University Policies and Release from Liability

University Policies

Acceptance of the University's policies (University Policies, Procedures & Guidelines), and changes that may be approved from time to time by the Board of Governors and the Senate, is a condition of being accepted in any capacity in any University-controlled laboratory or program. This includes but is not limited to the McMaster University Intellectual Property Policy <http://ip.mcmaster.ca/>.

Release from Liability

McMaster University reserves the right to change or revise information contained in this Calendar, including the alteration of fee structures, schedules and/or courses. The University reserves the right to limit enrolment in, or admission to, any course or program at any level.

The University will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this Calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the University or by others, civil unrest or disobedience, or any other cause of any kind beyond the reasonable control of the University.

Glossary

Academic Probation

Academic Probation may be assigned to students whose Grade Point Average (GPA) is at least 3.0 but less than 3.5, will allow a student to continue at the University for one reviewing period.

Academic Standing

Academic standing is the statement of the academic performance of a student at the end of Winter or Spring/Summer terms. *Good Standing, May Continue in Program - Academic Probation, May Continue in Program - Program Probation, May Not Continue in Program, May Not Continue in Faculty, May Not Continue at University, Required to Withdraw from University*, are examples of academic standings. See *Academic Standing Review* and *Academic Standings* in the General Academic Regulations for more information.

Advanced Standing/Credit

Advanced Standing/Credit may be granted to an applicant who has completed work at another university or college or who has completed a Certificate/Diploma program at McMaster University, subject to the applicant having met the minimum requirements prescribed by the University.

Antirequisite

An antirequisite is a course which cannot be taken for credit before, after, or at the same time as the course with which it is listed.

Bursaries

Bursaries are granted based upon demonstrated financial need, and may include a minimum expectation of academic achievement or other miscellaneous criteria. They may vary in monetary value, based upon the level of financial need demonstrated.

Continuing Student

- continuing student is a university graduate who is not proceeding to an advanced degree, but wishes to take one or more undergraduate courses after graduation.

Co-requisite

- co-requisite is a course which must be taken together with another course in the same term.

Course Numbers

Course numbers (e.g. 1A03) can be interpreted as follows: the initial digit indicates the Level of the course; the letter(s) in the middle identifies the specific courses within the Level; and the final digit(s) defines the number of units of credit associated with the course.

Credentials

- credential is a body of academic work or collection of course work that stands on its own and for which a parchment is issued. McMaster credentials include certificates, diplomas and degrees. A single course is permitted to be counted toward a maximum of two credentials.

Cross-listed Course

- cross-listed course is a course which is listed under two or more subjects.

Cumulative Grade Point Average (Cumulative GPA)

The Cumulative GPA is the weighted average based on the Graded Units taken throughout the undergraduate career. The Repeating Courses regulation, effective September 1, 2018, will affect the calculation of subsequent Cumulative GPA.

Deferred (DEF)

Notation

Courses with the notation DEF have been approved for a deferred examination.

Degree

- degree is conferred when a student completes a program of study (e.g. Bachelor of Arts, Bachelor of Science Kinesiology, Master of Science, Doctor of Philosophy).

Department

- department is a subdivision of a Faculty, responsible for a particular subject or group of subjects (e.g. Department of Chemistry, Department of Health, Aging and Society).

Elective Courses

Elective courses are those courses taken by a student which are not specifically designated in a student's program, but which form part of the total number of units required to complete the program.

Extra

Notation

Courses designated as "Extra" at the time of registration by the Faculty Office are not included as units toward completion of a student's program. The grades obtained in such courses will not be included in the computation of the Cumulative GPA. However, they will be included in the computation of the Fall-Winter Average and the Spring-Summer Average.

Faculty

- Faculty is a major administrative and teaching unit of the University responsible for programs and courses relating to common fields of study or academic disciplines (e.g. Faculty of Humanities, Faculty of Engineering).

Full Load

- full load is the number of units specified in the Calendar for an individual level of a program in a given year. If the Calendar does not specify the program requirements by individual levels, divide the total units for all levels by the number of levels, discarding the remainder.

Full-time Student

- full-time student, for academic purposes, is an undergraduate student who is registered in at least 9 units in a term, including Extra Courses. Full-time status for students in the Faculty of Science and Engineering Co-op programs is granted to those students registered in at least 9 units in a term.

Fall-Winter Average

The Fall-Winter Average is a weighted average based on the grades attained in the Fall and Winter Terms. Overload courses and Extra courses are included in the Fall-Winter Average.

Grade Point Average (GPA)

The Grade Point Average is the weighted average based on the grades obtained in all courses taken. Failed courses are included in the GPA calculation.

Graded Units

Graded units refer to the number of units taken at McMaster for which a letter or Numeric Grade is earned. Graded units do not include courses assessed with a Non-Numeric Grade.

Honour Lists

Students are reviewed for Deans' Honour Lists (DHL) and Provost's Honour List (PHL) each time a minimum of 30 units (may not exceed 6 units assessed with a non-numeric grade) have been completed. Subsequent assessments are based on all units completed since the previous review. Students will be named to the Deans' Honour List when a minimum average of 9.5 is achieved. Students will be named to the Provost's Honour List when an average of 12.0 is achieved.

Intersession

The Intersession is a time period in which students may explore novel interdisciplinary and experiential opportunities that may not be available during the Fall or Winter terms. The Intersession begins in the first week of May (concurrent with the Spring Session) and lasts for a four-week period. See the *Sessional Dates* and INSPIRE course listings for more information.

Letter of Permission (LOP)

- Letter of Permission is a formal document which allows a McMaster student to take one or more courses at another university for credit towards a McMaster degree.

Level

Level is used to describe a student's progression through a program.

Mature Student

- mature student has not attended secondary school or college on a full-time basis for at least two years; and has not previously attended university.

Minors

Students enrolled in a four- or five-level program (with the exception of the Medical Radiation Sciences programs) are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of their degree program. At least 18 units must be completed at McMaster. Students who wish to receive a Minor must consult the appropriate department section of the calendar. McMaster also offers Interdisciplinary Minors and Thematic Areas. To apply for a Minor, students must complete the Minor/Certificate Application in addition to their online Graduation Information Centre (GIC) application. The student's Faculty will verify that the requirements have been met and, if successful, the transcript will indicate that a Minor has been obtained. Minors cannot be revoked once approved.

Multi-Term Fall/Winter Courses

Codes for multi-term Fall/Winter courses have an A/B suffix. Part A must always be taken in the Fall Term immediately preceding Part B. Neither Part A nor B of a multi-term course has academic credit independent of both parts being successfully completed. Students who drop or withdraw from Part A must also withdraw from B.

Upon completion of the Fall Term, a grade of MT indicating multi-term will be assigned to Part A and the final grade will be assigned to Part B.

Multi-Session Course

- multi-session course is one taught over the Spring and Summer sessions of the Spring/Summer Term. Students enroll in both the 'A' and the 'B' parts of the same course. Part 'A' is taken in the Spring session. Part 'B' is taken in the Summer session. Academic Load and Billing units are assigned to both parts. Units for GPA calculation are assigned to part 'B' of the course only.

OSAP Eligible Course Load

OSAP Eligible Course Load or equivalent refers to the 60% minimum course load per term (40% minimum course load per term for students with permanent disabilities) required to be eligible for full-time OSAP government student aid funding.

Part-time Student

- part-time student, for academic purposes, is an undergraduate student who is registered in fewer than 9 units in a term, including Extra Courses.

Pass/Fail Courses

Courses evaluated on a Pass/Fail basis are not included in the calculation of averages. The earned units are counted towards degree requirements.

Post-Degree Student

- post-degree student is a university graduate or a person with professional qualifications who is not proceeding to an advanced degree, but wishes to take one or more graduate courses.

Prerequisite

- prerequisite is a requirement to be fulfilled before registration in a course is permitted. This is usually the successful completion of another course.

Program

- program is a specific combination of courses that fulfils the requirements for a degree.

Readmission

See *Readmission* in the Admission Requirements section of this calendar.

Reinstatement

See *Reinstatement* in the General Academic Regulations section of this calendar.

Required Courses

Required courses are those courses which are specifically designated for inclusion in a program.

Requisite

- requisite is an academic requirement that must be met to register in a course. A course requisite may comprise Prerequisites, Corequisites and/or Antirequisites.

Review

- academic review is an assessment of a student's performance to determine eligibility to continue in a program or to graduate.

Reviewing Period

The reviewing period is the time between two reviews for a student. Reviews will take place in May and August, provided the student has attempted 18 units of work since the last review or is a potential graduand.

Session

- period of study within a Term. Each term may have multiple sessions. For example, the Summer session runs from June to August within the Spring/Summer term.

Spring-Summer Average

The Spring-Summer Average is a weighted average based on the grades attained in the Spring and Summer Term. Overload courses and Extra courses are included in the Spring-Summer Average.

Term

- period within the Academic Year. The Academic Year will have three Terms that may have multiple Sessions within them. For example: Fall Term (September-December), Winter Term (January-April), and Spring/Summer Term (May-August).

Term Grade Point Average (Term GPA)

The Term GPA is a weighted average based on the Graded Units taken in the term.

Transcripts

- transcript summarizes a student's academic career at McMaster University and is available by electronic request through Mosaic. Transcript requests will not be processed for students with outstanding financial accounts at the University or those under investigation for an academic integrity violation.

Tuition

Tuition is fees paid in consideration for enrolment in a program of study and selected courses.

Undergraduate Student

An undergraduate student is a one who is enrolled in a program of study leading to a bachelor's degree or to the degree Doctor of Medicine.

Units

Units define the number of credits associated with a course. A unit is roughly equivalent to one lecture-hour per week for one term or two hours of laboratories or seminars per week for one term. Three-unit courses are usually one term in length. Six-unit courses are usually two terms in length.

Unused

Notation

Courses designated as "Unused" cannot be used to fulfil the requirements for the student's current degree program. The grades obtained in such courses will be included in the computation of all averages.

Weighted Average

Weighted average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totaling these results, and then dividing this result by the total number of course units.

With Distinction

Notation

Graduation *With Distinction* standing is awarded when a minimum Cumulative GPA of 9.5 is achieved in a degree program. In this case, the Latin phrase *summa cum laude* ("with highest honour") will appear on the graduate's diploma.

Withdrawal With Academic Penalty

Withdrawal With Academic Penalty is the formal process of discontinuing studies in a particular course or program **after** the last day to withdraw without failure by default in the term.

Withdrawal Without Academic Penalty

Withdrawal Without Academic Penalty is the formal process of discontinuing studies in a particular course or program **before** the last day to withdraw without failure by default in the term.

Withdrawn (W)

Notation

After the last day for enrolment and course changes, students may withdraw from courses until the last day to withdraw without failure by default.

Withdrawn courses will be shown on the student's transcript with a grade of W. After the last day to withdraw without failure by default, the student will remain enrolled, whether or not they fulfil any further academic obligations, and a final grade will be assigned.

Sessional Dates 2022-2023

The academic year is divided into terms, as shown below. Most undergraduate students register for the **Fall** and **Winter** terms, which run from September to December and January to April respectively. The **Spring/Summer** term starts at the beginning of May and ends in early August.

Note: Effective as of 2022-2023 academic year, the university will not be holding classes on September 30th in observance of the National Day for Truth and Reconciliation.

You may also download a PDF version of the sessional dates.

2022 Fall Term (62 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Tuesday, September 6
Last day for enrolment and course changes (drop/add)	Wednesday, September 14
National Day for Truth and Reconciliation: No classes	Friday, September 30
Mid-term recess	Monday, October 10 to Sunday, October 16
Last day for withdrawing from courses without failure by default	Friday, November 11
Test and Examination Restriction	Friday, December 2 to Thursday, December 8
Classes end	Thursday, December 8
Final Examinations	Friday, December 9 to Thursday, December 22
Deferred examinations	Tuesday, February 21 to Friday, February 24

2023 Winter Term (62 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Monday, January 9 *Note: <i>Some clinical placements may start the week of January 2, 2023. Program offices will communicate directly with their students about their start date in these instances.</i>
Last day for enrolment and course changes (drop/add)	Tuesday, January 17

Item	Date(s)
Mid-term recess	Monday, February 20 to Sunday, February 26
Last day for withdrawing from courses without failure by default	Friday, March 17
Good Friday Break: No classes or examinations	Friday, April 7 and Saturday, April 8
Test and Examination Restriction	Thursday, April 6 to Thursday, April 13
Classes End	Wednesday, April 12
Final Examinations	Friday, April 14 to Saturday, April 29
Deferred examinations	Monday, June 19 to Thursday, June 22

2022-2023 Multi-Term Courses (124 days)

Item	Date(s)
Enrolment begins	<i>To be announced</i>
Classes begin	Tuesday, September 6
Last day for enrolment and course changes (drop/add)	Wednesday, September 14
National Day for Truth and Reconciliation: No classes	Wednesday, September 30
Mid-term recesses	Monday, October 10 to Sunday, October 16; and Monday, February 20 to Sunday, February 26
Last day for withdrawing from courses without failure by default	Friday, March 17
Good Friday Break: No classes or examinations	Friday, April 7 and Saturday, April 8
Test and Examination Restriction	Thursday, April 6 to Thursday, April 13
Classes end	Wednesday, April 12
Mid-Term Tests Level (1)	Friday, December 9 to Thursday, December 22
Final Examinations	Friday, April 14 to Saturday, April 29
Deferred examinations	Monday, June 19 to Thursday, June 22

2023 Spring/Summer Term

	Spring Session (34 days)	Summer Session (34 days)	Full-Term Courses (68 days)	Intersession
Classes begin	Monday, May 1	Monday, June 19	Monday, May 1	Monday, May 1

Last day for enrolment and adding or dropping courses (drop/add)	Monday, May 8	Monday, June 26	Monday, May 8	Monday, May 8
Victoria Day: No classes	Monday, May 22	-	Monday, May 22	Monday, May 22
Canada Day Observance: No classes	-	Friday, June 30	Friday, June 30	-
Last day withdrawing from courses without failure by default	Wednesday, May 31	Wednesday, July 19	Wednesday, July 19	Wednesday, May 17
Civic Holiday: No classes	-	Monday, August 7	Monday, August 7	-
Classes end	Friday, June 16	Friday, August 4	Friday, August 4	Friday, May 26
Final Examinations	<i>As arranged by instructor in class time</i>			
Deferred Examinations	Tuesday, October 10 to Friday, October 13, 2023			

Degrees and Programs: Duration in Years

McMaster University offers the following undergraduate degrees:

FACULTY AND DEGREE	DURATION IN YEARS
Arts & Science Program	
B.Arts Sc.	3
B.Arts Sc. (Honours)	4

DeGroote School of Business

B.Com.	4
B.Com. (Honours)	4
B.Com. (Honours)	5**

Faculty of Engineering

B.A.Sc.	4
B.Eng.	4
B.Eng.BME	5
B.Eng.Mgt.	5
B.Eng. Society	5
B.Eng. Biosciences	5
B.Tech.	• or 4

Faculty of Health Sciences

B.H.Sc. (Midwifery)	4*
B.H.Sc. (Physician Assistant)	2
B.H.Sc. (Honours)	4
B.H.Sc. (Honours) (HESE Specialization)	5
B.Sc.N.	4
B.Sc.N. (Post Diploma RN Stream)	2*
B.Sc.N. (Basic-Accelerated)	2*
M.D. (Doctor of Medicine)	3*

Faculty of Humanities

B.A.	3
B.A. (Honours)	4
B.F.A. (Honours)	4
B.Mus. (Honours)	4
B.A./B.S.W.	4

Faculty of Science

B.A.Sc. (Honours)	4
B.M.R.Sc.	4*
B.Sc.	3
B.Sc. (Honours)	4
B.Sc. (Honours)	5**
B.Sc.Kin. (Honours)	4

Faculty of Social Sciences

B.A.	3
B.A. (Honours)	4
B.A./B.S.W.	4
B.S.W.	2‡

* In these programs, an academic year extends beyond the regular Fall and Winter terms.

** These are co-op or internship programs.

- Follows completion of prior undergraduate degree.

Second Undergraduate Degree

Provision exists for a university graduate to take a second bachelor's degree. This program is normally shortened (except for the B.H.Sc. Midwifery program). An application for admission is necessary for entry to a second degree program, and it should be submitted by the application deadlines. (See *Application Procedures* and *General Academic Regulations* sections of this Calendar.)

Combined Programs

There is the opportunity to combine two subjects of study within one Faculty, or between two Faculties. Further information can be obtained by referring to the Faculty sections of this Calendar, or contacting the appropriate Office of the Associate Dean.

Elective Courses Available To Level I Students

ELECTIVE COURSES AVAILABLE TO LEVEL I STUDENTS

The following is a list of courses available as electives to Level I students, provided that requisites have been satisfied, and subject to enrolment limitations.

COURSES AVAILABLE

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice
- ART 1T13 - Making Art and Understanding Technology & Images §
- ART 1U13 - Making Art and Understanding Images §
- ASTRON 1F03 - Introduction to Astronomy and Astrophysics §
- BIOLOGY 1A03 - Cellular and Molecular Biology §
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity §
- BIOLOGY 1P03 - Introductory Biology §
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose §
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CHEM 1A03 - Introductory Chemistry I §
- CHEM 1AA3 - Introductory Chemistry II §
- CHEM 1R03 - General Chemistry §
- CHINESE 1Z06 A/B - Mandarin Chinese for Beginners
- CLASSICS 1A03 - Introduction to Classical Archaeology
- CLASSICS 1B03 - An Introduction to Ancient Myth and Literature
- CLASSICS 1M03 - History of Greece and Rome
- CMST 1A03 - Introduction to Communication
- COMMERCE 1AA3 - Introductory Financial Accounting §
- COMMERCE 1B03 - Business Environment & Organization §
- COMMERCE 1BA3 - Organizational Behaviour §
- COMMERCE 1DA3 - Business Data Analytics §
- COMMERCE 1MA3 - Introduction to Marketing §
- COMMERCE 4AK3 - Accounting Information for Decision Making §
- COMMERCE 4FP3 - Personal Finance §
- COMPSCI 1JC3 - Introduction to Computational Thinking §
- COMPSCI 1MD3 - Introduction to Programming §
- COMPSCI 1TA3 - Elementary Computing and Computer Use §
- EARTHSC 1G03 - Earth and the Environment §
- ECON 1B03 - Introductory Microeconomics ∞
- ECON 1BB3 - Introductory Macroeconomics
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- ENGLISH 1F03 - The Written World
- ENGLISH 1G03 - Making and Unmaking Literary Traditions
- ENGLISH 1H03 - Words in Place
- ENVIRSC 1C03 - Climate, Water and Environment §
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- FARSI 1Z03 - Introductory Farsi I
- FARSI 1ZZ3 - Introductory Farsi II
- FRENCH 1A06 A/B - Introduction to French Studies: Advanced Level
- FRENCH 1Z06 A/B - Beginner's Intensive French I
- GENDRST 1A03 - Gender, Race, Culture, Power
- GENDRST 1AA3 - Gender, Feminism and Social Justice
- GERMAN 1B03 - Intermediate German I
- GERMAN 1BB3 - Intermediate German II
- GERMAN 1Z06 A/B S - Beginner's Intensive German
- GLOBALZN 1A03 - Global Citizenship
- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness

- HTHSCI 1DT3 - Discover Immunology Today §
 - HTHSCI 1M03 - Foundations of Data Science §
 - HISTORY 1CC3 - Empires and Colonialism, 1000-1950
 - HISTORY 1DD3 - The Making of the Modern World, 1750-1945
 - HISTORY 1EE3 - The Historical Roots of Contemporary Issues
 - HISTORY 1FF3 - Exploring History in a Small Group Setting
 - HISTORY 1M03 - History of Greece and Rome
 - HISTORY 1P03 - A History of Magic
 - HISTORY 1Q03 - History of Medicine
 - IARTS 1BD3 - 2D Practices in Art §
 - IARTS 1CR3 - Performance: Body and Voice §
 - IARTS 1HA3 - Introduction to Histories of the Arts
 - IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
 - IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment
 - IARTS 1SS3 - 3D Practices in Art §
 - IARTS 1SW3 - Working in the Arts Today
 - IARTS 1T03 - Perspectives and Possible Worlds: Theatre, Performance, and Society
 - INDIGST 1A03 - Introduction to Indigenous Studies
 - INDIGST 1B03 - Reconciling What? Indigenous Relations in Canada
 - INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
 - INNOVATE 2SI3 - Social Innovations
 - ITALIAN 1A03 - Intermediate Italian I
 - ITALIAN 1AA3 - Intermediate Italian II
 - ITALIAN 1Z06 A/B S - Beginner's Intensive Italian
 - INSPIRE 3II3 - Multidisciplinary Inquiry §
 - INSPIRE 3WW3 - Exploring Leadership in University Orientation §
 - JAPANESE 1Z06 A/B S - Beginner's Intensive Japanese
 - KOREAN 1Z03 - Introductory Korean I
 - KOREAN 1ZZ3 - Introductory Korean II
 - LATIN 1Z03 - Beginner's Intensive Latin I
 - LATIN 1ZZ3 - Beginner's Intensive Latin II
 - LIFESCI 1D03 - Medical Imaging Physics §
 - LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
 - LINGUIST 1AA3 - Introduction to Linguistics: Words, Sentences and Meaning
 - LINGUIST 1Z03 - Structure of Modern English I
 - LINGUIST 1ZZ3 - Structure of Modern English II
 - MATH 1A03 - Calculus For Science I §
 - MATH 1AA3 - Calculus For Science II §
 - MATH 1B03 - Linear Algebra I §
 - MATH 1C03 - Introduction to Mathematical Reasoning §
 - MATH 1F03 - Introduction to Calculus and Analytic Geometry §
 - MATH 1K03 - Advanced Functions §
 - MATH 1LS3 - Calculus for the Life Sciences I §
 - MATH 1LT3 - Calculus for the Life Sciences II §
 - MATH 1MM3 - Applied Calculus §
 - MATH 1MP3 - Introduction to Mathematical Scientific Computation §
 - MEDIAART 1A03 - Media Arts §
 - MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
 - MUSIC 1A03 - Introduction to the History of Music I
 - MUSIC 1AA3 - Introduction to the History of Music II
 - MUSIC 1CR3 - Rudiments of Music §
 - OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
 - PEACJUST 1A03 - Peace, Justice, Human Rights
 - PEACJUST 1VM3 - Voices at Mac: Understanding our World
 - PHILOS 1A03 - Philosophical Texts
 - PHILOS 1B03 - Philosophy, Law and Society
 - PHILOS 1E03 - Philosophical Questions
 - PHILOS 1F03 - Meaning in Life
 - PHYSICS 1A03 - Introductory Physics §
 - PHYSICS 1AA3 - Introduction To Modern Physics §
 - PHYSICS 1C03 - Physics for the Chemical and Physical Sciences §
 - PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences §
 - POLISH 1Z03 - Beginner's Polish I
 - POLISH 1ZZ3 - Beginner's Polish II
 - POLSCI 1AA3 - Government, Politics, and Power
 - POLSCI 1AB3 - Politics and Power in a Globalizing World
 - PSYCH 1F03 - Survey of Psychology
 - PSYCH 1FF3 - Survey of Biological Basis of Psychology §
 - PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
 - PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
 - RUSSIAN 1Z03 - Intensive Beginner's Russian I
 - RUSSIAN 1ZZ3 - Intensive Beginner's Russian II
 - SCAR 1B03 - What on Earth is Religion?
 - SCAR 1SC3 - The Big Questions: Introduction to Society, Culture & Religion
 - SCIENCE 1A03 - Investigating Science: Opportunities & Experiences ** §
 - SOCPSY 1Z03 - An Introduction to Social Psychology ◊
 - SOCSCI 1SS3 - Inquiry in the Social Sciences ◊ §
 - SOCSCI 1T03 - Life, the University, and Everything ◊ §
 - SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
 - SOCIOL 1Z03 - An Introduction to Sociology
 - SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
 - SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
 - SPANISH 1A03 - Intermediate Spanish I
 - SPANISH 1AA3 - Intermediate Spanish II
 - SPANISH 1Z06 A/B - Beginner's Intensive Spanish
 - STATS 1LL3 - Introduction to Probability and Statistics §
 - SUSTAIN 1S03 - Introduction to Sustainability
 - SUSTAIN 2IS3 - Intersectionality and Sustainable Development
 - SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
 - SUSTAIN 2SD3 - Exploring the United Nations Sustainable Development Goals
 - SUSTAIN 2SS3 - Advocating for Sustainability
 - WORKLABR 1A03 - An Introduction to Work and Labour in Canada
 - WORKLABR 1D03 - Technology and the Future of Work
 - WORKLABR 1E03 - Navigating the World of Work
- NOTES**
- Not acceptable for the six-unit complementary studies elective required in Engineering I or the three-unit complementary studies elective required in Integrated Biomedical Engineering and Health Sciences I.
- ** SCIENCE 1A03 is only available to students enrolled in a Level I program in the Faculty of Science.
- SOCSCI 1T03 and SOCSCI 1SS3 are only available to students registered in the Social Sciences I program.
 - Engineering I students interested in entering the Engineering and Management program must take ECON 1B03 as one of their complementary studies electives.

Availability of Upper-Level Courses

COURSE AVAILABILITY

The following are lists of upper-level courses available to students subject to enrolment limitations and the prerequisites as specified for each list. (Engineering students should refer to the website at https://www.eng.mcmaster.ca/sites/default/files/complementary_studies_electives_2019_0.pdf).

UPPER-LEVEL COURSES AVAILABLE TO ALL STUDENTS

- ANTHROP 2EE3 - Sport and/as Religion
- CLASSICS 2MT3 - Ancient Roots of Medical Terminology
- COMMERCE 4AK3 - Accounting Information for Decision Making
- COMMERCE 4FP3 - Personal Finance
- GENDRST 2BB3 - Images of the Divine Feminine
- GENDRST 3BW3 - Gender in Ancient Eastern Mediterranean
- HEBREW 2A03 - Introduction to Biblical Hebrew I
- INSPIRE 3II3 - Multidisciplinary Inquiry
- INSPIRE 3WW3 - Exploring Leadership in University Orientation
- JAPANESE 2X03 - Japanese Anime (Taught in English)
- KOREAN 2X03 - Korean Pop-Culture (Taught in English)
- LINGUIST 2SL3 - Introduction to American Sign Language
- MATH 2UU3 - Numbers for Life
- PHYSICS 2NM3 - Media Numeracy: Telling Stories With Numbers
- POLSCI 2C03 - Force and Fear, Crime and Punishment
- POLSCI 2D03 - Canadian Democracy
- POLSCI 2F03 - Politics, Power and Influence in Canada
- POLSCI 2H03 - Globalization and the State

Admission Requirements

1. Admission from Secondary Schools

All Level I programs have enrollment limits and admission is by selection.

A. Ontario

GENERAL REQUIREMENTS (FOR ALL LEVEL I PROGRAMS)

To be considered for admission, an applicant must satisfy the general requirements of the university and the specific subject requirements for the program to which they applied plus any specified supplementary application/on-line assessment/audition/portfolio required by some programs at the university.

If you are an applicant from an Ontario secondary school, you must meet the following minimum requirements:

1. An Ontario Secondary School Diploma (OSSD) with acceptable standing; AND
2. An overall average in completed Grade 12 U and/or M courses which meets or exceeds the minimum set by the specific program to which you applied; AND
3. Satisfactory completion of six Grade 12 U and/or M courses including the subject requirements for your chosen program.

Note: Co-op courses are not included in any admission average calculations. Music External (Conservatory) 4M is acceptable as a credit and the mark obtained can be included in the calculation of your admission average. Alternatively, you may submit certificates from a recognized conservatory of music in Grade 8 practical and Grade 2 theory to your secondary school for one Grade 12M credit.

ADMISSION AVERAGE RANGE

The Admission Average Range used to determine eligibility is calculated using the best six Grade 12 U and/or M grades, including all required subjects.

McMaster calculates averages to two decimal points and does not round up averages. Please Note: Grade 12 Co-op courses are not eligible to be used to calculate admissibility and/or the admission averages. See *Early Conditional Admission* and *Final Admission* below for specific details. Estimated admission average ranges for our Level I Programs can be found at: <http://future.mcmaster.ca> under *Admission Requirements*.

EARLY CONDITIONAL ADMISSION

Early **conditional** admission may be granted annually to qualified applicants with strong academic standing. Early **conditional** admission is based on:

1. six appropriate midterm/interim Grade 12 U and/or M grades, OR
2. at least three final Grade 12 U and/or M grades PLUS enrollment in the appropriate additional three Grade 12 U and/or M courses.
3. In some cases, Grade 11 marks may be considered in extending early conditional offers of admission.

Applicants who do not receive an offer of admission in March, will automatically be reassessed for admission until May 15 after additional Grade 12 U and/or M grades are received from secondary schools. Due to enrollment limits, McMaster may not be able to consider additional grade data received after May 15 for admission purposes.

The University reserves the right to withdraw a conditional offer of admission due to any of the following:

1. The minimum final average required was not met; OR
2. The OSSD was not achieved; OR
3. Six Grade 12 U and/or M courses including all required subjects were not completed; OR
4. The applicant did not successfully accept the offer of admission at the Ontario Universities' Application Centre (OUAC) by the response deadline indicated on the offer letter; OR

5. Conditions stipulated on the conditional offer of admission were not met; OR
6. A post-secondary institution was attended prior to beginning your studies at McMaster; OR
7. The offer of admission to the university was secured through fraudulent means. **Please note the University's statements regarding application fraud at the end of the Admission section of this calendar.**

MINIMUM FINAL AVERAGE

Secondary school applicants who receives a conditional offer of admission, are required to achieve an overall average (calculated to two decimal points) on six (6) final grades including all programs specific required courses. This information is indicated on conditional offers of admission.

If final applicant's average falls below this level (or its equivalent), the offer of admission will be rescinded/revoked and registration will be cancelled.

The required minimum final average varies from year to year and by program. This average is clearly stated on the offer letter.

SUPPLEMENTARY APPLICATION FORMS AND EXTENUATING CIRCUMSTANCES

Certain Level I programs including Arts & Science, Automation Engineering Technology 1 (co-op), Automotive & Vehicle Engineering Technology 1 (co-op), Bachelor of Health Sciences (Honours), Biotechnology 1 (co-op), Computer Science 1 (regular and co-op), Engineering 1 (regular and co-op), Integrated Biomedical Engineering & Health Sciences (iBioMed) (regular and co-op), Integrated Business and Humanities (IBH), Honours Integrated Science, and Nursing have **mandatory online supplementary application forms or online assessments** which must be completed by specific deadline dates. See *Application and Documentation Deadlines*, for specific deadline dates. Applicants to Business 1 may elect to complete an optional supplemental form prior to February 1.

McMaster does not normally use **optional** supplementary application forms. Applicants will be notified if the program they applied to decides to use an optional supplementary application form.

Applicants with special circumstances whose average falls slightly below the required admission average range may provide information to the Office of the Registrar, **Admissions** explaining the nature of their extenuating circumstances.

In some cases, the university may request letters of recommendation, personal history or other additional information to aid in the admission process.

OFFERS OF ADMISSION FOR SECONDARY SCHOOL GRADUATES

Applicants may be eligible for final admission if they have completed their OSSD and have final grades in six Grade 12 U and/or M courses. Applicants who fulfill these requirements by the end of February, may be granted an offer of **final admission**.

The University reserves the right to withdraw an offer of final admission due to any of the following:

1. Failure to accept an offer of admission at the Ontario Universities' Application Centre (OUAC) by the response deadline indicated on the offer letter; OR
2. Attendance at a post-secondary institution prior to beginning studies at McMaster.
3. An offer of admission to the university was secured through fraudulent means. **Please note the University's statements regarding application fraud at the end of the Admission section of this calendar.**

DEFERRAL OF ADMISSION

McMaster does not normally grant a deferral of an offer of admission unless special extenuating circumstances exist. Each case is evaluated on its own merits.

All requests for deferral of both admission and scholarship are to be submitted by September 1 of the application year, outlining the

reasons for the request. If a deferral is granted, it is conditional upon the student not attending a secondary or post-secondary institution during the deferral period. For additional information, please refer to: <https://registrar.mcmaster.ca/events/admission-deferrals/>

SUBJECT REQUIREMENTS FOR SPECIFIC LEVEL I PROGRAMS

McMaster University offers the following Level I programs:

Arts & Science I, Automation Engineering Technology 1 (B.Tech.), Automotive and Vehicle Engineering Technology I (B.Tech.), Biotechnology I (B.Tech.), Business I, Chemical & Physical Sciences Gateway, Computer Science I (regular and co-op), Economics I, Engineering I (regular and co-op), Environmental and Earth Sciences Gateway, Honours Health and Society I, Health Sciences I, Humanities I, Honours Integrated Science (Level I), Honours Kinesiology (Level I), Integrated Arts I, Integrated Biomedical Engineering & Health Sciences I (regular and co-op), Integrated Business & Humanities I, Life Sciences Gateway, Mathematics and Statistics Gateway, Medical Radiation Sciences (Level I), Midwifery I, Music I, Nursing I, and Social Sciences I.

ARTS & SCIENCE I

Applicants must complete a **mandatory supplementary application** which must be submitted at (<https://artsci.mcmaster.ca/prospective-students/supplementary-application/>) by the deadline as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates. A minimum overall average of 88% or higher is required for application consideration.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U or Calculus and Vectors U (Calculus and Vectors U is strongly recommended)
3. Completion of four additional U or M courses, to total six courses, of which two must be at the U level

AUTOMATION ENGINEERING TECHNOLOGY I CO-OP (B.TECH.)

AUTOMOTIVE AND VEHICLE ENGINEERING TECHNOLOGY I CO-OP (B.TECH.)

BIOTECHNOLOGY I CO-OP (B.TECH.)

Admission to Automation Engineering Technology I, Automotive and Vehicle Engineering Technology I, and Biotechnology is by selection. A minimum average range in the low 80s is required for application consideration. Applicants must complete a **mandatory on-line assessment** by the deadline as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Chemistry U
4. Physics U
5. Completion of two additional U or M courses to total six courses

BUSINESS I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Completion of three additional U or M courses to total six courses

Applicants to Business I may elect to complete an optional supplemental form prior to February 1 to provide the program with more information more about themselves.

CHEMICAL & PHYSICAL SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Chemistry U
5. Physics U
6. Completion of one additional U or M courses to total six courses

COMPUTER SCIENCE I, COMPUTER SCIENCE I CO-OP

Admission to Computer Science I (regular and co-op) is by selection.

A minimum average range in the low 90s is required for application consideration. Applicants must complete a **mandatory on-line assessment** by the deadline as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Two of: Biology U, Chemistry U, Physics U, Earth and Space U, Computer and Information Science M (or Computer Science U), or Computer Engineering M (or Computer Engineering Technology M)
4. Completion of two additional U or M courses to total six courses

ECONOMICS I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Two of Advanced Functions U, Calculus and Vectors U, or Mathematics of Data Management U
3. Completion of three additional U or M courses to total six courses

Note: Applicants without Calculus and Vectors 4U will be required to take an equivalent Calculus course in Level I. Applicants without Data Management U will be required to take an equivalent Stats course in Level I.

ECONOMICS I (Beginning September 2023 Entry)

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Completion of three additional U or M courses to total six courses

ENGINEERING I, ENGINEERING I CO-OP

Admission to Engineering 1 (regular and co-op) is by selection. A minimum average range in the high 80s is required for application consideration.

Applicants must complete a **mandatory on-line assessment** by the deadline as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Chemistry U
4. Physics U
5. Completion of two additional U or M courses to total six courses

ENVIRONMENTAL AND EARTH SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U or Calculus and Vectors U
3. One of Biology U, Chemistry U
4. One of Advanced Functions U, Biology U, Calculus and Vectors U, Chemistry U, Physics U
5. Completion of two additional U or M courses to total six courses

HONOURS HEALTH AND SOCIETY I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Completion of five additional U or M courses to total six courses

HONOURS HEALTH SCIENCES I

Applicants will be selected based on both their academic qualifications and their scores on the **mandatory on-line Supplementary Application (due mid-February); details at <https://bhsc.mcmaster.ca/>**. A minimum overall average of 90% or higher is required for consideration. The Supplementary Application is a very important component of the admission process. Applicants who do not complete the Supplementary Application will not be considered for admission.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U, Calculus and Vectors U, or Mathematics of Data Management U
3. Biology U
4. Chemistry U
5. One U or M non-math/non-science course (**Note:** courses in technological education, science or mathematics are not acceptable)
6. Completion of one additional U or M course in any subject area to total six courses

HUMANITIES I

The following are the minimum Grade 12 U and M requirements:

1. English U
 2. Completion of five additional U or M courses to total six courses
- The Faculty of Humanities strongly recommends at least one Grade 12 U or M course from Humanities subjects (Art, Drama, English, French, Français, other languages, History and Music). **Note:** In addition to Requirement 1 above, Biology U is strongly recommended for students planning to enter the Cognitive Science of Language program.

INTEGRATED ARTS I (iArts)

The following are the minimum Grade 12 U and M requirements:

1. English U
 2. Completion of additional U or M courses to total six courses
- McMaster offers iArts as a direct-entry Level I program leading to a Bachelor of Fine Arts (BFA) degree. Admission to this program is by selection and requires a **mandatory creative submission** to the School of the Arts. <https://sota.humanities.mcmaster.ca/undergraduate-programs/iarts/apply-now/>

For questions, please contact sota@mcmaster.ca.

HONOURS INTEGRATED SCIENCE (Level I)

Candidates are required to complete a mandatory **Supplementary Application Form** which must be submitted electronically at <http://www.science.mcmaster.ca/isci/prospective-students>. The information provided in the supplementary application enters into the selection process. Only applicants with high academic standing will be selected. Successful candidates must present a minimum average in the high 80's.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Two of Biology U, Chemistry U, Physics U
5. Completion of one additional U or M course to total six courses

INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I / INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I CO-OP

Admission to Integrated Biomedical Engineering and Health Sciences 1 (regular and co-op) is by selection. A minimum overall average of 90% or higher is required for application consideration. Applicants must complete a **mandatory on-line assessment** as specified each year. See *Application and Documentation Deadlines*, for specific deadline dates.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Calculus and Vectors U
3. Biology U
4. Chemistry U
5. Physics U
6. Completion of one additional U or M course to total six courses

INTEGRATED BUSINESS AND HUMANITIES I

Admission to Integrated Business and Humanities 1 is by selection. A minimum overall average of 88% or higher is required for application consideration.

Applicants must complete a **mandatory on-line assessment (© Kira Talent)** by February 1 each year. The following are the Minimum Grade 12 U

and M requirements:

1. English U
 2. Calculus and Vectors U
 3. Data Management U
 4. Completion of three additional U and M courses to total six courses.
- #### HONOURS KINESIOLOGY (Level I)
- The following are the minimum Grade 12 U and M requirements:
1. English U
 2. Calculus and Vectors U
 3. Biology U
 4. Completion of three additional Grade 12 U or M courses to total six courses. Introductory Kinesiology U is strongly recommended.

LIFE SCIENCES GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U or Calculus and Vectors U
3. Biology U
4. One of Advanced Functions U, Calculus and Vectors U, Chemistry U or Physics U
5. Completion of two additional U or M courses to total six courses

MATHEMATICS AND STATISTICS GATEWAY

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Completion of three additional U or M courses to total six courses

MEDICAL RADIATION SCIENCES (Level I)

Students considering the Medical Radiation Sciences I program should refer to the *Regulations for License to Practice and Functional Demands* in the Medical Radiation Sciences program in the *Faculty of Science* section of this calendar.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Advanced Functions U
3. Calculus and Vectors U
4. Biology U
5. Chemistry U
6. Completion of one additional U or M course to total six courses

MIDWIFERY I

Places in the Midwifery program are very limited and the admission process is highly competitive. Admission to the Midwifery Education Program is by selection. **Application to the Midwifery program must be completed by February 1.** In recent years an average range in the mid to high 80's has been required to move forward to the admissions interview stage. Interviews are by-invitation only.

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Biology U
3. Chemistry U
4. Completion of additional U or M courses to total six courses
5. To be eligible to apply, students must obtain a minimum grade of 75% in each of the three required courses listed in points 1, 2, and 3 above AND an overall average, including the required courses, that is acceptable to the Program.
6. Current (Ontario) secondary students may apply if one or more of the three (3) mandatory prerequisite courses are in progress at the time of application; however, the grade 11 prerequisite(s) in the same subjects must be completed at the time of application so that a preliminary assessment of the subject area(s) can be made. Admission is based on in-progress secondary school subjects for current secondary students only if the grade 11 prerequisite in that subject area has been completed with a minimum grade of at least 75%.

MUSIC I

The academic requirements are the same as for Humanities I. In addition, applicants to Music I or to the B.A. in Music must successfully complete a **music audition/examination** consisting of:

1. Demonstration of technique (a level equivalent to at least honours standing in Grade 8 of the Royal Conservatory of Music)
2. Performance (approximately 20 minutes' duration) of two or three varied pieces of your choice (approximately Grade 8 honours level), including at least one from the past 100 years
3. Ear test appropriate to the Grade 8 performance level
4. Written examination on rudiments of theory (Grade 2 level)
5. Interview

For comprehensive details, visit

<https://sota.humanities.mcmaster.ca/music/>

Auditions take place between February and April. Audition arrangements are to be made arrangements with the School of the Arts at sota@mcmaster.ca.

NURSING I

NURSING CONSORTIUM (CONESTOGA)

NURSING CONSORTIUM (MOHAWK)

Note: Effective September 2021, all applicants for the three sites apply to the OUAC (Ontario Universities' Application Centre), selecting McMaster University BScN and the specific site(s) of interest.

Students interested in a McMaster (B.Sc.N.) Nursing degree have **three location options: McMaster University, Mohawk College or Conestoga College**. Each of the three sites offers the four-year program which uses the problem-based learning and small group educational model. For more information about the Mohawk and Conestoga College sites refer to the B.Sc.N. (A) Stream in the School of Nursing, *Faculty of Health Sciences* portion of the Calendar. For full application instructions see the *School of Nursing* and *Application Procedures* sections as well as <https://nursing.mcmaster.ca/programs/undergraduate>.

Admission to Nursing 1 at all sites is by selection. A minimum overall average of 85% or higher is normally required for application consideration.

Additionally, applicants to Nursing must complete a **mandatory on-line assessment (CASPer™)** on the dates specified each year (October-February).

The following are the minimum Grade 12 U and M requirements:

1. English U
2. One of Advanced Functions U, Calculus and Vectors U, Mathematics of Data Management U
3. Biology U
4. Chemistry U
5. Completion of two additional U or M courses to total six courses

Health requirements for admission to Nursing 1: During the registration process, you must file with the University information pertaining to your state of health and immunization is required. Detailed instructions will be provided after acceptance into the program.

Students considering the Nursing 1 program should refer to the document *Requisite Skills and Abilities for Nursing Practice in Ontario* at the College of Nurses of Ontario www.cno.org.

SOCIAL SCIENCES I

The following are the minimum Grade 12 U and M requirements:

1. English U
2. Completion of five additional U or M courses to total six courses
Advanced Functions U and Calculus and Vectors U are strongly recommended for students planning to enter programs in Economics or Psychology, Neuroscience and Behaviour. Biology U is recommended for students planning to enter a program in Psychology, Neuroscience and Behaviour.

B. Other Canadian Provinces and Territories

SUBJECT REQUIREMENTS FOR LEVEL I PROGRAMS

In addition to the minimum requirements below, satisfactory completion of the specified subject requirements for the program is also required. Please refer to <http://future.mcmaster.ca> for more details.

Averages used to determine eligibility for admission and residence are calculated to two decimal points based on the minimum provincial requirements, including the prerequisite courses for the program.

EARLY CONDITIONAL ADMISSION

Applications are reviewed for conditional admission as soon as all required documents, with sufficient course and grade data, are received by the Office of the Registrar, Admissions. All Canadian applicants should **upload interim/midyear school grade reports showing marks for all courses taken during the Grade 11 and 12 years as well as all course registrations for the current academic year**, as soon as available. The terms and conditions of the offer of admission are stated clearly on the offer letter. The Provincial Ministry final transcript confirming final grades and graduation status will be required at the end of the school year. **Students from all other provinces where transcripts are issued by their high schools should have their schools forward the appropriate final transcripts confirming graduation.**

Applicants are required to meet the following minimum requirements including the specified subject requirements (not listed below) for their chosen program. For a complete listing of our specific course requirements by province and Level I program you may refer to our web site: <https://future.mcmaster.ca/>.

ALBERTA, NORTHWEST TERRITORIES AND NUNAVUT

Grade 12 high school diploma with five acceptable academic courses numbered 30 or 31, including English Language Arts 30-1.

BRITISH COLUMBIA AND YUKON

Grade 12 high school diploma with six acceptable Grade 12 academic courses (or equivalent), including English Studies 12, English 12, or English 12 First Peoples.

MANITOBA

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 40S, including one of English 40S.

NEW BRUNSWICK

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 120, 121, or 122, including English 121, English 122, or English as a Second Language 22411.

NEWFOUNDLAND AND LABRADOR

Grade 12 high school diploma with eleven acceptable Grade 12 academic credits at the 3000 level, including English 3201.

NOVA SCOTIA

Grade 12 high school diploma with five acceptable Grade 12 academic or advanced courses, including English 12.

PRINCE EDWARD ISLAND

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 611 or 621, including English 611 or 621.

QUÉBEC

Grade 12 Diploma with six acceptable Grade 12 academic courses in the 600 series including English

OR

Year I CEGEP with twelve appropriate academic courses, including two English/Anglais 603 or two English 604 courses. Students completing Year II or III CEGEP who will or have achieved the DEC may be considered for advanced credit in their chosen program. The *côte de rendement* (R Score) is used for admission consideration.

SASKATCHEWAN

Grade 12 high school diploma with five acceptable Grade 12 academic courses numbered 30, including both English A30 and B30.

C. International Baccalaureate Diploma

Applicants who have completed or will be completing the International Baccalaureate Diploma will be considered for admission to Level I, provided the completed diploma program includes the subject requirements of the program desired. Advanced credit of up to 18 units of study will be considered for Higher Level (HL) courses based on the achievement of final IB Diploma grades of 5 or greater.

For more information please refer to <https://future.mcmaster.ca/>.

D. Advanced Placement (AP) Courses/Examinations

Applicants who have completed AP courses will be considered for admission to a Level I program. Applicants who have completed A.P. exams through the College Board in acceptable courses and achieve a minimum grade of 4 will be considered for up to 18 units of advanced credit. For all students who have completed AP examinations through the College Board, an official copy of the final *Advanced Placement Examination Results Report* from the College Board is required as part of the admission and advanced credit evaluation process. For more information please refer to <https://future.mcmaster.ca/admission/>

E. Other International Secondary School Qualifications

Admission requirements for applicants from the more common international educational systems are noted below. For all other education systems, please visit our website country-specific requirements. Required subjects are the same as required for Ontario and other Canadian students: <https://future.mcmaster.ca/admission/>.

Applicants must upload high school transcripts as part of the application process. The equivalent of first-class standing will be required for admission consideration. Documents in a language other than English should be accompanied by notarized English translations. Applicants are considered for admission on an individual basis and you will not be allowed to attend the University until all conditions attached to the Offer of Admission have been fulfilled.

McMaster University may require students presenting admission documents from schools outside of North America, to have those documents authenticated via WES Canada <https://www.wes.org/ca/>. This requirement, if applicable, will be specified in the official Offer of Admission letter.

AMERICAN HIGH SCHOOL CURRICULUM

American Curriculum High School applications are reviewed for admission based on McMaster's own calculation of the admission average. McMaster's calculations may vary from those used at other institutions.

Applicants from an American high school curriculum must satisfactorily complete a secondary school diploma with a minimum overall average of at least 80% in a Grade 12 academic program from an accredited American high school/International American Curriculum high school AND must present all prerequisite courses for their chosen program(s).

Admission is competitive and many programs will require grades/averages well above the minimum 80% for admission consideration. For complete requirements for American Curriculum applicants, please visit our website: <https://future.mcmaster.ca/admission/>.

GENERAL REQUIREMENTS

High school Diploma from an accredited school with prerequisite subjects including English completed at the AP or Senior Grade 12 academic level. Students may be required to satisfy our English language proficiency requirements: <https://future.mcmaster.ca/english-proficiency/> McMaster will consider a minimum of five Senior Grade 12 academic courses including all prerequisite subjects for the applicant's selected program(s).

Students applying to programs in Engineering, Science, Health Sciences, Economics and Business programming that have mandatory

Science and/or Mathematics prerequisites should note the following requirements for each subject:

- **Biology** - 2 years/ 2 full credits (Junior and Senior) or AP Biology (or equivalent)
- **Physics** - 2 years/2 full credits (Junior and Senior) or AP Physics (or equivalent)
- **Chemistry** - 2 years/ 2 full credits (Junior and Senior) or AP Chemistry (or equivalent)
- **Calculus** - 4 years of high school Mathematics including Pre-Calculus and AP Calculus or equivalent.

Results of an equivalent **AP challenge examination** will be accepted in lieu of ONE of the science/math prerequisites if your school does not offer the subject. A minimum score of 4 or 5 is required for AP challenge exams. Students presenting AP courses that are prerequisites to their selected program(s) will be required to complete and submit the AP Examination(s) via the College Board and minimum grades of at least 3 is required to meet admission conditions.

SAT II Subject Test with a score of at least 670 or higher may be considered on a case-by-case basis in lieu of ONE of the science/math prerequisites for your chosen program.

For claimed equivalencies, detailed syllabi including all topics covered, total hours and textbooks used are required for our evaluation and should be submitted alongside official high school transcripts/reports.

In response to the pandemic, McMaster University made the submission of SAT/ACT optional for the Fall 2022 admission cycle.

For SAT/ACT admission requirements for Fall 2023, please visit <https://future.mcmaster.ca/admission/> for updated information as it becomes available:

- Detailed school profile including grading scale
- 2nd quartile results can be used for consideration for a conditional offer of admission provided at least 2 of the 5 required courses have been completed and grades presented.
- Grade 9, 10, 11 and Grade 12 2nd quartile results
- SAT and SAT II Subject Test results from the College Board directly and cannot be accepted electronically.
- SAT minimum - overall score of 1200 or greater (Reading/Math sections only) with a minimum score of 600 in each section (Institutional Code for SAT/AP - 0936)

OR

- ACT - minimum composite score of 27 or greater (Institutional Code - 5326)

GENERAL CERTIFICATE OF EDUCATION (G.C.E.)

Applicants from the General Certificate of Education system require a minimum of five G.C.E. subjects, **at least** three of which must be at the Advanced A2 Level with the balance of the subjects at the IGCSE/GSCE (Ordinary Level). Advanced Level subjects must be appropriate to your chosen program.

For program specific requirements please refer to <https://future.mcmaster.ca/admission/>.

OTHER COUNTRIES OR EDUCATIONAL SYSTEMS

For admission requirements from other education systems, please visit <https://future.mcmaster.ca/admission/> to view our country-specific Admissions Requirements.

F. Home Schooled Applicants

Home schooled applicants who in addition to their home schooling experience have completed six Grade 12 U and M courses at an Ontario Ministry of Education inspected and approved school, or equivalent courses from another recognized academic jurisdiction may be considered for their program of choice providing they present the appropriate prerequisite courses on official transcripts from accredited schools and meet the required admission average. McMaster University is the sole arbiter of what is considered as equivalent

level education and equivalent courses.

All other home schooled applicants may apply for admission consideration to Humanities I or Social Sciences I by presenting the following:

1. List of home school credentials including but not limited to structured curriculum completed through ACE (Accelerated Christian Education Program) or other such programs.
2. Portfolio of written work; normally, evidence of appropriate intellectual maturity.
3. Results of standardized tests such as SAT, ACT. Applicants must also present results from the Critical Reading and Mathematics components of **SAT I** with a minimum combined score of 1200 (minimum 580 Critical Reading, 520 Mathematics) OR a minimum combined score for the **Redesigned SAT** result of at least 1200 as a combined score with a minimum of 600 in each section OR from **ACT** with a minimum composite score of 27.

Interested applicants should contact the Office of the Registrar for further information regarding admission criteria.

G. Prior-Year Secondary School Graduates

Applicants who have previously completed a secondary school diploma and have not attended a post-secondary institution since graduation, may be considered for admission by presenting satisfactory standing in six required Grade 12 U and M courses (or equivalent) as identified in the *Subject Requirements For Specific Level I Programs* section in this calendar.

Having attended a post-secondary institution after high school graduation disqualifies applicants from being considered as an applicant from secondary school. See *Admission/Transfer From Post-Secondary Institutions* section in this calendar.

2. Admission/Transfer from Post-Secondary Institutions

A. From Universities

McMaster programs have enrollment limits and admission is by selection. Possession of the minimum admission requirements does not guarantee admission. Admission will be considered on a case by case basis and is not guaranteed.

Transfer applicants will normally receive credit for courses in which a grade of at least a C- standing (as per the McMaster grading scale) has been achieved. Assessment of courses for transfer credit is subject to the guidelines of the individual Faculties.

Transfer students must also satisfy the Residence Requirements set out in the General Academic Regulations section of this Calendar. **The University will not accord to you privileges which would not be granted by your own university.**

Grades obtained in courses taken at another university will not be included in McMaster's Grade Point Average, and, therefore, cannot be used to raise your standing.

If you have been required to withdraw from another university and have fulfilled your period of suspension, you may apply for admission. However, you must present a letter of explanation and clarification concerning your past academic performance. You may also be asked to provide academic documentation for proof of further academic achievement which is both current and relevant. For full transfer information see our website: <https://future.mcmaster.ca/admission/transfer-student-information/>.

B. From Colleges of Applied Arts and Technology

McMaster programs have enrollment limits and admission is by selection. Possession of the minimum admission requirements does not guarantee admission. Admission will be considered on a case by case basis and is not guaranteed.

For information regarding the amount of available transfer credits when transferring from a College of Applied Arts and Technology and to view the minimum admission requirements, please visit <https://future.mcmaster.ca/college-transfer-student/>.

C. University Graduates Applying for a Second Bachelor's Degree

All programs have enrollment limits and admission is by selection. If you have a first non-Honours degree, you may apply to take an Honours second degree in the same subject area or a second degree in another discipline. Please note the following exceptions: B.Arts Sc.(Arts & Science), B.Com. (Bachelor of Commerce), B.Com. (Honours), B.H.Sc. (Bachelor of Health Sciences (Honours)), B.Sc. (Honours) in Integrated Science (ISCI), Honours B.Sc. Kinesiology, Integrated Biomedical Engineering and Health Sciences, and Integrated Business and Humanities cannot be done as second degree programs. Honours Music is only available as a second degree to students whose first degree is not a BA in Music. The requirements are set out in the *General Academic Regulations* section of this Calendar.

If you wish to enter a Second Bachelor's Degree in a subject area from the Faculty of Science, please note that admission to all limited enrollment programs, with the exception of Medical Radiation Sciences I, may not be possible. Second Degree applicants to all Science programs, except Medical Radiation Sciences I, are not eligible to apply to or be admitted to any of the other first year Science programs. Second Degree applicants must have already completed all first year requirements for the second year program they wish to apply to, with the exception of Medical Radiation Sciences I. See *Limited enrollment Programs* in the *Faculty of Science* section of this Calendar for a list of programs. Please contact the Office of the Associate Dean of Science (Academic) for further information (see the *Application Procedures* section).

If you are a McMaster graduate or potential graduate, you may be able to use the *McMaster University Returning Student Application* (see the *Application Procedures* section).

D. Continuing Students

At McMaster, a *Continuing Student* is defined as a graduate from an undergraduate program, who wishes to take more undergraduate courses. To be eligible to take courses as a Continuing Student applicants will an undergraduate university degree and at least a C average, with no failures, in your final year's work (or the equivalent, in the case of a degree taken through part-time studies), and academic records which are satisfactory to the Department and the Office of the Associate Dean of the appropriate Faculty. *Please Note: not all courses are available to Continuing students and course prerequisites for selected courses must be met. Also note that admission as a Continuing student does not guarantee registration in courses of interest to the student.

MCMaster GRADUATES

If you are a graduate of a McMaster undergraduate degree program and wish to become a Continuing Student, you do not need to apply for admission. Graduates who have not attended courses for more than two years will need to contact the Office of the Registrar prior to attempting to enrol for courses.

GRADUATES FROM OTHER UNIVERSITIES

As a Continuing Student with a non-McMaster degree, you must apply formally for admission. In subsequent academic terms, you will only be required to enrol.

Acceptance as a Continuing Student carries no implications with respect to acceptance in the School of Graduate Studies. If you plan to proceed to a graduate degree you should apply directly to the specific department of your program of interest.

E. From Six Nations Polytechnic

McMaster University, along with five other universities, partnered with Six Nations Polytechnic to offer university courses in the community of Six Nations. The courses offered are eligible for transfer credit at any of the universities within the consortium. For more information please contact the Indigenous Student Services at 905-525-9140, ext. 27459 or indigsc@mcmaster.ca.

F. From Post-Secondary Institutions with Religious Affiliation

Undergraduate general academic studies taken at colleges with religious affiliation that are member institutions of specific accredited associations will be considered for admission and transfer credit on a case by case basis. Applicants from a non-accredited postsecondary institution with religious affiliation will be considered for admission based on completion of a Grade 12 high school diploma.

3. Other Categories of Admission

A. Part-time Admission

Applicants interested in beginning studies on a part-time basis should review the requirements and information found in the following sections of this Calendar:

- Admission Requirements
- Application Procedures
- General Academic Regulations
- Sessional Dates
- Program descriptions found in the specific Faculty sections

Applicants must meet one of the admissions criteria outlined in the sections above. If applicants do not meet any of these criteria, they may qualify for *Mature Student Admission* as outlined under the heading *Mature Student Admission* below.

Detailed information can be found on our website: <http://future.mcmaster.ca/admission/>.

B. Mature Students (Admission)

Applicants for admission consideration, who do not qualify under one of the above categories, will be assessed for eligibility as a mature student, provided both of the following conditions are satisfied:

1. The applicant has not attended secondary school or college on a full-time basis for at least two years.
2. The applicant has never attended university.

Applicants admitted as mature students will not be granted transfer credit. Programs in the Faculties of Humanities and Social Sciences have no specific course requirements for mature student admission. The following Level I programs have specific course requirements that mature applicants must present from secondary school, as outlined:

- **Business I:** requires satisfactory completion of Grade 12 Calculus and Vectors U (or equivalent).
- **Chemical and Physical Sciences Gateway:** requires satisfactory standing in four Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Environmental and Earth Sciences Gateway:** requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For*

Specific Level I Programs.

- **Life Sciences Gateway:** requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Mathematics and Statistics Gateway:** requires satisfactory standing in Grade 12 U Advanced Functions U and Calculus and Vectors U (or equivalent) as specified under the heading *Subject Requirements For Specific Level I Programs*.
- **Midwifery I does not offer mature admission directly to the program.** However, students interested in Midwifery may be admitted as a mature student to another program in order to complete a minimum of six university courses (18 units) in their program of admission before applying to the Midwifery Education Program.
- **Nursing I does not offer mature admission directly to the program.** However, students interested in Nursing may be admitted as a mature student to another program in order to complete university prerequisite courses for later consideration for admission to Nursing I. Possession of the minimum admission requirements does not guarantee an offer of admission. Contact the School of Nursing for more details.

The following programs do not admit under the category of Mature Students: Arts & Science I, Automation Engineering Technology I (B.Tech.), Automotive and Vehicle Technology I (B.Tech.), Biotechnology I (B.Tech.), Computer Science I, Engineering I, Health Sciences I, Honours Integrated Science (Level I), Honours Kinesiology (Level I), Integrated Biomedical Engineering and Health Sciences I, Integrated Business and Humanities I, Medical Radiation Sciences (Level I), Midwifery I, and Nursing I.

Those admitted as a mature student, may register to take up to 18 units of course work (normally Level I courses) during the Fall/Winter session with no more than nine units in each term (three courses). Within the first 18 units, mature students will be limited to taking three units in each term of the Spring/Summer session.

Upon completion of 18 units, academic performance is reviewed according to the general academic regulations of the university. (See Level I *Registration and Academic Standing Requirements under General Academic Regulations*).

C. Visiting Students (Letter of Permission - For Credit at Another University)

Students currently attending another university, may apply to take McMaster courses for credit at their own/home institution. Please note, not all courses are available for credit outside McMaster and all are subject to enrollment limits. It is important applicants adhere to McMaster application deadlines. Applications are made through the Ontario Universities' Application Centre (OUAC). The **Letter of Permission and an official transcript are required**. Transcript are reviewed to ensure prerequisites courses have been completed. **Approval of a Visiting Student application does not guarantee your enrollment in a course.**

Subsequent requests to take courses on a Letter of Permission do not require another application; however an updated Letter of Permission and a current official transcript must be sent to the Office of the Associate Dean of the Faculty offering the course at McMaster. If interested in registering in courses offered by more than one Faculty, approval from each Office of the Associate Dean must be obtained.

D. Graduates of McMaster Certificate/Diploma Programs

Applicants who have completed certificate or diploma programs from McMaster may be granted advanced credit up to maximum specified by Undergraduate Council. Faculties review the subject matter of both the certificate and degree programs. Credit granted will normally be applied

against elective courses. For more information regarding advanced credit, please refer to the *Certificate and Diploma Programs* section of this Calendar.

E. Post-Degree Students

University graduates or a persons with professional qualifications who wishes to take one or more graduate courses but not proceed to an advanced degree, may apply to McMaster as a post-degree student. To enroll as a post-degree student, apply to the appropriate department(s) and have your admission and registration approved by the School of Graduate Studies for each session in which you wish to take courses. You will register and pay fees as a graduate student.

Acceptance as a post-degree student carries no implications with respect to admission to advanced degrees, and even if such admission is granted subsequently, credit toward the advanced degree will not normally be granted for the work previously taken.

F. Listeners

If uncertain about taking degree courses, registering as a listener in a degree course may be of interest. Listeners attend all classes, but do not complete any of the essays, tests or other formal requirements and do not receive a grade or credit. Some students have eased their way into degree study with this option, subsequently applying for admission and enrolling in further courses for credit. Please note not all courses are available to Listeners. Please see <https://registrar.mcmaster.ca/fees/> for any applicable fees. For more information please contact the Office of the Registrar.

Written permission to attend must be obtained from the instructor delivering the course. An I.D. card cannot be issued until permission has been obtained.

G. Enrichment Program for Secondary School Students

Outstanding Grade 12 student who wish to enroll in a university-level course while completing Grade 12 U and M courses in their final year of study, may apply for the Enrichment Program. For more information contact the Office of the Registrar <https://future.mcmaster.ca/contact-us/>.

H. Former McMaster Degree Students (Returning Students)

READMISSION

Former McMaster students who voluntarily withdrew from an undergraduate program **more than five years ago** (and have not attended another university or completed a college diploma elsewhere) and wish to return to studies, must apply for Readmission. Students from the School of Nursing or the Physician Assistants program must apply for Readmission regardless of time elapsed following voluntary withdrawal.

If you were enrolled (have a record of course enrolment) within the last five years and you left the university in good academic standing (and have not attended another university or completed a college diploma elsewhere), then it is not necessary for you to apply for Readmission. Normally, you will be permitted to enrol in your previous program or another program for which you qualify. You must contact the Office of the Registrar directly to have your status reactivated prior to enrollment.

REINSTATEMENT

See the *General Academic Regulations* section in this Calendar.

SECOND MCMASTER DEGREE

See *University Graduates Applying for a Second Bachelor's Degree* in this section of the Calendar.

CONTINUING STUDIES

See *Continuing Students* in this section of the Calendar.

4. Transfer Credits

A. General Policy on the Transfer of University Course Credits

To facilitate program completion by undergraduate students seeking to transfer course credit from an accredited university to McMaster, the University has implemented the following principles:

1. Acceptance of transfer credits from accredited universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Insofar as possible, acceptance of transfer credit shall allow for the maximum recognition of previous learning experience in university-level courses;
2. Subject to degree, grade and program requirements, any course offered for credit by an accredited university shall be accepted for credit by McMaster when there is an essential equivalency in course content. However, no course for which a grade of less than C- (60%) has been achieved will be considered.
3. Evaluation of all possible transfer credits available at the time of admission must be completed within one year of the date of admission to the University.

B. From Colleges of Applied Arts and Technology

Normally, well-qualified graduates of a three-year program where the college work is appropriate to the chosen university program, may receive up to 30 units of transfer credit. Graduates of two-year programs will be reviewed for transfer credit on a case-by-case basis.

Credit beyond this may be given on an individual basis where the college and university programs are in similar areas, and where the academic record warrants special consideration.

In the granting of credit, attention will be given to:

1. performance in the college program;
2. the duration of the college program;
3. the program taken at the college and the program to which entry is sought;
4. the applicant's secondary school record.

Each case will be considered individually on its own merits for the program desired.

C. Advanced Credit

Subject to the discretion of the Faculty, advanced credit may be granted for a completed: International Baccalaureate (I.B.) Diploma, the Advanced Placement (A.P.) Program and the College Board examinations; or the General Certificate of Education (G.C.E.) the minimum requirements prescribed have been achieved. Advanced credit may shorten degree program length at McMaster.

D. Credit in Courses by Special Assessment (Challenge Examinations)

Applicants who have acquired knowledge at a different type of institution or in a manner that makes assessment of their qualifications difficult are permitted to seek degree credit through special assessment (Challenge for Credit). Challenge for credit is not intended to give credit for skills or knowledge gained through high school, college or previous university instruction. The special assessment may include one or more of the following: written examinations, papers, essays, submissions of a substantial body of work, or portfolios, or laboratory tests. Credit can be granted only for those courses listed in the current McMaster calendar. Not all courses in all disciplines are available for challenge. Faculties and departments are free to determine which, if any, of their courses are open for special assessment. Challenges are assessed on a pass/fail basis. The passing grade for a challenge appears on the transcript as

COM (Complete) and is not used in computing averages or evaluating honours or scholarship standing, but is counted as a course attempt. Unsuccessful attempts will be noted on the transcript as a grade of F. Special Assessment is not available for a course taken previously and a course may be attempted only once by special assessment. Once you have registered for a course by such means (known as challenge exams) the registration may not be cancelled and you may not withdraw from the course.

Waivers of prerequisites only (ie. no degree credit) will be at the discretion of the department.

5. English Language Proficiency

Applicants asked to meet the English Language Proficiency requirement, must demonstrate English language proficiency by achieving the minimum requirements as specified by McMaster. The university reserves the right to require applicants with an English Language Proficiency score disparate from their English prerequisite subject grade to present further evidence of achievement. You may review acceptable tests of English Language Proficiency and minimum score requirements on our web site <https://future.mcmaster.ca/english-proficiency/>. It is your responsibility to make all arrangements regarding the writing of the English Language Proficiency tests and to have the official score report submitted to the Office of the Registrar, Admissions in a timely manner.

At the discretion of the university, you may be exempted from this requirement if you meet one of the following requirements:

- i. Attended, in full-time academic studies (non-ESL), an accredited Secondary School (High School) or Post-Secondary College in an English-speaking country for at least four years immediately prior to your anticipated start date at McMaster, **OR**
- ii. Attended, full-time academic studies (non-ESL), at an accredited English medium Secondary School (High School) or Post-Secondary College for at least four years,* immediately prior to the anticipated start date at McMaster **OR**
- iii. Attended full-time academic studies (non-ESL), at an accredited English medium University for at least one year, immediately prior to the anticipated start date at McMaster **OR**
- iv. Resided in an English-speaking country for at least four years immediately prior to anticipated start date at McMaster.

*Please note that the Undergraduate MD program requires a minimum of three years of study at an English-medium university. More information about the admission requirements for Medicine at McMaster can be found at: <https://mdprogram.mcmaster.ca/>.

Statements for Application Fraud

If McMaster concludes based on reasonable grounds that the applicant has falsified any information presented to the University as part of his or her application, without limiting any other rights of McMaster available at law, McMaster reserves the right to revoke the offer and, subject to applicable law and University Policy, to terminate a student's registration.

Without limiting McMaster's General Statement on Collection of Personal Information and Protection of Privacy, please take note that McMaster University collects and retains personal information of applicants for admissions to McMaster University under the authority of The McMaster University Act, 1976. This information may be used for the administration of admissions and registration and, subject to McMaster University policies (as may be amended or revoked from time to time), McMaster may disclose any evidence of misrepresentation, fraud or falsification of admissions documentation to other educational institutions, to government agencies, to law-enforcement agencies and to other relevant third parties. The information you provide on any application for admissions will be protected and used in compliance with *Ontario's Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have

any questions about the collection and use of this information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

McMaster English Language Development Diploma (MELD)

Department of Linguistics and Languages (Faculty of Humanities)

Phone: (+1) 905.525.9140 Ext. 23718

Email: meld@mcmaster.ca

Web: <https://meld.humanities.mcmaster.ca/diploma/>

Students who meet the academic admission requirements for their choice of Level 1 program, but do not meet McMaster's English Language Proficiency requirement may be admitted to the MELD bridging program which has been developed for international students, providing them with a supportive environment in which they can succeed. The diploma is a two-term, full-time intensive bridging program in English language development, acculturation and engagement.

Students accepted into MELD are given a conditional offer of admission to their program of choice, pending successful completion of the MELD diploma. Once the diploma in MELD has been successfully completed, the student may register in the program to which the student was given conditional admission and will have completed 6 units of degree credit courses in Linguistics that may be applied as electives to that program. In exceptional circumstances, MELD will consider transfers from other McMaster programs.

Please visit <https://meld.humanities.mcmaster.ca/diploma/> for more information or email meld@mcmaster.ca.

Fall Term

(September - December)

- LINGUIST 1E03 - Introduction to English Linguistics I (degree credit course)
- MELD 1M00 - Mentorship Lab 1
- MELD 1Q03 - Critical and Analytic Reading
- MELD 1Q03 - Grammar, Structure and University Writing
- MELD 1R03 - Aural Communication and Academic Culture
- MELD 1RR3 - Oral Communication for Academic and Social Interactions

Winter Term

(January - April)

- LINGUIST 1EE3 - Introduction to English Linguistics II (degree credit course)
- MELD 1MM0 - Mentorship Lab 2
- MELD 1S03 - Critical Reading, Research and Academic Vocabulary
- MELD 1SS3 - Academic Writing, Reporting and Research
- MELD 1T03 - Cross-Cultural Perspectives on Language and Language Learning
- MELD 1TT3 - Oral Communication for Academic Discourse

McMaster English Readiness for Graduate Excellence Certificate

<https://meld.humanities.mcmaster.ca/merge/>

MERGE (the McMaster English Readiness for Graduate Excellence Certificate) is an intensive six-week summer certificate program for current or prospective graduate students from any institution who are looking to improve their English-language skills. The MERGE program offers over 200 hours of language training; 35 hours per week. Admission requirements include successful

completion of an undergraduate degree and English language proficiency minimum requirements of **TOEFL iBT 90** or **IELTS 6.5** (with minimum category requirements). Target English proficiency upon program completion will be an **IELTS score of 7-7.5** or **Common European Framework Reference for Languages (CEFR) level C2.1**, in keeping with graduate English proficiency admission requirements.

The MERGE program goes beyond essential training in speaking, listening, reading, and writing. It has been designed to support the integration of these skills as applied to real world contexts students will encounter during graduate school and beyond. The MERGE certificate does not require current or conditional admission to a McMaster University graduate program and program completion does not guarantee admission to a graduate program of study in and of itself. As a stand-alone program, the MERGE certificate coursework cannot be utilized for advanced standing or credit towards degree studies.

CERTIFICATE REQUIREMENTS

Each of the program's six weeks will be divided into modules that will focus on a different set of skills. These modules will approach the development of these skills from the point of view of both cultural understanding and practical implementation, with an emphasis on teaching and practising the language skills needed to be successful in each domain. The six modules are:

- **Module 1 - General social interactions:** conventions and strategies for everyday social encounters students face
- **Module 2 - Academic feedback and critique:** the role of critique in academia along with tools for both giving and receiving feedback or peer review
- **Module 3 - Academic reasoning:** identifying, understanding, and summarizing arguments and evaluating supporting evidence in both reading and listening
- **Module 4 - Academic interactions:** navigating relationships with supervisors, teams, and other faculty in person, through email, at conferences, and in seminars
- **Module 5 - Career preparation:** best practices for CVs/resumes, job interviews, elevator pitches, and online brand building
- **Module 6 - Teaching:** principles of effective teaching including developing lessons, interacting with students, and grading

Application Procedures

HOW TO APPLY

1. Determine the appropriate application form and/or procedures. (See *Categories of Admission* below.)
2. Determine application deadline. (See *Application and Documentation Deadlines* in this section.)
3. Refer to the Admission Requirements and specific Faculty sections of this Calendar for further information.
4. Complete and submit your application as directed.
5. Submit all required documentation to McMaster. (See *Documents* in this section.)
6. Once an application has been received, McMaster's Office of the Registrar, Admissions will provide an acknowledgment of receipt of application plus further instructions/details about tracking the application.

1. Categories of Admission

A. Current Ontario High School Students

The 101 application should be used if ALL of the following requirements apply:

- You are taking courses during the day at an Ontario secondary school (this includes students returning for second semester and graduated students returning to upgrade one or more courses)
- You have not, at any point, been out of secondary school for more than seven consecutive months
- You will have received or expect to receive your Ontario Secondary School diploma (OSSD) with six 4U/M courses at the end of the current year
- **You have not attended a postsecondary institution (college/university/career college)**
- You are applying to the first year of an undergraduate degree program or diploma program at an Ontario university
- You are under 21 years of age.

Use the Undergraduate 101 on-line application at www.ouac.on.ca/101/.

Please consult with your secondary school guidance office regarding this application process.

B. All Other Canadian High School Students

For applicants currently attending secondary school outside of Ontario or have recently completed a secondary school diploma in any Canadian province or territory

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

C. High School Students with International Qualifications

Applicants currently attending or have recently completed a secondary school program outside of Canada

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

D. University/College Transfer/Continuing Students

If currently registered in or have completed an undergraduate degree program at another university and wish to attend McMaster **OR**

If currently registered in or have attended or completed a college diploma program and wish to attend McMaster

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

E. Nursing Consortium Programs

Applying to McMaster's Nursing (B.Sc.N.) programs at the Mohawk College or Conestoga College sites

- Current Ontario high school applicants - use the OUAC 101 on-line application at www.ouac.on.ca/101/.
- All other applicant groups use the OUAC 105 on-line application at www.ouac.on.ca/105/.

F. Previous McMaster Degree Students (Returning Students)

1. **Readmission:** If you are a former McMaster student with a record of course enrolment, who was in good standing and who voluntarily withdrew from an undergraduate program more than five years ago (providing you have not attended another university nor received a college diploma since last registered at McMaster). If you are a former Nursing or Physician Assistant student, you must apply for readmission regardless of the amount of time that has elapsed. Apply on-line at: <https://registrar.mcmaster.ca/build-degree/continuing-studentssecond-degree/>
2. **McMaster Second Degree:** If you are a McMaster graduate or potential graduate at the end of your current academic term and wish to pursue a second undergraduate degree (providing you have not attended another university nor received a college diploma since last registered at McMaster).

- Use the McMaster Returning Student Application to apply on-line at <https://registrar.mcmaster.ca/build-degree/continuingstudents-second-degree/>
3. **Reinstatement:** If you are a former McMaster student who was required to withdraw from studies at McMaster.
- Complete the *Reinstatement Request Form* found online here: <https://registrar.mcmaster.ca/build-degree/reinstatement/>. Submit a Service Request in Mosaic and attach the completed form.
4. **Continuing Student:** If you are a McMaster graduate from an undergraduate program and wish to become a Continuing Student.
- You do not need to apply for admission. Contact the Office of the Registrar, Services, for assistance <https://registrar.mcmaster.ca/events/connect-with-us-online/>.

G. Visiting Students (Letter of Permission - For Credit at Another University)

If you are currently enrolled at another university and wish to attend McMaster to take courses on a Letter of Permission for credit at that university

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/

H. Part-Time Degree Studies at McMaster Only

If you wish to begin undergraduate studies on a part-time basis (enrolled in less than 18 units of study)

- Use the OUAC 105 on-line application at www.ouac.on.ca/105/.

I. Post-Degree Studies

If you wish to register as a post-degree student (taking graduate courses but not proceeding to an advanced degree)

- Contact the Graduate Studies Office, Gilmour Hall, Room 212, McMaster University, Hamilton, Ontario, L8S 4L8 for information on how to apply to the appropriate academic department(s).

J. Medical Program

See the heading *Admission Policy for the Medical Program* in the *Faculty of Health Sciences* section of this Calendar.

2. Documents

A. Required Documents

- complete application includes: an application form, relevant transcripts and all other documentation stipulated in the *Admission Requirements* and specific Faculty sections of this Calendar, in letters from the appropriate Faculty and/or in letters from Office of the Registrar, Admissions.

Transcripts of marks and/or certificates from all secondary and post-secondary institutions attended must be provided. When requested to provide an **official** transcript, an official signed and sealed transcript record of all academic achievement must be **issued and sent by an academic institution directly to McMaster University, Office of the Registrar, Admissions.**

If currently attending secondary school, contact a guidance counselor to request your current Grade Report showing all Grade 12 courses. If you previously attended secondary school in another province, you may need to request a transcript containing your secondary school marks from the Ministry or Department of Education in that province if it is not normally provided by your high school.

Where documentation from a school outside of Canada is in a language other than English, transcripts in the original language as well as notarized English translations are required.

For specific document submission requirements and processes/procedures, please review: <https://future.mcmaster.ca/admission/documents/>.

If McMaster concludes based on reasonable grounds that the applicant has falsified any information presented to the University as part of his or her application, without limiting any other rights of McMaster available at law, McMaster reserves the right to revoke the offer and, subject to applicable law and University Policy, to terminate a student's enrolment.

Without limiting McMaster's General Statement on Collection of Personal Information and Protection of Privacy, please take note that McMaster University collects and retains personal information of applicants for admissions to McMaster University under the authority of *The McMaster University Act, 1976*. This information may be used for the administration of admissions and registration and, subject to McMaster University policies (as may be amended or revoked from time to time), McMaster may disclose any evidence of misrepresentation, fraud or falsification of admissions documentation to other educational institutions, to government agencies, to law-enforcement agencies and to other relevant third parties. The information you provide on any application for admissions will be protected and used in compliance with Ontario's *Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have any questions about the collection and use of this information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

B. Retention of Documents

All documentation submitted in support of an application for admission **becomes the property of the University and will not be returned.** Documentation for those not accepted or for those who fail to enroll following acceptance, will be destroyed at the end of the admissions cycle. If an applicant reappplies, they must resubmit any required documentation.

3. Application and Documentation Deadlines

McMaster University reserves the right, at its sole discretion, not to accept, process or adjudicate applications or amendments to applications to any program at any time. Meeting minimum application requirements does not guarantee admission to any program at McMaster University. **Application fees are non-refundable and you are advised to review admission requirements carefully before applying,** to determine your academic eligibility for admission consideration. Please see the *Admission Requirements* section of this calendar for general information. University transfer applicants should review Programs (by Degree) and Minors requirements section before applying.

McMaster University has a number of highly competitive by-selection programs requiring a mandatory supplementary application/assessment, and these programs have early application and supplementary submission deadlines, as specified in the chart below. Failure to apply on time or to submit the required supplementary application/assessment by the specified dates will automatically disqualify applicants for consideration to these specified programs. Submission of an application and/or amendments should be made well in advance of the deadlines listed below.

Fall and Winter Terms

The dates and deadlines listed below are for applications submitted for the 2022-2023 academic year. Please refer to <http://future.mcmaster.ca> for the date and deadline information for new applications.

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Arts & Science	January 13	February 1 Details at: https://artsci.mcmaster.ca/future-students/supplementary-application/
Actuarial & Financial Mathematics (Above Level 1) Regular and Co-op Programs	April 1	April 30 For information see: https://www.math.mcmaster.ca/undergraduate/usefullinks/actuarial-and-financial-mathematics-supplementaryapplication.html
Automation Engineering Technology I Co-op (B.Tech.), Automotive and Vehicle Engineering Technology I Co-op (B.Tech.), Biotechnology I Co-op (B.Tech.)	January 13	End of January Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/future-students/supplementary-application
Bachelor of Technology Degree Completion (Above Level 1)	March 1 (May intake) July 1 (September intake) November 1 (January intake)	Must be completed by the application deadline. Details at: https://www.eng.mcmaster.ca/forms/bachelor-technologydegree-completion-program-supplementary-application-form

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Biomedical Discovery & Commercialization (Level 3 entry; Health Sciences (Above Level 2))	February 1	February 1 Supplementary application deadline - details at https://bdcprogram.mcmaster.ca/apply/
Computer Science I (Regular and Co-op)	January 13	January 28, 12:00 noon ET Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/future-students/supplementary-application
Computer Science (Above Level 1) (Regular and Coop)	April 1	Mid - April Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/futurestudents/supplementary-application
Engineering 1 (Regular and Co-op)	January 13	January 28, 12:00 noon ET Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/future-students/supplementary-application
Engineering (Above Level 1) (Regular and Co-op) Engineering & Management (Above Level 1) (Regular and Coop) Engineering & Society (Above Level 1) (Regular and Co-op)	April 1	Mid - April Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/futurestudents/supplementary-application
Health Sciences I (Honours)	January 13	Early February Details at: https://bhsc.mcmaster.ca
Health Sciences (Honours) (Above Level 1)	April 1	Early May Details at: https://bhsc.mcmaster.ca

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Honours Biology and Pharmacology Co-op (Above Level 1)	February 1	February 1 Mandatory Letter of Intent specifying reasons for applying and applicant suitability for the program. Email biophrm@mcmaster.ca by February 1.
Honours Integrated Science I	January 13	February 1 Details at: https://www.science.mcmaster.ca/sis/undergraduate/isci/isciadmission-requirements.html
Integrated Biomedical Engineering & Health Sciences 1 (Regular and Co-op)	January 13	January 28, 12:00 noon ET Online Kira© Assessment Details at: https://www.eng.mcmaster.ca/future-students/supplementary-application
Integrated Business & Humanities	January 13	February 1 Online Kira© Assessment
Justice, Political Philosophy & Law	April 1	April 1 For more information see: https://philos.humanities.mcmaster.ca/undergraduateprograms/justice-political-philosophy-and-law-program/
Midwifery (including submission of all transcripts)	February 1	N/A
Physician Assistant (including submission of all official transcripts) Note: This program is not open to International Applicants. This program is open to Canadian citizens and present Permanent Residents of Canada only.	February 1	End of February
Social Work	February 1	February 1
Nursing I: Secondary School Applicants	January 13	Mandatory Supplementary application information is available on the CASPer™website.

PROGRAM	APPLICATIONS	MANDATORY SUPPLEMENTARY APPLICATIONS
Nursing 1 (university transfer applicants from programs other than Nursing and applicants from college pre-health programs) (including submission of all official transcripts)	February 1	Mandatory Supplementary application information is available on the CASPer™website.
Nursing: Transfer from another Nursing program to the McMaster site.		Students from other university Nursing programs should contact the McMaster Nursing program office at 9055259140, ext. 22232, for information about transfer options and application procedures. McMaster will not typically accept transfer applications from students already in a Nursing program elsewhere.
Nursing Basic-Accelerated Stream (above level 1) (including submission of all official transcripts)	February 1	Mandatory Supplementary application information is available on the CASPer™website.
Nursing Post-Diploma RPN Stream (Mohawk) (Conestoga)	February 1	Mandatory Supplementary application information is available on the CASPer™website.

Application Deadlines for All Other McMaster Programs for Fall and Winter Terms

***February 1** - Applications received on or before February 1 with all supporting official documentation received no later than February 15 from applicants with no postsecondary experience will be reviewed for admission pending space availability in the program. All applications received after February 1 will be considered only if there is space available in the program.

April 1 - The final date to apply for admission and submit all required documentation for admission consideration is April 1. This final deadline applies to all international and domestic applicants.

	APPLICATION DEADLINE	SUPPORTING DOCUMENTATION DEADLINE
Ontario High School Applicants (Recommended)	January 13	April 1
Early Deadline* (see above)	February 1	February 15
Final Deadline Domestic Applicants	April 1	April 1

Final Deadline International Applicants	April 1	April 1
B.Tech. Degree Completion Program Only -		
January Entry	November 1	November 15
May Entry	March 1	March 15
September Entry	July 1	July 15

Spring/Summer Term

	DOMESTIC DEADLINE	INTERNATIONAL DEADLINE
May Entry (Term 1 or 3)	April 1	April 1
Supporting Documentation for May Entry	April 1	April 1
June Entry (Term 2)	May 15	May 15
Supporting Documentation for June Entry	May 15	May 15

Former McMaster Students: Re-admission / Re-instatement Deadlines for Fall and Winter Terms

	DOMESTIC DEADLINE	INTERNATIONAL DEADLINE
Re-instatement Deadline	June 30	June 30
Re-admission Deadline	July 15	July 15
Nursing Deadline	February 1	February 1
Physician Assistant	February 1	N/A

Academic Advising for Admitted Students

Applicants offered admission to a program at McMaster, will be asked to confirm acceptance of the offer. Admission offers will include information regarding acceptance procedures, a response deadline and registration procedures. Admission acceptance deadlines specified in the Offer of Admission letter are strictly enforced. Accepting the offer of admission well before the specified deadline date is recommended.

If admitted to Level 1, the Faculty Office may arrange a meeting with an Academic Advisor. Although summer advising and registration sessions are not compulsory, it is recommended to participate.

If offered admission above Level 1, academic advising with the Office of the Associate Dean of the Faculty offering the program, or the Office of the Director of the program may be arranged.

4. Review of Admission and Re-Admission Decisions

No appeal procedure shall be available for decisions on admission or re-admission to the University. Such decisions may be reviewed within the following framework:

- An applicant to the University believes the admission or re-admission decision, or, in the case of a transfer student the decision to grant credits, is incorrect, or based on incorrect or incomplete information, may, **within one week of receiving the decision**, request a review of that decision

by writing to the Senior Associate Registrar, Undergraduate Admissions, stating why they think the decision should be reviewed.

- The Senior Associate Registrar, Undergraduate Admissions, shall determine whether the information on which the decision was based was incomplete or incorrect and, if so, shall refer the request for review to the appropriate Faculty Committee. That Committee shall make a final decision and report it to the Senior Associate Registrar, Undergraduate Admissions, who shall then convey the decision in writing to the student.

Enquiries: Application Procedures

<https://future.mcmaster.ca/how-to-apply/>, or direct your enquiries to our online chat: <https://future.mcmaster.ca/contact-us/>

General Academic Regulations

This section outlines the general undergraduate academic regulations of the University. Students must read and comply with both these regulations and those set out by their Faculty elsewhere in this Undergraduate Calendar, as applicable. In the event of a conflict between the Faculty/Program Regulations and these General Academic Regulations, the program regulations take precedence.

Since the Academic Regulations are continually reviewed, the University reserves the right to change the regulations in this section of the Calendar. The University also reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. Faculties are authorized to use discretion in special situations by taking into account past practice, the spirit of the regulations, and extraordinary circumstances. Students who believe their situations warrant special consideration should consult the appropriate Faculty/Program Office.

Academic Commitments

Students should expect to have academic commitments for instructional activities (e.g., lectures, labs, tutorials, etc.) Monday through Saturday, normally 8:30 a.m. to 10:30 p.m., but not on statutory holidays, as outlined in the Sessional Dates. Also, students may be required to write tests or examinations Monday through Sunday. Students are responsible for meeting all course requirements, including final examinations, as scheduled.

Academic Accommodations: Religious, Indigenous or Spiritual Observances

Students who require accommodations to meet religious, Indigenous or Spiritual Observances are expected to read the *Policy on Academic Accommodation for Religious, Indigenous and Spiritual Observances* ("RISO policy") and must make their requests within 10 working days from the beginning of the start of term to their Faculty/Program Office.

Academic Accommodations: Permanent Disability, Temporary Disability, and Retroactive Accommodation

Students seeking an accommodation related to a permanent or temporary disability, or a retroactive accommodation, are expected to read the *Academic Accommodation of Students with Disabilities* policy. Important excerpts from the current policy include:

- students are not to seek accommodation directly from their professors,

instructors, and/or teaching assistants. Accommodation requests should be directed to Student Accessibility Services or the Faculty Office;

- students are not required to reveal their private medical information, such as the cause of the disability, diagnosis, symptoms or treatment (unless these clearly relate to the accommodation being sought) to register with Student Accessibility Services, or receive accommodations or supports;
- students may request interim accommodations for disabilities (this includes mental health disabilities) pending receipt of medical documentation;
- both Temporary and Permanent disabilities will be accommodated
- **Permanent Disability** is where a functional limitation will occur for more than one academic term or as defined by a regulated health professional.
- **Temporary Disability** may be a short-term injury or illness (such as mononucleosis, a broken limb or concussion) or an episodic condition (e.g. mental illness) where a functional limitation *generally* occurs within one academic term or less or as defined by a regulated health professional.
- requests for accommodation should be submitted in a prompt and timely manner. Requests made after a deadline has passed may be considered Retroactive Accommodations. A Retroactive Accommodation may be for either a Permanent or Temporary Disability when the request is made after the fact (e.g. after a course has been completed), as the result of the discovery or diagnosis of an existing disability of which the student was previously unaware.

Sessional Dates

Please visit the Sessional Dates page for important dates for this academic year.

Student Responsibilities

Academic

McMaster University provides many resources to help students achieve their academic goals, including the Undergraduate Calendar, program advisement reports and academic advisors.

Students must assume certain responsibilities. They include:

- meeting admission requirements and application deadlines for their intended program(s) of study
- selecting and completing courses in an order that meets requisite and program requirements
- becoming familiar with and respecting University Sessional Dates, the General Academic Regulations, their Faculty/Program-specific regulations, and the Regulations for Aid and Awards as found in the appropriate sections of this Calendar.

Students who do not follow these guidelines may experience academic consequences such as cancellation of course enrolment, completion of courses that are not counted toward their degree, or delayed graduation.

In addition to the responsibilities listed above, students are expected to:

- know and follow the Senate policies
- keep their student account in good standing, paying all charges on time
- be aware that changes to course load and program may affect eligibility for government and University aid and awards (e.g. OSAP, work programs, bursaries, scholarships, etc.)
- consult with Student Accessibility Services in a timely manner to make disability related accommodation requests under the *Academic Accommodation of Students with Disabilities* policy

Enrolment

The University endeavours to enable students to enrol in required courses so that their program admission requirements, course requisites, and program progression can be achieved in a timely manner.

Enrolment capacities are set on all undergraduate courses taking into account enrolment projections along with resources and type of course (required or elective). Where students are selecting from a list of required courses, access to a specific course is not guaranteed when there is another course available to meet a specific degree requirement.

The University reserves the right to change a student's enrolment in classes should the need occur (e.g. low enrolment, urgent timetable changes, etc.).

Communication

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information
- use the university provided e-mail address or maintain a valid forwarding e-mail address
- regularly check the official University communications channels, including the Mosaic Student Centre. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their **@mcmaster.ca** account
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's **@mcmaster.ca** account

Due Date Restrictions

Academic assessments, due dates and evaluations are described in course outlines except where other University policies apply, e.g., SAS accommodations, deferred exams, etc. When students are aware of their progress early in a course they can make informed decisions. Restrictions are placed on academic obligations to enable students to plan their work schedules.

1. Due dates for all term work must be on or before the final day of classes for courses with a final examination. For courses with no final examination, academic assessments can be due on or before the final date of examinations.
2. Tests, quizzes, exams and take home exams worth more than 10% cannot be assigned or due during the last five days of classes plus the days(s) between the end of classes and the beginning of examinations. Assignments worth more than 10% that are assigned at the beginning of the course and noted on the course outline, can be due during this time period, provided students are given sufficient additional detail to enable them to work on the assignment in advance of the due date.
3. Academic obligations cannot be due during the December holiday break or the fall and winter mid-term recesses, with the exception of deferred exams scheduled by the Office of the Registrar.

Maximum Value of Academic Assessments

1. Student learning in undergraduate courses should be assessed on more than one occasion. To that end, no single academic obligation (e.g., essay, test, examination, etc.) should have a value of more than 75% of the final grade without approval from the Department Chair or Associate Dean's Office. Clinical, placement, thesis and capstone courses are exempt.
2. For students requiring relief from an academic obligation, it is at the discretion of the instructor to determine the nature of the relief. In cases such as this, students can be offered the choice of another assessment or the option of writing a final examination which may be worth more than

75% of the course grade.

Early Feedback

1. All students must receive feedback regarding their progress prior to the final date by which a student may cancel the course without failure by default.
2. For Level 1 and Level 2 courses, this feedback must equal a minimum of 20% of the final grade.
3. For Level 3 courses and above, this feedback must equal a minimum of 10% of the final grade.
4. For courses where it is difficult to achieve a numeric grade due to the design of the course (e.g., supervised study, thesis, capstone, inquiry, independent research/study, experiential courses, etc.), clear and early feedback must be provided.
5. When academic obligations are completed by the due dates in the course outline, early feedback will be received by the final date by which a student can cancel a course without failure by default. Students who use the MSAF process and other petitionable accommodations may not receive feedback by the early feedback deadline.

Residence Requirements

Most students complete all undergraduate work at McMaster University. However, students who complete work at other universities must meet the minimum requirements set out below.

To obtain any four- or five-level, first undergraduate degree:

- at least two levels (approximately 60 units of work) beyond Level 1, including the final level, must be completed at McMaster University.

To obtain a three-level, first undergraduate degree:

- the final level and at least one other level (a minimum of approximately 60 units of work) must be completed at McMaster University,

or,

- the final level (approximately 30 units of work) including at least 18 units of program- specific requirements must be completed at McMaster University.

Courses taken at another university on a *Letter of Permission* will not count toward the residence requirements.

All course work for a second bachelor's degree must be completed at McMaster University.

McMaster University Statement on the Collection of Personal Information and the Protection of Privacy

McMaster University collects and retains personal information of students, alumni and other parties, including but not limited to faculty, staff, visiting academics and private citizens using services provided by McMaster University, under the authority of the *McMaster University Act, 1976*. This information is used for the academic, administrative, employment-related, safety and security, financial and statistical purposes of the University, including for the administration of admissions, registration, awards and scholarships, convocation, alumni relations and other fundamental activities related to being a member of the University community, a user of services provided by McMaster or an attendee of, or applicant to, a public post-secondary institution in the Province of Ontario. The information will be used, among other things, to admit, register and graduate students, record academic achievement, issue library cards and, where applicable, local transit passes, to provide access to information systems and to operate academic, financial, athletic, recreational, residence, alumni and other University programs.

Additionally, this information may be shared with other institutions of higher education in order to administer collaborative programs. Information on admissions, registration and academic achievement may also be disclosed and used for statistical and research purposes by the University, other post-secondary educational institutions and the federal and provincial governments. The names of alumni, their Faculty and program, award information, degree(s) awarded and date of graduation is considered public information and may be published by McMaster University. In addition, student photographs posted by the University in the form of individual pictures or class pictures may be publicly displayed. Aside from the foregoing, the information you provide and any other information placed in a student record, or in a personnel record, will be protected and used in compliance with Ontario's *Freedom of Information and Protection of Privacy Act (RSO 1990)* and will be disclosed only in accordance with this Act. If you have any questions about the collection and use of this information please contact the University Registrar, University Hall, Room 209, Student Records, Gilmour Hall, Room 108, or the University Secretary, Gilmour Hall, Room 210, McMaster University.

McMaster University may also collect personal information from other relevant sources including, without limitation, the Ontario Universities' Application Centre, secondary schools, colleges, universities and other institutions previously attended, including third-party services and test score providers where the items collected form a part of the application or admission process to a university program.

Furthermore, McMaster is required to disclose personal information such as Ontario Education Numbers, student characteristics and educational outcomes to the Ministry of Colleges and Universities. The Ministry collects this data for purposes such as planning, allocating and administering public funding to colleges, universities and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the Ministry for purposes that relate to post-secondary education and training. Any information collected by McMaster for the purposes of self-identification as a member of a specific group (i.e. First Generation, First Nations, etc.) may be subject to disclosure to the Ministry by McMaster and collected by the Ministry pursuant to its statutory authority. Further information on how the Ministry uses personal information is available on the ministry's website (<https://www.ontario.ca/page/ministry-colleges-universities>).

In addition to collecting personal information for the purposes noted above, McMaster University collects specific and limited personal information on behalf of the McMaster Student Union, the McMaster Association of Part-time Students and/or the McMaster Graduate Students Association. These constituent student groups use personal information for the purpose of membership, administration, elections, annual general meetings, health plans and other related matters only. Please contact the relevant Student Union or Association office if you have questions about this collection, use and disclosure of your personal information and their respective privacy policies.

June 2019

Notification of Disclosure of Personal Information to Statistics Canada

Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education. In order to carry out such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada student identification information (student's name, student ID number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education and labour force activity.

The *Federal Statistics Act* provides the legal authority for Statistics Canada to obtain access to personal information held by educational

institutions. The information may be used only for statistical purposes, and the confidentiality provisions of the Statistics Act prevent the information being released in any way that would identify a student. Students who do not wish to have their information used are able to ask Statistics Canada to remove their identification and contact information from the national database. For further information, please see Statistics Canada's web site at: <http://www.statcan.ca> or write to the Postsecondary Section, Centre for Education Statistics, 17th Floor, R.H. Coats Building, Tunney's Pasture, Ottawa, K1A 0T6.

Record Retention

When individuals apply for admission to and enrolment in programs at McMaster they accept the University's right to collect pertinent personal information. This information is needed to assess qualifications for entry, establish records of performance in programs and courses, provide the basis for University aid and awards and governmental student aid programs, and to assist the University in the academic and financial administration of its affairs. All documentation submitted to the University in support of applications for admission, residence accommodation, University aid and awards, appeals and/or petitions becomes the property of the University.

All application documents are normally destroyed at the end of each admission cycle for applicants who are not accepted, or who do not enrol following acceptance. For applicants who become McMaster students, their application documents are normally destroyed five years after the last term of their enrolment at the University (regardless of whether or not they graduate). Supporting documentation relevant to government student aid programs (e.g., OSAP) is kept per the retention policies of the Federal and/or Provincial governments. Supporting documentation, relevant to the administration of online aid applications, as well as University aid and awards, will normally be destroyed after the petition for special consideration period, per the Regulations for Aid and Awards, has passed.

All information needed to produce official transcripts is maintained permanently.

Second Bachelor's Degree Programs

For admission to a second undergraduate degree program a student must hold a first undergraduate degree. A second degree is not available in all degrees and/or subject areas. See *University Graduates Applying for a Second Bachelor's Degree*.

1. All work for the second degree must be completed at McMaster University.
2. Second degree programs may not be available where there is substantial overlap in the requirements of the first degree. See individual Faculty/Program regulations or consult Faculty/Program Offices for exclusions or further information.
3. Extra courses taken while enrolled in a first degree program, or courses completed as a Continuing Student, may, with the approval of the Faculty, be applied to the second degree program.
4. Students must meet the same regulations for continuation and graduation as are applied to students enrolled in a first degree program.
5. Credit from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree students must complete all program requirements, i.e. approximately 90 units for a three-level degree and approximately 120 units for a four-level degree.

Requirements for Second Bachelor's Degree Programs

- **Honours Degree following a Three-Level Degree in the Same Subject:** For consideration into an Honours B.A., Honours B.Sc., or Honours B.A.Sc. degree program following a three-level degree in the same subject, a Cumulative GPA of at least 5.0 in the first degree program is required. For consideration into all other eligible degree programs, a Cumulative GPA of at least 6.0 in the first degree program is required. If admitted, at least 30 units beyond the first degree, including all program requirements, must be completed.
- **B.A. or B.Sc. in Another Subject:** For consideration, students must meet the admission requirements for the program. If admitted, at least 30 units beyond the first degree, including all program requirements, must be completed. Students are not eligible for a second B.A. or B.Sc. degree in a program in which they have been awarded a minor, however, they may apply for an honours second degree in that subject.
- **Honours B.A., Honours B.A.Sc., Honours B.Sc. or Honours B.H.Sc. in Another Subject:** For consideration, students must meet the admission requirements for the program and have a Cumulative GPA of at least 5.0. If admitted, at least 60 units beyond the first degree, including all program requirements, must be completed.
- **B.M.R.Sc.:** For consideration, students must meet the admissions requirements for the program. If admitted, students will be required to complete a minimum of 24 units during Level 1 of the program. Some of these units may be extra to the degree requirements.
- **B. Eng., B.Tech., and B.A.Sc.:** For consideration, students must meet the admission requirements for the program. If admitted, students must complete at least 60 units beyond the first degree including all program requirements.

McMaster Students Studying at Another University: Letter of Permission (LOP) and Exchange (Study Abroad)

1. McMaster students who wish to complete courses at another university for transfer credit towards their McMaster degree must be in good academic standing.
2. Grades obtained in courses at another university will not be included in the calculation of McMaster averages, which may affect consideration for in-course academic awards.
3. Courses taken at another university cannot be used to satisfy McMaster's Residence Requirements.
4. Students may take up to six units at another university toward a minor.

Letter of Permission (LOP):

1. Students must obtain necessary approval in advance from their Faculty/Program Office.
2. Upon completion of course work, if a grade of 60% or better is obtained, the transcript designation reads T indicating *transfer credit*. If less than a 60% grade is attained, the transcript designation reads NC indicating *no credit*. If the student withdraws from the course, the transcript designation reads W indicating *withdrawn*.
3. Students who do not to use their Letter of Permission or drop the course must supply the Faculty/Program Office with a certified letter from the host university, otherwise a grade of NC will be placed on the transcript.

Exchange (Study Abroad):

1. Students must obtain necessary approvals in advance from both their Faculty/Program Office and International Student Services.
2. Upon completion of course work, if a passing grade (as determined by the host university) is obtained, the transcript designation reads T indicating *transfer credit*. If less than a passing grade is attained, the transcript designation reads NC indicating *no credit*. If the student withdraws from the course(s), the transcript designation reads W indicating *withdrawn*.
3. Students who return from exchange prior to completion of course work must supply the Faculty/Program Office with a proof of withdrawal from the host university, otherwise grades of NC will be placed on the transcript.

Credit in Courses by Special Assessment (Challenge Examinations)

Students who have acquired knowledge at a different type of institution or in a manner that makes assessment of their qualifications difficult are permitted to seek degree credit through special assessment (*Challenge for Credit*).

Challenge for credit is not intended to give credit for skills or knowledge gained through high school, college or previous university instruction. The special assessment may include one or more of the following: written examinations, papers, essays, submissions of a substantial body of work, or portfolios, or laboratory tests. Credit can be granted only for those courses listed in the current McMaster calendar. Not all courses in all disciplines are available for challenge. Faculties and departments are free to determine which, if any, of their courses are open for special assessment. Challenges are assessed on a pass/fail basis. The passing grade for a challenge appears on the transcript as COM (*Complete*) and is not used in computing averages or evaluating honours or scholarship standing, but is counted as a course attempt. Unsuccessful attempts will be noted on the transcript as a grade of F. Special Assessment is not available for a course taken previously and a course may be attempted only once by special assessment. Once you have registered for a course by such means (known as *challenge exams*) the registration may not be cancelled and you may not withdraw from the course.

Waivers of prerequisites only (i.e. no degree credit) will be at the discretion of the department.

Voluntary Withdrawal from the University

Students who wish to permanently or temporarily withdraw from the University must consult their Faculty/Program Office. Students in receipt of government student aid (e.g., OSAP) and/or University aid or awards should contact the Office of the Registrar, Aid & Awards.

Petitions for Special Consideration

The University wishes to assist students with legitimate difficulties. It also has the responsibility to ensure that degree, program and course requirements are met in a manner that is equitable to all students. Students may submit, in a prompt and timely manner, a Petition for Special Consideration to the Faculty/Program Office in those instances where a student acknowledges that the rules and regulations of the University have been applied fairly, but is requesting that an exception to the regulations be made because of special circumstances. Requests related to temporary or permanent disabilities, or for retroactive accommodations related to a disability are excluded from petitions and must be processed under the *Academic Accommodation of Students*

with *Disabilities* policy. Petitions should be submitted in a prompt and timely manner for the relevant term, but no later than July 31 immediately following the Fall/Winter Term or November 15 immediately following the Spring/Summer Term.

Two forms are available from your Faculty/Program Office:

Petition for Special Consideration (Form A):

The *Petition for Special Consideration (Form A)* is submitted for a variety of issues, including, when a student wishes to have a leave of absence or seeks to depart from University requirements based on compelling medical or personal reasons; or a student believes that an adverse ruling or decision about their academic performance, such as failing a course, or being required to withdraw from a program for failure to meet program requirements, should be waived because of compelling medical or personal circumstances. Requests related to temporary or permanent disabilities, or for retroactive accommodations related to a disability are excluded from petitions and must be processed under the *Academic Accommodation of Students with Disabilities* policy.

Petition for Special Consideration: Request for Deferred Examination (Form B):

The *Petition for Special Consideration: Request for Deferred Examination (Form B)* is used when a student misses an examination because of compelling medical or personal reasons. Requests related to temporary or permanent disabilities, or for retroactive accommodations related to a disability are excluded from petitions and must be processed under the *Academic Accommodation of Students with Disabilities* policy.

1. Once a student has completed an examination, no special consideration will be granted.
2. A student who misses an examination because of compelling medical or personal reasons may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) to the Faculty/Program Office, normally within five working days of the missed examination.
3. If the reason is medical, the approved McMaster University Medical Form must be used. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed exam and the doctor must verify the duration of the illness. Relief will not be available for minor illnesses. If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within five working days.
4. In deciding whether or not to grant a petition, the adequacy of the supporting documentation, including the timing in relation to the due date of the missed work and the degree of the student's incapacitation, will be taken into account.
5. It is the student's responsibility to check Mosaic Student Center > Deferred Exam Approvals or with the Faculty/Program Office for a decision on the request for a deferred examination. If the deferred examination is granted, the student will be informed officially by means of the notation DEF which will appear against the relevant course on the student's academic record and via Mosaic > Student Center > View My Grades.
6. Deferred examinations are written during the next official University deferred examination period. Default of the deferred examination will result in a fail for that examination.
7. Students who have been granted more than one deferred examination may be required by their Faculty/Program Office to reduce their course load during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the request for deferred examinations.
8. At the discretion of the Faculty/Program Office, students who have been

granted one or more deferred examinations, may not be allowed to enrol in a subsequent term until all deferred examinations have been completed and the Academic Standing calculated. Students will be notified of this decision by their Faculty/Program Office.

9. Students who will be living more than 160 kilometres from Hamilton during the deferred examination period and wish to write their approved deferred examination at an institution other than McMaster must submit a Request to Write Deferred Examination Off-campus Form at least 15 working days prior to the deferred examination period. Students are responsible for making arrangements for a presider to conduct the deferred examination at an outside institution and for paying any fees such as invigilation and return courier.
10. The authority to grant any petitions lies with the Faculty/Program Office and is discretionary. It is imperative that students make every effort to meet the originally-scheduled course requirements and it is a student's responsibility to write examinations as scheduled.

Decisions made on Petitions for Special Consideration are final. In accordance with the *Student Appeal Procedures*, decisions made on Petitions for Special Consideration cannot be appealed to the Senate Board for Student Appeals. However, should students believe that a decision may be a violation of their human rights, they may wish to contact the Equity and Inclusion Office to identify appropriate avenues of recourse as per the *Policy on Discrimination and Harassment: Prevention & Response*. Requests related to temporary or permanent disabilities, or for retroactive accommodations related to a disability, are excluded from Petitions for Special Consideration and, therefore, must be processed under the Academic Accommodation of Students with Disabilities policy.

Undergraduate Expectations for McMaster Vaccination Policy

The ongoing COVID-19 pandemic has resulted in unique infection risks and potentially serious health consequences. This academic regulation has been developed to comply with public health guidance and McMaster's Vaccination Policy.

In order to be/remain enrolled in a McMaster program, all undergraduate students are expected to provide proof that they are fully vaccinated or obtain an exemption from the University on the basis of substantiated human rights grounds. Students are encouraged to complete this process as soon as possible.

Students in clinical placements, cooperative work experiences or other external experiential course requirements *may* have to comply with additional external vaccination policies at their worksite or study site.

For Fall Term 2021:

1. All students will be required to visit the **MacCheck** digital tool to register their vaccination information as soon as possible. The deadline for submitting a request for exemption is September 19, 2021 at 11:59 p.m. EST.
2. Students who have uploaded proof of their vaccinations, or have received an exemption, will be able to complete their in-person classes in Fall Term 2021.
3. **Students must still complete the daily MacCheck screening 1 hour before accessing University property for any reason.** Successful screening results on MacCheck is required for any visit to campus for any reason.
4. Enrolment in the Fall Term 2021 in-person classes will be cross-checked between September 7 and October 18 to identify those students with

in-person course requirements who have not met the requirements of this vaccination policy.

5. After October 18th, students enrolled in any course with an in-person class section (including, but not limited to, lecture, lab, tutorial, etc.) where students must be present on University property and who have not completed their vaccinations or who have not received an exemption will be unenrolled from their Fall course(s) with an in-person component and multi-term courses. A student's required attendance on campus will be verified prior to proceeding with unenrollment.
 - a. Students who are unenrolled will receive tuition reimbursement for those course(s) and the course(s) will be removed from their transcript.
 - b. The University will contact the student and offer guidance on next steps.
 - c. Students will be encouraged to speak with an academic advisor (virtually) to discuss possible academic implications and future enrolment.
 - d. Students with OSAP will be encouraged to contact the Registrar's Office to understand any OSAP implications.
 - e. Students registered in courses delivered virtually or on-line will be permitted to complete those courses, however no access to University property will be allowed.
6. **Any student found to be in violation of the Vaccination Policy is prohibited from accessing University Property and may be subject to outcomes and/or sanctions under the *Code of Student Rights and Responsibilities*.**

For Winter Term 2022 and Onwards:

1. All students must upload proof of vaccination to the **MacCheck** digital tool or obtain a valid exemption by Oct. 17th at 11:59 p.m. EST. This applies even if students will not be on campus in the Fall Term. Students will be removed from all Winter Term 2022 and full-year courses if they have not satisfied this expectation by October 18, 2021.
2. Students will have access to virtual academic guidance for the remainder of the 2021/22 academic year regarding program progression that may include pausing or taking a leave of absence from the program or withdrawing from the program.

Requests for Relief for Missed Academic Term Work (MSAF)

The University recognizes that students periodically require relief from academic work for medical or other personal situations. Students seeking relief for missed academic term work are expected to read the **Senate Policy on Requests for Relief for Missed Academic Term Work** (if there is a discrepancy between the calendar copy and the approved Policy, the Policy prevails.) The Policy aims to manage these requests by taking into account the needs and obligations of students, instructors and administrators. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in their course. Any concerns regarding the granting of relief should be directed to the respective Faculty/Program Office.

The McMaster Student Absence Form (MSAF) is a Mosaic tool that:

- a) is used to allow students to submit Self-Report (Type A) requests for relief; and
- b) is used by Faculty/Program Offices for Administrative Report (Type B) requests to:

- manage requests for relief; and
- to communicate with students and instructors about these requests.

The MSAF is available in the MOSAIC Student Center (in the drop-down menu under *Other Academics*).

Self Report (Type A) requests for relief

- are for missed academic work worth **less than 25%** of the final grade, resulting from medical or personal situations **lasting up to three (3)**

calendar days;

- are made using the MSAF tool in Mosaic;
- may only be submitted once per Term;
- requires no supporting documentation; and
- apply only to work that is due within the period for which the request applies, i.e. the three (3) day period that is specified in the MSAF; however, all work due in that period can be covered by one request

An email will be sent to the course instructor(s) to inform them of the request. The instructor will determine the appropriate relief for the Self-Report (Type A) request. Students must immediately follow up with their instructor(s) after submitting the Self-Report (Type A) request. Failure to do so may negate the opportunity for relief.

Administrative Report (Type B) requests for relief

- are for medical or personal situations lasting more than three (3) calendar days; and/or
- are for missed academic work worth 25% or more of the final grade; and/or
- are for any request for relief in a Term where the MSAF tool has been used previously in that Term

Students must report to their Faculty/Program Office to discuss their situation and will be required to provide appropriate supporting documentation (see Documentation Requirements below). If warranted, the Faculty/Program Office will process the relief request and will notify the instructor(s) and student. The instructor will determine the appropriate relief for the Administrative Report (Type B) requests. Students must immediately follow up with their instructor(s) after being notified their request has been processed. Failure to do so may negate the opportunity for relief.

The Policy on Requests for Relief for Missed Academic Term Work cannot be used:

- for academic work that has already been completed or work that has been attempted (which includes the viewing and/or partial completion of on-line assessments (quizzes, tests, etc.);
- to seek an accommodation to meet religious, Indigenous or Spiritual Observances (see the Policy on Academic Accommodation for Religious, Indigenous and Spiritual Observances);
- to seek an accommodation related to a permanent or temporary disability, or a retroactive accommodation (see the policy Academic Accommodation of Students with Disabilities); or
- to apply for relief for any final examination or its equivalent (see Petitions for Special Consideration).

Documentation Requirements

If the reason for a request for relief is medical, the approved McMaster University Medical Form covering the relevant dates must be submitted. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed work and the doctor must verify the duration of the illness.

If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within three (3) business days.

In some circumstances, students may be advised to submit a Petition for Special Consideration (Form A) seeking relief for missed academic work.

Late Withdrawal

McMaster University provides a Late Withdrawal option to assist students who have become irretrievably behind in a course. Students who have fallen behind with assignments and/or are not prepared to write final examinations (or equivalent) in one or more courses are encouraged to make use of this option and must contact their Academic Advisor in the Faculty/Program Office.

Students will work with their Academic Advisor to discuss the situation and what steps they can take to prevent a recurrence.

The maximum number of units for which students may request a Late Withdrawal is 18 units throughout their undergraduate degree.

Students may request a Late Withdrawal, without petition, no later than the last day of classes in the relevant Term. However, it is important to note that:

- Requests for Late Withdrawal cannot be made in courses for which the final exam (or equivalent) has been attempted or completed. This also includes courses where a final grade has been assigned (e.g. clinical courses).
- Such requests will be cancelled or revoked if it is determined that the student attempted or completed the final exam (or equivalent).
- Students cannot use the Late Withdrawal option for courses in which they are under investigation or for which they have been found guilty of academic dishonesty.

Course(s) approved for Late Withdrawal will be:

- Assigned a non-numeric grade of LWD, in lieu of an alpha/numerical grade
- Excluded from the calculation of the GPA
- Ineligible for tuition refund

Approval of a late withdrawal is final, and requests to be re-enrolled in the withdrawn course(s) will not be considered. A withdrawal will not preclude students from enrolling in the course(s) in a subsequent term.

Examinations

(See also *Office of the Registrar (Examinations)*)

Examinations conducted by the Office of the Registrar will appear in the Mosaic Student Center and may be scheduled in the morning, afternoon, or evening, Monday through Sunday. Other instructor-scheduled tests and examinations may be held throughout each term in compliance with Academic Obligations: Restrictions.

Full details regarding examination procedures conducted by the Office of the Registrar are found in the Undergraduate Examinations Policy.

McMaster student photo identification cards are required at all examinations.

Examinations are not rescheduled for purposes of travel. Students must be available for the entire examination period as listed in the Sessional Dates section.

The Office of the Registrar will reschedule final examinations within the examination period for the reasons listed below. Application to reschedule examinations must be made at least 10 working days before the scheduled examination period. Failure to meet the stated deadline may result in the denial of the application.

- Conflict with religious obligations
- More than one examination scheduled at the same time
- Three examinations in one calendar day (midnight to midnight).
- Three consecutive examinations over two days (e.g., December 14th at 4:00 pm and 7:30 pm and December 15th at 9:00 am).

Students who miss a final examination for medical or personal reasons may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) to their Faculty/Program Office, normally within five working days of the missed examination.

Students who begin a final examination, but are unable to complete it for medical reasons, may submit a Petition for Special Consideration (Form A) to their Faculty/Program Office, normally within five working days of the examination.

Students with disabilities are required to inform Student Accessibility Services of accommodation needs for examinations on or before the last date for withdrawal from a course without failure by default. This allows sufficient time to verify and arrange appropriate accommodation.

Request to Write Deferred Examinations at an Off-Campus Location

Students living more than 160 kilometers from Hamilton during the deferred examination period and wishing to write their approved deferred examination at an institution other than McMaster must submit a Request to Write Deferred Examination Off-campus Form at least 15 working days prior to the deferred examination period.

If the deferred examination is written at an off-campus location, any fees incurred are the responsibility of the student. This includes the fee to courier the written examinations back to the Office of the Registrar, Scheduling and Examinations (GH 114).

For information regarding application for Deferred Examination, see *Petition for Special Consideration: Request for Deferred Examination (Form B)*.

Academic Evaluations

Numeric Grading System

The results of all courses attempted will appear on the transcript. The method for determining final grades will be given in the course outline. Unless otherwise specified in the course outline, course results determined on a percentage scale will be converted to an official letter grade, as indicated in the following equivalent percentage scale.

Grade	Equivalent Grade Point	Equivalent Percentages
A+	12	90-100
A	11	85-89
A-	10	80-84
B+	9	77-79
B	8	73-76
B-	7	70-72
C+	6	67-69
C	5	63-66
C-	4	60-62
D+	3	57-59
D	2	53-56
D-	1	50-52
F	0	0-49 - Failure

Non-Numeric Grades and Notations:

Non-Numeric Grades

AUD	Audit
CAN	Cancelled
COM	Complete
CR	Credit
F	Fail
INC	Incomplete
IP	In Progress
LWD	Late Withdrawal
MT	Multi-Term
NC	No Credit

NMR	No Mark Received
P	Pass
T	Transfer Credit
W	Withdrawn
XCH	Exchange

Notations

DEF	Deferred Examination
EXTRA	Extra credits not used towards degree
REPEAT	Repeat of a previously failed course (under discontinued repeat regulations)
(R)	Repeat of a previous course (under current repeat regulations)
UPGRADE	Repeat of a previously passed course (under discontinued repeat regulations)

WITHDRAWN

After the last day for enrolment and course changes, students may withdraw from courses until the last day to withdraw without failure by default. Withdrawn courses will be shown on the student's transcript with a grade of W. After the last day to withdraw without failure by default, the student will remain enrolled, whether or not they fulfil any further academic obligations, and a final grade will be assigned.

DEF

Courses with the notation DEF have been approved for a deferred examination.

EXTRA

Courses designated as "Extra" at the time of registration by the Faculty Office are not included as units toward completion of a student's program. The grades obtained in such courses will not be included in the computation of the Cumulative GPA. However, they will be included in the computation of the Fall-Winter Average and the Spring-Summer Average.

UNUSED

Courses designated as "Unused" cannot be used to fulfil the requirements for the student's current degree program. The grades obtained in such courses will be included in the computation of all averages.

GRADED UNITS

Graded units refer to the number of units taken at McMaster for which a letter or Numeric Grade is earned. Graded units do not include courses assessed with a Non-Numeric Grade.

PASS/FAIL COURSES

Courses evaluated on a Pass/Fail basis are not included in the calculation of averages. The earned units are counted towards degree requirements.

MULTI-TERM FALL/WINTER COURSES

Codes for multi-term Fall/Winter courses have an A/B suffix. Part A must always be taken in the Fall Term immediately preceding Part B. Neither Part A nor B of a multi-term course has academic credit independent of both parts being successfully completed. Students who drop or withdraw from Part A must also withdraw from B.

Upon completion of the Fall Term, a grade of MT indicating multi-term will be assigned to Part A and the final grade will be assigned to Part B.

CUMULATIVE GRADE POINT AVERAGE (CUMULATIVE GPA)

The Cumulative GPA is the weighted average based on the Graded Units taken throughout the undergraduate career. The Repeating Courses regulation, effective September 1, 2018, will affect the calculation of subsequent Cumulative GPA.

FALL-WINTER AVERAGE

The Fall-Winter Average is a weighted average based on the grades attained in the Fall and Winter Terms. Overload courses and Extra courses are included in the Fall-Winter Average.

SPRING-SUMMER AVERAGE

The Spring-Summer Average is a weighted average based on the grades attained in the Spring and Summer Term. Overload courses and Extra courses are included in the Spring-Summer Average.

TERM GRADE POINT AVERAGE (TERM GPA)

The Term GPA is a weighted average based on the Graded Units taken in the term.

WEIGHTED AVERAGE

Weighted average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totaling these results, and then dividing this result by the total number of course units.

Example of a weighted average calculation, using the grade points and units for courses attempted:

Grade	Grade Points		Units		Total Points
A-	10	x	6	=	60
C+	6	x	3	=	18
B	8	x	6	=	48
B+	9	x	3	=	27
F	0	x	6	=	0
		Total	24		153
			To calculate average: $153 \div 24 = 6.4$		

HONOUR LISTS

Students are reviewed for Deans' Honour Lists (DHL) and Provost's Honour List (PHL) each time a minimum of 30 units (with at least 24 graded units) have been completed. Subsequent assessments are based on all units completed since the previous review. Students will be named to the Deans' Honour List when a minimum average of 9.5 is achieved. Students will be named to the Provost's Honour List when an average of 12.0 is achieved.

WITH DISTINCTION

Graduation *With Distinction* standing is awarded when a minimum Cumulative GPA of 9.5 is achieved in a degree program. In this case, the Latin phrase *summa cum laude* ("with highest honour") will appear on the graduate's diploma.

TRANSCRIPTS

- transcript summarizes a student's academic career at McMaster University and is available by electronic request through Mosaic. Students may request a transcript upon demand and free of charge in the Office of the Registrar, Student Services, Gilmour Hall Room 108. Transcript requests will not be processed for students with outstanding financial accounts at the University or those under investigation for an academic integrity violation.

CREDENTIALS

- credential is a body of academic work or collection of course work that stands on its own and for which a parchment is issued. McMaster credentials include certificates, diplomas and degrees. A single course is permitted to be counted toward a maximum of two credentials.

MINORS

Students enrolled in a four- or five-level program (with the exception of the Medical Radiation Sciences programs) are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of their degree program. At least 18 units must be completed at McMaster. Students who wish to receive a Minor must consult the appropriate department section of the calendar. McMaster also offers *Interdisciplinary*

Minors and Thematic Areas. To apply for a Minor, students must complete the Minor/Certificate Application in addition to completing their profile in the graduation tile in Mosaic. The student's Faculty will verify that the requirements have been met and, if successful, the transcript will indicate that a Minor has been obtained. Minors cannot be revoked once approved.

OVERLOAD WORK

Students wishing to take more units than prescribed for their Level/program in the Fall-Winter Term or more than 12 units in the Spring-Summer Term (no more than 6 units in either session of that term) must seek permission from their Faculty/Program Office. Normally, a Fall-Winter Average of at least 7.0 in the immediately preceding review period will be required if an overload is to be permitted. Additional academic fees will be assessed for overload work.

OSAP ELIGIBLE COURSE LOAD

OSAP Eligible Course Load or equivalent refers to the 60% minimum course load per term (40% minimum course load per term for students with permanent disabilities) required to be eligible for full-time OSAP government student aid funding.

REPEATING COURSES

Effective September 1, 2018, students may repeat a course twice (i.e. attempt a course three times). Cross-listed courses count as attempts. Grades from every attempt will appear on the academic transcript. The Cumulative GPA will include only the grade earned on the most recent attempt. Units earned will be counted once toward the student's program requirements, regardless of the number of times the course is repeated. Prior to September 1, 2018 the grades from all attempts are included in the GPA calculation.

AUDITING COURSES

Students currently enrolled in a degree program wishing to audit a course must obtain approval from the course instructor and their Faculty/Program Office.

Additionally:

- course requisites must be met
- academic obligations (assignments, test, examinations, etc.) are not completed
- a grade of AUD (audit) will be assigned
- units will not be earned nor applied toward the student's program requirements
- tuition fees apply
- students will not be permitted to enrol for credit in the course after the Last Day for enrolment and course changes
- students enrolled in a course for credit will not be permitted to change the course to 'audit' after the Last Day for enrolment and course changes

Non-McMaster students wishing to audit a course must enrol as a Listener.

PERSONAL INTEREST COURSE (PIC)

McMaster University encourages interdisciplinary study and believes undergraduate studies provides an excellent opportunity to explore topics which are new and unfamiliar. Students, however, may be reluctant to take a course if they are unsure of their academic performance for fear of compromising their Cumulative GPA. The Personal Interest Course (PIC) option is designed to encourage students to explore interests outside of their program without affecting their Cumulative GPA.

- A student can declare a PIC to signify they want an elective course to be assessed on a *Credit or No Credit (CR/NC)* grading scale.
- To receive the grade of CR, the student must earn a final mark of at least 50%. Units earned from a successfully completed PIC will be counted in the units required for a student's degree as applicable.
- Courses with a final grade of NC do not count as degree credits or as failures, nor are they included in the GPA calculation or averages. Please note, government student aid (e.g., OSAP) will consider a NC grade as a failure.
- The PIC option is not available for any course that is considered a program requirement (which includes courses listed as possible required courses),

independent study, thesis, field study or placement course, or on a list of required courses. Students are responsible for ensuring the course is an elective course for their program. Engineering students should note the PIC option is available only for complementary studies electives. For students in a Bachelor of Commerce program, only non-Commerce electives may be taken as a PIC.

- Students may declare a maximum of 3 units of PIC per term to a maximum of 12 units per four- or five-level degree or a maximum of 9 units per three-level degree. A maximum of 6 units of PIC may be used to satisfy requirements toward a Minor.
- The PIC option is available to undergraduate students registered in a program above Level 1, with a Cumulative GPA of at least 3.5, who are enrolled in a Program/Faculty which is participating in the PIC option. Exchange students should seek advice from the International Study Office and Faculty/Program Office.

The PIC option is not available to students who

- are enrolled in the School of Medicine, or
 - are enrolled in a Program/Faculty which is not participating in the PIC option (see Faculty Academic Regulations), or
 - have graduated and are in a second degree or a non-degree program, e.g., continuing, etc.
- If a percentage grade in a course is required for future applications to graduate or professional school, the PIC option should not be selected for that course. Students may not subsequently request to have a PIC grade recalculated to a numeric grade. Students must carefully review any government (e.g., OSAP) and University aid and award eligibility rules which may be affected by the use of the PIC option.
 - If the student changes their program of study and a course taken as a PIC becomes a required course, the new Faculty/Program Office may accept the course grade of CR or NC or have the grade converted back into a numeric grade. If a grade is converted back into a numeric grade, there will be no retroactive reconsideration of aid and award.
 - Students cannot use the PIC option for courses in which they have been found guilty of academic dishonesty. In these cases, the grade will be converted into a numeric grade.

DEADLINES:

- Students must declare a course as a PIC on Mosaic by the last day for enrollment and course changes date. The student progresses in the course as per normal, and has the option to withdraw from the course as per the normal procedures and deadlines.
- If the student would rather keep the numeric grade, they must indicate the course is no longer a PIC on Mosaic by the final date in which a student can withdrawal from a course without failure by default and the numeric grade will appear on their transcript.

ACADEMIC STANDING REVIEW:

Each year in May and August (and after deferred examinations) academic standing is reviewed and determined for students who have:

- attempted at least 18 units of work since the last review, or
- may be eligible to graduate.

In the academic standing review, three determinations are made:

- whether a student may graduate
- whether a student may continue at the University
- whether a student may continue in a program.

ACADEMIC STANDINGS:

GOOD STANDING

- student who satisfies the minimum requirements to continue in their program without restriction.

MAY CONTINUE IN PROGRAM - ACADEMIC PROBATION

Academic probation is assigned when a student:

- achieves a Cumulative GPA between 3.0 and 3.4. If at any future academic standing review their Cumulative GPA falls below 3.5, the

academic standing assigned will be *May Not Continue at the University*.

- returns to studies after being Reinstated. If at any future academic standing review their Cumulative GPA falls below 3.5, the academic standing assigned will be *Required to Withdraw from the University*.

MAY CONTINUE IN PROGRAM - PROGRAM PROBATION

Program Probation is assigned when a student's Cumulative GPA falls below the minimum requirements to remain in their program. Failure to achieve *Good Standing* at the next academic standing review will result in their removal from the program. See Faculty specific *Minimum Requirements for Entering and Continuing in a Program Beyond Level 1*.

MAY NOT CONTINUE IN PROGRAM

This standing is assigned to:

- students who fail to achieve the minimum Cumulative GPA to remain in the program, or
- students previously on Program Probation who fail to achieve *Good Standing*.

To continue at the University, the student must apply to transfer to another program.

MAY NOT CONTINUE IN FACULTY

May Not Continue in Faculty is assigned when:

- a student enrolled in a program in the Faculty of Engineering or Business has achieved a Cumulative GPA between 3.0 and the minimum requirements to remain in their Faculty, or
- a student enrolled in a program in the Faculty of Business in Level 2 or above receives a grade of F in more than 6 units.

To continue at the University, the student must apply to transfer to another program or continue as a transition student for one reviewing period.

MAY NOT CONTINUE AT UNIVERSITY

May Not Continue at University is assigned when:

- a student achieves a Cumulative GPA below 3.0, or
- a student previously on Academic Probation fails to achieve *Good Standing*.

The student cannot enroll in courses at the University unless granted Reinstatement.

REQUIRED TO WITHDRAW FROM UNIVERSITY

- student who at any time received a standing of Academic Probation and at a future academic standing review achieves a Cumulative GPA below 3.5 will be required to withdraw from the University. The student will be unable to apply for Reinstatement for at least 12 months.

REINSTATEMENT

Students must contact the Office of the Registrar to apply for reinstatement within the application deadlines. Reinstatement is not guaranteed.

If reinstatement is granted, the student is placed on academic probation and their Cumulative GPA is re-set to 0.0 on zero units. At the discretion of the Faculty, the student may retain credit for courses successfully completed. If at any academic standing review after reinstatement the student's Cumulative GPA falls below 3.5, the student will be required to withdraw from the University.

The student must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation With Distinction or other recognition based on the Cumulative GPA.

Level 1 Registration and Academic Standing Requirements

When you are admitted to McMaster University for a first degree, you will enrol in one of the following Level 1 programs: Automation Engineering Technology I Co-op (B.Tech.), Automotive and Vehicle Engineering Technology I Co-op, Arts & Science I, Biotechnology I Co-op, Business I, Chemical and Physical Sciences Gateway, Computer Science I, Economics I (effective

2019-2020), Engineering I, Environmental and Earth Sciences Gateway, Health Sciences I, Honours Health and Society I (effective 2019-2020), Humanities 1, Honours Integrated Science (Level I), Honours Kinesiology (Level I), Integrated Biomedical Engineering and Health Sciences (IBEHS) I, Integrated Business & Humanities I, Life Sciences Gateway, Mathematics and Statistics Gateway, Medical Radiation Sciences (Level I), Midwifery I, Music 1, Nursing I, Process Automation Technology I, Social Sciences I, and Studio Art 1. If you enter the University without Advanced Standing being granted, you must normally attempt a full load of Level 1 work before proceeding to the work of higher levels.

If you are studying part-time, the Office of the Associate Dean has the discretion to permit you to take some of the work in the higher levels prior to having attempted the full load of Level 1. Decisions will be made on an individual basis, according to the special circumstances that apply in the particular case.

At any review during Level 1 before you complete the Level 1 work, as in the case of a part-time student, you must attain a GPA of at least 3.5 to continue at the University in good standing. If you attain a GPA of 3.0 to 3.4 you may remain at the University for one reviewing period, but will be placed on academic probation. You may be on academic probation only once during your University career. If your GPA is less than 3.0 you may not continue at the University.

At the review when you complete the Level 1 work, if you attain a GPA of at least 3.0 and have not previously been on academic probation, but fail to meet the admission requirements of any program, you may continue at the University for one additional reviewing period on academic probation. You will be enrolled in your original Faculty, and will be classified as a Level 1 transition student if your work may only qualify you to be considered for admission to a program in another Faculty. If, at the end of the next reviewing period, you again do not qualify for admission to a program, you may not continue at the University. If your GPA is less than 3.0 you may not continue at the University.

Students in Arts & Science I should refer to the Arts & Science Program regulations listed below.

Health Sciences I, Nursing I and Midwifery I students should refer to the program regulations listed in the Faculty of Health Sciences section in this Calendar.

Minimum Requirements for Entering and Continuing in a Program Beyond Level 1

Admission to the programs beyond Level 1 is based on performance in Level 1. You must meet both the minimum requirements to continue at the University, as described above, and program-specific requirements of each Faculty, as described in this Calendar.

Arts & Science Program

B.Arts Sc. (Honours) AND B.Arts Sc. Programs

You must have a Grade Point Average (GPA) of at least 6.0 to continue in the program. If your GPA is from 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once.

If your GPA is 3.5 to 5.4, you must transfer to another program for which you qualify, or enrol in the Arts & Science Program as a transition student for one reviewing period. During that period you cannot take Arts & Science Program courses. At the end of that period, you may apply for readmission to the Arts & Science Program.

If your GPA is 3.0 to 3.4, you will be placed on academic probation. You may

continue in the program for one reviewing period as a transition student but cannot take Arts & Science Program courses. The purpose of this period is to prepare yourself for a program outside the Arts & Science Program. You may be on academic probation only once.

If your GPA is less than 3.0 you may not continue at the University.

School of Business

Business I

For specific admission requirements to the Honours B.Com. program, see *Program Notes* under the heading *Programs* in the *DeGroot School of Business* section of this Calendar.

If you are not admitted to the Honours B.Com. program at the end of Business I, you have the following options available to you:

- If your cumulative Grade Point Average is 3.5 or greater, you are still in good standing at the University. You may continue at the University in a program outside the School of Business or as a *transition* student in Business. To continue in a program outside the School of Business you must apply for admission to that program through the Office of the Associate Dean appropriate for that program. You should consult that office for more details.
- If you are not admitted to another Faculty you may enrol in the School of Business as a transition student for one reviewing period. During that period you cannot take upper-level Commerce courses. The purpose of your registration as a transition student is to make yourself eligible for admission to a degree program. If you have a cumulative Grade Point Average of 3.0 to 3.4, you will be on academic probation and may continue at the University for one reviewing period as a transition student in the School of Business but will not be permitted to take any upper-level Commerce courses. The purpose of the probation period is to make yourself eligible for a degree program.

If you have a cumulative Grade Point Average of less than 3.0 at the end of Business I, you may not continue at the University either on a full-time or part-time basis.

Honours B.Com. Program:

You must have a cumulative Grade Point Average of at least 5.0 to continue in the Honours B.Com. Program. Once admitted to Honours B.Com., if your cumulative GPA is 4.5 to 4.9, you may continue in the Honours B.Com. Program, but will be placed on program probation. You may be on program probation for only one reviewing period. If your GPA is a 3.5 to 4.4, you may transfer to the B.Com. Program.

B.Com. Program:

You must have a cumulative Grade Point Average of at least 4.0 to continue in the B.Com. Program. If your GPA is 3.5 to 3.9, you are permitted to continue in the B.Com. Program on program probation for one reviewing period.

Integrated Business & Humanities:

To be admitted to Level 2 of the Integrated Business & Humanities (IBH) program, students must have completed at least 24 units of the required Level 1 courses with a minimum Cumulative Grade Point Average (GPA) of 5.0. In Level 2 and above, you must maintain a cumulative GPA of at least 5.0 to continue in the IBH program. If your cumulative GPA is 4.5 to 4.9, you may continue in the Integrated Business & Humanities program, but will be placed on program probation. You may be on program probation for only one reviewing period. If your cumulative GPA is a 3.5 to 4.4, you must transfer to another program for which you qualify, or enrol in the IBH program as a transition student for one reviewing period. During that period you cannot take IBH program courses. The purpose of this period is to prepare yourself

for a program outside the IBH program. If your GPA is 3.0 to 3.4, you will be placed on academic probation. You may continue in the program for one reviewing period as a transition student but cannot take IBH program courses. The purpose of this period is to prepare yourself for a program outside the IBH program. You may be on academic probation only once.

If your GPA is less than 3.0 you may not continue at the University.

Faculty of Engineering

B.Eng., B.A.Sc. Programs

Admission to Level 2 Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. In Level 2 and above, you must maintain a GPA of at least 4.0 to continue in an Engineering program or in an Honours Computer Science programs. If you have a GPA of 3.0 to 3.9, you may not continue in the Faculty. If your GPA is less than 3.0, you may not continue at the University.

B.Tech. Programs

For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Engineering section in this Calendar.

Faculty of Health Sciences

For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Health Sciences section in this Calendar.

Faculties of Humanities and Social Sciences

Honours B.A. Programs; B.Mus. (Honours) Program; BFA (Honours) Program

You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A. program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

Honours B.S.W., B.A./B.S.W. and B.S.W. Programs

You must have a Grade Point Average (GPA) of at least 6.0 to continue in an Honours B.S.W., B.A./B.S.W. or B.S.W. program. If your GPA is 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 5.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. Programs

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

Faculty of Science

Honours B.Sc. Programs

Students must have a Grade Point Average (GPA) of at least 5.0 to continue in and graduate from an Honours B.Sc. program. Students with a GPA between 4.5 to 4.9, may remain in the Honours B.Sc. program, but will be placed on program probation. Students may be on program probation for only one reviewing period. Students with a GPA between 3.0 to 4.4, must transfer to another program for which they qualify. Students with a GPA below 3.0 may not continue at the University.

Honours B.Sc. Kinesiology Program

Students must complete Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03) with a Grade Point Average (GPA) of at least 6.0 to continue onto Level II Honours Kinesiology.

If, upon completion of Level I Honours Kinesiology (including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03), students achieve a GPA between 5.5 and 5.9, they may enrol in Level II Honours Kinesiology but will be placed on program probation for one reviewing period. Students may be on program probation only once.

If, upon completion of Level I Honours Kinesiology, students who achieve a GPA between 3.5 and 5.4 and/or fail to successfully complete each of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03, may enrol in Level II Kinesiology General and take Level II required Kinesiology courses (for which all prerequisites have been met). At the next review, such students must achieve a GPA of at least 6.0 including, successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03, to transfer to the Honours Kinesiology program. Such students must attend a mandatory preregistration counselling session with an Academic Advisor. Students who fail to meet the minimum requirements for transfer to Honours Kinesiology, must transfer to a non-Kinesiology program for which they qualify. Students with a GPA between 3.0 to 3.4, must transfer to another program to which they qualify. Students with a GPA below 3.0 may not continue at the University.

B.Sc. Programs

Students must have a Grade Point Average (GPA) of at least 3.5 to continue in a three-level B.Sc. program. Students with a GPA between 3.0 to 3.4, may continue on academic probation for one reviewing period. Students may be on academic probation only once. Students with a GPA below 3.0 may not continue at the University.

Honours B.A.Sc. Programs

Students must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A.Sc. program. Students with a GPA between 4.5 to 4.9, may remain in the Honours B.A.Sc. program, but will be placed on program probation. Students may be on program probation for only one reviewing period. Students with a GPA between 3.0 to 4.4, must transfer to another program for which they qualify. Students with a GPA below 3.0 may not continue at the University. Graduation from an Honours B.A.Sc. program requires a Grade Point Average of at least 5.0.

M.R.Sc. Program

Students must complete all the course requirements prescribed for Level I Medical Radiation Sciences by the end of Winter Term of Level I, with a Grade Point Average (GPA) of at least 5.0 or permission of the Committee of Instruction (Chair Medical Radiation Sciences (Mohawk), Coordinator Medical Radiation Sciences (McMaster), Coordinator Radiation Therapy Specialization, Coordinator Radiography Specialization, Coordinator Ultrasonography Specialization). For additional program-specific regulations, see the School of

Interdisciplinary Science (SIS) in the Faculty of Science section of this Calendar.

Graduation

The following minimum Cumulative GPA are required to graduate:

- B.A. - 3.5
- B.A. (Honours) - 5.0
- B.S.W. (Honours), B.A. /B.S.W. and B.S.W. - 6.0
- B.Arts Sc. and B.Arts Sc. (Honours) - 5.0
- B.A.Sc. (Faculty of Engineering) - 4.0
- B.A.Sc. (Honours) (Faculty of Science) - 5.0
- B.Com. - 4.0
- B.Com. (Honours) - 5.0
- B.Eng., B.Eng.BME., B.Eng.Biosciences, B.Eng.Mgt., B.Eng.Society - 4.0
- B.F.A. (Honours) - 5.0
- B.H.Sc. - 3.5
- B.H.Sc. (Honours) - 5.0
- B.H.Sc. (Midwifery) - 6.0
- B.H.Sc. (Honours) (HESE Specialization) - 4.0
- B.M.R.Sc.*- 4.5
- B.Mus. (Honours) - 5.0
- B.Sc. - 3.5
- B.Sc. (Honours) - 5.0
- B.Sc.Kin. (Honours) - 5.0
- B.Sc.N. - 5.0
- B.Tech - 3.5
- *All requirements must be completed within five years from the time of registration in Level 2.*

Students who intend to graduate must complete their profile in the graduation tile in Mosaic by the appropriate deadline in their final term of study. Students wishing to graduate with a Minor must complete the application in the Minor/Certificate Application Centre.

Degrees will be conferred at the Convocation immediately following the completion of the degree. Students unable to attend the convocation ceremony who wish to attend a later ceremony should consult the *Policy on Deferral of Attendance at Convocation* and must contact the Office of the Registrar within the prescribed deadlines.

Parchments, Diplomas and Certificates

Diplomas will not be released to students with an outstanding financial account with the University. Diplomas are held for a period of 12 months following the Convocation date before being destroyed. Students requesting diplomas after this period are required to pay a replacement fee.

Graduates may request a duplicate or replacement degree parchment, diploma or certificate (fees apply). A duplicate copy will be issued when requested by a graduate or when the original document has been lost or destroyed.

The words *duplicate copy* or *reissued* will be affixed to all degree parchments, diplomas or certificates requested in this manner and will bear the signatures of the current Chancellor, President and Vice-Chancellor, and Registrar.

Damaged parchments must be returned to the Office of the Registrar before the new parchment, diploma or certificate is issued.

Senate Policy Statements

The University has defined its expectations of students in both the academic and non-academic life of the University community and has developed procedures to ensure that all members of the community receive equitable treatment. Policies that govern academic and student life at McMaster can be found on the University Secretariat's Policies, Procedures and Guidelines webpage at the following address: <https://secretariat.mcmaster.ca/>

[university-policies-procedures-guidelines/](#).

As policies are reviewed and revised on a regular basis, students are advised to check the *Policies, Procedures and Guidelines* webpage for the most up-to-date information (on the website select "students" in the Categories search field). Following are some of the policies most relevant to undergraduate students, available at the website above:

- Academic Accommodation of Students with Disabilities
- Academic Accommodation for Religious, Indigenous and Spiritual Observances (RISO)
- Academic Integrity Policy
- Alcohol Policy
- Code of Student Rights and Responsibilities
- Discrimination and Harassment Policy
- First Year Experience (Orientation and Transition) for Undergraduate Students, Policy
- Research Integrity Policy
- Residence Admissions Policies and Priorities
- Sexual Violence Policy
- Storm Emergency Policy
- Student Appeal Procedures
- Student Groups (Recognition, Risk Assessment and Event Planning), Policy on
- Tobacco & Smoke Free University Policy
- Undergraduate Course Management Policy
- Undergraduate Examination Policy
- University Aid and Awards Policy

Academic Integrity

The *Academic Integrity Policy* explains the expectations the University has of its scholars. Some departments and instructors have also developed more specific rules and regulations designed to maintain scholarly integrity. It is the responsibility of each instructor to make students aware of these expectations. The main purpose of a university is to encourage and facilitate the pursuit of knowledge and scholarship. The attainment of this purpose requires the individual integrity of all members of the University community, including all graduate and undergraduate students.

The University states unequivocally that it demands scholarly integrity from all its members. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University; furthermore, it is unfair and discouraging to those students who pursue their studies honestly.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. In an academic setting, this may include any number of forms such as:

- copying or the use of unauthorized aids in tests, examinations and laboratory reports,
- plagiarism, i.e., the submission of work that is not one's own or for which previous credit has been obtained, unless the previously submitted work was presented as such to the instructor of the second course and was deemed acceptable for credit by the instructor of that course,
- aiding and abetting another student's dishonesty,
- giving false information for the purposes of gaining admission or credit,
- giving false information for the purposes of obtaining deferred examinations or extension of deadlines, and
- forging or falsifying McMaster University documents.

For a complete definition and examples, please refer to the *Academic Integrity Policy*, Appendix 3. Students are encouraged to view:

www.mcmaster.ca/academicintegrity for further information on academic integrity and how to avoid academic dishonesty. Allegations of academic dishonesty will be handled according to the procedures described in the

Academic Integrity Policy. Penalties may be imposed on students who have been found guilty of academic dishonesty. Examples of penalties include a mark of zero on an assignment, zero for the course with a transcript notation, and suspension or expulsion from the University, etc.

Research Integrity

The *Research Integrity Policy* explains the expectations the University has of its institutional personnel to maintain research integrity.

One of the main purposes of a university is to encourage and facilitate the pursuit of research (e.g., an undertaking intended to extend knowledge through a disciplined inquiry or systematic investigation). The University states unequivocally that it demands research integrity from all of its members. Research misconduct, in whatever form, is ultimately destructive to the values of the University; furthermore, it is unfair and discouraging to those who conduct their research with integrity.

This Policy applies to all faculty, postdoctoral fellows, graduate students and undergraduate students taking part in research, directly or indirectly, and other research support staff (for complete definition of Institutional Personnel please see page 43 of the *Research Integrity Policy*).

All institutional personnel who are involved in research have a responsibility to report what they, in good faith, believe to be research misconduct. The Office of Academic Integrity is the appropriate office to receive concerns and questions regarding an allegation of research misconduct. Responsible allegations, or information related to responsible allegations, should be sent directly to the Office of Academic Integrity in writing.

For the complete definitions and examples, please refer to the *Research Integrity Policy*. www.mcmaster.ca/academicintegrity

Financial Information

Upon receiving official acceptance from the Registrar's Office and upon submission of registration, you are responsible for the payment of all fees as defined in this Calendar. Payment of academic fees does not imply your acceptance to the University. Academic requirements have to be fulfilled before your enrollment is completed.

If you are a new student, you may not forward academic fees to Financial Services until you have both: accepted your Offer of Admission before the stated deadline and enrolled in courses.

You should not send residence fees unless you have received notification of acceptance.

You are responsible for the full fees for each academic term. No fee credits can be transferred from one academic session to another.

It is the policy of the University not to accept enrolment until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

The following fees and regulations were the most recent available at the time of publication. All fees are subject to approval by the Board of Governors. For the most current fee information, please visit <https://registrar.mcmaster.ca/fees/>. The University reserves the right to amend the fees and regulations at any time.

For information on student awards and financial aid, please refer to Aid & Awards sections of this Calendar.

Undergraduate Fees

If you are a full-time student, fees cover your portion of the tuition cost, enrolment, library, campus health services, student organizations, and athletics, and are payable by all students.

No caution deposits are required, but students will be assessed for any unwarranted loss or breakage.

The University reserves the right to assess other supplementary fees or

charges in some courses or programs to recover - in part or in full - the cost of providing course materials, accommodation and transportation for field trips, and the costs of breakages.

Fees charged by the University are approved annually by the Board of Governors for the academic year beginning September 1.

Fees shown below are for 2022-2023. The fee schedules for 2022-2023 will be available on the Office of the Registrar website at <https://registrar.mcmaster.ca/fees/> in the spring of 2022.

Tuition fees include a base per unit fee plus mandatory non-tuition related supplementary fees.

Base Per Unit Tuition Per Faculty

Below is a breakdown of Canadian, International (new admissions for 2012-2013 onward). Fees shown below are for 2022-2023. The fee schedules for 2022-2023 will also be available on the Office of the Registrar website at <https://registrar.mcmaster.ca/fees/> in the spring of 2022.

Supplementary Fees

Fees shown below are for 2022-2023. The fee schedules for 2022-2023 will be available on the Office of the Registrar website at <https://registrar.mcmaster.ca/fees/> in the spring of 2022.

STUDENTS TAKING 1 TO 17 UNITS PAY (PER UNIT):

Academic Fee	\$2.58	
Career Services Fee	\$0.74	
Student Building Fee	\$0.39	
Athletics and Recreation Activity Fee	\$5.68	
Transcript, Letters, Tax Form & Certificates Fee	\$1.30	
Auxiliary Fee	\$0.70	
Basic Health Resources	\$2.38	
Handbook Fee	\$0.36	
Newsletter Fee	\$0.09	
Student Tax Returns	\$0.13	
Total Charge per unit	\$14.35	

Nursing Students Add:

Learning Resource Fee	\$9.75	
Communicable Disease Screening	\$30.15	
Respiratory Mask Fitting Fee	\$24.66	

STUDENTS TAKING 18 UNITS OR MORE PAY:

Students registered in 18 or more units at ANY time during the session (including cancelled courses) will be responsible for the following fees.

Student Service Fee	\$439.88
SOLAR Car	\$1.11
Ontario Public Interest Research Group (OPIRG)	\$5.50
Engineers Without Borders	\$0.41

Note: If you do not wish to support the work of McMaster OPIRG you can claim a full refund by bringing your student card to the OPIRG Office within three weeks after the completion of the drop and add period.

MCMMASTER STUDENT UNION FEES:

Student Organization Fee	\$138.38
Health Plan Premium*	\$104.76
Dental Plan Premium*	\$131.20
H.S.R. Bus Pass	\$238.37
WUSC Student Refugee Fee	\$1.70
Ancillary Fee for CFMU-FM	\$14.25
Incite Publication	\$1.10
McMaster Marching Band	\$1.03

***Note:** Students who can prove comparable coverage may opt out of the McMaster Students Union Health Plan and Dental Plan Premiums. For deadline dates and detailed information, students should consult the MSU Insurance Plans web site at <https://msumcmaster.ca/info/health-dental-insurance/opt-out/>.

PLUS:

- McMaster Student Union's University Student Centre Building fee (\$0.69 per unit), to a maximum of \$20.70
- Administrative Services Fee (\$1.30 per unit), to a maximum of \$39
- Athletics and Recreation Building Fee (\$8.17 per unit), to a maximum of \$243.00
- Student Wellness Centre of \$111.11
- Career Services - Student Success Centre of \$80.65
- University Athletics and Recreation Activity fee \$264.30

AND FACULTY SPECIFIC SOCIETY/SUPPORT FEES AS FOLLOWS:

Arts & Science	\$33.81
Bachelor of Health Sciences (Honours)	\$30.69
Commerce	\$204.16
Engineering	\$197.70
Humanities	\$60.49
Medical Radiation Science Collaborative Fee	\$160.78
Nursing	\$147.03
	If you're in full-time nursing, add \$175.51 (Nursing Learning Resource) to \$146.28. If part-time, multiple units enrolled by \$9.75 and add \$147.03.
Science	\$53.75
Social Sciences	\$67.16

Canadian Citizens, Landed Immigrant Students and Visa Students

The fee schedules for 2022-2023 will be available on the Office of the Registrar website at <https://registrar.mcmaster.ca/fees/>.

Student Health Services Fees

The McMaster Students Union Health Plan Premium fee of \$103.72 includes reimbursement of expenses resulting from an accident incurred during the academic year, where such expenses are not recoverable under the Ontario Health Insurance Plan. The McMaster Students Union Dental Plan Premium fee of \$129.90 provides a dental plan for all full-time undergraduates students enrolled in 18 units or more.

For details concerning coverage, contact the McMaster Students Union Office at ext. 22003 or visit their website at <https://msumcmaster.ca/info/health-dental-insurance/>

Note: Students who can prove comparable coverage may opt out of the McMaster Students Union Health Plan and Dental Plan Premiums. For deadline dates and detailed information, students should consult the MSU Insurance Plans web site at <https://msumcmaster.ca/info/health-dental-insurance/opt-out/>.

Co-op Fees

Co-op students attending the full academic term (September-April) should add a \$1,309.10 Co-op Fee to the regular 30 unit Science fee. Co-op students attending one academic term should pay half the 30 unit Science fee plus a \$654.55 Co-op Fee. Faculty of Engineering Admin Co-op Fee is \$100.00 and B-Tech Co-op Fee (per work term) is \$600.00.

Listeners

You may register as a Listener in some degree courses. The cost is equivalent to a regular course but the student simply audits the course and does not receive a grade. Listener status is not available in limited enrolment classes. For any degree course, written permission to attend must be obtained from the course instructor before registration is finalized by the Office of the Registrar. Listeners withdrawing from a course may do so without penalty up to five working days before the first session. After that and before the second class, an administrative fee of \$60.00 applies. There is no refund after the second class. This category excludes currently registered students, who may audit a course. See *Admission Requirements* section in this Calendar for details.

Persons Aged 65+

Subject to meeting admission and prerequisite requirements, if you will be aged 65 or over during the academic session for which you are enrolling, you may enrol without payment of tuition and supplementary fees.

Residence and Meal Plan Fees

Regular Session

If you live on campus, your residence fees cover the period, from Labour Day weekend to 5 p.m. on the day following your final April examination, and excludes the December holiday break.

The fees below are those for 2022-2023.

Add to the fees below the Residence Life Activity fee of 40.00 per student. For more information, visit <http://www.mcmaster.ca/residence-life.html>.

RESIDENCES

Residence (other than Apartment and Suite) - Single	\$8,700.00
Residence (other than Apartment and Suite) - Double	\$7,775.00
Residence (other than Apartment and Suite) - Triple	\$7,000.00
Residence (other than Apartment and Suite) - Quad	\$6,875.00
Residence (other than Apartment and Suite) - Single/Washroom	\$9,325.00
Residence (other than Apartment and Suite) - Double/Washroom	\$8,275.00
Residence (other than Apartment and Suite) - Single/Single-User Washroom	\$8,975.00
Residence (other than Apartment and Suite) - Double/Single-User Washroom	\$7,975.00
Apartment - 4/6 person (Single Room)	\$9,250.00
Apartment - 2 person (Double Room)	\$9,250.00
Suite - 4 person (Single Room)	\$9,625.00
Double/Connected Shared Washroom	\$8,675.00
Double Twin Bed/Connected Shared Washroom	\$8,375.00
Single/Connected Shared Washroom	\$9,425.00
Super Single/Connected Shared Washroom	\$9,625.00

MEAL PLANS

The Residence Meal Plan is an integral component of living in any of the McMaster University residences and all students living in residence must purchase a mandatory meal plan.

If you are living in a traditional residence, you must purchase a meal plan from Group A. Students living in Bates and the Mary E. Keyes Residence must purchase a meal plan from *either* Group A or Group B.

The fees below are those for 2022-2023.

GROUP A FULL MEAL PLAN (AVAILABLE TO ALL RESIDENCE STUDENTS)		GROUP B REDUCED MEAL PLAN (AVAILABLE TO BATES AND MARY E. KEYES RESIDENCE STUDENTS ONLY)	
Mandatory Meal Plan 1	\$4,595.00	Mandatory Meal Plan 1	\$3,175.00
Optional Meal Plan 2	\$4,795.00	Optional Meal Plan 2	\$3,375.00
Optional Meal Plan 3	\$4,995.00	Optional Meal Plan 3	\$3,575.00
Optional Meal Plan 4	\$5,195.00	Optional Meal Plan 4	\$3,775.00

For more information on meal plans visit our web page at <http://hospitality.mcmaster.ca/> or contact Mac Express, Commons Building, Room 128, telephone (905) 525 9140, ext. 27448, email express@mcmaster.ca.

For information regarding applying to residence visit the Housing web page at <http://housing.mcmaster.ca/> or contact Residence Admissions, Commons Building, Room 101, telephone (905) 525 9140, ext. 24342, email resnote@mcmaster.ca.

Summer Residence

McMaster University offers residence accommodation for summer students and casual guests from early May to late August each year.

For further information, contact Conference Services, McKay Residence, Room 124, telephone (905) 525-9140, ext. 24781.

Payment of Fees

Payment deadline dates:

Tuition fees are due in full on the following dates:

- Fall term - September 25 (for all students)
- Winter term - January 25 (for all students)
- Spring/Summer terms - May 25 (for all students)

For 2022-2023 dates, please visit Office of the Registrar: Fees web site at <https://registrar.mcmaster.ca/fees/>

Residence/Meal plan fees are due in full on the following dates:

- September 1 (September 22 for OSAP students)

Our web site at <https://registrar.mcmaster.ca/fees/> contains valuable information about your fees and important deadline dates.

Students who do not pay in full by the deadline dates provided in their account on MOSAIC will find balances subject to interest charges, late fees and in time, suspended privileges. Interest is charged at an annual rate of 14.4% (1.2% per month) subject to change. A full month's interest is calculated on any unpaid balance on the second-to-last working day of each month. Past-due balances are subject to collections activity.

In addition, if you refuse to pay fees, or any part of the fees, you may be refused admission to the University or you may be requested to withdraw with all privileges suspended. Fees to the date of withdrawal will be assessed. If you wish to re-register within the same academic session, you will also be assessed a \$100.00 reinstatement fee.

It is the policy of the University not to accept enrolment until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

You will not be eligible for any grades, examination results, transcripts, diplomas or the payment of awards of any kind, until fees and any other accounts owed to the University are paid in full.

Note: Graduands who have outstanding accounts with the University will be

permitted to attend convocation, but will not receive their diplomas until their accounts have been cleared in full.

Refunds

If you are forced, by illness or other personal reasons, to withdraw from courses, you will be charged a partial fee for courses that are cancelled. The charge is determined by the date on which the course is cancelled. It is important that you review the 2022-2023 cancellation schedule. It will be available on the Registrar's Office website at <https://registrar.mcmaster.ca/fees/> in the spring of 2022.

Miscellaneous Fees

The following fees were in effect for the 2022-2023 academic year, and are over and above assessed academic fees, supplementary fees, and residence fees and meal plan fees.

Academic User Fees

Applications for re-admission	\$100.00
Applications to Part-Time Studies	\$100.00
Certification of Enrolment Fee	No fee
Challenge of Credit	Equal to tuition
Diploma Delivery Fee (not charged for pick-up at University)	\$25.00
Examination Reread (Refunded if grade increases by 3 points)	\$50.00
Graduation Fee (Service) for those attending	\$45.00
Letter of Permission	No fee
Notarizing Fee (plus \$0.50 per page over 10 pages)	No fee
Replacement of Diploma	\$50.00
Verification of Student I.D. Card at Exams	\$30.00
Replacement of Student I.D. Card	\$30.00
Rush Transcript Fee (24 hour rush service)	\$15.00
External Exam Administration Fee	\$110.00
On Demand Transcript Request (immediate production of official transcripts)	\$20.00
Transcript per copy (students who are not covered under Service Fee agreements)	\$15.00
Supplementary Application Processing Fee	\$95.00

Students writing deferred examinations at another centre are responsible for payment of fees, which may be assessed by the other examination centre.

Financial/Administrative User Fees

Certificate Replacement Fee	
Income Tax Receipt/Education Credit Certificate	No fee
Certification of Fee Payment	No fee
Interest Charge on Unpaid Accounts - per month	1.20%
Meal Plan Withdrawal Fee	\$50.00
Meal Card Misuse Fine	\$25.00
Returned Cheque Charge (NSF, Stopped Payment)	
First Occurrence	\$55.00
Each Subsequent Occurrence (Additional)	\$15.00
Option to use Credit Card to pay Student Account	2.25%
Late Payment Fee - per term	\$75.00

Personal Cheque Handling Fee	\$15.00
Reinstatement Fee	\$100.00
Library Charges	
Overdue Recalled Books (per day)	\$5.00
Overdue Reserve Material (per hour)	\$5.00
Overdue multimedia equipment or room key (per hour). Daily maximum of \$250	\$20.00
Classroom audiovisual rental for data projectors and camcorders (per hour). Daily Maximum of \$65	\$25.00
Replacement Cost (up to); list of item costs will be posted for users	\$2,500.00
Non-refundable Administration fee for Replacement Cost	\$25.00

Expenses

COSTS OTHER THAN FEES FOR STUDENTS IN CLINICAL COURSES

You must buy uniforms, shoes and uniform accessories, for clinical practice. If you are a Nursing student, your uniform and accessories are ordered under the direction of the School of Nursing. The approximate cost is \$200.00. Level 1 Nursing students are also required to purchase a stethoscope at approximately \$100.00 and a basic blood pressure cuff at approximately \$40.00.

REGISTRATION EXAMINATIONS

Graduates of the B.Sc.N. program can expect to pay fees (currently, approximately \$600.00) to write the comprehensive registration examinations administered by the College of Nurses of Ontario.

INSURANCE OF PERSONAL PROPERTY ON UNIVERSITY PREMISES

The University cannot assume any responsibility for the personal property of any employees, faculty members, or students, nor does the University carry any insurance that would cover their personal property. In most cases, personal fire insurance policies provide an automatic 10% extension covering property away from home. You should inspect your insurance policies to be certain that this is the case.

DEATH AND DISMEMBERMENT INSURANCE

The University considers that the purchase of insurance coverage for death and dismemberment is the individual responsibility of its students. There are various insurance plans available, and although the University does not specifically endorse any one of these plans, it has no objection to explanatory brochures and literature being posted on bulletin boards or distributed in appropriate places. If you are involved in laboratory or field work, you are particularly encouraged to investigate such coverage.

COUNCIL OF INSTRUCTORS AS OF JANUARY 15, 2022

Arig al Shaibah (*Associate Vice-President, Equity and Inclusion*)

Alan Chen (*Physics and Astronomy*)

David Clark (*English and Cultural Studies*)

Daniel Coren (*Philosophy*)

Wendy D'Angelo (*Linguistics and Languages*)

Henry Giroux (*English and Cultural Studies*)

David Goutor (*Labour Studies*)

Megumi Harada (*Mathematics and Statistics*)

Roger Jacobs (*Biology*)

Stephen Jones (*Economics*)

P. Travis Kroeker (*Religious Studies*)

David Lozinski (*Mathematics and Statistics*)

Elizabeth Marquis (*Arts & Science; School of the Arts*)

P.K. Rangachari (*Medicine*)

Mat Savelli (*Health, Aging and Society*)

Jean Wilson (*Arts & Science; Linguistics and Languages*)

Adrienne Xavier (*Indigenous Studies*)

The Arts & Science Program provides students with a broad-based, liberal education. By means of electives, the Program also allows for substantial specialization in a particular discipline or area. The interdisciplinary Program has been designed for students who wish to further their intellectual growth through the study of significant achievements in both the arts and the sciences and through practice in methods of inquiry.

The integrated curriculum consists of courses offered by the Council of Instructors of the Arts & Science Program, together with other courses offered by departments across the University. The curriculum is designed to meet three major objectives:

1. to enable substantial work in both the arts and the sciences;
2. to develop skills in writing, speaking, and critical thinking;
3. to foster the art of scholarly inquiry into issues of public concern.

Meeting the last of these objectives is the particular aim of inquiry courses, which begin in Level I and continue in Upper Levels. To investigate with skill and insight a complex public issue, such as world population growth in relation to food supply, requires an understanding of the methods and findings of many disciplines; it calls on a liberal education. Moreover, acquiring skill in such investigations requires practice in formulating questions, searching out evidence, and bringing the insights of academic disciplines to bear on the interpretation of evidence.

The Program offers preparation for advanced study in many professional schools, including those of architecture, business, dentistry, health administration, journalism, law, medicine, and teaching; and for research in many disciplines and interdisciplinary areas.

Students in this program who wish to prepare for graduate study in an academic discipline should consult with the appropriate department concerning requirements. In general, preparation for graduate study may be accomplished by combining the core Honours Arts & Science curriculum with a concentration of electives in the intended area of graduate study. Combined Honours Programs, which are available in many subjects, combine the core curriculum of the Arts & Science Program with a prescribed set of courses in a subject and can be expected to satisfy course requirements for admission to graduate study in the particular subject.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

The Arts & Science Program is governed by the General Academic Regulations of the University, (See the General Academic Regulations section in this Calendar) and the regulations described below.

The Program begins in Level I and leads to the degree, Bachelor of Arts & Science (Honours) on completion of Level IV. The four-level program provides an opportunity for specialization through electives and through an individual study or thesis course.

Students who decide to conclude their studies in the program on completion of Level III may qualify to graduate with the degree, Bachelor of Arts & Science

(B.Arts Sc.). Students must have a GPA of at least 6.0 to continue in the program. In the case of some Combined Honours programs, the average must include specified courses.

Registration in Level I of the Arts & Science Program is limited to approximately 70 students.

INQUIRY SEMINAR REQUIREMENTS

Inquiry courses comprise ARTSSCI 1C06 A/B and a set of Upper-Level Inquiry seminars on a variety of topics. ARTSSCI 1C06 A/B must be completed in Level I. Nine units of Upper-Level Inquiry are required and are taken in Level III or IV.

COMBINED HONOURS PROGRAMS

Students in the Arts & Science Program may undertake Combined Honours Programs in many disciplines within the Faculties of Business, Engineering, Health Sciences, Humanities, Science, and Social Sciences. See *Arts & Science and Another Subject* for a list of combined programs that are already established. **On-line application for Admission to Level II (April) is required for all Combined Honours Programs.**

INDIVIDUAL STUDY/THESIS

Students in the B.Arts Sc. (Honours) Program are required to complete an individual study or thesis (ARTSSCI 4A06 A/B or 4C06 A/B). Students in many Combined Honours Programs are also required to complete an individual study or thesis, often through a course in the discipline of their Combined Honours Program (offered by the relevant department). Students should consult the Combined Honours Program description for specific requirements (<http://artsci.mcmaster.ca>).

For further information, please see *Academic Standing and Program Requirements* in the *General Academic Regulations* section in this Calendar.

INTERNATIONAL/CANADIAN EXCHANGE PROGRAMS

One calendar year before study abroad: Interested students should consult the Director, Arts & Science Program.

Calendar year of planned travel: No later than the end of December, students must propose a program of study for approval by the Director. Credit will be confirmed only after transcripts are received and academic achievements are reviewed on the student's return.

To be eligible for study abroad students must have completed 60 units with a GPA of at least 7.0. The B.Arts Sc. (three-year) degree is not granted on the basis of international study; the 30 final units of work must be done at McMaster.

Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services. Inquiries can be directed to the office at:

International Student Services

Gilmour Hall, Room 110

<https://studentsuccess.mcmaster.ca/international-students/>

Telephone: (905) 525-9140, extension 24254

Bachelor of Arts & Science (Honours)

COMBINED HONOURS PROGRAM IN ARTS & SCIENCE AND ANOTHER SUBJECT

Established Combined Honours Programs are listed below. Application for Admission to Level II (early-April) is required for all Combined Honours Programs. Combined Honours Program descriptions are available on the web (<http://artsci.mcmaster.ca>) or from the Arts & Science Program Office.

COMBINED HONOURS PROGRAMS, ARTS & SCIENCE AND:

<ul style="list-style-type: none"> • Anthropology • Art History • Biochemistry • Biology • Molecular Biology and Genetics • Business • Chemical Biology • Chemistry • Sustainable Chemistry • Classics • Communication Studies • Computer Science • Economics • English and Cultural Studies • Environment & Society • Environmental Sciences • French 	<ul style="list-style-type: none"> • Global Peace and Social Justice • Health and Society • History • Indigenous Studies • Linguistics • Mathematics • Media Arts • Music • Philosophy • Physics • Political Science • Psychology, Neuroscience & Behaviour • Psychology, Neuroscience & Behaviour (Music Cognition Specialization) • Society, Culture & Religion • Sociology • Theatre & Film Studies
---	--

HONOURS ARTS & SCIENCE (B.ARTS SC.)

NOTES

1. Nine units from the following list are required: ARTSSCI 3A06 A/B, 3B03, 3BB3, 3RL3/3S03. Students who choose to take ARTSSCI 3RL3 or 3S03 may only use one of those courses towards satisfying 3 units of the requirement. Students are encouraged, however, to take additional units from this list as an elective.
2. Nine units of Upper-Level Inquiry beyond Level I are required. Additional units of Upper-Level Inquiry may be included as an elective with the permission of the Director. Upper-Level Inquiry courses are: ARTSSCI 3CL3, 3CU3, 3EH3, 3GJ3, 3TR3, 4CB3, 4CD3, 4CF3, 4CI3, 4CP3, 4CT3, 4DS3, 4EP3, 4HS3, 4ST3, 4VC3.
3. Students who are planning to combine Arts & Science with Physics are strongly advised to take PHYSICS 1C03 and 1CC3 in Level I, in lieu of ARTSSCI 2D06 A/B in Level II.
4. Six units of individual study or thesis are required. Special permission may be granted to take 9 units (ARTSSCI 4A09 A/B, 4C09 A/B). Electives will be adjusted accordingly.

COURSE LIST 1

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

REQUIREMENTS

120 units total (Levels I-IV), of which 48 units may be Level I

24 UNITS

- ARTSSCI 1A03 - Practices of Knowledge
- ARTSSCI 1AA3 - Contemporary Indigenous Studies
- ARTSSCI 1B03 - Writing
- ARTSSCI 1BB3 - Argumentation
- ARTSSCI 1C06 A/B - Global Challenges Inquiry
- ARTSSCI 1D06 A/B - Calculus

6 UNITS

- Level I Electives

6 UNITS

- from *Course List 1* (requirement must be completed by the end of Level II)

18 UNITS

- ARTSSCI 2A06 A/B - Social and Political Thought
- ARTSSCI 2D06 A/B - Physics
- ARTSSCI 2E03 - Economics: Principles and Policy
- ARTSSCI 2R03 - Applied Statistical Inference

9 UNITS

from

- ARTSSCI 3A06 A/B - Literature
- ARTSSCI 3B03 - Technology and Society I
- ARTSSCI 3BB3 - Technology and Society II
- ARTSSCI 3RL3 - Religion and Law **OR**
- ARTSSCI 3S03 - The East Asian Religious Tradition

(See *Note 1*)

9 UNITS

- Upper-Level Inquiry (See *Note 2*)

6 UNITS

from

- ARTSSCI 4A06 A/B - Individual Study
- ARTSSCI 4C06 A/B - Thesis

(See *Note 4*)

42 UNITS

- Electives

Faculty of Business Degree Programs

HONOURS BACHELOR OF COMMERCE PROGRAM

The Honours Bachelor of Commerce (B.Com. (Honours)) requires the completion of 120 units, including specific courses from each level of the program.

The Honours Bachelor of Commerce allows substantial concentration in business subjects beyond the essential core of studies. Students must apply and qualify for the Honours Bachelor of Commerce program. Please see the admission requirements below to qualify for the Honours Bachelor of Commerce program listed for each year of entry.

HONOURS BACHELOR OF COMMERCE PROGRAM WITH INTERNSHIP

The Honours Bachelor of Commerce with Internship, B.Com. (Honours), requires the completion of 120 units, including specific courses from each level of the program and successful completion of an approved 12-16 month full-time internship. Enrolment in this program is limited and admission occurs following Level II. The internship is designed to provide students with an opportunity to engage in a career-oriented work experience with one host employer, following their third year of study, for a period of 12 - 16 months. Students compete for opportunities with participating employers through multiple recruitment cycles facilitated by Career & Professional Development office.

BACHELOR OF COMMERCE PROGRAM

The Bachelor of Commerce program requires the successful completion of 120 units, including specific courses from each level of the program. The Bachelor of Commerce program provides students with the same core business courses as the Honours Bachelor of Commerce, but focuses elective work on courses outside of the business discipline and Faculty.

INTEGRATED BUSINESS AND HUMANITIES PROGRAM

The Integrated Business & Humanities program leads to an Honours Bachelor of Commerce degree. Students will be exposed to a variety of learning opportunities via coursework and co-curricular activities, with an emphasis on responsible leadership and management tactics for the changing global economy. The program also focuses on community engagement and sustainable business practices. The Integrated Business & Humanities program

is a limited enrolment program and students begin the program in their first year of studies.

INTEGRATED BUSINESS AND HUMANITIES PROGRAM WITH INTERNSHIP

The Integrated Business & Humanities program leads to an Honours Bachelor of Commerce degree and requires the completion of 120 units, including specific courses from each level of the program and successful completion of an approved 12-16 month full-time internship. Enrolment in this program is limited and occurs following Level II. The internship is designed to provide students with an opportunity to engage in a career-oriented work experience with one host employer, following their third year of study, for a period of 12 - 16 months. Students compete for opportunities with participating employers through multiple recruitment cycles facilitated by Career & Professional Development office.

ENGINEERING AND MANAGEMENT PROGRAMS

In addition, the School of Business and the Faculty of Engineering offer nine five-level joint programs for the Bachelor of Engineering and Management (B.Eng.Mgt.) degree.

For the **Honours Arts & Science and Business program (B.Arts.Sc.)**, see *Arts & Science Program*.

For the **Certificate in Business Technology Management (BTM)**, see *Certificates and Diplomas: Concurrent Certificates*.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in the DeGroote School of Business, in addition to meeting the General Academic Regulations of the University, shall be subject to additional Faculty Regulations.

Change of Program

Business students may be permitted to transfer between programs, or students in other Faculties may apply to transfer to a program in the Faculty of Business, provided they have obtained a GPA of at least 5.0 and have completed the necessary admission requirements as described on the Faculty undergraduate website. However, students cannot transfer into the Honours Bachelor of

Commerce with Internship Program nor either of the Integrated Business and Humanities programs.

Exchange Programs

There are a number of official exchange programs offered to undergraduate students registered in the School of Business. The countries involved include Australia, China, Denmark, France, Germany, Japan, the Netherlands, New Zealand, Norway, India, Ireland, Mexico, Singapore, and the United Kingdom. Official exchange programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign student fees by paying fees to McMaster. All students must be in good standing with a cumulative Grade Point Average of at least 7.0 to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for Level III of their program. Students are only permitted to take one exchange opportunity, regardless of whether it is a one or two term exchange. Information is available from the Student Experience - Academic Office, DeGroot School of Business, Room A102.

Additional information may be found under *International Study* in the *General Academic Regulations* section of this Calendar.

Inquiries can be directed to the office at:

Student Success Centre

Gilmour Hall, Room 110

Telephone: (905) 525-9140, extension 24254

<https://studentsuccess.mcmaster.ca/global-opportunities/study-abroad>

International/Cross-Cultural/Language Menu for Students in the Honours Bachelor of Commerce and Bachelor of Commerce Programs

The School of Business emphasizes the importance of breadth of knowledge. Students who entered Business I prior to September 2020 are required to take courses in a variety of business disciplines, thus giving them a sound understanding of business functions and their relationships. They also obtain exposure to international and cross-cultural issues. This will provide them with the knowledge needed for the world of global organizations. Prior to graduation, students who entered prior to September 2020 are required to successfully complete **two courses** from an International/Cross-Cultural/Language menu. **Note:** Students who participate in an official McMaster University exchange are required to successfully complete one course from an International/Cross-Cultural/Language menu prior to graduation. Students must satisfy the normal prerequisites for the courses listed on the menu. Students follow the menu requirements of the Calendar in force when they enter Business I, however, when a later Calendar expands the menu options, students may choose from those additional courses as well.

The menu for 2022-2023 is as follows:

- All Anthropology courses
- All courses in the Faculty of Humanities open to Commerce students, with the exception of all Multimedia courses, PHILOS 2N03 and English courses other than those listed below.
- All Indigenous Studies courses
- All Political Science courses, except POLSCI 4006 A/B
- All Religious Studies courses
- All Society, Culture & Religion (SCAR) courses
- CSCT 1CS3
- ECON 3H03 - International Monetary Economics
- ECON 3HH3 - International Trade
- ECON 3T03 - Economic Development
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- ENGLISH 2C03 - Contemporary Canadian Fiction
- ENGLISH 3D03 - Science Fiction

- ENGLISH 3EE3 - African American Literature
- ENGLISH 3Y03 - Children's Literature
- ENVSOCTY 1HA3 - Society, Culture and Environment (or GEOG 1HA3)
- ENVSOCTY 1HB3 - Population, Cities and Development (or GEOG 1HB3)
- ENVSOCTY 3RW3 - Regional Geography of a Selected World Region (or GEOG 3RW3)
- ENVSOCTY 3UR3 - Urban Social Geography (or GEOG 3UR3)
- SOCIOL 3Z03
- All courses included under the *Minor in Global Peace and Social Justice* (offered by the Faculty of Humanities)

CONTINUING STUDENTS

Graduates of a DeGroot undergraduate Business program, or one of the Engineering and Management programs may take, as part-time students, Commerce courses (to a maximum of 18 units), subject to space availability.

SECOND UNDERGRADUATE DEGREE

A student with an undergraduate degree will not be admitted or readmitted to any DeGroot undergraduate program. Such a student may wish to apply for admission to the M.B.A. program.

CREDIT TOWARDS PROFESSIONAL DESIGNATIONS

Educational requirements toward professional designations can be met in varying degrees within the Honours and non-Honours Bachelor of Commerce programs, as well as the Engineering and Management programs. The professional accounting designation Chartered Professional Accountant (C.P.A.) is awarded by the Chartered Professional Accountants of Ontario. The designation C.H.R.P. is awarded by the Human Resources Professionals Association. Further opportunities for meeting educational requirements for professional designations are available to students in all Business and Engineering and Management programs. Additional course work may be taken while in the program provided the student is satisfying all course requirements for their degree. Further units of credit may also be taken after graduation (See *Continuing Students* above.). Information concerning credit towards these professional designations can be obtained from the Student Experience - Academic Office in the School of Business (DSB A102).

MINOR

A Minor is an option available to a student enrolled in a four- or five-level program. A Minor consists of at least 18 units of Level II, III or IV courses beyond the designated Level I course(s) that meet the requirements set out in the program description of that Minor. A student is responsible for ensuring that the courses taken fulfill these requirements. Those who have completed the necessary courses may apply for recognition of that Minor when they graduate. If recognition is granted for a Minor, a notation to that effect will be recorded on the student's transcript. For further information, please refer to *Minors* in the *General Academic Regulations* section of this Calendar.

QUALIFYING FOR THE HONOURS BACHELOR OF COMMERCE PROGRAM (FOR STUDENTS ENTERING BUSINESS I IN SEPTEMBER 2020 OR LATER)

To be considered for entry to the Honours Commerce program, students must have successfully completed Business I (as described in the *Program Notes for Students who Enter Business I in 2020 or Later*) with a cumulative Grade Point Average of at least 5.0.

QUALIFYING FOR THE HONOURS BACHELOR OF COMMERCE PROGRAM (FOR STUDENTS ENTERING BUSINESS I IN SEPTEMBER 2016-2019)

To be considered for entry to the Honours Commerce program, students must have successfully completed Business I (as described in the *Program Notes for Students who Enter Business I in 2016-2019*) with a cumulative Grade Point Average of at least 5.0.

WORKLOAD

A full-time student must complete minimum 9-unit load in each Fall and Winter term. Advance credit and credit earned during the Spring/Summer term may not be used to reduce this load requirement. Such reductions will be applied as late as possible in a student's program.

Students who wish to take more courses than recommended for a single Level

of their program may do so only if their Fall-Winter Average in the immediately preceding review period is at least 7.0. Students registered in the final Level of their program are permitted to overload by up to six additional units during the Fall and Winter terms, with **no more than three units of overload per term**, in order to become eligible to graduate.

DEFERRED EXAMINATIONS

See the heading *Deferred Examinations* under *Examinations* in the *General Academic Regulations* section of the Calendar for application procedures.

Students who are in a precarious position with respect to achieving the minimum GPA or otherwise meeting the Commerce program requirements for continuation in the program will not necessarily be permitted to undertake further work before clearing deferred examinations.

LEVEL I COURSES

Students are not permitted to take more than 48 units of Level I courses in their program.

LEVEL OF REGISTRATION

A student enrolled in a program in the Faculty of Business is required to register in the lowest level for which more than six units of work is incomplete. Work of the next higher level may be undertaken only when necessary to fill a program load.

READMISSION

A student in Level II, III or IV of an undergraduate Business program, who becomes ineligible to continue in the School of Business, may apply for readmission to their respective program in a subsequent calendar year up to a maximum of five years following the year in which the student becomes ineligible to continue. **Readmission is not guaranteed.**

Application for readmission must be made in writing to the Undergraduate Recruitment, Admissions, and Student Affairs Committee by June 30 for entry in September. This application should explain why the applicant would expect to succeed in the program if readmitted. Forms for this purpose may be obtained from the Student Experience - Academic Office in the DeGroot School of Business, Room A102.

A student who is readmitted after having become ineligible to continue in an undergraduate Business program must repeat all the courses of the level at which they became ineligible to continue unless specific course exemptions or credits are granted. The earliest possible term for readmission is the term starting in September of the year following the year in which the student became ineligible to continue.

Former undergraduate Business program students who have not been registered in an undergraduate Business program within the past five years, including those who were in good standing at the time of their most recent registration, must apply for readmission through the Office of the Registrar.

REINSTATEMENT

BUSINESS I

A student who May Not Continue at the University may apply for reinstatement.

There are two categories of students who may apply for reinstatement to Business I:

1. Applicants who have been registered in Business I within the past five years, have exceptional or extraordinary circumstances that affected their performance*, and have not been registered in another McMaster program or at another University during that time, or
2. Applicants from other Faculties.

INTEGRATED BUSINESS & HUMANITIES I

An IBH student who May Not Continue at the University may apply for reinstatement.

Applicants must have been registered in IBH I within the past five years, have exceptional or extraordinary circumstances that affected their performance*, and have not been registered in another McMaster program or at another University during that time.

Students seeking reinstatement must complete the Reinstatement Request

Form available at the Office of the Registrar. The completed form and the \$100 fee must be submitted to the Office of the Registrar by June 30 for entry in September.

*The application must clearly demonstrate extraordinary circumstances which caused inadequate performance and indicate whether the circumstances surrounding their academic situation have been resolved. The application should also include relevant supporting documentation. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation. Such exceptional cases will be considered on their merit. **Reinstatement is not guaranteed.**

Upon reinstatement, the Grade Point Average for a student is reset to 0.0 on zero units. If at any review after reinstatement the student's cumulative Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

FORMER STUDENTS FROM THE FACULTY OF BUSINESS

A student who was previously registered in a DeGroot undergraduate Business program, was in good standing and did not attend in the preceding year, but did attend another post-secondary institution must write to the Student Experience - Academic Office to seek readmission. The letter should describe the student's activities (academic and otherwise) since they were last registered.

If five years have passed since the student was last registered at McMaster, they should consult the heading *Readmission* in the *Admission Requirements* section of this Calendar.

INQUIRIES REGARDING ACADEMIC REGULATIONS

A student seeking relief from the School of Business academic regulations must apply in writing to the Undergraduate Recruitment, Admissions, and Student Affairs Committee with appropriate documentation attached.

Guidelines for such requests may be obtained from the Student Experience - Academic Office, in the DeGroot School of Business, Room A102.

A. Programs for Students who Enter Business I in September 2021 or Later

PROGRAM NOTES

1. For entry into the Honours Commerce Program, a Business 1, student:
 - Must have a Grade Point Average (GPA) of at least 5.0
 - Must have passed a minimum of 24 units of course work for Business I
 - Must have attempted all required courses of the Business I program
 - Cannot have failed more than one required course or have more than six units of failure
 - May repeat failed courses in order to qualify for Level II. Please refer to the McMaster Repeat Policy.
2. Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 and should refer to the *Faculty of Science* section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1MM3.
3. Transfer students may be admitted from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
4. Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course code the student has enrolled under.
5. Non-Commerce students may enrol in specific upper-year Commerce courses if they have been accepted into a Specialized Minor offered by the Faculty of Business or can demonstrate that they are pursuing an *Interdisciplinary Minor* for which the specific Commerce courses are

included.

BUSINESS I

LEVEL I: 30 UNITS

Students admitted to Business I must complete 30 units as follows:

1 course

- COMMERCE 1GR0 A/B - DeGroote Student Experience and Development I

15 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1DA3 - Business Data Analytics
- COMMERCE 1E03 - Business Environment and Organization
- COMMERCE 1MA3 - Introduction to Marketing

6 units

- ECON 1B03 - Introductory Microeconomics (or ECON 1BX3)
- ECON 1BB3 - Introductory Macroeconomics

3 units

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1MM3 - Applied Calculus

(See *Program Note 2* regarding the Minor in Mathematics.)

6 units

- Non-Commerce electives to total 30 units

HONOURS COMMERCE

Requirements for continuation in the Honours B.Com. Program are specified in the *General Academic Regulations* section of this Calendar.

Students who are currently registered in this program should refer to their advisement reports in Mosaic Student Centre or contact the Student Experience - Academic Office (DSB-A102) to discuss their program requirements.

REQUIREMENTS

Level II: 30 Units

1 course

- COMMERCE 2GR0 - DeGroote Student Experience and Development II

24 units

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2DA3 - Decision Making with Analytics
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2FB3 - Managerial Finance
- COMMERCE 2KA3 - Information Systems in Management
- COMMERCE 2NG3 - Negotiations
- COMMERCE 2OC3 - Operations Management

6 units

- Electives from non-Commerce courses

Level III: 30 Units

1 course

- COMMERCE 3GR0 - DeGroote Student Experience and Development III

3 units

- COMMERCE 3MC3 - Applied Marketing Management

12 units

- Electives from Commerce courses

6 units

- Electives from non-Commerce courses

9 units

- Open electives

Level IV: 30 Units

9 units

- COMMERCE 4GR3 - DeGroote Student Experience and Development IV
- COMMERCE 4PA3 - Business Policy: Strategic Management
- COMMERCE 4SA3 - International Business

6 units

- Electives from non-Commerce courses

15 units

- Open electives

HONOURS COMMERCE WITH INTERNSHIP

ADMISSION

Enrolment in this program is limited. Applications for admission into the Honours B.Com. with Internship will be accepted at the end of the Spring/Summer term and prior to the start of the Fall term (specific deadline dates will vary each year and will be communicated in the Undergraduate Faculty of Business Bulletin, OSCARplus and on DeGroote's website).

Only full-time Honours B.Com. students in good standing with a minimum cumulative Grade Point Average of 7.0 at the time of application, who have completed all Level II required courses (and who will have at least 18 units of course work left to complete following their internship) and have passed COMMERCE 2IN0 - Career Development Course, will be eligible to apply for the Honours B.Com. with Internship degree program. Selection into the program will be based on academic achievement, statement of interest, work and volunteer experience and interview.

PROGRAM NOTES

1. To remain in the Honours B.Com. with Internship program, students must maintain a cumulative Grade Point Average of 7.0, and remain in good academic standing.
2. Only students completing an approved 16-month internship will enroll in COMMERCE 4IC0.
3. Students should refer to the table below to plan their enrolment for their work term.

Work Term	Spring/ Summer	Fall	Winter	Spring/ Summer
16-month	COMMERCE 4IA0	COMMERCE 4IB0	COMMERCE 4IC0	COMMERCE 4ID0
12-month beginning Spring term	COMMERCE 4IA0	COMMERCE 4IB0	COMMERCE 4ID0	-

B. Programs for Students who Entered Business I in September 2020

PROGRAM NOTES

- To be considered for entry into the Honours Commerce Program, a Business I student must have met all of the following:
 - achieved a GPA of at least 5.0 on a minimum of 24 units of course work for Business I and these must include all required courses of the Business I program;
 - successfully completed all Business I required courses (See Business

I Requirements). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;

- successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
- Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.
 - Transfer students may be admitted from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
 - Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
 - Non-Commerce students may enrol in specific upper-year Commerce courses if they have been accepted into a Specialized Minor offered by the Faculty of Business or can demonstrate that they are pursuing an interdisciplinary minor for which the specific Commerce courses are included.

C. Programs for Students who Entered Business I in September 2016-2019**PROGRAM NOTES**

1. Students have only one opportunity to be reviewed for entry to a Commerce program. Other options may be pursued through the Student Experience - Academic Office (DSB-112).
2. To be considered for entry into the Honours Commerce Program, a Business I student must have met all of the following:
 - achieved a GPA of at least 5.0 on a minimum of 24 units of course work for Business I (on first attempts only) and these must include all required courses of the Business I program;
 - successfully completed, on first attempts only, all Business I required courses (See *Business I Requirements*). An exception to this condition is that no more than a single failure of a Business I required course is allowed for students with a GPA of at least 5.0 on a minimum of 24 units of course work for Business I. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program;
 - successfully completed ALL required units of Business I course work and successfully completed enough units of elective course work where the total of successful units of course work equals 24 units.
3. Refer to Workload under the Academic Regulations section in the School of Business for information on full-time and part-time Business I course loads.
4. Students seeking a Minor in Mathematics and Statistics must take MATH 1A03 (or 1LS3) and should refer to the Faculty of Science section of this Calendar for the requirements for a Minor in Mathematics and Statistics. Students neither seeking this Minor nor planning on a transfer to the Faculty of Science, are advised to take MATH 1M03.
5. Transfer students may be admitted from other universities or from other Faculties within McMaster University. Academic requirements for admission of transfer students will be more demanding than those for Business I students.
6. Courses that are cross-listed with Commerce courses are considered Commerce electives for the purposes of fulfilling program requirements. This is the case regardless of the course-code the student has enrolled under.
7. Students who have been granted Faculty permission to take COMMERCE

4EL3 in Level III Commerce will have this course applied against the program requirements for Level IV Commerce as three of the six required units of Level III or IV Commerce courses. See the *DeGroot School of Business (Faculty of Business)* program requirements section of this calendar.

BUSINESS I**LEVEL I: 30 UNITS**

Students admitted to Business I must complete 30 units as follows:

1 course

- COMMERCE 1DE0 - Business I Orientation

9 units

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1E03 - Business Environment and Organization

6 units

- ECON 1B03 - Introductory Microeconomics

Integrated Business & Humanities Program (IBH Program) in 2022 or Later

On this page:

- Integrated Business and Humanities
- Integrated Business and Humanities with Internship Program

INTEGRATED BUSINESS AND HUMANITIES

PROGRAM NOTES

1. Students cannot take elective work until Level III of the program.
 2. Students have only one opportunity to be reviewed for entry to Level II. Other options may be pursued through the Student Experience - Academic Office.
 3. To be considered for entry into Level II of the IBH Program, students must have met all of the following:
 - achieved a cumulative GPA of at least 5.0 on a minimum of 24 units of the required course work for Level I (on first attempts only).
 - cannot have failed more than one required course. These students must successfully complete the failed course at the earliest possible opportunity or they will not be able to continue in the program.
1. Students are responsible for ensuring that their course selection is meeting the requirements of their degree.

REQUIREMENTS

Level I: 30 Units

1 course

- IBH 1LD0 - Leadership Development - Self Awareness

24 units

- IBH 1AA3 - Financial Accounting
- IBH 1AB3 - Perspectives on Canadian Business
- IBH 1AC3 - Introduction to Language and Society
- IBH 1AD3 - IBH in the Community
- IBH 1BA3 - Leadership Coaching 1
- IBH 1BB3 - Insight and Inquiry: Questions to Change the World
- IBH 1BC3 - Fundamentals of Ethics
- IBH 1BD3 - Introduction to Peace Studies for IBH

6 units

- ECON 1BB3 - Introductory Macroeconomics
- ECON 1B03 - Introductory Microeconomics

Level II: 30 Units

1 course

- IBH 2LD0 - Leadership Development - Leadership Emergence

30 units

- IBH 2AA3 - Introduction to Marketing
- IBH 2AB3 - Information Systems in Management
- IBH 2AC3 - Talent Management
- IBH 2AD3 - Statistical Data Analysis
- IBH 2AE3 - Critical Thinking
- IBH 2AF3 - Global Business Experience
- IBH 2BA3 - Managerial Accounting
- IBH 2BB3 - Introduction to Finance
- IBH 2BD3 - Moral Issues
- IBH 2BF3 - History of Capitalism

Level III: 30 Units

1 course

- IBH 3LD0 - Leadership Development - Leadership Effectiveness

27 units

- IBH 3AA3 - Relationship Management
- IBH 3AB3 - Applied Marketing Management
- IBH 3AC3 - Corporate Finance
- IBH 3AD3 - Cross-Cultural Communication

- IBH 3BA3 - Understanding Entrepreneurship and Social Entrepreneurship From a Historical and Theoretical Lens
- IBH 3BB3 - Organizational Strategy
- IBH 3BC3 - Poverty, Privilege and Protest in Canadian History
- IBH 3BD3 - Interpersonal Communication
- IBH 3BE3 - Operations Management

3 units

- Open electives

Level IV: 30 Units

1 course

- IBH 4LD0 - Leadership Development - Leadership Capstone

12 units

- IBH 4AA3 - Leadership: Fostering Effective Communication Through Visual Literacy
- IBH 4AB6 A/B - Social Entrepreneurship Capstone
- IBH 4BA3 - Leadership Effectiveness: Building Personal and Organizational Success

18 units

- Open electives

INTEGRATED BUSINESS AND HUMANITIES WITH INTERNSHIP PROGRAM

ADMISSION

Enrolment in this program is limited. Applications for admission into the Integrated Business and Humanities with Internship will be accepted at the end of the Spring/Summer term and prior to the start of the Fall term (specific deadline dates will vary each year and will be communicated in the Undergraduate Faculty of Business Bulletin, OSCARplus and on DeGroot's website). Only full-time IBH students in good standing with a minimum cumulative Grade Point Average of 7.0 at the time of application, who have completed all Level II required courses (and who will have at least 18 units of course work left to complete following their internship) and have passed COMMERCE 2IN0 - Career Development Course, will be eligible to apply for the Integrated Business and Humanities with Internship degree program. Selection into the program will be based on academic achievement, statement of interest, work and volunteer experience and interview.

PROGRAM NOTES

1. To remain in the Integrated Business and Humanities with Internship program, students must maintain a cumulative GPA of 7.0, and remain in good academic standing.
2. Only students completing an approved 16-month internship will enroll in COMMERCE 4IC0.
3. Students should refer to the table below to plan their enrolment for their work term.

Work Term	Spring/ Summer	Fall	Winter	Spring/ Summer
16-month	COMMERCE 4IA0	COMMERCE 4IB0	COMMERCE 4IC0	COMMERCE 4ID0
12-month beginning Spring term	COMMERCE 4IA0	COMMERCE 4IB0	COMMERCE 4IC0	-
12-month beginning Fall term	-	COMMERCE 4IA0	COMMERCE 4IB0	COMMERCE 4ID0

Engineering is a profession concerned with the creation of new and improved systems, processes and products to serve human needs. The central focus of engineering is design, an art entailing the exercise of ingenuity, imagination, knowledge, skill, discipline and judgment based on experience. The practice of professional engineering requires a mastery of engineering methodology together with a sensitivity to the physical properties of materials, to the logic of mathematics, to the constraints of human, physical and financial resources, to the minimization of risk, and to the protection of the public and the environment.

BACHELOR OF APPLIED SCIENCE PROGRAMS

The Faculty of Engineering offers a four-year Computer Science programs leading to the Bachelor of Applied Science (B.A.Sc.) degree:

- Honours Computer Science

Admission procedures and criteria can be obtained from the Office of the Associate Dean, Academic.

BACHELOR OF TECHNOLOGY PROGRAMS

McMaster University's Faculty of Engineering and Mohawk College's School of Engineering Technology have partnered since 1997 to deliver the unique Bachelor of Technology program in response to the needs of today's innovation-based organizations. The Bachelor of Technology programs operate within the Faculty of Engineering's W. Booth School of Engineering Practice and Technology. This type of program is targeted to individuals whose technological interests are applications-oriented.

The programs being offered are of two kinds:

1. **A four-year degree program** (leading to both a Bachelor of Technology degree from McMaster and both an Advanced Diploma in Technology and a Business Management Certificate from Mohawk College) with entry directly from high school and
2. **A degree completion program** (leading to both a Bachelor of Technology degree from McMaster and a Business Management Certificate from Mohawk College) for graduates of the Mohawk College Advanced Diploma in Technology (or graduates of similar programs at other Colleges).

A major thrust of all of the programs is the inclusion of a significant component

of management education in order to ensure that graduates are able to perform supervisory and management responsibilities as they advance in their technical careers. The management component is designed to form a cohesive segment which complements the technical program content.

For information concerning the Bachelor of Technology programs, please see the *Programs for the Bachelor of Technology (B.Tech.)*

Degree in this section of this Calendar.

BACHELOR OF ENGINEERING PROGRAMS

A five-year program leading to a Bachelor of Engineering in Biomedical Engineering (B.Eng.BME) is offered in Integrated Biomedical Engineering and Health Sciences (IBEHS) Program.

Four-year programs are offered leading to the Bachelor of Engineering degree (B.Eng.) in the following fields of specialization:

- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Engineering Physics
- Materials Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Software Engineering

Five-year programs, leading to the Bachelor of Engineering and Society degree (B.Eng.Soc), are offered in:

- Chemical Engineering and Society
- Civil Engineering and Society
- Computer Engineering and Society
- Engineering Physics and Society
- Electrical Engineering and Society
- Materials Engineering and Society
- Mechanical Engineering and Society
- Mechatronics Engineering and Society
- Software Engineering and Society

In addition, and in conjunction with the School of Business, five-year programs leading to the Bachelor of Engineering and Management degree (B.Eng.Mgt) are offered in:

- Chemical Engineering and Management
- Civil Engineering and Management
- Computer Engineering and Management
- Electrical Engineering and Management
- Engineering Physics and Management
- Materials Engineering and Management
- Mechanical Engineering and Management
- Mechatronics Engineering and Management
- Software Engineering and Management

A five-year program leading to the Bachelor of Engineering and Biosciences (B.Eng.BioSci) is offered in:

- Chemical Engineering and Bioengineering

In addition, and in conjunction with Faculty of Health Sciences, five-year programs leading to the Bachelor of Engineering and Biomedical (B.Eng.BME) are offered in:

- Chemical and Biomedical Engineering
- Civil and Biomedical Engineering
- Engineering Physics and Biomedical Engineering
- Electrical and Biomedical Engineering
- Materials and Biomedical Engineering
- Mechanical and Biomedical Engineering
- Mechatronics and Biomedical Engineering
- Software and Biomedical Engineering

All programs have limitations on enrolment. Students are admitted to the program following successful completion of Engineering I or IBEHS I.

Admission procedures and criteria can be obtained from the Office of the Associate Dean, Academic. The B.Eng., B.Eng.Biosciences, B.Eng.Mgt., B.Eng. Society and B.Eng.BME programs are honours degree programs. McMaster baccalaureate degree programs in Engineering are accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers.

At McMaster, Engineering students take a common Level I program comprised of Mathematics, Materials, Physics, Chemistry, Engineering Graphics, Introduction to Professional Engineering and Design, Computation and complementary studies electives. Integrated Biomedical Engineering & Health Sciences I students take a separate common Level I program comprised of Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Introduction to Professional Engineering and Design, Computation and complementary studies electives. The specialized programs are entered at Level II. Students interested in the Engineering and Management programs must take ECON 1B03 as one of their complementary studies electives in Level I. Students interested in one of the Engineering and Society programs are advised to choose the six units complementary studies in Level I to be consistent with their chosen focus of the program. Students interested in one of the Engineering and Biomedical Engineering programs must take IBEHS approved technical electives. Programs offered by the Faculty of Engineering include five types of elective courses, which are governed by regulations, as follows:

Complementary Studies Electives are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences.

In addition to ENGINEER 4A03, or equivalent, and ENGINEER 4B03, complementary studies electives are required in all Engineering programs; except IBEHS does not require ENGINEER 4B03.

The Associate Dean, Academic must authorize each student's complementary studies elective courses. An approved list is published each spring and is available from the Office of the Associate Dean, Academic. Engineering I students should refer to the Degrees and Programs section of this Calendar to determine which Level I Complementary Studies electives are possible (<http://www.eng.mcmaster.ca/documents/electives.pdf>).

Technical Electives are Engineering or Applied Science courses in subjects relevant to the particular program. A list is available in each Engineering Department office.

Commerce Electives are required in Level V of Engineering and Management programs.

Engineering and Society Focus Electives are courses offered by various departments throughout the University. These courses are selected in consultation with the Director of the Engineering and Society program, such that they form a proper sequence of the focus electives.

IBEHS Technical Electives are approved courses offered by the Integrated Biomedical Engineering & Health Sciences (IBEHS) program or various departments throughout the University in subjects relevant to the particular program. A list is available on ibiomed.mcmaster.ca.

ENGINEERING CO-OP PROGRAM

Undergraduate students in the Faculty of Engineering or registered in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program can enroll in a Co-op version of each program. Students enrolled in the former will be required to complete 12 months of industrial/practical experience prior to graduation. The 12 months experience may be acquired through a combination of three four-month experience terms, or a combination of a four month and eight month experience terms, or an experience term of 12 or 16 months duration. Students may enter the Co-op version of their program at any time up to the beginning of Term 2 of their next-to-last level of undergraduate studies. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0.

ENGINEERING CO-OP FEES

An Engineering Co-op fee will be charged for students registered in an Engineering Co-op Program and the Integrated Biomedical Engineering & Health Sciences (IBEHS) co-op program.

EXCHANGE PROGRAMS

Formal exchange programs with a number of universities in other countries are available for B.Eng. students wishing to attend a foreign university and receive credit at McMaster. For further information please see International Study in the General Academic Regulations section in this Calendar. Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services.

MINOR

In partnership with the DeGroote School of Business, the Faculty of Engineering offers a Minor in Innovation.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to make every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority will be given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the University provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in the Faculty of Engineering programs or Integrated Biomedical Engineering & Health Sciences (IBEHS) program, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations.

ENGINEERING I

ADMISSION TO LEVEL II PROGRAMS

All Level I students who wish to be reviewed for admission to a Level II program in the Faculty of Engineering for the following Fall/Winter term must submit an Application of Admission to Level II through MOSAIC by the University stated deadline. Students rank up to twelve program choices. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices.

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses before the start of the Level II program. Students must maintain a minimum Cumulative Grade Point Average (GPA) of 4.0. All Level II programs are limited enrollment and entry into a Level II program is competitive. The admission into each Level II program is determined by the Cumulative Grade Point Average (GPA) and order of ranked programs.

All McMaster University courses completed (including electives and upper year courses) are calculated into Cumulative Grade Point Average (GPA) up to the time of Level II program admission review. Grades earned in summer school, after program admission review, will not change student Level II program eligibility. A student in Engineering I with a Grade Point Average (GPA) less than 4.0 can no longer continue in the Faculty of Engineering.

Students must follow the program requirements of the Calendar in effect when they enter Level II. Admission to a B.Eng.Mgt. program is competitive and will be based on Cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0. Students seeking admission to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives. Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

COMPUTER SCIENCE I

To be eligible for Level II Computer Science a student requires an overall Grade Point Average (GPA) of 4.0 and must also have passed all non-elective Computer Science I courses. See the program listings under Programs for the B.A.Sc. Degree for specific information on admission requirements for each program.

A student in Computer Science I whose Grade Point Average (GPA) is less than 4.0 may no longer continue in the Faculty.

INTEGRATED BIOMEDICAL ENGINEERING & HEALTH SCIENCES I

All Level I students who wish to be reviewed for admission to a Level II program in the Integrated Biomedical Engineering and Health Sciences (IBEHS) program for the following Fall/Winter term must submit an Application of Admission to Level II through MOSAIC by the University stated deadline. Students in the IBEHS program must rank both degree options in order of preference, and are permitted to rank up to twelve program choices in total. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices.

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0. All Level II programs are limited enrollment and entry into a Level II program is competitive. The admission into each Level II program is determined by the Cumulative Grade Point Average (GPA) and order of ranked programs.

All McMaster University courses completed (including electives and upper year courses) are calculated into Cumulative Grade Point Average (GPA) up to the time of Level II program admission review. Grades earned in summer school, after program admission review, will not change student Level II program eligibility. A student in IBEHS I with a Grade Point Average (GPA) less than 4.0 can no longer continue in the Integrated Biomedical Engineering and Health Sciences

(IBEHS) program.

Students must follow the program requirements of the Calendar in effect when they enter Level II.

BACHELOR OF TECHNOLOGY I

To be eligible for any Level II Bachelor of Technology program, a student requires an overall Grade Point Average (GPA) of 3.5 or above and must have 24 units of Bachelor of Technology I courses. See the program listings under Programs for the Four-Year Bachelor of Technology degree for specific information on admission requirements for each program.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the Calendar for the program. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the Engineering program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete. Work of a higher level may be undertaken only with the permission of the Associate Dean of Engineering.

REINSTATEMENT TO FACULTY OF ENGINEERING, OR INTEGRATED BIOMEDICAL ENGINEERING & HEALTH SCIENCES

A student who is ineligible to continue in the Faculty of Engineering or Integrated Biomedical Engineering & Health Sciences or who May not continue at the university may normally not apply for reinstatement for one full academic year. Exceptions may be made when there are extenuating circumstances which are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar or the Office of the Associate Dean of Engineering. The completed form and the \$100 fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. **Reinstatement is not guaranteed.**

A student who is reinstated after being ineligible to continue at a given level must repeat all the courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on academic probation, and calculation of their Cumulative Grade Point Average (GPA) will begin anew. If at any review after reinstatement the student's Cumulative Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

PROGRAM CHANGES

All program changes must be made through the Office of the Associate Dean, Academic.

TRANSFERRING TO GRADUATE WITH A B.A.SC. DEGREE FROM ONE OF THE B.ENG.BME BIOMEDICAL ENGINEERING PROGRAMS OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of at least Level III of one of the B.Eng.BME Biomedical Engineering programs of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Office of the Associate Dean of Engineering (Academic) for transfer to graduate with the B.A.Sc. (exit) degree.

Level I Programs

Bachelor of Applied Science

COMPUTER SCIENCE I/COMPUTER SCIENCE I CO-OP (B.A.SC.)

30 units total

REQUIREMENTS

15 UNITS

- COMPSCI 1DM3 - Discrete Mathematics for Computer Science

- COMPSCI 1JC3 - Introduction to Computational Thinking
- COMPSCI 1MD3 - Introduction to Programming
- COMPSCI 1XC3 - Computer Science Practice and Experience: Development Basics
- COMPSCI 1XD3 - Computer Science Practice and Experience: Introduction to Software Design Using Web Programming

9 UNITS

- MATH 1B03 - Linear Algebra I
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

6 UNITS

- Electives

1 COURSE

- ENGINEER 1A00 or
- WHMIS 1A00 - Introduction to Health and Safety

Bachelor of Engineering

ENGINEERING I/ENGINEERING I CO-OP

37 units total

Bachelor of Engineering and Biomedical Engineering

INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I/INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I CO-OP

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
2. Admission to Level II Engineering and Biomedical Engineering programs requires completion of all 34 units of required IBEHS I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the

students Cumulative Grade Point Average. A student in IBEHS I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in IBEHS.

3. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to 8-units of research project or independent study courses. A full listing can be found on the IBEHS website.
4. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS

37 units total

LEVEL I: 37 UNITS

16 units

- IBEHS 1EP6 A/B - Entrepreneurship in Biomedical Innovation: From Bench to Market
- IBEHS 1P10 A/B - Health Solutions Design Projects I: Introduction to Engineering Fundamentals and Design

Bachelor of Engineering

CHEMICAL ENGINEERING, CHEMICAL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Students may choose to follow a stream of recommended technical elective courses.

- **Process Systems Engineering (PSE) Stream:**

Required Courses: Three of CHEMENG 4H03, 4E03, 4G03, 4K03, and 4L03 (at least one PSE laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Polymer Materials and Manufacturing (PMM) Stream:**

Required Courses: Three of CHEMENG 3Q03, 4B03, 4H03, 4X03, 4Z03; and 4L03 (at least one PMM laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Water-Energy Technologies (WET) Stream:**

Required Courses: CHEMENG 4A03, 4M03, 4L03 (at least one WET laboratories completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4-month work term.

REQUIREMENTS

LEVEL II: 37 UNITS

16 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2O04 - Fluid Mechanics

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

3 units

- CHEM 1AA3 - Introductory Chemistry II

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2Z23 - Engineering Mathematics IV

3 units

- MATLS 3J03 - Statistical Methods for Materials Engineers

6 units

- approved complementary studies electives

LEVEL III: 36 UNITS

30 units

- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D04 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Design and Simulation
- CHEMENG 3I03 - Data Acquisition and Analysis
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3L03 - Intermediate Laboratory Skills
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations
- CHEMENG 3P04 - Process Control

6 units total from the following two subsections

3-6 units

from

- CHEM 2E03 - Introductory Organic Chemistry

or both

- CHEM 2O A3 - Organic Chemistry I
- CHEM 2O B3 - Organic Chemistry II

0-3 units

from

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMENG 3Q03 - Introduction to Polymer Science

LEVEL IV: 34-36 UNITS

13 units

- CHEMENG 4L03 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- CHEMENG 4W06 A/B - Chemical Plant Design and Capstone Project

3 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

15-16 units

from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4E03 - Digital Computer Process Control
- CHEMENG 4G03 - Optimization in Chemical Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Y04 A/B - Senior Independent Project
- CHEMENG 4Z03 - Interfacial Engineering
- ENGINEER 4EX3 A/B - Experiential Engineering Design

Note: Only two courses from List B (Chem Eng Sci/Math courses) can be taken over the course of the program

3-4 units

- Level III or IV technical electives from approved List A (Interdisciplinary engineering courses) or permission of the Department of Chemical Engineering

Bachelor of Engineering and Biomedical Engineering

CHEMICAL AND BIOMEDICAL ENGINEERING, CHEMICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

- approved IBEHS Technical Elective

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. Students may choose to follow a stream of recommended technical elective courses.

- **Process Systems Engineering (PSE) Stream:**

Required Courses: Three of CHEMENG 4H03, 4E03, 4G03, 4K03, and 4L03 (at least one PSE laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Polymer Materials and Manufacturing (PMM) Stream:**

Required Courses: Three of CHEMENG 3Q03, 4B03, 4H03, 4X03, 4Z03; and 4L03 (at least one PMM laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Water-Energy Technologies (WET) Stream:**

Required Courses: CHEMENG 4A03, 4M03, 4L03 (at least one WET laboratory completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4-month work term.
- Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to 8-units of research project or independent study courses. A full listing can be found on the IBEHS website.
- Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS

LEVEL II: 37 UNITS

15 units

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2E03 - Inquiry II: Biochemistry

- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering

22 units

- CHEMENG 2D04 - Chemical Engineering Principles I
- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 2F04 - Chemical Engineering Principles II
- CHEMENG 2O04 - Fluid Mechanics
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

LEVEL III: 39 UNITS

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I

13 units

- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

20 units

- CHEMENG 3A04 - Heat Transfer
- CHEMENG 3D04 - Chemical Engineering Thermodynamics
- CHEMENG 3G04 - Chemical Process Design and Simulation
- CHEMENG 3K04 - Introduction to Reactor Design
- CHEMENG 3M04 - Mass Transfer and Stagewise Operations

3 units

- Complementary Studies

LEVEL IV: 36-37 UNITS

17 units

- IBEHS 4B03 - Biomechanics
- IBEHS 4C03 - Statistical Methods in Biomedical Engineering
- IBEHS 4D03 - Introduction to Medical Imaging
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

10 units

- CHEMENG 3I03 - Data Acquisition and Analysis
- CHEMENG 3L03 - Intermediate Laboratory Skills
- CHEMENG 3P04 - Process Control

3 units

from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Z03 - Interfacial Engineering

3-4 units

- Approved IBEHS Technical Elective

3 units

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry

LEVEL V: 37-39 UNITS (EFFECTIVE UNTIL 2023-2024)9 units

- IBEHS 4QZ3 - Modelling of Biological Systems
- CHEMBME 5P06 A/B - Integrated Chemical & Biomedical Engineering Capstone Design Project

10 units

- CHEMENG 4L03 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

9-10 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4E03 - Digital Computer Process Control
- CHEMENG 4H03 - Big Data Methods and Modeling in Chemical and Materials Engineering
- CHEMENG 4G03 - Optimization in Chemical Engineering
- CHEMENG 4K03 - Reactor Design for Heterogeneous Systems
- CHEMENG 4M03 - Industrial Separation Processes
- CHEMENG 4T03 - Applications of Chemical Engineering in Medicine
- CHEMENG 4TA3 A/B
- CHEMENG 4X03 - Polymer Processing
- CHEMENG 4Y04 A/B - Senior Independent Project
- CHEMENG 4Z03 - Interfacial Engineering

3-4 units

- approved IBEHS Technical Elective

6 units

- Complementary Studies

LEVEL V: 34-36 UNITS (EFFECTIVE 2023-2024)9 units

- IBEHS 4QZ3 - Modelling of Biological Systems
- CHEMBME 5P06 A/B - Integrated Chemical & Biomedical Engineering Capstone Design Project

10 units

- CHEMENG 4L03 - Advanced Laboratory Skills
- CHEMENG 4N04 - Engineering Economics and Problem Solving
- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

9-10 units from

- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- CHEMENG 4A03 - Energy Systems Engineering
- CHEMENG 4B03 - Polymer Reaction Engineering
- CHEMENG 4E03 - Digital Computer Process Control
- CHEMENG 4G03 - Optimization in Chemical Engineering

- CHEMENG 4Z03 - Interfacial Engineering

3-4 units

- approved IBEHS Technical Elective

3 units

- Complementary Studies

Bachelor of Engineering and Biosciences

CHEMICAL ENGINEERING AND BIOENGINEERING, CHEMICAL ENGINEERING AND BIOENGINEERING CO-OP (B.ENG.BIOSCI.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTE

1. Students may choose to follow a stream of recommended technical elective courses.

- **Process Systems Engineering (PSE) Stream:**

Required Courses: Three of CHEMENG 4H03, 4E03, 4G03, 4K03, and 4L03 (at least one PSE laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Polymer Materials and Manufacturing (PMM) Stream:**

Required Courses: Three of CHEMENG 3Q03, 4B03, 4H03, 4X03, 4Z03; and 4L03 (at least one PMM laboratory completed). Other courses may be substituted with permission of the Department Chair.

- **Water-Energy Technologies (WET) Stream:**

Required Courses: CHEMENG 4A03, 4M03, 4L03 (at least one WET laboratory completed) and one of ENGINEER 4V04 or CIVENG 4V04. Other courses may be substituted with permission of the Department Chair.

2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4-month work term.

REQUIREMENTS**LEVEL II: 40 UNITS**16 units

Bachelor of Engineering

CIVIL ENGINEERING, CIVIL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON

1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives. Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Students entering Level II will register in the Civil Engineering program following the requirements outlined below. Students entering Levels III and IV should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program for which they are registered in and to consult with the Department of Civil Engineering for further information.
2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EEO. ENGINEER 2ECO will be added to the academic record for each 4 month work term.
3. Before the end of Level III, students must complete a Civil Engineering electives form, and ensure that it has been reviewed by the Department before completing Level IV Registration.
4. To meet the capstone project requirement, all students in their final level must take CIVENG 4X06 A/B.

REQUIREMENTS**LEVEL II: 38 UNITS**32 units

- CIVENG 2A03 - Surveying and Measurement for Transportation and Construction
- CIVENG 2B04 - Principles of Environmental Engineering
- CIVENG 2C04 - Structural Mechanics
- CIVENG 2E03 - Computer Applications in Civil Engineering
- CIVENG 2J04 - Principles of Geological and Geo-Environmental Engineering
- CIVENG 2Q04 - Fluid Mechanics
- CIVENG 2Q03 - Engineering Mechanics: Dynamics
- CIVENG 2P04 - Statics and Mechanics of Materials
- ENGINEER 2PX3 - Integrated Engineering Design Project 2

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

LEVEL III: 40 UNITS33 units

- CIVENG 3A03 - Geotechnical Engineering I
- CIVENG 3B03 - Geotechnical Engineering II
- CIVENG 3C03 - Engineering Systems
- CIVENG 3G04 - Structural Analysis
- CIVENG 3J04 - Reinforced Concrete Design
- CIVENG 3K03 - Introduction to Transportation Engineering
- CIVENG 3L03 - Water Quality
- CIVENG 3M03 - Municipal Hydraulics
- CIVENG 3P04 - Civil Engineering Materials and Design
- ENGINEER 3PX3 - Integrated Engineering Design Project 3

6 units

- CIVENG 4X06 A/B - Design and Synthesis Project in Civil Engineering

20 units

- from approved list of Level IV Civil Engineering technical electives.

3 units

- ENGPYHS 3ES3 - Introduction to Energy Systems

Bachelor of Engineering and Biomedical Engineering

CIVIL AND BIOMEDICAL ENGINEERING, CIVIL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
2. Students entering Level II will register in the Civil Engineering program following the requirements outlined below. Students entering Levels III, IV and V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program for which they are registered in and to consult with the Department of Civil Engineering for further information.
3. Before the end of Level IV, students must complete a Civil Engineering electives form, and ensure that it has been reviewed by the Department

before completing Level V Registration.

4. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to 8-units of research project or independent study courses. A full listing can be found on the IBEHS website.
5. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS

LEVEL II: 40 UNITS

12 units

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering

25 units

NOTES

1. All programs in the Department of Computing and Software have limited enrolment.
2. For the purpose of admission to Level II B.A.Sc. programs, the two courses MATH 1A03, and MATH 1AA3 together are considered equivalent to MATH 1ZA3, and MATH 1ZB3, and MATH 1ZC3 is considered equivalent to MATH 1B03.

For the Arts & Science and Computer Science (B.Arts.Sc.) program, see *Arts & Science Program*

For the Honours Economics and Computer Science (B.A.) program, see *Faculty of Social Sciences, Department of Economics*

For the Honours Mathematics and Computer Science (B.Sc.) program, see *Faculty of Science, Department of Mathematics and Statistics*

Bachelor of Applied Science

HONOURS COMPUTER SCIENCE AS A SECOND DEGREE (B.A.SC.)

ADMISSION

Completion of a Bachelor's degree from a recognized university in a discipline other than Computer Science with a Grade Point Average of least 7.0 ; and completion of MATH 1ZA3, MATH 1ZB3 and a grade of at least C+ in COMPSCI 1DM3 and 1XC3 or equivalent. As Second Degree candidates, applicants must first apply for admission to the University through the Enrolment Services (Admissions) indicating they wish to apply for the Honours Computer Science B.A.Sc. as a Second Degree program. For the purpose of admission to this program, the two courses MATH 1A03 and MATH 1AA3 together are considered as equivalent to MATH 1ZA3 and MATH 1ZB3.

NOTE

If a student in the program has previously taken a required course (or its equivalent), it is not a requirement to repeat the course. However, if the credit from that course has been used toward completion of a previous degree, the student will be required to take another course with the required number of units. Admission to this program is at Level III.

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM IN 2020-2021 OR EARLIER

LEVEL IV: 30 UNITS

27 units

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3DB3
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3SD3
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems
- COMPSCI 4C03 - Computer Networks and Security
- COMPSCI 4TB3 - Syntax-Based Tools and Compilers
- COMPSCI 4ZP6 A/B - Capstone Project

3 units

- Levels III, IV Computer Science, or other approved technical electives from List G (contact the *Department of Computing and Software*)

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2021-2022 OR LATER

Level III: 30 Units

27 units

- COMPSCI 1JC3 - Introduction to Computational Thinking
- COMPSCI 2AC3 - Automata and Computability
- COMPSCI 2C03 - Data Structures and Algorithms
- COMPSCI 2DB3 - Databases
- COMPSCI 2GA3 - Computer Architecture
- COMPSCI 2LC3 - Logical Reasoning for Computer Science
- COMPSCI 2ME3 - Introduction to Software Development

Bachelor of Engineering

MECHATRONICS ENGINEERING, MECHATRONICS ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng. Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTE

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS**LEVEL II: 38 UNITS**6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- MECHTRON 2MD3 - Data Structures and Algorithms for Mechatronics
- MECHTRON 2MP3 - Programming for Mechatronics
- MECHTRON 2TA4 - Embedded Systems Design I

16 units

- ENGPYHS 2A04 - Electricity and Magnetism
- ENGPYHS 2CD4 - Computational Mechanics: Dynamics
- ENGPYHS 2E04 - Analog and Digital Circuits
- ENGPYHS 2P04 - Computational Mechanics: Statics

Bachelor of Engineering and Biomedical Engineering

MECHATRONICS AND BIOMEDICAL ENGINEERING, MECHATRONICS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note:**

BME is a five-year program, while HESE is a four-year program (effective September 2022).

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
2. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to eight units of research project or independent study courses. A full listing can be found on the IBEHS website.
3. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

Bachelor of Engineering and Biomedical Engineering

ELECTRICAL AND BIOMEDICAL ENGINEERING, ELECTRICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2EC0 will be added to the academic record for each four month work term.
2. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to eight units of research project or independent study courses. A full listing can be found on the IBEHS website.
3. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS

LEVEL II: 34 UNITS

12 units

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II

- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering

22 units

Bachelor of Engineering and Management

COMPUTER ENGINEERING AND MANAGEMENT, COMPUTER ENGINEERING AND MANAGEMENT CO-OP (B.ENG.MGT.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng. Society program are required to submit a statement indicating the educational objectives for the focus electives. Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

Bachelor of Engineering

ENGINEERING PHYSICS, ENGINEERING PHYSICS CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng. Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Approved electives for a total of at least 38 units:
 - Students must take 6 units of Approved complementary studies electives (in addition to the 6 units taken in Engineering 1)
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics
 - Students must take at least 16 units of Approved technical electives from the Engineering Physics course offerings
 - Students must take at least one of the ENGPYS 4U*2 courses (i.e., ENGPYS 4UB2, 4UM2, 4UN2, 4UP2, and 4US2)
 - Remaining units: Students may take any approved Engineering or Science technical elective (including Engineering Physics)
 - While 2 units worth of the 4U*2 courses are required at a minimum, these courses are also part of the Approved Engineering Physics technical electives and students may take an unlimited number of these courses to fulfill their elective requirements in any year.
 - Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Science or Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives. Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for a program of study. Further detail on program specializations and course recommendations is available on the Engineering Physics website. Students are responsible for ensuring that they fulfill the prerequisites for each course. Note that courses in departments other than Engineering Physics may be subject to enrollment limitations.
 - Nanotech Device Engineering:** ENGPYS 3F03, 3PN4, 4MD3, 4UM2, 4Z03, MATLS 4H03
 - Photonics/Optical Engineering:** ENGPYS 3E04, 3F03, 3PD3, 3PN4, 4S03, 4UP2, 4Z03, ELECENG 3FK4 and 4EM4
 - Solar Photovoltaic Engineering:** ENGPYS 3E04, 3ES3, 3F03, 3PN4, 4MD3, 4X03, 4UM2, 4Z03, MATLS 4Q03
 - Nuclear Engineering:** ENGPYS 3D03, 3ES3, 3O04, 4D03, 4NE3, 4P03, 4PP3, 4UN2, MECHENG 4O04, 4S03, 4U03, and 4V03
 - Biomedical Engineering:** ENGPYS 3E04, 3F03, 3PN4, 4B03, 4I03, 4S03, 4UB2, 4Z03, ELECENG 4BD4, MECHENG 4N03
 - Smart Systems Engineering:** ENGPYS 3F03, 3PN4, 4US2, COMPENG 2SH4, 2SI3, MECHENG 4H03, 4R03, ELECENG 3FK4, 3TR4, 4CL4
 - Quantum Computing:** ENGPYS 4QC3, 4QM3, COMPENG 2SH4, 2SI3, MATH 2R03, 3C03, 3D03, 3QC3, PHYSICS 3MM3, 3QI3, 4F03
 - Space Systems Engineering:** ENGPYS 3O04, 3SP3, 3D03, 3E04, 4X03, MECHENG 4AA3, 4Q03, ELECENG 3TR4, and optionally MATH 3C03, PHYSICS 3A03, 3C03, 3QI3, ASTRON 2E03, 3X03, 3Y03, ELECENG 4TK4, ENGPYS 4QC3, 4QM3, MATLS 3M03, MECHENG 4J03, MEDPHYS 4F03
 - Interdisciplinary Engineering Physics:** ENGPYS 3D03, 3E04, 3ES3, 3O04, 3PD3, 3F03, 3PN4, 4B03, 4I03, 4PP3, 4QC3, 4X03
1. Students in a Co-op program must complete ENGINEER 1EE0 in addition to the academic requirements specified in this calendar. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

LEVEL II: 35 UNITS

26 units

- ENGPYS 2A04 - Electricity and Magnetism
- ENGPYS 2CD4 - Computational Mechanics: Dynamics
- ENGPYS 2CM4 - Computational Multiphysics
- ENGPYS 2E04 - Analog and Digital Circuits
- ENGPYS 2NE3 - Thermal Systems Design
- ENGPYS 2P04 - Computational Mechanics: Statics

- ENGPYHS 2QM3 - Introduction to Quantum Mechanics

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2Z23 - Engineering Mathematics IV

LEVEL III: 35-37 UNITS (2022-2023 ONLY)

23 units

- ENGPYHS 3BA4 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYHS 3BB4 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYHS 3L04 - Engineering Metrology
- ENGPYHS 3NM4 - Numerical Methods for Engineering
- ENGPYHS 3SM3 - Statistical Mechanics
- ENGPYHS 3W04 - Signals and Systems for Engineering

3 units

- ENGINEER 3PX3 - Integrated Engineering Design Project 3

9-11 units

- approved electives (see Note 1)

LEVEL III: 35-37 UNITS (EFFECTIVE 2023-2024)

20 units

- ENGPYHS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYHS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYHS 3L04 - Engineering Metrology
- ENGPYHS 3NM4 - Numerical Methods for Engineering
- ENGPYHS 3SM3 - Statistical Mechanics
- ENGPYHS 3W03 - Signals and Systems for Engineering

3 units

- ENGINEER 3PX3 - Integrated Engineering Design Project 3

12-14 units

- approved electives (see Note 1)

LEVEL IV: 34-36 UNITS (2022-2024 ONLY)

3 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

6 units

- ENGPYHS 4A06 A/B - Engineering Physics Design and Synthesis Project

25-27 units

- approved electives (See Note 1 above.)

LEVEL IV: 35-37 UNITS (EFFECTIVE 2024-2025)

3 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

6 units

- ENGPYHS 4A06 A/B - Engineering Physics Design and Synthesis Project

26-28 units

- approved electives (See Note 1 above.)

Bachelor of Engineering and Biomedical Engineering

ENGINEERING PHYSICS AND BIOMEDICAL ENGINEERING, ENGINEERING PHYSICS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-

elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- Approved technical electives for a total of at least 28 units:
 - Students must take at least 12 units of Approved Technical Electives from the Engineering Physics course offerings
 - Students must take at least one of the ENGPYHS 4U*2 courses (i.e., ENGPYHS 4UB2, 4UM2, 4UN2, 4UP2, and 4US2)
 - Students must take at least 6 units of Approved Technical Electives from the Approved IBEHS technical elective course offerings
- While two units worth of the 4U*2 courses are required at a minimum, these courses are also part of the Approved Engineering Physics technical electives and students may take an unlimited number of these courses to fulfill their elective requirements in any year.
- Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives. Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for a program of study. Further detail on program specializations and course recommendations is available on the Engineering Physics website. Students are responsible for ensuring that they fulfill the prerequisites for each course. Note that courses in departments other than Engineering Physics may be subject to enrollment limitations.
 - **Nanotech Device Engineering:** ENGPYHS 3F03, 3PN4, 4MD3, 4UM2, 4Z03, MATLS 4H03
 - **Photonics/Optical Engineering:** ENGPYHS 3E04, 3F03, 3PD3, 3PN4, 4S03, 4UP2, 4Z03, ELECENG 3FK4 and 4EM4
 - **Solar Photovoltaic Engineering:** ENGPYHS 3E04, 3ES3, 3F03, 3PN4, 4MD3, 4X03, 4UM2, 4Z03, MATLS 4Q03
 - **Nuclear Engineering:** ENGPYHS 3D03, 3ES3, 3O04, 4D03, 4NE3, 4P03, 4PP3, 4UN2, MECHENG 4O04, 4S03, 4U03, and 4V03
 - **Biomedical Engineering:** ENGPYHS 3E04, 3F03, 3PN4, 4B03, 4I03, 4S03, 4UB2, 4Z03, MECHENG 4N03

- **Smart Systems Engineering:** ENGPYHS 3F03, 3PN4, 4US2, COMPENG 2SH4, 2SI3, MECHENG 4R03, 4H03, ELECENG 4CL4, 3FK4, 3TR4
 - **Quantum Computing:** ENGPYHS 4QC3, 4QM3, COMPENG 2SH4, 2SI3, MATH 2R03, 3C03, 3D03, 3QC3, PHYSICS 3MM3, 3QI3, 4F03
 - **Space Systems Engineering:** ENGPYHS 3O04, 3SP3, 3D03, 3E04, 4X03, MECHENG 4AA3, 4Q03, ELECENG 3TR4, and optionally MATH 3C03, PHYSICS 3A03, 3C03, 3QI3, ASTRON 2E03, 3X03, 3Y03, ELECENG 4TK4, ENGPYHS 4QC3, 4QM3, MATLS 3M03, MECHENG 4J03, MEDPHYS 4F03
 - **Interdisciplinary Engineering Physics:** ENGPYHS 3D03, 3E04, 3ES3, 3O04, 3F03, 3PD3, 3PN4, 4B03, 4I03, 4PP3, 4QC3, 4X03
1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2EC0 will be added to the academic record for each four month work term.
 2. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to 8 units of research project or independent study courses. A full listing can be found on the IBEHS website.
 3. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS**LEVEL II: 38 UNITS**9 units

- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering

ENGINEERING PHYSICS AND SOCIETY, ENGINEERING PHYSICS AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Approved technical electives for a total of at least 32 units:
 - Students must take at least 3 units of Approved Engineering technical electives outside of Engineering Physics
 - Students must take at least 16 units of Approved technical electives from the Engineering Physics course offerings
 - Students must take at least one of the ENGPYS 4U*2 courses (i.e., ENGPYS 4UB2, 4UM2, 4UN2, 4UP2, and 4US2)
2. While two units worth of the 4U*2 courses are required at a minimum, these courses are also part of the Approved Engineering Physics technical electives and students may take an unlimited number of these courses to fulfill their elective requirements in any year.
3. Approved technical electives are available in a list on the Engineering Physics website. Subject to Chair approval, students may replace Engineering Physics technical electives with approved Engineering courses. Also subject to Chair approval, courses not appearing on the technical elective list may qualify as acceptable technical electives. Students are free to choose their technical electives according to their own interests, but may consider the following course recommendations for a program of study. Further detail on program specializations and course recommendations is available on the Engineering Physics website. Students are responsible for ensuring that they fulfill the prerequisites for each course. Note that courses in departments other than Engineering Physics may be subject to enrollment limitations.
 - **Nanotech Device Engineering:** ENGPYS 3F03, 3PN4, 4MD3, 4UM2, 4Z03, MATLS 4H03
 - **Photonics/Optical Engineering:** ENGPYS 3E04, 3F03, 3PD3, 3PN4, 4S03, 4UP2, 4Z03, ELECENG 3FK4 and 4EM4
 - **Solar Photovoltaic Engineering:** ENGPYS 3E04, 3ES3, 3F03, 3PN4, 4MD3, 4X03, 4UM2, 4Z03, MATLS 4Q03
 - **Nuclear Engineering:** ENGPYS 3D03, 3ES3, 3Q04, 4D03, 4NE3, 4P03, 4PP3, 4UN2, MECHENG 4Q04, 4S03, 4U03, and 4V03
 - **Biomedical Engineering:** ENGPYS 3E04, 3F03, 3PN4, 4B03, 4I03, 4S03, 4UB2, 4Z03, MECHENG 4N03
 - **Smart Systems Engineering:** ENGPYS 3F03, 3PN4, 4US2, COMPENG 2SH4, 2SI3, MECHENG 4H03, 4R03, ELECENG 3FK4, 3TR4, 4CL4
 - **Quantum Computing:** ENGPYS 4QC3, 4QM3, COMPENG 2SH4, 2SI3, MATH 2R03, 3C03, 3D03, 3QC3, PHYSICS 3MM3, 3QI3, 4F03

- **Space Systems Engineering:** ENGPYS 3Q04, 3SP3, 3D03, 3E04, 4X03, MECHENG 4AA3, 4Q03, ELECENG 3TR4, and optionally MATH 3C03, PHYSICS 3A03, 3C03, 3QI3, ASTRON 2E03, 3X03, 3Y03, ELECENG 4TK4, ENGPYS 4QC3, 4QM3, MATLS 3M03, MECHENG 4J03, MEDPHYS 4F03

- **Interdisciplinary Engineering Physics:** ENGPYS 3D03, 3E04, 3ES3, 3Q04, 3PD3, 3F03, 3PN4, 4B03, 4I03, 4PP3, 4QC3, 4X03

1. Students in a Co-op program must complete ENGINEER 1EEO in addition to the academic requirements specified in this calendar. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

LEVEL II: 35 UNITS

23 units

- ENGPYS 2A04 - Electricity and Magnetism
- ENGPYS 2CD4 - Computational Mechanics: Dynamics
- ENGPYS 2CM4 - Computational Multiphysics
- ENGPYS 2E04 - Analog and Digital Circuits
- ENGPYS 2P04 - Computational Mechanics: Statics
- ENGPYS 2QM3 - Introduction to Quantum Mechanics

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

LEVEL III: 35 UNITS (2022-2023 ONLY)

23 units

- ENGPYS 3BA4 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYS 3BB4 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYS 3L04 - Engineering Metrology
- ENGPYS 3NM4 - Numerical Methods for Engineering
- ENGPYS 3SM3 - Statistical Mechanics
- ENGPYS 3W04 - Signals and Systems for Engineering

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

3 units

- ENGSOCTY 3Y03 - Technology and Society

6 units

- Engineering and Society focus electives

LEVEL III: 35 UNITS (EFFECTIVE 2023-2024)

23 units

- ENGPYS 2NE3 - Thermal Systems Design
- ENGPYS 3BA3 - Electronics I: Circuits with Non-Linear and Active Components
- ENGPYS 3BB3 - Electronics II: Embedding and Programming a Micro-Controller
- ENGPYS 3L04 - Engineering Metrology
- ENGPYS 3NM4 - Numerical Methods for Engineering
- ENGPYS 3SM3 - Statistical Mechanics
- ENGPYS 3W03 - Signals and Systems for Engineering

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

3 units

- ENGSOCTY 3Y03 - Technology and Society

6 units

- Engineering and Society focus electives

LEVEL IV: 33-35 UNITS

3 units

- ENGINEER 3PX3 - Integrated Engineering Design Project 3

15-17 units

- approved technical electives (see Note 1)

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

9 units

- Engineering and Society focus electives

LEVEL V: 32-34 UNITS6 units

- ENGPYHS 4A06 A/B - Engineering Physics Design and Synthesis Project

6 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III
- ENGSOCTY 4Y03 - Society Capstone Design

3 units

- Engineering and Society focus electives

17-19 units

- approved technical electives (see Note 1)

Engineering & Management Program

John Hodgins Engineering Building, Room 316, ext. 27679

<http://www.eng.mcmaster.ca/engandmgt/>

The Engineering & Management Programs are described in the Faculty of Engineering sections in this Calendar. These programs are administered jointly by the DeGroot School of Business and the Faculty of Engineering and lead to the B.Eng.Mgt. degree.

Engineering & Society Program

John Hodgins Engineering Building, Room 316, ext. 27679

<https://www.eng.mcmaster.ca/engineering-and-society-program>

The Engineering & Society Programs are described in the Faculty of Engineering section in this Calendar. These programs lead to the B.Eng.Society degree.

Integrated Biomedical Engineering and Health Sciences Program (IBEHS)

Michael G. DeGroot Centre for Learning, Room 3515, ext. 28347

Faculty as of January 15, 2022

CO-DIRECTORS

Michelle L. MacDonald/B.Sc., Ph.D. (*McMaster*)

Gregory R. Wohl/B.Sc., M.Sc., Ph.D. (*Calgary*), P.Eng.

ASSOCIATE DIRECTOR

Colin McDonald/B.Sc., Ph.D. (*Western Ontario*), P.Eng.

PROGRAM MANAGER

Alexa Béhar-Bannelier/B.Com. (Honours) (*McMaster*)

The Integrated Biomedical Engineering and Health Sciences (IBEHS) Programs are offered jointly by the Faculty of Engineering and the Faculty of Health Sciences. These programs lead to the B.Eng.BME or a B.H.Sc. (Honours) degree.

At McMaster, IBEHS students take a common Level I program comprising Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Graphics Design, Introduction to Professional Engineering and Design, Computation and complementary studies electives. The specialized programs are entered at Level II.

All Level I students who wish to be reviewed for admission to a Level II program in the Integrated Biomedical Engineering and Health Sciences (IBEHS) program for the following Fall/Winter term must submit an Application of Admission to Level II through MOSAIC by the University stated deadline. Students in the IBEHS program must rank both degree options in order of preference, and are permitted to rank up to twelve program choices in total. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices. Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0. All Level II programs are limited enrollment and entry into a Level II program is competitive. The admission into each Level II program is determined by the Cumulative Grade Point Average (GPA) and order of ranked programs. All McMaster University courses completed (including electives and upper year courses) are calculated into Cumulative Grade Point Average (GPA) up to the time of Level II program admission review. Grades earned in summer school, after program admission review, will not change student Level II program eligibility. A student in IBEHS I with a Grade Point Average (GPA) less than 4.0 can no longer continue in the Integrated Biomedical Engineering and Health Sciences (IBEHS) program.

Students must follow the program requirements of the Calendar in effect when they enter Level II.

Courses offered by the IBEHS program include two types of elective courses, which are governed by regulations, as follows:

- **Complementary Studies Electives** are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences. In addition to ENGINEER 4A03, or equivalent, complementary studies electives are required in the IBEHS program.
- **IBEHS Technical Electives** are approved courses offered by the Integrated Biomedical Engineering & Health Sciences program or various departments throughout the University in subjects relevant to the particular program. A list is available on the program website.

TRANSFERRING TO GRADUATE WITH A B.H.SC. DEGREE FROM THE B.H.SC. (HONOURS) HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) STREAM OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of at least Level III of the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) stream of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Integrated Biomedical Engineering and Health Sciences office for transfer to graduate with the B.H.Sc. (exit) degree.

TRANSFERRING TO GRADUATE WITH A B.A.SC. DEGREE FROM ONE OF THE B.ENG.BME BIOMEDICAL ENGINEERING PROGRAMS OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of at least Level III of one of the B.Eng.BME Biomedical Engineering programs of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Office of the Associate Dean of Engineering (Academic) for transfer to graduate with the B.A.Sc. (exit) degree.

IBEHS I:

- Integrated Biomedical Engineering and Health Sciences (IBEHS) I/
Integrated Biomedical Engineering and Health Sciences (IBEHS) I Co-op

LEVEL II PROGRAM(S) LEADING TO THE B.ENG.BME DEGREE INCLUDE:

- Chemical and Biomedical Engineering, Chemical and Biomedical Engineering Co-Op (B.Eng.BME)
- Civil and Biomedical Engineering, Civil and Biomedical Engineering Co-Op (B.Eng.BME)
- Electrical and Biomedical Engineering, Electrical and Biomedical Engineering Co-Op (B.Eng.BME)
- Engineering Physics and Biomedical Engineering, Engineering Physics and Biomedical Engineering Co-Op (B.Eng.BME)
- Materials and Biomedical Engineering, Materials and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechanical and Biomedical Engineering, Mechanical and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechatronics and Biomedical Engineering, Mechatronics and Biomedical Engineering Co-Op (B.Eng.BME)
- Software and Biomedical Engineering, Software and Biomedical Engineering Co-Op (B.Eng.BME)

LEVEL II PROGRAM(S) LEADING TO THE B.H.SC. (HONOURS) DEGREE INCLUDE:

- Health, Engineering Science and Entrepreneurship (HESE) Specialization; Health, Engineering Science and Entrepreneurship (HESE) Specialization Co-Op (B.H.Sc.(Honours))

Bachelor of Engineering

MATERIALS ENGINEERING, MATERIALS ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. The Department of Materials Science and Engineering offers a common core with five streams of study in Levels III and IV. Students may complete the required units as listed in the calendar in Levels III and IV by choosing a course selection according to the following elective streams:

- Biomaterials
- Data Analytics & Computational Materials
- Materials Generalist
- Materials for Manufacturing & Infrastructure
- Smart Materials & Devices

A list of approved technical electives for each stream is available on the Department of Materials Science and Engineering website. Note that a course in a stream may not be taught when the enrollment is (expected to be) too low.

1. Students entering Level II should register in the Materials Science and Engineering program and follow the requirements outlined below. Students entering Levels III, IV or V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program in which they are registered and to consult with the Department of Materials Science and Engineering for further information.
2. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2021-2022 OR LATER

For the *Requirements for Students Who entered the Program in 2020-2021 or earlier*, please refer to the 2020-2021 Undergraduate Calendar.

LEVEL II: 36 UNITS

11 units

- CHEMENG 2004 - Fluid Mechanics
- CIVENG 2P04 - Statics and Mechanics of Materials
- ENGINEER 2PX3 - Integrated Engineering Design Project 2

16 units

- MATLS 2A04 - Introduction to Materials Engineering
- MATLS 2B03 - Introduction to the Thermodynamics of Materials
- MATLS 2D03 - Thermodynamics of Alloys and Phase Diagrams
- MATLS 2Q03 - Electronic Properties of Materials
- MATLS 3M03 - Mechanical Behaviour of Materials

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

3 units

- approved complementary studies electives

LEVEL III: 37-39 UNITS

11 units

- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 3A04 - Heat Transfer
- ENGINEER 3PX3 - Integrated Engineering Design Project 3

20 units

- MATLS 3B03 - Manufacturing Engineering of Multifunctional and Biomedical Materials
- MATLS 3E04 - Mass Transfer
- MATLS 3F03 - High-Temperature Materials Production
- MATLS 3J03 - Statistical Methods for Materials Engineers
- MATLS 3T04 - Phase Transformations
- MATLS 4I03 - Sustainable Manufacturing Processes

6-8 units

- approved Level III or IV technical electives from approved List A or List B

LEVEL IV: 35-40 UNITS

3 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

10 units

- MATLS 4MS4 - Materials Selection in Design and Manufacturing
- MATLS 4Z06 A/B - Materials Engineering Capstone

4 units

from

- MATLS 4LA2 - Heat-Treatable Al Alloys
- MATLS 4LB2 - Synthesis and Characterization of Biomedical Coatings
- MATLS 4LF2 - Synthesis, Properties and Application of Thin Films
- MATLS 4LS2 - Physical Metallurgy of Steels

3 units

- approved complementary studies electives

12-16 units

- approved Level III or IV technical electives

3-4 units

- approved Level III or IV technical electives from approved List B (Interdisciplinary engineering courses)

Bachelor of Engineering and Biomedical Engineering

MATERIALS AND BIOMEDICAL ENGINEERING, MATERIALS AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each four month work term.
2. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to eight units of research project or independent study courses. A full listing can be found on the IBEHS website.
3. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS

LEVEL II: 36 UNITS

9 units

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2E03 - Inquiry II: Biochemistry
- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic

Engineering

24 units

- CHEMENG 2004 - Fluid Mechanics
- CIVENG 2P04 - Statics and Mechanics of Materials
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV
- MATLS 2A04 - Introduction to Materials Engineering
- MATLS 2B03 - Introduction to the Thermodynamics of Materials
- MATLS 2D03 - Thermodynamics of Alloys and Phase Diagrams

3 units

- Complementary Studies

LEVEL III: 39 UNITS

19 units

- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

17 units

- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- MATLS 2Q03 - Electronic Properties of Materials
- MATLS 3B03 - Manufacturing Engineering of Multifunctional and Biomedical Materials
- MATLS 3E04 - Mass Transfer
- MATLS 3M03 - Mechanical Behaviour of Materials

3 units

- Complementary Studies

LEVEL IV: 37-38 UNITS

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I

20 units

- IBEHS 4A03 - Biomedical Control Systems
- IBEHS 4B03 - Biomechanics
- IBEHS 4C03 - Statistical Methods in Biomedical Engineering
- IBEHS 4D03 - Introduction to Medical Imaging
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

11 units

- CHEMENG 3A04 - Heat Transfer
- MATLS 3F03 - High-Temperature Materials Production
- MATLS 3T04 - Phase Transformations

3-4 units

- approved Level III or IV tech elective

LEVEL V: 35-40 UNITS

9 units

- IBEHS 4QZ3 - Modelling of Biological Systems
- MATLSBME 5P06 A/B - Integrated Materials & Biomedical Engineering Capstone Design Project

7 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering
- MATLS 4MS4 - Materials Selection in Design and Manufacturing

4 units

from

- MATLS 4LA2 - Heat-Treatable Al Alloys
- MATLS 4LB2 - Synthesis and Characterization of Biomedical Coatings

- MATLS 4LF2 - Synthesis, Properties and Application of Thin Films
- MATLS 4LS2 - Physical Metallurgy of Steels

6-8 units

- approved IBEHS Technical Elective

9-12 units

- approved Level III or IV tech elective from approved List A or List B

Bachelor of Engineering and Management

3 units

- ENGNMGT 5B03 - Engineering & Management Capstone

3 units

- Commerce electives selected from Level III or IV Commerce

6-8 units

- Approved Level III or IV technical electives from approved List A or List B

3-4 units

- approved Level III or IV technical electives from approved List B (Interdisciplinary engineering courses)

Bachelor of Engineering and Society

MATERIALS ENGINEERING AND SOCIETY, MATERIALS ENGINEERING AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng. Society program are required to submit a statement indicating the educational objectives for the focus electives. Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. The Department of Materials Science and Engineering offers a common core with five streams of study in Levels III and IV. Students may complete the required units as listed in the calendar in Levels III and IV by choosing a course selection according to the following elective streams:

- Biomaterials
- Data Analytics & Computational Materials
- Materials Generalist
- Materials for Manufacturing & Infrastructure
- Smart Materials & Devices

A list of approved technical electives for each stream is available on the Department of Materials Science and Engineering website. Note that a course in a stream may not be taught when the enrollment is (expected to be) too low.

1. Students entering Level II should register in the Materials Science and Engineering program and follow the requirements outlined below. Students entering Levels III, IV or V should follow the program requirements as specified in the Undergraduate Calendar of the year of their entry into Level II. Such students are advised to refer to their degree audit for the program in which they are registered and to consult with the Department of Materials Science and Engineering for further information.
2. A minimum of 18 units of focus elective courses is required for the Engineering and Society program. (This does not include the six units of complementary studies elective in Level I.)
3. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2021-2022 OR LATER

For the *Requirements for Students Who entered the Program in 2020-2021 or earlier*, please refer to the 2020-2021 Undergraduate Calendar.

LEVEL II: 36 UNITS11 units

- CHEMENG 2004 - Fluid Mechanics
- CIVENG 2P04 - Statics and Mechanics of Materials
- ENGINEER 2PX3 - Integrated Engineering Design Project 2

10 units

- MATLS 2A04 - Introduction to Materials Engineering
- MATLS 2B03 - Introduction to the Thermodynamics of Materials
- MATLS 2D03 - Thermodynamics of Alloys and Phase Diagrams

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

3 units

- Engineering and Society focus electives

LEVEL III: 33-368 units

- CHEMENG 2E04 - Numerical Methods and Computing for Chemical Engineers
- CHEMENG 3A04 - Heat Transfer

16 units

- MATLS 2Q03 - Electronic Properties of Materials
- MATLS 3B03 - Manufacturing Engineering of Multifunctional and Biomedical Materials
- MATLS 3E04 - Mass Transfer
- MATLS 3F03 - High-Temperature Materials Production
- MATLS 3M03 - Mechanical Behaviour of Materials

3 units

- ENGSOCTY 3Y03 - Technology and Society

6-9 units

- Engineering and Society focus electives

LEVEL IV: 31-36 UNITS13 units

- ENGINEER 3PX3 - Integrated Engineering Design Project 3
- MATLS 3J03 - Statistical Methods for Materials Engineers
- MATLS 3T04 - Phase Transformations
- MATLS 4I03 - Sustainable Manufacturing Processes

6-8 units

- approved Level III or IV technical electives from approved List A or List B

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

6-9 units

- Engineering and Society focus electives

LEVEL V: 32-38 UNITS10 units

- MATLS 4MS4 - Materials Selection in Design and Manufacturing
- MATLS 4Z06 A/B - Materials Engineering Capstone

4 units

from

- MATLS 4LA2 - Heat-Treatable Al Alloys
- MATLS 4LB2 - Synthesis and Characterization of Biomedical Coatings
- MATLS 4LF2 - Synthesis, Properties and Application of Thin Films
- MATLS 4LS2 - Physical Metallurgy of Steels

6-8 units

- approved Level III or IV technical electives from approved List A or List B
- 3-4 units

- approved Level III or IV technical electives from approved List B (Interdisciplinary engineering courses)

6 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III
- ENGSOCTY 4Y03 - Society Capstone Design

3-6 units

- Engineering and Society focus electives

Bachelor of Engineering

MECHANICAL ENGINEERING, MECHANICAL ENGINEERING CO-OP (B.ENG.)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there

be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng. Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

1. Level IV Mechanical Engineering students must choose one of the following option areas and complete sufficient units of the listed required courses and technical electives.

2. PROGRAM OPTION COMPULSORY COURSES:

- **General:** five of any approved technical electives
- **Mechanics and Design:** two approved technical electives; plus three of CHEMENG 4T03, MATLS 4MS4, 4T03, MECHENG 4B03, 4BB3, 4BF3, 4CC3, 4E03, 4H03, 4I03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
- **Manufacturing:** two approved technical electives; plus three of CHEMENG 4X03, MATLS 3MF3, 4MS4, 4T03, MECHENG 4B03, 4C03, 4D03, 4DD3, 4E03, 4H03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
- **Thermofluids and Energy Systems:** two approved technical electives; plus MECHENG 4S03; plus two of CHEMENG 4X03, ENGPYHS 3D03, 4D03, 4NE3, 4P03, MECHENG 4AA3, 4I03, 4J03, 4N03, 4O04, 4T03, 4U03, 4W03, 4X04, 4Y03
- **Approved Technical Electives:** any of the required program option courses listed above, plus CIVENG 3K03, COMMERCE 4QA3, ELECENG 3N03, ENGINEER 4EX3

3. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2ECO will be added to the academic record for each 4 month work term.

REQUIREMENTS

LEVEL II: 40 UNITS

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

9 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV
- STATS 3Y03 - Probability and Statistics for Engineering

28 units

- MECHENG 2B03 - Mechanical Engineering Measurements
- MECHENG 2C04 - Mechanical Engineering Design Project I
- MECHENG 2D03 - Mechanical Engineering Design Elements
- MECHENG 2P04 - Statics and Mechanics of Materials
- MECHENG 2Q04 - Engineering Mechanics: Kinetics and Dynamics
- MECHENG 2W04 - Thermodynamics
- MECHENG 3A03 - Engineering Mechanics
- MECHENG 3C03 - Manufacturing Engineering

LEVEL III: 37 UNITS

6 units

- ELECENG 2MM3 - Electrical Circuits and Power
- ENGINEER 3PX3 - Integrated Engineering Design Project 3

3 units

- MATLS 3M03 - Mechanical Behaviour of Materials

3 units

- MATH 3I03 - Partial Differential Equations for Engineering

25 units

- MECHENG 3E05 - Mechanical Engineering Design Theory and Project II

- MECHENG 3F04 - Modelling and Numerical Solutions
- MECHENG 3M03 A/B - Composite Laboratory
- MECHENG 3004 - Fluid Mechanics
- MECHENG 3R03 - Heat Transfer
- MECHENG 4Q03 - Mechanical Vibrations
- MECHENG 4R03 - Control Systems

LEVEL IV: 36-37 UNITS3 units

- ENGINEER 4A03 - Ethics, Equity and Law in Engineering

6 units

- approved complementary studies electives

12 units

- MECHENG 4M06 A/B - Mechanical Engineering Capstone Design Project
- MECHENG 4P03 A/B - Composite Laboratory
- MECHENG 4V03 - Thermo-Fluids Systems Design and Analysis

15-16 units

- Program option courses or approved technical electives.

(See *Note 1* above.)

Bachelor of Engineering and Biomedical Engineering

MECHANICAL AND BIOMEDICAL ENGINEERING, MECHANICAL AND BIOMEDICAL ENGINEERING CO-OP (B.ENG.BME)

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note: BME is a five-year program, while HESE is a four-year program (effective September 2022).**

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EEO. IBEHS 2ECO will be added to the academic record for each four month work term.
2. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to eight units of research project or independent study courses. A full listing can be found on the IBEHS website.
3. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS**LEVEL II: 39 UNITS**12 units

- HTHSCI 2E03 - Inquiry II: Biochemistry

Bachelor of Engineering and Society

MECHANICAL ENGINEERING AND SOCIETY, MECHANICAL ENGINEERING AND SOCIETY CO-OP (B.ENG.SOCIETY)

ADMISSION TO LEVEL II ENGINEERING PROGRAMS

Admission to Level II Engineering programs requires completion of all 31 units of required Engineering I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the student's Cumulative Grade Point Average.

Admission to a B.Eng. Management program is competitive and will be based on cumulative Grade Point Average. Students are required to complete ECON 1B03 - Introductory Microeconomics with a minimum grade of 5.0.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

NOTES

- Level IV and Level V Mechanical Engineering and Society students must choose one of the following option areas and complete sufficient units of the listed required courses and technical electives.
- PROGRAM OPTION COMPULSORY COURSES:
 - **General:** five of any approved technical electives
 - **Mechanics and Design:** two approved technical electives; plus three of CHEMENG 4T03, MATLS 4MS4, 4T03, MECHENG 4B03, 4BB3, 4BF3, 4CC3, 4E03, 4H03, 4I03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Manufacturing:** two approved technical electives; plus three of CHEMENG 4X03, MATLS 3MF3, 4MS4, 4T03, MECHENG 4B03, 4C03, 4D03, 4DD3, 4E03, 4H03, 4K03, 4N03, 4T03, 4X04, 4Y03, 4Z03
 - **Thermofluids and Energy Systems:** two approved technical electives; plus MECHENG 4S03; plus two of CHEMENG 4X03, ENGPYHS 3D03, 4D03, 4NE3, 4P03, MECHENG 4AA3, 4I03, 4J03, 4N03, 4O04, 4T03, 4U03, 4W03, 4X04, 4Y03
 - **Approved Technical Electives:** any of the required program option courses listed above, plus CIVENG 3K03, COMMERCE 4QA3, ELECENG 3N03, ENGINEER 4EX3
- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0. ENGINEER 2EC0 will be added to the academic record for each 4 month work term.
- A minimum of 18 units of focus elective courses is required for the program. (This does not include the six units of complementary studies elective in Level I.)

REQUIREMENTS

LEVEL II: 37 UNITS

3 units

- ENGINEER 2PX3 - Integrated Engineering Design Project 2

6 units

- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

19 units

- MECHENG 2C04 - Mechanical Engineering Design Project I
- MECHENG 2D03 - Mechanical Engineering Design Elements
- MECHENG 2P04 - Statics and Mechanics of Materials
- MECHENG 2Q04 - Engineering Mechanics: Kinetics and Dynamics
- MECHENG 2W04 - Thermodynamics

6 units

- ENGSOCTY 2X03 - Inquiry in an Engineering Context I
- ENGSOCTY 2Y03 - Case Studies in History and Technology

3 units

- Engineering and Society focus electives

LEVEL III: 38 UNITS3 units

- MATLS 3M03 - Mechanical Behaviour of Materials

6 units

- ELECENG 2MM3 - Electrical Circuits and Power
- ENGINEER 3PX3 - Integrated Engineering Design Project 3

3 units

- MATH 3I03 - Partial Differential Equations for Engineering

20 units

- MECHENG 2B03 - Mechanical Engineering Measurements
- MECHENG 3A03 - Engineering Mechanics
- MECHENG 3C03 - Manufacturing Engineering
- MECHENG 3F04 - Modelling and Numerical Solutions
- MECHENG 3O04 - Fluid Mechanics
- MECHENG 3R03 - Heat Transfer

3 units

- ENGSOCTY 3Y03 - Technology and Society

3 units

- Engineering and Society focus electives

LEVEL IV: 38 UNITS3 units

- STATS 3Y03 - Probability and Statistics for Engineering

17 units

- MECHENG 3E05 - Mechanical Engineering Design Theory and Project II
- MECHENG 3M03 A/B - Composite Laboratory
- MECHENG 4Q03 - Mechanical Vibrations
- MECHENG 4R03 - Control Systems
- MECHENG 4V03 - Thermo-Fluids Systems Design and Analysis

3 units

- Program option courses or approved technical electives

(See *Note 1* above.)

6 units

- ENGSOCTY 3X03 - Inquiry in an Engineering Context II
- ENGSOCTY 3Z03 - Preventive Engineering: Environmental Perspectives

9 units

- Engineering and Society focus electives

LEVEL V: 30-37 UNITS9 units

- MECHENG 4M06 A/B - Mechanical Engineering Capstone Design Project
- MECHENG 4P03 A/B - Composite Laboratory

12-13 units

- Program option courses or approved technical electives

(See *Note 1* above.)

3 units

- ENGSOCTY 4X03 A/B - Inquiry in an Engineering Context III

3 units

- ENGSOCTY 4Y03 - Society Capstone Design

3-9 units

- Engineering and Society focus electives

The Bachelor of Technology (B.Tech.) programs, within the Faculty of Engineering's W. Booth School of Engineering Practice and Technology, provide a degree-level technological education that is distinct from that offered in Bachelor of Engineering programs. These programs are more oriented to applications in specific technologies, with less emphasis on broader mathematical and scientific foundations than a corresponding engineering program. Graduates will have considerably more breadth and depth in their area of technology than graduates of college technology diploma programs. For degree completion programs, a second objective is to provide a path for college diploma graduates to gain an education leading to a university degree. The programs are being offered in two specific configurations:

- **Four-year programs** with direct entry from secondary school leading to a Bachelor of Technology Degree from McMaster and both an Advanced Diploma in Technology and a Business Management Certificate from Mohawk College. The Four-Year Degree Programs are:
 - Automation Engineering Technology Co-op
 - Automotive and Vehicle Engineering Technology Co-op
 - Biotechnology Co-op
- **Degree-completion programs** for graduates of an Advanced Diploma in a Technology program leading to a Bachelor of Technology degree from McMaster and a Business Management Certificate from Mohawk College. The Degree Completion Programs are:
 - Civil Engineering Infrastructure Technology Co-op
 - Manufacturing Engineering Technology Co-op
 - Power and Energy Engineering Technology Co-op
 - Software Engineering Technology Co-op

BREADTH OF LEARNING

B.Tech. graduates will be functioning in an evolving world in which they will play an important role as “evolvers” or change agents. This means that their education cannot just be narrowly focused on technical and management topics but must also enable them to develop important complementary skills, including written and oral communication skills; as well as understanding the relationship between technology and society. The Four-year B.Tech. program has three courses which are designed to develop those unique skills and broaden understanding of the complexities of technological-societal interrelationships.

MANAGEMENT STUDIES

The Degree Completion Program includes a seven-course management studies component, and the Four-Year program has a 13 course management studies component with courses such as: financial systems, entrepreneurial thinking & innovation, project management and strategic management. This convergence of engineering technology and management education enables graduates to ‘hit the ground running’ and make significant contributions within the ever-changing business and technical environments.

CO-OPERATIVE EDUCATION

The successful completion of Co-op work terms is a mandatory component of all B.Tech. degree programs; co-op work terms provide explicit experiential learning which is related to the technologically-oriented careers for which students are being prepared. Testing and enhancing their skills through a co-operative education experience is important in enabling graduates to function effectively in an industrial environment. All Co-op work terms must be completed prior to the start of the final academic term. The co-op component is managed by Engineering Co-op and Career Services.

Four-Year B.Tech. Programs**ACADEMIC REGULATIONS FOR FOUR-YEAR B.TECH. PROGRAMS****STUDENT ACADEMIC RESPONSIBILITY**

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a Four-Year program for the B.Tech. degree, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations.

MINIMUM REQUIREMENTS TO CONTINUE IN A PROGRAM BEYOND LEVEL I

In Level II and above, the student must maintain a Grade Point Average (GPA) of at least 3.5 to continue in the B.Tech. program.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the requirements for the program as outlined in this Calendar. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work are incomplete. Work of a higher level may be undertaken only with the permission of the B.Tech. Academic Advisor, Office of the Associate Dean (Academic).

MINIMUM WORKLOAD

The minimum workload for students registered in Level I of the Bachelor of Technology program is 30 units. The workload for students registered above Level I will range from 30 to 36 units per year and is specified within each academic program.

REINSTATEMENT

A student who is ineligible to continue in a Bachelor of Technology program (*May not continue at university*) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required.

Reinstatement is not guaranteed.

A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average will begin anew. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

TRANSFERS FROM ENGINEERING

Students in good standing in Engineering I can apply to transfer directly to Level I B.Tech. Programs. (Automation Engineering Technology I, Automotive and Vehicle Engineering Technology I, Biotechnology I). Advanced credit will be given for Engineering I courses completed with minimum grade of C- which are equivalent to courses in the Bachelor of Technology program. Students who anticipate making such a transfer should consult with the B.Tech. Academic Advisor, Office of Associate Dean (Academic) at the earliest possible opportunity. Applications for transfer must be submitted to the Academic Advisor (Four-Year Bachelor of Technology Programs) no later than June 15.

REQUIREMENTS FOR ADVANCED MOHAWK DIPLOMA

Students registered in the Four-Year Bachelor of Technology Program may elect to leave the Program upon the successful completion of Level III and 8 months of co-op. Students will be awarded a Mohawk College Advanced Diploma.

STRUCTURE OF THE FOUR-YEAR B.TECH PROGRAM

	Fall (September - December)	Winter (January - April)	Summer (May-August)
Year 1	IA (15 units from Academic Level I)	IB (15 units from Academic Level I)	
Year 2	IIA (18 units from Academic Level II)	IIB (18 units from Academic Level II)	Co-op Work Term 1 ENGTECH 2EEO
Year 3	IIIA (18 units from Academic Level III)	Co-op Work Term 2 ENGTECH 3EEO	Co-op Work Term 3 ENGTECH 4EEO
Year 4	IIIB (18 units from Academic Level III)	IVA (16 units from Academic Level IV)	
Year 5	IVB (18 units from Academic Level IV)		

*Co-op work-term possibilities for the summers in Years 1 and 4 should be discussed with Engineering Co-Op and Career Services.

Degree Completion B.Tech. Programs**ACADEMIC REGULATIONS FOR DEGREE COMPLETION B.TECH. PROGRAMS****STUDENT ACADEMIC RESPONSIBILITY**

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a degree-completion program for the B.Tech. degree, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations.

ADVANCED STANDING

The Bachelor of Technology degree is a 4-year degree program. A minimum of 72 units of work must be completed at McMaster University in order to obtain a Bachelor of Technology degree.

SEQUENCE OF COURSES

Students in the degree completion program may register in any courses in the program for which they have achieved the specified prerequisite requirements.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete.

WORK LOAD

Courses in the degree completion program are only offered on evenings (Monday through Friday) and on Saturdays. Students may elect to register in the program full-time or part-time. Students in these programs are considered to be full-time if registered for 9 units or more in an academic term. Students working full-time should not attempt more than two or three courses per academic term.

REINSTATEMENT

A student who is ineligible to continue in a Bachelor of Technology program (*May not continue at university*) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required. **Reinstatement is not guaranteed.**

A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average will begin anew. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

ADMISSION TO DEGREE COMPLETION PROGRAMS

The minimum academic requirement for admission to the Bachelor of Technology degree completion programs in Power and Energy Engineering Technology, Manufacturing Engineering Technology, and Software Engineering Technology is successful completion of an advanced technology diploma from an Ontario college with a Grade Point Average of 75%.

The minimum academic requirement for admission to the Bachelor of Technology degree completion programs in Civil Engineering Infrastructure Technology is successful completion of an advanced technology diploma from an Ontario college with a Grade Point Average of 80%.

The degree completion programs will accept students with diplomas in a related technology program. Applicants with educational background equivalent to those completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTE

Co-op Education: Students in the degree completion Bachelor of Technology programs who initially registered in a program in September 2006 or later will be required to complete eight months of co-op experience prior to the start of their final academic term. The eight months of co-op experience may be acquired through a combination of two four-month experience terms. These co-op work terms will be waived for diploma graduates whose programs are operated on a co-op basis (which would be the case for Mohawk College diploma graduates) and for diploma graduates who have achieved significant work experience in a related field through the completion of a Prior Learning Assessment conducted by the Engineering Co-op & Career Services Office. As well as completing the academic requirements as specified in this Calendar,

students in co-op must also complete the following courses prior to graduation:

- ENGTECH 1ETO - Introduction to the Technology Co-op Program
- ENGTECH 2ETO - Four Month Co-op Experience I
- ENGTECH 3ETO - Four Month Co-op Experience II

ENGTECH 1ETO must be completed at least one academic term prior to the term in which the first co-op placement is taken.

Bachelor of Technology

AUTOMATION ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION TO LEVEL II

Admission to Level II of the Automation Engineering Technology Program requires completion of Automation Engineering Technology I, including ENGTECH 1AC3 and ENGTECH 1PR3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS

LEVEL II: 36 UNITS

21 units

- PROCTECH 2CA3 - CAD for Design
- PROCTECH 2CE3 - Chemical Engineering I: Mass Balance
- PROCTECH 2EC3 - Chemical Engineering II: Energy Balance
- PROCTECH 2EE3 - Electricity and Electronics II
- PROCTECH 2IC3 - Instrumentation and Control
- PROCTECH 2IO3 - Industrial Organic Chemistry
- PROCTECH 2PL3 - Introduction to PLC Programming

6 units

- ENGTECH 2MA3 - Mathematics III
- ENGTECH 2MT3 - Mathematics IV

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2HR3 - Human Resource Fundamentals
- GENTECH 2MP3 - Management Principles

2 courses

- ENGINEER 1EE0 - Introduction to the Engineering Co-op Program
- ENGTECH 2EE0 - Four Month Co-op Experience I

LEVEL III: 36 UNITS

21 units

- PROCTECH 3CE3 - Chemical Engineering III: Unit and Process Design
- PROCTECH 3CT3 - Control Theory I
- PROCTECH 3MC3 - Motion Control and Robotics
- PROCTECH 3PL3 - Advanced PLC Programming and Control
- PROCTECH 4SS3 - System Specification and Design
- SMRTTECH 3CC3 - Cloud Computing and Internet of Things
- SMRTTECH 3DE3 - Digital Electronics

3 units

- ENGTECH 3ES3 - Engineering Statistics

12 units

- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MB3 - Fundamentals of Marketing
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

LEVEL IV: 34 UNITS

7 units

- PROCTECH 4IT3 - Internet Technologies and Databases
- PROCTECH 4TR1 - Capstone Design Project I
- PROCTECH 4TR3 - Capstone Design Project II

12 units

- GENTECH 4EP3 - Entrepreneurial Thinking and Innovation
- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

3 units

from

- PROCTECH 4MH3 - Machine Health and Remote Monitoring
- SMRTTECH 4HM3 - Human Monitoring and Smart Health Systems

INDUSTRIAL AUTOMATION SYSTEMS STREAM

(See *Note 1* above.)

12 Units

- PROCTECH 4AS3 - Industrial System Components and Integration
- PROCTECH 4CT3 - Advanced Control Theory II
- PROCTECH 4IC3 - Industrial Networks and Controllers
- PROCTECH 4MS3 - Manufacturing Technologies

SMART SYSTEMS STREAM

(See *Note 1* above.)

12 Units

- SMRTTECH 4AI3 - Artificial Intelligence and Machine Learning
- SMRTTECH 4ES3 - Embedded Systems
- SMRTTECH 4ID3 - IoT Devices and Networks
- SMRTTECH 4SC3 - Smart Cities and Communities

AUTOMOTIVE AND VEHICLE ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION TO LEVEL II

Admission to Level II of the Automotive and Vehicle Engineering Technology Program requires completion of Automotive and Vehicle Engineering Technology I, including ENGTECH 1ME3 and ENGTECH 1PR3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS

LEVEL II: 36 UNITS

15 units

- AUTOTECH 2AC3 - Advanced CAD
- AUTOTECH 2AE3 - Design of Machine Elements
- AUTOTECH 2CD3 - Computer Aided Design
- AUTOTECH 2MT3 - Structure and Properties of Materials
- AUTOTECH 2TS3 - Thermodynamics and Heat Transfer

12 units

- ENGTECH 2ES3 - Engineering Statistics
- ENGTECH 2MA3 - Mathematics III
- ENGTECH 2MS3 - Modelling and Numerical Solutions
- ENGTECH 2MT3 - Mathematics IV

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2HR3 - Human Resource Fundamentals
- GENTECH 2MP3 - Management Principles

2 courses

- ENGINEER 1EE0 - Introduction to the Engineering Co-op Program

- ENGTECH 2EE0 - Four Month Co-op Experience I

LEVEL III: 36 UNITS21 units

- AUTOTECH 3AE3 - Automotive Engineering Technology
- AUTOTECH 3AV3 - Electric and Hybrid Vehicles
- AUTOTECH 3CT3 - Control Theory
- AUTOTECH 3MP3 - Manufacturing Processes and Systems
- AUTOTECH 3MV3 - Mechatronics
- AUTOTECH 3TS3 - Fluid Mechanics
- AUTOTECH 3VD3 - Mechanical Vibrations

3 units

- ENGTECH 3FE3 - Finite Element Analysis

12 units

- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MB3 - Fundamentals of Marketing
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

LEVEL IV: 34 UNITS16 units

- AUTOTECH 4CI3 - Robotics and Computer Integrated Manufacturing
- AUTOTECH 4DV3 - Vehicle Dynamics
- AUTOTECH 4EC3 - Electrical and Electronics Control Systems
- AUTOTECH 4MS3 - Kinematic and Dynamic Modelling and Simulation
- AUTOTECH 4TR1 - Capstone Design I
- AUTOTECH 4TR3 - Capstone Design II

12 units

- GENTECH 4EP3 - Entrepreneurial Thinking and Innovation
- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

6 units from

- AUTOTECH 4AE3 - Internal Combustion Engines
- AUTOTECH 4AT3 - Conceptual Design of Electric and Hybrid Vehicles
- MANTECH 4AI3 - Artificial Intelligence
- MANTECH 4MM3 - Design and Manufacturing of Machine Elements
- PROCTECH 4MH3 - Machine Health and Remote Monitoring
- SFWRTECH 4AI3 - Artificial Intelligence

BIOTECHNOLOGY CO-OP (B.TECH.)**ADMISSION TO LEVEL II**

Admission to Level II of the Biotechnology Program requires completion of Biotechnology I, including ENGTECH 1AC3 and ENGTECH 1BI3 with a minimum Grade Point Average (GPA) of 3.5.

NOTE

Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

REQUIREMENTS**LEVEL II: 36 UNITS**24 units

- BIOTECH 2B03 - Biotechnology Concepts
- BIOTECH 2BC3 - Biochemistry
- BIOTECH 2CB3 - Cell Biology
- BIOTECH 2EC3 - Chemical Engineering Concepts
- BIOTECH 2GT3 - Genetics
- BIOTECH 2MB3 - Microbiology

- BIOTECH 2M03 - Molecular Biology
- BIOTECH 2OC3 - Organic Chemistry

3 units

- ENGTECH 2MA3 - Mathematics III

9 units

- GENTECH 2EE3 - Engineering Economics
- GENTECH 2HR3 - Human Resource Fundamentals
- GENTECH 2MP3 - Management Principles

2 courses

- ENGINEER 1EE0 - Introduction to the Engineering Co-op Program
- ENGTECH 2EE0 - Four Month Co-op Experience I

LEVEL III: 36 UNITS18 units

- BIOTECH 3BC3 - Bioprocess Control and Dynamics
- BIOTECH 3B03 - Industrial Biotechnology
- BIOTECH 3BP3 - Bioreactor Processes and Design
- BIOTECH 3FM3 - Food Microbiology
- BIOTECH 3IV3 - Immunology and Virology
- BIOTECH 3PM3 - Pharmacology

3 units

- ENGTECH 3ES3 - Engineering Statistics

3 units from

- BIOTECH 3CM3 - Computational Modeling of Biological Systems
- MANTECH 4AI3 - Artificial Intelligence
- SFWRTECH 4AI3 - Artificial Intelligence
- SFWRTECH 4DA3 - Data Analytics and Big Data

12 units

- GENTECH 3FF3 - Financial Systems
- GENTECH 3LS3 - Quality Control and Assurance Methods
- GENTECH 3MB3 - Fundamentals of Marketing
- GENTECH 3MT3 - Project Management

2 courses

- ENGTECH 3EE0 - Four Month Co-op Experience II
- ENGTECH 4EE0 - Four Month Co-op Experience III

LEVEL IV: 34 UNITS22 units

- BIOTECH 4BI3 - Bioinformatics
- BIOTECH 4BL3 - Biomaterials and Biocompatibility
- BIOTECH 4BM3 - Biopharmaceuticals
- BIOTECH 4BS3 - Biotechnology Regulations
- BIOTECH 4GP3 - Genomics and Proteomics
- BIOTECH 4TB3 - Advanced Biotechnology
- BIOTECH 4TR1 - Capstone Project I
- BIOTECH 4TR3 - Capstone Project II

12 units

- GENTECH 4EP3 - Entrepreneurial Thinking and Innovation
- GENTECH 4FT3 - Strategic Management
- GENTECH 4OM3 - Operations Management
- GENTECH 4TE3 - Technology Ethics and Sustainability

CIVIL ENGINEERING INFRASTRUCTURE TECHNOLOGY CO-OP (B.TECH.)**ADMISSION**

Admission requires satisfactory completion of an advanced technology diploma in one of Architectural Engineering Technology, Civil Engineering Technology or Construction Engineering Technology. Applicants with educational backgrounds equivalent to those completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit

an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. WHMIS 1A00 must be completed in the first term of the program.
2. Students may complete Level III or Level IV courses in any order, provided they meet the specific course prerequisites.

INFRASTRUCTURE ELECTIVES COURSE LIST A

- CIVTECH 3PM3 - Highway Design, Construction, and Maintenance
- CIVTECH 3TP3 - Transportation Planning and Modelling
- CIVTECH 4LU3 - Advanced Land Use Planning
- CIVTECH 4WT3 - Municipal and Environmental Engineering
- ENGTECH 4FA3 - Finite Element Analysis

INFRASTRUCTURE ELECTIVES COURSE LIST B

- CIVTECH 4BC3 - Building Science
- CIVTECH 4BD3 - Bridge Design, Maintenance and Repair
- CIVTECH 4UM3 - Asset Management

REQUIREMENTS

LEVEL III: 36 UNITS

24 units

- CIVTECH 3GE3 - Geotechnical Materials and Analysis
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3ML3 - Strength of Materials
- ENGTECH 3SD3 - Statics and Dynamics
- ENGTECH 3SP3 - Structure and Properties of Materials
- ENGTECH 3ST3 - Probability and Statistics
- ENGTECH 4MA3 - Advanced Mathematics
- ENGTECH 4TF3 - Mechanics of Fluids

12 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles
- GENTECH 4SE3 - Technology Ethics and Sustainability

1 course

- WHMIS 1A00 - Introduction to Health and Safety (See *Note 2* above.)

LEVEL IV: 36 UNITS

18 units

- CIVTECH 3GT3 - Geotechnical Design
- CIVTECH 3SA3 - Structural Analysis
- CIVTECH 4MH3 - Hydraulic Engineering
- CIVTECH 4RC3 - Reinforced Concrete and Masonry Design
- CIVTECH 4SD3 - Structural Steel Design
- ENGTECH 4ED3 - Senior Engineering Design Project

3 units

- GENTECH 4PM3 - Project Management

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management
- GENTECH 4TC3 - Technical Communications

6 units

- from *Infrastructure Electives Course List A*

3 units

- from *Infrastructure Electives Course List B* or an approved ENRTECH, MANTECH, or SFWRTECH course

MANUFACTURING ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

Manufacturing Engineering Technology is open to graduates of an advanced technology diploma in one of Mechanical Engineering, Chemical Engineering Technology, Electro-Mechanical Engineering Technology and Manufacturing Engineering Technology. Applicants with educational backgrounds equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTE

WHMIS 1A00 must be taken in the first term of the program.

REQUIREMENTS

LEVEL III: 36 UNITS

15 units

- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3ML3 - Strength of Materials
- ENGTECH 3SP3 - Structure and Properties of Materials
- MANTECH 3LS3 - Quality Control and Assurance Methods
- ENGTECH 4CT3 - Systems and Control

3 units

- ENGTECH 4MA3 - Advanced Mathematics

9 units

- ENGTECH 3SD3 - Statics and Dynamics
- ENGTECH 3TD3 - Thermodynamics
- MANTECH 3MF3 - Micro Manufacturing and Fabrication

9 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety

(See *Note* above.)

LEVEL IV: 36 UNITS

24 units

- ENGTECH 4FA3 - Finite Element Analysis
- ENGTECH 4TF3 - Mechanics of Fluids
- MANTECH 4AI3 - Artificial Intelligence
- MANTECH 4DA3 - Design and Advanced Manufacturing
- MANTECH 4FM3 - CIM and Flexible Manufacturing
- MANTECH 4MM3 - Design and Manufacturing of Machine Elements
- MANTECH 4PM3 - Production Management
- MANTECH 4RM3 - Robot Mechanics and Mechatronics

6 units

- GENTECH 4PM3 - Project Management
- GENTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 4LM3 - Lean Thinking and Practices
- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management
- GENTECH 4TC3 - Technical Communications

POWER AND ENERGY ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

The degree completion programs in Power and Energy Engineering Technology will accept graduates in one of Mechanical Engineering Technology, Electrical Engineering Technology, Electronics Engineering Technology, or Electro-Mechanical Engineering Technology. Graduates from Ontario university engineering programs who seek to develop careers in the power and energy technology sectors will also be accepted. Applicants with educational backgrounds at least equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. WHMIS 1A00 be completed in the first term of the program.

REQUIREMENTS

LEVEL III: 36 UNITS

27 units

- ENRTECH 3EP3 - Power Systems and Electrical Machines
- ENRTECH 3IE3 - Industrial Electronics
- ENRTECH 3IN3 - Industrial Networks and Communication Systems
- ENRTECH 3MI3 - Measurements and Instrumentation
- ENRTECH 3PD3 - Power Distribution I
- ENGTECH 3MA3 - Mathematics V
- ENGTECH 3TD3 - Thermodynamics
- ENGTECH 4MA3 - Advanced Mathematics
- ENGTECH 4TF3 - Mechanics of Fluids

9 units

- GENTECH 3EE3 - Engineering Economics
- GENTECH 3FS3 - Financial Systems
- GENTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety

(See *Note 3* above.)

LEVEL IV: 36 UNITS

18 units

- ENGTECH 4CT3 - Systems and Control
- ENGTECH 4EP3 - Senior Engineering Project
- ENRTECH 4PD3 - Power System Analysis and Control
- ENRTECH 4PM3 - Power Protection and Maintenance I
- ENRTECH 4PP3 - Power Protection and Maintenance II
- ENRTECH 4RG3 - Renewable Generation

6 units

from

- ENRTECH 4CA3 - Computer Applications in Power System Engineering
- ENRTECH 4EM3 - Transmission Lines and Electromagnetics
- ENRTECH 4PQ3 - Power Quality

6 units

- GENTECH 4PM3 - Project Management
- GENTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- GENTECH 3DM3 - Creativity, Innovation and Technology
- GENTECH 4EM3 - Legal and Regulatory Issues
- GENTECH 4EN3 - Entrepreneurial Thinking and Innovation
- GENTECH 4LM3 - Lean Thinking and Practices

- GENTECH 4MK3 - Fundamentals of Marketing
- GENTECH 4SF3 - Strategic Management
- GENTECH 4ST3 - Contemporary Issues in Management
- GENTECH 4TC3 - Technical Communications

SOFTWARE ENGINEERING TECHNOLOGY CO-OP (B.TECH.)

ADMISSION

Admission requires satisfactory completion of an advanced technology diploma in one of Computer Engineering Technology, Computer Systems Technology, Software or Networking, or Computer Programmer/Analyst. Applicants with educational backgrounds equivalent to those applicants completing Ontario college diplomas (i.e. overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: https://www.eng.mcmaster.ca/sites/default/files/uploads/booth/real_supplementary_form.pdf

NOTES

1. Software Engineering diploma graduates must complete SFWRTECH 3IT3.
2. Network Engineering Security Analyst diploma graduates must complete SFWRTECH 3PR3.
3. WHMIS 1A00 must be completed in the first term of the program.

REQUIREMENTS

LEVEL III: 36 UNITS

3 units

from

- SFWRTECH 3IT3 - Fundamentals of Networking
- SFWRTECH 3PR3 - Procedural and Object Oriented Programming Concepts

(See *Notes 1* and *2* above.)

15 units

- SFWRTECH 3CS3 - Computer Security
- SFWRTECH 3OS3 - Operating Systems
- SFWRTECH 3RQ3 - Software Requirements and Specification
- SFWRTECH 4DS3 - Data Structures and Algorithms
- SFWRTECH 4NS3 - Advanced Network Security

9 units

- ENGTECH 3DM3 - Discrete Mathematics
- SFWRTECH 3MA3 - Contemporary Math for Software Development
- SFWRTECH 3ST3 - Probability and Statistics

9 units

- SFGNTECH 3EE3 - Engineering Economics
- SFGNTECH 3FS3 - Financial Systems
- SFGNTECH 3MP3 - Management Principles

1 course

- WHMIS 1A00 - Introduction to Health and Safety

(See *Note 3* above.)

LEVEL IV: 36 UNITS

18 units

- ENGTECH 4FD3 - Senior Engineering Project
- SFWRTECH 4CC3 - Parallel Programming
- SFWRTECH 4DA3 - Data Analytics and Big Data
- SFWRTECH 4DM3 - Data Mining
- SFWRTECH 4ES3 - Real-Time Systems
- SFWRTECH 4MA3 - Numerical Linear Algebra and Numerical Optimization

6 units

from

- SFWRTECH 4AI3 - Artificial Intelligence
- SFWRTECH 4CG3 - Computer Graphics

- SFWRTECH 4NN3 - Neural Networks and Deep Learning
- SFWRTECH 4SA3 - Software Architecture
- SFWRTECH 4VE3 - Visual Effects and Technology for Animated Production
- SFWRTECH 4WP3 - Advanced Web Programming

6 units

- SFGNTECH 4PM3 - Project Management
- SFGNTECH 4SE3 - Technology Ethics and Sustainability

6 units

from

- SFGNTECH 3DM3 - Creativity, Innovation and Technology
- SFGNTECH 4EM3 - Legal and Regulatory Issues
- SFGNTECH 4EN3 - Entrepreneurial Thinking and Innovation
- SFGNTECH 4LM3 - Lean Thinking and Practices
- SFGNTECH 4MK3 - Fundamentals of Marketing
- SFGNTECH 4SF3 - Strategic Management
- SFGNTECH 4ST3 - Contemporary Issues in Management
- SFGNTECH 4TC3 - Technical Communications

OVERVIEW

The concept of Health Sciences Education is based on the view that health is a broad subject encompassing both the problems of ill health and the impact of biology, environment and lifestyle on health. Each health sciences program has specific educational requirements, but by learning together in shared facilities there exists an opportunity to establish effective interprofessional working relationships.

The programs in the Faculty attempt to meet these goals through a variety of learning approaches. Emphasis is placed on problem-based, small group learning experiences and inquiry. Other approaches to learning, including interdisciplinary educational experiences, are used where appropriate. In July 1974, the School of Nursing and the School of Medicine were brought together to form the Faculty of Health Sciences. In 1989, the School of Occupational Therapy and Physiotherapy (School of Rehabilitation Science) was added and in 1993 the Midwifery Education Program was established. A further innovation was the implementation of the Bachelor of Health Sciences Program in 2000, followed by the establishment of the Bachelor of Health Sciences (Physician Assistant) in 2008. The Faculty introduced in 2014, the Biomedical Discovery and Commercialization Program, which has an optional fifth-year Masters degree component beyond the Bachelor's degree. The Faculty of Health Sciences joined with the Faculty of Engineering in 2017 to jointly offer the Integrated Biomedical Engineering and Health Sciences Program (IBEHS) which lead to a B.Eng.BME, or a B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) degree. In 2019, the Honours Biology and Pharmacology Co-Op transferred to the Faculty of Health Sciences from the Faculty of Science. The Faculty offers the following undergraduate degree programs: Doctor of Medicine (MD), Bachelor of Science in Nursing (B.Sc.N.), Bachelor of Health Sciences (Honours) (B.H.Sc. Honours) with specializations available in Biomedical Sciences and Child Health, Bachelor of Health Sciences in Midwifery (B.H.Sc.), Bachelor of Health Sciences in Physician Assistant (B.H.Sc.), Bachelor of Health Sciences (Honours) in

Biomedical Discovery and Commercialization (B.H.Sc. Honours) and most recently the Honours Biology and Pharmacology Co-Op Program (B.H.Sc. Honours).

In addition to its undergraduate programs, the Faculty of Health Sciences also has responsibility for Residency Programs in Postgraduate Medical Education. The Clinician Investigator Program (CIP) allows Residents in the Royal College of Physician and Surgeons of Canada (RCPSC) specialty or subspecialty program to do research as a key component of their medical career. The CIP at McMaster University is one of the largest Clinical Investigator Training Programs in Canada.

The University offers eight distinct research-oriented graduate programs in Health Sciences. Both Masters and Ph.D. programs are offered in: Biochemistry and Biomedical Sciences, Biomedical Engineering, Chemical Biology, Health Research Methodology, Medical Sciences, Neurosciences, Nursing and Rehabilitation Sciences. Masters degrees are offered in: Biomedical Discovery and Commercialization, Child Life and Pediatric Psychosocial Care, eHealth, Global Health, Health Science Education, Occupational Therapy, Physiotherapy, Public Health and Speech-Language Pathology. A Ph.D. is also available in Health Policy.

The Faculty of Health Sciences developed the MD/PhD Program to bridge the gap between medical sciences and clinical application and train the future leaders of healthcare. The program is uniquely structured to allow optimal integration of medical education and research training that starts on the first day and extends throughout this 7 year program.

The Faculty of Health Sciences collaborates with the Division of Health Sciences at Mohawk College in educational programs for other health professions based at the College. Research programs encompassing the broad spectrum of health have been established, including basic and applied research and various aspects of health-care delivery. The graduate programs in medical sciences are related to the various areas of health research.

The Health Sciences Centre at McMaster provides educational and research facilities for medicine, nursing and other health professions. It includes a teaching hospital (the McMaster Site of Hamilton Health Sciences) with extensive ambulatory clinics for primary and specialized aspects of patient care. The building has been designed to bring into close proximity the programs for the various health professions and to integrate the facilities for education, research and patient care in the Faculty of Health Sciences.

In addition to the Health Sciences Centre, education, research and clinical programs are based at other Hamilton Health Sciences sites (Chedoke, General, Juravinski), St. Joseph's Centre for Mountain Health Services, St. Joseph's Hospital, St. Peter's Hospital, Juravinski Cancer Centre and the Health Sciences Education Centre, Mohawk College. Extensive use is made of a variety of community agencies. In accordance with the plan to coordinate the development of specialized health services among the Hamilton and District hospitals, the Postgraduate Education programs in medicine have been developed on a regional basis.

Undergraduate Health Sciences Education Programs

ADMISSION AND REGISTRATION

Application to any program in the Faculty of Health Sciences implies acceptance on the part of the applicant of the admission policies and procedures, and the methods by which applicants are chosen for the Health Sciences programs.

Registration in any program in the Faculty of Health Sciences implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated.

The following describes the regulations governing admission and registration in the Health Sciences programs, and should be considered in conjunction with specific admission requirements described on the following pages for: the

Bachelor of Health Sciences (Honours) program (B.H.Sc. Honours), Bachelor of Health Sciences in Biochemistry (Honours) programs (B.H.Sc. Honours), Bachelor of Health Sciences in Biomedical Discovery and Commercialization (Honours) program (B.H.Sc. Honours), Bachelor of Health Sciences in Health, Engineering Sciences and Entrepreneurship Specialization (Honours) in the Integrated Biomedical Engineering and Health Sciences program (B.H.Sc. Honours), Honours Biology and Pharmacology Co-Op Program (B.H.Sc.), School of Medicine (MD), Bachelor of Health Sciences, Midwifery Education program (B.H.Sc.), Bachelor of Science, Nursing (B.Sc.N.) and the Physician Assistant Education program (B.H.Sc.). The following application deadlines are strictly enforced. Deadline dates re for consideration of admission to a program in the following September.

PROGRAM		DEADLINE
Bachelor of Health Sciences (Honours)		
(B.H.Sc. Honours) Level I		Mid-February (Supplementary Application deadline)- Details at bhsc.mcmaster.ca
(B.H.Sc. Honours) Level II transfer		Early May (Supplementary Application deadline)- Details at bhsc.mcmaster.ca
Bachelor of Health Sciences in Biochemistry Programs (B.H.Sc. (Honours))		
Honours Biochemistry Level II		Late April - Details at science.mcmaster.ca/associatedean
Honours Biochemistry - Biomedical Research Specialization Level III		Mid April (Supplementary Application Deadline)- Details at healthsci.mcmaster.ca/biochem
Honours Biochemistry - Biomedical Research Specialization Co-op Level III		January 24
Bachelor of Health Sciences in Biomedical Discovery and Commercialization (B.H.Sc. (Honours))		
Current McMaster students		February 1 (Supplementary application deadline - details at bdcprogram.mcmaster.ca/apply/)
External students		February 1 (OUAC and supplementary application deadline - details at bdcprogram.mcmaster.ca/apply/)
Integrated Biomedical Engineering and Health Sciences (IBEHS) (B.Eng.BME or B.H.Sc.(Honours))		
IBEHS Level I		January 15
Supplemental Application		January 31
IBEHS Level II specialization transfer		Details online at ibiomed.mcmaster.ca
Honours Biology and Pharmacology Co-Op Program (B.H.Sc. Honours)		
Current McMaster Students		January 24
External Students		January 24
Medicine (MD)		
Final application deadline		October 1
Midwifery (B.H.Sc.)		
Nursing (B.Sc.N.)		

Applicants directly from Ontario Secondary Schools	January 15
Applicants to Accelerated	February 1
Applicants with Other Qualifications	February 1
Physician Assistant (B.H.Sc.)	February 1

The University reserves the right to change the admission requirements at any time without notice.

As places in the degree programs of the Faculty of Health Sciences are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission. The University, therefore, reserves the right to grant admission to a limited number of students, and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.

An evaluation of Unsatisfactory in the School of Medicine signifies that the student has failed to meet these objectives and the University may require the student to withdraw from the School at any time.

The University reserves the right to require the withdrawal of a student should his or her conduct so warrant.

FALSIFICATION OF ADMISSION INFORMATION

An applicant supplying documentation or evidence which, at the time, or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the program having submitted false evidence will be withdrawn.

HEALTH SCREENING RECORD FOR ADMISSION

Before registering in a clinically based program, students must submit a McMaster Faculty of Health Sciences Health Screening Record. This form details a student's immunization history and tuberculosis (TB) screening. It must be completed by a health care professional and submitted before the submission deadline. More detailed information will be provided upon acceptance into the program or visit <https://fhs.mcmaster.ca/healthscreening/index.html>.

POLICE RECORDS CHECK

Incoming students must provide an original Police Records Check, including Vulnerable Sector Screening (VSS). International or Visa students are required to provide an original Police Certificate from each country or territory they have resided for more than six months consecutively for the past five years. More detailed information will be provided upon acceptance into the program or visit https://fhs.mcmaster.ca/pcbe/police_records_check.html.

CLINICAL COURSE REQUIREMENTS

Where the performance of the student in clinical practice may jeopardize or endanger the welfare of the patient or the patient's family, the student may be removed from clinical experience any time during the academic year, until continuation in the course is reviewed.

INFORMATION AND ACADEMIC COUNSELING

In certain programs, a faculty member is selected for each student in the September of entry to a degree program and provides each student with advice on evaluations, electives and other educational needs throughout the program. Changes in advisors may be entertained as each student becomes acquainted with Faculty well enough to choose his or her own advisor. The academic advisory role for B.Sc.N. students is fulfilled by the Coordinator of Studies (Nursing). Students are also encouraged to consult individual faculty members regarding career planning.

TRANSPORTATION

Students are responsible for expenses involved in transporting themselves to community agencies, making home visits, or in connection with clinical study.

LICENSE TO PRACTICE

All graduates who wish to engage in clinical practice in any of medicine, midwifery, nursing, occupational therapy and physiotherapy are subject to any qualifying examinations and other requirements by the licensing bodies for each of these professions. In addition students should be aware that a license may be denied if they have been convicted of a criminal offence for which a pardon has not been granted. A student in such a position should consult the respective licensing body about such a situation.

TRANSFERRING TO GRADUATE WITH A THREE-YEAR B.H.SC. DEGREE FROM THE BACHELOR OF HEALTH SCIENCES (HONOURS) PROGRAM, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) STREAM OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of Level III of the Bachelor of Health Sciences (Honours) Program, Engineering Science and Entrepreneurship (HESE) stream of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Integrated Biomedical Engineering and Health Sciences office for transfer to graduate with the B.H.Sc. (exit) degree.

Occupational Therapy Examination and Practice Preparation Project (OTepp)

The OTepp Certificate Program, in partnership with the Canadian Association of Occupational Therapists (CAOT), aims to assist re-entry and internationally educated occupational therapists meet their learning needs in order to successfully transition into Canadian practice.

For students who are unable to join the online class in real time, the sessions are recorded and archived, and can be viewed at the student's convenience. This is an intense study experience where students are expected to complete readings in preparation for two 3 hour classes each week. Students who successfully complete the first four academic courses may engage in an eight-week practicum, supervised by a registered occupational therapist. Students who complete the entire program are awarded an undergraduate certificate from McMaster University. More information is available at <http://www.otepp.ca/>.

Bachelor of Health Sciences (Honours) Program

Michael G. DeGroote Centre for Learning and Discovery, Room 3300, ext. 22815

ASSISTANT DEAN, BACHELOR OF HEALTH SCIENCES (HONOURS)

S.A. Ritz, B.Sc. (Hons), M.Ed., Ph.D.

PROGRAM MANAGER

T. M. Basilio

Program Overview

This program, first offered in September 2000, is an innovative interdisciplinary program in which students take responsibility for their learning and in which there is recognition that both the knowledge and skill sets developed by students are integral parts of preparing for either further study or entry into the workforce. The principles of independent learning and an emphasis on both content and process are central to the provision of education within the Faculty of Health Sciences, and are reflected in this program. In addition, this program reflects the established tradition within the Faculty of understanding health from biological, behavioural and population-based perspectives. The

program will draw on individuals from within the Faculty of Health Sciences and the larger university community to provide students with exposure to basic and applied researchers as well as health care practitioners, enabling students to learn about and experience the study of health from these various perspectives. The program will utilize both a small group, inquiry-based format as well as traditional lecture, lab, and tutorial based teaching formats to provide students with a solid knowledge base in health-related sciences as well as the skills necessary to critically evaluate and synthesize health-related information.

The program is designed to emphasize flexibility, recognizing that students may use this program to prepare for a variety of post-graduate options including graduate work in medical sciences, professional schools and entry into the workforce. Beyond the first year, students may select to focus on one perspective of health and develop relative expertise in this area, while other students may find that their needs are better met by pursuing a broader-based program of study through their senior years.

The program begins in Level I and leads to the degree Bachelor of Health Sciences (Honours) upon successful completion of Level IV. The four-level program offers the opportunity for specialization and focus areas through electives and through individual study or thesis courses.

SPECIALIZATIONS AND FOCUS AREAS

The B.H.Sc. (Honours) Program offers a number of options to allow students to pursue a focused area of study on a particular topic. At the present time, we are offering a specialization for entry in Level II in Child Health. Two concurrent certificate programs are available in Biomedical Sciences and Immunology, Microbiology & Virology. As well, the Global Health curriculum is part of the Interdisciplinary Minor in Globalization Studies. Specialization and focus area offerings are reviewed regularly to ensure the student and program needs continue to be met, and may be revised or phased out.

CONCURRENT CERTIFICATE IN BIOMEDICAL SCIENCES

Students in any program may complete a Concurrent Certificate in Biomedical Sciences, which will provide students with the option of concentrating their studies in biomedical science and research, building on the existing principles of excellence in the B.H.Sc. (Honours) program by addressing fundamental concepts and opportunities to develop knowledge and skills appropriate for biomedical research. This course of study will emphasize content in the biomedical sciences, along with the development of essential skills in problem-solving, critical thinking, scientific reasoning and logic, experimental design, and working independently and in teams. These transferable skills and principles in biomedical sciences will prepare students for a future in graduate-level research, industry, or professional school. Undergraduate degree students in any program may declare the Biomedical Sciences Certificate at the time of graduation provided that they have completed the course requirements. Course requirements and details are available in the *Certificate and Diploma Programs* section of the Calendar.

CONCURRENT CERTIFICATE IN IMMUNOLOGY, MICROBIOLOGY, & VIROLOGY

Students in any program may complete a Concurrent Certificate in Immunology, Microbiology, & Virology (IMV), which will provide students with the option of concentrating their studies in these fields. Building on existing strengths of the B.H.Sc. (Honours) Program and expertise in the Faculties of Health Sciences, Science, and Engineering, this course of study will give students a solid grounding in the function of the mammalian immune system, the classification and life cycle of various microbes, and the mechanisms of host defense. Undergraduate degree students in any program may declare the IMV Certificate at the time of graduation provided that they have completed the course requirements. Course requirements and details are available in the *Certificate and Diploma Programs* section of the Calendar.

GLOBAL HEALTH

Understanding the complex web of relationships and interactions in global health requires an interdisciplinary academic experience. The curriculum in global health in the Bachelor of Health Sciences (Honours) Program provides students with an environment that incorporates insight from the traditional academic fields of anthropology, philosophy, ethics and law, while drawing heavily on the expertise present within the Faculty of Health Sciences in the domains of biostatistics & epidemiology, health economics & policy, molecular medicine & pathology, and health research methodology while simultaneously exploring personal developmental and an academic skill set necessary for the role as contributors to global health issues. Students interested in focusing their studies around Global Health topics can pursue global health curriculum as part of the Interdisciplinary Minor in Globalization Studies, choosing courses from the theme list in Globalization & Health.

CHILD HEALTH SPECIALIZATION

The Child Health Specialization offers students a unique opportunity to apply the Inquiry problem-based learning model within the dynamic context of child health, development and community involvement.

The Child Health Specialization curriculum based on three thematic pillars - education, research, and experiential/community learning - cuts across academic disciplines related to child health such as paediatrics, psychiatry, psychology, social work, developmental rehabilitation, education, etc. The Child Health Specialization utilizes existing expertise within the McMaster University and Hamilton communities; by doing so it allows for the integration of theory and knowledge with experiential learning and research skill development within the challenging context of child health. World-renowned teachers/facilitators, researchers and clinicians from across disciplines serve as supervisors/mentors for students with an interest in child health. Upon acceptance into the B.H.Sc. (Honours) program and the completion of Level I, students will apply to this specialization in March.

PROGRAM GOALS

The overall goal of the program is to educate students in such a way that upon graduation students have a firm foundation in the health sciences, and the skills necessary to learn and adapt in subsequent educational or occupational environments.

KNOWLEDGE

To acquire a broad knowledge base that reflects the Faculty's commitment to studying health from biological, behavioural and population-based perspectives. This should include an understanding of the structure, function and behaviour of the human body, the environmental determinants of health and the ways that these factors interact to result in disease or illness.

SKILLS

To acquire and apply the following skills as a student and member of society:

1. Self-directed learning skills: The ability to identify gaps in one's own knowledge that prevent solving a problem, to formulate a plan that uses appropriate educational resources, and to obtain and synthesize the information needed to solve that problem.
2. Critical thinking skills: The ability to evaluate the merit of information obtained in various ways and to present information in a way that shows evidence of a critical, reflective approach to information and problems.
3. Synthesizing skills: The ability to understand that most problems can be analyzed from a number of perspectives, to identify these perspectives and to formulate solutions that are comprehensive and adequate reflections of various levels of analysis.
4. Communication skills: The ability to communicate an issue in oral and written form, both effectively and concisely.

PERSONAL QUALITIES

Individuals who successfully complete this program should be prepared to accept responsibility for a life-long process of learning and personal and professional growth. They should respect the various approaches to the study of health, and the beliefs associated with these studies, and should be open to

new ways of learning and understanding. They should understand that health is a multi-faceted discipline requiring collaboration and be capable of working collegially with others, while being prepared to contribute to the well-being of those around them.

Admission Procedures and Requirements

Please note that the admission policy may be reviewed annually and the admission requirements may be changed in future years. As places in this program are limited, the admission process is competitive. Possession of the minimum requirements does not guarantee admission to the program. Application to the B.H.Sc. (Honours) Program of the Faculty of Health Sciences implies acceptance of the admission policies, procedures and methods by which applicants are chosen.

ADMISSION PROCEDURES

APPLICANTS FROM ONTARIO SECONDARY SCHOOLS

Applicants currently completing Grade 12 U or M courses apply through the:

Ontario Universities' Application Centre (OUAC)

170 Research Lane

Guelph, ON, N1G 5E2

www.ouac.on.ca

Applicants to BHSc (Honours) Level 1 must apply to OUAC by the specified deadline date. Secondary schools will forward mid-term and final transcripts directly to OUAC in support of applications.

Applicants are required to complete a mandatory Supplementary Application Form online by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

APPLICANTS WITH QUALIFICATIONS EQUIVALENT TO ONTARIO SECONDARY SCHOOL

Applicants from other provinces should contact the Ontario Universities' Application Centre (OUAC) for an application package for admission consideration. Please refer to the OUAC address above. Applicants must also have their official transcripts forwarded to:

Office of the Registrar, Admissions

McMaster University Gilmour Hall Room 108

1280 Main Street West

Hamilton, Ontario, L8S 4L8

Applicants are also required to complete a mandatory Supplementary Application Form online by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Applicants from other countries should contact the Office of International Affairs at www.mcmaster.ca/oia or (905) 525-9140, ext 24211 for details.

TRANSFER APPLICANTS

Transfer applicants from McMaster University are required to complete a Program Application for Current Level I Students on-line via MOSAIC during March to April and a mandatory Supplementary Application online by the specified deadline date. Level 2 transfer applicants must apply for BHSc (Honours) in MOSAIC, **not** a sub-plan (for example; specialization). Applicants who apply for a sub-plan will not be reviewed for BHSc (Honours) and will be considered ineligible for this program. Applicants who receive and accept the admission offer to B.H.Sc. (Honours) and express their interest in the Child Health Specialization may be considered if they are eligible and if space permits. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

Applicants from other post-secondary institutions are required to apply through the *Ontario Universities' Application Centre (OUAC)* (please refer to the OUAC address above) by April 1st and complete a mandatory Supplementary Application by the specified deadline date. Supplementary Application details will be posted on the program website at: bhsc.mcmaster.ca.

SECOND DEGREE APPLICANTS

Applicants who have completed a University undergraduate degree or have completed more than one year or the equivalent of University undergraduate studies are ineligible to apply to the B.H.Sc. (Honours) Program. This restriction does not apply for those applying through the Facilitated Indigenous Admission Process.

CONCURRENT CERTIFICATE IN BIOMEDICAL SCIENCES

Students in any Undergraduate degree program who are interested in this certificate may declare it at the time of graduation provided they have completed the course requirements, as outlined in the Certificate and Diploma Programs section of the Calendar.

CONCURRENT CERTIFICATE IN IMMUNOLOGY, MICROBIOLOGY, & VIROLOGY

Students in any Undergraduate degree program who are interested in this certificate may declare it at the time of graduation provided they have completed the course requirements as outlined in the Certificate and Diploma Programs section of the Calendar.

GLOBAL HEALTH

The Global Health Specialization has been restructured in collaboration with the Interdisciplinary Minor in Globalization Studies to create a theme in Globalization & Health. Students interested in pursuing a focus in global health can pursue the Interdisciplinary Minor in Globalization Studies with a focus on globalization and health.

CHILD HEALTH SPECIALIZATION

Students registered in Health Sciences I who are interested in this specialization will apply during March to April via MOSAIC by completing the Program Application for Current Level I Students. Applicants may be asked to submit a statement of interest and may be interviewed. Enrolment is limited to approximately 30 students entering in Level II.

FACILITATED INDIGENOUS APPLICATION PROCESS (FIAP)

With an understanding that Indigenous learners can face specific barriers or challenges when pursuing higher education, schools and programs within McMaster's Faculty of Health Sciences

have facilitated admissions streams for applicants with Indigenous North American (First Nations, Inuit or Métis) ancestry. This process is intended to provide equitable access to Indigenous applicants and aligns with the intent of the Truth and Reconciliation Commission of Canada Calls to Action. Applicants wishing to apply to the BHSc (Honours) Program using McMaster's FIAP need to complete the self-identification application in addition to McMaster University and program-specific application processes. The FIAP self-identification application is submitted to McMaster's Indigenous Health Task Force (IHTF) through the online application housed on the ISHS Office website <https://ishs.mcmaster.ca/indigenous-health-task-force>. Incomplete applications past the program(s) admission deadline will not be considered. Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates.

EQUITABLE ADMISSIONS FOR BLACK APPLICANTS (EABA) PROCESS

The EABA process aims to reduce barriers that may discourage Black-identified applicants from applying to the BHSc (Hons) Program, and to enhance accessibility and inclusiveness for Black-identified learners. Applicants who wish to be considered for admission to the BHSc (Hons) Program using the EABA process need to apply for admission to the BHSc (Hons) Program through the normal processes described above; applicants will have the opportunity to self-identify for the EABA prior to the submission of the supplementary application. Applicants must meet the same minimum academic criteria for admission as for the general pool of candidates. More details about the EABA process are available on the BHSc website: <https://bhsc.mcmaster.ca/equitable-admissions-for-black-applicants-bhsc-hons-program/>.

ADMISSION REQUIREMENTS

APPLICANTS FROM ONTARIO SECONDARY SCHOOLS

The selection method for Ontario Secondary School applicants is by academic qualifications and a mandatory Supplementary Application. The majority of Level I offers of admission are made in early May. A minimum of 90% is required for consideration. In early May, the following grade information will be used: Semester schools: all final Grade 12 U and/or M courses from first semester or prior years, and second-semester mid-term grades for Grade 12 U and/or M courses.

Non-semester schools: second term grades for full-year Grade 12 U and/or M courses. Offers based on interim and/or mid-term grades will be conditional upon maintaining satisfactory performance on final grades. Supplementary Applications are to be submitted electronically via the web at: bhsc.mcmaster.ca. A review of the mandatory Supplementary Application is a very important component of the admission selection process. Applicants who do not complete the Supplementary Application are not considered for admission.

REQUIREMENTS

The following are the minimum Grade 12 U and/or M requirements under the Ontario Secondary School curriculum:

1. English U;
2. Biology U;
3. Chemistry U;
4. one of Advanced Functions U, Calculus and Vectors U or Mathematics of Data Management U. For those applicants who present with more than one of these Mathematics courses, the highest grade on the transcript at the time of review will be used to calculate the admission average;
5. One U or M non-math/non-science (**note: courses in technological education, science or mathematics are not acceptable**);
6. One additional U or M course in any other subject area to total six courses.

APPLICANTS WITH QUALIFICATIONS EQUIVALENT TO ONTARIO SECONDARY SCHOOL

Applicants from other provinces and countries must achieve the equivalent to the qualifications listed in the Grade 12 U or M course requirements in their secondary school graduation year.

TRANSFER APPLICANTS

Transfer applicants will be admitted to the B.H.Sc. (Honours) Program from other programs at McMaster and from other post-secondary institutions. The process will be competitive and will be based on the student's academic qualifications and a Supplementary Application. Enrolment is limited. Students interested in being considered for admission to Level II of the B.H.Sc. (Honours) Program must have completed the equivalent of six units of university Level I Biology and six units of university Level I Chemistry. A Grade Point Average of at least 10.0 (minimum overall average of A-) will be required for admission consideration. Transfer applicants who receive an admission offer to BHSc (Honours) and express an interest in the BHSc Child Health Specialization may be considered on a case by case basis if space permits. However, there is no guarantee that space will be available in the specialization. In this case, Level 2 transfer students are admitted to the BHSc (Honours), core program.

Bursaries

B.H.Sc. (Honours) students are eligible to apply for one of the following bursaries provided they are Canadian citizens and demonstrate financial need. Applications are available in Mosaic each Fall. The following bursaries have been generously donated to assist Bachelor of Health Sciences (Honours) students in financial need:

- Ruth Murray Memorial B.H.Sc. Bursary
- Loucks Family and Friends B.H.Sc. Bursary
- Ron and Gina Fraser Health Sciences Bursary

For further information about bursaries, please refer to the Office of the Registrar, Aid & Awards website.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

MINOR

This information is directed to B.H.Sc. students who are interested in completing a minor in another subject area. A minor is not available in the B.H.Sc. (Honours) Program.

A Minor is an option available to a student enrolled in a four- or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the *General Academic Regulations* section in this Calendar.

CONTINUATION IN THE PROGRAM

Students who have a minimum GPA of 6.0 may continue in the program. If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once. Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to the B.H.Sc. General Program and, with permission, take B.H.Sc. required courses (for which all course prerequisites have been met). Students in this situation must attend a mandatory preregistration academic advising session in the BHSc Program office. Students who, at next review, achieve a GPA of at least 5.5 may transfer to the B.H.Sc. (Honours) program. Students who fail to meet the minimum requirements for transfer to B.H.Sc. (Honours) by the end of 90 units, must transfer to a non-BHSc program for which he/she qualifies or graduate with a B.H.Sc. three-year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met. Students whose GPA is less than 3.0 at any academic review may not continue at the University.

CONCURRENT CERTIFICATES

Concurrent certificates are an option available to any student in an undergraduate degree program, and may be completed as part of a student's elective credit. Some concurrent certificates will require a student be admitted to this option, while others may involve completion of the course requirements and declaring the certificate at the time of graduation. Students should refer to the course requirements and details available in the Certificate and Diploma Programs section of the Calendar. Two concurrent certificate programs are administered by the B.H.Sc. (Honours) Program: Biomedical Sciences and

Immunology, Microbiology, & Virology.

LETTERS OF PERMISSION

Students enrolled in the B.H.Sc. (Honours) Program may apply to take courses at another university on a Letter of Permission via MOSAIC. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the Assistant Dean (MDCL-3300). If a grade of C- or better is attained, the transcript designation reads *T* indicating *transfer credit*, or *NC* indicating *not complete* if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission.

Students must be in good standing to be eligible to take courses on a Letter of Permission.

LEVEL OF REGISTRATION

A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the B.H.Sc. (Honours) Program Office.

REINSTATEMENT TO THE B.H. SC. (HONOURS) PROGRAM

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry and November 30 for January entry.

The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation.

Reinstatement is not guaranteed.

If students are reinstated to the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may, at the discretion of the Faculty, retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

REGISTRATION AND COURSE CHANGES

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that you review your advisement report in MOSAIC each time you drop or add courses and seek academic counselling from the B.H.Sc. (Honours) Program Office if you have any questions. Dates for final registration and course changes appear in the Sessional Dates section of this Calendar and are enforced.

ACADEMIC COUNSELLING

Academic counselling is available throughout the year from the B.H.Sc. (Honours) Program Office. It is recommended that students make an appointment with an advisor from the program office if they have any questions.

GRADUATION

A GPA of 5.0 is required for graduation.

Students who successfully complete Level III of the program may request permission from the B.H.Sc. (Honours) Program Office to graduate with a three-

level B.H.Sc. degree. Please refer to the General Academic Regulations section in this Calendar for additional information related to graduation.

Bachelor of Health Sciences (Honours)

BACHELOR OF HEALTH SCIENCES (HONOURS) (B.H.SC.)

NOTE

Degree requirements listed below apply to Level I students entering the Program beginning **September 2020**.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Maximum 9 units of project/thesis courses in Level 3

Maximum 18 units of project/thesis courses in Level 4

LEVEL I: 30 UNITS

6 units

- HTHSCI 1I06 A/B - Cellular and Molecular Biology

6 units

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

6 units

- HTHSCI 1E06 A/B - Inquiry I: Introduction

2 units

- HTHSCI 1G02 - Interdisciplinary Problem-Solving in Health

1 unit

- HTHSCI 1X01 A/B - Praxis Pathways 1

9 units

- Electives

1 course

- WHMIS 1A00 - Introduction to Health and Safety

LEVEL II: 30 UNITS

3 units

- HTHSCI 2E03 - Inquiry II: Biochemistry *

3 units

- HTHSCI 2F03 - Human Physiology and Anatomy I

3 units

- HTHSCI 2FF3 - Human Physiology and Anatomy II

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Inquiry II: Cell Biology

3 units

- HTHSCI 2X03 A/B - Praxis Pathways 2

9 units

- Electives

Note

* HTHSCI 2D06 A/B replaces HTHSCI 2E03 for Level 2 transfer students

LEVEL III: 30 UNITS

3 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences

3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3 units

- HTHSCI 3GG3 - Health Systems and Health Policy

3-6 units

- HTHSCI 3H03 A/B S - Inquiry Project
- HTHSCI 3H06 A/B S - Inquiry Project

1 course

- HTHSCI 3X00 A/B - Praxis Pathways 3

15-18 units

- Electives

LEVEL IV: 30 UNITS6-15 units

from

- HTHSCI 4A09 A/B S - Thesis
- HTHSCI 4B06 A/B S - Senior Projects
- HTHSCI 4A12 A/B S - Thesis
- HTHSCI 4A15 A/B S - Thesis
- HTHSCI 4D06 A/B S - Senior Project in Engaging the City
- HTHSCI 4D09 A/B S - Thesis in Engaging the City
- HTHSCI 4D12 A/B S - Thesis in Engaging the City

3 units

- HTHSCI 4XP3 A/B - Praxis Pathways 4

12-21 units

- Electives

BACHELOR OF HEALTH SCIENCES (HONOURS) (B.H.SC.) - LEVEL 2 TRANSFER

NOTE

Degree requirements listed below apply to Level 2 transfer students beginning

September 2020.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

Maximum 9 units of project/thesis courses in Level 3

Maximum 18 units of project/thesis courses in Level 4

LEVEL I: 30 UNITS

30 units completed prior to admission to the B.H.Sc. (Hons) Program

LEVEL II: 30 UNITS2 units

- HTHSCI 1G02 - Interdisciplinary Problem-Solving in Health

1 unit

- HTHSCI 1X01 A/B - Praxis Pathways 1

6 units

- HTHSCI 2D06 A/B - Inquiry II: Introduction and Biochemistry *

3 units

- HTHSCI 2F03 - Human Physiology and Anatomy I

3 units

- HTHSCI 2FF3 - Human Physiology and Anatomy II

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Inquiry II: Cell Biology

3 units

- HTHSCI 2X03 A/B - Praxis Pathways 2

3 units

- Electives

1 course

- WHMIS 1A00 - Introduction to Health and Safety (to be completed by Level 2 transfer students who have not already completed the safety training course)

Note

*HTHSCI 2D06 A/B replaces HTHSCI 2E03-Inquiry II: Biochemistry

LEVEL III: 30 UNITS3 units

- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences

3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3 units

- HTHSCI 3GG3 - Health Systems and Health Policy

3-6 units

- HTHSCI 3H03 A/B S - Inquiry Project
- HTHSCI 3H06 A/B S - Inquiry Project

1 course

- HTHSCI 3X00 A/B - Praxis Pathways 3

15-18 units

- Electives

LEVEL IV: 30 UNITS6-15 units

from

- HTHSCI 4A09 A/B S - Thesis
- HTHSCI 4A12 A/B S - Thesis
- HTHSCI 4A15 A/B S - Thesis
- HTHSCI 4B06 A/B S - Senior Projects
- HTHSCI 4D06 A/B S - Senior Project in Engaging the City
- HTHSCI 4D09 A/B S - Thesis in Engaging the City
- HTHSCI 4D12 A/B S - Thesis in Engaging the City

3 units

- HTHSCI 4XP3 A/B - Praxis Pathways 4

12-21 units

- Electives

BACHELOR OF HEALTH SCIENCES (HONOURS) - CHILD HEALTH SPECIALIZATION (B.H.SC.)

NOTES

1. Entry to this program begins in Level II. Students wishing to apply must successfully complete Health Sciences I.
2. Degree requirements listed below apply to Level II students entering the Child Health Specialization beginning September 2020.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

LEVEL II: 30 UNITS3 units

- HTHSCI 2E03 - Inquiry II: Biochemistry *

3 units

- HTHSCI 2G03 - Statistics & Epidemiology 1

3 units

- HTHSCI 2GG3 - Statistics & Epidemiology 2

3 units

- HTHSCI 2K03 - Inquiry II: Cell Biology

3 units

- HTHSCI 2X03 A/B - Praxis Pathways 2

6 units

- HTHSCI 2CH6 A/B - CHS Inquiry Fundamentals

3 units

- HTHSCI 2CH3 A/B - CHS Learning Modules

6 units

- Electives

Note

*HTHSCI 2D06 A/B replaces HTHSCI 2E03 for Level II transfer students

LEVEL III: 30 UNITS3 units

- HTHSCI 3G03 - Critical Appraisal of the Medical Literature

3 units

- HTHSCI 3GG3 - Health Systems and Health Policy

9 units

- HTHSCI 3CH9 A/B - CHS Inquiry Intermediate

6 units

- HTHSCI 3CH6 A/B S - CHS Research Practicum

1 course

- HTHSCI 3X00 A/B - Praxis Pathways 3

9 units

- Electives

LEVEL IV: 30 UNITS6 units

- HTHSCI 4CH6 A/B - CHS Inquiry Advanced

6-15 units

from

- HTHSCI 4C06 A/B S - Senior Project in Child Health
- HTHSCI 4C09 A/B S - Thesis in Child Health
- HTHSCI 4C12 A/B S - Thesis in Child Health
- HTHSCI 4C15 A/B S - Thesis in Child Health
- HTHSCI 4D06 A/B S - Senior Project in Engaging the City
- HTHSCI 4D09 A/B S - Thesis in Engaging the City
- HTHSCI 4D12 A/B S - Thesis in Engaging the City

3 units

- HTHSCI 4XP3 A/B - Praxis Pathways 4

6-15 units

- Electives

Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program

Health Sciences Centre, Room 4H30, ext. 27335

<https://bdcprogram.mcmaster.ca/>

DIRECTOR

Andrew G. McArthur/(*Biochemistry and Biomedical Sciences*) B.Sc. (Western Ontario), Ph.D. (Victoria)

PROGRAM OFFICE

bdcprogram@mcmaster.ca

Program Overview

The Biomedical Discovery and Commercialization (BDC) program is a multidisciplinary training program, concentrated in the biomedical sciences that will produce graduates with the combined strengths of discovery research skills and business acumen. An important goal of the BDC program is the exposure of students to business curriculum in the DeGroot School of Business to complement a strong foundation in the biomedical sciences obtained in the Faculty of Health Sciences. Further, the program seeks to make strong connections with the health research business community in order to provide internships and community mentors for its trainees. With this unique combination of skills and knowledge, BDC graduates will be well positioned for employment in the biotechnology, pharmaceutical and other biomedical science sectors of the economy. Likewise they will be equipped to pursue further training in, for example, graduate studies in research, Master of Business Administration, Law or Medicine. The format of the BDC program is a '4+1' Bachelor plus Master program. It is a four-year undergraduate Bachelor's degree that begins in Level III, followed by a fifth-year Master's degree. Thus candidates who successfully graduate from the four-year undergraduate BDC program may choose to apply for admission to the one-year non-thesis, course-based Master's program. Upon successful completion of each of the degree requirements, candidates will have graduated with an Honours Bachelor of Health Sciences degree in BDC and subsequently a Master of Biomedical Discovery and Commercialization.

ADMISSION PROCEDURES AND REQUIREMENTS

Please note that the admission policy may be reviewed annually and the admission requirements may be changed in future years. As places in this program are limited, the admission process is competitive. Possession of the minimum requirements does not guarantee admission to the program.

ADMISSION REQUIREMENTS

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an on-line application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program (including a full-year of first-year chemistry and biology courses (i.e. 6-units of chemistry and 6-units of biology, or ISCI 1A24 A/B)) with a Grade Point Average of at least 8.0 on the McMaster 12-point scale (equivalent to a grade of B). Refer to the "Apply" tab on the BDC website (<https://bdcprogram.mcmaster.ca/apply/>) for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of both CHEM 20A3 - Organic Chemistry I and CHEM 20B3 - Organic Chemistry II (or equivalent) is strongly recommended prior to entry into the program. CHEM 20A3 must be completed by the end of Level III and CHEM 20B3 must be completed by the end of Level IV. The program will be open to applicants who have completed equivalent Level II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

ACADEMIC REGULATIONS

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

MINOR

This information is directed to BDC students who are interested in completing a minor in another subject area. A minor is not available in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program.

A Minor is an option available to a student enrolled in a four or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

CONTINUATION IN THE PROGRAM

Students who have a minimum GPA of 6.0 may continue in the program. If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once. Students previously on program probation who achieve a GPA between 3.0 and

5.4, may transfer to a non-BDC program for which he/she qualifies or graduate with a B.H.Sc. three-year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

LETTERS OF PERMISSION

Students enrolled in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program may apply to take courses at another university on a Letter of Permission (LOP) by submitting an LOP request in MOSAIC. Students must achieve a grade of at least C- to receive credit. Students are responsible to forward the transcript from the other university directly to the BDC Program Office (HSC-4H30). If a grade of C- or better is attained, the transcript designation reads *T* indicating *Transfer Credit*, or *NC* indicating *No Credit* if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

LEVEL OF REGISTRATION

A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the BDC Program Office.

REINSTATEMENT TO THE HONOURS BACHELOR OF HEALTH SCIENCES IN BIOMEDICAL DISCOVERY AND COMMERCIALIZATION PROGRAM

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry and November 30 for January entry.

The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation.

Reinstatement is not guaranteed

If students are reinstated to the University, their Grade Point Average will be reset to 0.0 on zero units, although students may, at the discretion of the Faculty, retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

REGISTRATION AND COURSE CHANGES

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that you review your advisement report in MOSAIC on the working day following each time you drop or add courses and seek academic counselling from the Program Office if you have any questions. Dates for final registration and course changes appear in the *Sessional Dates* section of this Calendar and are enforced.

ACADEMIC COUNSELLING

Academic counselling is available throughout the year from the Program Office. It is recommended that students make an appointment with the Program Office if they have any questions.

GRADUATION

A GPA of 5.0 is required for graduation. Students who successfully complete Level III of the program may request permission from the BDC Program Office to graduate with a three-year B.H.Sc. degree. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

Bachelor of Health Sciences (Honours)

BACHELOR OF HEALTH SCIENCES (HONOURS) - BIOMEDICAL DISCOVERY AND COMMERCIALIZATION (B.H.SC.)

PROGRAM NOTES

1. Students interested in pursuing a minor in Business should take COMMERCE 1AA3 and COMMERCE 2AB3 in place of COMMERCE 4AK3. For more information on completing a minor in Business, please refer to the *DeGroote School of Business (Faculty of Business)* section of the undergraduate calendar.
2. Students who have already completed COMMERCE 1AA3 will be required to complete COMMERCE 2AB3 instead of COMMERCE 4AK3.
3. Students interested in pursuing a minor in Business should take COMMERCE 1MA3 (or 2MA3) and COMMERCE 3MC3 in place of COMMERCE 3MD3. For more information on completing a minor in Business, please refer to the *DeGroote School of Business (Faculty of Business)* section of the undergraduate calendar.
4. Students who have already completed COMMERCE 1MA3 (or 2MA3) will be required to complete COMMERCE 3MC3 instead of COMMERCE 3MD3.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I courses

LEVEL III: 30 UNITS

18 units

- BIOMEDDC 3A03 - Road to Biomedical Discovery
- BIOMEDDC 3B06 A/B - Drug Discovery and Development
- BIOMEDDC 3C09 A/B - Research Skills Laboratory and Inquiry

6 units

- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 4AK3 - Accounting Information for Decision Making

(see Program Notes 1 and 2 above)

0-6 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids (if BIOCHEM 2B03 and 2BB3 were not completed prior to entry into the program)
- CHEM 20A3 - Organic Chemistry I (if not completed prior to entry into the program)

0-6 units

- Elective(s)

LEVEL IV: 30 UNITS

18 units

- BIOMEDDC 4A15 A/B - Senior Research Thesis
- BIOMEDDC 4B03 - Road to Biomedical Commercialization

6 units

- COMMERCE 3MD3 - Introduction to Contemporary Applied Marketing *(see Program Notes 3 and 4 above)*
- COMMERCE 4FW3 - Finance for Entrepreneurs

0-3 units

- CHEM 20B3 - Organic Chemistry II (if not completed prior to entry into the program)

3-6 units

- Elective(s)

Department of Biochemistry & Biomedical Sciences (Faculty of Health Sciences)

<https://healthsci.mcmaster.ca/biochem>

Faculty as of January 15, 2022

CHAIR

Brian Coombes

ASSOCIATE CHAIRS

Deborah Sloboda (Research)

Caitlin Mullarkey (Undergraduate Studies)

Matthew Miller (Graduate Studies)

PROFESSORS

Paul J. Berti/B.Sc. (Waterloo), M.Sc. (Ottawa), Ph.D. (McGill)

Mickie Bhatia/B.Sc. (McMaster), Ph.D. (Guelph)/Canada Research Chair

Eric D. Brown/B.Sc., M.Sc., Ph.D. (Guelph)/Canada Research Chair

Lori L. Burrows/B.Sc., Ph.D. (Guelph)

Brian K. Coombes/B.Sc., Ph.D. (McMaster)/Canada Research Chair

Cécile Fradin/B.Sc., M.Sc. (Ecole Normale Supérieure, Paris), Ph.D. (Université Pierre et Marie Curie, Paris)/Canada Research Chair

Radhey S. Gupta/B.Sc. (Agra), M.Sc. (New Delhi), Ph.D. (Bombay)

Paul Higgs/Ph.D. (Cambridge)

Yingfu Li/B.Sc. (Anhui, China), M.Sc. (Beijing Agr.), Ph.D. (Simon Fraser)

Giuseppe Melacini/B.Sc., Ph.D. (Milan)

Hendrik Poinar/B.Sc. (California Polytechnic State), Ph.D. (Ludwig Maximilians Universität München)

Deborah Sloboda/B.Sc. (Guelph), M.Sc. (Western Ontario), Ph.D. (Toronto)

Canada Research Chair

Gregory Steinberg/B.Sc., Ph.D. (Guelph)/Canada Research Chair

Michael Surette/B.Sc. (Newfoundland), Ph.D. (Western)/Canada Research Chair

Chair

Bernardo L. Trigatti/B.Sc., Ph.D. (McMaster)

Ray Truant/B.Sc., Ph.D. (Toronto)

Geoffrey Werstuck/B.Sc., Ph.D. (McMaster)

Gerard D. Wright/B.Sc., Ph.D. (Waterloo)/Senior Canada Research Chair

Daniel S.C. Yang/B.Sc., M.Sc. (Alberta), Ph.D. (Pittsburgh)

ASSOCIATE PROFESSORS

Russell E. Bishop/B.Sc., Ph.D. (Alberta)

Michelle L. MacDonald/B.Sc., Ph.D. (McMaster)

Nathan Magarvey/B.Sc. (Dalhousie), Ph.D. (Minnesota)/Canada Research Chair

Chair

Jakob Magolan/B.Sc. (Queen's), Ph.D. (Western Ontario)

Andrew McArthur/H.B.Sc. (Western Ontario), Ph.D. (Victoria)

Matthew Miller/B.Sc., Ph.D. (Western Ontario)

Jonathan Schertzer/B.Sc., M.Sc. (Waterloo), Ph.D. (Melbourne)

Felicia Vulcu/B.Sc., Ph.D. (McMaster)

ASSISTANT PROFESSORS

Sara Andres/B.Sc. (Guelph), Ph.D. (McMaster)

Yu Lu/B.Sc. (Fudan), Ph.D. (Washington)

Lesley MacNeil/B.Sc. (Guelph), M.Sc. (McMaster), Ph.D. (Toronto)

Caitlin Mullarkey/B.A. (Swarthmore College Pennsylvania), M.Sc., Ph.D. (Oxford)

John Whitney/B.Sc. (Guelph), Ph.D. (Toronto)

ASSOCIATE MEMBERS

Stephanie A. Atkinson/(Pediatrics) B.A. (Western Ontario), Ph.D. (Toronto)

Tobias Berg/(Medicine) M.D., Ph.D. (University Freiberg, Germany)

Jonathan L. Bramson/(Pathology) B.Sc., Ph.D. (McGill)

John D. Brennan/(Chemistry and Chemical Biology) B.Sc., Ph.D. (Toronto)

Canada Research Chair

Clinton Campbell/(Pathology) B.Sc., M.D., Ph.D. (McMaster)

Marie Elliot/(Biology) B.Sc., Ph.D. (Alberta)

Thomas Hawke/(Pathology) B.Sc., M.Sc., Ph.D. (Guelph)

Stephen Hill/(Pathology) B.Sc., Ph.D. (Western)

Alison Holloway/(ObsGyn) B.Sc. (Toronto), Ph.D. (Guelph)

Alexander Hynes/(Medicine) B.Sc. (Calgary), Ph.D. (Newfoundland)

Charu Kaushic/(Pathology) B.Sc. (Delhi), Ph.D. (New Delhi)

Mark Larche/(Medicine) Ph.D. (University of London)/Canada Research Chair

Karen Mossman/(Pathology) B.Sc. (Guelph), Ph.D. (Alberta)

Ishac Nazy/(Medicine) B.Sc. (Guelph), Ph.D. (McMaster)

Guillaume Paré/(Pathology) M.D. (Montreal), M.Sc. (McGill)

Sandeep Raha/(Pediatrics) B.Sc., M.Sc., Ph.D. (Toronto)

Sheila Singh/(Surgery) B.Sc. (McGill), M.D. (McMaster), Ph.D. (Toronto)

Canada Research Chair

Jennifer Stearns/(Medicine) B.Sc., Ph.D. (Waterloo)

Jeffrey I. Weitz/(Medicine) B.Sc., M.D. (Ottawa)/Canada Research Chair

NOTES APPLICABLE TO ALL HONOURS BIOCHEMISTRY PROGRAMS

- In addition to the Honours Biochemistry program, the Department offers a Specialization in Biomedical Research. The Honours program has a specified set of basic requirements and a wide choice of electives (including those from outside the Faculty of Health Sciences), allowing for interdisciplinary studies or the opportunity to complete a Minor in another subject. Alternatively, students may wish to apply to the Biomedical Research Specialization which is strongly recommended for students intending to pursue graduate studies.
- Admission to the Honours Biochemistry program is limited.** Selection is based on academic achievement but requires, as a minimum, completion of the Level I requirements listed below.
- Admission to the Honours Biochemistry - Biomedical Research Specialization program is limited.** Admission to this program begins at Level III and requires, as a minimum, completion of Level II Honours Biochemistry and completion of a supplementary application.
- Transfer between programs is possible at any time, subject to satisfying the admission requirements and availability of space.
- Students considering graduate studies in Biochemistry are recommended to complete one of BIOCHEM 4F09 A/B or 4T15 A/B.

Bachelor of Health Sciences (Honours)

HONOURS BIOCHEMISTRY (B.H.SC.)

On this Page:

- Honours Biochemistry (B.H.Sc.)
- Requirements for Students Who Entered the Honours B.Sc. Biochemistry Program Prior to September 2022 and Selected to Transfer into the Honours B.H.Sc. Biochemistry Program

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- Science I Course List

NOTE

A grade of at least C+ in four of BIOLOGY 1A03, 1M03, CHEM 1A03, 1AA3 and either MATH 1A03 or 1LS3 is required.

PROGRAM NOTES

1. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
2. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.
3. Students who do not complete a research, thesis, or advanced biochemistry laboratory course (BIOCHEM 3A03, 3LA3, 3R06 A/B S, 4F09 A/B, 4T15 A/B, 4Z03) must complete BIOCHEM 4C03.

BIOCHEMISTRY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BD3 - The Black Death
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3CB3 - Emerging Discovery in Cell Biology
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOMEDDC 2C03 - Exploring Careers in Biomedical Sciences
- BIOMEDDC 2W03 - Write Right for Your Science: Scientific Writing for the Biomedical Sciences
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2P03 - Applications of Physical Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- MOLBIOL 3O03 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- (See *Admission* above.)

LEVEL II: 30 UNITS12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- *Biochemistry Course List* (See *Program Note 2* above.)

6 units

- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II

6 units

- Electives

LEVEL III: 30 UNITS3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

- BIOMEDDC 3WR3 - Biochemistry and Biomedical Scientific Writing: Right your Write

9 units

from

- the *Biochemistry Course List* (See *Program Note 2* above.)

3 units

- STATS 2B03 - Statistical Methods for Science

12 units

- Electives

LEVEL IV: 30 UNITS3 units

from

Level IV Biochemistry courses, excluding:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 2* above.)

6-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project
- BIOCHEM 4C03 - Inquiry in Biochemistry
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 3* above.)

REQUIREMENTS FOR STUDENTS WHO ENTERED THE HONOURS B.SC. BIOCHEMISTRY PROGRAM PRIOR TO SEPTEMBER 2022 AND SELECTED TO TRANSFER INTO THE HONOURS B.H.SC. BIOCHEMISTRY PROGRAM

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- (See *Admission* above.)

LEVEL II: 30 UNITS12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function

- Electives

HONOURS BIOCHEMISTRY - BIOMEDICAL RESEARCH SPECIALIZATION (B.H.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection and is based on completion of the supplementary application by the stated deadline and academic achievement, but requires, as a minimum, completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 UNITS

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function

- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 UNITS

- BIOLOGY 2C03 - Genetics

3 UNITS

from

- the *Biochemistry Course List* (See *Program Note 4* below.)

6 UNITS

- CHEM 20B3 - Organic Chemistry II
- CHEM 20D3 - Synthesis and Function of Organic Molecules

PROGRAM NOTES

1. Registration in an Honours Biochemistry program does not guarantee access to all courses. Some courses have program restrictions. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
2. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.
3. A 'research intensive' option, available to students registered in this Specialization, offers additional laboratory research experience through completion of BIOCHEM 3R06 A/B S and 4T15 A/B. This option is intended for students planning to pursue graduate studies or a career in research and development. Enrolment in the courses is limited and admission is by selection.
4. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BD3 - The Black Death
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era

HONOURS BIOCHEMISTRY - BIOMEDICAL RESEARCH SPECIALIZATION CO-OP (B.H.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 UNITS

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

6 UNITS

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

1 COURSE

- SCIENCE 2D00 - Skills for Career Success in Biochemistry (or SCIENCE 2C00)

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in biochemistry related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2D00 (or SCIENCE 2C00) prior to the Fall Term of Level III. Students are required to complete SCIENCE 3D00 (or SCIENCE 3C00) before the first work placement.
4. Registration in an Honours Biochemistry program does not guarantee access to all courses. Some courses have program restrictions. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
5. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.
6. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- MOLBIOL 3O03 - Microbial Genetics

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN SEPTEMBER 2022 OR EARLIER

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Biochemistry, including completion of:
- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

- Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Level III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WW0 - Science Co-op Work Term

LEVEL IV

- Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- Level IV Biochemistry courses, **excluding:**
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 5* above.)

3-6 units

- Electives

LEVEL V

- Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

6 units

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

- Electives

CO-OP PROGRAM CHART (FOR STUDENTS WHO ENTER IN SEPTEMBER 2022 OR PRIOR)

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WT0

REQUIREMENTS (EFFECTIVE SEPTEMBER 2023)

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to the program

LEVEL II: 30 UNITS

Completion of Level II Honours Biochemistry, including completion of:

- SCIENCE 2D00 - Skills for Career Success in Biochemistry (or SCIENCE 2C00)

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Level III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

3 units

- Electives

1 course

- SCIENCE 3D00 - Advanced Job Search Skills For Co-op Students

Winter Term

1 course

- SCIENCE 3WW0 - Science Co-op Work Term

Spring/Summer Term

Work Term

1 course

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- Level IV Biochemistry courses, **excluding:**
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

3 units

- BIOMEDDC 3WR3 - Biochemistry and Biomedical Scientific Writing: Right your Write

6 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 5* above.)

3-6 units

- Electives

Spring/Summer Term

Work Term

1 course

- SCIENCE 4WW0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WW0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

6 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

- Electives

CO-OP PROGRAM CHART (EFFECTIVE SEPTEMBER 2023)

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 3D00	Work Term SCIENCE 3WWO	Work Term SCIENCE 3WWO
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WWO
Level V	Work Term SCIENCE 5WWO	15 units from Academic Level IV	

Honours Biology & Pharmacology Co-op Program (B.H.Sc.)

Program Overview

The Honours Biology & Pharmacology Coop Program is the longest-standing undergraduate co-operative education program at McMaster University, offered jointly between the Faculties of Health Sciences and Science.

Highlights of the program include:

- limited enrolment program guarantees class sizes of 22 students or less. Most PHARMAC courses are taught in groups of 11.
- Biology and Health Sciences offerings with specialized Pharmacology courses that explore human physiology as well as human pharmacodynamics, pharmacokinetics and pharmacogenetics: what drugs do to the body and what the body does to drugs.
- a dedicated full year laboratory course
- a full-time 4-months research thesis
- three mandatory semesters of paid coop work terms in industry, academia or government, in Hamilton, surrounding area or world-wide.

The program equips students with a wide spectrum of skills and experiences and provides excellent preparedness for graduate and professional schools such as medicine, pharmacy, veterinary or employment in industry or government.

Admission Requirements

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an on-line application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program with a Grade Point Average of at least

5.0 on the McMaster 12-point scale (Note: normally, a Grade Point Average of at least 8.0 is required). Refer to the “**Apply**” tab on the Honours Biology and Pharmacology Co-op program website (<https://healthsci.mcmaster.ca/biopharm/education/prospective-students/apply>) for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of courses from the following areas of study are strongly recommended: human or animal physiology, genetics, organic chemistry, cell biology, microbiology and biotechnology, ecology, bio-analytical chemistry, physical chemistry.

A required Level II course for admission is BIOLOGY 2A03 since this is a prerequisite for our courses BIOLOGY 3P03 and BIOLOGY 3U03. Please note that BIOLOGY 2A03 may or may not be available as a spring semester course prior to September enrolment. An alternative to 2A03 is HTHSCI 2F03 and 2FF3. The program will be open to applicants who have completed equivalent Level I and/or II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

Minor

This information is directed to Honours Biology and Pharmacology Co-op students who are interested in completing a minor in another subject area. A Minor is an option available to a student enrolled in a four or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student's transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

A minor is not available in Biology and Pharmacology.

Continuation in the Program

Students who have a minimum Grade Point Average (GPA) of 6.0 may continue in the program.

If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once.

Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to a program for which he/she qualifies or graduate with a B.H.Sc. three year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

Letters of Permission

Students enrolled in the Honours Biology and Pharmacology Co-op program may apply to take courses at another university on a Letter of Permission (LOP) by submitting an LOP request in MOSAIC. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the Honours Biology and Pharmacology Co-op Program Office (HSC-2E21A). If a grade of C- or better is attained, the transcript designation reads *T* indicating *Transfer Credit*, or *NC* indicating *Not Complete* if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

Reinstatement to the Honours Biology and Pharmacology Co-op Program

A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the \$100 fee must be submitted to the Office of the Registrar by July 15 for September entry.

The form should explain the reasons for the student's inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician's letter documenting an illness that may have impacted upon the student's prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation. Reinstatement is not guaranteed.

If students are reinstated to the University, their Grade Point Average will be reset to 0.0 on zero units. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Registration and Course Changes

It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that students review their advisement report in MOSAIC on the working day following each time courses are dropped or added and seek academic counselling from the Program Office if they have questions. Dates for final registration and course changes appear in the Sessional Dates section of this Calendar and are enforced.

Academic Advising

Academic advice is available throughout the year from the Director of the Honours Biology and Pharmacology (Co-op) Program. It is recommended that students make an appointment by email with the Director if they have any questions.

Graduation

A GPA of 5.0 is required for graduation. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

Bachelor of Health Sciences (Honours)

HONOURS BIOLOGY AND PHARMACOLOGY CO-OP (B.H.SC.)

ADMISSION

Selection will be based on academic achievement, a written statement of interest and an interview but requires, as a minimum, submission of an online application by the stated deadline, completion of Level II (or above) of a Science or Health Sciences program with a Grade Point Average of at least 5.0 on the McMaster 12-point scale (Note: normally, a Grade Point Average of at least 8.0 is required). Refer to the **"Apply"** tab on the Honours Biology and Pharmacology Co-op program website for further information and important dates and deadlines. Applicants from other disciplines may also be a good fit depending on their educational background. Successful completion of courses from the following areas of study are strongly recommended: human or animal physiology, genetics, organic chemistry, cell biology, microbiology and biotechnology, ecology, bio-analytical chemistry, physical chemistry. A required Level II course for admission is BIOLOGY 2A03 since this is a prerequisite for our course BIOLOGY 3P03. Please note that BIOLOGY 2A03 may or may not be available as a spring course prior to September enrolment. The program will be open to applicants who have completed equivalent Level I and/or II courses at another university. Applicants who have completed a University degree are also eligible to apply as a second degree student.

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Director of the Honours Biology and Pharmacology Co-op Program.

PROGRAM NOTES

1. This is a five-level (year) co-op program, three terms of which must be spent in work related to biology or pharmacology placements under the auspices of the Science Career & Cooperative Education office in the Faculty of Science.
2. A senior thesis, PHARMAC 4T12, will be completed in the Summer or Fall term of Level V. Work terms must be completed in the Spring/Summer term of Level III, Fall term of Level IV and Spring/Summer term of Level V. See Co-op program chart below.
3. PHARMAC 3A06 A/B, 3B06 A/B, 4A03, 4AA3, 4C03, 4D03 and 4E03 will use a self-directed problem-based learning approach.
4. Students must be registered full-time and take a full academic workload as prescribed by Level and Term.
5. Students are required to complete SCIENCE 2C00 and SCIENCE 3C00 before the first work placement and are strongly recommended to complete SCIENCE 2C00 in Level II.
6. Students should seek academic advising for this program from the Director of the Honours Biology and Pharmacology Co-op Program.
7. If BIOCHEM 2B03 and 2BB3 have not been completed at the time of admission, BIOCHEM 3G03 must be completed in Level III. Students with

credit in BIOCHEM 2B03 and 2BB3 are not required to complete further Biochemistry courses.

8. For BHSc students who are interested in taking 4th or 5th year BIOPHARM course for which BIOPHARM 3A06 is a requirement, an alternative to BIOPHARM 3A06 is BIOLOGY 3AA3.

COURSE LIST

- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- All Levels III and IV Biology and Molecular Biology courses
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 4IB3 - Bio-Inorganic Chemistry
- CHEM 4OA3 - Natural Products
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics
- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4IB3 - Bio-Inorganic Chemistry
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 4EA3
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 4EA3 - Environmental Assessment
- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 2GG3 - Statistics & Epidemiology 2
- HTHSCI 2K03 - Inquiry II: Cell Biology
- HTHSCI 3BA3 - Symptomatology
- HTHSCI 3E03 - Inquiry III: Advanced Inquiry in Health Sciences
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 3U03 - Medical Genetics
- HTHSCI 4AL3 - Model Systems
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4J03 - Immunological Principles In Practice
- LIFESCI 3AA3 - Human Pathophysiology
- STATS 2D03 - Introduction to Probability

REQUIREMENTS

129 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of any Level II program including courses as outlined in Admission statement

(See *Admission* above.)

LEVEL III

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 27 units:

0-3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3-6 units

from

- *Course List*

6 units

- BIOLOGY 3P03 - Cell Physiology

- BIOLOGY 3U03 - Animal Physiology - Homeostasis

12 units

- PHARMAC 3A06 A/B - Introduction to Pharmacology
- PHARMAC 3B06 A/B - Methods in Pharmacology

3 units

- Electives

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WW0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and completion of senior thesis (Spring/Summer Term)

Fall Term:

Work Term

1 course

- SCIENCE 4WW0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

- PHARMAC 4A03 - Receptor-Drug Interactions
- PHARMAC 4C03 - Principles of Toxicology

0-3 units

- STATS 2B03 - Statistical Methods for Science

6 units

from

- *Course List*

0-3 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 5WW0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term: 12 units:

12 units

- PHARMAC 4T12 - Senior Thesis

(See *Program Note 2* above.)

Winter Term: 15 units:

6 units

from

- HTHSCI 4TE3 - The Teaching Hospital
- PHARMAC 4AA3 - Advanced Topics in Pharmacology
- PHARMAC 4D03 - Drug Design
- PHARMAC 4E03 - Social Pharmacology

3 units

from

- *Course List*

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	Academic Term Level III + SCIENCE 2C00 (if not completed) and SCIENCE 3C00	Academic Term Level III	Work Term SCIENCE 3WW0
Level IV	Work Term SCIENCE 4WW0	Academic Term Level IV	Work Term SCIENCE 5WW0

Integrated Biomedical Engineering and Health Sciences Program (IBEHS)

Michael G. DeGroot Centre for Learning, Room 3515, ext. 28347

<http://ibiomed.mcmaster.ca/>

Faculty as of January 15, 2022

CO-DIRECTORS

Michelle L. MacDonald/B.Sc., Ph.D. (*McMaster*)

Gregory R. Wohl/B.Sc., M.Sc., Ph.D. (*Calgary*), P.Eng.

ASSOCIATE DIRECTOR

Colin McDonald/B.Sc., Ph.D. (*Western Ontario*), P.Eng.

PROGRAM MANAGER

Alexa Béhar-Bannelier/B.Com. (Honours) (*McMaster*)

The Integrated Biomedical Engineering and Health Sciences (IBEHS) Programs are offered jointly by the Faculty of Engineering and the Faculty of Health Sciences. These programs lead to the B.Eng.BME or a B.H.Sc. (Honours) degree.

At McMaster, IBEHS students take a common Level I program comprising Mathematics, Materials, Physics, Chemistry, Cellular and Molecular Biology, Graphics Design, Introduction to Professional Engineering and Design, Computation and complementary studies electives. The specialized programs are entered at Level II.

All Level I students who wish to be reviewed for admission to a Level II program in the Integrated Biomedical Engineering and Health Sciences (IBEHS) program for the following Fall/Winter term must submit an Application of Admission to Level II through MOSAIC by the University stated deadline. Students in the IBEHS program must rank both degree options in order of preference, and are permitted to rank up to twelve program choices in total. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices. Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0. All Level II programs are limited enrollment and entry into a Level II program is competitive. The admission into each Level II program is determined by the Cumulative Grade Point Average (GPA) and order of ranked programs. All McMaster University courses completed (including electives and upper year

courses) are calculated into Cumulative Grade Point Average (GPA) up to the time of Level II program admission review. Grades earned in summer school, after program admission review, will not change student Level II program eligibility. A student in IBEHS I with a Grade Point Average (GPA) less than 4.0 can no longer continue in the Integrated Biomedical Engineering and Health Sciences (IBEHS) program.

Students must follow the program requirements of the Calendar in effect when they enter Level II.

Courses offered by the IBEHS program include two types of elective courses, which are governed by regulations, as follows:

- **Complementary Studies Electives** are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences. In addition to ENGINEER 4A03, or equivalent, complementary studies electives are required in the IBEHS program.
- **IBEHS Technical Electives** are approved courses offered by the Integrated Biomedical Engineering & Health Sciences program or various departments throughout the University in subjects relevant to the particular program. A list is available on the program website.

TRANSFERRING TO GRADUATE WITH A B.H.SC. DEGREE FROM THE B.H.SC. (HONOURS) HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) STREAM OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of at least Level III of the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) stream of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Integrated Biomedical Engineering and Health Sciences office for transfer to graduate with the B.H.Sc. (exit) degree.

TRANSFERRING TO GRADUATE WITH A B.A.SC. DEGREE FROM ONE OF THE B.ENG.BME BIOMEDICAL ENGINEERING PROGRAMS OF THE INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES PROGRAM

Students who successfully complete at least 90 units including all admission requirements and program-specific course requirements up to the end of at least Level III of one of the B.Eng.BME Biomedical Engineering programs of the Integrated Biomedical Engineering and Health Sciences Program, with a minimum Grade Point Average of 4.0 may request permission from the Office of the Associate Dean of Engineering (Academic) for transfer to graduate with the B.A.Sc. (exit) degree.

IBEHS I:

- Integrated Biomedical Engineering and Health Sciences (IBEHS) I/
Integrated Biomedical Engineering and Health Sciences (IBEHS) I Co-op

LEVEL II PROGRAM(S) LEADING TO THE B.ENG.BME DEGREE INCLUDE:

- Chemical and Biomedical Engineering, Chemical and Biomedical Engineering Co-Op (B.Eng.BME)
- Civil and Biomedical Engineering, Civil and Biomedical Engineering Co-Op (B.Eng.BME)
- Electrical and Biomedical Engineering, Electrical and Biomedical Engineering Co-Op (B.Eng.BME)
- Engineering Physics and Biomedical Engineering, Engineering Physics and Biomedical Engineering Co-Op (B.Eng.BME)
- Materials and Biomedical Engineering, Materials and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechanical and Biomedical Engineering, Mechanical and Biomedical Engineering Co-Op (B.Eng.BME)
- Mechatronics and Biomedical Engineering, Mechatronics and Biomedical Engineering Co-Op (B.Eng.BME)
- Software and Biomedical Engineering, Software and Biomedical Engineering Co-Op (B.Eng.BME)

LEVEL II PROGRAM(S) LEADING TO THE B.H.SC. (HONOURS) DEGREE INCLUDE:

- Health, Engineering Science and Entrepreneurship (HESE) Specialization; Health, Engineering Science and Entrepreneurship (HESE) Specialization Co-Op (B.H.Sc.(Honours))

Bachelor of Health Sciences (Honours)

HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) SPECIALIZATION; HEALTH, ENGINEERING SCIENCE AND ENTREPRENEURSHIP (HESE) SPECIALIZATION CO-OP (B.H.SC.(HONOURS))

ADMISSION TO LEVEL II IBEHS PROGRAMS

Admission to either the B.H.Sc. (Honours) Health, Engineering Science and Entrepreneurship (HESE) specialization or the B.Eng.BME Biomedical Engineering (BME) specialization requires successful completion of all non-elective Level I IBEHS courses with a minimum Grade Point Average (GPA) of 4.0.

All students who successfully complete the first year of the program will have a space in one of the two degree options. As enrolment is limited in each of the two degree options (HESE or BME), where there is more demand than spaces, competition will be based on first-year academic achievement. **Note:**

BME is a five-year program, while HESE is a four-year program (effective September 2022).

Entry into the five-year Honours Bachelor of Health Sciences (B.H.Sc. (Honours)), Health, Engineering Science & Entrepreneurship (HESE) program is last available in September 2022.

Effective September 2023, Level I students interested in the B.H.Sc. (Honours) HESE program will apply for the four-year program.

Students who enrolled in the five-year B.H.Sc. (Honours) HESE program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in the five-year program or transfer into the four-year B.H.Sc. (Honours) HESE program.

Students seeking admission to the BME specialization will be admitted to one of eight Level II Engineering programs (Chemical, Civil, Electrical, Engineering Physics, Materials, Mechanical, Mechatronics, or Software). Admission to a Level II Engineering program is guaranteed for all students who meet the general progress requirements. All engineering programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on GPA.

Students who do not meet the requirements to proceed to Level II in May will have a *Pending* flag put on their allocation. The *Pending* flag will be removed in August if the student completes the requirements over the summer.

NOTES

- As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
- Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to eight units of research project or independent study courses. A full listing can be found on the IBEHS website.
- Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.
- Students planning to take IBEHS 4QZ3 should note that IBEHS 4C03 is a prerequisite.

REQUIREMENTS (EFFECTIVE SEPTEMBER 2022)

LEVEL II: 30 UNITS

21 units

- CHEM 1AA3 - Introductory Chemistry II

- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II
- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering
- MATH 2Z03 - Engineering Mathematics III
- MATH 2ZZ3 - Engineering Mathematics IV

6 units

- IBEHS 2E03 - Human-Centred Design
- IBEHS 2EE3 - From Idea to Innovation

3 units

- Electives

LEVEL III: 31 UNITS

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I

13 units

- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems
- IBEHS 3P04 - Health Solutions Design Projects III: Analysis and Decision Making

6 units

- HTHSCI 2K03 - Inquiry II: Cell Biology
- IBEHS 3E03 - Fundamentals of Business Strategy

3 units

from

- IBEHS 4A03 - Biomedical Control Systems
- IBEHS 4B03 - Biomechanics
- IBEHS 4C03 - Statistical Methods in Biomedical Engineering
- IBEHS 4D03 - Introduction to Medical Imaging

1 course

- IBEHS 1HS0 - Health Screening and Clinical Safety Training

6 units

- Electives

LEVEL IV: 31-32 UNITS

6-7 units

from

- IBEHS 4A03 - Biomedical Control Systems
- IBEHS 4B03 - Biomechanics
- IBEHS 4C03 - Statistical Methods in Biomedical Engineering
- IBEHS 4D03 - Introduction to Medical Imaging
- IBEHS 4F04 - Biomedical Instrumentation and Measurement
- IBEHS 4QZ3 - Modelling of Biological Systems

19 units

- IBEHS 4E09 A/B - Health, Engineering Science and Entrepreneurship Thesis
- IBEHS 4EE6 A/B - Innovators in Scrubs
- IBEHS 4P04 - Health Solutions Design Projects IV: Economics and Project Management

6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO SEPTEMBER 2022

LEVEL II: 30 UNITS

21 units

- CHEM 1AA3 - Introductory Chemistry II
- HTHSCI 2E03 - Inquiry II: Biochemistry
- HTHSCI 2F03 - Human Physiology and Anatomy I
- HTHSCI 2FF3 - Human Physiology and Anatomy II

- IBEHS 2P03 - Health Solutions Design Projects II: Introduction to Genetic Engineering
- MATH 2Z03 - Engineering Mathematics III
- MATH 2Z23 - Engineering Mathematics IV

6 units

- IBEHS 2E03 - Human-Centred Design
- IBEHS 2EE3 - From Idea to Innovation

3 units

- Electives

LEVEL III: 31 UNITS3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 20A3 - Organic Chemistry I

13 units

- HTHSCI 2G03 - Statistics & Epidemiology 1
- HTHSCI 3G03 - Critical Appraisal of the Medical Literature
- IBEHS 3A03 - Biomedical Signals and Systems

INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I/INTEGRATED BIOMEDICAL ENGINEERING AND HEALTH SCIENCES (IBEHS) I CO-OP

NOTES

1. As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete IBEHS 1EE0. IBEHS 2ECO will be added to the academic record for each 4 month work term.
2. Admission to Level II Engineering and Biomedical Engineering programs

requires completion of all 34 units of required IBEHS I courses. Students must maintain a Cumulative Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on the students Cumulative Grade Point Average. A student in IBEHS I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in IBEHS.

3. Students enrolled in the Integrated Biomedical Engineering & Health Sciences (IBEHS) program may take up to 8-units of research project or independent study courses. A full listing can be found on the IBEHS website.
4. Students enrolled in a B.Eng.BME program wishing to enrol in a research project or independent study course will require a faculty member supervisor or co-supervisor with an appointment at McMaster University.

REQUIREMENTS*37 units total***LEVEL I: 37 UNITS**16 units

- IBEHS 1EP6 A/B - Entrepreneurship in Biomedical Innovation: From Bench to Market
- IBEHS 1P10 A/B - Health Solutions Design Projects I: Introduction to Engineering Fundamentals and Design

3 units

REGIONAL PROGRAM ADMINISTRATOR - WATERLOO REGIONAL CAMPUS

T. Everding

The School of Medicine, established in 1965 and renamed the Michael G. DeGroot School of Medicine in 2004, offers major programs in undergraduate, postgraduate and graduate medical education. The clinical programs use not only the teaching hospital and ambulatory care and research facilities at the McMaster University Medical Centre division of Hamilton Health Sciences, but also the clinical teaching units at several of the major Hamilton hospitals and

community health-care centres.

The Undergraduate Medical Program for the MD degree was initiated in 1969, graduating its first students in May 1972. Currently, 203 students will be admitted to the program.

WATERLOO REGIONAL AND NIAGARA REGIONAL CAMPUSES

For the incoming classes, 28 of the 203 positions are designated to the Waterloo Regional Campus and 28 positions are designated to the Niagara Regional Campus. All applicants invited to the McMaster Multiple-Mini Interview (MMI) will be asked to rank their site choice (Hamilton, Waterloo Region or Niagara Region) as 1, 2, 3 or no preference. Offers of admission to the medical school will be made from the master rank list irrespective of geographical preference. Subsequent to filling the 203 positions, registrants to the class will be offered a position based on their preference and geographical background.

The offer of admission is binding to a specific site.

Students accepted into the Waterloo Regional Campus and the Niagara Regional Campus will spend the first Medical Foundation in Hamilton. The Covid-19 pandemic may result in decisions about virtual and in-person learning that may affect whether or not students will start in the Hamilton Campus. These decisions will be made by the program's Executive Committee and communicated to students with as much notice as possible. The costs associated with transportation and/or accommodation will be covered by the student. Each Regional Campus is approximately a one-hour drive from Hamilton.

The academic program operates on an 11 months-a-year basis in first and second year, and 8 months in third year and students qualify for the MD degree at the end of the third academic year. The curriculum has been designed to involve medical students in a broad range of human health problems throughout their education and to prepare them for effective working relationships with patients, colleagues and society.

Postgraduate training programs currently include: Anesthesia (and subspecialties), Clinical Investigator Program, Family Medicine (and subspecialties), Internal Medicine (and subspecialties), Laboratory Medicine (and subspecialties), Obstetrics and Gynecology (and subspecialties), Oncology (and subspecialties), Pediatrics (and subspecialties), Psychiatry (and subspecialties), Public Health, Radiology (and subspecialties), and Surgery (and subspecialties).

More details on these postgraduate programs are available from the Postgraduate Medical Education Office.

Three-Year Program

UNDERGRADUATE MEDICAL (MD) PROGRAM

The three-year program in Medicine uses a problem-based approach to learning that should apply throughout the physician's career. The components have been organized in sequential blocks with early exposure to patients and case management.

UNDERGRADUATE MD PROGRAM GOALS

The Undergraduate MD Program at McMaster University fosters a cooperative, supportive and respectful environment. The curriculum evolves continuously, responsive to the changing needs of Ontario society, nurturing the development of the following competencies at the time of graduation:

1. **Medical Expert:** Students will be able to apply scientific principles from human biology, behaviour and population health to the solution of health problems; they will have the ability to seek out new information and evaluate this information critically.
2. **Communicator/Collaborator:** Students will demonstrate effective communication skills, sensitive to the needs of patients and cognizant of the roles of other members of the health care team in delivering patient care.

3. **Advocate/Resource Manager:** Graduating students will be knowledgeable about the determinants of health and be proactive advocates for their individual patients and for healthy public policy within the context of the health care system.
4. **Scholar/Learner:** Students will be self-directed lifelong learners, whose exposure at McMaster to role models in research and clinical care will encourage them to apply innovative approaches to solving health care problems.
5. **Self-Reflective Practitioner:** Graduating students will be expected to have developed an awareness of the influence of their attitudes, values and assumptions, how these affect their practice of medicine and the impact of the practice of medicine on themselves as individuals.

The specific competencies in which students will be trained and that students must demonstrate by completion of the program can be found here: <https://mdprogram.mcmaster.ca/md-program/our-curriculum/what-is-compass>.

THE PRE-CLERKSHIP CURRICULUM

The Pre-Clerkship curriculum focuses on the mastery of fundamental concepts in medicine. It continues the McMaster tradition of Problem-Based Learning and incorporates important research findings from cognitive psychology. The curriculum is structured on the integration of critical concepts and each step of the curriculum is based on the growth of important concepts learned previously. The central focus of the Pre-Clerkship program is the tutorial. Tutorial problems are selected to illustrate concepts in a clinical setting and when students are exploring tutorial problems, they will be directed towards asking questions of "what", "why" and "how".

The Pre-Clerkship curriculum is divided into five foundations: four Medical Foundations that provide an introduction to all major organ systems and an Integration Foundation that focuses on the purposeful and structurally-supported consolidation of important concepts to improve readiness for Clerkship. A novel feature of the curriculum is a horizontal Professional Competencies curriculum which runs throughout the three years of the program. There is also elective time.

LEARNING METHODS

In the Pre-Clerkship Foundations, students are presented with a series of tutorial problems, requiring the understanding of underlying biological, population and behavioural principles, the appropriate collection of data and the critical appraisal of evidence. Learning by a process of inquiry is stressed. The class is divided into small groups of 6 to 8 students, each with a tutor. In the tutorial session students develop a series of learning objectives from each tutorial case and negotiate how they will approach their learning tasks. They then acquire the knowledge and skills to meet the objectives of the Foundation in which they are working. They also learn to work as a team, helping and learning from peers. The study habits and sense of responsibility to self and others provide a basis for lifelong working and learning habits.

In the Professional Competencies curriculum, students work in groups of 8 to 10, with two facilitators, one an MD, the other a clinician from an allied health care field. Learning formats include large group sessions, small group tutorials, work with standardized patients, role-plays, written projects and reflections which are collected as the student's Reflective Physician Portfolio.

To achieve the objectives of the Undergraduate Medical Program, students are introduced to patients within the first Foundation of the curriculum. In this way, students understand the relevance of what they are learning, maintain a high degree of motivation and begin to understand the importance of responsible professional attitudes. Students admitted to the Undergraduate Medical Program have the responsibility and privilege of taking an active role in the planning and evaluation of the education program. Through representation on most policy-making and implementing committees, students can influence decisions in such areas as education, philosophy, faculty recruitment and curriculum design. It is expected that all students will participate in the continuing reappraisal and

improvement of the program. Such participation is a hallmark of the Program.

STUDENT ASSESSMENT METHODS

The assessment format has been designed to complement learning in the Undergraduate Medical Program. Assessment methods have been developed to measure how well the student achieves the stated educational objectives in the various components of the program. Continual assessment of students occurs within all small-group learning experiences. Students are expected to conduct self-assessment, as well as participate in the assessment of other students in their small groups. Students will also be assessed by faculty and residents, including tutors in problem-based learning tutorials, longitudinal facilitators in Professional Competencies, and preceptors in clinical skills. Several short, low-stakes assessment exercises occur during each Foundation and at regular intervals during the Professional Competencies component of the program. Tutors complete a summary of student learning progress at the completion of each Foundation reflecting student self-assessment, peer assessment, clinical skills preceptor assessment, and performance on assessment exercises, incorporating the tutor's progress assessments throughout the Foundation. At the completion of the Foundation or the Professional Competencies assessment period, the tutor or facilitator is responsible for the final summary statement of student learning progress. Longitudinal Facilitators complete a summary of student learning progress at the completion of Medical Foundations 2, 4 and Integration Foundations based on student self-assessment, peer assessment, performance on written and skills assessments, incorporating the facilitators' progress assessments throughout the preceding assessment period. The Professional Competencies assessment at the conclusion of the Integration Foundation serves as the final Professional Competencies assessment that will be reflected on students' transcripts.

Elective supervisors complete a summary of student performance at the completion of each elective, including as assessment of the student's progress on achieving the proposed learning objectives.

Core clinical rotation supervisors complete a summary of student performance at the completion of each rotation. These assessment summaries reflect student clinical assessments by faculty and residents, written assessments, and assignments unique to each clinical rotation.

In addition to the component-based assessment, the accumulation of medical knowledge is assessed at regular intervals by means of the Personal Progress Index. This is in a multiple-choice format. Results are available to the students for self-assessment and, in summary form, to the Student Advisor. The Personal Progress Index is in addition to, and does not replace, tutorial- and other performance-based assessment. The Program monitors student progress, and provides support for students showing persistently low progress.

The acquisition of clinical and professional skills is assessed by clinical skills preceptors in each Foundation and in Clerkship. Also, students participate in an Objective Structured Clinical Examination (OSCE) on an annual basis.

All student assessment data described above is available to students and their advisors via the online Medical Student Information System (MedSIS).

The Program Evaluation and Student Assessment Committee (PESA) has the responsibility of working with the Medical Program to assist with the development and implementation of psychometrically sound assessment methods to provide timely and helpful information to assist students and faculty in assessing student progress. Continuation in the Program is subject to satisfactory performance.

- ii. chronic illness; and,
 - iii. concepts centering on immunology, host defense, and neoplasia.
- The Integration Foundation allows students to consolidate medical concepts and skills, clinical skills, and professional competencies, offering an opportunity to enhance clinical transfer and support students' transition to and readiness for Clerkship.

PROFESSIONAL COMPETENCIES

The Professional Competencies curriculum is longitudinal. There are seven learning domains of this component of the curriculum: effective communication; health equity and determinants of health; interprofessional education; medical decision-making; moral reasoning and ethical judgment; professionalism and self-awareness; and social, cultural, and humanistic dimensions of health. The Professional Competencies curriculum is a safe learning lab for the acquisition of the dynamic and fluid reasoning and interpersonal skills required to be a physician. In their groups, students have the chance to practice many skills.

During the Clerkship, the curricular content relating to the Professional Competencies domains becomes integrated into the core teaching in each clerkship rotation and is developed by the clerkships in their own formats.

CLERKSHIP

Clerkship is the prime opportunity for students to participate in the direct care of patients while continuing to learn the knowledge, skills and attitudes required to become a physician. The Clerkship curriculum is firmly linked to the Pre-clerkship concept-based curriculum and includes continuation of the Professional Competencies curriculum. The student moves from tutorial cases developed around simulated patient scenarios to experiencing the care of real patients and populations. Students integrate their skills of learning and assessment into the hospital and clinic environments. Students experience three phases of Clerkship: Transition to Clerkship, Clerkship Foundations, and Transition to Residency. The core and electives rotations occur in the last two phases. Students continue to have periods of dedicated teaching time throughout the core clerkship program in all three phases. This clerkship-specific curriculum delivery includes: large group sessions, small group tutorials, in-person and virtually-delivered sessions, on-line modules, and guided self-study.

Students begin with Transition to Clerkship in Fall. Students move into Clerkship Foundations, which consists of 42 clinical weeks: seven 4-week core rotations (Internal Medicine, Surgery, Family Medicine, Psychiatry, Pediatrics, Obstetrics and Gynecology, and Emergency Medicine), two 2-week cores (Anesthesia and Orthopedic Surgery) and six 2-week electives.

The Clerkship Foundations program has six 2-week Clerkship Electives to allow students to hone their skills and explore a variety of clinical areas as well as have the opportunity for dedicated research time. Transition to Residency (TtR) consists of 16 weeks of rotations and will begin after the Clerkship Foundations ends. Students in TtR will have an opportunity to function as "senior" clinical clerks. This is a new revised Clerkship model for McMaster, which provides a dedicated senior Clerkship training period. These two-week rotations will focus on ensuring students have generalist "residency-ready" clinical skills, knowledge, and attitudes within each of the TtR rotation areas (Specialty Selectives, Internal Medicine, Surgery, Pediatrics, Family Medicine, Psychiatry and two 2-week Electives).

The Clerkship rotations take place in hospitals and clinics in the Hamilton, Niagara, Waterloo Regional Campuses as well as the MacCARE Clinical Education Campuses: Grand Erie Six Nations, Burlington, Halton and Osler. In the winter of their third year of medical school, students have a three-week break aligning with the national residency interview period.

ELECTIVES

Elective studies form an integral part of the Curriculum Plan. They may be considered the epitome of self-directed learning, since students must define goals for electives which are appropriate for their own learning objectives. These objectives represent specific areas of educational need or interest. The responsibility for planning electives rests with each student in collaboration with the student advisor.

The two types of electives in the Undergraduate Medical Program are:

1. **Block Electives:** These are blocks of curriculum time dedicated to full-time elective activities. Their satisfactory completion is a mandatory component of the Undergraduate Medical Program. Block Electives occur after Medical Foundation 4 and during the Clerkship, for a total of 23 weeks. To achieve disciplinary diversification, students must adhere to the National Diversification Policy.

https://www.medportal.ca/sf-docs/default-source/electives/ug-national-electives-diversificationpolicy.pdf?sfvrsn=fe381b4f_6electives/electives_diversification_policy.pdf?sfvrsn=4

2. **Horizontal Electives:** These observership/shadowing experiences are undertaken concurrently with other parts of the curriculum during pre-clerkship. Horizontal electives are entirely optional, not being required for completion of the program, but are used to explore or review a specific area of knowledge or practice in more detail.

It is particularly important that the student's advisor be involved in all decisions concerning the selection and carrying out of horizontal electives.

CONCEPT INTEGRATION AND REVIEW (CIR)

Concept Integration and Review (CIR) is the final course of the Program spanning 5 weeks. It begins with one week after the residency interview break and continues for 4 weeks after the last Transition to Residency Clerkship blocks. The goals of the block are to help students review and synthesize important concepts that are essential for transitioning to postgraduate medicine programs and to help prepare students for the MCCQE Part 1 Licensing Exam through concept review and exposure to test-taking strategies. Dedicated self-study time throughout the block is provided and students are expected to review content prior to attending scheduled sessions. Large group sessions focus on highlighting key concepts and test-taking skills are provided by content experts.

ENRICHMENT PROGRAM

The purpose of the Enrichment Program is to stimulate an interest in research and scholarly activity among medical students and to attract some to careers in academic medicine and medical research. These experiences will not normally begin until the Pre-Clerkship is completed. Applications will not be considered for the Post-Clerkship period.

MD/PH.D. PROGRAM

The McMaster MD/PhD Program has been training future clinician-scientists since 2007. The rapid pace of healthcare-related research and discovery requires exceptional people who are trained to bridge the gap between basic sciences and clinical application. The McMaster MD/PhD program combines the strength of a unique, patient-oriented medical education with a strong, internationally renowned healthcare research environment.

At present time, students enrolled in the MD/PhD program may carry out the PhD component of their studies in one of the following graduate programs affiliated with the Faculty of Health Sciences at McMaster University: Medical Sciences, Biochemistry, Health Research Methodology, Neurosciences, Biomedical Engineering, Chemical Biology and Health Policy. Minimum criteria for admission is a 4-year Honours BSc or BHSc with a Grade Point Average (GPA) of 3.8 or greater on a 4 point scale in the final two years of Bachelor's degree study (with an overall 4-year GPA of at least 3.00/4.00), and a score of 127 or higher on the Critical Analysis and Reasoning (CARS) section of the MCAT. The MCAT must be written within five years of the application year. Please note that McMaster will use the most recent MCAT score for those who write the MCAT more than once.

As some PhD programs may have additional requirements specific to their program, applicants should review the relevant sections of the McMaster School of Graduate Studies Calendar.

Eligible students will have a proven record of research involvement at the undergraduate or graduate level. Existing in-program Master's students or students in their first year of PhD training in an eligible Health Sciences Affiliated Graduate program at McMaster University are also welcome to apply to the MD/PhD Program with the written consent of his or her research supervisor. Students from other Universities may apply if they will finish their graduate degree requirement before enrolling in the McMaster MD/PhD program. Existing McMaster MD students with a strong research background are also welcome to apply in their first year of medical school.

To apply to the MD/PhD Program, applicants must submit a separate application in the McMaster MOSAIC system, in addition to the OMSAS application. To gain admission, applicants must be accepted to both the MD Program at the Michael G. DeGroote School of Medicine and one of the PhD programs listed above. Application to the MD component is through OMSAS and must be submitted by the deadline they set. The PhD component of the application is due on November 1st of the application year. Further information and the PhD application can be found at:

<http://fhs.mcmaster.ca/mdphd/>

REGULATIONS FOR LICENCE TO PRACTISE

A degree in medicine does not in itself confer the right to practise medicine in any part of Canada. To acquire this right, university graduates in medicine must hold a certificate of the College of Physicians and Surgeons of the province in which they elect to engage in practice. Post-graduate learners (residents) in Ontario will be required to register with the College of Physicians and Surgeons of Ontario (CPSO). Students intending to practise outside Ontario are urged to consult the licensing body of that province regarding registration as residents.

Licensing requirements vary somewhat among the provinces. The current Ontario requirements for issuance of a Certificate of Registration Authorizing Independent Practice are:

1. Certification by the Royal College of Physicians and Surgeons of Canada or the College of Family Physicians of Canada;
2. Parts I and II of the Medical Council of Canada Qualifying Examination;
3. Canadian Citizenship or Landed Immigrant Status.

CANADIAN RESIDENT MATCHING SERVICE (CARMS)

The Matching Service is a clearing-house designed to help final year medical students obtain the post-MD program of their choice, and to help program directors obtain the students of their choice. It provides an orderly method for students to decide where to train and for program directors to decide which applicants they wish to enroll. For both students and directors, it removes the factors that generate unfair pressures and premature decisions. In the winter of their third year of medical school, students have a three-week break aligning with the national residency interview period.

BASIC LIFE SUPPORT TRAINING

All students are required to provide evidence of a current Basic Life Support (BLS) for Health Care Providers (C) certificate (i.e. Red Cross CPR/AED Level HCP; St. John Ambulance Level C HCP; Heart and Stroke BLS for Healthcare Provider C) by July 31st of the year of entry. Information is sent to successful applicants prior to registration. The cost of this course is the responsibility of the student. Courses are readily available in most communities.

HEALTH SCREENING

Learners in the Undergraduate Medical Education Program will participate in courses which include clinical activities with direct patient contact and standardized patients and are therefore required to complete the Faculty of Health Sciences health screening requirements prior to program start as well as annual updates during the program. Failure to do so will result in suspension of clinical activities. Information will be sent to successful applicants prior to registration. For more information, see:

<https://fhs.mcmaster.ca/healthscreening/>

POLICE RECORDS CHECK

Through the course of their medical school program, all medical students will serve vulnerable populations. In an effort to protect these vulnerable people against potential risk of harm, the Ontario Faculties of Medicine and many clinical agencies require that all medical students provide an annual Vulnerable Sector Check (VSC). As a condition of continued registration, students must submit an original VSC by July 31st of their incoming year and in each academic year for which they are registered prior to their current one expiring. VSCs are considered valid for one calendar year from the date of issue. VSCs are site specific therefore McMaster University must be listed as the requesting institution.

A Vulnerable Sector Check will include the following information:

- Criminal convictions from the National Canadian Police Information Centre (CPIC) database and/or local databases
- Summary convictions, for five years, when identified
- Findings of Guilt under the Youth Criminal Justice Act within the applicable disclosure period and only for persons applying for a position with a government agency (federal, provincial, municipal)
- Outstanding entries, such as charges and warrants, judicial orders, Peace Bonds, Probation and Prohibition Orders
- Absolute and conditional discharges for 1 or 3 years respectively
- Non-conviction dispositions including, but not limited to, Withdrawn and Dismissed and where it meets the Exceptional Disclosure Assessment
- Not Criminally Responsible by Reason of Mental Disorder
- All record suspensions as authorized for release by the Minister of Public Safety

Files of applicants who have presented a Not Clear Vulnerable Sector Check will result in consideration by the Police Records Check Advisory Panel as outlined in the FHS Police Record Check Policy (<https://fhs.mcmaster.ca/pcbe/documents/FHSPoliceRecordCheckPolicyJune262019.pdf>).

LAPTOP REQUIREMENT

The MD Program delivers lectures and course materials online, and communications with students and faculty between the three campuses through the use of email as well as various software programs, including web conferencing capabilities.

TRANSPORTATION COSTS

Students are expected to travel outside their home campus area for mandatory teaching sessions, clinical placements and clerkship rotations. Students are responsible for their own transportation and associated costs in order to complete program requirements. It is anticipated that further rotations will be developed in rural, under-served and remote areas. In certain cases, there will be some external funding available.

For students who are accepted into the Waterloo Regional Campus and the Niagara Regional Campus, the first Medical Foundation will be spent in Hamilton and students will be expected to cover the cost of commuting and/or accommodations. Program changes in response to Covid-19 may alter these arrangements. Students will be notified of such changes with as much notice as possible. Each Regional Campus is approximately a one-hour drive from Hamilton.

The elective experience can be spent in various activities utilizing local, regional or distant resources. Students are expected to cover all transportation and associated costs for electives. Funding may be available for elective travel expenses through a number of funding programs.

ADMISSION POLICY FOR THE UNDERGRADUATE MEDICAL PROGRAM

The official admission policy and deadlines for the Undergraduate Medical Program shall be as published in the Ontario Medical School Information Booklet. This booklet is available through:

Ontario Medical School Application Service (OMSAS)

170 Research Lane

Guelph, Ontario, N1G 5E2
 (519) 823-1063
<http://www.ouac.on.ca/omsas>
omsas@ouac.on.ca

Please note that the admission policy is reviewed annually, and the admission requirements from the previous year may not apply. Because of the nature of the selection procedures, deadlines are strictly enforced. All relevant documentation must be provided by the specified deadlines. Applicants must follow the instructions precisely. All applicants should be aware that the Admissions Office is committed to the protection of personal information. Use of personal information is strictly limited to the appropriate handling of applications, record-keeping for those admitted to the program, and research intended to further the efficacy of Medical Education Program procedures. **The University reserves the right to change the admission requirements at any time without notice.**

ADMISSION AND REGISTRATION

Registration in the Undergraduate Medical Program implies acceptance by the student of the objectives of the program, and the methods which evaluate progress toward the achievement of those objectives. The following describes the regulations governing admission and registration in the Undergraduate Medical Program. The final application deadline is October 1st. **The deadline is strictly enforced.**

ADMISSION POLICY AND PROCEDURE

The intention of the McMaster Undergraduate Medical Program is to prepare students to become physicians who have the capacity and flexibility to select any area in the broad field of medicine. The applicant is selected with this goal in mind. Faculty, medical students and members of the community are involved in the admissions process.

Application to the medical program implies acceptance by the applicant of the admission policies and procedures, and the methods by which candidates are chosen for the program. Applicants who will not be ready or able to begin studies as expected may withdraw their applications without prejudice.

Application fees cannot be refunded.

Several hundred applicants will be invited for an interview in March or April. From this group a class of 203 is selected.

All applicants are notified in writing, by McMaster University, of the results of their application. These letters will be sent electronically to applicants on the second Tuesday in May.

FALSIFICATION OF ADMISSION INFORMATION

Applicants should understand that where it is discovered that any application information is false or misleading, or has been concealed or withheld, the application will be deemed to be invalid. This will result in its immediate rejection. If the applicant has already been admitted and registered as a student, withdrawal from the University may be required. The MD Admissions Committee will normally not allow the applicant to reapply to the Medical Program for seven (7) years.

ESSENTIAL SKILLS AND ABILITIES REQUIRED FOR ENTRY TO A MEDICAL DEGREE PROGRAM

The Ontario Faculties of Medicine are responsible to society to provide a program of study that graduates Doctors of Medicine with the knowledge, skills, professional behaviours and attitudes necessary for postgraduate medical training and independent medical practice in Canada. Graduates must be able to diagnose and manage health problems and provide comprehensive, compassionate care to their patients. For this reason, students in the MD program must possess the cognitive, communication, sensory, motor, and social skills necessary to interview, examine, and counsel patients, and competently complete certain technical procedures in a reasonable time while ensuring patient safety.

In addition to obtaining an MD degree, and completing an accredited residency training program, an individual must pass the licensure examinations of the Medical Council of Canada (MCC) in order to practice medicine in Canada.

Therefore, MD programs have embedded expectations of both knowledge- and skills-based competencies. Prospective candidates should be aware that cognitive abilities, physical examination proficiencies, management skills, communication ability, and professional behaviours are all evaluated in timed simulations of patient encounters.

All students must therefore have the required skills and abilities described in the Section on Technical Standards. These are standards that are necessary for success in the MD Program, and to be sufficiently competent to participate in supervised residency training. All individuals are expected to review this document to assess their ability to meet these standards. The document can be found at <https://mdprogram.mcmaster.ca/md-program-admissions/who-should-apply>.

ACADEMIC ELIGIBILITY REQUIREMENTS

All applicants must fulfill the requirements described below:

- By May of the year of entry, applicants must have completed a minimum of three years of undergraduate work. To satisfy the minimum requirements, academic credentials obtained from a Canadian University must be from an institution with academic standards and performance consistent with those of member institutions of the Council of Ontario Universities (COU). The applicant must be able to demonstrate a high level of academic achievement consistently throughout their undergraduate career.
- A minimum of 15 full-courses, or 30 half-courses (three years) of Undergraduate university work from a recognized university is required. There is no requirement that applicants carry a full course load. Marks from supplementary and summer courses will be included in the grade point average calculation. If requested, applicants must provide evidence that this requirement has been met by May 30th of the year of entry. Courses graded only by the assignment of Pass or Credit are counted for credit, but will not be included in the GPA calculation. In this case, a minimum of five half-year or five full year courses with letter or numerical grades is required.
- An applicant who has completed a diploma at a CEGEP must have completed by May of the year of entry, at least two additional full academic years of degree credit work at an accredited university.
- Applicants who have completed the requirements for a baccalaureate degree in less than three years by the October 1st deadline, are also eligible.
- By October 1st, applicants must have achieved an overall simple average of at least a 3.0 on the OMSAS 4.0 scale. While an overall simple average of at least 3.0 on the OMSAS 4.0 scale meets the minimal criterion for consideration for admission, prospective applicants should be aware that given the rapidly rising level of competition for a limited number of positions, a significantly higher GPA would provide them with a more reasonable chance of admission. Due to changes from year to year in the level of competitiveness, an exact figure in this regard cannot be provided.
- Medical College Admissions Test (MCAT) - The MCAT is required for application and must be written within five years of the application year. The score from the Critical Analysis and Reasoning section will be used in both formulae (offer of interview and offer of admission). A minimum score of 123 on the Critical Analysis and Reasoning component is required. All other MCAT component scores **will not be considered** in the selection process. For those applicants who write the MCAT more than once, the score from the most recent MCAT will be used.
- Computer-based Assessment for Sampling Personal characteristics (CASPer): All applicants to the Michael G. DeGroote School of Medicine, McMaster University will be required to complete a 90 minute computer-based test, called CASPer, as part of the selection process. CASPer is a web-based assessment of interpersonal skills and decision-making, to be completed at a computer. Applicants must register for CASPer, which is offered in the Fall of each application year, at www.takecasper.com. No other aspects of the application will be considered if these requirements are not met.

INDIGENOUS APPLICANTS

With an understanding that Indigenous learners can face specific barriers or challenges when pursuing higher education, schools and programs within McMaster's Faculty of Health Sciences have facilitated admissions streams for applicants with Indigenous North American (First Nations, Inuit or Métis) ancestry. This process is intended to provide equitable access to Indigenous applicants and aligns with the intent of the Truth and Reconciliation Commission of Canada Calls to Action. Applicants wishing to apply through McMaster's FIAP need to complete the self-identification application in addition to the McMaster University and program specific application processes. The FIAP application is submitted to McMaster's Indigenous Health Task Force (IHTF) through the ISHS office website.

Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>. One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant is applying to multiple programs. Applicants identify the program(s) they are applying to on the Self-identification Application. The applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they are applying to in addition to completing any other application required for that program(s). If applicants are applying to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by the earliest deadline date.

Indigenous applicants are also required to complete the Undergraduate MD Program application package as provided by the Ontario Medical School Application Service (OMSAS).

Applicants must meet the same minimum academic criteria for admission as described in the "Academic Eligibility Requirements" section.

* In order to reduce barriers for Indigenous applicants, provision of MCAT critical analysis and reasoning score may be deferred beyond October 1st. Those Indigenous applicants wishing to delay taking the MCAT until after invitations to interview are sent out are free to do so, but should be aware that they **MUST** forward a minimum MCAT critical analysis and reasoning score of 123 or higher to the Admissions Office by the offer date (the second Tuesday in May), in order to maintain eligibility. Indigenous applicants wishing to explore this option should book their MCAT in the Fall to be certain of a spot. A cancellation fee would be applied by MCAT if the applicant is not successful in obtaining an interview and subsequently cancels their MCAT test.

BLACK-EQUITY STREAM (BEST)

As a part of McMaster's Michael G. DeGroote School of Medicine's commitment to equity in medical school admissions, we are introducing a Black-Equity Stream for the 2022/23 application cycle. This process is intended to provide equitable access to Black applicants and aligns with the McMaster MD Program's commitment to the principles of equity, diversity, inclusion and social justice in all that we do, and McMaster University's statement on Building an Inclusive Community with a Shared Purpose <https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/>.

All the applicants applying through BEST are required to complete the Undergraduate MD Program application package as provided by the Ontario Medical School Application Service (OMSAS) by the specified deadline, where they will self-identify to indicate their interest.

A supplementary application which will accompany their application, consisting of a personal essay from the applicant to describe their interest in applying through the BEST, is also required. Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates.

GEOGRAPHICAL CONSIDERATION

The geographical status of the applicant is determined from the Autobiographic Sketch. Applicants may be asked to provide evidence of geographical status. In selecting applicants for interview, the bona fide place of residence will

be based upon: 1) the province of Ontario; or 2) the rest of Canada and other countries. To qualify for Ontario status, an applicant must be a Canadian citizen or permanent resident of Canada by October 1st, and have resided for at least three years in the province of Ontario since the age of 14 by the date of possible entry into the program.

APPLICANTS CURRENTLY OR PREVIOUSLY REGISTERED IN A CANADIAN OR US MEDICAL SCHOOL

Typically, the Michael G. DeGroote School of Medicine, McMaster University, does not admit students registered (currently or previously) in medical school in Canada or the United States. Should an applicant wish to pursue admission in this case, the Admissions Committee will require a letter outlining the extenuating circumstances guiding the application to McMaster. The letter should clearly address why the move to a new and different medical school is necessary, compelling, and unable to be addressed at the current/previous medical school. The Admissions Committee reserves the right to investigate and confirm the claims made in the letter. This may include contacting the current or previously attended medical school.

TRANSCRIPT REQUIREMENTS AND TRANSCRIPT REQUEST FORMS (TRF)

All transcripts must be ordered by OMSAS via the Transcript Request Form (TRF) where that procedure has been established. Applicants must request all other transcript materials prior to September 15th, to allow adequate time for processing requests and for receipt at OMSAS by the prescribed deadline. If an applicant is registered at a post-secondary institution at the time of the application deadline and that registration is not reported on the transcript, the applicant must arrange to have the Registrar of the institution send a **Statement of Registration** to OMSAS by October 1st. This statement must indicate the in-progress course name(s) and number(s). Evidence to show that applicants requested transcripts and Registrar statements in a timely fashion may be requested by McMaster University. Applicants should retain all receipts and correspondence related to their transcript request.

It is **entirely the applicant's responsibility** to ensure that all of the above are received at OMSAS by October 1st. **Failure by the applicant to meet these requirements will result in the disqualification of the application.**

All transcripts must be submitted directly to OMSAS by the post-secondary institutions attended. McMaster requires that applicants provide transcripts of all courses/programs attended at any post-secondary institution. This includes community colleges, CEGEPs, junior colleges, pre-university programs, etc. Failure by the applicant to comply with the instructions or to meet the deadlines will result in disqualification of the application.

GRADUATE STUDENTS

Those applicants with a completed and conferred Master's or Ph.D. at the time of application will receive a small amount of extra weighting in the formula used to determine the likelihood of invitation to an interview. Individual grades for course work taken as part of a graduate degree will not be included in the calculation of the grade point average.

Graduate students enrolled in a graduate program at the time of application must arrange for their Supervisor, a member of their Supervisory Committee, or the Chair of the Department to provide a letter indicating they are aware the applicant is intending to apply to medical school. Applicants should arrange for this letter to be received at OMSAS by October 1st. If the applicant's graduate degree supervisor is acting as one of their references, a second letter is not required.

CREDENTIALING OF NON-CANADIAN GRADES

Applicants, Canadian or non-Canadian, who have not met the minimum course **number** criterion utilizing their Canadian data and require inclusion of their international education data to meet the minimum course number criterion are required to have their foreign transcript assessed by World Education Services (WES). Credentialing assessment means converting foreign academic credentials into their Ontario educational equivalents. A course-by-course evaluation along with the calculation of an overall GPA is required. Applicants

must have their transcripts sent directly from their university to WES and OMSAS and be able to prove (with dated letter and dated post office receipt) that an attempt was made to have the transcript issued by their university and sent to OMSAS by October 1st. Those requiring WES assessment must also ensure that transcripts are received by WES in time for their assessment to reach OMSAS by October 1st. A WES Assessment is not required for courses or programs completed on foreign exchanges.

ENGLISH LANGUAGE PROFICIENCY

Applicants whose first language is not English must satisfy by October 1st, at least one of the following conditions:

1. Provide evidence of a combined score on the TOEFL iBT test with an overall score of at least 86 with minimum scores of 20 in each of the four components, or the equivalent on other recognized tests has been achieved (McMaster University code for TOEFL test score submissions is #0936); or
2. Have attended an educational institution, where instruction was in English, for at least three years; or
3. Have resided for at least four years in an English-speaking country.

INTERVIEWS

Several hundred applicants will be invited to interview.

The interview process entitled the Multiple Mini Interview (MMI), is primarily composed of a series of 8-10 ten-minute encounters over a two-hour period. For the 2021-2022 application cycle, the MMI will be held virtually.

SELECTION

All the information resulting from the process described above, as well as the Confidential Assessments from referees, may be reviewed and used in the final selection. Applicants will be notified in writing, by McMaster University, of the results of their application. These letters are sent electronically to applicants on the second Tuesday in May. Anyone accepting an offer of admission must provide, within two weeks of acceptance, a deposit in the amount of \$1,000 (Canadian), non-refundable, which will subsequently be applied towards tuition. The MD Program begins in early-August. Students accepting their offer of admission must be available to begin the program on the schedule start date and must attend all day-time program-related sessions.

APPLICATION FOR DEFERRED REGISTRATION

Deferred registration may be granted **only** under **exceptional** circumstances. The request for deferral must normally be submitted within two weeks of the offer of admission and will be considered by the UGME Deferral Board. Deferral for parental/family, illness or other personal/compassionate reasons may be considered if received after this deadline where circumstances did not allow the applicant to meet the deadline.

INTERNATIONAL APPLICANTS

Interested International applicants may apply through the regular process. International (Visa) students should be aware that admission to the Undergraduate MD Program does not confer eligibility to apply subsequently through the Canadian Residency Matching Service (CaRMS) for a residency training position in Canada. Applicants should check the CaRMS web site (<http://www.carms.ca/>) for further information.

APPLICANTS CURRENTLY OR PREVIOUSLY REGISTERED IN A CANADIAN OR US MEDICAL SCHOOL

Typically, the Michael G. DeGroot School of Medicine, McMaster University, does not admit students registered (currently or previously) in medical school in Canada or the United States. Should an applicant wish to pursue admission in this case, the Admissions Committee will require a letter outlining the extenuating circumstances guiding the application to McMaster. The letter should clearly address why the move to a new and different medical school is necessary, compelling, and unable to be addressed at the current/previous medical school.

The Admissions Committee reserves the right to investigate and confirm the claims made in the letter. This may include contacting the current or previously attended medical school.

ADVANCED STANDING/TRANSFER

The structure of the McMaster Program requires that all students begin in Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

UNSUCCESSFUL APPLICANTS

Application files, including transcripts, from one year are not held over to another year. If an unsuccessful applicant wishes to reapply, a new application package, including supporting documentation must be submitted, using the OMSAS Application and the OMSAS Information Booklet, for the new admission selection cycle.

RETENTION OF DOCUMENTS

All documentation submitted in support of an application for admission becomes the property of the University and is not returnable. If an applicant is not accepted, or fails to enroll following acceptance, the identifiable documentation will be destroyed at the end of the admissions cycle in keeping with university policy.

FINANCIAL INFORMATION

Financial difficulties are among the most frequent problems experienced by students in undergraduate medical schools. At McMaster, these are intensified by the lack of opportunity for summer employment.

In this situation, it is incumbent on students admitted to the MD Program to clarify immediately their personal financial situation and to secure or identify sufficient support to meet their financial obligations over the subsequent three years. The Undergraduate MD Program cannot assume this responsibility. In 2021-2022, the academic fees (tuition and student supplementary fees) for a student in the McMaster Undergraduate Medical Program were:

CANADIAN CITIZENS AND LANDED IMMIGRANTS

Year I	\$26,130.40 (OOP \$26,884.29)
Year II	\$26,130.40 (OOP \$26,130.40)
Year III	\$26,130.40 (OOP \$26,130.40)

INTERNATIONAL (VISA) STUDENTS

Each Year	\$96,000.44
------------------	-------------

In addition, the cost of books and diagnostic equipment for a Year I student was approximately \$3,000. It is strongly recommended that students purchase the full complement of medical equipment necessary for clinical skills.

Equipment lists and special prices will be offered to medical students within the first few months of medical school. Students are also responsible for their transportation costs related to their training.

Financial assistance is available to Ontario residents from the federal and provincial governments through the Ontario Student Assistance Program (OSAP). To be eligible a student must be a Canadian Citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario. Students who are legal residents of other provinces need to check with their respective provincial financial aid programs about eligibility for support prior to acceptance. In addition, the following sources of funding are available to undergraduate medical students:

BURSARIES

There is a bursary program which has been developed by the Faculty of Health Sciences and the central University campus. Bursaries are awarded to students who are Canadian citizens and demonstrate financial need. All bursaries are distributed during the late fall of each year. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of medical education.

The Undergraduate Medical Program has in the past indicated its preparedness to recognize students who distinguish themselves and the University by virtue

of their scholarship and their contribution to the university community. At the same time, the School has indicated that the terms of reference for such awards should neither compromise the spirit of cooperative scholarship which characterizes its MD Program nor replace its priority of concern for assisting those students with the greatest financial need.

A growing number of estates and agencies have donated funds to the University and the Undergraduate Medical Program for purposes of recognizing scholastic merit among medical students. In order to meet the requirements of these awards within the spirit of cooperative scholarship, these funds are available to support individual students in their pursuit of specific elective projects or activities. MD Program Donor Bursary applications can be accessed through AwardSpring during the annual UGME Bursary Program in September/October.

PROGRAM MANAGER

C. Gibson/B.A.

ACADEMIC ADVISORS

L. Thornton/B.A., M.Ed.

NOTE

The School of Nursing has a large number of part-time faculty appointed from health-care agencies. A complete list is available from the office of the Vice-Dean (Health Sciences) and Executive Director, School of Nursing.

The B.Sc.N. Program

In 1942, McMaster University began its first program in Nursing, a cooperative effort between the University and the Hamilton General Hospital. Since the establishment of McMaster University's School of Nursing in 1946, students have received a Bachelor of Science in Nursing (B.Sc.N.) degree upon graduation. In July 1974, the Schools of Nursing and Medicine became the Faculty of Health Sciences.

The B.Sc.N. Program promotes the development of nursing as a caring, client-centered, scientific and humanistic profession. With an emphasis on person-based learning within a problem-based approach, and group and self-directed learning, the program provides a baccalaureate education in nursing for the preparation of professional nurses who will practise in a variety of health-care settings. Central to our mission is the preparation of nurses who will work to advance the health and well-being of individuals, families, communities and society. In fulfilling its mission, the B.Sc.N. Program promotes skills in its graduates to prepare them for life-long, self-directed learning, critical thinking, evidence informed decision making, advocacy and collective action.

Provincial legislation on entry to practice requires all new graduating nurses to have a baccalaureate degree in nursing. In response, McMaster University, Mohawk College and Conestoga College have formed an educational consortium to offer the McMaster Nursing degree through the McMaster Mohawk Conestoga B.Sc.N. Program. Currently the Basic (A) and Accelerated (F) Streams are offered at the McMaster site. Students wishing to register in the B.Sc.N. Program at McMaster should pay particular attention to the information which immediately follows this introduction. The Basic (A) and Post Diploma R.P.N. (E) Streams are offered at the Mohawk and Conestoga sites. Students who wish to register in the B.Sc.N. Program at either Mohawk or Conestoga College should refer to the Collaborative B.Sc.N. (A) and (E) Stream references throughout the School of Nursing section of the Calendar. Students are advised to contact the Office of the Registrar or Admission Office at the respective site for additional information. **Please note that any information that is site specific is noted in the appropriate section of the Calendar; otherwise, information can be assumed to apply to students at all sites and in all streams of the B.Sc.N. Program.** In 2021 the B.Sc.N. Programs at McMaster, Mohawk and Conestoga received seven-year accreditation from the Canadian Association of Schools of Nursing, the highest level of accreditation possible.

In 2009, the B.Sc.N. Curriculum was renewed and is now called the Kaleidoscope Curriculum. The Curriculum is recognized as a responsive curriculum, one that continues to be updated based on both health and nursing care learning needs. All streams share a common curriculum in their final year of the program.

Students will be expected to meet the program goals that were in place the year in which they entered. All students from all years have seen a change in emphasis in small group, tutorial classes with a renewed focus on the McMaster model of nursing and nursing education which has been in place since 1989. Consistent with the philosophy, the person is re-emphasized as the central focus for learning, and person-based learning within a problem-based approach has been adopted. In addition, students are exposed to different ways of knowing including empirical, ethical, personal, aesthetic and emancipatory.

Four types of courses are taken within the curriculum: (1) nursing (NURSING) courses (professional practice and problem-based nursing concept courses); (2) required health sciences (HTHSCI) courses (e.g. anatomy, physiology, biochemistry); (3) elective courses (i.e. course taken from subjects of a student's choosing). Additionally, students in the Basic (A) Stream are required to complete psychology (PSYCH) courses as part of their program.

As students move through the program the focus of learning progresses in the following ways. In Levels I and II students are provided with a strong basis in the health and social sciences and are able to choose a variety of electives. They learn about themselves and their clients as individuals. The focus is on health, health assessment and the promotion of health. In Levels II and III students begin to consider the family and the community as client. Students begin to deal with more acute and complex situations. In Levels III and IV, there is a strong focus on nursing and the integration and appraisal of knowledge based on the different ways of knowing into client care in both the classroom and professional practice setting. Students also begin to consider health care from the national and global perspective. Students initially learn about the roles of nursing in health care and, through inter-professional education opportunities, they gain greater understanding of the inter-professional health care team.

There are three themes that encompass the concepts in the BScN Kaleidoscope Curriculum: 1) Personhood and Caring, 2) Context, Health and Healing, and 3) Learning and Knowing. It is acknowledged that a great deal of overlap exists across concepts and themes. A concept-based approach needs to be conceptual not only in structure, but also in process. Conceptual learning is a process by which students learn how to organize information in logical mental structures, thus challenging students to become increasingly skilled at thinking. Conceptual teaching and learning complement the constructivist paradigm in fostering critical inquiry and deep understanding through the connections students make to past learning, their application of concepts in multiple contexts, and their development of an understanding of interrelated concepts.

BSCN PROGRAM GOALS

The concepts and themes inform the goals for the BScN Program. Graduates of the McMaster University BScN Program will be prepared to provide competent professional practice in a variety of health care contexts and with diverse clients across the lifespan (individual, family, group, communities, populations) who have stable and unstable outcomes and multi-factorial influences (internal and external) on their health status. Graduates will:

1. Provide competent care with a holistic awareness of the impact of the internal and external context on health and healing.
2. Integrate an understanding of the client's unique perspective on his/her health, and how this perspective influences participation in one's health care.
3. Identify the need for appropriate change in health care. Create a climate for adopting change. Contribute to effecting and evaluating change.

4. Build relationships in a team environment and be actively engaged in team decision making around client care.
5. Contribute to the body of nursing knowledge through demonstrating an inquiring approach to practice.
6. Provide technologically appropriate care in a variety of contexts.
7. Contribute to the future of the nursing profession through a commitment to lifelong learning and professional growth. Integrate critical inquiry into professional practice.
8. Assume leadership roles in partnership with clients and the health care team.
9. Assume advocacy roles in partnership with clients and the health care team and challenge inequities that impact on the health of clients.
10. Practice within the professional standards, guidelines, legislation and values of the nursing profession.
11. Establish therapeutic partnerships with clients to enhance health and healing. Communicate effectively in a variety of media.

REGISTRATION TO PRACTISE NURSING IN ONTARIO

On receiving the B.Sc.N. degree after successful completion of the program, graduates are eligible to write the National Council Licensure Exam (NCLEX). The exam is administered by the College of Nurses of Ontario (CNO) as a requirement of registration to practice nursing in Ontario. To facilitate this process, the School of Nursing provides information to the CNO confirming each student's expected program completion term and verification of program completion. Students will be contacted in their final year of the program to consent to the release of this information to the CNO. If you have any questions related to practice as an R.N. or the Regulated Health Professions Act, please contact the College of Nurses of Ontario directly.

Admission Policy, Procedure, and Requirements

ADMISSION POLICY

Enrolment in all B.Sc.N. programs is limited. Possession of the minimum admission requirements does not guarantee an offer of admission.

Application to the B.Sc.N. Program in the Faculty of Health Sciences implies acceptance of admission policies, procedures and the methods by which applicants are chosen for the program. The selection method for all applicants is by academic qualifications and assessment of personal and professional characteristics.

There are three streams of study leading to the completion of the B.Sc.N. degree.

- **Basic (A) Stream** requires four years of full-time study, and is available to those applying directly from an Ontario secondary school with Grade 12 U or M courses; to those who have qualifications equivalent to Grade 12 U or M courses; and to applicants with other qualifications who meet the admission requirements. **Note:** *Any differences in the application process or course of studies are noted in the appropriate section below.*
- **Post Diploma R.P.N. (E) Stream** is available to diploma prepared Registered Practical Nurses only. Graduates of an approved Diploma Practical Nurse Program who are admitted are granted 30 units of advanced credit. This program requires three years of full-time study. **Note:** *The Post Diploma R.P.N. (E) Stream is offered only at Mohawk and Conestoga sites.*
- **Accelerated (F) Stream** is open to applicants who have completed another university degree or have completed a minimum of 54 units (2 years) of university degree credits. Applicants with a nursing background will not be considered for this Stream. This program is available on a full-time basis and requires five consecutive terms of study. **Note:** *The Accelerated (F) Stream is offered only at*

McMaster University.

Note: Effective September 2021, all applicants for the three streams will apply to OUAC (Ontario University Application Centre), selecting McMaster University BScN and the specific site(s) of interest.

The requirements and application deadlines vary depending on the applicant's background. An applicant supplying documentation or evidence which, at the time or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the program having submitted false documentation will be withdrawn.

The School of Nursing is committed to equality of opportunity. Disability is not grounds for exclusion from the School. Every attempt will be made to remove barriers and create accommodation provided any accommodation maintains the same academic and professional practice standards for all students and does not require significant program change. Applicants should consult Student Accessibility Services at (905) 525-9140, ext. 28652 or TTY (905) 528-4307. The College of Nurses of Ontario (CNO) has released a statement about Requisite Skills and Abilities for Nursing Practice in Ontario. This statement can be found at <https://www.cno.org/globalassets/docs/reg/41078-skillabilities-4pager-final.pdf>. The CNO states that "Individuals considering a career as a nurse in Ontario should review this document and assess their ability to meet the criteria. The requisite skills and abilities serve as a benchmark, outlining the requirements to meet the minimum standard necessary to ensure public safety." (CNO, pg 3)

ADMISSION PROCEDURE

MCMASTER B.SC.N. PROGRAM BASIC (A) OFFERED AT MCMASTER, MOHAWK AND CONESTOGA SITES AND ACCELERATED (F) STREAMS OFFERED ONLY AT MCMASTER SITE

Applicants From Ontario Secondary Schools to the Basic (A) Stream
Applicants currently completing Grade 12 U or M courses apply through the Ontario Universities' Application Centre (OUAC). <http://www.ouac.on.ca/>
Application forms are available in secondary school guidance offices or on-line at <http://www.ouac.on.ca/101>. Applications for all studies beginning in September must be received by OUAC no later than **January 15**. Note that this is a limited enrolment program.

Applicants With Qualifications Equivalent to Ontario Secondary School to the Basic (A) Stream

Applicants apply online to the Ontario Universities' Application Centre (OUAC) at <http://www.ouac.on.ca/>. Applicants must also have official transcripts forwarded from their secondary school to the Office of the Registrar by **January 15** (recommended).

Applicants With Other Qualifications to (A) Stream and Accelerated (F) Streams
Applicants apply online to the Ontario Universities' Application Centre (OUAC) at <http://www.ouac.on.ca/mcmaster.ca/nursing> by February 1. Applications for all studies beginning in September must be received by **February 1**.

- **Ontario Universities' Application Centre (OUAC)**

170 Research Lane

Guelph, ON, N1G 5E2

<http://www.ouac.on.ca/>

- **BScN Admission Team**

McMaster University, HSC-2J36

1280 Main Street West

Hamilton, ON, L8S 4L8

bscnadm@mcmaster.ca

Facilitated Indigenous Admissions to Basic (A) Stream and Accelerated (F) Stream

In accordance with the Self-Identification policy of the Faculty of Health Sciences, Indigenous (First Nations, Inuit and Métis) applicants who wish to apply to a program that has a facilitated Indigenous admissions stream must complete the supplementary Self-identification Application. Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>.

One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant applied to multiple programs.

Applicants identify the program(s) they applied to on the Self-identification Application. The applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they applied to in addition to completing any other application required for that program(s). If you applied to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by whatever the earliest deadline date is for the programs for which you have applied to.

MCMASTER B.SC.N. POST-DIPLOMA R.P.N. (E) STREAMS OFFERED AT THE MOHAWK AND CONESTOGA SITES

Applicants apply online to the Ontario Universities' Application Centre (OUAC) at <http://www.ouac.on.ca/mcmaster.ca/nursing> by February 1. Applications for all studies beginning in September must be received by February 1.

- **Ontario Universities' Application Centre (OUAC)**

- **BScN Admission Team**

McMaster University, HSC-2J36

1280 Main Street West

Hamilton, ON, L8S 4L8

bscnadm@mcmaster.ca

ADMISSION REQUIREMENTS

NON ACADEMIC REQUIREMENTS FOR ALL STREAMS

In order to ensure the safety of all students and patients, the School of Nursing requires that all students adhere to Standards of Practice in Nursing. More detailed information will be provided upon acceptance into the program. For information on health screening please visit <https://fhs.mcmaster.ca/healthscreening/formsandsubmission.html>. For information on police clearance (Vulnerable Sector Screen VSC) please visit https://fhs.mcmaster.ca/pcbe/police_records_check.html. Please see site-specific guidelines and ensure you have met all requirements by the deadline. It is the student's professional responsibility to ensure this deadline is met. The process for notification, submission and verification of NARs varies by site. It is the student's professional responsibility to ensure this deadline is met.

Additional requirements include:

- Basic Life Support for Healthcare Providers (CPR - HCP with AED & BVM)
- Online Health and Safety modules available through Avenue to Learn
- Mask Fit Testing & Training (quiz)

Students must provide proof that ALL requirements have been met before practicing in a lab or professional practice setting. Students who fail to provide this proof will:

1. Not be allowed to enter a lab or professional practice setting, or
2. Be removed from a lab or professional practice setting until requirements are met.
3. Be reviewed under the Faculty of Health Sciences Professionalism Policy for failing to meet a requirement in a professional program

CASPERTM ASSESSMENT REQUIREMENT FOR ALL STREAMS

All applicants to the B.Sc.N. Program are required to complete a mandatory, online 90-minute computer-based assessment called CASPerTM, as a component of the selection process.

MCMASTER B.SC.N. BASIC (A) STREAM - MCMASTER, MOHAWK AND CONESTOGA SITE ADMISSION REQUIREMENTS

Applicants Directly From Ontario Secondary Schools

To be considered to this category, applicants must not have attended **any** post secondary educational program prior to application.

The selection method for Ontario secondary school applicants is by academic qualifications and an assessment of personal characteristics. Early conditional offers of admission are made in mid to late April based on the following:

- a. six appropriate midterm/interim Grade 12 U or M course grades (see list of

- required courses below), or
- at least three final Grade 12 U or M course grades plus enrolment in the appropriate three additional Grade 12 U or M courses (see list of required courses below) and,
 - CASPer™ assessment.

Offers based on interim grades will be conditional upon maintaining satisfactory performance on final grades.

Required Courses:

The following are the minimum Grade 12 U and M requirements under the Ontario Secondary School curriculum:

- English U;
- Biology U;
- Chemistry U;
- One of Advanced Functions U, Calculus and Vectors U or Mathematics of Data Management U;
- Two additional Grade 12 U or M courses to total six courses.

Admission is by selection. Typically a minimum of 85% average is required for consideration.

APPLICANTS WITH QUALIFICATIONS EQUIVALENT TO ONTARIO SECONDARY SCHOOL

To be considered, applicants from other provinces and countries must achieve the equivalent to the qualifications listed above in their secondary school graduation year.

APPLICANTS WITH A UNIVERSITY DEGREE OR WITH UNIVERSITY DEGREE CREDITS

To be considered applicants must:

- achieve a Grade Point Average (GPA) of at least B in all university degree credit courses taken. If applicants have not taken university science courses, then they must have obtained a B in Chemistry 12U and Biology 12U in OSS curriculum. Possession of this GPA does not guarantee an offer of admission due to limited number of available spots and high number of applications. A minimum of 12 units with final grades or equivalent are required. (These courses may be taken as a full-time or part-time student. University correspondence degree courses are acceptable.);
- apply online to OUAC at <http://www.ouac.on.ca/> using Form 105D by February 1 (current McMaster students are not required to apply through OUAC must complete a returning Student On-Line Application form if in their graduating year or internal applicant form for all other current McMaster students. You are not required to submit transcripts. Details can be found on the nursing.mcmaster.ca website application process pages. For more information please contact bscnadm@mcmaster.ca); or
- applicants who are in the final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript;
- if the applicant has not taken university science courses they must have obtained a B(75) in Chemistry grade 12 U and Biology grade 12 U in OSS curriculum or equivalent.
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

APPLICANTS FROM A PRE-HEALTH SCIENCES PROGRAM

Applicants who have successfully completed a pre-health sciences Advanced Diplomas and Degrees program at an Ontario College of Applied Arts and Technology (CAAT) will be considered for admission to Level I of the B.Sc.N. Program Basic (A) Stream. Applicants who are currently registered in a pre-health sciences program may be given a conditional offer of admission based upon interim grades. The offer of admission will be withdrawn if the applicant does not complete the full program or does not meet the required admission Grade Point Average (GPA).

To be considered applicants must:

- complete at least two semesters, including at least one full (two semesters) or two half courses in each of Biology, Chemistry, Mathematics and English.

Applications will not be considered from applicants who possess one credit only in the required subjects. Please contact the Admissions Coordinator for the list of approved programs;

- achieve a GPA in the pre-health sciences program that meets the minimum cut-off average of Ontario secondary school applicants to the program of 85%; please note a 75% is required in each of Biology, Chemistry, Mathematics and English.
- apply online to OUAC at <http://www.ouac.on.ca/> using Form 105D no later than February 1;
- submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1;
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

Note: For admission consideration, completion of the full Pre-Health Science Certificate must be done within one year of the anticipated start date to the undergraduate Nursing 1 program. Transfer credit will not be granted for any pre-health sciences courses.

MCMASTER B.SC.N. POST DIPLOMA R.P.N. (E) STREAM OFFERED AT MOHAWK AND CONESTOGA SITES ADMISSION REQUIREMENTS

To be considered applicants must:

- possess a current CNO annual registration payment card by May 31 of the year of application;
- have a diploma in practical nursing (two year program) from an Ontario College of Applied Arts and Technology or equivalent with a minimum overall average (GPA) of 75% or higher and are registered and in good standing with the College of Nurses of Ontario.
- applicants who have satisfactorily completed a diploma practical nurse program but who have not achieved the required Grade Point Average (GPA) may become academically eligible by completing at least twelve units (two full courses or four half courses) of university degree credit in any subject area with a GPA of at least B (75%). This minimum GPA does not guarantee admission;
- have grade 12 U English or equivalent and one of the following grade 12 U Mathematics courses: Advanced Functions, Calculus and Vectors or Mathematics of Data Management or equivalent.
- apply to the OUAC by February 1. All applications must be received by OUAC on or before February 1 to be given equal consideration;
- complete the mandatory online 90-minute computer-based assessment called CASPer™.

B.SC.N. ACCELERATED (F) STREAM - MCMASTER SITE ADMISSION REQUIREMENTS

The Accelerated (F) Stream is available to those students applying from a university science program of studies. Students may complete the program of studies in five academic terms.

Note: Admission to the Accelerated (F) Stream is not open to students currently enrolled/registered in the Basic (A) Stream or any other nursing program. Applicants with two undergraduate degrees will not be considered for the Accelerated (F) Stream. Please see the policy under the *General Academic Regulations* section of the Undergraduate Calendar.

To be considered applicants must:

- achieve a cumulative average of at least B (75%) in the last 2 full years of university degree credit courses taken (minimum 54 units)
- applicants must achieve a grade of at least C- (60%) on each of the following required courses:
 - six units of Psychology, 3 of which must be at the introductory level, the other 3 units must be from the approved list
 - six units of Human Physiology **or** six units of Human Anatomy and Physiology
 - three units of Statistics
 - six units in the following: Biology, Chemistry, Biochemistry, Nutrition or Kinesiology

Note: We are not able to assess course prior to application. Please review the equivalency lists provided above.

Note: Six units are equivalent to one full credit or two half credits; three units are equivalent to one half credit.

Note: When choosing Biochemistry courses to meet the requirements, students are advised to select relevant courses that would facilitate success in a **nursing** program.

Students must have completed or be currently registered in the required courses at the time of application. Official transcripts **must** be submitted by February 1 otherwise the application will not be considered. Normally, the required Human Anatomy and Physiology, Biochemistry and Nutrition courses must be completed within the last five years. If you have taken these courses more than five years ago, we encourage you to contact the Admission Coordinator-Nursing at (905) 525-9140 ext. 22232.

3. apply online at <http://www.ouac.on.ca/> using Form 105D to OUAC no later than February 1; Current McMaster students are not required to apply through OUAC;
4. submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1. Applicants who are in their final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript.
5. complete the mandatory online 90-minute computer-based assessment called CASPerTM.

OFFERS OF ADMISSION

Deadlines for acceptance of an offer are strictly enforced. Failure to meet the conditions and/or submit required documentation by the specified deadline outlined in the admission package will result in cancellation of the offer of admission. Applicants should ensure that they accept their offer of admission as directed well before the specified deadline.

UNSUCCESSFUL APPLICANTS

Applications are not held over from one year to another. An unsuccessful applicant may reapply to the B.Sc.N. Program by submitting a new application, including supporting documentation.

APPLICATION FOR DEFERRED REGISTRATION

Deferred registration is granted only under exceptional circumstances to those candidates who have been admitted and have accepted the offer. Registration may be deferred for one year only. The request for deferral, outlining the reasons for the request, must be postmarked no later than July 31 of the year for which deferral is requested and submitted for approval to McMaster University. Deferral is not guaranteed.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- Maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- Use the university provided e-mail address or maintain a valid forwarding e-mail address.
- Regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- Accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

In addition to meeting the General Academic Regulations of the University, students enrolled in the B.Sc.N. Program shall be subject to the following program regulations. Additionally, Mohawk and Conestoga B.Sc.N. students are also subject to the regulations of their respective sites.

Registration in the B.Sc.N. Program implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated. Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

CONTINUATION IN THE B.SC.N. PROGRAM

At the conclusion of the

Fall/Winter term and the Spring/Summer term, each student's academic record and performance will be reviewed by the School of Nursing to determine if they have met the academic requirements. In order to continue in the B.Sc.N. Program a student must achieve the following academic requirements:

1. **Minimum Grade Point Average:** A student must achieve a cumulative Grade Point Average (GPA) of at least 5.0 at the end of the Winter and/or Spring/Summer term(s) to be eligible to continue in the program.
2. **Passing Grades in Required Health Science and Graded Nursing Courses:** A student must achieve a grade of at least C- in the required Health Science (HTHSCI) and graded Nursing (NURSING) courses. A student is permitted to repeat a total of only two required HTHSCI or graded NURSING course in which they failed to achieve the minimum passing grade requirement; if a student fails to meet the minimum passing grade requirement after repeating a course, the student may not continue in the program. If a student fails to meet the minimum passing grade requirement on more than two HTHSCI and/or graded NURSING course, the student may not continue in the program.
3. **Passing Grades in Professional Practice Nursing Courses:** A student must achieve a Pass (i.e. P/C-/60%) designation in all professional practice Nursing (NURSING) courses (see *Professional Practice Regulations* for a complete list of NURSING courses designated as professional practice

courses). A student is permitted to repeat only one professional practice NURSING course in which they failed to achieve a Pass designation; if a student fails to achieve the Pass designation requirement after repeating the course, the student may not continue in the program. If a student fails to achieve a Pass designation on more than one professional practice NURSING course, the student may not continue in the program.

1. **Course Completion:** For required Nursing (NURSING) and Health Science (HTHSCI) courses, students must enroll in and successfully complete all the course work of one level before proceeding to the course work specified for the next level. For each of the streams (A, E and F), courses must be taken in the sequence specified by the program requirements. All elective requirements must be completed prior to the start of the final term of Level IV.

The following courses must be completed before the start of Level III course work of the Basic (A) Stream:

- PSYCH 1X03 (McMaster and Mohawk) or PSYCH 1N03 (Conestoga): Introduction to Psychology, Neuroscience & Behaviour
 - PSYCH 1XX3 (McMaster and Mohawk) or PSYCH 1NN3 (Conestoga): Foundations of Psychology, Neuroscience & Behaviour
1. **Continuous Enrolment:** Students must enrol in at least one required Nursing (NURSING) or Health Science (HTHSCI) course in each academic year in order to continue in the program, unless they have been granted a Leave of Absence (see Leave of Absence regulations). Students have a maximum number of years from the time of initial enrolment in the program to complete the program requirements for graduation. The completion time for BScN (Stream A) is 6 years and Post Diploma R.P.N. (Stream E) is 5 years and the Accelerated (F Stream) is 4 years.

ACADEMIC STANDING AND PROGRAM PROBATION

A student's academic performance is reviewed at the end of each term. To continue in the B.Sc.N. Program in good academic standing a student must obtain a cumulative GPA of at least 5.0. A student whose cumulative GPA is at least 4.5 may continue in the program and will be placed on program probation for the duration of one academic year. A student may be placed on program probation only once during the program.

REMOVAL FROM PROGRAM

A student whose cumulative GPA is less than 5.0, and who has not been granted program probation, may not continue in the program. A student who fails to raise their cumulative GPA to 5.0 or above at the completion of the program probation may not continue in the program. After repeating a required Health Science (HTHSCI) or Nursing (NURSING) course, a student who fails to meet the minimum passing grade requirement or Pass designation may not continue in the program. A student may normally repeat a level of work only once. Students are permitted to repeat 2 graded HTHSCI/NURSING course and only 1 professional practice NURSING course. A student who fails to meet the minimum passing grade requirement, may not continue in the program. A student who does not maintain continuous enrollment in the program without having been granted a Leave of Absence and/or who fails to complete the program requirements for graduation within the maximum allowable time may not continue in the program.

REINSTATEMENT TO THE PROGRAM AND UNIVERSITY

Former Nursing students will be considered for reinstatement to the B.Sc.N. Program after one full academic year. Students may only apply to be reinstated into the stream from which they were removed. Students seeking reinstatement must contact the Office of the Registrar at McMaster University to submit a Reinstatement Request Form and the required fee. Students are considered for reinstatement for September entry only and must apply by February 1. Students will be considered for reinstatement to the B. Sc. N program upon the completion of 24 units of university work taken on a full-time basis in a non-Nursing program with a minimum average of 7.0 (B-). Reinstatement is not guaranteed. A student who is granted reinstatement to the B.Sc.N Program will be required to complete a reintegration course

that will facilitate returning to the B.Sc.N. Program prior to enrollment of courses. Additionally, the student may be required to repeat any or all of their previously completed courses in the program, which will be explicitly outlined in the terms and conditions of their reinstatement.

Students who are granted reinstatement to the B.Sc.N. Program will be placed on program probation for a period of one academic year, and calculation of their Grade Point Average (GPA) will begin anew. If at any review after reinstatement the student's GPA falls below 5.0, the student will be removed from the program. Students who are approved for reinstatement to the program may not apply for subsequent re-entry or reinstatement if removed again.

VOLUNTARY WITHDRAWAL FROM THE PROGRAM

Students must follow the withdrawal procedures for McMaster University in addition to their respective college sites (if applicable).

READMISSION AFTER VOLUNTARY WITHDRAWAL

Former Nursing students who voluntarily withdrew from the B.Sc.N. Program must apply for readmission by February 1. Students previously admitted through McMaster University must apply for readmission through the Office of the Registrar; students previously admitted through Mohawk or Conestoga College must contact the Admission Office at the respective colleges for further information. Readmission requests are carefully reviewed by the Admissions Committee and the evidence considered will include the student's academic performance in the program, a letter outlining the decision to return and activities since last registered in the program. Readmission is not automatic or guaranteed. Decisions are normally communicated between May and June for September entry.

LEAVE OF ABSENCE (LOA)

The School of Nursing recognizes that students may need to suspend their studies from the program due to extenuating personal or medical reasons. Students can request one leave of absence (LOA) from the program for a period of up to 1 year. Requests for an LOA are made by submitting a Petition for Special consideration (Form A) (see Petitions for Special Consideration and Appeals Section). During a LOA, a student may enroll in elective courses; however, they will not be permitted to enroll in mandatory courses in the nursing program.

It is the student's responsibility to notify Academic Advising Services of their intention to return to their studies at least 4 months prior to their return. Students who were on a LOA due to medical circumstances may be required to submit medical documentation from their physician indicating their ability to return to professional practice duties. All students returning from a LOA will be required to complete a Reintegration Plan in the term preceding their return. Students who fail to submit notification of Return from LOA by date specified in terms of LOA may not be permitted to return as planned and may be removed from the program.

TRANSFER BETWEEN SITES

Students attend the institution to which they are admitted for the entire program. Transfer between sites is typically not an option. Exceptional circumstances may be considered.

TRANSFER BETWEEN STREAMS

A transfer between streams of the B.Sc.N. Program is not permitted.

DROPPING/WITHDRAWING FROM COURSES

Please refer to the Sessional Dates outlined in the Undergraduate Calendar for specific deadlines for enrollment and changes, and for withdrawing from courses without failure by default. Students are able to add and drop courses without academic or financial penalty until the last day for enrollment changes. These dates are specific to each term and are different for single-term and multi-term courses.

Students who wish to add or withdraw from required nursing (NURSING) or health science (HTHSCI) courses after the last day for enrollment are strongly encouraged to contact Academic Advising Services to discuss the impact on their progression through the Program.

TRANSFER CREDITS/COURSE EXEMPTIONS

Students who have completed courses at the university level prior to commencing studies in the B.Sc.N. Program may be eligible to receive transfer credits/course exemption for requirements of their degree program. These credits should not have been previously used as a requirement for an already-conferred degree. Only courses completed at a university are eligible for consideration. Courses completed at a college are not eligible for review. Courses completed through Advanced Placement (AP)/ International Baccalaureate (IB) will only be considered for transfer credits for Level I electives.

No course for which a grade of less than C- (60%) has been achieved will be considered for transfer credit/course exemption towards elective course requirements. No course for which a grade of less than B- (70%) has been achieved will be considered for transfer credit/course exemption towards mandatory HTHSCI or NURSING courses. Students who have completed AP exams through the College Board in acceptable courses and achieved a minimum grade of 4 will be considered for up to 18 units of transfer credit toward Level I electives. Students who have completed Higher Level (HL) courses and achieved final International Baccalaureate (IB) Diploma or Certificate grade of 5 or greater will be considered for up to 18 units of transfer credit toward Level I electives.

The following courses are not eligible for transfer credit/course exemption due to the professional, integrated nature of the B.Sc.N Program:

- Basic (A) Stream: NURSING 1F03, 1G03, 1I02, 1J02, 2L03, 2MM3, 2NN3, 2P03, 3Q03, 3SS3, 3TT3, 3X04, 3Y04, 4J07, 4K10, 4P04, 4Q03
- Post Diploma RPN (E) Stream: NURSING 2A04, 2AA3, 3A04, 3Q03, 3RS3, 3RT3, 3RY4, 4J07, 4K10, 4P04, 4Q03
- Accelerated (F) Stream: NURSING 2I04, 2J04, 2V04, 3Q03, 3V03, 3ZA3, 3ZB3, 4J07, 4K10, 4P04, 4Q03

The following courses will only be considered eligible for review for transfer credit/course exemption if completed in an accepted Health Professional Program:

- Basic (A) Stream: HTHSCI 2LA2 A/B, 3PA2 A/B
- Post Diploma RPN (E) Stream: HTHSCI 3C04, 3PA2 A/B
- Accelerated (F) Stream: HTHSCI 2PF3 A/B, 3C04, 3PF1

Mandatory HTHSCI and NURSING courses completed in one stream of the B.Sc.N. Program will not be considered for transfer credit/course exemption in another stream of the B.Sc.N. Program. Courses from another institution/program used to request transfer credit/course exemption for any eligible, mandatory HTHSCI or NURSING course in the B.Sc.N. Program must have been completed no more than 5 years prior to admission to the B.Sc.N. Program. Students who are interested in requesting transfer credit/course exemption for electives should refer to the guidelines regarding electives found in the Requirements for their stream. Students must submit a *Transfer Credit/Course Exemption* request form to Academic Advising Services within one year of program start-date to have their previous course work considered for the entirety of their program. Under exceptional circumstances if a transfer credit is granted, an additional course, with equivalent unit value, will be required to achieve the required units of a BScN degree.

Please see the *McMaster University General Policy for Transfer Credits* for additional information.

LETTER OF PERMISSION

All students in good academic standing who wish to attend another university to take courses for credit toward a McMaster degree must first request a Letter of Permission (LOP) through the Student Centre in Mosaic. The School of Nursing requires that students must achieve a minimum grade of C- (60%) in courses used for elective requirements to receive the transcript designation of 'T' indicating successful completion. Courses taken at another university cannot be used to satisfy McMaster University's minimum residence requirements, and will not be included in the calculation of the Grade Point

Average. LOPs are not accepted for mandatory courses due to the integrated nature of concepts in the B.Sc.N. curriculum.

Students who are interested in taking a course on LOP to satisfy elective requirements should refer to the guidelines regarding electives found in the Requirements for their stream.

PROFESSIONAL PRACTICE REGULATIONS

As a mandatory portion of the BScN programs, nursing students must fulfill unpaid training or work experience requirements during clinical courses.

Before entering the professional practice setting, every student who participates in a mandatory unpaid placement must sign a WSIB Declaration form at the orientation for the professional practice course in which they have registered.

If illness or an accident resulting in personal injury (e.g. needlestick injury, fall, actual or near miss, violence in the workplace) occurs during the unpaid training/placement program, the student must immediately:

1. Seek first-aid or emergency services if needed. Follow agency/workplace procedures;
2. Notify the faculty instructor and professional practice placement preceptor (who then notifies the supervisor);
3. Notify the professional practice placement coordinator;
4. Complete a McMaster University Injury/Incident Report.

PROFESSIONAL PRACTICE COURSES

The following courses are designated professional practice Nursing (NURSING) courses:

- Basic (A) Stream: NURSING 1I02, 1J02, 1K02, 2K02 A/B, 2L03, 2P03, 3Q03, 3X04, 3Y04, 4J07, 4K10
- Post Diploma R.P.N. (E) Stream: NURSING 3Q03, 3RY4, 4J07, 4K10
- Accelerated (F) Stream: NURSING 2I04, 2J04, 2U03, 2U04, 3QA3, 3ZA3, 3ZB3, 4J07, 4K10

REMOVAL FROM COURSES

The B.Sc.N. Program reserves the right to remove a student from a professional practice course or laboratory setting at any point during the term if the student exhibits unsafe professional practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal will result in the student receiving a grade of F in the course and may result in dismissal from the program. The professional practice activities associated with any professional practice course must be successfully achieved for attainment of a passing grade in the course.

CLEARANCE TO PARTICIPATE

If the School of Nursing has substantiated concerns that a student's participation in a professional practice course may pose a risk to the health and safety of the student, their peers, instructors, clients/patients, or staff members of the professional practice setting the student may be required to produce documentation from a health care practitioner (typically the student's attending physician) indicating that the student is medically able to perform the full duties required in the professional practice placement. Students may be precluded from participating in the professional practice course until such time that they are able to produce the documentation, which may result in the student having to take the course in a different term if, as a result, the student is absent from the professional practice setting for a significant portion of the course.

REINTEGRATION TO PROFESSIONAL PRACTICE

Any student who has either (a) failed a professional practice course, and/or (b) has experienced a gap of 2 terms between professional practice courses as a result of a leave of absence from the program, repeating mandatory NURSING/ HTHSCI course(s), or following a reduced course load, is required to complete a reintegration course in consultation with a faculty member designated by the School of Nursing. The purpose of the reintegration course is to re-familiarize the student course concepts and refresh their professional practice skills to ensure the student's return to a professional practice setting is safe and successful for all stakeholders. The reintegration course must be completed

to the satisfaction of the faculty member over the term (approximately four months) immediately prior to the student commencing professional practice course(s). Students who are required to complete a reintegration plan will be contacted by the School of

Nursing with further instructions and guidelines.

EXAMINATIONS

A Mohawk College or Conestoga College and a McMaster student photo identification card is required at all examinations.

NON-ACADEMIC REGULATIONS

A student must comply annually before the start of classes with all non-academic requirements as outlined by the program. Failure to do so will result in removal from class and/or professional practice courses.

NON-ACADEMIC REQUIREMENTS

In order to ensure the safety of all students and patients, the School of Nursing requires that all students adhere to Standards of Practice in Nursing. More detailed information will be provided upon acceptance into the program. For information on health screening please visit <https://fhs.mcmaster.ca/healthscreening/formsandsubmission.html>. For information on police clearance (Vulnerable Sector Screen VSC) please visit https://fhs.mcmaster.ca/pcbe/police_records_check.html. Please see site-specific guidelines (<https://nursing.mcmaster.ca/current-students/nonacademicrequirements>) and ensure you have met all requirements by the deadline. The process for notification, submission and verification of NARs varies by site. It is the student's professional responsibility to ensure this deadline is met.

Additional requirements include:

- Basic Life Support for Healthcare Providers (CPR - HCP with AED & BVM)
- Online Health and Safety modules available through Avenue to Learn
- Mask Fit Testing & Training (quiz)

Students must provide proof that ALL requirements have been met before practicing in a lab or professional practice setting. Students who fail to provide this proof will:

- Not be allowed to enter a lab or professional practice setting, or
- Be removed from a lab or professional practice setting until requirements are met.
- Be reviewed under the Faculty of Health Sciences Professionalism Policy for failing to meet a requirement in a professional program

Immunization

The Ontario Public Hospitals Act requires all students working in a hospital setting to meet certain criteria related to surveillance for infectious diseases. Detailed medical information, including a record of completion of required immunizations, will be required upon acceptance and annually thereafter. Failure to produce this information will result in a student being precluded from commencing professional practice course(s) or a suspension from professional practice course(s) until such time that they are able to produce the information, which may result in the student having to take the course(s) in a different term. Information on specific medical information that is required will be sent to students prior to commencing their studies in the program and each year thereafter prior to the start of the academic year.

Police Records Check

During the course of the B.Sc.N Program, all nursing students will work with vulnerable populations. As a result, in order to protect these vulnerable people from potential harm, the Council of Ontario University Programs in Nursing recommends and many professional practice agencies require that all nursing students provide confirmation of the absence of a criminal conviction or outstanding criminal charges. All students are required to have a satisfactory Police Record Check completed **annually**. The Police Record Check must include Vulnerable Sector Screening (VCC). Expenses for the Police Record Check are the responsibility of the student. Ensure you request two original copies from your Police Services. Students may be required to produce

documentation of their Police Record Check at some professional practice placements. Registered students who have been convicted of an offense under the Criminal Code (Canada) for which they have not been pardoned may be denied the opportunity to enter professional practice placement.

CPR Certification

Students are required to provide evidence of a valid certificate in cardiopulmonary resuscitation (CPR) at the Basic Cardiac Life Support for Health Care Provider level with training in AED. Please note that for health care providers, certification is valid for one year from the date of the course. As a result, annual recertification is mandatory. The cost of a course is the responsibility of the student. Courses are readily available in most communities. Certification obtained through an online provider will not be accepted. Certificate must be obtained in Canada.

TRAVEL WITHIN THE PROGRAM

Students are responsible for arranging their own travel to and from learning settings external to the University (regardless of site) and for covering any cost incurred. Students who enroll in the BScN Program are expected to travel to learning settings in the Hamilton and surrounding area, including but not limited to Halton, Peel, Brant, Haldimand-Norfolk, Niagara and Wellington Regions (McMaster and Mohawk sites); and Kitchener-Waterloo and surrounding area, including but not limited to Wellington, Brant and Halton regions (Conestoga site).

ACCESS TO CLINICAL COURSES

Students in any stream who register for a clinical NURSING course in Level III or above must also submit a placement preference form to the Placement Coordinator. Students who fail to meet the published deadline but who register for the course at least two months prior to the date is to commence will be assigned a placement setting without consideration of their preferences. Students who do not register two months in advance and who fail to meet the submission deadline will normally be required to defer their placement until the next term in which the course is offered.

The final assignment of learning settings for any course is constrained by the availability of the requested setting and faculty resources. Students may therefore be required to complete the practicum component of a course in a learning setting that is not of their choosing.

GLOBAL HEALTH PROFESSIONAL PRACTICE

Level IV students in Basic (A) Stream, Post Diploma R.P.N. (E) Stream and Accelerated (F) Stream have the option to complete global health professional practice placements in international or outpost settings for NURSING 4J07. Prerequisites include, but are not limited to, (1) attaining a GPA of 8.0 in all mandatory NURSING/HTHSCI courses Level II and Fall Term of Level III (Basic A Stream) or Winter Term of Level II and Fall Term of Level III (Post Diploma E Stream) or Fall and Winter term of Level III (Accelerated F Stream); (2) a pass in all professional practice NURSING courses; (3) a minimum grade of C- in NURSING 4H03.

Additional criteria (e.g. reference from a professional practice preceptor) may also be required to assess readiness to participate in a global health placement.

SPECIALIZED/ATYPICAL PROFESSIONAL PRACTICE PLACEMENTS

Specialized/atypical placements in NURSING 4J07 and/or NURSING 4K10 are only available to students who have met the following criteria:

1. a cumulative GPA of 8.0 in all mandatory NURSING/HTHSCI courses completed prior to entry to Level IV course work
2. a pass in all professional practice courses on the first attempt.

Additional criteria (e.g. reference from a professional practice preceptor) may also be required and considered by the School of Nursing in allocating specialized/atypical placements. The reference will assess readiness to participate in a specialized/atypical placement. A pass in all professional practice courses does not necessarily mean that a student is ready to participate in an unpredictable or highly acute setting. Achieving the above

noted criteria is not a guarantee that a student will receive a specialized/ atypical placement as placements are limited.

DOCUMENTATION FOR LICENSURE OUTSIDE OF CANADA

Documentation for Licensure for outside of Canada is done by the B.Sc.N. Program Office. Typically, this process requires up to 16 weeks notice, variable depending on documentation required for the licensing body. A fee for each request, is charged for providing the documentation and sending, by courier, to the agency requesting such documentation. Please check the program website for details regarding fees. Forms requesting this documentation are available on the School of Nursing website <http://nursing.mcmaster.ca/current/graduation-designations>.

Bachelor of Science in Nursing

ACCELERATED (F) STREAM (B.SC.N)

McMaster Site

The curriculum focuses on nursing context over five academic terms of full-time study. Students apply their previously acquired knowledge to develop their understanding of nursing practice. Students admitted to this stream will enter Level III of the B.Sc.N. Curriculum. Students are required to meet the residency requirement of the university as outlined in the General Academic Regulations section of this calendar.

REQUIREMENTS (EFFECTIVE AS OF 2020)

REQUIREMENTS

Advanced Credit: 51 units; Units Taken at McMaster: 75

Level III: 45 Units

(Units graded: 32; Units Pass/Fail: 13)

Fall Term: 14 units

6 units

- HTHSCI 1RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2H03 - Introductory Pharmacology

8 units

- NURSING 2I04 - Introduction to Professional Nursing and Health for Accelerated Stream
- NURSING 2U04 - Introduction to Nursing Practice I for Accelerated Stream

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Winter Term: 15 units

7 units

- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making

8 units

- NURSING 2J04 - Professional Nursing Practice II for Accelerated Stream
- NURSING 2V04 - Nursing Concepts in Health & Illness for Accelerated Stream I

Fall-Winter Terms: 3 units

3 units

- HTHSCI 2PF3 A/B - Introduction to Integrated Pathophysiology for Accelerated Stream (or NURSING 2PF3 A/B)

Spring/Summer Term: 13 units

13 units

- HTHSCI 3PF1 - Integrated Pathophysiology for Accelerated Stream
- HTHSCI 3QA3 - Qualitative Research Methods in Health
- NURSING 3V03 - Nursing Concepts in Health & Illness for Accelerated Stream II
- NURSING 3ZA3 - Professional Nursing Practice III for Accelerated Stream
- NURSING 3ZB3 - Professional Nursing Practice IV for Accelerated

Stream

Level IV: 27 Units

(Units Graded: 13; Units Pass/Fail: 17)

Fall Term: 14 units

3 units

- HTHSCI 4NR3 - Nursing Research

11 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4P04 - Advanced Nursing Concepts I

Winter Term: 13 units

13 units

- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4Q03 - Advanced Nursing Concepts II

TOTAL UNITS: 126

NOTE:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2I06, 2V06, 3V04, 4K07, and 4Q04. Instead students will be required to take NURSING 2I04, 2V04 and 2PF3 A/B ; NURSING 3V03 and 3PF1 ; NURSING 4K10; and NURSING 4Q03, respectively.

REQUIREMENTS (EFFECTIVE AS OF 2016-2017)

REQUIREMENTS

Advanced Credit: 54 units; Units Taken at McMaster: 72

Level III: 45 Units

(Units graded: 32; Units Pass/Fail: 13)

Fall Term: 14 units

6 units

- HTHSCI 2H03 - Introductory Pharmacology
- HTHSCI 2RR3

8 units

- NURSING 2I04 - Introduction to Professional Nursing and Health for Accelerated Stream

3 units

- HTHSCI 2PF3 A/B - Introduction to Integrated Pathophysiology for Accelerated Stream (or NURSING 2PF3 A/B)

Spring/Summer Term: 13 units

13 units

- HTHSCI 3PF1 - Integrated Pathophysiology for Accelerated Stream (or NURSING 3PF1)
- NURSING 3Q03 - Professional Community Nursing Practice
- NURSING 3V03 - Nursing Concepts in Health & Illness for Accelerated Stream II
- NURSING 3ZA3 - Professional Nursing Practice III for Accelerated Stream
- NURSING 3ZB3 - Professional Nursing Practice IV for Accelerated Stream

Level IV: 27 Units

(Units Graded: 10; Units Pass/Fail: 17)

Fall Term: 14 units

3 units

- HTHSCI 4NR3 - Nursing Research

11 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4P04 - Advanced Nursing Concepts I

Winter Term: 13 units

13 units

- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4Q03 - Advanced Nursing Concepts II

Total Units: 126

Note:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2I06, 2V06, 3V04, 4K07, and 4Q04. Instead students will be required to take NURSING 2I04, 2V04 and 2PF3 A/B ; NURSING 3V03 and 3PF1 ; NURSING 4K10; and NURSING 4Q03, respectively.

BASIC (A) STREAM (B.SC.N.)

McMaster Site

Conestoga Site

Mohawk Site

The Faculty has planned the curriculum so that the study of nursing, the physiological, psychological and social sciences, and the humanities are interrelated and span the entire program. In Level I, the amount of nursing experience is relatively small; the major proportion of study is in the behavioural and natural sciences. The nursing component increases progressively through Levels II, III, and IV, as the study of natural sciences is completed. Because of timetable constraints, courses must be taken in the level indicated in the curriculum.

REQUIREMENTS (EFFECTIVE AS OF 2020-2022)

ELECTIVES

Fifteen units of electives are to be selected from disciplines of the student's choice, of which a minimum of six units are to be chosen from courses designated as Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective courses (i.e. those courses that are not required for any of the program streams). For some courses, the amount of duplication of required content will preclude their being used for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Post Diploma R.P.N. (E) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Basic (A) Stream.

NOTE

HTHSCI 4NR3 may be completed in either Level III or IV.

REQUIREMENTS

Level I: 30 Units

(Units graded: 28; Units Pass/Fail: 2)

12 units

- HTHSCI 1H06 A/B - Human Anatomy and Physiology I
- HTHSCI 1LL3 - Human Biochemistry I
- HTHSCI 1RR3 - Introduction to the Social Determinants of Health

12 units

- NURSING 1F03 - Introduction to Nursing and Health I for Basic Stream
- NURSING 1G03 - Introduction to Nursing and Health II for Basic Stream
- NURSING 1I02 - Introduction to Nursing Practice for Basic Stream
- NURSING 1J02 - Professional Nursing Practice I for Basic Stream
- NURSING 1K02 - Community Engagement and Citizenship for Basic Stream

6 units

McMaster and Mohawk Site:

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

Conestoga Site:

- PSYCH 1N03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1NN3 - Foundations of Psychology, Neuroscience & Behaviour

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level II: 29 Units

(Units graded: 23; Units Pass/Fail: 6)

11 units

- HTHSCI 2H03 - Introductory Pharmacology
- HTHSCI 2HH3 - Introductory Microbiology
- HTHSCI 2LA2 A/B - Introduction to Integrated Pathophysiology for Nursing for Basic Stream
- HTHSCI 2S03 - Introduction to Statistics for Nursing

15 units

- NURSING 2L03 - Professional Nursing Practice II for Basic Stream
- NURSING 2MM3 - Nursing Concepts in Health and Illness I for Basic Stream
- NURSING 2NN3 - Nursing Concepts in Health and Illness II for Basic Stream
- NURSING 2P03 - Professional Nursing Practice III for Basic Stream
- NURSING 3IH3 - Introduction to Indigenous Health Policy and Practice

3 units

- Electives

- Electives

Total Units: 122Note:

Regardless of year of entrance, the following courses will no longer be offered: NURSING 2M04, 2N04, 3SS4, 3TT4, 4K07, and 4Q04. Instead students will be required to take NURSING 2MM3, NURSING 2NN3 and NURSING 2LA2 A/B; NURSING 3SS3, NURSING 3TT3, and NURSING 3PA2 A/B; NURSING 4K10; and NURSING 4Q03, respectively.

POST DIPLOMA R.P.N. (E) STREAM (B.SC.N.)**Conestoga Site****Mohawk Site**

Please note that the last intake for this stream at McMaster was Fall 2010. Any applicants interested in this stream should see information for Post Diploma R.P.N. (E) Stream (Mohawk and Conestoga) below.

The program of study for the Post Diploma Registered Practical Nurses (E) Stream prepares students for practice as Registered Nurses. It builds on the

knowledge and skills acquired in the diploma practical nurse program. (E) Stream students receive 30 units of advanced credit and enter at Level II. The two Level II nursing courses are designed to assist in the transition of students to baccalaureate studies. Students are integrated with both Basic and Post-Diploma students for most courses. The curriculum is planned for three academic years of full-time study.

REQUIREMENTS (EFFECTIVE AS OF 2020-2022)**ELECTIVES**

Twelve units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

NOTE

1. NURSING 3A04 and NURSING 3RY4 cannot be taken concurrently; these courses must be completed in separate terms.
2. HTHSCI 2S03 must be taken before HTHSCI 3C04.

REQUIREMENTS

Advanced Credit: 30 units

Level II: 32 Units

(Units graded: 29; Units Pass/Fail: 3)

22 units

- HTHSCI 1CC6 - Integrated Biological Bases of Nursing Practice I
- HTHSCI 1RR3 - Introduction to the Social Determinants of Health
- HTHSCI 2C06 - Integrated Biological Bases of Nursing Practice II
- HTHSCI 2S03 - Introduction to Statistics for Nursing
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making (See *Note 1* above.)

10 units

- NURSING 2A04 - Introduction to Professional RN Practice I for Post Diploma RPN Stream
- NURSING 2AA3 - Professional RN Practice II for Post Diploma RPN Stream
- NURSING 3QQ3 - Professional Community Nursing Practice (See *Note 1* above.)

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level III: 28 Units

(Units graded: 24; Units Pass/Fail: 4)

5 units

- HTHSCI 3PA2 A/B - Integrated Pathophysiology for Nursing
- HTHSCI 4NR3 - Nursing Research

17 units

- NURSING 3A04 - Clinical Reasoning in RN Practice for Post Diploma RPN Stream (See *Note 1* above.)
- NURSING 3RS3 - Nursing Concepts in Health and Illness III for Post Diploma RPN Stream
- NURSING 3RT3 - Nursing Concepts in Health and Illness IV for Post Diploma RPN Stream
- NURSING 3RY4 - Professional Nursing Practice V for Post Diploma RPN Stream (See *Note 1* above.)
- NURSING 3IH3 - Introduction to Indigenous Health Policy and Practice

6 units

- Electives

Level IV: 30 Units

(Units graded: 13; Units Pass/Fail: 17)

24 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4P04 - Advanced Nursing Concepts I
- NURSING 4Q03 - Advanced Nursing Concepts II

6 units

- Electives

Total Units: 120

REQUIREMENTS (EFFECTIVE 2019-2020)**ELECTIVES**

Fifteen units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

NOTE

1. NURSING 3A04 and NURSING 3RY4 cannot be taken concurrently; these courses must be completed in separate terms.
2. HTHSCI 2S03 must be taken before HTHSCI 3C04.

REQUIREMENTS

Advanced Credit: 30 units

Level II: 32 Units

(Units graded: 29; Units Pass/Fail: 3)

22 units

- HTHSCI 1CC6 - Integrated Biological Bases of Nursing Practice I
- HTHSCI 2C06 - Integrated Biological Bases of Nursing Practice II
- HTHSCI 2RR3
- HTHSCI 2S03 - Introduction to Statistics for Nursing
- HTHSCI 3C04 - Research Appraisal and Utilization in Evidence Informed Decision Making (See Note 1 above.)

10 units

- NURSING 2A04 - Introduction to Professional RN Practice I for Post Diploma RPN Stream
- NURSING 2AA3 - Professional RN Practice II for Post Diploma RPN Stream
- NURSING 3QQ3 - Professional Community Nursing Practice (See Note 1 above.)

1 course

- WHMIS 1A00 - Introduction to Health and Safety

Level III: 28 Units

(Units graded: 24; Units Pass/Fail: 4)

5 units

- HTHSCI 3PA2 A/B - Integrated Pathophysiology for Nursing
- HTHSCI 4NR3 - Nursing Research

14 units

- NURSING 3A04 - Clinical Reasoning in RN Practice for Post Diploma RPN Stream (See Note 1 above.)
- NURSING 3RS3 - Nursing Concepts in Health and Illness III for Post Diploma RPN Stream
- NURSING 3RT3 - Nursing Concepts in Health and Illness IV for Post Diploma RPN Stream
- NURSING 3RY4 - Professional Nursing Practice V for Post Diploma RPN Stream (See Note 1 above.)

9 units

- Electives

Level IV: 30 Units

(Units graded: 13; Units Pass/Fail: 17)

24 units

- NURSING 4J07 - Professional Nursing Practice VI
- NURSING 4K10 - Professional Practice and the New Graduate
- NURSING 4P04 - Advanced Nursing Concepts I
- NURSING 4Q03 - Advanced Nursing Concepts II

6 units

- Electives

Total Units: 120

REQUIREMENTS (EFFECTIVE 2018-2019)**ELECTIVES**

Fifteen units of electives are to be selected from disciplines of the student's choice of which a minimum of six units are to be chosen from courses designated Level II or above. A maximum of six units of electives may be selected from NURSING and/or HTHSCI elective course (i.e. those course that are not required for any of the program streams). For some courses the amount of duplication of required content will preclude use for elective credit in the B.Sc.N. Program. Mandatory NURSING and/or HTHSCI courses from the Basic (A) Stream or the Accelerated (F) Stream of the B.Sc.N. Program cannot be used toward elective requirements for the Post Diploma R.P.N. (E) Stream.

NOTES

1. HTHSCI 2S03 and NURSING 3QQ3 cannot be taken concurrently; these courses must be completed in separate terms.
2. NURSING 3A04 and NURSING 3Y04 cannot be taken concurrently; these courses must be completed in separate terms.
3. NURSING 3SS3, NURSING 3TT3 and NURSING 3Y04 have had a code change only to NURSING 3RS3, NURSING 3RT3 and NURSING 3RY4 for the Post Diploma R.P.N. (E) Stream.

REQUIREMENTS

Advanced Credit: 30 units

PROGRAM MANAGER**Saadia Israr**

Program Overview

Midwives are primary health care providers who provide care and advice to women during pregnancy, labour and the postpartum period; conduct deliveries and provide care for newborn babies. Midwives have well-developed interpersonal skills and are competent in areas of health education, counselling and interprofessional collaboration. Midwives' expertise in the care of normal pregnancy and childbirth arises from their understanding of childbearing as a social, cultural and biological process and from their ability to competently exercise clinical skills and decision-making. Midwifery is potentially one of the most important components of women's health care in Ontario. Midwifery education provides the base for sound professional practice. The educational program is an integral part of the evolution of the profession of midwifery in Ontario and is a leader in midwifery education in Canada. The program helps create future leaders and teachers. It assures practice and teaching as a continuum so that learning environments become available across Ontario. The Midwifery Education Program at McMaster University is a collaborative venture shared by McMaster, Ryerson and Laurentian Universities, and leads to a Bachelor of Health Sciences (B.H.Sc.) in Midwifery.

Admission Procedures and Requirements

Enrolment in the Midwifery Education Program is limited. Admission into the Midwifery Education Program is by selection and reserved for candidates who meet all requirements and who satisfy the academic regulations of the university. Possession of the minimum requirements does not guarantee an

offer of admission. It is recommended that applicants have completed at least one year of university prior to applying. All certified transcripts from secondary and post secondary education previously attended by external applicants must be forwarded to the Office of the Registrar. The application deadline is February 1 each year for the following September intake. Applications or supporting documents received after February 1 will not be considered. Please note that all required courses must be completed, with final grades available on any and all official transcripts at the time of application (excluding current Secondary School students). All official transcripts must be submitted by the February 1 deadline. *All documents submitted with the application become property of the university.*

All applicants must have completed the following requirements in order to be considered for admission:

1. A full course credit in:

- i. Biology
- ii. Chemistry
- iii. English

A minimum grade of 75% in each course is required.

- 1. CASPer™ Test (computer-based assessment for sampling personal characteristics).

All applicants to the Midwifery Education Program are required to complete this mandatory assessment as a component of the selection process. Test results must be submitted along with the other requirements by the February 1 application deadline.

It is the responsibility of the applicant to secure technical requirements including a reliable internet connection on their selected test date. No exceptions will be made for applicants who are unable to take CASPer online due to unreliable internet connection caused by technical factors. Applicants may want to explore details of the requirements and the structure of this assessment at takecasper.com.

- 1. Identity and Admission Survey

All applicants must complete this mandatory survey as part of the application to the Midwifery Education Program. The survey must be completed and submitted along with the other requirements by the February 1 application deadline. The purpose of this survey is to gather information to establish baseline data on 1) the diversity of the applicant pool, 2) candidates who are invited to the multiple miniinterviews, 3) candidates who participate in the facilitated admission pathways, 4) candidates who receive an offer of admission to the program and 5) where candidates would choose to be placed during clinical placements in the province. The data collected will help the program to monitor progress over time with respect to the program's work to create a more equitable, diverse, and inclusive program through the admission process.

The survey is comprised of three sections:

- i. demographic, social and economic questions,
- ii. the two facilitated admission processes, and
- iii. clinical placement region preferences.

The responses to this survey will not be used to determine your admission to the Program. If admitted, your response to section 3 of the survey will be used to determine your placement region.

It is recognized that applicants apply to the program with varying educational backgrounds. Applicants can fulfill the courses required from the following educational backgrounds:

Applicants Directly from Ontario Secondary Schools

The following are the minimum grade 12 U and M requirements under the Ontario Secondary School Curriculum for applicants directly from an Ontario Secondary School:

- i. English 12 U
- ii. Biology 12 U

iii. Chemistry 12 U

Completion of additional 12 U or M courses to total six credits.

Students must obtain a minimum grade of 75% in each of the **three** (3) required courses listed in points 1, 2 and 3 above AND a minimum overall average of 75% on grade 12 U or M courses including the required courses. Current Ontario Secondary School Students may apply if one or more of the three (3) required courses are in progress at the time of application; however, the grade 11 prerequisite(s) must be completed at the time of application so that a preliminary assessment of the subject area(s) can be made. Admission is based on in progress secondary school grades for current secondary students **only** if the grade 11 prerequisite in that subject area is at least 75%.

Applicants with Prior College Diploma Studies

No Admissions will be based on College standing. For applicants with prior college/diploma studies who completed their college education within the last two years of applying to Midwifery, admission will be based on secondary school eligibility. If college education was completed more than 2 years ago at the time of applying to Midwifery, please refer to the Mature Applicants section for eligibility and admission requirements.

Applicants from Ontario Secondary Schools (within one year of obtaining OSSD)

The following are the minimum grade 12 U and M requirements under the Ontario Secondary School Curriculum for applicants from an Ontario Secondary School who have obtained their OSSD in the previous calendar year and have never attended University:

- 1. English 12 U
- 2. Biology 12 U
- 3. Chemistry 12 U

Completion of additional grade 12 U or M courses to total six credits.

Applicants must have obtained a minimum grade of 75% in each of the **three** (3) required courses listed in points 1, 2 and 3 above AND a minimum overall average of 75% on grade 12 U or M courses including the required courses. All required courses must be completed at the time of application.

Applicants with Qualifications Equivalent to Ontario Secondary School

Applicants from out-of-province, with qualifications equivalent to Ontario Secondary School (i.e. Advanced Placement Students, American Style Curriculum Students, International Baccalaureate Students, General Certificate of Education Students, etc.) should refer to the Future McMaster website for general requirement and required course information.

Applicants with Prior / Current University Studies

The following are the minimum course and grade requirements for applicants who are currently attending or have in the past attended University:

Prerequisite Requirements

- Grade 12 U courses from Ontario high school, equivalent out-of-province high school or CEGEP curricula, or 6 units (1.00 credit) from university courses in the three (3) required subject areas of
 - o Biology
 - o Chemistry
 - o English
 - Minimum of 75% in each of the three required courses
 - Minimum overall average from most recent 42 units or 14.00 credits of undergraduate coursework must be a minimum of 75%

All prerequisites must be complete at the time of application. If an applicant has obtained less than 18 units of university credit and has been out of high school or college for more than two years at the time of application, it is required that the applicant complete at least 18 units of university to be

eligible for consideration.

Current McMaster University Students

Applicants who are current McMaster University students and who are not scheduled to graduate in the spring convocation following the Midwifery Application deadline of February 1 may request an Internal Application Form from the Midwifery Program Office by emailing midwifery@mcmaster.ca. No OUAC application is required and any required transcripts or documents should be forwarded to the Midwifery Education Program office.

International Students

Applicants must be Canadian Citizens or HOLD Permanent Resident/Protected Person status in Canada prior to applying to the Midwifery program.

Mature Applicants

A mature student is someone who has been out of full time secondary school or college for the past two years, and who has never attended university. Midwifery does not offer mature admission directly to the program. However, students interested in Midwifery may be admitted as mature students to another program in order to complete university pre-requisite courses for later consideration for admission to Midwifery. Enrolment in this program is limited. Possession of the minimum admission requirements does not guarantee admission.

In order to apply for admission to the Midwifery Education program, mature applicants must have successfully completed a minimum of 18 units of university level course work with a minimum cumulative average of 75% prior to acceptance.

Applicants must have grade 12 U courses from high school or full university courses in the three (3) required subject areas of Biology, Chemistry, and English with a minimum grade of 75% in each. A full university course is equivalent to 6 units or 1.0 credit, depending on the university.

Prior Midwifery Education or Experience

For applicants with prior Midwifery Education or Experience, Ryerson University, through the division of Continuing Education, offers the International Midwifery Pre-Registration Program. The purpose of this program is to provide internationally educated midwives with assessment and education which will prepare them to register as midwives in Ontario. (Refer to the *Midwifery Education Program website* for more information.)

Facilitated Black Admission Process (FBAP)

We offer a facilitated admissions stream for applicants who self-identify as Black referred to as the Facilitated Black Admission Process (FBAP). Applicants wishing to apply through this admission stream must opt-in to this process when they complete the Supplementary Application Online Survey in addition to McMaster University and program specific application requirements. To be considered, the applicant must first apply through the Ontario Universities Application Centre (OUAC) by February 1st and then complete the Supplementary Application Online Survey that will be sent by email to all applicants in early February.

To support Black applicants who opt-in to the FBAP, the McMaster Midwifery Education Program offers the following additional admission support:

1. FBAP applicants who are invited to the Multiple Mini Interviews (MMI) are given the opportunity to attend an online information session where the Program representatives answer questions about the profession and provide details about the program, as well as next steps in the admission process.
2. FBAP applicants who are invited to the MMI are also offered an individual panel interview conducted by members of the Equity Admissions Review

(EAR) team. The EAR team consists of educators, senior students, clients, and midwives, all of whom are racialized.

3. The last component of the FBAP application is the completion of the Multiple Mini Interviews. This will be completed at the same time as all other applicants.

Indigenous Applicants

In accordance with the Self-Identification policy of the Faculty of Health Sciences, Indigenous (First Nations, Inuit and Métis) applicants who wish to apply to a program that has a facilitated Indigenous admissions stream must complete the supplementary Self-identification Application. Information on the policy, application requirements and the online application can be found at: <https://ishs.mcmaster.ca/admissions/self-identification>.

One self-identification application is used for all Faculty of Health Sciences programs that have a facilitated Indigenous admissions stream, and should only be completed once even if an applicant applied to multiple programs. Applicants identify the program(s) they applied to on the Self-identification Application. The applicant is responsible for ensuring the Self-identification Application is submitted by the application deadline(s) for the program(s) they applied to in addition to completing any other application required for that program(s). If you applied to multiple Faculty of Health Sciences programs, the Self-identification Application must be completed by whatever the earliest deadline date is for the programs for which you have applied to.

Indigenous applicants will also be required to apply to the Midwifery Program by February 1 of the year in which they are applying. All appropriate transcripts from secondary and post-secondary education must be submitted to the Office of the Registrar by February 1.

Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates.

To support Indigenous applicants who opt-in to the FIAP, the McMaster Midwifery Education Program offers the following additional admission support:

1. FIAP applicants are given the opportunity to attend an online information session where the Program representatives answer questions about the profession and provide details about the program, as well as next steps in the admission process.
2. FIAP applicants are also offered an individual panel interview conducted by an Indigenous interview panel which including Indigenous Healthcare providers.
3. The last component of the FIAP application is the completion of the Multiple Mini Interviews. This will be completed at the same time as all other applicants.

Transfer Credit

Students with previous university education may be eligible for transfer credits for non-clinical courses in Levels I and II. Transfer credits will be determined on an individual basis, after the admitted students have accepted their Offer of Admission.

Selection Procedure

The Midwifery Education Program has a limited number of placements and the admission process is very competitive. The admission requirements stated are minimum requirements. Preference will be given to applicants with the best qualifications. The actual standing required for admission in recent years has been an average in the mid to high 80s. The program has a two-step selection procedure:

1. Assessment of academic eligibility. Applicants must be successful at step one to be considered for step two.
2. Admission interview - selected applicants will be invited to Hamilton for an interview. The interview process will consist of ten, ten-minute interviews.

The interviews typically take place on a Saturday at the end of April, but this is subject to change. Candidates must attend on the date and at the time specified.

Offers of admission will be made following the interview process. Offers based on interim grades will be conditional upon maintaining satisfactory performance on final grades and are based on the results from step 2.

Application for Deferred Registration

McMaster will normally only grant deferrals on offers of admission when there are special extenuating circumstances. The McMaster Midwifery Education Program will evaluate all requests for deferral on their own merits. A request for deferral (to the subsequent Fall term) will be considered under the following circumstances:

- the student has accepted their undergraduate offer of admission to the university; and
- all conditions outlined in the Offer of Admission letter have been met; and
- the student is not intending to return to secondary school or attend another postsecondary institution during the deferral period.

For information on how to formally request a deferral, please see <https://registrar.mcmaster.ca/events/admission-deferrals/>

Unsuccessful Applicants

If an unsuccessful applicant, or an applicant who refuses their offer of admission, wishes to reapply to the Midwifery Education Program, a new application, including transcripts and supplementary materials must be submitted.

Application Deadline

Submission of completed application forms to the Ontario Universities' Application Centre must be received by the University no later than February 1 of the year in which registration is expected. All certified transcripts from secondary and post-secondary education previously attended by an external applicant must be forwarded to the Office of the Registrar and received by February 1. Applications received after February 1 will not be considered.

Immunization

The *Ontario Public Hospitals Act* requires that all persons working in a hospital setting meet certain criteria regarding surveillance for infectious diseases. In order for the requirement of the legislation to be met, students are required to complete the immunization screening process by July 15th in the year of admission and each subsequent academic year. Failure to do so will result in suspension of clinical work. Information will be sent to successful applicants prior to registration.

Police Records Check

An offer of admission is contingent upon provision of a Police Records Check, by July 31st of the year of admission. All registered students are required to have a satisfactory Police Records Check completed by July 31st annually. Expenses for the Police Records Check are the responsibility of the student. The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:

- All records of Criminal Code (Canada) convictions
- All pardoned sexual offences
- All record of convictions under the Narcotic Control Act
- All records of convictions under the Food and Drug Act
- Any undertakings to enter into a Surety to Keep the Peace
- Any Restraining Orders issued under the Criminal Code (Canada) or the

Family Act

- All outstanding warrants and charges

Financial Information

In 2019-2020 the tuition fees for a student in Level I of the Midwifery Education Program were \$8,261.19 for an eight month academic term. Supplementary fees are estimated at \$500.00 per year. Additional costs include books, supplies, and other learning resources estimated at \$1,200.00 - \$1,700.00.

Students must have access to a vehicle for all placement courses. Students should expect to relocate for clinical placements. Students should expect to cover their own travel and accommodation costs during the program. The program strongly suggests that students join both the College of Midwives Subscriber Status and the Association of Ontario Midwives as a student member.

Academic Regulations

Student Academic Responsibility

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

Access to Courses

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. All students are encouraged to register as soon as Mosaic is available to them.

Student Communication Responsibility

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their **@mcmaster.ca** alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's **@mcmaster.ca** alias.

In addition to meeting the General Academic Regulations of the University, students enrolled in the Midwifery Education Program will be subject to the following program regulations.

The Midwifery Education Program reserves the right, at any point during the term, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Midwifery Act of Ontario. Such removal will result in the student receiving a grade of F and may result in dismissal from the program.

Continuation in the Program

All courses (clinical and non-clinical) with the subject abbreviation MIDWIF and HTHSCI (as outlined in the Curriculum Plan) are required for the degree. Students are reviewed at the end of each term. Students must achieve a Cumulative Grade Point Average (CGPA) of at least 6.0 in all graded courses and achieve a Pass/Satisfactory performance in all clinical courses at each review to continue in Good Standing in the program.

Good Standing

A student is considered to be in Good Standing when all of the following criteria are met. The student must:

1. achieve a Grade Point Average (GPA) of at least 6.0;
2. achieve a minimum grade of C- in HTH SCI 1D06; and a minimum grade of B- in MIDWIF 1D03, 1G03, 2G06, 3F03 and 3J06;
3. achieve a minimum grade of C- in each of HTH SCI 1C06, 1J03, 2M03 and MIDWIF 1F03 (or HTH SCI 3C04), 2F03, with the exception that a minimum grade of D is acceptable in one of those courses;
4. achieve a Pass/Satisfactory performance in all clinical courses MIDWIF 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15 and 4B15;
5. receive a passing grade (minimum D-) in any required midwifery, health science, or indigenous studies graded courses other than those stated in **2.** and **3.** above.

Probation

A student will be placed on probation if any of the following criteria is met. The student:

1. obtains a GPA less than 6.0;
2. obtains a grade of less than C- in HTHSCI 1D06 or a grade of less than B- in MIDWIF 1D03, 1G03, 2G06, 3F03 and 3J06;
3. achieves a minimum grade of less than C- in HTH SCI 1C06, 1J03, 2M03 or MIDWIF 1F03 (or HTH SCI 3C04), 2F03, with the exception that a grade of D or D+ is acceptable in one of those courses;
4. receives an F or a Fail/Unsatisfactory in any clinical course MIDWIF 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15 and 4B15;
5. fails any one required midwifery, health science or indigenous studies course.

If a student receives a CA of less than 6.0 (5.5 to 5.9), he/she may remain in the program, but will be placed on program probation for one reviewing period.

A student is permitted to be on program probation only once. A student on probation at the completion of Level II, Fall term, must undertake remedial course work and remove the probationary status before proceeding to MIDWIF 2H15. If a student receives a CA of 3.5 - 5.4, he/she may transfer to another program for which he/she qualifies.

A student must obtain a minimum pass grade (D-) except in courses with a higher minimum grade requirement (see items **2.** and **3.** under *Good Standing* above) when a course is repeated and receive an overall CGPA of 6.0 at the completion of a probation period. Planned course work for any student on probation must be approved by the Academic Review Committee.

Graduation Requirements

Students who have successfully completed Level III of the program may request permission from the B.H.Sc. (Midwifery) Program Office to graduate with a three-level B.H.Sc. degree. Please refer to the *General Academic Regulations* section in this Calendar for additional information related to graduation.

Required to Withdraw

A student will be required to **withdraw** from the program if any of the following criteria is met. The student:

1. obtains a Grade Point Average (GPA) of less than 6.0 at the end of a probation period;
2. fails two of the following courses MIDWIF 1D03; 1G03; 1F03; 2F03; 2G06; 3J06; 3F03; HTHSCI 1C06; 1D06; 1J03; 2M03; 2H15; 3I03; 3K06; 3L03; 3A09; 3H15; 4A15; 4B15;
3. fails the second attempt at a course or receives a grade in the second attempt below C- for any of HTHSCI 1C06, 1D06, 1J03, 2M03, MIDWIF 1F03 (or HTHSCI 3C04), 2F03 or below B- in MIDWIF 1D03; 2G06; 3F03; 3J06;
4. fails to complete program requirements for graduation within the maximum

allowable time (five years) (not inclusive of approved leaves of absence);

Deans' Honour List, Graduation with Distinction, Provost's Honour Roll

Students will be evaluated for standing on the Deans' Honour List, Graduation with Distinction and the Provost's Honour Roll only upon completion of the program. Students will be named to the Deans' Honour List and will Graduate with Distinction if they receive no failing, provisional or unsatisfactory grades in any courses throughout the program and achieve a GPA of 9.5, on graded courses taken throughout the program.

For the Provost's Honour Roll, students will be assessed if they have a GPA of 12.0 and have not received a failing, provisional or unsatisfactory grade in any course throughout the program.

Graduation Requirements

A student is **eligible** for graduation when all of the following criteria are met. The student must:

1. complete all required courses, including electives, with a GPA of at least 6.0 including a minimum grade of C- in HTHSCI 1D06 and a minimum grade of B- in MIDWIF 1D03, 2G06; 3F03; and 3J06;
2. complete HTHSCI 1C06, 1J03, 2M03, MIDWIF 1F03 (or HTHSCI 3C04), 2F03 with a minimum grade of C- with the exception of a D in one of those courses;
3. complete all clinical courses with a Pass/Satisfactory grade;
4. complete all courses for the degree within five years (not inclusive of approved leaves of absence).

The practice of midwifery is regulated by the College of Midwives under the *Midwifery Act*, 1991 and the *Regulated Health Professions Act*, 1991.

The Midwifery Education Program monitors and documents students' clinical experience in order that students meet minimum practice requirements to be eligible for registration to practice. Graduation from the Midwifery Education Program does not guarantee registration with the College of Midwives of Ontario. All applicants to the College must meet additional registration requirements. New graduates are required to work in an established practice for their first year of registration.

Regulatory requirements are subject to change from time to time.

Bachelor of Health Sciences

MIDWIFERY PROGRAM (B.H.SC.)

The four year program which spans nine terms, includes courses from basic sciences, social sciences, health sciences, women's studies and electives, in addition to clinical courses. A variety of course formats include classroom, distance learning through web conferencing and print-based self-study courses. Teaching methods include lecture format, small group tutorials, self-directed activities and practical learning experiences in both laboratory and clinical practice settings.

INTENSIVES

An Intensives course is 5-7 days in duration and consists of workshop-style presentations focussing on clinical skills. Attendance (100%) is mandatory.

CLINICAL COURSES

Clinical courses consist of a practical and theoretical component and concurrent problem-based weekly tutorials. Students are assigned to a midwifery practice as well as to interprofessional placements including nursing, neonatal intensive care nursery, and obstetrical practices. Throughout the program, students will be placed in more than one midwifery practice within the McMaster Midwifery Program catchment area and will gain clinical experience in a hospital setting and with an obstetrician. **Students should expect to relocate for clinical placements. Travel and living expenses**

are the responsibility of the student.

The Midwifery Education Program reserves the right, at any point during the term, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Midwifery Act of Ontario. Such removal will result in the student receiving a grade of F and may result in dismissal from the program.

REQUIREMENTS

135 units total (Levels I to IV)

NOTE

An asterisk (*) following a course code indicates that transfer credit may be available.

LEVEL I: 30 UNITS

6 units

- HTHSCI 1D06 A/B - Anatomy and Physiology *

6 units

- HTHSCI 1C06 A/B - Social Justice and Healthcare

3 units

from

- INDIGST 3H03 - Indigenous Medicine I: Philosophy
- INDIGST 3HH3 - Indigenous Medicine II: Practical

3 units

from

- MIDWIF 1F03 - Introduction to Research Methods and Critical Appraisal * (Term 2)

6 units

- MIDWIF 1D03 - Midwifery The Profession I (Term 1)
- MIDWIF 1G03 - Midwifery The Profession II (Term 2)

3 units

- HTHSCI 1J03 - Life Sciences for Clinical Practice * (Term 1)

3 units

from

- One humanities or social science elective from the Faculties of Health Sciences, Humanities, or Social Sciences

LEVEL II: 30 UNITS

3 units

- HTHSCI 2M03 - Reproductive Physiology (Term 1)

15 units

- MIDWIF 2H15 - Normal Childbearing (Term 2)

3 units

- MIDWIF 2F03 - Pharmacotherapy (Term 1)

6 units

- MIDWIF 2G06 - Clinical Skills for Midwifery Practice (Term 1)

3 units

from

- One humanities or social science elective from the Faculties of Health Sciences, Humanities, or Social Sciences

LEVEL III: 45 UNITS

3 units

- MIDWIF 3I03 - Advanced Clinical Skills I (Term 1)

6 units

- MIDWIF 3J06 - Preparation for Primary Maternity Care (Term 1 or Term 2)

6 units

- MIDWIF 3K06 - Interprofessional Practice II (Term 1 or Term 2)

9 units

- MIDWIF 3A09 - Interprofessional Practice I (Term 1 or Term 2)

3 units

- MIDWIF 3F03 - Midwifery Issues (Term 1 or Term 2)

3 units

- MIDWIF 3L03 - Advanced Clinical Skills II (Term 2)

15 units

- MIDWIF 3H15 - Complications and Consultation (Spring/Summer) (Term 3)

LEVEL IV: 30 UNITS

15 units

- MIDWIF 4A15 - Maternal and Newborn Pathology (Term 1)

15 units

- MIDWIF 4B15 - Midwifery Clerkship (Term 2)

B.H.Sc. Physician Assistant Program

Health Sciences Centre (HSC), Room 4H31A

paprogram@mcmaster.ca

Bachelor of Health Sciences

PHYSICIAN ASSISTANT (B.H.SC.)

<http://www.fhs.mcmaster.ca/physicianassistant>

PROGRAM OVERVIEW

McMaster was among one of the first institutions in Canada to launch a Physician Assistant Education Program in 2008. The PA Education program will lead to the Bachelor of Health Sciences (Physician Assistant) degree. The program is taught using inquiry and problem-based learning, which enhance each student's ability to think critically, solve problems, demonstrate initiative and independence in practice, and promote lifelong learning.

MISSION STATEMENT

The mission of the McMaster University Physician Assistant Education Program is to educate energetic, innovative, committed and caring individuals to become role models in a new health care delivery model practicing medicine under the supervision of a physician to expand health care access for the people of Ontario.

CURRICULUM PLAN

The twenty-four month program begins in September. The first year focuses on the study of the clinical sciences underpinning health care delivery. In the second year, students enter into clinical placements.

YEAR I: CLINICAL SCIENCES

The clinical sciences curriculum is modeled on the McMaster Medical School COMPASS Curriculum and is designed to meet the competencies outlined in the Canadian Association of Physician Assistants Occupation Competency Profile and the Canadian Medical Association accreditation requirements. The curriculum is delivered in small group problem-based learning modules with a focus on the physician assistant's role in health care and the promotion of inter-professional education and training.

The clinical sciences curriculum consists of three Medical Foundations each composed of four components:

1. Clinical Sciences
2. Interviewing, Examination and Reasoning (IER)
3. Professional Competencies
4. Longitudinal Clinical Experience Program (LP)

Medical Foundation 1 (MF1)

- Clinical Science: Oxygen Transport: cardiovascular, respiratory and hematologic physiology and disease.
- IER: Basic communication skills, history taking and physical examination.
- ProComp: Professionalism, the role of the PA, principles and structure of the health care system, chronic disease, determinants of health
- LP

Medical Foundation 2 (MF2)

- Clinical Science: Homeostasis: energy balance, GI, endocrine, nutrition,

fluid and electrolyte balance (including renal, acid base, BP) and reproduction, and pregnancy

- IER: Continued development of communication skills, history taking and physical examination with additional focus on GI, endocrine and obstetric and gynecologic systems.
- ProComp: Medical ethics and medical decision making.
- LP

Medical Foundation 3 (MF3)

- Clinical Science: Infection, neoplasia, neurologic, psychiatric and musculoskeletal physiology and disease
- IER: Continued development of communication skills (negotiation and conflict resolution), history taking and physical examination with additional focus on the neurologic, psychiatric and musculoskeletal systems.
- ProComp: Standards of care, laws and codes relevant to medical practice, institutional policies, mental health and society, breaking bad news, end of life decision-making, resource allocation
- LP

YEAR II: CLERKSHIP

In the second year of the program students will undertake 48 weeks of supervised clinical placements. Core experiences will take place in family medicine, medicine, surgery, emergency medicine, pediatrics, geriatrics, and psychiatry. Placements will take place in Hamilton, in the distributed MacCARE campuses, and in the broader Ontario community. Elective placements will round out the balance of the clinical year and will allow students to pursue additional career interests.

CERTIFICATION

Graduates will qualify to take the Physician Assistant Certification Council of Canada National examination.

ADMISSION REQUIREMENTS

Applicants must achieve a minimum GPA average of 3.0 by February, and complete a minimum of 2 years undergraduate coursework by June - this criteria must be met to start the program in September of the same year. To satisfy the minimum requirements, academic credentials obtained from a Canadian University must be from an institution that is a full member of the Association of Universities and Colleges of Canada (AUCC) or the Council of Ontario Universities (COU). A minimum of 10 full-courses or 20 half courses (two years) is required. Courses that employ small group, self-directed or inquiry learning are excellent preparation for the PA Education program. There is no requirement for applicants to have carried a full course load. Applicants are expected to have achieved an overall simple average of at least 3.0 on the OMSAS 4.0 scale for consideration, but higher grades may be required to be competitive with other applicants.

Upon acceptance, successful applicants will be required to provide detailed medical information, including a record of completion of required immunizations, evidence of Basic Cardiac Life Support certification (Adult and Child CPR) and a satisfactory Police Records Check (at the applicant's expense) upon entering the program and annually thereafter.

ADMISSION PROCEDURES

Application (including the appropriate fee) is to be made through the:

Ontario Universities' Application Centre (OUAC)

170 Research Lane

Guelph, ON, N1G 5E2

<http://www.ouac.on.ca>

This form is required by **February 1st** for admission into the September class of the same year. Access to the supplementary application will be sent by email in mid-February. Please refer to the program's web site for full application details and information regarding the supplementary application form. Upon receipt of the application, supplementary application and certified transcripts, selected applicants will be invited to an interview.

THE ADMISSIONS COMMITTEE WILL CONSIDER:

- University transcripts and GPA
- Supplementary application
- Interview

APPLICATION FOR DEFERRED REGISTRATION

Deferred registrations will not normally be granted in the PA Education Program. Deferred registration may be granted only under exceptional circumstances. Request for deferral must be submitted within two weeks of the offer of admission.

ADVANCED STANDING/TRANSFER

The structure of the PA Education program requires that all students complete the entire program starting with Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

FULL-TIME STATUS

The structure of the program requires that all students be registered in the program on a full-time basis and attendance in all components of the program is mandatory.

READMISSION AFTER VOLUNTARY WITHDRAWAL

Former Physician Assistant students who voluntarily withdrew in good standing from the B.Sc(PA) Program must apply for readmission by February 1. Students previously admitted through McMaster University must apply for readmission through the Office of the Registrar. Readmission requests are carefully reviewed by the Admissions Committee and consideration will be given to evidence regarding the student's academic performance in the program, a letter outlining the decision to return, and activities since last registered in the program. Readmission is not automatic or guaranteed. Decisions are normally communicated between May and June for September entry.

FINANCIAL INFORMATION

In 2021-22 the tuition fee for a student in Year I of the PA Education Program is expected to be approximately \$12,500 for a 12 month academic term, plus supplementary fees estimated at \$1,300.00 per year. Additional costs include books, diagnostic equipment and other learning resources estimated at \$2,500.00. Students are also responsible for their transportation costs related to clinical study.

There is a bursary program which has been developed by the University. Bursaries may be awarded to students who are Canadian citizens based on demonstrated financial need. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of education. For further information, please contact the Education program web site or the Student Financial Aid and Scholarships Office at McMaster University.

CAREER AND EXPERIENTIAL PROGRAMS

C. Foley/B.A.

AT MCMASTER, HUMANITIES MEANS LEADERSHIP.

Look at any list of the attributes of effective leadership, and what do you find?

- Strong personal and ethical values;
- The ability to influence others by making reasoned, well thought out arguments;
- Emotional intelligence, achieved both by knowing oneself, and by being able to see the world from the perspective of others;
- Social intelligence, the ability to collaborate, to engage others in conversation, to be sensitive to social situations and to work with those culturally different from ourselves;
- Communication, the ability to effectively convey complex ideas in clear and inspiring ways;
- Creativity, an openness to new ideas and a willingness to question everything, not for the sake of asking questions, but to make this a better world.

These are the skills that build leaders in our communities, in our neighbourhoods, in our classrooms, in our social agencies, in our arts organizations, and in businesses, from corporations to start-ups. Employers in all sectors are finding that these soft skills are hard.

That's where Humanities comes in. In our disciplines, we focus on values, on developing persuasive and rational arguments, on communicating complex and challenging ideas, on collaboration, on creativity, and on critical and constructive thinking. Our students go on to successful leadership roles as lawyers, doctors, teachers, professors, policy analysts, journalists, museum curators, artists, musicians, translators, speech language pathologists, and business executives, to name just a few.

How you get there is up to you. We offer a broad range of programs, many of which can be taken in combination. They include: Studio Art, Music, Theatre and Film, Art History, Classics, Global Peace and Social Justice, History, Communication Studies, Media Arts, English and Cultural Studies, French, Cognitive Science of Language, Linguistics, Philosophy, and Justice, Political Philosophy and Law. You can combine most programs with those in Social Sciences, Mathematics with English, French, History or Philosophy, or Biology and Philosophy. We offer courses in a variety of languages and in women's studies, many of which can lead to a Minor. Students may also take a Specialized Minor in Commerce, an Interdisciplinary Minor in African and African Diaspora Studies, Archaeology, Community Engagement, Social Justice and Inclusive Communities, or Sustainability.

We look forward to having you in our classrooms, our workshops, our performance spaces and our laboratories. We will work with you and help you work with others to build the skills you need to be the agents of change that our world so desperately needs.

Types of Degree Programs

Upon successful completion of Humanities I, a student may be admitted to a program of study leading toward a Bachelor of Arts degree. Completion of Music I may lead to a Bachelor of Music (Honours) or Bachelor of Arts degree. Completion of Studio Art I leads to a Bachelor of Fine Arts (Honours) degree. Three types of programs lead toward a Bachelor's degree in the Faculty of Humanities.

Single Honours Program

Honours Bachelor of Arts programs consist of a total of 120 units of work typically completed over four years of full-time study. Honours programs provide a concentration in the work of a single discipline (e.g. History). The Honours Bachelor of Music (B. Mus. Honours) consists of 123 units total, with three years of full-time Music study beyond Music 1. The Honours Bachelor of Fine Arts (B.F.A. Honours) is completed in 120 total units, or three years of full-time Art study beyond Studio Art I.

Combined Honours Program

Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programs, a student may combine work in any two disciplines within the Humanities for completion of a Combined Honours Bachelor of Arts degree (e.g. English and Global Peace & Social Justice). These combinations are available within the Faculty, in combination with programs in the Faculty of Social Sciences (e.g. History and Political Science), and with select offerings in the Arts and Science Program, or select combinations with Math or Biology. Students will complete 120 units, including approximately 36 units of work beyond Level I in each component of the program (normally 12 units per level in each subject). The Honours B.A. in Justice, Political Philosophy and Law is not available in combination with another subject.

B.A. Program

Bachelor of Arts programs consist of a total of 90 units, typically completed over three years of full-time study, and concentrated in the work of a single discipline.

The content and the requirements of Single Honours, Combined Honours and other B.A. programs are found after the Academic Regulations below.

There are a number of Humanities courses without prerequisites which may be taken as electives. Individual course descriptions are listed by department in the Course Listings section of this Calendar.

Not only are students from other Faculties able to take individual courses which have no prerequisites, but they are also able to transfer into any of the degree programs offered by the Faculty of Humanities. For the majority of programs in the Faculty, admission may be gained after the successful completion of any Level I program at the university, providing this includes the necessary program requisites as outlined in the admission statement for each Humanities program as described under Programs for the B.A., B.A. (Honours) and B.Mus. (Honours) Degrees.

Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities

The Specialized Minor in Commerce for Humanities students is administered by the DeGroote School of Business. A maximum of 30 students will be admitted each year to this Specialized Minor.

Notes

- For admission, Humanities students (Level 1) must complete an application for admission to the Minor by using the Service Request function in the Student Centre in Mosaic during the Program/Plan Selection process in April.
- Students must also be admitted to a Single Honours B.A. in one of the following programs: Art History, Classics, Cognitive Science of Language, Communication Studies, English and Cultural Studies, French, History, Justice, Political Philosophy and Law, Linguistics, Multimedia, Philosophy, or Theatre & Film Studies.
- Students seeking the Specialized Minor in Commerce for Humanities must have completed ECON 1B03, and one of MATH 1M03 or ECON 1BB3.
- Students must have a Grade Point Average of at least 6.0 to be considered for entry into the Minor.
- Students planning to apply to the accelerated MBA program at McMaster are strongly encouraged to consult with MBA Admissions at the Ron Joyce Centre regarding admission requirements. In addition to meeting all other admission criteria students must complete, with a minimum grade of B-, the following courses:
 - all three of ECON 1B03, 1BB3, and MATH 1M03;
 - all level 1 and 2 Commerce courses listed below, with the exception of COMMERCE 2DA3;
 - COMMERCE 3MC3

Requirements

33 units total

6 UNITS

- COMMERCE 1AA3 - Introductory Financial Accounting
- COMMERCE 1BA3 - Organizational Behaviour
- COMMERCE 1DA3 - Business Data Analytics
- COMMERCE 1MA3 - Introduction to Marketing

18 UNITS

from

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 2BC3 - Human Resource Management and Labour Relations
- COMMERCE 2DA3 - Decision Making with Analytics
- COMMERCE 2FA3 - Introduction to Finance
- COMMERCE 2FB3 - Managerial Finance
- COMMERCE 2KA3 - Information Systems in Management
- COMMERCE 2MA3
- COMMERCE 2QA3
- COMMERCE 2OC3 - Operations Management
- COMMERCE 3MC3 - Applied Marketing Management
- COMMERCE 3S03 - Management Skills Development

3 UNITS

from

- HUMAN 3LM3 - Foundations of Ethical Leadership

or

- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab

6 UNITS

- Level III or IV Commerce courses

Minor

A Minor is an option available to a student enrolled in a four-level honours program. Normally, you must complete a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the minor. At least 18 units must be completed at McMaster. Students are responsible for ensuring that they take courses that meet these requirements (**using elective units only**.) When

enrolling in cross-listed courses to be applied towards a Minor, students must ensure that they enrol in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of a Minor when they graduate. If recognition for a Minor is granted, it will be recorded on the student's transcript. Minors cannot be revoked once approved. **Students may return for a second degree in the subject in which they have obtained a Minor**, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

Concurrent Certificates

Concurrent certificates are an option available to any student in an undergraduate degree program, and may be completed as part of a student's elective credit. Some concurrent certificates will require a student be admitted to this option, while others may involve completion of course credit and declaring certificate completion at the time of graduation. Students should consult the relevant certificate's guidelines for admission and completion, and/or the department offering the concurrent certificate for additional information. Concurrent certificate programs offered by the Faculty of Humanities include:

- Concurrent Certificate for Applied Ethics and Policy (CAEP)** (offered by the Department of Philosophy)
- Concurrent Certificate in Creative Writing and Narrative Arts (CWNA)** (offered by the Department of English and Cultural Studies)
- Concurrent Certificate in Critical Curatorial Studies (CCCS)** (offered by the School of the Arts)
- Concurrent Certificate in Essential French** (offered by the Department of French)
- Concurrent Certificate in International Engagement** (offered by the Faculty of Humanities)
- Concurrent Certificate in the Language of Medicine and Health** (offered by the Department of Classics)
- Concurrent Certificate in Leadership, Equity & Social Change** (offered by the Faculty of Humanities)
- Concurrent Certificate in Professional French** (offered by the Department of French)

Second Language Proficiency

Students embarking on Humanities programs should be aware that most graduate schools require, for admission, proficiency in at least one, and frequently two, languages other than English. In this Faculty, proficiency in at least one language other than English is regarded as an essential tool for students interested in Linguistics. Generally, proficiency in more than one language is a hallmark of most highly-qualified Humanities' graduates seeking the widest range of post-graduation academic and employment opportunities.

Part-Time Study

Students wishing to enter any program offered by the Faculty of Humanities and pursue a program on a part-time basis should consult the appropriate Departmental Counsellor(s) before making their plans.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in Humanities programs, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations and Policies.

Application for Level II Programs/Plans

For students applying for Honours Justice, Political Philosophy, and Law, the mandatory supplementary application is due prior to the end of Program/Plan Selection in April: <http://philos.humanities.mcmaster.ca/jppl-program>.

STEP 1: ATTEND THE HUMANITIES MAJORS FAIR (IN EARLY MARCH)

The Faculty hosts a Majors Fair for Level I students to provide information regarding program and plan options for Level II, the range and nature of subjects studied in particular discipline areas, as well as possible career and postgraduate options.

STEP 2: SELECTING A LEVEL II PROGRAM (PRIOR TO THE END OF PROGRAM/PLAN SELECTION IN APRIL)

Student seeking admission to a Level II program/plan for the following Fall and Winter terms must complete an application by using their MacID to log-on to Mosaic.

- Click the "Student Center" tab.
- Click the "My Academics" link.
- Click "Program/Plan Application" link.

Please note the following **IMPORTANT** information:

- Students must rank order their program choices **carefully**, especially if they want to be considered for admission to a limited enrolment program such as Multimedia or Justice, Political Philosophy & Law.
- Students who are admitted to their FIRST choice program, will NOT be evaluated for any other program selections.
- Students who are NOT admitted to their first choice, will be evaluated for their second choice, third choice, and so on.
- Students may apply to a maximum of **four programs**.
- For students applying for Honours Justice, Political Philosophy, and Law, the mandatory supplementary application is due prior to the end of Program/Plan Selection in April: <http://philos.humanities.mcmaster.ca/jppl-program>

STEP 3: VIEW YOUR PROGRAM (LATE MAY)

In late May, students must check the Student Centre in Mosaic to see their program for the Fall and Winter terms.

Minimum Requirements for Entering and Continuing in a Program Beyond Level I

HONOURS B.A. PROGRAMS, BFA (HONOURS) PROGRAM, AND B.MUS. (HONOURS) PROGRAM:

You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. PROGRAMS

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

Deferred Examinations and Deferred Term Work

Students who have been granted more than one deferred examination or term-work privilege may be required by their Faculty/Program office to **reduce their course load** during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the application for deferred examinations.

Transfer to the Faculty of Humanities

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Humanities provided that they have obtained a Grade Point Average of at least 3.5 and have completed the necessary requirements for admission to a program.

Reinstatement to the Faculty of Humanities

A student who may not continue at the University may apply for reinstatement; however, **reinstatement is not automatic or guaranteed**. Application for reinstatement must be made to the Office of the Registrar using the *Reinstatement Request Form* by the deadline for the session. See the Sessional Dates section of this Calendar.

The form should explain the reasons for the student's inadequate performance, and should include relevant documentary evidence, for example a letter from a physician outlining any medical condition that might have affected the student's academic performance or final grades. Reinstatement cases will be carefully screened and the evidence considered will include the student's academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation.

If students are reinstated at the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may (at Faculty discretion) retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation with Distinction or other recognition based on the Grade Point Average.

If, at any review after reinstatement, the student's Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Course Selection and Course Changes

Students are responsible for ensuring that their course selection meets the requirements of the degree program in which they are enrolled, that prerequisites have been met, and that, where necessary, permission to take courses has been obtained. They should review their personal advisement report each time they cancel or add courses, and contact an Academic Advisor if they have questions, **particularly if the advisement report shows unused courses**. Students should also be aware that changes to their course load may affect their fees and their eligibility for scholarships and financial aid such as OSAP.

Overload

Fall/Winter Session: Normally students may not enrol in more than 30 units during the Fall/Winter Session (33 units for students in Music I.) **A student with outstanding deferred examinations or incomplete term-work will not be permitted to overload in the following term.** Students may take an overload up to six units under the following circumstances:

1. if a student has a Sessional Average of at least 7.0 in the immediately preceding review period; or
2. if the student is enrolled in the final Level of his/her program.

Spring/Summer Session: Students wishing to enrol in more than 12 units during the Spring/Summer Session or more than six units in either term of that Session, may do so only with the permission of the Assistant Dean of Humanities.

Letter of Permission

Students in good academic standing, who wish to attend another university to take courses for credit toward a McMaster degree, must first request a Letter of Permission in the Student Centre in Mosaic. A Letter of Permission is automatically cancelled if a student is placed on academic probation, program probation, or required to withdraw from the University. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the University's minimum residence requirement, will not be included in the calculation of the averages at McMaster, and therefore cannot be used to raise standing. The transcript designation will read T, indicating transfer credit has been granted, when a C- or better is attained. It is the student's responsibility to ensure that an official transcript from the host university is sent to the Academic Advising Office to receive credit for work taken.

Summer Immersion Programs in French

- Students must obtain approval from the Academic Advising Office prior to participating in any language immersion program. Failure to obtain prior approval may result in transfer credit not being accepted.
- The government-sponsored Explore summer language program offers university students the opportunity to take French courses at a large number of accredited institutions. Students wishing to attend another university in order to participate in a language immersion program must: (a) petition the Academic Advising Office, (b) submit detailed course descriptions for assessment, and (c) obtain a Letter of Permission.
- Students enrolled in a program in French may take a maximum of six units of credit in this manner as elective work only. Students not enrolled in a program in French may take up to 12 units of credit.

Humanities Study Abroad

HUMANITIES STUDY ABROAD DURING LEVEL III OF HONOURS PROGRAMS

There are two ways to undertake international studies during Level III of an Honours program: (i) a Formal Exchange Program or (ii) Independent Study Abroad through a Letter of Permission.

(I) FORMAL EXCHANGE PROGRAM DURING LEVEL III OF HONOURS PROGRAMS

Formal Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. See the General Academic Regulations section of this Calendar and the sections on Eligibility and Application below.

ELIGIBILITY FOR THE MCMASTER EXCHANGE PROGRAM

- Students enrolled in any Honours or Combined Honours program in the Faculty of Humanities may apply to replace all or part of the work of their third year with an acceptable program of study taken at a university approved by the Faculty of Humanities.
- To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. Individual programs may have additional requirements. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students taking part in this program do not have the option of graduating with a three-year B.A. degree on the basis of work completed in this program, but must return to McMaster University to complete their final 30 units of work.
- Students may receive up to 30 units of credit for a full year of study at another institution. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Academic Advising Office has received transcripts and reviewed students' academic achievements following their return and after they have officially enrolled for Level IV.

APPLICATION FOR THE MCMASTER EXCHANGE PROGRAM

- Students interested in applying for this program should consult the Academic Advising Office approximately one year before they anticipate studying abroad (i.e. during the Fall term of the year in which they enter Level II.) Applications are submitted through International Student Services and are normally due in January of Level II.

(II) INDEPENDENT STUDY ABROAD

Qualified students may undertake studies at a university abroad through a Letter of Permission. Students enrol at and pay tuition fees to the other institution. See the *General Academic Regulations* section of this Calendar and the sections on Eligibility and Application below.

ELIGIBILITY FOR STUDY ABROAD THROUGH LETTER OF PERMISSION

- Students in good standing in the Faculty of Humanities may apply for a Letter of Permission to take coursework abroad towards their degree. The coursework must be approved in advance by the faculty office. Students must apply directly to, and be accepted by, the other school.
- The awarding of transfer credit for work completed elsewhere may be confirmed only after the Academic Advising Office has received transcripts and reviewed students' academic achievements following their return.

APPLICATION FOR STUDY ABROAD THROUGH A LETTER OF PERMISSION

- Students should consult with an academic advisor on the coursework to be taken abroad prior to applying. A Letter of Permission must be given by McMaster to be permitted to take coursework elsewhere for transfer credit. Students apply directly to the other school to be accepted, and must be aware of the other school's dates and deadlines.

Bachelor of Arts (Honours)

HUMANITIES 1

HUMANITIES 1

Students admitted to Humanities 1 must complete 30 units as follows:

PROGRAM NOTES

1. A full-course load for Humanities 1 is 30 units. (The final digit in course numbers indicates the unit weight of a course. A six-unit A/B course is taught from September to April and a three-unit course is normally a half-year course which may be taught either from September to December or January to April).
2. Admission to a Level II program normally requires completion of three to six units of the relevant subject in Level I. In order to be considered for admission to a Level II program, students should consult the admission statements for Level II programs when selecting their Level I courses.
3. Humanities 1 students are permitted to take up to 12 units of work in any single subject.
4. Students with a Grade 12 U course in Greek or Latin will register for six units of Level II Greek or Latin in lieu of the corresponding 1Z03 and 1ZZ3 courses.
5. Humanities 1 students may take no more than 12 units of introductory language courses.
6. Students uncertain as to whether language course prerequisites best reflect their linguistic ability are encouraged to consult the appropriate department for placement tests.
7. Students wishing to take Music courses other than MUSIC 1A03, 1AA3 or 1CR3 must make arrangements with the School of the Arts for qualifying tests.

COURSE LIST 1

- CLASSICS 1A03 - Introduction to Classical Archaeology
- CLASSICS 1B03 - An Introduction to Ancient Myth and Literature
- CLASSICS 1M03 - History of Greece and Rome
- CMST 1A03 - Introduction to Communication
- ENGLISH 1CS3 - Studying Culture: A Critical Introduction
- ENGLISH 1F03 - The Written World
- ENGLISH 1G03 - Making and Unmaking Literary Traditions
- ENGLISH 1H03 - Words in Place
- FRENCH 1A06 A/B - Introduction to French Studies: Advanced Level
- GENDRST 1A03 - Gender, Race, Culture, Power
- GREEK 1Z03 - Beginner's Intensive Ancient Greek I
- GREEK 1ZZ3 - Beginner's Intensive Ancient Greek II
- HISTORY 1CC3 - Empires and Colonialism, 1000-1950
- HISTORY 1DD3 - The Making of the Modern World, 1750-1945
- HISTORY 1EE3 - The Historical Roots of Contemporary Issues
- HISTORY 1FF3 - Exploring History in a Small Group Setting
- HISTORY 1M03 - History of Greece and Rome
- HISTORY 1P03 - A History of Magic

- HISTORY 1Q03 - History of Medicine
- IARTS 1HA3 - Introduction to Histories of the Arts
- IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
- IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment
- IARTS 1T03 - Perspectives and Possible Worlds: Theatre, Performance, and Society
- LATIN 1Z03 - Beginner's Intensive Latin I
- LATIN 1ZZ3 - Beginner's Intensive Latin II
- LINGUIST 1A03 - Introduction to Linguistics: Sounds, Speech and Hearing
- LINGUIST 1AA3 - Introduction to Linguistics: Words, Sentences and Meaning
- MEDIAART 1A03 - Media Arts
- PEACJUST 1A03 - Peace, Justice, Human Rights
- PEACJUST 1VM3 - Voices at Mac: Understanding our World
- PHILOS 1A03 - Philosophical Texts
- PHILOS 1B03 - Philosophy, Law and Society
- PHILOS 1E03 - Philosophical Questions
- PHILOS 1F03 - Meaning in Life

COURSE LIST 2

(Humanities courses available to Level I students. These courses do not provide entry into a Level II program)

- ART 1T13 - Making Art and Understanding Technology & Images
- ART 1UI3 - Making Art and Understanding Images
- CHINESE 1Z06 A/B - Mandarin Chinese for Beginners
- FARSI 1Z03 - Introductory Farsi I
- FARSI 1ZZ3 - Introductory Farsi II
- FRENCH 1Z06 A/B - Beginner's Intensive French I
- GENDRST 1AA3 - Gender, Feminism and Social Justice
- GERMAN 1B03 - Intermediate German I
- GERMAN 1BB3 - Intermediate German II
- GERMAN 1Z06 A/B S - Beginner's Intensive German
- ITALIAN 1A03 - Intermediate Italian I
- ITALIAN 1AA3 - Intermediate Italian II
- ITALIAN 1Z06 A/B S - Beginner's Intensive Italian
- JAPANESE 1Z06 A/B S - Beginner's Intensive Japanese
- KOREAN 1Z03 - Introductory Korean I
- KOREAN 1ZZ3 - Introductory Korean II
- LINGUIST 1Z03 - Structure of Modern English I
- LINGUIST 1ZZ3 - Structure of Modern English II
- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II
- MUSIC 1CR3 - Rudiments of Music
- MUSIC 1EE6 A/B - Solo Performance *
- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band *
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir *
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble *
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band *
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble *
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra *
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble *
- POLISH 1Z03 - Beginner's Polish I
- POLISH 1ZZ3 - Beginner's Polish II
- RUSSIAN 1Z03 - Intensive Beginner's Russian I
- RUSSIAN 1ZZ3 - Intensive Beginner's Russian II
- SPANISH 1A03 - Intermediate Spanish I

- SPANISH 1AA3 - Intermediate Spanish II
- SPANISH 1Z06 A/B - Beginner's Intensive Spanish

* See Program Note 7 above regarding Level I MUSIC courses.

REQUIREMENTS

12 units

from

- *Course List 1* (When selecting courses, please consult the admission statements for Level II programs.)

3 units

- HUMAN 1VV3 - Voice and Vision: Words to Change the World

15 units

- Electives, which may include courses from *Course Lists 1 and 2*

Bachelor of Fine Arts (Honours)

IARTS (INTEGRATED ARTS) I

ADMISSION

Students wishing to enter this program must complete an entry interview tailored to the applicant's interests, and provide evidence of their artistic practice, which may include: an art portfolio, audition, performance pieces, compositions, creative writing, spoken word poetry, videos, or any other evidence of their creative work. Enrolment in this program is limited. Selection is based on a consideration of academic achievement, assessment of the evidence their artistic practice provided, and a successful interview. In instances of long- distance application, an electronic submission will be accepted.

NOTES

1. All IARTS students will receive exposure to a range of arts disciplines throughout their four years of study. Before choosing courses, students should become familiar with prerequisites that will determine course selection in the subsequent year(s).

REQUIREMENTS

iArts BFA Level I (30 units)

6 UNITS

- IARTS 1RP3 - Project Production 1
- IARTS 1RR3 - Project Development 1

6 UNITS

- IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
- IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment

9 UNITS

- IARTS 1BD3 - 2D Practices in Art
- IARTS 1CR3 - Performance: Body and Voice
- IARTS 1HA3 - Introduction to Histories of the Arts
- IARTS 1SS3 - 3D Practices in Art
- IARTS 1SW3 - Working in the Arts Today
- IARTS 1T03 - Perspectives and Possible Worlds: Theatre, Performance, and Society

9 UNITS

- Modules and Electives

Bachelor of Music (Honours)

MUSIC 1

NOTES

Completion of a Music degree requires considerable daytime attendance.

PROGRAM NOTES

1. Students interested in entering Honours Music (Music Cognition) must have completed Grade 12 Biology, or enroll in BIOLOGY 1P03 concurrently with PSYCH 1X03 or PSYCH 1XX3.
2. Applicants to Music 1 must book an audition with the School of the Arts to take place usually in February and March.
3. During the music audition students will complete a theory test. Those with a sufficient background will be notified that the requirement for Music 1CR3 may be waived.

COURSE LIST 1

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble

REQUIREMENTS

Students admitted to Music 1 must complete 33 units of work as follows:

0-3 UNITS

- MUSIC 1CR3 - Rudiments of Music

(see Program Note 3 above)

18 UNITS

- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1CB3 - Theory and Analysis I
- MUSIC 1DA3 - Practical Musicianship I
- MUSIC 1DB3 - Practical Musicianship II
- MUSIC 1E06 A/B - Solo Performance

3 UNITS

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble

9-12 UNITS

Electives, excluding *Course List 1* (Students intending to enter the Honours Music (Music Cognition) program must take PSYCH 1X03 and PSYCH 1XX3.)

The School of the Arts offers programs in:

- Studio Art
- Art History
- iArts
- Music
- Theatre & Film Studies

In addition, Minors are available in: Art History, Music and Theatre & Film Studies.

ARTS & SCIENCE COMBINATIONS WITH SCHOOL OF THE ARTS PROGRAMS:

- Honours Arts & Science and Art History (B.Arts.Sc.; See *Arts & Science Program*)
- Honours Arts & Science and Music (B.Arts.Sc.; See *Arts & Science Program*)
- Honours Arts & Science and Theatre & Film Studies (B.Arts.Sc.; See *Arts & Science Program*)

Bachelor of Arts (Honours)

COMBINED HONOURS IN ART HISTORY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in one of ARTHIST 1A03, ARTHIST 1AA3, IARTS 1HA3, IARTS 1PA3 or IARTS 1PB3. Students must complete both ARTHIST 1A03 and 1AA3 or three additional units in one of IARTS 1HA3, IARTS 1PA3, IARTS 1PB3 by the end of Level II (see Note 4 below).

This program is being phased out. The final year students will be admitted is 2023/2024.

NOTES

1. Before choosing Level II and III courses, students should become familiar with the prerequisites for Level III and IV courses.
2. Students intending to pursue graduate work in Art History should note that most universities offering such programs require undergraduate work in at least one foreign language for admission. Students are encouraged to include the study of foreign languages as early as possible in their program.
3. Students interested in enrolling in 3AB3 Applied Art History: Experiential Learning with Placement as an Intern must finalize planning of their internship with the program Counsellor no later than January 30 in order to begin the course in May, by April 30 in order to begin in September, or September 30 in order to begin in January of the same year.
4. This program is being phased out. The final year students will be admitted is 2023/2024.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission into the program

15 UNITS

- Level II Art History

0-3 UNITS

If not completed in Level I

- ARTHIST 1A03 or
- ARTHIST 1AA3
- IARTS 1HA3 - Introduction to Histories of the Arts
- IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
- IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment

15 UNITS

from

- Level III Art History
- ART 3EA3 - Social Practice and Community-Engaged Art

3 UNITS

- Level IV Art History

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18-21 UNITS

- Electives to total 120 units

COMBINED HONOURS IN IARTS (INTEGRATED ARTS) AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level 1 program and a Grade Point Average of at least 5.0 including successful completion of either IARTS 1PA3 or IARTS 1PB3, and a minimum grade of C in one course from the following list: IARTS 1HA3, IARTS 1SW3, IARTS 1CR3, IARTS 1T03, IARTS 1BD3, IARTS 1SS3.

NOTES

1. All iARTS students will receive exposure to a range of arts disciplines throughout their four years of study.
2. Before choosing courses, students should become familiar with prerequisites that will determine course selection in the subsequent year(s).
3. Students may apply in Level III to enroll in 6 units of Level IV iARTS Capstone Project, but it is not a requirement of the B.A.

IARTS COURSE LISTS**IARTS INVESTIGATIONS COURSE LIST A**

- IARTS 2AD3 - Acting as Devising I
- IARTS 2AS3 - Art and Visual Culture in South and East Asia

- IARTS 2CC3 - Performance Culture in Canada
- IARTS 2CD3 - Contemporary Approaches to Drawing Practices
- IARTS 2DE6 - Devised Performance Processes
- IARTS 2DP3 - Digital Practices
- IARTS 2EP3 - 3D and Expanded Practices
- IARTS 2ER3 - Environmentally Responsible Art
- IARTS 2FA3 - Film Analysis
- IARTS 2ME3 - Art and Visual Culture in the Middle East
- IARTS 2MP3 - Contemporary Approaches to Print
- IARTS 2OP3 - Organizing Performance Space
- IARTS 2PP3 - Contemporary Approaches to Painting Practices
- IARTS 2RV3 - Reading Visual Culture
- IARTS 2SE3 - Performance Culture in South and East Asia
- IARTS 2SP3 - Contemporary Approaches to Sculpture Practices
- IARTS 2US3 - Understanding Spatial Dynamics and Time in the Arts
- IARTS 2VA3 - Art and Visual Culture in Canada

IARTS INVESTIGATIONS COURSE LIST B

- IARTS 3AD3 - Acting as Devising II
- IARTS 3BA3 - Book Arts
- IARTS 3CE3 - Concentrated Study Ceramics
- IARTS 3CH3 - Cinema History from WWII
- IARTS 3CP3 - Performance and Community Engagement
- IARTS 3CW3 - Colours of the World
- IARTS 3DA3 - Arts and Spaces for Dwelling and Activities
- IARTS 3EC3 - Early Cinema History
- IARTS 3FI3 - Fashion and Identity
- IARTS 3FO3 - Concentrated Study Foundry
- IARTS 3GE3 - Contemporary Arts and The Global Economy
- IARTS 3IA3 - Indigenous Art and Visual Culture in Canada
- IARTS 3ID3 - Integrated Dimensional Media Concentration
- IARTS 3IM3 - Integrated Media Concentration
- IARTS 3IN3 - Concentrated Study Intaglio
- IARTS 3IP3 - Intercultural Performance Practices
- IARTS 3LC3 - Local Canadian Contemporary Art & Performance

REQUIREMENTS

120 units total

30 UNITS

- from the Level I program completed prior to admission into the program

3 UNITS

- IARTS 2PC3 - Perspectives C: Arts in the Community
- IARTS 2PD3 - Perspectives D: Arts Across Disciplines

9 UNITS

- From iARTS Investigations *Course List A*, or may include any of the following:
 - CLASSICS 2B03 - Greek Art
 - CLASSICS 2C03 - Roman Art
 - HISTORY 2DF3 - Art and Revolutions in France, 1789-1914
 - MUSIC 2A03 - Music of the World's Cultures
 - MUSIC 2F03 - Music for Film and Television
 - MUSIC 2II3 - Popular Music in North America and the United Kingdom: Post-World War II
 - MUSIC 2TT3 - Broadway and the Popular Song
 - MUSIC 2U03 - Jazz

3 UNITS

- IARTS 3PE3 - Perspectives E: Arts in Society; Equity and Inclusion

12 UNITS

From iARTS Investigations Course List B, or may include any of the following:

- CLASSICS 3Q03 - Greek Sanctuaries
- CLASSICS 3S03 - Pompeii, Herculaneum, and Ostia
- FRENCH 3V03 - Image and Knowledge Representation
- HISTORY 3DF3 - Art and Politics in Second Empire France

- HISTORY 3TR3 - Trees and their Histories
- HISTORY 4LP3 - The Cultural History of Paris, 1789-1914

3 UNITS

- IARTS 4PF3 - Perspectives F: Arts in Society; Seminar and Independent Research

6 UNITS

- from iARTS Investigations *Course List C*, or may include the following:
 - IARTS 4CO6 - Thesis Project (6 units)

36 UNITS

- Courses specified for the other subject

18 UNITS

- Modules and Electives

COMBINED HONOURS IN MUSIC AND ANOTHER SUBJECT (B.A.)

Students who entered the Combined Honours in Music and Another Subject (B.A.) program prior to September 2018 should refer to the Undergraduate Calendar of their entry year and their individual advisement report for their program requirements.

NOTES

Completion of a Music degree requires considerable daytime attendance.

ADMISSION

Completion of Music I and a Grade Point Average of at least 5.0.

PROGRAM NOTES

1. Students in the Combined Honours B.A. in Music and Another Subject program can only use a total of 12 units from Course List 3 as credit toward their degrees.
2. Students who begin in the Music (B.A.) program wishing to transfer to the Honours Music (B. Mus.), Honours Music Cognition (B. Mus.) or Combined Honours Music (B.A.) program should note that a successful audition and completion of Music I with a GPA of at least 5.0 are first required.

COURSE LIST 1

All Level III and IV Music courses, including HTHSCI 3MU3 - Music, Health, & the Community

The following exceptions may not be used toward this course list:

- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 3GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 3GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 3GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 3GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 3GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 3Z03
- MUSIC 4GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 4GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 4GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 4GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 4GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 4GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 4GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 4GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble

COURSE LIST 2

- MEDIAART 2G03 - Digital Audio

- MEDIAART 3C03 - Interactive and Spatial Audio
- MMEDIA 2G03
- MMEDIA 3C03
- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2H3 - Popular Music in North America and the United Kingdom: Post-World War II
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 2MU3 - Introduction to Music Therapy Research
- MUSIC 2T03
- MUSIC 2TT3 - Broadway and the Popular Song
- MUSIC 2U03 - Jazz
- MUSIC 2Z03
- MUSIC 3Z03

COURSE LIST 3

- MUSIC 1G03
- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble

- Electives, including no more than 6 units from *Course List 3*, to total 120 units

COMBINED HONOURS IN THEATRE & FILM STUDIES AND ANOTHER SUBJECT (B.A.)

PROGRAMS IN THEATRE & FILM STUDIES

Theatre & Film Studies is a liberal arts program that integrates critical analysis with experiential learning. We study performance in a range of media, cultures, and historical periods. Students learn to critically engage with the processes of conception, design, production, and reception of theatre, film, performance art, video art, and with the performativity of our everyday lives. Our experiential learning courses use current devised theatre practices to engage students with performance through studio work and public productions. All our courses encourage students to adopt inventive and critical perspectives on creative processes and foster collaborative understandings of artistic creation.

NOTE

Students registered in Honours Theatre & Film Studies are encouraged to complete elective courses in related art forms.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in THTRFLM 1T03 or IARTS 1T03.

This program is being phased out. The final year students will be admitted is 2023/2024.

COURSE LIST 1

- THTRFLM 3AA3 - Modernist Drama and Theatre in Europe
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre
- THTRFLM 3FF3 - Early Cinema History
- THTRFLM 3L03 - Cinema History from WWII
- THTRFLM 3M03
- THTRFLM 3P03 - Gender and Visual Culture
- THTRFLM 3QA3 - Documentary, Politics, and Social Change
- THTRFLM 3RR3 - 'Crippling' Performance: Deaf, Mad and Disabled Performance in Canada
- THTRFLM 3U03 - Pleasure and Critique in Dramatic Performance

COURSE LIST 2

- THTRFLM 3N03 - Artists' Alternative Film and Video
- THTRFLM 3OP6 A/B - Organizing the Performance Space
- THTRFLM 3PC3 - Performance and Community Engagement
- THTRFLM 3PR3 - Text-based Devising: Research and Development
- THTRFLM 3PS3 - Devising New Plays: Research and Development
- THTRFLM 3S03
- THTRFLM 3S06 - Major Production Workshop
- THTRFLM 3SD3 - Scripting the Devised Performance
- THTRFLM 3VS3 - Visual Storytelling
- THTRFLM 3WW3 - Acting and the Voice: Devising from Classical Texts
- THTRFLM 3XX3 - Acting and the Body: Devising Physical Theatre

COURSE LIST 3

- ART 3EA3 - Social Practice and Community-Engaged Art
- ARTHIST 2A03 - Visual Literacy
- ARTHIST 2R03 - The History of Fashion and Identity
- ARTHIST 2T03 - Art, Theatre and Music in the Enlightenment
- ARTHIST 3Q03 - Colours of the World
- CLASSICS 2E03 - The Ancient World in Film
- CLASSICS 2YY3 - Greek Tragedy
- CMST 2G03 - Performance and Performativity
- CMST 3WC3 - World Cinemas: Critical Media Approaches
- ENGLISH 2CR3 - Shakespeare: Comedies, Problem Plays, and Romances
- ENGLISH 2HT3 - Shakespeare: Histories and Tragedies
- ENGLISH 3CC3 - Reading Film
- GERMAN 2N03 - The Holocaust in Film and Fiction (Taught in English)
- GERMAN 2P03 - Modern Germany Through Film: Golden 20s - Avant Garde - Transnational Cinema (Taught in English)
- GERMAN 2Q03 - Horror Film: Vampires, Monsters, and Mad Scientists

(Taught in English)

- GERMAN 2S03
- INDIGST 3EE3 - Indigenous Representations in Film
- INDIGST 3G03 - Indigenous Creative Arts and Drama: Selected Topics
- ITALIAN 3X03 - Italy Today Through Film (Taught in English)
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3C03 - Interactive and Spatial Audio
- MMEDIA 2G03
- MMEDIA 3C03
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2TT3 - Broadway and the Popular Song
- RUSSIAN 2G03 - Masterpieces of Russian Literature in Film and TV Series (Taught in English)
- RUSSIAN 2H03 - Soviet Propaganda in Films and Other Mass Media (Taught in English)
- THTRFLM 2J03
- THTRFLM 2JJ3
- THTRFLM 2Z03

REQUIREMENTS

Students who entered the Combined Honours Theatre & Film Studies (B.A.) program prior to September 2021 should refer to the Undergraduate Calendar of their entry year and their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

6 UNITS

- THTRFLM 2CP3 - Culture and Performance
- THTRFLM 2FA3 - Film Analysis

6 UNITS

from

- THTRFLM 2AA3 - Acting as Devising
- THTRFLM 2BB3 - Designing as Devising
- THTRFLM 2DP3 - Devising Processes

18 UNITS

- Level III or IV Theatre & Film courses, including nine units from *Course List 1*; nine units from *Course List 2*

6 UNITS

Level IV Theatre & Film courses, including at least three units from

- THTRFLM 4C03 - Performance and Society
- THTRFLM 4D03 - Theatre, Society and Early Cinema
- THTRFLM 4E03 - Cinema and Society

36 UNITS

- courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 UNITS

- electives to total 120 units

HONOURS ART HISTORY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in one of ARTHIST 1A03, ARTHIST 1AA3, IARTS 1HA3, IARTS 1PA3 or IARTS 1PB3. Students must complete both ARTHIST 1A03 or ARTHIST 1AA3 or three additional units in one of IARTS 1HA3, IARTS 1PA3 or IARTS 1PB3 by the end of Level II (*see Note 4 below*).

This program is being phased out. The final year students will be admitted is 2023/2024.

NOTES

1. Before choosing Level II and III courses, students should become familiar with the prerequisites for Level III and IV courses.
2. Students intending to pursue graduate work in Art History should note that most universities offering such programs require undergraduate work in at least one foreign language for admission. Students are encouraged to include the study of foreign languages as early as possible in their program.
3. Students interested in enrolling in 3AB3 Applied Art History: Experiential Learning with Placement as an Intern must finalize planning of their internship with the program Counsellor no later than January 30 in order to begin the course in May, by April 30 in order to begin in September, or September 30 in order to begin in January of the same year.
4. This program is being phased out. The final year students will be admitted is 2023/2024.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission into the program

18 UNITS

- Level II Art History

0-3 UNITS

If not completed in Level I

- ARTHIST 1A03 or
- ARTHIST 1AA3
- IARTS 1HA3 - Introduction to Histories of the Arts
- IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
- IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment

21 UNITS

from

- Level III Art History
- ART 3EA3 - Social Practice and Community-Engaged Art

6 UNITS

- Level IV Art History

42-45 UNITS

- Electives

HONOURS ART HISTORY WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroot School of Business.

HONOURS IARTS (INTEGRATED ARTS) (B.A.)

ADMISSION

Completion of any Level 1 program and a Grade Point Average of at least 5.0 including successful completion of either IARTS 1PA3 or IARTS 1PB3, and a minimum grade of C in one course from the following list: IARTS 1HA3, IARTS 1SW3, IARTS 1CR3, IARTS 1T03, IARTS 1BD3, IARTS 1SS3.

NOTES

1. All iARTS students will receive exposure to a range of arts disciplines throughout their four years of study.
2. Before choosing courses, students should become familiar with prerequisites that will determine course selection in the subsequent year(s).
3. Students may apply in Level III to enroll in 6 units of Level IV iARTS Capstone Project, but it is not a requirement of the BA.

IARTS COURSE LISTS**IARTS INVESTIGATIONS COURSE LIST A**

- IARTS 2AD3 - Acting as Devising I
- IARTS 2AS3 - Art and Visual Culture in South and East Asia
- IARTS 2CC3 - Performance Culture in Canada
- IARTS 2CD3 - Contemporary Approaches to Drawing Practices
- IARTS 2DE6 - Devised Performance Processes
- IARTS 2DP3 - Digital Practices
- IARTS 2EP3 - 3D and Expanded Practices
- IARTS 2ER3 - Environmentally Responsible Art
- IARTS 2FA3 - Film Analysis
- IARTS 2ME3 - Art and Visual Culture in the Middle East
- IARTS 2MP3 - Contemporary Approaches to Print Media Practices

HONOURS THEATRE & FILM STUDIES WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroot School of Business.

Bachelor of Arts

ART HISTORY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in one of ARTHIST 1A03, ARTHIST 1AA3, IARTS 1HA3, IARTS 1PA3 or IARTS 1PB3. Students must complete both ARTHIST 1A03 and 1AA3 or three additional units in one of IARTS 1HA3, IARTS 1PA3 or IARTS 1PB3 by the end of Level II (*see Note below*).

This program is being phased out. The final year students will be admitted is 2023/2024.

NOTES

Before choosing Level II courses, students should become familiar with the prerequisites for Level III courses.

This program is being phased out. The final year students will be admitted is 2023/2024.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

15 UNITS

- Level II Art History

0-3 UNITS

if not completed in Level I

- ARTHIST 1A03 or
- ARTHIST 1AA3
- IARTS 1HA3 - Introduction to Histories of the Arts
- IARTS 1PA3 - Perspectives A: Arts in Society: Social Constructions of Class, Race and Gender
- IARTS 1PB3 - Perspectives B: Arts in Society: Technology and the Environment

15 UNITS

from

- Level III Art History
- ART 3EA3 - Social Practice and Community-Engaged Art

27-30 UNITS

- Electives

MUSIC (B.A.)

Students who entered the Music (B.A.) program prior to September 2021 should refer to the Undergraduate Calendar of their entry year and their individual advisement report for their program requirements.

NOTES

1. Completion of a Music degree requires considerable daytime attendance.
2. Students with more theory background than Level 8 RCM should consult the program regarding alternate theory equivalencies to either MUSIC 1CR3 or 1CB3.
3. Those students entering the Music (B.A.) program having taken only MUSIC

1CR3 for admission will be required to complete an additional three units of MUSIC 1CB3.

4. Students who begin in the Music (B.A.) program wishing to transfer to the Honours Music (B. Mus.), Honours Music Cognition (B. Mus.) or Combined Honours Music (B.A.) program should note that a successful audition and completion of Music I with a GPA of at least 5.0 are first required.

ADMISSION

Completion of a level I program with a Grade Point Average of at least 3.5, including a grade of at least C- in MUSIC 1E06 A/B or MUSIC 1EE6 A/B and a grade of at least C- in MUSIC 1CR3 or 1CB3 (*see Notes 2 and 3*).

COURSE LIST A

- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II
- MUSIC 1MH3
- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2B03 - Music History: Music in Western Culture from c. 1750 to the Present
- MUSIC 2CA3 - Theory and Analysis II
- MUSIC 2CB3 - Theory and Analysis III
- MUSIC 2CU3 - Music and Culture
- MUSIC 2E06 A/B - Solo Performance
- MUSIC 2EE6 A/B - Solo Performance
- MUSIC 2I13 - Popular Music in North America and the United Kingdom: Post-World War II
- MUSIC 2MH3 - Music History: Music in Western Culture from Antiquity to c. 1750
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 2MU3 - Introduction to Music Therapy Research
- MUSIC 2TT3 - Broadway and the Popular Song
- MUSIC 2U03 - Jazz
- MUSIC 3E03 - Solo Performance
- MUSIC 3E06 A/B - Solo Performance
- MUSIC 3EE3 - Solo Performance
- MUSIC 3EE6 A/B - Solo Performance
- MUSIC 4E03 - Solo Performance
- MUSIC 4E06 A/B - Solo Performance
- MUSIC 4EE3 - Solo Performance
- MUSIC 4EE6 A/B - Solo Performance

COURSE LIST B

- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir

THEATRE & FILM STUDIES (B.A.)

PROGRAMS IN THEATRE & FILM STUDIES

Theatre & Film Studies is a liberal arts program that integrates critical analysis with experiential learning. We study performance in a range of media, cultures, and historical periods. Students learn to critically engage with the processes of conception, design, production, and reception of theatre, film, performance art, video art, and with the performativity of our everyday lives. Our experiential learning courses use current devised theatre practices to engage students with performance through studio work and public productions. All our courses encourage students to adopt inventive and critical perspectives on creative processes and foster collaborative understandings of artistic creation.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in THTRFLM 1T03 or IARTS 1T03.

This program is being phased out. The final year students will be admitted is 2023/2024.

COURSE LIST 1

- THTRFLM 3AA3 - Modernist Drama and Theatre in Europe
- THTRFLM 3DD3 - Contemporary Canadian Drama and Theatre
- THTRFLM 3FF3 - Early Cinema History
- THTRFLM 3L03 - Cinema History from WWII
- THTRFLM 3M03
- THTRFLM 3P03 - Gender and Visual Culture
- THTRFLM 3QA3 - Documentary, Politics, and Social Change
- THTRFLM 3RR3 - 'Crippling' Performance: Deaf, Mad and Disabled Performance in Canada
- THTRFLM 3U03 - Pleasure and Critique in Dramatic Performance

COURSE LIST 2

- THTRFLM 3N03 - Artists' Alternative Film and Video
- THTRFLM 3OP6 A/B - Organizing the Performance Space
- THTRFLM 3PC3 - Performance and Community Engagement
- THTRFLM 3PR3 - Text-based Devising: Research and Development
- THTRFLM 3PS3 - Devising New Plays: Research and Development
- THTRFLM 3S03
- THTRFLM 3S06 - Major Production Workshop
- THTRFLM 3SD3 - Scripting the Devised Performance
- THTRFLM 3VS3 - Visual Storytelling
- THTRFLM 3WW3 - Acting and the Voice: Devising from Classical Texts
- THTRFLM 3XX3 - Acting and the Body: Devising Physical Theatre

COURSE LIST 3

- ART 3EA3 - Social Practice and Community-Engaged Art
- ARTHIST 2A03 - Visual Literacy
- ARTHIST 2R03 - The History of Fashion and Identity
- ARTHIST 2T03 - Art, Theatre and Music in the Enlightenment
- ARTHIST 3Q03 - Colours of the World
- CLASSICS 2E03 - The Ancient World in Film
- CLASSICS 2YY3 - Greek Tragedy
- CMST 2G03 - Performance and Performativity
- CMST 3WC3 - World Cinemas: Critical Media Approaches
- ENGLISH 2CR3 - Shakespeare: Comedies, Problem Plays, and Romances
- ENGLISH 2HT3 - Shakespeare: Histories and Tragedies
- ENGLISH 3CC3 - Reading Film
- GERMAN 2N03 - The Holocaust in Film and Fiction (Taught in English)
- GERMAN 2P03 - Modern Germany Through Film: Golden 20s - Avant

- Garde - Transnational Cinema (Taught in English)
- GERMAN 2Q03 - Horror Film: Vampires, Monsters, and Mad Scientists (Taught in English)
- GERMAN 2S03
- INDIGST 3EE3 - Indigenous Representations in Film
- INDIGST 3G03 - Indigenous Creative Arts and Drama: Selected Topics
- ITALIAN 3X03 - Italy Today Through Film (Taught in English)
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3C03 - Interactive and Spatial Audio
- MMEDIA 2G03
- MMEDIA 3C03
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2TT3 - Broadway and the Popular Song
- RUSSIAN 2G03 - Masterpieces of Russian Literature in Film and TV Series (Taught in English)
- RUSSIAN 2H03 - Soviet Propaganda in Films and Other Mass Media (Taught in English)
- THTRFLM 2J03
- THTRFLM 2JJ3
- THTRFLM 2Z03

REQUIREMENTS

Students who entered the Theatre & Film Studies (B.A.) program prior to September 2021 should refer to the Undergraduate Calendar of their entry year and their personal Advisement Report for program requirements.

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

6 UNITS

- THTRFLM 2CP3 - Culture and Performance
- THTRFLM 2FA3 - Film Analysis

6 UNITS

from

- THTRFLM 2AA3 - Acting as Devising
- THTRFLM 2BB3 - Designing as Devising
- THTRFLM 2DP3 - Devising Processes

3 UNITS

from

- Level II Theatre & Film courses or from *Course List 3*

12 UNITS

- Level III or IV Theatre & Film courses, including three units from *Course List 1*; three units from *Course List 2*

33 UNITS

- Electives

Bachelor of Fine Arts (Honours)

HONOURS IARTS (INTEGRATED ARTS) (B.F.A.)

ADMISSION

Completion of IARTS Level 1 and a Grade Point average of at least 5.0, with an average of at least 5.0 in IARTS 1RR3 and 1RP3, successful completion of IARTS 1PA3 and 1PB3, and successful completion of nine units from the following: IARTS 1HA3, IARTS 1SW3, IARTS 1CR3, IARTS 1T03, IARTS 1BD3, IARTS 1SS3.

120 units total

IARTS COURSE LISTS

IARTS INVESTIGATIONS COURSE LIST A

- IARTS 2AD3 - Acting as Devising I
- IARTS 2AS3 - Art and Visual Culture in South and East Asia
- IARTS 2CC3 - Performance Culture in Canada

- IARTS 2CD3 - Contemporary Approaches to Drawing Practices
- IARTS 2DE6 - Devised Performance Processes
- IARTS 2DP3 - Digital Practices
- IARTS 2EP3 - 3D and Expanded Practices
- IARTS 2ER3 - Environmentally Responsible Art
- IARTS 2FA3 - Film Analysis
- IARTS 2ME3 - Art and Visual Culture in the Middle East
- IARTS 2MP3 - Contemporary Approaches to Print Media Practices

21 UNITS

- Modules and Electives

HONOURS STUDIO ART (B.F.A.) (EFFECTIVE FOR STUDENTS WHO ENTERED 2022-2023 AND EARLIER)

ADMISSION

Completion of Studio Art 1 and a Grade Point Average of at least 5.0, with an average of at least 5.0 in ART 1DM3, 1MI3, 1OS3, 1SI3, and the successful completion of ARTHIST 1A03 and 1AA3.

The Honours Studio Art program is no longer admitting students. Final admission to the level II program was effective Fall 2022.

The School of the Arts is announcing a new BFA in iArts (Integrated Arts). This direct entry program launches in the fall of 2022, providing interdisciplinary skills in art, performance, histories of the arts, theory and research, grounded in social justice. Also, the B.A. in iArts (Integrated Arts) will be launched in the fall of 2023.

NOTES

1. Students enrolled in the Studio Art program must be committed to full-time study for the duration of the first two years of their degree. This program does not allow part-time enrolment.
2. Field trips may be taken in all levels of the program to natural and urban areas on campus and in Hamilton and surrounding areas.
3. Students in Honours Studio Art must complete ART 2DG3, 2IS3, 2PG3, 2PM3, 2SC3 before registering in Level III or IV Art courses.
4. Students wishing to obtain a Minor in Art History should note that six, and only six of Art History units required in the Honours Studio Art program may be counted toward the Minor of 24 units.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- Studio Art 1

15 UNITS

- ART 2DG3 - Contemporary Approaches to Drawing
- ART 2IS3 - Independent Studio Methods
- ART 2PG3 - Contemporary Approaches to Painting
- ART 2PM3 - Contemporary Approaches to Print Media
- ART 2SC3 - Contemporary Approaches to Sculpture

3 UNITS

from

- ART 2DP3 - Digital Practices
- ART 2ER3 - Environmentally Responsible Art
- ART 2Z03
- HTHSCI 3EE3 - Biomedical Graphics
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3C03 - Interactive and Spatial Audio
- MMEDIA 2G03
- MMEDIA 3C03

6 UNITS

from

- ART 2AT3 - Art Today
- Level II, III or IV Art History

9 UNITS

- ART 3D03 - Practical Issues
- ART 3GS3
- ART 3TS3
- ART 3GS6 A/B - Guided Studio Practice

9 UNITS

from

- ART 3BA3 - Concentrated Study - Book Arts
- ART 3CC3 - Concentrated Study - Ceramics

- Levels III or IV Art History

30 UNITS

- Electives

Bachelor of Music (Honours)

HONOURS MUSIC (B.MUS.)

Students who entered the Honours Music (B.Mus.) program prior to September 2018 should refer to the Undergraduate Calendar of their entry year and their individual advisement report for their program requirements.

ADMISSION

Completion of Music I and a Grade Point Average of at least 5.0.

PROGRAM NOTES

1. Completion of a Music degree requires considerable daytime attendance.
2. The courses appearing in *Course List 1* are specifically intended to prepare

students to attend a Faculty of Education for a career in school music teaching. Students interested in Music Education are advised to consult the Music Counsellor during their first year for advice on fulfilling the entrance requirements of Faculties of Education.

3. Students who intend to pursue graduate studies in music history or theory should select a significant number of the courses in *Course List 2*.
4. Students in the Honours B.Mus. program can only use a total of 12 units from *Course List 5* as credit toward their degrees.
5. Students who begin in the Music (B.A.) program wishing to transfer to the Honours Music (B. Mus.), Honours Music Cognition (B. Mus.) or Combined Honours Music (B.A.) programs should note that a successful audition and completion of Music I with a GPA of at least 5.0 are first required.

COURSE LIST 1

- HTHSCI 3MU3 - Music, Health, & the Community
- MUSIC 2CG3
- MUSIC 2MC3 - Psychology of Music
- MUSIC 2SI3 - Singing
- MUSIC 2WW3 A/B - Woodwinds

HONOURS MUSIC (B.MUS.) (MUSIC COGNITION)

Students who entered the Honours Music (B.Mus.) (Music Cognition) program prior to September 2018 should refer to the Undergraduate Calendar of their entry year and their individual advisement report for their program requirements.

ADMISSION

Enrolment in this program is limited. Admission requires, as a minimum, completion of Music I, a Grade Point Average of at least 5.0, and an average of at least 5.0 in PSYCH 1X03 (or 1F03) and PSYCH 1XX3 (or 1FF3).

PROGRAM NOTES

1. Completion of a Music degree requires considerable daytime attendance.
2. Students interested in this program must have completed Grade 12 Biology U, or enroll in BIOLOGY 1P03 in the first term of Level I, concurrently with PSYCH 1X03.
3. More advanced training in statistics is recommended for students in this program (especially if students plan to conduct independent research in the future), but is not required. Students wanting more advanced statistics training should take PNB 2XE3 and PNB 3XE3. For permission to take these courses, please see the Academic Advisor in the Department of Psychology, Neuroscience & Behaviour.
4. The courses appearing in *Course List 1* are specifically intended to prepare students to attend a Faculty of Education and for a career in school and music teaching. Students interested in Music Education are advised to consult the Music Counsellor during Level I for advice on fulfilling the entrance requirements of Faculties of Education.
5. Students who intend to pursue graduate studies in music history or theory or who wish to use the music degree as preparation for post-graduate studies in other professions should select a significant number of the courses in *Course List 2*.
6. Students in the Honours B.Mus. (Music Cognition) program can only use a total of 12 units from *Course List 5* as credit toward their degrees.
7. Although it is listed as an option, students are encouraged to complete MUSICCOG 4D06 A/B - Thesis in Music Cognition.
8. PSYCH 2E03 is recommended as preparation for MUSICCOG 4MP3.
9. Students who begin in the Music (B.A.) program wishing to transfer to the Honours Music (B. Mus.), Honours Music Cognition (B. Mus.) or Combined Honours Music (B.A.) program should note that a successful audition and completion of Music I with a GPA of at least 5.0 are first required.

- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II

REQUIREMENTS FOR STUDENTS WHO ENTERED 2018-2022

123 units total (Levels I to IV), of which 51 units may be Level I

33 UNITS

- Music 1

21 UNITS

- MUSIC 2B03 - Music History: Music in Western Culture from c. 1750 to the Present
- MUSIC 2CA3 - Theory and Analysis II
- MUSIC 2CB3 - Theory and Analysis III
- MUSIC 2DA3 - Practical Musicianship III
- MUSIC 2E06 A/B - Solo Performance
- MUSIC 2MH3 - Music History: Music in Western Culture from Antiquity to c. 1750

9 UNITS

from

- MUSICCOG 2MP3 - Introduction to Music Cognition (or MUSICCOG 2A03 or 2MA3)

- MUSICCOG 3MP3
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music (or one of MUSICCOG 3A03, 3MA3, or 4LA3)

3 UNITS

- SOCSCI 2J03 - Introduction to Statistics

3 UNITS

from

- PNB 2XA3 - Human Perception & Cognition
- PSYCH 2H03 - Human Learning and Cognition

6 UNITS

- MUSIC 3E06 A/B - Solo Performance

18 UNITS

from

- *Course List 1*
- *Course List 2*
- *Course List 3*
- *Course List 4*

3 UNITS

from

- *Course List 5*

3 UNITS

from

- PSYCH 2AA3 - Child Development
- PSYCH 2E03 - Sensory Processes
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Clinical Neuropsychology

6 UNITS

- MUSICCOG 4D06 A/B - Thesis in Music Cognition or
- 6 units from *Course List 6*

18 UNITS

- Electives, including no more than 6 units from *Course List 5*

REQUIREMENTS FOR STUDENTS AS OF FALL 2023

123 units total (Levels I to IV), of which 51 units may be Level I

33 UNITS

- Music 1

21 UNITS

- MUSIC 1AA3 - Introduction to the History of Music II
- MUSIC 2CA3 - Theory and Analysis II
- MUSIC 2CB3 - Theory and Analysis III
- MUSIC 2CU3 - Music and Culture
- MUSIC 2DA3 - Practical Musicianship III
- MUSIC 2E06 A/B - Solo Performance

9 UNITS

from

- MUSICCOG 2MP3 - Introduction to Music Cognition
- MUSICCOG 3MP3
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music

3 UNITS

- SOCSCI 2J03 - Introduction to Statistics

3 UNITS

from

- PNB 2XA3 - Human Perception & Cognition
- PSYCH 2H03 - Human Learning and Cognition

6 UNITS

- MUSIC 3E06 A/B - Solo Performance

18 UNITS

from

- *Course List 1*
- *Course List 2*

- *Course List 3*
- *Course List 4*

3 UNITS

from

- *Course List 5*

3 UNITS

from

- PSYCH 2AA3 - Child Development
- PSYCH 2E03 - Sensory Processes
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Clinical Neuropsychology

6 UNITS

- MUSICCOG 4D06 A/B - Thesis in Music Cognition or
- 6 units from *Course List 6*

18 UNITS

- Electives, including no more than 6 units from *Course List 5*

Diploma(s)

DIPLOMA IN MUSIC PERFORMANCE

The Diploma is intended to recognize a concentration and achievement in the area of music performance. **Students should contact the Academic Counsellor for Music in the School of the Arts for direction on completing the requirements.**

NOTES

- Lesson fees: Lesson fees are charged over and above tuition for MUSIC 2EE6 A/B, MUSIC 3EE6 A/B, MUSIC 3SS3, MUSIC 4EE9 A/B, and MUSIC 4SS3.
- MUSIC 4E09 A/B and MUSIC 4EE9 A/B must be taken over and above the total number of units required for a McMaster degree. Because these courses may not be used for credit towards any McMaster degree, students pursuing the Diploma must plan their work to accommodate nine extra units.
- Registration in MUSIC 4E09 A/B and MUSIC 4EE9 A/B requires permission of the School of the Arts. An overall Grade Point Average of at least 8.0 will be required for admission to these courses.

ADMISSION

Students should meet with the Academic Counsellor for Music in the School of the Arts as early as possible in their degree program, but no later than the April before MUSIC 4E09 A/B or MUSIC 4EE9 A/B has begun. However, the application for MUSIC 4E09 A/B or MUSIC 4EE9 A/B will be considered the formal application to be admitted to the diploma program, even though some of the requirements will have been completed in earlier years.

REQUIREMENTS

The Diploma will require completion of **24 units** as follows:

12 UNITS

- MUSIC 2E06 A/B - Solo Performance or
- MUSIC 2EE6 A/B - Solo Performance
- MUSIC 3E06 A/B - Solo Performance or
- MUSIC 3EE6 A/B - Solo Performance

3 UNITS

from

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra

- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 3SS3 - Special Studies in Chamber Music or Accompanying I
- MUSIC 4SS3 - Special Studies in Chamber Music or Accompanying II

9 UNITS

- MUSIC 4E09 A/B - Solo Performance, Diploma or
- MUSIC 4EE9 A/B - Solo Performance, Diploma

NOTE

The Diploma will be awarded at the fall convocation of the Centre for Continuing Education following the completion of all requirements.

Minor(s):**MINOR IN ART HISTORY**

The Art History program is being phased out. Students considering completion of a minor in Art History should be aware that final intake to the program is effective 2023/2024, and program courses are limited following this time.

REQUIREMENTS

- 24 units of Art History

MINOR IN MUSIC**REQUIREMENTS**

24 units of Music or Music Cognition subject to the prerequisites and qualifying tests specified in this Calendar. No more than nine units of the minor may be from Level I and no more than twelve units of the minor may be from

- MUSIC 1GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 1GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 1GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 1GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 1GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 1GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 1GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 2GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 2GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 2GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 2GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 2GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 2GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 2GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 3GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 3GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 3GC3 A/B - Ensemble Performance: McMaster University Choir
- MUSIC 3GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 3GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 3GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 3GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 3GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble
- MUSIC 4GA3 A/B - Ensemble Performance: Accompanying
- MUSIC 4GB3 A/B - Ensemble Performance: McMaster Concert Band
- MUSIC 4GC3 A/B - Ensemble Performance: McMaster University Choir

- MUSIC 4GF3 A/B - Ensemble Performance: David Gerry Flute Ensemble
- MUSIC 4GJ3 A/B - Ensemble Performance: McMaster Jazz Band
- MUSIC 4GP3 A/B - Ensemble Performance: McMaster Percussion Ensemble
- MUSIC 4GR3 A/B - Ensemble Performance: McMaster Symphony Orchestra
- MUSIC 4GW3 A/B - Ensemble Performance: McMaster Cantemus Vocal Ensemble

MINOR IN THEATRE & FILM STUDIES

The Theatre & Film Studies program is being phased out. Students considering completion of a minor in Theatre & Film Studies should be aware that final intake to the program is effective 2023/2024, and program courses are limited following this time.

REQUIREMENTS

- 24 units in Theatre & Film, including no more than 6 units of level 1; and up to 9 units from *Course List 3*

Department of Classics

<http://classics.humanities.mcmaster.ca/>

Faculty as of January 15, 2022

CHAIR

Martin Beckmann

PROFESSORS

Michele G. George/B.A. (Toronto), M.A., Ph.D. (McMaster)

ASSOCIATE PROFESSORS

Martin Beckmann/B.A. (Wilfrid Laurier), M.A. Ph.D. (McMaster)

Sean Corner/B.A., M.A. (Oxford), Ph.D. (Princeton)

Claude Eilers/B.A. (Saskatchewan), M.A. (McMaster), D.Phil. (Oxford)

Kathryn Mattison/B.A., Ph.D. (Toronto)

Spencer Pope/B.A. (Middlebury College), Ph.D. (Brown)

ASSISTANT PROFESSOR

Mariapia Pietropaolo/B.A., M.A., Ph.D. (Toronto)

NOTES

- Students in a Classics program may choose courses from the following subfields: Ancient History and Society, Ancient Philosophy, Classical Archaeology and Art History, Classical Literature in Translation, Greek Language and Literature, Latin Language and Literature.
- With the approval of the Department of Classics and the Office of the Dean of the Faculty of Humanities, students who have completed 60 units of work of any Honours program in Classics may replace all or part of their Level III work by courses of study at a university or equivalent institution abroad. Consult the Department for further details.
- Students may receive up to six units of credit for archaeological field work at an approved Classical site. Consult the Department for further details.
- Students are encouraged to include at least six units of Greek or Latin in their program. GREEK 1Z03, 1ZZ3 and LATIN 1Z03, 1ZZ3, if not completed in the Level I program, may be taken to fulfill the degree requirements. Students intending to do graduate work in the field of Classics should note that most universities offering such programs require several years of undergraduate work in both Greek and Latin for admission. These students are strongly encouraged to include Greek and Latin courses as early as possible in their program.
- Students intending to do graduate work in the field of Classics may wish to include an independent study course (CLASSICS 4T03 A/B S) in the final level of their program.

For the Honours Arts & Science and Classics program (B.Arts.Sc.), see *Arts & Science Program*.

INTERDISCIPLINARY MINOR IN ARCHAEOLOGY

See the *Interdisciplinary Minors and Thematic Areas* section of this Calendar.

Bachelor of Arts (Honours)**COMBINED HONOURS IN CLASSICS AND ANOTHER SUBJECT (B.A.)****ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Classics, Greek or Latin courses. (Students with Grade 12 Greek U may substitute three units of Level II Greek; students with Grade 12 Latin U may substitute three units of Level II Latin.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission into the program

12 UNITS

- Level II Classics, Greek, Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy

9 UNITS

- Level III Classics, Greek, Latin (may include Level II Greek or Latin)
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

6 UNITS

- Level IV Classics, Level III or IV Greek, Level III or IV Latin
- PHILOS 4K03 - Seminar in Ancient Philosophy

9 UNITS

- Levels II, III, IV Classics, Greek or Latin
- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle
- PHILOS 4K03 - Seminar in Ancient Philosophy

36 UNITS

- Courses specified for the other subject (Combinations with Social Sciences may require more than 36 units.)

18 UNITS

- Electives to total 120 units

HONOURS CLASSICS (B.A.)**ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Classics, Greek or Latin. (Students with Grade 12 Greek U may substitute three units of Level II Greek; students with Grade 12 Latin U may substitute three units of Level II Latin.)

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

15 UNITS

- Level II Classics, Greek, Latin (may include Level I Greek or Latin)
- PHILOS 2P03 - Ancient Greek Philosophy

12 UNITS

- Level III Classics, Greek, Latin (may include Level II Greek or Latin)
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

6 UNITS

- Level IV Classics, Level III or IV Greek, Level III or Level IV Latin

- PHILOS 4K03 - Seminar in Ancient Philosophy

15 UNITS

- Levels II, III, IV Classics, Greek or Latin
- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 3XX3 - Plato
- PHILOS 3ZZ3 - Aristotle

Bachelor of Arts (Honours)

COMBINED HONOURS IN COMMUNICATION STUDIES AND ANOTHER SUBJECT (B.A.)

Communication Studies is an academic discipline that encompasses many fields of inquiry. Graduates of this program will have an advanced knowledge of the nature, function and evolution of communication and will develop both practical and theoretical skills necessary to pursue careers in the field of communications.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in CMST 1A03.

NOTES

- Because MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) is required for admission into the Honours Media Arts program, students registered in the Combined Honours Communication Studies and Media

Arts program will substitute three units elective for MEDIAART 1A03 (or MMEDIA 1A03, if taken previously).

- Students are required to take CMST 2RA3, 2TM6 and MEDIAART 1A03 by the end of Level II.
- Students are required to take CMST 3HC3 by the end of Level III.
- Students wishing to take more than the required three units of Level IV Communication Studies courses must first obtain permission from the undergraduate advisor for the Communication Studies program.
- Students transferring into the program at Level IV should not expect to complete all of the degree requirements in one year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

12 UNITS

(must be completed by the end of Level II) (See *Note 2* above)

- CMST 2RA3 - Application in Communication Theory and Methods
- CMST 2TM6 - Foundations in Communication Theory and Methods
- MEDIAART 1A03 - Media Arts (or MMEDIA 1A03)

3 UNITS

(must be completed by the end of Level III) (See *Note 3* above)

- CMST 3HC3 - History of Communication

15 UNITS

from the following courses (of which 9 units must be from Level III):

- **Level II and III Communication Studies**

or any of the following:

- ARTHIST 2A03 - Visual Literacy
- GENDRST 3BB3 - Gender and Visual Culture
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 3P03 - Pragmatics
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3BB3 - New Media Art Practices
- MEDIAART 3MU3 - Musics, Technologies and Audio Cultures
- MMEDIA 2G03
- MMEDIA 3BB3
- MMEDIA 3MU3
- MUSIC 2A03 - Music of the World's Cultures
- MUSIC 2F03 - Music for Film and Television
- MUSIC 2I13 - Popular Music in North America and the United Kingdom: Post-World War II
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 3E03 - Philosophy of Language
- PHILOS 3M03
- RUSSIAN 2H03 - Soviet Propaganda in Films and Other Mass Media (Taught in English)
- THTRFLM 3M03
- THTRFLM 3N03 - Artists' Alternative Film and Video
- WOMENST 3BB3

3 UNITS

from

- Levels II or III Communication Studies
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3B03 - Digital Cultures
- MEDIAART 3BB3 - New Media Art Practices
- MEDIAART 3K03 - Game Studies
- MEDIAART 3MU3 - Musics, Technologies and Audio Cultures
- MMEDIA 2G03
- MMEDIA 3B03

- MMEDIA 3BB3
- MMEDIA 3K03
- MMEDIA 3MU3

3 UNITS

- Level IV Communication Studies

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 UNITS

- electives to total 120 units

COMBINED HONOURS IN MEDIA ARTS AND ANOTHER SUBJECT (B.A.)

MEDIA ARTS

<http://csmm.humanities.mcmaster.ca/>

Offered as a Single or Combined Honours program, Media Arts is a production-oriented program uniting new media with traditional arts and humanities subjects. Through experiential learning, students in the program will engage with the creative, theoretical and critical aspects of digital media production and develop both the practical and conceptual skills necessary to pursue careers in Media Arts.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement in MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) but requires, as a minimum, completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in MEDIAART 1A03 (or MMEDIA 1A03, if taken previously). (See *Notes* below.)

NOTES

- **Applicants must have completed any Level I program including the course MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) by April of the year in which application is made.** Decisions regarding admission into the Media Arts program are made in May when final grades for the previous Fall and Winter terms are known.
- **Application for this program must be made during the program/plan selection process at the end of the Winter term.** Please see *Application to Level II Programs* under Academic Regulations in this section of the Calendar for information with regard to the application procedure. Serious applicants are advised to rank the Media Arts program as their first program of choice for Level II.
- Students entering Media Arts should be aware that, due to course sequencing and prerequisites, it takes a minimum of **THREE** years beyond Level I to complete program requirements.

Students must register for the following required Media Arts courses in the following sequence:

LEVEL II:

The following courses must be completed by the end of level II:

- MEDIAART 2A06 - Design & Code
- MEDIAART 2B06 - Time-Based Media
- MEDIAART 2G03 - Digital Audio

LEVEL III:

- MEDIAART 3X03 A/B - Presentation and Critique
- 9 additional units of Level III Media Arts

LEVEL IV:

- MEDIAART 4ST6 A/B - Senior Thesis Research and Production

COURSE LIST 1

- ART 3IP3
- ART 3PB3
- MEDIAART 3AN3 - Animation

- MEDIAART 3C03 - Interactive and Spatial Audio
- MEDIAART 3DS3 - Documentary Strategies
- MEDIAART 3EE3 - Graphic Design
- MEDIAART 3EW3 - Environmental and Wildlife Photography
- MEDIAART 3H03
- MEDIAART 3I03 - Narrative Strategies
- MEDIAART 3L03 - Game Design
- MEDIAART 3PC3 - Photographic Collage and Composite Images
- MEDIAART 3Q03
- MEDIAART 3S03 - Sound and Image
- MEDIAART 3VA3 - Video Art and Digital Cinema
- MEDIAART 4F03 - Topics in Media Arts Production
- MMEDIA 3AN3
- MMEDIA 3C03
- MMEDIA 3EE3
- MMEDIA 3H03
- MMEDIA 3I03
- MMEDIA 3L03
- MMEDIA 3P03
- MMEDIA 3PC3
- MMEDIA 3Q03
- MMEDIA 3S03
- MMEDIA 3VA3
- MMEDIA 4F03

COURSE LIST 2

- CMST 3B03 A/B S - Practical Aspects of Media Production
- CMST 3Z03 - Mobile Practices, Technologies and Art
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- MEDIAART 3B03 - Digital Cultures
- MEDIAART 3BB3 - New Media Art Practices
- MEDIAART 3K03 - Game Studies
- MEDIAART 3MU3 - Musics, Technologies and Audio Cultures
- MMEDIA 3A03
- MMEDIA 3B03
- MMEDIA 3BB3
- MMEDIA 3K03
- MMEDIA 3MU3
- THTRFLM 3S06 - Major Production Workshop
- THTRFLM 2BB3 - Designing as Devising
- THTRFLM 3OP6 A/B - Organizing the Performance Space
- THTRFLM 3PR3 - Text-based Devising: Research and Development
- THTRFLM 3PS3 - Devising New Plays: Research and Development

REQUIREMENTS

Students who entered the Combined Honours Multimedia (B.A.) program prior to September 2021 should refer to the 2020-21 Undergraduate Calendar and their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

24 UNITS

- MEDIAART 2A06 - Design & Code
- MEDIAART 2B06 - Time-Based Media
- MEDIAART 2G03 - Digital Audio
- MEDIAART 3X03 A/B - Presentation and Critique
- MEDIAART 4ST6 A/B - Senior Thesis Research and Production

3 UNITS

from

- MEDIAART 3B03 - Digital Cultures

- MEDIAART 3BB3 - New Media Art Practices

12 UNITS

from

- *Course Lists 1 and 2*

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

15 UNITS

- electives, excluding Media Arts *Course List 1*, to total 120 units

HONOURS COMMUNICATION STUDIES (B.A.)

Communication Studies is an academic discipline that encompasses many fields of inquiry. Graduates of this program will have an advanced knowledge of the nature, function and evolution of communication, and will develop both practical and theoretical skills necessary to pursue careers in the field of communications.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in CMST 1A03.

NOTES

- Students are required to take CMST 2RA3, 2TM6 and MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) by the end of Level II.
- Students are required to take CMST 3HC3 by the end of Level III.
- Students wishing to take more than the required six units of Level IV Communication Studies courses must first obtain permission from the undergraduate advisor for the Communication Studies program.
- Students transferring into the program at Level IV should not expect to complete all of the degree requirements in one year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

12 UNITS

(must be completed by the end of Level II) (*See Note 1 above*)

- CMST 2RA3 - Application in Communication Theory and Methods
- CMST 2TM6 - Foundations in Communication Theory and Methods
- MEDIAART 1A03 - Media Arts (or MMEDIA 1A03)

3 UNITS

(must be completed by the end of Level III) (*See Note 2 above*)

- CMST 3HC3 - History of Communication

30 UNITS

from the following courses, of which 12 units must be Level III

- **Level II and III Communication Studies**

or any of the following:

- ARTHIST 2A03 - Visual Literacy
- GENDRST 3BB3 - Gender and Visual Culture
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 3P03 - Pragmatics

HONOURS COMMUNICATION STUDIES WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

HONOURS MEDIA ARTS (B.A.)**MEDIA ARTS**

<http://csmm.humanities.mcmaster.ca/>

Offered as a Single or Combined Honours program, Media Arts is a production-oriented program uniting new media with traditional arts and humanities subjects. Through experiential learning, students in the program will engage with the creative, theoretical and critical aspects of digital media production and develop both the practical and conceptual skills necessary to pursue careers in Media Arts.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement in MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) but requires, as a minimum, completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in MEDIAART 1A03 (or MMEDIA 1A03, if taken previously). (See *Notes* below.)

NOTES

- **Applicants must have completed any Level I program including the course MEDIAART 1A03 (or MMEDIA 1A03, if taken previously) by April of the year in which application is made.** Decisions regarding admission into the Media Arts program are made in May when final grades for the previous Fall and Winter terms are known.
- **Application for this program must be made during the program/plan selection process at the end of the Winter term.** Please see

Application to Level II Programs under Academic Regulations in this section of the Calendar for information with regard to the application procedure. Serious applicants are advised to rank the Media Arts program as their first program of choice for Level II.

- Students entering Media Arts should be aware that, due to course sequencing and prerequisites, it takes a minimum of **THREE** years beyond Level I to complete program requirements. Students must register for the following required Media Arts courses in the following sequence:

LEVEL II:

The following courses must be completed by the end of level II:

- MEDIAART 2A06 - Design & Code
- MEDIAART 2B06 - Time-Based Media
- MEDIAART 2G03 - Digital Audio

LEVEL III:

- MEDIAART 3X03 A/B - Presentation and Critique
- 12 additional units of Level III Media Arts

LEVEL IV:

- MEDIAART 4ST6 A/B - Senior Thesis Research and Production

COURSE LIST 1

- MEDIAART 3AN3 - Animation
- ART 3IP3
- ART 3PB3
- MEDIAART 3C03 - Interactive and Spatial Audio
- MEDIAART 3DS3 - Documentary Strategies
- MEDIAART 3EE3 - Graphic Design
- MEDIAART 3EW3 - Environmental and Wildlife Photography
- MEDIAART 3H03
- MEDIAART 3I03 - Narrative Strategies
- MEDIAART 3L03 - Game Design
- MEDIAART 3PC3 - Photographic Collage and Composite Images
- MEDIAART 3Q03
- MEDIAART 3S03 - Sound and Image
- MEDIAART 3VA3 - Video Art and Digital Cinema
- MEDIAART 4F03 - Topics in Media Arts Production
- MMEDIA 3AN3
- MMEDIA 3C03
- MMEDIA 3EE3
- MMEDIA 3H03
- MMEDIA 3I03
- MMEDIA 3L03
- MMEDIA 3P03
- MMEDIA 3PC3
- MMEDIA 3Q03
- MMEDIA 3S03
- MMEDIA 3VA3
- MMEDIA 4F03

COURSE LIST 2

- CMST 3B03 A/B S - Practical Aspects of Media Production
- CMST 3Z03 - Mobile Practices, Technologies and Art
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- MEDIAART 3K03 - Game Studies
- MEDIAART 3MU3 - Musics, Technologies and Audio Cultures
- MMEDIA 3A03
- MMEDIA 3K03
- MMEDIA 3MU3
- THTRFLM 2BB3 - Designing as Devising
- THTRFLM 3OP6 A/B - Organizing the Performance Space
- THTRFLM 3PR3 - Text-based Devising: Research and Development
- THTRFLM 3PS3 - Devising New Plays: Research and Development

- THTRFLM 3S06 - Major Production Workshop

REQUIREMENTS

Students who entered the Honours Multimedia (B.A.) program prior to September 2021 should refer to the 2020-21 Undergraduate Calendar and their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

30 UNITS

- MEDIAART 2A06 - Design & Code

PROFESSORS

Sarah Brophy/B.A. (*Wilfrid Laurier*), M.A., Ph.D. (*McMaster*)

Chandrima Chakraborty/B.A. (*Calcutta*), M.A., M.Phil. (*Jawaharlal Nehru*), Ph.D. (*York*)

David L. Clark/B.A., M.A., Ph.D. (*Western Ontario*)

Daniel Coleman/B.Ed., M.A. (*Regina*), Ph.D. (*Alberta*)

Jeffery Donaldson/B.A., M.A., Ph.D. (*Toronto*)

Henry Giroux/B.S. (*Maine*), M.A. (*Appalachian State*), D. Arts (*Carnegie-Mellon*), Chair for Scholarship in the Public Interest

Susan Searls Giroux/B.A., M.A.T. (*Miami-Oxford, Ohio*), Ph.D. (*Pennsylvania State*)

Melinda Gough/B.A. (*McGill*), M.A., Ph.D. (*Yale*)

James King/B.A. (*Toronto*), M.A., Ph.D. (*Princeton*), F.R.S.C.

Susie O'Brien/B.A. (*Queen's*), M.A. (*Queensland*), Ph.D. (*Queen's*)

Mary Silcox/B.A. (*Western Ontario*), M.A., Ph.D. (*Queen's*)

Peter Walmsley/B.A., M.A. (*Toronto*), Ph.D. (*Cambridge*)

ASSOCIATE PROFESSORS

Ronald Cummings/B.A. (*West Indies*), M.A. (*Hull*), Ph.D. (*Leeds*)

Amber Dean/B.A. (Alberta), M.A. (Simon Fraser), Ph.D. (Alberta)

Catherine Grisé/B.A. (Trent), M.A., Ph.D. (Western Ontario)

Roger L. Hyman/B.A. (York), M.A., Ph.D. (Toronto)

Grace Kehler/B.A. (Regina), M.A., Ph.D. (Western Ontario)

Rick Monture/B.A., M.A., Ph.D. (McMaster)

Renae Watchman/B.A., M.A. (Arizona State), Ph.D. (Stanford)

Eugenia Zuroski/B.A. (Columbia), M.A., Ph.D. (Brown)

ASSISTANT PROFESSORS

Kaitlin Debicki/B.A. (McMaster), M.A. (York), Ph.D. (McMaster)

For the Honours Arts & Science and English and Cultural Studies program
(B.Arts.Sc.; See *Arts & Science Program*)

Bachelor of Arts (Honours)

COMBINED HONOURS IN ENGLISH AND CULTURAL STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I English.

NOTES

- When registering, students should distribute their required English courses (See *Requirements* below) as follows:
- Level II: 12 units of Level II English
- Level III: 12 units of Levels II and/or III English
- Level IV: 6 units of Levels II and/or III English; 6 units of Level IV English seminars

(No student may take more than six units of Level IV seminars.)

- Students who are interested in taking ENGLISH 4X03 should contact the faculty member chairing the ENGLISH 4X03 committee early in the first term of Level IV.
- With permission of the Department, students may enrol in ENGLISH 4Y06 A/B S, 4Y03 and/or 4YY3 in Level IV. Invitations to apply for ENGLISH 4Y06 A/B, 4Y03 and 4YY3 will be circulated to students in the second term of Level III. Students may complete a maximum of 6 units of practicum coursework toward their degree requirements.
- Most graduate programs in English require proficiency in a second language. Students who plan to pursue graduate studies in English are strongly encouraged to include in their program a second language beyond the introductory level.
- ENGLISH 3CR3 and 4CC3 are restricted to students accepted to the Concurrent Certificate in Creative Writing and Narrative Arts (CWNA) and may not be taken for credit towards an English and Cultural Studies program.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

6 UNITS

- ENGLISH 2RW6 A/B - Reading and Writing Criticism

- Level IV English seminars (*excluding ENGLISH 4CC3, 4Y03, 4YY3, 4Y06 A/B S*)

36 UNITS

- electives

HONOURS ENGLISH AND CULTURAL STUDIES AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I English; and successful completion of one of MATH 1A03, 1LS3 or 1X03 and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (*see Note 6 below*).

NOTES

- When registering, students should distribute their required English courses (See *Requirements* below) as follows:
- Level II: 12 units of Level II English
- Level III: 12 units of Levels II and/or III English
- Level IV: 6 units of Levels II and/or III English; 6 units of Level IV English seminars

(No student may take more than six units of Level IV seminars.)

- MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
- Students who are interested in taking ENGLISH 4X03 should contact the faculty member chairing the ENGLISH 4X03 committee early in the first term of Level IV.
- With permission of the Department, students may enrol in ENGLISH 4Y06 A/B, 4Y03 and/or 4YY3 in Level IV. Invitations to apply for ENGLISH 4Y06 A/B, 4Y03 and 4YY3 will be circulated to students in the second term of Level III. Students may complete a maximum of 6 units of practicum coursework toward their degree requirements.
- Most graduate programs in English require proficiency in a second language. Students who plan to pursue graduate studies in English are strongly encouraged to include in their program a second language

beyond the introductory level.

- While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.
- ENGLISH 3CR3 and 4CC3 are restricted to students accepted to the *Concurrent Certificate in Creative Writing and Narrative Arts (CWNA)* and may not be taken for credit towards an English and Cultural Studies program.

The Department of French has an overall theme of *francophonie* (the French-speaking world) and Diversity. This theme is reflected in the three areas of study in the following table which serves to give an overview of courses available in each area of concentration. Students are not expected to specialize officially in any one area.

Area	Courses
Translation, Literary Theory, Culture and Pedagogy	FRENCH 2G03, 2L03, 3CC3, 3GG3, 3P03, 3V03, 4CC3, 4P06 A/B
Francophone Literatures and Cultures of Quebec and Canada, of Africa, Asia and the Caribbean	FRENCH 2AC3, 2E03, 3AA3, 3AC3, 3FF3, 3HH3, 4LL3, 4U03
Franco-European Literatures and Cultures	FRENCH 2F03, 2JJ3, 3EE3, 3KK3, 3Q03, 3W03, 4I03, 4MM3, 4Y03

Language courses taught in the Department of French adhere to the *Common European Framework of Reference for Languages*, which focuses on oral and written comprehension and production through task-based learning. For the Honours Arts & Science and French program (B.Arts.Sc.), see *Arts & Science Program*

Bachelor of Arts (Honours)

COMBINED HONOURS IN FRENCH AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B.

NOTE

Upon completion of 60 units of work (including 12 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, up to 15 units of Level III French may be replaced by courses of study at a French-language university.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

12 UNITS

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice III
- FRENCH 4A03 - French Language Practice IV

9 UNITS

- Level II French

9 UNITS

- Level III French

6 UNITS

- Level IV French

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 UNITS

- Electives to total 120 units

HONOURS FRENCH (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B.

NOTES

- Upon completion of 60 units of work (including 18 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, Level III of Honours French may be replaced by courses of study at a French-language university.

REQUIREMENTS

Students who entered the Honours French (B.A.) program prior to September 2021 should refer to the 2020-21 Undergraduate Calendar and their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

12 UNITS

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice III
- FRENCH 4A03 - French Language Practice IV

15 UNITS

- Level II French

15 UNITS

- Level III French

9 UNITS

- Level IV French

39 UNITS

- Electives

HONOURS FRENCH AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in FRENCH 1A06 A/B or 2M06 A/B; and successful completion of one of MATH 1A03, 1LS3 or 1X03 and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (see Note 3 below).

NOTES

- Upon completion of 60 units of work (including 12 units of required Level II French courses), and with the approval of the Department of French and the Office of the Dean of the Faculty of Humanities, up to 15 units of Level III French may be replaced by courses of study at a French-language university.
- MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
- While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the French Level I program completed prior to admission into the program

12 UNITS

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice III
- FRENCH 4A03 - French Language Practice IV

9 UNITS

- Level II French

9 UNITS

- Level III French

6 UNITS

- Level IV French

3 UNITS

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

3 UNITS

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

6 UNITS

- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 UNITS

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 UNITS

from

- MATH 3A03 - Real Analysis I or
- MATH 3IA3 - Introduction to Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra

- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 UNITS

- Levels II-IV Mathematics or Statistics which must include at least 6 units at Levels III or IV

18-21 UNITS

- Electives to total 120 units

HONOURS FRENCH WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroot School of Business.

Bachelor of Arts

FRENCH (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in FRENCH 1A06 A/B or FRENCH 2M06 A/B.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

- from the Level I program completed prior to admission into the program

9 UNITS

- FRENCH 2B03 - French Language Practice I
- FRENCH 2BB3 - French Language Practice II
- FRENCH 3C03 - French Language Practice III

12 UNITS

- Level II French

15 UNITS

- Level III French

24 UNITS

- Electives

COMBINED HONOURS IN GLOBAL PEACE AND SOCIAL JUSTICE AND ANOTHER SUBJECT (B.A.)

Global Peace and Social Justice is an interdisciplinary program where students investigate systems of social inequity and injustice at the local, national, and global levels. Students in the program develop research skills and practical knowledge to understand the root causes and perpetuation of social conflict, violence, and oppression in politics and culture. They learn strategies for reimagining and making transformative change in order to build peaceful, equitable, and just communities. The program offers many opportunities for community-based learning through our experiential learning courses and public-engagement events.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in PEACEST 1A03, PEACJUST 1A03, PEACJUST 1VM3, GENDRST 1A03, WOMENST 1A03 or, if not taken, three units acceptable to the Global Peace and Social Justice program.

NOTES

- It is possible, but not necessary, to emphasize particular areas or sample from our thematically structured lists. These include: Course List 1: Health & Environment; Course List 2: Human Rights; Course List 3: Race, Gender & Sexuality; Course List 4: Social Activism.
- Students must be aware that some courses in the Course Lists have their own disciplinary prerequisites. Given the multidisciplinary nature of the Global Peace and Social Justice Program, with its different approaches and expectations, it is the responsibility of students in the Global Peace and Social Justice Program to meet other Faculties', departments' and programs' requirements.

COURSE LISTS**COURSE LIST 1: HEALTH & ENVIRONMENT**

- ENGLISH 2Z03 - Nature, Literature, Culture: Introduction to the Environmental Humanities
- ENGLISH 3NH3 - Narratives of Health

COMBINED HONOURS IN PEACE STUDIES AND ANOTHER SUBJECT (B.A.)

The following outlines requirements for those students who entered the Combined Honours Peace Studies (B.A.) program prior to Fall 2021. Students entering as of September 2021 should refer to the Combined Honours in Global Peace and Social Justice program.

Peace Studies is an interdisciplinary program where students investigate systems of social inequity and injustice at the local, national and global levels. Students in the program develop research skills and practical knowledge to understand the root causes and perpetuation of social conflict, violence, and oppression in politics and culture. They learn strategies for reimagining and making transformative change in order to build peaceful, equitable, and just communities. The program offers many opportunities for community-based learning through our experiential learning courses and public-engagement events.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in PEACEST 1A03 or, if not taken, three units acceptable to the Peace Studies program. Students who have not completed PEACEST 1A03 should contact the Director of the Global Peace and Social Justice Program.

NOTE

- Students must be aware that some courses in the Course Lists have their own disciplinary prerequisites. Given the multidisciplinary nature of the Peace Studies Program, with its different approaches and expectations, it is the responsibility of students in the Peace Studies Program to meet other Faculties', departments' and programs' requirements.

Faculty as of January 15, 2022

CHAIR

Stephen Heathorn

DISTINGUISHED UNIVERSITY PROFESSOR

John C. Weaver/B.A. (*Queen's*), M.A., Ph.D. (*Duke*)

PROFESSORS

Kenneth Cruikshank/B.A. (*Carleton*), M.A., Ph.D. (*York*)

Juanita De Barros/B.A. (*Toronto*), M.A., Ph.D. (*York*)

J. Michael Gauvreau/B.A. (*Laurentian*), M.A., Ph.D. (*Toronto*)

Stephen Heathorn/B.A. (*Toronto*), M.A. (*McMaster*), Ph.D. (*Toronto*)

Bonny Ibhawoh/B.A. (*Bendel*), M.A. (*Ibadan*), Ph.D. (*Dalhousie*)

Ian McKay/B.A. (*Dalhousie*), M.A. (*Warwick*), Ph.D. (*Dalhousie*), L.R. Wilson
Professor in Canadian History

Alison McQueen/B.A. (*McGill*), M.A., Ph.D. (*Pittsburgh*)

Pamela Swett/A.B. (*Bryn Mawr*), M.A., Ph.D. (*Brown*)

Ingrid Waldron/B.A. (*McGill*), M.A. (*University of London*), Ph.D. (*Toronto*),
Hope Chair in Peace and Health

ASSOCIATE PROFESSORS

Megan Armstrong/B.A. (*Toronto*), M.A. (*Queen's*), Ph.D. (*Toronto*)

Karen Balcom/B.A. (*Carleton*), M.A. (*Dalhousie*), Ph.D. (*Rutgers*)

Allan Downey/B.A. (*Mercyhurst University*), MA, PhD (*Wilfrid Laurier*)

Michael Egan/B.A., M.A. (*Simon Fraser*), Ph.D. (*Washington State*)

Martin Horn/B.A. (*Western Ontario*), M.A. (*McMaster*), Ph.D. (*Toronto*)

Tracy McDonald/B.A., M.A., Ph.D. (*Toronto*)

Jaeyoon Song/B.A., M.A. (*Korea*), Ph.D. (*Harvard*)

Stephen Streeter/B.S. (*Bates*), M.A. (*SUNY-Stonybrook*), M.A. (*California-Riverside*), Ph.D. (*Connecticut*)

ADJUNCT ASSISTANT PROFESSORS

Andrew Bone/(*Bertrand Russell Editorial Project*), B.A. (*Birmingham*), M.A.,
Ph.D. (*McMaster*)

Max Dagenais/ B.A. (*Concordia*), M.A., Ph.D. (*Ottawa*)

Myron Groover/M.A. (*Aberdeen*), M.A.S., M.L.I.S. (*British Columbia*)

ASSOCIATE MEMBERS

David Goutor/(*Labour Studies*) B.A., M.A., Ph.D. (*Toronto*)

Mat Savelli/(*Health, Aging, and Society*), B.A. (*McMaster*), M.Sc. (*Oxford*),
D.Phil. (*Oxford*)

For students who entered a History program as of 2019-2020, the Department has defined two course lists that define areas of study. Course Lists A and B apply to Level II-III courses.

Historical experiences are vast and varied across time periods, nations and identity groups. The Department of History recommends that students take courses that reflect the diverse experiences of different peoples in various time periods and geographical locations. As part of the Truth and Reconciliation process in Canada, the department also strongly recommends that students take courses that focus in whole or in part on the experiences of Indigenous peoples.

Students should consult the *Program Notes* for their specific program to determine the requirements regarding these course lists:

COURSE LIST A: CANADA

- HISTORY 2SH3 - Canadian Sport History
- HISTORY 2T03 - Survey of Canadian History, Beginnings to 1885
- HISTORY 2TT3 - Survey of Canadian History, 1885 to the Present
- HISTORY 2V03 - Re-Making History
- HISTORY 3AR3 - Atlantic Revolutions, 1750-1804

- HISTORY 3CG3 - Canadians in a Global Age, 1914 to the Present
- HISTORY 3CW3 - Canada in a World of Empires, 1492-1919
- HISTORY 3HQ3 - History of Quebec
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920

COURSE LIST B: CARIBBEAN, LATIN AMERICA, ASIA, AFRICA, MIDDLE EAST, BRAZIL, EUR-ASIA

- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2CS3 - Caribbean Slavery in the Atlantic World
- HISTORY 2EN3 - Caribbean History
- HISTORY 2G03 - Modern Latin America Since 1820
- HISTORY 2GW3 - A History of Global War
- HISTORY 2HH3 - Pirates, Pilgrims and Slaves in the Mediterranean, 1450-1750
- HISTORY 2IC3
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- HISTORY 2MC3 - Modern China
- HISTORY 2Q03 - Imperial Russia
- HISTORY 2QQ3 - The Soviet Union
- HISTORY 3AR3 - Atlantic Revolutions, 1750-1804
- HISTORY 3EC3 - Chinese Intellectual Traditions
- HISTORY 3GH3
- HISTORY 3KK3 - The Vietnam War
- HISTORY 3RU3 - Early Modern Russia

For students in program prior to 2019-2020, the Department has defined six course lists that define areas of study. Course Lists 1 to 4 apply to Level II courses, and Course Lists 5 and 6 apply to Level III courses. Students should consult the *Program Notes* for their specific program to determine the requirements regarding these course lists:

COURSE LIST 1: EUROPE (INCLUDING BRITAIN)

- CLASSICS 2HA3 - Athens and Sparta: Democracy, Oligarchy, and War
- CLASSICS 2HB3 - From Alexander to Cleopatra: Cosmopolis and Empire
- CLASSICS 2HC3 - Caesar and the Rise of Autocracy
- CLASSICS 2HD3 - Nero, Decadence, and the End of a Dynasty
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3
- CLASSICS 2LB3
- CLASSICS 2LC3
- CLASSICS 2LD3
- CLASSICS 2LW3 - Ancient Law
- HISTORY 2CC3 - The Medieval World 400-1050
- HISTORY 2DD3 - The Medieval World 1050-1400
- HISTORY 2DF3 - Art and Revolutions in France, 1789-1914
- HISTORY 2F03
- HISTORY 2HH3 - Pirates, Pilgrims and Slaves in the Mediterranean, 1450-1750
- HISTORY 2H03 - Tudor and Stuart Britain, 1485-1714
- HISTORY 2II3 - Modern Germany
- HISTORY 2KK3 - History of Capitalism
- HISTORY 2MM3
- HISTORY 2NN3
- HISTORY 2Q03 - Imperial Russia
- HISTORY 2QQ3 - The Soviet Union
- HISTORY 2SS3 - Liberty, Empire and Industry: Britain, 1688-1867
- HISTORY 2ST3 - Empire, War, Welfare State: 1867-2020

COURSE LIST 2: ASIA, AFRICA, MIDDLE EAST

- HISTORY 2A03 - Modern Middle Eastern Societies
- HISTORY 2BI3
- HISTORY 2HH3 - Pirates, Pilgrims and Slaves in the Mediterranean,

1450-1750

- HISTORY 2IC3
- HISTORY 2J03 - Africa up to 1800
- HISTORY 2JJ3 - Africa since 1800
- HISTORY 2MC3 - Modern China

COURSE LIST 3: THE AMERICAS

- HISTORY 2CS3 - Caribbean Slavery in the Atlantic World
- HISTORY 2EN3 - Caribbean History
- HISTORY 2G03 - Modern Latin America Since 1820
- HISTORY 2IS3 - Historical Roots of Current Social and Political Crises in the United States
- HISTORY 2PP3 - Making History
- HISTORY 2R03 - U.S. History to the Civil War
- HISTORY 2RR3 - U.S. History Since the Civil War
- HISTORY 2SH3 - Canadian Sport History
- HISTORY 2T03 - Survey of Canadian History, Beginnings to 1885
- HISTORY 2TT3 - Survey of Canadian History, 1885 to the Present
- HISTORY 2UV3 - American Foreign Relations since 1898
- HISTORY 2V03 - Re-Making History

COURSE LIST 4: GLOBAL HISTORY

- HISTORY 2EE3 - Science and Technology in World History
- HISTORY 2GW3 - A History of Global War
- HISTORY 2KK3 - History of Capitalism
- HISTORY 2NS3
- HISTORY 2S03
- HISTORY 2U03
- HISTORY 2UU3
- HISTORY 2X03
- HISTORY 2XX3 - Age of Terror: History of Terrorism in the Modern World
- HISTORY 2Y03

COURSE LIST 5: ADVANCED COURSES IN EUROPE (INCLUDING BRITAIN AND THE AMERICAS)

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3MA3
- CLASSICS 3X03 - Roman Religion
- HISTORY 3AR3 - Atlantic Revolutions, 1750-1804
- HISTORY 3CG3 - Canadians in a Global Age, 1914 to the Present
- HISTORY 3CH3 - Catastrophic History: Natural & Technological Disasters
- HISTORY 3CW3 - Canada in a World of Empires, 1492-1919
- HISTORY 3D03
- HISTORY 3DF3 - Art and Politics in Second Empire France
- HISTORY 3FF3 - Nazi Germany
- HISTORY 3G03
- HISTORY 3GH3
- HISTORY 3H03 - Italian Renaissance, 1300-1600
- HISTORY 3HH3
- HISTORY 3HP3
- HISTORY 3HQ3 - History of Quebec
- HISTORY 3I03 - The International Relations of the European Powers, 1870-1945
- HISTORY 3J03 - The United States in the 1960s
- HISTORY 3JJ3 - Crime, Criminal Justice and Punishment in Modern History
- HISTORY 3MB3
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- HISTORY 3NN3
- HISTORY 3QQ3
- HISTORY 3RC3

- HISTORY 3RU3 - Early Modern Russia
- HISTORY 3TR3 - Trees and their Histories
- HISTORY 3VV3
- HISTORY 3W03 - Women in Canada and the U.S. to 1920
- HISTORY 3WW3 - Women in Canada and the U.S. from 1920
- HISTORY 3Y03
- HISTORY 3YY3 - Britain and the First World War

COURSE LIST 6: ADVANCED COURSES IN ASIA, AFRICA, MIDDLE EAST AND GLOBAL HISTORY

- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road Visual Cultures
- HISTORY 3B03
- HISTORY 3BB3
- HISTORY 3CP3
- HISTORY 3DD3 - Jews and Jesus
- HISTORY 3DS3 - World Shaping Events in Maritime History, 400 to the Present
- HISTORY 3EC3 - Chinese Intellectual Traditions
- HISTORY 3ES3
- HISTORY 3IG3
- HISTORY 3KK3 - The Vietnam War
- HISTORY 3L03
- HISTORY 3S03
- HISTORY 3SE3
- HISTORY 3TC3 - Science, Technology in World History
- HISTORY 3UA3 - The History of the Future
- HISTORY 3XX3 - Human Rights in History
- HISTORY 3ZZ3 - Judaism in the Modern World

For the Honours Arts & Science and History program (B.Arts.Sc), see *Arts & Science Program*

Bachelor of Arts (Honours)

COMBINED HONOURS IN HISTORY AND ANOTHER SUBJECT (B.A.)

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2019-2020 OR LATER

ADMISSIONS

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

NOTES

- When registering, it is recommended that students distribute their required History courses (see Requirements below) as follows:
- Level II: 12 units from Level II or III History
- Level III: 12 units Levels II or III History
- Level IV: 3 units Level II or III History; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
- Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian History survey course.
- Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the level I program completed prior to admission into the program

3 UNITS

- HISTORY 2HI3
- 3 units of Level II History

3 UNITS

from

- *Course List A*

3 UNITS

from

- *Course List B*

18 UNITS

from

- **Level II or III History**

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road Visual Cultures
- CLASSICS 2HA3 - Athens and Sparta: Democracy, Oligarchy, and War
- CLASSICS 2HB3 - From Alexander to Cleopatra: Cosmopolis and Empire
- CLASSICS 2HC3 - Caesar and the Rise of Autocracy
- CLASSICS 2HD3 - Nero, Decadence, and the End of a Dynasty
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3
- CLASSICS 2LB3
- CLASSICS 2LC3
- CLASSICS 2LD3
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship

6 UNITS

- Level IV History

36 UNITS

- Courses specified by the other subject. (Combinations with Social Sciences may require more than 36 units.)

21 UNITS

Electives to total 120 units

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO 2019-2020**ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History.

NOTES

- All students registered in an Honours History program must take HISTORY 2HI3 in Level II and HISTORY 3HI3 in Level III as part of their degree requirements. The requirement to take HISTORY 2HI3 will be waived for students who completed HISTORY 1FF3 in Level I.
- Students must complete HISTORY 2HI3 and HISTORY 3HI3 before enrolling in a Level IV History seminar.
- When registering, it is recommended that students distribute their required History courses (See Requirements below) as follows:
 - Level II: HISTORY 2HI3; 9 units from Course Lists 1 to 4
 - Level III: three units from Course Lists 1 to 4; HISTORY 3HI3; 6 units from Course Lists 5 and 6
 - Level IV: three units from Course Lists 5 and 6; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
- Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the

equivalent of six units in a Canadian History survey course.

- Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the level I program completed prior to admission into the program

HONOURS HISTORY AND MATHEMATICS (B.A.)

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2019-2020 OR LATER

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (see *Note 7 below*).

NOTES

- When registering, it is recommended that students distribute their required History courses (See *Requirements* below) as follows:
 - Level II: 12 units of Levels II or III History
 - Level III: 12 units of Levels II or III History
 - Level IV: 3 units of Levels II or III History; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
- Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian history survey course.
- Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.
- MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended. It is also recommended that students

consider completing MATH 1C03 prior the end of Level II.

- While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 units

from

- the Level I program completed prior to admission into the program

3 units

- HISTORY 2HI3
- 3 units of Level II History

3 units

from

- *Course List A*

3 units

- *Course List B*

18 units

from

- **Level II or III History**

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road Visual Cultures
- CLASSICS 2HA3 - Athens and Sparta: Democracy, Oligarchy, and War
- CLASSICS 2HB3 - From Alexander to Cleopatra: Cosmopolis and Empire
- CLASSICS 2HC3 - Caesar and the Rise of Autocracy
- CLASSICS 2HD3 - Nero, Decadence, and the End of a Dynasty
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3
- CLASSICS 2LB3
- CLASSICS 2LC3
- CLASSICS 2LD3
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship

6 units

- Level IV History

3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

6 units

- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

6 units

from

- MATH 3A03 - Real Analysis I or
- MATH 3IA3 - Introduction to Analysis
- MATH 3E03

- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 units

- Levels II-IV Mathematics or Statistics, which must include at least 6 units at Levels III and/or IV

18-21 units

- Electives to total 120 units

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO 2019-2020

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including a grade of at least C in three units of Level I History; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+.

NOTES

- All students registered in an Honours History program must take HISTORY 2HI3 in Level II and HISTORY 3HI3 in Level III as part of their degree requirements. **The requirement to take HISTORY 2HI3 will be waived for students who completed HISTORY 1FF3 in Level 1.**
- Students must complete HISTORY 2HI3 and HISTORY 3HI3 before enrolling in a Level IV History seminar.
- When registering, it is recommended that students distribute their required History courses (See Requirements below) as follows:
- Level II: HISTORY 2HI3; 9 units from Course Lists 1 to 4
- Level III: three units from Course Lists 1 to 4; HISTORY 3HI3; 6 units from Course Lists 5 and 6
- Level IV: three units from Course Lists 5 and 6; 6 units Level IV History. (No combined Honours student may take more than six units of Level IV seminars.)
- Students considering a career in teaching are advised to take HISTORY 2T03 and HISTORY 2TT3, as many schools of education require the equivalent of six units in a Canadian history survey course.
- Students considering graduate work in History are strongly encouraged to include in their program a second language beyond the introductory level, as many graduate programs require proficiency in a second language.

from

- MATH 3A03 - Real Analysis I or
- MATH 3IA3 - Introduction to Analysis
- MATH 3E03
- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3T03 - Inquiry in Topology
- MATH 3X03 - Complex Analysis I

15 UNITS

- Levels II-IV Mathematics or Statistics, which must include at least 6 units at Levels III and/or IV

18-21 UNITS

- Electives to total 120 units

HONOURS HISTORY WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

Bachelor of Arts

HISTORY (B.A.)

REQUIREMENTS FOR STUDENTS WHO ENTER THE PROGRAM IN 2019-2020 OR LATER

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in three units of Level I History.

NOTE

In selecting courses, students must ensure that they take a minimum of three units in each of two identified areas of History.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

from

- the level I program completed prior to admission into the program

3 UNITS

- *Course List A*

3 UNITS

- *Course List B*

18 UNITS

from

- **Level II or III History**

Which may also include the following:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road Visual Cultures
- CLASSICS 2HA3 - Athens and Sparta: Democracy, Oligarchy, and War
- CLASSICS 2HB3 - From Alexander to Cleopatra: Cosmopolis and Empire
- CLASSICS 2HC3 - Caesar and the Rise of Autocracy
- CLASSICS 2HD3 - Nero, Decadence, and the End of a Dynasty
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LA3
- CLASSICS 2LB3
- CLASSICS 2LC3
- CLASSICS 2LD3
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship

36 UNITS

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED THE PROGRAM PRIOR TO 2019-2020

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 3.5 including a grade of at least C- in three units of Level I History.

NOTE

In selecting courses, students must ensure that they take a minimum of three units in each of four fields of History. All Level II and III History courses from the above list may be used towards this requirement.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

from

- the level I program completed prior to admission into the program

3 UNITS

from

- *Course List 1 or Course List 2*

3 UNITS

from

- *Course List 3 or Course List 4*

6 UNITS

from

- *Course Lists 1 to 4*

3 UNITS

from

- *Course List 5*

3 UNITS

from

- *Course List 6*

6 UNITS

from

- *Course List 5 and Course List 6 combined*

36 UNITS

- Electives

Minor(s):**MINOR IN HISTORY****REQUIREMENTS**

24 units of History of which no more than six units may be from Level I and which may include no more than 9 units from the course list below. Consult the Course Listings section for course prerequisites and limited enrolment courses.

ADDITIONAL COURSE LIST:

- ARTHIST 3JA3 - The History of Art 1970 to the Present
- ARTHIST 3Q03 - Colours of the World
- ARTHIST 3Z03 - The Silk Road Visual Cultures
- CLASSICS 2HA3 - Athens and Sparta: Democracy, Oligarchy, and War
- CLASSICS 2HB3 - From Alexander to Cleopatra: Cosmopolis and Empire
- CLASSICS 2HC3 - Caesar and the Rise of Autocracy
- CLASSICS 2HD3 - Nero, Decadence, and the End of a Dynasty
- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LW3 - Ancient Law
- CLASSICS 3EE3 - The Greek Historians
- CLASSICS 3HH3 - Roman Slavery
- CLASSICS 3M03 - Greek Intellectual Revolution
- CLASSICS 3X03 - Roman Religion
- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship

Department of Linguistics and Languages

<http://linguistics.humanities.mcmaster.ca/>

Faculty as of January 15, 2022

CHAIR**Elisabet Service****PROFESSORS**

John J. Colarusso/B.A. (Cornell), M.A. (Northwestern), Ph.D. (Harvard)

Elisabet Service/B.A., M.A., Ph.D. (Helsinki)

Magda Stroinska/M.A. (Warsaw), Ph.D. (Edinburgh)

ASSOCIATE PROFESSORS

Catherine Anderson/B.A. (McMaster), Ph.D. (Northwestern)

Iris Bruce/M.A., Ph.D. (Toronto)

Ivona Kucerova/M.A. (Charles University, Prague), Ph.D. (MIT)

Victor Kuperman/B.A., M.A. (Jerusalem), Ph.D. (Nijmegen)

Anna L. Moro/B.A., M.A., Ph.D. (Toronto)

Jean Wilson/B.A. (McMaster), B.Ed., M.A., Ph.D. (Toronto)

ASSISTANT PROFESSORS

Alison Biggs/B.A. (University of London), M.Phil., Ph.D. (Cambridge)

Gemma Repiso-Puigdelliura/B.A., M.A. (University of Barcelona), Ph.D. (University of California, Los Angeles)

Daniel Pape/M.A. (Technical University of Berlin), Ph.D. (Humboldt University of Berlin)

Nikolai Penner/M.A., Ph.D. (Waterloo)

Wendy M. D'Angelo/B.A. (McMaster), M.A., Ph.D. (Toronto)

The Department of Linguistics and Languages offers B.A. Honours programs in:

- Cognitive Science of Language
- Linguistics

In addition, Minors are available, using electives only, in: German, Italian and Linguistics. **For information on the Minor in Japanese Studies, see the Department of Religious Studies.**

Language courses in American Sign Language, Chinese, Farsi, Japanese, Korean, Polish, Russian and Spanish are also offered by the Department. For the Honours Arts & Science and Linguistics program (B.Arts.Sc.), see *Arts & Science Program*

Bachelor of Arts (Honours)**COMBINED HONOURS IN COGNITIVE SCIENCE OF LANGUAGE AND ANOTHER SUBJECT (B.A.)****ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03, 1AA3 and PSYCH 1F03 or 1X03.

NOTES

- Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics. Students who are registered in the Combined Honours Cognitive Science of Language and Communication Studies program will substitute 3 units of elective work for LINGUIST 2D03 in view of their completion of CMST 2TM6 (formerly CMST 2A03 and 2B03) Such students should consult with the Undergraduate Advisor for Linguistics to ensure access to Level IV courses.
- Students should be aware that, PSYCH 1XX3 (or 1FF3) requires either Grade 12 Biology U or BIOLOGY 1P03 as a prerequisite. Please note, however, that students can complete BIOLOGY 1P03, and PSYCH 1XX3 (or 1FF3), 2H03 in their second year of studies.
- At some time during the program, students must meet a laboratory requirement by completing one course from Course List 1 below.
- Students combining this program with Combined Honours in Psychology, Neuroscience and Behaviour should consult an academic advisor to ensure that courses are credited to the appropriate program. Required courses may not be double-counted.
- Students combining this program with a program in Social Science should consult an academic advisor to confirm which courses satisfy their statistics requirements.
- Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply to register in the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.
- Students in the Honours or Combined Honours program in Cognitive Science of Language are encouraged to consider additional Linguistics elective offerings (see 'Department Notes' for Linguistics course offerings).

COURSE LIST 1

- LINGUIST 3N03
- LINGUIST 3PL3
- LINGUIST 3PS3
- LINGUIST 4D03 - Computers and Linguistic Analysis
- LINGUIST 4EL3 - Laboratory in Experimental Linguistics
- LINGUIST 4NN3 - Cognitive Neurolinguistics Laboratory
- LINGUIST 4PL3 - Advanced Programming for Linguistics
- LINGUIST 4I13 A/B S - Independent Study
- LINGUIST 4Y06 A/B - Honours Thesis
- LINGUIST 4Z03

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

30 UNITS

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2DD3 - Statistics for Language Research
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3B03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- LINGUIST 4F03

3 UNITS

from

- Level IV Linguistics (excluding LINGUIST 4SL3 and LINGUIST 4TE3)

6 UNITS

from

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

or

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

and

- PSYCH 2H03 - Human Learning and Cognition

3 UNITS

from

- *Course List 1*

36 UNITS

- Courses specified for the other subject.

(See *Note 4* above.)**12 UNITS**

- electives

COMBINED HONOURS IN LINGUISTICS AND ANOTHER SUBJECT (B.A.)

This program is designed for students who want to combine the scientific study of language with another subject of their choice.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03 and 1AA3.

NOTES

- Students are required to complete 18 units of language other than English for this program, either in one or two languages. Please note that some languages have only 3 or 6 units of study available. Courses taught in English do not satisfy this requirement. The following languages are offered at McMaster:
 - **Romance Languages:** French, Italian, Spanish
 - **Classical:** Greek, Latin, Sanskrit
 - **Other Indo-European Languages:** Farsi, German, Polish, Russian
 - **Non Indo-European Languages:** American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Korean, Japanese, Mohawk, Ojibwe
- Students whose other subject involves the study of a language may substitute 12 units of language other than English with 12 units of Linguistics courses.
- Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics. Students who are registered in the Combined Honours Linguistics and Communication

Studies program will substitute 3 units of elective work for LINGUIST 2D03 in view of their completion of CMST 2TM6 (formerly CMST 2A03 and 2B03). Such students should consult with the Undergraduate Advisor for Linguistics to ensure access to Level IV courses.

- Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply for Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission into the program

18 UNITS

- LINGUIST 2D03 - Research Methods
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology

6 UNITS

from

- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 2FL3 - Introduction to Forensic Linguistics
- LINGUIST 2LC3 - Historical Linguistics: Language Evolution and Change
- LINGUIST 2LL3 - Languages of the World and Linguistic Universals
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2S03 - Language and Society
- LINGUIST 3AS3 - Language and Communication in Autism Spectrum Disorder
- LINGUIST 3B03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3DS3 - ASL & Deaf Studies
- LINGUIST 3E03 - Teaching English as a Second Language (ESL)
- LINGUIST 3F03 - Anatomy and Physiology for Speech, Language and Hearing
- LINGUIST 3IE3
- LINGUIST 3LA3 - Introduction to Second Language Acquisition
- LINGUIST 3P03 - Pragmatics
- LINGUIST 3PG3 - Introduction to Programming for Linguistics
- LINGUIST 3TT3 - Perspectives on Translation
- LINGUIST 3X03
- LINGUIST 3XP3

3 UNITS

from

- Level IV Linguistics (excluding LINGUIST 4SL3, LINGUIST 4TE3 and LINGUIST 4Y06 A/B)

18 UNITS

from

- a language other than English (See *Notes 1* and *2* above)

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

9 UNITS

- electives to total 120 units

HONOURS COGNITIVE SCIENCE OF LANGUAGE (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03, 1AA3 and PSYCH 1F03 or 1X03.

NOTES

- Students should be aware that, PSYCH 1XX3 (or 1FF3) requires either Grade 12 Biology U or BIOLOGY 1P03 as a prerequisite. Please note, however, that students can complete BIOLOGY 1P03 and PSYCH 1XX3 (or 1FF3), 2E03, 2H03, 2NF3 in their second year of studies.
- Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics.
- At some time during the program, students must meet a laboratory requirement by completing one course from Course List 1 below.
- In this program students are required to complete 12 units of language courses other than English, of which at least six units must be in a single language. Courses taught in English do not satisfy this requirement. The following languages are offered at McMaster:

Romance Languages: French, Italian, Spanish

Classical: Greek, Latin, Sanskrit

Other Indo-European Languages: Farsi, German, Polish, Russian

Non Indo-European Languages: American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Korean, Japanese, Mohawk, Ojibwe

- Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply to register in the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.
- Students interested in doing graduate work in Speech and Language Pathology should consult with the Departmental Counsellor for the Cognitive Science of Language program.
- Students in the Honours or Combined Honours program in Cognitive Science of Language are encouraged to consider additional Linguistics elective offerings (see 'Department Notes' for Linguistics course offerings).

COURSE LIST 1

- LINGUIST 3N03
- LINGUIST 3PL3
- LINGUIST 3PS3
- LINGUIST 4D03 - Computers and Linguistic Analysis
- LINGUIST 4EL3 - Laboratory in Experimental Linguistics
- LINGUIST 4I13 A/B S - Independent Study
- LINGUIST 4NN3 - Cognitive Neurolinguistics Laboratory
- LINGUIST 4PL3 - Advanced Programming for Linguistics
- LINGUIST 4Y06 A/B - Honours Thesis
- LINGUIST 4Z03

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

from

- Level I program completed prior to admission into the program

30 UNITS

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2DD3 - Statistics for Language Research
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2SY3 - Syntax

- LINGUIST 3A03
- LINGUIST 3B03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- LINGUIST 4F03

6 UNITS

from

- Level IV Linguistics (excluding LINGUIST 4SL3 and LINGUIST 4TE3)

6 UNITS

from

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

or

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

and

- PSYCH 2H03 - Human Learning and Cognition

3 UNITS

from

- PSYCH 2E03 - Sensory Processes
- PSYCH 2F03
- PSYCH 2N03
- PSYCH 2NF3 - Clinical Neuropsychology
- LINGUIST 3F03 - Anatomy and Physiology for Speech, Language and Hearing

12 UNITS

from

- a language other than English

(See *Note 4* above.)

3 UNITS

from

- *Course List 1*

30 UNITS

- electives

HONOURS LINGUISTICS (B.A.)

This program is designed for students who are concentrating on the scientific study of language (phonology, morphology, syntax, semantics, etc.). Students should speak with the Departmental Counsellor for Linguistics to determine which linguistics electives are most appropriate for their academic and professional objectives.

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 including an average of at least 5.0 in LINGUIST 1A03 and 1AA3. It is strongly recommended that students include six units of a language other than English in their Level I program.

NOTES

- In this program students are required to study at least two languages for a total of 24 units of language study. The department has defined four language groups (see below) for this purpose. Of the 24 units, students must take at least 12 units from one language group of their choice, and 6 units of a language from another group. Please note that some languages have only 6 units of study available. Example: A student completes 12 units of Language A plus 6 units of Language B; the remaining 6 units of language study (to total 24 units) may be completed as the student chooses - by adding 6 units to Language A or B, or by completing 3 or 6 units of Language C or D. Courses taught in English do not satisfy this requirement
- **Romance Languages:** French, Italian, Spanish

- **Classical:** Greek, Latin, Sanskrit
- **Other Indo-European Languages:** Farsi, German, Polish, Russian
- **Non Indo-European Languages:** American Sign Language, Arabic, Cayuga, Chinese (Mandarin), Hebrew, Inuktitut, Korean, Japanese, Mohawk, Ojibwe
- Students must include LINGUIST 2D03 in Level II or III of their program in order to take any Level IV seminars in Linguistics.
- It is recommended that students interested in pursuing TESL Certification after graduation include the following courses in their program of study: LINGUIST 3E03 and 4TE3. They should also consult the TESL Ontario website for certified programs and requirements of certification.
- Students registered in Level IV of any Honours or Combined Honours program in Linguistics or Cognitive Science of Language with a Grade Point Average of at least 9.0 may apply for the Honours Thesis course (LINGUIST 4Y06 A/B) where they would conduct an individual research project under the supervision of a faculty member.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission into the program

21 UNITS

from

- LINGUIST 2D03 - Research Methods
- LINGUIST 2L03 - Phonetics
- LINGUIST 2PH3 - Phonology
- LINGUIST 2SY3 - Syntax
- LINGUIST 3A03
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3I03
- LINGUIST 3I13 - Semantics
- LINGUIST 3M03 - Morphology

9 UNITS

from

- HUMAN 2DH3 - Creative, Collaborative, Critical: Approaches to Digital Scholarship
- LINGUIST 2E03 - The Nature of Texts: From Slang to Formal Discourse
- LINGUIST 2FL3 - Introduction to Forensic Linguistics
- LINGUIST 2LC3 - Historical Linguistics: Language Evolution and Change
- LINGUIST 2LL3 - Languages of the World and Linguistic Universals
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 2S03 - Language and Society
- LINGUIST 3AS3 - Language and Communication in Autism Spectrum Disorder
- LINGUIST 3B03
- LINGUIST 3DS3 - ASL & Deaf Studies
- LINGUIST 3E03 - Teaching English as a Second Language (ESL)
- LINGUIST 3F03 - Anatomy and Physiology for Speech, Language and Hearing
- LINGUIST 3IE3
- LINGUIST 3LA3 - Introduction to Second Language Acquisition

- LINGUIST 3TT3 - Perspectives on Translation
- LINGUIST 3X03
- LINGUIST 3XP3

6 UNITS

from

- Level IV Linguistics (excluding LINGUIST 4SL3, LINGUIST 4TE3 and LINGUIST 4Y06 A/B)

12 UNITS

from

- one language as specified in *Note 1* above

12 UNITS

- additional language study as specified in *Note 1* above

30 UNITS

- Electives

HONOURS LINGUISTICS WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities*, offered by the DeGroote School of Business.

Diploma(s)

MCMASTER ENGLISH LANGUAGE DEVELOPMENT DIPLOMA (MELD)

Department of Linguistics and Languages (Faculty of Humanities)

Phone: (+1) 905.525.9140 Ext. 23718

Email: meld@mcmaster.ca

Web: <https://meld.humanities.mcmaster.ca/diploma/>

Students who meet the academic admission requirements for their choice of Level 1 program, but do not meet McMaster's English Language Proficiency requirement may be admitted to the MELD bridging program which has been developed for international students, providing them with a supportive environment in which they can succeed. The diploma is a two-term, full-time intensive bridging program in English language development, acculturation and engagement.

Students accepted into MELD are given a conditional offer of admission to their program of choice, pending successful completion of the MELD diploma. Once the diploma in MELD has been successfully completed, the student may register in the program to which the student was given conditional admission and will have completed 6 units of degree credit courses in Linguistics that may be applied as electives to that program. In exceptional circumstances, MELD will consider transfers from other McMaster programs.

Please visit <https://meld.humanities.mcmaster.ca/diploma/> for more information or email meld@mcmaster.ca.

FALL TERM

(September - December)

- LINGUIST 1E03 - Introduction to English Linguistics I (degree credit course)
- MELD 1M00 - Mentorship Lab 1
- MELD 1Q03 - Critical and Analytic Reading
- MELD 1QQ3 - Grammar, Structure and University Writing
- MELD 1R03 - Aural Communication and Academic Culture
- MELD 1RR3 - Oral Communication for Academic and Social Interactions

WINTER TERM

(January - April)

- LINGUIST 1EE3 - Introduction to English Linguistics II (degree credit course)
- MELD 1MM0 - Mentorship Lab 2
- MELD 1S03 - Critical Reading, Research and Academic Vocabulary
- MELD 1SS3 - Academic Writing, Reporting and Research
- MELD 1T03 - Cross-Cultural Perspectives on Language and Language Learning
- MELD 1TT3 - Oral Communication for Academic Discourse

Bachelor of Arts (Honours)

COMBINED HONOURS IN PHILOSOPHY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTES

- Students intending to do graduate work in Philosophy are advised to include PHILOS 2B03 in their program.
- Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission into the program

9 UNITS

- PHILOS 2P03 - Ancient Greek Philosophy
- PHILOS 2X03 - Early Modern Philosophy I
- PHILOS 2XX3 - Early Modern Philosophy II

3 UNITS

from

- PHILOS 3NN3 - Philosophy of the Enlightenment
- PHILOS 3VV3 - Kant
- PHILOS 3YY3 - Hegel
- PHILOS 3WP3 - Modern Women Philosophers

3 UNITS

from

- PHILOS 2B03 - Introductory Logic
- PHILOS 2CT3 - Critical Thinking

15 UNITS

- Level III Philosophy

6 UNITS

- Level IV Philosophy (Excluding PHILOS 4V03)

36 UNITS

- Courses specified for the other subject. (Combinations with Social Sciences may require more than 36 units.)

18 UNITS

- Electives to total 120 units

HONOURS JUSTICE, POLITICAL PHILOSOPHY, AND LAW (B.A.)

The aims of this program are to foster a sophisticated understanding of the law and legal institutions that make up the social world in which we live and of the political and moral theories that address the value and justice of these institutions. Students will be well-prepared for further studies or careers in law, philosophy, politics, education, human rights or public policy.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and a supplemental application. See Note #1 below. It is recommended that students include three units of Level I Philosophy in their Level I program.

NOTES

- Students must complete a supplemental application for admission that is available on the Program website (jppl.humanities.mcmaster.ca, due April 30).
- Students are strongly advised to complete PHILOS 2Q03 - Justice, Political Philosophy, and Law and PHILOS 2S03 - History of Political Philosophy in the first year they enter the JPPL program.
- Students must complete 18 units from the *Interdisciplinary Core Course List*, at least 3 units in each of the three categories: Policy and Law, Political and Moral Philosophy, and Human Rights and Global Justice. The remaining nine units may be from any of the three categories.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

INTERDISCIPLINARY CORE COURSE LIST**I. POLICY AND LAW**

- CLASSICS 2K03 - The Society of Greece and Rome
- CLASSICS 2LW3 - Ancient Law
- CMST 2K03 - Political Economy of the Media
- CMST 2LW3 - Communication Policy and Law
- ENGLISH 2M03 - Concepts of Culture
- HISTORY 3G03
- HISTORY 3JJ3 - Crime, Criminal Justice and Punishment in Modern History
- HISTORY 3N03 - Poverty, Privilege and Protest in Canadian History
- INDIGST 2B03 - History of Indigenous Peoples' Sovereignty
- INDIGST 2G03 - Indigenous Perspectives on Peace and Conflict
- PHILOS 2N03 - Business Ethics
- PHILOS 2TT3 - Ethical Issues in Communication
- PHILOS 3L03 - Environmental Philosophy

II. POLITICAL AND MORAL PHILOSOPHY

- CLASSICS 3M03 - Greek Intellectual Revolution
- CMST 2LW3 - Communication Policy and Law
- ENGLISH 2CL3 - Canadian Literature of Dissent and Social Justice
- ENGLISH 3Q03 - The History of Critical Theory
- INDIGST 2B03 - History of Indigenous Peoples' Sovereignty
- INDIGST 2G03 - Indigenous Perspectives on Peace and Conflict
- PHILOS 2CT3 - Critical Thinking
- PHILOS 2B03 - Introductory Logic

- PHILOS 2D03 - Bioethics
- PHILOS 2F03 - Philosophical Psychology
- PHILOS 2G03 - Social and Political Issues
- PHILOS 2ZZ3 - Philosophy of Love and Sex
- PHILOS 3C03 - Advanced Bioethics
- PHILOS 3CC3 - Advanced Ethics

HONOURS JUSTICE, POLITICAL PHILOSOPHY, AND LAW WITH A SPECIALIZED MINOR IN COMMERCE (B.A.)

For details on this Specialized Minor, please see *Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities* offered by the DeGroote School of Business.

HONOURS PHILOSOPHY (B.A.)**ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTES

- Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

HONOURS PHILOSOPHY AND BIOLOGY (B.A.)

ADMISSION

Completion of any Level I program and a Grade Point Average of at least 5.0 and a grade of at least C in three units of Level I Philosophy (or, if no such course was taken, in three units of work acceptable to the Department of Philosophy) and Grade 12 Biology U or BIOLOGY 1P03 (High School replacement) and three units of Level I Mathematics. Students are cautioned to observe that CHEM 1AA3 is the normal prerequisite for BIOLOGY 2B03 and 2C03 which are listed in a 24-unit series of courses from which students must complete 12 units. **Enrolment in this program is limited.**

NOTES

- Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
- Students should seek counselling from both the Department of Philosophy and the Department of Biology.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.

HONOURS PHILOSOPHY AND MATHEMATICS (B.A.)**ADMISSION**

Completion of any Level I program and a Grade Point Average of at least 5.0; and successful completion of one of MATH 1A03, 1LS3 or 1X03; and one of MATH 1AA3, 1LT3, or 1XX3 with a grade of at least C+ (*see Note 4 below*); and a grade of at least C in three units of Level I Philosophy or, if no such course was taken, in three units of work acceptable to the Department of Philosophy.

NOTES

- Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note that not all courses are offered every year. Please consult the university Master Timetable.
- MATH 1B03 must be completed by the end of Level II. Completion in Level 1 is strongly recommended. It is also recommended that students consider completing MATH 1C03 prior the end of Level II.
- Upon completion of 60 units of work and with the approval of the Department of Philosophy and the Office of the Dean of the Faculty of Humanities, one or both terms of Level III may be replaced by courses of study at a designated university abroad.
- While MATH 1LS3 and 1LT3 may be used for consideration to Level II Mathematics and Statistics programs, students are strongly encouraged to take either MATH 1A03 and 1AA3, or MATH 1X03 and 1XX3, to ensure a sufficient background in content required for MATH 2X03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

Minor(s):

MINOR IN GENDER STUDIES

A Minor in Gender Studies consists of 24 units including the courses listed below. If students wish to propose that a course not cross-listed and not on the course list be considered as a credit toward the Minor in Gender Studies, they may contact (905) 525-9140 x 27734 or visit CNH 321.

NOTES

- Students must be aware that some courses in the Course Lists have their own disciplinary prerequisites. Given the multidisciplinary nature of the Gender Studies Minor, with its different approaches and expectations, it is the responsibility of the students in the Gender Studies Minor to meet other Faculties', departments' and programs' requirements.
- Students who began their studies prior to September 2021 may declare this as the Women's Studies minor.

REQUIREMENTS

The Faculty of Science provides studies through the following Departments/
Programs/Schools:

- Biochemistry and Biomedical Sciences (Last available in 2022)
- Biology
- Chemistry and Chemical Biology
- Earth, Environment and Society
- Interdisciplinary Science
- Kinesiology
- Mathematics and Statistics
- Physics and Astronomy
- Psychology, Neuroscience & Behaviour

Degree Programs

HONOURS BACHELOR OF SCIENCE PROGRAMS

An Honours B.Sc. normally requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary, and/or liberal arts studies through electives from other Departments and Faculties.

An Honours B.Sc. with Specialization or Sub-Plan requires the completion of the same courses required for the Honours program, as well as designated upper level courses in a specialized area of study. Please refer to departmental

program descriptions for details.

Honours Integrated Science is a limited enrolment, interdisciplinary research-based science program designed to develop students as broadly educated research scientists capable of contributing to all modern fields of science. Program courses will develop scientific understanding through integration of multiple disciplines in the study of a series of relevant themes or problems. Many disciplines of science will contribute toward courses offered in the Integrated Science program. Students will be involved in individual and team research projects throughout the program.

Students who successfully complete the first three levels of any Honours B.Sc. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with a three-level B.Sc. degree.

HONOURS BACHELOR OF SCIENCE KINESIOLOGY PROGRAM

Similar to the Honours Bachelor of Science, the Honours Bachelor of Science Kinesiology (Honours B.Sc.Kin.) requires 120 units, including the completion of a set of required courses and electives. Honours Bachelor of Science Kinesiology, a limited enrolment, direct-entry program is only available to students who completed Level I Honours Kinesiology. Kinesiology students who successfully complete the first three levels of the Honours B.Sc.Kin. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the three-level B.Sc.Kin. (exit) degree.

HONOURS BACHELOR OF APPLIED SCIENCE PROGRAMS

An Honours Human Behaviour (B.A.Sc.) program is available, as well as two Specializations offered in collaboration with Mohawk College of Applied Arts and Technology. Graduates of the Specializations will be eligible to receive both the McMaster B.A.Sc. (Honours) and either the Mohawk College Certificate in Autism & Behavioural Science or the Early Childhood Education (ECE) Diploma. The Honours B.A.Sc. requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary and/or liberal arts studies through electives from other Departments and Faculties. The Honours B.A.Sc. with a Specialization requires the completion of 150 units, including similar courses for the affiliated Honours B.A.Sc. program, as well as designated upper level courses and applied placements, in the area of the Specialization. Levels II through IV of the program run consecutively from September of Level II to completion of the program at the end of April in Level IV.

An Honours Sustainable Chemistry (B.A.Sc.) program is available. The Honours B.A.Sc. requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary and/or liberal arts studies through electives from other Departments and Faculties. Please refer to departmental program descriptions for details.

Honours B.A.Sc. students who successfully complete 90 units, including the first three levels of the Honours B.A.Sc. degree, may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the B.A.Sc. (exit) degree.

CO-OP PROGRAMS

The Faculty of Science has Cooperative Education programs, beginning in Level III, in Honours Actuarial and Financial Mathematics, Honours Biochemistry, Honours Chemical Biology, Honours Chemistry, Honours Earth and Environmental Sciences, Honours Environmental Sciences, Honours Life Sciences, Honours Mathematics and Statistics, Honours Medical and Biological Physics, Honours Molecular Biology and Genetics, Honours Physics and Honours Sustainable Chemistry.

Co-op programs have **limited enrolment** and admission is by selection. Please see the admission statement for each program in this section of the Calendar. Beginning 2023-2024, students must complete SCIENCE 2C00 (or SCIENCE 2D00) prior to the Fall Term of a Level III Co-op program. Students must complete all mandatory orientation activities, including SCIENCE 3C00 (or SCIENCE 3D00), prior to the start of the first work term. Employment must be full-time, academically relevant and approved by the Science Career and Cooperative Education office. Students enrolled in Co-op programs must be

registered in full-time studies, including all prescribed courses, during the academic terms of their program (a minimum of 9 units in a term) and will be charged per unit registered. An annual administrative fee of \$150 will be charged in each of the three years a student is enrolled in a Co-op program, and additional Science Co-op fees will be charged for each work term of a Co-op program. With written permission from the work term supervisor, academic work may be taken during each four-month period of a work term and the student will be responsible for the additional tuition. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

INTERNSHIPS

The Faculty of Science offers students the opportunity to participate in 4, 8, 12, or 16 month full-time, paid work placements in academically relevant areas, as approved by the Science Career and Cooperative Education office. Internship placements are available to students registered as full time students in good standing in Level II or III of an Honours B.Sc. program and who will have at least 9 units left to complete upon their return. Students must complete SCIENCE 2C00 and all mandatory orientation activities prior to the start of their internship. Students self-generate placements, in consultation with the Science Career and Cooperative Education office, with participating companies through an application and interview process. A fee is assessed following the start of the placement. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

MINORS

Within the Faculty of Science, Minors are available to students registered in an Honours program only. In addition to the University's regulations governing the designation of a Minor, all Departments in the Faculty of Science require the inclusion of at least six units of Level III or IV courses to complete a Minor in a Science subject. At least 12 units (above Level 1) toward the Minor must be considered elective to degree.

Please see *Minors* in the *General Academic Regulations* section of this Calendar for further information. All courses have an enrolment capacity and the Faculty cannot guarantee registration in courses, even when all requisites have been met. Therefore, the completion of a Minor is not guaranteed.

Minors offered by the Faculty of Science include:

- Astronomy (last available to students graduating in 2025)
- Astrophysics
- Biochemistry (last available to students graduating in 2023)
- Biology
- Chemical Biology
- Chemistry
- Earth Sciences
- Environment and Society
- Environmental Sciences
- Environmental Studies (last available to students graduating in 2023)
- Geographic Information Systems (GIS)
- Geography (last available to students graduating in 2023)
- Geography and Earth Sciences (last available to students graduating in 2023)
- Mathematics
- Medical and Biological Physics
- Physics
- Psychology
- Statistics
- Sustainable Chemistry

CONCURRENT CERTIFICATES

A credential is a body or collection of academic work that stands on its own. McMaster credentials include certificates, diplomas and degrees. A single course is permitted to be counted toward a maximum of two credentials. Concurrent certificates are a recognized credential and open to undergraduate students. Additional restrictions regarding completion and/or overlap with a

student's enrolled program (major) may apply. All courses have an enrolment capacity and the Faculty cannot guarantee enrolment, even when all requisites have been met. Therefore, the completion of a Concurrent Certificate may not be guaranteed. Students apply for recognition of the Concurrent Certificate, at the time of graduation.

Concurrent Certificates offered by the Faculty of Science:

- Geographic Information Science (GIS)
- Urban Studies and Planning

For a complete list of Concurrent Certificates available, students should see the 'Concurrent Certificates' section of this Calendar.

BACHELOR OF SCIENCE PROGRAMS

Three-level B.Sc. programs offered by the Faculty of Science include:

Environmental Sciences, Life Sciences, Mathematical Science and Chemical and Physical Sciences (formerly Physical Sciences). B.Sc. programs require completion of 90 units, including a set of required courses and electives.

Students interested in the Environmental Sciences program are encouraged to see *School of Earth, Environment & Society* in this section of the Calendar.

Students interested in the Life Sciences program are encouraged to see *School of Interdisciplinary Science (SIS)* in this section of the Calendar.

Students interested in the Mathematical Science program are encouraged to see *Department of Mathematics and Statistics* in this section of the Calendar.

Students interested in the Chemical and Physical Sciences are encouraged to see *Chemical and Physical Sciences* in the *Department of Physics and Astronomy* section of the Calendar.

Students who successfully complete the first three levels of any Honours B.Sc. program may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with a B.Sc. degree.

BACHELOR OF MEDICAL RADIATION SCIENCES PROGRAM

The Bachelor of Medical Radiation Sciences Program is offered jointly in partnership by McMaster University and Mohawk College of Applied Arts and Technology. Students pursue two qualifications simultaneously, and graduates receive the McMaster Bachelor of Medical Radiation Sciences degree and the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk. The program requires 150 units. Levels II through IV of the program run consecutively from September of Level II to completion of the program at the end of April in Level IV.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the *General Academic Regulations* of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases, priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enrol as soon as online enrolment is available to them in the Student Centre in Mosaic. In addition, in the Faculty of Science, there are two types of courses for which permission must be obtained prior to registration. For these courses, students will be given seat authorizations rather than being admitted on a first-come basis.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the University provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in Science programs, in addition to meeting the *General Academic Regulations* of the University, shall be subject to additional Faculty Regulations.

ADMISSION TO LEVEL II PROGRAMS

All Level I students who wish to be reviewed for admission to a Level II program in the Faculty of Science for the following Fall/Winter Term must submit an Application for Admission to Level II through MOSAIC by the University stated deadline (normally in April). Students may rank up to four program choices. Rank ordering must be done very carefully because once admitted to a program, no further consideration is given to lower ranked choices.

Level I students must meet the admission criteria for a Level II program according to the Calendar in effect when they registered for Level I. Students must follow the program requirements of the Calendar in effect when they enter Level II, except when a later Calendar explicitly modifies such requirements.

Students who are in good academic standing, but who do not achieve the admission requirements for any Level II program may continue in the Faculty of Science in the undeclared 'Science' program, or may seek transfer to another Faculty.

LIMITED ENROLMENT PROGRAMS

Admission at Level I (and above) is limited for the following programs:

- Honours Integrated Science
- Honours Kinesiology
- All Medical Radiation Sciences programs

Admission at Level II (and above) is limited for the following:

- Honours Actuarial and Financial Mathematics
- Honours Astrophysics
- All Honours Biochemistry programs (Last available September 2022)
- Honours Biology Research Specialization

- Honours Biology - Physiology Core (First available September 2023)
- Honours Biology - Physiology Research Specialization
- Honours Biology and Mathematics
- Honours Biology and Psychology, Neuroscience & Behaviour
- Honours Chemical Biology
- Honours Applied Psychology in Human Behaviour - Autism and Behavioural Science Specialization
- Honours Applied Psychology in Human Behaviour - Early Childhood Studies Specialization
- Honours Life Sciences - Origins of Disease Specialization
- Honours Life Sciences - Sensory Motor Systems Specialization
- Honours Mathematics and Computer Science
- Honours Molecular Biology and Genetics Core (First Available September 2023)
- Honours Molecular Biology and Genetics Research Specialization
- Honours Neuroscience
- All Honours Psychology, Neuroscience & Behaviour programs

All Co-op programs, beginning at Level III, are limited enrolment.

MINIMUM REQUIREMENTS TO CONTINUE IN THE FACULTY OF SCIENCE

Further to the information found in the *General Academic Regulations* section of this Calendar:

REINSTATEMENT

Students with an Academic Standing of *May Not Continue at the University* who wish to be considered for undergraduate studies must apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the stated deadline. The Faculty of Science does not consider Requests for Reinstatement for the Spring/Summer Term. See the *Application Procedures* section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student's academic performance before and after admission to McMaster, a letter of explanation and other appropriate documentation.

Reinstatement is not automatic or guaranteed. Decisions are normally made after June 30 for September entry.

Effective September 1997, the Grade Point Average (formerly Cumulative Average) for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved. **Note: If at a review after reinstatement the Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.**

Former Kinesiology students will be considered for reinstatement to Kinesiology upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Kinesiology program with a minimum average of 7.0 (B-). Application forms are available from the Office of the Associate Dean of Science (Academic) or the Department of Kinesiology. The application deadline is April 30 for September entry. **Reinstatement is not guaranteed.**

Former Medical Radiation Sciences students will be considered for reinstatement to their program upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Medical Radiation Sciences program with a minimum average of 7.0 (B-). Application forms are available from the Office of the Associate Dean of Science (Academic) or the School of Interdisciplinary Science (SIS). The application deadline is April 30 for September entry. **Reinstatement is not guaranteed.**

DEADLINES

The Faculty of Science will not consider applications for admission, admission to a second degree or continuing studies, registration, deleting, cancelling, or adding of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures sections, unless documentation showing good cause is submitted to the Office of the Associate Dean of Science (Academic).

LIMITED ENROLMENT COURSES REQUIRING PRE-REGISTRATION

BALLOTING

The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses. Students entering Level IV Honours Life Sciences (excluding those enrolled in a Specialization) must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by **the end of March**. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in a preferred seminar. Ballots will be sent directly to students in Honours Life Sciences in the Winter Term.

The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B, 4DD6 A/B) and the Independent Library Study and Independent Research courses (PNB 3Q03 A/B S, 3QM3 A/B S, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S, 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the Fall Term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour's web site at <http://www.science.mcmaster.ca/pnb/>.

WORKLOAD

All programs in the Faculty of Science may be taken by full-time and part-time students, with the exception of all Honours Co-op programs. Students enrolled in Co-op programs must maintain a full academic load during the study terms of their program.

Students must maintain a full academic load during the Fall/Winter Term to be eligible for scholarships available to full-time students.

Students are expected to avoid timetable conflicts among their courses, and students on a full academic load should ensure the number of courses is balanced in each term. Students who wish to take more courses than recommended for a single level of their program may do so if their Grade Point Average on completion of the previous Fall/Winter Term is at least 7.0. Students registered in the final level of their program are permitted to overload by up to six additional units in order to become eligible to graduate.

COURSES REQUIRING AN ADDITIONAL FEE

The Faculty offers courses that may require a payment of a fee, above the regular associated tuition. Examples include: field courses and experiential offerings. Some of these courses may be taken outside of the University's Sessional Dates.

Students who enrol in these types of offerings must pay **both**:

- a fee to the Department to cover travel expenses, room and board and
- the associated tuition fee to McMaster at time of registration.

Although students initially register for field courses through the appropriate departmental offices, it is their responsibility to include field courses on their registration forms for the appropriate session.

Detailed information regarding field courses and deadlines for registration may be obtained from the individual departmental offices.

LETTER OF PERMISSION

All students in good academic standing, with the exception of students registered in second degree programs, may apply to the Office of the Associate Dean of Science (Academic) to take courses at another university on Letter of Permission. Students must achieve a grade of at least C- for transfer of credit. The transcript designation reads 'T', indicating *transfer*, when a grade of C- or better is attained, or *NC*, indicating *not complete*, when a grade of less than C- is attained.

Required courses given by the department offering the program may not be taken elsewhere unless departmental approval is given. Electives may be taken elsewhere.

Courses taken at another university cannot be used to satisfy the University's minimum residence requirements, will not be included in the calculation of the Grade Point or Term Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on Letter of

Permission.

STUDENT EXCHANGES

McMaster University has agreements with institutions in Canada and abroad including Australia, Denmark, France and the United Kingdom to provide students with the opportunity to participate in an exchange program for one year or term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals. In addition, exchange programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign fees by paying fees to McMaster.

All students must have completed at least one year of continuous study and be in good standing to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for the third level of an Honours program.

Students interested should begin discussions with the Office of the Associate Dean of Science (Academic) about one year before they plan to enrol elsewhere. Students must propose and submit an academic program to their Department for approval. Academic approval must be completed by the end of February for registration in the following Fall/Winter Term. In certain cases, students may be recommended for the Deans' Honour List on the basis of work undertaken while on exchange.

For further information please see *International Study* in the *General Academic Regulations* section in this Calendar. Information concerning exchanges can also be found from International Student Services. Acceptance to the Ontario and University-wide Exchange Programs is by recommendation. Application forms can be obtained from:

International Student Services / MacAbroad

Gilmour Hall, Room 110

Telephone: (905) 525-9140, extension 24748

TRANSFERS

Science students may be permitted to transfer between programs or students in other Faculties may apply to transfer to a program in the Faculty of Science provided they have obtained a Grade Point Average of at least 3.5 and have completed the necessary admission requirements. Such students must consult with an Academic Advisor in the Office of the Associate Dean of Science (Academic) to discuss process and the assessment of transfer credit. Students transferring from a Bachelor of Technology program are only eligible to transfer to a Level I Gateway program and must meet all admission requirements to that program including the required entrance average. Such students must consult with an Academic Advisor in the Office of the Associate Dean of Science (Academic) to discuss process and the assessment of transfer credit. Given the number of required units and prerequisites of some Science courses, transfer students may not be able to complete the requirements in three additional years of study.

TRANSFER/APPLICATION TO LEVEL I HONOURS KINESIOLOGY

In-course, McMaster students seeking transfer/admission to Level I Honours Kinesiology for the following Fall or Winter Term must submit an Application for Admission through Mosaic by the stated deadline (normally April). Additionally, transfer students must submit the mandatory Supplemental Application to the Department of Kinesiology by the stated deadline. Students will be notified of their eligibility for transfer to Level I Honours Kinesiology through their Student Centre on MOSAIC in June. McMaster students interested in transferring should contact the Academic Program Advisor in the Department of Kinesiology or the Office of the Associate Dean of Science (Academic). Students transferring from another university should see the Admission Requirements and *Application Procedures* sections of this Calendar. A limited number of exceptionally qualified students are admitted each year. To be considered, applicants must have an average of at least 9.0 (B+) in a minimum of 24 units of university work, taken during the Fall and Winter Terms. Given the number of required units and prerequisites of Kinesiology courses, transfer students may not be able to complete the requirements in

three additional years of study.

GRADUATION

FROM AN HONOURS B.SC., HONOURS B.A.SC. AND B.SC. PROGRAMS

To graduate from a program, students must meet all course requirements for their degree program.

The requirements for graduation from these programs are described under the heading *Graduation* in the *General Academic Regulations* section in this Calendar.

TRANSFERRING TO GRADUATE WITH A THREE-LEVEL B.SC. DEGREE FROM AN HONOURS B.SC. PROGRAM

Students who successfully complete at least 90 units including all admission requirements and expected course requirements up to the end of Level III of any Honours B.Sc. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Science (Academic) for transfer to graduate with a corresponding three-level B.Sc. degree as follows:

Honours Biochemistry programs qualify for the B.Sc. Science degree. Honours Biology, Chemical Biology, Life Sciences, Molecular Biology and Genetics and Psychology, Neuroscience & Behaviour programs qualify for the B.Sc. Life Sciences degree. All Environmental Sciences programs qualify for the B.Sc. Environmental Sciences degree. All Mathematics and Statistics programs qualify for the B.Sc. Mathematical Science degree. All Chemistry, Medical and Biological Physics, and Physics programs qualify for the B.Sc. Chemical and Physical Sciences degree. Students enrolled in Honours Biodiversity and Environmental Sciences or Honours Biology and Environmental Sciences may be given the option of either the B.Sc. Environmental Sciences or Life Sciences degree. Honours B.Sc. Kinesiology qualifies for the B.Sc. Kin. degree. Integrated Sciences (iSci) programs, with a concentration, will qualify for the exit degree most relevant to the concentration. Integrated Sciences (iSci), without a concentration, qualifies for the B.Sc. Science degree. Students who do not qualify for the degrees, as stated above, may request to be considered to graduate with the B.Sc. Science degree.

TRANSFERRING TO GRADUATE WITH A THREE-LEVEL B.A.SC. DEGREE FROM AN HONOURS B.A.SC. PROGRAM

Students who successfully complete at least 90 units including all admission requirements and expected course requirements up to the end of Level III of any Honours B.A.Sc. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Science (Academic) for transfer to graduate with the B.A.Sc. (exit) degree.

Level I Programs

The Faculty of Science offers the following Level I gateway programs leading to the Honours Bachelor of Science, Honours Bachelor of Applied Science and Bachelor of Science programs at Level II:

- Chemical and Physical Sciences Gateway
- Environmental and Earth Sciences Gateway
- Life Sciences Gateway
- Mathematics and Statistics Gateway

Review of the Admission Requirements of Level II programs and successful completion of recommended courses in Level I will allow students a range of Level II program options including those from within their chosen Gateway as well as the others.

Additionally, the Faculty offers the following direct-entry Level I programs (and degrees):

- Honours Integrated Science (Leading to the Honours Bachelor of Science degree)
- Honours Kinesiology (Leading to the Honours Bachelor of Science Kinesiology degree)
- Medical Radiation Sciences (Leading to the Bachelor of Medical Radiation Sciences degree)

Important Note for Level I Students:

Level I courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar.** Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance.

Students in the Level I Gateway programs will have the opportunity to take units from the *Science I Course List*, consisting of:

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MM3 - Applied Calculus
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

Bachelor of Medical Radiation Sciences

MEDICAL RADIATION SCIENCES (LEVEL I)

NOTE

Students considering the Medical Radiation Sciences program should refer to the Regulations for License to Practice and Functional Demands in the Medical Radiation Sciences section of this Calendar.

Enrolment in this program is limited.

PROGRAM NOTES

1. As places in the Medical Radiation Sciences program are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission.
2. The University reserves the right to grant admission to a limited number of students and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.
3. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.

4. BIOSAFE 1BS0 a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.
5. *Routine Practices*, an on-line module available through Mosaic (Health and Safety Training), must be completed prior to attendance in the first lab associated with each of: KINESIOL 1Y03, 1YY3.
6. For consideration to a Level II Medical Radiation Specialization, Medical Radiation Sciences students must complete at least 24 units during the Fall/Winter session, including BIOLOGY 1A03, KINESIOL 1Y03, 1YY3, LIFESCI 1D03, one of MATH 1A03, 1LS3 or 1MM3, MEDRADSC 1B03, 1E03, 1F03 and achieve a Grade Point Average of at least 5.0. Failure to complete these minimum requirements may compromise consideration for admission to a Specialization.

REQUIREMENTS: 30 UNITS

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 UNITS

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1MM3 - Applied Calculus

12 UNITS

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

6 UNITS

- Electives

Bachelor of Science (Honours)

CHEMICAL AND PHYSICAL SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar.** Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Chemical and Physical Sciences, students should complete the courses recommended below.

PROGRAM NOTES

1. BIOLOGY 1P03, which may be completed as an elective, serves as the prerequisite for BIOLOGY 1A03 and 1M03 for those students who did not complete Grade 12 Biology U.
2. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
3. BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MM3 - Applied Calculus
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

12 UNITS FROM:

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

6 UNITS FROM:

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II

6 UNITS

from

- the *Science I Course List*

6 UNITS

- Electives (See *Program Note 1* above.)

ENVIRONMENTAL AND EARTH SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar.** Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Environmental and Earth Sciences, students should complete the courses recommended below.

PROGRAM NOTES

1. Students without Grade 12 Calculus and Vectors U must complete MATH 1F03.
2. Students who did not complete Grade 12 Biology U must complete BIOLOGY 1P03 in Level I. BIOLOGY 1P03 serves as the prerequisite for BIOLOGY 1A03 and 1M03 for those students who did not complete Grade 12 Biology U.
3. CHEM 1R03 serves as the prerequisite for CHEM 1A03 for those students who did not complete Grade 12 Chemistry U. CHEM 1A03 is required for admission to Level II Honours Earth and Environmental Sciences.
4. PHYSICS 1A03 may be taken by students who did not complete Grade 12 Physics U.
5. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
6. BIOSAFE 1B03, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MM3 - Applied Calculus
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

6 UNITS

from:

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

HONOURS INTEGRATED SCIENCE (LEVEL I)

Enrolment in this program is limited.

PROGRAM NOTES

- As places in the Honours Integrated Science program are limited to approximately 60 students, admission is by selection, and possession of published minimum requirements does not guarantee admission.
- All Level I Honours Integrated Science students may be asked to complete an online orientation course prior to the start of classes in September. The course will serve to review and consolidate material covered by the secondary school math and science curriculum and will be especially valuable to those who have not completed one of Grade 12 Biology U, Chemistry U or Physics U.
- WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to ISCI 1A24 A/B and must be completed prior to the first lab.
- BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to ISCI 1A24 A/B and must be completed prior to the first lab.
- Beginning at Level II, Honours Integrated Science students may complete a concentration in one of the following areas:
 - Biochemistry
 - Biology
 - Chemical Biology
 - Chemistry
 - Earth and Environmental Sciences
 - Environmental Sciences
 - Mathematics and Statistics
 - Medical and Biological Physics
 - Physics
 - Psychology, Neuroscience & Behaviour
 - Sustainable Chemistry

Level I Honours Integrated Science students are encouraged to review the specific program requirements of all concentrations they are considering in Level II (<https://science.mcmaster.ca/sis/undergraduate/isci/isci-home.html>). In addition to the content covered within the ISCI courses, completion of a concentration normally requires a minimum of 24 units in the other subject.
- Honours Integrated Science students, completing a concentration, are eligible to obtain a maximum of one minor, provided that the subject area is not integral to the requirements of the concentration. Honours Integrated Science students not completing a concentration may be eligible for up to two minors provided that, for each minor, at least 12 units (above Level I) are elective to the degree. All students should consult the Academic Program Advisor.
- Honours Integrated Science students may not proceed to the next level unless a Grade Point Average of at least 5.0 has been achieved and all required courses for their current level have been successfully completed including:
 - Level I students must successfully complete all discipline-specific components of ISCI 1A24 A/B before proceeding to Level II and enrolment in ISCI 2A18 A/B.
 - Level I students who fail one or two discipline-specific components of ISCI 1A24 A/B may have the opportunity to successfully complete equivalent courses before proceeding to Level II and enrolment in ISCI 2A18 A/B.
 - Level I students who fail more than two discipline-specific components of ISCI 1A24 A/B may not continue in the program. Such students may apply to transfer to a program for which they qualify.
 - Level II students must successfully complete all discipline-specific components of ISCI 2A18 A/B or make up any failed course work prior to proceeding to Level III and enrolment in ISCI 3A12 A/B.

- Level III students must successfully complete all discipline-specific components of ISCI 3A12 A/B prior to proceeding to Level IV and enrolment in ISCI 4A12 A/B.
- Students who have successfully completed the required ISCI courses and whose Grade Point Average is between 4.5 and 4.9, may remain in the program but will be placed on Program Probation for one reviewing period. Students may be on Program Probation only once during the program.
 - The University reserves the right to grant admission to a limited number of students and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.

REQUIREMENTS: 30 UNITS

24 UNITS

- ISCI 1A24 A/B - Integrated Science I (See *Program Note 7* above.)

6 UNITS

- Electives (See *Program Notes 5* and *6* above.)

LIFE SCIENCES GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar.** Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Life Sciences, students should complete the courses recommended below.

PROGRAM NOTES

- Students without Grade 12 Calculus and Vectors U must complete MATH 1F03.
- CHEM 1R03 serves as the prerequisite for CHEM 1A03 for those students who did not complete Grade 12 Chemistry U.
- WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component and must be completed prior to the first lab.
- BIOSAFE 1BS0, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II

- MATH 1MM3 - Applied Calculus
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

9 UNITS

from:

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

3 UNITS

from:

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from:

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

9 UNITS

from

- the *Science I Course List*

6 UNITS

- Electives (See *Program Notes 1 and 2* above.)

MATHEMATICS AND STATISTICS GATEWAY

ADMISSION

Prior to registration, Level I students must review the admission requirements of the Level II programs they are considering. Courses must be selected carefully to meet the admission requirements for entry to Level II of a specific program. **For details of the various admission requirements see Faculty of Science program descriptions in this section of the Calendar.** Students are also encouraged to review the McMaster Academic Planner (MAP) at www.mapsci.ca. Additionally, in late June and early July, Academic Advisors from the Office of the Associate Dean of Science (Academic) are readily available to provide Level I students with academic advice and registration assistance. To maximize the selection of Level II programs from the disciplines of Mathematics and Statistics, students should complete the courses recommended below.

PROGRAM NOTES

1. MATH 1A03 and 1AA3 or MATH 1LS3 and 1LT3 may be used as substitutions for MATH 1X03 and 1XX3 for consideration to Level II Mathematics and Statistics programs for students from other Level I programs. However, Mathematics and Statistics Gateway students are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.
2. With the exception of COMPSCI 1TA3, students may substitute a Level I Computer Science course for the 3 units required from the Faculty of Science.
3. Completion of COMPSCI 1MD3 or MATH 1MP3 is required for admission to the Honours Mathematics and Computer Science program.

4. Completion of ECON 1B03 and 1BB3 is required by the end of Level II for the Honours Actuarial and Financial Mathematics program. Completion in Level I is recommended.
5. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level 1 courses with a lab component and must be completed prior to the first lab.
6. BIOSAFE 1B50, a mandatory on-line introduction to bio-safety lab training, is a co-requisite to BIOLOGY 1A03 and must be completed prior to the first lab.

SCIENCE I COURSE LIST

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics
- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MM3 - Applied Calculus
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

RECOMMENDED COURSES: 30 UNITS

15 UNITS

- MATH 1B03 - Linear Algebra I
- MATH 1C03 - Introduction to Mathematical Reasoning
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II

(See *Program Notes 1 and 3* above.)

3 UNITS

from

- the *Science I Course List* (See *Program Notes 2 and 3* above.)

12 UNITS

- Electives (See *Program Note 4* above.)

Bachelor of Science Kinesiology (Honours)

HONOURS KINESIOLOGY (LEVEL I)

Enrolment in this program is limited.

PROGRAM NOTES

1. Application is made to Level I of the Honours Kinesiology program.
2. Students must complete MATH 1A03 or 1LS3 by the end of Level II.
3. PHYSICS 1A03 serves as excellent preparation for KINESIOL 2A03,

especially for students who did not complete Grade 12 Physics U. Completion in Level I is recommended.

4. Upon completion of Level I Honours Kinesiology, including KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03, students must maintain a Grade Point Average of at least 6.0 to continue in the program. Students who do not meet the admission requirements upon completion of Level I Honours Kinesiology will be subject to one of the following:
 - a. Students whose Grade Point Average is between 5.5 and 5.9 may register in the Level II Honours Kinesiology program but will be placed on program probation for one reviewing period.
 - A student may be on program probation only once, including upon admittance, and, therefore, by the next academic review must raise their Grade Point Average to at least 6.0 to continue in the Honours Kinesiology program.
 - b. Students whose Grade Point Average is between 3.5 and 5.4 and/or who have failed to successfully complete each of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 may register in Level II Kinesiology General.
 - Such students must attend a mandatory preregistration session with an Academic Advisor.
 - Students may take the Level II Kinesiology required courses for which the prerequisites have been met.
 - At the next academic review:
 - Students with a Grade Point Average of at least 6.0 and successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 will be eligible to transfer to Honours Kinesiology.
 - Students with a Grade Point Average between 5.5 and 5.9, and successful completion of KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 may transfer to the Honours Kinesiology program, but, will be placed on program probation. Students may be on program probation only once during their program, including upon admittance. By the next academic review, a student on program probation must raise their Grade Point Average to at least 6.0 to continue in the Honours Kinesiology program.
 - Students with a Grade Point Average less than 5.5 and/or who have not successfully completed KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 must transfer to a non-Kinesiology program for which they qualify.
 - c. Students whose Grade Point Average is between 3.0 and 3.4 will be transferred to Sciences Undeclared.
5. WHMIS 1A00, a one-hour mandatory on-line Introduction to Health and Safety course, is a co-requisite to Level I courses with a lab component (KINESIOL 1A03, 1AA3) and must be completed prior to the first lab.
6. *Laboratory Routine Practices*, an on-line module available through Mosaic (Health and Safety Training), must be completed prior to attendance in the first lab associated with each of: KINESIOL 1A03, 1AA3.

REQUIREMENTS: 30 UNITS

15 UNITS

- KINESIOL 1A03 - Human Anatomy and Physiology I
- KINESIOL 1AA3 - Human Anatomy and Physiology II
- KINESIOL 1E03 - Motor Control and Learning
- KINESIOL 1F03 - Human Nutrition and Health
- KINESIOL 1K03 - Foundations in Kinesiology

15 UNITS

- Electives (See *Program Notes 2 & 3* above.)

NOTES APPLICABLE TO ALL HONOURS BIOCHEMISTRY PROGRAMS

- In addition to the Honours Biochemistry program, the Department offers a Specialization in Biomedical Research. The Honours program has a specified set of basic requirements and a wide choice of electives (including those from outside the Faculty of Science), allowing for interdisciplinary studies or the opportunity to complete a Minor in another subject. Alternatively, students may wish to apply to the Biomedical Research Specialization which is strongly recommended for students intending to pursue graduate studies.
- Admission to the Honours Biochemistry program is limited.** Selection is based on academic achievement but requires, as a minimum, completion of the Level I requirements listed below.
- Admission to the Honours Biochemistry - Biomedical Research Specialization program is limited.** Admission to this program begins at Level III and requires, as a minimum, completion of Level II Honours Biochemistry and completion of a supplementary application.
- Transfer between programs is possible at any time, subject to satisfying the admission requirements and availability of space.
- Students considering graduate studies in Biochemistry are recommended to complete one of BIOCHEM 4F09 A/B or 4T15 A/B.

Bachelor of Science (Honours)

HONOURS BIOCHEMISTRY (B.SC.)

Entry last available in September 2022.

Effective September 2022, all Honours Biochemistry programs are administered by the Faculty of Health Sciences and offered as a Bachelor of Health Sciences (B.H.Sc.) degree. Level I students interested in this program will have the choice to apply for either the B.Sc. or B.H.Sc. Students interested in the B.H.Sc. should refer to the Honours Biochemistry (B.H.Sc.) program in the Faculty of Health Sciences section of this Calendar.

Students who enrolled in the Honours Biochemistry (B.Sc.) program prior to September 2022 and are not scheduled to graduate in June 2022, are given the choice to remain in that program or transfer into Honours Biochemistry (B.H.Sc.). Students who choose to remain in Honours Biochemistry (B.Sc.) will graduate at a Faculty of Science convocation and students who transfer to Honours Biochemistry (B.H.Sc.) will graduate at a Faculty of Health Sciences convocation.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the Science I Course List

NOTE

A grade of at least C+ in four of BIOLOGY 1A03, 1M03, CHEM 1A03, 1AA3 and either MATH 1A03 or 1LS3 is required.

PROGRAM NOTES

- Registration in an Honours Biochemistry program does not guarantee access to all courses. Some courses have program restrictions. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
- Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.
- Students who do not complete a research, thesis, or advanced biochemistry laboratory course (BIOCHEM 3A03, 3LA3, 3R06 A/B S, 4F09 A/B, 4T15 A/B, 4Z03) must complete BIOCHEM 4C03.
- Students who entered the program prior to September 2022 can use BIOCHEM 3LA3 towards the Biochemistry Course List.

BIOCHEMISTRY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BD3 - The Black Death
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3CB3 - Emerging Discovery in Cell Biology
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOMEDDC 2C03 - Exploring Careers in Biomedical Sciences
- BIOMEDDC 2W03 - Write Right for Your Science: Scientific Writing for the Biomedical Sciences
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2P03 - Applications of Physical Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- MOLBIOL 3003 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- (See Admission above.)

LEVEL II: 30 UNITS12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the *Biochemistry Course List* (See *Program Note 2* above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

6 units

- Electives

LEVEL III: 30 UNITS3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

- BIOMEDDC 3WR3 - Biochemistry and Biomedical Scientific Writing: Right your Write

9 units

from

- the *Biochemistry Course List* (See *Program Note 2* above.)

3 units

- STATS 2B03 - Statistical Methods for Science

12 units

- Electives

LEVEL IV: 30 UNITS3 units

from

- Level IV Biochemistry courses, excluding:
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 2* above.)

6-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project
- BIOCHEM 4C03 - Inquiry in Biochemistry
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 3* above.)3-12 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022*120 units total (Levels I to IV), of which no more than 48 units may be Level I***LEVEL I: 30 UNITS**30 units

- (See *Admission* above.)

LEVEL II: 30 UNITS12 units

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 units

- BIOLOGY 2C03 - Genetics

3 units

from

- the *Biochemistry Course List* (See *Program Notes 2 & 4* above.)

6 units

- CHEM 20A3 - Organic Chemistry I

- Electives

LEVEL IV: 30 UNITS3 units

from

- Level IV Biochemistry courses, excluding:
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Notes 2 & 4* above.)

6-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project
- BIOCHEM 4C03 - Inquiry in Biochemistry
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Notes 3 & 4* above.)3-12 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS BIOCHEMISTRY - BIOMEDICAL RESEARCH SPECIALIZATION (B.Sc.)

Entry last available in September 2022.

Effective September 2022, all Honours Biochemistry programs will be administered by the Faculty of Health Sciences. Level II students interested in applying to this program should see the Honours Biochemistry (B.H.Sc.) program in the Faculty of Health Sciences section of this Calendar.

Students who enrolled prior to September 2022 are given the choice to remain in Honours Biochemistry - Biomedical Research Specialization (B.Sc.) or transfer into Honours Biochemistry - Biomedical Research Specialization (B.H.Sc.). Students who choose to remain in Honours Biochemistry - Biomedical Research Specialization (B.Sc.) will graduate at a Faculty of Science convocation and students who transfer to Honours Biochemistry - Biomedical Research Specialization (B.H.Sc.) will graduate at a Faculty of Health Sciences convocation.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection and is based on completion of the supplementary application by the stated deadline and academic achievement, but requires, as a minimum, completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 UNITS

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 UNITS

- BIOLOGY 2C03 - Genetics

3 UNITS

from

- the *Biochemistry Course List* (See *Program Note 4* below.)

6 UNITS

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

PROGRAM NOTES

1. Registration in an Honours Biochemistry program does not guarantee access to all courses. Some courses have program restrictions. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
2. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.
3. A 'research intensive' option, available to students registered in this Specialization, offers additional laboratory research experience through completion of BIOCHEM 3R06 A/B S and 4T15 A/B. This option is intended for students planning to pursue graduate studies or a career in research and development. Enrolment in the courses is limited and admission is by selection.
4. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BD3 - The Black Death
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3CB3 - Emerging Discovery in Cell Biology
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of

Macromolecules

- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOMEDDC 2C03 - Exploring Careers in Biomedical Sciences
- BIOMEDDC 2W03 - Write Right for Your Science: Scientific Writing for the Biomedical Sciences
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2P03 - Applications of Physical Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- MOLBIOL 3O03 - Microbial Genetics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Biochemistry

LEVEL III: 30 UNITS

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project

3 units

- BIOMEDDC 3WR3 - Biochemistry and Biomedical Scientific Writing: Right your Write

9 units

from

- the *Biochemistry Course List* (See *Program Note 4* above.)

3 units

- STATS 2B03 - Statistical Methods for Science

6-9 units

- Electives

LEVEL IV: 30 UNITS

3 units

from

- Level IV Biochemistry courses, excluding:
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 4* above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses

- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4003 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 2* above.)

3-6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Biochemistry

LEVEL III: 30 UNITS

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- BIOCHEM 3A03 - Biochemical Research Practice
- BIOCHEM 3LA3 - Advanced Biochemistry Techniques
- BIOCHEM 3R06 A/B S - Research Project

12 units

from

- the *Biochemistry Course List* (See *Program Note 4* above.)

3 units

- STATS 2B03 - Statistical Methods for Science

6-9 units

- Electives

LEVEL IV: 30 UNITS

3 units

from

- Level IV Biochemistry courses, excluding:
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 4* above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4003 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 2* above.)

3-6 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS BIOCHEMISTRY - BIOMEDICAL RESEARCH SPECIALIZATION CO-OP (B.SC.)

Entry at Level III last available in September 2022.

Effective September 2022, all Honours Biochemistry programs will be administered by the Faculty of Health Sciences. Level II students interested in applying to this program should see the Honours Biochemistry (B.H.Sc.) program in the Faculty of Health Sciences section of this Calendar.

Students who enrolled prior to September 2022 are given the choice to remain in Honours Biochemistry - Biomedical Research Specialization Co-op (B.Sc.) or transfer into Honours Biochemistry - Biomedical Research Specialization Co-op (B.H.Sc.). Students who choose to remain in Honours Biochemistry - Biomedical Research Specialization Co-op (B.Sc.) will graduate at a Faculty of Science convocation and students who transfer to Honours Biochemistry - Biomedical Research Specialization Co-op (B.H.Sc.) will graduate at a Faculty of Health Sciences convocation.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Biochemistry with a Grade Point Average of at least 5.0 and completion of the following courses:

12 UNITS

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques

3 UNITS

- BIOLOGY 2C03 - Genetics

3 UNITS

from

- the *Biochemistry Course List* (See *Program Note 6* below.)

6 UNITS

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

1 COURSE

- SCIENCE 2D00 - Skills for Career Success in Biochemistry (or SCIENCE 2C00)

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in biochemistry related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2D00 (or SCIENCE 2C00) prior to the Fall Term of Level III. Students are required to complete SCIENCE 3D00 (or SCIENCE 3C00) before the first work placement.
4. Registration in an Honours Biochemistry program does not guarantee access to all courses. Some courses have program restrictions. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
5. Completion of one of BIOCHEM 4F09 A/B, 4T15 A/B or 4Z03 is required in Level IV.
6. Both CHEMBIO 2A03 and 2P03 are highly recommended for students interested in pursuing an undergraduate thesis or graduate studies in

biophysical chemistry.

BIOCHEMISTRY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BD3 - The Black Death
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3CB3 - Emerging Discovery in Cell Biology
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4J03 - Immunological Principles in Practice
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOMEDDC 2C03 - Exploring Careers in Biomedical Sciences
- BIOMEDDC 2W03 - Write Right for Your Science: Scientific Writing for the Biomedical Sciences
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2P03 - Applications of Physical Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- MOLBIOL 3O03 - Microbial Genetics

REQUIREMENTS FOR STUDENTS WHO ENTER IN SEPTEMBER 2022 OR PRIOR

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

Completion of Level II Honours Biochemistry, including completion of:

- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- Level IV Biochemistry courses, excluding:
- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

9 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

12-15 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

which must include one of:

- BIOCHEM 4F09 A/B - Senior Thesis
- BIOCHEM 4T15 A/B - Senior Thesis
- BIOCHEM 4Z03 - Senior Project

(See *Program Note 5* above.)

3-6 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- the *Biochemistry Course List* (See *Program Note 6* above.)

6 units

from

- Levels III, IV Biochemistry, Biology, Chemical Biology, Chemistry, Molecular Biology courses
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- HTHSCI 4O03 - Principles of Virus Pathogenesis

3 units

- Electives

CO-OP PROGRAM CHART (FOR STUDENTS WHO ENTER IN SEPTEMBER 2022 OR PRIOR)

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

Minor(s):

MINOR IN BIOCHEMISTRY

NOTES

1. Students who have already completed CHEM 2BA3 and 2BB3 may substitute these courses for CHEM 20A3 and 20B3.
2. ISCI 1A24 A/B is a substitution for CHEM 1A03 and 1AA3.
3. ISCI 2A18 A/B is a substitution for 3 units of Level II Biochemistry toward the Minor in Biochemistry.
4. In order to obtain a Minor in Biochemistry at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

(See *Note 2* above.)

6 UNITS

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

(See *Note 1* above.)

6 UNITS

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- HTHSCI 2E03 - Inquiry II: Biochemistry

(See *Note 3* above.)

6 UNITS

- Levels III, IV Biochemistry

Notes Applicable to all Honours Biology Programs

1. The department offers the following Honours programs:

- Honours Biodiversity and Environmental Sciences
- Honours Biology Core
- Honours Biology Research Specialization
- Honours Biology - Physiology Core (First available in September 2023)
- Honours Biology - Physiology Research Specialization
- Honours Biology and Psychology, Neuroscience & Behaviour
- Honours Biology and Mathematics
- Honours Molecular Biology and Genetics Core (First available in September 2023)
- Honours Molecular Biology and Genetics Research Specialization
- Honours Molecular Biology and Genetics Research Specialization Co-op (entry at Level III)

As well, Honours Neuroscience is offered jointly with the Department of Psychology, Neuroscience & Behaviour. (See *Department of Psychology, Neuroscience & Behaviour* section of the Calendar for program details.)

All options are suitable for students wishing to pursue graduate studies in Biology.

2. Transfer between programs is possible, subject to satisfying the admission requirements and availability of space.
3. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing Level II and III courses.
4. Students wishing to include more mathematical statistics may replace

STATS 2B03 with 2D03, 2MB3. In this case, students are advised to complete MATH 1AA3 or 1LT3 in Level I.

5. Students considering graduate studies in Biology are recommended to complete BIOLOGY 2L03 and either BIOLOGY 4C12 A/B S or 4F06 A/B S.

B.SC. THREE-LEVEL DEGREE

A three-level program with a general Life Sciences orientation is available through the B.Sc. in Life Sciences.

Bachelor of Science (Honours)

HONOURS BIODIVERSITY AND ENVIRONMENTAL SCIENCES (B.SC.)

Program has been renamed Honours Biodiversity and Environmental Sciences (B.Sc.).

Students who enrolled prior to September 2021 are given the choice to remain in Honours Biology and Environmental Sciences or transfer into Honours Biodiversity and Environmental Sciences.

Honours Biodiversity and Environmental Sciences is a flexible program that enables students to obtain an understanding of how a variety of organisms are able to adapt to their changing environments at the community and ecosystem levels. Offered jointly by the Department of Biology and the School of Earth, Environment & Society, this program enables students to select courses according to their interests; to develop broad knowledge, and understanding of the linkages between biodiversity and environmental processes; and to apply these to questions of biological, biomedical, or environmental interests. This program prepares students for graduate studies, careers in industry or academic research laboratories.

ADMISSION NOTE

Students are strongly recommended to take CHEM 1A03 and 1AA3 in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from the following courses, with a grade of at least C+

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

12 UNITS

from

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- COMPSCI 1JC3 - Introduction to Computational Thinking
- COMPSCI 1MD3 - Introduction to Programming
- COMPSCI 1XA3
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- LIFESCI 1D03 - Medical Imaging Physics

- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- MEDPHYS 1E03
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

(See *Admission Note* above.)

PROGRAM NOTES

1. The Biodiversity and Environmental Sciences program allows students (especially those focused on ecology and conservation) to choose Biology and Environmental Science courses that reflect their own interests. Students are strongly encouraged to discuss their course selections with an academic program advisor in the Department of Biology or the School of Earth, Environment & Society.
2. Prerequisites for upper year courses must be checked carefully when selecting courses in Level II. Biochemistry and Organic Chemistry prerequisites exist in many upper year biology courses. Students are encouraged to take six units from CHEM 2E03, 2OA3, 2OB3 (or CHEM 2OC3, 2OD3, 2OG3).
3. Students interested in completing a thesis may take one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B in Level IV, subject to meeting the prerequisites. Students considering graduate studies are recommended to complete a thesis course.
4. Only one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B may be completed as part of the program requirements. Completion of EARTHSC 3RD3 in Level III is required preparation for EARTHSC 4MT6 A/B.

COURSE LIST 1

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3ET3 - Ecotoxicology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2BC3 - Making Chemistry More Sustainable
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- LIFESCI 2X03 - Environmental Change and Human Health
- PSYCH 3T03 - Behavioural Ecology

COURSE LIST 2

- EARTHSC 2E03 - Earth History
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Sedimentary Environments

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4P03
- EARTHSC 4VV3
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3ME3 - Environmental Field Camp
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCY 2GI3 - Geographic Information Systems
- ENVSOCY 3EE3 - Energy and Society
- ENVSOCY 3GI3 - Advanced Raster GIS
- ENVSOCY 3GV3 - Advanced Vector GIS
- ENVSOCY 3MB3 - Data Analysis
- ENVSOCY 3SR3 - Remote Sensing
- ENVSOCY 4GA3 - Applied Spatial Statistics
- ENVSOCY 4HH3 - Environment and Health
- ENVSOCY 4SR3 - Advanced Remote Sensing
- GEOG 2EI3
- GEOG 2GI3
- GEOG 3EE3
- GEOG 3GI3
- GEOG 3GV3
- GEOG 3MB3
- GEOG 3SR3
- GEOG 4GA3
- GEOG 4HH3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

9 units

from

- BIOLOGY 2F03 - Fundamental and Applied Ecology
- ENVIRSC 2W03 - Physical Hydrology
- ENVSOCY 2GI3 - Geographic Information Systems
- GEOG 2GI3

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- ENVSOCY 3MB3 - Data Analysis

- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- LIFESCI 2X03 - Environmental Change and Human Health

3 units

from

- EARTHSC 2E03 - Earth History
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry

9 units

- Electives

LEVEL III: 30 UNITS

6 units

from

- BIOLOGY 3EI3 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3ME3 - Environmental Field Camp

6 units

from

- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3EI3 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- ENVIRSC 3B03 - Ecosystems and Global Change

6 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3W03 - Physical Hydrogeology
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03
- ENVSOCY 3GI3 - Advanced Raster GIS
- ENVSOCY 3GV3 - Advanced Vector GIS
- ENVSOCY 3SR3 - Remote Sensing
- GEOG 3GI3
- GEOG 3SR3

12 units

- Electives

LEVEL IV: 30 UNITS

6 units

from

- *Course List 1 or Course List 2*

6 units

- Levels III, IV courses from *Course List 2*

6 units

- Levels III, IV Biology, Molecular Biology courses

3 units

- ENVIRSC 4EA3 - Environmental Assessment

9 units

- Electives

HONOURS BIOLOGY - PHYSIOLOGY CORE (B.SC.)

Program is first available in September 2023.

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the *Science I Course List*

PROGRAM NOTES

1. The Honours Biology - Physiology Core program allows students to choose Biology courses that reflect their own Physiology-related interests. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. It is recommended that students take both PSYCH 1X03 and 1XX3 if they are interested in upper level Psychology courses.
3. Completion of BIOLOGY 2A03 is required by the end of Level II.
4. Completion of STATS 2B03 is required by the end of Level III.

PHYSIOLOGY COURSE LIST

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 3ZZ3 - Topics in Physiology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- BIOLOGY 4X03 - Environmental Physiology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- KINESIOL 2C03 - Neuromuscular Exercise Physiology
- KINESIOL 2CC3 - Cardiorespiratory and Metabolic Exercise Physiology
- KINESIOL 4C03 - Integrative Physiology of Human Performance
- LIFESCI 3AA3 - Human Pathophysiology

- MOLBIOL 3M03 - Fundamental Concepts of Development
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 3A03 - Audition
- PSYCH 3FA3 - Neuroscience of Learning and Memory

EXPERIENTIAL LEARNING COURSE LIST

- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3E13 - Ecological Indicators
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4IR3 - Advanced Independent Research Project
- BIOLOGY 4J03 - Field Biology II
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3V03 - Techniques in Molecular Genetics
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4G12 A/B S - Senior Thesis

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

12 units

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

9 units

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3UU3 - Animal Physiology - Regulatory Systems

3 units

from

- the *Experiential Learning Course List*

3 units

from

- Level IV Biology or Molecular Biology courses

24 units

from

- the *Physiology Course List*

27 units

- Electives

HONOURS BIOLOGY - PHYSIOLOGY RESEARCH SPECIALIZATION (B.SC.)

This program has been renamed Honours Biology - Physiology Research Specialization (B.Sc.).

Students who enrolled prior to September 2022 will be given the choice to remain in Honours Biology - Physiology or transfer into Honours Biology - Physiology Research Specialization.

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the Science I Course List

PROGRAM NOTES

1. The Honours Biology - Physiology Research Specialization program allows students to choose Biology courses which reflect their own Physiology-related interests and includes additional lab and/or field and research experience as compared to the Honours Biology - Physiology Core program. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. It is recommended that students take both PSYCH 1X03 and 1XX3 if they are interested in upper level Psychology courses.
3. All students must take BIOLOGY 2A03 in Level II.
4. Completion of BIOLOGY 4C12 A/B S or 4F06 A/B S is required in Level IV. Students who do not obtain the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology Core program. Effective September 2023, students denied permission may not continue in the program and must apply to transfer to the Honours Biology - Physiology Core program. Effective September 2023, students who are not interested in completing BIOLOGY 4C12 A/B S or 4F06 A/B S may transfer to the Honours Biology - Physiology Core program.
5. Completion of STATS 2B03 by the end of Level III is required.
6. Completion of BIOLOGY 3ZZ3 by the end of Level III is recommended.
7. Students are strongly encouraged to complete two of BIOLOGY 3XL3, 4T03,

4X03. Additional units from this list may be used towards the Physiology Course List requirement.

8. Students who entered the program prior to September 2022 can use BIOLOGY 3DD3, 3FF3, 3R03, 3SS3, MEDPHYS 4B03, PSYCH 2NF3, 3F03, 3T03 towards the Physiology Course List.

PHYSIOLOGY COURSE LIST

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 3ZZ3 - Topics in Physiology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- BIOLOGY 4X03 - Environmental Physiology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- KINESIOL 2C03 - Neuromuscular Exercise Physiology
- KINESIOL 2CC3 - Cardiorespiratory and Metabolic Exercise Physiology
- KINESIOL 4C03 - Integrative Physiology of Human Performance
- LIFESCI 3AA3 - Human Pathophysiology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 3A03 - Audition
- PSYCH 3FA3 - Neuroscience of Learning and Memory

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

12 units

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2C03 - Genetics
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 5* above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

12 units

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3UU3 - Animal Physiology - Regulatory Systems
- BIOLOGY 3ZZ3 - Topics in Physiology

(See *Program Note 6* above.)

3 units

from

- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- BIOLOGY 4X03 - Environmental Physiology

(See *Program Note 7* above.)

30 units

from

- the *Physiology Course List*

which must include one of:

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See *Program Note 4* above.)

21 units

- Electives

HONOURS BIOLOGY AND MATHEMATICS (B.SC.)

ADMISSION NOTE

MATH 1B03 must be completed by the end of Level II. Completion in Level I is strongly recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

PROGRAM NOTES

1. Students may seek academic advising for this program in either the Department of Mathematics and Statistics or the Department of Biology.
2. Completion of MATH 1B03 (or 1ZC3) is required by the end of Level II. Completion in Level I is strongly recommended.
3. While not required for this program, PHYSICS 1A03, 1C03, CHEM 1A03, 1AA3 and one of CHEM 2BA3, 2E03, 2OA3, CHEMBIO 2OA3 are prerequisites for many courses in Biology.
4. Students who wish to complete MATH 4MB3* must complete MATH 3F03. Students are advised to check requisites carefully when choosing Level II and III courses.
5. Many of the courses in the *Course List* have additional prerequisites. Students are advised to check the Course Listings section of this Calendar.
6. Students considering graduate studies in Biology are recommended to complete BIOLOGY 4C12 A/B S or 4F06 A/B S. Students taking BIOLOGY 4C12 A/B S or 4F06 A/B S may be supervised by faculty from the Department of Mathematics & Statistics as long as they are co-supervised by faculty from the Department of Biology.
7. Students considering graduate studies in Mathematics are strongly

recommended to complete MATH 3GR3, 3NA3, 3X03, 4A03, 4GR3* and 4MB3*.

COURSE LIST

- BIOPHYS 3D03 - Origin of Life
- BIOPHYS 3G03 - Modelling Life
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4KK3 - Bayesian Inference
- PSYCH 4R03 - Special Topics in Animal Behaviour

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

3 units

- BIOLOGY 2C03 - Genetics

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

3 units

from

- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- BIOLOGY 3SS3 - Population Ecology

0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Program Note 2* above.)

9 units

- MATH 2X03 - Advanced Calculus I
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

6 units

from

- MATH 2C03 - Introduction to Differential Equations
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra
- MATH 2XX3 - Advanced Calculus II

(See *Program Notes 4* and *7* above.)

3 units

- MATH 3MB3 - Introduction to Modelling

3 units

from

- MATH 3A03 - Real Analysis I
- MATH 3DC3* - Discrete Dynamical Systems and Chaos
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3IA3 - Introduction to Analysis
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3U03* - Combinatorics
- MATH 3V03* - Graph Theory
- MATH 3X03 - Complex Analysis I
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3U03* - Stochastic Processes

(See *Program Note 7* above.)

3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

9 units

from

- *Course List*

(See *Program Note 5* above.)

12 units

from

- Levels III, IV Mathematics, Statistics, Biology, Molecular Biology courses which must include one of
 - BIOLOGY 4C12 A/B S - Senior Thesis
 - BIOLOGY 4F06 A/B S - Senior Project
 - MATH 4MB3* - Mathematical Biology

(See *Program Notes 4, 6* and *7* above.)

30-33 units

- Electives

HONOURS BIOLOGY AND PHARMACOLOGY CO-OP (B.SC.)

Effective September 2018, the Honours Biology and Pharmacology Co-op program is administered by the Faculty of Health Sciences. Students interested in applying to this program should see the Honours Biology and Pharmacology program (B.H.Sc.) in the Faculty of Health Sciences section of the Calendar. Students who are currently registered in the program, seeking the B.Sc. (Hons) degree, should refer to the 2017-2018 Undergraduate Calendar or their personal Advisement Reports for program requirements. Such students will graduate at a Faculty of Science convocation.

HONOURS BIOLOGY AND PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.SC.)

ADMISSION NOTES

1. One of PHYSICS 1A03 or 1C03 is required for admission.
2. Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended.
3. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II, however, PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of 7.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See *Admission Note 2* above.)

6 UNITS

from the following courses, where an average of at least 7.0 (between the courses) is required

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- the Science I Course List (See *Admission Note 3* above.)

PROGRAM NOTES

1. Academic advising for this program is shared by the Departments of Biology and Psychology, Neuroscience & Behaviour. Information may be obtained through the Undergraduate Advisors in the Life Sciences Building, Room 118 or Psychology Building, Room 109.
2. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B) and Independent Research and Library courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4QQ3 A/B S, 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at www.pnb.mcmaster.ca.
3. Students who have not obtained the minimum Grade Point Average as stated in the prerequisite of one of BIOLOGY 4C12 A/B S, 4F06 A/B S, PNB 4D06 A/B or 4D09 A/B may request a requisite waiver from the Undergraduate Associate Chair of the Department. Students denied permission may not continue in the program and must apply to transfer to Honours Biology or Honours Psychology, Neuroscience & Behaviour and apply to graduate with a Minor in the alternate subject area.
4. Both PNB 2XD3, 2XF3 are highly recommended but not required. PNB 2XD3 is included in the Psychology Course List and may be used towards the Level III Psychology requirements.

BIOLOGY COURSE LIST

- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4Q03 - Biochemical Pharmacology
- all Level II, III and IV Biology and Molecular Biology courses
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- CHEMBIO 3BM3 - Implanted Biomaterials
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4BB3 - Neuroimmunology
- HTHSCI 4I13 - Advanced Concepts in Immunology

PSYCHOLOGY COURSE LIST

- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MP3 - Introduction to Music Cognition
- all Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits

- PNB 2A03 - Python for PNB
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PSYCH 2MP3 - Introduction to Music Cognition
- all Level III and IV PNB courses
- all Level III and IV PSYCH courses (PSYCH 2AA3, 2AP3, 2B03, 2C03, 2E03, 2GG3, 2NF3, 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as elective credit.)

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)**LEVELS II-IV: 90 UNITS**

9 units

- BIOLOGY 2C03 - Genetics
- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

15 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XT0 - PNB Tutorial
- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

3 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

12 units

from

- Levels III, IV Biology or Molecular Biology courses, which must include at least three units of Level IV

3 units

from

- the *Psychology Course List* (See *Program Note 4* above.)

27 units

from

- the *Biology Course List* or Levels III, IV from the *Psychology Course List* (including at least nine units from the *Biology Course List* and at least nine units of Levels III, IV from the *Psychology Course List*)

and which must include one of

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- PNB 4D06 A/B - Senior Thesis
- PNB 4D09 A/B - Senior Honours Thesis
- PNB 4DD6 A/B

(See *Program Notes 2 and 3* above.)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 3* above.)

15-18 units

- Electives (See *Program Note 4* above.)

NOTE

Students who entered the program prior to September 2019 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS BIOLOGY CORE (B.SC.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the Science I Course List

PROGRAM NOTES

1. The Honours Biology program allows students to choose Biology courses which reflect their own interests. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. Students who wish to take Level III or IV Biochemistry or Chemistry courses should take both CHEM 20A3 and 20B3. Students are advised to check prerequisites carefully.
3. Students must complete nine units from BIOLOGY 2A03, 2B03, 2D03, 2EE3, 2F03. Additional units from this list may be used towards the Biology course list requirement.
4. Completion of STATS 2B03 by the end of Level III is required.
5. Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2EE3, 4PP3, MOLBIOL 3003, 3V03, 4P03.
6. Students interested in biodiversity and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2C03, 2D03, 2F03, 3DD3, 3ET3, 3FF3, 3PG3, 4AA3, ENVSOCTY 2GI3.

BIOLOGY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3FA3 - Forensic Anthropology
- ARTSSCI 4CF3 - How Science Speaks to Power
- all Biology and Molecular Biology Level II, III and IV courses
- all Biochemistry courses for which the prerequisites are met
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- BIOPHYS 3G03 - Modelling Life

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 30A3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 40A3 - Natural Products
- CHEMBIO 40B3 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 2E03 - Earth History
- EARTHSC 4FF3 - Topics of Field Research
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4GA3
- ENVSOCTY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCTY 2GI3 - Geographic Information Systems
- ENVSOCTY 3GI3 - Advanced Raster GIS
- GEOG 2EI3
- GEOG 2GI3
- GEOG 3GI3
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I3 - Advanced Concepts in Immunology
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3K03 - Neural Control of Human Movement
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- MEDPHYS 4U03 - Radiation Biology
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2NF3 - Clinical Neuropsychology
- PSYCH 3A03 - Audition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3SE3 - Comparative Social Evolution
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4R03 - Special Topics in Animal Behaviour
- SCIENCE 2P03 - Impactful Initiatives in Health

EXPERIENTIAL LEARNING COURSE LIST

- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3EI3 - Ecological Indicators
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4IR3 - Advanced Independent Research Project
- BIOLOGY 4J03 - Field Biology II
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3V03 - Techniques in Molecular Genetics
- MOLBIOL 3Y03 - Plant Responses to the Environment

- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4G12 A/B S - Senior Thesis

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OC3
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules

3 units

from

- the *Experiential Learning Course List*

15 units

from

- Levels III, IV Biology or Molecular Biology courses, which must include at least six units of Level IV

15 units

from

- the *Biology Course List* (See *Program Note 3* above.)

39 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 3* above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OC3
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules

15 units

from

- the *Biology Course List* (See *Program Note 3* above.)

18 units

from

- Levels III, IV Biology or Molecular Biology courses, which must include at least three units of Level IV

And one of:

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

OR

- Levels III, IV Biology or Molecular Biology courses, which must include at least six units of Level IV

39 units

- Electives

HONOURS BIOLOGY RESEARCH SPECIALIZATION (B.SC.)

This program has been renamed Honours Biology Research Specialization (B.Sc.).

Students who enrolled prior to September 2022 will be given the choice to remain in Honours Biology - Discovery Sub-Plan or transfer into Honours Biology Research Specialization.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the *Science I Course List*

PROGRAM NOTES

1. The Honours Biology Research Specialization program allows students to choose Biology courses which reflect their own interests and includes additional lab and/or field and research experience as compared to the Honours Biology Core program. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. Students who wish to take Level III or IV Biochemistry and Chemistry courses should take both CHEM 2OA3 and 2OB3. Students are advised to check prerequisites carefully.
3. Students must complete nine units from BIOLOGY 2A03, 2B03, 2D03, 2EE3,

2F03. Additional units from this list may be used towards the Biology course list requirement.

4. In addition, for students who enter Level II of the program as of September 2022, BIOLOGY 2L03 must be completed in Level II.
5. Completion of STATS 2B03 by the end of Level III is required.
6. Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2EE3, 4PP3, MOLBIOL 3O03, 3V03, 4P03.
7. Students interested in biodiversity and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 2C03, 2D03, 2F03, 3DD3, 3ET3, 3FF3, 3PG3, 4AA3, ENVSOCY 2E13.
8. Honours Biology Research Specialization students who entered the program prior to September 2022 are required to complete nine units from the list of lab and field offerings listed below, however, additional units are recommended. Effective September 2022, Honours Biology Research Specialization students are required to complete BIOLOGY 2L03 and six units from the list of lab and field offerings listed below, however, additional units are recommended. When completed, the additional units may be used towards the Level III and IV Biology and Molecular Biology program requirements.
9. Honours Biology Research Specialization students must complete one of BIOLOGY 4C12 A/B S or 4F06 A/B S. Students who have not obtained the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology Core program. Students who are not interested in completing BIOLOGY 4C12 A/B S or 4F06 A/B S may transfer to the Honours Biology Core program.

BIOLOGY COURSE LIST

- ANTHROP 2U03 - Plagues and People
- ANTHROP 3FA3 - Forensic Anthropology
- ARTSSCI 4CF3 - How Science Speaks to Power
- all Biology and Molecular Biology Level II, III and IV courses
- all Biochemistry courses for which requisites are met
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3D03 - Origin of Life
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- EARTHSC 2E03 - Earth History
- EARTHSC 4FF3 - Topics of Field Research
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4GA3
- ENVSOCY 2E13 - Environment & Society: Challenges and Solutions
- ENVSOCY 2GI3 - Geographic Information Systems
- ENVSOCY 3GI3 - Advanced Raster GIS
- GEOG 2E13
- GEOG 2GI3
- GEOG 3GI3
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3K03 - Neural Control of Human Movement
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- MEDPHYS 4U03 - Radiation Biology
- NEUROSCI 3SN3 - Neural Circuits
- PSYCH 2E03 - Sensory Processes
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2NF3 - Clinical Neuropsychology
- PSYCH 3A03 - Audition
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3SE3 - Comparative Social Evolution
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 4R03 - Special Topics in Animal Behaviour
- SCIENCE 2P03 - Impactful Initiatives in Health

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See Admission above.)

LEVELS II-IV: 90 UNITS

3 units

- BIOLOGY 2C03 - Genetics

3 units

- STATS 2B03 - Statistical Methods for Science

(See Program Note 5 above.)

9 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See Program Note 3 above.)

3 units

- BIOLOGY 2L03 - Experimental Design in Biology

(See Program Note 4 above.)

3 units

from

- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules

12 units

from

- the *Biology Course List* (See Program Notes 3 and 8 above.)

18 units

from

- Levels III, IV Biology, Molecular Biology courses

which must include one of

- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project

(See Program Notes 8 and 9 above.)

3 units

from

- Level IV Biology, Molecular Biology courses

6 units

from

- BIOLOGY 3B03 - Plant Physiology

- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3MM3 - Invertebrate Form and Function
- BIOLOGY 3R03 - Field Biology I /BIOLOGY 3RF0 - Field Work I
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3XL3 - Comparative Vertebrate Anatomy & Physiology
- BIOLOGY 4J03 - Field Biology II /BIOLOGY 4JF0 - Field Work II
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3V03 - Techniques in Molecular Genetics

(See *Program Note 8* above.)

30 units

- Electives (See *Program Note 2* above.)

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

- Electives (See *Program Note 2* above.)

HONOURS MOLECULAR BIOLOGY AND GENETICS CORE (B.SC.)

Program is first available in September 2023.

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 by the end of Level II is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note* above.)

6 UNITS

from

- the *Science I Course List* (See *Admission Note* above.)

PROGRAM NOTES

1. The Honours Molecular Biology and Genetics Core program allows students to choose Biology courses that reflect their own Molecular Biology-related interests. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. BIOLOGY 2B03, 2EE3 and MOLBIOL 2C03 must be completed in Level II.
3. Six units of BIOLOGY 2A03, 2D03, 2F03, 3FF3 are required. However, completion of at least nine units is recommended.
4. Completion of STATS 2B03 is required for admission to the Honours Molecular Biology and Genetics Research Specialization (Co-op) program and therefore, students intending to apply for the Co-op option must complete STATS 2B03 in Level II.
5. Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 4PP3, MOLBIOL 4P03.

MOLECULAR BIOLOGY AND GENETICS COURSE LIST I

- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project

- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4DD3 - Molecular Evolution
- MOLBIOL 4ED3 - Evolutionary Developmental Biology
- MOLBIOL 4H03 - Molecular Biology of Cancer
- MOLBIOL 4K03 - Research Advances in Biology of Aging
- MOLBIOL 4P03 - Medical Microbiology
- MOLBIOL 4RR3 - Human Genetics

MOLECULAR BIOLOGY AND GENETICS COURSE LIST II

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3PG3 - Population Genetics
- BIOLOGY 4EE3 - Human Diversity and Human Nature
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I13 - Advanced Concepts in Immunology

EXPERIENTIAL LEARNING COURSE LIST

- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3EI3 - Ecological Indicators
- BIOLOGY 3EP3 A/B S - Applied Biology Placement
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3IR3 A/B S - Independent Research Project
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4C12 A/B S - Senior Thesis
- BIOLOGY 4F06 A/B S - Senior Project
- BIOLOGY 4IR3 - Advanced Independent Research Project
- BIOLOGY 4J03 - Field Biology II
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3V03 - Techniques in Molecular Genetics
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4G12 A/B S - Senior Thesis

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 4* above.)

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3FF3 - Evolution

(See *Program Note 3* above.)

21 units

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOLOGY 3S03 - An Introduction to Bioinformatics
- MOLBIOL 2C03 - Genetics
- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3I13 - Molecular Genetics of Eukaryotes
- MOLBIOL 3O03 - Microbial Genetics

(See *Program Note 2* above.)

3 units

from

- the *Experiential Learning Course List*

9 units

from

- the *Molecular Biology and Genetics Course List I*, which must include at least three units of Level IV

12 units

from

- the *Molecular Biology and Genetics Course List I or II*

30 units

- Electives (See *Program Note 3* above.)

HONOURS MOLECULAR BIOLOGY AND GENETICS RESEARCH SPECIALIZATION (B.SC.)

This program has been renamed **Honours Molecular Biology and Genetics Research Specialization (B.Sc.)**.

Students who enrolled prior to September 2022 will be given the choice to remain in Honours Molecular Biology and Genetics or transfer into Honours Molecular Biology and Genetics Research Specialization.

ADMISSION NOTE

One of PHYSICS 1A03 or 1C03 is required for admission. Completion of PHYSICS 1AA3 or 1CC3 by the end of Level II is also recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note* above.)**6 UNITS**

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. The Honours Molecular Biology and Genetics Research Specialization program allows students to choose Biology courses which reflect their own Molecular Biology-related interests and includes additional lab and/or field and research experience. Students are encouraged to discuss their course selections with a Biology academic program advisor.
2. BIOLOGY 2B03, 2EE3 and MOLBIOL 2C03 must be completed in Level II.
3. Six units of BIOLOGY 2A03, 2D03, 2F03, 3FF3 are required. However, completion of at least nine units is recommended.
4. Completion of STATS 2B03 is required for admission to the Honours Molecular Biology and Genetics Research Specialization (Co-op) program and therefore, students intending to apply for the Co-op option must complete STATS 2B03 in Level II.
5. Students interested in microbiology and biotechnology and especially those considering postgraduate studies in this area should take the following courses: BIOLOGY 4PP3, MOLBIOL 4P03.
6. BIOLOGY 2L03, MOLBIOL 3A03 and 3I03 A/B S are recommended as preparatory courses for MOLBIOL 4G12 A/B S.
7. Completion of MOLBIOL 4G12 A/B S is required in Level IV. Students who entered the program prior to September 2021, will have the choice to complete BIOLOGY 4C12 A/B S or 4F06 A/B S to meet this requirement. Students who have not obtained the minimum Grade Point Average as stated in the prerequisite, may request a requisite waiver from the Undergraduate Associate Chair. Students denied permission may not continue in the program and must apply to transfer to the Honours Biology Core program. Effective September 2023, students denied permission may not continue in the program and will be transferred to the Honours Molecular Biology and Genetics Core program.
8. Effective September 2023, students who are not interested in completing MOLBIOL 4G12 A/B S may transfer to the Honours Molecular Biology and Genetics Core program.

MOLECULAR BIOLOGY AND GENETICS COURSE LIST I

- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4DD3 - Molecular Evolution
- MOLBIOL 4ED3 - Evolutionary Developmental Biology
- MOLBIOL 4H03 - Molecular Biology of Cancer
- MOLBIOL 4K03 - Research Advances in Biology of Aging
- MOLBIOL 4P03 - Medical Microbiology
- MOLBIOL 4RR3 - Human Genetics

MOLECULAR BIOLOGY AND GENETICS COURSE LIST II

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOLOGY 2A03 - Integrative Physiology of Animals

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

- Electives (See *Program Note 3* above.)

HONOURS MOLECULAR BIOLOGY AND GENETICS RESEARCH SPECIALIZATION CO-OP (B.SC.)

This program has been renamed **Honours Molecular Biology and Genetics Research Specialization Co-op (B.Sc.)**.

Students who enrolled prior to September 2022 will be given the choice to remain in Honours Molecular Biology and Genetics Co-op or transfer into Honours Molecular Biology and Genetics Research Specialization Co-op.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, completion of Level II of an Honours Molecular Biology and Genetics program with a Grade Point Average of at least 5.0 and completion of the following courses:

9 UNITS

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- MOLBIOL 2C03 - Genetics

6 UNITS

from

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

6 UNITS

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 UNITS

- STATS 2B03 - Statistical Methods for Science

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

1 COURSE

- SCIENCE 2C00 - Skills for Career Success in Science

NOTES

1. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. (It is anticipated that a Grade Point Average of at least 8.0 will be required.) Information about this program and the selection procedure can be obtained from Science Career and Cooperation Education Office.
2. BIOLOGY 2A03 is only available as a Winter Term offering and, therefore, completion in Level II (prior to admission to the Co-op program) is strongly recommended for students who intend to complete this course.

PROGRAM NOTES

1. This is a five-level (year) co-op program, which includes two eight-month work terms which must be spent in molecular biology and genetics related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Students should seek academic advising for this program in the Department of Biology.
5. Completion of BIOLOGY 2B03 and MOLBIOL 2C03 is required prior to admission to this program.
6. STATS 2B03 is required for admission.
7. Completion of MOLBIOL 4G12 A/B S is required for this program. Students should consult the MOLBIOL 4G12 A/B S Course Coordinator regarding supervision arrangements. Students are strongly encouraged to carry out

their thesis in an academic lab.

8. Students must take a minimum of 15 units from the *Molecular Biology and Genetics Co-op Course Lists I and II*, at least 12 of these units must be from *Course List I*, and at least 3 of these units must be at Level IV.
9. Six units from BIOLOGY 2A03, 2D03, 2F03 are required for admission, however, students are encouraged to complete each of these courses. When more than six units are completed, these will count toward the *Molecular Biology and Genetics Co-op Course List II* program requirement.

MOLECULAR BIOLOGY AND GENETICS CO-OP COURSE LIST I

- MOLBIOL 3A03 - Current Topics in Molecular Biology and Genetics
- MOLBIOL 3CC3
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3I03 A/B S - Independent Research Project
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 3Y03 - Plant Responses to the Environment
- MOLBIOL 4BB3 - Plant Metabolism and Molecular Biology
- MOLBIOL 4DD3 - Molecular Evolution
- MOLBIOL 4ED3 - Evolutionary Developmental Biology
- MOLBIOL 4H03 - Molecular Biology of Cancer
- MOLBIOL 4K03 - Research Advances in Biology of Aging
- MOLBIOL 4P03 - Medical Microbiology
- MOLBIOL 4RR3 - Human Genetics

MOLECULAR BIOLOGY AND GENETICS CO-OP COURSE LIST II

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 2L03 - Experimental Design in Biology
- BIOLOGY 3FF3 - Evolution
- BIOLOGY 3PG3 - Population Genetics
- BIOLOGY 4EE3 - Human Diversity and Human Nature
- BIOLOGY 4PP3 - Environmental Microbiology and Biotechnology
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMENG 3BK3 - Bio-Reaction Engineering
- CHEMENG 3BM3 - Bioseparations Engineering
- HTHSCI 3I03 - Introductory Immunology
- HTHSCI 3K03 - Principles of Virology
- HTHSCI 4I03 - Advanced Concepts in Immunology

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

Completion of Level II Honours Molecular Biology and Genetics program, including:

9 units

- BIOLOGY 2B03 - Cell Biology
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- MOLBIOL 2C03 - Genetics

6 units

from

- BIOLOGY 2A03 - Integrative Physiology of Animals

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

(See *Program Note 9* above.)

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 6* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

9 units

- BIOLOGY 3S03 - An Introduction to Bioinformatics
- MOLBIOL 3O03 - Microbial Genetics
- MOLBIOL 3V03 - Techniques in Molecular Genetics

3 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See *Program Notes 8 and 9* above.)

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

(See *Program Note 3* above.)

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3I13 - Molecular Genetics of Eukaryotes

3 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See *Program Note 8* above.)

12 units

- MOLBIOL 4G12 A/B S - Senior Thesis

(See *Program Note 7* above.)

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

9 units

from

- the *Molecular Biology and Genetics Co-op Course Lists I and II* (See *Program Note 8* above.)

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Level III including MOLBIOL 4G12 A/B S	15 units from Academic Level IV including MOLBIOL 4G12 A/B S	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

Minor(s):

MINOR IN BIOLOGY

NOTES

1. ISCI 1A24 A/B is a substitution for BIOLOGY 1A03 and 1M03.
2. ISCI 2A18 A/B is a substitution for 3 units of Level II Biology toward the Minor in Biology.
3. In order to obtain a Minor in Biology at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

18 UNITS

from

- Levels II, III, IV Biology or Molecular Biology courses including at least six units from Levels III, IV Biology or Molecular Biology

Department of Chemistry and Chemical Biology

Faculty as of January 15, 2022

CHAIR

Gillian R. Goward

ASSOCIATE CHAIRS

Giuseppe Melacini (*Chemical Biology Graduate Studies*)

Peter Kruse (*Chemistry Graduate Studies*)

Paul Harrison (*Undergraduate Studies*)

DISTINGUISHED UNIVERSITY PROFESSOR

Michael A. Brook/B.Sc. (Toronto), Ph.D. (McGill)/Science Research Chair in Sustainable Silicone Polymers

PROFESSORS

Alex Adronov/B.Sc. (McMaster), Ph.D. (California-Berkeley)

Paul W. Ayers/B.S. (David Lipscomb), Ph.D. (North Carolina-Chapel Hill)/Canada Research Chair in Theoretical Chemistry, F.R.S.C./Undergraduate Advisor

Paul J. Berti/B.Sc. (Waterloo), M.Sc. (Ottawa), Ph.D. (McGill)

John D. Brennan/B.Sc., M.Sc., Ph.D. (Toronto)/Canada Research Chair in Bioanalytical Chemistry

Philip Britz-McKibbin/B.Sc. (Toronto), Ph.D. (British Columbia)

David J.H. Emslie/B.Sc., Ph.D. (Bristol)

Gillian R. Goward/B.Sc. (McMaster), Ph.D. (Waterloo)

Peter Kruse/Dipl. Chem. (FSU-Jena), Ph.D. (California-San Diego)

Yingfu Li(Biochemistry and Biomedical Sciences) B.Sc. (Anhui, China), M.Sc. (Beijing Agr.), Ph.D. (Simon Fraser)

Jim McNulty/B.Sc., M.Sc., Ph.D. (Toronto)

Giuseppe Melacini/B.Sc., Ph.D. (Milan)

Yurij Mozharivskiy/B.Sc., M.Sc. (Lviv State), Ph.D. (Iowa State)

Kalaichelvi Saravanamuttu/B.Sc., Ph.D. (McGill)

Harald D.H. Stöver/B.Sc. (Darmstadt), Ph.D. (Ottawa)

John F. Valliant/B.Sc., Ph.D. (McMaster)

Ignacio Vargas-Baca/B.Sc., M.Sc. (UNAM), Ph.D. (Calgary)

ADJUNCT PROFESSOR

Gregory Chass/B.Sc. (Toronto), Ph.D. (Szeged)

ASSOCIATE PROFESSORS

Alfredo Capretta/B.Sc., Ph.D. (McMaster)

Randall S. Dumont/B.Sc. (Western Ontario), Ph.D. (Toronto)

Paul H.M. Harrison/B.A. (Oxford), Ph.D. (Alberta)

Philippa Lock/B.Sc., Ph.D. (McMaster)

Nathan A. Magarvey(Biochemistry and Biomedical Sciences) B.Sc. (Dalhousie), Ph.D. (Minnesota)

Jose M. Moran-Mirabal/B.Sc., M.Sc. (ITESM-Monterrey, Mexico), Ph.D. (Cornell)/Canada Research Chair in Micro- and Nanostructured Materials

Saman Sadeghi/B.Sc., Ph.D. (Toronto)

Ryan Wylie/B.Sc. (Concordia), Ph.D. (Toronto)

ADJUNCT ASSOCIATE PROFESSOR

Darren Brouwer/B.Sc. (Guelph), Ph.D. (British Columbia)

ASSISTANT PROFESSORS

Katherine Bujold/B.Sc., Ph.D. (McGill)

Lydia Chen/B.Sc. (British Columbia), Ph.D. (Alberta)

Anthony Chibba/B.Sc., Ph.D. (Toronto)

Sharonna Greenberg/B.Sc., Ph.D. (Toronto)

Sarah Styler/B.Sc., Ph.D. (Toronto)/Canada Research Chair in Atmospheric Chemistry

ADJUNCT ASSISTANT PROFESSORS

Andrea Armstrong/B.Sc. (New Brunswick), Ph.D. (Calgary)

Karl Jobst/B.Sc., Ph.D. (McMaster)

ASSOCIATE MEMBERS

Dawn M.E. Bowdish(Pathology and Molecular Medicine) B.Sc. (Guelph), Ph.D. (British Columbia)

Jakob Magolan(Biochemistry and Biomedical Sciences) B.Sc. (Queen's), Ph.D. (Western Ontario)

Anthony F. Rullo(Pathology) B.Sc. (McMaster), M.Sc. (Guelph), Ph.D. (Toronto)

Greg Slater(Earth, Environment & Society) B.Sc., M.Sc., Ph.D. (Toronto)

NOTES APPLICABLE TO ALL HONOURS PROGRAMS IN THE DEPARTMENT OF CHEMISTRY AND CHEMICAL BIOLOGY

1. The Honours programs consist of a specified set of basic requirements and a wide choice of electives, allowing for interdisciplinary studies or the opportunity to complete a Minor. Honours Chemistry, Honours Chemical Biology and Honours Sustainable Chemistry are also available as five-year co-op programs, with entry beginning at Level III.
2. In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
3. Students are encouraged to seek academic advising from the Departmental Undergraduate Advisor (email: advisor@chemistry.mcmaster.ca).
4. Certain Level IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.
5. The Honours Chemistry, Honours Chemistry Co-op, Honours Chemical Biology and Honours Chemical Biology Co-op programs fulfill the academic requirements of the Canadian Society for Chemistry.
6. CHEM 3RP3 and CHEMBIO 3RP3 provide the opportunity for students to integrate a one term work/research experience into an elective course. CHEM 3EP3 A/B S and CHEMBIO 3EP3 A/B S allow students to participate in an experiential placement. Further details may be obtained from the Undergraduate Advisor, in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
7. CHEM 4G12 A/B and CHEMBIO 4G12 A/B offer a senior thesis research experience. CHEM 4RP6 A/B S and CHEMBIO 4RP6 A/B S offer a more limited research experience, without a presentation or formal thesis.

NOTES APPLICABLE TO ALL HONOURS CHEMISTRY PROGRAMS

1. McMaster's Honours Chemistry program is structured such that part of the laboratory experience in the conventional sub-disciplines of organic, inorganic, physical, and analytical chemistry is obtained through two integrated laboratory courses that are distinct from the lecture courses - CHEM 2LB3 in Level II and CHEM 3LA3 in Level III. This program provides in excess of 55 hours of "Organic Chemistry" laboratory experience. The Level III course focuses on more advanced skills.
2. For those considering postgraduate studies in Chemistry, it should be noted that 18 units of Level IV Chemistry or related subjects are required for consideration for admission at McMaster and most graduate schools in Canada. CHEM 4G12 A/B is strongly recommended.
3. BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as the prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
4. CHEM 3PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.
5. CHEM 4G12 A/B cannot be taken concurrently with CHEM 3LA3 or CHEM 3RP3 given the time commitment required for the Senior Undergraduate Thesis.

B.SC. THREE-LEVEL DEGREE

A three-level program with a Chemistry orientation is available through the B.Sc. in Chemical and Physical Sciences.

For Honours Arts & Science and Sustainable Chemistry (B.Arts.Sc.) see *Arts & Science Program*

Bachelor of Applied Science

HONOURS SUSTAINABLE CHEMISTRY (B.A.SC.)

ADMISSION NOTE

Students intending to complete CHEM 3PA3 are required to complete one of PHYSICS 1A03 or 1C03 in Level I. Completion of PHYSICS 1AA3 or 1CC3 is recommended.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- CHEM 1E03 - General Chemistry for Engineering I

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03
- MATH 1MM3 - Applied Calculus
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

6 UNITS

from

- the *Science I Course List* (See *Admission Note* above.)

PROGRAM NOTES

1. In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
2. Students are encouraged to seek academic advising from the Departmental Undergraduate Advisor (email: advisor@chemistry.mcmaster.ca).
3. Certain Level IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.

COURSE LIST 1

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry
- CHEM 3AA3 - Instrumental Analysis
- CHEM 3EP3 A/B S - Advanced Chemistry Placement
- CHEM 3EQ3 - Experiential Sustainable Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEM 3I13 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3OA3 - Organic Synthesis
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy
- CHEM 3PC3 - Mathematical Tools for Chemical Problems
- CHEM 3RC3 - Radioisotopes in Medicine
- CHEM 3RP3 - Research Practicum in Chemistry
- CHEM 4AA3 - Recent Advances in Analytical Chemistry
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 4G12 A/B - Senior Thesis
- CHEM 4IA3 - Physical Methods of Inorganic Structure Determination

- CHEM 4IB3 - Bio-Inorganic Chemistry
- CHEM 4IC3 - Solid State Inorganic Materials: Structures, Properties, Characterization and Applications
- CHEM 4I13 - Transition Metal Organometallic Chemistry and Catalysis
- CHEM 4OA3 - Natural Products
- CHEM 4OB3 - Polymers and Organic Materials
- CHEM 4PB3 - Computational Models for Electronic Structure and Chemical Bonding
- CHEM 4Q03 - Peer Tutoring in Chemistry
- CHEM 4RP6 A/B S - Research Project in Chemistry
- CHEM 4W03 - Natural and Synthetic Materials
- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3OB3 - Structural Elucidation of Natural Products and Small Molecules
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics
- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- CHEMBIO 4Q03 - Peer Tutoring in Chemical Biology

COURSE LIST 2

- BIOLOGY 3E13 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2WW3 - Water and the Environment
- ENVIRSC 3003 - Contaminant Fate and Transport
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVSOCTY 2E13 - Environment & Society: Challenges and Solutions
- ENVSOCTY 3EC3 - Environmental Catastrophes
- ENVSOCTY 3EE3 - Energy and Society
- ENVSOCTY 3ER3 - Sustainability and the Economy
- ENVSOCTY 4HH3 - Environment and Health
- HTHSCI 4MS3 - The Social Lives of Molecules
- LIFESCI 2X03 - Environmental Change and Human Health
- POLSCI 3GC3 - Politics of a Dying Planet
- STATS 2B03 - Statistical Methods for Science
- STATS 2D03 - Introduction to Probability
- SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
- SUSTAIN 3S03 - Implementing Sustainable Change

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

3 units

- CHEM 2SC3 - Sustainable Chemistry - Green Chemistry

12 units

from

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules

- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry

6 units

from

- *Course List 2*

9 units

- Electives

LEVELS III-IV: 60 UNITS

6 units

- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

24 units

from

- *Course List 1*

which must include one of:

- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 3EP3 A/B S - Advanced Chemistry Placement
- CHEM 3EQ3 - Experiential Sustainable Chemistry
- CHEM 3RP3 - Research Practicum in Chemistry
- CHEM 4G12 A/B - Senior Thesis
- CHEM 4Q03 - Peer Tutoring in Chemistry
- CHEM 4RP6 A/B S - Research Project in Chemistry

12 units

from

- *Course List 2*

18 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See Admission above.)

LEVEL II: 30 UNITS

3 units

- CHEM 2SC3 - Sustainable Chemistry - Green Chemistry

12 units

HONOURS SUSTAINABLE CHEMISTRY CO-OP (B.A.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Sustainable Chemistry with a Grade Point Average of at least 5.0 including:

3 UNITS

- CHEM 2SC3 - Sustainable Chemistry - Green Chemistry

12 UNITS

from

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry

6 UNITS

from

- *Course List 2*

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms that must be spent in appropriate chemistry-related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and by Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
5. Students considering postgraduate studies in Chemistry should note that 18 units of Level IV Chemistry or related subjects are required for consideration for admission at McMaster and most graduate schools in Canada.
6. CHEM 4G12 A/B or 4RP6 A/B S cannot be taken concurrently with CHEM 3LA3 or 3RP3.

COURSE LIST 1

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2I13 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry
- CHEM 3AA3 - Instrumental Analysis
- CHEM 3EP3 A/B S - Advanced Chemistry Placement
- CHEM 3EQ3 - Experiential Sustainable Chemistry
- CHEM 3I03 - Industrial Chemistry
- CHEM 3I13 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3OA3 - Organic Synthesis
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy
- CHEM 3PC3 - Mathematical Tools for Chemical Problems

- CHEM 3RC3 - Radioisotopes in Medicine
- CHEM 3RP3 - Research Practicum in Chemistry
- CHEM 4AA3 - Recent Advances in Analytical Chemistry
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 4G12 A/B - Senior Thesis
- CHEM 4IA3 - Physical Methods of Inorganic Structure Determination
- CHEM 4IB3 - Bio-Inorganic Chemistry
- CHEM 4IC3 - Solid State Inorganic Materials: Structures, Properties, Characterization and Applications
- CHEM 4II3 - Transition Metal Organometallic Chemistry and Catalysis
- CHEM 4OA3 - Natural Products
- CHEM 4OB3 - Polymers and Organic Materials
- CHEM 4PB3 - Computational Models for Electronic Structure and Chemical Bonding
- CHEM 4Q03 - Peer Tutoring in Chemistry
- CHEM 4RP6 A/B S - Research Project in Chemistry
- CHEM 4W03 - Natural and Synthetic Materials
- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEMBIO 3BM3 - Implanted Biomaterials
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3OB3 - Structural Elucidation of Natural Products and Small Molecules
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics
- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- CHEMBIO 4Q03 - Peer Tutoring in Chemical Biology

COURSE LIST 2

- BIOLOGY 3EI3 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2WW3 - Water and the Environment
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVSOCTY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCTY 3EC3 - Environmental Catastrophes
- ENVSOCTY 3EE3 - Energy and Society
- ENVSOCTY 3ER3 - Sustainability and the Economy
- ENVSOCTY 4HH3 - Environment and Health
- HTHSCI 4MS3 - The Social Lives of Molecules
- LIFESCI 2X03 - Environmental Change and Human Health
- POLSCI 3GC3 - Politics of a Dying Planet
- STATS 2B03 - Statistical Methods for Science
- STATS 2D03 - Introduction to Probability
- SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
- SUSTAIN 3S03 - Implementing Sustainable Change

REQUIREMENTS FOR STUDENTS WHO ENTER IN SEPTEMBER 2022 OR PRIOR

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of any Level II Honours Sustainable Chemistry program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

6 units

from

- *Course List 1*

3 units

from

- *Course List 2*

6 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

12 units

from

- *Course List 1*

6 units

from

- *Course List 2*

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

6 units

from

- *Course List 1*

3 units

from

- *Course List 2*

3 units

- Electives

REQUIREMENTS (EFFECTIVE SEPTEMBER 2023)

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of any Level II Honours Sustainable Chemistry program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

6 units

from

- *Course List 1*

3 units

from

- *Course List 2*

6 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

12 units

from

- *Course List 1*

which must include one of:

- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 3EP3 A/B S - Advanced Chemistry Placement
- CHEM 3EQ3 - Experiential Sustainable Chemistry
- CHEM 3RP3 - Research Practicum in Chemistry
- CHEM 4G12 A/B - Senior Thesis
- CHEM 4Q03 - Peer Tutoring in Chemistry
- CHEM 4RP6 A/B S - Research Project in Chemistry

6 units

from

- *Course List 2*

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

6 units

from

- *Course List 1*

3 units

from

- *Course List 2*

3 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

Bachelor of Science (Honours)**HONOURS CHEMICAL BIOLOGY (B.SC.)****ADMISSION**

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 UNITS

from the following courses, with a grade of at least C+ in each

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

from the following courses, with an average of at least 6.0

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6 UNITS

from

- the Science I Course List

PROGRAM NOTES

1. Students are encouraged to seek academic advising from the Departmental Undergraduate Advisor (email advisor@chemistry.mcmaster.ca).
2. In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
3. Certain Level III and IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course selection for Levels III and IV.
4. Students are strongly advised not to take CHEMBIO 3L03 concurrent with CHEMBIO 4G12 A/B.
5. Students seeking admission to graduate school are strongly advised to complete CHEMBIO 3AA3 (or CHEM 3AA3) and 6 units from CHEMBIO 4A03, 4OA3, 4OB3. Completion of CHEMBIO 4G12 A/B is also strongly recommended.
6. One of CHEMBIO 3EP3 A/B S, or 3RP3 may be completed to satisfy units toward the Level III Chemical Biology or Chemistry requirement.
7. BIOCHEM 3G03 must be completed in Level II. The combination of both BIOCHEM 2B03 and 2BB3 may substitute for BIOCHEM 3G03 and, when completed, will reduce the elective requirement by three units.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)**LEVEL II: 30 UNITS**

12 units

from

- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2AA3
- CHEMBIO 2L03 - Pharmaceutical Chemistry Laboratory I: Biomolecular Interactions
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- CHEMBIO 2Q03 - Inquiry for Chemical Biology

6 units

from

- CHEMBIO 2OA3
- CHEMBIO 2OB3
- CHEMBIO 2OD3 - Organic Chemistry II
- CHEMBIO 2OG3 - Organic Chemistry I

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3 units

- BIOLOGY 2B03 - Cell Biology

6 units

- Electives

LEVELS III AND IV: 60 UNITS

6 units

- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics

3 units

from

- CHEMBIO 3OB3 - Structural Elucidation of Natural Products and Small

Molecules

- CHEMBIO 4IB3 - Bio-Inorganic Chemistry

(See *Program Note 3* above.)

6 units

from

- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEM 3AA3 - Instrumental Analysis
- CHEM 3OA3 - Organic Synthesis

(See *Program Notes 2 and 3* above.)

3 units

- CHEMBIO 3L03 - Chemical Biology Laboratory II

(See *Program Note 4* above.)

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3 units

from

- Levels II, III Biology courses

6 units

from

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 4OB3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See *Program Notes 3 and 5* above.)

3-12 units

from Levels III, IV Chemical Biology, Chemistry courses,

which may include one of

- CHEMBIO 4G12 A/B - Senior Thesis in Chemical Biology
- CHEMBIO 4RP6 A/B S - Research Project in Chemical Biology

(See *Program Notes 4, 5 and 6* above.)

18-27 units

- Electives

HONOURS CHEMICAL BIOLOGY CO-OP (B.SC.)**ADMISSION**

Enrolment in this program is limited. Admission is by selection, and possession of the minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Chemical Biology with a Grade Point Average of at least 5.0.

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms that must be spent in chemical biology-related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and by Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
5. 6 units from CHEMBIO 4A03, 4OA3, 4OB3, CHEM 4D03, 4OB3, 4W03 must be completed by the end of Level V.
6. Certain Level III and IV courses are offered in alternate years. Students are advised to consider course offerings carefully in planning their course

selection for Levels III and IV.

- Students are strongly advised not to take CHEMBIO 3L03 concurrent with CHEMBIO 4G12 A/B or 4RP6 A/B S.
- Students seeking admission to graduate school are strongly advised to complete CHEMBIO 3AA3 (or CHEM 3AA3) and 6 units from CHEMBIO 4A03, 4OA3, 4OB3. CHEMBIO 4G12 A/B or 4RP6 A/B S is also strongly recommended and must be completed in Level IV.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Chemical Biology program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

6 units

- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology
- CHEMBIO 3P03 - Biomolecular Interactions and Kinetics

3 units

- CHEM 3OA3 - Organic Synthesis

3 units

from

- Levels II, III Biology courses

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- CHEMBIO 3OB3 - Structural Elucidation of Natural Products and Small Molecules
- CHEMBIO 4IB3 - Bio-Inorganic Chemistry

3 units

from

- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology
- CHEM 3AA3 - Instrumental Analysis

6-12 units

from

- Levels III, IV Chemical Biology or Chemistry courses,

which must include one of

- CHEMBIO 3L03 - Chemical Biology Laboratory II
- CHEMBIO 4G12 A/B - Senior Thesis in Chemical Biology
- CHEMBIO 4RP6 A/B S - Research Project in Chemical Biology

(See Program Notes 7 and 8 above.)

3 units

- BIOCHEM 3D03 - Metabolism and Regulation

3-6 units

from

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 4OB3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See Program Note 5 above.)

3-12 units

- Electives (See Program Note 8 above.)

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

0-3 units

from the following courses, if only three units completed in Level IV

- CHEMBIO 4A03 - Bio-Analytical Chemistry and Assay Development
- CHEMBIO 4OA3 - Natural Products
- CHEMBIO 4OB3 - Medicinal Chemistry: Drug Design and Development
- CHEM 4D03 - Organic Structure and Synthesis
- CHEM 4OB3 - Polymers and Organic Materials
- CHEM 4W03 - Natural and Synthetic Materials

(See Program Note 5 above.)

12-15 units

- Electives (See Program Note 8 above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Levels III & IV	15 units from Academic Levels III & IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Levels III & IV	

HONOURS CHEMISTRY (B.SC.)

ADMISSION NOTES

- PHYSICS 1AA3 or 1CC3 must be completed by the end of Level II and is very strongly recommended in Level I.
- Students with credit in MATH 1X03 or 1ZA3 may use either as a substitution for MATH 1A03 or 1LS3.

3. Students are strongly recommended to complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I and MATH 1B03 (or 1ZC3) in either Level I or II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 6.0 (between the courses) is required

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

(See *Admission Note 2* above.)

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

12 UNITS

from

- the Science I Course List (See *Admissions Notes 1* and *3* above.)

PROGRAM NOTES

1. In some cases there are Level II and III prerequisites for Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
2. BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as the prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
3. CHEM 3PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II, and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.
4. One of PHYSICS 1AA3 or 1CC3 must be completed by the end of Level II and is very strongly recommended in Level I.
5. CHEM 4G12 A/B or 4RP6 A/B S cannot be taken concurrently with CHEM 3LA3 or 3RP3.
6. One of CHEM 3EP3 A/B S, 3RP3 may be completed to satisfy units toward the Level III Chemical Biology or Chemistry requirement.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

3 units

from

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3

18 units

- CHEM 2II3 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules (or CHEM 2OC3)
- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 2Q03 - Inquiry for Chemistry

0-3 units

from the following courses, if not completed in Level I

- PHYSICS 1AA3 - Introduction To Modern Physics

- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences (See *Program Note 4* above.)

6-9 units

- Electives (See *Program Notes 3* and *4* above.)

LEVEL III: 30 UNITS

3 units

from

- CHEM 3AA3 - Instrumental Analysis
- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology

9 units

- CHEM 3II3 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy

0-3 units

from

- CHEM 3PC3 - Mathematical Tools for Chemical Problems

(See *Program Note 3* above.)

6 units

from

- Levels III, IV Chemical Biology or Chemistry courses (See *Program Note 6* above.)

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 2* above.)

6-9 units

- Electives

LEVEL IV: 30 UNITS

9-12 units

from

- Level IV Chemistry courses (See *Program Note 5* above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses (See *Program Note 6* above.)

3 units

from

- Level IV Chemical Biology or Chemistry courses

12-15 units

- Electives

HONOURS CHEMISTRY CO-OP (B.SC.)**ADMISSION**

Enrolment in this program is limited. Admission is by selection, and possession of the minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Chemistry with a Grade Point Average of at least 5.0 including:

21 UNITS

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2II3 - Introductory Inorganic Chemistry: Structure and Bonding
- CHEM 2LB3 - Tools for Chemical Discovery
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry (or 2PD3)
- CHEM 2Q03 - Inquiry for Chemistry

0-3 UNITS

from the following courses, if not completed in Level I

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms that must be spent in chemistry-related placements.
2. Students must be registered full-time and take a full academic workload as prescribed by Level and by Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. There are Level II and III prerequisites for many Level III and IV courses. The prerequisites should be considered when choosing your Level II and III courses.
5. Students considering postgraduate studies in Chemistry should note that 18 units of Level IV Chemistry or related subjects are required for consideration for admission at McMaster and most graduate schools in Canada.
6. BIOCHEM 2EE3 or any Biochemistry course that has a Biology course as a prerequisite are an acceptable alternative to BIOCHEM 3G03. CHEM 4IB3 or a Level III or IV Chemical Biology course are also acceptable substitutes providing these units are taken as elective to the Honours Chemistry program requirements.
7. CHEM 4G12 A/B or 4RP6 A/B S cannot be taken concurrently with CHEM 3LA3 or 3RP3.
8. CHEM 3PC3 is recommended for all Chemistry students, but not required for students who complete MATH 1B03 (or 1ZC3) in either Level I or II, and who complete one of MATH 1AA3, 1LT3, 1XX3 (or 1ZB3) in Level I.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of any Level II Honours Chemistry program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

from

- CHEM 3PC3 - Mathematical Tools for Chemical Problems

(See *Program Note 8* above.)

6 units

- CHEM 3II3 - Introduction to Transition Metal Chemistry
- CHEM 3LA3 - Strategies for Chemical Discovery

6 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

from

- CHEM 3AA3 - Instrumental Analysis
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy
- CHEMBIO 3AA3 - Analytical Tools for Chemical Biology

9-12 units

from Levels III, IV Chemistry courses,

which may include one of

- CHEM 4G12 A/B - Senior Thesis
- CHEM 4RP6 A/B S - Research Project in Chemistry

(See *Note 4* and *Program Note 7* above.)

3 units

from

- Levels III, IV Chemical Biology or Chemistry courses

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

from

- Levels III, IV Chemistry courses

3 units

from

- Level IV Chemical Biology or Chemistry courses

3 units

- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 6* above.)

6 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WT0

Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	
----------------	---------------------------	---------------------------------------	--

Minor(s):

MINOR IN CHEMICAL BIOLOGY

NOTES

- Students who wish to pursue a Minor in Chemical Biology are encouraged to select courses in consultation with the Undergraduate Advisor in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- ISCI 1A24 A/B is a substitution for CHEM 1A03 (or 1E03) and 1AA3 and also for BIOLOGY 1A03 and 1M03.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Chemical Biology and 3 units of equivalent credit for BIOCHEM 3G03 toward the Minor in Chemical Biology.
- In order to declare a Minor in Chemical Biology, at least 12 units (above Level I) must be elective to degree.
- CHEMBIO 2L03, 2Q03 and 3L03 are only open to students registered in Honours Chemical Biology.
- Level II Biology courses require one or both of BIOLOGY 1A03, 1M03 as prerequisites.
- Honours Chemistry students who have taken BIOCHEM 2EE3 or 3G03 towards their degree requirements may use the other course towards a Minor in Chemical Biology.
- Completion of Level II Honours Chemistry may be used as a substitution for 6 units of Level II Chemical Biology toward the Minor in Chemical Biology.

REQUIREMENTS

24 units total

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 UNITS

- CHEM 1AA3 - Introductory Chemistry II

6-12 UNITS

from

- Levels II, III, IV Chemical Biology courses
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- CHEM 2P03 - Applications of Physical Chemistry

0-6 UNITS

from

- Levels II, III Biology courses
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Notes 6* and *7* above.)

6 UNITS

from

- Levels III, IV Chemical Biology courses

MINOR IN CHEMISTRY

NOTES

- Students who wish to pursue a Minor in Chemistry are encouraged to select courses in consultation with the Undergraduate Advisor in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- ISCI 1A24 A/B is a substitution for CHEM 1A03 (or 1E03) and 1AA3.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Chemistry toward the Minor in Chemistry, except for students in Honours Integrated Science with a concentration in Chemical Biology.
- In order to declare a Minor in Chemistry, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 UNITS

- CHEM 1AA3 - Introductory Chemistry II

12 UNITS

from

- Levels II, III, IV Chemistry courses
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2OA3
- CHEMBIO 2OB3
- CHEMBIO 2OD3 - Organic Chemistry II
- CHEMBIO 2OG3 - Organic Chemistry I
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology

6 UNITS

from

- Levels III, IV Chemistry courses
- CHEMBIO 3OA3 - Organic Mechanistic Tools for Chemical Biology

MINOR IN SUSTAINABLE CHEMISTRY

NOTES

- Students who wish to pursue a Minor in Sustainable Chemistry are encouraged to select courses in consultation with the Undergraduate Advisor in the Department of Chemistry and Chemical Biology (email: advisor@chemistry.mcmaster.ca).
- ISCI 1A24 A/B is a substitution for CHEM 1A03 and 1AA3.
- ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Chemistry toward the Minor in Sustainable Chemistry, except for students in Honours Integrated Science with a concentration in Chemistry or Chemical Biology.
- In order to declare a Minor in Sustainable Chemistry, at least 12 units (above Level I) must be elective to degree.

COURSE LIST 1

- BIOLOGY 3E13 - Ecological Indicators
- BIOLOGY 3ET3 - Ecotoxicology
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2WW3 - Water and the Environment
- ENVIRSC 3003 - Contaminant Fate and Transport
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4N03 - Global Biogeochemical Cycles

- ENVSOCY 2E13 - Environment & Society: Challenges and Solutions
- ENVSOCY 3EC3 - Environmental Catastrophes
- ENVSOCY 3EE3 - Energy and Society
- ENVSOCY 3ER3 - Sustainability and the Economy
- ENVSOCY 4HH3 - Environment and Health
- HTHSCI 4MS3 - The Social Lives of Molecules
- LIFESCI 2X03 - Environmental Change and Human Health
- POLSCI 3GC3 - Politics of a Dying Planet
- STATS 2B03 - Statistical Methods for Science
- STATS 2D03 - Introduction to Probability
- SUSTAIN 2S03 - Evaluating Problems & Sustainable Solutions
- SUSTAIN 3S03 - Implementing Sustainable Change

REQUIREMENTS

24 units total

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 UNITS

- CHEM 1AA3 - Introductory Chemistry II

9 UNITS

from

- Levels II, III, IV Chemistry courses
- CHEMBIO 2A03 - Introduction to Bio-Analytical Chemistry
- CHEMBIO 2OA3
- CHEMBIO 2OB3
- CHEMBIO 2OD3 - Organic Chemistry II
- CHEMBIO 2OG3 - Organic Chemistry I
- CHEMBIO 2PO3 - Physical Chemistry Tools for Chemical Biology

6 UNITS

from

- CHEM 2SC3 - Sustainable Chemistry - Green Chemistry
- CHEM 3SC3 - Sustainable Chemistry: Natural Resources and Energy
- CHEM 4SC3 - Sustainable Chemistry - Analysis and Regulation

3 UNITS

from

- *Course List 1*

School of Earth, Environment & Society (Faculty of Science)

Bachelor of Science (Honours)

HONOURS EARTH AND ENVIRONMENTAL SCIENCES (B.SC.)

ADMISSION NOTES

- Students who did not complete Grade 12 Chemistry U must complete CHEM 1R03 in Level I. Given this course is considered elective, an additional three units from the *Science I Course List* must be completed. CHEM 1A03 must be completed by the end of Level II.
- One of PHYSICS 1A03 or 1C03 must be completed prior to graduation. Completion by the end of Level II is recommended. Students who did not complete Grade 12 Physics U must register in PHYSICS 1A03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses with an average of at least 6.0

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1R03 - General Chemistry

(See *Admission Note 1* above.)

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

12 UNITS

from

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- SCIENCE 1A03 - Investigating Science: Opportunities & Experiences

(See *Admission Notes* above.)

PROGRAM NOTES

- Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 3CC3, 4CC3, 4N03, ENVIRSC 2Q03, 3003

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2G03, 2K03, 2T03, 3E03, 3K03, 3P03, 3V03, 3Z03, 4G03,

4PA3, 4T03, 4V03, 4VV3, ENVSOCTY 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, ENVSOCTY 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

ENVSOCTY 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3, 4SR3

- Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate/undergrad-welcome.html>. Students are encouraged to consult with the academic program advisor in the School of Earth, Environment & Society to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Earth, Environment & Society may not fulfill professional registration requirements.
- All students are strongly encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to discuss program requirements and course selections.
- There are Level III prerequisites for many Level IV courses. The prerequisites should be considered when selecting your courses.
- The field components of EARTHSC 2FE3 and 3FE3, are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or March (EARTHSC 3FE3).
- A Minor in Earth Sciences, Environment & Society, Environmental Sciences or Geography and Earth Sciences is not permitted in the Honours Earth and Environmental Sciences program. However, Minors in Environmental Studies, Geographic Information Systems and Geography are permitted.
- In order to meet the Compulsory Foundation Science and Geoscience requirements for the Professional Geoscientist Certification, completion of the following courses is required: CHEM 1A03, EARTHSC 2E03, 2K03, 3FE3, 3Z03, MATH 1A03 or 1LS3, and PHYSICS 1A03 or 1C03. Additional requirements are posted on the website https://www.science.mcmaster.ca/geo/images/documents/APGO_Environmental_Geoscience_Stream.pdf.
- ENVSOCTY 3MB3 (or GEOG 3MB3, EARTHSC 3MB3 or ENVIRSC 3MB3) or STATS 2B03 must be completed by the end of Level III.

COURSE LIST 1

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology or
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2E03 - Introductory Organic Chemistry
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVSOCTY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCTY 2GI3 - Geographic Information Systems
- GEOG 2EI3
- GEOG 2GI3
- STATS 2B03 - Statistical Methods for Science

COURSE LIST 2

- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3SS3 - Population Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3

- CHEM 20D3 - Synthesis and Function of Organic Molecules
- CHEM 20G3 - Structure and Reactivity of Organic Molecules
- EARTHSC 2G03 - Earth Surface Process
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3K03 - Petrology
- EARTHSC 3P03 - Paleocology
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 3Z03 - Structural Geology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4J03
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4P03
- EARTHSC 4PA3 - Paleoenvironmental Analysis
- EARTHSC 4T03 - Plate Tectonics and Ore Deposits
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4VV3
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVSOCY 2GI3 - Geographic Information Systems
- ENVSOCY 3GI3 - Advanced Raster GIS
- ENVSOCY 3GV3 - Advanced Vector GIS
- ENVSOCY 3MB3 - Data Analysis
- ENVSOCY 3SR3 - Remote Sensing
- ENVSOCY 4GA3 - Applied Spatial Statistics
- ENVSOCY 4GS3 - GIS Programming
- ENVSOCY 4GT3 - Special Topics in GIS
- ENVSOCY 4SR3 - Advanced Remote Sensing
- GEOG 2GI3
- GEOG 3GI3
- GEOG 3GV3
- GEOG 3MB3
- GEOG 3SR3
- GEOG 4GA3
- GEOG 4GS3
- GEOG 4GT3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- EARTHSC 2E03 - Earth History
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- *Course List 1*

0-3 units

- CHEM 1A03 - Introductory Chemistry I (if not completed in Level I)

(See *Admission Note 1* above.)

6-9 units

- Electives

LEVEL III: 30 UNITS

12 units

- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

(See *Program Note 5* above.)

6 units

from

- *Course List 2*

0-3 units

from

- ENVSOCY 3MB3 - Data Analysis
- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science

(See *Program Note 8* above.)

9-12 units

- Electives

LEVEL IV: 30 UNITS

18 units

from *Course List 2*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

9-12 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- EARTHSC 2E03 - Earth History
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology

3 units

from

- *Course List 1*

0-3 units

- CHEM 1A03 - Introductory Chemistry I (if not completed in Level I)

(See *Admission Note 1* above.)

6-9 units

- Electives

LEVEL III: 30 UNITS9 units

- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

(See *Program Note 5* above.)

9 units

from

- *Course List 2*

0-3 units

from

- ENVSOCTY 3MB3 - Data Analysis
- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science

(See *Program Note 8* above.)

9-12 units

- Electives

LEVEL IV: 30 UNITS18 units

from *Course List 2*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

9-12 units

- Electives

HONOURS EARTH AND ENVIRONMENTAL SCIENCES CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Earth and Environmental Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

6 UNITS

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

3 UNITS

- CHEM 1A03 - Introductory Chemistry I

18 UNITS

- EARTHSC 2E03 - Earth History
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology

3 UNITS

from

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology

- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2E03 - Introductory Organic Chemistry
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVSOCTY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCTY 2GI3 - Geographic Information Systems
- GEOG 2EI3
- GEOG 2GI3
- STATS 2B03 - Statistical Methods for Science

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Program Director.

PROGRAM NOTES

1. This is a five- level (year) co-op program which includes two eight-month work terms which must be spent in earth and environmental sciences related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 3CC3, 4CC3, 4N03, ENVIRSC 2Q03, 3003

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2G03, 2K03, 2T03, 3E03, 3K03, 3P03, 3V03, 3Z03, 4G03, 4PA3, 4T03, 4V03, 4VV3, ENVSOCTY 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, ENVSOCTY 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

ENVSOCTY 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3, 4SR3

5. Students aiming to meet the academic requirements for professional registration of Geoscientists (P.Geo.) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate/undergrad-welcome.html>. Students are encouraged to consult with the academic program advisor in the School of Earth, Environment & Society to ensure proper course selection for professional registration. The Honours programs offered by the School of Earth, Environment & Society may not fulfill professional registration requirements.
6. There are Level II prerequisites for many Level III courses; these should be considered when choosing Level II courses. As an aid to choosing a coherent set of courses in a single discipline, students should consult the list of thematic areas applicable to all Honours Earth and Environmental Sciences programs.
7. Students should seek academic program advising from the School of Earth, Environment & Society to ensure that their choices are appropriate.
8. The field component of EARTHSC 2FE3 and 3FE3 are normally taken outside of the normal term. Details are announced in December (EARTHSC 2FE3) or

March (EARTHSC 3FE3).

9. Students who did not complete Grade 12 Physics U must complete PHYSICS 1A03. One of PHYSICS 1A03 or 1C03 must be completed prior to graduation.
10. ENVSOCY 3MB3 (or EARTHSC 3MB3, ENVIRSC 3MB3 or GEOG 3MB3) or STATS 2B03 must be completed by the end of Level IV.
11. Co-op students interested in pursuing GIS-related work placements and/or a Minor or Concurrent Certificate in Geographic Information Systems must complete ENVSOCY 2GI3 in Fall Term of Level II and one of ENVSOCY 3GI3 or 3GV3 in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

EARTH AND ENVIRONMENTAL SCIENCES CO-OP COURSE LIST

- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3SS3 - Population Ecology
- CHEM 2A03 - Quantitative Chemical Analysis
- CHEM 2AA3
- CHEM 2E03 - Introductory Organic Chemistry
- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II
- CHEM 2OC3
- CHEM 2OD3 - Synthesis and Function of Organic Molecules
- CHEM 2OG3 - Structure and Reactivity of Organic Molecules
- EARTHSC 2G03 - Earth Surface Process
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3K03 - Petrology
- EARTHSC 3P03 - Paleogeology
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 3Z03 - Structural Geology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4J03
- EARTHSC 4MT6 A/B - Senior Thesis
- EARTHSC 4P03
- EARTHSC 4PA3 - Paleoenvironmental Analysis
- EARTHSC 4T03 - Plate Tectonics and Ore Deposits
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4V3
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3U03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVSOCY 2GI3 - Geographic Information Systems
- ENVSOCY 3GI3 - Advanced Raster GIS
- ENVSOCY 3GV3 - Advanced Vector GIS
- ENVSOCY 3MB3 - Data Analysis
- ENVSOCY 3SR3 - Remote Sensing
- ENVSOCY 4GA3 - Applied Spatial Statistics
- ENVSOCY 4GS3 - GIS Programming
- ENVSOCY 4GT3 - Special Topics in GIS
- ENVSOCY 4MS3 - Independent Study
- ENVSOCY 4SR3 - Advanced Remote Sensing

- GEOG 2GI3
- GEOG 3GI3
- GEOG 3GV3
- GEOG 3MB3
- GEOG 3SR3
- GEOG 4GA3
- GEOG 4GS3
- GEOG 4GT3
- GEOG 4MS3

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Earth and Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

9 units

- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

3 units

from

- the *Earth and Environmental Sciences Co-op Course List*

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

(See *Program Note 3* above.)

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

18 units

from the *Earth and Environmental Sciences Co-op Course List*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- GEOG 4MS3

0-3 units

from

- ENVSOCY 3MB3 - Data Analysis
- GEOG 3MB3

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 10* above.)

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

12-15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

6 units

from the *Earth and Environmental Sciences Co-op Course List*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

(if none of EARTHSC 4MT6 A/B, ENVIRSC 4EA3 or 4MI3 were completed in Level IV)

9 units

- Electives

REQUIREMENTS (EFFECTIVE SEPTEMBER 2023)

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Earth and Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

12 units

- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3FE3 - Field Camp
- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- EARTHSC 3Z03 - Structural Geology

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

(See *Program Note 3* above.)

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

18 units

from the *Earth and Environmental Sciences Co-op Course List*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- GEOG 4MS3

0-3 units

from

- ENVSOCY 3MB3 - Data Analysis
- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science

(See *Program Note 10* above.)

0-3 units

from the following courses, if not already completed

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

6-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

6 units

from the *Earth and Environmental Sciences Co-op Course List*,

which must include one of

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

(if none of EARTHSC 4MT6 A/B, ENVIRSC 4EA3 or 4MI3 were completed in Level IV)

9 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WTO

Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV

HONOURS ENVIRONMENTAL SCIENCES (B.SC.)

ADMISSION NOTE

EARTHSC 1G03 and ENVIRSC 1C03 must be completed by the end of Level II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1M03
- MATH 1MM3 - Applied Calculus

6 UNITS

from the following courses, with an average of at least 6.0

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

9 UNITS

from

- the *Science I Course List*

PROGRAM NOTES

1. Environmental Sciences at McMaster encompass a number of major themes, including Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis, Health and Population, Economic Development and Urban Studies. Each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). All students are encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to discuss course selection and program requirements.
2. This program is not intended to satisfy the academic requirements for professional registration of Geoscientists (PGeo) in Ontario. Students interested in PGeo professional registration are encouraged to view the requirements for the Honours Earth and Environmental Sciences (B.Sc.) program.
3. The Honours Environmental Sciences program requires students to take one research design course (EARTHSC 3RD3 or ENVSOCY 3MA3) and one field methods course (ENVIRSC 3ME3 or ENVSOCY 3MF3). All students are encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to decide which of these courses best fits their area of academic interest.
4. The field components of ENVIRSC 3ME3 and ENVSOCY 3MF3 are normally taken outside of the normal term. Details are announced in March.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

6 units

- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCY 2GI3 - Geographic Information Systems

3 units

from

- ENVSOCY 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

3 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- ENVSOCY 3MA3 - Research Methods

(See *Program Note 3* above.)

3 units

from

- ENVIRSC 3ME3 - Environmental Field Camp
- ENVSOCY 3MF3 - Urban Field Camp

(See *Program Notes 3* and *4* above.)

45 units

from

- Levels II, III, IV Earth Sciences, Environmental Sciences, Environment and Society courses, which must include 18 units from Levels III, IV

3-6 units

from

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4MT6 A/B - Senior Thesis
- ENVSOCY 4EA3 - Environmental Assessment
- ENVSOCY 4ET3 - Environmental Policy, Ethics and Risk
- ENVSOCY 4MS3 - Independent Study
- ENVSOCY 4MT6 A/B - Senior Thesis

24-27 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS ENVIRONMENTAL SCIENCES CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Environmental Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

6 UNITS

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

6 UNITS

- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCY 2GI3 - Geographic Information Systems

15 UNITS

from

- Level II, III, IV Earth Sciences, Environmental Sciences, Environment & Society courses

NOTE

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Program Director.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in environmental sciences related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Environmental Sciences at McMaster encompass a number of major themes, including Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis, Health and Population, Economic Development and Urban Studies. Each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). All students are encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to discuss course selection and program requirements.
5. This program is not intended to satisfy the academic requirements for professional registration of Geoscientists (PGeo) in Ontario. Students interested in PGeo professional registration are encouraged to view the requirements for the Honours Earth and Environmental Sciences (B.Sc.) program.
6. The Honours Environmental Sciences program requires all students to take one research design course (EARTHSC 3RD3 or ENVSOCTY 3MA3) and one field methods course (ENVIRSC 3ME3 or ENVSOCTY 3MF3). All students are encouraged to meet with the School of Earth, Environment & Society's academic program advisor to decide which of these courses best fits their area of academic interest.
7. The field components of ENVIRSC 3ME3 and ENVSOCTY 3MF3 are normally taken outside of the normal term. Details are announced in March.
8. Co-op students interested in pursuing GIS-related work placements and/or a Minor or Concurrent Certificate in Geographic Information Systems must complete ENVSOCTY 2GI3 in Fall Term of Level II and one of ENVSOCTY 3GI3 or 3GV3 in Winter Term of Level II. Students should consult with the academic program advisor in the School of Earth, Environment & Society to ensure proper course selection.
9. Students who entered the program prior to September 2021, must complete a total of 27 units from the *Environmental Sciences Course List* during Levels III, IV and V, of which must include 18 units from Levels III, IV.

REQUIREMENTS

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

- Completed prior to admission to the program

LEVEL II: 30 UNITS30 units

- Completion of Level II Honours Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See *Program Note 3* above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

from

- ENVIRSC 3ME3 - Environmental Field Camp

- ENVSOCTY 3MF3 - Urban Field Camp

(See *Program Note 7* above.)

3 units

from

- ENVSOCTY 3MB3 - Data Analysis
- STATS 2B03 - Statistical Methods for Science

3 units

from

- EARTHSC 3RD3 - Research Design and Dissemination in Earth and Environmental Sciences
- ENVSOCTY 3MA3 - Research Methods

(See *Program Note 6* above.)

3 units

from

- Level II, III, IV Earth Sciences, Environmental Sciences, Environment & Society courses

3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

(See *Program Note 3* above.)

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

18 units

from

- Levels III, IV Earth Sciences, Environmental Sciences, Environment & Society courses

3-6 units

from

- EARTHSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4EA3 - Environmental Assessment
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences
- ENVIRSC 4MT6 A/B - Senior Thesis
- ENVSOCTY 4EA3 - Environmental Assessment
- ENVSOCTY 4ET3 - Environmental Policy, Ethics and Risk
- ENVSOCTY 4MS3 - Independent Study
- ENVSOCTY 4MT6 A/B - Senior Thesis

6-9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:**9 units**

from

- Levels II, III, IV Earth Sciences, Environmental Sciences, Environment & Society courses

6 units

- Electives

ENVIRONMENTAL SCIENCES COURSE LIST (FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2021)

- ASTRON 2E03 - Planetary Astronomy
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3DD3 - Communities and Ecosystems
- BIOLOGY 3R03 - Field Biology I
- BIOLOGY 3SS3 - Population Ecology
- BIOLOGY 4A03 - Advanced Topics in Ecology
- BIOLOGY 4J03 - Field Biology II
- EARTHSC 2E03 - Earth History
- EARTHSC 2FE3 - Introduction to Field Methods in Earth Sciences
- EARTHSC 2G03 - Earth Surface Process
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 3CC3 - Earth's Changing Climate
- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3P03 - Paleoecology
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 3W03 - Physical Hydrogeology
- EARTHSC 4CC3 - Stable Isotopes in Earth and Environmental Systems
- EARTHSC 4FF3 - Topics of Field Research
- EARTHSC 4G03 - Glacial Sediments and Environments
- EARTHSC 4MI3
- EARTHSC 4P03
- EARTHSC 4PA3 - Paleoenvironmental Analysis
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4VV3
- EARTHSC 4WB3 - Contaminant Hydrogeology
- ENVIRSC 2B03 - Soils and the Environment
- ENVIRSC 2C03 - Surface Climate Processes and Environmental Interactions
- ENVIRSC 2E03
- ENVIRSC 2EI3
- ENVIRSC 2GI3
- ENVIRSC 2LO3
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3
- ENVIRSC 3E03
- ENVIRSC 3EE3
- ENVIRSC 3GI3
- ENVIRSC 3GV3
- ENVIRSC 3MB3
- ENVIRSC 3ME3 - Environmental Field Camp
- ENVIRSC 3O03 - Contaminant Fate and Transport
- ENVIRSC 3SR3
- ENVIRSC 3U03
- ENVIRSC 3W03
- ENVIRSC 4BB3 - Field Techniques in Hydrology
- ENVIRSC 4C03 - Advanced Physical Climatology
- ENVIRSC 4CC3
- ENVIRSC 4FF3
- ENVIRSC 4G03
- ENVIRSC 4GA3
- ENVIRSC 4HH3
- ENVIRSC 4MI3 - Independent Study in Earth and Environmental Sciences

- ENVIRSC 4MT6 A/B - Senior Thesis
- ENVIRSC 4N03 - Global Biogeochemical Cycles
- ENVIRSC 4W03 - Hydrologic Modelling
- ENVIRSC 4WB3
- ENVSOCTY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCTY 2EK3 - Traditional Indigenous Ecological Knowledge
- ENVSOCTY 2GI3 - Geographic Information Systems
- ENVSOCTY 3EC3 - Environmental Catastrophes
- ENVSOCTY 3EE3 - Energy and Society
- ENVSOCTY 3ER3 - Sustainability and the Economy
- ENVSOCTY 3GI3 - Advanced Raster GIS
- ENVSOCTY 3GV3 - Advanced Vector GIS
- ENVSOCTY 3MB3 - Data Analysis
- ENVSOCTY 3SR3 - Remote Sensing
- ENVSOCTY 4GA3 - Applied Spatial Statistics
- ENVSOCTY 4GS3 - GIS Programming
- ENVSOCTY 4GT3 - Special Topics in GIS
- ENVSOCTY 4HH3 - Environment and Health
- ENVSOCTY 4SR3 - Advanced Remote Sensing
- GEOG 2EI3
- GEOG 2EK3
- GEOG 2GI3
- GEOG 3EC3
- GEOG 3EE3
- GEOG 3ER3
- GEOG 3GI3
- GEOG 3GV3
- GEOG 3MB3
- GEOG 3SR3
- GEOG 4GA3
- GEOG 4GS3
- GEOG 4GT3
- GEOG 4HH3
- STATS 2B03 - Statistical Methods for Science

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2020 OR SEPTEMBER 2019

120 units total (Levels I to V), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

- Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Environmental Sciences (See *Admission* above.)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- ENVIRSC 3ME3 - Environmental Field Camp

(See *Program Note 7* above.)

3 units

from

- ENVIRSC 3MB3
- ENVSOCTY 3MB3 - Data Analysis
- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science

6 units

from

- EARTHSC 3CC3 - Earth's Changing Climate

- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3W03 - Physical Hydrogeology
- ENVIRSC 3B03 - Ecosystems and Global Change
- ENVIRSC 3CC3

Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

HONOURS GEOGRAPHY AND ENVIRONMENTAL SCIENCES (B.SC.)

The Honours Geography and Environmental Sciences program has been cancelled. Students who had intended to register in this program should consider the Honours Environmental Sciences (B.Sc.) program or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) to discuss other options. Students who are currently registered in the program should refer to the 2020-2021 Undergraduate Calendar or their personal Advisement Report for program requirements.

HONOURS GEOGRAPHY AND ENVIRONMENTAL SCIENCES CO-OP (B.SC.)

The Honours Geography and Environmental Sciences Co-op program has been cancelled. Students who had intended to register in this program should consider the Honours Environmental Sciences Co-op (B.Sc.) program or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) to discuss other options. Students who are currently registered in the program should refer to the 2020-2021 Undergraduate Calendar or their personal Advisement Report for program requirements.

Bachelor of Science

ENVIRONMENTAL SCIENCES (B.SC.)

ADMISSION NOTE

EARTHSC 1G03 and ENVIRSC 1C03 must be completed by the end of Level II.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

3 UNITS

from the following courses, with a grade of at least C-

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1MM3 - Applied Calculus

18 UNITS

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. Earth and Environmental Sciences at McMaster encompass five major themes: Aqueous Environmental Geochemistry, Earth Sciences, Environmental Hydrology and Climate, Environmental Policy, GIS and Spatial Analysis. It should be noted that each thematic area has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students may elect to take some or all of the upper level courses from different areas. In addition, there is a set of courses encompassing research design, field work, internships, and the senior thesis or review paper.

AQUEOUS ENVIRONMENTAL GEOCHEMISTRY

EARTHSC 2L03, 3CC3, 4CC3, ENVIRSC 2Q03, 3O03, 4N03

EARTH SCIENCES

EARTHSC 2E03, 2FE3, 2G03, 2K03, 2T03, 3E03, 3K03, 3P03, 3V03, 3Z03, 4G03, 4PA3, 4T03, 4V03, 4VV3, ENVSOCTY 3SR3

ENVIRONMENTAL HYDROLOGY AND CLIMATE

EARTHSC 3CC3, 3W03, 4CC3, 4WB3, ENVIRSC 2B03, 2C03, 2W03, 3B03, 4BB3, 4C03, 4W03

ENVIRONMENTAL POLICY

ENVIRSC 4EA3, ENVSOCTY 2EI3, 2EK3, 3EC3, 3EE3, 3EG3, 4ET3, 4HH3

GEOGRAPHIC INFORMATION SYSTEMS (GIS) AND SPATIAL ANALYSIS

ENVSOCTY 2GI3, 3GI3, 3GV3, 3SR3, 4GA3, 4GS3, 4GT3, 4SR3

2. Students aiming to meet the academic requirements for professional registration of Geoscientists (PGeo) in Ontario can find additional information on these requirements on the website: <https://www.science.mcmaster.ca/geo/undergraduate/undergrad-welcome.html>. Students are encouraged to consult with the academic program advisor in the School of Earth, Environment & Society to ensure proper selection of courses for professional registration. The Honours programs offered by the School of Earth, Environment & Society may not fulfill professional registration requirements.
3. There are Level II prerequisites for many Level III courses; these should be considered when choosing Level II courses. As an aid to choosing a coherent set of courses in a single discipline, students should consult the list of thematic areas applicable to all Honours Earth and Environmental Sciences programs.
4. Students should seek academic program advising from the School of Earth, Environment & Society to ensure that their choices are appropriate.

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-III: 60 UNITS

24 units

Levels II, III, IV courses from

- Earth Sciences, Environmental Science, Environment & Society or Geography courses, of which at least 12 units must be Levels III, IV

9 units

from

- Faculty of Science courses

0-3 units

from the following courses, if only 3 units was completed in Level I

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

(See *Admission Note* above.)

24-27 units

- Electives

Minor(s):

MINOR IN EARTH SCIENCES

NOTES

1. ISCI 1A24 A/B is a substitution for EARTHSC 1G03, ENVIRSC 1C03.
2. ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Earth Sciences toward the Minor in Earth Sciences.
3. In order to declare a Minor in Earth Sciences, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

6 UNITS

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

(See *Note 1* above.)

18 UNITS

from the following list, which must include at least six units from Levels III, IV Earth Sciences

- ASTRON 2E03 - Planetary Astronomy
- EARTHSC 2E03 - Earth History
- EARTHSC 2G03 - Earth Surface Process
- EARTHSC 2K03 - Optical Crystallography and Mineralogy
- EARTHSC 2T03 - Geology of Canada
- EARTHSC 3E03 - Sedimentary Environments
- EARTHSC 3K03 - Petrology
- EARTHSC 3P03 - Paleogeology

MINOR IN ENVIRONMENT AND SOCIETY

NOTES

1. The Minor in Environment and Society is not open to students registered in any program in the School of Earth, Environment & Society.
2. In order to declare a Minor in Environment and Society, at least 12 units (above Level I) must be elective to degree.
3. Students interested in taking courses in Environmental Science and/or Earth Sciences subfields are encouraged to complete EARTHSC 1G03 and/or ENVIRSC 1C03.
4. Students are strongly encouraged to check the prerequisites of upper-level Earth Sciences, Environmental Science and Environment & Society courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.

REQUIREMENTS

24 units total

3 UNITS

from

- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

3 UNITS

from

- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- GEOG 2EI3

18 UNITS

from

- Levels II, III, IV Earth Sciences, Environmental Science, Environment & Society, Geography courses, including at least six units from Levels III or IV (See *Notes 3 and 4* above.)

MINOR IN ENVIRONMENTAL SCIENCES

NOTES

1. A Minor in Environmental Sciences is not permitted for students registered in any program in the School of Earth, Environment & Society.
2. ISCI 1A24 A/B is a substitution for EARTHSC 1G03, ENVIRSC 1C03.
3. ISCI 2A18 A/B may be used as a substitution for 3 units of Level II Earth Sciences toward the Minor in Environmental Sciences.
4. In order to declare a Minor in Environmental Sciences, at least 12 units (above Level I) must be elective to degree.

REQUIREMENTS

24 units total

3 UNITS

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

(See *Note 2* above.)

21 UNITS

from

- Earth Sciences, Environmental Science, Environment & Society and Geography courses, including at least six units from Levels III or IV and no more than 3 units from Level I (See *Note 4* above.)

MINOR IN ENVIRONMENTAL STUDIES

The Minor in Environmental Studies is being phased out. Graduation with this Minor will be last available to students graduating in 2023. Students who

intended to complete this Minor should refer to the Minor in Environment & Society.

NOTES

1. In order to declare a Minor in Environmental Studies, at least 12 units (above Level I) must be elective to degree.
2. At least six units from the *Course List* must be outside of the School of Earth, Environment & Society.
3. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03.
4. Students are strongly encouraged to check the prerequisites of upper-level courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.

COURSE LIST

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 2F03 - Introduction to Sociocultural Anthropology: Listening Across Difference
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3C03
- ANTHROP 3Z03
- BIOLOGY 2D03 - Plant Biodiversity and Biotechnology
- BIOLOGY 2F03 - Fundamental and Applied Ecology
- BIOLOGY 3SS3 - Population Ecology
- ECON 2J03 - Environmental Economics
- ECON 3W03 - Natural Resources
- EARTHSC 2GG3 - Natural Disasters
- EARTHSC 3CC3 - Earth's Changing Climate
- ENVIRSC 2WW3 - Water and the Environment
- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCY 2EK3 - Traditional Indigenous Ecological Knowledge
- ENVSOCY 3EC3 - Environmental Catastrophes
- ENVSOCY 3EE3 - Energy and Society
- ENVSOCY 3EG3 - Politics of a Dying Planet
- ENVSOCY 4EA3 - Environmental Assessment
- ENVSOCY 4HH3 - Environment and Health
- GEOG 2EI3
- GEOG 2EK3
- GEOG 3EC3
- GEOG 3EE3
- GEOG 3EG3
- GEOG 3ER3
- GEOG 3HH3
- GEOG 4EA3
- GEOG 4HH3
- HLTHAGE 4M03 - Environment and Health
- HISTORY 4K03 - Environment and Environmentalism in Modern North America
- INDIGST 2D03 - Traditional Indigenous Ecological Knowledge
- LIFESCI 3D03
- PHILOS 2G03 - Social and Political Issues
- PHILOS 2N03 - Business Ethics
- PHILOS 3L03 - Environmental Philosophy
- RELIGST 2W03

REQUIREMENTS

24 units total

3 UNITS

from

- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

3 UNITS

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment

(See *Note 3* above.)**3 UNITS**

- ENVSOCTY 2E13 - Environment & Society: Challenges and Solutions
- GEOG 2E13

3 UNITS

from

- ENVSOCTY 3EC3 - Environmental Catastrophes
- ENVSOCTY 3EE3 - Energy and Society
- ENVSOCTY 3ER3 - Sustainability and the Economy
- ENVSOCTY 4EA3 - Environmental Assessment
- GEOG 3EC3
- GEOG 3EE3
- GEOG 3ER3
- GEOG 4EA3

12 UNITS

from

- *Course List* including at least six units from Levels III or IV (See *Note 2* above.)

MINOR IN GEOGRAPHIC INFORMATION SYSTEMS (GIS)**NOTES**

1. In order to declare a Minor in Geographic Information Systems (GIS), at least 12 units (above Level I) must be elective to degree.
2. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03.
3. Students are strongly encouraged to check the prerequisites of upper-level courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.
4. Co-op students interested in pursuing GIS-related work placements and/or a Minor in Geographic Information Systems must complete ENVSOCTY 2GI3 (or GEOG 2GI3) in Fall Term of Level II and one of ENVSOCTY 3GI3 or 3GV3 (or one of GEOG 3GI3, 3GV3) in Winter Term of Level II. Students are encouraged to consult with an academic advisor to ensure proper course selection.

REQUIREMENTS

24 units total

6 UNITS

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCTY 1HA3 - Society, Culture and Environment
- ENVSOCTY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

(See *Note 2* above.)**3 UNITS**

from

- ENVSOCTY 3MB3 - Data Analysis
- GEOG 3MB3
- STATS 2B03 - Statistical Methods for Science
- STATS 3Y03 - Probability and Statistics for Engineering

9 UNITS

from

- ENVSOCTY 2GI3 - Geographic Information Systems
- ENVSOCTY 3GI3 - Advanced Raster GIS
- ENVSOCTY 3GV3 - Advanced Vector GIS

- GEOG 2GI3
- GEOG 3GI3
- GEOG 3GV3

6 UNITS

from

- ENVSOCTY 3SR3 - Remote Sensing
- ENVSOCTY 4GA3 - Applied Spatial Statistics
- ENVSOCTY 4GS3 - GIS Programming
- ENVSOCTY 4GT3 - Special Topics in GIS
- GEOG 3SR3
- GEOG 4GA3
- GEOG 4GS3
- GEOG 4GT3

MINOR IN GEOGRAPHY

The Minor in Geography is being phased out. Graduation with this Minor will be last available to students graduating in 2023. Students who intended to complete this Minor should refer to the Minor in Environment & Society.

NOTES

1. In order to declare a Minor in Geography, at least 12 units (above Level I) must be elective to degree.
2. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03.
3. No more than 6 units from GEOG 2OC3, 2RC3, 2RU3, 2RW3, 3RW3, ENVSOCTY 2OC3, 2RC3, 2RU3, 2RW3, 3RW3 may be used toward the minor.
4. Students are strongly encouraged to check the prerequisites of upper-level Environment & Society courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.

REQUIREMENTS

24 units total

6 UNITS

- ENVSOCTY 1HA3 - Society, Culture and Environment
- ENVSOCTY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

18 UNITS

from

- Levels II, III, IV Environment & Society or Geography courses, including at least six units of Levels III or IV (See *Note 3* above.)

MINOR IN GEOGRAPHY AND EARTH SCIENCES

The Minor in Geography and Earth Sciences is being phased out. Graduation with this Minor will be last available to students graduating in 2023. Students who intended to complete this Minor should refer to either the Minor in Earth Sciences or the Minor in Environment & Society.

NOTES

1. In order to declare a Minor in Geography and Earth Sciences, at least 12 units (above Level I) must be elective to degree.
2. ISCI 1A24 A/B is a substitute for EARTHSC 1G03, ENVIRSC 1C03.
3. ISCI 2A18 A/B may be used as a substitute for 3 units of Level II Earth Sciences toward the Minor in Geography and Earth Sciences.
4. No more than 6 units from EARTHSC 2GG3, 2WW3, 3DD3, ENVIRSC 2WW3, GEOG 2OC3, 2RC3, 2RU3, 2RW3, 3RW3, ENVSOCTY 2OC3, 2RC3, 2RU3, 2RW3, 3RW3 may be counted toward the minor.
5. Students are strongly encouraged to check the prerequisites of upper-level Earth Sciences and Environment & Society courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.

REQUIREMENTS

24 units total

6 UNITS

from

- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

18 UNITS

from

- Levels II, III, IV Earth Sciences, Environment & Society or Geography courses, including at least six units of Levels III or IV (See *Notes 3* and *4* above.)

Integrated Science Program

<https://science.mcmaster.ca/sis/undergraduate/isci/isci-home.html>

NOTES APPLICABLE TO ALL HONOURS INTEGRATED SCIENCE PROGRAMS

1. Beginning at Level II, Honours Integrated Science students may complete a concentration in one of the following areas:

- Biochemistry (Last available September 2022)
- Biology
- Chemical Biology
- Chemistry
- Earth and Environmental Sciences
- Environmental Sciences
- Mathematics and Statistics
- Medical & Biological Physics
- Physics
- Psychology, Neuroscience & Behaviour
- Sustainable Chemistry

2. In addition to the content covered within the ISCI courses, completion of a concentration normally requires a minimum of 24 units in the other subject.
3. Level I Honours Integrated Science students are encouraged to review the specific program requirements of all concentrations they are considering in Level II (<https://science.mcmaster.ca/sis/undergraduate/isci/isci-home.html>).
4. Effective September 2021, the Geography and Environmental Sciences concentration will be renamed the Environmental Sciences concentration. Students who enrolled prior to September 2021 will be given the choice to remain in the Geography and Environmental Sciences concentration or transfer to the Environmental Sciences concentration.
5. Honours Integrated Science students, completing a concentration, are eligible to obtain a maximum of one minor, provided that the subject area is not integral to the requirements of the concentration. Honours Integrated Science students not completing a concentration may be eligible for up to two minors provided that, for each minor, at least 12 units (above Level I) are elective to the degree. All students should consult the Academic Program Advisor.
6. Honours Integrated Science students may not proceed to the next level unless a Grade Point Average of at least 5.0 has been achieved and all required courses for their current level have been successfully completed including:
 - Level I students must successfully complete all discipline-specific components of ISCI 1A24 A/B before proceeding to Level II and enrolment in ISCI 2A18 A/B.
 - Level I students who fail one or two discipline-specific components of ISCI 1A24 A/B may have the opportunity to successfully complete equivalent courses before proceeding to Level II and enrolment in ISCI 2A18 A/B.
 - Level I students who fail more than two discipline-specific components of ISCI 1A24 A/B may not continue in the program. Such students may apply to transfer to a program for which they qualify.
 - Level II students must successfully complete all discipline-specific components of ISCI 2A18 A/B or make up any failed course work prior to proceeding to Level III and enrolment in ISCI 3A12 A/B.
 - Level III students must successfully complete all discipline-specific components of ISCI 3A12 A/B prior to proceeding to Level IV and enrolment in ISCI 4A12 A/B.
7. Honours Integrated Science students who have successfully completed the required ISCI courses and whose Grade Point Average is between 4.5 and 4.9, may remain in the program but will be placed on Program Probation for one reviewing period. Students may be on Program Probation only once during the program.

Life Sciences

<https://science.mcmaster.ca/sis/undergraduate/life-sciences.html>

Notes Applicable to all Honours Life Sciences Students

1. Honours Life Sciences students may not be eligible to complete a Minor in Biochemistry, Biology, Environmental Sciences or Psychology unless at

least 12 of the required 18 units (above Level I) for the Minor are considered elective to the degree. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).

- Honours Life Sciences, as a second degree, may not be possible if the student's first undergraduate degree is in Biochemistry, Biology, Environmental Sciences, or Psychology, Neurosciences & Behaviour. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).

Medical Radiation Sciences

<https://science.mcmaster.ca/sis/undergraduate/medical-radiation-sciences.html>

This program is offered jointly in partnership with Mohawk College of Applied Arts and Technology and McMaster University. Students pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.

Students enrolled in the Medical Radiation Sciences programs, in addition to meeting the *General Academic Regulations* of the University, shall be subject to the following program regulations. Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

Registration in the Medical Radiation Sciences program implies acceptance on the part of the student of the objectives of the program and the methods by which progress toward the achievement of those objectives is evaluated.

REGULATIONS FOR LICENSE TO PRACTICE

A degree in medical radiation sciences does not in itself confer the right to practice in radiography, radiation therapy or sonography in Canada. Graduation from the Medical Radiation Sciences program does not guarantee registration with the regulatory bodies of the respective professions or employment within Canada. All graduates who wish to engage in clinical practice in ultrasonography, radiography or radiation therapy are subject to any qualifying examinations and other requirements by the certifying and/or regulatory bodies for each of these professions. Regulatory requirements are subject to change. Students intending to practice outside Ontario are urged to consult the licensing body of that province regarding registration. Licensing requirements vary somewhat among the provinces.

The current Ontario requirements for registration are:

- In order to work as a medical radiation technologist and/or diagnostic medical sonographer in Ontario, you must be registered with the College of Medical Radiation and Imaging Technologists of Ontario (CMRITO) Council. Detailed information regarding the registration requirements for the College may be found in the Regulations section.
- Applicants must complete an approved training program in medical radiation technology in one of the specialties listed at <https://www.cmrito.org/applicants/approved-training-programs/>. Applicants trained in Ontario must successfully complete the examination set by the Canadian Association of Medical Radiation Technologists (CAMRT), for radiography and radiation therapy or Sonography Canada for ultrasonography. These are the examinations approved by the CMRITO.

FUNCTIONAL DEMANDS

The Medical Radiation Science health professions are physically and emotionally demanding because they routinely involve interaction with patients. Since applicants will work in these professions, it is important that they become familiar with any functional demands before entering the program to ensure that they can perform at an acceptable standard for employment. A student's choice of specialization is not guaranteed in the program; applicants must be prepared to enter any specialization. The functional demands associated with the health professions represented by the specializations are listed below. The list is not exhaustive, but is meant to provide an indication of the minimum demands. By registering in the program, applicants acknowledge that they are able to meet all of the demands.

All professionals must demonstrate:

- Empathy when interacting with patients of all ages
- Manual dexterity and eye-hand coordination to manipulate equipment controls
- Physical strength to position patients and manipulate heavy equipment through a wide range of motions
- Acute hearing to respond to low voices and ambient alarms and buzzers
- Critical thinking to be able to prioritize and respond to emergency situations

The Radiographer must possess:

- Acute vision to view images and distinguish fine features in contrast and detail

The Ultrasonographer must possess:

- Acute vision to view images and distinguish fine features in contrast and detail including nuances in colour Doppler ultrasound images
- Acute hearing to assess auditory Doppler ultrasound signals
- The ability to apply 3-D spatial relationships

The Radiation Therapist must possess:

- Acute vision to view equipment readouts at a distance in darkened rooms
- The ability to apply 3-D spatial relationships

Program Specific Academic Regulations

ENGLISH LANGUAGE PROFICIENCY

While the minimum English language requirements may gain admission to the Medical Radiation Sciences I program, students will find a need for a high level of verbal proficiency. Students lacking these skills may be required to participate in additional ESL training. Lack of English proficiency may impact a student's ability to complete performance requirements in skills and clinical courses and, therefore, jeopardize the ability to attain a passing grade in these required courses.

QUALIFYING FOR LEVEL II PROGRAMS

Enrolment in each of the Level II program specializations is limited. All Medical Radiation Sciences I students who meet the admission requirements by the end of the previous Fall/Winter session will be guaranteed entry to a Level II program specialization. Level I students who, at the end of the review period, require the completion of additional academic work in order to meet the Level II admission requirements are not guaranteed admission to a Level II program specialization. Such students may be considered for admission after meeting the admission requirements, if space is available. Level I students whose Level I Fall/Winter Average (on at least 24 units) is less than 5.0 and/or whose Grade Point Average is less than 5.0 can no longer continue in the Medical Radiation Sciences program without approval from the Reviewing Committee.

CONTINUATION IN THE PROGRAM

Students may not proceed to the next level until they have completed all required courses for the current level, and have attained a Grade Point Average of at least 5.0.

In Level I, students are reviewed at the end of Winter Term. Beginning at Level II, students are reviewed at the end of each term to determine eligibility to continue.

To continue in the Medical Radiation Sciences program, a student must maintain a minimum Grade Point Average of 5.0 and successfully complete all Medical Radiation Sciences courses. Failure to do so may prevent progression to the next term and/or level.

A student whose Grade Point Average is at least 4.5 may, at the discretion of the Reviewing Committee, proceed in the program but will be placed on Program Probation for one reviewing period of two consecutive terms. A student may be placed on Program Probation only once during the program. A student may not continue in the program if any of the following criteria is met. The student:

1. Fails to obtain a Grade Point Average of at least 5.0 at the completion of the Program Probation;
2. Obtains a Grade Point Average of less than 5.0 and has not been granted Program Probation;
3. Fails any course that is required for completion of the level in which the student is registered;
4. Fails the second attempt at any required course following re-entry to the program;
5. Fails any skills or clinical course following re-entry to the program;
6. Fails to complete the program requirements for graduation within the maximum allowable time (five years from the time of registration in Level II of the student's current specialization).

Level I students who may not continue in the program and whose Grade Point Average is between 3.5 and 4.4 may apply to transfer to a program for which they qualify. Level I students who may not continue in the program and whose Grade Point Average is between 3.0 and 3.4 may apply to transfer into Science on Academic Probation.

Upper level students who may not continue in the program may apply to transfer to a program for which they qualify.

DEFERRED EXAMINATIONS/INCOMPLETE COURSE WORK

See the heading Deferred Examinations under Examinations in the *General Academic Regulations* section of the Calendar for application procedures for Deferred Exams.

Students who have not completed all prerequisites for a clinical practicum will not be permitted to commence the clinical practicum. Such students will be reviewed by the Reviewing Committee to determine if the minimum prerequisite knowledge and skills have been attained to begin the clinical practicum. Failure to begin clinical practicum at the scheduled time could result in an extension of the time required to complete the program.

WORKLOAD

Students are required to be registered in a full load of courses as prescribed by level and term for their program.

Students in Medical Radiation Sciences I must complete at least 24 units during the Fall/Winter Terms. Transfer credit and credit earned during the Spring/Summer Term may not be used to reduce this minimum load requirement.

REPEATED COURSES

Any failed course must be repeated if it is a required course for the program, or may be repeated or replaced if it is not explicitly required.

LEVEL OF REGISTRATION

Students must register for all outstanding work of one level before attempting work for a higher level. Courses must be taken in the sequence specified by the program requirements.

SKILLS AND CLINICAL COURSES

All professional skills and clinical courses are graded on a pass/fail basis. The performance activities associated with each course are detailed in the course outline and manual, and must be successfully achieved for attainment of a passing grade in the course.

Clinical Practicum 1 (CP1), completed during the Spring/Summer Term after Level II is a minimum of 11 weeks. Clinical Practicum 2 (CP2) and Clinical Practicum 3 (CP3) are a minimum of 14 weeks in length. Students who are not meeting the conditions of their Learning Contract will be required to withdraw from the course, prior to the final assessment. A student must meet all the domains of practice, achieve all of the required Skills Assessments and Competencies and attendance requirements by the end of CP1, CP2 and CP3, in order to receive a passing grade. When deemed necessary by the Clinical Coordinator, to accommodate students who need to make up for missed time, require remediation or need to complete assigned competencies up to two weeks may be added to CP1 (to a maximum of 13 weeks), CP2 or CP3 (to a maximum of 16 weeks). Students who do not successfully complete CP1, CP2, CP3 may seek permission to re-enter in a subsequent session. Eligibility to complete the placement course in a subsequent session will be determined by the Review Committee.

Attendance is mandatory in all professional skills laboratory courses and clinical practica. Students are required to attend each clinical practicum on a full-time basis (i.e. 37.5 hours/week as scheduled by the clinical agency). Excessive absenteeism may jeopardize a student's ability to meet course performance requirements and result in a Fail grade for the course.

The Medical Radiation Sciences program monitors and documents students' experience and performance in skills and clinical courses to provide evidence of the students' ability to meet program requirements and to meet the minimum practice requirements to be eligible for registration to practice.

STUDENT CONDUCT IN THE PROGRAM

The University reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. The Medical Radiation Sciences program reserves the right to remove a student from a skills-based course, clinical placement or laboratory setting at any point during the term if the student exhibits unsafe clinical practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal may result in the student

receiving a grade of F in the course and may result in dismissal from the program.

INTERNAL RE-ENTRY TO THE PROGRAM

A student who becomes ineligible to continue in the program may apply for re-entry. Applications for Re-entry may be obtained through the School of Interdisciplinary Science (SIS). Request for re-entry may be made up to a maximum of two calendar years following the year in which the student becomes ineligible to continue. **Re-entry is neither automatic nor guaranteed.**

GRADUATION

A student is eligible for graduation when all of the following criteria are met. The student must:

1. Complete all required courses, including electives, with a Grade Point Average of at least 4.5;
2. Complete all skills and clinical courses with a Pass grade;
3. Complete all required courses in Levels II - IV within five years of registration in Level II.

LEAVE OF ABSENCE FROM THE PROGRAM

Students wishing to suspend their studies from the program must apply for a Leave of Absence (LOA). Approval is not guaranteed.

Students should note that the program requirements, including all required courses in Levels II - IV, must be completed within five years of first registration in Level II, and that the leave may jeopardize the student's ability to meet this requirement.

Application for a leave of absence must be made in writing normally within two months prior to the intended start of the leave. Forms are available through the School of Interdisciplinary Science (SIS).

Any student who returns from a leave of absence into a clinical practicum term will be required to complete an additional non-credit course (for which a fee is involved) to ensure the student's professional knowledge and skills meet the minimum requirements for entrance to that clinical practicum. This course must be completed in the term immediately preceding the clinical practicum.

Re-entry is not guaranteed for students who suspend their studies from the program without an approved Leave of Absence. Such students must contact the Director of the School of Interdisciplinary Science (SIS) to determine eligibility and appropriate procedures for re-entry. Students re-admitted to the program must adhere to the rules, regulations and program requirements of the Undergraduate Calendar in the year of re-entry into the program. Former Medical Radiation Sciences students who obtain permission for re-entry to a specialization will not be guaranteed protected status in the allotment process, regardless of their previous placement history.

NOTES

1. The overall program comprises ten terms within four calendar years. Three full terms are spent in clinical placement.
2. Students apply for their Level II program selections during Winter Term of Level I. At the end of Level I, eligible Medical Radiation Sciences students are streamed into one of three specializations: Radiography, Radiation Therapy, and Ultrasonography. Each have limited enrolment. Selection of students into Level II specializations is on the basis of academic achievement (for Level I students, the Fall/Winter Average, on at least 24 units of study). Depending on a student's relative academic ranking in the list of those applying to enter a specialization, they may or may not be placed in the specialization of their choosing.
3. **Transfer within Medical Radiation Sciences:** Any Medical Radiation Sciences student currently registered in one program specialization who wishes to transfer into another specialization must submit the transfer request in writing to the program by the end of April. As admission into Level II programs is a competitive process normally based on the Level I Fall/Winter Average, such transfer requests will be considered only after all eligible Level I students have been allocated into their specializations, and only if there is space remaining. Transfers are made into Level II only, and

would result in an increase in the length of time required for the student to complete the program. Transfers may not be made into Level II from any other program. **Transfers are neither automatic nor guaranteed.**

4. Placements will be with agencies that have contracted in advance with Mohawk College to provide specific experiences and resources during the normal clinical semester schedule; therefore, placements are not available at any other agencies or during other times. The College, in accordance with established policy, will determine allocation of students to these clinical facilities. The final assignment of learning settings is constrained by the availability of site resources. Students may be required to attend clinical practica in a setting that is not of their choosing. The College cannot accommodate any student requests for special consideration. Students must prepare financially and personally to relocate and/or commute to their assigned clinical placements. Students are responsible for arranging their own travel to and from assigned placements and are responsible for covering any costs incurred.
5. All students will be required to attend full-time clinical practica at a minimum of two different clinical agencies that may be located across Ontario.
6. **Basic Cardiac Life Support Training:** All Level II students are required to have obtained a current certificate in Basic Cardiac Life Support - HCP (Health Care Provider) and First Aid Training prior to commencing Term 2 of Level II. Current certificates are also required for Clinical Practica 2 and 3 in Level IV.
7. All students will be required to act as simulated patients for their peers in skills course labs and during skills practice sessions.
8. **Immunization and Health Screening:** The Ontario Public Hospitals Act requires that all persons working or on educational placement in a hospital setting meets criteria regarding surveillance for infectious diseases. All Level II students will be required to provide evidence of compliance with completion of mandatory immunization requirements as well as completing pre-clinical disease screening. Updated screening may be required for Level IV clinical practica.
9. Mask fit testing and a satisfactory Police Records Check are required prior to the commencement of each clinical placement.
10. All costs associated with pre-clinical requirements are the responsibility of the student.
11. All students are required to submit pre-clinical requirements by dates specified by the program. Failure to meet required deadlines may result in delay or loss of the clinical placement.
12. Levels II through IV run consecutively from September of Level II to completion of the program at the end of April in Level IV. The pattern of semesters of clinical practicum and academic courses is shown in the chart below.

Bachelor of Medical Radiation Sciences

MEDICAL RADIATION SCIENCES - RADIATION THERAPY SPECIALIZATION (B.M.R.SC.)

PROGRAM NOTES

1. Students in this program pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.
2. The timing of the Spring/Summer and the Level III and IV Fall/Winter Terms may not adhere to the *Sessional Dates*, as published in this Calendar.

ADMISSION

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade

Point Average of at least 5.0 including:

12 UNITS

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 UNITS

- KINESIOL 1Y03 - Human Anatomy and Physiology I
- KINESIOL 1YY3 - Human Anatomy and Physiology II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1MM3 - Applied Calculus

REQUIREMENTS

150 units total (Levels I to IV), 45 units of clinical practicum are interspersed with 75 units of academic courses in Levels II to IV

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

27 units

from

- MEDRADSC 2A03 - Patient Care
- MEDRADSC 2AA3 - Imaging Procedures in Health Care
- MEDRADSC 2D03 - Relational Anatomy I
- MEDRADSC 2RA3 - Relational Anatomy II
- MEDRADSC 2S03 - Clinical Oncology I
- MEDRADSC 2T03 - Clinical Oncology II
- MEDRADSC 2U03 - Radiation Therapy Skills I
- MEDRADSC 2W03 - Physics and Instrumentation for Radiation Therapy
- MEDRADSC 2X03 - Radiobiology and Protection
- MEDRADSC 2Z03

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

15 units

- MEDRADSC 2V15 - Radiation Therapy Clinical Practicum I

LEVEL III

Fall and Winter Terms: 30 units:

21 units

from

- MEDRADSC 3DA3 - Advanced Studies in Computed Tomography
- MEDRADSC 3K03 - Computed Tomography
- MEDRADSC 3LA3 - Radiation Therapy Skills II
- MEDRADSC 3S03 - Treatment Planning I
- MEDRADSC 3V03 - Treatment Planning II
- MEDRADSC 3W03
- MEDRADSC 3X03 - Research Methods in Medical Radiation Sciences
- MEDRADSC 3Y03 - Ethics for Medical Radiation Sciences

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

3 units

- Electives

Spring/Summer Term: 15 units:

(See *Program Note 2* above.)

9 units

from

- MEDRADSC 3AA3 - Interdisciplinary Health Care
- MEDRADSC 3B03 - Quality Management in Medical Radiation Sciences
- MEDRADSC 3BB3
- MEDRADSC 3LB3 - Radiation Therapy Skills III

6 units

- Electives

which may include

- MEDRADSC 3DE3 - Introduction to Magnetic Resonance Imaging
- MEDRADSC 3Z06 - Research Project

LEVEL IV

Fall and Winter Terms: 30 units:

30 units

- MEDRADSC 4E15 - Radiation Therapy Clinical Practicum II
- MEDRADSC 4F15 - Radiation Therapy Clinical Practicum III

PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level II	30 units from Academic Level II		Clinical Practicum I
Level III	45 units from Academic Level III		
Level IV	Clinical Practicum II	Clinical Practicum III	

MEDICAL RADIATION SCIENCES - RADIOGRAPHY SPECIALIZATION (B.M.R.SC.)

PROGRAM NOTES

1. Students in this program pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College and the McMaster Bachelor of Medical Radiation Sciences degree.
2. The timing of the Spring/Summer and the Level III and IV Fall/Winter Terms may not adhere to the *Sessional Dates*, as published in this Calendar.

ADMISSION

Enrolment in this program is limited and admission is by selection but requires, as a minimum, completion of Level I Medical Radiation Sciences with a Fall-Winter Average (on a minimum of 24 units) of at least 5.0 and a Grade Point Average of at least 5.0 including:

12 UNITS

- LIFESCI 1D03 - Medical Imaging Physics
- MEDRADSC 1B03 - Introduction to Pathology
- MEDRADSC 1E03 - Inquiry in Medical Radiation Sciences
- MEDRADSC 1F03 - Professions in Medical Radiation Sciences

- Electives

HONOURS LIFE SCIENCES (B.SC.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

3 UNITS

- CHEM 1A03 - Introductory Chemistry I

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

9 UNITS

from

- the Science I Course List

PROGRAM NOTES

1. Registration in an Honours Life Sciences program does not guarantee access to all courses. Some courses have program restrictions. Students should check prerequisites carefully.
2. LIFESCI 2G03 does not substitute for BIOLOGY 2C03 or MOLBIOL 2C03 for prerequisite purposes.

3. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.
4. Students interested in graduate school may wish to consider completion of a thesis or independent study course (See LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
5. Level IV Research Seminar topics may change from year to year. Research Seminar topics and descriptions are available on the program web site (<https://www.science.mcmaster.ca/sis/undergraduate/life-sciences.html>). Honours Life Sciences students must complete at least 3 units of *Knowledge Transfer/Seminar Experience (Course List E)*.
6. Students entering Level IV Honours Life Sciences (not including the Origins of Disease Specialization or the Sensory Motor Systems Specialization) must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by **the end of March**. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in a preferred seminar. The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses.
7. LIFESCI 4CM3 is required for students completing the Honours Life Sciences - Origins of Disease Specialization and is not included in the pre-registration ballot.
8. LIFESCI 4XX3 is required for students completing the Honours Life Sciences - Sensory Motor Systems Specialization and is not included in the pre-registration ballot.
9. Course planning is extremely important. Students must review and consider the requisites on Level II, III and IV courses when enrolling in the previous Levels.
10. Students who entered the program prior to September 2020, will have the choice to use LIFESCI 3N03 toward *Course List A* or *Course List C*.
11. LIFESCI 3P03 may be used toward either *Course List A* or *Course List C*.
12. SUSTAIN 3SS3 is only offered in the Spring Term.

COURSE LIST A - COMMUNICATION SKILLS

- ENGLISH 3NH3 - Narratives of Health
- ENVSOCTY 3TG3 - Geographies of Globalization
- ENVSOCTY 3UW3 - Cities of the Developing World
- HISTORY 3CH3 - Catastrophic History: Natural & Technological Disasters
- HISTORY 3TC3 - Science, Technology in World History
- HLTHAGE 3D03 - Perspectives on Disability, Chronic Illness and Aging
- HLTHAGE 3E03 - Ethical Issues in Health and Aging
- HLTHAGE 3N03 - Aging and Mental Health
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

COURSE LIST B - LABORATORY SKILLS

- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3LA3 - Introduction to Data Science
- LIFESCI 3LL3 - Living Systems Laboratory Practicum
- LIFESCI 3LX3 - Applied Biostatistics and Scientific Writing
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology

- MOLBIOL 3M03 - Fundamental Concepts of Development

COURSE LIST C - EXPERIENTIAL LEARNING

- CMTYENGA 2MC3 - Design and Creation of Engaged Learning for Community Youth
- CMTYENGA 2MD3 - Community-Based Learning with McMaster Children and Youth University
- CMTYENGA 4A06 - Semester at CityLAB: Design and Dialogue Inquiry
- CMTYENGA 4A09 - Semester at CityLAB: Applied Project Experience
- EXPLORE 3IS3 - Interdisciplinary Science Field Camp
- HTHSCI 4ID3 - Innovation By Design I
- HTHSCI 4LA3 - Innovation By Design II
- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab
- HUMAN 3LM3 - Foundations of Ethical Leadership
- LIFESCI 3EP3 - Life Sciences Applied Placement
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3RP3 - Life Sciences Research Practicum
- LIFESCI 3XX3 - Peer Mentoring in the Life Sciences
- LIFESCI 3YY3 - Peer Mentoring in Laboratory Skill Development
- LIFESCI 4A03 - Independent Study
- LIFESCI 4B06 A/B S
- LIFESCI 4B09 A/B S - Independent Project
- LIFESCI 4C09 A/B S
- LIFESCI 4C12 A/B S - Independent Thesis
- LIFESCI 4CC3
- LIFESCI 4D15 A/B S - Independent Thesis
- LIFESCI 4EP6 A/B S - Life Sciences Advanced Placement
- PSYCH 2NF3 - Clinical Neuropsychology
- SCIENCE 2A03 - Peer Mentoring in Science
- SCIENCE 3IS3
- SCIENCE 3M03 - Applied Curriculum Design in Science
- SUSTAIN 3S03 - Implementing Sustainable Change
- SUSTAIN 3SS3 - Community Engagement and Prototyping for Sustainability

COURSE LIST D - LIFE SCIENCES COURSE LIST

Astronomy	ASTRON 2B03
Biochemistry	Levels II, III, IV*
Biology	Levels II, III, IV*
Biophysics	BIOPHYS 2A03, 2S03, 3D03, 3G03
Chemistry	CHEM 2BC3, 2E03, 2OA3, 2OB3, 2P03, 3RC3
Chemical Biology	CHEMBIO 2A03, 2P03, 3BM3, 3OA3, 4OA3, 4OB3
Data Science	DATASCI 2G03
Earth Sciences	EARTHSC 2E03, 3P03, 4PA3
Environmental Science	ENVIRSC 2E03, 2EI3, 2GI3, 3B03, 3EE3, 3GI3, 3GV3, 3SR3, 4HH3
Environment & Society	ENVSOCTY 2EI3, 2GI3, 2HI3, 2UI3, 3EC3, 3EE3, 3ER3, 3GI3, 3GV3, 3HP3, 3SR3, 3UP3, 4HH3
Explore	EXPLORE 3IS3
Geography	GEOG 2EI3, 2GI3, 2HI3, 2UI3, 3EC3, 3EE3, 3ER3, 3GI3, 3GV3, 3HP3, 3SR3, 3UP3, 4HH3
Health Sciences	HTHSCI 2G03, 3DD3, 3DD6 A/B, 3I03, 3K03, 3RS3, 3DM3, 4II3, 4003
Kinesiology	KINESIOL 2Y03, 2YY3
Life Sciences	Levels II, III, IV*
Mathematics	MATH 2UU3, 3MB3
Medical Physics	MEDPHYS 4B03, 4F03, 4U03

Medical Radiation Sciences	MEDRADSC 3X03
Molecular Biology	Levels III, IV*
Neuroscience	NEUROSCI 3J03, 3SN3
Physics	PHYSICS 2G03
Psychology	PSYCH Levels II, III, IV*
Science	Levels II, III*
Science Communication	SCICOMM 2A03, 2M03, 2NM3
	* All Levels II, III, IV courses for which the prerequisites have been met are acceptable.

COURSE LIST E - KNOWLEDGE TRANSFER/SEMINAR EXPERIENCE

- LIFESCI 4CM3 - Foundations of Disease States Inquiry Lab
- LIFESCI 4DD3 - Racism & Health Inequities in Science & Health Care
- LIFESCI 4E03 - Science & Storytelling
- LIFESCI 4F03 - Emerging Paradigms in Environmental Change and Health
- LIFESCI 4H03 - Regeneration: What Can We Learn From Animal Models?
- LIFESCI 4I03 - Research Seminar
- LIFESCI 4J03 - Science Communication in the Media
- LIFESCI 4L03 - Our Invisible Body: Microbes and Human Health
- LIFESCI 4M03 - Research Seminar
- LIFESCI 4N03 - Research Seminar
- LIFESCI 4O03 - Research Seminar
- LIFESCI 4P03 - Research Seminar
- LIFESCI 4Q03 - Research Seminar
- LIFESCI 4U03 - Mechanisms of Disease
- LIFESCI 4V03 - Extracellular Vesicles in Health and Disease
- LIFESCI 4W03 - Advanced Topics in Nutrition
- LIFESCI 4X03 - The Biopsychology of Sex
- LIFESCI 4XX3 - The Synapse
- LIFESCI 4Y03 - Applied Biomechanics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See Admission above.)

LEVELS II-IV: 90 UNITS

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- BIOLOGY 2B03 - Cell Biology
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 2N03 - Human Nutrition for Life Sciences
- LIFESCI 2X03 - Environmental Change and Human Health

6 units

from

- Course List A - Communication Skills (See Program Notes 10 and 11 above.)

3 units

from

- Course List B - Laboratory Skills

3-15 units

from

- Course List C - Experiential Learning (See Program Notes 10 and 11 above.)

18 units

from

- Course List D - Life Sciences Course List

3 units

from

- Course List E - Knowledge Transfer/Seminar Experience

27-39 units

- Electives (See Program Note 9 above.)

HONOURS LIFE SCIENCES - ORIGINS OF DISEASE SPECIALIZATION (B.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement, but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

6 UNITS

from

- the *Science I Course List*

PROGRAM NOTES

1. Registration in an Honours Life Sciences program does not guarantee access to all courses. Some courses have program restrictions. Students are advised to check prerequisites carefully.
2. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.
3. Students interested in graduate school may wish to consider completion of a thesis or independent study course (See LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
4. LIFESCI 2G03 does not substitute for BIOLOGY 2C03 or MOLBIOL 2C03 for prerequisite purposes.

5. This program does not have a Co-op option.
6. Course planning is extremely important. Students must review and consider the requisites on Level II, III and IV courses when enrolling in the previous Levels.
7. Students in the Honours Life Sciences - Origins of Disease Specialization are excluded from the pre-registration ballot process as LIFESCI 4CM3 is a program requirement and registration is guaranteed.
8. For students entering Level II in September 2020, completion of CHEM 1AA3 is required by the end of Level II. Completion in Level I is strongly recommended.
9. Students should complete LIFESCI 2BP3 prior to registration in LIFESCI 3M03.
10. SUSTAIN 3SS3 is only offered in the Spring Term.
11. Students who entered the program prior to September 2022, can use MOLBIOL 3B03 to satisfy the LIFESCI 3M03 requirement.

LIFE SCIENCES COURSE LIST

Astronomy	ASTRON 2B03
Biochemistry	Levels II, III, IV*
Biology	Levels II, III, IV*
Biophysics	BIOPHYS 3D03, 3G03
Chemistry	CHEM 2BC3, 2E03, 2OA3, 2OB3, 2P03, 3RC3
Chemical Biology	CHEMBIO 2A03, 2P03, 3BM3, 3OA3, 4OA3, 4OB3
Data Science	DATASCI 2G03
Earth Sciences	EARTHSC 2E03, 3P03, 4PA3
Environmental Science	ENVIRSC 2E03, 2E13, 2GI3, 3B03, 3EE3, 3GI3, 3GV3, 3SR3, 4HH3
Environment & Society	ENVSOCY 2E13, 2GI3, 2HI3, 2UI3, 3EC3, 3EE3, 3ER3, 3GI3, 3GV3, 3HP3, 3SR3, 3UP3, 4HH3
Explore	EXPLORE 3IS3
Geography	GEOG 2E13, 2GI3, 2HI3, 2UI3, 3EC3, 3EE3, 3ER3, 3GI3, 3GV3, 3HP3, 3SR3, 3UP3, 4HH3
Health Sciences	HTHSCI 2G03, 3DD3, 3DD6 A/B, 3I03, 3K03, 3RS3, 3DM3, 4I13, 4O03
Kinesiology	KINESIOL 2Y03, 2YY3
Life Sciences	Levels II, III, IV*
Mathematics	MATH 2UU3, 3MB3
Medical Physics	MEDPHYS 4B03, 4F03, 4U03
Medical Radiation Sciences	MEDRADSC 3X03
Molecular Biology	Levels III, IV*
Neuroscience	NEUROSCI 3J03, 3SN3
Physics	PHYSICS 2G03
Psychology	PSYCH Levels II, III, IV*
Science	Levels II, III*
Science Communication	SCICOMM 2A03, 2M03, 2NM3

***All Levels II, III, IV courses for which prerequisites have been met are acceptable.**

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

6 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- BIOLOGY 2B03 - Cell Biology

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

6 units

- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 2BP3 - Biophysics of the Cell and Living Organisms

6 units

- CHEM 2OA3 - Organic Chemistry I
- CHEM 2OB3 - Organic Chemistry II

0-3 units

- CHEM 1AA3 - Introductory Chemistry II (if not completed in Level I)

(See *Program Note 8* above.)

3 units

- LIFESCI 3M03 - Cellular Dynamics

(See *Program Notes 9 and 11* above.)

3 units

from

- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- CHEMBIO 3BM3 - Implanted Biomaterials
- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BM3 - Implanted Biomaterials

3-15 units

from

- CMTYENGA 2MC3 - Design and Creation of Engaged Learning for Community Youth
- CMTYENGA 2MD3 - Community-Based Learning with McMaster Children and Youth University
- CMTYENGA 4A06 - Semester at CityLAB: Design and Dialogue Inquiry
- CMTYENGA 4A09 - Semester at CityLAB: Applied Project Experience
- EXPLORE 3IS3 - Interdisciplinary Science Field Camp
- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab
- HUMAN 3LM3 - Foundations of Ethical Leadership
- LIFESCI 3EP3 - Life Sciences Applied Placement
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3RP3 - Life Sciences Research Practicum
- LIFESCI 3XX3 - Peer Mentoring in the Life Sciences
- LIFESCI 3YY3 - Peer Mentoring in Laboratory Skill Development
- LIFESCI 4A03 - Independent Study
- LIFESCI 4B06 A/B S
- LIFESCI 4B09 A/B S - Independent Project
- LIFESCI 4C09 A/B S
- LIFESCI 4C12 A/B S - Independent Thesis
- LIFESCI 4CC3
- LIFESCI 4D15 A/B S - Independent Thesis
- LIFESCI 4EP6 A/B S - Life Sciences Advanced Placement
- PSYCH 2NF3 - Clinical Neuropsychology
- SCIENCE 2A03 - Peer Mentoring in Science
- SCIENCE 3IS3
- SCIENCE 3M03 - Applied Curriculum Design in Science
- SUSTAIN 3S03 - Implementing Sustainable Change
- SUSTAIN 3SS3 - Community Engagement and Prototyping for Sustainability

15 units

from

- Life Sciences Course List

3 units

- LIFESCI 4CM3 - Foundations of Disease States Inquiry Lab

21-36 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS LIFE SCIENCES - SENSORY MOTOR SYSTEMS SPECIALIZATION (B.SC.)

ADMISSION NOTES

1. Completion of BIOLOGY 1M03, CHEM 1AA3 and either PSYCH 1FF3 or 1XX3 is strongly recommended as they serve as prerequisites for required courses in Levels II and III.
2. Completion of CHEM 1AA3 is required by the end of Level II. Completion in Level I is strongly recommended.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement, but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

3 UNITS

- CHEM 1A03 - Introductory Chemistry I

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

9 UNITS

from

- the Science I Course List (See *Admission Notes 1 and 2* above.)

PROGRAM NOTES

1. Registration in an Honours Life Sciences program does not guarantee access to all courses. Some courses have program restrictions. Students are advised to check prerequisites carefully.
2. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.
3. Students interested in graduate school may wish to consider completion of a thesis or independent study course (See LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
4. LIFESCI 2G03 does not substitute for BIOLOGY 2C03 or MOLBIOL 2C03 for prerequisite purposes.
5. This program does not have a Co-op option.
6. Course planning is extremely important. Students must review and consider

the requisites on Level II, III and IV courses when enrolling in the previous Levels.

7. Students in the Honours Life Sciences - Sensory Motor Systems Specialization are excluded from the pre-registration ballot process as LIFESCI 4XX3 is a program requirement and registration is guaranteed.
8. For students entering the program as of September 2020, CHEM 1AA3 must be completed by the end of Level II. Completion in Level I is strongly recommended.
9. SUSTAIN 3SS3 is only offered in the Spring Term.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above)

LEVELS II-IV: 90 UNITS

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

- KINESIOL 2Y03 - Human Anatomy and Physiology I

3 units

- PSYCH 2E03 - Sensory Processes

0-3 units

- CHEM 1AA3 - Introductory Chemistry II (if not completed in Level I)

(See *Program Note 8* above.)

6 units

from

- KINESIOL 4TT3 - Human Robotics
- NEUROSCI 3J03 - Visual Neuroscience
- PSYCH 3A03 - Audition
- PSYCH 3BN3 - Cognitive Neuroscience
- PSYCH 3J03

3 units

from

- LIFESCI 3J03 - Human Biomechanics
- LIFESCI 3K03 - Neural Control of Human Movement

3 units

- LIFESCI 3BB3 - Neurobiology of Disease

3 units

from

- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3V3
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3LA3 - Introduction to Data Science
- LIFESCI 3LL3 - Living Systems Laboratory Practicum
- LIFESCI 3LX3 - Applied Biostatistics and Scientific Writing
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development

3-15 units

from

- CMTYENGA 2MC3 - Design and Creation of Engaged Learning for Community Youth
- CMTYENGA 2MD3 - Community-Based Learning with McMaster Children and Youth University
- CMTYENGA 4A06 - Semester at CityLAB: Design and Dialogue Inquiry
- CMTYENGA 4A09 - Semester at CityLAB: Applied Project Experience
- EXPLORE 3IS3 - Interdisciplinary Science Field Camp
- HTHSCI 4ID3 - Innovation By Design I
- HTHSCI 4LA3 - Innovation By Design II
- HUMAN 3CM3 - Leadership: Cross-Cultural Mentoring Lab
- HUMAN 3LM3 - Foundations of Ethical Leadership
- LIFESCI 3EP3 - Life Sciences Applied Placement
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3RP3 - Life Sciences Research Practicum
- LIFESCI 3XX3 - Peer Mentoring in the Life Sciences
- LIFESCI 3YY3 - Peer Mentoring in Laboratory Skill Development
- LIFESCI 4A03 - Independent Study
- LIFESCI 4B06 A/B S

- SCIENCE 3IS3
- SCIENCE 3M03 - Applied Curriculum Design in Science
- SUSTAIN 3S03 - Implementing Sustainable Change
- SUSTAIN 3SS3 - Community Engagement and Prototyping for Sustainability

12 units

from

- *Life Sciences Course List*

3 units

- LIFESCI 4XX3 - The Synapse

21-36 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS LIFE SCIENCES CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline and completion of Level II Honours Life Sciences with a Grade Point Average of at least 5.0 and completion of the following courses:

9 UNITS

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 UNITS

- STATS 2B03 - Statistical Methods for Science

3 UNITS

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 UNITS

from

- BIOLOGY 2B03 - Cell Biology
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 2N03 - Human Nutrition for Life Sciences
- LIFESCI 2X03 - Environmental Change and Human Health

NOTE:

Information about this program and the selection procedure can be obtained from Science Career and Cooperative Education and the Academic Program Advisor.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in life sciences related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall Term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Registration in the Honours Life Sciences Co-op program does not guarantee access to all courses. Some courses have program restrictions and students are responsible to read course prerequisites carefully.
5. Students interested in completing a thesis or independent study course should consider completing LIFESCI 3RP3 in Level III.

6. Students interested in graduate school may wish to consider completion of a thesis or independent study course (see LIFESCI 4A03, 4B09 A/B S, 4C12 A/B S, 4D15 A/B S).
7. Level IV Research Seminar topics may change from year to year. Research Seminar topics and descriptions are available on the program web site (<https://www.science.mcmaster.ca/sis/undergraduate/life-sciences.html>).
8. Students entering Level IV or V of Honours Life Sciences Co-op must complete and submit a ballot, rank ordering their preference for enrolment in Level IV seminar offerings by **the end of March**. Students will be informed of their ballot result by the end of May. Failure to submit a ballot by the stated deadline may compromise enrolment in a preferred seminar. The Life Sciences program pre-registration ballot will include all Level IV Life Sciences research seminar courses. Co-op students will have access to the ballot only once during their undergraduate degree.
9. LIFESCI 4CM3 is required for students completing the Honours Life Sciences - Origins of Disease Specialization and is not included in the pre-registration ballot.
10. LIFESCI 4XX3 is required for students completing the Honours Life Sciences - Sensory Motor Systems Specialization and is not included in the pre-registration ballot.
11. Students must complete at least one of EXPLORE 3IS3, LIFESCI 3EP3, 3RP3, 3XX3, 3YY3, 4A03, 4B06 A/B S, 4B09 A/B S, 4C09 A/B S, 4C12 A/B S, 4D15 A/B S, 4EP6 A/B S, SCIENCE 2A03, 3A03, 3M03, 3WT0.
12. The Co-op option is not available with either the Origins of Disease or Sensory Motor Systems Specializations.
13. Course planning is extremely important. Students must review and consider the requisites on Level II, III and IV courses when enrolling in the previous Levels.

LIFE SCIENCES COURSE LIST

Astronomy	ASTRON 2B03
Biochemistry	Levels II, III, IV*

* All Levels II, III, IV courses for which the prerequisites have been met are acceptable.	

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

- Completed prior to admission to program

LEVEL II: 30 UNITS

30 units

- Completion of any Level II Honours Life Sciences program, including:

9 units

- LIFESCI 2A03 - Research Methods in Life Sciences
- LIFESCI 2AA3 - Introduction to Topics in Life Sciences
- LIFESCI 2L03 - Living Systems Laboratory

3 units

- STATS 2B03 - Statistical Methods for Science

3 units

from

- BIOLOGY 2C03 - Genetics
- LIFESCI 2G03 - Genes, Genomes and Society

3 units

from

- BIOLOGY 2B03 - Cell Biology
- LIFESCI 2CC3 - Fundamentals of Neuroscience
- LIFESCI 2D03 - Behavioural Processes
- LIFESCI 2N03 - Human Nutrition for Life Sciences
- LIFESCI 2X03 - Environmental Change and Human Health

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

(See Program Note 3 above.)

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

from

- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

6 units

from

- Life Sciences Course List

6 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

from

- LIFESCI 3AA3 - Human Pathophysiology
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3G03 - Introduction to Epidemiology
- LIFESCI 3M03 - Cellular Dynamics
- LIFESCI 3N03 - Human Nutritional Toxicology
- LIFESCI 3P03 - Science Communication in Life Sciences
- LIFESCI 3Q03 - Global Human Health and Disease
- LIFESCI 3RC3 - Radioisotopes in Medicine
- LIFESCI 3Z03 - Life Sciences Inquiry

3 units

from

- BIOLOGY 3B03 - Plant Physiology
- BIOLOGY 3JJ3 - Field Methods In Ecology
- BIOLOGY 3U03 - Animal Physiology - Homeostasis
- BIOLOGY 3VV3
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 3L03 - Laboratory Methods in Life Sciences
- LIFESCI 3LA3 - Introduction to Data Science
- LIFESCI 3LL3 - Living Systems Laboratory Practicum
- LIFESCI 3LX3 - Applied Biostatistics and Scientific Writing
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development

9 units

from

- *Life Sciences Course List*

15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:**3 units**

from

- LIFESCI 4CM3 - Foundations of Disease States Inquiry Lab
- LIFESCI 4DD3 - Racism & Health Inequities in Science & Health Care

- LIFESCI 4E03 - Science & Storytelling
- LIFESCI 4F03 - Emerging Paradigms in Environmental Change and Health
- LIFESCI 4H03 - Regeneration: What Can We Learn From Animal Models?
- LIFESCI 4I03 - Research Seminar
- LIFESCI 4J03 - Science Communication in the Media
- LIFESCI 4L03 - Our Invisible Body: Microbes and Human Health
- LIFESCI 4M03 - Research Seminar
- LIFESCI 4N03 - Research Seminar
- LIFESCI 4O03 - Research Seminar
- LIFESCI 4P03 - Research Seminar
- LIFESCI 4Q03 - Research Seminar
- LIFESCI 4U03 - Mechanisms of Disease
- LIFESCI 4V03 - Extracellular Vesicles in Health and Disease
- LIFESCI 4W03 - Advanced Topics in Nutrition
- LIFESCI 4X03 - The Biopsychology of Sex
- LIFESCI 4XX3 - The Synapse
- LIFESCI 4Y03 - Applied Biomechanics

3 units

from

- *Life Sciences Course List*

9 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	30 units from Academic Levels III and IV		Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

Bachelor of Science

LIFE SCIENCES (B.SC.)

NOTE APPLICABLE TO B.SC. IN LIFE SCIENCES

The B.Sc. in Life Sciences, as a second degree, may not be possible if the student's first undergraduate degree is in Biochemistry, Biology, Environmental Sciences, or Psychology, Neurosciences & Behaviour. Students wishing further information should consult with the Office of the Associate Dean of Science (Academic).

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

3 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology

3 UNITS

- CHEM 1A03 - Introductory Chemistry I

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity
- EARTHSC 1G03 - Earth and the Environment
- ENVIRSC 1C03 - Climate, Water and Environment
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

9 UNITS

from

- the Science I Course List

PROGRAM NOTES

1. Students who intend to complete Biochemistry courses or who wish to be eligible for a wider selection of Biology and Psychology courses must complete CHEM 1A03, 1AA3.
2. Registration in the B.Sc. Life Sciences program does not guarantee access to all courses. Some courses have program restrictions and students are responsible to read course prerequisites carefully.
3. Students registered in the B.Sc. Life Sciences program who are interested in transferring to Honours Life Sciences should meet with an Academic Advisor in the Office of the Associate Dean of Science (Academic).

Life Sciences	Levels II, III, IV*
Mathematics	MATH 2UU3, 3MB3
Medical Physics	MEDPHYS 2D03, 4B03, 4F03, 4U03
Medical Radiation Sciences	MEDRADSC 3X03

Molecular Biology	Levels III, IV*
Neuroscience	NEUROSCI 3J03, 3SN3
Physics	PHYSICS 2G03
Psychology	PSYCH Levels II, III, IV*
Science	Levels II, III*
Science Communication	SCICOMM 2A03, 2M03, 2NM3
* All Levels II, III, IV courses for which the prerequisites have been met are acceptable.	

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

LEVEL I: 30 UNITS

30 units

(See Admission above.)

LEVELS II-III: 60 UNITS

24 units

from

- the Life Sciences Course List of which at least 12 units must be Levels III, IV courses (See Note Applicable to B.Sc. in Life Sciences and Program Note 1 above.)

36 units

- Electives of which at least nine units must be selected from the Faculty of Science

Department of Kinesiology

Bachelor of Science Kinesiology (Honours)

HONOURS KINESIOLOGY (B.SC.KIN.)

ADMISSION

Completion of Level I Honours Kinesiology including, KINESIOL 1A03, 1AA3, 1E03, 1F03, 1K03 with a Grade Point Average of at least 6.0.

PROGRAM NOTES

1. Completion of MATH 1A03 or 1LS3 is a requirement for this program and must be completed by the end of Level II.
2. PHYSICS 1A03 serves as excellent preparation for KINESIOL 2A03, especially for students who did not complete Grade 12 Physics U.
3. Honours B.Sc. Kinesiology students must complete at least six units of electives chosen from the Faculty of Science.
4. Kinesiology courses may not be used toward the elective component of the degree.
5. A maximum of 18 units of Levels III, IV Kinesiology courses may be completed in Level III of the program.
6. Honours Kinesiology students who have a minimum Grade Point Average of 3.5 and successfully completed at least 90 units including all requirements up to the end of Level III of the Honours B.Sc. Kinesiology program may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the Bachelor of Science Kinesiology (B.Sc.Kin.) degree.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-IV: 90 UNITS

18 units

- KINESIOL 2A03 - Biomechanics
- KINESIOL 2C03 - Neuromuscular Exercise Physiology
- KINESIOL 2CC3 - Cardiorespiratory and Metabolic Exercise Physiology
- KINESIOL 2E03 - Musculoskeletal Anatomy
- KINESIOL 2F03 - Growth, Maturation and Physical Activity in Children and Youth
- KINESIOL 2G03 - Health Psychology

0-3 units

from the following courses, if not completed in Level I

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

(See *Program Note 1* above.)

3 units

- STATS 2B03 - Statistical Methods for Science

36 units

from

- Levels III, IV Kinesiology courses including at least nine units of Level IV (See *Program Note 5* above.)

33-36 units

- Electives (See *Program Notes 2, 3 and 4* above.)

Phil (Oxford)**Gregory Pond**/(Oncology) B.Sc. (Brock), M.Sc. (Simon Fraser), Ph.D. (Toronto)**NOTES APPLICABLE TO ALL PROGRAMS OFFERED BY THE DEPARTMENT OF MATHEMATICS AND STATISTICS**

- The Department offers an Honours Mathematics and Statistics program, which may be complemented with a Sub-Plan in Mathematics or Statistics, and an Honours Actuarial and Financial Mathematics program. Combined Honours programs are available with Arts and Science, Biology, Computer Science, Economics, English, French, History, Philosophy, and Physics.
- Students considering graduate studies in Mathematics are encouraged to complete MATH 2XX3, 3A03, 3F03, 3GR3, 3X03, 4A03 or register in the Mathematics Sub-Plan. Students considering graduate studies in Statistics are encouraged to complete STATS 3A03, 3D03, 3F03*, 3S03*, 3U03* or register in the Statistics Sub-Plan. Students considering a career as an actuary are encouraged to complete MATH 2FM3, 3FM3, 4FM3, STATS 2D03, 2MB3, 3A03, 3D03, 3G03, 3H03, 4A03 or register in Honours Actuarial and Financial Mathematics.
- Cooperative Education programs are available; see the requirements for Honours Mathematics and Statistics Co-op programs in this section of the Calendar. Admission to the co-op programs is in Level III.

Bachelor of Science (Honours)

HONOURS ACTUARIAL AND FINANCIAL MATHEMATICS (B.SC.)

ADMISSION NOTES

- Completion of ECON 1B03 and 1BB3 is required by the end of Level II. Completion in Level I is strongly recommended.
- Completion of COMMERCE 1AA3 is required by the end of Level II. Completion in Level I is strongly recommended.
- Students seeking admission to the program are strongly discouraged from

taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection and is based on completion of the supplementary application by the stated deadline (<https://www.math.mcmaster.ca/undergraduate/useful-links/actuarial-and-financial-mathematics-supplementary-application.html>) and academic achievement, but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 3* above.)**3 UNITS**

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 3* above.)**3 UNITS**

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

- Students interested in focusing on financial mathematics are strongly encouraged to complete MATH 2X03, 2XX3, 3FF3 and one of COMPSCI 1MD3, MATH 1MP3 or 3NA3. Students should note that MATH 2R03 is a prerequisite for MATH 3FF3.
- Students are strongly encouraged to complete COMMERCE 2FA3 by the end of Level II, especially if the Honours Actuarial and Financial Mathematics Co-op program is being considered for Level III.
- Completion of MATH 1C03 is strongly recommended as it is a prerequisite for MATH 3A03 and MATH 3IA3.
- Completion of COMMERCE 4FR3 is recommended for students interested in focusing on actuarial science and insurance.
- Completion of STATS 3DS3 is strongly recommended.

COURSE LIST

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 4FP3 - Personal Finance
- COMMERCE 4FW3 - Finance for Entrepreneurs
- ECON 2G03
- ECON 2GG3
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II
- All Level III, IV and V Mathematics or Statistics courses

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS30 units(See *Admission* above.)**LEVELS II-IV: 90 UNITS**15 units

- COMMERCE 2FA3 - Introduction to Finance (See *Program Note 2* above.)
- MATH 2C03 - Introduction to Differential Equations

- MATH 2FM3 - Introduction To Mathematical Finance
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

15 units

HONOURS ACTUARIAL AND FINANCIAL MATHEMATICS CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Actuarial and Financial Mathematics with a Grade Point Average of at least 5.0. Information about this program and the selection procedure can be obtained from the Science Career and Cooperative Education Office.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in actuarial and financial mathematics related placements.
2. Students must be registered full-time and take a full academic workload, as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Students interested in focusing on financial mathematics are strongly encouraged to complete MATH 2XX3, 3FF3 and one of COMPSCI 1MD3, MATH 1MP3 or 3NA3. Students should note that MATH 2X03 is a prerequisite for MATH 2XX3 and that MATH 2R03 is a prerequisite for MATH 3FF3.
5. Students must complete STATS 4A03 or COMMERCE 2FB3 (or COMMERCE 3FA3).
6. Students should take COMMERCE 1AA3 and COMMERCE 2FA3 by the end of Level II, to enable completion of COMMERCE 2FB3 (or COMMERCE 3FA3) in a Fall Term of Level III or IV.
7. Alternatives for meeting the requirement of three units of STATS 4A03 or COMMERCE 2FB3 (or COMMERCE 3FA3) would include distance learning courses accredited by the actuarial agencies for fulfillment of either the Applied Statistical Methods VEE, or the Corporate Finance VEE, respectively. Students considering this alternative must speak with a faculty advisor from the Department of Mathematics and Statistics.

COURSE LIST

- COMMERCE 2AB3 - Managerial Accounting I
- COMMERCE 4FP3 - Personal Finance
- COMMERCE 4FW3 - Finance for Entrepreneurs

- ECON 2G03
- ECON 2GG3
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II
- All Level III, IV and V Mathematics or Statistics courses

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

Completion of Level II Honours Actuarial and Financial Mathematics program including:

15 units

- COMMERCE 2FA3 - Introduction to Finance
- MATH 2C03 - Introduction to Differential Equations
- MATH 2FM3 - Introduction To Mathematical Finance
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

0-9 units

from the following courses, if not completed in Level I

- COMMERCE 1AA3 - Introductory Financial Accounting
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

from

- MATH 3A03 - Real Analysis I
- MATH 3IA3 - Introduction to Analysis

9 units

- MATH 3FM3 - Mathematics of Finance
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics

0-3 units

- COMMERCE 2FB3 - Managerial Finance (or COMMERCE 3FA3) (if eligible)

(See *Program Notes 5, 6 and 7* above.)

0-3 units

- Electives

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

6 units

- STATS 3G03 - Actuarial Mathematics I
- STATS 3ST3 - Actuarial Models in Non-Life Insurance

0-3 units

- COMMERCE 2FB3 - Managerial Finance (or COMMERCE 3FA3) (if not completed in Level III)

(See *Program Notes 5, 6 and 7* above.)

9 units

from

- *Course List* (See *Program Note 4* above.)

12-15 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- MATH 4FM3 - Financial Markets and Derivatives
- STATS 4G03* - Advanced Topics in Actuarial Science
- STATS 4H03* - Actuarial Mathematics II (formerly called STATS 3H03)

3 units

- STATS 4A03 - Time Series (if COMMERCE 2FB3 or 3FA3 not completed previously.)

(See *Program Notes 5, 6 and 7* above.)

6 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED IN SEPTEMBER 2020 OR PRIOR

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

Completion of Level II Honours Actuarial and Financial Mathematics program including:

15 units

- COMMERCE 2FA3 - Introduction to Finance
- MATH 2C03 - Introduction to Differential Equations
- MATH 2FM3 - Introduction To Mathematical Finance
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

HONOURS MATHEMATICS AND COMPUTER SCIENCE (B.SC.)**ADMISSION NOTES**

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Admission is by selection but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

3 UNITS

- COMPSCI 1DM3 - Discrete Mathematics for Computer Science

3 UNITS

from

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation

3 UNITS

from

- COMPSCI 1XC3 - Computer Science Practice and Experience: Development Basics
- COMPSCI 1XD3 - Computer Science Practice and Experience: Introduction to Software Design Using Web Programming

PROGRAM NOTES

1. To meet the prerequisites of required Level III Computer Science courses, students are strongly encouraged to take COMPSCI 2LC3 and one of COMPSCI 2AC3 or 2ME3 in Level II.
2. Completion of MATH 1C03 is required by the end of Level II.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra
- MATH 3CY3* - Cryptography
- MATH 3DC3* - Discrete Dynamical Systems and Chaos
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3H03* - Number Theory
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3QC3* - Introduction to Quantum Computing
- MATH 3T03 - Inquiry in Topology
- MATH 3TP3* - Truth and Provability
- MATH 3U03* - Combinatorics
- MATH 3V03* - Graph Theory

SCIENTIFIC COMMUNICATION COURSE LIST

- MATH 3CY3* - Cryptography
- MATH 3DC3* - Discrete Dynamical Systems and Chaos
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 3G03* - Problem Solving
- MATH 3MB3 - Introduction to Modelling
- MATH 3QC3* - Introduction to Quantum Computing
- MATH 3TP3* - Truth and Provability
- MATH 3U03* - Combinatorics
- MATH 3V03* - Graph Theory
- MATH 3Z03* - Inquiry: History of Mathematics
- MATH 4FM3 - Financial Markets and Derivatives
- MATH 4MB3* - Mathematical Biology
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3DA3 - Data Science Methods
- STATS 3DS3 - Introduction to Data Science Theory
- STATS 3PG3 - Probability and Games of Chance
- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03* - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS30 units(See *Admission* above.)**LEVELS II-IV: 90 UNITS**0-3 units

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

6 units

- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

3 units

from

- MATH 2C03 - Introduction to Differential Equations
- STATS 2D03 - Introduction to Probability

3 units

HONOURS MATHEMATICS AND PHYSICS (B.SC.)

ADMISSION NOTES

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.
3. Completion of either DATASCI 2G03 or MATH 1MP3 is required by the end of Level II, however, MATH 1MP3 is recommended in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 UNITS

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 UNITS

from

- the Science I Course List (see *Admission Note 3* above.)

PROGRAM NOTES

1. PHYSICS 3A03 and 3C03 are listed in Level III but are offered in alternate years and may be taken in Level IV.
2. A Minor in Astronomy or Statistics is not permitted in the Honours Mathematics and Physics program.
3. Students must complete 3 units from DATASCI 2G03 or MATH 1MP3. Students are strongly recommended to complete both.
4. Completion of MATH 1C03 is required by the end of Level II.
5. Students who entered the program prior to September 2022 may choose to complete one of MATH 3ET3 A/B S, 4P06 A/B S, 4W03, STATS 4T06 A/B or 4W03 instead of PHYSICS 3ET3 A/B S, 4L03 A/B or 4P06 A/B. A total of 9 units of Level III, IV, V Physics or Astronomy courses will still be required.
6. For students entering the program as of September 2022, completion of 3-6 units from MATH 3ET3 A/B S, 4P06 A/B S, 4W03, PHYSICS 3ET3 A/B S, 4L03 A/B, STATS 4T06 A/B or 4W03 is required.

SCIENTIFIC COMMUNICATION COURSE LIST

- MATH 3CY3* - Cryptography
- MATH 3DC3* - Discrete Dynamical Systems and Chaos
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 3G03* - Problem Solving
- MATH 3MB3 - Introduction to Modelling
- MATH 3QC3* - Introduction to Quantum Computing
- MATH 3TP3* - Truth and Provability
- MATH 3U03* - Combinatorics
- MATH 3V03* - Graph Theory
- MATH 3Z03* - Inquiry: History of Mathematics
- MATH 4FM3 - Financial Markets and Derivatives
- MATH 4MB3* - Mathematical Biology
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3DA3 - Data Science Methods
- STATS 3DS3 - Introduction to Data Science Theory
- STATS 3PG3 - Probability and Games of Chance

- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03* - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS**30 UNITS**

(See *Admission* above.)

LEVEL II: 30 UNITS**9 UNITS**

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 UNITS

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

12 UNITS

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics

0-3 UNITS

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

0-3 UNITS

from

- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

(See *Program Note 3* above.)

0-6 UNITS

- Electives (See *Program Notes 3 and 4* above.)

LEVEL III: 30 UNITS**3 UNITS**

from

- MATH 3A03 - Real Analysis I
- MATH 3IA3 - Introduction to Analysis

3 UNITS

- MATH 3X03 - Complex Analysis I

6 UNITS

- Levels II, III, IV Mathematics or Statistics courses

3 UNITS

from

- PHYSICS 3A03 - Relativity, Gravity and the Geometry of Spacetime
- PHYSICS 3C03 - Analytical Mechanics

9 UNITS

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

6 UNITS

- Electives

LEVEL IV: 30 UNITS**3-6 UNITS**

from

- the *Scientific Communication Course List*

3 UNITS

- PHYSICS 4B03 - Electromagnetic Theory

18 UNITS

from

- Levels II, III, IV Astronomy, Data Science, Mathematics, Physics, Statistics courses including nine units from Mathematics or Statistics and nine units from Astronomy, Data Science or Physics (See *Program Note 6* above.)

WHICH MUST INCLUDE ONE OF:

- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics
- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

3-6 UNITS

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2022

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS30 units

(See *Admission* above.)

LEVEL II: 30 UNITS9 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

12 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II (or 2B06)
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics

0-3 units

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

0-3 units

from

- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

(See *Program Note 3* above.)

0-6 units

- Electives (See *Program Notes 3 and 4* above.)

LEVEL III: 30 UNITS3 units

from

- MATH 3A03 - Real Analysis I
- MATH 3IA3 - Introduction to Analysis

3 units

- MATH 3X03 - Complex Analysis I

6 units

- Levels II, III, IV Mathematics or Statistics courses

3 units

from

- PHYSICS 3A03 - Relativity, Gravity and the Geometry of Spacetime
- PHYSICS 3C03 - Analytical Mechanics

9 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

6 units

- Electives

LEVEL IV: 30 UNITS12 units

from

- Levels III, IV, V Mathematics or Statistics courses with at least three units from Level IV and one course selected from the *Scientific Communication Course List*

3 units

- PHYSICS 4B03 - Electromagnetic Theory

9 units

- Levels III, IV, V Physics or Astronomy courses (see *Program Note 5* above.)

Including:

one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

6 units

- Electives

NOTE

Students who entered the program prior to September 2019 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS MATHEMATICS AND STATISTICS (B.SC.)**ADMISSION NOTES**

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, DATASCI 2G03, MATH 1MP3, PHYSICS 2G03.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra
- MATH 3B03 - Geometry
- MATH 3F03 - Ordinary Differential Equations

39-45 units

- Electives

NOTE

Students who entered the program prior to September 2019 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS MATHEMATICS AND STATISTICS - MATHEMATICS SUB-PLAN (B.SC.)

Effective September 2023, this program will be renamed Honours Mathematics and Statistics - Mathematics Specialization (B.Sc.). Students who enrolled prior to September 2023 will be given the choice to remain in Honours Mathematics and Statistics - Mathematics Sub-Plan or transfer into Honours Mathematics and Statistics - Mathematics Specialization.

ADMISSION NOTES

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 8.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

1. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, DATASCI 2G03, MATH 1MP3, PHYSICS 2G03.
2. Completion of MATH 1C03 is required by the end of Level II.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

HONOURS MATHEMATICS AND STATISTICS - MATHEMATICS SUB-PLAN CO-OP (B.SC.)

Effective September 2023, this program will be renamed Honours Mathematics and Statistics - Mathematics Specialization Co-op (B.Sc.). Students who enrolled prior to September 2023 will be given the choice to remain in Honours Mathematics and Statistics - Mathematics Sub-Plan Co-op or transfer into Honours Mathematics and Statistics - Mathematics Specialization Co-op.

HONOURS MATHEMATICS AND STATISTICS CO-OP PROGRAMS

Co-op opportunities in Mathematics and Statistics are available in combination with the sub-plans. Enrolment in these programs is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of a Level II Honours Mathematics and Statistics program with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

NOTES

1. These are five-level (year) co-op programs which include two eight-month work terms which must be spent in mathematics or statistics related placements.
2. Students must be registered in a full-load and take a full academic program

as prescribed, by Level and Term.

3. Students are required to complete SCIENCE 2C00 prior to the Fall term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, DATASCI 2G03, MATH 1MP3, PHYSICS 2G03. It is recommended that students in Mathematics Sub-Plan (Co-op) complete this requirement prior to their first work term.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Mathematics and Statistics (Mathematics Sub-Plan) with a Grade Point Average of at least 5.0.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Mathematics and Statistics

(Mathematics Sub-Plan)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- MATH 3IA3 - Introduction to Analysis

3 units

from

- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra

6 units

from

- *Core Course List*

3 units

- Electives (See *Note 4* above.)

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3A03 - Real Analysis I

3 units

- MATH 3X03 - Complex Analysis I

3 units

from

- MATH 3FF3 - Partial Differential Equations
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3T03 - Inquiry in Topology

9 units

from

- Levels III, IV, V Mathematics or Statistics courses including one course selected from the *Scientific Communication Course List*

0-3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

(See *Note 4* above.)

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

3 units

- MATH 4A03 - Real Analysis II

6 units

from

- Levels III, IV, V Mathematics or Statistics courses

3 units

from

- Level IV Mathematics courses

3 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2019

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

30 units

- Completion of Level II Honours Mathematics and Statistics (Mathematics Sub-Plan)

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- MATH 3A03 - Real Analysis I

3 units

from

- MATH 3F03 - Ordinary Differential Equations
- MATH 3GR3 - Abstract Algebra

6 units

from

- *Core Course List*

3 units

- Electives (See *Note 4* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3X03 - Complex Analysis I

3 units

- MATH 4A03 - Real Analysis II

3 units

from

- MATH 3FF3 - Partial Differential Equations
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3T03 - Inquiry in Topology

9 units

from

- Levels III, IV, V Mathematics or Statistics courses

0-3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

(See *Note 4* above.)

9-12 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- Levels III, IV, V Mathematics or Statistics courses

3 units

from

- Level IV Mathematics courses

6 units

- Electives

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Levels III, IV	15 units from Academic Levels III, IV	Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

HONOURS MATHEMATICS AND STATISTICS - STATISTICS SUB-PLAN (B.SC.)

Effective September 2023, this program will be renamed Honours Mathematics and Statistics - Statistics Specialization (B.Sc.). Students who enrolled prior to September 2023 will be given the choice to remain in Honours Mathematics and Statistics - Statistics Sub-Plan or transfer into Honours Mathematics and Statistics - Statistics Specialization.

ADMISSION NOTES

1. Completion of MATH 1C03 is required by the end of Level II.
2. Students seeking admission to the program are strongly discouraged from taking MATH 1LS3 and 1LT3 as they do not cover all content needed for MATH 2X03.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 8.0 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

(See *Admission Note 2* above.)

3 UNITS

from the following courses, with a grade of at least C+

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

PROGRAM NOTES

1. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, DATASCI 2G03, MATH 1MP3, PHYSICS 2G03.
2. Completion of MATH 1C03 is required by the end of Level II.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra
- MATH 3B03 - Geometry
- MATH 3F03 - Ordinary Differential Equations
- MATH 3FF3 - Partial Differential Equations
- MATH 3GR3 - Abstract Algebra
- MATH 3MB3 - Introduction to Modelling
- MATH 3NA3 - Numerical Linear Algebra
- MATH 3T03 - Inquiry in Topology
- STATS 2MB3 - Statistical Methods and Applications
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3S03* - Survey Sampling
- STATS 3U03* - Stochastic Processes

SCIENTIFIC COMMUNICATION COURSE LIST

- MATH 3CY3* - Cryptography
- MATH 3DC3* - Discrete Dynamical Systems and Chaos
- MATH 3ET3 A/B S - Mathematics Teaching Placement
- MATH 3G03* - Problem Solving
- MATH 3MB3 - Introduction to Modelling
- MATH 3QC3* - Introduction to Quantum Computing
- MATH 3TP3* - Truth and Provability
- MATH 3U03* - Combinatorics
- MATH 3V03* - Graph Theory
- MATH 3Z03* - Inquiry: History of Mathematics
- MATH 4FM3 - Financial Markets and Derivatives
- MATH 4MB3* - Mathematical Biology
- MATH 4P06 A/B S - Senior Research Project
- MATH 4W03 - Reading in Mathematics

- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3DA3 - Data Science Methods
- STATS 3DS3 - Introduction to Data Science Theory
- STATS 3PG3 - Probability and Games of Chance
- STATS 4A03 - Time Series
- STATS 4M03 - Multivariate Analysis
- STATS 4P03* - Advanced Applied Statistics
- STATS 4T06 A/B - Senior Research Project
- STATS 4W03 - Reading in Statistics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II-IV: 90 UNITS

12 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II
- MATH 3X03 - Complex Analysis I

3 units

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

3 units

from

- MATH 3A03 - Real Analysis I
- MATH 3IA3 - Introduction to Analysis

12 units

- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics

3 units

from

- STATS 3S03* - Survey Sampling
- STATS 3U03* - Stochastic Processes

9 units

from

- the *Core Course List*

9 units

- Levels III, IV, V Mathematics or Statistics courses including one course selected from the *Scientific Communication Course List*

6 units

- Level IV Statistics

0-3 units

from

- COMPSCI 1MD3 - Introduction to Programming
- DATASCI 2G03 - Scientific Computing
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- PHYSICS 2G03

(See *Program Note 1* above.)

0-3 units

- MATH 1C03 - Introduction to Mathematical Reasoning (if not completed in Level I)

27-33 units

- Electives

HONOURS MATHEMATICS AND STATISTICS - STATISTICS SUB-PLAN CO-OP (B.SC.)

Effective September 2023, this program will be renamed Honours Mathematics and Statistics - Statistics Specialization Co-op (B.Sc.). Students who enrolled prior to September 2023 will be given the choice to remain in Honours Mathematics and Statistics - Statistics Sub-Plan Co-op or transfer into Honours Mathematics and Statistics - Statistics Specialization Co-op.

HONOURS MATHEMATICS AND STATISTICS CO-OP PROGRAMS

Co-op opportunities in Mathematics and Statistics are available in combination with the sub-plans. Enrolment in these programs is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of a Level II Honours Mathematics and Statistics program with a Grade Point Average of at least 5.0. Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education.

NOTES

1. These are five-level (year) co-op programs which include two eight-month work terms which must be spent in mathematics or statistics related placements.
2. Students must be registered in a full-load and take a full academic program as prescribed, by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Students must satisfy a Scientific Computing requirement, by completing one of: COMPSCI 1MD3, DATASCI 2G03, MATH 1MP3, PHYSICS 2G03. It is recommended that students in Mathematics Sub-Plan (Co-op) complete this requirement prior to their first work term.

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Mathematics and Statistics (Statistics Sub-Plan) with a Grade Point Average of at least 5.0.

CORE COURSE LIST

- MATH 2ET3* - Theory and Practice of Teaching Mathematics

Bachelor of Science

MATHEMATICAL SCIENCE (B.SC.)

ADMISSION NOTE

Students should be aware that MATH 1B03 may be a prerequisite for upper level Computer Science and Mathematics courses.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

6 UNITS

from the following courses, where an average of at least 4.0 (between the courses) is required

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- COMP SCI 1FC3
- COMPSCI 1MD3 - Introduction to Programming
- MATH 1B03 - Linear Algebra I
- MATH 1MP3 - Introduction to Mathematical Scientific Computation
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Admission Note* above.)

6 UNITS

from

- *Faculty of Science* courses

PROGRAM NOTE

Students are responsible for ensuring that prerequisites for anticipated courses for Level III are completed in Level II.

MATHEMATICAL SCIENCE COURSE LIST

- All Level II, III, IV Computer Science courses
- MATH 2C03 - Introduction to Differential Equations
- MATH 2K03
- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra
- MATH 2X03 - Advanced Calculus I
- MATH 2XX3 - Advanced Calculus II
- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications
- All Level III and IV Mathematics or Statistics courses

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

12 units

from

- Level II courses from the *Mathematical Science Course List*

Minor(s):**MINOR IN MATHEMATICS****NOTES**

- ISCI 1A24 A/B or ARTSSCI 1D06 A/B is a substitution for 6 units from MATH 1A03, 1AA3, 1LS3, 1LT3, 1X03, 1XX3.
- MATH 2L03 and 2UU3 cannot be used for credit towards this Minor.
- ISCI 2A18 A/B or ARTSSCI 2R03 is a substitution for 3 units of Level II Mathematics toward the Minor in Mathematics.
- In order to complete a Minor in Mathematics, at least 12 units (above Level I) must be elective to degree.
- A Minor in Mathematics cannot be declared together with a Minor in Statistics.

REQUIREMENTS

27 units total

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I

3 UNITS

from

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

18 UNITS

from

- Levels II, III, IV Mathematics or Statistics courses, including at least six units from Levels III, IV Mathematics or Statistics (See *Note 2* above.)

MINOR IN STATISTICS**NOTES**

- ISCI 1A24 A/B or ARTSSCI 1D06 A/B is a substitution for 6 units from MATH 1A03, 1AA3, 1LS3, 1LT3, 1X03, 1XX3.
- MATH 2L03 and 2UU3 cannot be used for credit towards this Minor.
- ISCI 2A18 A/B or ARTSSCI 2R03 is a substitution for 3 units of Level II Mathematics toward the Minor in Statistics.
- In order to complete a Minor in Statistics, at least 12 units (above Level I) must be elective to degree.
- A Minor in Statistics cannot be declared together with a Minor in Mathematics.

REQUIREMENTS

27 units total

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1M03 (with a grade of at least B-)

3 UNITS

from

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

9 UNITS

from

- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications
- STATS 3A03 - Applied Regression Analysis with SAS
- STATS 3D03 - Mathematical Statistics
- STATS 3S03* - Survey Sampling
- STATS 3U03* - Stochastic Processes

9 UNITS

from

- ARTSSCI 2R03 - Applied Statistical Inference
- PNB 3XE3 - Inferential Statistics and Research Methods
- Levels II, III, IV Mathematics or Statistics

(See Note 2 above.)

NOTES APPLICABLE TO ALL PROGRAMS OFFERED BY THE DEPARTMENT OF PHYSICS AND ASTRONOMY

- The Department offers the following programs:
 - Honours Astrophysics
 - Honours Medical and Biological Physics
 - Honours Physics
- These programs consist of a specified set of basic requirements and a wide choice of electives (including those from outside the Faculty of Science), allowing for interdisciplinary studies or the opportunity to complete a Minor in another subject. Students are encouraged to read the Program Notes of each program for a list of additional sets of courses which are appropriate preparation for graduate studies in Physics, Astronomy, Medical Physics or Biophysics.
- Transfer between options may be possible at any time, subject to satisfying the admission requirements.
- Admission to Honours Medical and Biological Physics Co-op and Honours Physics Co-op is in Level III.
- A Minor in Astronomy or a Minor in Astrophysics is not permitted in the

Honours Medical and Biological Physics or Honours Physics programs.

- Students wishing to take additional Level III, IV Mathematics courses should consider MATH 2XX3.

B.SC. THREE-LEVEL DEGREE

A three-level program with a Physics orientation is available through the B.Sc. in Chemical and Physical Sciences.

Bachelor of Science (Honours)

HONOURS ASTROPHYSICS (B.SC.)

ADMISSION NOTES

- Completion of ASTRON 1F03 is required by the end of Level II and is strongly recommended in Level I.
- Completion of MATH 1B03 or 1ZC3 is required by the end of Level II and is strongly recommended in Level I.
- Completion of PHYSICS 1C03 and 1CC3 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum admission requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 UNITS

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

9 UNITS

from

- the Science I Course List (See *Admission Notes 1 and 2* above.)

PROGRAM NOTES

- Completion of DATASCI 2G03 (or PHYSICS 2G03) is required by the end of Level III and is strongly recommended in Level II.
- Completion of BIOPHYS 3D03 and PHYSICS 3A03 are recommended.
- Completion of PHYSICS 4G03 is recommended.
- Students who are interested in pursuing graduate school in astrophysics are encouraged to take PHYSICS 4B03 and 4F03 in Level IV.
- ASTRON 3X03, 3Y03 and 4X03 are offered in alternate years and may be taken in either Level III or IV.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS30 units(See *Admission* above.)**LEVEL II: 30 UNITS**15 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2P03 - Introductory Laboratory

6 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

3 units

- ASTRON 2E03 - Planetary Astronomy

0-3 units

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics (if not completed in Level I)

(See *Admission Note 1* above.)0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Admission Note 2* above.)0-6 units

- Electives (See *Program Note 1* above.)

LEVEL III: 30 UNITS6 units

- ASTRON 3X03 - Galaxies and Cosmology
- ASTRON 4X03 - Data Analysis Project Course

6 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3MM3 - Quantum Mechanics I

3 units

from the following courses, if not completed in Level II

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 1* above.)6 units

- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

9 units

- Electives (See *Program Note 2* above.)

LEVEL IV: 30 UNITS6 units

- ASTRON 3Y03 - Stellar Structure
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

12 units

from

- Levels III, IV, V Astronomy, Biophysics, Mathematics, Physics courses
- EARTHSC 3V03 - Environmental Geophysics
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics

including, one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

12 units

- Electives (See *Program Notes 3* and *4* above.)

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2021*120-121 units total (Levels I to IV), of which no more than 48 units may be Level I***LEVEL I: 30 UNITS**30 units(See *Admission* above.)**LEVEL II: 30-31 UNITS**15-16 units

from

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2P03 - Introductory Laboratory
- PHYSICS 2H04

3 units

from

- MATH 2A03
- MATH 2X03 - Advanced Calculus I

3 units

- MATH 2C03 - Introduction to Differential Equations

3 units

- ASTRON 2E03 - Planetary Astronomy

0-3 units

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics (if not completed in Level I)

(See *Admission Note 1* above.)0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Admission Note 2* above.)0-6 units

- Electives (See *Program Note 1* above.)

LEVEL III: 30 UNITS15 units

from

- ASTRON 3X03 - Galaxies and Cosmology
- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03
- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

3 units

from

- ASTRON 4X03 - Data Analysis Project Course
- PHYSICS 3H03 A/B
- PHYSICS 3P03 A/B - Advanced Laboratory

6 units

- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

6 units

- Electives (See *Program Note 2* above.)

LEVEL IV: 30 UNITS3 units

- ASTRON 3Y03 - Stellar Structure

6 units

from

- Level IV, V Astronomy, Physics courses

12 units

from

- Levels III, IV, V Astronomy, Biophysics, Mathematics, Physics courses
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSCI 4VV3
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics

including, one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

9 units

- Electives (See *Program Notes 3 and 4* above.)

HONOURS MEDICAL AND BIOLOGICAL PHYSICS (B.SC.)

ADMISSION NOTES

1. Completion of BIOLOGY 1A03, CHEM 1AA3 and MATH 1B03 (or 1ZC3) is required by the end of Level II. Completion in Level I is strongly recommended. BIOLOGY 1M03 is also recommended.
2. Completion of BIOPHYS 1S03, LIFESCI 1D03, PHYSICS 1CC3 is recommended in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 UNITS

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- LIFESCI 1D03 - Medical Imaging Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

3 UNITS

from

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

6 UNITS

from

- the *Science I Course List* (See *Admission Notes 1 and 2* above.)

PROGRAM NOTES

1. Students interested in medical physics or health physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List A - Medical Physics Focus*. These courses also contribute to the core knowledge and learning objectives required by the Commission on Accreditation of Medical Physics Education Programs.
2. Students interested in biochemistry, in particular those interested in postgraduate studies in this area, should take 12 units from the *Course List B - Biological Physics Focus*.
3. Students interested in physics and soft matter physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List C - Physics of Soft Matter Focus*.
4. Completion of either BIOCHEM 2B03 and 2BB3 or BIOCHEM 2EE3 and 3G03 is required, however, BIOCHEM 2EE3 and 3G03 are recommended.

COURSE LIST A - MEDICAL PHYSICS FOCUS

- CHEM 3RC3 - Radioisotopes in Medicine
- KINESIOL 2YY3 - Human Anatomy and Physiology II
- MEDPHYS 3C03 - Operational Health Physics: Laboratory & Communication
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics
- MEDPHYS 4I03 - Introduction to Biophotonics
- MEDPHYS 4RB3 - Radiation and Radioisotope Methodology II
- MEDPHYS 4U03 - Radiation Biology
- MEDPHYS 4Y06 A/B - Senior Research Project
- PHYSICS 4E03 - Particle and Nuclear Physics

COURSE LIST B - BIOLOGICAL PHYSICS FOCUS

- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4LL3
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOLOGY 2B03 - Cell Biology
- BIOPHYS 3D03 - Origin of Life

COURSE LIST C - PHYSICS OF SOFT MATTER FOCUS

- BIOPHYS 4P06 A/B - Senior Research Project
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3N04 - Physical Optics
- PHYSICS 3P03 A/B - Advanced Laboratory
- PHYSICS 4F03 - Quantum Mechanics II
- PHYSICS 4G03 - Computational Physics
- PHYSICS 4K03 - Solid State Physics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

9 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2P03 - Introductory Laboratory

3 units

from

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

6 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

3 units

- BIOPHYS 2S03 - Explorations in Medical and Biological Physics

3 units

- KINESIOL 2Y03 - Human Anatomy and Physiology I

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 4* above.)

0-3 units

from the following courses, if not completed in Level I

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

0-3 units

- Electives

LEVEL III: 30 UNITS

6 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I

3 units

- MATH 3C03 - Mathematical Physics I

3 units

- BIOPHYS 3S03 - Soft Condensed Matter Physics

3 units

- MEDPHYS 4B03 - Radioactivity and Radiation Interactions

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 4* above.)

3 units

from

- *Course List A, Course List B, Course List C*

9 units

- Electives

LEVEL IV: 30 UNITS

9 units

- BIOPHYS 4S03 - Introduction to Molecular Biophysics
- MEDPHYS 4RA3 - Radiation and Radioisotope Methodology I
- MEDPHYS 4T03 - Clinical Applications of Physics in Medicine

9 units

from

- *Course List A, Course List B, Course List C*

12 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS MEDICAL AND BIOLOGICAL PHYSICS CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II Honours Medical and Biological Physics with a Grade Point Average of at least 5.0 including:

24 UNITS

- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- DATASCI 2G03 - Scientific Computing
- KINESIOL 2Y03 - Human Anatomy and Physiology I
- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2G03
- PHYSICS 2P03 - Introductory Laboratory

3 UNITS

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* below.)

0-3 UNITS

from the following courses, if not completed in Level I

- BIOLOGY 1A03 - Cellular and Molecular Biology
- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education and the Chair of the Committee of Instruction.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in medical physics or biophysics related placements.
2. Students must be registered full-time and take a full academic work load as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall term of Level III. Students are required to complete SCIENCE 3C00 before the first work placement.
4. Students interested in medical physics or health physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List A - Medical Physics Focus*. These courses also contribute to the core knowledge and learning objectives required by the Commission on Accreditation of Medical Physics Education Programs.
5. Students interested in biochemistry, in particular those interested in postgraduate studies in this area, should take 12 units from *Course List B - Biological Physics Focus*.
6. Students interested in physics and soft matter physics, especially those considering postgraduate studies in these areas, should take 12 units from *Course List C - Physics of Soft Matter Focus*.
7. Completion of either BIOCHEM 2B03 and 2BB3 or BIOCHEM 2EE3 and 3G03 is required, however, BIOCHEM 2EE3 and 3G03 are recommended.

COURSE LIST A - MEDICAL PHYSICS FOCUS

- CHEM 3RC3 - Radioisotopes in Medicine

- KINESIOL 2YY3 - Human Anatomy and Physiology II
- MEDPHYS 3C03 - Operational Health Physics: Laboratory & Communication
- MEDPHYS 4D03 - Imaging in Medicine and Biology
- MEDPHYS 4F03 - Fundamentals of Health Physics
- MEDPHYS 4I03 - Introduction to Biophotonics
- MEDPHYS 4RB3 - Radiation and Radioisotope Methodology II
- MEDPHYS 4U03 - Radiation Biology
- MEDPHYS 4Y06 A/B - Senior Research Project
- PHYSICS 4E03 - Particle and Nuclear Physics

COURSE LIST B - BIOLOGICAL PHYSICS FOCUS

- BIOCHEM 2L06 A/B - Inquiry in Biochemical Techniques
- BIOCHEM 3BP3 - Practical Bioinformatics in the Genomics Era
- BIOCHEM 3D03 - Metabolism and Regulation
- BIOCHEM 3MI3 - Microbial Interactions
- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4E03 - Gene Regulation in Stem Cells and Development
- BIOCHEM 4H03 - Biotechnology and Drug Discovery
- BIOCHEM 4LL3
- BIOCHEM 4M03 - Cellular and Integrated Metabolism
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOLOGY 2B03 - Cell Biology
- BIOPHYS 3D03 - Origin of Life

COURSE LIST C - PHYSICS OF SOFT MATTER FOCUS

- BIOPHYS 4P06 A/B - Senior Research Project
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3N04 - Physical Optics
- PHYSICS 3P03 A/B - Advanced Laboratory
- PHYSICS 4F03 - Quantum Mechanics II
- PHYSICS 4G03 - Computational Physics
- PHYSICS 4K03 - Solid State Physics

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

- Completion of Level II Honours Medical and Biological Physics including:

24 units

from

- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- DATASCI 2G03 - Scientific Computing
- KINESIOL 2Y03 - Human Anatomy and Physiology I
- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2G03
- PHYSICS 2P03 - Introductory Laboratory

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

0-3 units

from the following courses, if not completed in Level I

- BIOLOGY 1A03 - Cellular and Molecular Biology

- CHEM 1AA3 - Introductory Chemistry II
- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

12 units

- BIOPHYS 3S03 - Soft Condensed Matter Physics
- MATH 3C03 - Mathematical Physics I
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- PHYSICS 3MM3 - Quantum Mechanics I

3 units

- Electives (See *Program Notes* above.)

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3 units

- BIOPHYS 4S03 - Introduction to Molecular Biophysics

6 units

- MEDPHYS 4RA3 - Radiation and Radioisotope Methodology I
- MEDPHYS 4T03 - Clinical Applications of Physics in Medicine

6 units

from

- *Course List A, Course List B, Course List C*

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 15 units:

6 units

from

- *Course List A, Course List B, Course List C*

9 units

- Electives (See *Program Notes 4, 5, and 6* above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WTO
Level V	Work Term SCIENCE 5WTO	15 units from Academic Level IV	

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2021

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program.

LEVEL II: 30 UNITS

- Completion of Level II Honours Medical and Biological Physics

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 16 units:

12 units

- BIOPHYS 3S03 - Soft Condensed Matter Physics
- MATH 3C03 - Mathematical Physics I
- MEDPHYS 4B03 - Radioactivity and Radiation Interactions
- PHYSICS 3MM3 - Quantum Mechanics I

1 unit

from

- PHYSICS 3DA1
- PHYSICS 3HC1

3 units

- Electives (See *Program Notes* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WTO - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

3 units

from

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOCHEM 2EE3 - Metabolism and Physiological Chemistry
- BIOCHEM 3G03 - Proteins and Nucleic Acids

(See *Program Note 7* above.)

3 units

- BIOPHYS 4S03 - Introduction to Molecular Biophysics

6 units

- MEDPHYS 4RA3 - Radiation and Radioisotope Methodology I
- MEDPHYS 4T03 - Clinical Applications of Physics in Medicine

6 units

from

- *Course List A, Course List B, Course List C*

9 units

- Electives

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WTO - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WTO - Science Co-op Work Term

Winter Term: 14 units:

2 units

from

- PHYSICS 3DB2 - Inquiry in Physics (II)
- PHYSICS 3HD2 - Advanced Laboratory (II)

6 units

from

- *Course List A, Course List B, Course List C*

6 units

- Electives (See *Program Notes 4, 5 and 6* above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	16 units from Academic Level III + SCIENCE 2C00 (if not already completed) and SCIENCE 3C00	Work Term SCIENCE 3WTO	Work Term SCIENCE 3WTO
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WTO

Level V	Work Term SCIENCE 5WTO	14 units from Academic Level IV

HONOURS PHYSICS (B.SC.)

ADMISSION NOTES

1. Completion of MATH 1B03 or 1ZC3 is required by the end of Level II and is strongly recommended in Level I.
2. Completion of PHYSICS 1C03 and 1CC3 is recommended in Level I.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1AA3 - Calculus For Science II
- MATH 1LS3 - Calculus for the Life Sciences I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1X03 - Calculus for Math and Stats I
- MATH 1XX3 - Calculus for Math and Stats II
- MATH 1ZA3 - Engineering Mathematics I
- MATH 1ZB3 - Engineering Mathematics II-A

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 UNITS

from

- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 UNITS

from

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1E03 - General Chemistry for Engineering I

9 UNITS

from

- the Science I Course List (See *Admission Note 1* above.)

PROGRAM NOTES

1. Students interested in computational and theoretical physics and especially those considering postgraduate studies in this area should take the following courses: DATASCI 3ML3, MATH 2LA3 (or MATH 2R03 if they plan to take Level III Mathematics courses for which it is a prerequisite), 2T03, PHYSICS 3A03, 3C03, 4B03, 4F03, 4G03, plus six additional units from Levels III, IV, V Astronomy, Mathematics, Physics.
2. Students interested in experimental physics and especially those considering postgraduate studies in this area should take the following courses: DATASCI 4X03, ENGPHY 3BA4, 3BB4, PHYSICS 3N04.
3. Students interested in geophysics should consider taking EARTHSC 2E03, 3V03 and 4V03.
4. Completion of DATASCI 2G03 (or PHYSICS 2G03) is required by the end of Level III and is strongly recommended in Level II.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

15 units

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2P03 - Introductory Laboratory

0-3 units

from

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 4* above.)

6 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

(See *Admission Note 1* above.)

3-9 units

- Electives (See *Program Notes* above.)

LEVEL III: 30 UNITS

12 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3MM3 - Quantum Mechanics I
- PHYSICS 3P03 A/B - Advanced Laboratory

6 units

- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

0-3 units

from the following courses, if not completed in Level II

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 4* above.)

9-12 units

- Electives (See *Program Notes* above.)

LEVEL IV: 30 UNITS

6 units

from

- Level IV Astronomy, Biophysics, Physics

9 units

from

- Levels III, IV, V Astronomy, Biophysics, Mathematics, Medical Physics, Physics courses
- EARTHSC 2E03 - Earth History
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 4V03 - Exploration Geophysics

including one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

15 units

- Electives (See *Program Notes* above.)

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS PHYSICS CO-OP (B.SC.)

ADMISSION

Enrolment in this program is limited. Admission is by selection, and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement and an interview but requires, as a minimum, submission of the on-line application by the stated deadline, and completion of Level II of an Honours program offered by the Department of Physics and Astronomy with a Grade Point Average of at least 5.0 including:

15 UNITS

- PHYSICS 2B03 - Electricity and Magnetism I
- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2P03 - Introductory Laboratory

0-3 UNITS

from

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 7* below.)

6 UNITS

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

0-3 UNITS

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

NOTE:

Information about the program and the selection procedure may be obtained from Science Career and Cooperative Education and the Chair of the Committee of Instruction.

PROGRAM NOTES

1. This is a five-level (year) co-op program which includes two eight-month work terms which must be spent in physics related placements.
2. Students must be registered full-time and take a full academic work load as prescribed by Level and Term.
3. Students are required to complete SCIENCE 2C00 prior to the Fall term of Level III. Students are required complete SCIENCE 3C00 before the first work placement.
4. Students interested in computational and theoretical physics and especially those considering postgraduate studies in this area should take the following courses: DATASCI 3ML3, MATH 2LA3 (or MATH 2R03 if they plan to take Level III Mathematics courses for which it is a prerequisite), 2T03, PHYSICS 3A03, 3C03, 4B03, 4F03, 4G03, plus six additional units from Levels III, IV, V Astronomy, Mathematics, Physics.
5. Students interested in experimental physics and especially those considering postgraduate studies in this area should take the following courses: DATASCI 4X03, ENGPYS 3BA4, 3BB4, PHYSICS 3N04.
6. Students interested in geophysics should consider taking EARTHSC 2E03, 3V03 and 4V03.
7. Completion of DATASCI 2G03 (or PHYSICS 2G03) is required by the end of Level III and is strongly recommended in Level II.

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 30 UNITS

- Completion of any Level II Honours Physics program including:

15 units

- PHYSICS 2B03 - Electricity and Magnetism I

- PHYSICS 2BB3 - Electricity and Magnetism II
- PHYSICS 2C03 - Modern Physics
- PHYSICS 2E03 - Mechanics
- PHYSICS 2P03 - Introductory Laboratory

0-3 units

from

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 7* above.)

6 units

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I

0-3 units

from the following courses, if not completed in Level I

- MATH 1B03 - Linear Algebra I
- MATH 1ZC3 - Engineering Mathematics II-B

3-9 units

- Electives

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 15 units:

3 units

- MATH 3C03 - Mathematical Physics I

3 units

- PHYSICS 3MM3 - Quantum Mechanics I

0-3 units

from the following courses, if not completed in Level II

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 7* above.)

6-9 units

- Electives (See *Program Notes 4* and *5* above.)

1 course

- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3D03 - Mathematical Physics II

9 units

- PHYSICS 3D03 A/B - Inquiry in Physics
- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics
- PHYSICS 3P03 A/B - Advanced Laboratory

9 units

from

- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4Z03
- Levels III, IV, V Astronomy, Biophysics, Mathematics, Medical Physics,

Physics courses

including one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

9 units

- Electives (See *Program Notes 4 and 5* above.)

Spring/Summer Term:

Work Term

1 course

- SCIENCE 4WT0 - Science Co-op Work Term

LEVEL V

Consists of Co-op Work Term (Fall Term) and academic studies (Winter Term)

Fall Term:

Work Term

1 course

- SCIENCE 5WT0 - Science Co-op Work Term

Winter Term: 15 units:

6 units

- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4Z03
- Levels III, IV, V Astronomy, Biophysics, Mathematics, Medical Physics, Physics courses

9 units

- Electives (See *Program Notes 4 and 5* above.)

CO-OP PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level III	15 units from Academic Level III + SCIENCE 3C00	Work Term SCIENCE 3WT0	Work Term SCIENCE 3WT0
Level IV	15 units from Academic Level III	15 units from Academic Level IV	Work Term SCIENCE 4WT0
Level V	Work Term SCIENCE 5WT0	15 units from Academic Level IV	

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2021

121 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

Completed prior to admission to the program

LEVEL II: 31 UNITS

- Completion of any Level II Honours Physics program

1 course

- SCIENCE 2C00 - Skills for Career Success in Science

LEVEL III

Consists of academic studies (Fall Term), Co-op Work Term (Winter Term), and Co-op Work Term (Spring/Summer Term)

Fall Term: 17 units:

3 units

- MATH 3C03 - Mathematical Physics I

5 units

- PHYSICS 3DA1
- PHYSICS 3HC1
- PHYSICS 3MM3 - Quantum Mechanics I

0-3 units

from the following courses, if not completed in Level II

- DATASCI 2G03 - Scientific Computing
- PHYSICS 2G03

(See *Program Note 7* above.)

6-9 units

- Electives (See *Program Notes 4 and 5* above.)

2 courses

- SCIENCE 2C00 - Skills for Career Success in Science (if not already completed)
- SCIENCE 3C00 - Advanced Job Search Skills For Science Co-op Students

Winter Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

Spring/Summer Term:

Work Term

1 course

- SCIENCE 3WT0 - Science Co-op Work Term

LEVEL IV

Consists of academic studies (Fall and Winter Terms) and Co-op Work Term (Spring/Summer Term)

Fall and Winter Terms: 30 units:

3 units

- MATH 3D03 - Mathematical Physics II

3 units

- PHYSICS 3K03 - Thermodynamics and Statistical Mechanics

15 units

from

- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 4V03 - Exploration Geophysics
- EARTHSC 4Z03
- Levels III, IV, V Astronomy, Biophysics, Mathematics, Medical Physics, Physics courses

including one of

- PHYSICS 3ET3 A/B S - Physics Teaching Placement
- PHYSICS 4L03 A/B - Literature Review
- PHYSICS 4P06 A/B - Senior Research Project

9 units

- Electives (See *Program Notes 4 and 5* above.)

Bachelor of Science

CHEMICAL AND PHYSICAL SCIENCES (B.SC.)

Formerly *B.Sc. in Physical Sciences*

This program is administered by the Department of Physics and Astronomy.

ADMISSION NOTE

Prior to registration, students should carefully review the prerequisites of courses they anticipate taking in subsequent sessions as well as the admission requirements of programs they may seek transfer to.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 including:

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

9 UNITS

from the following courses, where an average of at least 4.0 (between the courses) is required:

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II
- CHEM 1E03 - General Chemistry for Engineering I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

12 UNITS

from

- the Science I Course List (See *Admission Note* above.)

PROGRAM NOTES

1. Registration in the *B.Sc. Chemical and Physical Sciences* program does not guarantee access to all courses. Students are responsible for ensuring that prerequisites for anticipated courses for Level III are completed in Level II.
2. Students should seek academic advising to ensure that their choices are appropriate, especially if transfer to a program offered by the following Departments is being considered: Chemistry and Chemical Biology, School

of Interdisciplinary Science, Physics and Astronomy.

B.SC. CHEMICAL AND PHYSICAL SCIENCES COURSE LIST

- Levels II, III, IV Astronomy, Biophysics, Chemical Biology, Chemistry, Medical Physics and Physics courses
- EARTHSC 2E03 - Earth History
- EARTHSC 3V03 - Environmental Geophysics
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- MATH 3C03 - Mathematical Physics I
- MATH 3D03 - Mathematical Physics II

REQUIREMENTS

90 units total (Levels I to III), of which no more than 42 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVELS II-III: 60 UNITS

24 units

- Levels II, III, IV courses from *B.Sc. Chemical and Physical Sciences Course List*, of which at least 12 units must be Levels III, IV (See *Program Notes* above.)

36 units

- Electives, of which at least nine units must be selected from the Faculty of Science

Minor(s):

MINOR IN ASTRONOMY

The Minor in Astronomy is being phased out. Graduation with this Minor will be last available to students graduating in 2025. Students who intended to complete this Minor should refer to the Minor in Astrophysics.

NOTES

1. A Minor in Astronomy is not permitted for students enrolled in an Honours Medical and Biological Physics or Honours Physics program.
2. In order to complete a Minor in Astronomy, at least 12 units (above Level I) must be elective to degree.
3. ISCI 1A24 A/B is a substitution for PHYSICS 1C03 (or 1A03).
4. ARTSSCI 2D06 A/B is a substitution for PHYSICS 1C03 (or 1A03).
5. ISCI 2A18 A/B is a substitution for 3 units of Level II Physics toward the Minor in Astronomy.

REQUIREMENTS

24 units total

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

12 UNITS

from

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- ASTRON 2E03 - Planetary Astronomy
- ASTRON 3X03 - Galaxies and Cosmology
- ASTRON 3Y03 - Stellar Structure
- ASTRON 4X03 - Data Analysis Project Course

9 UNITS

from

- Levels II, III, IV, V Astronomy, Biophysics, Data Science, Medical Physics, Physics

MINOR IN ASTROPHYSICS

NOTES

1. A Minor in Astrophysics is not permitted for students enrolled in an Honours Medical and Biological Physics or Honours Physics program.
2. In order to complete a Minor in Astrophysics, at least 12 units (above Level I) must be elective to degree.
3. ISCI 1A24 A/B is a substitution for PHYSICS 1C03 (or 1A03).
4. ARTSSCI 2D06 A/B is a substitution for PHYSICS 1C03 (or 1A03).
5. ISCI 1A24 A/B is a substitution for 3 units of Level II Physics toward the Minor in Astrophysics.

REQUIREMENTS

24 units total

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

12 UNITS

from

- ASTRON 1F03 - Introduction to Astronomy and Astrophysics
- ASTRON 2E03 - Planetary Astronomy
- ASTRON 3X03 - Galaxies and Cosmology
- ASTRON 3Y03 - Stellar Structure
- ASTRON 4X03 - Data Analysis Project Course

9 UNITS

from

- Levels II, III, IV, V Astronomy, Biophysics, Data Science, Medical Physics, Physics

MINOR IN MEDICAL AND BIOLOGICAL PHYSICS

NOTES

1. A Minor in Medical and Biological Physics is not permitted for students enrolled in an Honours Medical and Biological Physics program.
2. In order to complete a Minor in Medical and Biological Physics, at least 12 units (above Level I) must be elective to degree.
3. MATH 1A03 is the minimum mathematics required in order to complete a Minor in Medical and Biological Physics. However, more flexibility is possible if MATH 1AA3, 1B03, 2C03 and 2X03 are also completed.
4. ISCI 1A24 A/B is a substitution for PHYSICS 1A03 (or 1C03).
5. ARTSSCI 2D06 A/B is a substitution for PHYSICS 1A03 (or 1C03).

REQUIREMENTS

24 units total

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1D03 - Introductory Mechanics

3 UNITS

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- LIFESCI 1D03 - Medical Imaging Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PHYSICS 1E03 - Waves, Electricity and Magnetic Fields

3 UNITS

from

- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- LIFESCI 2BP3 - Biophysics of the Cell and Living Organisms

3 UNITS

- MEDPHYS 4B03 - Radioactivity and Radiation Interactions

12 UNITS

from

- BIOCHEM 3Z03 - Structural Determination and Analysis of Macromolecules
- BIOCHEM 4N03 - Molecular Membrane Biology
- BIOCHEM 4S03 - Introduction to Molecular Biophysics
- ENGPHYS 4I03 - Introduction to Biophotonics
- LIFESCI 3BP3 - Modelling Life
- Levels II, III, IV Biophysics, Medical Physics

MINOR IN PHYSICS

NOTES

1. MATH 2X03 is the minimum mathematics required in order to complete a Minor in Physics. However, more flexibility is possible if MATH 2C03 is also completed.
2. ISCI 1A24 A/B is a substitution for PHYSICS 1C03 (or 1A03) and PHYSICS 1CC3 (or 1AA3).
3. ISCI 2A18 A/B is a substitution for 3 units of Level II Physics toward the Minor in Physics.
4. In order to complete a Minor in Physics, at least 12 units (above Level I) must be elective to degree.
5. Students who completed course requirements for the Minor in Physics prior to September 2022 should consult the undergraduate calendar for the year(s) in which the coursework was completed.

REQUIREMENTS

24 units total

6 UNITS

from

- ARTSSCI 2D06 A/B - Physics
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences

9 UNITS

from

- Levels II, III, IV, V Physics

9 UNITS

from

- CHEM 2P03 - Applications of Physical Chemistry
- CHEM 3PA3 - Quantum Mechanics and Spectroscopy
- CHEM 4PB3 - Computational Models for Electronic Structure and Chemical Bonding
- DATASCI 2G03 - Scientific Computing
- EARTHSC 2E03 - Earth History
- EARTHSC 3V03 - Environmental Geophysics
- EARTHSC 4V03 - Exploration Geophysics
- ENVIRSC 2Q03 - Introduction to Environmental Geochemistry
- ENVIRSC 2W03 - Physical Hydrology
- Levels II, III, IV, V Astronomy, Biophysics, Data Science, Medical Physics, Physics including at least six units from Levels III, IV, V

Department of Psychology, Neuroscience & Behaviour (Faculty of Science)

Emily Comegna/B.A. (Western), M.Ed. (Toronto-OISE)

COORDINATOR, EARLY CHILDHOOD EDUCATION ACADEMIC PROGRAM

Karen Davis/B.A. (Waterloo), Dipl. R ECE (Mohawk)

B.SC. DEGREE

A three-level program with a general Life Sciences orientation is available through the B.Sc. in Life Sciences.

B.A. DEGREES IN PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR

For B.A. Degrees in Psychology, Neuroscience & Behaviour, see the Department of Psychology, Neuroscience & Behaviour (Faculty of Social Sciences).

BIOLOGY AND PSYCHOLOGY

For the Honours Biology and Psychology program (B.Sc.), see Honours Biology and Psychology, Neuroscience & Behaviour (B.Sc.).

Bachelor of Applied Science

HONOURS APPLIED PSYCHOLOGY IN HUMAN BEHAVIOUR (B.A.SC.)

Program offered by the Department of Psychology, Neuroscience & Behaviour.

Program has been renamed Honours Applied Psychology in Human Behaviour (B.A.Sc.). Students who enrolled prior to September 2022 are given the choice to remain in Honours Human Behaviour or transfer into Honours Applied Psychology in Human Behaviour.

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 5.0 (between the courses) is required:

- PSYCH 1F03 - Survey of Psychology

or

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

AND

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

or

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

0-3 UNITS

- BIOLOGY 1P03 - Introductory Biology

(or SBI4U - Biology)

0-3 UNITS

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions
- STATS 1L03
- STATS 1LL3 - Introduction to Probability and Statistics

(or one of MHF4U - Advanced Functions, MCV4U - Calculus and Vectors, MDM4U - Data Management)

PROGRAM NOTES

1. Students interested in pursuing post-graduate studies are encouraged to take HUMBEHV 3MD3 in Level III or IV.
2. The Bachelor of Arts in Psychology is considered the equivalent of the three-level degree in the same subject for students wishing to pursue Honours Human Behaviour (B.A.Sc.) as a second degree.

HUMAN BEHAVIOUR COURSE LIST

- HUMBEHV 3IP3 A/B S - Inquiry Project
- HUMBEHV 4HB3 - Seminar I for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HD3 - Advanced Seminar in Applied Psychology
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- LINGUIST 3C03 - Child Language Acquisition
- MUSICCOG 2MP3 - Introduction to Music Cognition
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music
- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2E03 - Sensory Processes
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2MP3 - Introduction to Music Cognition
- PSYCH 2NF3 - Clinical Neuropsychology
- PSYCH 3A03 - Audition
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3B03 - Special Populations
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3BN3 - Cognitive Neuroscience
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3H03
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SP3 - The Science of Performance
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3WA3 - The Mind as a Work of Art
- PSYCH 4MP3 - Neuroscience of Music
- SOCPSY 3M03 - Counselling & Psychotherapy

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

3 units

- HUMBEHV 2AP3 A/B - Introduction to Applied Psychology

6 units

from

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology

6 units

from

- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Clinical Neuropsychology

15 units

- Electives

LEVEL III: 30 UNITS

6 units

- HUMBEHV 3AP3 A/B - Advanced Applied Psychology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour

3 units

from

- HUMBEHV 3HB3
- HUMBEHV 3ST3 - Statistics for Applied Psychology in Human Behaviour
- STATS 2B03 - Statistical Methods for Science

6 units

from

- the *Human Behaviour Course List*

15 units

- Electives

LEVEL IV: 30 UNITS

9 units

from

- the *Human Behaviour Course List*, which must be Level III, IV

6 units

from

- HUMBEHV 4HB3 - Seminar I for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HD3 - Advanced Seminar in Applied Psychology
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- HUMBEHV 4RP6 A/B S - Independent Research Project
- HUMBEHV 4SC6 A/B - Science Communication in the Behavioural Sciences

15 units

- Electives

REQUIREMENTS FOR STUDENTS WHO ENTERED PRIOR TO SEPTEMBER 2021

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- PSYCH 2AA3 - Child Development

- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition
- PSYCH 2NF3 - Clinical Neuropsychology

HONOURS APPLIED PSYCHOLOGY IN HUMAN BEHAVIOUR - AUTISM AND BEHAVIOURAL SCIENCE SPECIALIZATION (B.A.SC.)

Program has been renamed Honours Applied Psychology in Human Behaviour - Autism and Behavioural Science Specialization (B.A.Sc.). Students who enrolled prior to September 2022 are given the choice to remain in Honours Human Behaviour - Autism and Behavioural Science Specialization or transfer into Honours Applied Psychology in Human Behaviour - Autism and Behavioural Science Specialization.

The program is offered jointly in partnership by Mohawk College of Applied Arts and Technology and the Department of Psychology, Neuroscience & Behaviour, McMaster University. Students pursue two qualifications simultaneously, and graduates receive the Ontario College Graduate Certificate from Mohawk and the McMaster Honours Bachelor of Applied Science degree.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 5.0 (between the courses) is required:

- PSYCH 1F03 - Survey of Psychology

or

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

AND

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

or

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

0-3 UNITS

- BIOLOGY 1P03 - Introductory Biology

(or SBI4U - Biology)

0-3 UNITS

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions
- STATS 1L03
- STATS 1LL3 - Introduction to Probability and Statistics

(or one of MHF4U - Advanced Functions, MCV4U - Calculus and Vectors, MDM4U - Data Management)

PROGRAM NOTES

1. The timing of the Spring/Summer sessions may not adhere to the Sessional Dates as published in this Calendar.
2. Students interested in pursuing post-graduate studies are encouraged to take HUMBEHV 3MD3 in Level III or IV.

FIELD PLACEMENT NOTES

1. Applying for Placements - Prior to the start date of a placement, students are required to submit a completed Field Placement Request Form to the Program Coordinator.
2. Placements will be with agencies that have contracted in advance with Mohawk College. The College cannot accommodate any student requests for special consideration.
3. Students are responsible for arranging their own travel to and from assigned placements.
4. Eligibility for Placements - All students must meet academic, social, and health requirements before they can attend a site for field placement.
 - Non-Violent Crisis Intervention - All Level II students are required to have obtained a current certificate in Non-Violent Crisis Intervention in order to attend their placements. Failure to meet this requirement will result in loss of placement. Additionally, students will be required to complete a refresher half-day workshop in Non-Violent Crisis Intervention prior to their Spring/Summer placement between Levels III and IV.
 - Health Requirements - In the interest of the student and the placement, students are required to submit documentation (e.g., Health Record Form) that they have had a satisfactory physical examination including many routine vaccinations. All students must submit this documentation prior to placement or the student will not start the placement. Students should refer to their field placement coordinator to determine health requirements specific to their college and placement agency.
 - Police Reference Check - All students are required to have a Police Reference Check prior to the commencement of their field placement. Registered students who have been convicted of an offense under the Criminal Code of Conduct for which they have not been pardoned may be denied the opportunity for placement at the discretion of the agency.
5. All costs associated with pre-placement requirements are the responsibility of the student.

STUDENT CONDUCT IN THE PROGRAM

The University reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. The Honours Human Behaviour - Autism and Behavioural Science Specialization (B.A.Sc.) program reserves the right to remove a student from a placement at any point during the term if the student exhibits unsafe practice or behaviour that places others at risk or is deemed a serious breach of professional behaviour. Such removal may result in the student receiving a grade of F in the course and may result in dismissal from the program.

HUMAN BEHAVIOUR (AUTISM AND BEHAVIOURAL SCIENCE) COURSE LIST

- HUMBEHV 2AP3 A/B - Introduction to Applied Psychology
- HUMBEHV 3AP3 A/B - Advanced Applied Psychology
- HUMBEHV 3IP3 A/B S - Inquiry Project
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- HUMBEHV 4HB3 - Seminar I for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Applied Psychology in Human Behaviour (B.A.Sc.)

HONOURS APPLIED PSYCHOLOGY IN HUMAN BEHAVIOUR - EARLY CHILDHOOD STUDIES SPECIALIZATION (B.A.Sc.)

Program has been renamed Honours Applied Psychology in Human Behaviour - Early Childhood Studies Specialization (B.A.Sc.). Students who enrolled prior to September 2022 are given the choice to remain in Honours Human Behaviour Early Childhood Education Specialization or transfer into Honours Applied Psychology in Human Behaviour - Early Childhood Studies Specialization.

The program is offered jointly in partnership by Mohawk College of Applied Arts and Technology and the Department of Psychology, Neuroscience & Behaviour, McMaster University. Students pursue two qualifications simultaneously, and graduates receive the Ontario College Diploma from Mohawk and the McMaster Honours Bachelor of Applied Science degree.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

from the following courses, where an average of at least 5.0 (between the courses) is required:

- PSYCH 1F03 - Survey of Psychology

or

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

AND

- PSYCH 1FF3 - Survey of Biological Basis of Psychology

or

- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

0-3 UNITS

- BIOLOGY 1P03 - Introductory Biology

(or SBI4U - Biology)

0-3 UNITS

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions
- STATS 1L03
- STATS 1LL3 - Introduction to Probability and Statistics

(or one of MHF4U - Advanced Functions, MCV4U - Calculus and Vectors, MDM4U - Data Management)

PROGRAM NOTES

1. The timing of the Spring/Summer sessions may not adhere to the Sessional Dates as published in this Calendar.
2. Students interested in pursuing post-graduate studies are encouraged to take HUMBEHV 3MD3 in Level III or IV.

EARLY CHILDHOOD STUDIES (ECS) PRACTICUM NOTES

1. Applying for Practica - Prior to the start date of a practicum, students are required to submit a completed Practicum Request Form to the Program Coordinator.
2. The Practica will be with agencies that have contracted in advance with Mohawk College. The College cannot accommodate any student requests for special consideration.
3. Students are responsible for arranging their own travel to and from assigned practica.
4. Eligibility for Practica - All students must meet academic, social, and health requirements before they can attend a site for their practicum.
 - Health Requirements - In the interest of the student and the practica, students are required to submit documentation (e.g., Health Record Form) that they have had a satisfactory physical examination including many routine vaccinations. All students must submit this documentation prior to the practicum or the student will not start the practicum. Students should refer to their professional practice coordinator to determine health requirements specific to their college and practicum agency.
 - Police Reference Check - All students are required to have a Police Reference Check prior to the commencement of their practicum. Registered students who have been convicted of an offense under the Criminal Code of Conduct for which they have not been pardoned may be denied the opportunity for a practicum at the discretion of the agency.
5. All costs associated with pre-practicum requirements are the responsibility of the student.

STUDENT CONDUCT IN THE PROGRAM

The University reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. The Honours Human Behaviour - Early Childhood Studies Specialization (B.A.Sc.) program reserves the right to remove a student from a practicum at any point during the term if the student exhibits unsafe practice or behaviour that places others at risk or is deemed a serious breach of professional behaviour. Such removal may result in the student receiving a grade of F in the course and may result in dismissal from this program.

HUMAN BEHAVIOUR (EARLY CHILDHOOD STUDIES) COURSE LIST

- HUMBEHV 2AP3 A/B - Introduction to Applied Psychology
- HUMBEHV 3AP3 A/B - Advanced Applied Psychology
- HUMBEHV 3IP3 A/B S - Inquiry Project
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- HUMBEHV 4HB3 - Seminar I for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HC3 - Seminar II for Honours Applied Psychology in Human Behaviour (B.A.Sc.)
- HUMBEHV 4HD3 - Advanced Seminar in Applied Psychology
- HUMBEHV 4IP3 A/B S - Senior Inquiry Project
- HUMBEHV 4RP6 A/B S - Independent Research Project
- HUMBEHV 4SC6 A/B - Science Communication in the Behavioural Sciences
- LINGUIST 3C03 - Child Language Acquisition
- MUSICCOG 2MP3 - Introduction to Music Cognition
- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2E03 - Sensory Processes
- PSYCH 2MP3 - Introduction to Music Cognition
- PSYCH 2NF3 - Clinical Neuropsychology
- PSYCH 3A03 - Audition
- PSYCH 3AB3 - Adolescent Psychology

- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3H03
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SP3 - The Science of Performance
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- PSYCH 3WA3 - The Mind as a Work of Art
- PSYCH 4MP3 - Neuroscience of Music
- SOCPSY 3M03 - Counselling & Psychotherapy

REQUIREMENTS

150 units total (Levels I to IV), of which no more than 48 units may be Level I, plus three Professional Practices in Spring/Summer Term between Level II and III and Level III and IV

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II

Fall and Winter Terms: 30 units:

15 units

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 2H03 - Human Learning and Cognition

9 units

- HUMBEHV 2L03 - Philosophy and Curriculum Design
- HUMBEHV 2M03 - Learning Environment I
- HUMBEHV 2TL3 - Responsive Care for Infants and Toddlers

6 units

- Electives

Spring/Summer Term: 15 units:

15 units

- HUMBEHV 2XP6 A/B S - ECS Practicum I
- HUMBEHV 3XP6 A/B S - ECS Practicum II
- HUMBEHV 3XS3 A/B S - Theory to Practice I and II

LEVEL III

Fall and Winter Terms: 30 units:

6 units

from

- PSYCH 3B03 - Special Populations
- PSYCH 3JJ3 - Socio-Emotional Development

3 units

from

- HUMBEHV 3HB3
- HUMBEHV 3ST3 - Statistics for Applied Psychology in Human Behaviour
- STATS 2B03 - Statistical Methods for Science

3 units

from

- the *Human Behaviour (Early Childhood Studies) Course List*

(See *Program Note 2* above.)

9 units

- HUMBEHV 3003 - Curriculum Theory and Approaches
- HUMBEHV 3P03 - Learning Environment II
- HUMBEHV 3Q03 - Health, Safety & Nutrition

9 units

- Electives

Spring/Summer Term: 15 units:

15 units

- HUMBEHV 4V12 A/B S - ECS Practicum III
- HUMBEHV 4VS3 A/B S - Theory to Practice III

LEVEL IV: 30 UNITS

9 units

- HUMBEHV 4N03 - Principles of Ethical Practice
- HUMBEHV 4U03 - Inclusion in the ECE Classroom
- HUMBEHV 4W03 - Supervision for Leadership and Quality

9 units

from

- the *Human Behaviour (Early Childhood Studies) Course List*

(See *Program Note 2* above.)

12 units

- Electives

PROGRAM CHART

	FALL TERM (September to December)	WINTER TERM (January to April)	SPRING/ SUMMER TERM (May to August)
Level II	30 units from Academic Level II		15 units ECS Practicum I & II
Level III	30 units from Academic Level III		15 units ECS Practicum III
Level IV	30 units from Academic Level IV		

Bachelor of Science (Honours)

HONOURS NEUROSCIENCE (B.SC.)

Program offered jointly by the Departments of Biology and Psychology, Neuroscience & Behaviour.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

6 UNITS

- CHEM 1A03 - Introductory Chemistry I
- CHEM 1AA3 - Introductory Chemistry II

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

3 UNITS

from

- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

3 UNITS

from

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

3 UNITS

from

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1AA3 - Calculus For Science II
- MATH 1B03 - Linear Algebra I
- MATH 1LT3 - Calculus for the Life Sciences II
- MATH 1MP3 - Introduction to Mathematical Scientific Computation

6 UNITS

- Electives (See *Program Note 2* below.)

PROGRAM NOTES

1. This program is jointly administered by Biology and Psychology, Neuroscience & Behaviour; students may seek academic advising from either Department.
2. While completion in Level I is recommended, the following courses must be completed by the end of Level II:
 - MATH 1AA3 or 1LT3
 - MATH 1B03
 - COMPSCI 1MD3 or MATH 1MP3 (Note: PNB 2A03 serves as an appropriate substitute.)
3. Advanced courses in Biochemistry, Biology, Biophysics, Chemical Biology, Chemistry, Computer Science, Mathematics, Medical Physics, Molecular Biology and Physics may be considered as units towards *Course Lists 2, 3* or *4* by petition to the Psychology, Neuroscience & Behaviour or Biology Undergraduate Chair.
4. PNB 2XB3 and NEUROSCI 2XN0 A/B must be completed in Level II.
5. PNB 3XE3 serves as an appropriate substitute for STATS 2B03.
6. Students who entered the program prior to September 2021, may substitute BIOCHEM 2EE3 for one of BIOCHEM 3G03, BIOPHYS 2A03 or 2S03.
7. NEUROSCI 3E03 must be taken in Level III.
8. PHYSICS 2B03 can be taken in Level III by students who did not complete MATH 1AA3 or 1LT3 in Level I.

COURSE LIST 1 - OTHER FOUNDATIONAL COURSES

- BIOCHEM 2B03 - Nucleic Acid Structure and Function
- BIOCHEM 2BB3 - Protein Structure and Enzyme Function
- BIOLOGY 2EE3 - Introduction to Microbiology and Biotechnology
- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics
- BIOPHYS 3G03 - Modelling Life
- CHEMBIO 2P03 - Physical Chemistry Tools for Chemical Biology
- KINESIOL 2Y03 - Human Anatomy and Physiology I
- KINESIOL 2YY3 - Human Anatomy and Physiology II
- LIFESCI 2D03 - Behavioural Processes
- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I
- MEDPHYS 2B03
- MEDPHYS 2D03
- PHYSICS 1AA3 - Introduction To Modern Physics
- PHYSICS 1CC3 - Modern Physics for the Chemical and Physical Sciences
- PNB 2XA3 - Human Perception & Cognition
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing

- PNB 2XE3 - Descriptive Statistics and Research Methods
- PSYCH 2H03 - Human Learning and Cognition
- STATS 2D03 - Introduction to Probability

COURSE LIST 2 - CELLULAR/MOLECULAR COURSES

- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOCHEM 3H03 - Clinical Biochemistry
- BIOCHEM 4Q03 - Biochemical Pharmacology
- BIOLOGY 3AA3 - Fundamental Concepts of Pharmacology
- BIOLOGY 3VV3
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- BIOPHYS 4S03 - Introduction to Molecular Biophysics
- HTHSCI 4BB3 - Neuroimmunology
- LIFESCI 4XX3 - The Synapse
- MOLBIOL 3B03 - Advanced Cell Biology
- MOLBIOL 3D03 - Experimental Approaches in Cell Biology
- MOLBIOL 3M03 - Fundamental Concepts of Development
- MOLBIOL 4RR3 - Human Genetics
- NEUROSCI 2BB3 A/B S - Research Practicum in Cellular/Molecular Neuroscience
- NEUROSCI 3BB3 A/B S - Individual Lab Study in Cellular/Molecular Neuroscience
- NEUROSCI 3BB6 A/B - Individual Lab Study in Cellular/Molecular Neuroscience

COURSE LIST 3 - SYSTEMS/CIRCUITS COURSES

- BIOLOGY 3UU3 - Animal Physiology - Regulatory Systems
- DATASCI 3ML3 - Introduction to Neural Networks and Machine Learning
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3J03 - Human Biomechanics
- LIFESCI 3K03 - Neural Control of Human Movement
- NEUROSCI 2CC3 A/B S - Research Practicum in Systems/Circuits Neuroscience
- NEUROSCI 3CC3 A/B S - Individual Lab Study in Systems/Circuits Neuroscience
- NEUROSCI 3CC6 A/B - Individual Lab Study in Systems/Circuits Neuroscience
- NEUROSCI 3J03 - Visual Neuroscience
- PHYSICS 3G03
- PNB 3A03 - Neuroimaging
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PSYCH 3A03 - Audition
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3J03

COURSE LIST 4 - BEHAVIOURAL/COGNITIVE COURSES

- KINESIOL 4TT3 - Human Robotics
- NEUROSCI 2DD3 A/B S - Research Practicum in Behavioural/Cognitive Neuroscience
- NEUROSCI 3DD3 A/B S - Individual Lab Study in Behavioural/Cognitive Neuroscience
- NEUROSCI 3DD6 A/B - Individual Lab Study Behavioural/Cognitive Neuroscience
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 4E03 - Social Diversity through the Lens of Cognitive Neuroscience and Psychology
- PSYCH 3BN3 - Cognitive Neuroscience
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3NL3 - Cognitive Neuroscience of Language
- PSYCH 4BN3
- PSYCH 4KK3 - Bayesian Inference
- PSYCH 4MP3 - Neuroscience of Music
- PSYCH 4Y03

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

6 units

- BIOLOGY 2A03 - Integrative Physiology of Animals
- BIOLOGY 2B03 - Cell Biology

6 units

- CHEM 20A3 - Organic Chemistry I
- CHEM 20B3 - Organic Chemistry II

1 course

- NEUROSCI 2XN0 A/B - Neuroscience Tutorial

(See *Program Note 4* above.)

3 units

- PHYSICS 2B03 - Electricity and Magnetism I

(See *Program Note 8* above.)

3 units

- PNB 2XB3 - Neuroanatomy & Neurophysiology

(See *Program Note 4* above.)

0-3 units

from the following courses, if not completed in Level I

- MATH 1AA3 - Calculus For Science II
- MATH 1LT3 - Calculus for the Life Sciences II

0-3 units

- MATH 1B03 - Linear Algebra I (if not completed in Level I)

0-3 units

from the following courses, if not completed in Level I

- COMPSCI 1MD3 - Introduction to Programming
- MATH 1MP3 - Introduction to Mathematical Scientific Computation

3-12 units

- Electives

LEVEL III: 30 UNITS

3 units

from

- BIOCHEM 3G03 - Proteins and Nucleic Acids
- BIOPHYS 2A03 - Biophysics of the Cell and Living Organisms
- BIOPHYS 2S03 - Explorations in Medical and Biological Physics

(See *Program Note 6* above.)

6 units

- BIOLOGY 2C03 - Genetics
- BIOLOGY 3P03 - Cell Physiology

6 units

- NEUROSCI 3E03 - Neuroscience Lab (See *Program Note 7* above.)
- NEUROSCI 3SN3 - Neural Circuits

3 units

- STATS 2B03 - Statistical Methods for Science

(See *Program Note 5* above.)

6 units

from

- *Course Lists 1, 2, 3, 4* (See *Program Note 3* above.)

0-3 units

- PHYSICS 2B03 - Electricity and Magnetism I

(See *Program Note 8* above.)

3-6 units

- Electives

LEVEL IV: 30 UNITS

3 units

- NEUROSCI 4S03 A/B - Neuroscience Seminar

3 units

from

- *Course List 2* (See *Program Note 3* above.)

3 units

from

- *Course List 3* (See *Program Note 3* above.)

3 units

from

- *Course List 4* (See *Program Note 3* above.)

12 units

- NEUROSCI 4L12 A/B - Neuroscience Senior Thesis

OR

- NEUROSCI 4L09 A/B - Neuroscience Thesis and 3 units from *Course Lists 2, 3, 4*

OR

6 units from *Course Lists 2, 3, 4* and one of

- BIOLOGY 4F06 A/B S - Senior Project
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

(See *Program Note 3* above.)

6 units

- Electives

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.SC.)

ADMISSION NOTES

1. Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level II, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.
2. Either PSYCH 1FF3 or 1XX3 is required for admission, however, PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)

9 UNITS

from

- the Science I Course List (See *Admission Notes* above.)

PROGRAM NOTES

1. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, PNB 4D09 A/B), and the Independent Research and Library courses (PNB 3Q03 A/B S, 3QQ3 A/B S, 4QQ3 A/B S, 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the Fall Term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://www.science.mcmaster.ca/pnb/>.
2. PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.

CAPSTONE COURSE LIST

- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Senior Independent Library Study
- PNB 4QQ3 A/B S - Senior Independent Research
- PNB 4QQ6 A/B - Senior Independent Research
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

PSYCHOLOGY COURSE LIST

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- HTHSCI 4BB3 - Neuroimmunology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MP3 - Introduction to Music Cognition
- all Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PNB 2A03 - Python for PNB
- PSYCH 2MP3 - Introduction to Music Cognition
- all Level III and IV PNB courses, **and**,

ALL LEVEL III AND IV PSYCH COURSES EXCEPT:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB

- PNB 2XT0 - PNB Tutorial

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 2* above.)

6-12 units

- Electives

LEVEL III: 30 UNITS3 units

- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

9 units

from

- the *Psychology Course List*

15 units

- Electives (See *Program Note 2* above.)

LEVEL IV: 30 UNITS6 units

from

- the *Psychology Course List*

9 units

- 6 units from the *Capstone Course List* and 3 units from the *Psychology Course List*

or

- PNB 4D09 A/B - Senior Honours Thesis

(See *Program Note 1* above.)

15 units

- Electives (See *Program Note 2* above.)

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MENTAL HEALTH SPECIALIZATION (B.SC.)**ADMISSION NOTES**

1. Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level II, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are

particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.

2. Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See *Admission Note 2* above.)

3 UNITS

from

- MATH 1A03 - Calculus For Science I
- MATH 1LS3 - Calculus for the Life Sciences I

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)

9 UNITS

from

- the Science I Course List (See *Admission Notes* above.)

PROGRAM NOTE

The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis course (PNB 4D09 A/B), and the Independent Research and Library courses (PNB 3Q03 A/B S, 3QM3 A/B S, 3QM6 A/B, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S, 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://pnb.mcmaster.ca/>.

MENTAL HEALTH COURSE LIST

- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3I06 A/B
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QM3 A/B S - Independent Research in Mental Health
- PNB 3QM6 A/B - Independent Research in Mental Health
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging

- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3H03
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- SOCPSY 3M03 - Counselling & Psychotherapy

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 2* above.)

0-6 units

- Electives

LEVEL III: 30 UNITS

9 units

- PNB 3HP3 - History of Psychology
- PNB 3XE3 - Inferential Statistics and Research Methods
- PSYCH 3GG3 - Essentials of Developmental Psychology

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QM3 A/B S - Independent Research in Mental Health
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

9 units

from

- the *Mental Health Course List*

9 units

- Electives

LEVEL IV: 30 UNITS

9 units

- PNB 4A03 - Assessment in Children
- PSYCH 3B03 - Special Populations
- PSYCH 3MT3 - Psychometrics

3 units

from

- the *Mental Health Course List*

9 units

- PNB 4D09 A/B - Senior Honours Thesis

(See *Program Note* above.)

9 units

- Electives

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MUSIC COGNITION SPECIALIZATION (B.SC.)

ADMISSION NOTES

1. Completion of CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 is required by the end of Level III, however, at least one of BIOPHYS 1S03, CHEM 1A03, PHYSICS 1A03, 1C03 is required for admission. It is recommended that both CHEM 1A03 and one of BIOPHYS 1S03, PHYSICS 1A03, 1C03 be completed in Level I. Concepts from PHYSICS 1CC3 are particularly useful for understanding neuroscience, mathematical modelling, and perception. Students interested in these areas are encouraged to take PHYSICS 1C03 and 1CC3.
2. MUSIC 1A03 or 1AA3 is required for admission, however, both are required for degree completion.
3. Students who have completed Grade 3 History (or History 1, now Level 9 History) or Grade 5 History (or History 3, now ARCT History) from the Royal Conservatory of Music, with a grade of at least 70%, are not required to complete MUSIC 1AA3, and those students who have similarly obtained at least 70% on RCM Grade 4 History (or History 2, now Level 10 History) are not required to complete MUSIC 1A03 either for admission to the Music Cognition Specialization or to fulfill their degree requirements. If one or both course requirements are waived, it is recommended these units be replaced with other MUSIC courses.
4. Either PSYCH 1FF3 or 1XX3 is required for admission, however PSYCH 1XX3 is recommended. Completion of either PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including:

3 UNITS

from the following courses, with a grade of at least B-

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour

(See *Admission Note 4* above.)

3 UNITS

from

- MATH 1A03 - Calculus For Science I

- MATH 1LS3 - Calculus for the Life Sciences I

6 UNITS

- BIOLOGY 1A03 - Cellular and Molecular Biology
- BIOLOGY 1M03 - Biodiversity, Evolution and Humanity

3 UNITS

from

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)

9 UNITS

from

- the Science I Course List (See *Admission Notes 1*, and *4* above.)

3 UNITS

from

- MUSIC 1A03 - Introduction to the History of Music I
- MUSIC 1AA3 - Introduction to the History of Music II

(See *Admission Notes 2* and *3* above.)

PROGRAM NOTES

1. Entrance into MUSIC 1CB3 requires Advanced Rudiments (or Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years) or a grade of 70% or above on a qualifying music theory exam administered by the School of the Arts (SOTA). Appointments can be made with SOTA to write the exam on specific dates between February and May. The content of the exam is summarized at: <https://sota.humanities.mcmaster.ca/>. Students not meeting these requirements will be required to take MUSIC 1CR3 prior to MUSIC 1CB3.
2. The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B), and the Independent Research Library courses (PNB 3Q03 A/B S, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S, 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour web site at <http://www.science.mcmaster.ca/pnb/>.
3. PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
4. Both MUSIC 1A03 and 1AA3 must be completed for degree completion.
5. Students are encouraged to complete PSYCH 3A03 as part of the *Psychology Course List* requirement.

CAPSTONE COURSE LIST

- MUSICCOG 4D06 A/B - Thesis in Music Cognition
- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II
- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Senior Independent Library Study
- PNB 4QQ3 A/B S - Senior Independent Research
- PNB 4QQ6 A/B - Senior Independent Research
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

PSYCHOLOGY COURSE LIST

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- HTHSCI 4BB3 - Neuroimmunology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement

- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSIC 2CB3 - Theory and Analysis III
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy
- MUSIC 3MT3
- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PNB 2A03 - Python for PNB
- all Level III and IV PNB courses, **and**,

ALL LEVEL III AND IV PSYCH COURSES EXCEPT:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

30 units

(See *Admission* above.)

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

3 units

- MUSIC 1CB3 - Theory and Analysis I

(See *Program Note 1* above.)

3 units

- MUSICCOG 2MP3 - Introduction to Music Cognition

0-3 units

from the following courses, if not completed in Level I

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

(See *Admission Note 4* above.)

3-6 units

- Electives (See *Program Notes 1* and *4* above.)

LEVEL III: 30 UNITS

3 units

- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

from

- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

3 units

from

- the *Psychology Course List* (See *Program Note 5* above.)

3 units

- MUSIC 2CA3 - Theory and Analysis II

3-6 units

from

- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music

0-3 units

from the following courses, if not completed in Level I

- BIOPHYS 1S03 - Biophysics of Movement and the Senses: From Microbes to Moose
- CHEM 1A03 - Introductory Chemistry I
- PHYSICS 1A03 - Introductory Physics
- PHYSICS 1C03 - Physics for the Chemical and Physical Sciences

(See *Admission Note 1* above.)**9-15 units**

- Electives (See *Program Notes 3* and *4* above.)

LEVEL IV: 30 UNITS**6 units**

from

- the *Psychology Course List* (See *Program Note 5* above.)

0-3 units

from

- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music

9 units

- 6 units from the *Capstone Course List* and 3 units from the *Psychology Course List*

OR

- PNB 4D09 A/B - Senior Honours Thesis

12-15 units

- Electives (See *Program Notes 3* and *4* above.)

NOTE

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Science (Academic) for program requirements.

Minor(s):

MINOR IN PSYCHOLOGY

NOTES

1. **As all courses have enrolment capacities, the Faculty cannot guarantee registration in courses, even when prerequisites have been met. Completion of the Minor in Psychology may not be possible.**
2. When choosing Level II courses students should consider the prerequisites for Level III courses.
3. ISCI 1A24 A/B is a substitution for three units of Level I PSYCH toward the Minor in Psychology.
4. ISCI 2A18 A/B is a substitution for 3 units of Level II PSYCH toward the Minor in Psychology.
5. In order to declare a Minor in Psychology, at least 12 units (above Level I) must be elective to degree.
6. HTHSCI 1G03 is a substitution for PSYCH 1FF3 or 1XX3.
7. KINESIOL 2G03 is a substitution for three units of Level II PSYCH towards the Minor in Psychology.
8. KINESIOL 3E03 (or LIFESCI 3K03) is a substitution for three units of Level III PSYCH towards the Minor in Psychology.

REQUIREMENTS

24 units total

3 UNITS

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

21 UNITS

from

- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- Levels II, III Psychology courses including at least six units from Level III Psychology courses

FACULTY LIAISON, ACCOMMODATIONS

Michelle Alway/B.A.

The Faculty offers a range of degree programs through the following Departments/Programs/Schools:

- Aging and Society
- Anthropology
- Economics
- Environment and Society
- Health and Society
- Indigenous Studies
- Labour Studies
- Political Science
- Psychology, Neuroscience and Behaviour
- Religious Studies/ Society, Culture & Religion
- Social Psychology
- Social Work
- Sociology

The social sciences are concerned with the study of human activities and relationships and their social, political, economic, cultural and spatial contexts. Through the pre-industrial to the post-industrial eras, social scientists examine social, economic, cultural and political issues experienced by individuals, groups, and societies as well as the interactions between people and their environments, both natural and built.

There are various opportunities for students to link their academic goals with their career interests. These experiential education initiatives include, but are not limited to, inquiry, internships, academic placements, a career planning course, student project grants, and student research awards.

Students are strongly advised to take advantage of the extensive advisory

services provided by the Faculty. New students in particular should plan a program of study that will allow them a number of options for Level II.

The Faculty of Social Sciences encourages students to become engaged in a wide variety of learning opportunities. These experiences can enrich learning, open new fields of study, and build transferable skills that prepare you for further academic work and for a range of careers.

Degree Programs

HONOURS PROGRAMS (HONOURS BACHELOR OF ARTS)

Honours Bachelor of Arts programs consist of a total of 120 units of work normally completed over four years. Honours programs provide a concentration in the particular field, as well as an extended time of study, and are normally a requirement for those who contemplate proceeding to graduate studies.

COMBINED HONOURS BACHELOR OF ARTS PROGRAMS

Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programs, a student may combine work in any two departments and be graduated with a Combined Honours degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program. All Combined Honours programs must be approved by both Departments concerned as well as by the Office of the Associate Dean(s) (Academic). Students will normally complete approximately 36 units of work beyond Level I in each component of the program (normally 12 units per level in each subject). The Honours B.A. Social Psychology and Honours Bachelor of Social Work programs are not available in combination with another subject.

HONOURS BACHELOR OF SOCIAL WORK (B.S.W.)

The Honours Bachelor of Social Work (Honours B.S.W.) program is a professional Honours program consisting of 120 units of work, typically completed over four years. Students who have already received one or more undergraduate degrees may apply to the Bachelor of Social Work (B.S.W.) program consisting of 60 units of work, typically completed over two years.

BACHELOR OF ARTS PROGRAMS:

B.A. programs consist of a total of 90 units of work, normally completed over three years. Three-level Combined Bachelor's degree programs are available only in Indigenous Studies and Another Subject. The other subject may be from the Faculty of Social Sciences or the Faculty of Humanities.

Options to Combine with a Degree

MINOR

A Minor is an option available to students enrolled in a four- or five-level program. Normally students must complete a minimum of 24 units in the Minor subject. Students are responsible for ensuring that the courses taken meet the requirements for a Minor. Students who have the necessary requirements may apply for recognition of that Minor when they graduate. If granted, this recognition will be recorded on the student's transcript.

Within the Faculty of Social Sciences, Minors are available to students registered in an Honours program provided that the subject area of the Minor is not integral to the requirements of their degree program. At least 12 units (above Level 1) toward the Minor must be considered elective to the degree. Please see Minors in the General Academic Regulations section of this Calendar for further information. All courses have an enrolment capacity and the Faculty cannot guarantee registration in courses, even when all requisites have been met. Therefore, the completion of a Minor is not guaranteed.

Minors offered by the Faculty of Social Sciences include:

- Anthropology
- Asian Studies
- Economics
- Diversity and Equity
- Gender, Sexualities, and Families
- Health, Aging and Society
- Health, Well-Being and Religion

- Immigration, Race Relations, and Indigenous-Settler Relations
- Indigenous Studies
- Japanese Studies
- Justice, Law and Order
- Work and Labour Studies
- Mental Health, Addiction and Society
- Political Science
- Public Leadership
- Religion and Diversity
- Social Problems, Social Policy and the Law
- Society, Culture & Religion
- Sociology

Interdisciplinary Studies Minors administered by Departments in the Faculty of Social Sciences include:

- Archaeology
- Community Engagement
- Globalization Studies
- Jewish Studies
- Muslim Studies
- Social Justice and Inclusive Communities

Students may complete Minors offered by other Faculties as well and are encouraged to consider Minors that will complement their degree studies.

AFFILIATED CERTIFICATES

Students enrolled in a three- or four-year undergraduate degree program in the Faculty of Social Sciences have the opportunity to take Social Sciences courses in the complementary fields of Business Studies, Disability Management, Leadership and Management in the Not-for-Profit Sector or Applied Behaviour Analysis (ABA). (**Note:** The ABA Affiliated Certificate is being phased out and supporting courses will be last offered in Winter of 2023).

Students enrolled in a three-year degree program may take a maximum of six of these courses and students enrolled in a four-year degree program may take a maximum of eight of these courses. Students who have the necessary requirements (completed a prescribed set of 18 units) may apply to have their courses recognized by Mohawk College for the awarding of the applicable certificate when they graduate with their McMaster degree. If granted, this Certificate will be issued by Mohawk College.

In the final year of your program, when you complete your profile in the online Graduation Information Centre, you must indicate your desire to receive the affiliated certificate. The Faculty Reviewing Committee will verify that the requirements have been met. If you are successful, your transcript will confirm completion. In order to facilitate preparation of the Certificate by Mohawk College in time for Convocation, limited personal information and relevant course completions will be provided to Mohawk College for all eligible students prior to completion of the Graduation Profile. Students who do not want this information shared with Mohawk College should inform the University Registrar by email at convctn@mcmaster.ca. See *Sessional Dates* section for deadlines.

CONCURRENT CERTIFICATES

Concurrent Certificates are open to undergraduate students at McMaster. These certificates are designed to fill a critical need for undergraduate students to learn about and develop professional skills that are highly desirable for the pursuit of graduate programs, professional programs, and employment opportunities following undergraduate studies. Normally students must complete a minimum of 15 to 18 units of course requirements. Concurrent certificates may include co-curricular activities to complement the academic requirements.

The Faculty of Social Sciences offers the following Concurrent Certificates:

- Concurrent Certificate in Applied Social Sciences Research
- Concurrent Certificate in Social Innovation

Please see *Concurrent Certificates* in the Certificates and Diploma Programs section of this Calendar for further information.

INTERNSHIP OPTIONS

The Faculty of Social Sciences offers paid internship opportunities during the academic year and summer. Internship placements provide students with intense work experiences and allow students to explore careers, develop employability skills and make important contacts for both now and after graduation. Students must successfully complete SOCSCI 2E0 - Introduction to Career Planning Through Experiential Learning to be eligible to participate in an internship.

Internships are recognized as non-credit course codes on the student transcript. Full-time internships are noted as SOCSCI 3IF0 A/B S and part-time internships are noted as SOCSCI 3IP0 A/B S. Students do not receive academic credit for completing an internship placement. However, upon successful completion, a notation describing the placement is also recorded on the student's official transcript.

Further details of internship options may be obtained from:

Programming and Outreach Manager

Kenneth Taylor Hall, Room 129
(905) 525-9140, extension 21207
email: exp.ed@mcmaster.ca

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student's responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a program in the Faculty of Social Sciences, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations of the Faculty of Social Sciences.

APPLYING FOR ADMISSION TO LEVEL II PROGRAMS

Any student seeking admission to a Level II program in the Faculty of Social Sciences for the following Fall/Winter session must submit an Application for Admission to Level II through the *Mosaic* Student Centre ("My Academics"; Program/Plan Selection application) no later than **April 30**. Students who have completed a minimum of 24 units in Level I will be eligible to apply for a Level II program (subject to meeting program requirements). The application allows students to rank four program choices, in order of preference. Students are advised to rank program choices carefully, especially when seeking admission to limited enrolment programs. If admitted to the first program choice, admission to other program choices will not be evaluated. If a student is not

admitted for the first program, the second program choice will be evaluated, followed by third and then fourth choices. Students ineligible for an Honours-level program of choice will be considered for the corresponding B.A. program. Students must check the *Mosaic* Student Centre in late May to confirm their program for the following Fall and Winter terms.

Students applying to the Honours B.S.W. program must also apply directly to the School of Social Work by **February 1**, and must refer to department admission notes.

LIMITED ENROLMENT PROGRAMS

Admission at Level II (and above) is limited for the following programs. Possession of the published minimum requirements does not guarantee admission.

- All Honours Bachelor of Social Work and Bachelor of Social Work programs
- All Honours Aging and Society programs
- All Honours Health and Society programs
- All Honours Work and Labour Studies programs
- All Honours Psychology, Neuroscience & Behaviour (B.A.) programs
- Honours Economics and Computer Science
- Honours Social Psychology
- Honours Political Science Specialization in Global Citizenship
- Honours Political Science Specialization in Public Law and Judicial Studies
- B.A. Health, Aging & Society

MINIMUM REQUIREMENTS FOR ENTERING AND CONTINUING IN A PROGRAM BEYOND LEVEL I

HONOURS HEALTH & SOCIETY I:

Students must complete Level I Honours Health and Society I (including HLTHAGE 1BB3, 1CC3, 1ZZ3) with a Grade Point Average (GPA) of at least 5.0 to continue onto Level II Honours Health & Society. If, upon completion of Level I Honours Health & Society, students achieve a GPA between 4.5 and 4.9, they may enrol in Level II Honours Health & Society but will be placed on program probation for one reviewing period. Students may be on program probation for only one reviewing period. Students with a GPA between 3.0 to 4.4 may transfer to another program for which they qualify. Students with a GPA below 3.0 may not continue at the University.

HONOURS B.A. PROGRAMS:

You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours B.A. program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another B.A. program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

HONOURS B.S.W. AND B.S.W. PROGRAMS:

To continue in an Honours B.S.W., or B.S.W program, you must have a Grade Point Average (GPA) of at least 6.0, and achieve **at least the minimum grade** in all Social Work courses as listed the program notes for *Progression Within Program* in the Honours Bachelor of Social Work (B.S.W.), or the Bachelor of Social Work (B.S.W.). If your GPA is 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 5.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

B.A. PROGRAMS:

You must have a Grade Point Average (GPA) of at least 3.5 to continue in, or graduate from, a three-level B.A. program. If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

TRANSFERRING TO HONOURS B.A. PROGRAMS BEYOND LEVEL II

Students who are not admissible to an Honours program from Level I to Level II, may request admission for the following Fall/Winter academic session. Program entry requirements and academic requirements for continuation at the level for which application is made, must be met. Transfer requests must be submitted through the Mosaic Student Centre (Service Request application) **by March 30**.

GRADUATION

FROM HONOURS B.A. AND B.A. PROGRAMS

To graduate from a program, students must meet all course requirements for their degree program. The requirements for graduation from these programs are described under the heading Graduation in the General Academic Regulations section in this Calendar.

TRANSFERRING TO GRADUATE WITH A THREE-LEVEL B.A. DEGREE FROM AN HONOURS B.A. PROGRAM

Students who successfully complete at least 90 units including all expected course requirements up to the end of Level III of any Honours B.A. degree, with a minimum Grade Point Average (GPA) of 3.5 may request permission from the Office the Associate Dean (Academic) Social Sciences to transfer to graduate with the corresponding three-level B.A. degree. Students enrolled in Honours Social Psychology may be given the option of either transferring to graduate with a B.A. in Psychology or a B.A. in Sociology based on the degree that is most relevant to the subject concentration and for which they meet all the degree requirements.

Students who do not qualify for a specific three-level B.A. degree may petition to the Office of the Associate Dean to be considered to graduate with a Social Sciences B.A. (General) exit degree. To qualify for consideration for the Social Sciences B.A. (General) exit degree, students must have successfully completed 90 units of course work, including 12 units of Level III courses in a Faculty of Social Sciences discipline with a minimum cumulative Grade Point Average of 3.5.

All requests to transfer to graduate must be submitted to the Office the Associate Dean (Academic) Social Sciences by April 15th for the Spring Convocation and by September 1st for the Fall Convocation.

LETTER OF PERMISSION COURSES TO GRADUATE

Students taking the final courses for completion of their degree program on a Letter of Permission at another university must ensure that the official transcripts are sent to the Office the Associate Dean (Academic) Social Sciences at McMaster University. For students expecting to graduate at the Spring Convocation, transcripts must be received by May 15 and for Fall convocation, by September 30.

TRANSFERS TO THE FACULTY OF SOCIAL SCIENCES

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Social Sciences provided they have obtained a Grade Point Average of at least 3.5 and have completed the necessary program admission requirements. Students approved to transfer to the Faculty of Social Sciences may be required to fulfill additional requirements at the time of admission. Failure to comply with these conditions may result in an academic standing of *May Not Continue in Faculty* at the following reviewing period.

REINSTATEMENT

A student who may not continue at the University may apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the application deadline for the session. See the *Application Procedures* section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student's academic performance before and after admission to McMaster, a letter of explanation and documentation of any extenuating circumstances.

Reinstatement is not automatic or guaranteed. Decisions are normally made after June 30 for September entry. The Grade Point Average for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved.

NOTE: If at a review after reinstatement the Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Failure to comply with the conditions outlined at the time of reinstatement may result in withdrawal from the university at the following reviewing period.

DEADLINES

The Faculty of Social Sciences will not consider applications for admission, admission to a second degree or continuing studies, reinstatement, registration, or dropping and adding of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures, unless written documentation is provided showing good cause, as determined by the Faculty.

ACADEMIC BREADTH REQUIREMENT

The Faculty of Social Sciences encourages all of its students to embrace academic breadth in both knowledge and skills. Therefore, every Social Sciences student is required to successfully complete at least 6 units of course work outside of their department/discipline(s) of study to satisfy degree requirements. These course units must be over and above the 30 units required for Level I Social Sciences.

ACADEMIC ADVISING

The aim of academic advising is to help students tailor a program of studies to fit their interests. Advising also involves reviewing these interests from time to time to accommodate changing plans, needs and academic performance. Advising is available throughout the year from the Office the Associate Dean (Academic) Social Sciences and the departments or academic units in the Faculty of Social Sciences. It is strongly recommended that students consult with a Departmental Undergraduate Advisor during March in conjunction with the Level II program application.

AWARDS

For conditions and terms of awards for full-time and part-time students, please refer to the Undergraduate Academic Awards section of this Calendar.

COURSE SELECTION AND COURSE CHANGES

Students are responsible for ensuring that their course selection meets the requirements of the degree program in which they are enrolled, that prerequisites have been met, and that, where necessary, permission to take courses has been obtained. They should review their personal academic advisement report on Mosaic each time they drop, cancel or add courses, and contact an Academic Advisor if they have questions, **particularly if the advisement report shows unused courses.** Students should also be aware that changes to their course load may affect their fees and their eligibility for scholarships or sources of financial aid such as OSAP

OVERLOAD

Normally students may not register in more than 30 units during the Fall/Winter Term. In the following circumstances an overload of up to six units may be taken:

- if a student has a Fall-Winter Average of at least 7.0 in the immediately preceding review period.
- if the student is registered in the final level of his/her program.

Students wishing to register in more than 12 units during the Spring/Summer term, or more than six units in either term of that term may do so only with permission. Requests to enroll in an overload of units should be directed to the Office the Associate Dean (Academic) Social Sciences.

DEFERRED EXAMINATIONS AND DEFERRED TERM WORK

Students who have been granted more than one deferred examination or term-work privilege may be required by the Faculty/Program Office to reduce their course load during the term in which the deferred examinations are being written. The decision on reduced load will be made and communicated with the decision on the application for deferred examinations or the request for deferred term-work.

WITHDRAWAL

Students who wish to withdraw from the University may cancel courses on *Mosaic* and must surrender their McMaster Identification Card validation sticker to the Financial Services Office to ensure the processing of any fee refunds. Students who fail to withdraw formally from any course(s) by the stated deadlines will remain registered whether or not they attend classes and will be assigned a grade.

LETTER OF PERMISSION

Students in good academic standing who wish to attend another university to take courses for credit toward a McMaster degree must first request a Letter of Permission from the Office the Associate Dean (Academic) Social Sciences. The request should be initiated through the *Student Centre* in *Mosaic*. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Grade Point Average (GPA) at McMaster, and therefore cannot be used to raise standing. The transcript designations will read T, indicating *Transfer*, when a grade of C- or better is attained or NC indicating not complete if less than a C- grade is obtained.

Students must ensure that the official transcripts for completed courses are sent to the Office the Associate Dean (Academic) Social Sciences. Students expecting to graduate upon completion of a course on Letter of Permission should refer to the heading Letter of Permission Courses to Graduate. Students who choose not to use the Letter of Permission or cancel the course(s), must supply the Office the Associate Dean (Academic) Social Sciences with a transcript showing the cancelled course, or a certified letter from the host university, confirming that the student was not registered for the courses and session.

NON-ACADEMIC REQUIREMENTS

Some courses, and many important extra-curricular opportunities for students in the Faculty of Social Sciences, require students to have cleared police criminal checks which can be obtained through Hamilton-Wentworth Police Services. Additionally, students may be required to pass TB tests and have immunization for some contagious diseases. Costs related to these requirements are the responsibility of the student.

SOCIAL SCIENCES STUDY ABROAD

Formal Student Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students register at and pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. McMaster University has an array of international partnerships with institutions in other countries including Australia, France and the United Kingdom to provide students the opportunity to participate in an exchange program for one year or a term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals.

ELIGIBILITY FOR STUDY ABROAD

Students registered in any Honours or Combined Honours program in the Faculty of Social Sciences may apply to replace all or part of the work of their third year with an acceptable program of study taken at an approved university. To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students may receive up to 30 units of credit for a full year of study at another institution. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Office the Associate Dean (Academic) Social Sciences has received transcripts and reviewed students' academic achievements following their return.

APPLICATION FOR STUDY ABROAD

Students interested in applying for this program should consult the International Student Services Office and the Faculty of Social Sciences Exchange Advisor, approximately one year before they anticipate studying abroad. Application deadlines are usually in January, although applications for some exchanges may be due as early as December. Acceptance to the Ontario and University-wide Exchange Programs is by application and recommendation. For further information please see *International Study* in the *General Academic Regulations* section in this Calendar. Information concerning student exchanges can also be found in the *Academic Facilities, Student Services and Organizations* section of this Calendar under the heading International Student Services.

Level I Programs

The Faculty of Social Sciences offers the following Level I program leading to the Honours Bachelor of Arts and Bachelor of Arts degrees:

- Social Sciences I

Review of the Admission Requirements of Level II programs and successful completion of required courses in Level I will allow students a range of Level II program options including those from within their chosen program as well as the others.

Additionally, effective September 2019, the Faculty will offer the following direct-entry Level I programs leading to the Honours Bachelor of Arts and Bachelor of Arts degrees:

- Economics I
- Honours Health and Society I

Bachelor of Arts (Honours)

ECONOMICS I

REQUIREMENTS

30 units total

6 UNITS

- ECON 1B03 - Introductory Microeconomics
- ECON 1BA3 - Introductory Macroeconomics for Economics students

3 UNITS

- ECON 1ME3 - Introduction to Mathematical Economics

0-3 UNITS

- MATH 1F03 - Introduction to Calculus and Analytic Geometry (*if Grade 12 Calculus and Vectors U has not been completed*)

9-12 UNITS

from

- *Course List*

12 UNITS

Electives, which may include courses from the *Course List* below. See also the *Elective Courses Available To Level I Students* page.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GLOBALZN 1A03 - Global Citizenship

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- INDIGST 1B03 - Reconciling What? Indigenous Relations in Canada
- INUKTUT 1Z03
- LABRST 1A03
- LABRST 1A03
- LABRST 1C03
- LABRST 1D03
- LABRST 1E03
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03
- SCAR 1B03 - What on Earth is Religion?
- SCAR 1R03
- SCAR 1SC3 - The Big Questions: Introduction to Society, Culture & Religion
- SOCPY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- SOCSCI 1RM3 - How do we Know? Doing Social Sciences Research
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and Everything
- WORKLABR 1A03 - An Introduction to Work and Labour in Canada
- WORKLABR 1D03 - Technology and the Future of Work
- WORKLABR 1E03 - Navigating the World of Work

HONOURS HEALTH AND SOCIETY I

PROGRAM NOTE

Enrolment in this program is limited.

- As places in the Honours Health and Society I program are limited, admission is by selection, and possession of the minimum requirements does not guarantee admission.

REQUIREMENTS

30 units total

9 UNITS

- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society

9 UNITS

from

- *Course List*

12 UNITS

Electives, which may include courses from the *Course List* below. Also see the *Elective Courses Available To Level I Students* page.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and

Social Justice

- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- ECON 1B03 - Introductory Microeconomics

- WORKLABR 1A03 - An Introduction to Work and Labour in Canada
- WORKLABR 1D03 - Technology and the Future of Work
- WORKLABR 1E03 - Navigating the World of Work

SOCIAL SCIENCES I

PROGRAM NOTES

- A full course load for Social Sciences I is 30 units. (The unit value of a course is determined by the last number of the course code. 3-unit courses are normally one term in duration and offered either September to December or January to April. 6-unit A/B courses are typically taught over two terms, from September to April.)
- Students who have completed a minimum of 24 units in Social Sciences I will be eligible to apply for a Level II program (subject to program requirements).
- Students should select courses based on their academic interests and anticipated Level II program of study. Elective courses may be taken from other Faculties, where requisites are met. Admission to a Level II program typically requires completion of three to six units of the subject in Level I, with an applicable Grade Point Average. Students should consult the admission statements for relevant Level II programs when selecting their Level I courses.

- Social Sciences I students are permitted to take up to 9 units of course work in any single subject.

COURSE LIST 1

The following Social Sciences courses provide entry into a Level II program.

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- ECON 1ME3 - Introduction to Mathematical Economics
- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- INDIGST 1B03 - Reconciling What? Indigenous Relations in Canada
- LABRST 1A03
- LABRST 1C03
- LABRST 1D03
- LABRST 1E03
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03
- SCAR 1B03 - What on Earth is Religion?
- SCAR 1R03
- SCAR 1SC3 - The Big Questions: Introduction to Society, Culture & Religion
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1Z03 - An Introduction to Sociology
- WORKLABR 1A03 - An Introduction to Work and Labour in Canada
- WORKLABR 1D03 - Technology and the Future of Work
- WORKLABR 1E03 - Navigating the World of Work

COURSE LIST 2

The following Social Sciences courses are also available but do not provide entry into a Level II program.

- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- GLOBALZN 1A03 - Global Citizenship
- INUKTUT 1Z03
- MOHAWK 1Z03 - Introduction to Mohawk Language and Culture
- OJIBWE 1Z03 - Introduction to Ojibwe Language and Culture
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCSCI 1RM3 - How do we Know? Doing Social Sciences Research
- SOCSCI 1SS3 - Inquiry in the Social Sciences
- SOCSCI 1T03 - Life, the University, and Everything

REQUIREMENTS: 30 UNITS

18 UNITS

from

- *Course List 1 and Course List 2*

12 UNITS

Electives, which may include courses from *Course List 1* and *2*. (See the Degrees and Programs: Duration in Years section of this Calendar for a list of elective courses available to Level I students)

Ana Duggan/B.Sc. (*Newfoundland*), M.Sc. (*Queen's*), Ph.D. (*Leipzig*)

Scott Martin/B.A. (*McMaster*), M.A. (*Durham, UK*), Ph.D. (*Cambridge, UK*)

Lauren Wallace/B.A. (*Guelph*), Ph.D. (*McMaster*)

Anthropology Subfields

(Applicable to all Anthropology programs)

Anthropology includes the three major subfields of Sociocultural Anthropology, Biological Anthropology, and Archaeology. It should be noted that each subfield has its own sequence of courses and prerequisites.

Note

- Students are **strongly encouraged to consult the Anthropology web site** to determine sessional course offerings, as not all Level II, III, and IV courses are offered each year:
<http://anthropology.mcmaster.ca/programs>

Sociocultural Anthropology

- ANTHROP 2CE3
- ANTHROP 2DA3 - Traditional Indigenous Ecological Knowledge
- ANTHROP 2EE3 - Sport and/as Religion
- ANTHROP 2F03 - Introduction to Sociocultural Anthropology: Listening Across Difference
- ANTHROP 2G03 - Readings in Indo-European Myth
- ANTHROP 2HE3 - Heritage, Economy, and Ethics
- ANTHROP 2HI3 - Medical Anthropology
- ANTHROP 2MA3 - Art and Activism
- ANTHROP 2R03 - Religion, Magic and Witchcraft
- ANTHROP 3AR3 - Culture and Religion
- ANTHROP 3ET3 - Anthropology of Ethics
- ANTHROP 3F03 - Anthropology and the 'Other'
- ANTHROP 3G03 - Comparative Mythology
- ANTHROP 3GG3
- ANTHROP 3GH3 - Interdisciplinary Global Health Field Course: Maternal and Infant Health in Morocco
- ANTHROP 3HE3
- ANTHROP 3HH3 - Globalization, Social Justice and Human Rights
- ANTHROP 3LL3 - Of Beauty and Violence
- ANTHROP 3P03 - Doing Ethnography: Research Methods
- ANTHROP 3PA3 - Haudenosaunee Health, Diet and Traditional Botany
- ANTHROP 3PH3 - Dissent, Power and History
- ANTHROP 3SS3 - Sacred Journeys
- ANTHROP 3ST3 - Science and Technology Studies in/of Africa
- ANTHROP 3TR3 - The Anthropology of Tourism
- ANTHROP 3V03
- ANTHROP 3Y03 - Indigenous Community Health and Wellbeing
- ANTHROP 4AA3 - Materiality, Matter and Social Lives
- ANTHROP 4B03 - Current Problems in Sociocultural Anthropology I
- ANTHROP 4BB3 - Current Problems in Sociocultural Anthropology II
- ANTHROP 4CP3 - Cultural Politics of Food and Eating
- ANTHROP 4D03 - Practicing Anthropology: Ethics, Theory, Engagement
- ANTHROP 4DD3 - Anthropology of Zombies and the Undead
- ANTHROP 4LL3 - Critical Global Health
- ANTHROP 4M03
- ANTHROP 4MM3 - Borders, Migration, Refuge
- ANTHROP 4SG3 - The Secret of the Gift

Biological Anthropology

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2D03 - DNA Meets Anthropology
- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3BA3 - Special Topics in Biological Anthropology
- ANTHROP 3BD3 - The Black Death
- ANTHROP 3BF3 - Bioarchaeological Field School
- ANTHROP 3C03
- ANTHROP 3FA3 - Forensic Anthropology
- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3R03
- ANTHROP 4DN3 - Diet & Nutrition: Biocultural and Bioarchaeological Perspectives
- ANTHROP 4GS3 - Genetics and Society
- ANTHROP 4J03 - Advanced Topics in Biological Anthropology I
- ANTHROP 4JJ3 - Advanced Topics in Biological Anthropology II
- ANTHROP 4R03 - Advanced Bioarchaeology and Skeletal Biology

- ANTHROP 4S03 - The Anthropology of Infectious Disease
- (Relevant courses are also offered by Biology and Kinesiology.)

Archaeology

- ANTHROP 2BB3 - Ancient Mesoamerica: Aztecs to Zapotecs
- ANTHROP 2C03 - Archaeology of Environmental Crisis and Response
- ANTHROP 2HH3 - Science, Technology & Society: Archaeological Perspectives
- ANTHROP 2003 - Themes in the Archaeological History of North America
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology
- ANTHROP 2PC3 - Aliens, Curses and Nazis: Archaeology and Hollywood
- ANTHROP 2RP3 - Religion and Power in the Past
- ANTHROP 2WA3 - Neanderthals to Pyramids: Introduction to World Archaeology
- ANTHROP 3AS3 - Archaeology and Society
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3CC6 - Archaeological Field School
- ANTHROP 3DD3 - Archaeology of Death
- ANTHROP 3E03 - Special Topics in Archaeology I
- ANTHROP 3EE3 - Special Topics in Archaeology II
- ANTHROP 3EM3
- ANTHROP 3FF3 - Key Debates in Andean Archaeology
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3X03 - Zooarchaeology
- ANTHROP 4AA3 - Materiality, Matter and Social Lives
- ANTHROP 4AH3 - Archaeology and Heritage: Ethics, Politics, and Practice
- ANTHROP 4CC3 - Archaeology of Foodways
- ANTHROP 4E03 - Advanced Topics in Archaeology I
- ANTHROP 4EE3 - Advanced Topics in Archaeology II
- ANTHROP 4F03
- ANTHROP 4FF3 - Digging the City: The Archaeology of Urbanism
- ANTHROP 4HF3 - Archaeology of Hunter-Fisher-Gatherers
- ANTHROP 4HH3 - Archaeologies of Space and Place
- ANTHROP 4KK3 - The Archaeology of Neanderthals and Other Early Humans
- (Relevant courses are also offered by the School of Earth, Environment & Society, History and Classics.)

Other Courses

Courses not distinguished by subfield include the required course ANTHROP 3PD3 plus the independent study courses ANTHROP 3IS3, ANTHROP 4G03, ANTHROP 4GG3 and topic course ANTHROP 3W03.

In planning a program, it is important for students to take note of the prerequisites of certain upper-level courses.

Bachelor of Arts (Honours)

COMBINED HONOURS IN ANTHROPOLOGY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ANTHROP 1AA3 or 1AB3. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and*

Continuing in a Program Beyond Level I.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
- Students enrolled in an Honours Anthropology program prior to September 2013 may substitute any Level II, III, IV **Anthropology** course for ANTHROP 3PD3.
- Students who have completed only 3 units of Level I Anthropology will be required to complete 3 more units of Level I Anthropology by the end of the following academic year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

- from the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 UNITS

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Introduction to Sociocultural Anthropology: Listening Across Difference
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

3 UNITS

from

- ANTHROP 2D03 - DNA Meets Anthropology
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 3CA3 - Ceramic Analysis
- ANTHROP 3BB3 - Ancient Agriculture to Criminal Investigations: Paleoethnobotany in Practice
- ANTHROP 3H03
- ANTHROP 3K03 - Archaeological Interpretation
- ANTHROP 3LA3 - Lithics Analysis
- ANTHROP 3P03 - Doing Ethnography: Research Methods
- ANTHROP 3PP3 - Paleopathology
- ANTHROP 3R03
- ANTHROP 3X03 - Zooarchaeology

15 UNITS

- Levels II, III or IV Anthropology

3 UNITS

- ANTHROP 3PD3 - Anthropological Perspectives and Debates

36 UNITS

- courses specified for the other subject

3 UNITS

from

- SOCSCI 2J03 - Introduction to Statistics or
- the Research Methods/Statistics requirement specified for the other subject (in combined programs within the Faculty of Social Sciences)

6 UNITS

- Level IV Anthropology

0-3 UNITS

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice

(See *Note 3*)

12-15 UNITS

- Electives

HONOURS ANTHROPOLOGY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ANTHROP 1AA3 or 1AB3. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTE

- Students enrolled in an Honours Anthropology program prior to September 2013 may substitute any level II, III, or IV **Anthropology** course for ANTHROP 3PD3.
- Students who have completed only 3 units of Level I Anthropology will be required to complete 3 more units of Level I Anthropology by the end of the following academic year.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 UNITS

- ANTHROP 2E03 - Introduction to Biological Anthropology
- ANTHROP 2F03 - Introduction to Sociocultural Anthropology: Listening Across Difference
- ANTHROP 2PA3 - Introduction to Anthropological Archaeology

Zhen He/B.A. (Renmin University, China), M.A. (New Brunswick), Ph.D. (Alberta)

Hannah Holmes/M.A. (McMaster)

Rumen Kostadinov/B.Sc. (Warwick, UK), M.Sc. (London School of Economics), Ph.D. (New York)

Adam Lavecchia/B.A. (York), M.A., Ph.D. (Toronto)

Siha Lee/B.A. (Seoul National, Korea), M.Sc., Ph.D. (Wisconsin-Madison)

Zachary Mahone/Ph.D. (Minnesota)

Gajendran Raveendranathan/B.S., M.A., Ph.D. (Minnesota)

Jonathan Zhang/B.Sc. (British Columbia), Ph.D. (Stanford)

Angela Zheng/B.A. (McGill), M.A., Ph.D. (New York)

ADJUNCT ASSISTANT PROFESSORS

Laura Grigolon/J.D., M.A. (Padua, Italy), M.Sc. (Leicester, Great Britain), Ph.D.

(Leuven, Belgium)

Boris Kralj/B.A., M.A., Ph.D. (York)

ASSOCIATE MEMBERS

Emmanuel Guindon (HEI)/B.A. (McGill), M.A. (Victoria), Ph.D. (McMaster)

Greg Mordue (Walter G. Booth School of Engineering Practice)/B.A. (Wilfrid Laurier), B. Comm. (Windsor), M.B.A. (Heriot-Watt, Britain), Ph.D. (Strathclyde, Great Britain)/ArcelorMittal Dofasco Chair in Advanced Manufacturing Policy

ADJUNCT LECTURER

Stephanie Thomas/Ph.D. (McMaster)

INDUSTRY PROFESSOR

Jim Stanford/B.A. (Calgary), M.Phil. (Cambridge), Ph.D. (New School for Social Research, New York)/Harold Innis Industry Professor in Economics

Bachelor of Arts (Honours)

COMBINED HONOURS IN ECONOMICS AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3) and completion of one of ECON 1ME3, MATH 1MM3, 1A03, 1LS3. Satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
- **Alternate admission requirements:**
- **For students enrolled in Level II or III of BA Economics**, admission to Levels II, III and IV of Honours Economics programs requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students enrolled in Levels II or III of BA Economics cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3).**
- **For students in another program beyond Level I**, admission to Levels II, III and IV of Honours Economics programs normally requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3). However, if a student enrolled in Level II or above of another program has a minimum GPA of 5.0 and has completed ECON 1B03 and 1BB3 with an average of at least 5.0 on their first attempt, they will be considered admissible.**
- Students with prior credit in a statistics course recognized as an alternative to ECON 2B03 can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in a recognized alternative statistics course. There is no such grade requirement for ECON 3E03 (formerly 3U03). See ECON 3EE3 (formerly 3U03) in the *Course Listings* section of this Calendar for a list of recognized alternative statistics courses.
- Students registered in Combined Honours programs within the Faculty of Social Sciences must complete at least ECON 4F03 (formerly 3F03) or ECON 4FF3 (formerly 3FF3). Students who wish to satisfy the Honours Seminar requirement specified by the other department may replace 4A03 and 4AA3 with another three units of Economics course.
- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- MATH 1MM3 (or 1M03) is required for any student planning to transfer into Commerce and strongly recommended for any student with a Minor

in Business or Finance.

- Students who have not completed ECON 1ME3 are recommended to complete one of Grade 12 Mathematics of Data Management, STATS 1LL3, or COMMERCE 1DA3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- Level I program completed prior to admission to the program.

(See Admission above.)

6 UNITS

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

6 UNITS

- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II

6 UNITS

- ECON 4A03 - Honours Economic Analysis
- ECON 4F03 - Methods of Inquiry in Economics

or

- ECON 4AA3 - Economic Specialist Seminar
- ECON 4FF3 - Research Methods in Economics

(See Note 4 above.)

15 UNITS

Levels II, III, IV Economics **with no more than six units** from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 5 above.)

36 UNITS

- courses specified for the other subject

6 UNITS

- ECON 2B03 - Analysis of Economic Data and
- ECON 3EE3 - Econometrics I or
- ECON 3E03 - Applied Econometrics

Note: Students who plan to take ECON 3EE3 are strongly advised to take ECON 2B03. (See Note 3 above.)

15 UNITS

- Electives

HONOURS ECONOMICS (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3) and completion of one of ECON 1ME3, MATH 1MM3, 1A03, 1LS3. For continuation in program, see the section on *Minimum Requirement for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Alternate admission requirements:
- **For students enrolled in Level II or III of BA Economics**, admission to Levels II, III and IV of Honours Economics programs requires a

minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students enrolled in Levels II or III of BA Economics cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3).**

- **For students in another program beyond Level I**, admission to Levels II, III and IV of Honours Economics programs normally requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3). However, if a student enrolled in Level II or above of another program has a minimum GPA of 5.0 and has completed ECON 1B03 and 1BB3 with an average of at least 5.0 on their first attempt, they will be considered admissible.**
- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students with prior credit in a statistics course recognized as an alternative to ECON 2B03 are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. There is no such grade requirement for ECON 3E03 (formerly 3WW3). See ECON 3EE3 (formerly 3U03) in the *Course Listings* section of this Calendar for a list of recognized alternative statistics courses.
- Students interested in an M.A. in Economics should take ECON 3EE3 (formerly 3U03) and consider the Specialist Option.
- MATH 1MM3 (or 1M03) is required for any student planning to transfer into Commerce and strongly recommended for any student with a Minor in Business or Finance.
- Students who have not completed ECON 1ME3 are recommended to complete one of Grade 12 Mathematics of Data Management, STATS 1LL3, or COMMERCE 1DA3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program. (See *Admission* above.)

6 UNITS

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

12 UNITS

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 4A03 - Honours Economic Analysis

(See Notes 2 and 3 above)

24 UNITS

Levels II, III, IV Economics with no more than six units from the following courses

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See Note 2 above.)

3 UNITS

from

- ECON 3EE3 - Econometrics I
- ECON 3E03 - Applied Econometrics

(See *Notes 3* and *4* above.)**3 UNITS**

from

- ECON 4F03 - Methods of Inquiry in Economics
- ECON 4FF3 - Research Methods in Economics

42 UNITS

- Electives. Note: The number of units of Economics courses above Level I (excluding ECON 2B03, 3E03 and 3EE3) must not exceed 60

HONOURS ECONOMICS (SPECIALIST OPTION) (B.A.)**ADMISSION**

Completion of any Level I program with a Grade Point Average of at least 5.0 including an average of at least 5.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3) and completion of one of ECON 1ME3, MATH 1MM3, 1A03, 1LS3.

For continuation in program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Alternate admission requirements:
- **For students enrolled in Level II or III of BA Economics**, admission to Levels II, III and IV of Honours Economics programs requires a minimum

GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, ECON 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students enrolled in Levels II or III of BA Economics cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3).**

- **For students in another program beyond Level I**, admission to Levels II, III and IV of Honours Economics programs normally requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, ECON 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3). However, if a student enrolled in Level II or above of another program has a minimum GPA of 5.0 and has completed ECON 1B03 and 1BB3 with an average of at least 5.0 on their first attempt, they will be considered admissible.**
- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students in the Specialist Option are expected to take ECON 2B03. Students with prior credit in a recognized alternative statistics course are exempt from this requirement. Those students can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in a recognized alternative statistics course. See ECON 2B03 in the Course Listings section of this Calendar for a list of recognized alternative statistics courses.
- Students interested in an M.A. in Economics should take ECON 3EE3 (formerly 3U03) and consider the Specialist Option.
- MATH 1MM3 (or 1M03) is required for any student planning to transfer into Commerce and strongly recommended for any student with a minor in Business or Finance.
- Students who have not completed ECON 1ME3 are recommended to complete one of Grade 12 Mathematics of Data Management, STATS 1LL3, or COMMERCE 1DA3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program. (See Admission above.)

6 UNITS

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

27 UNITS

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II
- ECON 3G03 - Introduction to Advanced Economic Theory
- ECON 4AA3 - Economic Specialist Seminar
- ECON 4FF3 - Research Methods in Economics
- ECON 4G03 - Econometrics II
- ECON 4T03 - Advanced Economic Theory I
- ECON 4TT3 - Advanced Economic Theory II

(See *Notes 2* and *3* above.)**12 UNITS**

Levels II, III, IV Economics with **no more than six units** from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Note 2* above.)**3 UNITS**

- ECON 3EE3 - Econometrics I
- ECON 3E03 - Applied Econometrics (with a grade of at least A-)

(See *Notes 3* and *4* above.)**42 UNITS**

- Electives. (Note: The number of units of Economics courses above Level I excluding ECON 2B03, 3EE3 (formerly 3WW3) and 3E03 (formerly 3U03) must not exceed 60.)

HONOURS ECONOMICS AND COMPUTER SCIENCE (B.A.)**ADMISSION**

Enrollment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement, completion of any Level I program with a Grade Point Average of at least 5.0, including an average of at least 5.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3), and a weighted average of at least 5.0 in ECON 1B03 (or 1BX3), ECON 1BB3 (or 1BA3); MATH 1A03, 1AA3, and 1B03, and an average of at least 7.0 in COMPSCI 1JC3 and 1MD3. For continuation in the program, see *Minimum Requirement for Entering and Continuing in a Program Beyond Level I*.

NOTES

- **Alternate admission requirements:**
- **For students enrolled in Level II or III of BA Economics**, admission to Levels II, III and IV of Honours Economics programs requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students enrolled in Levels II or III of BA Economics cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3).**
- **For students in another program beyond Level I**, admission to

Levels II, III and IV of Honours Economics programs normally requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3). However, if a student enrolled in Level II or above of another program has a minimum GPA of 5.0 and has completed ECON 1B03 and 1BB3 with an average of at least 5.0 on their first attempt, they will be considered admissible.**

- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students with prior credit in a statistics course recognized as an alternative to ECON 2B03 can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. There is no such grade requirement for ECON 3E03 (formerly 3WW3). See ECON 3EE3 (formerly 3U03) in the Course Listings section of this Calendar for a list of recognized alternative statistics courses.
- Seats in the required Level 1 Computer Science courses are limited and will be allocated by the Economics Department.
- COMPSCI 1DM3 and 1XC3 must be completed by the end of Level II.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

6 UNITS

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

6 UNITS

- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II

6 UNITS

- COMPSCI 1DM3 - Discrete Mathematics for Computer Science
- COMPSCI 1XC3 - Computer Science Practice and Experience: Development Basics

(See *Note 5* above.)

6 UNITS

- ECON 4F03 - Methods of Inquiry in Economics
- ECON 4A03 - Honours Economic Analysis

or

- ECON 4FF3 - Research Methods in Economics
- ECON 4AA3 - Economic Specialist Seminar

18 UNITS

Levels II, III, IV Economics with **no more than six units from** the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Note 2* above.)

18 UNITS

from

- COMPSCI 2AC3 - Automata and Computability
- COMPSCI 2C03 - Data Structures and Algorithms

- COMPSCI 2DB3 - Databases
- COMPSCI 2GA3 - Computer Architecture
- COMPSCI 2LC3 - Logical Reasoning for Computer Science
- COMPSCI 2ME3 - Introduction to Software Development
- COMPSCI 2SD3 - Concurrent Systems
- COMPSCI 2XC3 - Computer Science Practice and Experience: Algorithms and Software Design

9 UNITS

from

- COMPSCI 3AC3 - Algorithms and Complexity
- COMPSCI 3MI3 - Principles of Programming Languages
- COMPSCI 3N03 - Computer Networks and Security
- COMPSCI 3SH3 - Computer Science Practice and Experience: Operating Systems
- COMPSCI 3TB3 - Syntax-Based Tools and Compilers
- COMPSCI 4HC3 - Human Computer Interfaces
- COMPSCI 4WW3 - Web Systems and Web Computing

3 UNITS

- Levels III or IV Computer Science except COMPSCI 4ZP6 A/B

6 UNITS

- STATS 2D03 - Introduction to Probability
- STATS 2MB3 - Statistical Methods and Applications

or

- ECON 3EE3 - Econometrics I (or ECON 3E03 (formerly 3WW3))
- ECON 2B03 - Analysis of Economic Data

(See *Note 3* above.)

12 UNITS

- Electives

HONOURS ECONOMICS AND MATHEMATICS (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including MATH 1A03 (or 1X03) an average of at least 5.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3) and a grade of at least C+ in each of MATH 1AA3 (or 1XX3) and 1B03. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- **Alternate admission requirements:**
- **For students enrolled in Level II or III of BA Economics**, admission to Levels II, III and IV of Honours Economics programs requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students enrolled in Levels II or III of BA Economics cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3).**
- **For students in another program beyond Level I**, admission to Levels II, III and IV of Honours Economics programs normally requires a minimum GPA of 5.0 and an average of at least 5.0 in ECON 2Z03, 2ZZ3, (or 2G03, 2GG3), 2H03 and 2HH3. **Students cannot gain admission to Honours Economics programs by upgrading ECON 1B03 (or 1BX3) or 1BB3 (or 1BA3). However, if a student enrolled in Level II or above of another program has a minimum GPA of 5.0 and has completed ECON 1B03 and 1BB3 with an average of at least 5.0 on their first attempt, they will be considered admissible.**
- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- Students with prior credit in a statistics course recognized as an alternative to ECON 2B03 can take ECON 3EE3 (formerly 3U03) only if they achieved a grade of at least B+ in an alternative statistics course. See ECON 3EE3 (formerly 3U03) in the *Course Listings* section of this Calendar for a list of recognized alternative statistics courses.

- Neither ECON 2B03, 3E03 (formerly 3WW3) nor 3EE3 (formerly 3U03) can be used to satisfy these required units.
- Neither STATS 2D03 nor 2MB3 can be used to satisfy these required units.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

6 UNITS

- ECON 2Z03 - Intermediate Microeconomics I
- ECON 2ZZ3 - Intermediate Microeconomics II

6 UNITS

- ECON 2H03 - Intermediate Macroeconomics I
- ECON 2HH3 - Intermediate Macroeconomics II

6 UNITS

- ECON 4F03 - Methods of Inquiry in Economics *and*
- ECON 4A03 - Honours Economic Analysis

or

- ECON 4FF3 - Research Methods in Economics *and*
- ECON 4AA3 - Economic Specialist Seminar

12 UNITS

from Levels II, III, IV Economics **with no more than six units from the following courses:**

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Note 2* above.)

12 UNITS

- MATH 2C03 - Introduction to Differential Equations
- MATH 2X03 - Advanced Calculus I (or 2A03)
- MATH 2XX3 - Advanced Calculus II (or 2AB3)
- MATH 3X03 - Complex Analysis I

3 UNITS

from

- MATH 2LA3 - Applications of Linear Algebra
- MATH 2R03 - Theory of Linear Algebra

3 UNITS

from

- MATH 3A03 - Real Analysis I
- MATH 3IA3 - Introduction to Analysis

12 UNITS

from

- Levels II, III, IV Mathematics, Statistics with **no more than six units** at Level II, and **at least three units** at Level IV (See *Notes 4* and *5* above.)

12 UNITS

- six units from ECON 2B03, ECON 3EE3
- six units from Levels III, IV Mathematics or Statistics

or

- six units from STATS 2D03, STATS 2MB3
- six units from Levels III, IV Economics

(See *Note 3* above.)

9-18 UNITS

- Electives

Bachelor of Arts**ECONOMICS (B.A.)****ADMISSION**

Completion of any Level I program with a Grade Point Average of at least 3.5 and an average of at least 4.0 in ECON 1B03 (or 1BX3) and 1BB3 (or 1BA3) and completion of one of ECON 1ME3, MATH 1MM3, 1A03, 1LS3.

NOTES

- COMMERCE 2FA3 may be substituted for ECON 2I03 and COMMERCE 2QA3 may be substituted for ECON 2B03.
- **Alternate admission to the B.A. Economics program requires a Cumulative Average of at least 3.5 including an average of at least 4.0 in ECON 2Z03 (or 2G03), 2H03.**
- Students who have not completed ECON 1ME3 are recommended to complete one of Grade 12 Mathematics of Data Management, STATS 1LL3, or COMMERCE 1DA3.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

3 UNITS

- ECON 2Z03 - Intermediate Microeconomics I

6 UNITS

- ECON 2B03 - Analysis of Economic Data
- ECON 2H03 - Intermediate Macroeconomics I

(See *Note 2* above.)

15 UNITS

Levels II, III, IV Economics with **no more than six units from the following courses:**

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Note 1* above.)

36 UNITS

- Electives. (Note: The number of units of Economics courses above Level I (excluding ECON 2B03 and 3U03) must not exceed 36.)

Minor(s):**MINOR IN ECONOMICS****NOTES**

- Although ECON 2Z03 (or 2G03) and 2H03 are not required for the Minor in Economics, most Level III and IV Economics courses have at least one of these courses as a prerequisite.
- COMMERCE 2FA3 may be substituted for ECON 2I03.
- COMMERCE 1DA3 may be substituted for 3 units of Level II, III, IV

Economics courses.

- COMMERCE 2QA3 (or another Statistics course equivalent to ECON 2B03) may be substituted for ECON 2B03.
- ECON 2CC3 may not be used to satisfy a minor in Economics.
- Students who are presenting ARTSSCI 2E03 must complete 21 units from Level II, III, IV Economics courses.

REQUIREMENTS

24 units total

3-6 UNITS

Level 1 Economics

- ECON 1B03 - Introductory Microeconomics (or 1BX3) *and*
- ECON 1BB3 - Introductory Macroeconomics (or 1BA3)

or

- ARTSSCI 2E03 - Economics: Principles and Policy

18-21 UNITS

Levels II, III, IV Economics with **no more than six units** from the following courses:

- ECON 2A03 - Economics of Labour-Market Issues
- ECON 2C03
- ECON 2D03 - Economic Issues
- ECON 2E03
- ECON 2F03
- ECON 2I03 - Financial Economics
- ECON 2J03 - Environmental Economics
- ECON 2N03 - Public Policy Toward Business
- ECON 2P03 - Economics of Professional Sports
- ECON 2Q03 - Economics of Bad Behaviour
- ECON 2T03 - Economics of Trade Unionism and Labour

(See *Notes* above.)

School of Earth, Environment & Society (Faculty of Social Sciences)

<http://www.science.mcmaster.ca/geo/>

Environment & Society Subfields

(Applicable to all Environment & Society programs)

Environment & Society programs at McMaster are interdisciplinary in nature, drawing from Human Geography, Environmental Studies, Geographic Information Science, and Urban Studies. Environment & Society courses reflect this interdisciplinarity and encompass five major subfields or themes: Economic Development, Environment and Sustainability, Geographic Information Science (GIS) & Spatial Analysis, Health & Population, and Urban Geography & Planning. It should be noted that each subfield has its own sequence of courses and prerequisites (See the *Course Listings* section of this Calendar). Students can elect to take some or all of the upper-level courses from different subfields.

- **Economic Geography:** ENVSOCY 2LE3, ENVSOCY 3LT3, ENVSOCY 4LE3, ENVSOCY 4LP3, ENVSOCY 4LW3
- **Environmental Issues & Policy:** ENVSOCY 2EI3, ENVSOCY 2EK3, ENVSOCY 3EC3, ENVSOCY 3EE3, ENVSOCY 3EG3, ENVSOCY 3ER3, ENVSOCY 4EA3, ENVSOCY 4ET3, ENVSOCY 4HH3
- **Geographic Information Systems (GIS) & Spatial Analysis:** ENVSOCY 2GI3, ENVSOCY 3GI3, ENVSOCY 3GV3, ENVSOCY 3SR3, ENVSOCY 4GA3, ENVSOCY 4GS3, ENVSOCY 4GT3, ENVSOCY 4SR3
- **Health & Population:** ENVSOCY 2HI3, ENVSOCY 3HP3, ENVSOCY 4HC3, ENVSOCY 4HD3, ENVSOCY 4HH3
- **Urban Geography & Planning:** ENVSOCY 2UI3, ENVSOCY 3UP3, ENVSOCY 3UR3, ENVSOCY 3UW3, ENVSOCY 4UD3, ENVSOCY 4US3

OTHER COURSES

Courses not distinguished by subfield include core courses such as research methods, statistics, field courses, internship opportunities and capstone experiences, as well as a broad suite of regional and topical courses.

- **Core (Research Methods, Field Courses, Internships, and Capstone):** ENVSOCY 3MA3, ENVSOCY 3MB3, GEOG 3ME3, ENVIRSC 3ME3, ENVSOCY 3MF3, ENVSOCY 3MI3, ENVSOCY 4MF3, ENVSOCY 4MS3, ENVSOCY 4MT6 A/B
- **Regional Geography:** ENVSOCY 2OC3, ENVSOCY 2RC3, ENVSOCY 2RU3, ENVSOCY 2RW3, ENVSOCY 3RW3
- **Topics in Geography:** ENVSOCY 2TF3, ENVSOCY 2TS3, ENVSOCY 3TG3, ENVSOCY 4UF3

In planning a program, it is important for students to take note of the prerequisites for certain upper-level courses. Further, not every Environment & Society course listed above is offered every year. For course availability, students are advised to consult "*Class Search*" on Mosaic or contact the School of Earth, Environment & Society after April 1st for the list of courses that will be offered in the following academic year.

For additional information regarding Environmental Science, please see the *School of Earth, Environment & Society (Faculty of Science)* section of this calendar.

Bachelor of Arts (Honours)

COMBINED HONOURS IN ENVIRONMENT & SOCIETY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ENVSOCY 1HA3, ENVSOCY 1HB3, GEOG 1HA3 or GEOG 1HB3 and satisfaction of admission requirements for the Honours program in the other B.A. subject (See *Note 1* and *4* below). For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty of Social Sciences, with programs in the Faculty of Humanities and with the Arts & Science Program.
- Not every Environment & Society course listed in this Calendar is offered every year. For course availability, students are advised to consult "*Class Search*" on Mosaic or contact the School of Earth, Environment & Society after April 1st for the list of courses that will be offered in the following academic year.
- Students are strongly encouraged to check prerequisites of upper-level Environment & Society courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.
- Two of ENVSOCY 1HA3, ENVSOCY 1HB3, GEOG 1HA3 and GEOG 1HB3 must be completed by the end of 60 units.
- Students intending to enrol in ENVSOCY 4MT6 A/B must submit an application to the course coordinator by April 1 of the academic year prior to registration. Application forms are available from the School of Earth, Environment & Society main office after March 1. Students will be informed of their permission to register in ENVSOCY 4MT6 A/B on April 15. Registration in this course is conditional upon achieving a GPA of at least 7.5.
- Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to

- complete MATH 1K03; if a Grade 12 Mathematics U was not completed.
- Students interested in taking courses in Environmental Science and/or Earth Science subfields are strongly encouraged to complete ENVIRSC 1C03 and/or EARTHSC 1G03.
- With permission from an Undergraduate Advisor in the School of Earth, Environment & Society, students enrolled in a combined Honours Environment & Society program may substitute ENVSOCY 3MA3 and/or ENVSOCY 3MB3 with an equivalent research methods and/or statistics course from the other subject.
- The Combined Honours Environment & Society program requires students to take one field methods course (ENVIRSC 3ME3 or ENVSOCY 3MF3). All students are encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to decide which of these courses best fits their area of academic interest.
- The field components of ENVIRSC 3ME3 and ENVSOCY 3MF3 are normally taken outside of the normal term. Details are announced in March.

REQUIREMENTS

Students who entered the Combined Honours in Geography and Another Subject (B.A.) program prior to September 2020 should refer to the 2019-2020 Undergraduate Calendar or their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

LEVEL I: 30 UNITS

30 units

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

LEVELS II TO IV: 90 UNITS

6 units

- ENVSOCY 2EI3 - Environment & Society: Challenges and Solutions
- ENVSOCY 2GI3 - Geographic Information Systems
- GEOG 2GI3

6 units

- ENVSOCY 3MA3 - Research Methods
- ENVSOCY 3MB3 - Data Analysis
- GEOG 3MA3
- GEOG 3MB3

(See *Note 8* above.)

3 units

- ENVIRSC 3ME3 - Environmental Field Camp
- ENVSOCY 3MF3 - Urban Field Camp
- GEOG 3MF3

(See *Notes 9* and *10* above.)

9 units

- Level II ENVSOCY, EARTHSC, ENVIRSC, GEOG

(See *Note 7* above.)

15 units

- Level III or IV ENVSOCY, EARTHSC, ENVIRSC, GEOG

(See *Note 7* above.)

36 units

- courses specified for the other subject

0-3 units

0-3 units

- ENVSOCY 1HA3 - Society, Culture and Environment
- ENVSOCY 1HB3 - Population, Cities and Development
- GEOG 1HA3
- GEOG 1HB3

(See *Note 4*)

12-15 units

- Electives

HONOURS ENVIRONMENT & SOCIETY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of ENVSOCY 1HA3, ENVSOCY 1HB3, GEOG 1HA3 or GEOG 1HB3 (see *Note 3* below). For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Not every Environment & Society course listed in this Calendar is offered every year. For course availability, students are advised to consult "Class Search" on Mosaic or contact the School of Earth, Environment & Society after April 1st for the list of courses that will be offered in the following academic year.
- Students are strongly encouraged to check the prerequisites of upper-level Environment & Society courses and to speak with an Undergraduate Advisor in the School of Earth, Environment & Society regarding course selection.
- Two of ENVSOCY 1HA3, ENVSOCY 1HB3, GEOG 1HA3 and 1HB3 must be completed by the end of 60 units.
- Students intending to register in ENVSOCY 4MT6 A/B must submit an application to the course coordinator by April 1 of the academic year prior to registration. Application forms are available from the School of Earth, Environment & Society main office after March 1. Students will be informed of their permission to register in ENVSOCY 4MT6 A/B on April 15. Registration in this course is conditional upon achieving a GPA of at least 7.5.
- Students interested in completing courses in the Geographic Information Systems (GIS) & Spatial Analysis subfield are strongly encouraged to complete MATH 1K03; if a Grade 12 Mathematics U was not completed.
- Students interested in taking courses in Environmental Science and/or Earth science subfields are strongly encouraged to complete ENVIRSC 1C03 and/or EARTHSC 1G03.
- The Honours Environment & Society program requires students to take one field methods course (ENVIRSC 3ME3 or ENVSOCY 3MF3). All students are encouraged to meet with the academic program advisor in the School of Earth, Environment & Society to decide which of these courses best fits their area of academic interest.
- The field components of ENVIRSC 3ME3 and ENVSOCY 3MF3 are normally taken outside of the normal term. Details are announced in March.
- The School of Earth, Environment & Society encourages students to embrace academic breadth in both knowledge and skills. As such, a minimum of 6 units of the 39 elective units (above Level I) must be taken from outside of the School of Earth, Environment & Society.

REQUIREMENTS

Students who entered the Honours Geography (B.A.) program prior to September 2020 should refer to the 2019-2020 Undergraduate Calendar or their personal Advisement Report for program requirements.

120 units total (Levels I to IV), of which 48 units may be Level I

LEVEL I: 30 UNITS

30 units

from

Bachelor of Arts (Honours)

COMBINED HONOURS IN AGING AND SOCIETY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 5.0 including a grade of at least C in HLTHAGE 1BB3 and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.
- Courses other than those listed below in the *Course List* may be substituted with the prior permission of the Chair. Students wishing to apply for substitutions must contact the Administrator of the Department of Health, Aging and Society.
- HLTHAGE 1AA3 - Introduction to Health and Society or HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society must be completed by the end of 60 units, however students are strongly encouraged to complete this requirement prior to the end of Level I. One of HLTHAGE 1AA3 or 1ZZ3 and 1BB3 are prerequisites for HLTHAGE 2BB3 which is a required course in Level II of the program.
- Students are strongly encouraged to complete HLTHAGE 2A03 and 3B03 or 3G03 to satisfy the Research Methods requirement of the degree, but may complete the Research Methods course(s) as required

by the other subject and replace these with equal units of Health, Aging and Society or *Course List* courses.

- Students who register in HLTHAGE 4Z06 A/B may take a maximum of 12 units from HLTHAGE 4B03, 4C03, 4H03, 4I03, 4L03, 4N03, 4P03, 4U03, 4V03, 4W03, 4Z06 A/B. Otherwise, they may take a maximum of 9 units from HLTHAGE 4B03, 4C03, 4H03, 4I03, 4L03, 4N03, 4P03, 4U03, 4V03, 4W03.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

9 UNITS

- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2D03 - Continuum of Care
- HLTHAGE 2F03 - Aging and Health Care Systems

3 UNITS

- HLTHAGE 2A03 - Research Methods in Health and in Aging I

3 UNITS

from

- HLTHAGE 3B03 - Advanced Research Methods
- HLTHAGE 3G03 - Community Based Research

(See *Note 4* above.)

3-6 UNITS

from

- SOCSCI 2J03 - Introduction to Statistics
- in combined programs within the Faculty of Social Sciences, the Research Methods/Statistics requirement specified for the other subject.

3 UNITS

- HLTHAGE 3L03 - Embodied Aging

3 UNITS

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

9 OR 12 UNITS

As outlined below:

9 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4H03 - History and Culture of Aging
- HLTHAGE 4I03 - Aging and Health
- HLTHAGE 4L03 - Social Policy and Aging
- HLTHAGE 4N03 - Aging and Wellbeing
- HLTHAGE 4P03 - Leisure and Recreation in Later Life
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging
- HLTHAGE 4W03 - Selected Issues in Aging and Society
- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

or

12 units

6 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4H03 - History and Culture of Aging
- HLTHAGE 4I03 - Aging and Health
- HLTHAGE 4L03 - Social Policy and Aging
- HLTHAGE 4N03 - Aging and Wellbeing

- HLTHAGE 4P03 - Leisure and Recreation in Later Life
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging
- HLTHAGE 4W03 - Selected Issues in Aging and Society

6 UNITS

- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

(See *Note 5* above.)

6 UNITS

from

- *Course List* or Health, Aging and Society

36 UNITS

- Courses as specified for the other subject

0-3 UNITS

from

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society

(if not completed in Level 1; see *Note 3*)

6-15 UNITS

- Electives

COURSE LIST

- ANTHROP 2HI3 - Medical Anthropology
- ECON 2CC3 - Health Economics and its Application to Health Policy
- ECON 3D03 - Labour Economics
- ECON 3Q03 - The Economics of Aging
- ECON 3Z03 - Health Economics
- ENVSOCY 2HI3 - Health and Place
- ENVSOCY 3HP3 - Population, Health and Aging
- KINESIOL 3S03
- KINESIOL 3SS3
- PHILOS 2D03 - Bioethics
- PHILOS 3C03 - Advanced Bioethics
- RELIGST 2C03
- PSYCH 3AG3 - Aging
- SCAR 2M03 - Death and Dying: Comparative Views
- SCAR 2N03 - Death and Dying: The Western Experience
- SCAR 2WW3 - Health, Healing and Religion: Western Perspectives
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 4L03
- SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
- SOCIOLOG 3X03 - Sociology of Aging
- SOCIOLOG 3CC3 - Sociology of the Family and the Life Cycle
- SOCIOLOG 3G03 - Sociology of Health Care
- SOCIOLOG 3HH3 - Sociology of Health

or other designated and approved courses. (See *Note 2* above.)

COMBINED HONOURS IN HEALTH AND SOCIETY AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 5.0, including a grade of at least C in HLTHAGE 1AA3 or 1ZZ3 and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.

- HLTHAGE 1BB3 - Introduction to Aging and Society must be completed by the end of 60 units, however students are strongly encouraged to complete this requirement prior to the end of Level I. One of HLTHAGE 1AA3 or 1ZZ3 and 1BB3 are prerequisites for HLTHAGE 2BB3 which is a required course in Level II of the program.
- Students are strongly encouraged to complete HLTHAGE 2A03 and 3B03 or 3G03 to satisfy the Research Methods requirement of the degree, but may complete the Research Methods course(s) as required by the other subject and replace these with equal units of Health, Aging and Society or *Course List* courses.
- Students who register in HLTHAGE 4Z06 A/B may take a maximum of 12 units from HLTHAGE 4B03, 4C03, 4D03, 4F03, 4G03, 4I03, 4J03, 4N03, 4O03, 4Q03, 4R03, 4S03, 4T03, 4U03, 4Z06 A/B. Otherwise, they may take a maximum of 9 units from HLTHAGE 4B03, 4C03, 4D03, 4F03, 4G03, 4I03, 4J03, 4N03, 4O03, 4Q03, 4R03, 4S03, 4T03, 4U03.
- Courses other than those listed below in the *Course List* may be substituted with the prior permission of the Chair. Students wishing to apply for substitutions must contact the Administrator of the Department of Health, Aging and Society. See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 UNITS

- HLTHAGE 2B03 - Social Identity, Health and Illness
- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2F03 - Aging and Health Care Systems

3 UNITS

- HLTHAGE 2A03 - Research Methods in Health and in Aging I

3 UNITS

from

- HLTHAGE 3B03 - Advanced Research Methods
- HLTHAGE 3G03 - Community Based Research
- (See *Note 3* above.)

3-6 UNITS

from

- SOCSCI 2J03 - Introduction to Statistics

or

- In combined programs within the Faculty of Social Sciences, the Research Methods/Statistics requirement specified for the other subject

3 UNITS

- HLTHAGE 3AA3 - State, Civil Society and Health

3 UNITS

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

9 OR 12 UNITS

As outlined below:

9 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4D03 - Health, Culture and Diversity
- HLTHAGE 4F03 - Selected Issues in Health and Society
- HLTHAGE 4G03 - Global Health
- HLTHAGE 4I03 - Aging and Health

- HLTHAGE 4J03 - Narratives of Illness
- HLTHAGE 4N03 - Aging and Wellbeing
- HLTHAGE 4O03 - Soundscapes of Wellbeing in Popular Music
- HLTHAGE 4Q03 - Representations of Mental Illness
- HLTHAGE 4R03 - Beyond the Social: Determinants of Indigenous Peoples Health
- HLTHAGE 4S03 - Health and the Unfairly Structured City
- HLTHAGE 4T03 - Gender, Sex and Health
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging
- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

or

12 units

6 units

from

- HLTHAGE 4B03 - Death and Dying in Later Life
- HLTHAGE 4C03 - Representations of Health and Illness Across the Lifecourse
- HLTHAGE 4D03 - Health, Culture and Diversity
- HLTHAGE 4F03 - Selected Issues in Health and Society
- HLTHAGE 4G03 - Global Health
- HLTHAGE 4I03 - Aging and Health
- HLTHAGE 4J03 - Narratives of Illness
- HLTHAGE 4N03 - Aging and Wellbeing
- HLTHAGE 4O03 - Soundscapes of Wellbeing in Popular Music
- HLTHAGE 4Q03 - Representations of Mental Illness
- HLTHAGE 4R03 - Beyond the Social: Determinants of Indigenous Peoples Health
- HLTHAGE 4S03 - Health and the Unfairly Structured City
- HLTHAGE 4T03 - Gender, Sex and Health
- HLTHAGE 4U03 - Professions and Occupations in Health and Aging

6 units

- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

(See *Note 4* above.)

6 UNITS

from

- *Course List* or Health, Aging and Society

36 UNITS

- courses specified for the other subject

0-3 UNITS

- HLTHAGE 1BB3 - Introduction to Aging and Society

(if not completed in Level I see *Note 2*)

6-15 UNITS

- Electives

COURSE LIST

Students are responsible for ensuring that course prerequisites are fulfilled.

- ANTHROP 2AN3 - The Anthropology of Food and Nutrition
- ANTHROP 2FF3 - Human Skeletal Biology and Bioarchaeology
- ANTHROP 2HI3 - Medical Anthropology
- ANTHROP 2U03 - Plagues and People
- ANTHROP 3C03
- ANTHROP 3BD3 - The Black Death
- ANTHROP 3Y03 - Indigenous Community Health and Wellbeing
- ANTHROP 4S03 - The Anthropology of Infectious Disease
- ECON 3Z03 - Health Economics
- ENGLISH 3NH3 - Narratives of Health

- SCAR 2WW3 - Health, Healing and Religion: Western Perspectives
- SCAR 2WX3 - Health, Healing and Religion: Comparative Views
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 3O03 - Social Work and Sexualities
- SOCIO 3G03 - Sociology of Health Care
- SOCIO 3HH3 - Sociology of Health
- SOCIO 4G03 - Advanced Topics in the Sociology of Health and Illness

(See *Note 5* above.)

HONOURS AGING AND SOCIETY (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 5.0 including a grade of at least C in HLTHAGE 1BB3. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.
- HLTHAGE 1AA3 - Introduction to Health and Society or HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society must be completed by the end of 60 units, however students are strongly encouraged to complete this requirement in Level I. One of HLTHAGE 1AA3 or 1ZZ3 and 1BB3 are prerequisites for HLTHAGE 2BB3 which is a required course in Level II of the program.
- Students who register in HLTHAGE 4Z06 A/B may take a maximum of 12 units from HLTHAGE 4B03, 4C03, 4H03, 4I03, 4L03, 4N03, 4P03, 4U03, 4V03, 4W03, 4Z06 A/B. Otherwise they may take a maximum of 9 units from HLTHAGE 4B03, 4C03, 4H03, 4I03, 4L03, 4N03, 4P03, 4U03, 4V03, 4W03.
- Courses other than those listed below in the *Course List* may be substituted with the prior permission of the Chair. Students wishing to apply for substitutions must contact the Administrator of the Department of Health, Aging and Society. See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program (See

Admission above.)

6 units

- HLTHAGE 4Z06 A/B - Health, Aging and Society Thesis

0-3 UNITS

- HLTHAGE 1BB3 - Introduction to Aging and Society

(If not completed in Level I; see *Note 3* above.)

30-36 UNITS

- Electives, of which no more than 15 units may be from Health, Aging and Society (the maximum Health, Aging and Society courses to be taken is 66).

Bachelor of Arts

HEALTH, AGING AND SOCIETY (B.A.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a minimum Grade Point Average of 3.5 and an average of at least 4.0 in HLTHAGE 1AA3 or 1ZZ3 and 1BB3.

NOTE

- See *Admission to Level II Programs* in the Faculty of Social Sciences Academic Regulations in this section of the Calendar.

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program

(See *Admission* above.)

15 UNITS

- HLTHAGE 2A03 - Research Methods in Health and in Aging I
- HLTHAGE 2B03 - Social Identity, Health and Illness
- HLTHAGE 2BB3 - Perspectives in Health, Aging and Society
- HLTHAGE 2D03 - Continuum of Care
- HLTHAGE 2F03 - Aging and Health Care Systems

6 UNITS

- HLTHAGE 3AA3 - State, Civil Society and Health
- HLTHAGE 3L03 - Embodied Aging

3 UNITS

from

- HLTHAGE 3B03 - Advanced Research Methods
- HLTHAGE 3G03 - Community Based Research

3 UNITS

from

- HLTHAGE 3BB3 - Field Experience
- HLTHAGE 3EE3 - The Practice of Everyday Life: Observations and Inquiry

33 UNITS

- Electives, of which at least six units must be taken from outside Health, Aging & Society

Minor(s):

MINOR IN HEALTH, AGING AND SOCIETY

NOTES

- Students are responsible for ensuring that course prerequisites are fulfilled.
- KINESIOL 2G03 and 3A03 may be used to satisfy Health, Aging and Society requirements for Kinesiology students pursuing a Minor in Health, Aging and Society.
- Given the extensive curriculum revisions that have been made, students are **strongly** encouraged to review course antirequisites in the *Course Listings* section of the Calendar.

REQUIREMENTS

- WORKLABR 3D03 - Work: Dangerous to your Health?

MINOR IN MENTAL HEALTH, ADDICTION AND SOCIETY

The minor in Mental Health and Addiction provides students with opportunity to develop an in-depth understanding of the relationship between mental health, addiction, and society. It involves examining the links between mental health and wider social processes, including marginalization, the construction of deviance, and the social determinants of health. Students will also gain a solid understanding of mental illness and some of the ways in which social change and other non-biomedical interventions can be harnessed to address issues related to mental health and addiction and promote wellbeing. Students will select courses from the Faculty of Social Sciences that address these themes, developing a strong interdisciplinary grasp on the links between mental health, addiction, and society. Beyond the required courses, students will be able to select from a wide variety of courses that cater to their own interests.

It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list. Students are encouraged to speak to their Faculty advisors about Faculty-specific rules about double-counting courses for the minor.

REQUIREMENTS

24 units total

3 UNITS

- HLTHAGE 1CC3 - Introduction to Mental Health and Illness (or HLTHAGE 2G03 if taken prior to Spring 2016)

3 UNITS

from

- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society
- SOCIOLOG 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II

6 UNITS

from

- HLTHAGE 2GG3 - Mental Health and Society (or HLTHAGE 2G03 if taken between June 2016 and August 2017)

- HLTHAGE 2L03 - Drugs, Sex and Alcohol: Society and its Addictions
- HLTHAGE 2N03 - Treatment Within the World of Mental Illness: Desperation and Debate

12 UNITS

from

- *Course List (see below.)*

COURSE LIST

NOTE

Please see the *Course Listings* section for a detailed description of the above courses.

Indigenous Studies Program

L.R. Wilson Hall, Room 1811, ext. 23788

<https://indigenous.mcmaster.ca>

DIRECTOR

Adrienne Xavier (Acting)

COMMITTEE OF INSTRUCTORS

Dawn Martin-Hill/B.A., M.A., Ph.D. (*McMaster*)

Tracy Bear/B.A., B.Ed., Ph.D. (*Alberta*)

Rick Monture/B.A., M.A., Ph.D. (*McMaster*)

Allan Downey/B.A., (*Mercyhurst*), M.A. (*Laurier*), Ph.D. (*Laurier*)

Chelsea Gabel/B.A., (*Western*), M.A. (*Windsor*); Ph.D. (*McMaster*)

Robert Innes/B.A. (*Toronto*), M.A. (*Saskatchewan*), PhD (*Arizona State*)

Renee Watchman/B.A., M.A. (*Arizona State*), PhD (*Stanford*),

Vanessa Watts/B.A. (*Trent*), M.A. (*Victoria*), Ph.D. (*Queen's*)

Kaitlin Debicki/B.A., M.A., Ph.D. (*McMaster*)

Adrienne Xavier/B.A. (*McMaster*), M.A., Ph.D. (*Royal Roads*)

ASSOCIATE ELDERS

Renee Thomas-Hill, Elder-in-Residence, Six Nations
Bertha Skye, Visiting Elder-in-Residence, Six Nations
 For the Honours Arts & Science and Indigenous Studies Program (B.Arts.Sc.),
 see *Arts & Science Program*.

Bachelor of Arts (Honours)

COMBINED HONOURS IN INDIGENOUS STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program, with a Grade Point Average of at least 5.0 and a grade of at least C in one of INDIGST 1A03, 1AA3, 1B03 or RECONCIL 1A03. Satisfaction of the admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Those students who completed INDIGST 2M06 A/B prior to September 2017 can use these 6-units towards the fulfillment of INDIGST 2M03 and INDIGST 2MM3. Those students who completed INDIGST 2AA3 prior to September 2016 may request approval of an additional 3-unit research methodology course, to use in fulfillment of this 6-unit research methodology requirement. Students are encouraged to consult the ISP Director for approval of an alternate applicable course.
- Students who have completed only 3 units of level I Indigenous Studies will be required to complete 3 more units of Level I Indigenous Studies by the end of the following academic year.

COURSE LIST

- ANTHROP 2BB3 - Ancient Mesoamerica: Aztecs to Zapotecs

Andrew King/ LL.B., B.A. (*Toronto*)

Bachelor of Arts (Honours)

COMBINED HONOURS IN WORK AND LABOUR STUDIES AND ANOTHER SUBJECT (B.A.)

ADMISSION

Enrolment in this program is limited. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in one of WORKLABR 1A03, 1D03, 1E03 (or LABRST 1D03, 1E03, 1A03 or 1C03; see *Note 3* below), and satisfaction of admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
- See *Admission to Level II Programs* in the Academic Regulations section of the Calendar.
- Students who have completed only 3 units of Level I Work and Labour Studies (or Labour Studies) will be required to complete 3 more units of Level I Work and Labour Studies during their Level II year.
- Students may not transfer to another Work and Labour Studies program except by the normal application process.
- Students who complete a six-unit Research Methods/Statistics course will reduce their elective component by three units.
- Students combining Work and Labour Studies with a Humanities subject or with Religious Studies must complete WORKLABR 4A06 A/B and SOCSCI 2J03. Students in other Combined Honours Programs may complete the Honours Seminar requirement as specified by the other Department and replace WORKLABR 4A06 A/B with six units Level III Labour Studies courses.
- Students who have completed LABRST 4D03 need not complete WORKLABR 4C03 or LABRST 4E03.
- Students are encouraged to consult the School of Labour Studies website at: <http://www.labourstudies.mcmaster.ca>.

COURSE LIST

- COMMERCE 1BA3 - Organizational Behaviour (or 2BA3)
 - COMMERCE 4BC3 - Collective Bargaining
 - LABRST 2H03
 - LABRST 2M03
 - LABRST 3A03
 - LABRST 3B03
 - LABRST 3C03
 - LABRST 3D03
 - LABRST 3E03
 - LABRST 3K03
 - LABRST 3L03
 - LABRST 3P03
 - LABRST 3T03
 - LABRST 4J03
 - SOCWORK 2BB3 - Anti-Oppressive Social Work or any level III or IV *Social & Political Context of Social Work* courses offered by the School of Social Work. Eligible to count for Level II or above.
 - SOCWORK 2CC3 - Introduction to Community Practice
- Note: While student can use this course to fulfill Work and Labour Studies requirements, and while the content is salient to Work and Labour Studies students, this course has a social work focus.

- WOMENST 2A03
- WORKLABR 2A03 - Unions in Action
- WORKLABR 2G03 - Labour and Globalization
- WORKLABR 2H03 - Sports, Work and Labour
- WORKLABR 2J03 - Work and Racism
- WORKLABR 2M03 - Pop Culture, Media and Work
- WORKLABR 2W03 - Human Rights and Social Justice
- WORKLABR 3A03 - Economics of Labour Market Issues
- WORKLABR 3B03 - Economics of Trade Unionism and Labour
- WORKLABR 3C03 - Labour and Employment Law
- WORKLABR 3D03 - Work: Dangerous to your Health?

John Lavis/ (C.E.P.A.) M.D. (Queen's), M.Sc. (LSE), Ph.D. (Harvard)

Fields of Study

Students are responsible for ensuring that course prerequisites are fulfilled.

• Canadian Politics

POLSCI 2C03, 2D03, 2EM3, 2F03, 2LW3, 2PF3, 2U03, 3BB3, 3C03, 3CL3, 3FG3, 3GG3, 3IP3, 3J03, 3JJ3, 3K03, 3PA3, 3RF3, 3Z03, 4CA3, 4CF3, 4JS3, 4LC3, 4O06 A/B, 4PO3, 4RR3, 4UP3

• Comparative Politics

POLSCI 2M03, 2PF3, 2U03, 2US3, 2XX3, 3BB3, 3EE3, 3G03, 3GG3, 3H03, 3I03, 3JR3, 3K03, 3KK3, 3LC3, 3LL3, 3PA3, 3PG3, 3V03, 3VV3, 3Y03, 4AA6 A/B, 4D06 A/B, 4KC3, 4LA3, 4PA3, 4PO3, 4Q06 A/B, 4RR3, 4SS3, 4UF3, 4UP3, 4WS3, 4YR3

• International Relations

POLSCI 2H03, 2I03, 2J03, 2XX3, 3B03, 3EE3, 3GC3, 3JR3, 3K03, 3KK3, 3LB3, 3PA3, 3PG3, 3Q03, 3Y03, 4D06 A/B, 4DV3, 4GC3, 4GG3, 4HR3, 4KB3, 4NN3, 4PB3, 4PE3, 4QQ3, 4Y03, 4YR3

• Political Theory

POLSCI 2O06 A/B, 3CC3, 3LA3, 3PB3, 3PG3, 3VV3, 4DV3, 4FF3, 4HH3, 4OL3, 4PB3, 4RT3, 4Y03

• Public Policy

POLSCI 2C03, 2U03, 2EM3, 2LW3, 3B03, 3GC3, 3IP3, 3J03, 3LL3, 3LP3, 3PA3, 3Z03, 4CF3, 4G06 A/B, 4JS3, 4O06 A/B, 4PO3, 4LC3, 4RR3, 4SS3, 4WS3

The following courses while satisfying the requirements of the program are not specific to any field of study:

POLSCI 1AA3, 1AB3, 2NN3, 2MN3, 3NN3, 3PR3, 3UU3, 3WP3, 4AL3, 4Z06 A/B, 4ZZ3, 4ZZ6 A/B

Bachelor of Arts (Honours)

COMBINED HONOURS IN POLITICAL SCIENCE AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B) (See *Note 6* below). Satisfaction of the admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
- Students should be alerted to those Levels II and III courses that are

required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.

- POLSCI 2NN3 and POLSCI 3NN3 or POLSCI 3N06 A/B and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and they are recommended for students in the B.A. program.
- Students may take a maximum of six units of Level IV Political Science and will be removed from any excess units of Level IV Political Science unless permission is granted by the Department. Additional units of Level IV Political Science may not be used as electives.
- Students who have completed only 3 units of level I Political Science will be required to complete 3 more units of Level I Political Science by the end of the following academic year.
- Completion of POLSCI 1AB3 by the end of Level I is strongly recommended in order for students to meet the prerequisite for POLSCI 2NN3.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program. (See *Admission* above.)

6 UNITS

- POLSCI 2006 A/B - Political Theory

18 UNITS

- Levels II, III, Political Science of which a maximum of nine units may be Level II; including at least one course from the *Canadian Politics* Field of Study

6 UNITS

- Level IV Political Science (See *Note 4*)

36 UNITS

- courses specified for the other subject

6 UNITS

- POLSCI 2NN3 - Politics by Design *and*
- POLSCI 3NN3 - Statistical Analysis of Primary Data

or

- POLSCI 3N06 A/B

or

- in combined programs within the Faculty of Social Sciences, the six units of Research Methods/Statistics course specified for the other subject

0-3 UNITS

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See *Note 5*)

15-18 UNITS

- Electives (the maximum Political Science courses to be taken is 54 units)

HONOURS POLITICAL SCIENCE (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of C or greater in one of POLSCI 1AA3 or 1AB3 (or 1G06 A/B) (See *Note 5* below). For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I in the Faculty of Social Sciences Academic Regulations*.

NOTES

- Students should be alerted to those Levels II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.
- POLSCI 2NN3 and 3NN3 or 3N06 A/B and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and

recommended for students in the B.A. program.

- Students may take a maximum of 12 units of Level IV Political Science and will be removed from any excess units of Level IV Political Science unless permission is granted by the Department. Additional units of Level IV Political Science may not be used as electives.
- Students who have completed only 3 units of Level I Political Science will be required to complete 3 more units of Level I Political Science by the end of the following academic year.
- Completion of POLSCI 1AB3 by the end of Level I is strongly recommended in order for students to meet the prerequisite for POLSCI 2NN3.
- Students who wish to minor in Globalization Studies, Justice, Law & Order or Public Leadership should consult with the Department of Political Science to ensure they meet all degree requirements and restrictions.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

6 UNITS

- POLSCI 2006 A/B - Political Theory

24 UNITS

- Levels II, III Political Science of which a maximum of 15 units may be Level II; including at least one course from the *Canadian Politics* Field of Study

12 UNITS

- Level IV Political Science (See *Note 1* above.)

6 UNITS

- POLSCI 2NN3 - Politics by Design *and*
- POLSCI 3NN3 - Statistical Analysis of Primary Data

or

- POLSCI 3N06 A/B

0-3 UNITS

- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World

If not completed in Level 1 (See *Note 4*)

39-42 UNITS

- Electives, of which no more than 18 units may be from Political Science (the maximum Political Science courses to be taken is 66 units)

HONOURS POLITICAL SCIENCE SPECIALIZATION IN GLOBAL CITIZENSHIP (B.A.)

ADMISSION

Enrollment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion on any Level I program with a Grade Point average of at least a 5.0 including a grade of C or greater in POLSCI 1AB3 (or 1G06 A/B). Students are strongly encouraged to complete POLSCI 1AA3 and GLOBALZN 1A03 in Level I (See *Note 5* below). For continuation in the program, see *Minimum Requirements for Entering and Continuing in a Program Beyond Level I*.

NOTES

- Students should be alerted to those Levels II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.
- POLSCI 2NN3, 3NN3 and POLSCI 2006 A/B are required for students enrolled in Honours Political Science programs and they are

recommended for students in the B.A. program.

- Students may take a maximum of 12 units of Level IV Political Science and will be removed from any excess units of Level IV Political Science unless permission is granted by the Department. Additional units of Level IV Political Science may not be used as electives.
- POLSCI 4Z06 A/B may be selected if topic relates to Global Citizenship.
- Students who have not completed POLSCI 1AA3 or GLOBALZN 1A03 in Level I should do so by the end of Level II.
- Certified International Experience: Students in the Global Citizenship Specialization may apply for the optional Certified International Experience (CIE) to be completed at a partner University in the United Kingdom. Upon completion of this international exchange opportunity, students will receive a formal “parchment” from the partner university as well as a notation on the completed courses that will appear on their McMaster transcript. Completion of the CIE will also satisfy the “study abroad” component of the Global Citizenship Experiential requirement. Students may contact the Global Citizenship program advisor for details on the application process.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program (See *Admission* above.)

12 UNITS

- POLSCI 2I03 - Global Politics
- POLSCI 2J03 - Global Political Economy
- POLSCI 2O06 A/B - Political Theory

3 UNITS

- POLSCI 2D03 - Canadian Democracy

or

- POLSCI 2M03 - Governance, Representation, and Participation in Democracies

6 UNITS

- POLSCI 2NN3 - Politics by Design
- POLSCI 3NN3 - Statistical Analysis of Primary Data

18 UNITS

Global Citizenship Experiential requirement

A.

One term abroad taking equivalent of 9 units from courses similar to those on Global Citizenship Course List and 9 units from the Global Citizenship Level III Course List

9 units

- Taken abroad

and

9 units

from

- POLSCI 3C03 - Government and Politics of Indigenous People
- POLSCI 3CC3 - Political Authority: 20th-Century Political Theory
- POLSCI 3EE3 - International Relations: North-South
- POLSCI 3G03 - Ethnicity and Multiculturalism: Theory and Practice

MINOR IN POLITICAL SCIENCE

REQUIREMENTS

24 units total

6 UNITS

- Level I Political Science

18 UNITS

- Levels II, III Political Science of which up to 12 units may be Level II

MINOR IN PUBLIC LEADERSHIP

This minor is intended to provide students with a strong theoretical, practical and applied understanding of leadership and the role that political and/or public actors can play in the public domain of both democratic and non-democratic states to achieve their policy goals, affect positive social change and impact the policy choices of governments. Students will be prepared for further studies or careers in politics, government, public policy, community organization and activism, education, human rights and law. Students will select courses from the Faculty of Social Sciences that address these themes, developing a strong interdisciplinary grasp on the different concepts of leadership and their application to different policy and public environments. Beyond the required courses, students will be able to select from a wide variety of courses that cater to their own interests. It is the student's responsibility to check carefully for prerequisites, co-requisites and enrolment restrictions of all courses in this list. Students are

encouraged to speak to their Faculty advisors about Faculty-specific rules about double-counting courses for the minor.

REQUIREMENTS

24 units total

3 UNITS

Foundations of Public Policy, Public Administration and Public Service

- POLSCI 2U03 - Public Policy and Administration

3 UNITS

from

Leadership and Leadership Practices

- POLSCI 3FG3 - Public Service Leadership

B.A.; (See *Faculty of Social Sciences, Honours Social Psychology (B.A.)*)

Bachelor of Arts (Honours)

COMBINED HONOURS IN PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR AND ANOTHER SUBJECT (B.A.)

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Social Sciences (Academic) for program requirements.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 7* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 8* below); and credit in MATH 1LS3 or 1A03. (See *Note 1* below). Satisfaction of the admission requirements for the Honours program in the other subject.

NOTES

- Students with Grade 12 Calculus and Vectors U must take one of MATH 1A03 or 1LS3. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing one of MATH 1LS3 or 1A03. Students with Grade 11 Math must first take MATH 1K03 prior to completing MATH 1F03 and then one of MATH 1LS3 or 1A03.
- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with Arts and Science Programs.
- Students considering applying to graduate school should complete a course with a strong research component such as PNB 3QQ3 A/B S, 4QQ3 A/B S, 4QQ6 A/B, 4D06 A/B, 4D09 A/B.
- PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B), and the Independent Research and Library courses (PNB 3Q03 A/B

S, 3QQ3 A/B S, 4Q03 A/B S, 4QQ3 A/B S, PNB 4Q06 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained on The Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.

- Both PNB 2XD3 and 2XF3 are recommended but not required. PNB 2XD3 is included in the *Psychology Course List* and may be used towards the Level III Psych requirements.
- Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
- It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- HTHSCI 4BB3 - Neuroimmunology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MP3 - Introduction to Music Cognition
- PNB 2A03 - Python for PNB
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PSYCH 2MP3 - Introduction to Music Cognition
- All Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- All Level III and IV PNB courses

AND,

all Level III and IV PSYCH courses **except**:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

(See *Admission* above)

LEVEL II: 30 UNITS

12 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XT0 - PNB Tutorial

12 units

- courses as specified for the other subject

0-3 units

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

if not completed in Level I (See *Note 7* above)

3-6 units

- Electives

(See *Notes 6* and *8* above)

LEVEL III: 30 UNITS

3 units

- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

6 units

from

- Course List 2

(See *Note 6* above)

12 units

- courses as specified for the other subject

6 units

- Electives

(See *Notes 4* and *6* above)

LEVEL IV: 30 UNITS

12 units

from

- *Course List 2*

12 units

- courses as specified for the other subject

6 units

- Electives

(See *Note 4* above)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR (B.A.)

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Social Sciences (Academic) for program requirements.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 5* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 6* below); and credit in MATH 1LS3 or 1A03. (See *Note 1* below).

NOTES

- Students with Grade 12 Calculus and Vectors U must take MATH 1LS3 or 1A03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing MATH 1LS3 or 1A03. Students with Grade 11 Math must first take MATH 1K03 prior to completing MATH 1F03 and then one of MATH 1LS3 or 1A03.
- Students considering applying to graduate school should complete a course with a strong research component such as PNB 3QQ3 A/B S, 4QQ3 A/B S, 4Q06 A/B, 4D06 A/B, 4D09 A/B.
- PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09

A/B) and the Independent Research and Library courses (PNB 3Q03 A/B S, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S, PNB 4Q06 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.

- Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
- It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (CAPSTONE COURSES)

- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Senior Independent Library Study
- PNB 4Q03 A/B S - Senior Independent Research
- PNB 4Q06 A/B - Senior Independent Research
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

COURSE LIST 3 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- HTHSCI 4BB3 - Neuroimmunology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSICCOG 2MP3 - Introduction to Music Cognition
- All Level III and IV MUSICCOG courses
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PNB 2A03 - Python for PNB
- PSYCH 2MP3 - Introduction to Music Cognition
- All Level III and IV PNB courses

AND

all Level III and IV PSYCH courses **except**:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

- (See *Admission* above)

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

0-3 units

- PSYCH 1F03 - Survey of Psychology

- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour if not completed in Level I (See *Note 5* above)

9-12 units

- Electives

LEVEL III: 30 UNITS

3 units

- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3Q03 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

9 units

from

- *Course List 3*

15 units

- Electives

(See *Note 3* above)

LEVEL IV: 30 UNITS

6 units

from

- *Course List 3*

9 units

- PNB 4D09 A/B - Senior Honours Thesis or
- 6 units from *Course List 2* and 3 units from *Course List 3*

(See *Note 4* above)

15 units

- Electives

(See *Note 3* above)

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MENTAL HEALTH SPECIALIZATION (B.A.)

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Social Sciences (Academic) for program requirements.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is

based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 3* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 4* below); and credit MATH 1LS3 or 1A03 (See *Note 1* below).

NOTES

- Students with Grade 12 Calculus and Vectors U must take MATH 1LS3 or 1A03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing MATH 1LS3 or 1A03. Students with Grade 11 Math must first take prior to completing MATH 1F03 and then one of MATH 1LS3 or 1A03.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis course (PNB 4D09 A/B) and the Independent Research and Library courses (PNB 3Q03 A/B S, 3QM3 A/B S, 3QM6 A/B, 3Q03 A/B S, 4Q03 A/B S, 4Q03 A/B S, PNB 4Q06 A/B). Students wishing to take these courses must complete and submit

a ballot by mid February. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.

- Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
- It is recommended that students take BIOLOGY 1M03 in Level I and BIOLOGY 1A03 in Level II.

COURSE LIST (MENTAL HEALTH COURSE LIST)

- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3I06 A/B
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QM6 A/B - Independent Research in Mental Health
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3D03
- PSYCH 3EV3 - Evolution and Mental Health
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3H03
- PSYCH 3JJ3 - Socio-Emotional Development
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory
- SOCPSY 3M03 - Counselling & Psychotherapy

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

See *Admission* above.

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

6 units

- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality

0-3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

if not completed in Level I (See *Note 3* above)

3-6 units

- Electives

LEVEL III: 30 UNITS

9 units

- PNB 3HP3 - History of Psychology
- PNB 3XE3 - Inferential Statistics and Research Methods
- PSYCH 3GG3 - Essentials of Developmental Psychology

3 units

from

- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab

HONOURS PSYCHOLOGY, NEUROSCIENCE & BEHAVIOUR - MUSIC COGNITION SPECIALIZATION (B.A.)

Students who entered the program prior to September 2020 may refer to their Academic Advisement report or contact an Academic Advisor in the Office of the Associate Dean of Social Sciences (Academic) for program requirements.

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0; a grade of at least B- in PSYCH 1FF3 or 1XX3 (See *Note 9* below); credit in one of BIOLOGY 1A03, 1M03, 1P03 or Grade 12 Biology U (See *Note 10* below); credit in MATH 1LS3 or MATH 1A03 (See *Note 1* below); and credit in MUSIC 1A03 or 1AA3. (See *Note 2* below)

NOTES

- Students with Grade 12 Calculus and Vectors U must take MATH 1LS3 or 1A03. Students with Grade 12 Advanced Functions U must complete MATH 1F03 prior to completing MATH 1LS3 or 1A03. Students with Grade 11 Math must first take MATH 1K03 prior to completing MATH 1F03 and then one of MATH 1LS3 or 1A03.
- MUSIC 1A03 or 1AA3 is required for admission, however, completion of both are required by the end of Level IV.
- Students who have completed Grade 3 History (or History 1, now Level 9 History) or Grade 5 History (or History 3, now ARCT History) from

the Royal Conservatory of Music, with a grade of at least 70%, are not required to complete MUSIC 1AA3, and those students who have similarly obtained at least 70% on RCM Grade 4 History (or History 2, now Level 10 History) are not required to complete MUSIC 1A03 either for admission to the Music Cognition Specialization or to fulfill their degree requirements. If one or both course requirements are waived, it is recommended these units be replaced with other MUSIC courses.

- Entrance into MUSIC 1CB3 requires Advanced Rudiments (formerly Grade 2 Rudiments) from the Royal Conservatory of Music (a grade of 80% or above, within the last two years) or a grade of 70% or above on a qualifying music theory exam administered by the School of the Arts (SOTA). Appointments can be made with SOTA to write the exam on specific dates between February and May. The content of the exam is summarized at: <https://sota.humanities.mcmaster.ca>. Students not meeting these requirements will be required to take MUSIC 1CR3 - prior to MUSIC 1CB3.
- Students considering applying to graduate school should complete a course with a strong research component such as MUSICCOG 3QQ3 A/B S, 4D06 A/B, 4QQ3 A/B S; PNB 3QQ3 A/B S, 4D06 A/B, 4D09 A/B, 4QQ3 A/B S, PNB 4QQ6 A/B.
- PSYCH 3AB3, 3AC3, 3AG3, 3BA3, 3CB3, 3CD3 may only be used as electives.
- The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will include the thesis courses (PNB 4D06 A/B, 4D09 A/B) and the Independent Research and Library courses (PNB 3QQ3 A/B S, 3QQ3 A/B S, 4QQ3 A/B S, 4QQ3 A/B S, PNB 4QQ6 A/B). Students wishing to take these courses must complete and submit a ballot by **mid February**. Students will be informed of the outcome of the first phase by mid March. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://www.science.mcmaster.ca/pnb/>.
- Students are encouraged to complete both PSYCH 3A03 and 3H03 as part of the *Psychology Course List* requirement.
- Either PSYCH 1FF3 or 1XX3 is required for Admission but PSYCH 1XX3 is recommended. Completion of one of PSYCH 1F03 or 1X03 is required by the end of Level II but PSYCH 1X03 is recommended in Level I.
- It is recommended that students take BIOLOGY 1M03 in Level I, and BIOLOGY 1A03 in Level II.

COURSE LIST 2 (CAPSTONE COURSES)

- MUSICCOG 4D06 A/B - Thesis in Music Cognition
- MUSICCOG 4QQ3 A/B S - Experimental Laboratory in Music Cognition II
- PNB 4D06 A/B - Senior Thesis
- PNB 4J03 - Inquiry in Psychology, Neuroscience & Behaviour
- PNB 4Q03 A/B S - Senior Independent Library Study
- PNB 4QQ3 A/B S - Senior Independent Research
- PNB 4QQ6 A/B - Senior Independent Research
- PNB 4SC6 A/B - Science Communication in the Behavioural Sciences

COURSE LIST 3 (PSYCHOLOGY COURSE LIST)

- BIOLOGY 3P03 - Cell Physiology
- BIOLOGY 4T03 - Molecular and Cellular Neuroscience
- HTHSCI 4BB3 - Neuroimmunology
- HUMBEHV 3MD3 - Research Methods for Applied Psychology in Human Behaviour
- LIFESCI 3BB3 - Neurobiology of Disease
- LIFESCI 3E03 - Reproductive Endocrinology
- LIFESCI 3K03 - Neural Control of Human Movement
- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- LINGUIST 3NL3 - Cognitive Neuroscience of Language
- MUSIC 2CB3 - Theory and Analysis III
- MUSIC 2MT3 - Introduction to the Practice of Music Therapy

- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- NEUROSCI 3J03 - Visual Neuroscience
- NEUROSCI 3SN3 - Neural Circuits
- PNB 2A03 - Python for PNB
- All Level III and IV PNB courses,

AND,

All Levels III and IV PSYCH courses **except**:

- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3BA3 - Positive Psychology
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CD3

REQUIREMENTS

120 units total (Levels I to IV), of which no more than 48 units may be Level I

LEVEL I: 30 UNITS

(See *Admission* above)

LEVEL II: 30 UNITS

18 units

- PNB 2XA3 - Human Perception & Cognition
- PNB 2XB3 - Neuroanatomy & Neurophysiology
- PNB 2XC3 - Animal Behaviour & Evolution
- PNB 2XD3 - Integrative PNB Through Scientific Writing
- PNB 2XE3 - Descriptive Statistics and Research Methods
- PNB 2XF3 - Perspectives in PNB
- PNB 2XT0 - PNB Tutorial

3 units

- MUSIC 1CB3 - Theory and Analysis I

(See *Note 4* above)

3 units

- MUSICCOG 2MP3 - Introduction to Music Cognition

0-3 units

from

- PSYCH 1F03 - Survey of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour

if not completed in Level I (See *Note 9* above)

3-6 units

- Electives

(See *Notes 2* and *4* above)

LEVEL III: 30 UNITS

3 units

- PNB 3XE3 - Inferential Statistics and Research Methods

3 units

- MUSICCOG 3QQ3 A/B S - Experimental Laboratory in Music Cognition I
- PNB 2A03 - Python for PNB
- PNB 3A03 - Neuroimaging
- PNB 3EE3 - Perception Laboratory
- PNB 3EV3 - Evolutionary Psychology Lab
- PNB 3L03 - Neurodevelopment & Plasticity Lab
- PNB 3MM3 - Cognitive Neuroscience Lab
- PNB 3QQ3 A/B S - Intermediate Independent Research
- PNB 3S03 - Animal Behaviour Lab
- PNB 3V03

3 units

from

- *Course List 3*

(See *Note 8* above)

3 units

- MUSIC 2CA3 - Theory and Analysis II

3-6 units

from

- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music

12-15 units

- Electives

(See *Notes 2 and 6* above)

LEVEL IV: 30 UNITS6 units

from

- *Course List 3*

(See *Note 8* above)

0-3 units

from

- MUSICCOG 3SP3 - The Science of Performance
- MUSICCOG 4MP3 - Neuroscience of Music

9 units

- PNB 4D09 A/B - Senior Honours Thesis or
- 6 units from *Course List 2* and 3 units from *Course List 3*

(See *Notes 5 and 7* above)

12-15 units

- Electives

(See *Notes 2 and 6* above)

Bachelor of Arts

PSYCHOLOGY (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 3.5 and a grade of at least C- in PSYCH 1F03 or 1X03.

NOTES

- One of MHF4U - Advanced Functions, MCV4U - Calculus and Vectors, or MDM4U - Data Management is required. Students entering the program without one of these courses must complete one of MATH 1F03, 1K03, or STATS 1LL3 by the end of Level II. Completion in Level I is recommended.
- SOCSCI 2J03 must be completed by the end of Level II.
- PSYCH 1FF3 or 1XX3 and one of BIOLOGY 1A03, 1M03 or 1P03 or Grade 12 Biology U are recommended and serve as prerequisites for some upper-level Psychology courses. Students are encouraged to check requisites carefully.
- Students wishing to take PNB 3Q03 A/B S and 3Q03 A/B S must complete and submit a pre-registration ballot by **mid February**. Students will be informed of the outcome by **mid March**. Specific dates will be announced during the fall term. Ballots can be obtained on the Department of Psychology, Neuroscience & Behaviour web site at: <http://pnb.mcmaster.ca/>.

COURSE LIST 1 (PSYCHOLOGY COURSE LIST)

- LINGUIST 2PS3 - Psycholinguistics
- LINGUIST 3C03 - Child Language Acquisition
- PNB 3Q03 A/B S - Independent Library Study
- PNB 3Q03 A/B S - Intermediate Independent Research
- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour
- PSYCH 3AB3 - Adolescent Psychology
- PSYCH 3AC3 - Human Sexuality
- PSYCH 3AG3 - Aging
- PSYCH 3B03 - Special Populations
- PSYCH 3BA3 - Positive Psychology

- PSYCH 3C03 - Child Language Acquisition
- PSYCH 3CB3 - Attitudes and Persuasion
- PSYCH 3CC3 - Forensic Psychology
- PSYCH 3CD3
- PSYCH 3F03 - Evolution and Human Behaviour
- PSYCH 3FA3 - Neuroscience of Learning and Memory
- PSYCH 3M03 - Motivation and Emotion
- PSYCH 3MT3 - Psychometrics
- PSYCH 3SE3 - Comparative Social Evolution
- PSYCH 3T03 - Behavioural Ecology
- PSYCH 3UU3 - Psychology of Language
- PSYCH 3VV3 - Human Memory

REQUIREMENTS

90 units total (Levels I to III), of which 42 units may be Level I

LEVEL II: 30 UNITS3 units

- SOCSCI 2J03 - Introduction to Statistics

(See *Note 2* above.)

9 units

Level II Psychology, where at least six units must be from:

- PSYCH 2AA3 - Child Development
- PSYCH 2AP3 - Abnormal Psychology: Fundamentals and Major Disorders
- PSYCH 2B03 - Personality
- PSYCH 2C03 - Social Psychology
- PSYCH 2GG3 - Learning, Measuring, and Shaping Behaviour

3 units

from

- MATH 1F03 - Introduction to Calculus and Analytic Geometry
- MATH 1K03 - Advanced Functions
- STATS 1LL3 - Introduction to Probability and Statistics

(If requirement completed in Level I, or students have one of MHF4U, MCV4U, or MDM4U, these units will be taken as non-psychology electives.)

(See *Note 1* above.)

9 units

- Electives, excluding Psychology

6 units

- Electives

LEVEL III: 30 UNITS12 units

from

- *Course List 1*, of which at least nine units must be from Level III

12 units

- Electives, excluding Psychology

6 units

- Electives

Bachelor of Arts (Honours)

COMBINED HONOURS IN SOCIETY, CULTURE & RELIGION AND ANOTHER SUBJECT (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in three units from SCAR 1B03, 1SC3;(or Level 1 Religious Studies). Satisfaction of the admission requirements for the Honours program in the other B.A. subject. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Subject to meeting admission requirements, students may combine two subjects and be graduated with a combined Honours B.A. degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities and with the Arts and Science Program.
- All Society, Culture and Religion students will be assigned a faculty mentor upon entering the program. It is the responsibility of the student to consult with the mentor at least once each academic year to discuss their academic goals and course options.
- Students must consult both departments to determine the manner in which the Research Methods/Statistics requirement is to be satisfied.
- SCAR 4R06 A/B is strongly recommended for students considering graduate work in Religious Studies. Students are encouraged to consider language training that supports their studies in Society, Culture & Religion. The Department of Religious Studies offers courses in Arabic, Hebrew and Sanskrit. The study of other languages, including Chinese, Farsi, French, German, Greek, Japanese and Latin, is also available at McMaster.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program.

(See *Admission* above.)

9 UNITS

- (minimum) Level II Society, Culture & Religion or Religious Studies

12 UNITS

- (minimum) Level III Society, Culture & Religion or Religious Studies

3 UNITS

- SCAR 3F03 - Approaches to the Study of Religion
- RELIGST 3F03

12 UNITS

- Levels II, III or IV Society, Culture & Religion or Religious Studies

3 UNITS

- Level IV Society, Culture & Religion or Religious Studies

36 UNITS

- courses specified for the other subject

3 UNITS

If requirement completed in Level I, these units will be taken as electives. from

- Either SOCSCI 2J03, three units of a language other than English, or the three-unit Research Methods/Statistics course specified for the other subject.

(See *Notes* above.)

12 UNITS

- Electives

HONOURS SOCIETY, CULTURE & RELIGION (B.A.)

ADMISSION

Completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of C in three units from SCAR 1B03, 1SC3 (or Level 1 Religious Studies); students will be required to complete three more units of Level 1 Society, Culture & Religion prior to the completion of their degree. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- All Society, Culture & Religion students will be assigned a faculty mentor upon entering the program. It is the responsibility of the student to consult with the mentor at least once each academic year to discuss their academic goals and course options.
- SCAR 4R06 A/B is strongly recommended for students considering graduate work in Religious Studies.
- SCAR 4AE3 A/B and 4SC3 are offered each year. Note that Level IV seminars have the following prerequisite: Enrolment in Level III and above or by permission of the instructor.
- Students are encouraged to consider language training that supports their studies in Society, Culture & Religion. The Department of Religious Studies offers courses in Arabic, Hebrew and Sanskrit. The study of other languages, including Chinese, Farsi, French, German, Greek, Japanese and Latin, is also available at McMaster.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program

(See *Admission* above)

12 UNITS

- Level II Society, Culture & Religion or Religious Studies

15 UNITS

- Level III Society, Culture & Religion or Religious Studies

3 UNITS

- SCAR 3F03 - Approaches to the Study of Religion
- RELIGST 3F03

21 UNITS

- Levels II, III or IV Society, Culture & Religion or Religious Studies.

(See *Notes* above)

6 UNITS

- Level IV Society, Culture & Religion or Religious Studies

(See *Notes* above)

3 UNITS

If requirement completed in Level I, these units will be taken as electives. from

- Either SOCSCI 2J03 or three units of a language other than English (See *Notes* above)

0-3 UNITS

If requirement completed in Level I, these units will be taken as electives.

- SCAR 1B03 - What on Earth is Religion?
- SCAR 1R03
- SCAR 1SC3 - The Big Questions: Introduction to Society, Culture & Religion
- RELIGST 1AB3

Social Psychology Program

Kenneth Taylor Hall, Room 212, ext. 22241

<https://socialpsychology.mcmaster.ca>

DIRECTOR

Tara Marshall/(Health and Aging) B.A. (Queens), M.A., Ph.D (Toronto)

COMMITTEE OF INSTRUCTORS

Luca Berardi/(Sociology) B.A., M.A. (Toronto), Ph.D. (Alberta)

Meridith Griffin/(Health and Aging) B.Kin. (McMaster), M.A. (British Columbia), Ph.D. (Exeter)

Jeffrey Denis/(Sociology) B.A. (Toronto), M.A., Ph.D. (Harvard)

Tara Marshall/(Health and Aging) B.A. (Queens), M.A., Ph.D (Toronto)

Sarah Clancy/(Health and Aging) B.A. (McMaster), M.A. (Guelph), Ph.D. (McMaster)

Students study various aspects of Social Psychology from a multidisciplinary perspective to gain an understanding of how individuals behave, how small groups and communities interact, and how societies form practices and priorities. Students will learn how to locate themselves in the complex fabrics of their cultures, their geographies and their power relationships. Students who are interested in many social science perspectives on how people develop over the lifespan and how they behave in different environments and circumstances should consider this program.

Bachelor of Arts (Honours)

HONOURS SOCIAL PSYCHOLOGY (B.A.)

ADMISSION

Enrolment in this program is limited and possession of the published minimum requirements does not guarantee admission. Selection is based on academic achievement but requires, as a minimum, completion of any Level I program with a Grade Point Average of at least 5.0 including a grade of at least C in SOCPSY 1Z03 and successful completion of one of PSYCH 1F03, PSYCH 1X03, or SOCIOLOG 1Z03. Completion of SOCIOLOG 1Z03 and one of PSYCH 1F03, PSYCH 1X03 is required by the end of the first term in Level II. Completion of both requirements in Level I is strongly recommended. For continuation in the program, see the section on *Minimum Requirements for Entering and Continuing in a Program Beyond Level I* in the Faculty of Social Sciences Academic Regulations.

NOTES

- Students must have completed both an introductory Psychology course (either PSYCH 1F03 and PSYCH 1X03) and an introductory Sociology course (SOCIOLOG 1Z03) by the end of the first term in Level II.
- Students are responsible for ensuring that they meet the prerequisites for any course they wish to take from the course lists.
- Students who wish to have a course not on the Multidisciplinary Course List count towards their multidisciplinary course requirement must first discuss it with an Academic Advisor and then obtain permission from the Social Psychology Program Director.
- Students considering a graduate program should consult a departmental advisor to plan a program of study that meets admission requirements for such programs. Additional courses may be required.
- This program does not normally provide the appropriate preparation for students to enter graduate studies in clinical psychology. Please refer to the Honours Psychology, Neuroscience & Behaviour (B.A.) program in this section of the calendar.
- Students may take a maximum of 12 units of Level IV courses.
- Social Psychology at McMaster encompasses a broad area. The program is flexible in that students are able to select from a wide range of courses those that interest them most. However, for those students who wish to give their studies a tighter focus, there are several thematic

areas to consider in making course selections.

- Students interested in a concentration in Psychology may complete the Minor in Psychology provided they do not have more than 6 units of Psychology courses above Level 1 overlapping with the Honours Social Psychology degree requirements.
- Students interested in a concentration in Sociology may complete the Minor in Sociology provided they do not have more than 6 units of Sociology courses above Level 1 overlapping with the Honours Social Psychology degree requirements.
- Students who take SOCPSY 3L03 are encouraged to take it before entry in SOCPSY 4Z26 A/B.

Bachelor of Arts/Bachelor of Social Work

COMBINED BACHELOR OF ARTS/BACHELOR OF SOCIAL WORK (B.A./B.S.W.)

This program has been closed and is no longer accepting applications. The School of Social Work introduced the Honours Bachelor of Social Work degree program which started in September 2016. The required Social Work courses and professional accreditation are identical for both programs. The programs are differentiated only by the number of courses taken outside of the School of Social Work.

Students who are currently enrolled in the Combined Bachelor of Arts/Bachelor of Social Work (B.A./B.S.W.) should contact the School of Social Work with questions.

For the Honours Bachelor of Social Work program, see *Honours Bachelor of*

Social Work (B.S.W.) in this section of the Calendar.

Bachelor of Social Work (Honours)

HONOURS BACHELOR OF SOCIAL WORK (B.S.W.)

ADMISSION

Enrolment in this program is limited. Eligibility is dependent upon completion of any Level I program including a total of six units of introductory Social Work or introductory Sociology and six additional units of introductory level courses from the Course List below (or equivalent). Students who are interested in the Honours B.S.W. are strongly encouraged to take both SOCWORK 1AA3 and SOCWORK 1BB3 in level 1. Students are also encouraged to take INDIGST 1A03: Introduction to Indigenous Studies, in level I as this course will be required for completion of the B.S.W. Admission requires, as a minimum, completion of any level I program with a grade point average of at least 6.0 and evidence of personal suitability which may be evaluated by one or a combination of written statements, tests or interviews.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CMST 1A03 - Introduction to Communication
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- ECON 1ME3 - Introduction to Mathematical Economics
- ENVSOCTY 1HA3 - Society, Culture and Environment
- ENVSOCTY 1HB3 - Population, Cities and Development
- GENDRST 1A03 - Gender, Race, Culture, Power
- GENDRST 1AA3 - Gender, Feminism and Social Justice
- GLOBALZN 1A03 - Global Citizenship
- HLTHAGE 1AA3 - Introduction to Health and Society
- HLTHAGE 1BB3 - Introduction to Aging and Society
- HLTHAGE 1CC3 - Introduction to Mental Health and Illness
- HLTHAGE 1ZZ3 - Inquiry: Introduction to Health and Society
- INDIGST 1A03 - Introduction to Indigenous Studies
- INDIGST 1AA3 - Introduction to Contemporary Indigenous Studies
- INDIGST 1B03 - Reconciling What? Indigenous Relations in Canada
- INUKTUT 1Z03

- PEACEST 1A03
- PEACJUST 1A03 - Peace, Justice, Human Rights
- POLSCI 1AA3 - Government, Politics, and Power
- POLSCI 1AB3 - Politics and Power in a Globalizing World
- PSYCH 1F03 - Survey of Psychology
- PSYCH 1FF3 - Survey of Biological Basis of Psychology
- PSYCH 1X03 - Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1XX3 - Foundations of Psychology, Neuroscience & Behaviour
- RECONCIL 1A03
- SCAR 1B03 - What on Earth is Religion?
- SCAR 1R03
- SCAR 1SC3 - The Big Questions: Introduction to Society, Culture & Religion
- SOCPSY 1Z03 - An Introduction to Social Psychology
- SOCSCI 1SS3 - Inquiry in the Social Sciences

- SOCSCI 1T03 - Life, the University, and Everything
- SOCWORK 1AA3 - So You Think You Can Help? Introduction to Social Work I
- SOCWORK 1BB3 - Re-Imagining Help: Introduction to Social Work II
- SOCIOL 1C03 - Canadian Society: Social Problems, Social Policy, and the Law
- SOCIOL 1Z03 - An Introduction to Sociology
- WOMENST 1A03
- WOMENST 1AA3
- WORKLABR 1A03 - An Introduction to Work and Labour in Canada
- WORKLABR 1D03 - Technology and the Future of Work
- WORKLABR 1E03 - Navigating the World of Work

ADMISSION NOTES

- Students who have successfully completed the two-year College of Applied Arts and Technology Social Services Diploma with a minimum cumulative average Grade Point Average of 3.0 on a 4.0 scale (75%) are considered to have completed the equivalent of SOCWORK 1AA3 and SOCWORK 1BB3. Students who completed this diploma **with a cumulative average of 3.4 - 4.0 (85%-100%)** will receive 24 units of unspecified transfer credit upon admission to the program and are not required to complete six additional units of introductory level courses from the Course List above to be eligible for admission.
- Applicants must complete Level I by April of the year in which application is made.
- Students who intend to apply for this program must follow the application instructions as found on the School of Social Work web site: www.socialwork.mcmaster.ca. Students who are unable to access this web site must consult the School of Social Work prior to the application deadline.
- Indigenous students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.
- All applications for admission to the School of Social Work are considered annually and must be made directly to the School by February 1 for the Fall/Winter term.
- Applications that are submitted after the February 1 deadline will not be considered.
- Offers of acceptance cannot be deferred; students must complete a required social work course in the year of admission.
- **Mandatory applications:**
- **McMaster Applicants**
- Complete the School of Social Work on-line Supplementary Application
- **Non-McMaster Applicants:**
- Complete the School of Social Work on-line Supplementary Application

AND

- Complete the mandatory Ontario University Application Centre (OUAC) 105 form on-line application form (with payment).

PROGRAM NOTES

- **Course Groupings:** There are two groups of courses in the Social Work program:

Foundation of Social Work. This category includes core courses which are required by social work students, most of which are available to social work students only. Exceptions to this include SOCWORK 2BB3 and SOCWORK 2CC3 which have a limited number of seats for undergraduates in a Labour Studies program and SOCWORK 4J03 which has a limited number of seats for undergraduates in a Labour Studies program and undergraduates in Level III or above of a non-Social Work/Labour Studies program who have completed SOCWORK 1AA3 or SOCWORK 1BB3.

Social and Political Context of Social Work. Social Work students must take 9 units from the Social and Political Context of Social Work group of courses. Social and Political Context of Social Work courses except SOCWORK

4SA3 are also available for elective credit by undergraduates in the Labour Studies program and undergraduates in Level III or above of a non-Social Work program who have completed SOCWORK 1AA3 or SOCWORK 1BB3. Registration in SOCWORK 4SA3 is restricted to Social Work students who have received permission of the School of Social Work. All Social and Political Context of Social Work courses have limited enrolment.

Foundations of Social Work

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
- SOCWORK 2BB3 - Anti-Oppressive Social Work
- SOCWORK 2CC3 - Introduction to Community Practice
- SOCWORK 3D06 A/B S - General Social Work I
- SOCWORK 3DD6 A/B S - Field Practicum I
- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4X03 - Social Work with Families
- SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy

Social and Political Context of Social Work

- SOCWORK 3B03
- SOCWORK 3C03 - Social Aspects of Health and Illness
- SOCWORK 3I03 - Social Work and Indigenous Peoples
- SOCWORK 3L03
- SOCWORK 3O03 - Social Work and Sexualities
- SOCWORK 3S03 - Social Work, Disability and Dis/Ableism
- SOCWORK 3T03 - Poverty and Homelessness
- SOCWORK 4C03 - Critical Perspectives on Race, Racialization, Racism and Colonialism in Canadian Society
- SOCWORK 4G03 - Selected Topics
- SOCWORK 4QQ3 - Indigenizing Social Work Practice Approaches
- SOCWORK 4R03 - Feminist Approaches to Social Work and Social Justice
- SOCWORK 4SA3 - Critical Child Welfare: From Theory to Practice
- SOCWORK 4SB3
- SOCWORK 4U03 - Immigration, Settlement and Social Work
- SOCWORK 4W03 - Child Welfare
- SOCWORK 4Y03 - Critical Issues in Mental Health & Addiction: Mad & Critical Disability Studies Perspectives for SW
- **Progression Within Program:** Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a Pass in their field placements SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a Pass designation in either field placement (SOCWORK 3DD6 A/B S and 4DD6 A/B S), the student may not proceed in the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or Pass requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or Pass requirement after repeating the course or placement may not continue in the program.
- Students who were admitted to this program in 2017-2018 or later must complete INDIGST 1A03 - Introduction to Indigenous Studies. If this

course was taken in level I then students will be required to take an additional 3 units of electives.

- Students must complete three units of Social Sciences Research Methods (e.g. SOCIOL 2Z03, SOCPSY 2K03 or HLTHAGE 2A03, INDIGST 2M03, etc.). A statistics course may not substitute for a research methods course.
- **Graduation:** The B.S.W will be granted only if the student has achieved a grade of at least C+ in each of SOCWORK 2A06 A/B, 2BB3, 2CC3, 3D06 A/B S, 3E03, 3F03, 4D06 A/B S, 4J03, 4X03 and 4ZZ3, a Pass in SOCWORK 3DD6 A/B S and 4DD6 A/B S, and a GPA of at least 6.0.
- Students are expected to assume the cost of travelling to and from field practice agencies and for any related expenses.
- Students in the social work program must apply for third and fourth year field placements (SOCWORK 3DD6 A/B S and 4DD6 A/B S), and are able to provide information on areas of interest. While efforts are made to match placements with student preferences, the final assignment of placement settings is constrained by many factors, including the availability of settings and field and faculty resources. Students may therefore be required to complete a field placement in an agency that is not among their preferred options.

REQUIREMENTS

120 units total (Levels I to IV), of which 48 units may be Level I

30 UNITS

from

- the Level I program completed prior to admission to the program. (See *Admission* above.)

12 UNITS

- SOCWORK 2A06 A/B - Theory, Process and Communication Skills for Social Work
- SOCWORK 2BB3 - Anti-Oppressive Social Work
- SOCWORK 2CC3 - Introduction to Community Practice

(SOCWORK 2A06 A/B, SOCWORK 2BB3 and SOCWORK 2CC3 must be completed prior to enrolling in SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S)

12 UNITS

- SOCWORK 3D06 A/B S - General Social Work I
- SOCWORK 3DD6 A/B S - Field Practicum I

(SOCWORK 3D06 A/B S and SOCWORK 3DD6 A/B S must be completed prior to enrolling in SOCWORK 4D06 A/B S and SOCWORK 4DD6 A/B S)

12 UNITS

- SOCWORK 4D06 A/B S - General Social Work II
- SOCWORK 4DD6 A/B S - Field Practicum II

15 UNITS

- SOCWORK 3E03 - Individual Practice Across the Lifespan
- SOCWORK 3F03 - Social Work with Groups
- SOCWORK 4J03 - Social Change: Social Movements and Advocacy
- SOCWORK 4X03 - Social Work with Families
- SOCWORK 4ZZ3 - Social Welfare: Practice Implications and Advocacy

9 UNITS

from

- the *Social and Political Context of Social Work* courses

3 UNITS

- Social Sciences Research Methods (See *Program Note 4* above).

3 UNITS

- INDIGST 1A03 - Introduction to Indigenous Studies

Note: If this course was taken in level I then students must complete three additional elective units. (See *Program Note 3* above.)

24-27 UNITS

- Electives * A maximum of 12 additional units of Social and Political Context of Social Work courses can be taken as electives.

Bachelor of Social Work

BACHELOR OF SOCIAL WORK (B.S.W.)

ADMISSION

Enrolment in this program is limited. Eligibility is dependent upon completion of an undergraduate degree from a recognized university, including a total of six units of introductory Social Work or introductory Sociology and six additional units of introductory level courses from the Course List below (or equivalent) Students who are interested in the B.S.W. (post degree) are strongly encouraged to take both SOCWORK 1AA3 and SOCWORK 1BB3 during their first degree. Students are also encouraged to take INDIGST 1A03 - Introduction to Indigenous Studies, in their first degree, as completion of this course will be required for completion of the B.S.W. To be considered for admission, students must normally have a minimum average of 6.0 on the most recent 30 units (five full credits) of university-level courses completed and evidence of personal suitability which may be evaluated by one or a combination of written statements, tests or interviews.

COURSE LIST

- ANTHROP 1AA3 - Introduction to Anthropology: Sex, Food and Death
- ANTHROP 1AB3 - Introduction to Anthropology: Race, Religion, and Social Justice
- CAYUGA 1Z03 - Introduction to Cayuga Language and Culture
- CMST 1A03 - Introduction to Communication
- ECON 1B03 - Introductory Microeconomics
- ECON 1BB3 - Introductory Macroeconomics
- ECON 1ME3 - Introduction to Mathematical Economics

- SOCIOL 1Z03 - An Introduction to Sociology
- WOMENST 1A03
- WOMENST 1AA3
- WORKLABR 1A03 - An Introduction to Work and Labour in Canada
- WORKLABR 1D03 - Technology and the Future of Work
- WORKLABR 1E03 - Navigating the World of Work

ADMISSION NOTES

- Students who have successfully completed the two-year College of Applied Arts and Technology Social Services Diploma with a minimum Grade Point Average of 3.0 on a 4.0 scale (75%) are considered to have completed the equivalent of SOCWORK 1AA3 and SOCWORK 1BB3. Students who have successfully completed this diploma **with a cumulative average of 3.4 - 4.0 (85%-100%)** are not required to complete six additional units of introductory level courses from the Course List above to be eligible for admission.
- An applicant is required to complete the prerequisite undergraduate degree work by April of the year in which application is made.
- Indigenous students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.
- **Enrolment in the B.S.W. program is limited.** Students who intend to apply to the B.S.W. program must follow the application instructions as found on the School of Social Work website: <http://www.socialwork.mcmaster.ca>. Applicants **must also apply** to the University.
- **All applications** for admission to the School of Social Work are considered annually and must be made **directly to the School well before February 1** for the Fall/Winter term.
