 above.)

12 units

- electives

COMBINED HONOURS IN LINGUISTICS AND ANOTHER SUBJECT (B.A.)

This program is designed for students who want to combine the scientific study of language with another subject of their choice.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03 and 1AA3.

NOTES

1. Students are required to complete 18 units of language other than English for this program, either in one or two languages. Please note that some languages have only 3 or 6 units of study available. Courses taught in English do not satisfy this requirement. The following languages are offered at McMaster:
 - **Romance Languages:** French, Italian, Spanish
 - **Classical:** Greek, Latin, Sanskrit
 - **Other Indo-European Languages:** German, Polish, Russian
 - **Non Indo-European Languages:** American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Japanese, Mohawk, Ojibwe
2. Students whose other subject involves the study of a language may substitute 12 units of language other than English with 12 units of Linguistics courses.
3. Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics. Students who are registered in the Combined Honours Linguistics and Communication Studies program will substitute 3 units of elective work for LINGUIST 2D03 in view of their completion of CMST 2TM6 (formerly CMST 2A03 and 2B03). Such students should consult with the Undergraduate Advisor for Linguistics to ensure access to Level IV courses.
4. Upon completion of 60 units of work and with the approval of the Department of Linguistics and Languages, and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a university under the *Humanities Study Elsewhere Program*.
5. Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply for Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

18 units

- LINGUIST 2D03 - Research Methods
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology

6 units

from

- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 2FL3 - Introduction to Forensic Linguistics
- LINGUIST 2LC3 - Historical Linguistics: Language Evolution and Change
- LINGUIST 2LL3 - Introduction to Linguistic Typology
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2S03 - Language and Society
- LINGUIST 3B03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3IE3
- LINGUIST 3LA3 - Introduction to Second Language Acquisition
- LINGUIST 3P03 - Pragmatics
- LINGUIST 3TT3 - Translation Theory
- LINGUIST 3X03
- LINGUIST 3XP3

3 units

from

- Level IV Linguistics, excluding
- LINGUIST 4SL3 - SLP Practicum
- LINGUIST 4TE3 - TESL Practicum
- LINGUIST 4Y06 A/B - Honours Thesis

18 units

from

- a language other than English (See *Notes 1 and 2* above)

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

9 units

- electives to total 120 units

HONOURS COGNITIVE SCIENCE OF LANGUAGE (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03, 1AA3 and PSYCH 1F03 or 1X03.

NOTES

1. Students should be aware that, PSYCH 1XX3 (or 1FF3) requires either Grade 12 Biology U or BIOLOGY 1P03 as a prerequisite. Please note, however, that students can complete BIOLOGY 1P03 and PSYCH 1XX3 (or 1FF3), 2E03, 2H03, 2NF3 in their second year of studies.
2. Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics.
3. At some time during the program, students must meet a laboratory requirement by completing one course from Course List 1 below.
4. In this program students are required to complete 12 units of language courses other than English, of which at least six units must be in a single language. Courses taught in English do not satisfy this requirement. The following languages are offered at McMaster:

- **Romance Languages:** French, Italian, Spanish
- **Classical:** Greek, Latin, Sanskrit
- **Other Indo-European Languages:** German, Polish, Russian
- **Non Indo-European Languages:** American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Japanese, Mohawk, Ojibwe

5. Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply to register in the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.
6. Students interested in doing graduate work in Speech and Language Pathology should consult with the Departmental Counsellor for the Cognitive Science of Language program.

COURSE LIST 1

- LINGUIST 3N03
- LINGUIST 3PL3
- LINGUIST 3PS3
- LINGUIST 4D03 - Computers and Linguistic Analysis
- LINGUIST 4EL3 - Laboratory in Experimental Linguistics
- LINGUIST 4I13 A/B S - Independent Study
- LINGUIST 4NN3 - Cognitive Neurolinguistics Laboratory
- LINGUIST 4PL3 - Programming for Linguists
- LINGUIST 4Y06 A/B - Honours Thesis
- LINGUIST 4Z03

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission into the program

30 units

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2DD3 - Statistics for Language Research
- LINGUIST 2L03 - Phonetics

HONOURS LINGUISTICS (B.A.)

This program is designed for students who are concentrating on the scientific study of language (phonology, morphology, syntax, semantics, etc.). Students should speak with the Departmental Counsellor for Linguistics to determine which linguistics electives are most appropriate for their academic and professional objectives.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03 and 1AA3. It is strongly recommended that students include six units of a language other than English in their Level I program.

NOTES

- In this program students are required to study at least two languages for a total of 24 units of language study. The department has defined four language groups (see below) for this purpose. Of the 24 units, students must take at least 12 units from one language group of their choice, and 6 units of a language from another group. Please note that some languages have only 6 units of study available. Example: A student completes 12 units of Language A plus 6 units of Language B; the remaining 6 units of language study (to total 24 units) may be completed as the student chooses - by adding 6 units to Language A or B, or by completing 3 or 6 units of Language C or D. Courses taught in English do not satisfy this requirement.
 - **Romance Languages:** French, Italian, Spanish
 - **Classical:** Greek, Latin, Sanskrit
 - **Other Indo-European Languages:** German, Polish, Russian
 - **Non Indo-European Languages:** American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Japanese, Mohawk, Ojibwe
- Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics.
- Upon completion of 60 units of work and with the approval of the Department of Linguistics and Languages and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a university under the Humanities Study Elsewhere Program.
- It is recommended that students interested in pursuing TESL Certification after graduation include the following courses in their program of study: LINGUIST 4E03 and 4TE3. They should also consult the TESL Ontario website for certified programs and requirements of certification.
- Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply for the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

21 units

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology

9 units

from

- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 2FL3 - Introduction to Forensic Linguistics
- LINGUIST 2LC3 - Historical Linguistics: Language Evolution and Change
- LINGUIST 2LL3 - Introduction to Linguistic Typology
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2S03 - Language and Society
- LINGUIST 3B03
- LINGUIST 3IE3
- LINGUIST 3LA3 - Introduction to Second Language Acquisition
- LINGUIST 3P03 - Pragmatics
- LINGUIST 3TT3 - Translation Theory
- LINGUIST 3X03
- LINGUIST 3XP3

6 units

from Level IV Linguistics, excluding

- LINGUIST 4SL3 - SLP Practicum
- LINGUIST 4TE3 - TESL Practicum
- LINGUIST 4Y06 A/B - Honours Thesis

12 units

from

- one language as specified in *Note 1* above

12 units

- additional language study as specified in *Note 1* above

30 units

- Electives

HONOURS LINGUISTICS WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

Minor(s):

MINOR IN GERMAN STUDIES

REQUIREMENTS

24 units total

6 units

- Level I German

18 units

from

- Levels II, III, and IV German
- HISTORY 2I13 - Modern Germany
- HISTORY 3FF3 - Nazi Germany
- PHILOS 3V3 - Kant

- PHILOS 3Y3 - Hegel

MINOR IN ITALIAN STUDIES

REQUIREMENTS

24 units total

6 units

- Level I Italian

18 units

from

- Levels II, III, and IV Italian
- ARTHIST 3I03 - Italian Painting and Sculpture 1400-1580
- HISTORY 3H03 - Italian Renaissance, 1300-1600

MINOR IN LINGUISTICS

REQUIREMENTS

6 units

- LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
- LINGUIST 1AA3 - Introduction to Linguistics: Words, Sentences and Meaning

18 units

- Levels II and III Linguistics

Diploma(s)

McMASTER ENGLISH LANGUAGE DEVELOPMENT DIPLOMA (MELD)

Department of Linguistics and Languages (Faculty of Humanities)

Phone: (+1) 905.525.9140 Ext. 23718

Email: meld@mcmaster.ca

Web: <http://meld.mcmaster.ca>

Students who meet the academic admission requirements for their choice of Level 1 program, but do not meet McMaster's English Language Proficiency requirement may be admitted to the MELD bridging program which has been developed for international students, providing them with a supportive environment in which they can succeed. The diploma is a two-term, full-time intensive bridging program in English language development, acculturation and engagement.

Students accepted into MELD are given a conditional offer of admission to their program of choice, pending successful completion of the MELD diploma. Once the diploma in MELD has been successfully completed, the student may register in the program to which he/she was given conditional admission and will have completed 6 units of degree credit courses in Linguistics that may be applied as electives to that program. In exceptional circumstances, MELD will consider transfers from other McMaster programs.

Please visit meld.mcmaster.ca for more information or email meld@mcmaster.ca.

FALL TERM

(September - December)

- MELD 1A03 - Academic Writing and Integrity
- MELD 1B03 - English Phonetics and Pronunciation
- MELD 1C03 - Academic Reading and Listening Skills
- MELD 1D03 - Social Perspectives on Language
- MELD 1L00 - Linguistics Lab 1
- MELD 1M00 - Mentorship Lab 1
- LINGUIST 1ZZ3 - Structure of Modern English II (degree credit course)

WINTER TERM

(January - April)

- MELD 1AA3 - Advanced Academic Writing
- MELD 1BB3 - Advanced Speaking and Presentation Skills
- MELD 1CC3 - Advanced Academic Reading Skills
- MELD 1DD3 - Advanced Academic Listening Skills
- MELD 1LL0 - Linguistics Lab 2

- MELD 1MM0 - Mentorship Lab 2
- LINGUIST 1ZZ3 - Structure of Modern English II (degree credit course)

COMBINED HONOURS IN PEACE STUDIES AND ANOTHER SUBJECT (B.A.)

Peace Studies is interdisciplinary, drawing from many disciplines, and inviting creative intellectual and practical contributions from instructors and students seeking to support social justice, sustainability and health. We recognize, and adopt the principles and the recommendations of the Truth and Reconciliation Commission of Canada, and to implement our commitment, we strongly encourage students in Peace Studies to consider the Combined Honours Program in Indigenous Studies and Peace Studies. McMaster offers a number of Peace Studies courses devoted to experiential, community-oriented, service learning. We also emphasize individual and peer to peer learning, while placing intensive research opportunities within reach of undergraduates at all program levels. Study abroad through consultation with the Faculty of Humanities Office is encouraged. In alignment with our commitment to the UN Declaration on the Rights of Indigenous Peoples and the UN 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs), Peace Studies students are also encouraged to consider minors, such as the Minor in Sustainability, the Minor in Indigenous Studies, and the Minor in Community Engagement.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in PEACEST 1A03 or, if not taken, three units acceptable to the Peace Studies program. Students who have not completed PEACEST 1A03 should contact the Director of the Peace Studies Program.

NOTES

1. Students must be aware that some courses in the Course Lists have their own disciplinary prerequisites. Given the multidisciplinary nature of the Peace Studies Program, with its different approaches and expectations, it is the responsibility of students in the Peace Studies Program to meet other Faculties', departments' and programs' requirements.
2. Upon completion of 60 units of work and with the approval of both the Director of the Peace Studies Program and the Office of the Dean of the

Faculty of Humanities, one or both terms of Level III of this program may be replaced by courses of study at a university or universities under the Humanities Studies Elsewhere program.

COURSE LIST

- ECON 2F03
- ENGLISH 3A03 - Critical Race Studies
- ENGLISH 3GG3 - Theories of Decolonization and Resistance
- ENGLISH 3R06 A/B
- ENGLISH 3V03 - Global Anglophone Literature and Film
- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2II3 - Modern Germany

COMBINED HONOURS IN PHILOSOPHY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTES

1. Students intending to do graduate work in Philosophy are advised to include PHILOS 2B03 in their program.
2. Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
3. Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

9 units

- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 2X03 - Early Modern Philosophy I
- PHILOS 2XX3 - Early Modern Philosophy II

3 units

from

- PHILOS 3NN3 - Philosophy of the Enlightenment
- PHILOS 3VV3 - Kant
- PHILOS 3YY3 - Hegel

3 units

from

- PHILOS 2B03 - Introductory Logic
- PHILOS 2CT3 - Critical Thinking

15 units

- Level III Philosophy

6 units

- Level IV Philosophy (Excluding PHILOS 4V03)

36 units

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 units

- Electives to total 120 units

HONOURS JUSTICE, POLITICAL PHILOSOPHY, AND LAW (B.A.)

The aims of this program are to foster a sophisticated understanding of the law and legal institutions that make up the social world in which we live and of the political and moral theories that address the value and justice of these institutions. Students will be well-prepared for further studies or careers in law, philosophy, politics, education, human rights or public policy.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and a supplemental application. See Note #1 below. It is recommended that students include three units of Level I Philosophy in their Level I program.

NOTES

- Students must complete a supplemental application for admission that is available on the Program website (jpl.humanities.mcmaster.ca, due April 30).
- Students must complete 18 units from the Interdisciplinary Core Course List, at least 3 units in each of the three categories: Policy and Law, Political and Moral Philosophy, and Human Rights and Global Justice. The remaining nine units may be from any of the three categories.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

INTERDISCIPLINARY CORE COURSE LIST

I. Policy and Law

- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LW3 - Ancient Law
- CMST 2K03 - Political Economy of the Media
- CMST 2LW3 - Communication Policy and Law

HONOURS PHILOSOPHY AND BIOLOGY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Philosophy (or, if no such course was taken, in three units of work acceptable to the Department of Philosophy) and Grade 12 Biology U or BIOLOGY 1P03 (High School replacement) and three units of Level I Mathematics. Students are cautioned to observe that CHEM 1AA3 is the normal prerequisite for BIOLOGY 2B03 and 2C03 which are listed in a 24-unit series of courses from which students must complete 12 units. **Enrolment in this program is limited.**

NOTES

1. Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
2. Students should seek counselling from both the Department of Philosophy and the Department of Biology.
3. Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

12 units

from

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- CHEM 2E03 - Introductory Organic Chemistry

9 units

from

- BIOLOGY 2G03
- Levels III or IV Biology

9 units

from

- courses offered by the Faculty of Science

15 units

- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 2X03 - Early Modern Philosophy I
- PHILOS 2XX3 - Early Modern Philosophy II
- PHILOS 3HH3 - Metaphysics
- PHILOS 3O03 - Theory of Knowledge

3 units

- PHILOS 2B03 - Introductory Logic

3 units

from

- PHILOS 2D03 - Bioethics
- PHILOS 2F03 - Philosophical Psychology

- PHILOS 2G03 - Social and Political Issues

3 units

from

- PHILOS 3CC3 - Advanced Ethics
- PHILOS 3N03 - Political Philosophy

6 units

- Level III Philosophy

3 units

from

- PHILOS 3C03 - Advanced Bioethics
- PHILOS 3D03 - Philosophy of Science

3 units

- Level IV Philosophy (Excluding PHILOS 4V03)

18 units

- Electives

HONOURS PHILOSOPHY AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (*see Note 4 below*); and a grade of at least C in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTES

1. Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
2. MATH 1B03 must be completed by the end of Level II. Completion in Level 1 is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
3. Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.
4. While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II, III or IV Mathematics or Statistics which must include at least 6 units at Levels III and/or IV

9 units

- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 2X03 - Early Modern Philosophy I
- PHILOS 2XX3 - Early Modern Philosophy II

3 units

from

- PHILOS 3NN3 - Philosophy of the Enlightenment
- PHILOS 3VV3 - Kant
- PHILOS 3YY3 - Hegel

3 units

- PHILOS 2B03 - Introductory Logic

6 units

- Level II Philosophy

15 units

- Level III Philosophy

3 units

- Level IV Philosophy (Excluding PHILOS 4V03)

15-18 units

- Electives

HONOURS PHILOSOPHY WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

PHILOSOPHY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 and a grade of at least C- in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTE

Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

9 units

- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 2X03 - Early Modern Philosophy I
- PHILOS 2XX3 - Early Modern Philosophy II

3 units

from

- PHILOS 3NN3 - Philosophy of the Enlightenment
- PHILOS 3VV3 - Kant
- PHILOS 3YY3 - Hegel

3 units

from

- PHILOS 2B03 - Introductory Logic
- PHILOS 2CT3 - Critical Thinking

3 units

- Level II Philosophy

6 units

- Level III Philosophy

36 units

· Electives

Minor(s):

MINOR IN PHILOSOPHY

REQUIREMENTS

24 units

- 24 units of Philosophy, of which no more than six units may be from Level I

Women's Studies

Janice Hladki (*School of the Arts*)

Minor(s):

MINOR IN WOMEN'S STUDIES

A Minor in Women's Studies consists of 24 units including the courses listed below. Additional course options are listed under Women's Studies in the course listings section of the Undergraduate Calendar. For questions about other courses that could be counted towards a Minor, please call or visit the Office of Interdisciplinary Studies (Togo Salmon Hall 721; ext. 27734).

REQUIREMENTS

24 units total

3 units

from

- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

3 units

- WOMENST 2AA3 - Introduction to Feminist Thought

18 units

from

- WOMENST 1A03 - Women, Culture, Power (if not previously taken) or
- WOMENST 1AA3 - Women Transforming the World

(if not previously taken)

- CMST 2H03 - Gender and Performance
- ENGLISH 2KK3 - Studies in Women Writers
- ENGLISH 3A03 - Critical Race Studies
- ENGLISH 3AA3 - Theories of Gender and Sexuality
- HTHSCI 2T03 - Sex, Gender, & Health

- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920
- PEACEST 2B03 - Human Rights and Social Justice
- PHILOS 3I03 - Philosophy and Feminism
- RELIGST 2BN3 - Sex and the City in Buddhism: The Urban Life of Buddhist Nuns in North India
- WOMENST 2B03 - Women in the Biblical Tradition
- WOMENST 2BB3 - Images of the Divine Feminine
- WOMENST 3BB3 - Women and Visual Culture
- WOMENST 3FF3 - Gender and Religion
- WOMENST 4D03

NOTE:

The following courses may be used to fulfill the requirements of the Minor in Women's Studies, provided that their respective prerequisites are met. The courses are offered by departments external to Women's Studies. If students wish to propose that a course not cross-listed and not on the list above be considered as a credit toward the Minor in Women's Studies, they must contact the Office of Interdisciplinary Studies at 905-525-9140, ext. 27734 (Togo Salmon Hall 721).

- LABRST 3E03 - Gender, Sexuality and Work
- PEACEST 3Z03
- SOCIOL 2Q06 A/B

FACULTY OF SCIENCE

Burke Science Building, Room 129, ext. 27590

C. Maybrey/B.A., M.A., Ph.D.

RECRUITMENT ASSISTANT

A. Selkirk

CAREER ASSISTANT

G. Chiaravalle/B.Sc.

PROGRAM MANAGER, HIRE MCMASTER

D. Hess/B.SM., M.A.

The Faculty of Science provides studies through the following Departments/Programs/Schools:

- Biochemistry and Biomedical Sciences
- Biology
- Chemistry and Chemical Biology
- Geography and Earth Sciences
- School of Interdisciplinary Science
- Kinesiology
- Mathematics and Statistics
- Physics and Astronomy
- Psychology, Neuroscience & Behaviour

Degree Programs

HONOURS BACHELOR OF SCIENCE PROGRAMS

An Honours B.Sc. normally requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary, and/or liberal arts studies through electives from other Departments and Faculties. An Honours B.Sc. with Specialization or Sub-Plan requires the completion of the same courses required for the Honours program, as well as designated upper level courses in a specialized area of study. Please refer to departmental program descriptions for details.

Honours Integrated Science is a limited enrolment, interdisciplinary research-based science program designed to develop students as broadly educated research scientists capable of contributing to all modern fields of science. Program courses will develop scientific understanding through integration of multiple disciplines in the study of a series of relevant themes or problems. Many disciplines of science will contribute toward courses offered in the Integrated Science program. Students will be involved in individual and team research projects throughout the program. Students who successfully complete the first three levels of any Honours B.Sc. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with a three-level B.Sc. degree.

HONOURS BACHELOR OF SCIENCE KINESIOLOGY PROGRAM

Similar to the Honours Bachelor of Science, the Honours Bachelor of Science Kinesiology (Honours B.Sc.Kin.) requires 120 units, including the completion of a set of required courses and electives. Honours Bachelor of Science Kinesiology, a limited enrolment, direct-entry program is only available to students who completed Level I Honours Kinesiology. Kinesiology students who successfully complete the first three levels of the Honours B.Sc.Kin. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the three-level B.Sc.Kin. (exit) degree.

HONOURS BACHELOR OF APPLIED SCIENCE PROGRAMS

An Honours Human Behaviour (B.A.Sc.) program is available, as well as two Specializations offered in collaboration with Mohawk College of Applied Arts and Technology. Graduates of the Specializations will be eligible to receive both the McMaster B.A.Sc. (Honours) and either the Mohawk College Certificate in Autism & Behavioural Science or the Early Childhood Education (ECE) Diploma. The Honours B.A.Sc. requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary and/or liberal arts studies through electives from other Departments and Faculties. The Honours B.A.Sc. with a Specialization requires the completion of 150 units, including similar courses for the affiliated Honours B.A.Sc. program, as well as designated upper level courses and applied placements, in the area of the Specialization. Levels II through IV of the program run consecutively from September of Level II to completion of the program at the end of April in Level IV. Honours B.A.Sc. students who successfully complete 90 units, including the first three levels of the Honours B.A.Sc. degree, may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the B.A.Sc. (exit) degree.

CO-OP PROGRAMS

The Faculty of Science has Cooperative Education programs, beginning in Level III, in Honours Actuarial and Financial Mathematics, Honours Biochemistry, Honours Biology and Pharmacology, Honours Chemical Biology, Honours Chemistry, Honours Earth and Environmental Sciences, Honours Environmental Sciences, Honours Geography and Environmental Sciences, Honours Life Sciences, Honours Mathematics and Statistics, Honours Medical and Biological Physics, Honours Molecular Biology and Genetics, and Honours Physics.

Co-op programs have **limited enrolment** and admission is by selection. Please see the admission statement for each program in this section of the Calendar. Students must complete SCIENCE 2C00 and all mandatory orientation activities, including SCIENCE 3C00, prior to the start of the first work term. It is strongly recommended that students complete SCIENCE 2C00 in Level II. Employment must be full-time, academically relevant and approved by the Science Career and Cooperative Education office. Students enrolled in Co-op programs must be

registered in full-time studies, including all prescribed courses, during the academic terms of their program (a minimum of 9 units in a term) and will be charged per unit registered. An annual administrative fee of \$150 will be charged in each of the three years a student is enrolled in a Co-op program, and additional Science Co-op fees will be charged for each work term of a Co-op program. With written permission from the work term supervisor, academic work may be taken during each four-month period of a work term and the student will be responsible for the additional tuition. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

INTERNSHIPS

The Faculty of Science offers students the opportunity to participate in 4, 8, 12, or 16 month full-time, paid work placements in academically relevant areas, as approved by the Science Career and Cooperative Education office. Internship placements are available to students registered as full time students in good standing in Level II or III of an Honours B.Sc. program and who will have at least 9 units left to complete upon their return. Students must complete SCIENCE 2C00 and all mandatory orientation activities prior to the start of their internship. Students self-generate placements, in consultation with the Science Career and Cooperative Education office, with participating companies through an application and interview process. A fee is assessed following the start of the placement. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

MINORS

Within the Faculty of Science, Minors are available to students registered in an Honours program only. In addition to the University's regulations governing the designation of a Minor, all Departments in the Faculty of Science require the inclusion of at least six units of Level III or IV courses to complete a Minor in a Science subject. At least 12 units (above Level 1) toward the Minor must be considered elective to degree.

Please see *Minors* in the *General Academic Regulations* section of this Calendar for further information. All courses have an enrolment capacity and the Faculty cannot guarantee registration in courses, even when all requisites have been met. Therefore, the completion of a Minor is not guaranteed.

Minors offered by the Faculty of Science include:

- Astronomy
- Biochemistry
- Biology
- Chemical Biology
- Chemistry
- Environmental Sciences
- Environmental Studies
- Geographic Information Systems (GIS)
- Geography
- Geography and Earth Sciences
- Mathematics
- Physics
- Psychology
- Statistics

BACHELOR OF SCIENCE PROGRAMS

Three-level B.Sc. programs offered by the Faculty of Science include: Environmental Sciences, Life Sciences, Mathematical Science and Chemical and Physical Sciences (formerly Physical Sciences). B.Sc. programs require completion of 90 units, including a set of required courses and electives.

Students interested in the Environmental Sciences program are encouraged to see *School of Geography and Earth Sciences* in this section of the Calendar. Students interested in the Life Sciences program are encouraged to see *School of Interdisciplinary Science (SIS)* in this section of the Calendar. Students interested in the Mathematical Science program are encouraged to see *Department of Mathematics and Statistics* in this section of the Calendar. Students interested in

the Chemical and Physical Sciences are encouraged to see *Chemical and Physical Sciences* in the *Department of Physics and Astronomy* section of the Calendar.

Students who successfully complete the first three levels of any Honours B.Sc. program may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with a B.Sc. degree.

BACHELOR OF MEDICAL RADIATION SCIENCES PROGRAM

The Bachelor of Medical Radiation Sciences Program is offered jointly in partnership by McMaster University and Mohawk College of Applied Arts and Technology. Students pursue two qualifications simultaneously, and graduates receive the McMaster Bachelor of Medical Radiation Sciences degree and the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk. The program requires 150 units. Levels II through IV of the program run consecutively from September of Level II to completion of the program at the end of April in Level IV.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases, priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enrol as soon as online enrolment is available to them in the Student Centre in Mosaic. In addition, in the Faculty of Science, there are two types of courses for which permission must be obtained prior to registration. For these courses, students will be given seat authorizations rather than being admitted on a first-come basis.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the University provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in Science programs, in addition to meeting the *General Academic Regulations* of the University, shall be subject to additional Faculty Regulations.

ADMISSION TO LEVEL II PROGRAMS

All Level I students who wish to be reviewed for admission to a Level II program in the Faculty of Science for the following Fall/Winter term must submit an Application for Admission to Level II through MOSAIC by the University stated deadline (normally in April). Students may rank up to four program choices. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices.

Level I students must meet the admission criteria for a Level II program according to the Calendar in effect when they registered for Level I. Students must follow the program requirements of the Calendar in effect when they enter Level II, except when a later Calendar explicitly modifies such requirements.

Students who are in good academic standing, but who do not achieve the admission requirements for any Level II program may continue in the Faculty of Science in the undeclared 'Science' program, or may seek transfer to another Faculty.

LIMITED ENROLMENT PROGRAMS

Admission at Level I (and above) is limited for the following programs:

- Honours Integrated Science
- Honours Kinesiology
- All Medical Radiation Sciences programs

Admission at Level II (and above) is limited for the following:

- Honours Actuarial and Financial Mathematics
- Honours Astrophysics
- All Honours Biochemistry programs
- Honours Biology - Discovery Sub-Plan
- Honours Biology (Physiology)
- Honours Biology and Environmental Sciences
- Honours Biology and Mathematics
- Honours Biology and Psychology, Neuroscience & Behaviour
- Honours Chemical Biology
- Honours Human Behaviour - Autism and Behavioural Science Specialization
- Honours Human Behaviour - Early Childhood Education Specialization
- All Honours Life Sciences Specializations
- Honours Mathematics and Statistics - Mathematics Sub-Plan
- Honours Mathematics and Statistics - Statistics Sub-Plan
- Honours Molecular Biology and Genetics
- Honours Neuroscience
- All Honours Psychology, Neuroscience & Behaviour programs

All Co-op programs, beginning at Level III, are limited enrolment.

MINIMUM REQUIREMENTS TO CONTINUE IN THE FACULTY OF SCIENCE

Further to the information found in the *General Academic Regulations* section of this Calendar:

REINSTATEMENT

Students with an Academic Standing of *May Not Continue at the University* who wish to be considered for undergraduate studies must apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the stated deadline. The Faculty of Science does not consider Requests for Reinstatement for the Spring/Summer session. See the *Application Procedures* section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student's academic performance before and after admission to McMaster, a letter of explanation and other appropriate documentation. **Reinstatement is not automatic or guaranteed.** Decisions are normally made after June 30 for September entry. Effective September 1997, the Grade Point Average (formerly Cumulative Average) for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved. **Note: If at a review after reinstatement the Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.** Former Kinesiology students will be considered for reinstatement to Kinesiology upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Kinesiology program with a minimum average of 7.0 (B-). Application forms are available from the Office of the Associate Dean of Science (Academic) or the Department of Kinesiology. The application deadline is April 30 for September entry. **Reinstatement is not guaranteed.**

Former Medical Radiation Sciences students will be considered for reinstatement to their program upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Medical Radiation Sciences program with a minimum average of 7.0 (B-). Application forms are available from the Office of the Associate Dean of Science (Academic) or the School of Interdisciplinary Science. The application deadline is April 30 for September entry. **Reinstatement is not guaranteed.**

DEADLINES

The Faculty of Science will not consider applications for admission, admission to a second degree or continuing studies, registration, deleting, cancelling, or adding

of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures sections, unless documentation showing good cause is submitted to the Office of the Associate Dean of Science (Academic).

LIMITED ENROLMENT COURSES REQUIRING PRE-REGISTRATION BALLOTING

The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses. Students entering Level IV Honours Life Sciences (excluding those enrolled in a Specialization) must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by **the end of March**. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in preferred seminar. Ballots will be sent directly to students in Honours Life Sciences in the Winter term.

The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B, 4DD6 A/B) and the Individual Study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4QQ3 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by **mid March**. Specific dates will be announced during the Fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour's web site at <http://www.science.mcmaster.ca/pnb/>.

WORKLOAD

All programs in the Faculty of Science may be taken by full-time and part-time students, with the exception of all Honours Co-op programs. Students enrolled in Co-op programs must maintain a full academic load during the study terms of their program.

Students must maintain a full academic load during the Fall/Winter term to be eligible for scholarships available to full-time students.

Students are expected to avoid timetable conflicts among their courses, and students on a full academic load should ensure the number of courses is balanced in each term. Students who wish to take more courses than recommended for a single level of their program may do so if their Grade Point Average on completion of the previous Fall/Winter term is at least 7.0. Students registered in the final level of their program are permitted to overload by up to six additional units in order to become eligible to graduate.

COURSES REQUIRING AN ADDITIONAL FEE

The Faculty offers courses that may require a payment of a fee, above the regular associated tuition. Examples include: field courses and experiential offerings. Some of these courses may be taken outside of the University's Sessional Dates. Students who enrol in these types of offerings must pay **both**:

- a fee to the Department to cover travel expenses, room and board and
- the associated tuition fee to McMaster at time of registration.

Although students initially register for field courses through the appropriate departmental offices, it is their responsibility to include field courses on their registration forms for the appropriate session.

Detailed information regarding field courses and deadlines for registration may be obtained from the individual departmental offices.

LETTER OF PERMISSION

All students in good academic standing, with the exception of students registered in second degree programs, may apply to the Office of the Associate Dean of Science (Academic) to take courses at another university on Letter of Permission. Students must achieve a grade of at least C- for transfer of credit. The transcript designation reads 'T', indicating *transfer*, when a grade of C- or better is attained, or *NC*, indicating *not complete*, when a grade of less than C- is attained.

Required courses given by the department offering the program may not be taken elsewhere unless departmental approval is given. Electives may be taken elsewhere. Courses taken at another university cannot be used to satisfy the University's minimum residence requirements, will not be included in the calculation of the Grade Point or Term Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on Letter of Permission.

STUDENT EXCHANGES

McMaster University has agreements with institutions in Canada and abroad including Australia, Denmark, France and the United Kingdom to provide students with the opportunity to participate in an exchange program for one year or term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals. In addition, exchange programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign fees by paying fees to McMaster. All students must have completed at least one year of continuous study and be in good standing to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for the third level of an Honours program.

Students interested should begin discussions with the Office of the Associate Dean of Science (Academic) about one year before they plan to enrol elsewhere. Students must propose and submit an academic program to their Department for approval. Academic approval must be completed by the end of February for registration in the following Fall/Winter session. In certain cases, students may be recommended for the Deans' Honour List on the basis of work undertaken while on exchange.

For further information please see *International Study* in the *General Academic Regulations* section in this Calendar. Information concerning exchanges can also be found from International Student Services. Acceptance to the Ontario and University-wide Exchange Programs is by recommendation. Application forms can be obtained from:

International Student Services / MacAbroad

Gilmour Hall, Room 110

Telephone: (905) 525-9140, extension 24748

TRANSFERS

Science students may be permitted to transfer between programs or students in other Faculties may apply to transfer to a program in the Faculty of Science provided they have obtained a Grade Point Average of at least 3.5 and have completed the necessary admission requirements. The Faculty of Science will include the grades of all courses attempted (including failures) in the calculation of the Grade Point Average to determine eligibility to transfer into the Faculty. Students who do not meet these requirements must consult with the Office of the Associate Dean of Science (Academic).

Students in Levels II or III who wish to transfer to another program in the Faculty of Science must speak with an Academic Advisor in the Office of the Associate Dean of Science (Academic).

TRANSFER/APPLICATION TO LEVEL I HONOURS KINESIOLOGY

In-course, McMaster students seeking transfer/admission to Level I Honours Kinesiology for the following Fall or Winter term must submit an Application for Admission through Mosaic by the stated deadline (normally April). Additionally, transfer students must submit the mandatory Supplemental Application to the Department of Kinesiology by the stated deadline. Students will be notified of their eligibility for transfer to Level I Honours Kinesiology through their Student Centre on MOSAIC in June. McMaster students interested in transferring may contact the Undergraduate Administrative Assistant (Kinesiology) or the Office of the Associate Dean of Science (Academic). Students transferring from another university should see the Admission Requirements and *Application Procedures* sections of this Calendar. A limited number of exceptionally qualified students are admitted each year. To be considered, applicants must have an average of at least 9.0 (B+) in a minimum of 24 units of university work, taken during the Fall and Winter terms, including an average of at least 6.0 in BIOLOGY 1A03 and 1M03. Given the number of required units and prerequisites of Kinesiology courses, transfer students may not be able to complete the requirements in three additional years of study.

GRADUATION

From an Honours B.Sc., Honours B.A.Sc. and B.Sc. Programs

To graduate from a program, students must meet all course requirements for their degree program.

The requirements for graduation from these programs are described under the heading *Graduation* in the *General Academic Regulations* section in this Calendar. [Transferring to Graduate with a Three-Level B.Sc. Degree from an Honours B.Sc. Program](#)

Students who successfully complete at least 90 units including all admission requirements and expected course requirements up to the end of Level III of any Honours B.Sc. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Science (Academic) for transfer to graduate with a corresponding three-level B.Sc. degree as follows: Honours Biochemistry qualifies for the B.Sc. Science degree. Honours Biology, Chemical Biology, Life Sciences, Molecular Biology and Genetics and Psychology, Neuroscience & Behaviour programs qualify for the B.Sc. Life Sciences degree. All Environmental Sciences programs qualify for the B.Sc. Environmental Sciences degree. All Mathematics and Statistics programs qualify for the B.Sc. Mathematical Science degree. All Biophysics, Chemistry, Medical Physics, and Physics programs qualify for the B.Sc. Chemical and Physical Sciences degree. Students enrolled in Honours Biology and Environmental Sciences may be given the option of either the B.Sc. Environmental Sciences or Life Sciences degree. Honours B.Sc. Kinesiology qualifies for the B.Sc. Kin. degree. Integrated Sciences (iSci) programs, with a concentration, will qualify for the exit degree most relevant to the concentration. Integrated Sciences (iSci), without a concentration, qualifies for the B.Sc. Science degree. Students who do not qualify for the degrees, as stated above, may request to be considered to graduate with the B.Sc. Science degree. [Transferring to Graduate with a Three-Level B.A.Sc. Degree from an Honours B.A.Sc. Program](#)

Students who successfully complete at least 90 units including all admission requirements and expected course requirements up to the end of Level III of any Honours B.A.Sc. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Science (Academic) for transfer to graduate with the B.A.Sc. (exit) degree.

Level I Programs

The Faculty of Science offers the following Level I gateway programs leading to the Honours Bachelor of Science, Honours Bachelor of Applied Science and Bachelor of Science programs at Level II:

- Chemical and Physical Sciences Gateway
- Environmental and Earth Sciences Gateway
- Life Sciences Gateway
- Mathematics and Statistics Gateway

Review of the Admission Requirements of Level II programs and successful completion of recommended courses in Level I will allow students a range of Level II program options including those from within their chosen Gateway as well as the others.

Additionally, the Faculty offers the following direct-entry Level I programs (and degrees):

- Honours Integrated Science (Leading to the Honours Bachelor of Science degree)
- Honours Kinesiology (Leading to the Honours Bachelor of Science Kinesiology degree)
- Medical Radiation Sciences (Leading to the Bachelor of Medical Radiation Sciences degree)

IMPORTANT NOTE FOR LEVEL I STUDENTS:

Level I courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission**

requirements see Faculty of Science program descriptions in this section of the Calendar. Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance.

Students in the Level I Gateway programs will have the opportunity to take units from the *Science I Course List*, consisting of:

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

CHEMICAL AND PHYSICAL SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar. Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Chemical and Physical Sciences, students should complete the courses recommended below.

PROGRAM NOTES

1. BIOLOGY 1P03, which may be completed as an elective, serves as the prerequisite for BIOLOGY 1A03 and 1M03 for those students who did not complete Grade 12 Biology U.
2. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
3. BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

12 units from:

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

6 units from:

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II

6 units

from

- the *Science I Course List*

6 units

- Electives (See *Program Note 1* above.)

ENVIRONMENTAL AND EARTH SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar. Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with

academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Environmental and Earth Sciences, students should complete the courses recommended below.

PROGRAM NOTES

1. Students without Grade 12 Calculus and Vectors U must complete MATH 1F03.
2. Students who did not complete Grade 12 Biology U must complete BIOLOGY 1P03 in Level I. BIOLOGY 1P03 serves as the prerequisite for BIOLOGY 1A03 and 1M03 for those students who did not complete Grade 12 Biology U.
3. CHEM 1R03 serves as the prerequisite for CHEM 1A03 for those students who did not complete Grade 12 Chemistry U. CHEM 1A03 is required for admission to Level II Honours Earth and Environmental Sciences.
4. PHYSICS 1A03 may be taken by students who did not complete Grade 12 Physics U.
5. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
6. BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

6 units

from:

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment

3 units

from:

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

15 units

from:

- the *Science I Course List*

6 units

- Electives (See *Program Notes 1, 2, 3 and 4* above.)

HONOURS INTEGRATED SCIENCE (LEVEL I)

Enrolment in this program is limited.

PROGRAM NOTES

1. As places in the Honours Integrated Science program are limited to approximately 60 students, admission is by selection, and possession of published minimum requirements does not guarantee admission.
2. The University reserves the right to grant admission to a limited number of students and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.
3. All Level I Integrated Science students may be asked to complete an online orientation course prior to the start of classes in September. The course will serve to review and consolidate material covered by the secondary school math and science curriculum and will be especially valuable to those who have not completed one of Grade 12 Biology U, Chemistry U or Physics U.
4. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to ISCI 1A24 A/B and must be completed prior to the first lab.
5. BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to ISCI 1A24 A/B and must be completed prior to the first lab.
6. The Geography and Environmental Sciences Concentration requires completion of two additional Level I GEOG courses, which must be completed by the end of Level II.
7. ISCI students, completing a concentration, are eligible to obtain a maximum of one minor, provided that the subject area is not integral to the requirements of the concentration. ISCI students not completing a concentration may be eligible for up to two minors provided that, for each minor, at least 12 units (above Level I) is elective to the degree. All students should consult the Academic Program Advisor.

REQUIREMENTS: 30 UNITS

24 units

- ISCI 1A24 A/B - Integrated Science I

6 units

- Electives (See *Program Notes 6 and 7* above.)

LIFE SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar. Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Life Sciences, students should complete the courses recommended below.

PROGRAM NOTES

1. Students without Grade 12 Calculus and Vectors U must complete MATH 1F03.

- CHEM 1R03 serves as the prerequisite for CHEM 1A03 for those students who did not complete Grade 12 Chemistry U.
- Students who did not complete Grade 12 Physics U, may complete PHYSICS 1A03. BIOPHYS 1S03 or MEDPHYS 1E03 may substitute for PHYSICS 1A03 or 1C03 for some Level II programs. Students are encouraged to review admission requirements carefully.
- WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
- BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

9 units

from:

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

3 units

from:

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from:

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See Program Note 3 above.)

9 units

from

- the *Science I Course List*

6 units

- Electives (See *Program Notes 1, 2 and 3* above.)

MATHEMATICS AND STATISTICS GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. For details of the various admission requirements see **Faculty of Science program descriptions in this section of the Calendar**. Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Mathematics and Statistics, students should complete the courses recommended below.

PROGRAM NOTES

- MATH 1A03 and 1AA3 or MATH 1LS3 and 1LT3 may be used as substitutions for MATH 1X03 and 1XX3 for consideration to Level II Mathematics and Statistics programs for students from other Level I programs. However, Mathematics and Statistics Gateway students are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.
- Students may substitute COMPSCI 1JC3, 1MD3, 1XA3 for the 3 units required from the Faculty of Science.
- Completion of COMPSCI 1MD3 or MATH 1MP3 is required for admission to the Honours Mathematics and Computer Science program.
- Completion of ECON 1B03 and 1BB3 is required by the end of Level II for the Honours Actuarial and Financial Mathematics program. Completion in Level I is recommended.
- Effective September 2019, completion of MATH 1C03 is required by the end of Level II for all Honours Mathematics and Statistics programs, excluding Honours Actuarial and Financial Mathematics.
- WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level 1 courses with a lab component and must be completed prior to the first lab.
- BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I

- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

15 units

- MATH 1B03 - Linear Algebra I
- MATH 1C03 - Introduction to Mathematical Reasoning
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II

(See Program Notes 1 and 5 above.)

3 units

from

- the Science I Course List (See Program Notes 2 and 3 above.)

12 units

- Electives (See Program Note 4 above.)

HONOURS KINESIOLOGY (LEVEL I)

Enrolment in this program is limited.

PROGRAM NOTES

1. Application is made to Level I of the Honours Kinesiology program.
2. Students must complete MATH 1A03 or 1LS3 by the end of Level II.
3. Students who do not have credit in Grade 12 Calculus and Vectors U (or Grade 12 Advanced Functions and Introductory Calculus U), must complete MATH 1F03, which serves as the prerequisite for MATH 1A03 or 1LS3.
4. PHYSICS 1A03 serves as excellent preparation for KINESIOL 2A03, especially for students who did not complete Grade 12 Physics U. Completion in Level I is recommended.
5. Upon completion of Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03), students whose Grade Point Average is between 5.5 and 5.9 may register in the Level II Honours Kinesiology program but will be placed on program probation for one reviewing period. Effective September 2019, upon completion of Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03), students whose Grade Point Average is between 5.5 and 5.9 may register in the Level II Honours Kinesiology program but will be placed on program probation for one reviewing period. A student may be on program probation only once, and, therefore, by the next academic review must raise their Grade Point Average to at least 6.0 to continue in the Honours Kinesiology program.

Upon completion of Level I Honours Kinesiology, students whose Grade Point Average is between 3.5 and 5.4 and/or who have failed to successfully complete each of KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03 may register in Level II Kinesiology General and may take the Level II Kinesiology required courses for which the prerequisites have been met. Such students must attend a mandatory preregistration counselling session with an Academic Advisor. Eligibility to transfer to Honours Kinesiology at the next review will require a Grade Point Average of at least 6.0 and the successful completion of KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03. (Students with a Grade Point Average between 5.5 and 5.9, including successful completion of KINESIOL 1A03, 1AA3, 1C03, 1E03, 1F03, may transfer to the Honours Kinesiology program, but, will be placed on program probation. Students may be on program probation only once during their program,

including upon admittance.) Effective September 2019, upon completion of Level I Honours Kinesiology, students whose Grade Point Average is between 3.5 and 5.4 and/or who have failed to successfully complete each of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 may register in Level II Kinesiology General and may take the Level II Kinesiology required courses for which the prerequisites have been met. Such students must attend a mandatory preregistration counselling session with an Academic Advisor. Eligibility to transfer to Honours Kinesiology at the next review will require a Grade Point Average of at least 6.0 and the successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03. (Students with a Grade Point Average between 5.5 and 5.9, including successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 may transfer to the Honours Kinesiology program, but, will be placed on program probation. Students may be on program probation only once during their program, including upon admittance.) Students who fail to meet the minimum requirements must transfer to a non-Kinesiology program for which they qualify.

Upon completion of Level I Honours Kinesiology, students whose Grade Point Average is between 3.0 and 3.4 may request transfer to Science II.

6. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
7. BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.
8. *Routine Practices*, an on-line module available through Mosaic (Health and Safety Training), must be completed prior to attendance in the first lab associated with each of: KINESIOL 1A03, 1AA3.

REQUIREMENTS: 30 UNITS

15 units

- KINESIOL 1A03 - Human Anatomy and Physiology I
- KINESIOL 1AA3 - Human Anatomy and Physiology II
- KINESIOL 1E03 - Motor Control and Learning
- KINESIOL 1F03 - Human Nutrition and Health
- KINESIOL 1K03 - Foundations in Kinesiology

15 units

- Electives (See Program Notes 2 and 3 above.)

MEDICAL RADIATION SCIENCES (LEVEL I)

Effective September 2020, admission to Level II of the Medical Radiation Sciences - Radiation Therapy Specialization will be reinstated.

NOTE

Students considering the Medical Radiation Sciences program should refer to the Regulations for License to Practice and Functional Demands in the Medical Radiation Sciences section of this Calendar.

Enrolment in this program is limited.

PROGRAM NOTES

1. As places in the Medical Radiation Sciences program are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission.
2. The University reserves the right to grant admission to a limited number of students and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.
3. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
4. BIOSAFE 1BS0 a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

5. *Routine Practices*, an on-line module available through Mosaic (Health and Safety Training), must be completed prior to attendance in the first lab associated with each of: KINESIOL 1Y03, 1YY3.
6. For consideration to a Level II Medical Radiation Specialization, Medical Radiation Sciences students must complete at least 24 units during the Fall/Winter session, including BIOLOGY 1A03, KINESIOL 1Y03, 1YY3, MATH 1A03 or 1LS3, MEDRADSC 1B03, 1C03, 1E03, 1F03 and achieve a Grade Point Average of at least 5.0. Effective September 2020, for consideration to a Level II Medical Radiation Specialization, Medical Radiation Sciences students must complete at least 24 units during the Fall/Winter session, including BIOLOGY 1A03, KINESIOL 1Y03, 1YY3, LIFESCI 1D03, MATH 1A03 or 1LS3, MEDRADSC 1B03, 1E03, 1F03 and achieve a Grade Point Average of at least 5.0. Failure to complete these minimum requirements may compromise consideration for admission to a Specialization.

REQUIREMENTS: 30 UNITS

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

12 units

- LIFESCI 1D03 - Medical Imaging Physics

NOTES APPLICABLE TO ALL HONOURS BIOCHEMISTRY PROGRAMS

1. In addition to the Honours Biochemistry program, the Department offers a Specialization in Biomedical Research. The Honours program has a specified set of basic requirements and a wide choice of electives (including those from outside the Faculty of Science), allowing for interdisciplinary studies or the opportunity to complete a Minor in another subject. Alternatively, students may wish to apply to the Biomedical Research Specialization which is strongly recommended for students intending to pursue graduate studies.
2. **Admission to the Honours Biochemistry program is limited.** Selection is based on academic achievement but requires, as a minimum, completion of the Level I requirements listed below.
3. **Admission to the Honours Biochemistry - Biomedical Research Specialization program is limited.** Effective September 2021, admission to

this program will begin at Level III and will require, as a minimum, completion of Level II Honours Biochemistry. Last cohort of students to enter at Level II will be in September 2019 and selection is based on academic achievement but requires, as a minimum, completion of the Level I requirements listed below.

- Transfer between programs is possible at any time, subject to satisfying the admission requirements and availability of space.
- Students considering graduate studies in Biochemistry are recommended to complete one of BIOCHEM 4F09 A/B or 4T15 A/B.

HONOURS BIOCHEMISTRY (B.SC.)

ADMISSION NOTE

PHYSICS 1A03 or 1C03 is required for admission.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

NOTE

A grade of at least C+ in four of BIOLOGY 1A03, 1M03, CHEM 1A03, 1AA3 and either MATH 1A03 or 1LS3 is required.

PROGRAM NOTES

- There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
- Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3EE3 - Research Advances in Cell Biology and Biochemistry
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3X03
- BIOCHEM 3Y03
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4EA3
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology

- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOCHEM 4Y03
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- MOLBIOL 3003 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- (See Admission above.)

Level II: 30 Units

12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the Biochemistry Course List (See Program Note 2 above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

6 units

- Electives

Level III: 30 Units

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

6 units

from

- the Biochemistry Course List (See Program Note 2 above.)

3 units

- STATS 2B03 - Statistical Methods for Science

18 units

- Electives

Level IV: 30 Units

3 units

- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development

3 units

from

- the Biochemistry Course List (See Program Note 2 above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4003 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3R06 A/B S - Research Project
- BIOCHEM 4C03 - Inquiry in Biochemistry
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis

- BIOCHEM 4Z03 - Senior Project

9-12 units

- Electives

HONOURS BIOCHEMISTRY – BIOMEDICAL RESEARCH SPECIALIZATION (B.SC.)

ADMISSION NOTES

1. PHYSICS 1A03 or 1C03 is required for admission.
2. Effective September 2021, admission to this program will be at Level III.

Last cohort of students to enter at Level II will be in September 2019.

ADMISSION (FOR ENTRY IN SEPTEMBER 2019)

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

NOTE

A grade of at least C+ in four of BIOLOGY 1A03, 1M03, CHEM 1A03, 1AA3 and either MATH 1A03 or 1LS3 is required.

ADMISSION (EFFECTIVE SEPTEMBER 2021)

Effective September 2021, admission to this program will begin at Level III. Therefore, no admissions at Levels II or III will be assessed in September 2020.

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the *Biochemistry Course List* (See *Program Note 4* below.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

PROGRAM NOTES

1. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
2. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.

3. A 'research intensive' option, available to students registered in this Specialization, offers additional laboratory research experience through completion of BIOCHEM 3R06 A/B S and 4T15 A/B. This option is intended for students planning to pursue graduate studies or a career in research and development. Enrolment in the courses is limited and admission is by selection.
4. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3EE3 - Research Advances in Cell Biology and Biochemistry
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3X03
- BIOCHEM 3Y03
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4EA3
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOCHEM 4Y03
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- MOLBIOL 3003 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- (See *Admission* above.)

Level II: 30 Units

12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the *Biochemistry Course List* (See *Program Note 4* above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

6 units

- Electives

Level III: 30 Units

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project

15 units

from

- the *Biochemistry Course List* (See Program Note 4 above.)

3 units

- STATS 2B03 - Statistical Methods for Science

3-6 units

- Electives

Level IV: 30 Units

3 units

- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development

9 units

from

- the *Biochemistry Course List* (See Program Note 4 above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4003 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See Program Note 2 above.)

3-6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTER IN SEPTEMBER 2021

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of Level II Honours Biochemistry

Level III: 30 Units

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project

15 units

from

- the *Biochemistry Course List* (See Program Note 4 above.)

3 units

- STATS 2B03 - Statistical Methods for Science

3-6 units

- Electives

Level IV: 30 Units

3 units

- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development

9 units

from

- the *Biochemistry Course List* (See Program Note 4 above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4003 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See Program Note 2 above.)

- Electives

HONOURS BIOCHEMISTRY - BIOMEDICAL RESEARCH SPECIALIZATION CO-OP (B.SC.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the *Biochemistry Course List* (See Program Note 6 below.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in biochemistry related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
5. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.
6. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3EE3 - Research Advances in Cell Biology and Biochemistry
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3X03

- BIOCHEM 3Y03
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4EA3
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOCHEM 4Y03
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- MOLBIOL 3O03 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- Completed prior to admission to the program

Level II: 30 Units

30 units

Completion of Level II Honours Biochemistry, including completion of:

- SCIENCE 2C00 - Skills for Career Success in Science

(See Program Note 3 above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Level III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

from

- the *Biochemistry Course List* (See Program Note 6 above.)

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development

9 units

from

- the *Biochemistry Course List* (See Program Note 6 above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See Program Note 5 above.)

3-6 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- the *Biochemistry Course List* (See Program Note 6 above.)

6 units

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	30-31 units from Academic Levels III and IV		Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

Minor(s):

MINOR IN BIOCHEMISTRY

NOTES

- Students who have already completed CHEM 2BA3 and 2BB3 may substitute these courses for CHEM 20A3 and 20B3.
- ISCI 1A24 A/B is a substitution for CHEM 1A03 and 1AA3.
- ISCI 2A18 A/B is a substitution for 3 units of Level II Biochemistry toward the Minor in Biochemistry.
- In order to obtain a Minor in Biochemistry at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 units

- CHEM 1A03 - Introductory Chemistry I
 - CHEM 1AA3 - Introductory Chemistry II
- (See Note 2 above.)

6 units

- CHEM 20A3 - Organic Chemistry I
 - CHEM 20B3 - Organic Chemistry II
- (See Note 1 above.)

6 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
 - BIOCHEM 2BB3 - Protein Structure and Enzyme Function
 - BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
 - BIOCHEM 3D03 - Metabolism and Regulation
 - BIOCHEM 3G03 - Proteins and Nucleic Acids
 - HTHSCI 2E03 - Inquiry II: Biochemistry
- (See Note 3 above.)

6 units

- Levels III, IV Biochemistry

Eva S. Werstiuik/(*Medicine*) B.Sc., Ph.D. (*London, U.K.*)

NOTES APPLICABLE TO ALL HONOURS BIOLOGY PROGRAMS

- The department offers the following Honours programs:
 - Honours Biology
 - Honours Biology - Discovery Sub-Plan
 - Honours Biology (Physiology)
 - Honours Biology and Environmental Sciences
 - Honours Biology and Psychology, Neuroscience & Behaviour
 - Honours Biology and Mathematics
 - Honours Molecular Biology and Genetics
 - Honours Molecular Biology and Genetics Co-op (entry at Level III)

As well, Honours Neuroscience is offered jointly with the Department of Psychology, Neuroscience & Behaviour. (See *Department of Psychology, Neuroscience & Behaviour* section of the Calendar for program details.)

All options are suitable for students wishing to pursue graduate studies in Biology.

- Transfer between programs is possible, subject to satisfying the admission requirements and availability of space.
- There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
- Students wishing to include more mathematical statistics may replace STATS 2B03 with 2D03, 2MB3. In this case, students are advised to complete MATH 1AA3 or 1LT3 in Level I.
- Students considering graduate studies in Biology are recommended to complete BIOLOGY 2L03 (or 2L06 A/B) and either BIOLOGY 4C12 A/B S or 4F06 A/B S.

B.SC. THREE-LEVEL DEGREE

A three-level program with a general Life Sciences orientation is available through the B.Sc. in Life Sciences.

HONOURS BIOLOGY (B.SC.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

PROGRAM NOTES

- The Honours Biology program allows students to choose Biology courses which reflect their own interests. Students are encouraged to discuss their course selections with a Biology undergraduate counsellor.
- Students who wish to take Level III or IV Biochemistry or Chemistry courses should take both CHEM 20A3 and 20B3. Students are advised to check prerequisites carefully.
- Students must complete nine units from BIOLOGY 2A03, 2B03, 2D03, 2EE3, 2F03. Additional units from this list may be used towards the Biology course list requirement.
- Completion of STATS 2B03 by the end of Level III is required.
- Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2EE3, 4PP3, MOL BIOL 3CC3, 3003, 3V03, 4P03.
- Students interested in biodiversity and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2C03, 2D03, 2F03, 3DD3, 3ET3, 3FF3, 3PG3, 4AA3, GEOG 2GI3.

BIOLOGY COURSE LIST

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- all Biology and Molecular Biology Level III and IV courses
- all Biochemistry courses for which the prerequisites are met
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology

- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 2B03
- EARTHSC 2C03
- EARTHSC 2E03 - Earth History
- EARTHSC 2EI3
- EARTHSC 2GI3
- EARTHSC 2Q03
- EARTHSC 2W03
- EARTHSC 3B03
- EARTHSC 3GI3
- EARTHSC 4C03
- EARTHSC 4EA3
- EARTHSC 4FF3 - Topics of Field Research
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3MB3
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4GA3
- GEOG 2EI3 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I3 - Advanced Concepts in Immunology
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3K03 - Neural Control of Human Movement
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- MEDPHYS 4U03 - Radiation Biology
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3SN3
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4R03 - Special Topics in Animal Behaviour
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Levels II-IV: 90 Units

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 4 above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See Program Note 3 above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 20A3 - Organic Chemistry I
- CHEM 20C3
- CHEM 20G3 - Structure and Reactivity of Organic Molecules

15 units

from

- the *Biology Course List* (See Program Note 3 above.)

18 units

from

- Levels III, IV Biology and Molecular Biology courses, which must include at least three units of Level IV

And one of:

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

OR

- Levels III, IV Biology and Molecular Biology courses, which must include at least six units of Level IV

39 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2017

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Levels II-IV: 90 Units

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 4 above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- (See Program Note 3 above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 20A3 - Organic Chemistry I
- CHEM 20C3
- CHEM 20G3 - Structure and Reactivity of Organic Molecules

15 units

from

- the *Biology Course List* (See Program Note 3 above.)

15 units

from

- Levels III, IV Biology and Molecular Biology courses, which may include

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

3 units

from

- Level IV Biology or Molecular Biology, excluding BIOLOGY 4C12 A/B S and 4F06 A/B S

39 units

- Electives

HONOURS BIOLOGY - DISCOVERY SUB-PLAN (B.SC.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

PROGRAM NOTES

1. The Honours Biology - Discovery Sub-Plan program allows students to choose Biology courses which reflect their own interests and includes additional lab and/or field and research experience as compared to the Honours Biology program. Students are encouraged to discuss their course selections with a Biology undergraduate counsellor.
2. Students who wish to take Level III or IV Biochemistry and Chemistry courses should take both CHEM 20A3 and 20B3. Students are advised to check prerequisites carefully.
3. Students must complete nine units from BIOLOGY 2A03, 2B03, 2D03, 2EE3, 2F03. Additional units from this list may be used towards the Biology course list requirement.
4. Completion of STATS 2B03 by the end of Level III is required.
5. Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2EE3, 4PP3, MOL BIOL 3CC3, 3003, 3V03, 4P03.
6. Students interested in biodiversity and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2C03, 2D03, 2F03, 3DD3, 3ET3, 3FF3, 3PG3, 4AA3, GEOG 2E13.
7. Discovery Sub-Plan students are required to complete nine units from the list of lab and field offerings listed below, however, additional units are recommended. When completed, the additional units may be used towards the Level III and IV Biology and Molecular Biology program requirements.
8. Effective September 2017, BIOLOGY 4C09 A/B S is replaced by BIOLOGY 4C12 A/B S.

9. Discovery Sub-Plan students must complete one of BIOLOGY 4C12 A/B S or 4F06 A/B S. Students who have not obtained the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology program.

BIOLOGY COURSE LIST

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- all Biology and Molecular Biology Level III and IV courses
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 2B03
- EARTHSC 2C03
- EARTHSC 2E03 - Earth History
- EARTHSC 2E13
- EARTHSC 2GI3
- EARTHSC 2W03
- EARTHSC 3B03
- EARTHSCI 3GI3
- EARTHSCI 4C03
- EARTHSC 4EA3
- EARTHSC 4FF3 - Topics of Field Research
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3MB3
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4GA3
- GEOG 2E13 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3B03
- LIFESCI 3K03 - Neural Control of Human Movement
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- MEDPHYS 4U03 - Radiation Biology
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour

- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3SN3
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4R03 - Special Topics in Animal Behaviour
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 20A3 - Organic Chemistry I
- CHEM 20C3
- CHEM 20G3 - Structure and Reactivity of Organic Molecules

12 units

from

- the *Biology Course List* (See *Program Notes 3, 7 and 8* above.)

18 units

from

- Levels III, IV Biology and Molecular Biology courses

which must include one of

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See *Program Notes 7, 8 and 9* above.)

3 units

from

- Level IV Biology and Molecular Biology courses

9 units

from the following list of lab and field placement offerings

- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3R03 - Field Biology I /BIOLOGY 3RF0 - Field Work I
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3 - Laboratory Methods in Molecular Biology
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4J03 - Field Biology II /BIOLOGY 4JF0 - Field Work II

- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3V03 - Techniques in Molecular Genetics

(See *Program Note 7* above.)

30 units

- Electives (See *Program Note 2* above.)

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2017

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 20A3 - Organic Chemistry I
- CHEM 20C3
- CHEM 20G3 - Structure and Reactivity of Organic Molecules

15 units

from

- the *Biology Course List* (See *Program Note 3* above.)

18 units

from

- Levels III, IV Biology and Molecular Biology courses, of which at least 12 units must be Level IV

and must include one of:

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See *Program Note 8* above.)

9 units

from the following list of lab and field placement offerings

- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3R03 - Field Biology I /BIOLOGY 3RF0
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3 - Laboratory Methods in Molecular Biology
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4J03 - Field Biology II /BIOLOGY 4JF0
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3V03 - Techniques in Molecular Genetics
- MOLBIOL 4XX3

(See Program Note 7 above.)

30 units

- Electives (See Program Note 2 above.)

HONOURS BIOLOGY - PHYSIOLOGY (B.SC.)

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

PROGRAM NOTES

- It is recommended that students take both PSYCH 1X03 and 1XX3 if they are interested in upper level Psychology courses.
- All students must take BIOLOGY 2A03 in Level II.
- Completion of BIOLOGY 4C12 A/B S or 4F06 A/B S is required in Level IV. Students who do not obtain the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology program.
- Completion of STATS 2B03 by the end of Level III is required.
- Completion of BIOLOGY 3ZZ3 by the end of Level III is recommended.
- Students who previously completed KINESIOL 3Y03 may use these units toward the Physiology Course List requirement.
- Students are strongly encouraged to complete two of BIOLOGY 3XL3, 4T03, 4X03.

PHYSIOLOGY COURSE LIST

- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3R03 - Field Biology I

- BIOLOGY 3S03 - An Introduction to Bioinformatics
- BIOLOGY 3SS3 - Population Ecology
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4T03 - Neurobiology
- BIOLOGY 4X03 - Environmental Physiology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- KINESIOL 2C03 - Neuromuscular Exercise Physiology
- KINESIOL 2CC3 - Cardiorespiratory and Metabolic Exercise Physiology
- KINESIOL 4C03 - Integrative Physiology of Human Performance
- KINESIOL 4CC3
- LIFESCI 3AA3 - Human Pathophysiology
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- MOLBIOL 3M03 - Fundamental Concepts of Development
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3J03
- PSYCH 3SN3
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Levels II-IV: 90 Units

12 units

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See Program Note 2 above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 4 above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

12 units

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3UU3 - Animal Physiology - Regulatory Systems
- BIOLOGY 3ZZ3 - Topics in Physiology

(See Program Note 5 above.)

6 units

from

- the Physiology Course List

which must include at least one of:

- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4T03 - Neurobiology
- BIOLOGY 4X03 - Environmental Physiology

(See Program Note 7 above.)

27 units

from

- the *Physiology Course List*

which must include one of:

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See Program Notes 3 and 6 above.)

21 units

- Electives

HONOURS BIOLOGY AND ENVIRONMENTAL SCIENCES (B.SC.)

Honours Biology and Environmental Sciences is a flexible program that focuses on interdisciplinary studies among these two fields. Jointly offered by the Department of Biology and the School of Geography and Earth Sciences, this program enables students to select courses according to their interests; to develop broad knowledge, and understanding of the linkages between biological and environmental processes; and to apply these to questions of biological, biomedical, or environmental interests. This program prepares students for graduate studies, careers in industry or academic research laboratories.

ADMISSION NOTE

Students are strongly recommended to take CHEM 1A03 and 1AA3 in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from the following courses, with a grade of at least C+

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

12 units

from

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- COMPSCI 1JC3 - Introduction to Computational Thinking
- COMPSCI 1MD3 - Introduction to Programming
- COMPSCI 1XA3 - Computer Science Practice and Experience: Basic Concepts
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- LIFESCI 1E03
- MATH 1AA3 - Calculus For Science II

- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- MEDPHYS 1E03
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

(See Admission Note above.)

PROGRAM NOTES

1. The Biology and Environmental Sciences program allows students (especially those focused on ecology and conservation) to choose Biology and Environmental Science courses that reflect their own interests. Students are strongly encouraged to discuss their course selections with an academic advisor in the Department of Biology or the School of Geography and Earth Sciences.
2. Prerequisites for upper year courses must be checked carefully when selecting courses in Level II. Biochemistry and Organic Chemistry prerequisites exist in many upper year biology courses. Students are encouraged to take six units from CHEM 2E03, 2OA3, 2OB3, 2OC3, 2OD3, 2OG3.
3. Students interested in completing a thesis may take one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B in Level IV, subject to meeting the prerequisites. Students considering graduate studies are recommended to complete a thesis course.
4. Only one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B may be completed as part of the program requirements. Completion of EARTHSC 3RD3 in Level III is required preparation for EARTHSC 4MT6 A/B.

COURSE LIST 1

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3ET3 - Ecotoxicology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2PD3
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- LIFESCI 2H03
- LIFESCI 2X03 - Environmental Change and Human Health
- PSYCH 3T03 - Behavioural Ecology

COURSE LIST 2

- EARTHSC 2E03 - Earth History
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences

- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4MI3
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4VV3 - Environmental Geophysics
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2E13
- ENVIRSC 2GI3
- ENVIRSC 2L03
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3MB3
- ENVIRSC 3ME3 - Environmental Field Camp
- ENVIRSC 3003 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4CC3
- ENVIRSC 4FF3
- ENVIRSC 4G03
- ENVIRSC 4GA3
- ENVIRSC 4HH3
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVIRSC 4WB3
- GEOG 2E13 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3EE3 - Energy and Society
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 3MB3 - Data Analysis
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4HH3 - Environment and Health

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

9 units

- BIOLOGY 2F03 - Fundamental and Applied Ecology

- ENVIRSC 2W03 - Physical Hydrology
- GEOG 2GI3 - Geographic Information Systems

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- GEOG 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- LIFESCI 2X03 - Environmental Change and Human Health

3 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry

9 units

- Electives

Level III: 30 Units

6 units

from

- BIOLOGY 3E13 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3ME3 - Environmental Field Camp

6 units

from

- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3E13 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- ENVIRSC 3B03 - Ecosystems and Global Change

6 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3W03 - Physical Hydrogeology
- ENVIRSC 3003 - Contaminant Fate and Transport
- ENVIRSC 3U03 - Environmental Systems Modelling
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3SR3 - Remote Sensing

12 units

- Electives

Level IV: 30 Units

6 units

from

- Course List 1 or Course List 2

6 units

- Levels III, IV courses from Course List 2

6 units

- Levels III, IV Biology, Molecular Biology courses

3 units

- ENVIRSC 4EA3 - Environmental Assessment

9 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2018

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

9 units

- BIOLOGY 2F03 - Fundamental and Applied Ecology
- ENVIRSC 2W03 - Physical Hydrology
- GEOG 2GI3 - Geographic Information Systems

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- GEOG 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- LIFESCI 2X03 - Environmental Change and Human Health

3 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry

9 units

- Electives

Levels III-IV: 60 Units

6 units

from

- *Course List 1 or Course List 2*

21 units

- Levels III, IV courses from *Course List 2*

18 units

- Levels III, IV Biology, Molecular Biology courses

3 units

- ENVIRSC 4EA3 - Environmental Assessment

12 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2018

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

9 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment

- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions

- ENVIRSC 2E03

- ENVIRSC 2GI3

- ENVIRSC 2L03

- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry

- ENVIRSC 2W03 - Physical Hydrology

- GEOG 2GI3 - Geographic Information Systems

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- LIFESCI 2X03 - Environmental Change and Human Health

3 units

from

- ENVIRSC 3MB3
- STATS 2B03 - Statistical Methods for Science

6 units

from

- *Course List 1 or Course List 2*

21 units

- Levels III, IV courses from *Course List 2*

18 units

- Levels III, IV Biology, Molecular Biology courses

3 units

- ENVIRSC 4EA3 - Environmental Assessment

21 units

- Electives

HONOURS BIOLOGY AND MATHEMATICS (B.SC.)**ADMISSION NOTE**

MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

3 units

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

PROGRAM NOTES

1. Students may seek academic advising for this program in either the Department of Mathematics and Statistics or the Department of Biology.
2. Completion of MATH 1B03 (or 1ZC3) is required by the end of Level II. Completion in Level I is strongly recommended.
3. While not required for this program, PHYSICS 1A03, 1C03, CHEM 1A03, 1AA3 and one of CHEM 2BA3, 2E03, 2OA3, CHEMBIO 2OA3 are prerequisites for many courses in Biology.
4. MATH 2C03, 2R03, 3F03 are prerequisites for MATH 4MB3.
5. Many of the courses in the *Course List* have additional prerequisites. Students are advised to check the Course Listings section of this Calendar.
6. Students considering graduate studies in Biology are recommended to complete BIOLOGY 4C12 A/B S or 4F06 A/B S. Students taking BIOLOGY 4C12 A/B S or 4F06 A/B S may be supervised by faculty from the Department of Mathematics & Statistics as long as they are co-supervised by faculty from the Department of Biology.
7. Students considering graduate studies in Mathematics are strongly recommended to complete MATH 3NA3, 3X03, 4A03, 4GR3 and 4MB3.

COURSE LIST

- ANTHROP 3C03 - Health and Environment: Anthropological Approaches
- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- all Biology and Molecular Biology Level II, III and IV courses
- BIOPHYS 3D03 - Origin of Life
- BIOPHYS 3G03 - Modelling Life
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4KK3 - Bayesian Inference
- PSYCH 4R03 - Special Topics in Animal Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

3 units

- BIOLOGY 2C03 - Genetics

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

3 units

from

- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- BIOLOGY 3SS3 - Population Ecology

0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Program Note 2* above.)

9 units

- MATH 2X03 - Advanced Calculus I
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

6 units

from

- MATH 2C03 - Introduction to Differential Equations

- MATH 2R03 - Linear Algebra II
- MATH 2T03
- MATH 2XX3 - Advanced Calculus II

(See *Program Notes 4 and 7* above.)

3 units

- MATH 3MB3 - Introduction to Modelling

3 units

from

- MATH 3A03 - Introduction to Real Analysis
- MATH 3DC3 - Discrete Dynamical Systems and Chaos
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3Q03
- MATH 3U03 - Combinatorics
- MATH 3V03 - Graph Theory
- MATH 3X03 - Complex Analysis I
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3U03* - Stochastic Processes

(See *Program Note 7* above.)

3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03 - Scientific Computing

9 units

from

- *Course List*

(See *Program Note 5* above.)

12 units

from

- Levels III, IV Mathematics, Statistics, Biology, Molecular Biology courses

which must include one of

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- MATH 4MB3 - Mathematical Biology

(See *Program Notes 4, 6 and 7* above.)

30-33 units

- Electives

HONOURS BIOLOGY AND PHARMACOLOGY CO-OP (B.SC.)

Effective September 2018, the Honours Biology and Pharmacology Co-op program is administered by the Faculty of Health Sciences. Students interested in applying to this program should see the Honours Biology and Pharmacology program (B.H.Sc.) in the Faculty of Health Sciences section of the Calendar. Students who are currently registered in the program, seeking the B.Sc. (Hons) degree, should refer to the 2017-2018 Undergraduate Calendar or their personal Advisement Reports for program requirements. Such students will graduate at a Faculty of Science convocation.

**HONOURS BIOLOGY AND PSYCHOLOGY,
NEUROSCIENCE & BEHAVIOUR (B.SC.)**

ADMISSION NOTES

1. One of PHYSICS 1A03 or 1C03 is required for admission.
2. Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended.
3. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II, however, PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of 7.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
(See Admission Note 2 above.)

6 units

from the following courses, where an average of at least 7.0 (between the courses) is required

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 units

from

- the Science I Course List (See Admission Note 3 above.)

PROGRAM NOTES

- Academic advising for this program is shared by the Departments of Biology and Psychology, Neuroscience & Behaviour. Information may be obtained through the Undergraduate Advisors in the Life Sciences Building, Room 215 or Psychology Building, Room 109.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D09 A/B, 4DD6 A/B), and the Individual Study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at www.pnb.mcmaster.ca.
- Students who have not obtained the minimum Grade Point Average as stated in the prerequisite of one of BIOLOGY 4C12 A/B S, 4F06 A/B S, PNB 4D09 A/B or 4DD6 A/B may request a requisite waiver from the Undergraduate Associate Chair of the Department. Students denied permission may not continue in the program and must apply to transfer to Honours Biology or Honours Psychology, Neuroscience & Behaviour and apply to graduate with a Minor in the alternate subject area.
- Both PNB 2XD3, 2XF3 are highly recommended but not required. PNB 2XD3 is included in the Psychology Course List and may be used towards the Level III Psychology requirements.

BIOLOGY COURSE LIST

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4Q03 - Biochemical Pharmacology

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- all Level III and IV Biology and Molecular Biology courses
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- CHEMBIO 3BM3 - Implanted Biomaterials
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4BB3 - Neuroimmunology
- HTHSCI 4I13 - Advanced Concepts in Immunology

PSYCHOLOGY COURSE LIST

- KINESIOL 3E03 - Neural Control of Human Movement
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MP3 - Introduction to Music Cognition
- all Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- all Level III and IV PNB courses
- all Level III and IV PSYCH courses (PSYCH 2AA3, 2AP3, 2B03, 2C03, 2S03, 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as elective credit.)

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units**30 units**

(See Admission above.)

Levels II-IV: 90 Units**9 units**

- BIOLOGY 2C03 - Genetics
- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XT0 - PNB Tutorial
- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

3 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

12 units

from

- Levels III, IV Biology or Molecular Biology courses, which must include at least three units of Level IV

3 units

from

- the Psychology Course List (See Program Note 4 above.)

27 units

from

- the *Biology Course List* or Levels III, IV from the *Psychology Course List* (including at least nine units from the *Biology Course List* and at least nine units of Levels III, IV from the *Psychology Course List*)

and which must include one of:

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- PNB 4D09 A/B - Senior Honours Thesis
- PNB 4DD6 A/B - Senior Thesis

(See *Program Notes 2 and 3 above.*)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 3 above.*)

15-18 units

- Electives (See *Program Note 4 above.*)

REQUIREMENTS FOR STUDENTS WHO ENTERED IN

SEPTEMBER 2016 OR SEPTEMBER 2017

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

9 units

- BIOLOGY 2C03 - Genetics
- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XT0 - PNB Tutorial
- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

3 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

12 units

from

- the *Biology Course List*, which must include at least six units of Level III

3 units

from

- the *Psychology Course List* (See *Program Note 4 above.*)

27 units

from

- Level III or IV courses from the *Biology Course List* or the *Psychology Course List* (including at least nine units from the *Biology Course List* and at least nine units from the *Psychology Course List*)

and which must include one of

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- PNB 4D09 A/B - Senior Honours Thesis
- PNB 4DD6 A/B - Senior Thesis

(See *Program Notes 2 and 3 above.*)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 3 above.*)

15-18 units

- Electives (See *Program Note 4 above.*)

HONOURS MOLECULAR BIOLOGY AND GENETICS (B.SC.)

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 by the end of Level II is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note above.*)

6 units

from

- the Science I Course List (See *Admission Note above.*)

PROGRAM NOTES

- BIOLOGY 2B03, 2EE3 and MOLBIOL 2C03 must be completed in Level II.
- Six units of BIOLOGY 2A03, 2D03, 2F03, 3FF3 are required. However, completion of at least nine units is recommended.
- Completion of STATS 2B03 is required for admission to the Honours Molecular Biology and Genetics (Co-op) program and therefore, students intending to apply for the Co-op option must complete STATS 2B03 in Level II.
- Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 4PP3, MOLBIOL 3CC3, 4P03.
- BIOLOGY 2L03 (or 2L06 A/B), MOLBIOL 3A03 and 3I03 A/B S are recommended as preparatory courses for BIOLOGY 4C12 A/B S or 4F06 A/B S.
- Completion of BIOLOGY 4C12 A/B S or 4F06 A/B S is required in Level IV. Students who have not obtained the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology program.

MOLECULAR BIOLOGY AND GENETICS COURSE LIST I

- BIOLOGY 4C09 A/B S

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3CC3 - Genomics and Systems Biology (or 4CC3)
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4DD3 - Molecular Evolution
- MOLBIOL 4H03 - Molecular Biology of Cancer
- MOLBIOL 4K03 - Research Advances in Biology of Aging
- MOLBIOL 4P03 - Medical Microbiology
- MOLBIOL 4RR3 - Human Genetics

MOLECULAR BIOLOGY AND GENETICS COURSE LIST II

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3PG3 - Population Genetics
- BIOLOGY 4ED3 - Evolutionary Developmental Biology
- BIOLOGY 4EE3 - Human Diversity and Human Nature
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Levels II-IV: 90 Units

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 3 above.)

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3FF3 - Evolution

(See Program Note 2 above.)

24 units

- BIOLOGY 2B03 - Cell Biology

- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- MOLBIOL 2C03 - Genetics
- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3I13 - Molecular Genetics of Eukaryotes
- MOLBIOL 3O03 - Microbial Genetics
- MOLBIOL 3V03 - Techniques in Molecular Genetics

(See Program Note 1 above.)

18 units

from

- the *Molecular Biology and Genetics Course List I*

which must include one of:

- BIOLOGY 4C09 A/B S
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See Program Note 6 above.)

3 units

from

- Level IV courses from the *Molecular Biology and Genetics Course List I*, excluding BIOLOGY 4C12 A/B S and 4F06 A/B S

6 units

from

- the *Molecular Biology and Genetics Course List I or II*

24 units

- Electives (See Program Note 2 above.)

HONOURS MOLECULAR BIOLOGY AND GENETICS CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, completion of Level II of the Honours Molecular Biology and Genetics program with a Grade Point Average of at least 5.0 and completion of the following courses:

9 units

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- MOLBIOL 2C03 - Genetics

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

NOTES

1. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. (It is anticipated that a Grade Point Average of at least 8.0 will be required.) Information about this program and the selection procedure can be obtained from Science Career and Cooperation Education Office.

- BIOLOGY 2A03 is only available as a Winter Term offering and, therefore, completion in Level II (prior to admission to the Co-op program) is strongly recommended for students who intend to complete this course.

PROGRAM NOTES

- This is a five-level (year) co-op program, which includes two eight-month work terms which must be spent in molecular biology and genetics related placements.
- Students must be registered full-time and take a full academic workload as prescribed by Level and Term.
- Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
- Students should seek academic advising for this program in the Department of Biology.
- Completion of BIOLOGY 2B03 and MOLBIOL 2C03 is required prior to admission to this program.
- STATS 2B03 is required for admission. Students who enrol in the program in September 2016 (or earlier) must complete the requirement by the end of Level III.
- Students should consult the MOLBIOL 4G12 A/B S Course Coordinator regarding supervision arrangements. Students are strongly encouraged to carry out their thesis in an academic lab.
- Students must take a minimum of 15 units from the *Molecular Biology and Genetics Co-op Course Lists I and II*, at least 12 of these units must be from *Course List I*, and at least 3 of these units must be at Level IV.
- Six units from BIOLOGY 2A03, 2D03, 2F03 are required for admission, however, students are encouraged to complete each of these courses. When more than six units are completed, these will count toward the *Molecular Biology and Genetics Co-op Course List II* program requirement.

MOLECULAR BIOLOGY AND GENETICS CO-OP COURSE LIST I

- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3CC3 - Genomics and Systems Biology
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4DD3 - Molecular Evolution
- MOLBIOL 4H03 - Molecular Biology of Cancer
- MOLBIOL 4K03 - Research Advances in Biology of Aging
- MOLBIOL 4P03 - Medical Microbiology
- MOLBIOL 4RR3 - Human Genetics

MOLECULAR BIOLOGY AND GENETICS CO-OP COURSE LIST II

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 2L06 A/B
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3PG3 - Population Genetics
- BIOLOGY 4ED3 - Evolutionary Developmental Biology
- BIOLOGY 4EE3 - Human Diversity and Human Nature
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3G03 - Modelling Life

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

Completed prior to admission to the program

Level II: 30 Units

30 units

Completion of Level II Honours Molecular Biology and Genetics program, including:

9 units

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- MOLBIOL 2C03 - Genetics

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See Program Note 9 above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 6 above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

9 units

- BIOLOGY 3S03 - An Introduction to Bioinformatics
- MOLBIOL 3O03 - Microbial Genetics
- MOLBIOL 3V03 - Techniques in Molecular Genetics

3 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See Program Notes 8 and 9 above.)

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3II3 - Molecular Genetics of Eukaryotes

3 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See Program Note 8 above.)

12 units

- MOLBIOL 4G12 A/B S - Senior Co-op Thesis
(See Program Note 7 above.)

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

9 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See Program Note 8 above.)

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Level III including MOLBIOL 4G12 A/B S	15 units from Academic Level IV including MOLBIOL 4G12 A/B S	Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

Minor(s):**MINOR IN BIOLOGY****NOTES**

1. ISCI 1A24 A/B is a substitution for BIOLOGY 1A03 and 1M03.
2. ISCI 2A18 A/B is a substitution for 3 units of Level II Biology toward the Minor in Biology.
3. In order to obtain a Minor in Biology at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

18 units

from

- Levels II, III, IV Biology or Molecular Biology courses including at least six units from Levels III, IV Biology or Molecular Biology

Department of Chemistry and Chemical Biology

 Anthony F. Rullo/*(Pathology)* B.Sc. (*McMaster*), M.Sc. (*Guelph*), Ph.D. (*Toronto*)

The Department offers two distinct programs, Honours Chemistry and Honours Chemical Biology.

NOTES APPLICABLE TO ALL HONOURS PROGRAMS IN THE DEPARTMENT OF CHEMISTRY AND CHEMICAL BIOLOGY

- The Honours programs consist of a specified set of basic requirements and a wide choice of electives, allowing for interdisciplinary studies or the opportunity to complete a Minor. Honours Chemistry and Honours Chemical Biology are also available as five-year co-op programs, with entry beginning at Level III.
- In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
- Students are encouraged to seek academic advising from the Departmental Undergraduate Advisor (email: advisor@chemistry.mcmaster.ca).
- Certain Level IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.
- The Honours Chemistry, Honours Chemistry Co-op, Honours Chemical Biology and Honours Chemical Biology Co-op programs fulfill the academic requirements of the Canadian Society for Chemistry.
- CHEM 3RP3 and CHEMBIO 3RP3 provide the opportunity for students to integrate a one term work/research experience into an elective course. CHEM 3EP3 A/B S and CHEMBIO 3EP3 A/B S allow students to participate in an experiential placement. Further details may be obtained from the Undergraduate Advisor, in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- CHEM 4G12 A/B and CHEMBIO 4G12 A/B offer a senior thesis research experience. CHEM 4RP6 A/B S and CHEMBIO 4RP6 A/B S offer a more limited research experience, without a presentation or formal thesis.

NOTES APPLICABLE TO ALL HONOURS CHEMISTRY PROGRAMS

- McMaster's Honours Chemistry program is structured such that part of the laboratory experience in the conventional sub-disciplines of organic, inorganic, physical, and analytical chemistry is obtained through two integrated laboratory courses that are distinct from the lecture courses - CHEM 2LB3 in Level II and CHEM 3LA3 in Level III. This program provides in

excess of 55 hours of "Organic Chemistry" laboratory experience. The Level III course focuses on more advanced skills.

- For those considering postgraduate studies in Chemistry, it should be noted that 18 units of Level IV Chemistry or related subjects are required for consideration for admission at McMaster and most graduate schools in Canada. CHEM 4G12 A/B is strongly recommended.
- BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as the prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
- CHEM 2PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.
- CHEM 4G12 A/B cannot be taken concurrently with CHEM 3LA3 or CHEM 3RP3 given the time commitment required for the Senior Undergraduate Thesis.

B.SC. THREE-LEVEL DEGREE

A three-level program with a Chemistry orientation is available through the B.Sc. in Chemical and Physical Sciences.

HONOURS CHEMICAL BIOLOGY (B.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 units

from the following courses, with a grade of at least C+ in each

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

from the following courses, with an average of at least 6.0

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 units

from

- the Science I Course List

PROGRAM NOTES

- Students are encouraged to seek academic advising from the Departmental Undergraduate Advisor (email advisor@chemistry.mcmaster.ca).
- In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
- Certain Level III and IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.
- Students are strongly advised not to take CHEMBIO 3L03 concurrent with CHEMBIO 4G03, 4G12 A/B or 4GG9 A/B.
- Students seeking admission to graduate school are strongly advised to complete CHEMBIO 3AA3 (or CHEM 3AA3) and 6 units from CHEMBIO

4A03, 40A3, 40B3. Completion of CHEMBIO 4G12 A/B or 4GG9 A/B is also strongly recommended.

6. One of CHEMBIO 3EP3 A/B S, or 3RP3 may be completed to satisfy units toward the Level III Chemical Biology or Chemistry requirement.
7. BIOCHEM 3G03 must be completed in Level II. The combination of both BIOCHEM 2B03 and 2BB3 may substitute for BIOCHEM 3G03 and, when completed, will reduce the elective requirement by three units.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

12 units

from

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2AA3
- CHEMBIO 2L03 - Pharmaceutical Chemistry Laboratory I: Biomolecular Interactions
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 2Q03 - Inquiry for Chemical Biology

6 units

from

- CHEMBIO 20A3
- CHEMBIO 20B3
- CHEMBIO 20D3 - Organic Chemistry II
- CHEMBIO 20G3 - Organic Chemistry I

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3 units

- BIOLOGY 2B03 - Cell Biology

6 units

- Electives

Levels III and IV: 60 Units

6 units

- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics

3 units

from

- CHEMBIO 30B3 - Structural Elucidation of Natural Products and Small Molecules
- CHEMBIO 4IB3 - Bio-Inorganic Chemistry

(See *Program Note 3* above.)

6 units

from

- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEM 3AA3 - Instrumental Analysis
- CHEM 30A3 - Organic Synthesis

(See *Program Notes 2* and *3* above.)

3 units

- CHEMBIO 3L03 - Chemical Biology Laboratory II

(See *Program Note 4* above.)

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Levels II, III Biology courses

6 units

from

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 40B3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See *Program Notes 3* and *5* above.)

3-12 units

from Levels III, IV Chemical Biology, Chemistry courses, which may include one of

- CHEMBIO 4G03
- CHEMBIO 4G12 A/B - Senior Thesis in Chemical Biology
- CHEMBIO 4GG9 A/B
- CHEMBIO 4RP6 A/B S - Research Project in Chemical Biology

(See *Program Notes 4, 5* and *6* above.)

18-27 units

- Electives

HONOURS CHEMICAL BIOLOGY CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Chemical Biology with a Grade Point Average of at least 5.0. (It is anticipated that a Grade Point Average of at least 9.5 will be required.)

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms that must be spent in chemical biology-related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and by Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
5. 6 units from CHEMBIO 4A03, 40A3, 40B3, CHEM 4D03, 40B3, 4W03 must be completed by the end of Level V.
6. Certain Level III and IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.
7. Students are strongly advised not to take CHEMBIO 3L03 concurrent with CHEMBIO 4G03, 4G12 A/B, 4GG9 A/B or 4RP6 A/B S.
8. Students seeking admission to graduate school are strongly advised to complete CHEMBIO 3AA3 (or CHEM 3AA3) and 6 units from CHEMBIO 4A03, 40A3, 40B3. CHEMBIO 4G12 A/B, 4GG9 A/B or 4RP6 A/B S is also strongly recommended and must be completed in Level IV.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of Level II Honours Chemical Biology program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

6 units

- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics

3 units

- CHEM 30A3 - Organic Synthesis

3 units

from

- Levels II, III Biology courses

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- CHEMBIO 30B3 - Structural Elucidation of Natural Products and Small Molecules
- CHEMBIO 4IB3 - Bio-Inorganic Chemistry

3 units

from

- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEM 3AA3 - Instrumental Analysis

6-12 units

from

- Levels III, IV Chemical Biology or Chemistry courses,

which must include one of

- CHEMBIO 3L03 - Chemical Biology Laboratory II
- CHEMBIO 4G03
- CHEMBIO 4G12 A/B - Senior Thesis in Chemical Biology
- CHEMBIO 4RP6 A/B S - Research Project in Chemical Biology

(See Program Notes 7 and 8 above.)

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 40B3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See Program Note 5 above.)

3-12 units

- Electives (See Program Note 8 above.)

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

0-3 units

from the following courses, if only three units completed in Level IV

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 40B3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See Program Note 5 above.)

12-15 units

- Electives (See Program Note 8 above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Levels III & IV	15 units from Academic Levels III & IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Levels III & IV	

HONOURS CHEMISTRY (B.SC.)**ADMISSION NOTES**

1. PHYSICS 1AA3 (or PHYSICS 1BA3 or 1BB3) or 1CC3 must be completed by the end of Level II and is very strongly recommended in Level I.
2. Students with credit in MATH 1X03 or 1ZA3 may use either as a substitution for MATH 1A03 or 1LS3.
3. Students are strongly recommended to complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I and MATH 1B03 (or 1ZC3) in either Level I or II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 6.0 (between the courses) is required

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

(See Admission Note 2 above.)

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

12 units

from

- the Science I Course List (See Admissions Notes 1 and 3 above.)

PROGRAM NOTES

1. In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
2. BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as the prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
3. CHEM 2PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II, and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.
4. One of PHYSICS 1AA3 (or 1BB3) or 1CC3 must be completed by the end of Level II and is very strongly recommended in Level I.
5. CHEM 4G09 A/B, 4G12 A/B or 4RP6 A/B S cannot be taken concurrently with CHEM 3LA3 or 3RP3.
6. One of CHEM 3EP3 A/B S, 3RP3 may be completed to satisfy units toward the Level III Chemical Biology or Chemistry requirement.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 units

21 units

- CHEM 2A03 - Quantitative Chemical Analysis (or CHEM 2AA3)
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery I
- CHEM 20D3 - Synthesis and Function of Organic Molecules
- CHEM 20G3 - Structure and Reactivity of Organic Molecules (or CHEM 20C3)
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry

0-3 units

from the following courses, if not completed in Level I

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1BA3
- PHYSICS 1BB3
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

(See Program Note 4 above.)

6-9 units

- Electives (See Program Notes 3 and 4 above.)

Level III: 30 Units

12 units

- CHEM 3AA3 - Instrumental Analysis
- CHEM 3I13 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy

0-3 units

- CHEM 2PC3 - Mathematical Tools for Chemical Problems

(See Program Note 3 above.)

6 units

from

- Levels III, IV Chemical Biology or Chemistry courses (See Program Note 6 above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See Program Note 2 above.)

6-9 units

- Electives

Level IV: 30 Units

9-12 units

from

- Level IV Chemistry courses (See Program Note 5 above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses (See Program Note 6 above.)

3 units

from

- Level IV Chemical Biology or Chemistry courses

12-15 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

24 units

- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LA3
- CHEM 2LB3 - Tools for Chemical Discovery I
- CHEM 20C3
- CHEM 20D3 - Synthesis and Function of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry (or CHEM 2PD3)
- CHEM 2PC3 - Mathematical Tools for Chemical Problems

(See Program Note 3 above.)

0-3 units

from the following courses, if not completed in Level I

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1BA3
- PHYSICS 1BB3
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

(See Program Note 4 above.)

3-6 units

- Electives (See Program Notes 3 and 4 above.)

Level III: 30 Units

12 units

- CHEM 3AA3 - Instrumental Analysis
- CHEM 3I13 - Introduction to Transition Metal Chemistry

- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy

6 units
from

- Levels III, IV Chemical Biology or Chemistry courses (See *Program Note 6* above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids
(See *Program Note 2* above.)

9 units

- Electives

Level IV: 30 Units

9 units

from

- Level IV Chemistry courses (See *Program Note 5* above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses (See *Program Note 6* above.)

3 units

from

- Level IV Chemical Biology or Chemistry courses

15 units

- Electives

HONOURS CHEMISTRY CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Chemistry with a Grade Point Average of at least 5.0 including:

24 units

- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LA3
- CHEM 2LB3 - Tools for Chemical Discovery I
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2PC3 - Mathematical Tools for Chemical Problems
(See *Program Note 8* below.)

3 units

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1BA3
- PHYSICS 1BB3
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

ADMISSION (EFFECTIVE SEPTEMBER 2020)

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Chemistry with a Grade Point Average of at least 5.0 including:

21 units

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery I

- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry (or 2PD3)
- CHEM 2Q03 - Inquiry for Chemistry

3 units

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1BA3
- PHYSICS 1BB3
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms that must be spent in chemistry-related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and by Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
5. Students considering postgraduate studies in Chemistry should note that 18 units of Level IV Chemistry or related subjects are required for consideration for admission at McMaster and most graduate schools in Canada.
6. BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as a prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
7. CHEM 4G09 A/B, 4G12 A/B or 4RP6 A/B S cannot be taken concurrently with CHEM 3LA3 or 3RP3.
8. CHEM 2PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II, and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.

REQUIREMENTS FOR STUDENTS WHO ENTER IN SEPTEMBER 2019 OR PRIOR
120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of any Level II Honours Chemistry program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

9 units

- CHEM 3I13 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy

6 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- CHEM 3AA3 - Instrumental Analysis

9-12 units

from Levels III, IV Chemistry courses,

which may include one of

- CHEM 4G09 A/B
- CHEM 4G12 A/B - Senior Thesis
- CHEM 4RP6 A/B S - Research Project in Chemistry

(See Note 4 and Program Note 7 above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses

12-15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- Levels III, IV Chemistry courses

3 units

from

- Level IV Chemical Biology or Chemistry courses

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See Program Note 6 above.)

6 units

- Electives

REQUIREMENTS (EFFECTIVE SEPTEMBER 2020)

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of any Level II Honours Chemistry program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- CHEM 2PC3 - Mathematical Tools for Chemical Problems

(See Program Note 8 above.)

6 units

- CHEM 3II3 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery

6 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- CHEM 3AA3 - Instrumental Analysis
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy

9-12 units

from Levels III, IV Chemistry courses,

which may include one of

- CHEM 4G12 A/B - Senior Thesis
- CHEM 4RP6 A/B S - Research Project in Chemistry

(See Note 4 and Program Note 7 above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- Levels III, IV Chemistry courses

3 units

from

- Level IV Chemical Biology or Chemistry courses

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See Program Note 6 above.)

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

Minor(s):**MINOR IN CHEMICAL BIOLOGY****NOTES**

- Students who wish to pursue a Minor in Chemical Biology are encouraged to select courses in consultation with the Undergraduate Advisor in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- ISCI 1A24 A/B is a substitution for CHEM 1A03 (or 1E03) and 1AA3 and also for BIOLOGY 1A03 and 1M03.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Chemical Biology and 3 units of equivalent credit for BIOCHEM 3G03 toward the Minor in Chemical Biology.
- In order to declare a Minor in Chemical Biology, at least 12 units (above Level I) must be elective to degree.
- CHEMBIO 2L03, 2Q03 and 3L03 are only open to students registered in Honours Chemical Biology.
- Level II Biology courses require one or both of BIOLOGY 1A03, 1M03 as prerequisites.
- Honours Chemistry students who have taken BIOCHEM 2EE3 or 3G03 towards their degree requirements may use the other course towards a Minor in Chemical Biology.
- Completion of Level II Honours Chemistry may be used as a substitution for 6 units of Level II Chemical Biology toward the Minor in Chemical Biology.

REQUIREMENTS

24 units total

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 units

- CHEM 1AA3 - Introductory Chemistry II

6-12 units

from Levels II, III, IV Chemical Biology courses, or equivalents from the following list:

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry

0-6 units

from

- Levels II, III Biology courses
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See Notes 6 and 7 above.)

6 units

from

- Levels III, IV Chemical Biology courses

MINOR IN CHEMISTRY**NOTES**

- Students who wish to pursue a Minor in Chemistry are encouraged to select courses in consultation with the Undergraduate Advisor in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- ISCI 1A24 A/B is a substitution for CHEM 1A03 (or 1E03) and 1AA3.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Chemistry toward the Minor in Chemistry, except for students in Honours Integrated Science with a concentration in Chemical Biology.
- In order to declare a Minor in Chemistry, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 units

- CHEM 1AA3 - Introductory Chemistry II

12 units

from Levels II, III, IV Chemistry courses, or equivalents from the following list:

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2OA3
- CHEMBIO 2OB3
- CHEMBIO 2OD3 - Organic Chemistry II
- CHEMBIO 2OG3 - Organic Chemistry I
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology

6 units

from

- Levels III, IV Chemistry courses
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology

School of Geography and Earth Sciences

Saledeh Razavi/(Civil Engineering) B.Sc. (Sharif), M.Sc. (Iran), Ph.D. (Waterloo)

Olive Wahoush/(Nursing) Diploma (Ireland), M.Sc. (Ireland), Ph.D. (Toronto)

John C. Weaver/(History) B.A. (Queen's), M.A., Ph.D. (Duke)

HONOURS EARTH AND ENVIRONMENTAL SCIENCES (B.SC.)

ADMISSION NOTES

- Students who did not complete Grade 12 Chemistry U must complete CHEM 1R03 in Level I. Given this course is considered elective, an additional three units from the *Science I Course List* must be completed. CHEM 1A03 must be completed by the end of Level II.
- One of PHYSICS 1A03 or 1C03 must be completed prior to graduation. Completion by the end of Level II is recommended. Students who did not complete Grade 12 Physics U must register in PHYSICS 1A03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses with an average of at least 6.0

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1R03 - General Chemistry

(See Admission Note 1 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

12 units

from

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

(See Admission Notes above.)

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 3CC3, 4CC3, 4N03, ENVIRSC 2Q03, 3003

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, GEOG 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

GEOG 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
3. All students are strongly encouraged to meet with the academic advisor in the School of Geography and Earth Sciences to discuss program requirements and course selections.
4. There are Level III prerequisites for many Level IV courses. The prerequisites should be considered when selecting your courses.
5. The field components of EARTHSC 2FE3 and 3FE3, are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (EARTHSC 3FE3).
6. A Minor in Geography and Earth Sciences, Earth Sciences or Environmental Sciences is not permitted in the Honours Earth and Environmental Sciences program. However, Minors in Environmental Studies, Geographic Information Systems and Geography are permitted.
7. In order to meet the Compulsory Foundation Science and Geoscience requirements for the Professional Geoscientist Certification, completion of the following courses is required: CHEM 1A03, EARTHSC 2E03, 2K03, 3FE3, 3Z03, MATH 1A03 or 1LS3, and PHYSICS 1A03 or 1C03. Additional requirements are posted on the website https://www.science.mcmaster.ca/geo/images/documents/APGO_Environmental_Geoscience_Stream.pdf.
8. Students who entered the program prior to September 2015, may use ENVIRSC 1B03 as three units toward Course List 1.
9. GEOG 3MB3 (or EARTHSC 3MB3 or ENVIRSC 3MB3) or STATS 2B03 must be completed by the end of Level III. Students who entered the program prior to September 2018, may use one of MATH 1AA3, 1B03 or 1LT3 to satisfy the Statistics requirement.

COURSE LIST 1

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology or
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis

- CHEM 2E03 - Introductory Organic Chemistry
- EARTHSC 2C03
- EARTHSC 2EI3
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 2GI3
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- GEOG 2EI3 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems
- STATS 2B03 - Statistical Methods for Science

COURSE LIST 2

- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3SS3 - Population Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- EARTHSC 2C03
- EARTHSC 2GI3
- EARTHSC 2M03
- EARTHSC 3B03
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3GI3
- EARTHSC 3GV3
- EARTHSC 3K03 - Petrology
- EARTHSC 3MB3
- EARTHSC 3O03
- EARTHSC 3RS3
- EARTHSC 3U03
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 3Z03 - Structural Geology
- EARTHSC 4BB3
- EARTHSC 4C03
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4EA3
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4GA3
- EARTHSC 4J03 - Basin Analysis
- EARTHSC 4MI3
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4MI3
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4T03 - Plate Tectonics and Ore Deposits
- EARTHSC 4VV3 - Environmental Geophysics
- EARTHSC 4W03
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology

- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 3MB3 - Data Analysis
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4GS3 - GIS Programming
- GEOG 4GT3 - Special Topics in GIS
- LIFESCI 2H03

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

15 units

from

- EARTHSC 2B03
- EARTHSC 2E03 - Earth History
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- ENVIRSC 2B03 - Soils and the Environment
- EARTHSC 2Q03
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- EARTHSC 2L03
- EARTHSC 2Q03
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry

3 units

from

- Course List 1

0-3 units

from the following courses, if only 3 units was completed in Level I

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

0-3 units

- CHEM 1A03 - Introductory Chemistry I (if not completed in Level I)

(See Admission Note 1 above.)

3-9 units

- Electives (See Program Note 5 above.)

Level III: 30 Units

9 units

- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

9 units

from

- Course List 2

0-3 units

from

- EARTHSC 3MB3
- ENVIRSC 3MB3

- GEOG 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

(See Program Note 9 above.)

9-12 units

- Electives

Level IV: 30 Units

18 units

from Course List 2,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

9-12 units

- Electives

HONOURS EARTH AND ENVIRONMENTAL SCIENCES CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Earth and Environmental Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

6 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

3 units

- CHEM 1A03 - Introductory Chemistry I

15 units

from

- EARTHSC 2B03
- EARTHSC 2E03 - Earth History
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 2W03
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- EARTHSC 2L03
- EARTHSC 2Q03

3 units

from

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2E03 - Introductory Organic Chemistry
- EARTHSC 2C03
- EARTHSC 2EI3
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 2GI3

- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- GEOG 2E13 - Environmental Issues
- GEOG 2G13 - Geographic Information Systems
- STATS 2B03 - Statistical Methods for Science

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Program Director.

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 3CC3, 4CC3, 4N03, ENVIRSC 2Q03, 3003

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, GEOG 2E13, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

GEOG 2G13, 3G13, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo.) in Ontario can find additional information on these requirements on the website: <http://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic program advisor in the School of Geography and Earth Sciences to ensure proper course selection for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
3. There are Level II prerequisites for many Level III courses; these should be considered when choosing Level II courses. As an aid to choosing a coherent set of courses in a single discipline, students should consult the list of thematic areas applicable to all Honours Earth and Environmental Sciences programs.
4. Students should seek academic advising from the School of Geography and Earth Sciences to ensure that their choices are appropriate.
5. The field component of EARTHSC 2FE3 and 3FE3 are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (EARTHSC 3FE3).
6. Students who did not complete Grade 12 Physics U must complete PHYSICS 1A03. One of PHYSICS 1A03 or 1C03 must be completed prior to graduation.
7. This is a five- level (year) co-op program which includes two eight-month work terms which must be spent in earth and environmental sciences related placements.
8. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
9. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.

10. GEOG 3MB3 (or EARTHSC 3MB3 or ENVIRSC 3MB3) or STATS 2B03 must be completed by the end of Level IV. Students who entered the program prior to September 2018, may use one of MATH 1AA3, 1B03 or 1LT3 to satisfy the Statistics requirement.
11. Co-op students interested in pursuing GIS-related work placements and/or a Minor in Geographic Information Systems must complete GEOG 2G13 in Fall Term of Level II and one of GEOG 3G13 or 3GV3 in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

EARTH AND ENVIRONMENTAL SCIENCES CO-OP COURSE LIST

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3SS3 - Population Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- EARTHSC 2C03
- EARTHSC 2G13
- EARTHSC 3B03
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSCI 3G13
- EARTHSC 3GV3
- EARTHSC 3K03 - Petrology
- EARTHSC 3MB3
- EARTHSC 3Q03
- EARTHSC 3L03
- EARTHSC 3M03
- EARTHSC 3SR3
- EARTHSC 3U03
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 3Z03 - Structural Geology
- EARTHSC 4BB3
- EARTHSC 4C03
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4EA3
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4GA3
- EARTHSC 4J03 - Basin Analysis
- EARTHSC 4MI3
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4N03
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4T03 - Plate Tectonics and Ore Deposits
- EARTHSC 4VV3 - Environmental Geophysics
- EARTHSC 4W03
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology

- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 3MB3 - Data Analysis
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4GS3 - GIS Programming
- GEOG 4GT3 - Special Topics in GIS
- GEOG 4MS3 - Independent Study
- LIFESCI 2H03

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

- Completed prior to admission to the program

Level II: 30 Units**30 units**

- Completion of Level II Honours Earth and Environmental Sciences (See Admission above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:**9 units**

- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

3 units**from**

- the *Earth and Environmental Sciences Co-op Course List*

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:**Work Term****1 course**

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:**Work Term****1 course**

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:**18 units**

from the *Earth and Environmental Sciences Co-op Course List*, which must include one of

- EARTHSC 4MI3

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- GEOG 4MS3 - Independent Study

0-3 units**from**

- EARTHSC 3MB3
 - ENVIRSC 3MB3
 - GEOG 3MB3 - Data Analysis
 - STATS 2B03 - Statistical Methods for Science
- (See Program Note 10 above.)

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1L03

12-15 units

- Electives

Spring/Summer Term:**Work Term****1 course**

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:**Work Term****1 course**

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:**6 units**

from the *Earth and Environmental Sciences Co-op Course List*, which must include one of

- EARTHSC 4MI3
- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

(if none of EARTHSC 4MI3, 4MT6 A/B or ENVIRSC 4MI3 were completed in Level IV)

9 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

HONOURS ENVIRONMENTAL SCIENCES (B.SC.)

ADMISSION NOTE

Two of EARTHSC 1G03, ENVIRSC 1C03, 1G03 must be completed by the end of Level II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from the following courses, with a grade of at least C+

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

(See Admission Note above.)

15 units

from

- the Science I Course List

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 2L03, 3CC3, 4CC3, ENVIRSC 2Q03, 3O03, 4N03

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic program advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
3. All students are strongly encouraged to meet with the academic advisor in the School of Geography and Earth Sciences to discuss program requirements and course selections.
4. There are Level III prerequisites for many Level IV courses. The prerequisites should be considered when selecting your courses.
5. The field components of EARTHSC 2FE3 and ENVIRSC 3ME3 are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (ENVIRSC 3ME3).

ENVIRONMENTAL SCIENCES COURSE LIST

- ASTRON 2E03 - Planetary Astronomy
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4J03 - Field Biology II
- EARTHSC 2E03 - Earth History
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4MI3
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4VV3 - Environmental Geophysics
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2Ei3
- ENVIRSC 2Gi3
- ENVIRSC 2L03
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3Gi3
- ENVIRSC 3GV3
- ENVIRSC 3MB3
- ENVIRSC 3ME3 - Environmental Field Camp
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4CC3
- ENVIRSC 4FF3
- ENVIRSC 4G03
- ENVIRSC 4GA3
- ENVIRSC 4HH3
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVIRSC 4WB3
- GEOG 2Ei3 - Environmental Issues
- GEOG 2EK3 - Traditional Indigenous Ecological Knowledge
- GEOG 2Gi3 - Geographic Information Systems
- GEOG 3EC3 - Environmental Catastrophes

- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 3MB3 - Data Analysis
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics

GEOG 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic program advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
3. All students are strongly encouraged to meet with the academic advisor in the School of Geography and Earth Sciences to discuss program requirements and course selections.
4. There are Level III prerequisites for many Level IV courses. The prerequisites should be considered when selecting your courses.
5. The field components of EARTHSC 2FE3 and ENVIRSC 3ME3 are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (ENVIRSC 3ME3).
6. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in environmental sciences related placements.
7. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
8. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
9. During Levels III, IV, and V, a total of 27 units from the *Environmental Sciences Course List*, of which must include 18 units from Levels III, IV, must be completed.
10. Co-op students interested in pursuing GIS-related work placements and/or a Minor in Geographic Information Systems must complete GEOG 2GI3 in Fall Term of Level II and one of GEOG 3GI3 or 3GV3 in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

ENVIRONMENTAL SCIENCES COURSE LIST

- ASTRON 2E03 - Planetary Astronomy
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4J03 - Field Biology II
- EARTHSC 2E03 - Earth History

- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4MI3
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4VV3 - Environmental Geophysics
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2EI3
- ENVIRSC 2GI3
- ENVIRSC 2L03
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3GI3
- ENVIRSC 3GV3
- ENVIRSC 3MB3
- ENVIRSC 3ME3 - Environmental Field Camp
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4CC3
- ENVIRSC 4FF3
- ENVIRSC 4G03
- ENVIRSC 4GA3
- ENVIRSC 4HH3
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVIRSC 4WB3
- GEOG 2EI3 - Environmental Issues
- GEOG 2EK3 - Traditional Indigenous Ecological Knowledge
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 3MB3 - Data Analysis
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4GS3 - GIS Programming
- GEOG 4GT3 - Special Topics in GIS
- GEOG 4HH3 - Environment and Health

- LIFESCI 2H03
- STATS 2B03 - Statistical Methods for Science

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

- Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of Level II Honours Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- ENVIRSC 3ME3 - Environmental Field Camp

3 units

from

- ENVIRSC 3MB3
- GEOG 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

6 units

from

- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3SR3 - Remote Sensing

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

from

- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3003 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3SR3 - Remote Sensing

15 units

from

- the *Environmental Sciences Course List* (See *Program Note 9* above.)

3 units

- ENVIRSC 4EA3 - Environmental Assessment

6 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

12 units

from

- the *Environmental Sciences Course List* (See *Program Note 9* above.)

3 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

- Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of Level II Honours Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

HONOURS GEOGRAPHY AND ENVIRONMENTAL SCIENCES (B.SC.)**ADMISSION NOTES**

- Two of EARTHSC 1G03, ENVIRSC 1C03, 1G03 must be completed by the end of Level II.
- GEOG 1HA3 and 1HB3 must be completed by the end of Level II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from the following courses, with a grade of at least C+

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

(See *Admission Note 1* above.)

3 units

from the following courses, with a grade of at least C+

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See *Admission Note 2* above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

9 units

from

- the Science I Course List (See *Admission Notes 1 and 2* above.)

PROGRAM NOTES

- Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 2L03, 3CC3, 4CC3, ENVIRSC 2Q03, 3003, 4N03

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

GEOG 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4EA3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

GEOG 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

- Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
- All students are strongly encouraged to meet with the academic advisor in the School of Geography and Earth Sciences to discuss program requirements and course selections, particularly prior to the start of Level III.
- There are Level III prerequisites for many Level IV courses. The prerequisites should be considered when selecting your courses.
- The field components of EARTHSC 2FE3, ENVIRSC 3ME3 and GEOG 3MF3, are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (ENVIRSC 3ME3, GEOG 3MF3). All students are strongly encouraged to meet with an academic program advisor in the School of Geography and Earth Sciences to discuss which course is most appropriate, based on the field of interest.
- Students are strongly encouraged to check prerequisites for upper-level GEOG or EARTH SC courses. Chemistry, Mathematics and Physics prerequisites exist in upper-level Earth Sciences courses. The prerequisites should be considered when selecting your courses.
- All students are strongly encouraged to meet with an academic program advisor in the School of Geography and Earth Sciences to discuss which course is most appropriate between EARTHSC 3RD3 and GEOG 3MA3, based on their area of interest.
- Students are not required but may combine courses in Geography and Environmental Sciences into major themes matching their interests, including:

HUMAN HEALTH AND THE ENVIRONMENT

· EARTHSC 4WB3, ENVIRSC 2L03 , 3O03, GEOG 2HI3, 3HH3 , 3HP3, 4EA3, 4HH3

TRANSPORTATION AND THE ENVIRONMENT

· GEOG 3GV3, 3LA3 , 3LT3, 4GA3, 4LP3

URBAN SYSTEMS AND SUSTAINABILITY

- GEOG 2E13, 2UI3, 3EE3, 3ER3, 3UP3, 3UR3, 4US3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

6 units

- GEOG 2E13 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems

6 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- GEOG 2HI3 - Geographies of Health
- GEOG 2LE3 - Economic Geography
- GEOG 2UI3 - Cities in a Changing World

0-3 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

(See Admission Note 1 above.)

0-3 units

from

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See Admission Note 2 above.)

9-15 units

- Electives

Level II: 30 Units (For Students Who Entered the Program Prior to September 2017)

3 units

- GEOG 2GI3 - Geographic Information Systems

6 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2W03 - Physical Hydrology

6 units

from

- GEOG 2E13 - Environmental Issues
- GEOG 2HI3 - Geographies of Health
- GEOG 2LE3 - Economic Geography
- GEOG 2UI3 - Cities in a Changing World

0-3 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

(See Admission Note 1 above.)

0-3 units

from

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See Admission Note 2 above.)

9-15 units

- Electives

Level III: 30 Units

3 units

- GEOG 3MB3 - Data Analysis

3 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- GEOG 3MA3 - Research Methods in Human Geography

(See Program Note 7 above.)

3 units

from

- ENVIRSC 3ME3 - Environmental Field Camp
- GEOG 3ME3
- GEOG 3MF3 - Human Geography Field Camp

(See Program Note 5 above.)

6 units

- Level III Earth Sciences or Environmental Science courses

6 units

- Level III Geography courses

9 units

- Electives

Level IV: 30 Units

6 units

- Level IV Earth Sciences or Environmental Science courses

6 units

- Level IV Geography courses

3-6 units

from

- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- GEOG 4ET3 - Environmental Policy, Ethics and Risk
- GEOG 4MS3 - Independent Study
- GEOG 4MT6 A/B - Senior Thesis

12-15 units

- Electives

HONOURS GEOGRAPHY AND ENVIRONMENTAL SCIENCES CO-OP (B.SC.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Geography and Environmental Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

6 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

6 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

6 units

- GEOG 2EI3 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems

6 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- GEOG 2HI3 - Geographies of Health
- GEOG 2LE3 - Economic Geography
- GEOG 2UI3 - Cities in a Changing World

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Program Director.

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 2L03, 3CC3, 4CC3, ENVIRSC 2Q03, 3003, 4N03

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

GEOG 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4EA3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

GEOG 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic program advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
3. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in geography and environmental sciences related placements.
4. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
5. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
6. Students are strongly encouraged to check prerequisites for upper-level Geography or Earth Sciences courses. Chemistry, Mathematics and Physics

prerequisites exist in upper-level Earth Sciences courses. The prerequisites should be considered when selecting your courses.

7. All students are strongly encouraged to meet with an academic program advisor in the School of Geography and Earth Sciences to discuss program requirements and course selections, particularly prior to the start of Level III.
8. All students are strongly encouraged to meet with an academic program advisor in the School of Geography and Earth Sciences to discuss which course is most appropriate between EARTHSC 3RD3 and GEOG 3MA3, based on their area of interest.
9. The field components of EARTHSC 2FE3, ENVIRSC 3ME3 and GEOG 3MF3 are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (ENVIRSC 3ME3, GEOG 3MF3). All students are strongly encouraged to meet with an academic program advisor in the School of Geography and Earth Sciences to discuss which course is most appropriate, based on the field of interest. All components of field placements must be completed prior to the start of a co-op work term.
10. One of ENVIRSC 4MI3, GEOG 4ET3, 4MS3 must be completed in Level V, if none of ENVIRSC 4MI3, GEOG 4ET3, 4MS3, 4MT6 A/B were completed in Level IV.
11. Students are not required but may combine courses in Geography and Environmental Sciences into major themes matching their interests, including:

HUMAN HEALTH AND THE ENVIRONMENT

EARTHSC 4WB3, ENVIRSC 2L03, 3003, GEOG 2HI3, 3HH3, 3HP3, 4EA3, 4HH3

TRANSPORTATION AND THE ENVIRONMENT

GEOG 3GV3, 3LA3, 3LT3, 4GA3, 4LP3

URBAN SYSTEMS AND SUSTAINABILITY

GEOG 2EI3, 2UI3, 3EE3, 3ER3, 3UP3, 3UR3, 4US3

12. Co-op students interested in pursuing GIS-related work placements and/or a Minor in Geographic Information Systems must complete GEOG 2GI3 in Fall Term of Level II and one of GEOG 3GI3 or 3GV3 in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

- Completed prior to admission to the program

Level II: 30 Units**30 units**

- Completion of Level II Honours Geography and Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:**3 units**

from

- ENVIRSC 3ME3 - Environmental Field Camp
- GEOG 3ME3
- GEOG 3MF3 - Human Geography Field Camp

(See Program Note 9 above.)

6 units

- Level III Earth Sciences or Environmental Science courses

3 units

- Level III Geography courses

3 units

- Electives
- 2 courses
- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
 - SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- GEOG 3MB3 - Data Analysis

3 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- GEOG 3MA3 - Research Methods in Human Geography

(See Program Note 8 above.)

3 units

- Level III Geography courses

3 units

- Level IV Earth Sciences or Environmental Science courses

3 units

- Level IV Geography courses

3-6 units

from

- EARTHSC 4MI3
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- GEOG 4ET3 - Environmental Policy, Ethics and Risk
- GEOG 4MS3 - Independent Study
- GEOG 4MT6 A/B - Senior Thesis

(See Program Note 10 above.)

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

- Level IV Earth Sciences or Environmental Science courses

6 units

- Level IV Geography courses

ADMISSION NOTE

Two of EARTHSC 1G03, ENVIRSC 1C03, 1G03 must be completed by the end of Level II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

3 units

from the following courses, with a grade of at least C-

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

18 units

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 2L03, 3CC3, 4CC3, ENVIRSC 2Q03, 3O03, 4N03

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2K03, 2T03, 3E03, 3K03, 3Z03, 4G03, 4J03, 4P03, 4T03, 4VV3, GEOG 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 3U03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, GEOG 2E13, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

GEOG 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3

- Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate.html>. Students are encouraged to consult with the academic program advisor in the School of Geography and Earth Sciences to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Geography and Earth Sciences may not fulfill professional registration requirements.
- There are Level II prerequisites for many Level III courses; these should be considered when choosing Level II courses. As an aid to choosing a coherent set of courses in a single discipline, students should consult the list of thematic areas applicable to all Honours Earth and Environmental Sciences programs.
- Students should seek academic advising from the School of Geography and Earth Sciences to ensure that their choices are appropriate.
- No more than 9 units from EARTHSC 2GG3, 2WW3, ENVIRSC 2WW3, GEOG 2RC3, 2RM3, 2RU3, 2RW3, 3RW3, may count towards a student's program; additional units taken from this group of courses will count towards elective units.

REQUIREMENTS*90 units total (Levels I to III), of which no more than 42 units may be Level I***Level I: 30 Units****30 units***(See Admission above.)***Levels II-III: 60 Units****24 units**

Levels II, III, IV courses from

- Earth Sciences, Environmental Science or Geography courses, of which at least 12 units must be Levels III, IV (See *Program Note 5* above.)

9 units

from

- Faculty of Science courses

0-3 units

from the following courses, if only 3 units was completed in Level I

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

*(See Admission Note above.)***24-27 units**

- Electives

Minor(s):**MINOR IN EARTH SCIENCES****NOTES**

- ISCI 1A24 A/B is a substitution for EARTHSC 1G03, ENVIRSC 1C03, 1G03.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Earth Sciences toward the Minor in Earth Sciences.

- In order to declare a Minor in Earth Sciences, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS*24 units total***3 units**

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1G03

*(See Note 1 above.)***3 units**

- ENVIRSC 1C03 - Climate, Water And Environment

*(See Note 1 above.)***18 units**

from the following list, which must include at least six units from Levels III, IV Earth Sciences

- ASTRON 2E03 - Planetary Astronomy
- EARTHSC 2E03 - Earth History
- EARTHSC 2GI3
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2M03
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3GI3
- EARTHSC 3K03 - Petrology
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 3Z03 - Structural Geology
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4J03 - Basin Analysis
- EARTHSC 4P03 - Coral Reef Environments
- EARTHSC 4T03 - Plate Tectonics and Ore Deposits
- EARTHSC 4VV3 - Environmental Geophysics
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS

MINOR IN ENVIRONMENTAL SCIENCES**NOTES**

- ISCI 1A24 A/B is a substitution for EARTHSC 1G03, ENVIRSC 1C03.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Course List toward the Minor in Environmental Sciences.
- In order to declare a Minor in Environmental Sciences, at least 12 units (above Level I) must be elective to degree.
- Students who completed BIOLOGY 4Y03, 4YY3 prior to September 2014 may use these units to satisfy Course List requirements for graduation by 2016.

REQUIREMENTS*24 units total***6 units**

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

*(See Note 1 above.)***18 units**

from

- ASTRON 2E03 - Planetary Astronomy
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- BIOLOGY 4J03 - Field Biology II

- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3 - Quantitative Chemical Analysis
- CHEM 2E03 - Introductory Organic Chemistry
- EARTHSC 2E03 - Earth History
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2EI3
- ENVIRSC 2GI3
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3GI3
- ENVIRSC 3GV3
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03 - Environmental Systems Modelling
- ENVIRSC 3W03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4CC3
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4G03
- ENVIRSC 4GA3
- ENVIRSC 4HH3
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVIRSC 4WB3
- GEOG 2EI3 - Environmental Issues
- GEOG 2EK3 - Traditional Indigenous Ecological Knowledge
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4HH3 - Environment and Health
- LIFESCI 2H03
- Including at least six units from Levels III, IV Environmental Science courses and at least three units from Levels II, III, IV Biology or Chemistry courses

(See Note 4 above.)

MINOR IN ENVIRONMENTAL STUDIES

NOTES

1. In order to declare a Minor in Environmental Studies, at least 12 units (above Level I) must be elective to degree.
2. At least six units from the *Course List* must be outside of the School of Geography and Earth Sciences.

3. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03, 1G03.
4. Students are strongly encouraged to check the prerequisites of upper-level courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
5. Students who completed ANTHROP 2H03, 4P03, BIOLOGY 3TT3, 4Y03, 4YY3, HEALTHST 4E03, POL SCI 2E06, 3Z03, 3ZZ3, 4D06 A/B prior to September 2013, may use these units to satisfy Course List requirements for graduation by 2015.
6. Students who completed HLTH AGE 4K03 prior to September 2014, may use these units to satisfy Course List requirements for graduation by 2016.

COURSE LIST

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3C03 - Health and Environment: Anthropological Approaches
- ANTHROP 3Z03
- ANTHROP 4AE3
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3SS3 - Population Ecology
- ECON 2J03 - Environmental Economics
- ECON 3W03 - Natural Resources
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 2WWW3
- EARTHSC 3CC3 - Earth's Changing Climate
- ENVIRSC 2WWW3 - Water and the Environment
- ENVIRSC 3CC3
- GEOG 2EI3 - Environmental Issues
- GEOG 2EK3 - Traditional Indigenous Ecological Knowledge
- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3EG3 - Global Climate Change
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 3HH3
- GEOG 4EA3 - Environmental Assessment
- GEOG 4HH3 - Environment and Health
- HLTHAGE 4M03 - Environment and Health
- HISTORY 4K03 - Environment and Environmentalism in Modern North America
- INDIGST 2D03 - Traditional Indigenous Ecological Knowledge
- LABRST 4F03 - Work and the Environment
- LIFESCI 2H03
- LIFESCI 3D03
- PHILOS 2G03 - Social and Political Issues
- PHILOS 2N03 - Business Ethics
- PHILOS 3L03 - Environmental Philosophy
- RELIGST 2W03

REQUIREMENTS

24 units total

3 units

from

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

3 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment

- ENVIRSC 1G03
- (See Note 1 above.)

3 units

- GEOG 2EI3 - Environmental Issues

3 units

from

- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy
- GEOG 4EA3 - Environmental Assessment

12 units

from

- *Course List* including at least six units from Levels III or IV (See *Notes 2 and 6* above.)

MINOR IN GEOGRAPHIC INFORMATION SYSTEMS (GIS)

NOTES

1. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03, 1G03 .
2. Students are strongly encouraged to check the prerequisites of upper-level courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
3. Co-op students interested in pursuing GIS-related work placements and/or a Minor in Geographic Information Systems must complete GEOG 2GI3 in Fall Term of Level II and one of GEOG 3GI3 or 3GV3 in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

REQUIREMENTS

24 units total

6 units

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See Note 1 above.)

3 units

from

- EARTHSC 3MB3
- ENVIRSC 3MB3
- GEOG 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science
- STATS 3Y03 - Probability and Statistics for Engineering

9 units

from

- EARTHSC 2GI3
- EARTHSC 3GI3
- EARTHSC 3GV3
- ENVIRSC 2GI3
- ENVIRSC 3GI3
- ENVIRSC 3GV3
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- GEOG 3GV3 - Advanced Vector GIS

6 units

from

- EARTHSC 3SR3
- EARTHSC 4GA3
- ENVIRSC 3SR3

- ENVIRSC 4GA3
- GEOG 3SR3 - Remote Sensing
- GEOG 4GA3 - Applied Spatial Statistics
- GEOG 4GS3 - GIS Programming
- GEOG 4GT3 - Special Topics in GIS

MINOR IN GEOGRAPHY

NOTES

1. In order to declare a Minor in Geography, at least 12 units (above Level I) must be elective to degree.
2. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03.
3. No more than 6 units from GEOG 2OC3, 2RC3, 2RM3 , 2RU3, 2RW3, 3RW3 may be used toward the minor.
4. Students are strongly encouraged to check the prerequisites of upper-level Geography courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
5. Students graduating prior to 2016 may use 6 units from EARTHSC 1G03, ENVIRSC 1A03 , 1B03 toward this minor.

REQUIREMENTS

24 units total

6 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See Note 5 above.)

18 units

from

- Levels II, III, IV Geography courses, including at least six units of Levels III or IV (See *Note 3* above.)

MINOR IN GEOGRAPHY AND EARTH SCIENCES

NOTES

1. In order to declare a Minor in Geography and Earth Sciences, at least 12 units (above Level I) must be elective to degree.
2. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03, 1G03 .
3. ISCI 2A18 A/B may be used as a substitute for 3 units of Level II Earth Sciences toward the Minor in Geography and Earth Sciences.
4. No more than 6 units from EARTHSC 2GG3, 2WW3 , 3DD3 , ENVIRSC 2WW3, GEOG 2OC3, 2RC3, 2RM3 , 2RU3, 2RW3, 3RW3 may be counted toward the minor.
5. Students are strongly encouraged to check the prerequisites of upper-level Geography and Earth Sciences courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.

REQUIREMENTS

24 units total

6 units

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

18 units

from

- Levels II, III, IV Geography or Earth Sciences courses, including at least six units of Levels III or IV (See *Notes 3 and 4* above.)

INTEGRATED SCIENCE PROGRAM

<https://science.mcmaster.ca/sis/undergraduate/isci/isci-home.html>

NOTES APPLICABLE TO ALL HONOURS INTEGRATED SCIENCE PROGRAMS

- Beginning at Level II, Honours Integrated Science students may complete a concentration in one of the following areas:
 - Biochemistry
 - Biology
 - Chemical Biology
 - Chemistry
 - Earth and Environmental Sciences
 - Geography and Environmental Sciences
 - Mathematics and Statistics
 - Medical & Biological Physics
 - Physics
 - Psychology, Neuroscience & Behaviour
- In addition to the content covered within the ISCI courses, completion of a concentration normally requires a minimum of 24 units in the other subject.
- Specific program requirements for the above concentrations are available on the web site (<https://science.mcmaster.ca/sis/undergraduate/isci/isci-home.html>).

- ISCI students, completing a concentration, are eligible to obtain a maximum of one minor, provided that the subject area is not integral to the requirements of the concentration. ISCI students not completing a concentration may be eligible for up to two minors provided that, for each minor, at least 12 units (above Level I) are elective to the degree. All students should consult the Academic Program Advisor.

LIFE SCIENCES

<https://science.mcmaster.ca/sis/undergraduate/life-sciences.html>

Notes Applicable to all Honours Life Sciences Students

- Honours Life Sciences students may not be eligible to complete a Minor in Biochemistry, Biology, Environmental Sciences or Psychology unless at least 12 of the required 18 units (above Level I) for the Minor are considered elective to the degree. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).
- Honours Life Sciences, as a second degree, may not be possible if the student's first undergraduate degree is in Biochemistry, Biology, Environmental Sciences, or Psychology, Neurosciences & Behaviour. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).

MEDICAL RADIATION SCIENCES

<https://science.mcmaster.ca/sis/undergraduate/medical-radiation-sciences.html>

This program is offered jointly in partnership with Mohawk College of Applied Arts and Technology and McMaster University. Students pursue two qualifica-

tions simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.

Students enrolled in the Medical Radiation Sciences programs, in addition to meeting the *General Academic Regulations* of the University, shall be subject to the following program regulations. Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

Registration in the Medical Radiation Sciences program implies acceptance on the part of the student of the objectives of the program and the methods by which progress toward the achievement of those objectives is evaluated.

REGULATIONS FOR LICENSE TO PRACTICE

A degree in medical radiation sciences does not in itself confer the right to practice in radiography, radiation therapy or sonography in Canada. Graduation from the Medical Radiation Sciences program does not guarantee registration with the regulatory bodies of the respective professions or employment within Canada. All graduates who wish to engage in clinical practice in ultrasonography, radiography or radiation therapy are subject to any qualifying examinations and other requirements by the certifying and/or regulatory bodies for each of these professions. Regulatory requirements are subject to change. Students intending to practice outside Ontario are urged to consult the licensing body of that province regarding registration. Licensing requirements vary somewhat among the provinces.

The current Ontario requirements for registration are:

- In order to work as a medical radiation technologist in Ontario, you must be registered with the College of Medical Radiation Technologists of Ontario (CMRTO) Council. Detailed information regarding the registration requirements for the College may be found in the Regulations section.
- Applicants must complete an approved training program in medical radiation technology in one of the specialties listed at <https://www.cmrto.org/what-we-do/registration/students-applicants/requirements-for-registration-for-all-applicants/>. Applicants trained in Ontario must successfully complete the examination set by the Canadian Association of Medical Radiation Technologists (CAMRT), for radiography and radiation therapy or Sonography Canada for ultrasonography. These are the examinations approved by the CMRTO.

FUNCTIONAL DEMANDS

The Medical Radiation Science health professions are physically and emotionally demanding because they routinely involve interaction with patients. Since applicants will work in these professions, it is important that they become familiar with any functional demands before entering the program to ensure that they can perform at an acceptable standard for employment. A student's choice of specialization is not guaranteed in the program; applicants must be prepared to enter any specialization. The functional demands associated with the health professions represented by the specializations are listed below. The list is not exhaustive, but is meant to provide an indication of the minimum demands. By registering in the program, applicants acknowledge that they are able to meet all of the demands.

All professionals must demonstrate:

- Empathy when interacting with patients of all ages
- Manual dexterity and eye-hand coordination to manipulate equipment controls
- Physical strength to position patients and manipulate heavy equipment through a wide range of motions
- Acute hearing to respond to low voices and ambient alarms and buzzers
- Critical thinking to be able to prioritize and respond to emergency situations

The Radiographer must possess:

- Acute vision to view images and distinguish fine features in contrast and detail

The Ultrasonographer must possess:

- Acute vision to view images and distinguish fine features in contrast and detail including nuances in colour Doppler ultrasound images
- Acute hearing to assess auditory Doppler ultrasound signals
- The ability to apply 3-D spatial relationships

The Radiation Therapist must possess:

- Acute vision to view equipment readouts at a distance in darkened rooms
- The ability to apply 3-D spatial relationships

Program Specific Academic Regulations

ENGLISH LANGUAGE PROFICIENCY

While the minimum English language requirements may gain admission to the Medical Radiation Sciences I program, students will find a need for a high level of verbal proficiency. Students lacking these skills may be required to participate in additional ESL training. Lack of English proficiency may impact a student's ability to complete performance requirements in skills and clinical courses and, therefore, jeopardize the ability to attain a passing grade in these required courses.

QUALIFYING FOR LEVEL II PROGRAMS

Enrolment in each of the Level II program specializations is limited. All Medical Radiation Sciences I students who meet the admission requirements by the end of the previous Fall/Winter session will be guaranteed entry to a Level II program specialization. Level I students who, at the end of the review period, require the completion of additional academic work in order to meet the Level II admission requirements are not guaranteed admission to a Level II program specialization. Such students may be considered for admission after meeting the admission requirements, if space is available. Level I students whose Level I Fall/Winter Average (on at least 24 units) is less than 5.0 and/or whose Grade Point Average is less than 5.0 can no longer continue in the Medical Radiation Sciences program without approval from the Reviewing Committee.

CONTINUATION IN THE PROGRAM

A student may not proceed to the next level until he/she has completed all required courses for the current level, and has attained a Grade Point Average of at least 5.0. In Level I, students are reviewed at the end of Winter term. Beginning at Level II, students are reviewed at the end of each term to determine eligibility to continue. To continue in the Medical Radiation Sciences program, a student must maintain a minimum Grade Point Average of 5.0 and successfully complete all Medical Radiation Sciences courses. Failure to do so may prevent progression to the next term and/or level.

A student whose Grade Point Average is at least 4.5 may, at the discretion of the Reviewing Committee, proceed in the program but will be placed on Program Probation for one reviewing period of two consecutive terms. A student may be placed on Program Probation only once during the program.

A student may not continue in the program if any of the following criteria is met. The student:

1. Fails to obtain a Grade Point Average of at least 5.0 at the completion of the Program Probation;
2. Obtains a Grade Point Average of less than 5.0 and has not been granted Program Probation;
3. Fails any course that is required for completion of the level in which the student is registered;
4. Fails the second attempt at any required course following re-entry to the program;
5. Fails any skills or clinical course following re-entry to the program;
6. Fails to complete the program requirements for graduation within the maximum allowable time (five years from the time of registration in Level II of the student's current specialization).

A Level I student who may not continue in the program and whose Grade Point Average is between 3.5 and 4.4 may apply to transfer to a program for which he/she qualifies. A Level I student who may not continue in the program and whose Grade Point Average is between 3.0 and 3.4 may apply to transfer into Science on Academic Probation.

An upper level student who may not continue in the program may apply to transfer to a program for which he/she qualifies.

DEFERRED EXAMINATIONS/INCOMPLETE COURSE WORK

See the heading Deferred Examinations under Examinations in the *General Academic Regulations* section of the Calendar for application procedures for Deferred Exams. Students who have not completed all prerequisites for a clinical practicum will not be permitted to commence the clinical practicum. Such students will be reviewed by the Reviewing Committee to determine if the minimum prerequisite knowledge and skills have been attained to begin the clinical practicum. Failure to begin clinical practicum at the scheduled time could result in an extension of the time required to complete the program.

WORKLOAD

Students are required to be registered in a full load of courses as prescribed by Level and Term for their program.

Students in Medical Radiation Sciences I must complete at least 24 units during the Fall/Winter session. Transfer credit and credit earned during the Spring/Summer session may not be used to reduce this minimum load requirement.

REPEATED COURSES

Any failed course must be repeated if it is a required course for the program, or must be repeated or replaced if it is not explicitly required. The grades for both the failed course and its repetition or replacement, as appropriate, will be included in the calculation of the Grade Point Average.

LEVEL OF REGISTRATION

Students must register for all outstanding work of one level before attempting work for a higher level. Courses must be taken in the sequence specified by the program requirements.

SKILLS AND CLINICAL COURSES

All professional skills and clinical courses are graded on a pass/fail basis. The performance activities associated with each course are detailed in the course outline and manual, and must be successfully achieved for attainment of a passing grade in the course.

Students who are not meeting the conditions of their Learning Contract will be required to cancel the course. A student must meet all the domains of practice, achieve all of the required Skills Assessments and Competencies and attendance requirements by the end of week 15, in order to receive a passing grade. Eligibility to complete the placement course in a subsequent session will be determined by the Review Committee.

Attendance is mandatory in all professional skills laboratory courses and clinical practica. Students are required to attend each clinical practicum on a full-time basis (i.e. 37.5 hours/week as scheduled by the clinical agency). Excessive absenteeism may jeopardize a student's ability to meet course performance requirements and result in a Fail grade for the course.

The Medical Radiation Sciences program monitors and documents students' experience and performance in skills and clinical courses to provide evidence of the students' ability to meet program requirements and to meet the minimum practice requirements to be eligible for registration to practice.

STUDENT CONDUCT IN THE PROGRAM

The University reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. The Medical Radiation Sciences program reserves the right to remove a student from a skills-based course, clinical placement or laboratory setting at any point during the term if the student exhibits unsafe clinical practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal may result in the student receiving a grade of F in the course and may result in dismissal from the program.

INTERNAL RE-ENTRY TO THE PROGRAM

A student who becomes ineligible to continue in the program may apply for re-entry. Applications for Re-entry may be obtained through the School of Interdisciplinary Science. Request for re-entry may be made up to a maximum of two calendar years following the year in which the student becomes ineligible to continue. **Re-entry is neither automatic nor guaranteed.**

GRADUATION

A student is eligible for graduation when all of the following criteria are met. The student must:

1. Complete all required courses, including electives, with a Grade Point Average of at least 4.5;
2. Complete all skills and clinical courses with a Pass grade;
3. Complete all required courses in Levels II - IV within five years of registration in Level II.

LEAVE OF ABSENCE FROM THE PROGRAM

Students wishing to suspend their studies from the program must apply for a Leave of Absence (LOA). Approval is not guaranteed.

Students should note that the program requirements, including all required courses in Levels II - IV, must be completed within five years of first registration in Level II, and that the leave may jeopardize the student's ability to meet this requirement. Application for a leave of absence must be made in writing normally within two months prior to the intended start of the leave. Forms are available through the School of Interdisciplinary Science.

Any student who returns from a leave of absence into a clinical practicum term will be required to complete an additional non-credit course (for which a fee is involved) to ensure the student's professional knowledge and skills meet the minimum requirements for entrance to that clinical practicum. This course must be completed in the term immediately preceding the clinical practicum.

Re-entry is not guaranteed for students who suspend their studies from the program without an approved Leave of Absence. Such students must contact the Director of the School of Interdisciplinary Science to determine eligibility and appropriate procedures for re-entry. Students re-admitted to the program must adhere to the rules, regulations and program requirements of the Undergraduate Calendar in the year of re-entry into the program. Former Medical Radiation Sciences students who obtain permission for re-entry to a Specialization will not be guaranteed protected status in the allotment process, regardless of their previous placement history.

NOTES

1. The overall program comprises ten terms within four calendar years. Three full terms are spent in clinical placement.
2. Students apply for their Level II program selections during Winter Term of Level I. At the end of Level I, eligible Medical Radiation Sciences students are streamed into one of two specializations: Radiography and Ultrasonography. Both have limited enrolment. Selection of students into Level II specializations is on the basis of academic achievement (for Level I students, the Fall/Winter Average, on at least 24 units of study). Depending on a student's relative academic ranking in the list of those applying to enter a specialization, he/she may or may not be placed in the specialization of his/her choosing.
3. **Transfer within Medical Radiation Sciences:** Any Medical Radiation Sciences student currently registered in one program specialization who wishes to transfer into another specialization must submit the transfer request in writing to the program by the end of April. As admission into Level II programs is a competitive process normally based on the Level I Fall/Winter Average, such transfer requests will be considered only after all eligible Level I students have been allocated into their specializations, and only if there is space remaining. Transfers are made into Level II only, and would result in an increase in the length of time required for the student to complete the program. Transfers may not be made into Level II from any other program. **Transfers are neither automatic nor guaranteed.**
4. Placements will be with agencies that have contracted in advance with Mohawk College to provide specific experiences and resources during the normal clinical semester schedule; therefore, placements are not available at any other agencies or during other times. The College, in accordance with established policy, will determine allocation of students to these clinical facilities. The final assignment of learning settings is constrained by the availability of site resources. Students may be required to attend

clinical practica in a setting that is not of their choosing. The College cannot accommodate any student requests for special consideration. Students must prepare financially and personally to relocate and/or commute to their assigned clinical placements. Students are responsible for arranging their own travel to and from assigned placements and are responsible for covering any costs incurred.

5. All students may be required to attend full-time clinical practica at a minimum of two different clinical agencies that may be located across Ontario.
6. **Basic Cardiac Life Support Training:** All Level II students are required to have obtained a current certificate in Basic Cardiac Life Support - HCP (Health Care Provider) and First Aid Training prior to commencing Term 2 of Level II. Current certificates are also required for Clinical Practica 2 and 3 in Level IV.
7. All students will be required to act as simulated patients for their peers in skills course labs and during skills practice sessions.
8. **Immunization and Health Screening:** The Ontario Public Hospitals Act requires that all persons working or on educational placement in a hospital setting meets criteria regarding surveillance for infectious diseases. All Level II students will be required to provide evidence of compliance with completion of mandatory immunization requirements as well as completing pre-clinical disease screening. Updated screening may be required for Level IV clinical practica.
9. Mask fit testing and a satisfactory Police Records Check are required prior to the commencement of each clinical placement.
10. All costs associated with pre-clinical requirements are the responsibility of the student.
11. All students are required to submit pre-clinical requirements by dates specified by the program. Failure to meet required deadlines may result in delay or loss of the clinical placement.
12. Levels II through IV run consecutively from September of Level II to completion of the program at the end of April in Level IV. The pattern of semesters of clinical practicum and academic courses is shown in the chart below.

HONOURS INTEGRATED SCIENCE (B.SC.)

ADMISSION

Completion of Honours Integrated Science I with a Grade Point Average of at least 5.0 including ISCI 1A24 A/B.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

18 units

- ISCI 2A18 A/B - Integrated Science II

12 units

- Electives

Level III: 30 Units

12 units

- ISCI 3A12 A/B - Integrated Science III

18 units

- Electives

Level IV: 30 Units

12 units

- ISCI 4A12 A/B - Integrated Science IV

18 units

- Electives

HONOURS LIFE SCIENCES (B.SC.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

3 units

- CHEM 1A03 - Introductory Chemistry I

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 units

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

9 units

from

- the Science I Course List

PROGRAM NOTES

1. Registration in an Honours Life Sciences program does not guarantee access to all courses. Some courses have program restrictions. Students should check prerequisites carefully.
2. LIFESCI 2G03 does not substitute for BIOLOGY 2C03 or MOLBIOL 2C03 for prerequisite purposes.
3. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.
4. Students interested in graduate school may wish to consider completion of a thesis or independent study course (See LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
5. Level IV Research Seminar topics may change from year to year. Research Seminar topics and descriptions are available on the program web site (<https://www.science.mcmaster.ca/sis/undergraduate/life-sciences.html>). Honours Life Sciences students must complete at least 3 units of *Knowledge Transfer/Seminar Experience (Course List E)*.
6. Students entering Level IV Honours Life Sciences (not including the Origins of Disease Specialization or the Sensory Motor Systems Specialization) must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by **the end of March**. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in preferred seminar. The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses.
7. LIFESCI 4CM3 is required for students completing the Honours Life Sciences - Origins of Disease Specialization and is not included in the pre-registration ballot.
8. LIFESCI 4XX3 is required for students completing the Honours Life Sciences - Sensory Motor Systems Specialization and is not included in the pre-registration ballot.
9. Course planning is extremely important. Students must review and consider the requisites on Level II, III and IV courses when enrolling in the previous Levels.

COURSE LIST A - COMMUNICATION SKILLS

- HISTORY 3CH3 - Catastrophic History: Natural & Technological Disasters
- HISTORY 3CP3 - The Citizen-Patient: A Modern History of Public Health, 1700-Present
- HISTORY 3S03 - History of Exercise and Sports Medicine
- HLTHAGE 3D03 - Perspectives on Disability, Chronic Illness and Aging
- HLTHAGE 3E03 - Ethical Issues in Health and Aging
- HLTHAGE 3N03 - Aging and Mental Health
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

COURSE LIST B - LABORATORY SKILLS

- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3 - Laboratory Methods in Molecular Biology
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3LL3 - Living Systems Laboratory Practicum
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development

COURSE LIST C - EXPERIENTIAL LEARNING

- CMTYENGA 4A06 - Semester at CityLAB: Design and Dialogue Inquiry
- CMTYENGA 4A09 - Semester at CityLAB: Applied Project Experience
- EXPLORE 3IS3 - Interdisciplinary Science Field Camp
- LIFESCI 3EP3 - Life Sciences Applied Placement
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3RP3 - Life Sciences Research Practicum
- LIFESCI 3XX3 - Peer Mentoring in Science Communication
- LIFESCI 3YY3 - Peer Mentoring in Laboratory Skill Development
- LIFESCI 4A03 - Independent Study
- LIFESCI 4B06 A/B S
- LIFESCI 4B09 A/B S - Independent Project
- LIFESCI 4C09 A/B S
- LIFESCI 4C12 A/B S - Independent Thesis
- LIFESCI 4CC3
- LIFESCI 4D15 A/B S - Independent Thesis
- LIFESCI 4EP6 A/B S - Life Sciences Advanced Placement
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- SCIENCE 2A03 - Peer Mentoring in Science
- SCIENCE 3IS3
- SCIENCE 3M03 - Applied Curriculum Design in Science

HONOURS LIFE SCIENCES CO-OP (B.SC.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours

Life Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- BIOLOGY 2B03 - Cell Biology
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 2N03 - Human Nutrition for Life Sciences
- LIFESCI 2X03 - Environmental Change and Human Health

NOTE:

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Academic Program Advisor.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in life sciences related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. Registration in the Honours Life Sciences Co-op program does not guarantee access to all courses. Some courses have program restrictions and students are responsible to read course prerequisites carefully.
5. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.
6. Students interested in graduate school may wish to consider completion of a thesis or independent study course (see LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
7. Level IV Research Seminar topics may change from year to year. Research Seminar topics and descriptions are available on the program web site (<https://www.science.mcmaster.ca/sis/undergraduate/life-sciences.html>).
8. Students entering Level IV or V of Honours Life Sciences Co-op must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by the end of March. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in preferred seminar. The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses. Co-op students will have access to the ballot only once during their undergraduate degree.
9. LIFESCI 4CM3 is required for students completing the Honours Life Sciences - Origins of Disease Specialization and is not included in the pre-registration ballot.
10. LIFESCI 4XX3 is required for students completing the Honours Life Sciences - Sensory Motor Systems Specialization and is not included in the pre-registration ballot.
11. Effective September 2017, students must complete at least one of EXPLORE 3IS3, LIFESCI 3EP3, 3R03, 3RP3, 3XX3, 3YY3, 4A03, 4B06 A/B S, 4B09 A/B S, 4C09 A/B S, 4C12 A/B S, 4D15 A/B S, 4EP6 A/B S, SCIENCE 2A03, 3A03, 3IS3, 3M03, 3WT0.

12. The Co-op option is not available with either the Origins of Disease or Sensory Motor Systems Specializations.

13. Course planning is extremely important. Students must review and consider the requisites on Level II, III and IV courses when enrolling in the previous Levels.

LIFE SCIENCES COURSE LIST

Astronomy	ASTRON 2B03
Biochemistry	Levels II, III, IV*
Biology	Levels II, III, IV*
Biophysics	BIOPHYS 2A03, 2S03, 3D03, 3G03
Chemistry	CHEM 2E03, 2O A3, 2OB3, 2P03, 3BC3, 3RC3
Chemical Biology	CHEMBIO 2A03, 2P03, 3BM3, 3OA3, 4OA3, 4OB3
Environmental Science	ENVIRSC 2E13, 2GI3, 3B03, 3EE3, 3GI3, 3GV3, 3L03, 3SR3, 4HH3
Explore	EXPLORE 3IS3
Geography	GEOG 2E13, 2GI3, 2HI3, 2UI3, 3EC3, 3EE3, 3ER3, 3GI3, 3GV3, 3HH3, 3HP3, 3SR3, 3UP3, 4HH3
Health Sciences	HTHSCI 2G03, 3DD3, 3DD6 A/B, 3I03, 3K03, 4DM3, 4II3, 4O03
Kinesiology	KINESIOL 2Y03, 2YY3
Life Sciences	Levels II, III, IV*
Mathematics	MATH 2UU3, 3MB3
Medical Physics	MEDPHYS 2D03, 4B03, 4F03, 4U03
Medical Radiation Sciences	MEDRADSC 3X03
Molecular Biology	Levels III, IV*
Neuroscience	NEUROSCI 3J03, 3SN3
Physics	PHYSICS 2G03, 3L03
Psychology	PSYCH Levels II, III, IV*
Science	Levels II, III*
Science Communication	SCICOMM 2A03, 2M03
* All Levels II, III, IV courses for which the prerequisites have been met are acceptable.	

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- Completed prior to admission to program

Level II: 30 Units

30 units

- Completion of any Level II Honours Life Sciences program, including:

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- BIOLOGY 2B03 - Cell Biology
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 2N03 - Human Nutrition for Life Sciences
- LIFESCI 2X03 - Environmental Change and Human Health

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See Program Note 3 above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

from

- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

6 units

from

- *Life Sciences Course List*

6 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology

- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

3 units

from

- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3 - Laboratory Methods in Molecular Biology
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3LL3 - Living Systems Laboratory Practicum
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development

9 units

from

- *Life Sciences Course List*

15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- LIFESCI 4CM3 - Foundations of Disease States Inquiry Lab
- LIFESCI 4E03 - Science & Storytelling
- LIFESCI 4F03 - Emerging Paradigms in Environmental Change and Health
- LIFESCI 4H03 - Regeneration: What Can We Learn From Animal Models?
- LIFESCI 4I03 - Research Seminar
- LIFESCI 4J03 - Science Communication in the Media
- LIFESCI 4L03 - Research Seminar
- LIFESCI 4M03 - Research Seminar
- LIFESCI 4N03 - Research Seminar
- LIFESCI 4O03 - Research Seminar
- LIFESCI 4P03 - Research Seminar
- LIFESCI 4Q03 - Research Seminar
- LIFESCI 4U03 - Mechanisms of Disease
- LIFESCI 4V03 - Extracellular Vesicles in Health and Disease
- LIFESCI 4W03 - Advanced Topics in Nutrition
- LIFESCI 4X03 - The Biopsychology of Sex
- LIFESCI 4XX3 - The Synapse
- LIFESCI 4Y03 - Applied Biomechanics

3 units

from

- *Life Sciences Course List*

9 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2017

120 units total (Levels I to V), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

- Completed prior to admission to program

Level II: 30 Units

30 units

- Completion of any Level II Honours Life Sciences program, including:

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

LIFE SCIENCES (B.SC.)**NOTE APPLICABLE TO B.SC. IN LIFE SCIENCES**

The B.Sc. in Life Sciences, as a second degree, may not be possible if the student's first undergraduate degree is in Biochemistry, Biology, Environmental Sciences, or Psychology, Neurosciences & Behaviour. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).

ADMISSION

Completion of an Level I program with a Grade Point Average of at least 3.5 including:

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

3 units

- CHEM 1A03 - Introductory Chemistry I

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 units

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water And Environment
- ENVIRSC 1G03

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

9 units

from

- the Science I Course List

PROGRAM NOTES

1. Students who intend to complete Biochemistry courses or who wish to be eligible for a wider selection of Biology and Psychology courses must complete CHEM 1A03, 1AA3.
2. Registration in the B.Sc. Life Sciences program does not guarantee access to all courses. Some courses have program restrictions and students are responsible to read course prerequisites carefully.
3. Students registered in the B.Sc. Life Sciences program who are interested in transferring to Honours Life Sciences should meet with an Academic Advisor.

LIFE SCIENCES COURSE LIST

Astronomy	ASTRON 2B03

Psychology	PSYCH Levels II, III, IV*
Science	Levels II, III*
Science Communication	SCICOMM 2A03, 2M03
* All Levels II, III, IV courses for which the prerequisites have been met are acceptable.	

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-III: 60 Units

24 units

from

- the *Life Sciences Course List* of which at least 12 units must be Levels III, IV courses (See *Note Applicable to B.Sc in Life Sciences and Program Note 1* above.)

36 units

- Electives of which at least nine units must be selected from the Faculty of Science

MEDICAL RADIATION SCIENCES – RADIATION THERAPY SPECIALIZATION (B.M.R.SC.)

Effective September 2020, admission to Level II of the Medical Radiation Sciences - Radiation Therapy Specialization will be reinstated.

PROGRAM NOTES

- Students in this program pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.
- The timing of the Spring/Summer and the Level III and IV Fall/Winter sessions may not adhere to the *Sessional Dates*, as published in this Calendar.

ADMISSION FOR SEPTEMBER 2019

Enrolment in this program is suspended.

ADMISSION (EFFECTIVE SEPTEMBER 2020)

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 units

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

REQUIREMENTS

150 units total (Levels I to IV), 45 units of clinical practicum are interspersed with 75 units of academic courses in Levels II to IV

Level I: 30 Units

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

27 units

- MEDRADSC 2A03 - Patient Care
- MEDRADSC 2D03 - Relational Anatomy I
- MEDRADSC 2RA3 - Relational Anatomy II
- MEDRADSC 2S03 - Clinical Oncology I
- MEDRADSC 2T03 - Clinical Oncology II
- MEDRADSC 2U03 - Radiation Therapy Skills I

- MEDRADSC 2W03 - Physics and Instrumentation for Radiation Therapy
- MEDRADSC 2X03 - Radiobiology and Protection
- MEDRADSC 2Z03 - Imaging Procedures in Radiation Therapy

3 units

from

- the *Faculty of Science* courses

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

15 units

- MEDRADSC 2V15 - Radiation Therapy Clinical Practicum I

LEVEL III

Fall and Winter Terms: 30 units:

21 units

- MEDRADSC 3K03 - Computed Tomography
- MEDRADSC 3S03 - Treatment Planning I
- MEDRADSC 3U03 - Radiation Protection and Radiation Biology in Radiation Therapy
- MEDRADSC 3V03 - Treatment Planning II
- MEDRADSC 3W03 - Radiation Therapy Skills II
- MEDRADSC 3X03 - Research Methods in Medical Radiation Sciences
- MEDRADSC 3Y03 - Ethics for Medical Radiation Sciences

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

9 units

- MEDRADSC 3B03 - Quality Management in Medical Radiation Sciences
- MEDRADSC 3DH3 - Caring for the Palliative Patient
- MEDRADSC 3T03 - Applied Patient Care in Radiation Therapy

6 units

from

- MEDRADSC 3AA3 - Interdisciplinary Rounds in Medical Radiation Sciences
 - MEDRADSC 3C03 - Multidisciplinary Interventional Procedures
- and three units from
- MEDRADSC 3DE3 - Subspecialties in Medical Radiation Sciences: Introduction to Magnetic Resonance Imaging
 - MEDRADSC 3DI3 - Subspecialties in Medical Radiation Sciences: Image Guidance in Radiation Therapy

OR

- MEDRADSC 3Z06 - Research Project

LEVEL IV

Fall and Winter Terms: 30 units:

30 units

- MEDRADSC 4E15 - Radiation Therapy Clinical Practicum II
- MEDRADSC 4F15 - Radiation Therapy Clinical Practicum III

PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level II	30 units from Academic Level II		Clinical Practicum I

Level III	45 units from Academic Level III		
Level IV	Clinical Practicum II	Clinical Practicum III	

MEDICAL RADIATION SCIENCES - RADIOGRAPHY SPECIALIZATION (B.M.R.S.C.)

PROGRAM NOTES

- Students in this program pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.
- The timing of the Spring/Summer and the Level III and IV Fall/Winter sessions may not adhere to the *Sessional Dates*, as published in this Calendar.

ADMISSION

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 units

- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1Y3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

ADMISSION (EFFECTIVE SEPTEMBER 2020)

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 units

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1Y3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

REQUIREMENTS

150 units total (Levels I to IV), 45 units of clinical practicum are interspersed with 75 units of academic courses in Levels II to IV

Level I: 30 Units

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

27 units

- MEDRADSC 2A03 - Patient Care
- MEDRADSC 2BB3 - Digital Imaging Informatics
- MEDRADSC 2D03 - Relational Anatomy I
- MEDRADSC 2G03 - Radiographic Skills I
- MEDRADSC 2H03 - Radiographic Skills II
- MEDRADSC 2I03 - Pathology and Procedures I
- MEDRADSC 2RA3 - Relational Anatomy II
- MEDRADSC 2X03 - Radiobiology and Protection
- MEDRADSC 2Y03 - Radiographic Imaging and Instrumentation I

3 units

from

- the *Faculty of Science* courses

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

15 units

- MEDRADSC 2J15 - Radiography Clinical Practicum I

LEVEL III

Fall and Winter Terms: 30 units:

21 units

- MEDRADSC 3DA3 - Subspecialties in Medical Radiation Sciences - Advanced Studies in Computed Tomography
- MEDRADSC 3G03 - Radiographic Imaging and Instrumentation II
- MEDRADSC 3H03 - Quality Control in Radiography
- MEDRADSC 3J03 - Pathology and Procedures II
- MEDRADSC 3K03 - Computed Tomography
- MEDRADSC 3X03 - Research Methods in Medical Radiation Sciences
- MEDRADSC 3Y03 - Ethics for Medical Radiation Sciences

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

9 units

from

- MEDRADSC 3AA3 - Interdisciplinary Rounds in Medical Radiation Sciences
- MEDRADSC 3B03 - Quality Management in Medical Radiation Sciences
- MEDRADSC 3C03 - Multidisciplinary Interventional Procedures
- MEDRADSC 3L03 - Radiographic Skills III

6 units

from

- MEDRADSC 3DD3
- MEDRADSC 3DE3 - Subspecialties in Medical Radiation Sciences: Introduction to Magnetic Resonance Imaging
- MEDRADSC 3DH3 - Caring for the Palliative Patient

OR

- MEDRADSC 3Z06 - Research Project

LEVEL IV

Fall and Winter Terms: 30 units:

30 units

- MEDRADSC 4A15 - Radiography Clinical Practicum II

· MEDRADSC 4B15 - Radiography Clinical Practicum III

PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level II	30 units from Academic Level II		Clinical Practicum I
Level III	45 units from Academic Level III		
Level IV	Clinical Practicum II	Clinical Practi- cum III	

**MEDICAL RADIATION SCIENCES - ULTRASONOGRAPHY
SPECIALIZATION (B.M.R.SC.)**

PROGRAM NOTES

- Students in this program pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.
- The timing of the Spring/Summer and the Level III and IV Fall/Winter sessions may not adhere to the *Sessional Dates*, as published in this Calendar.

ADMISSION

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 units

- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

ADMISSION (EFFECTIVE SEPTEMBER 2020)

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 units

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 units

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 units

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

REQUIREMENTS

150 units total (Levels I to IV), 45 units of clinical practicum are interspersed with 75 units of academic courses in Levels II to IV

Level I: 30 Units

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

27 units

- MEDRADSC 2A03 - Patient Care
- MEDRADSC 2BB3 - Digital Imaging Informatics
- MEDRADSC 2K03 - Applied Sonographic Physics and Instrumentation I
- MEDRADSC 2L03 - Abdominal Ultrasonography I
- MEDRADSC 2M03 - Obstetrical and Gynecologic Ultrasonography I
- MEDRADSC 2N03 - Sonographic Skills I
- MEDRADSC 2O03 - Abdominal Ultrasonography II
- MEDRADSC 2P03 - Obstetrical and Gynecological Ultrasonography II
- MEDRADSC 2Q03 - Sonographic Skills II

3 units

from

- the *Faculty of Science* courses

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

15 units

- MEDRADSC 2R15 - Ultrasonography Clinical Practicum I

LEVEL III

Fall and Winter Terms: 30 units:

21 units

- MEDRADSC 3N03 - Vascular Ultrasonography
- MEDRADSC 3O03 - Sonographic Skills III
- MEDRADSC 3P03 - Obstetrical and Gynecologic Ultrasonography III
- MEDRADSC 3Q03 - Applied Sonographic Physics and Instrumentation II
- MEDRADSC 3R03 - Musculoskeletal Ultrasonography
- MEDRADSC 3X03 - Research Methods in Medical Radiation Sciences
- MEDRADSC 3Y03 - Ethics for Medical Radiation Sciences

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

9 units

from

- MEDRADSC 3AA3 - Interdisciplinary Rounds in Medical Radiation Sciences
- MEDRADSC 3B03 - Quality Management in Medical Radiation Sciences
- MEDRADSC 3C03 - Multidisciplinary Interventional Procedures
- MEDRADSC 3M03 - Abdominal Ultrasonography III

6 units

from

- MEDRADSC 3DH3 - Caring for the Palliative Patient

and three units from

- MEDRADSC 3DE3 - Subspecialties in Medical Radiation Sciences: Introduction to Magnetic Resonance Imaging
- MEDRADSC 3DJ3 - Subspecialties in Medical Radiation Sciences: Pediatric Sonography

OR

- MEDRADSC 3Z06 - Research Project

LEVEL IV

Fall and Winter Terms: 30 units:

30 units

- MEDRADSC 4C15 - Ultrasonography Clinical Practicum II
- MEDRADSC 4D15 - Ultrasonography Clinical Practicum III

PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level II	30 units from Academic Level II		Clinical Practicum I
Level III	45 units from Academic Level III		
Level IV	Clinical Practicum II	Clinical Practicum III

Completion of Level I Honours Kinesiology including, KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 with a Grade Point Average of at least 6.0.

PROGRAM NOTES

1. Completion of MATH 1A03 or 1LS3 is a requirement for this program and must be completed by the end of Level II.
2. PHYSICS 1A03 serves as excellent preparation for KINESIOL 2A03, especially for students who did not complete Grade 12 Physics U.
3. Honours B.Sc. Kinesiology students must complete at least six units of electives chosen from the Faculty of Science.
4. Kinesiology courses may not be used toward the elective component of the degree.
5. A maximum of 18 units of Levels III, IV Kinesiology courses may be completed in Level III of the program.
6. Honours Kinesiology students who have a minimum Grade Point Average of 3.5 and successfully completed at least 90 units including all requirements up to the end of Level III of the Honours B.Sc. Kinesiology program may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the Bachelor of Science Kinesiology (B.Sc.Kin.) degree.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units**30 units**(See *Admission* above.)**Levels II-IV: 90 Units****18 units**

- KINESIOL 2A03 - Biomechanics
- KINESIOL 2C03 - Neuromuscular Exercise Physiology

- KINESIOL 2CC3 - Cardiorespiratory and Metabolic Exercise Physiology
- KINESIOL 2E03 - Musculoskeletal Anatomy
- KINESIOL 2F03 - Growth, Maturation and Physical Activity in Children and Youth
- KINESIOL 2G03 - Health Psychology

0-3 units

from the following courses, if not completed in Level I

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

(See Program Note 1 above.)

3 units

- STATS 2B03 - Statistical Methods for Science

36 units

from

- Levels III, IV Kinesiology courses including at least nine units of Level IV (See Program Note 5 above.)

33-36 units

- Electives (See Program Notes 2, 3 and 4 above.)

NOTES APPLICABLE TO ALL PROGRAMS OFFERED BY THE DEPARTMENT OF MATHEMATICS AND STATISTICS

1. The Department offers an Honours Mathematics and Statistics program, which may be complemented with a Sub-Plan in Mathematics or Statistics, and an Honours Actuarial and Financial Mathematics program. Combined Honours programs are available with Arts and Science, Biology, Computer Science, Economics, English, French, History, Philosophy, and Physics.
2. Students considering graduate studies in Mathematics are encouraged to complete MATH 2XX3, 3A03, 3F03, 3GR3, 3X03, 4A03 or register in the Mathematics Sub-Plan. Students considering graduate studies in Statistics are encouraged to complete STATS 3A03, 3D03, 3F03*, 3S03*, 3U03* or register in the Statistics Sub-Plan. Students considering a career as an actuary are encouraged to complete MATH 2FM3, 3FM3, 4FM3, STATS 2D03, 2MB3, 3A03, 3D03, 3G03, 3H03, 4A03 or register in Honours Actuarial and Financial Mathematics.

- Cooperative Education programs are available; see the requirements for Honours Mathematics and Statistics Co-op programs in this section of the Calendar. Admission to the co-op programs is in Level III.

HONOURS ACTUARIAL AND FINANCIAL MATHEMATICS (B.SC.)

ADMISSION NOTES

- Completion of ECON 1B03 and 1BB3 is required by the end of Level II. Completion in Level I is strongly recommended.
- Completion of COMMERCE 1AA3 is required by the end of Level II. Completion in Level I is strongly recommended.
- Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection and is based on completion of the supplementary application by the stated deadline and academic achievement, but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See Admission Note 3 above.)

3 units

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See Admission Note 3 above.)

3 units

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

- Students interested in focusing on financial mathematics are strongly encouraged to complete MATH 3A03 and one of COMPSCI 1MD3, MATH 1MP3 or 3NA3. Students should note that MATH 1C03 is a prerequisite for MATH 3A03.
- Students are strongly encouraged to complete COMMERCE 2FA3 by the end of Level II, especially if the Honours Actuarial and Financial Mathematics Co-op program is being considered for Level III.

COURSE LIST

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 4FP3 - Personal Finance
- COMMERCE 4FW3 - Finance for Entrepreneurs
- ECON 2G03
- ECON 2GG3 - Intermediate Microeconomics II
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II
- All Level III and IV Mathematics or Statistics courses

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

21 units

- COMMERCE 2FA3 - Introduction to Finance (See Program Note 2 above.)
- MATH 2C03 - Introduction to Differential Equations
- MATH 2FM3 - Introduction To Mathematical Finance
- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

0-9 units

from the following courses, if not completed in Level I

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- COMMERCE 1AA3 - Introductory Financial Accounting (or 2AA3)

0-9 units

- Electives

Level III: 30 Units

15 units

- MATH 3FM3 - Mathematics of Finance
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3G03 - Actuarial Mathematics I
- STATS 3H03 - Actuarial Mathematics II

0-3 units

- COMMERCE 2FA3 - Introduction to Finance if not completed in Level II (See Program Note 2 above.)

12-15 units

- Electives

Level IV: 30 Units

3 units

- MATH 4FM3 - Financial Markets and Derivatives

3 units

from

- COMMERCE 3FA3 - Managerial Finance
- STATS 4A03 - Time Series

12 units

from

- Course List (See Program Note 1 above.)

12 units

- Electives

HONOURS ACTUARIAL AND FINANCIAL MATHEMATICS CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Actuarial and Financial Mathematics with a Grade Point Average of at least 5.0.

PROGRAM NOTES

- Students interested in focusing on financial mathematics are strongly encouraged to take MATH 3A03 and one of COMPSCI 1MD3, MATH 1MP3, 3NA3. Students should note that MATH 1C03 is a prerequisite for MATH 3A03.
- Students must complete STATS 4A03 or COMMERCE 3FA3. However, COMMERCE 3FA3 is not usually available in the Winter Term, so may have to be taken in the Fall or Spring/Summer Terms.
- Students should take COMMERCE 1AA3 (or 2AA3) and COMMERCE 2FA3 by the end of Level II, to enable completion of COMMERCE 3FA3 in a Fall term of Level III or IV.

4. Alternatives for meeting the requirement of three units of STATS 4A03 or COMMERCE 3FA3 would include distance learning courses accredited by the actuarial agencies for fulfillment of either the Applied Statistical Methods VEE, or the Corporate Finance VEE, respectively. Students considering this alternative must speak with a faculty advisor from the Department of Mathematics and Statistics.

COURSE LIST

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 4FP3 - Personal Finance
- COMMERCE 4FP4
- COMMERCE 4FW3 - Finance for Entrepreneurs
- ECON 2G03
- ECON 2GG3 - Intermediate Microeconomics II
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II
- All Level III and IV Mathematics or Statistics courses

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units**30 units**

- Completion of Level II Honours Actuarial and Financial Mathematics

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:**9 units**

- MATH 3FM3 - Mathematics of Finance
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics

0-3 units

- COMMERCE 1AA3 - Introductory Financial Accounting (or 2AA3) if not completed in Level II (See *Program Note 3* above.)

0-3 units

- COMMERCE 3FA3 - Managerial Finance if eligible (See *Program Notes 2, 3 and 4* above.)

0-6 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- STATS 3G03 - Actuarial Mathematics I
- STATS 3H03 - Actuarial Mathematics II

0-3 units

- COMMERCE 2FA3 - Introduction to Finance (if not completed in Level II)

0-3 units

- COMMERCE 3FA3 - Managerial Finance if not completed in Level III (See *Program Notes 2, 3 and 4* above.)

9 units

from

- Course List (See *Program Note 1* above.)

9-15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:**3 units**

- MATH 4FM3 - Financial Markets and Derivatives

3 units

- STATS 4A03 - Time Series (if COMMERCE 3FA3 not completed) (See *Program Notes 2, 3 and 4* above.)

3 units

from

- Course List (See *Program Note 1* above.)

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Levels III, IV	15 units from Academic Levels III, IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

HONOURS MATHEMATICS AND COMPUTER SCIENCE (B.SC.)**ADMISSION NOTES**

1. For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.

- Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See Admission Note 2 above.)

3 units

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See Admission Note 2 above.)

3 units

from the following courses, with a grade of at least C+

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation

PROGRAM NOTES

- To meet the prerequisites of required Level III COMPSCI courses, students are strongly encouraged to take COMPSCI 2DM3 and one of COMPSCI 2FA3 or 2ME3 in Level II.
- For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2S03
- MATH 2T03
- MATH 3CY3 - Cryptography
- MATH 3DC3 - Discrete Dynamical Systems and Chaos
- MATH 3E03
- MATH 3EE3
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3H03* - Number Theory
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3Q03
- MATH 3QC3 - Introduction to Quantum Computing
- MATH 3T03 - Inquiry in Topology
- MATH 3TP3 - Truth and Provability: G
- MATH 3U03 - Combinatorics
- MATH 3V03 - Graph Theory

SCIENTIFIC COMMUNICATION COURSE LIST

- MATH 3CY3 - Cryptography
- MATH 3DC3 - Discrete Dynamical Systems and Chaos
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 3G03 - Problem Solving
- MATH 3MB3 - Introduction to Modelling
- MATH 3QC3 - Introduction to Quantum Computing

- MATH 3TP3 - Truth and Provability: G
- MATH 3U03 - Combinatorics
- MATH 3V03 - Graph Theory
- MATH 3Z03 - Inquiry: History of Mathematics
- MATH 4FM3 - Financial Markets and Derivatives
- MATH 4MB3 - Mathematical Biology
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3DS3 - Introduction to Data Science Theory
- STATS 3PG3 - Probability and Games of Chance
- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03 - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

- COMPSCI 2C03 - Data Structures and Algorithms
- COMPSCI 2S03 - Principles of Programming

3 units

- COMPSCI 2DM3 - Discrete Mathematics with Applications I

3 units

from

- COMPSCI 2FA3 - Discrete Mathematics with Applications II
- COMPSCI 2ME3 - Introduction to Software Development

0-3 units

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

3-6 units

- Electives

Level III: 30 Units

6 units

- MATH 3A03 - Introduction to Real Analysis
- MATH 3X03 - Complex Analysis I

3 units

from

- Core Course List

6 units

from

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3DB3 - Data Bases
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3SD3 - Concurrent Systems
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems

3 units

from

- Levels II, III, IV Computer Science courses

12 units

- Electives

Level IV: 30 Units

9 units

from

- Levels III, IV Mathematics or Statistics courses including one course selected from the *Scientific Communication Course List*

9 units

from

- Levels III, IV Computer Science courses

12 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

9 units

- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

- COMPSCI 2C03 - Data Structures and Algorithms
- COMPSCI 2S03 - Principles of Programming

3 units

- COMPSCI 2DM3 - Discrete Mathematics with Applications I

3 units

from

- COMPSCI 2FA3 - Discrete Mathematics with Applications II
- COMPSCI 2ME3 - Introduction to Software Development

6 units

- Electives

Level III: 30 Units

6 units

- MATH 3A03 - Introduction to Real Analysis
- MATH 3X03 - Complex Analysis I

3 units

from

- Core Course List*

6 units

from

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3DB3 - Data Bases
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3SD3 - Concurrent Systems
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems

3 units

from

- Levels II, III, IV Computer Science courses

12 units

HONOURS MATHEMATICS AND PHYSICS (B.SC.)

ADMISSION NOTES

- For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.
- Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2 above.*)

3 units

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2 above.*)

3 units

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 units

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

3 units

from

- the Science I Course List

PROGRAM NOTES

- PHYSICS 3A03 and 3C03 are listed in Level III but are offered in alternate years and may be taken in Level IV.
- A Minor in Astronomy or Statistics is not permitted in the Honours Mathematics and Physics program.
- MATH 1MP3, although not required, is strongly recommended, if not completed in Level I.
- For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.

SCIENTIFIC COMMUNICATION COURSE LIST

- MATH 3CY3 - Cryptography

- MATH 3DC3 - Discrete Dynamical Systems and Chaos
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 3G03 - Problem Solving
- MATH 3MB3 - Introduction to Modelling
- MATH 3QC3 - Introduction to Quantum Computing
- MATH 3TP3 - Truth and Provability: G
- MATH 3U03 - Combinatorics
- MATH 3V03 - Graph Theory
- MATH 3Z03 - Inquiry: History of Mathematics
- MATH 4FM3 - Financial Markets and Derivatives
- MATH 4MB3 - Mathematical Biology
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3DS3 - Introduction to Data Science Theory
- STATS 3PG3 - Probability and Games of Chance
- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03 - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

12 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

12 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II (or 2B06)
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics

0-3 units

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

0-3 units

from

- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03 - Scientific Computing

0-6 units

- Electives (See *Program Notes 3 and 4* above.)

Level III: 30 Units

6 units

- MATH 3A03 - Introduction to Real Analysis
- MATH 3X03 - Complex Analysis I

6 units

- Levels II, III, IV Mathematics or Statistics courses

3 units

from

- PHYSICS 3A03 - Relativity, Gravity and the Geometry of Spacetime
- PHYSICS 3C03 - Analytical Mechanics

9 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

6 units

- Electives

Level IV: 30 Units

12 units

from

- Levels III, IV Mathematics or Statistics courses with at least three units from Level IV and one course selected from the *Scientific Communication Course List*

3 units

- PHYSICS 4B03 - Electromagnetic Theory

9 units

- Levels III, IV Physics or Astronomy

Including:

- PHYSICS 4L03 A/B - Literature Review or
- PHYSICS 4P06 A/B - Senior Research Project

6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

12 units

- MATH 2C03 - Introduction to Differential Equations

**HONOURS MATHEMATICS AND STATISTICS -
MATHEMATICS SUB-PLAN CO-OP (B.SC.)**

HONOURS MATHEMATICS AND STATISTICS CO-OP PROGRAMS

Co-op opportunities in Mathematics and Statistics are available in combination with the sub-plans. Enrolment in these programs is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of a Level II Honours Mathematics and Statistics program with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from the Science Career and Cooperative Education Office.

NOTES

1. These are five-level (year) co-op programs which include two eight-month work terms which must be spent in mathematics or statistics related placements.
2. Students must be registered in a full-load and take a full academic program as prescribed, by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, MATH 1MP3, PHYSICS 2G03. It is recommended that students in Mathematics Sub-Plan (Co-op) complete this requirement prior to their first work term.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Mathematics and Statistics (Mathematics Sub-Plan) with a Grade Point Average of at least 5.0.

- STATS 3PG3 - Probability and Games of Chance
- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03 - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units**30 units**

- Completion of Level II Honours Mathematics and Statistics (Mathematics Sub-Plan)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- MATH 3A03 - Introduction to Real Analysis

3 units

from

- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra

6 units

from

- *Core Course List*

3 units

- Electives (See *Note 4* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3X03 - Complex Analysis I

3 units

- MATH 4A03 - Real Analysis II

3 units

from

- MATH 3EE3
- MATH 3FF3 - Partial Differential Equations
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3T03 - Inquiry in Topology

9 units

from

- Levels III, IV Mathematics or Statistics courses including one course selected from the *Scientific Communication Course List*

0-3 units

from the following courses, if not already completed for another requirement:

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03 - Scientific Computing

(See *Note 4* above.)

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- Levels III, IV Mathematics or Statistics courses

3 units

from

- Level IV Mathematics courses

6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 30 Units

30 units

- Completion of Level II Honours Mathematics and Statistics (Mathematics Sub-Plan)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- MATH 3A03 - Introduction to Real Analysis

3 units

from

- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra

6 units

from

- Core Course List

3 units

- Electives (See Note 4 above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3X03 - Complex Analysis I

3 units

- MATH 4A03 - Real Analysis II

3 units

from

- MATH 3EE3
- MATH 3FF3 - Partial Differential Equations
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3T03 - Inquiry in Topology

9 units

from

- Levels III, IV Mathematics or Statistics courses

0-3 units

from the following courses, if not already completed for another requirement:

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03 - Scientific Computing

(See Note 4 above.)

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- Levels III, IV Mathematics or Statistics courses

3 units

from

- Level IV Mathematics courses

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Levels III, IV	15 units from Academic Levels III, IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

HONOURS MATHEMATICS AND STATISTICS - STATISTICS SUB-PLAN (B.SC.)

ADMISSION NOTES

- For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.
- Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but

requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See Admission Note 2 above.)

3 units

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See Admission Note 2 above.)

3 units

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

1. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, MATH 1MP3, PHYSICS 2G03.
2. For students entering the program as of September 2019, completion of MATH 1C03 is required by the end of Level II.

CORE COURSE LIST

- MATH 2E03
- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2S03
- MATH 2T03
- MATH 3B03 - Geometry
- MATH 3E03
- MATH 3EE3
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations

HONOURS MATHEMATICS AND STATISTICS - STATISTICS SUB-PLAN CO-OP (B.SC.)

HONOURS MATHEMATICS AND STATISTICS CO-OP PROGRAMS

Co-op opportunities in Mathematics and Statistics are available in combination with the sub-plans. Enrolment in these programs is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of a Level II Honours Mathematics and Statistics program with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from the Science Career and Cooperative Education Office.

NOTES

1. These are five-level (year) co-op programs which include two eight-month work terms which must be spent in mathematics or statistics related placements.
2. Students must be registered in a full-load and take a full academic program as prescribed, by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, MATH 1MP3, PHYSICS 2G03. It is recommended that students in Mathematics Sub-Plan (Co-op) complete this requirement prior to their first work term.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line applica-

tion by the stated deadline, and completion of Level II Honours Mathematics and Statistics (Statistics Sub-Plan) with a Grade Point Average of at least 5.0.

MATHEMATICAL SCIENCE (B.SC.)**ADMISSION NOTE**

Students should be aware that MATH 1B03 may be a prerequisite for upper level Computer Science and Mathematics courses.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

6 units

from the following courses, where an average of at least 4.0 (between the courses) is required

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- COMP SCI 1FC3
- COMPSCI 1MD3 - Introduction to Programming
- MATH 1B03 - Linear Algebra I
- MATH 1MP3 - Introduction to Mathematical Scientific Computation

- MATH 1ZC3 - Engineering Mathematics II-B

(See Admission Note above.)

6 units

from

- Faculty of Science courses

PROGRAM NOTE

Students are responsible for ensuring that prerequisites for anticipated courses for Level III are completed in Level II.

MATHEMATICAL SCIENCE COURSE LIST

- All Level II, III, IV Computer Science courses
- MATH 2A03
- MATH 2C03 - Introduction to Differential Equations
- MATH 2E03
- MATH 2K03
- MATH 2R03 - Linear Algebra II
- MATH 2S03
- MATH 2T03
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications
- All Level III and IV Mathematics or Statistics courses

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

12 units

from

- Level II courses from the *Mathematical Science Course List*

6 units

from

- Faculty of Science courses

12 units

- Electives (See Admission Note above.)

Level III: 30 Units

12 units

from

- Level III courses from the *Mathematical Science Course List*

3 units

from

- Faculty of Science courses

15 units

- Electives

Minor(s):**MINOR IN MATHEMATICS****NOTES**

1. ISCI 1A24 A/B or ARTSSCI 1D06 A/B is a substitution for 6 units from MATH 1A03, 1AA3, 1LS3, 1LT3, 1X03, 1XX3.
2. MATH 2L03 cannot be used for credit towards this Minor.
3. ISCI 2A18 A/B or ARTSSCI 2R03 is a substitution for 3 units of Level II Mathematics toward the Minor in Mathematics.
4. In order to complete a Minor in Mathematics, at least 12 units (above Level I) must be elective to degree.
5. A Minor in Mathematics cannot be declared together with a Minor in Statistics.

REQUIREMENTS

27 units total

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences (with a grade of at least B-)

3 units

from

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

18 units

from

- Levels II, III, IV Mathematics or Statistics courses, including at least six units from Levels III, IV Mathematics or Statistics (See *Note 2* above.)

MINOR IN STATISTICS**NOTES**

1. ISCI 1A24 A/B or ARTSSCI 1D06 A/B is a substitution for 6 units from MATH 1A03, 1AA3, 1LS3, 1LT3, 1X03, 1XX3.
2. MATH 2L03 cannot be used for credit towards this Minor.
3. ISCI 2A18 A/B or ARTSSCI 2R03 is a substitution for 3 units of Level II Mathematics toward the Minor in Statistics.
4. In order to complete a Minor in Statistics, at least 12 units (above Level I) must be elective to degree.
5. A Minor in Statistics cannot be declared together with a Minor in Mathematics.

REQUIREMENTS

27 units total

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences (with a grade of at least B-)

3 units

from

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

9 units

from

- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3S03* - Survey Sampling
- STATS 3U03* - Stochastic Processes

9 units

from

- ARTSSCI 2R03 - Applied Statistical Inference
- PNB 3XE3 - Inferential Statistics
- Levels II, III, IV Mathematics or Statistics

NOTES APPLICABLE TO ALL PROGRAMS OFFERED BY THE DEPARTMENT OF PHYSICS AND ASTRONOMY

1. The Department offers the following programs:

- Honours Astrophysics
- Honours Medical and Biological Physics
- Honours Physics

2. These programs consist of a specified set of basic requirements and a wide choice of electives (including those from outside the Faculty of Science), allowing for interdisciplinary studies or the opportunity to complete a Minor in another subject. Students are encouraged to read the Program Notes of each program for a list of additional sets of courses which are appropriate preparation for graduate studies in Physics, Astronomy, Medical Physics or Biophysics.

3. Transfer between options may be possible at any time, subject to satisfying the admission requirements.

4. Admission to Honours Biophysics Co-op (last entry in September 2017), Honours Medical and Biological Physics Co-op and Honours Physics Co-op is in Level III.

5. A Minor in Astronomy is not permitted in the Honours Biophysics, Honours Medical and Biological Physics or Honours Physics program.

6. Students wishing to take additional Level III, IV Mathematics courses should consider MATH 2XX3.

B.SC. THREE-LEVEL DEGREE

A three-level program with a Physics orientation is available through the B.Sc. in Chemical and Physical Sciences.

HONOURS ASTROPHYSICS (B.SC.)**ADMISSION NOTES**

1. Completion of ASTRON 1F03 is required by the end of Level II and is strongly recommended in Level I.
2. Completion of MATH 1B03 is required by the end of Level II and is strongly recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum admission requirements does not guarantee admission. Selection is based on

academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 units

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

9 units

from

- the Science I Course List (See *Admission Notes 1* and *2* above.)

PROGRAM NOTES

1. BIOPHYS 3D03 is recommended.
2. PHYSICS 4G03 is recommended.
3. Completion of PHYSICS 2G03 is required by the end of Level III and is recommended in Level II.

REQUIREMENTS

121 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 31 Units

16 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II (or PHYSICS 2B06)
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2H04 - Thermodynamics

3 units

from

- MATH 2A03
- MATH 2X03 - Advanced Calculus I

3 units

- MATH 2C03 - Introduction to Differential Equations

3 units

- ASTRON 2E03 - Planetary Astronomy

0-3 units

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics (if not completed in Level I)

(See *Admission Note 1* above.)

0-3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

(See Admission Note 2 above.)

0-6 units

- Electives (See Program Note 3 above.)

Level III: 30 Units

18 units

- ASTRON 3X03 - Galaxies and Cosmology
- PHYSICS 2G03 - Scientific Computing
- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3H03 A/B - Intermediate Laboratory
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

6 units

- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

6 units

- Electives (See Program Note 1 above.)

Level IV: 30 Units

3 units

- ASTRON 3Y03 - Stellar Structure

6 units

from

- Level IV Astronomy, Physics

12 units

from

- Levels III, IV Astronomy, Biophysics, Mathematics, Physics courses
- EARTHSC 4V3 - Environmental Geophysics
- MEDPHYS 4F03 - Fundamentals of Health Physics

including, one of

- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

9 units

- Electives (See Program Note 2 above.)

HONOURS MEDICAL AND BIOLOGICAL PHYSICS (B.SC.)

ADMISSION NOTES

1. Completion of BIOLOGY 1A03, CHEM 1AA3 and MATH 1B03 is required by the end of Level II. Completion in Level I is strongly recommended. BIOLOGY 1M03 is also recommended.
2. Completion of BIOPHYS 1S03 or LIFESCI 1E03 (or MEDPHYS 1E03) is recommended in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 units

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- LIFESCI 1E03
- MEDPHYS 1E03
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 units

from

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

6 units

from

- the Science I Course List (See Admission Notes 1 and 2 above.)

ADMISSION NOTES (EFFECTIVE SEPTEMBER 2020)

1. Completion of BIOLOGY 1A03, CHEM 1AA3 and MATH 1B03 is required by the end of Level II. Completion in Level I is strongly recommended. BIOLOGY 1M03 is also recommended.
2. Completion of BIOPHYS 1S03 or LIFESCI 1D03 is recommended in Level I.

ADMISSION (EFFECTIVE SEPTEMBER 2020)

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 units

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- LIFESCI 1D03 - Medical Imaging Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 units

from

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

6 units

from

- the *Science I Course List* (See *Admission Notes 1 and 2* above.)

PROGRAM NOTES

1. Students interested in medical physics or health physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List A - Medical Physics Focus*. These courses also contribute to the core knowledge and learning objectives required by the Commission on Accreditation of Medical Physics Education Programs.
2. Students interested in biochemistry, in particular those interested in postgraduate studies in this area, should take 12 units from the *Course List B - Biological Physics Focus*.
3. Students interested in physics and soft matter physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List C - Physics of Soft Matter Focus*.
4. Completion of either BIOCHEM 2B03 and 2BB3 or BIOCHEM 2EE3 and 3G03 is required, however, BIOCHEM 2EE3 and 3G03 are recommended.

COURSE LIST A - MEDICAL PHYSICS FOCUS

- KINESIOL 2Y03 - Human Anatomy and Physiology II
- MEDPHYS 3C03 - Operational Health Physics: Laboratory & Communication
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics
- MEDPHYS 4I03 - Introduction to Biophotonics
- MEDPHYS 4RB3 - Radiation and Radioisotope Methodology II
- MEDPHYS 4U03 - Radiation Biology

COURSE LIST B - BIOLOGICAL PHYSICS FOCUS

- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4LL3
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOLOGY 2B03 - Cell Biology
- BIOPHYS 3D03 - Origin of Life

COURSE LIST C - PHYSICS OF SOFT MATTER FOCUS

- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 3N03 - Physical Optics
- PHYSICS 4F03 - Quantum Mechanics II
- PHYSICS 4G03 - Computational Physics
- PHYSICS 4K03 - Solid State Physics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

9 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2C03 - Modern Physics

- PHYSICS 2G03 - Scientific Computing

6 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

3 units

- BIOPHYS 2S03 - Explorations in Medical and Biological Physics

3 units

- KINESIOL 2Y03 - Human Anatomy and Physiology I

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
 - BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- (See *Program Note 4* above.)

0-6 units

from the following courses, if not completed in Level I

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

0-6 units

- Electives

Level III: 30 Units

6 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

3 units

- MATH 3C03 - Mathematical Physics I

3 units

- BIOPHYS 3S03 - Soft Condensed Matter Physics

3 units

from

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3H03 A/B - Intermediate Laboratory

3 units

from

- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 4* above.)

3 units

from

- *Course List A, Course List B, Course List C*

3 units

- MEDPHYS 4B03 - Radioactivity and Radiation Interactions

6 units

- Electives

Level IV: 30 Units

9 units

- BIOPHYS 4S03 - Introduction to Molecular Biophysics
- MEDPHYS 4RA3 - Radiation and Radioisotope Methodology I
- MEDPHYS 4T03 - Clinical Applications of Physics in Medicine

9 units

from

- *Course List A, Course List B, Course List C*

12 units

- Electives

HONOURS MEDICAL AND BIOLOGICAL PHYSICS CO-OP (B.SC.)**ADMISSION NOTE**

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line

application by the stated deadline, and completion of Level II Honours Medical and Biological Physics with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education office and the Chair of the Committee of Instruction.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in biophysics related placements.
2. Students must be registered full-time and take a full academic work load as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. Students interested in medical physics or health physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List A - Medical Physics Focus*. These courses also contribute to the core knowledge and learning objectives required by the Commission on Accreditation of Medical Physics Education Programs.
5. Students interested in biochemistry, in particular those interested in postgraduate studies in this area, should take 12 units from *Course List B - Biological Physics Focus*.
6. Students interested in physics and soft matter physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List C - Physics of Soft Matter Focus*.
7. Completion of either BIOCHEM 2B03 and 2BB3 or BIOCHEM 2EE3 and 3G03 is required, however, BIOCHEM 2EE3 and 3G03 are recommended.

COURSE LIST A - MEDICAL PHYSICS FOCUS

- KINESIOL 2Y3 - Human Anatomy and Physiology II
- MEDPHYS 3C03 - Operational Health Physics: Laboratory & Communication
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics
- MEDPHYS 4I03 - Introduction to Biophotonics
- MEDPHYS 4RB3 - Radiation and Radioisotope Methodology II
- MEDPHYS 4U03 - Radiation Biology

COURSE LIST B - BIOLOGICAL PHYSICS FOCUS

- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4LL3
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOLOGY 2B03 - Cell Biology
- BIOPHYS 3D03 - Origin of Life

COURSE LIST C - PHYSICS OF SOFT MATTER FOCUS

- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 3N03 - Physical Optics
- PHYSICS 4F03 - Quantum Mechanics II
- PHYSICS 4G03 - Computational Physics
- PHYSICS 4K03 - Solid State Physics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program.

Level II: 30 Units

- Completion of Level II Honours Medical and Biological Physics

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 16 units:

12 units

- BIOPHYS 3S03 - Soft Condensed Matter Physics
- MATH 3C03 - Mathematical Physics I
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- PHYSICS 3MM3 - Quantum Mechanics I

1 unit

from

- PHYSICS 3DA1 - Inquiry in Physics (I)
- PHYSICS 3HC1 - Intermediate Laboratory (I)

3 units

- Electives (See *Program Notes* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- MEDPHYS 4RA3 - Radiation and Radioisotope Methodology I
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

3 units

from

- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3 units

- BIOPHYS 4S03 - Introduction to Molecular Biophysics

3 units

- MEDPHYS 4T03 - Clinical Applications of Physics in Medicine

6 units

from

- *Course List A, Course List B, Course List C*

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 14 units:

2 units

from

- PHYSICS 3DB2 - Inquiry in Physics (II)
- PHYSICS 3HD2 - Intermediate Laboratory (II)

6 units

from

- *Course List A, Course List B, Course List C*

6 units

- Electives (See *Program Notes 4, 5 and 6* above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	16 units from Academic Level III + SCIENCE 2C00 (if not already completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	14 units from Academic Level IV	

HONOURS PHYSICS (B.SC.)

ADMISSION NOTE

Completion of MATH 1B03 or 1ZC3 is required by the end of Level II and is strongly recommended in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 units

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 units

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

9 units

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. Students interested in computational and theoretical physics and especially those considering postgraduate studies in this area should take the following courses: MATH 2R03, 2T03, PHYSICS 3A03, 3C03, 3N03, 4B03, 4F03, 4G03, plus six additional units from Levels III, IV Astronomy, Mathematics, Physics.
2. Students interested in experimental physics and especially those considering postgraduate studies in this area should take the following courses: ENGPYS 3BA3, 3BB3, 3N03, 4B03, 4E03, 4F03, 4K03.
3. Students interested in geophysics should consider taking EARTHSC 2E03 and 4V3.

REQUIREMENTS

121 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 31 Units

19 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II (or PHYSICS 2B06)
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2G03 - Scientific Computing
- PHYSICS 2H04 - Thermodynamics

3 units

from

- MATH 2X03 - Advanced Calculus I (or 2A03)

3 units

- MATH 2C03 - Introduction to Differential Equations

0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Admission Note* above.)

3-6 units

- Electives

(See *Program Notes* above.)

Level III: 30 Units

12 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3H03 A/B - Intermediate Laboratory
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

6 units

- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

12 units

- Electives (See *Program Notes* above.)

Level IV: 30 Units

6 units

from

- Level IV Astronomy, Biophysics, Physics

9 units

from

- Levels III, IV Astronomy, Biophysics, Mathematics, Physics courses
- EARTHSC 2E03 - Earth History
- EARTHSC 3V03
- EARTHSC 4V03
- MEDPHYS 4F03 - Fundamentals of Health Physics

including one of

- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

15 units

- Electives (See *Program Notes* above.)

HONOURS PHYSICS CO-OP (B.SC.)

ADMISSION NOTE

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II of an Honours program offered by the Department of Physics and Astronomy with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education Office and the Chair of the Committee of Instruction.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in physics related placements.
2. Students must be registered full-time and take a full academic work load as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
4. Students interested in computational and theoretical physics and especially those considering postgraduate studies in this area should take the following courses: MATH 2R03, 2T03, PHYSICS 3A03, 3C03, 3N03, 4B03, 4G03, plus six additional units from Levels III, IV Astronomy, Mathematics, Physics.
5. Students interested in experimental physics and especially those considering postgraduate studies in this area should take the following courses: ENGPHYS 3BA3, 3BB3, 3N03, 4B03, 4E03, 4F03, 4K03.

REQUIREMENTS

121 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

Completed prior to admission to the program

Level II: 31 Units

- Completion of any Level II Honours Physics program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 17 units:

3 units

- MATH 3C03 - Mathematical Physics I

5 units

- PHYSICS 3DA1 - Inquiry in Physics (I)
- PHYSICS 3HC1 - Intermediate Laboratory (I)
- PHYSICS 3MM3 - Quantum Mechanics I

0-3 units

- PHYSICS 2G03 - Scientific Computing (if not completed in Level II)

6-9 units

- Electives (See *Program Notes 4* and *5* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3D03 - Mathematical Physics II

3 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

15 units

from

- EARTHSC 3V03
- EARTHSC 4V03
- EARTHSC 4Z03
- Levels III, IV Astronomy, Biophysics, Mathematics, Physics courses

including one of

- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

9 units

- Electives (See *Program Notes 4* and *5* above.)

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 13 units:

4 units

- PHYSICS 3DB2 - Inquiry in Physics (II)
- PHYSICS 3HD2 - Intermediate Laboratory (II)

9 units

- Electives (See *Program Notes 4* and *5* above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	17 units from Academic Level III + SCIENCE 2C00 (if not already completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO

Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	13 units from Academic Level IV	

CHEMICAL AND PHYSICAL SCIENCES (B.SC.)

Formerly B.Sc in Physical Sciences

This program is administered by the Department of Physics and Astronomy.

ADMISSION NOTE

Prior to registration, students should carefully review the prerequisites of courses they anticipate taking in subsequent sessions as well as the admission requirements of programs they may seek transfer to.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

9 units

from the following courses, where an average of at least 4.0 (between the courses) is required:

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- CHEM 1E03 - General Chemistry for Engineering I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

12 units

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. Registration in the *B.Sc. Chemical and Physical Sciences* program does not guarantee access to all courses. Students are responsible for ensuring that prerequisites for anticipated courses for Level III are completed in Level II.
2. Students should seek academic advising to ensure that their choices are appropriate, especially if transfer to a program offered by the following Departments is being considered: Chemistry and Chemical Biology, School of Interdisciplinary Science, Physics and Astronomy.

B.SC. CHEMICAL AND PHYSICAL SCIENCES COURSE LIST

- Levels II, III, IV Astronomy, Biophysics, Chemical Biology, Chemistry, Medical Physics and Physics courses
- EARTHSC 2E03 - Earth History
- EARTHSC 2L03
- EARTHSC 2Q03
- EARTHSC 3WW3
- EARTHSC 3T03
- EARTHSC 3V03
- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-III: 60 Units

24 units

- Levels II, III, IV courses from *B.Sc. Chemical and Physical Sciences Course List*, of which at least 12 units must be Levels III, IV (See *Program Notes* above.)

36 units

- Electives, of which at least nine units must be selected from the Faculty of Science

Minor(s):

MINOR IN ASTRONOMY

NOTES

1. ISCI 1A24 A/B is a substitution for PHYSICS 1C03 (or 1A03 or 1B03) and PHYSICS 1CC3 (or 1AA3 or 1BA3 or 1BB3).
2. ISCI 2A18 A/B is a substitution for 3 units of Level II Physics toward the Minor in Astronomy.
3. In order to complete a Minor in Astronomy, at least 12 units (above Level I) must be elective to degree.
4. A Minor in Astronomy is not permitted for students enrolled in the Honours Biophysics, Honours Medical and Biological Physics or Honours Physics program.

REQUIREMENTS

24 units total

3 units

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

9 units

- ASTRON 2E03 - Planetary Astronomy
- ASTRON 3X03 - Galaxies and Cosmology
- ASTRON 3Y03 - Stellar Structure

9 units

from

- Levels II, III, IV Biophysics, Physics

MINOR IN PHYSICS

NOTES

1. MATH 2X03 (or 2A03) is the minimum mathematics required in order to complete a Minor in Physics. However, more flexibility is possible if MATH 2C03 is also completed.
2. ISCI 1A24 A/B is a substitution for PHYSICS 1C03 (or 1A03 or 1B03) and PHYSICS 1CC3 (or 1AA3 or 1BA3 or 1BB3).
3. ISCI 2A18 A/B is a substitution for 3 units of Level II Physics toward the Minor in Physics.
4. In order to complete a Minor in Physics, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics

- PHYSICS 1B03
- PHYSICS 1BB3 (or PHYSICS 1BA3)
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

18 units

from

- EARTHSC 3V03
- Levels II, III, IV Astronomy, Biophysics, Physics including at least six units from Levels III, IV Astronomy, Biophysics, Physics

Department of Psychology, Neuroscience & Behaviour (Faculty of Science)

<http://www.science.mcmaster.ca/pnb/>

Faculty as of January 15, 2019

CHAIR

Bruce Milliken

ASSOCIATE CHAIRS

Judith M. Shedden/Graduate Studies

Nicholas A. Bock/Undergraduate Studies

PROFESSORS

Sigal Balshine/B.Sc. (Toronto), Ph.D. (Cambridge)/Canada Research Chair

Suzanna Becker/B.A., M.Sc. (Queen's), Ph.D. (Toronto)

Patrick Bennett/B.Sc. (Tufts), Ph.D. (California-Berkeley)/Senior Canada Research Chair

Reuven Dukas/B.Sc. (Hebrew University, Jerusalem), Ph.D. (North Carolina State)

Paul A. Faure/B.Sc., M.Sc. (Calgary), Ph.D. (Cornell)

Geoff Hall/B.Sc., M.Sc. (Guelph), Ph.D. (McMaster)

Bruce Milliken/B.A., Ph.D. (Waterloo)

Kathryn M. Murphy/B.A. (Western Ontario), M.A., Ph.D. (Dalhousie)

Sukhvinder S. Obhi/B.Sc. (Loughborough), M.Sc. (Manchester), Ph.D. (University College, London)

Mel D. Rutherford/B.A. (Yale), Ph.D. (California-Santa Barbara)/Canada Research Chair

Louis A. Schmidt/B.A. (Maryland), M.S. (Baltimore), Ph.D. (Maryland)

Judith M. Shedden/B.Sc. (Alberta), M.S., Ph.D. (Pittsburgh)

David I. Shore/B.Sc. (McMaster), M.A., Ph.D. (British Columbia)

Laurel J. Trainor/B.Mus., M.A., Ph.D. (Toronto)

ADJUNCT PROFESSORS

Mertice M. Clark/B.A., Ph.D. (McMaster)

Ivan Kiss/B.Sc. (Toronto), M.A., Ph.D. (Concordia)

Allison Sekuler/B.A. (Pomona), Ph.D. (California-Berkeley)

Tracy Vaillancourt/B.A., M.A., Ph.D. (British Columbia)

ASSOCIATE PROFESSORS

Paul Andrews/B.Sc. (Arizona), J.D. (Illinois-Urbana-Champaign), Ph.D. (New Mexico)

Nicholas A. Bock/B.Sc. (Western Ontario), Ph.D. (Toronto)

Steven Brown/B.A. (California-San Jose), M.A., M.Phil., Ph.D. (Columbia)

Richard B. Day/B.A. (Massachusetts), M.A. (Iowa), Ph.D. (McMaster)

David Feinberg/B.Sc. (Rutgers), Ph.D. (St. Andrews)

Deda C. Gillespie/B.Sc. (Yale), Ph.D. (California-San Francisco)

Daniel Goldreich/B.Sc. (California-San Diego), Ph.D. (California-San Francisco)

Karin Humphreys/B.A. (Queensland), A.M., Ph.D. (Illinois)

Joseph Kim/B.Sc., Ph.D. (McMaster)

Jonathan N. Pruitt/B.A. (South Florida), Ph.D. (Tennessee)/Canada 150 Research Chair

Hongjin Sun/B.Sc., M.Sc. (Peking), M.A. (Western Ontario), Ph.D. (Queen's)

Scott Watter/B.Med.Sc., M.B.B.S. (Queensland), A.M., Ph.D. (Illinois)

ADJUNCT ASSOCIATE PROFESSOR

Bruce A. Linder/B.E.S. (Minnesota), Ph.D. (McMaster)

ASSISTANT PROFESSORS

Ayesha Khan/B.Sc., Ph.D. (McMaster)

Jennifer Ostovich/B.Sc. (Toronto), M.A., Ph.D. (Pennsylvania)

Nikol Piskuric/B.Sc., Ph.D. (McMaster)

ADJUNCT ASSISTANT PROFESSOR

Marten Koops/B.Sc., M.Sc. (Concordia), Ph.D. (Manitoba)

ASSOCIATE MEMBERS

Michael Amlung/(Psychiatry and Behavioural Neurosciences) B.S. (Indiana), M.S., Ph.D. (Georgia)

Peter Bieling/(Psychiatry and Behavioural Neurosciences) B.Sc. (Victoria), M.A., Ph.D. (British Columbia)

Ben Bolker/(Biology) B.Sc. (Yale), Ph.D. (Cambridge)

Ian C. Bruce/(Electrical and Computer Engineering) B.Eng., Ph.D. (Melbourne)

John F. Connolly/(Linguistics and Languages) A.B. (Holy Cross), M.A. (Saskatchewan), Ph.D. (London)

Charles E. Cunningham/(Psychiatry and Behavioural Neurosciences) B.A. (California State), M.A. (San Diego State), Ph.D. (The American University)

Benecio Frey/(Psychiatry and Behavioural Neurosciences) M.D. (FFFCM Porto Alegre, Brazil), M.Sc., Ph.D. (UF Rio Grande do Sul, Brazil)

Andrea Gonzalez/(Psychiatry and Behavioural Neurosciences) B.Sc., M.A., Ph.D. (Toronto)

Sheryl Green/(Psychiatry and Behavioural Neurosciences) M.A. (York), B.A., Ph.D. (Regina)

Eleni Hapidou/(Psychiatry and Behavioural Neurosciences) B.A. (The American College of Greece), M.A. (New Brunswick), Ph.D. (McMaster)

Joel P. Hundert/(Psychiatry and Behavioural Neurosciences) B.A., M.A. (McMaster), Ph.D. (Western Ontario)

Magdalena Janus/(Psychiatry and Behavioural Neurosciences) M.Sc. (Jagiellonian, Poland), Ph.D. (Cambridge)

Karen Kidd/(Biology) B.Sc. (Guelph), Ph.D. (Alberta)

Jelena King/(Psychiatry and Behavioural Neurosciences) B.Sc. (Queen's), M.A., Ph.D. (Waterloo)

Victor Kuperman/(Linguistics and Languages) B.A., M.A. (Hebrew University, Jerusalem), Ph.D. (Radboud)

Ellen Lipman/(Psychiatry and Behavioural Neurosciences) B.Sc. (Western Ontario), M.D., M.Sc. (McMaster)

Catherine L. Mancini/(Psychiatry and Behavioural Neurosciences) B.Sc., M.Sc., M.D. (Western Ontario), F.R.C.P.C.

Randi McCabe/(Psychiatry and Behavioural Neurosciences) B.Sc., M.A., Ph.D. (Toronto)

James McKillop/(Psychiatry and Behavioural Neurosciences) B.A., M.A., Ph.D. (SUNY Binghamton)

Margaret McKinnon/(Psychiatry and Behavioural Neurosciences) B.A. (Windsor), M.A., Ph.D. (Toronto)

Heather McNeely/(Psychiatry and Behavioural Neurosciences) B.A. (Lakehead), M.A. (Carleton), Ph.D. (Waterloo)

Sandra Monteiro/(MERIT, Health Sciences) B.Sc., M.Sc., Ph.D. (McMaster)

Alison G. Niccols/(Psychiatry and Behavioural Neurosciences) B.A., M.A., Ph.D. (York)

Geoff R. Norman/(Clinical Epidemiology and Biostatistics) B.Sc. (Manitoba), M.A. (Michigan State), Ph.D. (McMaster)

James Quinn/(Biology) B.Sc. (Queen's), M.Sc. (Brock), Ph.D. (Oklahoma)

Karen Rowa/(Psychiatry and Behavioural Neurosciences) B.A. (British Columbia), M.A. (Simon Fraser), Ph.D. (Waterloo)

Michael Schutz/(School of the Arts, Music) B.M., B.Sc. (Penn State), M.M. (Northwestern), M.A., Ph.D. (Virginia)

Graham Scott/(Biology) B.Sc. (McMaster), M.Sc., Ph.D. (British Columbia)

Elisabet Service/(Linguistics and Languages) B.A., M.A., Ph.D. (Helsinki)

Alexandre Sévigny/(Communication Studies and Multimedia; French)B.A. (York), M.A., Ph.D. (Toronto)

Ranil Sonnadara/(Surgery)M.Sc. (Leeds), Ph.D. (McMaster)

William Sulis/(Psychiatry and Behavioural Neurosciences)B.Sc. (Carleton), M.D., M.A., Ph.D. (Western Ontario), F.R.C.P.C.

Henry Szechtman/(Biomedical Sciences)B.Sc., Ph.D. (Pittsburgh)

Sherry Van Blyderveen/(Pediatrics)B.A. (Waterloo), Ph.D. (Simon Fraser)

Matthew Woolhouse/(School of the Arts, Music)M.Phil., Ph.D. (Cambridge)

MOHAWK COLLEGE OF APPLIED ARTS AND TECHNOLOGY

DEAN, SCHOOL OF COMMUNITY, JUSTICE AND LIBERAL STUDIES

Neil McMahan/B.S.W. (Ryerson), M.S.W. (Carleton)

DEAN OF HEALTH

Lori Koziol/B.App.Sci.(MI) (Charles Sturt)

ASSOCIATE DEAN, DEPARTMENT OF COMMUNITY STUDIES

Kim Ann Laush/Dipl CYW (Mohawk), B.A. (Waterloo), B.Ed. (York), M.Ed. (Nipissing)

ASSOCIATE DEAN, DEPARTMENT OF HEALTH STUDIES

Nair Lacruz/B.A. (York)

COORDINATOR, AUTISM & BEHAVIOURAL SCIENCES GRADUATE CERTIFICATE PROGRAM

Melissa Groves/BCBA, M.ADS (Brock), B.A. (Laurier)

COORDINATOR, EARLY CHILDHOOD EDUCATION ACADEMIC PROGRAM

Karen Davis/B.A. (Waterloo), Dipl. R ECE (Mohawk)

B.SC. DEGREE

A three-level program with a general Life Sciences orientation is available through the B.Sc. in Life Sciences.

B.A. DEGREES IN PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR

For B.A. Degrees in Psychology, Neuroscience & Behaviour, see the Department of Psychology, Neuroscience & Behaviour (Faculty of Social Sciences).

BIOLOGY AND PSYCHOLOGY

For the Honours Biology and Psychology program (B.Sc.), see Honours Biology and Psychology, Neuroscience & Behaviour (B.Sc.).

HONOURS HUMAN BEHAVIOUR (B.A.SC.)

Program offered by the Department of Psychology, Neuroscience & Behaviour.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 5.0 (between the courses) is required:

- PSYCH 1F03 - Survey of Psychology

or

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

AND

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

or

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

0-3 units

- BIOLOGY 1P03 - Introductory Biology

(or SBI4U - Biology)

0-3 units

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions & Introductory Calculus for Humanities and the Social Sciences
- STATS 1L03 - Probability and Linear Algebra

(or one of MHF4U - Advanced Functions, MCV4U - Calculus and Vectors, MDM4U - Data Management)

PROGRAM NOTES

1. Students who entered prior to September 2019, may use PNB 3Q03 A/B S towards the units required from the *Human Behaviour Course List* and PNB 4Q03 A/B S towards the Level IV requirements.
2. Students interested in pursuing post-graduate studies are encouraged to take HUMBEHV 3MD3 in Level III or IV.

HUMAN BEHAVIOUR COURSE LIST

- HUMBEHV 3IP3 A/B S - Inquiry Project
- HUMBEHV 4HB3 - Seminar I for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- LINGUIST 3C03 - Child Language Acquisition
- MUSICCOG 2MP3 - Introduction to Music Cognition
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2E03 - Sensory Processes
- PSYCH 2MP3 - Introduction to Music Cognition
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3B03 - Special Populations
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3BN3 - Cognitive Neuroscience I
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3D03 - The Multisensory Mind
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3H03 - The Arts and The Brain
- PSYCH 3HH3
- PSYCH 3II3
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SP3 - The Science of Performance
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3WA3 - The Mind as a Work of Art
- PSYCH 3YY3
- PSYCH 4MP3 - Neuroscience of Music

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

18 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour

- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Basic & Clinical Neuroscience

12 units

- Electives

1 course

- HUMBEHV 2HB0 - Human Behaviour Professional Development

Level III: 30 Units

3 units

- HUMBEHV 3MD3 - Research Methods for Human Behaviour

3 units

from

- HUMBEHV 3HB3
- HUMBEHV 3ST3 - Statistics for Human Behaviour
- STATS 2B03 - Statistical Methods for Science

9 units

from

- the *Human Behaviour Course List*

15 units

- Electives

Level IV: 30 Units

9 units

from

- the *Human Behaviour Course List*, which must be Level III, IV

6 units

from

- HUMBEHV 4HB3 - Seminar I for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- HUMBEHV 4RP6 A/B - Independent Research Project
- HUMBEHV 4SC6 A/B - Science Communication in the Behavioural Sciences

15 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Level II: 30 Units

18 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Basic & Clinical Neuroscience

12 units

- Electives

1 course

- HUMBEHV 2HB0 - Human Behaviour Professional Development

Level III: 30 Units

6 units

- PSYCH 3B03 - Special Populations
- PSYCH 3JJ3 - Socio-Emotional Development

3 units

from

- HUMBEHV 3ST3 - Statistics for Human Behaviour
- STATS 2B03 - Statistical Methods for Science

9 units

from

- the *Human Behaviour Course List* (See *Program Notes 1 and 2* above.)

12 units

- Electives

Level IV: 30 Units

9 units

from

- the *Human Behaviour Course List*, which must be Level III, IV (See *Program Notes 1 and 2* above.)

6 units

from

- HUMBEHV 4HB3 - Seminar I for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- HUMBEHV 4RP6 A/B - Independent Research Project
- HUMBEHV 4SC6 A/B - Science Communication in the Behavioural Sciences

(See *Program Note 1* above.)

15 units

- Electives

HONOURS HUMAN BEHAVIOUR - AUTISM AND BEHAVIOURAL SCIENCE SPECIALIZATION (B.A.SC.)

The program is offered jointly in partnership by Mohawk College of Applied Arts and Technology and the Department of Psychology, Neuroscience & Behaviour, McMaster University. Students pursue two qualifications simultaneously, and graduates receive the Ontario College Graduate Certificate from Mohawk and the McMaster Honours Bachelor of Applied Science degree.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

from the following courses, where an average of at least 5.0 (between the courses) is required:

- PSYCH 1F03 - Survey of Psychology
- or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

AND

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- or
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

0-3 units

- BIOLOGY 1P03 - Introductory Biology

(or *SBI4U - Biology*)

0-3 units

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions & Introductory Calculus for Humanities and the Social Sciences
- STATS 1L03 - Probability and Linear Algebra

(or one of *MHF4U - Advanced Functions*, *MCV4U - Calculus and Vectors*, *MDM4U - Data Management*)**PROGRAM NOTES**

1. The timing of the Spring/Summer sessions may not adhere to the Sessional Dates as published in this Calendar.
2. Students who enrolled in this program prior to September 2019, may use PNB 3Q03 A/B S towards the units required from the Human Behaviour (Autism and Behavioural Science) Course List.

3. Students interested in pursuing post-graduate studies are encouraged to take HUMBEHV 3MD3 in Level III or IV.

FIELD PLACEMENT NOTES

- Applying for Placements - Prior to the start date of a placement, students are required to submit a completed Field Placement Request Form to the Program Coordinator.
- Placements will be with agencies that have contracted in advance with Mohawk College. The College cannot accommodate any student requests for special consideration.
- Students are responsible for arranging their own travel to and from assigned placements.
- Eligibility for Placements - All students must meet academic, social, and health requirements before they can attend a site for field placement.
 - Non-Violent Crisis Intervention - All Level II students are required to have obtained a current certificate in Non-Violent Crisis Intervention in order to attend their placements. Failure to meet this requirement will result in loss of placement. Additionally, students will be required to complete a refresher half-day workshop in Non-Violent Crisis Intervention prior to their Spring/Summer placement between Levels III and IV.
 - Social/Professional Requirements - All students within the program are expected to consistently demonstrate Social/Professional behaviours that are typical of those expected by employers. If, in the opinion of program faculty, a student has failed to demonstrate appropriate behaviours, the university may refuse to offer a placement.
 - Health Requirements - In the interest of the student and the placement, students are required to submit documentation (e.g., Health Record Form) that they have had a satisfactory physical examination including many routine vaccinations. All students must submit this documentation prior to placement or the student will not start the placement. Students should refer to their field placement coordinator to determine health requirements specific to their college and placement agency.
 - Police Reference Check - All students are required to have a Police Reference Check prior to the commencement of their field placement.
- All costs associated with pre-placement requirements are the responsibility of the student.

HUMAN BEHAVIOUR (AUTISM AND BEHAVIOURAL SCIENCE) COURSE LIST

- HUMBEHV 3IP3 A/B S - Inquiry Project
- HUMBEHV 3MD3 - Research Methods for Human Behaviour
- HUMBEHV 4HB3 - Seminar I for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Human Behaviour (B.A.Sc.)
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- HUMBEHV 4RP6 A/B - Independent Research Project
- HUMBEHV 4SC6 A/B - Science Communication in the Behavioural Sciences
- LINGUIST 3C03 - Child Language Acquisition
- MUSICCOG 2MP3 - Introduction to Music Cognition
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2E03 - Sensory Processes
- PSYCH 2MP3 - Introduction to Music Cognition
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion

- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3D03 - The Multisensory Mind
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3H03 - The Arts and The Brain
- PSYCH 3HH3
- PSYCH 3I13
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SP3 - The Science of Performance
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3WA3 - The Mind as a Work of Art
- PSYCH 3YY3
- PSYCH 4MP3 - Neuroscience of Music

REQUIREMENTS

150 units total (Levels I to IV), of which no more than 48 units may be Level I, plus two Field Placements in Spring/Summer Term between Level II and III and Level III and IV

Level I: 30 Units

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

12 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition

15 units

- HUMBEHV 2A06 A/B - Introduction to Autism Spectrum Disorder (ASD)
- HUMBEHV 2B06 A/B - Introduction to Applied Behaviour Analysis (ABA) I
- HUMBEHV 2C03 - Specialized Instructional Strategies (SIS) I

3 units

- Electives

1 course

- HUMBEHV 2HB0 - Human Behaviour Professional Development

Spring/Summer Term: 15 units:

(See *Field Placement Note 4* above.)

12 units

- HUMBEHV 2FP6 - Field Placement I
- HUMBEHV 2FS3 - Field Placement I Seminar
- HUMBEHV 3F03 - Ethics and Professionalism

3 units

- Electives

LEVEL III

Fall and Winter Terms: 30 units:

3 units

- PSYCH 3B03 - Special Populations

6 units

from

- the *Human Behaviour (Autism and Behavioural Science) Course List*

(See *Program Note 2* above.)

3 units

from

- HUMBEHV 3ST3 - Statistics for Human Behaviour
- STATS 2B03 - Statistical Methods for Science

15 units

- HUMBEHV 3CB3 - Treating Challenging Behaviour I
- HUMBEHV 3E06 A/B - Behavioural Skill Building
- HUMBEHV 3G03 - Specialized Instructional Strategies (SIS) II
- HUMBEHV 3RS3 - ABA Research Designs

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Field Placement Note 4* above.)

12 units

- HUMBEHV 3FP9 - Field Placement II
- HUMBEHV 3FS3 - Field Placement II Seminar

3 units

- Electives

Level IV: 30 Units

15 units

- HUMBEHV 3D03 - Applied Behavioural Analysis (ABA) II
- HUMBEHV 3H03 - Working with Families and Teams
- HUMBEHV 4CB3 - Treating Challenging Behaviour II
- HUMBEHV 4I03 - Parent and Staff Training
- HUMBEHV 4J03 - Transition Planning and Implementation

9 units

from

- the *Human Behaviour (Autism and Behavioural Science) Course List*

(See *Program Note 2* above.)

6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2018

150 units total (Levels I to IV), of which no more than 48 units may be Level I, plus two Field Placements in Spring/Summer Term between Level II and III and Level III and IV

Level I: 30 Units

30 units

(See *Admission* above.)**LEVEL II**

Fall and Winter Terms: 30 units:

12 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition

18 units

- HUMBEHV 2A06 A/B - Introduction to Autism Spectrum Disorder (ASD)
- HUMBEHV 2B06 A/B - Introduction to Applied Behaviour Analysis (ABA) I
- HUMBEHV 2C03 - Specialized Instructional Strategies (SIS) I
- HUMBEHV 2NV3

1 course

- HUMBEHV 2HB0 - Human Behaviour Professional Development

Spring/Summer Term: 15 units:

12 units

- HUMBEHV 2FP6 - Field Placement I
- HUMBEHV 2FS3 - Field Placement I Seminar
- HUMBEHV 3F03 - Ethics and Professionalism

3 units

- Electives

LEVEL III

Fall and Winter Terms: 30 units:

3 units

- PSYCH 3B03 - Special Populations

6 units

from

- the *Human Behaviour (Autism and Behavioural Science) Course List*

(See *Program Notes 2* and *3* above.)

3 units

from

- HUMBEHV 3HB3
- HUMBEHV 3ST3 - Statistics for Human Behaviour
- STATS 2B03 - Statistical Methods for Science

12 units

- HUMBEHV 3CB3 - Treating Challenging Behaviour I
- HUMBEHV 3E06 A/B - Behavioural Skill Building
- HUMBEHV 3G03 - Specialized Instructional Strategies (SIS) II

6 units

- Electives

Spring/Summer Term: 15 units:

(See *Field Placement Note 4* above.)

12 units

- HUMBEHV 3FP9 - Field Placement II
- HUMBEHV 3FS3 - Field Placement II Seminar

3 units

- Electives

Level IV: 30 Units

15 units

- HUMBEHV 3D03 - Applied Behavioural Analysis (ABA) II
- HUMBEHV 3H03 - Working with Families and Teams
- HUMBEHV 4CB3 - Treating Challenging Behaviour II
- HUMBEHV 4I03 - Parent and Staff Training
- HUMBEHV 4J03 - Transition Planning and Implementation

9 units

from

- the *Human Behaviour (Autism and Behavioural Science) Course List*

(See *Program Notes 2* and *3* above.)

- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3D03 - The Multisensory Mind
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3H03 - The Arts and The Brain
- PSYCH 3HH3
- PSYCH 3II3
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SP3 - The Science of Performance
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3WA3 - The Mind as a Work of Art

- PSYCH 3YY3
- PSYCH 4MP3 - Neuroscience of Music

REQUIREMENTS

150 units total (Levels I to IV), of which no more than 48 units may be Level I, plus three Professional Practices in Spring/Summer Term between Level II and III and Level III and IV

Level I: 30 Units

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

15 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition

9 units

- HUMBEHV 2L03 - ECE Curriculum I
- HUMBEHV 2M03 - Learning Environment I
- HUMBEHV 2TL3 - Responsive Care for Infants and Toddlers

6 units

- Electives

1 course

- HUMBEHV 2HB0 - Human Behaviour Professional Development

Spring/Summer Term: 15 units:

15 units

- HUMBEHV 2XP6 - Professional Practice I
- HUMBEHV 3XP6 - ECE Field Placement II
- HUMBEHV 3XS3 - Theory to Practice I and II

LEVEL III

Fall and Winter Terms: 30 units:

6 units

from

- PSYCH 3B03 - Special Populations
- PSYCH 3JJ3 - Socio-Emotional Development

3 units

from

- HUMBEHV 3HB3
- HUMBEHV 3ST3 - Statistics for Human Behaviour
- STATS 2B03 - Statistical Methods for Science

3 units

from

- the *Human Behaviour (Early Childhood Education) Course List*

(See *Program Notes 2 and 3* above.)

9 units

- HUMBEHV 3O03 - ECE Curriculum II
- HUMBEHV 3P03 - Learning Environment II
- HUMBEHV 3Q03 - Health, Safety & Nutrition

9 units

- Electives

Spring/Summer Term: 15 units:

15 units

- HUMBEHV 4V12 - ECE Field Placement III
- HUMBEHV 4VS3 - Theory to Practice III

Level IV: 30 Units

9 units

- HUMBEHV 4N03 - Principles of Ethical Practice
- HUMBEHV 4U03 - Inclusion in the ECE Classroom

- HUMBEHV 4W03 - Supervising for Leadership and Quality

9 units

from

- the *Human Behaviour (Early Childhood Education) Course List* (See *Program Notes 2 and 3* above.)

12 units

- Electives

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level II	30 units from Academic Level II		15 units ECE Field Placement I & II
Level III	30 units from Academic Level III		15 units ECE Field Placement III
Level IV	30 units from Academic Level IV		

HONOURS NEUROSCIENCE (B.SC.)

Program offered jointly by the Departments of Biology and Psychology, Neuroscience & Behaviour.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 units

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 units

from

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

3 units

from

- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- COMPSCI 1MD3 - Introduction to Programming

6 units

- Electives (See *Program Note 2* below.)

PROGRAM NOTES

1. This program is jointly administered by Biology and Psychology, Neuroscience & Behaviour; students may seek academic advising from either Department.
2. While completion in Level I is recommended, the following courses must be complete by the end of Level II:
 - MATH 1AA3 or 1LT3
 - MATH 1B03
 - COMPSCI 1MD3 or MATH 1MP3 (Note: PHYSICS 2G03 serves as an appropriate substitute.)
3. Advanced courses in Biochemistry, Biology, Biophysics, Chemical Biology, Chemistry, Computer Science, Mathematics, Medical Physics, Molecular Biology and Physics may be considered as units towards *Course Lists 2, 3* or *4* by petition to the Psychology, Neuroscience & Behaviour or Biology Undergraduate Chair.
4. PNB 2XB3 and NEUROSCI 2XN0 A/B must be completed in Level II.

COURSE LIST 1 - OTHER FOUNDATIONAL COURSES

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- KINESIOL 2Y03 - Human Anatomy and Physiology I
- KINESIOL 2YY3 - Human Anatomy and Physiology II
- LIFESCI 2D03 - Behavioural Processes
- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- MEDPHYS 2B03
- MEDPHYS 2D03
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1BA3
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PNB 2XA3 - Human Perception & Cognition
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PSYCH 2H03 - Human Learning and Cognition
- STATS 2D03 - Introduction to Probability

COURSE LIST 2 - CELLULAR/MOLECULAR COURSES

- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- BIOLOGY 3VV3 - Laboratory Methods in Molecular Biology
- BIOLOGY 4T03 - Neurobiology
- BIOPHYS 4S03 - Introduction to Molecular Biophysics
- HTHSCI 4BB3 - Neuroimmunology
- LIFESCI 4XX3 - The Synapse
- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- NEUROSCI 2BB3 A/B S - Research Practicum in Cellular/Molecular Neuroscience
- NEUROSCI 3BB3 A/B S - Individual Lab Study in Cellular/Molecular Neuroscience

COURSE LIST 3 - SYSTEMS/CIRCUITS COURSES

- BIOLOGY 3UU3 - Animal Physiology - Regulatory Systems
- KINESIOL 3E03 - Neural Control of Human Movement

- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3K03 - Neural Control of Human Movement
- NEUROSCI 2CC3 A/B S - Research Practicum in Systems/Circuits Neuroscience
- NEUROSCI 3CC3 A/B S - Individual Lab Study in Systems/Circuits Neuroscience
- NEUROSCI 3J03 - Visual Neuroscience
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PSYCH 3A03 - Audition
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3J03

COURSE LIST 4 - BEHAVIOURAL/COGNITIVE COURSES

- NEUROSCI 2DD3 A/B S - Research Practicum in Behavioural/Cognitive Neuroscience
- NEUROSCI 3DD3 A/B S - Individual Lab Study in Behavioural/Cognitive Neuroscience
- PNB 3MM3 - Cognitive Neuroscience Lab
- PSYCH 3BN3 - Cognitive Neuroscience I
- PSYCH 3D03 - The Multisensory Mind
- PSYCH 3H03 - The Arts and The Brain
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3NL3 - Cognitive Neuroscience of Language
- PSYCH 4BN3 - Cognitive Neuroscience II
- PSYCH 4KK3 - Bayesian Inference
- PSYCH 4MP3 - Neuroscience of Music
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See *Admission* above.)

Levels II-IV: 90 Units

3 units

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry

12 units

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 3P03 - Cell Physiology

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

from

- MEDPHYS 2C03
- PHYSICS 2B03 - Electricity and Magnetism I

1 course

- NEUROSCI 2XN0 A/B - Neuroscience Tutorial

(See *Program Note 4* above.)

6 units

- NEUROSCI 3E03 - Neuroscience Lab
- NEUROSCI 4S03 A/B - Neuroscience Seminar

3 units

- PNB 2XB3 - Neuroanatomy & Neurophysiology

(See *Program Note 4* above.)

3 units

from

- PNB 3XE3 - Inferential Statistics
- STATS 2B03 - Statistical Methods for Science

3 units

from

- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 3SN3

6 units

from

- *Course Lists 1, 2, 3, 4* (See *Program Note 3* above.)

3 units

from

- *Course List 2* (See *Program Note 3* above.)

3 units

from

- *Course List 3* (See *Program Note 3* above.)

3 units

from

- *Course List 4* (See *Program Note 3* above.)

12 units

- NEUROSCI 4L12 A/B - Neuroscience Senior Thesis

OR

- NEUROSCI 4L09 A/B - Neuroscience Thesis and 3 units from *Course Lists 2, 3, 4*

OR

6 units from *Course Lists 2, 3, 4* and one of

- BIOLOGY 4F06 A/B S - Senior Project
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences
(See *Program Note 3* above.)

0-3 units

from the following courses, if not completed in Level I

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II

0-3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

0-3 units

from the following courses, if not completed in Level I

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03 - Scientific Computing

15-24 units

Electives

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.SC.)

ADMISSION NOTES

- Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level II, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.
- MATH 1B03 and STATS 2D03 are recommended for students intending to pursue graduate work in psychology or neuroscience. MATH 1MP3 or PHYSICS 2G03 is recommended for students interested in neuroscience, cognition and perception, and for students intending to pursue graduate work in psychology.
- Either PSYCH 1FF3 or 1XX3 is required for admission, however, PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See Admission Note 3 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See Admission Note 1 above.)

9 units

from

- the Science I Course List (See Admission Notes above.)

PROGRAM NOTES

- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, PNB 4D09 A/B), and the individual study courses (PNB 3Q03 A/B S, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://www.science.mcmaster.ca/pnb/>.
- PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.

Capstone Course List

- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Advanced Individual Library Study
- PNB 4QQ3 A/B S - Advanced Individual Lab Study
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

Psychology Course List

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Neurobiology
- HTHSCI 4BB3 - Neuroimmunology
- KINESIOL 3E03 - Neural Control of Human Movement
- KINESIOL 4P03
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MA3
- MUSICCOG 2MP3 - Introduction to Music Cognition

- all Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- all Level III and IV PNB courses, and,

all Level III and IV PSYCH courses except:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1L03

(See Admission Note 1 above.)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See Admission Note 3 above.)

6-12 units

- Electives (See Admission Note 2 above.)

Level III: 30 Units

6 units

- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

9 units

from

- the *Psychology Course List*

15 units

- Electives (See Program Note 2 above.)

Level IV: 30 Units

6 units

from

- the *Psychology Course List*

9 units

- 6 units from the *Capstone Course List* and 3 units from the *Psychology Course List*

or

- PNB 4D09 A/B - Senior Honours Thesis

(See Program Note 1 above.)

15 units

- Electives (See Program Note 2 above.)

Honours Psychology, Neuroscience & Behaviour - Mental Health Specialization (B.Sc.)

ADMISSION NOTES

- Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level II, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.
- Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See Admission Note 2 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See Admission Note 1 above.)

9 units

from

- the Science I Course List (See Admission Notes above.)

PROGRAM NOTE

The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis course (PNB 4D09 A/B), and the individual study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://pnb.mcmaster.ca/>.

MENTAL HEALTH COURSE LIST

- PNB 3DV3
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3I06 A/B - Practica in Psychology
- PNB 3L03 - Neurodevelopment & Plasticity Lab

- PNB 3LA3
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3Q03 A/B S - Individual Lab Study
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03 - Laboratory in Human Memory and Cognition
- PNB 4G03
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3HH3
- PSYCH 3II3
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3VV3 - Human Memory
- PSYCH 4S03 - Genetics, Behaviour and Evolution
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1L03

(See Admission Note 1 above.)

0-3 units

from the following courses, if not completed in Level 1

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See Admission Note 2 above.)

0-6 units

- Electives

Level III: 30 Units

12 units

- PNB 3HP3 - History of Psychology
- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics
- PSYCH 3GG3 - Essentials of Developmental Psychology

9 units

from

- the *Mental Health Course List*

9 units

- Electives

Level IV: 30 Units

9 units

- PNB 4A03 - Assessment in Children
- PSYCH 3B03 - Special Populations
- PSYCH 3MT3 - Psychometrics

3 units

from

- the *Mental Health Course List*

9 units

- PNB 4D09 A/B - Senior Honours Thesis

(See *Program Note above.*)

9 units

- Electives

Honours Psychology, Neuroscience & Behaviour - Music Cognition Specialization (B.Sc.)

ADMISSION NOTES

- Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level III, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.
- MATH 1B03 and STATS 2D03 are recommended for students intending to pursue graduate work in psychology or neuroscience. MATH 1MP3 or PHYSICS 2G03 is recommended for students interested in neuroscience, cognition and perception, and for students intending to pursue graduate work in psychology.
- MUSIC 1A03 or 1AA3 is required for admission, however, both are required for degree completion.
- Students who have completed Grade 3 History (History 1) or Grade 5 History (History 3) from the Royal Conservatory of Music, with a grade of at least 70%, are not required to complete MUSIC 1AA3, and those students who have similarly obtained at least 70% on RCM Grade 4 History (History 2) are not required to complete MUSIC 1A03 either for admission to the Music Cognition Specialization or to fulfill their degree requirements.
- Students having completed Grade 4 Theory (Harmony 4) from the Royal Conservatory of Music with a grade of 70% or better can receive advanced credit for MUSIC 1CA3 (Theory & Analysis I).
- Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Admission to the program requires Advanced Rudiments (or Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years), or a grade of 65% or above on a qualifying music theory exam administered by the School of the Arts (SOTA).

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 units

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See *Admission Note 6 above.*)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 units

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 units

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1 above.*)

9 units

from

- the Science I Course List (See *Admission Notes 1, 2 and 6 above.*)

3 units

from

- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II

(See *Admission Notes 3 and 4 above.*)

PROGRAM NOTES

- Entrance into MUSIC 1CA3 requires Advanced Rudiments (or Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years) or a grade of 65% or above on a qualifying music theory exam administered by the School of the Arts (SOTA). Appointments can be made with SOTA to write the exam on specific dates between February and May. The content of the exam is summarized at: <https://sota.humanities.mcmaster.ca/>.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B), and the individual study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://www.science.mcmaster.ca/pnb/>.
- PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
- Both MUSIC 1A03 and 1AA3 must be completed for degree completion.
- Students are encouraged to complete both PSYCH 3A03 and 3H03 as part of the *Psychology Course List* requirement.

Capstone Course List

- MUSICCOG 4D06 A/B - Thesis in Music Cognition
- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II
- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Advanced Individual Library Study
- PNB 4QQ3 A/B S - Advanced Individual Lab Study
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

Psychology Course List

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Neurobiology

- HTHSCI 4BB3 - Neuroimmunology
- KINESIOL 3E03 - Neural Control of Human Movement
- KINESIOL 4P03
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSIC 2CB3 - Theory and Analysis IV
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 3MT3
- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- all Level III and IV PNB courses, and,

all Level III and IV PSYCH courses except:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

30 units

(See Admission above.)

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- MUSIC 1CA3 - Theory and Analysis I
- MUSIC 1CB3 - Theory and Analysis II

(See Admission Note 5 and Program Note 1 above.)

3 units

from

- MUSICCOG 2MP3 - Introduction to Music Cognition

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See Admission Note 6 above.)

0-3 units

- Electives (See Program Note 4 above.)

Level III: 30 Units

6 units

- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

3 units

from

- the *Psychology Course List* (See Program Note 5 above.)

3 units

- MUSIC 2CA3 - Theory and Analysis III

3-6 units

from

- MUSICCOG 3MB3
- MUSICCOG 3MP3
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4LA3
- MUSICCOG 4MP3 - Neuroscience of Music

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1B03
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1L03

(See Admission Note 1 above.)

9-15 units

- Electives (See Program Notes 3 and 4 above.)

Level IV: 30 Units

6 units

from

- the *Psychology Course List* (See Program Note 5 above.)

0-3 units

from

- MUSICCOG 3MB3
- MUSICCOG 3MP3
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4LA3
- MUSICCOG 4MP3 - Neuroscience of Music

9 units

- 6 units from the *Capstone Course List* and 3 units from the *Psychology Course List*

OR

- PNB 4D09 A/B - Senior Honours Thesis

12-15 units

- Electives (See Program Notes 3 and 4 above.)

Minor(s):

MINOR IN PSYCHOLOGY

NOTES

- As all courses have enrolment capacities, the Faculty cannot guarantee registration in courses, even when prerequisites have been met. Completion of the Minor in Psychology may not be possible.
- When choosing Level II courses students should consider the prerequisites for Level III courses.
- ISCI 1A24 A/B is a substitution for three units of Level I PSYCH toward the Minor in Psychology.
- ISCI 2A18 A/B is a substitution for 3 units of Level II PSYCH toward the Minor in Psychology.
- In order to declare a Minor in Psychology, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

21 units

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour or (HTHSCI 1G03)
- Levels II, III Psychology courses including at least six units from Level III Psychology courses

FACULTY OF SOCIAL SCIENCES

Kenneth Taylor Hall, Room 129, ext. 23772

<http://socialsciences.mcmaster.ca/contact-us>

socscfac@mcmaster.ca

DEAN OF SOCIAL SCIENCES

J. Hurley/B.A., M.A., Ph.D.

ASSOCIATE DEAN (ACADEMIC)

T. Prowse/B.Sc., M.A., Ph.D.

ASSOCIATE DEAN, (GRADUATE STUDIES AND RESEARCH)

J. Gillett/B.A., M.A., Ph.D.

ASSISTANT DEAN (ACADEMIC)

L. Giordano/B.A.

ACADEMIC ADVISORS

K. Cale/B.A.

T. Horton

T. Marrin/B.A.

W. Spencer/B.A.

PROGRAM COORDINATOR

M. Bregar/BA

PROGRAMMING AND OUTREACH MANAGERS

C. Foley/B.A.

K. Long/B.A.

R. Talbot/B.A.

The Faculty offers a range of degree programs through the following Departments/Programs/Schools:

- Aging and Society
- Anthropology
- Economics
- Geography
- Health and Society
- Indigenous Studies
- Labour Studies
- Political Science
- Psychology, Neuroscience and Behaviour
- Religious Studies
- Social Psychology
- Social Work
- Sociology

The social sciences are concerned with the study of human activities and relationships and their social, political, economic, cultural and spatial contexts. Through the pre-industrial to the post-industrial eras, social scientists examine social, economic, cultural and political issues experienced by individuals, groups, and societies as well as the interactions between people and their environments, both natural and built.

There are various opportunities for students to link their academic goals with their career interests. These experiential education initiatives include, but are not limited to, inquiry, internships, academic placements, a career planning course, student project grants, and undergraduate summer research awards.

Students are strongly advised to take advantage of the extensive advisory services provided by the Faculty. New students in particular should plan a program of study that will allow them a number of options for Level II.

The Faculty of Social Sciences encourages students to become engaged in a wide variety of learning opportunities. These experiences can enrich learning, open new fields of study, and build transferable skills that prepare you for further academic work and for a range of careers.

Degree Programs

HONOURS PROGRAMS (HONOURS BACHELOR OF ARTS)

Honours Bachelor of Arts programs consist of a total of 120 units of work normally completed over four years. Honours programs provide a concentration in the particular field, as well as an extended time of study, and are normally a requirement for those who contemplate proceeding to graduate studies.

COMBINED HONOURS BACHELOR OF ARTS PROGRAMS

Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programs, a student may combine work in any two departments and be graduated with a Combined Honours degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program. All Combined Honours programs must be approved by both Departments concerned as well as by the Office of the Associate Dean(s) Studies. Students will normally complete approximately 36 units of work beyond Level I in each component of the program (normally 12 units per level in each subject). The Honours B.A. Social Psychology and Honours Bachelor of Social Work programs are not available in combination with another subject.

HONOURS BACHELOR OF SOCIAL WORK (B.S.W.)

The Honours Bachelor of Social Work (Honours B.S.W.) program is a professional Honours program consisting of 120 units of work, typically completed over four years. Students who have already received one or more undergraduate degrees may apply to the Bachelor of Social Work (B.S.W.) program consisting of 60 units of work, typically completed over two years.

BACHELOR OF ARTS PROGRAMS:

B.A. programs consist of a total of 90 units of work, normally completed over three years. Three-level Combined Bachelor's degree programs are available only in Indigenous Studies and Another Subject. The other subject may be from the Faculty of Social Sciences or the Faculty of Humanities.

Options to Combine with a Degree

MINOR

A Minor is an option available to students enrolled in a four- or five-level program. Normally students must complete a minimum of 24 units in the Minor subject. Students are responsible for ensuring that the courses taken meet the requirements for a Minor. Students who have the necessary requirements may apply for recognition of that Minor when they graduate. If granted, this recognition will be recorded on the student's transcript.

Within the Faculty of Social Sciences, Minors are available to students registered in an Honours program provided that the subject area of the Minor is not integral to the requirements of their degree program. At least 12 units (above Level 1) toward the Minor must be considered elective to the degree.

Please see Minors in the General Academic Regulations section of this Calendar for further information. All courses have an enrolment capacity and the Faculty cannot guarantee registration in courses, even when all requisites have been met. Therefore, the completion of a Minor is not guaranteed.

Minors offered by the Faculty of Social Sciences include:

- Anthropology
- Economics
- Health, Aging and Society
- Health, Well-Being and Religion
- Indigenous Studies
- Japanese Studies
- Justice, Law and Order
- Labour Studies
- Mental Health, Addiction and Society
- Political Science
- Public Leadership
- Religion and Diversity
- Society, Culture, Religion

- Sociology

Interdisciplinary Studies Minors administered by Departments in the Faculty of Social Sciences include:

- Archaeology
- Globalization Studies
- Jewish Studies
- Muslim Studies
- Social Justice and Inclusive Communities

Students may complete Minors offered by other Faculties as well and are encouraged to consider Minors that will complement their degree studies.

AFFILIATED CERTIFICATES

Students enrolled in a three- or four-year undergraduate degree program in the Faculty of Social Sciences have the opportunity to take Social Sciences courses in the complementary fields of Business Studies, Leadership and Management in the Not-for-Profit Sector or Applied Behaviour Analysis (ABA). Students enrolled in a three-year degree program may take a maximum of six of these courses and students enrolled in a four-year degree program may take a maximum of eight of these courses. Students who have the necessary requirements (completed a prescribed set of 18 units) may apply to have their courses recognized by Mohawk College for the awarding of the applicable certificate when they graduate with their McMaster degree. If granted, this Certificate will be issued by Mohawk College. In the final year of your program, when you complete your profile in the online Graduation Information Centre, you must indicate your desire to receive the affiliated certificate. The Faculty Reviewing Committee will verify that the requirements have been met. If you are successful, your transcript will confirm completion. In order to facilitate preparation of the Certificate by Mohawk College in time for Convocation, limited personal information and relevant course completions will be provided to Mohawk College for all eligible students prior to completion of the Graduation Profile. Students who do not want this information shared with Mohawk College should inform the University Registrar by email at convctn@mcmaster.ca. See *Sessional Dates* section for deadlines.

CONCURRENT CERTIFICATES

Concurrent Certificates are open to undergraduate students at McMaster. These certificates are designed to fill a critical need for undergraduate students to learn about and develop professional skills that are highly desirable for the pursuit of graduate programs, professional programs, and employment opportunities following undergraduate studies. Normally students must complete a minimum of 15 to 18 units of course requirements. Concurrent certificates may include co-curricular activities to complement the academic requirements. Please see Concurrent Certificates in the Certificates and Diploma Programs section of this Calendar for further information

INTERNSHIP OPTIONS

The Faculty of Social Sciences offers paid internship opportunities during the academic year and summer. Internship placements provide students with intense work experiences and allow students to explore careers, develop employability skills and make important contacts for both now and after graduation.

Internships are recognized as non-credit course codes on the student transcript. Full-time internships are noted as SOCSCI 3IF0 A/B S and part-time internships are noted as SOCSCI 3IP0 A/B S. Students do not receive academic credit for completing an internship placement. However, upon successful completion, a notation describing the placement is also recorded on the student's official transcript. Further details of internship options may be obtained from:

Programming and Outreach Manager

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a program in the Faculty of Social Sciences, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations of the Faculty of Social Sciences.

APPLYING FOR ADMISSION TO LEVEL II PROGRAMS

Any student seeking admission to a Level II program in the Faculty of Social Sciences for the following Fall/Winter session must submit an Application for Admission to Level II through the *Mosaic* Student Centre ("My Academics"; Program/Plan Selection application) no later than **April 30**. The application allows students to rank four program choices, in order of preference. Students are advised to rank program choices carefully, especially when seeking admission to limited enrolment programs. If admitted to the first program choice, admission to other program choices will not be evaluated. If a student is not admitted for the first program, the second program choice will be evaluated, followed by third and then fourth choices. Students ineligible for an Honours-level program of choice will be considered for the corresponding B.A. program. Students must check the *Mosaic* Student Centre in late May to confirm their program for the following Fall and Winter terms.

Students applying to the Honours B.S.W. program must also apply directly to the School of Social Work **well before March 1**, and must refer to department admission notes.

LIMITED ENROLMENT PROGRAMS

Admission at Level II (and above) is limited for the following programs. Possession of the published minimum requirements does not guarantee admission.

- All Honours Bachelor of Social Work and Bachelor of Social Work programs
- All Honours Aging and Society programs
- All Honours Health and Society programs
- All Honours Labour Studies programs
- All Honours Psychology, Neuroscience & Behaviour (B.A.) programs
- Honours Social Psychology
- Honours Political Science Specialization in Global Citizenship
- Honours Political Science Specialization in Public Law and Judicial Studies
- B.A. Health, Aging & Society

MINIMUM REQUIREMENTS FOR ENTERING AND CONTINUING IN A PROGRAM BEYOND LEVEL I

HONOURS B.A. PROGRAMS:

You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A. program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another B.A. program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

HONOURS B.S.W., B.A./B.S.W. AND B.S.W. PROGRAMS:

To continue in an Honours B.S.W., B.A./B.S.W. or B.S.W. program, you must have a Grade Point Average (GPA) of at least 6.0, and achieve **at least the minimum grade** in all Social Work courses as listed the program notes for *Progression Within Program* in the Honours Bachelor of Social Work (B.S.W.), Combined Bachelor of Arts/Bachelor of Social Work (B.A./B.S.W.) or the Bachelor of Social Work (B.S.W.). If your GPA is 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 5.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. PROGRAMS:

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

TRANSFERRING TO HONOURS B.A. PROGRAMS BEYOND LEVEL II

Students who are not admissible to an Honours program from Level I to Level II, may request admission for the following Fall/Winter academic session. Program entry requirements and academic requirements for continuation at the level for which application is made, must be met. Transfer requests must be submitted through the Mosaic Student Centre (Service Request application) by **March 30**.

GRADUATION

From Honours B.A. and B.A. Programs

To graduate from a program, students must meet all course requirements for their degree program. The requirements for graduation from these programs are described under the heading Graduation in the General Academic Regulations section in this Calendar.

Transferring to Graduate with a Three-level B.A. Degree from an Honours B.A. Program

Students who successfully complete at least 90 units including all expected course requirements up to the end of Level III of any Honours B.A. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Social Sciences (Studies) to transfer to graduate with the corresponding three-level B.A. degree. Students enrolled in Honours Social Psychology may be given the option of either transferring to graduate with a B.A. in Psychology or a B.A. in Sociology based on the degree that is most relevant to the subject concentration and for which they meet all the degree requirements. Students who do not qualify for a specific three-level B.A. degree may petition to the Office of the Associate Dean to be considered to graduate with a Social Sciences B.A. (General) exit degree.

All requests to transfer to graduate must be submitted to the Office of the Associate Dean of Social Sciences by April 15th for the Spring Convocation and by September 1st for the Fall Convocation.

Letter of Permission Courses to Graduate

Students taking the final courses for completion of their degree program on a Letter of Permission at another university must ensure that the official transcripts are sent to the Office of the Associate Dean of Social Sciences at McMaster University. For students expecting to graduate at the Spring Convocation, transcripts must be received by May 15 and for Fall convocation, by September 30.

Transfers to the Faculty of Social Sciences

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Social Sciences provided they have obtained a Grade Point Average of at least 3.5 and have completed the necessary program admission requirements. Students approved to transfer to the Faculty of Social Sciences may be required to fulfill additional requirements at the time of admission. Failure to comply with these conditions may result in an academic standing of *May Not Continue in Faculty* at the following reviewing period.

REINSTATEMENT

A student who may not continue at the University may apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the application deadline for the session. See the *Application Procedures* section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student's academic performance before and after admission to McMaster, a letter of explanation and documentation of any extenuating circumstances.

Reinstatement is not automatic or guaranteed. Decisions are normally made after June 30 for September entry. The Grade Point Average for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved. NOTE: If at a review after reinstatement the Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months. Failure to comply with the conditions outlined at the time of reinstatement may result in withdrawal from the university at the following reviewing period.

DEADLINES

The Faculty of Social Sciences will not consider applications for admission, admission to a second degree or continuing studies, reinstatement, registration, or dropping and adding of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures, unless written documentation is provided showing good cause, as determined by the Faculty.

ACADEMIC BREADTH REQUIREMENT

The Faculty of Social Sciences encourages all of its students to embrace academic breadth in both knowledge and skills. Therefore, every Social Sciences student is required to successfully complete at least 6 units of course work outside of their department/discipline(s) of study to satisfy degree requirements. These course units must be over and above the 30 units required for Level I Social Sciences.

ACADEMIC ADVISING

The aim of academic advising is to help students tailor a program of studies to fit their interests. Advising also involves reviewing these interests from time to time to accommodate changing plans, needs and academic performance. Advising is available throughout the year from the Office of the Associate Dean of Social Sciences and the departments or academic units in the Faculty of Social Sciences. It is strongly recommended that students consult with a Departmental Undergraduate Advisor during March in conjunction with the Level II program application.

AWARDS

For conditions and terms of awards for full-time and part-time students, please refer to the Undergraduate Academic Awards section of this Calendar.

COURSE SELECTION AND COURSE CHANGES

Students are responsible for ensuring that their course selection meets the requirements of the degree program in which they are enrolled, that prerequisites have been met, and that, where necessary, permission to take courses has been obtained. They should review their personal advisement report each time they cancel or add courses, and contact an Academic Advisor if they have questions, **particularly if the advisement report shows unused courses.** Students should also be aware that changes to their course load may affect their fees and their eligibility for scholarships or sources of financial aid such as OSAP

OVERLOAD

Normally students may not register in more than 30 units during the Fall/Winter Term. In the following circumstances an overload of up to six units may be taken:

1. if a student has a Fall-Winter Average of at least 7.0 in the immediately preceding review period.
2. if the student is registered in the final level of his/her program.

Students wishing to register in more than 12 units during the Spring/Summer term, or more than six units in either term of that term may do so only with permission. Requests to enroll in an overload of units should be directed to the Office of the Associate Dean, Social Sciences.

WITHDRAWAL

Students who wish to withdraw from the University may cancel courses on *Mosaic* and must surrender their McMaster Identification Card validation sticker to the Financial Services Office to ensure the processing of any fee refunds. Students who fail to withdraw formally from any course(s) by the stated deadlines will remain registered whether or not they attend classes and will be assigned a grade.

LETTER OF PERMISSION

Students in good academic standing who wish to attend another university to take courses for credit toward a McMaster degree must first request a Letter of Permission from the Office of the Associate Dean. The request should be initiated through the *Student Centre* in *Mosaic*. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the McMaster average, and therefore cannot be used to raise standing. The transcript designations will read COM, indicating complete, when a grade of C- or better is attained.

Students must ensure that the official transcripts for completed courses are sent to the Office of the Associate Dean. Students expecting to graduate upon completion of a course on Letter of Permission should refer to the heading Letter of Permission Courses to Graduate.

Students who choose not to use the Letter of Permission or cancel the course(s), must supply the Associate Dean's Office with a transcript showing the cancelled course, or a certified letter from the host university, confirming that the student was not registered for the courses and session.

NON-ACADEMIC REQUIREMENTS

Some courses, and many important extra-curricular opportunities for students in the Faculty of Social Sciences, require students to have cleared police criminal checks which can be obtained through Hamilton-Wentworth Police Services. Additionally, students may be required to pass TB tests and have immunization for some contagious diseases. Costs related to these requirements are the responsibility of the student.

SOCIAL SCIENCES STUDY ABROAD

Formal Student Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students register at and pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. McMaster University has an array of international partnerships with institutions in other countries including Australia, France and the United Kingdom to provide students the opportunity to participate in an exchange program for one year or a term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals.

ELIGIBILITY FOR STUDY ABROAD

Students registered in any Honours or Combined Honours program in the Faculty of Social Sciences may apply to replace all or part of the work of their third year with an acceptable program of study taken at an approved university. To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students may receive up to 30 units of credit for a full year of study at another institution. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Office of

the Associate Dean (Studies) has received transcripts and reviewed students' academic achievements following their return.

APPLICATION FOR STUDY ABROAD

Students interested in applying for this program should consult the International Student Services Office and the Faculty of Social Sciences Exchange Advisor, approximately one year before they anticipate studying abroad. Application deadlines are usually in January, although applications for some exchanges may be due as early as December. Acceptance to the Ontario and University-wide Exchange Programs is by application and recommendation.

For further information please see *International Study* in the *General Academic Regulations* section in this Calendar. Information concerning student exchanges can also be found in the *Academic Facilities, Student Services and Organizations* section of this Calendar under the heading International Student Services.

Level I Programs

The Faculty of Social Sciences offers the following Level I program leading to the Honours Bachelor of Arts and Bachelor of Arts degrees:

- Social Sciences I

Review of the Admission Requirements of Level II programs and successful completion of required courses in Level I will allow students a range of Level II program options including those from within their chosen program as well as the others. Additionally, effective September 2019, the Faculty will offer the following direct-entry Level I programs leading to the Honours Bachelor of Arts and Bachelor of Arts degrees:

- Economics I
- Honours Health and Society I

ECONOMICS I

REQUIREMENTS

30 units total

6 units

- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

0-3 units

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (if Grade 12 Calculus and Vectors U has not been completed)

0-3 units

- STATS 1L03 - Probability and Linear Algebra (if Grade 12 Mathematics of Data Management U has not been completed)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

6-9 units

from

- *Course List*

12 units

Electives, which may include courses from the *Course List* below. See also the *Elective Courses Available To Level I Students* page.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death

- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- GLOBALZN 1A03 - Global Citizenship
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- INUKTUT 1Z03 - Introduction to Inuit Language and Culture
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03 - Reconciling What? Indigenous Relations in Canada
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- SOCSCI 1RM3 - How do we Know? Doing Social Sciences Research
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and a Bit of Everything

HONOURS HEALTH AND SOCIETY I

PROGRAM NOTE

Enrolment in this program is limited.

1. As places in the Honours Health and Society I program are limited, admission is by selection, and possession of the minimum requirements does not guarantee admission.

REQUIREMENTS

30 units total

9 units

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness

9 units

from

- *Course List*

12 units

Electives, which may include courses from the *Course List* below. Also see the *Elective Courses Available To Level I Students* page.

SOCIAL SCIENCES I

PROGRAM NOTES

1. A full course load for Social Sciences I is 30 units. (The unit value of a course is determined by the last number of the course code. 3-unit courses are normally one term in duration and offered either September to December or January to April. 6-unit A/B courses are typically taught over two terms, from September to April.)
2. Students should select courses based on their academic interests and anticipated Level II program of study. Elective courses may be taken from other Faculties, where requisites are met. Admission to a Level II program typically requires completion of three to six units of the subject in Level I, with an applicable Grade Point Average. Students should consult the admission statements for relevant Level II programs when selecting their Level I courses.
3. Social Sciences I students are permitted to take up to 9 units of course work in any single subject.

Course List 1

The following Social Sciences courses provide entry into a Level II program.

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death

- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03 - Reconciling What? Indigenous Relations in Canada
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1Z03 - An Introduction to Sociology

COURSE LIST 2

The following Social Sciences courses are also available but do not provide entry into a Level II program.

- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- GLOBALZN 1A03 - Global Citizenship
- INUKTUT 1Z03 - Introduction to Inuit Language and Culture
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCSCI 1RM3 - How do we Know? Doing Social Sciences Research
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and a Bit of Everything

REQUIREMENTS: 30 UNITS

18 units

from

- *Course List 1 and Course List 2*

12 units

Electives, which may include courses from *Course List 1* and *2*. (See the Degrees and Programs: Duration in Years section of this Calendar for a list of elective courses available to Level I students)

CHAIR

Tina Moffat

PROFESSORS

Ellen Badone/(*Religious Studies*) B.A., M.A. (Toronto), Ph.D. (California-Berkeley)

Megan Brickley/B.A. (Birmingham), M.Sc. (Univ. College London), Ph.D. (Birmingham)

/ Canada Research Chair in Bioarchaeology of Human Disease

Aubrey Cannon/B.A. (Simon Fraser), Ph.D. (Cambridge)

John J. Colarusso/(*Linguistics and Languages*) B.A. (Cornell), M.A. (Northwestern), Ph.D. (Harvard)

Hendrik Poinar/(*Biochemistry & Biomedical Sciences*) B.Sc., M.Sc. (California), Ph.D. (Munich)

Petra Rethmann/B.A. (Vienna), M.A. (Munich), Ph.D. (McGill)

ASSOCIATE PROFESSORS

Tristan Carter/ B.A. (Nottingham), Ph.D. (University College London)

Dawn Martin-Hill/B.A., M.A., Ph.D. (McMaster)

Tina Moffat/B.Sc. (Toronto), M.A., Ph.D. (McMaster)

Tracy Prowse/B.Sc., M.A. (Alberta), Ph.D. (McMaster)

Andrew Roddick/B.A. (British Columbia), M.A., Ph.D. (California-Berkeley)

Kee Howe Yong/M.Phil., Ph.D. (CUNY)

ASSISTANT PROFESSORS

Andrew Gilbert/B.A. (California-Santa Cruz) M.A., Ph.D. (Chicago)

Karen McGarry/B.A., M.A. (Trent), Ph.D. (York)

Shanti Morell-Hart/B.A. (UTSA), M.A., Ph.D. (California-Berkeley)

ASSOCIATE MEMBERS

Ellen Amster/ (Clinical Epidemiology and Biostatistics and History) B.A. (Chicago), M.A., Ph.D. (Pennsylvania)

Eduard Reinhardt/B.A., Ph.D. (Carleton)

Henry Schwarcz/B.A. (Chicago), M.Sc., Ph.D. (California Institute of Technology)

ADJUNCT ASSISTANT PROFESSORS

James Conolly/B.A. (Alberta), M.A. (Saskatchewan), Ph.D. (York)

Kathryn Goldfarb/ B.A.(Rice University), M.A., Ph.D. (Chicago)

Peter Ramsden/B.A. (Toronto), M.A. (Calgary), Ph.D. (Toronto)

Gary Warrick/B.A. (McMaster), M.A. (Simon Fraser), Ph.D. (McGill)

ANTHROPOLOGY SUBFIELDS

(Applicable to all Anthropology programs)

Anthropology includes the three major subfields of Social/Cultural Anthropology, Biological Anthropology, and Archaeology. It should be noted that each subfield has its own sequence of courses and prerequisites.

NOTE

1. Students are strongly encouraged to consult the Anthropology web site to determine sessional course offerings, as not all Level II, III, and IV courses are offered each year: <http://anthropology.mcmaster.ca/programs>

CULTURAL/SOCIAL ANTHROPOLOGY

- ANTHROP 2B03 - Contemporary Indigenous Knowledge and Societies
- ANTHROP 2CE3
- ANTHROP 4CP3 – Cultural Politics of Food and Eating
- ANTHROP 2DA3 - Traditional Indigenous Ecological Knowledge
- ANTHROP 2EE3 - Sport and/as Religion
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2G03 - Readings in Indo-European Myth
- ANTHROP 2HE3 - Heritage, Economy, and Ethics
- ANTHROP 2MA3 - Media, Art and Anthropology
- ANTHROP 2R03 - Religion, Magic and Witchcraft
- ANTHROP 3AR3 - Culture and Religion
- ANTHROP 3F03 - Anthropology and the 'Other'
- ANTHROP 3G03 - Comparative Mythology
- ANTHROP 3GG3 - Anthropology of Contemporary Europe

- ANTHROP 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- ANTHROP 3HE3
- ANTHROP 3HH3 - Globalization, Social Justice and Human Rights
- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- ANTHROP 3PO3 - Doing Ethnography: Theory and Research Methods
- ANTHROP 3PA3 - Haudenosaunee Health, Diet and Traditional Botany
- ANTHROP 3PH3 - Dissent, Power and History
- ANTHROP 3SS3 - Sacred Journeys
- ANTHROP 3V03
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ANTHROP 4AA3 - Materiality, Matter and Social Lives
- ANTHROP 4B03 - Current Problems in Cultural Anthropology I
- ANTHROP 4BB3 - Current Problems in Cultural Anthropology II
- ANTHROP 4D03 - Practicing Anthropology: Ethics, Theory, Engagement
- ANTHROP 4DD3 - Anthropology of Zombies and the Undead
- ANTHROP 4M03
- ANTHROP 4W03 - Explorations in Experimental Anthropology

BIOLOGICAL ANTHROPOLOGY

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2D03 - DNA Meets Anthropology
- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BF3 - Bioarchaeological Field School
- ANTHROP 3C03 - Health and Environment: Anthropological Approaches
- ANTHROP 3FA3 - Forensic Anthropology
- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3R03
- ANTHROP 4DN3 - Diet & Nutrition: Biocultural and Bioarchaeological Perspectives
- ANTHROP 4GS3 - Genetics and Society
- ANTHROP 4H03 - Human Evolutionary Genetics
- ANTHROP 4J03 - Advanced Topics in Biological Anthropology I
- ANTHROP 4JJ3 - Advanced Topics in Biological Anthropology II
- ANTHROP 4R03 - Advanced Bioarchaeology and Skeletal Biology
- ANTHROP 4S03 - The Anthropology of Infectious Disease
- *(Relevant courses are also offered by Biology and Kinesiology.)*

ARCHAEOLOGY

- ANTHROP 2BB3 - Ancient Mesoamerica: Aztecs to Zapotecs
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 2O03 - Themes in the Archaeological History of North America
- ANTHROP 2HH3 - Science, Technology & Society: Archaeological Perspectives
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology
- ANTHROP 2PC3 - Aliens, Curses and Nazis: Archaeology and Hollywood
- ANTHROP 2RP3 - Religion and Power in the Past
- ANTHROP 2WA3 - Neanderthals to Pyramids: Introduction to World Archaeology
- ANTHROP 3AS3 - Archaeology and Society
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3CC6 - Archaeological Field School
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3FF3 - Key Debates In Andean Archaeology
- ANTHROP 3DD3 - Archaeology of Death
- ANTHROP 3E03 - Special Topics in Archaeology I
- ANTHROP 3EE3 - Special Topics in Archaeology II
- ANTHROP 3EM3 - Current Debates in Eastern Mediterranean Prehistory
- ANTHROP 3K03 - Archaeological Interpretation

- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3X03 - Zooarchaeology
- ANTHROP 4AA3 - Materiality, Matter and Social Lives
- ANTHROP 4AH3 - Archaeology and Heritage: Ethics, Politics, and Practice
- ANTHROP 4CC3 - Archaeology Of Foodways
- ANTHROP 4E03 - Advanced Topics in Archaeology I
- ANTHROP 4EE3 - Advanced Topics in Archaeology II
- ANTHROP 4F03 - Current Debates in Archaeology
- ANTHROP 4HF3 - Archaeology of Hunter-Fisher-Gatherers
- ANTHROP 4HH3 - Archaeologies of Space and Place
- ANTHROP 4KK3 - The Archaeology of Neanderthals and Other Early Humans
- *(Relevant courses are also offered by the School of Geography and Earth Sciences, History and Classics.)*

OTHER COURSES

Courses not distinguished by subfield include the required course ANTHROP 3PD3 plus the independent study courses ANTHROP 3IS3, ANTHROP 4G03, ANTHROP 4GG3 and topic course ANTHROP 3W03.

In planning a program, it is important for students to take note of the prerequisites of certain upper-level courses.

COMBINED HONOURS IN ANTHROPOLOGY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ANTHROP 1AA3 or 1AB3. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
2. Students enrolled in an Honours Anthropology program prior to September 2013 may substitute any Level II, III, IV **Anthropology** course for ANTHROP 3PD3.
3. Students who have completed only 3 units of Level I Anthropology will be required to complete 3 more units of Level I Anthropology by the end of the following academic year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

- from the Level I program completed prior to admission to the program. (See *Admission* above.)

9 units

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

3 units

from

- ANTHROP 2D03 - DNA Meets Anthropology
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3H03
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3P03 - Doing Ethnography: Theory and Research Methods

- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3R03
- ANTHROP 3X03 - Zooarchaeology

15 units

- Levels II, III or IV Anthropology

3 units

- ANTHROP 3PD3 - Anthropological Perspectives and Debates

36 units

- courses specified for the other subject

3 units

from

- SOCSCI 2J03 - Introduction to Statistics or the Research Methods/Statistics requirement specified for the other subject (in combined programs within the Faculty of Social Sciences)

6 units

- Level IV Anthropology

0-3 units

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict

(See Note 3)

12-15 units

- Electives

HONOURS ANTHROPOLOGY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ANTHROP 1AA3 or 1AB3. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTE

1. Students enrolled in an Honours Anthropology program prior to September 2013 may substitute any level II, III, or IV **Anthropology** course for ANTHROP 3PD3.
2. Students who have completed only 3 units of Level I Anthropology will be required to complete 3 more units of Level I Anthropology by the end of the following academic year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 units

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

3 units

from

- ANTHROP 2D03 - DNA Meets Anthropology
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3H03
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3P03 - Doing Ethnography: Theory and Research Methods

- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3R03
- ANTHROP 3X03 - Zooarchaeology

24 units

- Levels II, III or IV Anthropology

3 units

- ANTHROP 3PD3 - Anthropological Perspectives and Debates

3 units

- SOCSCI 2J03 - Introduction to Statistics

12 units

- Level IV Anthropology

0-3 units

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict

(See Note 2)

33-36 units

- Electives, of which at least six units must be taken from outside of Anthropology

ANTHROPOLOGY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including a grade of at least C- in three units from ANTHROP 1AA3 or 1AB3.

NOTE

1. Students who have completed only 3 units of level I Anthropology will be required to complete 3 more units of Level I Anthropology by the end of the following academic year.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

6 units

from

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

18 units

- Levels II, III or IV Anthropology

0-3 units

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict

(See Note 1)

33-36 units

- Electives, of which at least six units must be taken from outside of Anthropology

Minor(s):

MINOR IN ANTHROPOLOGY

REQUIREMENTS

24 units total

6 units

from

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death

- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict

3 units
from

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Engaging Social Worlds: An Introduction to Cultural Anthropology
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

15 units

- Levels II, III or IV Anthropology

Department of Economics

Faculty as of January 15, 2019

CHAIR

Stephen R.G. Jones

ASSOCIATE CHAIR

Seungjin Han

UNIVERSITY SCHOLAR

Katherine Cuff

PROFESSORS

Katherine Cuff/M.A. (York), B.A., Ph.D. (Queen's)/Canada Research Chair in Public Economic Theory

Michel Grignon/M.A. (ENSAE), Ph.D. (EHESS)/Joint Health, Aging & Society

Seungjin Han/B.Econ. (Korea), M.A. (McGill), Ph.D. (Toronto)

Jeremiah E. Hurley/B.A. (John Carroll), M.A., Ph.D. (Wisconsin-Madison)/Dean, Faculty of Social Sciences

Alok Johri/B.A. (Delhi), M.A. (Delhi School of Economics), Ph.D. (Boston)

Stephen R.G. Jones/B.A. (Cambridge), Ph.D. (California-Berkeley)/Chair

Wayne Lewchuk/(Labour Studies) M.A. (Toronto), Ph.D. (Cambridge)/Joint Labour Studies

Jeffrey S. Racine/B.A., M.A. (McMaster), Ph.D. (Western Ontario)/Senator William McMaster Chair in Econometrics

Arthur Sweetman/B.Eng. (McGill), M.A., Ph.D. (McMaster)/Ontario Research Chair in Health Human Resources

Michael R. Veall/B.A. (McMaster), M.A. (Western Ontario), Ph.D. (M.I.T.)/Academic Director, Statistics Canada Research Data Centre

ADJUNCT PROFESSOR

Robert Dimand/B.A. (McGill), M.A., M.Phil., Ph.D. (Yale)

Evelyn Forget/B.A. (York), M.A., Ph.D. (Toronto)

ASSOCIATE PROFESSORS

Paul Contoyannis/B.Sc., M.Sc., Ph.D. (York)/ Chair, Graduate Studies

Philip DeCicca/B.A. (Cornell), M.P.A. (Syracuse), Ph.D. (Michigan)

Svetlana Demidova/M.Sc. (Moscow State), M.A. (New Economic School, Russia), Ph.D. (Pennsylvania State)

Maxim Ivanov/M.Sc. (Tomsk), M.A. (New Economic School, Russia), Ph.D. (Pennsylvania State)

Marc-André Letendre/B.A.A. (HEC Montréal), M.A., Ph.D. (Queen's)

Greig Mordue/Joint Walter G. Booth School of Engineering Practice/ArcelorMittal Dofasco Chair in Advanced Manufacturing Policy

Bridget O'Shaughnessy/M.A.(York)/ Chair, Undergraduate Studies

Youngki Shin/B.A. (Seoul), M.A. (Rochester), Ph.D. Rochester)

ADJUNCT ASSOCIATE PROFESSORS

Neil J. Buckley/B.Arts Sc., M.A., Ph.D. (McMaster)

Elizabeth Dhuey/B.A. (Colorado-Boulder), M.A., Ph.D. (California- Santa Barbara)

Paul Grootendorst/B.A. (Victoria), M.A. (Queen's), Ph.D.(McMaster)

A. Abigail Payne/B.A. (Denison), J.D. (Cornell), Ph.D. (Princeton)/Director, Public Economics Data Analysis Laboratory

Justin Smith/B.A. (McMaster), M.A. (Simon Fraser), Ph.D. (McMaster)

Emile Tompa/B.A. (York), M.B.A. (British Columbia), M.A. (Toronto), Ph.D. (McMaster)

ASSISTANT PROFESSORS

Bettina Brueggemann/Ph.D. (Goethe, Germany)

Laura Grigolon/ J.D./M.A. (Padua, Italy), M.Sc. (Leicester, Great Britain), Ph.D. (Leuven, Belgium)

Hannah Holmes/M.A.(McMaster)

Adam Lavecchia/M.A., Ph.D. (University of Toronto)

Zachary Mahone/Ph.D. (University of Minnesota)

Pau Salvador Pujolàs Fons/M.A., Ph.D. (Universitat Autònoma de Barcelona)

Gajendran Raveendranathan/B.S.(Minnesota), M.A. (Minnesota), Ph.D. (Minnesota)

Alisa Tazhitdinova/B.Sc. (Western), M.Math. (Waterloo), Ph.D. (California-Berkeley)

ASSOCIATE MEMBERS

Emmanuel Guindon/B.A. (McGill), M.A. (Victoria), Ph.D. (McMaster)

Dean Mountain/B.A. (McMaster), M.A. (Western Ontario), Ph.D. (Western Ontario)

Jean-Eric Tarride/(Health Economics), Ph.D. (Concordia)

ADJUNCT LECTURER

Stephanie Thomas/Ph.D. (McMaster)

INDUSTRY PROFESSOR

Jim Stanford/B.A. (Calgary), M.Phil (Cambridge), Ph.D. (New School for Social Research, NY), Harold Innis Industry Professor in Economics

COMBINED HONOURS IN ECONOMICS AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 and 1BB3. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I .

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
2. Alternate admission: For students enrolled in a program beyond Level I, admission to Levels II, III and IV of Honours Economics programs requires an average of at least 5.0 in ECON 2G03, 2GG3 (or 2Z03, 2ZZ3), 2H03 and 2HH3, in addition to the required Grade Point Average (GPA) as stated in the Minimum Requirement for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations. **Students enrolled in Levels II, III and IV cannot gain admission to Honours Economics programs by upgrading ECON 1B03 or 1BB3.**
3. One of Grade 12 Mathematics of Data Management U, STATS 1L03 is a prerequisite for the statistics methods course offered by the Department of Economics (ECON 2B03). Students with prior credit in a statistics course recognised as an alternative to ECON 2B03 are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in a recognised alternative statistics course. There is no such grade requirement for ECON 3E03 (formerly 3U03). See ECON 3EE3 (formerly 3U03) in the Course Listings section of this Calendar for a list of recognised alternative statistics courses.
4. Students registered in Combined Honours programs within the Faculty of Social Sciences must complete at least ECON 4F03 (formerly 3F03) or ECON 4FF3 (formerly 3FF3). Students who wish to satisfy the Honours Seminar requirement specified by the other department may be replace and 4A03 and 4AA3 with another three units of Economics.

5. COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
6. MATH 1M03 is required for any student planning to transfer into Commerce and strongly recommended for any student with a minor in Business or Finance. MATH 1M03 is required for ECON 3G03 and is strongly recommended for students planning any graduate study in economics.
7. Students must complete STATS 1L03 before taking ECON 3EE3 (formerly 3U03) or ECON 3E03 (formerly 3WW3).

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- Level I program completed prior to admission to the program.

(See Admission above.)

6 units

- ECON 2G03
 - ECON 2GG3 - Intermediate Microeconomics II
- or
- ECON 2Z03 - Intermediate Microeconomics I
 - ECON 2ZZ3 - Intermediate Microeconomics II

6 units

- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II

6 units

- ECON 4F03 - Methods of Inquiry in Economics
 - ECON 4A03 - Honours Economic Analysis
- or
- ECON 4FF3 - Research Methods in Economics
 - ECON 4AA3 - Economic Specialist Seminar

(See Note 4 above.)

15 units

Levels II, III, IV Economics with no more than six units from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 5 above.)

36 units

- courses specified for the other subject

6 units

- ECON 2B03 - Analysis of Economic Data and
- ECON 3EE3 - Econometrics I or
- ECON 3E03 - Applied Econometrics or

in combined programs within the Faculty of Social Sciences, the Research Methods/Statistics requirement specified for the other subject. Students who plan to take ECON 3EE3 are strongly advised to take ECON 2B03. (See Note 3 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

3 units

from

- STATS 1L03 - Probability and Linear Algebra * (or Grade 12 Mathematics of Data Management U)

9 units

- Electives

* If requirement completed in Level I or with Grade 12 U courses, these units will be taken as electives.

HONOURS ECONOMICS (B.A.)**ADMISSION**

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 and 1BB3. For continuation in program, see the section on Minimum Requirements for Entering and Continuing in a Program Beyond Level I. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I.

NOTES

1. Alternate admission: For students enrolled in a program beyond Level I, admission to Levels II, III and IV of Honours Economics programs requires an average of at least 5.0 in ECON 2G03, 2GG3 (or 2Z03, 2ZZ3) 2H03 and 2HH3, in addition to the required Grade Point Average (GPA) as stated in the Minimum Requirement for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations. **Students enrolled in Levels II, III and IV cannot gain admission to Honours Economics programs by upgrading ECON 1B03 or 1BB3.**
2. COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
3. Students with prior credit in a statistics course recognized as an alternative to ECON 2B03 are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. There is no such grade requirement for ECON 3E03 (formerly 3WW3). See ECON 3EE3 (formerly 3U03) in the Course Listings section of this Calendar for a list of recognised alternative statistics courses.
4. Students interested in an M.A. in Economics should take ECON 3EE3 (formerly 3U03) and consider the Specialist Option. Also note that some, but not all graduate programs in Economics require ECON 3G03, 4T03 and 4TT3. For this reason students interested in an M.A. in Economics are advised to consult a departmental advisor for more detailed information.
5. MATH 1M03 is required for any student planning to transfer into Commerce and strongly recommended for any student with a minor in Business or Finance. MATH 1M03 is required for ECON 3G03, 3W03, 4T03 and 4TT3 and is strongly recommended for students planning any graduate study in economics.
6. Students must complete STATS 1L03 before taking ECON 3EE3 (formerly 3U03) or ECON 3E03 (formerly 3WW3).

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program. (See Admission above.)

6 units

- ECON 2G03
 - ECON 2GG3 - Intermediate Microeconomics II
- or
- ECON 2Z03 - Intermediate Microeconomics I

· ECON 2ZZ3 - Intermediate Microeconomics II

12 units

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 4A03 - Honours Economic Analysis

(See Notes 2 and 3 above)

24 units

Levels II, III, IV Economics with no more than six units from the following courses

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 2 above.)

3 units

from

- ECON 3EE3 - Econometrics I
- ECON 3E03 - Applied Econometrics

(See Notes 3 and 4 above.)

3 units

from

- ECON 4F03 - Methods of Inquiry in Economics
- ECON 4FF3 - Research Methods in Economics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

3 units

from

- STATS 1L03 - Probability and Linear Algebra * (or Grade 12 Mathematics of Data Management U)

36 units

- Electives. The number of units of Economics courses above Level I (excluding ECON 2B03, 3E03 and 3EE3) must not exceed 60.

* If requirement was completed in Level I or with Grade 12 U courses, these units will be taken as electives.

Please note, for calendar copy, changes must be made in all programs.

HONOURS ECONOMICS (SPECIALIST OPTION) (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 and 1BB3. For continuation in program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I .

NOTES

1. Alternate admission: For students enrolled in a program beyond Level I, admission to Levels II, III and IV of the Honours Economics (Specialist Option) program requires an average of at least 6.0 in ECON 2G03, 2GG3 (or 2Z03, 2ZZ3), 2H03 and 2HH3 with a grade of at least C in each of ECON

2GG3 and 2HH3, in addition to the required Grade Point Average (GPA) as stated in the Minimum Requirement for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations. **Students enrolled in Levels II, III and IV cannot gain admission to the Honours Economics (Specialist Option) program by upgrading ECON 1B03 or 1BB3.**

2. COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
3. Students in the Specialist Option are expected to take ECON 2B03. Students with prior credit in a recognised alternative statistics course are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in a recognised alternative statistics course. See ECON 2B03 in the Course Listings section of this Calendar for a list of recognised alternative statistics courses.
4. Students interested in an M.A. in Economics should take ECON 3EE3 (formerly 3U03) and consider the Specialist Option. Also note that some, but not all graduate programs in Economics require ECON 3G03, 4T03 and 4TT3. For this reason students interested in an M.A. in Economics are advised to consult a departmental advisor for more detailed information.
5. MATH 1M03 is required for any student planning to transfer into Commerce and strongly recommended for any student with a minor in Business or Finance. MATH 1M03 is required for ECON 3G03 and is strongly recommended for students planning any graduate study in economics.
6. Students must complete STATS 1L03 before taking ECON 3EE3 (formerly 3U03) or ECON 3E03 (formerly 3WW3.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See Admission above.)

6 units

- ECON 2G03
 - ECON 2GG3 - Intermediate Microeconomics II
- or
- ECON 2Z03 - Intermediate Microeconomics I
 - ECON 2ZZ3 - Intermediate Microeconomics II

15 units

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 4AA3 - Economic Specialist Seminar

(See Notes 2 and 3 above.)

24 units

Levels II, III, IV Economics with no more than six units from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 2 above.)

3 units

- ECON 3EE3 - Econometrics I

- ECON 3E03 - Applied Econometrics (with a grade of at least A-)
(See Notes 3 and 4 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

3 units

from

- STATS 1L03 - Probability and Linear Algebra * (or Grade 12 Mathematics of Data Management U)

36 units

- Electives. The number of units of Economics courses above Level I excluding ECON 2B03, 3EE3 (formerly 3WW3) and 3E03 (formerly 3U03) must not exceed 60.

* If requirement was completed in Level I or with Grade 12 U courses, these units will be taken as electives.

HONOURS ECONOMICS AND COMPUTER SCIENCE (B.A.)

ADMISSION

Enrollment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement, completion of any Level I program with a Grade Point Average of at least 5.0, including an average of at least 5.0 in ECON 1B03 and 1BB3, and a weighted average of at least 5.0 in ECON 1B03, 1BB3, COMPSCI 1MD3 and 1JC3; MATH 1A03, 1AA3, and 1B03. MATH 1B03 may be postponed until Level II. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I.

NOTES

1. Alternate admission: For students enrolled in a program beyond Level I, admission to Levels II, III and IV of Honours Economics programs requires an average of at least 5.0 in ECON 2G03, 2GG3 (or 2Z03, 2ZZ3), 2H03 and 2HH3, in addition to the required Grade Point Average (GPA) as stated in the Minimum Requirement for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations. **Students enrolled in Levels II, III and IV cannot gain admission to Honours Economics programs by upgrading ECON 1B03 or 1BB3.**
2. COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
3. Students with prior credit in a statistics course recognised as an alternative to ECON 2B03 are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. There is no such grade requirements for ECON 3E03 (formerly 3WW3). See ECON 3EE3 (formerly 3U03) in the Course Listings section of this Calendar for a list of recognised alternative statistics courses. Students must complete STATS 1L03 before taking ECON 3EE3 (formerly 3U03).

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

- COMPSCI 2S03 - Principles of Programming
- COMPSCI 2XA3 - Computer Science Practice and Experience: Software Development Skills

9 units

from

- COMPSCI 3C03
- COMPSCI 3DB3 - Data Bases
- COMPSCI 3GC3 - Computer Graphics
- COMPSCI 3IS3 - Information Security
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems
- COMPSCI 4HC3 - Human Computer Interaction
- COMPSCI 4WW3 - Web Systems and Web Computing

3 units

- Levels III or IV Computer Science except COMPSCI 4ZP6 A/B

6 units

- STATS 2D03 - Introduction to Probability and
- STATS 2MB3 - Statistical Methods and Applications

or

- ECON 2B03 - Analysis of Economic Data and
- ECON 3EE3 - Econometrics I (or ECON 3E03 (formerly 3WW3))

(See Note 3 above.)

18 units

- Electives

HONOURS ECONOMICS AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including MATH 1A03 (or 1X03) an average of at least 5.0 in ECON 1B03 and 1BB3 and a grade of at least C+ in each of MATH 1AA3 (or 1XX3) and 1B03. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I.

NOTES

- Alternate admission: For students enrolled in a program beyond Level I, admission to Levels II, III and IV of Honours Economics programs requires an average of at least 5.0 in ECON 2G03, 2GG3 (or 2Z03, 2ZZ3), 2H03 and 2HH3, in addition to the required Grade Point Average (GPA) as stated in the Minimum Requirement for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations. **Students enrolled in Levels II, III and IV cannot gain admission to Honours Economics programs by upgrading ECON 1B03 or 1BB3.**
- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students with prior credit in a statistic course recognised as an alternative to ECON 2B03 are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. See ECON 3EE3 (formerly 3U03) in the *Course Listings* section of this Calendar for a list of recognised alternative statistics courses.
- Neither ECON 2B03, 3E03 (formerly 3VW3) nor 3EE3 (formerly 3U03) can be used to satisfy these required units.
- Neither STATS 2D03 nor 2MB3 can be used to satisfy these required units.
- Students must complete STATS 1L03 before taking ECON 3EE3 (formerly 3U03).

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

6 units

- ECON 2G03
- ECON 2GG3 - Intermediate Microeconomics II

or

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

6 units

- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II

6 units

- ECON 4F03 - Methods of Inquiry in Economics *and*
- ECON 4A03 - Honours Economic Analysis

or

- ECON 4FF3 - Research Methods in Economics *and*
- ECON 4AA3 - Economic Specialist Seminar

12 units

from Levels II, III, IV Economics with no more than six units from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03

- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Note 2* above.)

18 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2R03 - Linear Algebra II
- MATH 2X03 - Advanced Calculus I (or 2A03)
- MATH 2XX3 - Advanced Calculus II (or 2AB3)
- MATH 3A03 - Introduction to Real Analysis
- MATH 3X03 - Complex Analysis I

12 units

from

- Levels II, III, IV Mathematics, Statistics with no more than six units at Level II, and at least three units at Level IV (See *Notes 4* and *5* above.)

12 units

- six units from ECON 2B03, ECON 3EE3
- six units from Levels III, IV Mathematics or Statistics

or

- six units from STATS 2D03, STATS 2MB3
- six units from Levels III, IV Economics

(See *Note 3* above.)

9-18 units

- Electives

ECONOMICS (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 and an average of at least 4.0 in ECON 1B03 and 1BB3. Beginning in September 2020, the Level II Economics programs will continue to permit entry for students who have completed any Level I program including the same required courses as Economics I.

NOTES

- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students with prior credit in a course equivalent to ECON 2B03 are exempt from this requirement. See ECON 2B03 in the *Course Listings* section of this Calendar for equivalencies.
- Alternate admission to the B.A. Economics program requires a Cumulative Average of at least 3.5 including an average of at least 4.0 in ECON 2G03 (or 2Z03), 2H03.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

3 units

- ECON 2G03

or

- ECON 2Z03 - Intermediate Microeconomics I

6 units

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I

(See *Note 2* above.)

15 units

Levels II, III, IV Economics with no more than six units from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 1 above.)

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I or
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

3 units

from

- STATS 1L03 - Probability and Linear Algebra * (or Grade 12 Mathematics of Data Management U)

30 units

- Electives. The number of units of Economics courses above Level I (excluding ECON 2B03 and 3U03) must not exceed 36.

*If requirement was completed in Level I or with Grade 12 U courses, these units will be taken as electives.

Minor(s):

MINOR IN ECONOMICS

NOTES

1. Although ECON 2G03 (or 2Z03) and 2H03 are not required for the Minor in Economics, most Level III and IV Economics courses have at least one of these courses as a prerequisite.
2. COMMERCE 2FA3 may be substituted for ECON 2I03.
3. COMMERCE 2QA3 (or another Statistics course equivalent to ECON 2B03) may be substituted for ECON 2B03.
4. ECON 2CC3 may not be used to satisfy a minor in Economics.

REQUIREMENTS

3-6 units

Level 1 Economics

- ECON 1B03 - Introductory Microeconomics and
- ECON 1BB3 - Introductory Macroeconomics

or

- ARTSSCI 2E03 - Economics: Principles and Policy

18 units

Levels II, III, IV Economics with no more than six units from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Notes above.)

School of Geography and Earth Sciences (Faculty of Social Sciences)

<http://www.science.mcmaster.ca/geo/>

Human Geography Subfields

(Applicable to all Geography programs)

Human Geography at McMaster encompasses five major subfields or themes: Economic Geography, Environmental Issues & Policy, Geographic Information Systems (GIS) & Spatial Analysis, Health & Population, and Urban Geography & Planning. It should be noted that each subfield has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students can elect to take some or all of the upper-level courses from different subfields.

- **Economic Geography:** GEOG 2LE3, GEOG 3LT3, GEOG 4LE3, GEOG 4LP3, GEOG 4LW3
- **Environmental Issues & Policy:** GEOG 2EI3, GEOG 2EK3, GEOG 3EC3, GEOG 3EE3, GEOG 3EG3, GEOG 3ER3, GEOG 4EA3, GEOG 4ET3, GEOG 4HH3
- **Geographic Information Systems (GIS) & Spatial Analysis:** GEOG 2GI3, GEOG 3GI3, GEOG 3GV3, GEOG 3SR3, GEOG 4GA3, GEOG 4GS3, GEOG 4GT3
- **Health & Population:** GEOG 2HI3, GEOG 3HP3, GEOG 4HD3, GEOG 4HH3
- **Urban Geography & Planning:** GEOG 2UI3, GEOG 3UP3, GEOG 3UR3, GEOG 3UW3, GEOG 4UD3, GEOG 4UH3, GEOG 4US3

Other Courses

Courses not distinguished by subfield include core courses such as research methods, statistics, field courses, internship opportunities and capstone experiences, as well as a broad suite of regional and topical geography courses.

- **Core (Research Methods, Field Courses, Internships, and Capstone):** GEOG 3MA3, GEOG 3MB3, GEOG 3ME3, ENVIRSC 3ME3, GEOG 3MF3, GEOG 3MI3, GEOG 4MF3, GEOG 4MS3, GEOG 4MT6 A/B
- **Regional Geography:** GEOG 2OC3, GEOG 2RC3, GEOG 2RU3, GEOG 2RW3, GEOG 3RW3
- **Topics in Geography:** GEOG 2TS3, GEOG 3TG3, GEOG 4UF3

In planning a program, it is important for students to take note of the prerequisites for certain upper-level courses. Further, not every Geography course listed above is offered every year. For course availability, students are advised to consult "*Class Search*" on Mosaic or contact the School of Geography and Earth Sciences after April 1st for the list of courses that will be offered in the following academic year.

For additional information regarding Geography and Earth Sciences, please see the School of Geography and Earth Sciences (Faculty of Science) section of this calendar.

COMBINED HONOURS IN GEOGRAPHY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of GEOG 1HA3 or GEOG 1HB3 and satisfaction of admission requirements for the Honours program in the other B.A. subject (See *Note 1* and *4* below). For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty of Social Sciences, with programs in the Faculty of Humanities and with the Arts & Science Program.

2. Not every Geography course listed in this Calendar is offered every year. For course availability, students are advised to consult "Class Search" on Mosaic or contact the School of Geography and Earth Sciences after April 1st for the list of courses that will be offered in the following academic year.
3. Students are strongly encouraged to check prerequisites of upper-level Geography courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
4. GEOG 1HA3 and GEOG 1HB3 must be completed by the end of 60 units.
5. Students intending to enrol in GEOG 4MT6 A/B must submit an application to the course coordinator by April 1 of the academic year prior to registration. Application forms are available from the School of Geography and Earth Sciences main office after March 1. Students will be informed of their permission to register in GEOG 4MT6 A/B on April 15. Registration in this course is conditional upon achieving a GPA of at least 7.5.
6. Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to complete MATH 1K03 if a Grade 12 Mathematics U was not completed.
7. No more than 9 units from GEOG 20C3, GEOG 2RC3, GEOG 2RU3, GEOG 2RW3, GEOG 3RW3 may count towards a student's program; additional units taken from this group of courses will count towards elective units.
8. With permission from an Undergraduate Advisor in the School of Geography and Earth Sciences, students enrolled in a combined Honours Geography program may substitute GEOG 3MA3 and/or GEOG 3MB3 with an equivalent research methods and/or statistics course from the other subject.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

Level I: 30 Units

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

Levels II to IV: 90 Units

3 units

- GEOG 2GI3 - Geographic Information Systems

6 units

- GEOG 3MA3 - Research Methods in Human Geography
- GEOG 3MB3 - Data Analysis

(See *Note 8* above.)

3 units

- GEOG 3MF3 - Human Geography Field Camp

12 units

- Level II Geography

(See *Note 7* above.)

15 units

- Level III or IV Geography

(See *Note 7* above.)

36 units

- courses specified for the other subject

0-3 units

0-3 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See *Note 4*)

12-15 units

- Electives

HONOURS GEOGRAPHY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of GEOG 1HA3 or GEOG 1HB3 (see *Note 3* below). For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Not every Geography course listed in this Calendar is offered every year. Students are advised to consult the Master Timetable published by the Office of the Registrar or contact the School of Geography and Earth Sciences after April 1st for the list of courses that will be offered in the following academic year.
2. Students are strongly encouraged to check the prerequisites of upper-level Geography courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
3. GEOG 1HA3 and 1HB3 must be completed by the end of 60 units.
4. Students intending to register in GEOG 4MT6 A/B must submit an application to the course coordinator by April 1 of the academic year prior to registration. Application forms are available from the School of Geography and Earth Sciences main office after March 1. Students will be informed of their permission to register in GEOG 4MT6 A/B on April 15. Registration in this course is conditional upon achieving a GPA of at least 7.5.
5. Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to complete MATH 1K03 if a Grade 12 Mathematics U was not completed.
6. No more than 9 units from GEOG 20C3, GEOG 2RC3, 2RU3, 2RW3, 3RW3 may count towards a student's program; additional units taken from this group of courses will count towards elective units.
7. The School of Geography & Earth Sciences encourages students to embrace academic breadth in both knowledge and skills. As such, a minimum of 6 units of the 39 elective units (above Level I) must be taken from outside of the School of Geography & Earth Sciences.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

Level I: 30 Units

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

Level II: 30 Units

3 units

- GEOG 2GI3 - Geographic Information Systems

15 units

- Level II Geography

(See *Note 6* above.)

0-3 units

0-3 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See *Note 3*)

9-12 units

- Electives

(See *Note 7* above.)

Levels III: 30 Units

9 units

- GEOG 3MA3 - Research Methods in Human Geography
- GEOG 3MB3 - Data Analysis
- GEOG 3MF3 - Human Geography Field Camp

12 units

- Level III Geography

(See *Note 6* above.)

9 units

- Electives

(See *note 7* above.)

Level IV: 30 Units**12 units**

- Level IV Geography

18 units

- Electives

(See *Note 7* above.)

HONOURS GEOGRAPHY AND ENVIRONMENTAL STUDIES (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of GEOG 1HA3 or GEOG 1HB3. (See *Note 3* below.) For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Not every Geography course listed in this Calendar is offered every year. For course availability, students are advised to consult "*Class Search*" on Mosaic or contact the School of Geography and Earth Sciences after April 1st for the list of courses that will be offered in the following academic year.
2. Students are strongly encouraged to check the prerequisites of upper-level Geography courses and to speak with an Undergraduate Advisor in the School of Geography and Earth Sciences regarding course selection.
3. GEOG 1HA3, 1HB3 and ENVIRSC 1C03 must be completed by the end of 60 units.
4. Students intending to register in GEOG 4MT6 A/B must submit an application to the course coordinator by April 1 of the academic year prior to registration. Application forms are available from the School of Geography and Earth Sciences main office after March 1. Students will be informed of their permission to register in GEOG 4MT6 A/B on April 15. Registration in this course is conditional upon achieving a GPA of at least 7.5.
5. Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to complete MATH 1K03 if a Grade 12 Mathematics U was not completed.
6. No more than 9 units from EARTHSC 2GG3, ENVIRSC 2WW3, GEOG 20C3, 2RC3, 2RU3, 2RW3, 3RW3 may count towards a student's program; additional units taken from this group of courses will count towards elective units.
7. The School of Geography & Earth Sciences encourages students to embrace academic breadth in both knowledge and skills. As such, a minimum of 6 units of the 39 elective units (above Level I) must be taken from outside of the School of Geography & Earth Sciences.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

Level I: 30 Units**30 units**

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

Level II: 30 Units**6 units**

- GEOG 2EI3 - Environmental Issues
- GEOG 2GI3 - Geographic Information Systems

12 units

- Level II Geography, Earth Science, Environmental Science

(See *Note 6* above.)

0-6 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- ENVIRSC 1C03 - Climate, Water And Environment

(See *Note 3*)

6-12 units

- Electives

(See *Note 7* above.)

Level III: 30 Units**6 units**

- GEOG 3MA3 - Research Methods in Human Geography
- GEOG 3MB3 - Data Analysis

3 units

from

- GEOG 3ME3
- ENVIRSC 3ME3 - Environmental Field Camp
- GEOG 3MF3 - Human Geography Field Camp

6 units

from

- GEOG 3EC3 - Environmental Catastrophes
- GEOG 3EE3 - Energy and Society
- GEOG 3ER3 - Sustainability and the Economy

6 units

- Level III Geography, Earth Science, Environmental Science

(See *Note 6* above.)

9 units

- Electives

(see *Note 7* above.)

Level IV: 30 Units**6 units**

- GEOG 4EA3 - Environmental Assessment
- GEOG 4ET3 - Environmental Policy, Ethics and Risk

6 units

- Level IV Geography, Earth Science, Environmental Science

18 units

- Electives

(See *Note 7* above.)

GEOGRAPHY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including a grade of C- 4.0 in one of GEOG 1HA3 or GEOG 1HB3. (See *Note 3* below.)

NOTES

1. Not every Geography course listed in this Calendar is offered every year. For course availability students are advised to consult "*Class Search*" on Mosaic or contact the School of Geography and Earth Sciences after April 1st for the list of courses that will be offered in the following academic year.
2. Students are strongly encouraged to check prerequisites of upper-level Geography courses and to speak with an Undergraduate Academic Advisor in the School of Geography and Earth Sciences regarding course selection.
3. GEOG 1HA3 and 1HB3 must be completed by the end of 60 units.
4. Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to complete MATH 1K03 if a Grade 12 Mathematics U was not completed.

5. No more than 9 units from GEOG 20C3, GEOG 2RC3, 2RU3, 2RW3, 3RW3 may count towards a student's program; additional units taken from this group of courses will count towards elective units.
6. The School of Geography & Earth Sciences encourages students to embrace academic breadth in both knowledge and skills. As such, a minimum of 6 units of the 36 elective units (above Level I) must be taken from outside of the School of Geography & Earth Sciences.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

Level 1: 30 Units

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

Level II and III: 60 Units

12 units

- Level II Geography

(See *Note 5* above.)

12 units

- Level III or IV Geography

(See *Note 5* above.)

0-3 units

- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

(See *Note 3*)

33-36 units

- Electives

(See *Note 6* above.)

COMBINED HONOURS IN AGING AND SOCIETY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 5.0 including a grade of at least C in HLTHAGE 1BB3 and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Courses other than those listed below in the Course List may be substituted with the prior permission of the Chair. Students wishing to apply for substitutions must contact the Administrator of the Department of Health, Aging and Society. Given the extensive curriculum revisions that have been made, students are **strongly** encouraged to review course antirequisites in the Course Listings section of the Calendar.
2. Students who have completed HLTH AGE 2A06 or 3Z06 or equivalent are not required to complete HLTHAGE 2A03, 3B03 or 3G03. Alternatively, students may choose to complete the Research Methods course(s) as required by the other subject. Students who choose to complete Research

Methods requirements in the other subject, will replace with equivalent units from Levels II, III or IV Health, Aging and Society courses.

3. Students may take a maximum of 9 units from HLTHAGE 4B03, 4C03, 4H03, 4I03, 4L03, 4N03, 4P03, 4U03, 4V03, 4W03, 4Z06 A/B.
4. HLTHAGE 1AA3: Introduction to Health and Society must be completed by the end of 60 units, however students are strongly encouraged to complete this requirement prior to the end of Level I. Both HLTHAGE 1AA3 and 1BB3 are prerequisites for HLTHAGE 2BB3 which is a required course in Level II of the program.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

9 units

- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2D03 - Continuum of Care
- HLTHAGE 2F03 - Aging and Health Care Systems

3 units

- HLTHAGE 2A03 - Research Methods in Health and in Aging I

3 units

from

- HLTHAGE 3B03 - Advanced Research Inquiry
- HLTHAGE 3G03 - Community Based Research

(See *Note 2* above.)

3-6 units

from

- SOCSCI 2J03 - Introduction to Statistics
- in combined programs within the Faculty of Social Sciences, the Research Methods/Statistics requirement specified for the other subject.

3 units

- HLTHAGE 3L03 - Embodied Aging

3 units

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

9 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4H03 - History and Culture of Aging
- HLTHAGE 4I03 - Aging and Health
- HLTHAGE 4L03 - Social Policy and Aging
- HLTHAGE 4N03 - Aging and Well-Being
- HLTHAGE 4P03 - Leisure and Recreation in Later Life
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging
- HLTHAGE 4V03 - Aging and Humour: The Good, the Bad and the Funny
- HLTHAGE 4W03 - Selected Issues in Aging and Society
- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

(See *Note 3* above)

6 units

from

- *Course List* or Health, Aging and Society

36 units

- Courses as specified for the other subject

0-3 units

- HLTHAGE 1AA3 - Introduction to Health and Society (if not completed in Level 1 see *Note 4*)

9-15 units

- Electives

COURSE LIST

- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- ECON 2CC3 - Health Economics and its Application to Health Policy
- ECON 3D03 - Labour Economics
- ECON 3Q03 - The Economics of Aging
- ECON 3Z03 - Health Economics
- GEOG 2HI3 - Geographies of Health
- GEOG 3HH3
- GEOG 3HP3 - Population Growth and Aging
- KINESIOL 3S03
- KINESIOL 3SS3
- PHILOS 2D03 - Bioethics
- PHILOS 3C03 - Advanced Bioethics
- RELIGST 2C03

- RELIGST 2M03 - Death and Dying: Comparative Views
- RELIGST 2N03 - Death and Dying: The Western Experience
- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 4L03
- SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
- SOCIOLOG 3X03 - Sociology of Aging
- SOCIOLOG 3CC3 - Sociology of the Family and the Life Cycle
- SOCIOLOG 3G03 - Sociology of Health Care
- SOCIOLOG 3HH3 - Sociology of Health

or other designated and approved courses. (See *Note 1* above.)

COMBINED HONOURS IN HEALTH AND SOCIETY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 5.0, including a grade of at least C in HLTHAGE 1AA3 and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

1. See Admission to Level II Programs in Academic Regulations in this section of the Calendar.
2. Students are strongly encouraged to complete HLTHAGE 2A03 and 3B03 or 3G03 to satisfy the Research Methods requirement of the degree, but may complete the Research Methods course(s) as required by the other subject and replace these with equal units of Health, Aging and Society or Course List courses. Given the extensive curriculum revisions that have been made, students are **strongly** encouraged to review course antirequisites in the Course Listings section of the Calendar.
3. Students may take a maximum of 9 units from HLTHAGE 4B03, 4C03, 4D03, 4F03, 4G03, 4I03, 4J03, 4N03, 4O03, 4Q03, 4R03, 4S03, 4T03, 4U03, 4Z06 A/B.
4. HLTHAGE 1BB3: Introduction to Aging and Society must be completed by the end of 60 units, however students are strongly encouraged to complete this requirement prior to the end of Level I. Both HLTHAGE 1AA3 and 1BB3 are prerequisites for HLTHAGE 2BB3 which is a required course in Level II of the program.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 units

- HLTHAGE 2B03 - Social Identity, Health and Illness
- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2F03 - Aging and Health Care Systems

3 units

- HLTHAGE 2A03 - Research Methods in Health and in Aging I

3 units

from

- HLTHAGE 3B03 - Advanced Research Inquiry
- HLTHAGE 3G03 - Community Based Research
- (See *Note 2* above.)

3-6 units

from

- SOCSCI 2J03 - Introduction to Statistics
- In combined programs within the Faculty of Social Sciences, the Research Methods/Statistics requirement specified for the other subject

3 units

- HLTHAGE 3AA3 - State, Civil Society and Health

3 units

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

9 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4D03 - Health, Culture and Diversity
- HLTHAGE 4F03 - Selected Issues in Health and Society
- HLTHAGE 4G03 - Global Health
- HLTHAGE 4I03 - Aging and Health
- HLTHAGE 4J03 - Narratives of Illness
- HLTHAGE 4N03 - Aging and Well-Being
- HLTHAGE 4O03 - Soundscapes of Wellbeing in Popular Music
- HLTHAGE 4Q03 - Representations of Mental Illness
- HLTHAGE 4R03 - Beyond the Social: Determinants of Indigenous Peoples Health
- HLTHAGE 4S03 - Health and the Unfairly Structured City
- HLTHAGE 4T03 - Gender, Sex and Health
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging
- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

(see *Note 3* above)

6 units

from

- Course List* or Health, Aging and Society

36 units

- courses specified for the other subject

0-3 units

- HLTHAGE 1BB3 - Introduction to Aging and Society

(if not completed in Level I see *Note 4*)

9-15 units

- Electives

COURSE LIST

Students are responsible for ensuring that course prerequisites are fulfilled.

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology

- HLTHAGE 4U03 - Professions and Occupations in Health and Aging

or 6 units

- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

33-36 units

- Electives, of which no more than 15 units may be from Health, Aging and Society (the maximum Health, Aging and Society courses to be taken is 66).

HEALTH, AGING AND SOCIETY (B.A.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 3.5 and an average of at least 4.0 in HLTHAGE 1AA3 and 1BB3.

NOTES

1. See Admission to Level II Programs in Academic Regulations in this section of the Calendar.
2. Students who completed HLTH AGE 2A06, 3A03 or 3Z06 or equivalent (please refer to antirequisites in the Course Listings section of this Calendar) are not required to complete HLTHAGE 2A03 or 3B03 or 3G03.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

15 units

- HLTHAGE 2A03 - Research Methods in Health and in Aging I
- HLTHAGE 2B03 - Social Identity, Health and Illness
- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2D03 - Continuum of Care
- HLTHAGE 2F03 - Aging and Health Care Systems

(See Note 2 above.)

6 units

- HLTHAGE 3AA3 - State, Civil Society and Health
- HLTHAGE 3L03 - Embodied Aging

3 units

from

- HLTHAGE 3B03 - Advanced Research Inquiry
- HLTHAGE 3G03 - Community Based Research

3 units

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

33 units

- Electives, of which at least six units must be taken from outside Health, Aging & Society

Minor(s):

MINOR IN HEALTH, AGING AND SOCIETY

NOTES

1. Students are responsible for ensuring that course prerequisites are fulfilled.
2. KINESIOL 2G03 and 3A03 may be used to satisfy Health, Aging and Society requirements for Kinesiology students pursuing a Minor in Health, Aging and Society.
3. Students who have completed GERONTOL and/or HEALTHST courses may count these towards a minor in Health, Aging and Society. Given the extensive curriculum revisions that have been made, students are strongly encouraged to review course antirequisites in the Course Listings section of the Calendar.

REQUIREMENTS

24 units total

6 units

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society

18 units

from

- *Course List* or Health, Aging and Society

COURSE LIST

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3C03 - Health and Environment: Anthropological Approaches
- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ANTHROP 4S03 - The Anthropology of Infectious Disease
- ECON 2CC3 - Health Economics and its Application to Health Policy
- ECON 3Q03 - The Economics of Aging

- SOCIOLOG 3HH3 - Sociology of Health
- SOCIOLOG 3X03 - Sociology of Aging
- SOCIOLOG 4G03 - Advanced Topics in the Sociology of Health and Illness
- SOCPSY 3A03 - Mental Health

MINOR IN MENTAL HEALTH, ADDICTION AND SOCIETY

The minor in Mental Health and Addiction provides students with opportunity to develop an in-depth understanding of the relationship between mental health, addiction, and society. It involves examining the links between mental health and wider social processes, including marginalization, the construction of deviance, and the social determinants of health. Students will also gain a solid understanding of mental illness and some of the ways in which social change and other non-biomedical interventions can be harnessed to address issues related to mental health and addiction and promote wellbeing.

Students will select courses from the Faculties of Social Sciences, Science that address these themes, developing a strong interdisciplinary grasp on the links between mental health, addiction, and society. Beyond the required courses, students will be able to select from a wide variety of courses that cater to their own interests.

It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list. Students are encouraged to speak to their Faculty advisors about Faculty-specific rules about double-counting courses for the minor.

REQUIREMENTS

24 units total

3 units

- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
(or HLTHAGE 2G03 if taken prior to Spring 2016)

3 units

from

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- SOCIOLOG 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II

6 units

- HLTHAGE 2GG3 - Mental Health and Society
(or HLTHAGE 2G03 if taken between June 2016 and August 2017)
- HLTHAGE 2L03 - Drugs, Sex and Alcohol: Society and its Addictions

12 units

from

- Course List (see *below*)

COURSE LIST

- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ECON 2Q03 - Economics of Bad Behaviour
- HLTHAGE 3D03 - Perspectives on Disability, Chronic Illness and Aging
- HLTHAGE 3M03 - Approaches to Mental Health and Resilience
- HLTHAGE 3N03 - Aging and Mental Health
- HLTHAGE 3R03 - Health Inequalities
- HLTHAGE 3Y3 - Indigenous Community Health and Well-Being
- HLTHAGE 4J03 - Narratives of Illness
- HLTHAGE 4Q03 - Representations of Mental Illness
- INDIGST 2F03 - Residential Schools in Canada: History and Impact

- SOCPSY 3A03 - Mental Health
- SOCPSY 3ZZ3 - Small Worlds: Children and Childhood
- SOCWORK 4Y03 - Critical Issues in Mental Health & Addiction: Mad & Critical Disability Studies Perspectives for SW

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

Indigenous Studies Program

L.R. Wilson Hall, Room 1811, ext. 23788

<https://indigenous.mcmaster.ca>

DIRECTOR

Vanessa Watts

COMMITTEE OF INSTRUCTORS

Dawn Martin-Hill/B.A., M.A., Ph.D. (*McMaster*)

Rick Monture/B.A., M.A., Ph.D. (*McMaster*)

Allan Downey/B.A., (*Mercyhurst*), M.A. (*Laurier*), Ph.D. (*Laurier*)

Chelsea Gabel/B.A. (*Western*), M.A. (*Windsor*), Ph.D. (*McMaster*)

Vanessa Watts/B.A. (*Trent*), M.A. (*Victoria*), Ph.D. (*Queen's*)

Kaitlin Debicki/B.A., M.A., Ph.D. (*McMaster*)

ASSOCIATE ELDERS

Ima Johnson, Faithkeeper, Elder-in-Residence, Six Nations

Renee Thomas-Hill, Elder-in-Residence, Six Nations

Bertha Skye, Visiting Elder-in-Residence, Six Nations

For the Honours Arts & Science and Indigenous Studies Program (B.Arts.Sc.), see *Arts & Science Program*.

COMBINED HONOURS IN INDIGENOUS STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program, with a Grade Point Average of at least 5.0 and a grade of C in one of INDIGST 1A03, 1AA3 or RECONCIL 1A03. Satisfaction of

the admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Those students who completed INDIGST 2M06 A/B prior to September 2017 can use these 6-units towards the fulfillment of INDIGST 2M03 and INDIGST 2MM3. Those students who completed INDIGST 2AA3 prior to September 2016 may request approval of an additional 3-unit research methodology course, to use in fulfillment of this 6-unit research methodology requirement. Students are encouraged to consult the ISP Director for approval of an alternate applicable course.
2. Students who have completed only 3 units of level I Indigenous Studies will be required to complete 3 more units of Level I Indigenous Studies by the end of the following academic year.

COURSE LIST

- ANTHROP 2BB3 - Ancient Mesoamerica: Aztecs to Zapotecs
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- CAYUGA 2Z03 - Intermediate Cayuga
- CSCT 4RI3
- ENGLISH 3W03 - Contemporary Native Literature in Canada
- ENGLISH 3X03 - Contemporary Native Literature in the United States

School of Labour Studies

<http://www.labourstudies.mcmaster.ca>

Faculty as of January 15, 2019

DIRECTOR

Stephanie Ross

PROFESSORS

Wayne Lewchuk/(*Economics*) B.A., M.A. (Toronto), Ph.D. (Cambridge)

Judy Fudge/ B.A. (McGill), M.A. (York), LLB (Osgoode), Ph.D. (Oxford)

ASSOCIATE PROFESSORS

Suzanne Mills/(*Geography and Earth Sciences*) B.Sc. (McGill), M.Sc. (Alberta), Ph.D. (Saskatchewan)

Stephanie Premji/(*Health, Aging & Society*) B.A. (Concordia), M.Sc., Ph.D. (Montréal)

Robert H. Storey/(*Sociology*) B.A. (Toronto), M.A. (Dalhousie), Ph.D. (Toronto)

Stephanie Ross/ B.A. (Carleton), M.A. (Carleton), Ph.D. (York)

ASSISTANT PROFESSORS

David Goutor/(*History*) B.A., M.A., Ph.D. (Toronto)

Geraldina Polanco/ (*Sociology*) B.A. (British Columbia), M.A. (Concordia), Ph.D. (British Columbia)

ASSOCIATE MEMBERS

Maroussia Hajdukowski-Ahmed/(*French*) L.ès L., M. ès L., D. de l'U (Paris-Sorbonne)

Martin Dooley/(*Economics*) B.A. (Indiana), M.S., Ph.D. (Wisconsin)

Ruth Frager/(*History*) B.A. (Rochester), M.A., Ph.D. (York)

Nibaldo Galleguillos/ (*Political Science and Peace Studies*), B.A. (Chile), M.A., Ph.D. (Toronto)

Peter Graefe/(*Political Science*) B.A. (McGill), M.A. (York), Ph.D. (Montréal)

Richard Harris/ (*Geography & Earth Sciences*) B.A. (Cambridge), M.A. (Ohio), Ph.D. (Queen's)

Stephen McBride/(*Political Science*) B.Sc. (London), M.A., Ph.D. (McMaster)

Robert J. O'Brien/(*Political Science*) B.A. (Carleton), M.Sc. (London), Ph.D. (York)

Tony Porter/(*Political Science*) B.A. (McGill), M.A., Ph.D. (Carleton)

Joseph B. Rose/(*Business*) B.B.A. (Adelphi), M.B.A. (California), Ph.D. (SUNY-Buffalo) (Industrial Relations)

Sheila Sammon/(*Social Work*) B.A. (Nazareth College, New York), M.S.W. (Toronto)

Robert D. Wilton/(*Geography and Earth Sciences*) B.A. (Hull), M.A., Ph.D. (Southern California)

ADJUNCT LECTURERS

Andrew King/LL.B, B.A. (Toronto)

COMBINED HONOURS IN LABOUR STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of LABRST 1A03 or 1C03 (see Note 3 below), and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
2. See *Admission to Level II Programs in Academic Regulations* in this section of the Calendar
3. Students who have who have completed only 3 units of Level I Labour Studies will be required to complete 3 more units of Level I Labour Studies during their Level II year.
4. Students may not transfer to another Labour Studies program except by the normal application process.
5. Students who complete a six unit Research Methods/Statistics course will reduce their elective component by three units.
6. Students combining Labour Studies with a Humanities subject or with Religious Studies must complete LABRST 4A06 A/B and SOCSCI 2J03. Students in other Combined Honours Programs may complete the Honours Seminar requirement as specified by the other Department and replace LABRST 4A06 A/B with six units Level III Labour Studies courses.
7. Students who have completed LABR ST 4D03 need not complete LABRST 4C03 or 4E03 .

8. Students are encouraged to consult the Labour Studies web site at: <http://www.labourstudies.mcmaster.ca>.

COURSE LIST

- COMMERCE 1BA3 - Organizational Behaviour (or 2BA3)
- COMMERCE 4BC3 - Collective Bargaining
- COMMERCE 4BD3 - Settlement of Industrial Disputes
- LABRST 2H03 - Sports, Work And Labour
- LABRST 2J03 - Work and Racism
- LABRST 2K03 - Will Robots Take All Our Jobs
- LABRST 2M03 - Pop Culture, Media and Work
- LABRST 3A03 - Economics of Labour Market Issues
- LABRST 3B03 - Economics of Trade Unionism and Labour
- LABRST 3C03 - Labour and Employment Law
- LABRST 3D03 - Work: Dangerous to your Health?
- LABRST 3E03 - Gender, Sexuality and Work
- LABRST 3J03 - Independent Study
- LABRST 3K03 - On the Move: Workers in a Global World
- LABRST 3L03 - Labour Policy and Advocacy
- GEOG 4LE3 - Geographies of the North American Political Economy
- SOCWORK 2BB3 - Anti-Oppressive Social Work or any level III or IV *Social & Political Context of Social Work* courses offered by the School of Social Work. Eligible to count for Level II or above.
- SOCWORK 2CC3 - Introduction to Community Practice While student can use this course to fulfill Labour Studies requirements, and while the content is salient to Labour Studies students, this course has a social work focus.
- WOMENST 2A03

SOCIAL AND POLITICAL CONTEXT OF SOCIAL WORK COURSE LIST

- SOCWORK 3B03 - Transnational Lives in a Globalizing World
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 3H03
- SOCWORK 3I03 - Social Work and Indigenous Peoples
- SOCWORK 3O03 - Social Work and Sexualities
- SOCWORK 3Q03
- SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
- SOCWORK 3T03 - Poverty and Homelessness
- SOCWORK 4B03
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4G03 - Selected Topics
- SOCWORK 4I03
- SOCWORK 4L03
- SOCWORK 4Q03 - Indigenizing Social Work Practice Approaches

FIELDS OF STUDY

Fields of Study

Students are responsible for ensuring that course prerequisites are fulfilled.

I. Canadian Politics

POLSCI 2C03, 2D03, 2F03, 2PF3, 2U03, 3BB3, 3C03, 3CL3, 3FF3, 3FG3, 3GG3,
 3J03, 3JJ3, 3K03, 3NN6 A/B, 3RF3, 3Z03, 4CA3, 4CF3, 4JS3, 4JS6 A/B, 4LC3,
 4O06 A/B, 4PO3, 4RR3, 4T06 A/B

II. Comparative Politics

POLSCI 2C03, 2M03, 2PF3, 2U03, 2US3, 2XX3, 3BB3, 3D03, 3EE3, 3F03, 3G03,
 3GG3, 3H03, 3I03, 3JR3, 3K03, 3KK3, 3LC3, 3LL3, 3U03, 3V03, 3VV3, 3Y03, 4A03,
 4AA6 A/B, 4D06 A/B, 4G06 A/B, 4KC3, 4LA3, 4PA3, 4PO3, 4Q06 A/B, 4R06, 4RR3,
 4SS3, 4UF3, 4YR3

III. International Relations

POLSCI 2H03, 2I03, 2J03, 2XX3, 3AA3, 3B03, 3E03, 3EE3, 3FF3, 3GC3, 3JR3, 3K03,
 3KK3, 3LB3, 3P03, 3Q03, 3QQ3, 3X03, 3Y03, 4D06 A/B, 4DV3, 4GC3, 4GG3, 4HR3,
 4KB3, 4KD3, 4KK3, 4LL3, 4NN3, 4PE3, 4PP3, 4QQ3, 4Y03, 4YR3

IV. Political Theory

POLSCI 2006 A/B, 3CC3, 3FR3, 3LA3, 3PB3, 3VV3, 4AA6, 4C06 A/B, 4DD3, 4E06
 A/B, 4DV3, 4FF3, 4HH3, 4JJ3, 4KA3, 4OL3, 4Y03

V. Public Policy

POLSCI 2C03, 2U03, 3B03, 3D03, 3E03, 3FF3, 3GC3, 3J03, 3LL3, 3LP3, 3U03, 3Z03,
 4CF3, 4G06 A/B, 4JS3, 4L03, 4LC3, 4O06 A/B, 4PO3, 4LC3, 4R06, 4RR3, 4SS3

The following courses while satisfying the requirements of the program are
 not specific to any field of study:

POLSCI 1AA3, 1AB3, 1G06 A/B, 2NN3, 2MN3, 3N06 A/B, 3NN3, 3PR3, 3UU3,
 3WP3, 4Z06 A/B, 4ZZ3, 4ZZ6 A/B

COMBINED HONOURS IN POLITICAL SCIENCE AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0
 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B)
 (See *Note 6* below). Satisfaction of the admission requirements for the Honours
 program in the other B.A. subject. For continuation in the program, see *Minimum
 Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

1. Subject to meeting admission requirements, students may combine two
 subjects and be graduated with a combined Honours B.A. degree. These
 combinations are available within the Faculty, with programs in the Faculty
 of Humanities and with the Arts and Science Program.
2. Students should be alerted to those Levels II and III courses that are
 required to qualify for a number of Level IV courses. Students who wish to

enter courses but who lack the necessary prerequisites must obtain the
 permission of the instructor.

3. POLSCI 2NN3 and POLSCI 3NN3 or POLSCI 3N06 A/B and POLSCI 2006
 A/B are required for students enrolled in Honours Political Science
 programs and they are recommended for students in the B.A. program.
4. A maximum of six units of Level IV Political Science will apply toward a
 combined Honours degree in Political Science. Additional units of Level IV
 Political Science may not be used as electives.
5. Students who have completed only 3 units of level I Political Science will
 be required to complete 3 more units of Level I Political Science by the end
 of the following academic year.
6. Completion of POLSCI 1AB3 by the end of Level I is strongly recommend in
 order for students to meet the prerequisite for POLSCI 2NN3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program. (See
Admission above.)

6 units

- POLSCI 2006 A/B - Political Theory

18 units

- Levels II, III, Political Science of which a maximum of nine units may be
 Level II; including at least one course from the *Canadian Politics* Field of
 Study

6 units

- Level IV Political Science (See *Note 4*)

36 units

- courses specified for the other subject

6 units

- POLSCI 2NN3 - Politics by Design *and*
- POLSCI 3NN3 - Statistical Analysis of Primary Data

or

- POLSCI 3N06 A/B

or

- in combined programs within the Faculty of Social Sciences, the six units
 of Research Methods/Statistics course specified for the other subject

0-3 units

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See *Note 5*)

15-18 units

- Electives (the maximum Political Science courses to be taken is 54 units)

HONOURS POLITICAL SCIENCE (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0
 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B)
 (See *Note 5* below). For continuation in the program, see *Minimum Requirements
 for Entering and Continuing in a Program Beyond Level I* in the *Faculty of Social
 Sciences Academic Regulations*.

NOTES

1. Students should be alerted to those Levels II and III courses that are
 required to qualify for a number of Level IV courses. Students who wish to
 enter courses but who lack the necessary prerequisites must obtain the
 permission of the instructor.
2. POLSCI 2NN3 and 3NN3 or 3N06 A/B and POLSCI 2006 A/B are required
 for students enrolled in Honours Political Science programs and recom-
 mended for students in the B.A. program.

- Students may take a maximum of 12 units of Level IV Political Science. Additional units of Level IV Political Science may not be used as electives.
- Students who have completed only 3 units of Level I Political Science will be required to complete 3 more units of Level I Political Science by the end of the following academic year.
- Completion of POLSCI 1AB3 by the end of Level I is strongly recommended in order for students to meet the prerequisite for POLSCI 2NN3.
- Students who wish to minor in Globalization Studies, Justice, Law & Order or Public Leadership should consult with the Department of Political Science to ensure they meet all degree requirements and restrictions.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

6 units

- POLSCI 2006 A/B - Political Theory

24 units

- Levels II, III Political Science of which a maximum of 15 units may be Level II; including at least one course from the *Canadian Politics* Field of Study

12 units

- Level IV Political Science (See Note 1 above.)

6 units

- POLSCI 2NN3 - Politics by Design *and*
- POLSCI 3NN3 - Statistical Analysis of Primary Data

or

- POLSCI 3N06 A/B

0-3 units

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See Note 4)

39-42 units

- Electives, of which no more than 18 units may be from Political Science (the maximum Political Science courses to be taken is 66 units)

**HONOURS POLITICAL SCIENCE SPECIALIZATION
IN GLOBAL CITIZENSHIP (B.A.)**

ADMISSION

Enrollment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion on any Level I program with a Grade Point average of at least a 5.0 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B) (See *Note 5* below). Students are strongly encouraged to complete GLOBALZN 1A03 in Level I. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Students should be alerted to those Levels II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.
- POLSCI 2NN3, 3NN3 and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and they are recommended for students in the B.A. program.
- Students may take a maximum of 12 units of Level IV Political Science. Additional units of Level IV Political Science may not be used as electives.
- POLSCI 4Z06 A/B may be selected if topic relates to Global Citizenship.

- Completion of POLSCI 1AB3 by the end of Level 1 is strongly recommended in order for students to meet the prerequisite for POLSCI 2NN3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

12 units

- POLSCI 2I03 - Global Politics
- POLSCI 2J03 - Global Political Economy
- POLSCI 2006 A/B - Political Theory

3 units

- POLSCI 2D03 - Canadian Democracy

or

- POLSCI 2M03 - Governance, Representation, and Participation in Democracies

6 units

- POLSCI 2NN3 - Politics by Design
- POLSCI 3NN3 - Statistical Analysis of Primary Data

18 units

Global Citizenship Experiential requirement

- 1 term abroad taking equivalent of 9 units from courses similar to those on Global Citizenship Course List and 9 units from Global Citizenship Course List

or

- 2 terms abroad taking 18 units of courses similar to those on Global Citizenship Level III Course List

or

- POLSCI 3WP3, Internship or work experience on a topic of global citizenship and 15 units from Global Citizenship Level III Course List.

3 units

- POLSCI 4GC3 - Advanced Issues in Global Citizenship

9 units

- From the Global Citizenship Level IV Course List

0-3 units

- GLOBALZN 1A03 - Global Citizenship

If not completed in Level I

36-39 units

- Electives, of which no more than 6 units may be from Political Science

GLOBAL CITIZENSHIP LEVEL III COURSE LIST

- POLSCI 3C03 - Government and Politics of Indigenous People
- POLSCI 3CC3 - Political Authority: 20th-Century Political Theory
- POLSCI 3EE3 - International Relations: North-South
- POLSCI 3G03 - Ethnicity and Multiculturalism: Theory and Practice
- POLSCI 3GC3 - Global Climate Change
- POLSCI 3H03 - Honours Issues in Comparative Politics
- POLSCI 3K03 - Migration and Citizenship: Canadian, Comparative and Global Perspectives
- POLSCI 3KK3 - Genocide: Sociological and Political Perspectives
- POLSCI 3LB3 - Globalization and the World Order
- POLSCI 3LC3 - Southeast Asian Politics
- POLSCI 3LL3 - Development and Public Policy
- POLSCI 3PB3 - Politics from Below
- POLSCI 3Q03 - The Causes of War
- POLSCI 3RF3 - The Charter of Rights and Freedoms
- POLSCI 3V03 - Gender and Politics
- POLSCI 3VV3 - Democratic Theory
- POLSCI 3Y03 - Democratization and Human Rights

GLOBAL CITIZENSHIP LEVEL IV COURSE LIST

- POLSCI 4CF3 - Canadian Foreign Policy
- POLSCI 4D06 A/B - International Politics
- POLSCI 4GG3 - Conceptual Issues in Global Politics
- POLSCI 4HR3 - Human Rights
- POLSCI 4JJ3 - Cosmopolitanism
- POLSCI 4KB3 - Non-Western International Relations
- POLSCI 4KC3 - Comparative Democratization
- POLSCI 4KK3 - Advanced Issues in Global Security
- POLSCI 4LA3 - Politics in Latin America
- POLSCI 4NN3 - Studies in Global Political Economy
- POLSCI 4PE3 - Global Political Ecology
- POLSCI 4QQ3 - Issues in International Politics
- POLSCI 4UF3 - US Foreign Policy
- POLSCI 4Y03 - Domination and Decolonization
- POLSCI 4YR3 - Child/Youth Rights and Security in Global Political Perspective
- POLSCI 4Z06 A/B - Honours Essay (*see note 4*)

**HONOURS POLITICAL SCIENCE SPECIALIZATION IN
PUBLIC LAW AND JUDICIAL STUDIES (B.A.)**

ADMISSION

Enrollment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement. Completion on any Level I program with a Grade Point average of at least a 5.0 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B) (*See Note 5* below). For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the *Faculty of Social Sciences Academic Regulations*.

NOTES

1. Students should be alerted to those Levels II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.
2. POLSCI 2NN3 and 3NN3 or 3N06 A/B and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and they are recommended for students in the B.A. program.
3. Students may take a maximum of 12 units of Level IV Political Science. Additional units of Level IV Political Science may not be used as electives.
4. Students who have completed only 3 units of level I Political Science will be required to complete 3 more units of Level I Political Science by the end of the following academic year.
5. Completion of POLSCI 1AB3 by the end of Level I is strongly recommend in order for students to meet the prerequisite for POLSCI 2NN3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(*See Admission* above.)

9 units

- POLSCI 2006 A/B - Political Theory
- POLSCI 2C03 - Force and Fear, Crime and Punishment

3 units

- POLSCI 2D03 - Canadian Democracy

or

- POLSCI 2M03 - Governance, Representation, and Participation in Democracies

6 units

- POLSCI 3CL3 - Constitutional and Public Law in Canada

- POLSCI 3RF3 - The Charter of Rights and Freedoms

or

- POLSCI 3NN6 A/B

18 units

- from the Public Law and Judicial Studies Course List

6 units

- Level IV Political Science (*See Note 1* above.)

6 units

- POLSCI 4JS3 - Judicial Studies
- POLSCI 4LC3 - Research on Law and Courts

6 units

- POLSCI 2NN3 - Politics by Design and
- POLSCI 3NN3 - Statistical Analysis of Primary Data

or

- POLSCI 3N06 A/B

0-3 units

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See Note 4)

33-36 units

- Electives, of which no more than 12 units may be from Political Science (the maximum Political Science courses to be taken is 66 units)

PUBLIC LAW AND JUDICIAL STUDIES COURSE LIST

- LABRST 3C03 - Labour and Employment Law
- POLSCI 3C03 - Government and Politics of Indigenous People
- POLSCI 3CC3 - Political Authority: 20th-Century Political Theory
- POLSCI 3G03 - Ethnicity and Multiculturalism: Theory and Practice
- POLSCI 3GG3 - Federalism
- POLSCI 3JR3 - The Rule of Law and Legal and Judicial Reforms in the Developing World
- POLSCI 3K03 - Migration and Citizenship: Canadian, Comparative and Global Perspectives
- POLSCI 3KA3 - Indigenous Human Rights
- POLSCI 3KK3 - Genocide: Sociological and Political Perspectives
- POLSCI 3LP3 - Topics in Law and Policy
- POLSCI 3V03 - Gender and Politics
- POLSCI 3VV3 - Democratic Theory
- POLSCI 3Y03 - Democratization and Human Rights

POLITICAL SCIENCES (B.A.)

ADMISSION

Completion of any Level I program, with a Grade Point Average of at least 3.5 including a grade of C- or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B) (*see Note 4* below).

NOTES

1. Students should be alerted to those Levels II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.
2. POLSCI 2NN3 and POLSCI 3NN3 or POLSCI 3N06 A/B and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and they are recommended for students in B.A. programs.
3. Students who have completed only 3 units of Level I Political Science will be required to complete 3 more units of Level I Political by the end of the following academic year.
4. Completion of POLSCI 1AB3 by the end of Level I is strongly recommend in order for students to meet the prerequisite for POLSCI 2NN3.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above)

24 units

- Level II, III Political Science of which a maximum of 15 units may be Level II; including at least one course from the *Canadian Politics* Field of Study

(See *Note 2* above)

0-3 units

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See Note 3)

33-36 units

- Electives, of which no more than 18 units can be from Political Science (the maximum Political Science courses to be taken is 42 units)

Minor(s):

MINOR IN JUSTICE, LAW AND ORDER

NOTES

1. In order to declare a Minor in Justice, Law and Order, at least 12 units (above Level I) must be elective to the degree.
2. Students are responsible for ensuring that any prerequisites for preferred upper-year courses are met in advance.

REQUIREMENTS

24 units total

6 units

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

or

- POLSCI 1G06

6 units

- POLSCI 2D03 - Canadian Democracy
- POLSCI 2C03 - Force and Fear, Crime and Punishment

6 units

- POLSCI 3CL3 - Constitutional and Public Law in Canada
- POLSCI 3RF3 - The Charter of Rights and Freedoms

or

- POLSCI 3NN6 A/B

6 units

- from the Multidisciplinary Course List

(See *Note 2*)

MULTIDISCIPLINARY COURSE LIST

- ANTHROP 3FA3 - Forensic Anthropology
- HLTHAGE 2G03
- HLTHAGE 2GG3 - Mental Health and Society
- HLTHAGE 3DD3 - Work: Dangerous to your Health?
- INDIGST 3K03 - Indigenous Human Rights
- LABRST 2W03 - Human Rights and Social Justice
- LABRST 3C03 - Labour and Employment Law
- POLSCI 3C03 - Government and Politics of Indigenous People
- POLSCI 3CC3 - Political Authority: 20th-Century Political Theory
- POLSCI 3G03 - Ethnicity and Multiculturalism: Theory and Practice
- POLSCI 3GG3 - Federalism
- POLSCI 3K03 - Migration and Citizenship: Canadian, Comparative and Global Perspectives
- POLSCI 3KK3 - Genocide: Sociological and Political Perspectives
- POLSCI 3V03 - Gender and Politics
- POLSCI 3VV3 - Democratic Theory
- POLSCI 3Y03 - Democratization and Human Rights
- PSYCH 3CC3 - Forensic Psychology

- RELIGST 2RD3 - Religion and Diversity
- SOCWORK 3H03
- SOCIOLOG 2BB3 - Sociology of Deviance
- SOCIOLOG 2CC3 - Constructing Deviance
- SOCIOLOG 2C06
- SOCIOLOG 3GG3 - Special Topics in the Sociology of Deviance

MINOR IN POLITICAL SCIENCE

REQUIREMENTS

24 units total

6 units

- Level I Political Science

18 units

- Levels II, III Political Science of which up to 12 units may be Level II

MINOR IN PUBLIC LEADERSHIP

This minor is intended to provide students with a strong theoretical, practical and applied understanding of leadership and the role that political and/or public actors can play in the public domain of both democratic and non-democratic states to achieve their policy goals, affect positive social change and impact the policy choices of governments. Students will be prepared for further studies or careers in politics, government, public policy, community organization and activism, education, human rights and law.

Students will select courses from the Faculty of Social Sciences that address these themes, developing a strong interdisciplinary grasp on the different concepts of leadership and their application to different policy and public environments. Beyond the required courses, students will be able to select from a wide variety of courses that cater to their own interests.

It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list. Students are encouraged to speak to their Faculty advisors about Faculty-specific rules about double-counting courses for the minor.

REQUIREMENTS

24 units total

3 units

Foundations of Public Policy, Public Administration and Public Service

- POLSCI 2U03 - Public Policy and Administration

3 units

from

Leadership and Leadership Practices

- POLSCI 3FG3 - Public Service Leadership
- SOCSCI 2LC3 - Leadership and Communications for the Not-For-Profit Sector
- SOCSCI 3EL3 - Leadership Through Experiential Learning

6 units

from

Spaces, Places and Needs for Public Leadership

- POLSCI 2F03 - Politics, Power and Influence in Canada
- POLSCI 2H03 - Globalization and the State
- POLSCI 2XX3 - Politics of the Developing World
- POLSCI 3PB3 - Politics from Below
- RELIGST 2ER3 - Religion, The Body, and the Machine
- RELIGST 2VR3 - Violence and Religion

12 units

from

Other Aspects of Leadership

- POLSCI 3BB3 - Political Communication: Canada and the World
- POLSCI 3C03 - Government and Politics of Indigenous People
- POLSCI 3EE3 - International Relations: North-South
- POLSCI 3F03

- POLSCI 3G03 - Ethnicity and Multiculturalism: Theory and Practice
- POLSCI 3J03 - Honours Issues in Canadian Politics and Canadian Public Policy
- POLSCI 3K03 - Migration and Citizenship: Canadian, Comparative and Global Perspectives
- POLSCI 3LB3 - Globalization and the World Order
- POLSCI 3LL3 - Development and Public Policy
- POLSCI 3V03 - Gender and Politics
- POLSCI 3VV3 - Democratic Theory
- POLSCI 3Y03 - Democratization and Human Rights
- POLSCI 3Z03 - Canadian Public Sector Management
- POLSCI 4006 A/B - Canadian Politics
- RELIGST 3CC3 - Religion and Politics

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

Department of Psychology, Neuroscience & Behaviour (Faculty of Social Sciences)

<http://www.science.mcmaster.ca/pnb/>

HONOURS ARTS & SCIENCE AND PSYCHOLOGY NEUROSCIENCE & BEHAVIOUR

(B.Arts.Sc.; See *Arts & Science Program*)

HONOURS BIOLOGY AND PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.SC.)

(See B.Sc. programs in *Biology, Faculty of Science, Department of Biology*)

HONOURS COGNITIVE SCIENCE OF LANGUAGE (B.A.)

(See *Faculty of Humanities, Department of Linguistics and Languages*)

HONOURS HUMAN BEHAVIOUR (B.A.SC.)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS HUMAN BEHAVIOUR - AUTISM AND

BEHAVIOURAL SCIENCE SPECIALIZATION (B.A.SC.)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS HUMAN BEHAVIOUR - EARLY CHILDHOOD

EDUCATION SPECIALIZATION (B.A.SC.)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS NEUROSCIENCE (B.SC.)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.SC.)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS PSYCHOLOGY, NEUROSCIENCE AND BEHAVIOUR

(B.SC.) (MENTAL HEALTH SPECIALIZATION)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR

(B.SC.) (MUSIC COGNITION SPECIALIZATION)

(See *Faculty of Science, Department of Psychology, Neuroscience & Behaviour*)

HONOURS SOCIAL PSYCHOLOGY (B.A.)

B.A.; (See *Faculty of Social Sciences, Honours Social Psychology (B.A.)*)

COMBINED HONOURS IN PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 10* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 11* below); and credit in one of MATH 1A03, 1LS3 or 1M03.

(See *Notes 2* and *3* below). Satisfaction of the admission requirements for the Honours program in the other subject.

NOTES

1. Application for admission must be made by **April 1**. See Admission to Level II Programs in Academic Regulations in this section of the Calendar.
2. Students with Grade 12 Calculus and Vectors U must take one of MATH 1A03, 1LS3 or 1M03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing one of MATH 1A03, 1LS3 or 1M03. Students with Grade 11 Math must first take MATH 1K03. Students who obtain at least a B- in MATH 1K03, may then take MATH 1M03. Students who obtain less than B- in MATH 1K03, must take MATH 1F03 prior to taking one of MATH 1A03, 1LS3 or 1M03.
3. Students wishing to take more advanced MATH courses are required to have at least a B- in MATH 1M03 or credit in MATH 1A03 or 1LS3.
4. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with Arts and Science Programs.
5. Students considering applying to graduate school should complete a course with a strong research component such as PNB 3Q03 A/B S, 4Q03 A/B S, 4D06 A/B, 4D09 A/B.
6. MATH 1B03 - Linear Algebra I and STATS 2D03 - Introduction to Probability are recommended for students intending to pursue graduate work in psychology or neuroscience. PHYSICS 2G03 - Scientific Computing is recommended for students interested in neuroscience, cognition and perception, and for students intending to pursue graduate work in psychology.
7. PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
8. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B), and the Individual Study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained on The Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.
9. Both PNB 2XD3 and 2XF3 are recommended but not required. PNB 2XD3 is included in the *Psychology Course List* and may be used towards the Level III Psych requirements.
10. Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
11. It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Neurobiology
- HTHSCI 4BB3 - Neuroimmunology
- KINESIOL 3E03 - Neural Control of Human Movement
- KINESIOL 4P03
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MA3
- MUSICCOG 2MP3 - Introduction to Music Cognition
- PNB 2XD3 - Integrative PNB Through Scientific Writing

- All Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- All Level III and IV PNB courses

AND,

all Level III and IV PSYCH courses except:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

Level I: 30 Units

(See *Admission* above)

Level II: 30 Units**12 units**

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XT0 - PNB Tutorial

12 units

- courses as specified for the other subject

0-3 units

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
if not completed in Level I (See *Note 10* above)

3-6 units

- Electives

(See *Notes 9 and 11* above)

Level III: 30 Units**6 units**

- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

6 units

from

- *Course List 2*

(See *Note 9* above)

12 units

- courses as specified for the other subject

6 units

- Electives

(See *Notes 6, 7 and 9* above)

Level IV: 30 Units**12 units**

from

- *Course List 2*

12 units

- courses as specified for the other subject

6 units

- Electives

(See *Notes 6 and 7* above)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.A.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with

a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 8* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 9* below); and credit in one of MATH 1A03, 1LS3 or 1M03 (See *Notes 2 and 3* below).

NOTES

1. Application for admission must be made by **April 1**. See Admission to Level II Programs in Academic Regulations in this section of the Calendar.
2. Students with Grade 12 Calculus and Vectors U must take one of MATH 1A03, 1LS3 or 1M03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing one of MATH 1A03, 1LS3 or 1M03. Students with Grade 11 Math must first take MATH 1K03. Students who obtain at least a B- in MATH 1K03, may then take MATH 1M03. Students who obtain less than B- in MATH 1K03 must take MATH 1F03 prior to taking one of MATH 1A03, 1LS3 or 1M03.
3. Students wishing to take more advanced MATH courses are required to have at least a B- in MATH 1M03 or credit in MATH 1A03 or 1LS3.
4. Students considering applying to graduate school should complete a course with a strong research component such as PNB 3Q03 A/B S, 4Q03 A/B S, 4D06 A/B, 4D09 A/B.
5. MATH 1B03 - Linear Algebra I and STATS 2D03 - Introduction to Probability are recommended for students intending to pursue graduate work in psychology or neuroscience. PHYSICS 2G03 - Scientific Computing is recommended for students interested in neuroscience, cognition and perception, and for students intending to pursue graduate work in psychology.
6. PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
7. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B) and the Individual Study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.
8. Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
9. It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (CAPSTONE COURSES)

- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Advanced Individual Library Study
- PNB 4Q03 A/B S - Advanced Individual Lab Study
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

COURSE LIST 3 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Neurobiology
- HTHSCI 4BB3 - Neuroimmunology
- KINESIOL 3E03 - Neural Control of Human Movement
- KINESIOL 4P03
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MA3
- MUSICCOG 2MP3 - Introduction to Music Cognition

- All Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- All Level III and IV PNB courses

AND

all Level III and IV PSYCH courses **except**:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I

30 units

- (See *Admission* above)

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

0-3 units

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
if not completed in Level I (See Note 8 above)

9-12 units

- Electives (See *Note 5* above.)

Level III: 30 Units

6 units

- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

9 units

from

- *Course List 3*

15 units

Electives

- (See *Notes 5* and *6* above)

Level IV: 30 Units

6 units

from

- *Course List 3*

9 units

- PNB 4D09 A/B - Senior Honours Thesis or
- 6 units from *Course List 2* and 3 units from *Course List 3*
(See Note 7 above)

15 units

Electives

- (See *Notes 5* and *6* above)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MENTAL HEALTH SPECIALIZATION (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with

a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 4* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 5* below); and credit in one of MATH 1A03, 1LS3 or 1M03 (See *Note 2* below).

NOTES

1. Application for admission must be made by April 1. See *Admission to Level II Programs* in *Academic Regulations* in this section of the Calendar.
2. Students with Grade 12 Calculus and Vectors U must take one of MATH 1A03, 1LS3 or 1M03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing one of MATH 1A03, 1LS3 or 1M03. Students with Grade 11 Math must first take MATH 1K03. Students who obtain at least a B- in MATH 1K03, may then take MATH 1M03. Students who obtain less than B- in MATH 1K03 must take MATH 1F03 prior to taking one of MATH 1A03, 1LS3 or 1M03.
3. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis course (PNB 4D09 A/B) and the Individual Study courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S). Students wishing to take these courses must complete and submit a ballot by mid February. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.
4. Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
5. It is recommended that students take BIOLOGY 1M03 in Level I and BIOLOGY 1A03 in Level II.

COURSE LIST (MENTAL HEALTH COURSE LIST)

- PNB 3DV3
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3I06 A/B - Practica in Psychology
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3LA3
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3Q03 A/B S - Individual Lab Study
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03 - Laboratory in Human Memory and Cognition
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3HH3
- PSYCH 3I13
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3VV3 - Human Memory
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4S03 - Genetics, Behaviour and Evolution
- PSYCH 4Y03 - Hormones, Neurochemistry and Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I

30 units

See *Admission* above.

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution

- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality

0-3 units

from

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
if not completed in Level I (See Note 4 above)

3-6 units

- Electives

Level III: 30 Units

12 units

- PNB 3HP3 - History of Psychology
- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics
- PSYCH 3GG3 - Essentials of Developmental Psychology

9 units

from

- *Mental Health List*

9 units

- Electives

Level IV: 30 Units

9 units

- PNB 4A03 - Assessment in Children
- PSYCH 3B03 - Special Populations
- PSYCH 3MT3 - Psychometrics

3 units

from

- *Mental Health List*

9 units

- PNB 4D09 A/B - Senior Honours Thesis
(See Note 3 above)

9 units

- Electives

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MUSIC COGNITION SPECIALIZATION (B.A.)

ADMISSION

Admission to the program requires Advanced Rudiments (or Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years), or a grade of 65% or above on a qualifying music theory exam administered by the School of the Arts (SOTA).

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 13* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 14* below); credit in one of MATH 1A03, 1LS3 or 1M03 (See *Note 2* below); and credit in MUSIC 1A03 or 1AA3. (See *Note 4* below)

NOTES

1. Application for admission must be made by **April 1**. See Admission to Level II Programs in Academic Regulations in this section of the Calendar.
2. Students with Grade 12 Calculus and Vectors U must take one of MATH 1A03, 1LS3 or 1M03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing one of MATH 1A03, 1LS3 or

1M03. Students with Grade 11 Math must first take MATH 1K03. Students who obtain at least a B- in MATH 1K03, may then take MATH 1M03.

Students who obtain less than B- in MATH 1K03, must take MATH 1F03 prior to taking one of MATH 1A03, 1LS3 or 1M03.

3. Students wishing to take more advanced MATH courses are required to have at least a B- in MATH 1M03 or credit in MATH 1A03 or 1LS3.
4. MUSIC 1A03 or 1AA3 is required for admission, however, completion of both are required by the end of Level IV.
5. Students who have completed Grade 3 History (History 1) or Grade 5 History (History 3) from the Royal Conservatory of Music, with a grade of at least 70%, are not required to complete MUSIC 1AA3, and those students who have similarly obtained at least 70% on RCM Grade 4 History (History 2) are not required to complete MUSIC 1A03 either for admission to the Music Cognition Specialization or to fulfill their degree requirements
6. Entrance into MUSIC 1CA3 requires Advanced Rudiments (formerly Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years) or MUSIC 1C03 (with a grade of 75% or above.) or a grade of 65% or above on a qualifying music theory exam administered by the School of the Arts (SOTA). Appointments can be made with SOTA to write the exam on specific dates between February and May. The content of the exam is summarized at: <https://sota.humanities.mcmaster.ca>
7. Students having completed Grade 4 Theory (Harmony 4) from the Royal Conservatory of Music with a grade of 70% or better can receive advanced credit for MUSIC 1CA3 - Theory and Analysis I.
8. Students considering applying to graduate school should complete a course with a strong research component such as MUSICCOG 3QQ3 A/B S, 4D06 A/B, 4QQ3 A/B S; PNB 3QQ3 A/B S, 4D06 A/B, 4D09 A/B, 4QQ3 A/B S.
9. MATH 1B03 - Linear Algebra I and STATS 2D03 - Introduction to Probability are recommended for students intending to pursue graduate work in psychology or neuroscience. PHYSICS 2G03 - Scientific Computing is recommended for students interested in neuroscience, cognition and perception, and for students intending to pursue graduate work in Psychology.
10. PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
11. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B) and the Individual Study courses (PNB 3Q03 A/B S, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://www.science.mcmaster.ca/pnb/>.
12. Students are encouraged to complete both PSYCH 3A03 and 3H03 as part of the *Psychology Course List* requirement.
13. Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
14. It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (CAPSTONE COURSES)

- MUSICCOG 4D06 A/B - Thesis in Music Cognition
- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II
- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Advanced Individual Library Study
- PNB 4QQ3 A/B S - Advanced Individual Lab Study
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

COURSE LIST 3 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Neurobiology
- HTHSCI 4BB3 - Neuroimmunology
- KINESIOL 3E03 - Neural Control of Human Movement
- KINESIOL 4P03
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSIC 2CB3 - Theory and Analysis IV
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSICCOG 3Q03 A/B S - Experimental Laboratory in Music Cognition I
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- All Level III and IV PNB courses,

AND,

All Levels III and IV PSYCH courses **except**:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I

30 units

(See Admission above)

Level II: 30 Units

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- MUSIC 1CA3 - Theory and Analysis I
- MUSIC 1CB3 - Theory and Analysis II

(See Notes 6 and 7 above)

3 units

- MUSICCOG 2MA3
- MUSICCOG 2MP3 - Introduction to Music Cognition

0-3 units

from

- PSYCH 1F03 - Survey of Psychology or
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

if not completed in Level I (See Note 13 above)

0-3 units

- Electives

(See Notes 4 and 9 above)

Level III: 30 Units

6 units

- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics

- PNB 4D09 A/B - Senior Honours Thesis or
- 6 units from *Course List 2* and 3 units from *Course List 3*

(See *Notes 8 and 11* above)**12-15 units**

- Electives

(See *Notes 4, 9 and 10* above)**PSYCHOLOGY (B.A.)****ADMISSION**

Completion of any Level I program with a Grade Point Average of at least 3.5 and a grade of at least C- in PSYCH 1F03 or 1X03.

NOTES

1. One of MATH 1A03, 1F03, 1K03, 1LS3 or 1M03 must be completed by the end of Level II. Completion in Level I is recommended.
2. SOCSCI 2J03 must be completed by the end of Level II.
3. PSYCH 1FF3 or 1XX3 and one of BIOLOGY 1A03, 1M03 or 1P03 or Grade 12 Biology U are recommended and serve as prerequisites for some upper-level Psychology courses. Students are encouraged to check requisites carefully.
4. Students wishing to take PNB 3Q03 A/B S and 3Q03 A/B S must complete and submit a pre-registration ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of

Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.

COURSE LIST 1 (PSYCHOLOGY COURSE LIST)

- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- PNB 3Q03 A/B S - Individual Library Study
- PNB 3Q03 A/B S - Individual Lab Study
- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3B03 - Special Populations
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3BB3
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - The Neurobiology of Learning and Memory
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3U03
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3YY3

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

Level II: 30 Units**3 units**

- SOCSCI 2J03 - Introduction to Statistics

(See *Note 2* above.)**9 units**

Level II Psychology, where at least six units must be from:

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions & Introductory Calculus for Humanities and the Social Sciences
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03 - Calculus for Business, Humanities and the Social Sciences

(If requirement completed in Level I, these units will be taken as non-psychology electives.) (See *Note 1* above.)

9 units

- Electives, excluding Psychology

6 units

- Electives

Level III: 30 Units

12 units

from

- *Course List 1*, of which at least nine units must be from Level III

12 units

- Electives, excluding Psychology

6 units

- Electives

AREAS OF STUDY

(APPLICABLE TO ALL RELIGIOUS STUDIES PROGRAMS)

The Department offers courses in five Areas of Study. Students may focus in any one of these Areas. Courses are allocated to the Areas as follows:

I. ASIAN RELIGIOUS TRADITIONS

- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 2BF3 - Buddhism and Film
- RELIGST 2BN3 - Sex and the City in Buddhism: The Urban Life of Buddhist Nuns in North India
- RELIGST 2BT3 - The Buddhist Tradition in India
- RELIGST 2E03
- RELIGST 2F03 - Storytelling in East Asian Religions
- RELIGST 2I03 - Storytelling in Indian Religion
- RELIGST 2IR3 - Hollywood/Bollywood and Indian Religions
- RELIGST 2K03 - Introduction to Buddhism
- RELIGST 2L03
- RELIGST 2MT3 - Asian Meditation Traditions
- RELIGST 2P03
- RELIGST 2TT3 - Religion and Popular Culture in Contemporary Japan
- RELIGST 3AA3
- RELIGST 3E03 - Japanese Film and Religion
- RELIGST 3L03 - The Indian Religious Tradition

- RELIGST 3P03
- RELIGST 3RR3
- RELIGST 3SA6 A/B - Introduction to Sanskrit Grammar
- RELIGST 3S03 - The East Asian Religious Tradition
- RELIGST 3U03
- RELIGST 3UU3 - Buddhism in East Asia
- RELIGST 3V03
- RELIGST 4B06 A/B - Readings in Sanskrit Texts
- RELIGST 4H03 - Topics in Asian Religions
- SANSKRIT 3A06 A/B - Introduction to Sanskrit Grammar
- SANSKRIT 4B06 A/B - Readings in Sanskrit Texts

II. Biblical Studies

- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 2AP3 - Apocalypse, Then and Now
- RELIGST 2B03 - Women in the Biblical Tradition
- RELIGST 2CE3 - The Sermon on the Mount in Christian Ethics
- RELIGST 2DD3 - The Five Books of Moses
- RELIGST 2EE3 - Prophets of the Bible
- RELIGST 2GG3 - Who was Jesus?
- RELIGST 2HB3 - From Creation to Exile
- RELIGST 2HC3 - Introduction to Biblical Hebrew I
- RELIGST 2HD3 - Introduction to Biblical Hebrew II
- RELIGST 2HH3 - The Birth of Christianity
- RELIGST 2NT3 - The New Testament
- RELIGST 2RB3 - Ethnicity, Race, and the Bible
- RELIGST 2VV3 - The Bible as Literature
- RELIGST 2YY3 - The Bible and Film
- RELIG ST 2Z03
- RELIGST 3DD3 - Jews and Jesus
- RELIGST 3HC3 - Intermediate Hebrew I
- RELIGST 3HD3 - Intermediate Hebrew II
- RELIGST 3J03
- RELIGST 3JB3 - The Bible's Earliest Readers
- RELIGST 3K03 - Interpreting the Christian Bible
- RELIGST 3M03 - Psalms and Wisdom in the Bible
- RELIGST 3N03
- RELIGST 3R03 - Death and the Afterlife in Early Judaism and Christianity
- RELIGST 3T03
- RELIGST 4I03 - Topics in Biblical Studies
- HEBREW 2A03 - Introduction to Biblical Hebrew I
- HEBREW 2B03 - Introduction to Biblical Hebrew II
- HEBREW 3A03 - Intermediate Hebrew I
- HEBREW 3B03 - Intermediate Hebrew II

III. Religion and Culture

- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict
- RELIGST 2BB3 - Images of the Divine Feminine
- RELIGST 2ER3 - Religion, The Body, and the Machine
- RELIGST 2H03
- RELIGST 2HR3 - Humour and Religion
- RELIGST 2M03 - Death and Dying: Comparative Views
- RELIGST 2MT3 - Asian Meditation Traditions
- RELIGST 2MW3 - Religion, Magic and Witchcraft
- RELIGST 2N03 - Death and Dying: The Western Experience
- RELIGST 2P03
- RELIGST 2Q03 - Cults, Conspiracies and Close Encounters
- RELIGST 2RD3 - Religion and Diversity
- RELIGST 2RN3 - Religion in the News
- RELIGST 2SP3 - Sport and/as Religion
- RELIG ST 2SS3

- RELIGST 2TA3 - Islam in North America
- RELIGST 2TT3 - Religion and Popular Culture in Contemporary Japan
- RELIGST 2UD3 - Utopias, Dystopias
- RELIGST 2VR3 - Violence and Religion
- RELIGST 2W03
- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- RELIGST 2WX3 - Health, Healing and Religion: Comparative Views
- RELIG ST 3AA3
- RELIGST 3AR3 - Culture and Religion
- RELIGST 3AU3
- RELIGST 3C03 - Islam in the Modern World
- RELIGST 3E03 - Japanese Film and Religion
- RELIGST 3EE3 - Sacred Journeys
- RELIGST 3FF3 - Gender and Religion
- RELIGST 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- RELIGST 3RH3 - Religion in Hamilton and its Environs
- RELIGST 3ZZ3 - Judaism in the Modern World
- RELIGST 4AE3 - Academic Engagement in Society, Culture, Religion
- RELIGST 4P03 - Religion and Culture
- RELIGST 4SC3 - Society, Culture, Religion Seminar
- RELIGST 4SR3 - Topics in the Sociology of Religion

IV. Religion, Philosophy, and Politics

- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 2C03
- RELIGST 2DS3 - Divine Shakespeare
- RELIGST 2ER3 - Religion, The Body, and the Machine
- RELIGST 2G03
- RELIGST 2GR3 - Evil

- RELIGST 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- RELIGST 4N03 - Topics in Western Religious Traditions

COMBINED HONOURS IN SOCIETY, CULTURE & RELIGION AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level 1 Religious Studies; student will be required to complete three more units of Level 1 Religious Studies prior to the completion of their degree. Satisfaction of the admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
2. All students are encouraged to consult a departmental undergraduate advisor in the selection of their Level II, III and IV courses.

3. Part-time students who anticipate difficulty in fulfilling program requirements should consult a departmental undergraduate advisor as early as possible in their program.
4. With the written approval of a departmental undergraduate advisor, courses from other departments may be substituted for Religious Studies.
5. Students must consult both departments to determine the manner in which the Research Methods/Statistics requirement is to be satisfied.
6. RELIGST 4R06 A/B is strongly recommended for students considering graduate work in Religious Studies.
7. RELIGST 4SC3 is offered each year. Consult the department to find out which other level IV seminars are planned for the next two years. Note that Level IV seminars have the following prerequisite: Enrolment in Level III.
8. Students wishing to focus in Asian Religious Traditions should consider beginning language training in *Sanskrit* or *Japanese* or both early in their program. (See course offerings listed under Sanskrit or Japanese in the *Course Listings* section of this Calendar.) Students wishing to focus in Biblical Studies should consider work in Greek or Hebrew or both. (See course offerings under *Greek* or *Hebrew* in the *Course Listings* section of this Calendar.) Students wishing to focus in Judaism should consider coursework in Hebrew or German (See the *Hebrew* and *German* headings in the *Course Listings* section of this Calendar). Students wishing to focus in Islam should consider coursework in *Arabic*. (See the *Arabic* heading in the *Course Listings* section of this Calendar.) Students wishing to focus in Religion, Philosophy, and Politics might consider coursework in French or German. (See the *French* and *German* headings in the *Course Listings* section of this Calendar.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 units

- (minimum) Level II Religious Studies

12 units

- (minimum) Level III Religious Studies

3 units

- RELIGST 3F03 - Approaches to the Study of Religion

12 units

- Levels II, III or IV Religious Studies

3 units

- Level IV Religious Studies

(See *Notes 6* and *7* above)

36 units

- courses specified for the other subject

3 units

If requirement completed in Level I, these units will be taken as electives.
from

- Either SOCSCI 2J03, three units of a language other than English, or the three-unit Research Methods/Statistics course specified for the other subject.

(See *Notes 5* and *8* above.)

0-3 units

If requirement completed in Level I, these units will be taken as elective.

- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam

- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict

9-12 units

- Electives

HONOURS SOCIETY, CULTURE & RELIGION (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of C in three units of Level 1 Religious Studies; student will be required to complete three more units of Level 1 Religious Studies prior to the completion of their degree. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. All students are encouraged to consult a departmental undergraduate advisor in the selection of their Level II, III and IV courses.
2. Part-time students who anticipate difficulty in fulfilling program requirements should consult a departmental undergraduate advisor as early as possible in their program.
3. With the written approval of a departmental undergraduate advisor, courses from other departments may be substituted for Religious Studies.
4. RELIGST 4R06 A/B is strongly recommended for students considering graduate work in Religious Studies.
5. RELIGST 4AE3 and 4SC3 are offered each year. Consult the department to find out which other level IV seminars are planned for the next two years. Note that Level IV seminars have the following prerequisite: Enrolment in Level III.
6. Students wishing to focus in Asian Religious Traditions should consider beginning language training in Sanskrit or Japanese or both early in their program. (See course offerings listed under *Sanskrit* or *Japanese* in the *Course Listings* section of this Calendar.) Students wishing to focus in Biblical Studies should consider work in Greek or Hebrew or both. (See course offerings under *Greek* or *Hebrew* in the *Course Listings* section of this Calendar.) Students wishing to focus in Judaism should consider coursework in *Hebrew* or *German* (See the Hebrew and German headings in the *Course Listings* section of this Calendar). Students wishing to focus in Islam should consider coursework in *Arabic*. (See the *Arabic* heading in the *Course Listings* section of this Calendar.) Students wishing to focus in Religion, Philosophy, and Politics might consider coursework in French or German. (See the *French* and *German* headings in the *Course Listings* section of this Calendar.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

12 units

- Level II Religious Studies

15 units

- Level III Religious Studies

3 units

- RELIGST 3F03 - Approaches to the Study of Religion

21 units

- Levels II, III or IV Religious Studies.

(See *Notes 4* and *5* above)

6 units

- Level IV Religious Studies

(See *Notes 4* and *5* above)

3 units

If requirement completed in Level I, these units will be taken as electives. from

- Either SOCSCI 2J03 or three units of a language other than English

(See *Note 6* above)

0-3 units

If requirement completed in Level I, these units will be taken as electives.

- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict

27-30 units

- Electives, of which at least six units must be taken from outside of Religious Studies

SOCIETY, CULTURE & RELIGION (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 and a grade of at least C- in three units of Level 1 Religious Studies; student will be required to complete three more units of Level 1 Religious Studies prior to the completion of their degree.

NOTES

1. All students are encouraged to consult a departmental undergraduate advisor at least once each year.
2. Part-time students who anticipate difficulty in fulfilling program requirements should consult a departmental undergraduate advisor as early as possible in their program.
3. With the written approval of a departmental undergraduate advisor, courses from other departments may be substituted for Religious Studies.
4. Not all Level IV seminars are offered each year; consult the Department to find out which Level IV seminars are planned for the next two years. Level IV seminars have the following prerequisite: Enrolment in Level III.
5. Students wishing to focus in Asian Religious Traditions should consider beginning language training in Sanskrit or Japanese or both early in their program. (See course offerings listed under *Sanskrit* or *Japanese* in the Course Listings section of this Calendar.) Students wishing to focus in Biblical Studies should consider work in Greek or Hebrew or both. (See course offerings under *Greek* or *Hebrew* in the Course Listings section of this Calendar.) Students wishing to focus in Judaism should consider coursework in Hebrew or German. (See the *Hebrew* and *German* headings in the *Course Listings* section of this Calendar.) Students wishing to focus in Islam should consider coursework in *Arabic*. (See the *Arabic* heading in the Course Listings section of this Calendar.) Students wishing to focus in Religion, Philosophy, and Politics might consider coursework in French or German. (See the *French* and *German* headings in the *Course Listings* section of this Calendar.)

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 units

- Level II Religious Studies

9 units

- Level III Religious Studies

3 units

- RELIGST 3F03 - Approaches to the Study of Religion

6 units

- Levels II, III or IV Religious Studies.

(See *Note 4* above.)

0-3 units

If requirement completed in Level I, these units will be taken as electives.

- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 1R03 - Introduction to Anthropology: Race, Religion and Conflict

30-33 units

- Electives, of which at least 6 units must be taken outside of Religious Studies.

Minor(s):

MINOR IN HEALTH, WELL-BEING & RELIGION

REQUIREMENTS

24 units total

15 UNITS:

9-12 units

from

- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- RELIGST 2WX3 - Health, Healing and Religion: Comparative Views

24 units

- Religious Studies courses with no more than six units from Level I

Social Psychology Program

Kenneth Taylor Hall, Room 212, ext. 22241

<https://socialpsychology.mcmaster.ca>**DIRECTOR**

Dorothy Pawluch/(Sociology) B.A. (Laurentian), M.A., Ph.D. (McGill)

COMMITTEE OF INSTRUCTORS

Luca Berardi/(Sociology) B.A., M.A. (Toronto), Ph.D. (Alberta)

Meridith Griffin/(Health and Aging) B.Kin. (McMaster), M.A. (British Columbia), Ph.D. (Exeter)

Jeffrey Denis/(Sociology) B.A. (Toronto), M.A., Ph.D. (Harvard)

Tara Marshall/(Health and Aging) B.A. (Queens), M.A., Ph.D. (Toronto)

Sarah Clancy/(Health and Aging) B.A. (McMaster), M.A. (Guelph), Ph.D. (McMaster)

Students study various aspects of Social Psychology from a multidisciplinary perspective to gain an understanding of how individuals behave, how small groups and communities interact, and how societies form practices and priorities. Students will learn how to locate themselves in the complex fabrics of their cultures, their geographies and their power relationships. Students who are interested in many social science perspectives on how people develop over the lifespan and how they behave in different environments and circumstances should consider this program.

HONOURS SOCIAL PSYCHOLOGY (B.A.)**ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in SOCPSY 1Z03 and successful completion of one of PSYCH 1F03, PSYCH 1X03, or SOCIOL 1Z03 (or SOCIOL 1A06 A/B). Completion of SOCIOL 1Z03 and one of PSYCH 1F03, PSYCH 1X03 is required by the end of the first term in Level II. Completion of both requirements in Level I is strongly recommended. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Students must have completed both an introductory Psychology course (either PSYCH 1F03 and PSYCH 1X03) and an introductory Sociology course (SOCIOL 1Z03 (or SOCIOL 1A06 A/B)) by the end of the first term in Level II.
2. Students are responsible for ensuring that they meet the prerequisites for any course they wish to take from the course lists.
3. Students considering a graduate program should consult a departmental advisor to plan a program of study that meets admission requirements for such programs. Additional courses may be required.
4. This program does not provide the appropriate preparation for students to enter graduate studies in clinical psychology. Please refer to the Honours Psychology, Neuroscience & Behaviour (B.A.) program in this section of the calendar.
5. Students may take a maximum of 12 units of Level IV courses.
6. Social Psychology at McMaster encompasses a broad area. The program is flexible in that students are able to select from a wide range of courses those that interest them most. However, for those students who wish to give their studies a tighter focus, there are several thematic areas to consider in making course selections.

MENTAL HEALTH

- ANTHROP 3HI3 - The Anthropology of Health, Illness and Healing
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ECON 2CC3 - Health Economics and its Application to Health Policy

School of Social Work

<http://www.socialwork.mcmaster.ca>

Faculty as of January 15, 2019

DIRECTOR

Christina Sinding

PROFESSORS

Christina Sinding/(*Health, Aging and Society*) B.A. (Western Ontario), M.A. (McMaster), Ph.D. (Toronto)

Y. Rachel Zhou/(*Institute on Globalization and the Human Condition*) B.A., LLM (Wuhan, China), M.A., Ph.D. (Toronto)

ASSOCIATE PROFESSORS

Stephanie Baker Collins/B.A. (Calvin College), M.A., S.W.P. (McMaster), Ph.D. (Toronto)

Mirna E. Carranza/B.S.W. (El Salvador), M.T.S (Wilfrid Laurier), Ph.D. (Guelph)

Gary C. Dumbrill/B.Sc. (South Bank, London), M.S.W. (York), Ph.D. (Toronto)

Ann Fudge Schormans/B.P.E., B.A. (McMaster), B.S.W. (York), M.S.W. (McMaster)

Saara Greene/B.A., B.S.W. (Manitoba), M.S.W. (McGill), Ph.D. (Edinburgh)

ASSISTANT PROFESSORS

Janice Chaplin/ B.A. (*Mount Allison*), B.S.W., M.S.W. (McMaster)

Bonnie Freeman/B.A., B.S.W., M.S.W. (McMaster) Ph.D. (Laurier)

Randy Jackson/(*Health, Aging and Society*) B.A. (Ottawa), M.A. (Manitoba)

Ameil Joseph/B.A. (Waterloo), M.S.W. (Laurier), Ph.D. (York)

Tara La Rose/B.S.W. (Ryerson), M.S.W. (Dalhousie), Ph.D. (Toronto)

Sandra Preston/B.A., M.A., Ph.D. (McMaster)

Jennie Vengris/B.A., B.S.W., M.S.W. (McMaster)

ADJUNCT ASSOCIATE PROFESSOR

Adrienn Chambon/ (Faculty of Social Work, Toronto), B.A., M.A. (University of Paris-X), B.S.W. (Haifa), Ph.D. (Chicago)

Ken Moffatt/(School of Social Work, Ryerson), B.E.S. (Waterloo), M.S.W., Ph.D. (Toronto)

ASSOCIATE MEMBERS

Karen A. Balcom/(History), B.A. (Carleton), M.A. (Dalhousie), Ph.D. (Rutgers)

Amanda Grenier/(Health, Aging & Society), B.S.W. (Windsor), M.S.W., Ph.D. (McGill)

Wayne Lewchuk/(Economics) B.A., M.A. (Toronto), Ph.D. (Cambridge)

Robert D. Wilton/(Geography and Earth Sciences) B.A. (Hull), M.A., Ph.D. (Southern California)

COMBINED BACHELOR OF ARTS/BACHELOR OF SOCIAL WORK (B.A./B.S.W.)

This program has been closed and is no longer accepting applications. The School of Social Work introduced the Honours Bachelor of Social Work degree program which started in September 2016. The required Social Work courses and professional accreditation are identical for both programs. The programs are differentiated only by the number of courses taken outside of the School of Social Work. For the new Honours Bachelor of Social Work program, see Honours Bachelor of Social Work in this section of the Calendar.

Program requirements for students currently enrolled in the Combined Bachelor of Arts/Bachelor of Social Work (B.A./B.S.W.) may be found below.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CMST 1A03 - Introduction to Communication
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- GLOBALZN 1A03 - Global Citizenship
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- PEACEST 1A03 - Introduction to Peace Studies
- POLSCI 1G06 A/B
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- PSYCH 1F03 - Survey of Psychology
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1B06 A/B

- RELIG ST 1D06
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1K03
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and a Bit of Everything
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- SOCIOL 1A06 A/B
- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

PROGRAM NOTES

1. **Course Groupings:** There are two groups of courses in the Social Work program:
 - Foundations of Social Work includes core courses which are required and are available to social work students only;
 - Social and Political Context of Social Work: Social Work students must take 12 units from the Social and Political Context of Social Work group of courses, including SOCWORK 4J03. Social and Political Context of Social Work courses are also available for elective credit by undergraduates in Level III or above of a non-Social Work program. All Social and Political Context of Social Work courses have limited enrolment.

FOUNDATIONS OF SOCIAL WORK

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
- SOCWORK 2B03 - Social Welfare: General Introduction
- SOCWORK 2BB3 - Anti-Opressive Social Work
- SOCWORK 3D06 A/B S - General Social Work I
- SOCWORK 3DD6 A/B S - Field Practicum I
- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II
- SOCWORK 4003
- SOCWORK 4X03 - Social Work with Families

Social and Political Context of Social Work

- SOCWORK 3B03 - Transnational Lives in a Globalizing World
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 3H03 - Justice and Social Welfare
- SOCWORK 3O03 - Social Work and Sexualities
- SOCWORK 3Q03 - Indigenizing Social Work Practice Approaches
- SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
- SOCWORK 3T03 - Poverty and Homelessness
- SOCWORK 4B03 - Violence in Intimate Relationships
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4G03 - Selected Topics
- SOCWORK 4I03 - Social Work and Indigenous Peoples
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4L03 - Social Work with an Aging Population
- SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
- SOCWORK 4SA3 - Critical Child Welfare: From Theory to Practice Part I
- SOCWORK 4SB3 - Critical Child Welfare: From Theory to Practice Part II
- SOCWORK 4U03 - Immigration, Settlement and Social Work

- SOCWORK 4W03 - Child Welfare
 - SOCWORK 4Y03 - Critical Issues in Mental Health & Addiction: Mad & Critical Disability Studies Perspectives for SW
2. **Progression Within Program:** Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2B03, 2BB3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4O03 and 4X03, a *Pass* in their field placements SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a *Pass* designation in either field placement (SOCWORK 3DD6 A/B S and 4DD6 A/B S), the student may not proceed in the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or *Pass* requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or *Pass* requirement after repeating the course or placement may not continue in the program.
 3. Students who have completed SOC WORK 2E03 but not 3A03 must take both SOCWORK 3E03 and 3F03 and reduce their selections from the Social and Political Context Group to 9 units (selection must still include SOCWORK 4J03). Those students who have taken SOC WORK 3A03 but not 2E03 must contact the School of Social Work for guidance on completion of program requirements.
 4. Students must complete three units of Social Sciences Research Methods (e.g. SOCIOL 2Z03, SOCPSY 2K03 or HLTHAGE 2A03). A statistics course may not substitute for a research methods course.
 5. **Graduation:** The B.S.W will be granted only if the student has achieved a grade of at least C+ in each of SOCWORK 2A06 A/B, 2B03, 2BB3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4O03 and 4X03, a *Pass* in SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0.
 6. Students are expected to assume the cost of travelling to and from field practice agencies and for any related expenses.
 7. Students in the social work program must apply for third and fourth year field placements (SOCWORK 3DD6 A/B S and 4DD6 A/B S), and are able to rank their placements in terms of preference. While efforts are made to match placements with student preferences, the final assignment of placement settings is constrained by many factors, including the availability of settings and field and faculty resources. Students may therefore be required to complete a field placement in an agency that is not among their preferred options.

REQUIREMENTS

138 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

12 units

- **SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work**
- SOCWORK 2B03
- **SOCWORK 2BB3 - Anti-Opressive Social Work**
(SOCWORK 2A06 A/B, SOCWORK 2B03 and SOCWORK 2BB3 must be completed prior to enrolling in SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S)

12 units

- **SOCWORK 3D06 A/B S - General Social Work I**

- SOCWORK 3DD6 A/B S - Field Practicum I
(which must be completed prior to enrolling in SOCWORK 4D06 A/B S and SOCWORK 4DD6 A/B S)

12 units

- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II

12 units

- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4X03 - Social Work with Families

(See Program Note 3 above.)

12 units

- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- Nine additional units selected from the Social and Political Context of Social Work courses

(See Program Note 1 above.)

3 units

- Social Sciences Research Methods. (These units will be taken as electives for the B.A.)

(See Program Note 4 above.)

24 units

- courses specified for the B.A. (This may vary according to the B.A. program.)

21 units

- Electives. (Other requirements may be specified by the B.A. program.)

BACHELOR OF SOCIAL WORK (B.S.W.)

ADMISSION

Enrolment in this program is limited. Eligibility is dependent upon completion of an undergraduate degree from a recognized university, including a total of six units of introductory Social Work or introductory Sociology and six additional units of introductory level courses from the Course List below (or equivalent) Students who are interested in the B.S.W. (post degree) are strongly encouraged to take both SOCWORK 1AA3 and SOCWORK 1BB3 during their first degree. Students are also encouraged to take INDIGST 1A03 - Introduction to Indigenous Studies, in their first degree, as completion of this course will be required for completion of the B.S.W. To be considered for admission, students must normally have a minimum average of 6.0 on the most recent 30 units (five full credits) of university-level courses completed and evidence of personal suitability which may be evaluated by one or a combination of written statements, tests or interviews.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CMST 1A03 - Introduction to Communication
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- GLOBALZN 1A03 - Global Citizenship
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture

- PEACEST 1A03 - Introduction to Peace Studies
- POLSCI 1G06 A/B
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- PSYCH 1F03 - Survey of Psychology
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1B06 A/B
- RELIG ST 1D06
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1K03
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCSOI 1SS3 - Inquiry in the Social Sciences
- SOCSOI 1T03 - Life, the University, and a Bit of Everything
- SOCWORK 1A06 A/B
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1A06 A/B
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

ADMISSION NOTES

1. Students who have successfully completed the two-year College of Applied Arts and Technology Social Services Diploma with a minimum Grade Point Average of 3.0 on a 4.0 scale (75%) are considered to have completed the equivalent of SOCWORK 1AA3 and SOCWORK 1BB3. Students who have successfully completed this diploma with a cumulative average of 3.4 - 4.0 (85%-100%) are not required to complete six additional units of introductory level courses from the Course List above to be eligible for admission.
2. An applicant is required to complete the prerequisite undergraduate degree work by April of the year in which application is made.
3. Aboriginal students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.
4. Enrolment in the B.S.W. program is limited. Students who intend to apply to the B.S.W. program must follow the application instructions as found on the School of Social Work website: <http://www.socialwork.mcmaster.ca>. Applicants must also apply to the University.
5. All applications for admission to the School of Social Work are considered annually and must be made directly to the School well before March 1 for the Fall/Winter term.

TWO-TIER APPLICATIONS

Individuals interested in the B.S.W. program must complete two application forms as follows:

GENERAL APPLICATION (FEBRUARY 1)

1. If you wish to study full-time, you must complete the 105D on-line application form at <http://www.ouac.on.ca/> or, if you are a McMaster graduate, obtain the McMaster Returning Student Application at <http://future.mcmaster.ca/admission/process/returning>.
2. In order to allow adequate time for the processing of the General Application, applicants are advised to submit their applications by February 1.

SUPPLEMENTARY APPLICATION (MARCH 1)

1. Students must follow the application instructions as found on the School of Social Work web site: <http://www.socialwork.mcmaster.ca>.
2. It is **impossible** to consider applicants whose Supplementary Application arrives after the March 1 deadline. Questions or concerns may be directed to the School of Social Work.

PROGRAM NOTES

1. **Course Groupings:** There are two groups of courses in the Social Work program:
 - **Foundation of Social Work.** This category includes core courses which are required by social work students, most of which are available to social work students only. Exceptions to this include SOCWORK 2BB3 and SOCWORK 2CC3 which have a limited number of seats for undergraduates in a Labour Studies program and SOCWORK 4J03 which has a limited number of seats for undergraduates in a Labour Studies program and undergraduates in Level III or above of a non-Social Work/Labour Studies program who have completed SOCWORK 1AA3 or SOCWORK 1BB3.
 - **Social and Political Context of Social Work.** Social Work students must take 3-9 units from the Social and Political Context of Social Work group of courses, depending on if INDIGST 1A03 - Introduction to Indigenous Studies, and Social Research methods were completed in the first degree. All Social and Political Context of Social Work courses except SOCWORK 4SA3 and SOCWORK 4SB3 are available for credit by undergraduates in the Labour Studies program and as elective credit for undergraduates in Level III or above of a non-Social Work/Labour Studies program who have completed SOCWORK 1AA3 or SOCWORK 1BB3. Registration in SOCWORK 4SA3 and SOCWORK 4SB3 is restricted to Social Work students who have received permission of the School of Social Work. All Social and Political Context of Social Work courses have limited enrolment.

FOUNDATION OF SOCIAL WORK

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
- SOCWORK 2BB3 - Anti-Opressive Social Work
- SOCWORK 2CC3 - Introduction to Community Practice
- SOCWORK 3D06 A/B S - General Social Work I
- SOCWORK 3DD6 A/B S - Field Practicum I
- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4003
- SOCWORK 4X03 - Social Work with Families
- SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy

SOCIAL AND POLITICAL CONTEXT OF SOCIAL WORK

- SOCWORK 3B03 - Transnational Lives in a Globalizing World
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 3I03 - Social Work and Indigenous Peoples
- SOCWORK 3L03 - Violence: Social Justice Perspectives and Responses
- SOCWORK 3O03 - Social Work and Sexualities
- SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
- SOCWORK 3T03 - Poverty and Homelessness
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4G03 - Selected Topics
- SOCWORK 4I03 - Social Work and Indigenous Peoples
- SOCWORK 4Q03 - Indigenizing Social Work Practice Approaches

- SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
 - SOCWORK 4SA3 - Critical Child Welfare: From Theory to Practice Part I
 - SOCWORK 4SB3 - Critical Child Welfare: From Theory to Practice Part II
 - SOCWORK 4U03 - Immigration, Settlement and Social Work
 - SOCWORK 4W03 - Child Welfare
 - SOCWORK 4Y03 - Critical Issues in Mental Health & Addiction: Mad & Critical Disability Studies Perspectives for SW
2. **Progression Within Program:** Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a *Pass* in their field placements SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a CA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a *Pass* designation in either field placement (SOCWORK 3DD6 A/B S and 4DD6 A/B S), the student may not proceed in the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or *Pass* requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or *Pass* requirement after repeating the course or placement may not continue in the program.
 3. Students who have completed SOCWORK 2E03 but not 3A03 must take both SOCWORK 3E03 and 3F03 and reduce their selections from the Social and Political Context Group to 9 units (selection must still include SOCWORK 4J03). Those students who have taken SOCWORK 3A03 but not 2E03 must contact the School of Social Work for guidance on completion of program requirements.
 4. Students who were admitted to this program in 2017-2018 or later must complete INDIGST 1A03 - Introduction to Indigenous Studies. If this requirement was not completed prior to admission to the B.S.W. program, students must replace three units from the Social and Political Context of Social Work courses with INDIGST 1A03.
 5. Students must complete three units of Social Sciences Research Methods (e.g. SOCIOL 2Z03 or SOCPSY 2K03 or HLTHAGE 2A03). If this requirement was not completed prior to admission to the B.S.W. program, students must replace three units from the Social and Political Context of Social Work courses with a research methods course. A statistics course may not substitute for a research methods course.
 6. **Graduation:** To qualify for the B.S.W. students must complete a total of 60 units. The B.S.W. will be granted only if the student has achieved a grade of at least C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a *Pass* in SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a CA of at least 6.0.
 7. Students are expected to assume the cost of travelling to and from field practice agencies and for any related expenses.
 8. Students in the social work program must apply for third and fourth year field placements (SOCWORK 3DD6 A/B S and 4DD6 A/B S), and are able to rank their placements in terms of preference. While efforts are made to match placements with student preferences, the final assignment of placement settings is constrained by many factors, including the availability of settings and field and faculty resources. Students may therefore be required to complete a field placement in an agency that is not among their preferred options.

REQUIREMENTS

60 units total

12 units

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
 - SOCWORK 2BB3 - Anti-Oppressive Social Work
 - SOCWORK 2CC3 - Introduction to Community Practice
- (SOCWORK 2A06 A/B, SOCWORK 2BB3 and SOCWORK 2CC3 must be completed prior to enrolling in SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S)*

12 units

- SOCWORK 3D06 A/B S - General Social Work I
 - SOCWORK 3DD6 A/B S - Field Practicum I
- (SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S must be completed prior to enrolling in SOCWORK 4D06 A/B S and SOCWORK 4DD6 A/B S)*

12 units

- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II

15 units

- SOCWORK 3E03 - Individual Practice Across the Lifespan
 - SOCWORK 3F03 - Social Work with Groups
 - SOCWORK 4J03 - Social Change: Social Movements and Advocacy
 - SOCWORK 4X03 - Social Work with Families
 - SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy
- (See Program Note 3 above.)*

3-9 units

- from the *Social and Political Context of Social Work* courses (See Program Notes 4 and 5 above)

3 units

- INDIGST 1A03 - Introduction to Indigenous Studies

Note: If this requirement was completed prior to admission, these units must be chosen from the Social and Political Context of Social Work courses. (See Program Note 4 above)

3 units

- Social Sciences Research Methods. If requirement was completed prior to admission, these units must be chosen from the Social and Political Context of Social Work courses.

(See Program Note 5 above.)

HONOURS BACHELOR OF SOCIAL WORK (B.S.W.)

ADMISSION

Enrolment in this program is limited. Eligibility is dependent upon completion of any Level I program including a total of six units of introductory Social Work or introductory Sociology and six additional units of introductory level courses from the Course List below (or equivalent). Students who are interested in the Honours B.S.W. are strongly encouraged to take both SOCWORK 1AA3 and SOCWORK 1BB3. Students are also encouraged to take INDIGST 1A03: Introduction to Indigenous Studies, in level I as this course will be required for completion of the B.S.W. Admission requires, as a minimum, completion of any level I program with a grade point average of at least 6.0 and evidence of personal suitability which may be evaluated by one or a combination of written statements, tests or interviews.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CMST 1A03 - Introduction to Communication
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development

- GLOBALZN 1A03 - Global Citizenship
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 1C03 - The Future of Work
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- PEACEST 1A03 - Introduction to Peace Studies
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- POLSCI 1G06 A/B
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03 - Reconciling What? Indigenous Relations in Canada
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1B06 A/B
- RELIGST 1D06
- RELIGST 1I03 - Religious Themes in Modern Culture
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 1K03
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and a Bit of Everything
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1A06 A/B
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- WOMENST 1A03 - Women, Culture, Power
- WOMENST 1AA3 - Women Transforming the World

ADMISSION NOTES

1. Students who have successfully completed the two-year College of Applied Arts and Technology Social Services Diploma with a minimum cumulative average Grade Point Average of 3.0 on a 4.0 scale (75%) are considered to have completed the equivalent of SOCWORK 1AA3 and SOCWORK 1BB3. Students who completed this diploma with a cumulative average of 3.4 - 4.0 (85%-100%) will receive 24 units of unspecified transfer credit upon admission to the program and are not required to complete six additional units of introductory level courses from the Course List above to be eligible for admission.
2. An applicant must complete Level I by April of the year in which application is made.
3. Students who intend to apply for this program must follow the application instructions as found on the School of Social Work web site: www.socialwork.mcmaster.ca. Students who are unable to access this web site must consult the School of Social Work prior to the application deadline.
4. All applications for admission to the School of Social Work are considered annually and must be made directly to the School by March 1 for the Fall/Winter term.

5. Indigenous students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.
6. Applicants **transferring** from other universities (See *Two-Tier Applications* below) **must also apply** through the Ontario Universities' Application Centre (OUAC) and must normally complete a total of six units of Introductory Sociology or introductory Social Work and six additional units from the *Course List*. (See *Admission* above.)

TWO-TIER APPLICATIONS

If you are transferring from a university other than McMaster, or a college, you must complete two application forms as follows:

GENERAL APPLICATION (FEBRUARY 1)

1. If you wish to study full-time, complete the OUAC 105D on-line application at <http://www.ouac.on.ca/> showing your interest in the Honours B.S.W. program.
2. To allow adequate time for the processing of the General Application, applicants are advised to submit their applications by **February 1**.

SUPPLEMENTARY APPLICATION (MARCH 1)

1. Students must follow the application instructions as found on the School of Social Work web site: www.socialwork.mcmaster.ca/. Students who are unable to access this web site must contact the School of Social Work prior to **March 1**.
2. It is **impossible** to consider applicants whose Supplementary Application arrives after the March 1 deadline. Questions or concerns may be directed to the School of Social Work.

Offers of acceptance cannot be deferred; students must complete a required social work course in the year of admission.

PROGRAM NOTES

1. **Course Groupings:** There are two groups of courses in the Social Work program:
 - **Foundation of Social Work.** This category includes core courses which are required by social work students, most of which are available to social work students only. Exceptions to this include SOCWORK 2BB3 and SOCWORK 2CC3 which have a limited number of seats for undergraduates in a Labour Studies program and SOCWORK 4J03 which has a limited number of seats for undergraduates in a Labour Studies program and undergraduates in Level III or above of a non-Social Work/Labour Studies program who have completed SOCWORK 1AA3 or SOCWORK 1BB3.
 - **Social and Political Context of Social Work.** Social Work students must take 9 units from the Social and Political Context of Social Work group of courses. Social and Political Context of Social Work courses except SOCWORK 4SA3 and SOCWORK 4SB3 are also available for elective credit by undergraduates in the Labour Studies program and undergraduates in Level III or above of a non-Social Work program who have completed SOCWORK 1AA3 or SOCWORK 1BB3. Registration in SOCWORK 4SA3 and SOCWORK 4SB3 is restricted to Social Work students who have received permission of the School of Social Work. All Social and Political Context of Social Work courses have limited enrolment.
 - **Foundations of Social Work**
 - SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
 - SOCWORK 2BB3 - Anti-Opressive Social Work
 - SOCWORK 2CC3 - Introduction to Community Practice
 - SOCWORK 3D06 A/B S - General Social Work I
 - SOCWORK 3DD6 A/B S - Field Practicum I
 - SOCWORK 3E03 - Individual Practice Across the Lifespan
 - SOCWORK 3F03 - Social Work with Groups

- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4X03 - Social Work with Families
- SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy
- **Social and Political Context of Social Work**
 - SOCWORK 3B03 - Transnational Lives in a Globalizing World
 - SOCWORK 3C03 - Social Aspects of Health and Illness
 - SOCWORK 3I03 - Social Work and Indigenous Peoples
 - SOCWORK 3L03 - Violence: Social Justice Perspectives and Responses
 - SOCWORK 3O03 - Social Work and Sexualities
 - SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
 - SOCWORK 3T03 - Poverty and Homelessness
 - SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
 - SOCWORK 4G03 - Selected Topics
 - SOCWORK 4QQ3 - Indigenizing Social Work Practice Approaches
 - SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
 - SOCWORK 4SA3 - Critical Child Welfare: From Theory to Practice Part I
 - SOCWORK 4SB3 - Critical Child Welfare: From Theory to Practice Part II
 - SOCWORK 4U03 - Immigration, Settlement and Social Work
 - SOCWORK 4W03 - Child Welfare
 - SOCWORK 4Y03 - Critical Issues in Mental Health & Addiction: Mad & Critical Disability Studies Perspectives for SW

2. **Progression Within Program:** Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a Pass in their field placements SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a Pass designation in either field placement (SOCWORK 3DD6 A/B S and 4DD6 A/B S), the student may not proceed in the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or Pass requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or Pass requirement after repeating the course or placement may not continue in the program.
3. Students who have completed **SOCWORK 2E03** but not **3A03** must take both SOCWORK 3E03 and 3F03 and reduce their selections from the Social and Political Context Group to 9 units (selection must still include SOCWORK 4J03). Those students who have taken **SOCWORK 3A03** but not **2E03** must contact the School of Social Work for guidance on completion of program requirements.
4. Students who were admitted to this program in 2017-2018 or later must complete INDIGST 1A03 - Introduction to Indigenous Studies. If this course was taken in level I then students will be required to take an additional 3 units of electives.
5. Students must complete three units of Social Sciences Research Methods (e.g. SOCIOL 2Z03, SOCPSY 2K03 or HLTHAGE 2A03). A statistics course may not substitute for a research methods course.
6. **Graduation:** The B.S.W will be granted only if the student has achieved a grade of at least C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a Pass in SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0.

7. Students are expected to assume the cost of travelling to and from field practice agencies and for any related expenses.
8. Students in the social work program must apply for third and fourth year field placements (SOCWORK 3DD6 A/B S and 4DD6 A/B S), and are able to rank their placements in terms of preference. While efforts are made to match placements with student preferences, the final assignment of placement settings is constrained by many factors, including the availability of settings and field and faculty resources. Students may therefore be required to complete a field placement in an agency that is not among their preferred options.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program. (See *Admission* above.)

12 units

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
- SOCWORK 2BB3 - Anti-Oppressive Social Work
- SOCWORK 2CC3 - Introduction to Community Practice
(SOCWORK 2A06 A/B, SOCWORK 2BB3 and SOCWORK 2CC3 must be completed prior to enrolling in SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S)

12 units

- SOCWORK 3D06 A/B S - General Social Work I
- SOCWORK 3DD6 A/B S - Field Practicum I

(SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S must be completed prior to enrolling in SOCWORK 4D06 A/B S and SOCWORK 4DD6 A/B S)

12 units

- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II

15 units

- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4X03 - Social Work with Families
- SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy

(See *Program Note 3* above.)

9 units

from

- the *Social and Political Context of Social Work* courses

3 units

- Social Sciences Research Methods (See *Program Note 5* above.)

3 units

- INDIGST 1A03 - Introduction to Indigenous Studies

Note: If this course was taken in level I then students must complete three additional elective units. (See Program Note 4 above.)

24-27 units

- Electives * A maximum of 12 additional units of Social and Political Context of Social Work courses can be taken as electives.

Department of Sociology

LEVEL IV SEMINAR COURSE LIST

Courses open to students in any Honours Sociology Program

- SOCIOL 4A03 - Ethnic/Racial Tensions
- SOCIOL 4BB3 - Selected Topics in the Sociology of Education
- SOCIOL 4DD3 - Social Movements and Social Change
- SOCIOL 4E03 - Self and Identity
- SOCIOL 4EE3 - Selected Topics in the Sociology of Culture
- SOCIOL 4G03 - Advanced Topics in the Sociology of Health and Illness
- SOCIOL 4GG3 - Special Topics in the Sociology of Deviance
- SOCIOL 4J03 - Selected Topics in Sociology I
- SOCIOL 4K03 - Selected Topics in Sociology II
- SOCIOL 4KK3 - Sociology through Community Engagement and Service
- SOCIOL 4LL3 - Selected Topics in the Sociology of Immigration
- SOCIOL 4QQ3 - Women, Sexuality and the Welfare State
- SOCIOL 4RR3 - Indigenous Peoples and Canada
- SOCIOL 4SR3 - Topics in the Sociology of Religion
- SOCIOL 4SS3 - The Sociology of the 1960s
- SOCIOL 4TT3 - The Sociology of Mass Media
- SOCIOL 4U03 - Special Topics in the Sociology of Women
- SOCIOL 4UU3 - Global Family and Sexual Politics
- SOCIOL 4V03 - Issues in the Sociology of Occupations and the Professions
- SOCIOL 4XX3 - Sociology of At-Risk Youth

LEVEL IV LECTURE COURSE LIST

Courses open to students in an Honours Sociology Program

- SOCIOL 4AA3 - Selected Topics in the Sociology of the Family
- SOCIOL 4FF3 - Applications of Quantitative Methods in the Social Sciences *
- SOCIOL 4HH3 - Sociology Students and the Work World
- SOCIOL 4MM3 - Public Social Psychology
- SOCIOL 4R03 - Individual and Society

- SOCIOL 4W03 - Social Problems

*SOCIOL 4FF3 is only open to students in the Honours Sociology (Specialist Option)

LEVEL IV DIRECTED RESEARCH COURSE LIST

Courses open to students in an Honours Sociology Program

- SOCIOL 4M03 - Directed Research I for Honours Students
- SOCIOL 4MM6 A/B S - Directed Research for Honours Students *
- SOCIOL 4N03 - Directed Research II for Honours Students

*SOCIOL 4MM6 A/B S is only open to students in the Honours Sociology (Specialist Option)

COMBINED HONOURS IN SOCIOLOGY (SPECIALIST OPTION) AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1Z03 or SOCIOL 1A06 A/B. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program.
2. Students enrolled in Level II of the Combined Honours in Sociology and Another Subject (B.A.) in 2016-17 may request to transfer to the Combined Honours in Sociology (Specialist Option) and Another Subject (B.A.).
3. Students must normally complete SOCIOL 2KK3, 2LL3 and 2Z03 before entering Level III courses.
4. Students must normally complete 3 units of advanced theory, SOCIOL 3A03 or 3P03, before entering Level IV courses.
5. Students must normally complete SOCIOL 3FF3 and 3 units of advanced methods, SOCIOL 3O03 or 3W03, before entering Level IV courses.
6. Students must take a maximum of 9 units of Level IV Sociology. Additional units of Level IV Sociology cannot be used towards degree requirements.
7. Students will be given priority enrolment in SOCIOL 3A03, 3P03, 3O03, and 3W03 as well as Level IV seminar courses.
8. Students taking 6 units of independent research or thesis in their other program may not take SOCIOL 4M03, 4MM6 A/B S or 4N03.
9. Students may take a maximum of 9 combined units of SOCIOL 3GG3 and 4GG3, depending on the topic.
10. Students who previously completed SOCIOL 3PP3 may substitute this course for SOCIOL 3A03 or 3P03 to satisfy the advanced theory requirement.
11. Students who previously completed SOCIOL 3I03 may substitute this course for 3O03 or 3W03 to satisfy the advanced methods requirement.
12. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2KK3 - Introduction to Classical Sociological Theory
- SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory

(See *Note 3* above)

3 units

from

- SOCIOL 3A03 - Advanced Analysis of Classical Sociological Theory
- SOCIOL 3P03 - Advanced Analysis of Contemporary Sociological Theory

(See *Notes 4 and 10* above)

3 units

from

- SOCIOL 3O03 - Qualitative Research Methods
- SOCIOL 3W03 - Historical Methods in Sociology

(See *Notes 5 and 11* above)

3 units

- SOCIOL 4FF3 - Applications of Quantitative Methods in the Social Sciences

(See *Note 5* above)

3 units

from

- Level IV Sociology seminar course list

(See *Notes 5 and 6* above)

3 units

from

- Level IV Sociology seminar, lecture, or directed research course lists

(See *Notes 5 and 6* above)

15 units

- Levels II or III Sociology

36 units

- Courses specified for the other subject

6 units

- SOCIOL 2Z03 - Introduction to Sociological Research
- SOCIOL 3FF3 - Introductory Statistics for Sociology

or

- in combined programs within the Faculty of Social Sciences, the six units Research Methods/Statistics course specified for the other subject (See *Notes 3 and 5* above)

12 units

- Electives, of which no more than 9 units may be from Sociology (the maximum Sociology courses to be taken is 51 units)

COMBINED HONOURS IN SOCIOLOGY AND ANOTHER SUBJECT (B.A.)

REQUIREMENTS FOR STUDENTS ENTERING COMBINED HONOURS IN SOCIOLOGY AND ANOTHER SUBJECT (B.A.) IN SEPTEMBER 2017

Admission

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1Z03 or SOCIOL 1A06 A/B. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

Notes

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program.
2. Students interested in graduate studies in sociology are advised to consider the Combined Honours in Sociology (Specialist Option) and Another Subject (B.A.).
3. Students enrolled in Level II of the Combined Honours in Sociology and Another Subject (B.A.) in 2016-17 may request to transfer to the Combined Honours in Sociology (Specialist Option) and Another Subject (B.A.).
4. Students must normally complete SOCIOL 2KK3, 2LL3 and 2Z03 before entering Level III courses.

5. Students must normally complete SOCIOL 3FF3 before entering Level IV courses.
6. Students will be given priority enrolment in SOCIOL 4HH3 and all other Level IV lecture courses.
7. Students must take a maximum of 6 units of Level IV Sociology. Additional units of Level IV Sociology cannot be used towards degree requirements.
8. Students taking six units of independent research or thesis in their other program may not take SOCIOL 4M03, 4MM6 A/B S or 4N03.
9. Students may take a maximum of nine combined units of SOCIOL 3GG3 and 4GG3, depending on the topic.
10. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2KK3 - Introduction to Classical Sociological Theory
- SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory

(See *Note 4* above)

3 units

- SOCIOL 4HH3 - Sociology Students and the Work World

(See *Notes 5 and 6* above)

3 units

- Level IV Sociology lecture, seminar, or directed research course lists

(See *Note 7* above - Additional units of Level IV Sociology will not count towards the degree)

18 units

- Levels II or III Sociology, of which a maximum of 12 units may be Level II.

36 units

- Courses specified for the other subject

6 units

- SOCIOL 2Z03 - Introduction to Sociological Research

(See *Note 4* above)

- SOCIOL 3FF3 - Introductory Statistics for Sociology

(See *Note 5* above)

or

- in combined programs within the Faculty of Social Sciences, the six units Research Methods/Statistics course specified for the other subject (See *Notes 4 and 5* above).

18 units

- Electives, of which no more than 9 units may be from Sociology (the maximum Sociology courses to be taken is 45 units)

REQUIREMENTS FOR STUDENTS ENTERING COMBINED HONOURS IN SOCIOLOGY AND ANOTHER SUBJECT (B.A.) PRIOR TO SEPTEMBER 2017

Admission

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1A06 A/B. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

Notes

1. Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program.
2. Students enrolled in Level II of the Combined Honours in Sociology and Another Subject (B.A.) in 2016-17 may request to transfer to the Combined Honours in Sociology (Specialist Option) and Another Subject (B.A.).

3. Students must normally complete SOCIOL 2S06 A/B (or SOCIOL 2KK3 and 2LL3) and 2Z03 before entering Level III courses.
4. Students must normally complete 3 units of SOCIOL 3A03 or 3P03 before entering Level IV courses.
5. Students must normally complete SOCIOL 3H06 A/B (or SOCIOL 3FF3) and 3 units of SOCIOL 3O03 or 3W03 before entering Level IV courses.
6. Students must take a maximum of 6 units of Level IV Sociology. Additional units of Level IV Sociology cannot be used towards degree requirements.
7. Students taking six units of independent research or thesis in their other program may not take SOCIOL 4M03, 4MM6 A/B S or 4N03.
8. Students may take a maximum of nine combined units of SOCIOL 3GG3 and 4GG3, depending on the topic.
9. Students who previously completed SOCIOL 3PP3 may substitute this course for SOCIOL 3A03 or 3P03 to satisfy the advanced theory requirement.
10. Students who previously completed SOCIOL 3I03 may substitute this course for SOCIOL 3O03 or 3W03 to satisfy the advanced methods requirement.
11. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2S06 A/B

or

- SOCIOL 2KK3 - Introduction to Classical Sociological Theory

and

- SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory

(See *Note 3* above)

3 units

from

- SOCIOL 3A03 - Advanced Analysis of Classical Sociological Theory
- SOCIOL 3P03 - Advanced Analysis of Contemporary Sociological Theory

(See *Notes 4 and 9* above)

3 units

from

- SOCIOL 3O03 - Qualitative Research Methods
- SOCIOL 3W03 - Historical Methods in Sociology

(See *Note 5 and 10* above)

6 units

- Level IV Sociology

(See *Note 6* above - Additional units of Level IV Sociology will not count towards the degree)

18 units

- Levels II or III Sociology

36 units

- Courses specified for the other subject

6-9 units

- SOCIOL 2Z03 - Introduction to Sociological Research

(See *Note 3* above)

and

- SOCIOL 3H06 A/B

or

- SOCIOL 3FF3 - Introductory Statistics for Sociology and

· **SOCIOL 4FF3 - Applications of Quantitative Methods in the Social Sciences**

or

in combined programs within the Faculty of Social Sciences, the six units Research Methods/Statistics course specified for the other subject (See Notes 3 and 5 above.)

9-12 units

- Electives, of which no more than 9 units can be from Sociology (the maximum Sociology courses to be taken is 54 units).

HONOURS SOCIOLOGY (B.A.)

REQUIREMENTS FOR STUDENTS ENTERING THE

HONOURS SOCIOLOGY (B.A.) IN SEPTEMBER 2017

Admission

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1Z03 or SOCIOL 1A06 A/B. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

Notes

1. Students interested in graduate studies in sociology are advised to consider Honours Sociology (Specialist Option) (B.A.).
2. Students enrolled in Level II of the Honours Sociology (B.A.) in 2016-17 may request to transfer to the Honours Sociology (Specialist Option) (B.A.).
3. Students must normally complete SOCIOL 2KK3, 2LL3 and 2Z03 before entering Level III courses.
4. Students must normally complete SOCIOL 3FF3 before entering Level IV courses.
5. Students must take a maximum of 12 units of Level IV Sociology. Additional units of Level IV Sociology cannot be used towards degree requirements.
6. Students will be given priority enrolment in SOCIOL 4HH3 and all other Level IV lecture courses.
7. Students may take a maximum of 3 units of Level IV independent research (SOCIOL 4M03 or 4N03).
8. Students may take a maximum of 9 combined units of SOCIOL 3GG3 and 4GG3 depending on the topic.
9. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- **SOCIOL 2KK3 - Introduction to Classical Sociological Theory**
- **SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory**

(See Note 3 above)

3 units

- **SOCIOL 2Z03 - Introduction to Sociological Research**

(See Note 3 above)

3 units

- **SOCIOL 3FF3 - Introductory Statistics for Sociology**

(See Note 4 above)

3 units

- **SOCIOL 4HH3 - Sociology Students and the Work World**

(See Note 4 and 6 above)

6 units

from

- Level IV Sociology lecture course list

(See Note 5 above - Additional units of Level IV Sociology will not count towards the degree)

3 units

from

- Level IV Sociology lecture, seminar, or directed research course lists

18 units

- Levels II or III Sociology of which a maximum of 12 units may be Level II.

48 units

- Electives, of which no more than 12 units can be from Sociology (the maximum Sociology courses to be taken is 54 units).

REQUIREMENTS FOR STUDENTS ENTERING THE HONOURS

SOCIOLOGY (B.A.) PRIOR TO SEPTEMBER 2017

Admission

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1A06 A/B. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

Notes

1. Students enrolled in Level II of the Honours Sociology (B.A.) in 2016-17 may request to transfer to the Honours Sociology (Specialist Option) (B.A.).
2. Students must normally complete SOCIOL 2S06 A/B (or SOCIOL 2KK3 and 2LL3) and 2Z03 before entering Level III courses.
3. Students must normally complete 3 units of SOCIOL 3A03 or 3P03 before entering Level IV courses.
4. Students must normally complete SOCIOL 3H06 A/B (or SOCIOL 3FF3) and 3 units of SOCIOL 3003 or 3W03 before entering Level IV courses.
5. Students must take a maximum of 9 units of Level IV Sociology.
6. Students may take a maximum of six units of Level IV independent research (SOCIOL 4M03, 4MM6 A/B S or 4N03).
7. Students may take a maximum of nine combined units of SOCIOL 3GG3 and 4GG3, depending on the topic.
8. Students who previously completed SOCIOL 3PP3 may substitute this course for SOCIOL 3A03 or 3P03 to satisfy the advanced theory requirement.
9. Students who previously completed SOCIOL 3I03 may substitute this course for SOCIOL 3003 or 3W03 to satisfy the advanced methods requirement.
10. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

Requirements

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2S06 A/B

or

- **SOCIOL 2KK3 - Introduction to Classical Sociological Theory**

and

- **SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory**

(See Note 2 above)

3 units

- **SOCIOL 2Z03 - Introduction to Sociological Research**

(See Note 2 above)

3 units

from

- **SOCIOL 3A03 - Advanced Analysis of Classical Sociological Theory**
- **SOCIOL 3P03 - Advanced Analysis of Contemporary Sociological Theory**

6 units

- SOCIOL 3H06 A/B

or

- SOCIOL 3FF3 - Introductory Statistics for Sociology

and

- SOCIOL 4FF3 - Applications of Quantitative Methods in the Social Sciences

(See Note 4 above)

3 units

from

- SOCIOL 3003 - Qualitative Research Methods
- SOCIOL 3W03 - Historical Methods in Sociology

(See Note 4 and 9 above)

9 units

- Level IV Sociology

(See Note 5 above - Additional units of Level IV Sociology will not count towards the degree)

18 units

- Levels II or III Sociology

42 units

- Electives, of which no more than 12 units can be from Sociology (the maximum Sociology courses to be taken is 60 units).

HONOURS SOCIOLOGY (SPECIALIST OPTION) (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0, including a grade of at least C in SOCIOL 1Z03 or SOCIOL 1A06 A/B. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

1. The Honours Sociology (Specialist Option) (B.A.) program is the most appropriate program for students who are considering graduate studies in sociology.
2. Students enrolled in Level II of the Honours Sociology (B.A.) in 2016-17 may request to transfer to the Honours Sociology (Specialist Option) (B.A.).
3. Students must normally complete SOCIOL 2KK3, 2LL3 (or SOCIOL 2S06 A/B) and 2Z03 before entering Level III courses.
4. Students must normally complete 3 units of advanced theory, SOCIOL 3A03 or 3P03, before entering Level IV courses.
5. Students must normally complete SOCIOL 3FF3 (or SOCIOL 3H06 A/B) and 3 units of advanced methods, SOCIOL 3003 or 3W03, before entering Level IV courses.
6. Students must take a maximum of 12 units of Level IV Sociology. Additional units of Level IV Sociology cannot be used towards degree requirements.
7. Students will be given priority enrolment in SOCIOL 3A03, 3P03, 3003, and 3W03 as well as Level IV seminar courses.
8. Students may take a maximum of 6 units of Level IV independent research (SOCIOL 4M03, 4MM6 A/B S or 4N03).
9. Students may take a maximum of 9 combined units of SOCIOL 3GG3 and 4GG3, depending on the topic.
10. Students who previously completed SOCIOL 3PP3 may substitute this course for SOCIOL 3A03 or 3P03 to satisfy the advanced theory requirement.
11. Students who previously completed SOCIOL 3I03 may substitute this course for SOCIOL 3003 or 3W03 to satisfy the advanced methods requirement.
12. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2KK3 - Introduction to Classical Sociological Theory
- SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory

(See Note 3 above)

3 units

- SOCIOL 2Z03 - Introduction to Sociological Research

(See Note 3 above)

3 units

from

- SOCIOL 3A03 - Advanced Analysis of Classical Sociological Theory
- SOCIOL 3P03 - Advanced Analysis of Contemporary Sociological Theory

(See Notes 4, 7 and 10 above)

3 units

- SOCIOL 3FF3 - Introductory Statistics for Sociology

(See Note 5 above)

3 units

from

- SOCIOL 3003 - Qualitative Research Methods
- SOCIOL 3W03 - Historical Methods in Sociology

(See Notes 5 and 11 above)

3 units

- SOCIOL 4FF3 - Applications of Quantitative Methods in the Social Sciences

(See Note 5 above)

6 units

- Level IV Sociology seminar or directed research course lists

(See Note 5 and 6 above)

3 units

from

- Level IV Sociology seminar, lecture, or directed research course lists

(See Note 5 and 6 above)

18 units

- Levels II or III Sociology

42 units

- Electives, of which no more than 12 units may be from Sociology (the maximum Sociology courses to be taken is 60 units)

SOCIOLOGY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5, including a grade of at least C- in SOCIOL 1Z03 (or SOCIOL 1A06 A/B).

NOTES

1. Students must normally complete SOCIOL 2KK3 and 2LL3 (or SOCIOL 2S06 A/B) and 2Z03 before entering Level III courses.
2. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

6 units

- SOCIOL 2KK3 - Introduction to Classical Sociological Theory
- SOCIOL 2LL3 - Introduction to Contemporary Sociological Theory

or

- SOCIOL 2S06 A/B

3 units

- SOCIOL 2Z03 - Introduction to Sociological Research

(See Note 1 above)

9 units

- Level II Sociology

6 units

- Level III Sociology

36 units

- Electives, of which no more than 12 units may be from Sociology (the maximum Sociology courses to be taken is 36 units)

Minor(s):

MINOR IN SOCIOLOGY

NOTES

1. Students who have already completed SOCIOL 2006 or SOCIOL 2S06 A/B may use these units towards this requirement of the minor.
2. Students should check both this Calendar and the Departmental website for prerequisites and course descriptions.

REQUIREMENTS

24 units total

3-6 units

- SOCIOL 1Z03 - An Introduction to Sociology (or SOCIOL 1A06 A/B)

18-21 units

- Levels II or III Sociology, of which at least 9 units are Level III Sociology

Certificate and Diploma Programs

McMaster University Continuing Education

- Certificate and Diploma Programs Approved for Advanced Credit
- Affiliated Associations and Institutes
- Program Offerings

Undergraduate students may enrol in Continuing Education courses and programs to use as credits within their degrees. For details, students are asked to consult their Academic Advisors.

Located at One James North in downtown Hamilton (OJN campus), McMaster Continuing Education offers Certificate and Diploma programs, plus professional development and corporate training programs. Courses and programs are offered in the evenings, on weekends, and online to accommodate undergraduate students and working professionals. For more details, please contact McMaster Continuing Education at extension 24321 or visit mcmastercce.ca.

Courses in Certificates and Diplomas offered through Continuing Education are Senate-approved courses and are eligible for credits in undergraduate degrees. In particular, they have been approved for advanced credit. Information about advanced credit for degree study is provided below and in McMaster University's *Senate Policy on Diplomas and Certificates*.

As stated in the McMaster University's *Senate Policy on Diplomas and Certificates*, "academic credits can be applied to another credential. Examples include, but are not limited to, transfer of credit from a certificate to a degree or from a degree to a diploma. Normally, credits can be applied to a maximum of two credentials." Further, "[pending approval by the student's Faculty office], up to 100% of the academic credit courses completed toward undergraduate diploma and certificate programs may be used for credit toward another credential at the discretion of and in accordance with the normal academic rules specified by academic unit offering the subsequent credential."

A specific way that undergraduate students can benefit from study through Continuing Education is to use their elective credits within their degree programs to complete a Continuing Education Certificate or Diploma. McMaster's Continuing Education programs are closely aligned with the requirements of professional associations and can, therefore, assist students in gaining a professional designation and achieving work readiness. Students can graduate with a university degree and a career-focused diploma. Students interested in the degree plus diploma options should consult their Academic Advisors.

Continuing education programs and courses are offered in the following:

- Accounting
- Applied Clinical Research
- Big Data Analytics
- Business Administration
- Business of Golf & Resort Management
- Creative, Critical and Design Thinking
- Crisis & Mental Health Training*
- Digital Marketing
- Essentials*
- Foundations of Analytics
- Health and Social Service Skill Development
- Health Informatics
- Health Information Management
- Health Information Systems*
- Human Resources Management

- Lean Six Sigma*
- Marketing
- Metallurgy of Iron & Steel
- Payroll
- Professional Addictions Studies
- Project Management*
- Risk Management*
- The Science of Cannabis*
- Web Design

Note: Continuing Education courses are not eligible for OSAP. Payment must be made at the time of enrolment. *Non-credit professional development courses such as Essentials and Lean Six Sigma which are also offered by Continuing Education are not applicable to the Degree + Diploma option.

AFFILIATED ASSOCIATIONS AND INSTITUTES

- Many Continuing Education courses are recognized as course equivalencies and/or have been approved as professional development units (PDUs) by well recognized professional associations and institutes. Information about these professional associations and institutes is provided below.

ACCOUNTING

- Advanced Certificate in Accounting and Finance (ACAF) - Chartered Professional Accountants Ontario
- Chartered Professional Accountant (CPA) - Chartered Professional Accountants Ontario

BUSINESS ADMINISTRATION

- Credit Union Institute of Canada
- Associate Institute of Canadian Bankers (AICB) - Canadian Securities Institute (formerly Institute of Canadian Bankers)
- Canadian Institute of Marketing
- Certified in Management and Administration (CIM) - Canadian Institute of Management
- Certified Administrative Manager (CAM) - Canadian Institute of Certified Administrative Managers (CICAM)
- Certified Credit Professional (CCP) - Credit Institute of Canada
- Canadian Risk Management (CRM) - Global Risk Management Institute
- Fellow Chartered Insurance Professional (FCIP) - Insurance Institute of Canada
- Fellow of Credit Union Institute of Canada (FCUIC) - Credit Union Institute of Canada
- Graduate Member Canadian Institute of Marketing (GCIInst.M) - Canadian Institute of Marketing
- Project Management Professional (PMP)® - Project Management Institute (PMI)®
- Qualified Administrative Assistant (QAA) - Association of Administrative Assistants

BUSINESS OF GOLF & RESORT MANAGEMENT

- PGA of Canada - PGA Training Academy

HEALTH INFORMATION

- College of Canadian Health Information Management (CCHIM)

HUMAN RESOURCES MANAGEMENT

- Certified Human Resources Professional (CHRP™) - Human Resources Professional Association (HRPA)
- Certified Human Resources Leader (CHRL™) - Human Resources Professional Association (HRPA)

LEAN SIX SIGMA

- Project Management Institute (PMI)

MARKETING AND DIGITAL MARKETING

- Canadian Institute of Marketing

- Graduate Member Canadian Institute of Marketing (GCInst.M) - Canadian Institute of Marketing
- Certified Marketing Management Professional (CMMP)

PAYROLL

- Payroll Compliance Practitioner - Canadian Payroll Association
- Certified Payroll Manager - Canadian Payroll Association

PROFESSIONAL ADDICTION STUDIES

- International Certified Alcohol and Drug Counsellor (ICADC) - Canadian Addiction Counsellors Certification Federation (CACCF)
- Canadian Certified Addiction Counsellor (CCAC) - Canadian Addiction Counsellors Certification Federation (CACCF)
- Associate Addiction Counsellor (AAC)

PROJECT MANAGEMENT

- Project Management Institute (PMI)

RISK MANAGEMENT

- Educational requirement for the CRM designation - Global Risk Management Institute
- Insurance Institute Fellow Chartered Insurance Professional (FCIP) designation

Please contact McMaster Continuing Education at ext. 24321 or visit mcmasterce.ca for more details.

Certificate(s)

ADVANCED ACCOUNTING AND FINANCE, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

This certificate is open to individuals who have completed all five core courses as well as all seven specialist courses offered under the Diploma in Accounting (or equivalent) + Business Law (BUS 436) or equivalent prior to beginning the certificate. To qualify for this certificate, students must complete 5 applied courses (3 required + 2 electives).

Note: Graduates of the Diploma in Advanced Accounting and Finance are not eligible for the Certificate in Advanced Accounting and Finance.

ADVANCED ACCOUNTING, CERTIFICATE

Maximum Credit toward Degree Studies - up to 18 units pending approval of the student's Faculty office

This certificate is open to individuals with post-secondary education who have completed foundation/core-level accounting courses. To qualify for this Certificate, students must complete any 6 specialist courses. Courses offered in this program qualify as prerequisite requirements for entry into CPA PEP and/or exemptions from CPA PREP*. The program is offered online or in person during the day, evenings, and weekends. Students can complete this program on a part-time basis or in 10 months with a Fast-Track schedule.

Note: Graduates of the Diploma in Accounting are not eligible for the Certificate in Advanced Accounting.

ADVANCED STRATEGIC MARKETING TECHNIQUES, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

By utilizing already enhanced experience, students in this program will apply their experience to the theory and then back into their own workplace. As a five-course certificate program, students will expand on theoretical knowledge targeted at the experienced marketing professional. Each specific course will target areas within the functions of workplace marketing and will deliver a higher level of understanding for those practicing in the field.

APPLIED CLINICAL RESEARCH, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The Applied Clinical Research program, offered by McMaster University Continuing Education and affiliated with the Faculty of Health Sciences, is designed for individuals seeking to enter the field of clinical research. Program content is based on common areas of knowledge and skills for clinical research associates and managers and the competencies you were identified by the internationally-focused Association of Clinical Research Professionals (ACRP). This 5-course certificate is a fully online program.

BIG DATA ANALYTICS, CERTIFICATE

Maximum Credit Towards Degree Studies - up to 18 units pending approval of the student's Faculty office

Designed in collaboration with McMaster University's MacDATA Institute and the DeGroote School of Business, the Certificate in Big Data Analytics gives you the tools and techniques to help guide organizations in the exploding field of big data and predictive analytics. You'll learn technical concepts from leading practitioners and benefit from hands-on training with the latest industry tools.

BUSINESS ADMINISTRATION, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

This Certificate is a 5-course program. The curricular areas covered by the program include finance, communications, marketing, and operational skills. The program is delivered online or in person. It can be taken on a part-time or full-times basis. Students who take the program on a full-time basis can complete it in six months.

CANADIAN PAYROLL MANAGER, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The Canadian Payroll Association (CPA) offers the only payroll certifications in Canada. Through this payroll program, students can earn one or both CPA certifications. Students learn to manage the compliance requirements of an organization's annual payroll cycle, deliver clear and reliable payroll information, and contribute a payroll perspective to organizational policy and strategy discussions. The program is available online and in person. The student in this program must be a Payroll Compliance Practitioner before starting the Canadian Payroll Manager Certificate program.

DIGITAL MARKETING, CERTIFICATE

Maximum Credit Degree Studies - up to 15 units pending approval of the student's Faculty office

The Digital Marketing program explores the tools and tactical skills required to apply data, manage creative content, and implement and measure digital strategies to engage today's consumer. This fully online program is led by industry experts who use case studies, interactive discussions, and new media management frameworks throughout the program. A five course Certificate program, it is offered strictly online. Participants in this program should have prior education in a related field such as a degree or diploma in Marketing or Communications, or at least 3 years of marketing, communications, or web design experience. For individuals with no marketing background, it is recommended that they complete Continuing Education's Marketing Diploma or Business Administration Diploma prior to starting the Digital Marketing Certificate.

FOUNDATIONS OF ANALYTICS, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The Foundations of Analytics program presents an introductory level of content in the areas of Business Intelligence, Data Analysis and Data Science. No previous academic or work experience in these areas is required!

GOLF AND RESORT MANAGEMENT, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

Courses are offered online and are designed for individuals who wish to develop or upgrade their knowledge, skills and abilities for an exciting career in golf and resort management. A rich and flexible environment to learn engages all participants by using leading-edge content and collaborative functionality. Students must complete any 5 courses (15 units) in order to qualify for the Certificate in Business of Golf and Resort Management.

HEALTH AND SOCIAL SERVICES, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

Courses are designed to offer students a variety of short, timely programs within a specialized topic, such as Addiction, Health Information, and Workplace Health and Wellness. Upon successful completion of the selected course packages, the student will be awarded a McMaster Certificate of Completion or Certificate.

HEALTH INFORMATION MANAGEMENT, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

This 5-course certificate explores the fundamental principles and practices for the collection, use, storage and destruction of health information. This fully online program is suitable to individuals seeking an introduction into information management in a health care setting, including privacy, security and confidentiality.

MARKETING, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

This program has been designed in association with the DeGroot School of Business. Its purpose is to help students develop and enhance the knowledge and skills they require to succeed in a marketing environment. Courses for this five-course certificate are available online and in person.

METALLURGY OF IRON AND STEEL, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

Offered entirely online, this five-course program provides a foundation in the science of making and using steel. Equipping professionals with technical knowledge of steel-making processes, this program is the only Certificate in metallurgy available in North America.

PAYROLL COMPLIANCE PRACTITIONER, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The Payroll Compliance Practitioner Certificate enables payroll professionals to enhance operations, comply with legislative requirements, and utilize emerging technologies in the payroll industry. The program is offered online and in person. In addition to earning a McMaster Certificate, students in the program are also working towards their professional association credential.

PROFESSIONAL ADDICTION STUDIES, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The Professional Addiction Studies certificate program provides an opportunity for individuals seeking to enter the field of addiction to enhance their knowledge

and skills required for employment and professional certification. The programs also serve as professional development for those already working in fields such as mental health, counselling, law enforcement, nursing, social work, child and family services. Upon successful completion of the 5 courses, participants will receive the McMaster University Certificate in Professional Addiction Studies. Students are given 5 years to complete all required components of the certificate program.

SCIENCE OF CANNABIS, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 9 units pending approval of the student's Faculty office

The Science of Cannabis Certificate of Completion is a collaborative program involving the Peter Boris Centre for Addictions Research, the Michael G. DeGroot Centre for Medicinal Cannabis Research, and the Centre for Continuing Education. The purpose of the program is to provide a substantive grounding in the scientific study of cannabis and the evidence base pertaining to its therapeutic applications and risks/harms. The program will not explore the cultivation/agricultural aspects of cannabis or the hemp industry. While there will be some reference to the commercialization of cannabis, cannabis as a business enterprise is not the focus of the program. Participants in the program will be required to successfully complete the three courses in the program in order to receive a Certificate of Completion. The courses will be offered in online format.

WEB DESIGN, CERTIFICATE

Maximum Credit Toward Degree Studies - up to 15 units pending approval of the student's Faculty office

The program focuses on web design principles, hands-on skills in coding and programming, project management, information architecture, HTML5, and web strategy. The program is composed of five courses and is offered online.

Diploma(s)

ACCOUNTING, DIPLOMA

Maximum Credit toward Degree Studies - up to 24 units pending approval of the student's Faculty office

Designed in collaboration with the DeGroot School of Business and industry experts, this 11-course program is designed for individuals planning a career in managerial or financial accounting. Courses offered under this program serve as prerequisite requirements for entry into CPA PEP and/or exemptions from CPA PREP*. Students can study online or in person during the day, evenings and weekends. The program can be taken on a part-time basis or in 10 months with a Fast-Track course load for students starting in September and/or students eligible for transfer of credits.

ADVANCED ACCOUNTING AND FINANCE, DIPLOMA

Maximum Credit toward Degree Studies - up to 36 units pending approval of the student's Faculty office

Open to individuals who have completed all five core courses offered under the Diploma in Accounting (or equivalent) + Business Law (BUS 436) or equivalent prior to beginning the diploma. To qualify for the diploma, students must complete 7 specialist + 5 applied courses. Accredited CPA program aimed at those preparing to sit the CPA's National ACAF exam.

BUSINESS ADMINISTRATION, DIPLOMA

Maximum Credit Toward Degree Studies - up to 24 units pending approval of the student's Faculty office

Developed in collaboration with the DeGroot School of Business, McMaster's Business Administration program is designed to help students gain, add, or refine business skills that are in high demand by employers. In the program, students develop their business skills while elective courses enable development of students' personal or professional areas of interest. This diploma is offered online and in

person. It can be taken on a part-time or full-time basis. Students who take the program on a full-time basis can complete it in 10 months.

BUSINESS ADMINISTRATION, DIPLOMA WITH CONCENTRATION

Maximum Credit Toward Degree Studies - up to 24 units pending approval of the student's Faculty office

Concentrations in the Business Administration Diploma are available in Business Analysis, Finance, Human Resources Management, Management, Marketing, Project Management, Risk Management, and Creative, Critical & Design Thinking. Many courses within the concentration options meet the requirements of professional associations, such as the Canadian Institute of Management and the Global Risk Management Institute. This diploma is offered online and in person. It can be taken on a part-time or full-time basis. Students who take the program on a full-time basis can complete it in 10 months.

BUSINESS OF GOLF & RESORT MANAGEMENT, DIPLOMA

Maximum Credit Toward Degree Studies - up to 24 units pending approval of the student's Faculty office

The Business of Golf and Resort Management Diploma program brings together management theory and industry. For those already working in the golf and resort industry as well as those aspiring to enter the golf and resort sector, this program provides knowledge, practical skills, and industry insights to help ensure success in starting, managing, and working in the golf and resort industry. Courses are taught by leading industry experts. This 10-course diploma is offered strictly online.

HEALTH INFORMATICS, DIPLOMA

Maximum Credit Toward Degree Studies - up to 27 units pending approval of the student's Faculty office

The Health Informatics (HI) program is designed to develop and/or enhance the core competencies for professionals working in the field of health informatics. Using technology, clinical guidelines, information systems, and data management practices, health informatics professionals optimize the collection, storage, and use of information in healthcare. Health informatics applies to the areas of nursing, clinical care, dentistry, pharmacy, public health, occupational therapy, and medical research. All courses are delivered online.

HEALTH INFORMATION MANAGEMENT PLUS, DIPLOMA

Maximum Credit Toward Degree Studies - up to 45 units pending approval of the student's Faculty office

An extension of the Health Information Management diploma, complete a series of additional courses in order to qualify to write the credentialing exam set by the College of Canadian Health Information Management (CCHIM). Study coding, data analytics, management and complete a course within a healthcare facility to apply your skills and competencies to the working environment. All courses are delivered online.

HEALTH INFORMATION MANAGEMENT, DIPLOMA IN

Maximum Credit Toward Degree Studies - up to 24 units pending approval of the student's Faculty office

Expand upon your post-secondary studies to discover your pathway to an exciting career in health information. As information technology evolves and health data is digitized, the health information manager is an integral member of the health care team. Learn and apply industry standards for the collection, use, and analysis of personal health data. Study information management's principles and practices for privacy, confidentiality and security, and how these are applicable to health information systems. All courses are delivered online.

HUMAN RESOURCES MANAGEMENT, DIPLOMA

Maximum Credit Toward Degree Studies - up to 27 units pending approval of the student's Faculty office

The 27-unit program offers university-level knowledge and the applied skills required to succeed as a human resources practitioner. The program offers all courses required to fulfill the academic requirements of HRPA™ to become eligible to write the comprehensive knowledge exam for the Certified Human Resources Leader (CHRL™) and Human Resources Professional (CHRP™) designations. Courses are offered in person, blended and online. The program can be completed on a part-time basis over several terms or in less than 8 months with a Fast-Track course load.

MARKETING, DIPLOMA

Maximum Credit Toward Degree Studies - up to 24 units pending approval of the student's Faculty office

The Marketing Diploma explores topics including but not limited to branding, social media, and consumer behavior. It is an eight-course program that is offered online and in person. It can be taken through part-time or full-time study. For students choosing to take a full-time load, it can be completed in less than 10 months.

PROFESSIONAL ADDICTION STUDIES, DIPLOMA

Maximum Credit Toward Degree Studies - up to 14 units pending approval of the student's Faculty office

The Professional Addiction Studies diploma program provides an opportunity for individuals seeking to enter the field of addiction to enhance their knowledge and skills required for employment and professional certification. The programs also serve as professional development for those already working in fields such as mental health, counselling, law enforcement, nursing, social work, child and family services. Upon successful completion of the required 10 courses, participants will receive the McMaster University Diploma in Professional Addiction Studies. Students are given 5 years to complete all required components of the diploma program.

Courses

CREATIVE, CRITICAL, AND DESIGN THINKING, COURSES

Maximum Credit Toward Degree Studies - up to 9 units pending approval of the student's Faculty office

These courses will assist students in the development of their creative, critical, and design thinking skills. Grounded in a humanistic paradigm, the courses also support the development of problem solving skills as they are required in contemporary organizational contexts including but not limited to business, health care, government, the arts and the technology sector. If a student takes all three courses, he or she is eligible for a Certificate of Completion.

CRISIS & MENTAL HEALTH TRAINING, COURSES

Maximum Credit Toward Degree Studies - not eligible for degree credit

Upgrade your helping skills in the areas of suicide, crisis and mental health management. Learn how to recognize signs and symptoms in different settings and how to provide support under a number of models.

ESSENTIALS, COURSES

Maximum Credit Toward Degree Studies - not eligible for degree credit

The six Essentials Programs offer you the critical tools you need to succeed today and in the future, through a series of highly concentrated classes that you can tailor to your precise needs and interests. With the Professional Development Essentials, you'll gain insights you can begin applying right away-without spending a lot of time in a classroom.

HEALTH INFORMATION SYSTEMS, COURSES

Maximum Credit Toward Degree Studies - varies based on course selection and pending approval of the student's Faculty office

This online program will help students develop the technical knowledge needed to lead information projects and take full advantage of health information technology. Select courses from the Health Informatics programs to build the program based on your training and professional development needs.

LEAN SIX SIGMA, COURSES

Maximum Credit Toward Degree Studies - not eligible for degree credit

Lean and Six Sigma are two methods of process improvement that, together, make up Lean Six Sigma theory. Lean principles help create value for stakeholders through minimizing waste. Six Sigma principles help reduce defects by effectively solving problems. Together, Lean Six Sigma enhances problem solving and process improvement by making them faster and more efficient.

PROJECT MANAGEMENT, COURSES

Maximum Credit Toward Degree Studies - not eligible for degree credit

Canada's leading project management training program, with PMP Certified instructors bringing curriculum to life, incorporating theory and best practices from the PMBOK Guide. Students will learn real examples, helping them to immediately apply newly acquired skills to their workplace.

RISK MANAGEMENT, COURSES

Maximum Credit Toward Degree Studies - up to 9 units pending approval of the student's Faculty office

In these courses, students learn how to assess, identify, communicate, and control exposure of risk in order to create and implement structured risk management programs. The three risk management courses can be taken as part of a Certificate of Completion program, the Diploma in Business Administration with a Concentration in Risk Management, or as individual courses. Courses are available online and in person.

<https://www.eng.mcmaster.ca/sept>

Engineering Technology Building (ETB), Room 509
Ext. 26401

Certificate(s)

TECHNOLOGY CERTIFICATE

Maximum Credit Toward Degree Studies - 15 units

This program consists of fifteen units comprising five courses in the corresponding Bachelor of Technology program. Students must select the five required courses in their discipline.

The McMaster University Technology Certificate is offered in four disciplines:

- Civil Engineering Infrastructure Technology
- Power and Energy Engineering Technology
- Manufacturing Engineering Technology
- Software Engineering Technology

Technology Leadership Certificate

This five-course certificate program focuses on the additional skills needed by graduate technologists to enable them to be more effective in their positions and to advance professionally. The courses are held in the evenings and on Saturdays and are oriented towards the needs of technologists already working in industry.

Concurrent Certificates

CERTIFICATE IN BUSINESS TECHNOLOGY MANAGEMENT (BTM)

NOTES

1. The courses comprising the BTM certificate will count as elective courses for students enrolled in an Honours Bachelor of Commerce (B.Com.) program.
2. SFWRTECH 3IT3 and SFWRTECH 3PR3 are anti-requisites.

ADMISSION

Enrolment in an Honours Bachelor of Commerce (B.Com.) program is required for admission to the certificate.

REQUIREMENTS

27 units total

21 units

- COMMERCE 3KA3 - System Analysis and Design
- COMMERCE 3KD3 - Database Design Management and Applications
- COMMERCE 3KE3 - Management of Enterprise Data Analytics
- COMMERCE 4KF3 - Project Management
- COMMERCE 4KG3 - Data Mining For Business Analytics
- COMMERCE 4KH3 - Strategies for Electronic and Mobile Business
- COMMERCE 4KI3 - Business Process Management

6 units

from

- SFWRTECH 3CS3 - Computer Security
- SFWRTECH 3IT3 - Fundamentals of Networking
- SFWRTECH 3OS3 - Operating Systems
- SFWRTECH 3PR3 - Procedural and Object Oriented Programming Concepts
- SFWRTECH 3RQ3 - Software Requirements and Specification
- SFWRTECH 4SD3 - Software Design

CONCURRENT CERTIFICATE IN APPLIED SOCIAL SCIENCES RESEARCH

FACULTY OF SOCIAL SCIENCES

KENNETH TAYLOR HALL, ROOM 129

<http://socialsciences.mcmaster.ca>

This certificate aims to provide opportunities for interested students to acquire broader exposure and competencies in applied research methods to meet the needs of the labour market and student interests. Upon completion, students will have had the opportunity to achieve a deeper understanding of the following competencies, along with ability to apply them in practice:

- Identify and define appropriate methods for studying a wide range of topics;
- Define and operationalize concepts;
- Statistical/quantitative data analysis (including the use of software);
- Qualitative data analysis (including the use of software);
- Create original surveys/questionnaires;
- Identify, gather and clean (original and secondary) data;
- Presentation of research findings.

CERTIFICATE REQUIREMENTS

Any McMaster student in an undergraduate degree program in the Faculty of Social Sciences or in a Combined Honours degree program with a Social Sciences subject may declare the certificate, at the time of graduation, and upon completion of the following courses. Non-McMaster credit may not be utilized in fulfilment of certificate requirements.

Students are advised to consult with the Undergraduate Chair or Academic Advisor for their program of study in Social Sciences to ensure individual courses (such as their project plan for an Independent Study course) meet the criteria of a research course.

REQUIREMENTS

15-18 units total

3 units

Foundations Course in Research Methods in the Social Sciences

- SOCSCI 1RM3 - How do we Know? Doing Social Sciences Research

6-9 units

Research Methods and/or Analysis Courses

- ANTHROP 3IS3 - Independent Study in Anthropology
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3P03 - Doing Ethnography: Theory and Research Methods

- ECON 2B03 - Analysis of Economic Data
- ECON 3E03 - Applied Econometrics
- ECON 4F03 - Methods of Inquiry in Economics
- ECON 4FF3 - Research Methods in Economics
- ECON 4G03 - Econometrics II
- GEOG 2G13 - Geographic Information Systems
- GEOG 3MA3 - Research Methods in Human Geography
- GEOG 3MB3 - Data Analysis
- GEOG 4GA3 - Applied Spatial Statistics
- HLTHAGE 2A03 - Research Methods in Health and in Aging I
- HLTHAGE 3B03 - Advanced Research Inquiry
- HLTHAGE 3G03 - Community Based Research
- HLTHAGE 3I03 - Independent Study in Health, Aging and Society
- INDIGST 2M03 - Indigenous Research Methods and Ethics
- INDIGST 2MM3 - Indigenous Ways of Knowing: Theory
- LABRST 3H03 - Research Methods
- LABRST 3J03 - Independent Study
- POLSCI 2NN3 - Politics by Design
- POLSCI 3NN3 - Statistical Analysis of Primary Data
- POLSCI 4SS3 - Public Opinion and Policy
- PNB 2XE3 - Data and Descriptive Statistics
- PNB 3RM3 - Research Methods
- PNB 3XE3 - Inferential Statistics
- PSYCH 3MT3 - Psychometrics
- PSYCH 4KK3 - Bayesian Inference
- RELIGST 3F03 - Approaches to the Study of Religion
- SOCPSY 2K03 - Research Methods in Social Psychology
- SOCSCI 2J03 - Introduction to Statistics
- SOCIO 2Z03 - Introduction to Sociological Research
- SOCIO 3FF3 - Introductory Statistics for Sociology
- SOCIO 3W03 - Historical Methods in Sociology
- SOCIO 4FF3 - Applications of Quantitative Methods in the Social Sciences

3-6 units

Experiential/Capstone Courses

- ANTHROP 3CC6 - Archaeological Field School
- ANTHROP 4D03 - Practicing Anthropology: Ethics, Theory, Engagement
- ANTHROP 4G03 - Independent Research I
- ANTHROP 4GG3 - Independent Research II
- ECON 4A03 - Honours Economic Analysis
- ECON 4AA3 - Economic Specialist Seminar
- GEOG 3ME3
- GEOG 3MF3 - Human Geography Field Camp
- GEOG 3MI3 - Geography Internship
- GEOG 4MF3 - Senior Human Geography Field Camp
- GEOG 4MS3 - Independent Study
- GEOG 4MT6 A/B - Senior Thesis
- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry
- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis
- INDIGST 4A03 - Storytelling and Environmental Conservation
- INDIGST 4T06 A/B - Honours Thesis
- LABRST 4A06 A/B - Research and Field Experience
- POLSCI 4Z06 A/B - Honours Essay
- POLSCI 4ZZ6 A/B - Experiential Learning in Research
- PNB 4D06 A/B - Senior Thesis
- PNB 4D09 A/B - Senior Honours Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour

- PNB 4Q03 A/B S - Advanced Individual Library Study
- PNB 4Q03 A/B S - Advanced Individual Lab Study
- RELIGST 4R06 A/B - Honours Thesis
- SOCPSY 4IS3 - Independent Research
- SOCPSY 4IS6 A/B - Independent Research
- SOCPSY 4ZZ6 A/B - Social Psychology Research Project
- SOCSCI 3F03 - Social Sciences in Action
- SOCIO 4M03 - Directed Research I for Honours Students
- SOCIO 4MM6 A/B S - Directed Research for Honours Students
- SOCIO 4N03 - Directed Research II for Honours Students
- SOCIO 4VV3

CONCURRENT CERTIFICATE IN BIOMEDICAL SCIENCES (BMS)

Faculty of Health Sciences

The Concurrent Certificate in Biomedical Sciences is administered by the Bachelor of Health Sciences (Honours) Program.

Michael G. DeGroot Centre for Learning and Discovery, Room 3300, ext. 22815. bhsc.mcmaster.ca

The Concurrent Certificate in Biomedical Sciences (BMS Certificate) is designed to provide students with an interest in biomedical research with an opportunity to develop an academic focus in this area, with the BMS Certificate serving to recognize that they have gained core knowledge in this area through their coursework.

NOTES

1. **Selection to the BMS Certificate:** No formal application is required; however, because enrollment in HTHSCI 3V03 and 4A3 is limited, students interested in completing the BMS Certificate should declare their intention to complete the certificate to the BMS Coordinator in the Bachelor of Health Sciences (Honours) Program so that the department can manage enrollment and offer academic counselling accordingly.
2. In order to obtain the BMS Certificate, at least 12 units (above Level 1) must be elective to the degree.
3. No more than 6 units can be counted toward both the BMS Certificate and a Biochemistry Minor.

CERTIFICATE REQUIREMENTS

Any student in an undergraduate program at McMaster may declare the BMS Certificate at the time of graduation provided that they satisfy the following requirements.

REQUIREMENTS

30-33 units

6 units

from

- HTHSCI 3V03 - Research and Experimental Design
- HTHSCI 4A3 - Model Systems
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3RP3 - Life Sciences Research Practicum

15 units

from

Biochemistry:

- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3EE3 - Research Advances in Cell Biology and Biochemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4C03 - Inquiry in Biochemistry
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology

- BIOCHEM 4S03 - Introduction to Molecular Biophysics

Health Sciences:

- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Introductory Virology
- HTHSCI 3SB3 - Superbugs: Bacterial Antibiotic Resistance
- HTHSCI 3U03 - Medical Genetics
- HTHSCI 3X03 - Pain: Perceptions, Mechanisms and Management
- HTHSCI 4BB3 - Neuroimmunology
- HTHSCI 4G03 - Pathoanatomy
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4J03 - Immunological Principles In Practice
- HTHSCI 4JJ3 - Building Undergraduate Research Capacity
- HTHSCI 4K03 - Human Pathophysiology
- HTHSCI 4KK3 - Pathophysiology of Infectious Diseases
- HTHSCI 4NU3 - Nutrition
- HTHSCI 4O03 - Principles of Virus Pathogenesis

Molecular Biology:

- MOLBIOL 4H03 - Molecular Biology of Cancer

Life Sciences:

- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3BM3 - Implanted Biomaterials (CHEMBIO 3BM3)
- LIFESCI 3BP3 - Modelling Life (BIOPHYS 3G03)
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3RC3 - Radioisotopes in Medicine (CHEM 3RC3)

9-12 units

from

- HTHSCI 4R09 A/B - Thesis in Biomedical Sciences
- HTHSCI 4R12 A/B S - Thesis in Biomedical Sciences
- LIFESCI 4B09 A/B S - Independent Project
- LIFESCI 4C12 A/B S - Independent Thesis
- LIFESCI 4D15 A/B S - Independent Thesis

or

- Equivalent senior thesis courses in the student's home program

CONCURRENT CERTIFICATE IN ESSENTIAL FRENCH

Department of French

Togo Salmon Hall, Room 532, ext. 24470

<http://french.humanities.mcmaster.ca/>

The Concurrent Certificate in Essential French is intended for those students seeking a solid foundation in essential French, including receptive linguistic skills in French (listening, reading, comprehension), and fundamental productive communication skills (speaking, writing). Students completing a degree program in French (Hons BA, BA, minor) are not eligible for the concurrent Certificate in Essential French.

CERTIFICATE REQUIREMENTS

Any student in an undergraduate degree program at McMaster may declare the certificate, at the time of graduation, and upon completion of the following courses in French.

REQUIREMENTS

18 units total

- FRENCH 1Z06 A/B - Beginner's Intensive French I
- FRENCH 2Z06 A/B - Beginner's Intensive French II
- FRENCH 2M06 A/B - Introduction to French Studies: Advanced Level *

ALTERNATE PATHWAY TO CERTIFICATE

Those students who begin their French Studies at McMaster with FRENCH 2Z06 A/B may still complete the concurrent Certificate in Essential French, through fulfilment of the following alternate pathway.

REQUIREMENTS

15 units total

12 units

- FRENCH 2M06 A/B - Introduction to French Studies: Advanced Level
- FRENCH 2Z06 A/B - Beginner's Intensive French II

3 units

- Level II French

NOTE:

*Students may replace FRENCH 2M06 A/B with equivalent language courses taken during the summer through the Explore program, or with other pre-approved exchange or study abroad courses. No more than 6 units of the Certificate, however, can come from non-McMaster courses.

The Department of French strongly recommends that an immersion experience be part of the work towards the certificate.

CONCURRENT CERTIFICATE IN IMMUNOLOGY, MICROBIOLOGY, & VIROLOGY (IMV)

Faculty of Health Sciences

The Concurrent Certificate in Immunology, Microbiology, & Virology is administered by the Bachelor of Health Sciences (Honours) Program.

Michael G. DeGroot Centre for Learning and Discovery, Room 3300, ext. 22815. bhsc.mcmaster.ca

The Concurrent Certificate in Immunology, Microbiology, & Virology (IMV Certificate) is designed to provide students from health sciences, biotechnology, biology, life sciences, or any other disciplines with an interest in immunology, host defense, microbiology, and virology with an opportunity to develop an academic focus in this area, with the IMV Certificate serving to recognize that they have gained core knowledge in this area through their coursework.

CERTIFICATE REQUIREMENTS

Any student in an undergraduate program at McMaster may declare the IMV Certificate at the time of graduation provided that they satisfy the following requirements.

REQUIREMENTS

Completion of 15 units from *Course Lists A, B, and C*, with at least 3 units from *Course List A* and at least 3 units from *Course List B*.

COURSE LIST A

Foundational Microbiology & Virology

- BIOTECH 3IV3 - Immunology and Virology
- HTHSCI 3I03 - Introductory Immunology

COURSE LIST B

Foundational Microbiology & Virology

- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOTECH 2MB3 - Microbiology
- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 3K03 - Introductory Virology

COURSE LIST C

Specialized Courses in Immunology, Virology, & Microbiology

- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- BIOTECH 3FM3 - Food Microbiology
- HTHSCI 1DT3 - Discover Immunology Today
- HTHSCI 3SB3 - Superbugs: Bacterial Antibiotic Resistance
- HTHSCI 4BB3 - Neuroimmunology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4J03 - Immunological Principles In Practice
- HTHSCI 4KK3 - Pathophysiology of Infectious Diseases
- HTHSCI 4O03 - Principles of Virus Pathogenesis
- MOLBIOL 3O03 - Microbial Genetics
- MOLBIOL 4P03 - Medical Microbiology

NOTE

Transfer credits may be considered for credit toward the IMV Certificate by submitting a request to the Assistant Dean, Bachelor of Health Sciences (Honours) Program.

CONCURRENT CERTIFICATE IN INTERNATIONAL ENGAGEMENT

Faculty of Humanities

Chester New Hall, Room 107

<http://www.humanities.mcmaster.ca>

humanities@mcmaster.ca

This Certificate recognizes students' efforts to gain meaningful experiences outside the classroom while promoting the concept of international engagement through an emphasis on the development of linguistic and cultural awareness. The Certificate recognizes both academic and co-curricular efforts on the part of the student to gain an international perspective and to increase his or her knowledge of what it means to be a global citizen.

The Certificate is open to any student enrolled in an undergraduate program at the University and complements any undergraduate degree. Students may declare the Certificate in International Engagement at the time of graduation, and upon completion of the following courses.

REQUIREMENTS

18 units total

12 units

- Language courses other than English, or 6 units in each of two languages other than English. Students are encouraged to consider the diversity of language offerings at McMaster, including Indigenous languages

3 units

- International experience at home or abroad *
- Credit received from an International Exchange Program ('XCH')
- INTENG 2A03 - International Engagement at Home

3 units

- INTENG 3A03 - International Engagement Capstone

NOTE

* 3 units of pre-approved, alternative relevant study abroad experience may replace this requirement. This may include independent study abroad experiences, approved on Letter of Permission, or existing placement coursework, such as in HISTORY 3GH3. Previously approved experiential courses may also be substituted for the 'International Engagement at Home' requirement, where deemed to have met appropriate learning objectives.

No more than 6 units of the Certificate can come from non-McMaster courses.

CONCURRENT CERTIFICATE IN LEADERSHIP & CROSS-CULTURAL LITERACY

Faculty of Humanities

Chester New Hall, Room 107

<http://www.humanities.mcmaster.ca>

humanities@mcmaster.ca

The Certificate fills a critical need for undergraduate students to learn about and develop professional skills that are highly desirable for the pursuit of graduate studies, professional programs, and employment opportunities, following undergraduate studies. A key objective of the course sequence is to help students develop leadership skills within a rigorous academic framework that balances both theory and practice.

CERTIFICATE REQUIREMENTS

Any student in an undergraduate degree program at McMaster may declare the certificate, at the time of graduation, and upon completion of the following courses.

NOTE

- Eligible Wilson Leadership Scholars may replace HUMAN 4LC3 - Leadership Capstone: Theory and Practice with HUMAN 4WL3 A/B - Wilson Leadership Scholar Capstone toward this certificate requirement.

REQUIREMENTS

15 units total

3 units

from

Ethics Requirement

- PHILOS 2D03 - Bioethics
- PHILOS 2N03 - Business Ethics
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 2YY3 - Ethics

12 units

from

Leadership & Cross-Cultural Literacy Requirement

- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab
- HUMAN 3LM3 - Foundations of Leadership
- HUMAN 4CM3 - Cross-cultural Mentoring and Coaching Practicum
- HUMAN 4LC3 - Leadership Capstone: Theory and Practice
- HUMAN 4RM3 - Leadership: Relationship Management

CONCURRENT CERTIFICATE IN PROFESSIONAL FRENCH

Department of French

Togo Salmon Hall, Room 532, ext. 24470

<http://french.humanities.mcmaster.ca/>

The concurrent Certificate in Professional French provides students with substantial vocabulary from such fields as business, law, medicine, journalism and the hospitality industry. Through a focus on the study of sample cases, the certificate will help prepare students for possible real-life situations which they could encounter in their careers.

NOTES

- No more than 6 units of the Certificate may be completed using non-McMaster courses.
- Students majoring in any French program must complete the certificate requirements FRENCH 2I03 and FRENCH 3I13 as elective credit. These courses must be taken outside of the French (Honours B.A., Combined Honours B.A. or B.A.) degree requirements.

ADMISSION

Any student in an undergraduate degree program at McMaster may declare the certificate, at the time of graduation, and upon completion of the following courses in French.

REQUIREMENTS

18 units

- FRENCH 1A06 A/B - Introduction to French Studies: Advanced Level
- or
- FRENCH 2M06 A/B - Introduction to French Studies: Advanced Level
- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 2I03 - Professional French I
- FRENCH 3I13 - Professional French II

CONCURRENT CERTIFICATE IN THE LANGUAGE OF MEDICINE AND HEALTH

Department of Classics

Togo Salmon Hall, Room 706, ext. 24311

<http://classics.humanities.mcmaster.ca>

This concurrent certificate provides students with formal recognition of competency in the etymology, word formation, and logic of medical terminology.

CERTIFICATE REQUIREMENTS

Any student in an undergraduate degree program at McMaster may declare the certificate, at the time of graduation, and upon completion of the following courses.

REQUIREMENTS

15 units total

6 units

- CLASSICS 2MT3 - Ancient Roots of Medical Terminology
- CLASSICS 3MT3 - Advanced Ancient Roots of Medical Terminology

6 units

from

- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- LATIN 1Z03 - Beginner's Intensive Latin I
- LATIN 1ZZ3 - Beginner's Intensive Latin II

3 units

from

- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- GREEK 2A03 - Intermediate Greek I
- LATIN 1Z03 - Beginner's Intensive Latin I
- LATIN 1ZZ3 - Beginner's Intensive Latin II
- LATIN 2A03 - Intermediate Latin I
- LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
- LINGUIST 3F03 - Anatomy and Physiology for Speech, Language and Hearing
- ENGLISH 2NH3 - Narratives of Health

NOTES

1. Any student seeking a Classics program may satisfy no more than 2 courses (six units) of the Classics program's requirements with courses that the student counts toward the satisfaction of the Certificate's requirements.
2. Any student wishing to declare a Minor in Classics, Latin, or Greek may satisfy no more than 2 courses (six units) of the Minor's requirements.
3. Students who have Grade 12 Latin or Greek and are therefore not eligible to take Beginner's Intensive Latin or Greek can substitute the Intermediate Latin or Greek.

CONCURRENT ETHICS AND POLICY FOR TECHNOLOGICAL INNOVATION CERTIFICATE (EPTIC)

Department of Philosophy

University Hall, Room 310, ext. 24275

<http://philos.humanities.mcmaster.ca/>

The Ethics and Policy for Technological Innovation Certificate (EPTIC) is designed to prepare undergraduate students from health sciences, engineering, business, humanities, science, and social science to work together on teams to identify and resolve the ethical, institutional, and policy challenges posed by novel technologies that are highly promising but also potentially socially disruptive. The Certificate will recognize students for having gained core subject matter competencies and experience as members of such interdisciplinary research teams under the direction of faculty and staff associated with the McMaster University Institute for Ethics and Policy Innovation (IEPI).

CERTIFICATE REQUIREMENTS

Any student in an undergraduate program at McMaster may declare the certificate at the time of graduation and upon satisfaction of each of the following requirements:

1. The student must be accepted by the Ethics and Policy for Technological Innovation Certificate Committee (the EPTIC Selection Committee). The EPTIC Selection Committee will consider supplemental applications soon after the end of Winter term of each academic year, but only from students who are enrolled in an undergraduate program at McMaster University and who have completed PHILOS 2D03 or 2YY3 and either (or both) PHILOS 2S03 or PHILOS 2G03. The EPTIC Selection Committee's selections will be made on the basis of the student's cumulative grades and answers to the supplemental application questions.
2. The student must complete 15 units in accordance with the following requirements.

NOTES

1. Students accepted and enrolled in the Justice, Political Philosophy, and Law Honours BA Program are not eligible to apply for the Certificate.
2. Any student seeking a Philosophy Honours BA may satisfy no more than 2 courses (6 units) of the Philosophy Honours BA Program requirements with courses that the student has also designated as counting toward the satisfaction of the Certificate's requirements.
3. Students who declare the certificate are precluded from declaring a philosophy minor.
4. Transfer credits will not be accepted in lieu of PHILOS 4V03. Students accepted into the certificate program are free to request transfer credit in lieu of any other certificate course requirement. The student may submit such a request to the Selection Committee (via philadm@mcmaster.ca) at any time.
5. Note that selection by the selection committee is distinct from the successful declaration of the certificate, and a student's selection does not imply that the candidate has satisfied all certificate requirements. It is the student's responsibility to make sure that at the time of graduation, all requirements of the certificate as enumerated above have been fulfilled.
6. Integrated Business and Humanities students may substitute IBH 2BD3 for PHILOS 2D03.

REQUIREMENTS*15 units total***3 units**

from

- PHILOS 2D03 - Bioethics
- PHILOS 2YY3 - Ethics

3 units

from

- PHILOS 2G03 - Social and Political Issues
- PHILOS 2S03 - History of Political Philosophy

3 units

- PHILOS 2N03 - Business Ethics
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 3C03 - Advanced Bioethics
- PHILOS 3CC3 - Advanced Ethics

3 units

from

- PHILOS 3I03 - Philosophy and Feminism
- PHILOS 3L03 - Environmental Philosophy
- PHILOS 3N03 - Political Philosophy
- PHILOS 3Q03 - Philosophy of Law

3 units

- PHILOS 4V03 - Multidisciplinary Workshop in the Ethics and Policy of Technological Innovation

Other Diploma Programs

For information concerning other Diploma programs offered at the University, please refer to the relevant Faculty section in this Calendar.

FACULTY OF HEALTH SCIENCES

- Health Professional Entrance Preparation (HPEP) Undergraduate Certificate
- Occupational Therapy Examination and Practice Preparation Project (OTEPP)

INDIGENOUS STUDIES

- **Ogweho:weh** Language Diploma (for more information please contact the Indigenous Studies Program Office, L.R. Wilson Hall Room 1010. 905-525-9140 ext. 27426)

FACULTY OF HUMANITIES

- Diploma in Music Performance
- McMaster English Language Development Diploma (MELD)
- McMaster English Readiness for Graduate Excellence Certificate

Interdisciplinary Minors and Thematic Areas

THEMATIC AREAS

ASIAN STUDIES

While there is no B.A. program in Asian Studies, students interested in concentrating in this area may choose from among the following courses offered by various departments. Those desiring further information on specific courses should consult the departmental listing in the Calendar.

Students wishing to pursue Asian Studies may obtain further information from the Department of Religious Studies.

COURSES DEALING STRICTLY WITH ASIAN MATERIAL

- ARTHIST 2Z03 - Art and Visual Culture in East and South Asia
- ARTHIST 3Z03 - The Silk Road in the First Millennium
- HISTORY 2MC3 - Modern China
- HISTORY 3A03
- HISTORY 3EC3 - Chinese Intellectual Traditions
- POL SCI 2N03
- RELIGST 1J03 - Great Books in Asian Religions
- RELIGST 2BF3 - Buddhism and Film
- RELIGST 2F03 - Storytelling in East Asian Religions
- RELIGST 2I03 - Storytelling in Indian Religion
- RELIGST 2IR3 - Hollywood/Bollywood and Indian Religions
- RELIGST 2K03 - Introduction to Buddhism
- RELIGST 2L03
- RELIGST 2MT3 - Asian Meditation Traditions
- RELIGST 2P03
- RELIGST 2TT3 - Religion and Popular Culture in Contemporary Japan
- RELIG ST 3AA3
- RELIGST 3E03 - Japanese Film and Religion
- RELIGST 3L03 - The Indian Religious Tradition
- RELIG ST 3RR3 - Taoism
- RELIGST 3S03 - The East Asian Religious Tradition
- RELIGST 2BT3 - The Buddhist Tradition in India
- RELIGST 3UU3 - Buddhism in East Asia
- RELIGST 4H03 - Topics in Asian Religions

COURSES WITH SIGNIFICANT ASIAN CONTENT

- HISTORY 2HH3 - Mediterranean Encounters 1500-1800
- POL SCI 4MM6
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 2BB3 - Images of the Divine Feminine
- RELIGST 2H03
- RELIGST 2M03 - Death and Dying: Comparative Views
- RELIGST 2QQ3 - Cults, Conspiracies and Close Encounters
- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- RELIGST 3FF3 - Gender and Religion

LANGUAGE COURSES

- CHINESE 1Z06 A/B - Mandarin Chinese for Beginners
- JAPANESE 1Z06 A/B S - Beginner's Intensive Japanese
- JAPANESE 2Z03 - Intermediate Intensive Japanese I
- JAPANESE 2ZZ3 - Intermediate Intensive Japanese II
- JAPANESE 3Z03
- JAPANESE 3ZZ3

- SANSKRIT 3A06 A/B - Introduction to Sanskrit Grammar
- SANSKRIT 4B06 A/B - Readings in Sanskrit Texts

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

CANADIAN STUDIES

There is no B.A. in Canadian Studies, but students interested in this area may choose from among the following courses, subject to meeting the prerequisites.

HUMANITIES

- ARTHIST 3B03 - Aspects of Canadian Art
- ENGLISH 2C03 - Contemporary Canadian Fiction
- ENGLISH 3DD3
- FRENCH 2C03
- FRENCH 2E03 - Survey of Quebec Literature and Culture
- FRENCH 3AA3 - The Modern French-Canadian Novel
- FRENCH 4U03 - Topics in Literature and Culture of Quebec and Francophone Canada
- HISTORY 2T03 - Survey of Canadian History, Beginnings to 1885
- HISTORY 2TT3 - Survey of Canadian History, 1885 to the Present
- HISTORY 3CG3 - Canadians in a Global Age, 1914 to the Present
- HISTORY 3CW3 - Canada in a World of Empires, 1492-1919
- HISTORY 3G03
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3NN3
- HISTORY 3P03
- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920
- MUSIC 2T03

SCIENCE

- GEOG 2RC3 - Regional Geography of Canada
- GEOG 3UP3 - Planning our Cities
- GEOG 4UH3 - Urban Housing

SOCIAL SCIENCES

- ANTHROP 2B03 - Contemporary Indigenous Knowledge and Societies
- ANTHROP 2003 - Themes in the Archaeological History of North America
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ECON 2CC3 - Health Economics and its Application to Health Policy
- ECON 2K03 - Economic History of Canada
- INDIGST 2F03 - Residential Schools in Canada: History and Impact
- INDIGST 3J03 - Government and Politics of Indigenous People
- LABRST 1A03 - An Introduction to Labour in Canada
- LABRST 3C03 - Labour and Employment Law
- POLSCI 1G06 A/B
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- POLSCI 2D03 - Canadian Democracy
- POLSCI 2F03 - Politics, Power and Influence in Canada
- POL SCI 2L03
- POLSCI 3FF3
- POLSCI 3GG3 - Federalism
- POLSCI 3J03 - Honours Issues in Canadian Politics and Canadian Public Policy
- POLSCI 3K03 - Migration and Citizenship: Canadian, Comparative and Global Perspectives
- POLSCI 3RF3 - The Charter of Rights and Freedoms
- POLSCI 3S03
- POLSCI 3SP3
- POLSCI 3NN6 A/B

- POLSCI 3Z03 - Canadian Public Sector Management
- POLSCI 4006 A/B - Canadian Politics
- POLSCI 4T06 A/B
- RECONCIL 1A03 - Reconciling What? Indigenous Relations in Canada
- SOCWORK 2B03
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4U03 - Immigration, Settlement and Social Work
- SOCWORK 4W03 - Child Welfare
- SOCIOLOG 3PP3 - Canadian Sociological Theory

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

INTERDISCIPLINARY MINORS

INTERDISCIPLINARY MINOR IN AFRICAN AND AFRICAN DIASPORA STUDIES

The Interdisciplinary Minor in African and African Diaspora Studies is made up of courses spanning across more than 15 departments. A Minor in African and African Diaspora Studies provides students with in-depth understanding of African and African-diaspora peoples and societies around the world.

Students are required to complete a minimum of 24 units from the list below. No more than 6 units of Level 1 courses may be applied towards the completion of the Minor. Some of the courses below are cross-listed. It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list.

Students wishing to pursue African and African Diaspora Studies may obtain further information from Dr. Bonny Ibhawoh (CNH 604, ext. 24153) or Dr. Juliet Daniel (LS 331, ext. 23765).

COURSE LIST

- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- ANTHROP 2E03 - Introduction to Biological Anthropology
- COLLAB 1G03 - Multiculturalism
- COLLAB 3B03 - Sociology: Diversity and Inequality
- CMST 2Q03
- CMST 2R03
- CSCT 3A03 - Critical Race Studies
- CMST 3BB3
- CMST 3JJ3 - The Rise of the Music Industry
- CSCT 3R06 A/B - Postcolonial Cultures: Theory and Practice
- ENGLISH 3A03 - Critical Race Studies
- ENGLISH 3EE3 - African American Literature
- ENGLISH 3R06 A/B - Postcolonial Cultures: Theory and Practice
- ENGLISH 3RR3 - African Literature and Film
- ENGLISH 4AA3
- ENGLISH 4WL3 - Globalization and Postcolonial Fiction
- FRENCH 2AC3 - Introduction to Francophone Literatures and Cultures
- HTHSCI 1C06 A/B - Working Across Difference in Midwifery
- HISTORY 1B03
- HISTORY 1BB3
- HISTORY 2AA3
- HISTORY 2CS3 - Caribbean Slavery in the Atlantic World
- HISTORY 2EN3 - Caribbean History
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- HISTORY 2U03
- HISTORY 3BB3

- HISTORY 3J03 - The United States in the 1960s
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3RC3

- WOMENST 3H03

INTERDISCIPLINARY MINOR IN ARCHAEOLOGY

COORDINATOR

Spencer Pope (*Classics*)

COMMITTEE OF INSTRUCTION

Martin Beckmann (*Classics*)

Joe Boyce (*Geography and Earth Sciences*)

Aubrey Cannon (*Anthropology*)

Tristan Carter (*Anthropology*)

Michele George (*Classics*)

Shanti Morell-Hart (*Anthropology*)

Hendrik Poinar (*Anthropology*)

Spencer Pope (*Classics*)

Tracy Prowse (*Anthropology*)

Eduard Reinhardt (*Geography and Earth Sciences*)

Andrew Roddick (*Anthropology*)

Henry Schwarcz (*Geography and Earth Sciences*)

The Interdisciplinary Minor in Archaeology is based on archaeology and archaeology-related courses offered in the School of Geography and Earth Sciences, and in the Departments of Classics and Anthropology. It requires students to gain knowledge and understanding of a broad range of arts and sciences relevant to the practice of archaeology, but also permits students the flexibility to specialize in topics

of particular interest within related disciplines. Students planning a minor in Archaeology may wish to take CLASSICS 1M03 - History of Greece and Rome.

COURSE LIST

- ANTHROP 2BB3 - Ancient Mesoamerica: Aztecs to Zapotecs
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 2003 - Themes in the Archaeological History of North America
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology
- ANTHROP 2PC3 - Aliens, Curses and Nazis: Archaeology and Hollywood
- ANTHROP 2RP3 - Religion and Power in the Past
- ANTHROP 2WA3 - Neanderthals to Pyramids: Introduction to World Archaeology
- ANTHROP 3AS3 - Archaeology and Society
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3BF3 - Bioarchaeological Field School
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3CC6 - Archaeological Field School
- ANTHROP 3DD3 - Archaeology of Death
- ANTHROP 3E03 - Special Topics in Archaeology I
- ANTHROP 3EE3 - Special Topics in Archaeology II
- ANTHROP 3EM3 - Current Debates in Eastern Mediterranean Prehistory
- ANTHROP 3FF3 - Key Debates In Andean Archaeology
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3X03 - Zooarchaeology
- ANTHROP 4AA3 - Materiality, Matter and Social Lives
- ANTHROP 4E03 - Advanced Topics in Archaeology I
- ANTHROP 4F03 - Current Debates in Archaeology
- ANTHROP 4HF3 - Archaeology of Hunter-Fisher-Gatherers
- ANTHROP 4HH3 - Archaeologies of Space and Place
- ANTHROP 4R03 - Advanced Bioarchaeology and Skeletal Biology
- CLASSICS 1A03 - Introduction to Classical Archaeology
- CLASSICS 2B03 - Greek Art
- CLASSICS 2C03 - Roman Art
- CLASSICS 3MA3 (*no longer offered*)
- CLASSICS 3Q03 - Greek Sanctuaries
- CLASSICS 3S03 - Pompeii, Herculaneum, and Ostia
- EARTHSC 1G03 - Earth and the Environment
- EARTHSC 2B03
- EARTHSC 2E03 - Earth History
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 2GI3
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Clastic Sedimentary Environments
- EARTHSC 3GI3
- EARTHSC 3P03
- EARTHSC 3V03
- EARTHSC 4E03
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- ENVIRSC 2B03 - Soils and the Environment
- GEOG 2GI3 - Geographic Information Systems
- GEOG 3GI3 - Advanced Raster GIS
- INDIGST 2B03 - History of Indigenous Peoples' Sovereignty

REQUIREMENTS

24 units total

3 units

from

- Level I Anthropology

6 units

from

- ANTHROP 2PA3 - Introduction to Anthropological Archaeology
- ANTHROP 2WA3 - Neanderthals to Pyramids: Introduction to World Archaeology
- EARTHSC 1G03 - Earth and the Environment

15 units

from

- Course List (see above). At least nine of the 15 units must be selected from outside the student's own department

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

INTERDISCIPLINARY MINOR IN COMMUNITY ENGAGEMENT

Designed to provide a foundation of knowledge and skills for participation in communities regardless of one's primary field of study, the Interdisciplinary Minor in Community Engagement allows students to deepen and expand their understanding of communities and develop skills for principled and effective engagement. The interdisciplinary nature of the minor allows for a broad knowledge base from which to establish relationships with a range of communities both locally and globally. Students are required to take CMTYENGA 2A03 and 21 additional units from the three course lists below, selected from two or more Faculties. To ensure a mixture of theoretical and experiential courses, students must take a minimum of six units from Course List A (courses that focus on theory) and a minimum of six units from Course List B (courses that provide the student with relevant experiential learning) and/or Course List C (capstone courses that involve an advanced community engaged project and/or community based research). Students are strongly encouraged to take courses from Course List C. The Faculty of Social Sciences will host the minor by managing administrative obligations such as the submission of curricular revisions. Responsibility for advising students rests with the student's home Faculty or Program. More information about Community Engagement can be found at <http://community.mcmaster.ca>. Specific questions may be sent to the Office of Community Engagement at community@mcmaster.ca. It is the student's responsibility to check carefully for prerequisites, co-requisites and enrollment restrictions. Students are encouraged to speak to their academic advisors about Faculty and Program-specific rules on double-counting courses for the minor.

COURSE LIST A (THEORY COURSES)

- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Conflict
- ANTHROP 3F03 - Anthropology and the 'Other'
- ANTHROP 3PH3 - Dissent, Power and History
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- COMMERCE 1B03 - Business Environment & Organization
- GEOG 1HA3 - Society, Culture and Environment
- GEOG 1HB3 - Population, Cities and Development
- GEOG 2TS3 - Society and Space
- GEOG 2UI3 - Cities in a Changing World
- GEOG 3UR3 - Urban Social Geography
- GEOG 3UW3 - Cities of the Developing World
- GEOG 4HD3 - Geographies of Disability
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- HLTHAGE 2GG3 - Mental Health and Society
- HLTHAGE 3AA3 - State, Civil Society and Health

- HLTHAGE 3K03 - Social Determinants of Population Health in Canada
- HTHSCI 2RR3 - Introduction to the Social Determinants of Health
- HTHSCI 3AH3 - Indigenous Health
- HTHSCI 4DM3 - Demystifying Medicine
- HTHSCI 4SS6 A/B - Group Process Practicum
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- INDIGST 2C03 - Current Issues in Indigenous Studies: Selected Topics
- INDIGST 2M03 - Indigenous Research Methods and Ethics
- INDIGST 2MM3 - Indigenous Ways of Knowing: Theory
- INDIGST 3CC3 - Contemporary Indigenous Societies: Selected Topics
- INDIGST 3J03 - Government and Politics of Indigenous People
- LABRST 2G03 - Labour and Globalization
- LABRST 2J03 - Work and Racism
- LABRST 3E03 - Gender, Sexuality and Work
- LIFESCI 2A03 - Research Methods in Life Sciences
- MATH 2UU3 - Numbers for Life
- NURSING 4H03 - Introduction to Concepts in Global Health
- PEACEST 2A03 - Conflict Transformation: Theory and Practice
- PEACEST 2B03 - Human Rights and Social Justice
- PHILOS 2CT3 - Critical Thinking
- PHILOS 2YY3 - Ethics
- POLSCI 2F03 - Politics, Power and Influence in Canada
- POLSCI 2U03 - Public Policy and Administration
- POLSCI 3F03
- POLSCI 3FG3 - Public Service Leadership
- POLSCI 3V03 - Gender and Politics
- RELIGST 2RD3 - Religion and Diversity
- SEP 4EL3 - Leading Innovation
- SOCIOL 1Z03 - An Introduction to Sociology
- SOCIOL 2RR3 - Case Studies of Social Inequality
- SOCIOL 3Z03 - Ethnic Relations
- SOCIOL 4E03 - Self and Identity
- SOCIOL 4QQ3 - Women, Sexuality and the Welfare State
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCWORK 3O03 - Social Work and Sexualities
- SOCWORK 3T03 - Poverty and Homelessness
- SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SUSTAIN 1S03 - Introduction to Sustainability
- HTHSCI 3DD6 A/B - Engaging the City: An Introduction to Community-Based Research in Hamilton
- HTHSCI 3MU3 - Music, Health, & the Community
- HTHSCI 4D03 - Special Topics in Health Sciences
- HTHSCI 4F03 - Interdisciplinary Health & Wellness
- HUMAN 3CL3 - Community Leadership at McMaster
- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab
- HUMAN 3LM3 - Foundations of Leadership
- HUMAN 4LM3
- HUMAN 4RM3 - Leadership: Relationship Management
- INDIGST 4L03 - Indigenous Community Research Experience
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3XX3 - Peer Mentoring in Science Communication
- LIFESCI 3YY3 - Peer Mentoring in Laboratory Skill Development
- LIFESCI 4Q03 - Research Seminar
- LIFESCI 4W03 - Advanced Topics in Nutrition
- LIFESCI 4X03 - The Biopsychology of Sex
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- PEACEST 3P03 - Practicum I: Practical Peace Building
- POLSCI 3PR3 - Practice of Politics
- POLSCI 3WP3 - Working in Politics
- PSYCH 2NF3 - Basic & Clinical Neuroscience
- RELIGST 3RH3 - Religion in Hamilton and its Environs
- SCIENCE 1P03
- SCIENCE 2P03 - Impactful Initiatives in Health
- SCIENCE 3EP3 A/B S - Applied Science Placement
- SCIENCE 3EX6 A/B S - Applied Science Placement
- SOCSCI 3EL3 - Leadership Through Experiential Learning
- SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
- SUSTAIN 3S03 - Implementing Sustainable Change
- WOMENST 1AA3 - Women Transforming the World

COURSE LIST C (CAPSTONE COURSES)

- CMTYENGA 4A06 - Semester at CityLAB: Design and Dialogue Inquiry
- CMTYENGA 4A09 - Semester at CityLAB: Applied Project Experience
- HTHSCI 3HN3 - Partnering with Hamilton Neighbourhoods for Health
- HTHSCI 4D06 A/B - Senior Project in Engaging the City
- HTHSCI 4D09 A/B - Thesis in Engaging the City
- HTHSCI 4D12 A/B - Thesis in Engaging the City
- SOCSCI 3F03 - Social Sciences in Action
- SOCSCI 4ID3 - Addressing Social Problems Through Business, Engineering and the Social Sciences
- SUSTAIN 4S06 A/B - Leadership in Sustainability

REQUIREMENTS

24 units total (no more than 6 units from Level 1 courses)

3 units

- CMTYENGA 2A03 - Foundations of Community Engagement

21 units

- Selected from two or more Faculties; must include a minimum of 6 units from *Course List A* and a minimum of 6 units from *Course List B* and/or *Course List C*

NOTES

Please see the *Course Listings* section for a detailed description of the above courses.

INTERDISCIPLINARY MINOR IN GLOBALIZATION STUDIES

The minor in Globalization Studies provides students with the opportunity to explore the complex idea of globalization from a multi-disciplinary perspective. Students will have the opportunity to complete courses from the Social Sciences, Humanities, Health Sciences and Science faculties that cover a wide variety of themes related to globalization, and will be able to tailor their course selection according to their interests.

COURSE LIST B (EXPERIENTIAL COURSES)

- ART 3FW3 - Field Work: On-Site Explorations
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- CHEM 3EP3 A/B S - Advanced Chemistry Placement
- CHEMBIO 3EP3 A/B S - Advanced Chemical Biology Placement
- COMMERCE 4MG3 - Strategic Philanthropy and Leadership
- COMMERCE 4SG3 - Sustainability: Corporations and Society
- EARTHSC 3IN3
- EARTHSC 4IN3
- ENVIRSC 3IN3 - Internship in Earth and Environmental Sciences
- ENVIRSC 4IN3 - Thesis Internship
- GEOG 3MI3 - Geography Internship
- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry
- HLTHAGE 3G03 - Community Based Research

NOTES

1. GLOBALZN 3A03 is strongly recommended to all students interested in pursuing a Minor in Globalization Studies.

2. Students who began studies prior to September 2018 may still choose to complete the Minor under previous guidelines.

REQUIREMENTS

24 units total (of which no more than 6 units may be from Level 1 courses)

3 units

from

- GLOBALZN 1A03 - Global Citizenship

21 units

- from *Course Lists 1, 2, 3* and 4 (see below). At least 9 of these units must be selected from outside the student's own program. (See Note 1)

THEMATIC COURSE LISTS**LIST 1 - ENVIRONMENT, SUSTAINABILITY, AND DEVELOPMENT**

- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3HD3 - Human Disasters
- BIOLOGY 4AA3 - Conservation Biology
- EARTHSC 2WW3

INTERDISCIPLINARY MINOR IN JEWISH STUDIES

Jewish Studies is an international, multidisciplinary field devoted to the study of Judaism, Jewish history, thought, culture and community. The Minor in Jewish Studies is open to all students registered in a four- or five-level program in any Faculty. Students will be required to complete a minimum of 24 units from the lists below. At least 12 of these units will be taken from List A, comprised of courses focusing directly on an area of Jewish Studies. Students are urged to take at least six units of Hebrew language as part of their List A requirements. A minimum of six units will be taken from List B, comprised of courses which provide crucial background for understanding important issues in Jewish Studies. Students are also encouraged to engage in a year of study in Israel, normally done in the third year of a four-year program. Details are available through the Department of Religious Studies, University Hall, Room 123, ext. 23109, or the Office of International Affairs, Alumni Memorial Hall, Room 203.

Students wishing to pursue a Minor in Jewish Studies may obtain more information from the Jewish Studies Minor Area Coordinator in the Department of Religious Studies, University Hall, Room 123.

LIST A

- HEBREW 2A03 - Introduction to Biblical Hebrew I
- HEBREW 2B03 - Introduction to Biblical Hebrew II
- HEBREW 3A03 - Intermediate Hebrew I
- HEBREW 3B03 - Intermediate Hebrew II
- HISTORY 2X03
- HISTORY 3DD3 - Jews and Jesus
- HISTORY 3ZZ3 - Judaism in the Modern World
- PHILOS 2JP3
- RELIGST 1AB3 - Archaeology and the Bible
- RELIGST 1L03 - Abraham in Judaism, Christianity, and Islam
- RELIGST 2B03 - Women in the Biblical Tradition
- RELIGST 2DD3 - The Five Books of Moses
- RELIGST 2EE3 - Prophets of the Bible
- RELIGST 2HB3 - From Creation to Exile
- RELIGST 2J03 - Introduction to Judaism

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

INTERDISCIPLINARY MINOR IN MUSLIM STUDIES

The minor in Muslim Studies provides the opportunity to study Muslim beliefs, practices, thought, and history in a variety of geographic locales and timeframes. Students are required to complete 24 units in total for the minor. A minimum of six units are required from list A, which includes courses focused wholly on Muslims and Islam. A minimum of six units are required from list B, which includes courses in which the study of Muslims and Islam comprise one part of the course material.

The remaining units are to be taken from list A, B, or C, which includes courses that provide key background for understanding Islamic history and Muslims in wider contexts. It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions for all courses on these lists.

REQUIREMENTS

24 units total

A MINIMUM OF 6 UNITS FROM LIST A:

- RELIGST 2Q03 - Introduction to Islam
- RELIGST 2TA3 - Islam in North America
- RELIGST 3C03 - Islam in the Modern World
- RELIGST 3FA3 - Islamic Mysticism
- RELIGST 4SR3 - Topics in the Sociology of Religion (or SOCIO 4SR3)

A MINIMUM OF 6 UNITS FROM LIST B:

- ARTHIST 2Y03 - Early Islamic Art to the Middle Ages
- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2HH3 - Mediterranean Encounters 1500-1800 (or RELIGST 2FF3)
- HISTORY 2IC3 - Islamic Civilization: The Formative Period, 500-1258
- RELIGST 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco (or ANTHROP 3GH3 or HISTORY 3GH3) in combination with ARABIC 3GH3

List C

- CMST 3RR3 - Race, Religion and Media
- CMST 4D03 - International Communication
- ENGLISH 3R06 A/B
- HISTORY 1CC3 - The Rise of Empires, 500-1950
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- PEACEST 3B03 - Peace-Building and Health Initiatives
- PEACEST 3D03 - Globalization and Peace
- RELIGST 1B03 - What on Earth is Religion?
- RELIGST 1B06A/B
- RELIGST 2DD3 - The Five Books of Moses
- RELIGST 2M03 - Death and Dying: Comparative Views
- RELIGST 2RN3 - Religion in the News
- RELIGST 2WW3 - Health, Healing and Religion: Western Perspectives
- RELIGST 3AR3 - Culture and Religion (or ANTHROP 3AR3)
- RELIGST 3CC3 - Religion and Politics (or POLSCI 3LA3)
- RELIGST 3EE3 - Sacred Journeys (or ANTHROP 3SS3)
- RELIGST 3F03 - Approaches to the Study of Religion
- RELIGST 3FF3 - Gender and Religion (or WOMENST 3FF3)
- RELIGST 3RH3 - Religion in Hamilton and its Environs
- SOCIO 2DD3 - Immigration and the Canadian Mosaic
- SOCIO 2FF3 - The Sociology of 'Race' and Ethnicity
- SOCIO 3Z03 - Ethnic Relations

INTERDISCIPLINARY MINOR IN SOCIAL JUSTICE AND INCLUSIVE COMMUNITIES

The minor in Social Justice and Inclusive Communities provides students with the opportunity to understand structures and processes underlying social marginalization, and to explore the range of ways people and communities work to bring about social justice, equity, and inclusion.

Students will complete courses from the Faculties of Science, Social Sciences and Humanities that address these themes and they will be able to select courses based on their own specific interests.

Students should note that this minor is not accredited by the Canadian Association for Social Work Education and it is not a social work credential. It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list. Students are encouraged to speak to their

Faculty advisors about Faculty-specific rules about double-counting courses for the minor.

REQUIREMENTS

24 units total

NOTE:

Please see the *Course Listings* section for a detailed description of the above courses.

INTERDISCIPLINARY MINOR IN SUSTAINABILITY

Addressing sustainability in our society poses interdisciplinary challenges that require interdisciplinary solutions. Sustainability is frequently taught in silos within individual Faculties, and most often within individual and isolated courses. The goal of the Minor is to alter this pedagogy and teach sustainability both within and across Faculties. The Minor provides a path for students to study diverse aspects of sustainability from different disciplines and integrate them into a cohesive whole. The primary responsibility for governance of the Minor is held by the Interdisciplinary Minor in Sustainability Committee comprised of an interdisciplinary group of faculty and administrators from the Faculties of Business, Engineering, Health Sciences, Humanities, Science, Social Sciences, and the Arts & Science Program. The Arts & Science Program hosts the Minor by managing administrative obligations such as the submission of curricular revisions. Responsibility for advising students rests with the student's home Faculty. More information on the Interdisciplinary Minor in Sustainability can be found at <http://asp.mcmaster.ca/minor.html> or by contacting asp@mcmaster.ca.

COURSE LIST

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 3C03 - Health and Environment: Anthropological Approaches
- ANTHROP 3Y03 - Indigenous Community Health and Well-Being
- ANTHROP 4CP3 - Cultural Politics of Food and Eating
- ARTSSCI 3GJ3 - Global Justice Inquiry
- ARTSSCI 4CA3 - Legal Inquiry
- ARTSSCI 4CK3
- ARTSSCI 4CM3
- ARTSSCI 4EP3 - Environmental Policy Inquiry
- ART 2ER3 - Environmentally Responsible Art

3 units

from

- SUSTAIN 1S03 - Introduction to Sustainability
- SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
- SUSTAIN 3S03 - Implementing Sustainable Change
- SUSTAIN 4S06 A/B - Leadership in Sustainability

21 units

from

- *Course List* (selected from two or more Faculties as outlined in the Undergraduate Course Calendar). Any cross-listed course between two or more Faculties and those of interdisciplinary programs will be counted as a course outside of the student's home Faculty. Sustain courses do not count towards units outside a student's home Faculty

NOTES

Please see the *Course Listings* section for a detailed description of the above courses. Student requests for course substitution can be completed using the request template and sent to Minor Committee Co-Chair Kate Whalen at whalenk@mcmaster.ca. The Request for Course Substitution template can be found online at <https://asp.mcmaster.ca/academic-programs-overview/interdisciplinaryminor-in-sustainability/>

1. Students should note that not all courses listed are available each year. As well, it is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions.
2. Students are strongly encouraged to seek guidance from their academic advisor to ensure they are meeting all enrolment requirements, including Faculty-specific requirements for double counting courses required for a student's major.
3. All courses have enrolment capacities. The Faculty cannot guarantee enrolment in courses for minors, even when prerequisites have been met.
4. ENVIRSC and EARTHSC courses are administered by the Faculty of Science.
5. GEOG courses are counted as Social Sciences courses.

Course Listings

The courses listed in this section include all courses approved for the undergraduate curriculum for the 2019-2020 academic year. Not all courses in the approved curriculum will be offered during the year. Students are advised to refer to the course timetables available annually in Mosaic in March and June to determine which specific courses will be offered in the upcoming sessions.

Note: An **A/B** suffix appearing in a course number indicates that the course may be delivered across more than one term (see *Multi-Term Course* in the *Glossary* of this calendar). The **A/B S** suffix indicates that the course may be delivered as *either* a multi-term course or within a single term.

ANTHROPOLOGY

Courses in Anthropology are administered by the Department of Anthropology, Chester New Hall, Room 524, ext. 24423

<http://www.anthropology.mcmaster.ca>

Department Notes

1. Not all Anthropology courses listed in this Calendar are taught every year. Students are advised to consult the department's webpage and the timetable which is published annually by the Registrar's Office to determine whether a course is offered.
2. Registration in all courses with a course code ending ** listed as independent research require prior arrangement with the instructor; otherwise, no grade will be submitted for the course. Please refer to "Undergraduate Course Offerings" on the department website for further details on our independent study courses.
3. To identify Anthropology courses by subdiscipline, students should refer to the lists of courses under *Anthropology Subfields* in the Department of Anthropology in the Faculty of Social Sciences section of this Calendar.

ANTHROP 1AA3 - INTRODUCTION TO ANTHROPOLOGY: SEX, FOOD AND DEATH

This course examines major issues in Anthropology in contemporary and past societies from archaeological, biological, cultural and linguistic perspectives. It will focus on sex, food, illness, death and related themes.

Lectures, discussion (three hours)

ANTHROP 1AB3 - INTRODUCTION TO ANTHROPOLOGY: RACE, RELIGION, AND CONFLICT

This course examines major issues in Anthropology in both contemporary and past societies from archaeological, biological, cultural and linguistic perspectives. It will focus on identity, power, migration, race, and related themes.

Lectures, discussion (three hours); one term

Cross-list(s): RELIGST 1R03

ANTHROP 2AN3 - THE ANTHROPOLOGY OF FOOD AND NUTRITION

An anthropological perspective on nutrition at the population level. Prehistoric, historic and contemporary human nutrition, emphasizing links with the environment. Lecture (two hours), tutorial (one hour); one term

Prerequisite(s): Three units of Level I Anthropology or HLTHAGE 1AA3 (HEALTHST 1A03); and registration in Level II or above in any program

Cross-list(s): HLTHAGE 2AN3

ANTHROP 2B03 - CONTEMPORARY INDIGENOUS KNOWLEDGE AND SOCIETIES

A comparative study of selected cultures of this continent, dealing with traditional and modern situations.

Lectures and discussion (three hours); one term

Prerequisite(s): Registration in Level II or above in any program

Cross-list(s): INDIGST 2BB3

ANTHROP 2BB3 - ANCIENT MESOAMERICA: AZTECS TO ZAPOTECAS

This course addresses the lifeways of ancient Mesoamerican societies through the material traces of daily and ritual practices, using diverse scientific methods and theoretical perspectives.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program.

Antirequisite(s): ANTHROP 2VV3 and 2W03

ANTHROP 2C03 - ARCHAEOLOGY OF ENVIRONMENTAL CRISIS AND RESPONSE

Examination of the influence of natural and human-induced environmental crises on long term culture histories.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program

ANTHROP 2D03 - DNA MEETS ANTHROPOLOGY

Introduction to the many uses of genetics in anthropology (modern human origins, migrations, domestication, primate conservation, primate genetics, forensics.)

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology, registration in Level II or above in any program

ANTHROP 2DA3 - TRADITIONAL INDIGENOUS ECOLOGICAL KNOWLEDGE

This course is a study of the ecological teachings of Indigenous peoples and of their relationships with the natural environment in historical and contemporary times.

Lectures and seminars (three hours); one term

Prerequisite(s): ANTHROP 1AA3 or ANTHROP 1AB3 or permission of the Instructor.

Cross-lists(s): GEOG 2EK3, INDIGST 2D03

This course is administered by the Indigenous Studies Program.

ANTHROP 2E03 - INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY

The course examines the biological and cultural basis for human variation, past and present.

Lectures (two hours), tutorial (one hour); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program

This course is required of all students enrolled in an Honours Program in Anthropology, and is a prerequisite for advanced courses in Physical Anthropology.

ANTHROP 2EE3 - SPORT AND/AS RELIGION

An examination of relationships between sport and religion, including ritual aspects of sport, connections between social collectivities and sports teams, and sport as meaning-making activity.

Lecture and discussion (three hours); one term

Cross-list(s): RELIGST 2SP3

ANTHROP 2F03 - ENGAGING SOCIAL WORLDS: AN INTRODUCTION TO CULTURAL ANTHROPOLOGY

An introduction to concepts, theories and current debates in cultural anthropology. This course is designed to prepare students for more advanced courses in social and cultural anthropology.

Lecture (two hours), tutorial (one hour); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program.

This course is required of all students enrolled in an Honours Program in Anthropology, and is a prerequisite for advanced courses in Cultural Anthropology.

ANTHROP 2FF3 - HUMAN SKELETAL BIOLOGY AND BIOARCHAEOLOGY

Study of the human skeleton (bones and dentition) for application in archaeology and forensic anthropology. Includes determination of sex, age, stature and other individual characteristics.

Lecture (2 hours), lab (1 hour); one term

Prerequisite(s): Registration in an Honours Anthropology program.

ANTHROP 2G03 - READINGS IN INDO-EUROPEAN MYTH

This course will acquaint students with the myths of Ancient Greece, Ancient India, the Celts and the Norse. Other traditions may also be examined.

Lectures and discussion (three hours); one term

Prerequisite(s): Registration in Level II or above in any program

ANTHROP 2HE3 - HERITAGE, ECONOMY, AND ETHICS

This course examines the ethics and reasons for the current heritage boom. It will be of interest to students in anthropology, public history, and museum work.

Lecture and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program

ANTHROP 2HH3 - SCIENCE, TECHNOLOGY & SOCIETY: ARCHAEOLOGICAL PERSPECTIVES

This course details the feats of engineering that gave us the pyramids, the million-year history of mining, and how elites rise with new technologies: from the wheel to steel. We locate the studies of fracture mechanics, quarrying, and smelting within a broader consideration of how engineering and technological innovations came to be, and their impact on past societies.

Lecture and discussion (three hours); one term.

Prerequisite(s): Registration in Level II or above in any program

ANTHROP 2MA3 - MEDIA, ART AND ANTHROPOLOGY

This course examines the relationship between anthropology, media and art, including issues of politics, representation, modes of artistic production and circulation.

Lecture (2 hours); tutorial (1 hour); 1 term.

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program.

Antirequisite(s): Anthrop 3MA3.

This course also includes experiential learning methods, e.g. in the form of museum visits; the creation of small exhibits, and so forth.

ANTHROP 2003 - THEMES IN THE ARCHAEOLOGICAL HISTORY OF NORTH AMERICA

An examination of the origins and development of the major indigenous cultural groups of prehistoric North America.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Anthropology and registration in Level II or above in any program. ANTHROP 2PA3 is strongly recommended.

ANTHROP 2PA3 - INTRODUCTION TO ANTHROPOLOGICAL ARCHAEOLOGY

An introduction to the theory, methods and ethics of anthropological archaeology with a focus on specific problems in the human past.

Lectures, labs, discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program

This course is required of all students registered in an Honours Program in Anthropology.

ANTHROP 2PC3 - ALIENS, CURSES AND NAZIS: ARCHAEOLOGY AND HOLLYWOOD

This course uses popular representations of archaeology from Agatha Christie to Indiana Jones to critically review the discipline's practice and practitioners from past to present.

Lectures, tutorials (three hours); one term

Prerequisite(s): Registration in Level II or above in any program.

ANTHROP 2R03 - RELIGION, MAGIC AND WITCHCRAFT

Selected issues in the study of religion, magic and witchcraft, science and the supernatural. Perspectives from history, psychology and sociology also will be discussed.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program.

Cross-list(s): RELIGST 2MW3

ANTHROP 2RP3 - RELIGION AND POWER IN THE PAST

A critical examination of the relationship between religion, political power and warfare in a sample of prehistoric and historic states and empires.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program

ANTHROP 2U03 - PLAGUES AND PEOPLE

A consideration of the role played by infectious disease in human evolution. The social and biological outcomes of major epidemics and pandemics, past and present, will be explored.

Lecture (two hours), tutorial (one hour); one term

Prerequisite(s): Registration in Level II or above in any program

ANTHROP 2WA3 - NEANDERTHALS TO PYRAMIDS: INTRODUCTION TO WORLD ARCHAEOLOGY

This course introduces students to major debates in World Archaeology, including the origins of: humanity, art, first peoples of the Americas, farming, social differentiation and state-level societies. Global case studies highlight the approaches archaeologists employ in their search for answers.

Lectures, tutorials (three hours); one term

Prerequisite(s): Three units of Level I Anthropology and registration in Level II or above in any program.

ANTHROP 3AR3 - CULTURE AND RELIGION

This course introduces key theorists and theories, classic and current topics, and issues of methodology and writing in the study of religion and culture.

Lectures and tutorial (three hours); one term

Prerequisite(s): Three units of any Anthropology or Religious Studies course and registration in Level II or above

Cross-list(s): RELIGST 3AR3

This course is administered by the Department of Religious Studies

ANTHROP 3AS3 - ARCHAEOLOGY AND SOCIETY

A critical examination of the history of archaeology and the social and political implications of our understanding of the ancient human past.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology

ANTHROP 3BB3 - ANCIENT AGRICULTURE TO CRIMINAL INVESTIGATIONS: PALEOETHNOBOTANY IN PRACTICE

This course trains students in laboratory methods and interpretations of botanical evidence through hands-on practice. We explore the major classes of plant remains likely to be encountered in forensic cases and archaeological sites; identify botanical residues and organize the data to make interpretable results; and address major issues within the discipline including preservation, analytical methods, sampling, collection, and interpretation.

Three hours (lectures, discussion, and lab); one term

Prerequisite(s): ANTHROP 2PA3; and credit or registration in WHMIS 1A00. This requirement must be completed prior to the first lab.

ANTHROP 3BF3 - BIOARCHAEOLOGICAL FIELD SCHOOL

This course allows students to travel overseas to participate in the excavation of human skeletal remains. Students will develop skills in the documentation and analysis of skeletal remains and associated burial artifacts.

Offered during the Spring/Summer term only; one term

Prerequisite(s): Permission of the instructor

Travel and subsistence costs are responsibility of the student.

ANTHROP 3CO3 - HEALTH AND ENVIRONMENT: ANTHROPOLOGICAL APPROACHES

Examination of the ways in which humans alter and cope with their environment. Topics include: health inequalities, nutrition, population, urbanization, resource utilization and industrial pollution.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology or HLTHAGE 1AA3 (HEALTHST 1A03), and registration in Level III or IV of any program. ANTHROP 2E03 is strongly recommended.

Cross-list(s): HLTHAGE 3CC3

ANTHROP 3CA3 - CERAMIC ANALYSIS

Examination of theories and methods used by archaeologists to analyze ceramics and understand past ceramic technologies. The class will include strong hands-on and original research components.

Three hours (lectures, labs, discussion); one term

Prerequisite(s): ANTHROP 2PA3 and credit or registration in WHMIS 1A00. This requirement must be completed prior to the first lab.

Not open to students with credit in ANTHROP 3EE3, if the topic was Ceramic Analysis.

ANTHROP 3CC6 - ARCHAEOLOGICAL FIELD SCHOOL

Field instruction in the techniques used in the excavation of an archaeological site. The course includes hands-on instruction in manual excavation methods, mapping, field recording and laboratory analysis.

Offered during the Spring/Summer term only; one term

Prerequisite(s): ANTHROP 2PA3 or an equivalent course in archaeological methods and credit or registration in WHMIS 1A00. This requirement must be completed prior to the first day of field school.

Not open to students with credit in an equivalent field school from another university.

ANTHROP 3DD3 - ARCHAEOLOGY OF DEATH

Archaeological analysis and interpretation of burial practices and other death-rituals.

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3

ANTHROP 3E03 - SPECIAL TOPICS IN ARCHAEOLOGY I

Topic: TBA

The topic varies with each instructor (e.g. one class may examine Ancient Meso-american Cities and another focus on The Archaeology of Hierarchy.)

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3

ANTHROP 3EE3 - SPECIAL TOPICS IN ARCHAEOLOGY II

Topic: TBA

The topic varies with each instructor (e.g. one class may examine Ancient Meso-american Cities and another may focus on The Archaeology of Hierarchy.)

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3

ANTHROP 3EM3 - CURRENT DEBATES IN EASTERN MEDITERRANEAN PREHISTORY

This course provides a critical overview of developments in Eastern Mediterranean prehistory, focusing on debates of general archaeological significance, including the origins of farming, the role of exchange in driving 'social complexity' and the bases of power.

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3 or ANTHROP 2WA3

ANTHROP 3F03 - ANTHROPOLOGY AND THE 'OTHER'

As a discipline, anthropology is effectively predicated on the notion of the 'othered'. This course asks about the constructions, representations, and political uses of the 'othered.'

Lectures, discussion (three hours); one term

Prerequisite(s): ANTHROP 2F03

ANTHROP 3FA3 - FORENSIC ANTHROPOLOGY

This course examines the detection, recovery, and analysis of human remains within a medico-legal context. Students will explore the role of the forensic anthropologist in the investigation of criminal cases, human rights cases, and mass disasters.

Lectures and discussion (three hours); one term

Prerequisite(s): Three units of Level I Anthropology

ANTHROP 3FF3 - KEY DEBATES IN ANDEAN ARCHAEOLOGY

This class explores debates in Andean research, from the development of religious ideologies to the origins of social hierarchy, through archaeological, ethnohistorical and ethnographic data.

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3

Antirequisite(s): Not open to students with credit in ANTHROP 3E03 - Special Topics in Archaeology I if the topic was *Ñawpa Pacha: Key Debates in Andean Archaeology*

ANTHROP 3G03 - COMPARATIVE MYTHOLOGY

The reconstruction of lost mythic traditions by means of comparative techniques drawn from historical linguistics. The Indo-European traditions of Eurasia will be examined.

Lectures and discussion (three hours); one term

Prerequisite(s): ANTHROP 2G03 or permission of the instructor

ANTHROP 3GG3 - ANTHROPOLOGY OF CONTEMPORARY EUROPE

This course looks at the politics and cultures of contemporary Europe.

Lectures, films, discussion groups (three hours); one term.

Prerequisite(s): ANTHROP 1AA3 or 1AB3.

Antirequisite(s): ANTHRO 2CE3 Winter Term 2018

ANTHROP 3GH3 - INTERDISCIPLINARY GLOBAL HEALTH FIELD COURSE: MATERNAL AND INFANT HEALTH IN MOROCCO

An integrated linguistic, cultural, historical, and public health field school in Morocco, with a focus on maternal and infant health, women's rights, and family. Spring; one term

Prerequisite(s): Permission of the instructor

Co-requisite(s): ARABIC 3GH3

Cross-list(s): HISTORY 3GH3, RELIGST 3GH3

Available as a study-abroad experience in the Spring only. This course is intended for students who are entering Level III or above in the following Fall/Winter Session. Students interested in this course must contact Dr. E. Amster by February 15 for application instructions. There is an additional cost associated with this course. This course is administered by the Department of History.

ANTHROP 3HH3 - GLOBALIZATION, SOCIAL JUSTICE AND HUMAN RIGHTS

This course examines competing theories, issues and debates relating to the promotion of social justice and human rights in a globalizing world. Students use course-integrated social justice and networking to interact and collaborate with peers from partner universities across the globe where versions of this course are simultaneously taught.

Lectures (three hours); one term

Prerequisite(s): Three units of Level I Anthropology

Crosslist(s): GLOBALZN 3A03

This course is administered by the Institute on Globalization and the Human Condition.

ANTHROP 3HI3 - THE ANTHROPOLOGY OF HEALTH, ILLNESS AND HEALING

This course examines health, illness and healing in cross-cultural perspective and introduces students to medical anthropology concepts, including the cultural construction of illness and health.

Lectures and small and large group discussion (three hours)

Prerequisite(s): Registration in Level III or above of any program. ANTHROP 2E03 or 2F03 is strongly recommended.

Antirequisite(s): ANTHROP 3Z03, 3ZZ3

ANTHROP 3IS3 - INDEPENDENT STUDY IN ANTHROPOLOGY

Independent study of a research problem through published materials and/or fieldwork. It is incumbent upon the student to secure arrangements with the supervising instructor prior to registration in this course; otherwise, no grade will be submitted.

Lectures, (three hours); one term

Prerequisite(s): Registration in any program in Anthropology and permission of the instructor.

ANTHROP 3IS3 may be repeated, if on a different study, to a total of six units.

ANTHROP 3K03 - ARCHAEOLOGICAL INTERPRETATION

Techniques and methodologies in the investigation of archaeological material.

Lectures, labs and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3

ANTHROP 3LA3 - LITHICS ANALYSIS

A global approach to the theories and methods used by the archaeologists to analyse stone tools and the major debates surrounding these data. The class has a strong hands on and original-research component.

Lecture and lab (three hours); one term

Prerequisite(s): ANTHROP 2PA3; and credit or registration in WHMIS 1A00. This requirement must be completed prior to the first lab.

Not open to students with credit in ANTHROP 3E03, if the topic was 'Lithics Analysis.'

ANTHROP 3P03 - DOING ETHNOGRAPHY: THEORY AND RESEARCH METHODS

Methodologies and techniques of research, especially ethnography, in sociocultural anthropology and related disciplines.

Lectures and discussion (three hours); one term

Prerequisite(s): Registration in any Social Sciences program (Level II or above), or permission of the instructor

ANTHROP 3PA3 - HAUDENOSAUNEE HEALTH, DIET AND TRADITIONAL BOTANY

Working with traditional knowledge holders, this course will explore the relationship between ethnobotany and agricultural practice to Haudenosaunee cultural beliefs and concepts of health and wellness.

Lectures (2 hours), tutorial (one hour); one term

Prerequisite(s): Six units of Level I or II Indigenous Studies, Mohawk or Cayuga language, or permission of the Instructor.

Cross-lists(s): INDIGST 3P03

This course is administered by the Indigenous Studies Program

ANTHROP 3PD3 - ANTHROPOLOGICAL PERSPECTIVES AND DEBATES

This course explores themes of importance to the various sub-disciplines of Anthropology. The goal is to show how varying analytical perspectives on these broad themes produce divergent views of past and present human cultures. Students are strongly encouraged to complete this course, prior to completion of Level III.

Lectures, discussion (three hours); one term

Prerequisite(s): Registration in an Honours Anthropology program or permission of the instructor

This course is required of all students registered in an Honours Program in Anthropology.

ANTHROP 3PH3 - DISSENT, POWER AND HISTORY

This course addresses questions of power, agency, and resistance in historical and contemporary cultural contexts. Drawing on visual materials and ethnographic forms of writing, it looks at a range of issues, including nationalism, neoliberalism, democracy, and various forms of organizing.

Lectures, discussion, visual materials (three hours); one term

Prerequisite(s): ANTHROP 2F03

ANTHROP 3PP3 - PALEOPATHOLOGY

The origins and evolution of human diseases and methods of identifying disease in ancient human remains.

Lectures, discussion and lab (three hours); one term

Prerequisite(s): ANTHROP 2FF3

ANTHROP 3SS3 - SACRED JOURNEYS

A study of the significance of travel in various religious traditions, focusing on shrines, pilgrimages, and the inter-relationships between secular and sacred travel.

Lectures and tutorial (three hours); one term

Prerequisite(s): Registration in Level II or above

Cross-list(s): RELIGST 3EE3

This course is administered by the Department of Religious Studies.

ANTHROP 3W03 - SPECIAL TOPICS IN ANTHROPOLOGY

The topic varies with each instructor (e.g. one class may examine Current Issues in Medical Anthropology and other classes may focus on Readings in Myth or Contemporary Issues in Archaeology)

One term

Prerequisite(s): Registration in any program in Anthropology

ANTHROP 3W03 may be repeated, if on a different topic, to a total of six units.

ANTHROP 3X03 - ZOOARCHAEOLOGY

Study of the long-term histories of human-environment interaction through analysis of archaeologically recovered animal remains.

Labs and discussion (three hours); one term

Prerequisite(s): ANTHROP 2PA3 and credit or registration in WHMIS 1A00; this requirement must be completed prior to the first lab

ANTHROP 3Y03 - INDIGENOUS COMMUNITY HEALTH AND WELL-BEING

A critical examination of the determinants of health in Aboriginal communities, processes of community revitalization and recent government policy initiatives. Three hours (lecture and discussion); one term

Prerequisite(s): Registration in Level II or above in any program

Cross-list(s): HLTHAGE 3YY3

ANTHROP 4AA3 - MATERIALITY, MATTER AND SOCIAL LIVES

This course explores the relationship between humans and the material world. Lectures (three hours); one term.

Prerequisite(s): ANTHROP 2PA3 or permission of the instructor

Antirequisite(s): ANTHROP 4E03, if taken during the Winter term 2017

ANTHROP 4AH3 - ARCHAEOLOGY AND HERITAGE: ETHICS, POLITICS, AND PRACTICE

This course will examine the ways in which archaeology is political, and how its practice and practitioners are deeply entangled with Western values and epistemologies.

Seminar (three hours); one term

Prerequisite(s): ANTHROP 2PA3 or permission of the instructor

Not open to students with credit in ANTHROP 4E03 if the topic was 'Archaeology and Heritage: Ethics, Politics, and Practice.'

ANTHROP 4B03 - CURRENT PROBLEMS IN CULTURAL ANTHROPOLOGY I

Topic: TBA The topic varies with each instructor.

Seminar (three hours); one term

Prerequisite(s): Registration in Level IV Honours Anthropology or permission of the instructor

ANTHROP 4B03 may be repeated, if on a different topic, to a total of six units.

ANTHROP 4BB3 - CURRENT PROBLEMS IN CULTURAL ANTHROPOLOGY II

As per ANTHROP 4B03.

Seminar (three hours); one term

Prerequisite(s): Registration in Level IV Honours Anthropology or permission of the instructor

ANTHROP 4BB3 may be repeated, if on a different topic, to a total of six units.

ANTHROP 4CC3 - ARCHAEOLOGY OF FOODWAYS

This course addresses the deep history of particular foodways and the diversity of foodways over time, as gleaned from archaeological residues and early historic documents.

Seminar (three hours); one term

Prerequisite(s): ANTHROP 2PA3, or permission of the instructor

ANTHROP 4CP3 - CULTURAL POLITICS OF FOOD AND EATING
